

Revenge On My First Love Chapter 44

"Sophia is what you call it too?" Drake was covered in frozen ice cold.

Flynn helplessly shook his head: "I think you better admit it, even if you still have people in your heart now, what can you do? You do not see Sophia around those people? You already have no place in her heart"

"Shut up, you!" Bailey glared at him.

Flynn really did not dare to speak, he quickly made a zipping motion with his hand.

Drake walked toward the important people.

In the end, Sealand is still the economic lifeline. When he appears, even the biggest figures have to be courteous in front of him.

"Ms. Lawson, you've introduced him all around, how come you didn't introduce him to me?"

Everyone felt that chill in Drake's body, as if it was going to kill anyone, and everyone was good enough not to say anything and ate their melons in silence.

Sophia smiled a little: "Didn't Mr. Riley already know each other, what else is there to introduce?"

Sophia doesn't believe he hasn't investigated, but it's not sure if he can.

"Yes, he does know me, but I don't know him yet!" Said the man, and his eyes fell on Bard's body.

Bard didn't care about the pressure, he was used to it at home with his dad and Travis.

"A man like Mr. Riley still thinks about knowing him, that's really an honor for us."

Flynn silently glanced at Sophia, the only person in the world who dared to challenge Drake's bottom line like that was probably her.

"Well, since Mr. Riley is so eager to know who he is, I won't sell myself short, this is Master Bard of Lawson family."

Sophia had no intention of hiding Bard's identity, and this time her parents sent him here so he could learn from her.

Although Master Bard is the dumbest of the siblings, but we can't stay at home all day and eat empty, sooner or later we have to learn something to have a foothold in society!

slightly, it was the Lawson

Sophia seems to be very close to the

Lawson, are you helping Master

Sophia smiles, "Of course, Travis is back in Pinkerton and I can't get
