

## Schoolgirl 1621

### Chapter 1621: pierced into the body. What a fast knife technique

Opening the cloud paper bag, Nan Linlin's heart tightened as the contents of the bag fell out. She was shocked by Fang's frantic action when he saw the wooden sandalwood box slide out of the bag.

Everyone present was also shocked when they heard Fang's words.

Wooden sandalwood box?

The wooden sandalwood box was a mysterious box. Ever since it appeared, countless international business politicians and big shots had fought for it.

However, the legendary wooden sandalwood box had fallen into the hands of Sha Shen, who was ranked number one on the international spy rankings.

When the matter was revealed, someone had even released pictures of the wooden sandalwood box that had just been excavated from an ancient tomb. It had even made the headlines of international newspapers.

There was even a well-known authoritative figure who released the news that the wooden sandalwood box had been taken away by the number one agent on the international spy rankings, Sha Shen.

As for whether this was true or not, no one knew until now.

Therefore, after seeing the picture of the wooden sandalwood box on the international newspaper headlines, Fang Zhengzhi immediately recognized this outstanding box.

He was looking at the box in front of him, and his face turned pale with shock.

"What, what is a wooden sandalwood box!?" Nan Linlin was a little surprised when she saw the crazed eyes of the people around her. Therefore, she suppressed the shock in her heart and asked.

"The wooden sandalwood box is an antique! Its value is priceless. Its value can not be measured by money. Moreover, according to the legends, this wooden sandalwood box was taken away by Sha Shen, who is ranked first on the international list of agents!"

A man beside Nan Linlin saw that she did not understand, so he explained.

"Value... priceless? Just this broken box?" Nan Linlin was dumbfounded. She looked at the wooden sandalwood box that rolled out of her bag and questioned.

"Don't look at this box. If this box is really a wooden sandalwood box, its value is not something that can be measured by money! That is not something that can be bought with just a few billion!" Someone added after Nan Linlin asked.

"A few billion... isn't even enough to buy it!?" Nan Linlin was completely dumbfounded.

Nan Linlin's family was quite rich, and it was precisely because of this that Nan Linlin's arrogant and domineering personality was formed.

But even so, a few billion was an astronomical figure for Nan Linlin's family, not to mention that a few billion wouldn't even be enough to buy this broken box! ?

"It's a high-end imitation, it's not real." Just as everyone turned their heads to look at Yun Zhi, waiting for Yun Zhi's explanation, Yun Zhi's words suddenly spread, reaching everyone's ears.

"A high-end imitation?" Officer Fang was shocked.

"Mm." Yun Zhi had already picked up the wooden sandalwood box from the ground and quickly put it into her school bag. Then, she lied without blushing or beating her heart.

The wooden sandalwood box was real. Ever since she had recovered part of her memory from the last time she came back from the imperial dragon continent, Yun Jian had kept the wooden sandalwood box by her side at all times.

After hearing Yun Jian's explanation, the surrounding people did not question it.

That was true. How could the real wooden sandalwood box appear here?

"Then, these knives?" Officer Fang pointed at the various butterfly knives that were scattered from Yun Jian's bag and asked.

"They were given to me by my friend." Yun Jian calmly picked up the things and carried the backpack on her shoulder.

Her calm appearance and superb lying skills had deceived everyone present.

Especially Zhou Duanzheng and his group of people, they let out a heavy sigh of relief.

Zhou Duanzheng and his group of people had been scared out of their wits by Yun Jian's actions just now, and only now did their expressions turn slightly warmer.

Yun Jian picked up his things and carried his bag on his back as he walked towards the dormitory. Just as he walked to Nan Linlin's side, she spoke to Nan Linlin indifferently without hiding anything:

"You should be glad that you're in the selection stage now. Otherwise, I'll stab you with as many knives as I drop out of my bag."

When Yun Jian's words came out, everyone present was stunned.

She didn't even try to hide the meaning of her words.

This time, not only was Zhou Duanzheng, who was hostile towards Yun Jian, stunned, but Nan Linlin was so scared that she cried out to Yun Jian, "You Dare!"

"See if I Dare!" As soon as Yun Jian said that, she flipped her hand and a butterfly knife appeared in her hand.

Then, she swung the butterfly knife in front of Nan Linlin.

A large part of Nan Linlin's hair was cut off, but Yun Jian's knife technique was precise. Other than that part of her hair, the tip of the knife did not touch Nan Linlin's clothes.

By the time everyone reacted, the butterfly knife in Yun Jian's hand had disappeared without a trace.

Seeing this, everyone's expression changed.

What... What a fast knife technique!

### **Chapter 1622: selection process, rules of the competition**

Before this, Yun Jian had not displayed her skills in front of everyone. Just now, she had used a few small moves, causing everyone present to be stunned on the spot.

The moment she saw Yun Jian's astonishing strength, Lorraine immediately exclaimed, "So powerful..."

Lorraine had entered through the back door. She had come here purely to train her skills, and did not participate in the competition for the hunting school's quota.

Therefore, the surrounding people did not pay any special attention to Luo Lei.

