

Revenge On My First Love Chapter 47

Everyone also felt the need to have a meeting because of this matter.

So, when Sophia arrived, Mia came over very nervously and said, "Ms. Lawson, it's a big deal, the shareholders and they're asking for a shareholders' meeting."

This is something that Sophia had already thought of.

"It's okay, you don't have to worry, they can't do anything to me yet!"

Mia doesn't know how she can be so calm, but it's not like anyone can sit in this position!

Plus, she spoke with a natural sense of power, and she believed her.

Bard followed Sophia into the conference room. Everyone was still talking about it before, but when Sophia entered, they clearly felt an aura over them, making them shut their mouths subconsciously.

Sophia sat down, and Bard even pulled up a random chair and sat down beside Sophia in a casual manner, causing dissatisfaction among the shareholders.

But after all, they are Master Bard, the identity is there, we can not help.

"Shareholders, if you have anything to say, don't hold it inside, it will be uncomfortable!"

You look at me, I look at you, there is always the one who dares to speak, they are the first to speak: "Ms. Lawson, you have led us to develop the domestic market, which we admit, but the question about your personal style, I think it is still necessary."

"Today we Summersky Group is not yet listed, but it won't take long, we definitely have to have such a plan, once the company is listed, there will be stocks, just according to what happened yesterday, once the market opens today, it must collapse!"

"After all, we are all sitting here for the common good, and I'm sure you don't want to see that side of things, do you?"

The corners of Sophia's mouth lifted: "You guys are right, I do not want to see this situation, but you don't believe that I am capable of handling it and that's why you are gathering for this meeting?"
