

## Revenge On My First Love Chapter 49

Mia was the first to notice, and she came over and reported, "Ms. Lawson, look, the message about you and Mr. Riley last night has been taken down."

Sophia was not surprised that if she didn't do it, someone else would.

She doesn't care anyway, after all, the company is not listed, how can it not affect her, but Drake is a different story.

"Well, I know."

Mia gave her a look, it was obvious that they were only two years old, why did she seem so calm no matter what happened?

Really can not be compared, people than people, angry people ah!

With that in mind, Mia went out to work.

At night, when Sophia returns home, she doesn't see Bard and calls him.

"Bard , where have you been?"

"I'm at the bar, Sophia , you're off work?"

Sophia said helplessly, "Why are you going to the bar if you're not working at the office?"

"I'm just looking to get off work. So I came over to have some fun, and if you come, I'll have the parking car here pick you up."

"I'm not going, you can play!" Sophia was a bit tired: "By the way, come back early, don't delay tomorrow's work."

She knows that her brother likes to play, but generally will not play too much, let him all of a sudden to withdraw, basically is impossible.

"Okay, I got it."

The two men then hung up the phone.

After Flynn came, he noticed Bard over there, who was surrounded by several sisters, hugging them left and right, having a good time.

He called Drake right away.

"Hey, Drake, guess who I saw at the bar?"

Drake also looked tired: "If you have something to say, I'll hang up if you don't."