As for Nan Linlin, who was shocked by Yun Jian's swift blade technique, she was shocked when she saw the end of her hair on her shoulder being cut off by the Yun Jian. When she reacted, her face was so pale that she could not even speak.

It was too terrifying!

The feeling that the Yun Jian gave her just now was like that of Hell's Asura!

Nan Linlin and Luobie were the same. They had entered through the back door and did not have any strength.

Initially, seeing Yun Jian's young age, she thought that Yun Jian was the same as her and definitely did not have any strength.

However, after seeing Yun Jian's terrifying saber technique, Nan Linlin was completely shocked.

Even Zhou Duanzheng and the others who were standing in the distance were shocked by Yun Jian's actions just now.

She was only a teenage girl!

But just from Yun Jian's strength just now, it could be seen that Yun Jian's skills...

"Cough cough! Everyone, go back to sleep!" Before anyone could think further, officer Fang's urging voice sounded.

Officer Fang was especially shocked. Fortunately, before Yun Jian entered the selection stage, Yu Shaolu had greeted him and said that Yun Jian was a good seedling.

Previously, officer Fang had been skeptical, but now it seemed that this was indeed the case...

It was already late at night, and it was already three o'clock in the morning.

The time to get up was five o'clock. If they went back to sleep now, they could still rest for another two hours.

No one thought any further and all went back to their dormitories to rest.

Yun Jian had only slept for an hour, and at four o'clock, she got up to go for a morning jog.

Around five o'clock, the morning bell rang. Officer Fang was standing in the open space waiting for the crowd when he saw a small figure approaching.

The moment he saw Yun Jian, officer Fang was startled. Then, he looked at Yun Jian and asked, "You're up so early for a morning jog?"

"Yes," Yun Jian replied briefly.

Although officer Fang was slightly shocked, he still waved his hand at Yun Jian and said, "Alright, return to the team."

Which young girl at Yun Jian's age wasn't thinking about sex? Or fantasizing about her other half.

And Yun Jian? She was fine. She didn't walk the usual path. Every day, she only thought about how to train her skills and how to improve her strength.

In just five minutes, everyone got up and returned to their team.

Perhaps it was because officer Fang had said that they couldn't be disqualified if they came out within five minutes, but even the slower Lorraine, or the completely absent-minded Nan Linlin, had changed their clothes and come out within five minutes.

Sir Fang held a stack of number plates in his hand. Seeing that everyone had arrived within the stipulated time, he nodded in satisfaction. He first praised everyone, then went straight to the point:

"Everyone's performance today was very outstanding. I'm very satisfied. I'll continue to maintain today's speed in the future."

After praising them, Sir Fang waved the number plates in his hand and continued:

"These number plates in my hand are your numbers. From now on, you must always hang the number plate on your waist. In the selection field, you are not allowed to call each other by their real names. You are only allowed to call each other by their numbers.

"If you violate this, you will be disqualified from the competition! Do you understand?!"

One should not blame the selection field for having many rules. From time to time, one would be disqualified from the competition. All the rules in the selection field were related to the hunting school.

In the hunting school, it might not be as simple as being disqualified from the competition.

"Understood!" Everyone responded.

"Then from now on, your selection competition will officially begin. This selection will be a month in total. For the first twenty days, you will be required to complete a dangerous subject under high difficulty combat conditions every day! If you fail, you will be directly eliminated on the same day!"

“For the last 10 days, all those who have not been disqualified will have a one-on-one competition. The final three winners will be those who obtain the top three spots in the hunting school!”

Officer Fang clearly stated all the rules.

### **Chapter 1623: The last item in had a high elimination rate**

“Also, everyone knows that Lorraine and Nan Linlin are not competing with everyone for a spot in the hunting school, so they will participate in our training, but they will not be eliminated.

“The two of them won’t affect everyone.”

When officer Fang said this, he did not forget to mention this.

Unlike everyone else present, Lorraine and Nan Linlin were not special forces soldiers, and they would not compete for any hunting school spots.

Hearing this, the surrounding one hundred or so people let down their guard against Lorraine and Nan Linlin, who were not a threat to them.

As the official’s final words fell, the selection competition officially began.

In fact, in the first few days of the selection competition, it was not difficult for any special forces soldier to pass the twenty dangerous subjects under the actual combat conditions.

Among the 20 tasks, the first 19 items tested the standard of a person’s physical strength, such as dropping bombs, 5 km 15 kg cross-country, parallel bars, 100m shooting, and so on.

As long as one could achieve the required results in one go, they could pass the test.

Moreover, once they passed the test every day, they would feel relaxed but also nervous.

This was because if there were any mistakes in the test of one item every day, it would be considered as disqualification.

However, other than Luo Lei and Nan Linlin, the rest of the special forces were the best in Z Nation. Naturally, there would be no mistakes.

Therefore, in these 19 days, only one special forces soldier was disqualified on the spot due to an accident. The rest passed.

In these 19 days, Yun Jian’s performance was very ordinary. Like all the Special Forces soldiers, she completed the test at a reasonable speed.

Yun Jian did not show any astonishing strength.

This made Zhou Duanzheng and the others think that Yun Jian’s terrifying saber technique was just a coincidence.

Therefore, Zhou Duanzheng and the others’ mocking and arrogant attitude towards Yun Jian started to spread out again.

...

On the 20th day, on the lawn, Fang went back to his residence to drink water.

They had done a lot of exercise just now. Everyone was sitting on the lawn to rest. Some of them went back to their residence to drink water and change their clothes, etc. .

This was because they would immediately start the last of the 20 dangerous items under actual combat conditions.

The last item was undoubtedly the most difficult of the 20 dangerous items. According to what officer Fang said just now, the elimination rate for the last item was as high as 80% !

In other words, most of the people would be eliminated!

Therefore, everyone present would definitely do their best to prevent themselves from being disqualified!

On the spacious lawn, Yun Jian was wearing a short-sleeved shirt and black jeans. She was lying on the lawn with one leg stretched out and the other leg curled up lazily.

She placed her hand gently on the side of her eyes, trying to use her arm to cover the scorching hot and eye-catching sun above her head.

Xu Mei and the others were sitting next to Yun Jian.

Seeing that Yun Jian was not afraid at all, Xu Mei could not help but ask, "006, aren't you afraid of being eliminated?"

In the past 19 days, everyone had already gotten used to calling each other by numbers.

"I'm not afraid." Yun Jian narrowed her eyes. She moved her hand slightly and narrowed her eyes. Looking at the scorching sun above her head, she was silent for a while before continuing, "Because I won't be eliminated."

Her words sounded ordinary, but they were surprisingly full of confidence.

"AHAAAA, you said that you won't be eliminated just because you won't be eliminated? I really don't know what kind of courage you used to say that! Today's elimination rate for this event is as high as 80% !" !

"Your previous 19 events' physical fitness tests weren't particularly outstanding! They weren't even as powerful as our 015!" !

"Hehe! At first, you boasted yourself to the skies and really made yourself into a formidable big shot that no one could compare to. But in the end? Your previous 19 physical fitness tests were just so-so!"

As soon as Yun Jian finished speaking, Zhou Duanzheng's discordant voice rang out. His tone was quite unfriendly.

**Chapter 1624: item 20, Misty Forest**

The 015 that Zhou Duanzheng was talking about was a person they were traveling with named Wu Nainai.

Wu Nainai was one of the more outstanding people in Zhou Duanzheng's group.

In the previous 19 days, Wu Nainai's strength could be considered the most outstanding of all the Special Forces. Not only did he get first place in cross-country running, but he also got first place in almost 50% of all the events.

He could be considered a very eye-catching existence.

In comparison, Yun Jian's results were barely above the qualifying line for each event. There was not much more, but there was also no less of the qualifying line.

This made those who originally thought that Yun Jian was very powerful let down their guard against Yun Jian.

They had originally thought that he was some powerful character! Previously, he had been praised by officer Fang, saying that he was the one who gathered the fastest. Moreover, he had even dropped a wooden sandalwood box from his school bag.

Only after asking around did she find out that Yun Zhi did not change into her pajamas when she was sleeping. She had rushed out as soon as the alarm sounded.

If she had not been fast enough, a sow could have given birth to a thousand piglets in one go!

And that wooden sandalwood box was completely nonsensical! She had the nerve to flaunt it while pretending to be a fake. PFFT!

After Zhou Duanzheng secretly laughed twice, he then stared straight at Yun Zhi. His lips curled into a cold smile as he stared coldly at Yun Zhi.

Wu Nainai, who was in Zhou Duanzheng's mouth, stretched out his hand and gestured his muscles in front of the cloud paper, Xu Mei, and the others. Then, he raised his head and looked at the cloud paper in a very smug manner.

"I heard that the last item is about team spirit. With 015 in our team, we will definitely win. As for you guys..."

When Zhou Duanzheng said this, he sized up the group of people from top to bottom. Then, he let out a few 'tsk tsk' sounds. He paused for a moment before he continued, "You guys, just wait for me to pack up and leave!"

"Let's Go!" After Zhou Duanzheng said those arrogant words, he waved at everyone and turned around to leave.

"All of you..." even if Zhou Duanzheng was talking about Yun Zhi, Xu Mei was also infuriated by Zhou Duanzheng's words. Just as she was about to scold him back, Yun Zhi grabbed her hand.

"They're like this, i..." I couldn't swallow this. Xu Mei was about to speak when Yun Zhi interrupted her.

"Don't take the words of an ant seriously." Yun Zhi said this calmly.

Ant?

Yun Zhi compared Zhou Duanzheng's group of people to ants?

After Xu Mei heard Yun Zhi's words, she really didn't pay attention to Zhou Duanzheng's words.

"Everyone gather!" At this moment, Fang Fang, who had returned to his residence to drink water, had already returned.

Not only had officer Fang returned, but he had also brought back more than a dozen soldiers. Each of these soldiers carried more than a dozen military backpacks.

After they had put down these military backpacks, officer Fang stood in front of everyone again.

"Our 20th field subject, which is fraught with danger, is easy to say, but also difficult to say.

"Later, we will give each of you a backpack. Take this backpack with you. Later, we will send you to an entrance called the misty forest.

"The mission objective is to set off from the entrance of the Misty Forest and leave the misty forest in the shortest time. We will wait for your arrival at the designated destination.

"The fastest 20 people out of the misty forest will be able to advance!

"In addition, you can form a team of five. The fastest 20 people to reach the destination, which is also the members of Team Four, will be able to advance.

"In addition, this backpack contains water, food, compass, and a series of other things.

"Someone once walked out of the misty forest at the fastest speed. It took 24 hours and 39 minutes, so I wish you good luck."

After chief Fang explained everything clearly, he got everyone to pack their army backpacks and prepare to set off.

### **Chapter 1625: Jinx, what a pack of wolves**

"Oh right, there are many ferocious beasts in the misty forest. If you are surrounded by them, the chances of you being killed are very high. Therefore, during the competition, you can press the emergency button at any time. Our people will definitely arrive there to save you before anything bad happens to you!

"But at the same time, it also means that you are disqualified. Of course, this is all up to you to decide. Alright, if you are ready, come over and register who you are and who you are to form a five-man team. Get ready to set off."

Fang zhengzhi reminded them once again with a very sincere tone.

The reason why they chose to go to the Misty Forest was because the misty forest was very dangerous.

However, those who went were all special forces soldiers who had undergone inhuman training. Even if they encountered fierce beasts, they would still have the ability to protect themselves for a short period of time.

Generally, nothing would happen in the Misty Forest.

Moreover, those who were present were all special forces soldiers who were competing for a place to go to the hunting school. Even places like the hunting school had to go, let alone places like the Misty Forest.

If they didn't even dare to go to the Misty Forest, then there was no need to compete for a spot in the hunting school.

After everyone had put on their equipment and gathered, they were ready to set off.

Lorraine and Nan Linlin wouldn't participate in such a dangerous activity, so the two of them stood at the side and watched as all the special forces soldiers put on their equipment and prepared to set off.

After interacting with each other for the past few days, Nan Linlin's attitude toward Yun Jian was terrible. On the contrary, Lorraine's relationship with Yun Jian and Xu Mei was very good.

At this moment, Luo Lei was looking at Yun Jian and Xu Mei with a worried expression.

When she saw that Yun Jian and Xu Mei were about to take a car to the misty forest, Luo Lei waved at Yun Jian and Xu Mei. "You have to come back safely! You have to get first place! I believe in You!"

"Yes, we will!" Xu Mei gestured at Luo Lei.

Although the cloud note did not say anything encouraging to Luo Lei from a distance, she winked at Luo Lei as a response.

Then, a few buses brought the cloud note and a group of about 100 people to the entrance of the dense fog forest.

The dense fog forest really lived up to its name. Looking in from the cement road beside the dense fog forest, the top of the forest was completely covered in dense fog. It was as if the entire forest was covered by a thick layer of fog.

"You can go in now," officer Fang crossed his arms and said to everyone.

As soon as he said this, all the members of the team flocked in.

Everyone wanted to enter the misty forest first so that they could walk out of the misty forest faster than the others.

Yun Jian naturally formed a team with Xu Mei and the others.

Seeing that the other teams had already walked into the misty forest, Yun Jian stopped Xu Mei and the others and pursed his lips, saying, "No rush."

"Huh?" Although Xu Mei did not understand, she did not force her way in.

However, she saw Yun Jian walk forward and rummage through the soil at the entrance of the Misty Forest, as if he was looking for something.

After rummaging through the soil around her, she followed Xu Mei and the others into the Misty Forest.

“They are all far away. Let’s Walk Faster!” Xu Mei said.

Yun Jian’s eyes darkened, but he didn’t say anything.

After walking for about an hour, they met Zhou Duanzheng and the others again.

Zhou Duanzheng and the others weren’t the only ones. There were also a few other teams who were sitting and resting.

After walking for an hour, everyone was naturally a little tired.

Their motivation wasn’t as strong as before.

Yun Jian and the others didn’t walk fast, but they could still continue walking.

However, just as they were about to continue walking, they were stopped by Zhou Duanzheng and the others.

Zhou Duanzheng teased Yun Jian with a smile, “Yo, you guys still have to continue walking. If you encounter any ferocious beasts, don’t cry and ask us for Help!”

Just as Zhou Duanzheng mentioned ferocious beasts, Yun Jian frowned.

“Awoo!”

At this moment, the cries of ferocious beasts could be heard from afar.

“No... it can’t be...” Zhou Duanzheng’s expression instantly became solemn.

It really was a beast that came?

Could it really be that he had jinxed it?

“It’s a pack of wolves.” Yun Jian said as he took out two butterfly knives from his backpack and held them in his hands.

“Don’t scare us! It sounds like a bird’s cry to me! How could I encounter such a dangerous species as a pack of wolves the moment I entered! Do you think you have good ears? How could you hear clearly that it’s a pack of Wolves!”

One of Zhou Duanzheng’s people laughed coldly at Yun Jian.

However, just as this person finished speaking, ferocious wild wolves jumped out from the side of the forest one after another.

All the wild wolves surrounded them ferociously.

At this moment, everyone who was sitting on the spot stood up.

Zhou Duanzheng and the person who said Yun Jian's nonsense earlier had a drastic change in expression.

Especially the person who said Yun Jian's nonsense earlier, when he saw this scene, he immediately exclaimed, "F \* ck, it's really a pack of wolves..."

Could it be that she really had good hearing? ! ? She was actually right, it's a wolf pack!

### **Chapter 1626: our plan has been seen through (1,500 + words)**

Zhou Duanzheng, Wu Nainai, and the others were dumbfounded. They watched in shock as wild wolves flew out from the surrounding forest one after another. Then, they naturally formed a large circle and surrounded everyone present.

"Howl! Howl!"

An unknown music seemed to be coming from afar. The moment they heard the music, these wolves did not surround everyone at the same time. Instead, they surrounded everyone in the center of a circle and raised their heads to howl loudly.

For a moment, the howls were deafening.

Out of all the special forces that participated in the 20th combat event, 80% of them stopped here to rest. At this moment, they were trapped in the wolf pack together with Yun Jian and the others.

The moment they saw the wolf pack, everyone was shocked at first, then their expressions suddenly tensed up.

Those present were all the most outstanding special forces soldiers from all over Z nation. Even if they were facing a wolf pack, they would not lose their lives here.

Zhou Duanzheng was one of the weaker ones, so when he saw the pack of wolves, he appeared to be in a sorry state.

The other special forces soldiers were not like this. When they saw the pack of wolves, they only tensed up and silently picked up the weapons in their hands.

It was very unfortunate to encounter a pack of wolves, but as a special forces soldier, they did not start to blame themselves for encountering a pack of wolves when they encountered a pack of wolves. They did not blame themselves for bad luck or anything like that. Instead, they had to be ready for battle at all times!

One pack after another of wolves was still sprinting at the edge of the forest. All the Special Forces soldiers looked at the pack of wolves that had surrounded them and did not move.

"Why are there so many Wolves!"

Xu Mei frowned. She grabbed a dagger that she had brought with her from her military backpack. She held the dagger in her palm and watched the wolves sprinting from the forest one after another. Her face was extremely pale.

“Everyone, don’t fight. Work in pairs. Back to back, protect your backs, and kill the Wolves head-on!” Wang Buren’s voice was heard at this moment.

After all, Wang Buren’s strength was outstanding. He was old and steady. He had encountered many problems, so he was more meticulous in his work.

Therefore, as soon as Wang Buren finished his words, many special forces soldiers listened to Wang Buren’s advice. They each found a trusted friend and faced the wolf pack head-on, back to back.

Zhou Duanzheng, who was just mocking the cloud paper for not meeting a ferocious beast and crying for help, was now afraid. He did not even bother with the cloud paper. He stared at the Wolf Pack, afraid that the Wolves would come at him and bite him to death.

Just when the group of people were on high alert, the eyes of the cloud paper flashed slightly. Her hand that was holding the butterfly knife moved, and she stared at the wolves for a few more seconds.

The next second, Yun Jian put away the butterfly knife.

“006, What’s Wrong With You? Hand your back to me and we’ll kill the Wolves together!” Xu Mei frowned when she saw Yun Jian standing still. Then, she held her dagger and was constantly on alert to see if the wolves around her were pouncing on her.

“Hehe! She must have been scared silly! I told you, a girl like her can’t accept this cruel reality, so she should just go home by herself...”

Wu Nainai was leaning on Zhou Duanzheng’s back, so he was very arrogant. He didn’t forget to mock Yun Jian while he was guarding against the surrounding wolves.

However, just as Zhou Duanzheng finished speaking, the special forces soldiers who were ready to kill the wolves saw Yun Jian’s eyes flash, and she actually walked straight towards the wolf pack.

“006! Are you crazy? !” Seeing Yun Jian walking towards the Wolf Pack alone, Wang Buren widened his eyes and cried out in fear.

“She really wants to die...” Zhou Duanzheng couldn’t help but sigh.

However, before he could finish his words, everyone saw Yun Jian raise his leg and kick the wolf standing in front of him.

It’s over!

Everyone present thought that Yun Jian was going to die and was about to be attacked by the pack of wolves. However, when the surrounding wolves saw that the wolf was kicked away by Yun Jian and received the cold aura of Yun Jian, they were so scared that they immediately made way!

What... What was going on?

She still had the ability to make the wolf pack make way for her?

This was not the end. Yun Zhi walked forward about 20 meters and came to a very large tree. From the back of the tree, she pulled out a man dressed in camouflage clothing.

After Yun Zhi pulled out the man dressed in camouflage clothing, she pulled him to the ground.

Looking at him, this man was actually a special forces soldier under the command of Commander Fang?

The special forces soldiers in the distance were shocked, but they heard Yun Zhi's voice again. She curled her lips coldly and said with a faint smile,

"Is it fun to control the wolf pack to attack us? If I'm not wrong, if we continue walking, we will encounter all kinds of fierce beasts. It's only a four-hour walk from the entrance of the Misty Forest to the destination.

"If we encounter ferocious beasts, the fastest speed is only 24 hours to the destination. We will be ready to set off after driving away the ferocious beasts. The Sky is already dark. We have to spend the night in the forest to ensure our safety.

"Excuse me, Officer, am I Right?"

As soon as Yun Jian finished speaking, the Special Forces soldier under officer Fang's command had a drastic change in expression. He looked as if he had been completely seen through by Yun Jian.

Then, this special forces soldier took out his walkie-talkie and said to Fang Zhengzhi, who was on the other end of the walkie-talkie, in a panic, in front of everyone,

"Sir, sir... our plan has been seen through! ! !"

### **Chapter 1627: was that, a good seedling**

Fang had already arrived at the end of the dense fog forest. He had ordered people to set up a few tents at the end of the dense fog forest and had already planned to spend the night there.

According to his expectations, even the fastest special forces soldier who entered the dense fog forest would have to leave the dense fog forest in twenty-four hours, so he was not in a hurry at all.

Chief Fang stayed at the finish line, where there was a rocking chair. He sat on the rocking chair and rocked it, feeling the sunlight.

It had already been an hour. The first wave of wolves raised by his men should have already surrounded them, right?

He was really looking forward to it. When would they come out?

And that good seedling that he had just discovered this year.

006... ? ... would she break the record for the fastest person to lead his team out of the Misty Forest?

He was really looking forward to it...

Right at this moment.

A military jeep drove by the cement road. When he saw the person who got off the jeep, Officer Fang immediately stood up from his rocking chair. He solemnly saluted the middle-aged man who got off the military jeep. "Officer!"

The middle-aged man who got off the military jeep was officer Fang's superior, Officer Ma.

When Officer Ma saw Officer Fang give him a military salute, he waved his hand and suppressed officer Fang's gesture of bowing to him. He smiled at officer Fang very kindly.

After officer Xu Ma, many officers of the same level as officer Fang got off the military jeep.

"Old Fang, has everyone entered the Misty Forest?" Commander Ma squinted at Fang and asked.

The higher-ups attached great importance to this selection competition.

It was not just because the top three spots in the hunting school had to be taken by the most outstanding special forces soldiers.

More importantly, if the three special forces soldiers who went to the hunting school could successfully graduate from the hunting school, it would have a great impact on the voice of Z Nation!

At least those foreigners would not look down on the Z Nation people!

The Z Nation people also had to establish their own dignity!

Therefore, commander Ma personally came down from the army to greet the situation.

"Yes!" Officer Fang nodded to Commander Ma.

"En, in these 19 days, have you found any good seedlings?" Commander Ma nodded and asked again.

"There are indeed good seedlings, but they are relatively young..." speaking of good seedlings, the first person that officer Fang thought of was undoubtedly Yun Jian.

"How Young? How is her strength?" Commander Ma hurriedly asked.

"16 years old, strength... astonishing!" Officer Fang could only use the word 'astonishing' to describe Yun Jian.

"Oh? Since you can use such a tone to evaluate her, you must be a good seedling! I really want to meet..." just as commander Ma finished speaking, Officer Fang's walkie-talkie rang.

The panicked voice of the special forces soldier on the other end of the walkie-talkie could be said to have spread throughout the entire place:

"Sir, sir... our plan has been seen through! ! !"

All the officers present knew the reason why it took a long time to walk from the entrance to the exit of the dense fog forest.

However, this was also the reason for training a special forces soldier's ability to respond to unexpected situations and the speed at which they completed their mission.

Therefore, all the officers understood this situation in their hearts.

However, since the opening of the selection field over the years, this secret of the Misty Forest had never been discovered by any of the special forces soldiers participating in the competition.

Not to mention that the plan had been seen through.

If the plan was seen through, then of course, this plan would not work!

Therefore, the sound coming from the walkie-talkie caused the eyes of the officer Fang, Commander Ma, and all the officers standing behind Commander Ma to widen.

“What, what? The plan was seen through! ? who saw through it?” Commander Fang asked the Special Forces soldier on the other end of the walkie-talkie in a daze.

“0...006!” The Voice of the Special Forces soldier immediately came from the other end.

Hearing this, commander Fang widened his eyes in shock. “006, isn’t that her! It’s that little girl...”

“It’s that good seedling!” Ma’s face, which never joked, also revealed a shocked and worldly shock.

### **Chapter 1628: was changed at the last minute, the competition method**

Commander Ma was even more satisfied when he heard the words of the special forces soldier.

While all the officers were shocked, commander Ma did not forget to nod his head. “He is indeed a good seedling! I am confident that this time our Z country’s special forces soldier will go to the hunting school and hold our heads high!”

In the past, the strength of the special forces soldiers that Z country sent to the hunting school was not particularly outstanding. Therefore, it indirectly caused the hunting school and some international figures to ridicule and ridicule them.

Although there were a few particularly outstanding talents, in general, there were not enough outstanding talents. There were only one or two top-notch talents. Moreover, these one or two top-notch talents were not as amazing as one or more than a hundred people.

Therefore, when they heard that Yun Jian had exposed their plan, commander ma, Officer Fang, and every officer present had awkward and excited expressions on their faces.

What was exciting was that they had finally found another good seedling!

“Hahaha! Old Fang, I have a feeling that this little girl will definitely amaze everyone! Then, she will become an outstanding representative in the history of our Z Nation!” Commander Ma said the highest evaluation he had ever given in his life.

Upon hearing this, the surrounding officers expressed their full agreement.

...

Somewhere in the Misty Forest, Zhou Duanzheng, Wu Nainai, and the group of people all stared at the scene in front of them with their mouths wide open.

No one had ever expected that the cloud tablet could actually do such a thing.

Just now, when the cloud tablet walked towards the wolf pack, everyone thought that the cloud tablet wanted to deal with the wolf pack alone.

But what everyone had never expected was that the cloud tablet first kicked away a wolf, then shocked the Wolf Pack, and finally, she walked over and pulled out the special forces under Commander Fang from behind a big tree.

She even used an astonishing method to unravel all the facts one by one.

Without asking anything else, Yun Jian's words just now had scared the special forces soldier under Fang so much that he immediately called Fang for help.

Who on the scene could do such a thing?

When they were surrounded by the pack of wolves just now, everyone wanted to fight. Only Yun Jian could see this.

It was really...

At this moment, no one dared to say a single word.

It was not until Fang Fang's voice came through the walkie-talkie, "Cough Cough! Since my plan has been discovered, I'll change the competition method at the last minute. HMM...".

"For the sake of fairness, I'll remove all the ferocious beasts that are obstructing you. Everyone will rely on their own abilities. Whoever reaches the finish line first will win. Also, the elimination system is still the same. You can run as well!

"The top 20 who have found the correct direction and walked out of the Misty Forest to reach the finish line have advanced. Now You can move!"

80% of the special forces soldiers were surrounded by the wolf pack. The other 20% of the special forces soldiers were not here.

For the sake of fairness, chief fang changed the rules. He wanted everyone to reach the finish line of the Misty Forest at a high speed. Along the way, he secretly removed all the wild beast attacks on the special forces soldiers.

In other words, the other 20% of the special forces soldiers would not encounter any beasts along the way and would be canceled by the official.

In this way, fairness could be guaranteed.

As soon as the official finished speaking, the surrounding special forces soldiers continued to move forward at their fastest speed.

Run! If they didn't run, what were they doing standing there? Waiting for food to be served?

Actually, even if they didn't add any beast attacks, it wouldn't be easy to run to the end.

Because it was easy to lose their direction in the dense fog forest.

If they just ran forward and didn't know the direction, what if they ran in the wrong direction? Wouldn't that mean they were even further away from the finish line?

"Yun Jian, what should we do?" Perhaps Yun Jian's performance was too outstanding, Xu Mei and Xu Wenming walked up to Yun Jian and asked.

"Run, whoever reaches the finish line first will win." Yun Jian only narrowed her eyes slightly, then she took the lead and took a step forward.

Everyone saw this, also followed.

### **Chapter 1629: The number in was called 006**

Fang had changed the way of the competition at the last minute. The members of each group only took two steps before they stopped.

It was not a good idea to continue running like this. Of course, the group could not continue running blindly like this. Firstly, they had to find the correct direction, and also find the correct direction.

In this way, the five members of each group had to walk in a different direction.

However, without the attacks of those ferocious beasts, the journey that might have taken more than twenty-four hours could now be completed in a few hours.

Of course, whether it was fast or slow depended on one's speed and the time needed to find the right direction.

The cloud tablet did not even look at the compass. Sometimes, she would just look at the ground and decide which direction to go.

Xu Mei and the other three were very curious about this, but the four of them chose to believe Yun Jian unconditionally.

...

"Old Fang, you changed the competition method at the last minute. That little girl is that good seedling. Can she advance?" Commander Ma was very interested in Yun Jian and kept asking commander Fang.

"With her strength, if she can't advance, then there's no need for her to continue staying in the selection field!" Commander Fang tensed up his heart and said these words very calmly.

To officer Fang, if Yun Jian was really a good seedling, then no matter how the competition method changed, she would definitely pass!

If not, then there was no need for Yun Jian, this good seedling, to stay!

"Then old Fang, in your opinion, how long will it take for that little girl to come out of the Misty Forest?" Officer Ma narrowed his eyes and asked officer Fang again.

Commander Fang was silent for two seconds. He calculated carefully and finally said,

“The fastest time is four hours! The misty forest is surrounded by green trees. Even if you have a compass in your hand, someone once used the fastest time to walk out of the misty forest to four hours! And this was when the misty forest was unobstructed!

“Moreover, there is a place that is surrounded by fog all year round from the entrance of the misty forest to here. It will definitely take a lot of time to walk out from there, so I estimate that the fastest time is four hours!”

Officer Fang combined all the principles, reality, and the fact that there were people who had walked through that place before. Under the situation where there were no wild beasts, the fastest time to walk out of the dense fog forest was four hours.

Therefore, officer Fang gave the cloud tablet the fastest speed, four hours!

“No, I think she will be even faster!”

Officer Ma suddenly interrupted officer Fang with great confidence. He said confidently to the officer.

At this time, it had already been two hours since the special forces entered the misty forest through the entrance.

“Oh? What do you mean?”Fang narrowed his eyes and asked.

“I trust my intuition! This little girl will lead us to a new height!”Commander Ma looked ahead and let out a long sigh.

After a while, commander ma continued solemnly, “I estimate that she will be able to break the fastest record and reach the finish line in three hours!”

Three hours. No one had ever traveled through the misty forest in three hours to reach the finish line!

What kind of evaluation did commander Ma give Yun Jian!

All the officers present took a deep breath in shock.

“Look, that’s...”however, just as commander Ma gave Yun Jian the highest evaluation and estimated the fastest record, a surprised voice sounded.

“That’s... that’s someone coming out of the Misty Forest? That’s impossible... it’s only been two hours! Someone actually came to the finish line from the entrance of the misty forest in just two hours! ?”

There was another surprised shout.

The officers present were shocked. They felt that they had never encountered anything more shocking than today.

“That’s... 006!”

The officer narrowed his eyes. When he saw the small figure easily pass through the last bush and slowly walk over with the other four members of the team, he cried out in surprise.

All the officers present straightened their backs solemnly when they saw the number plate hanging on the chest of the leader.

At this moment, everyone was shocked by a number called 'shocking'. That number was called 006!

### **Chapter 1630: peak strength, a symbol**

Yun Jian's hands were in her pockets. She was very lazy as she strolled over while looking at the scenery.

"We're... We're here? We're at the finish line! ?" Xu Mei saw officer Fang in the distance and the officers standing beside him. She was so shocked that she couldn't move her legs.

They're here already?

Does this mean that they won't be disqualified and have advanced directly?

One had to know that the elimination rate this time was as high as 80% !

In other words, out of the 99 special forces this time, only the top 20, which meant that one-fifth of the special forces could advance, while the rest of the special forces would be disqualified in this event! Pack up and leave!

With such a elimination rate, even if Yun Jian had broken the plan of Fang Zhengzhi and the others, it would still be extremely difficult for him to get out of the dense fog forest in the top 20!

However, Yun Jian had brought them to the finish line in just two hours!

And it was first place, first place!

"It's really... it's really her! It's really her!" Fang zhengzhi held the corner of his clothes with both hands and shouted excitedly.

Officer Fang had never lost his composure like today. However, the moment he saw the Yun Zhi and the number plate number 006 hanging on the Yun Zhi's chest, he was so excited that he almost jumped onto officer Ma's waist, he hugged officer Ma tightly.

Although officer Ma was also excited, he still resisted officer Fang's desire to pounce on him. The corner of his mouth twitched, but he was secretly cursing in his heart:

Aiyo, it's a good thing I'm prepared! You Old Fang! If you jump on me, my waist will be twisted by you!

Commander Fang's eyes were fixed on Yun Jian from beginning to end. When he saw Yun Jian walking over, a trace of pride flashed through his heart.

Being able to become Yun Jian's commander was his pride!

Yun Jian slowly walked to the finish line, commander Fang excitedly said to Yun Jian and the five people who were with Yun Jian, "006, Congratulations on becoming the 20th and first place in the dangerous subjects under actual combat conditions! Also, your team is the first to reach the finish line!"

As he said this, officer Fang's entire body trembled.

...

When the other teams reached the finish line one after another, it was already the sixth hour after everyone entered the Misty Forest.

By the seventh hour, all the teams had already come out of the misty forest.

The victory and defeat had already been decided, and the team that had been eliminated on the spot was not discouraged.

After all, they had participated in the preliminaries for twenty days and had gotten to know many people. It was not a loss at all!

When he announced the results, in front of everyone, although officer Fang's tone was much calmer, he still spoke with a hint of excitement:

"Under the conditions of actual combat, the 20th item of the dangerous and heavy subjects, the first place is... 006! 006, it's an example that all of you should learn from!"

When he spoke of the three numbers 006, officer Fang's blood boiled.

For some reason, when he said these three numbers, everyone present felt as if they were surrounded by faith.

Zhou Duanzheng and Wu Nainai's expressions were the most terrifying of the entire crowd. Previously, they had ridiculed the cloud note, but now, their expressions were extremely ugly.

However, it had to be mentioned that Zhou Duanzheng and Wu Nainai were also somewhat capable. They had advanced, even though they had advanced with the last team slot and barely passed the qualifying line.

"Sir, when you said 006 just now, I had a misconception. It was as if I had seen Sha Shen, who stood at the top of the international rankings and whose strength was really admirable!"

"Because when Sha Shen first joined the dark soul organization, his number was also 006!"

At this moment, a special forces soldier who had been eliminated suddenly said.

Although Sha Shen was a wanted person by the international leaders, the international could not deny that Sha Shen's strength was the pursuit of many people throughout their lives.

006 was Sha Shen's serial number when she first joined the dark soul organization. It was like the protection of God.

Yun Jian's strength just now and her serial number made this special forces soldier feel as if she had seen Sha Shen in person!

Hearing this, the people around all had the same illusion.

006! Sha Shen! That was the symbol of the peak of strength!
