

Schoolgirl 1631

Chapter 1631: was ready to head to Taekwondo dojo

Everyone felt like they were looking at the number one ranked agent on the international spy rankings.

006! It was the symbol of strength!

After the Special Forces soldier bragged about the cloud note, the Special Forces soldiers who were disqualified from this round of events looked at the cloud note with admiration. It was as if they were looking at the instant god!

Putting everything else aside, Sha Shen, who was ranked first in the International Special Forces Ranking List, was a legend!

At the same time, it was also a realm that countless special forces soldiers pursued and wanted to reach!

Countless special forces soldiers wanted to fight for a spot to go to the hunting school, and their goal was to train their skills to become an existence like Sha Shen!

“So what if you’re staring at her? Her number is 006, but it doesn’t mean that she’s Sha Shen!”

Seeing that everyone was looking at Yun Jian, Zhou Duanzheng, who was standing not far away, had long disliked Yun Jian. This time, he directly said what he wanted to say in front of everyone.

Her serial number was 006. It was exactly the same as when Sha Shen entered the dark soul organization. But what did this mean?

This didn’t mean that Yun Jian was the number one sha Shen on the international spy rankings!

Yun Jian, even if her performance was amazing, Zhou Duanzheng had never seen Yun Jian show her amazing skills.

To Zhou Duanzheng, even if Yun Jian surprised a group of people, she was just taking advantage of the situation.

At most, she was smarter. Just looking at her dry figure, she did not seem to have much strength.

“That’s true, but that little girl is also very powerful! You have to praise her properly! At least I can’t reach her level now! Haha! I’ve been disqualified!”

A man in his thirties beside him tactfully refuted Zhou Duanzheng’s words. He first smiled, and then praised Yun Jian.

With an 80% elimination rate, Yun Jian, a young girl in her teens, was very impressive to be able to stay in the selection stage.

Zhou Duanzheng clenched his fists. He originally wanted to say something more, but he forcefully endured what he wanted to say.

He would use his fists and strength to tell Yun Jian in the next few days that it was completely impossible to compete for the top three spots in the hunting school just by playing tricks!

He would let her know that leaving the selection field with serious injuries was not a joke!

“The results of the competition this time are out. There are more people who have left. You can leave the selection field tonight.”

Officer Fang signaled for everyone to calm down and said regretfully to those special forces soldiers who had been eliminated.

“Don’t be depressed if you are eliminated, because you are not eliminated. Instead, you will leave temporarily. Next year, the year after next, and the year after that, there is still a lot of time waiting for you to make a comeback! “Please remember that each and every one of you is the PRIDE OF OUR Z Nation! “Each and every one of you has your own value of existence!”

The official patted his chest and spoke very solemnly, spreading his passionate words throughout the entire place.

After he finished speaking, those special forces soldiers who were originally disappointed that they had been eliminated mustered up their courage again.

The official was right. They, each and every one of them, had their own value of existence!

...

After sending away all the eliminated special forces soldiers, there were only 20 special forces soldiers left in the unit, as well as Nan Linlin and Lorraine.

Nan Linlin and Lorraine were not included in the 20 special forces soldiers. The two of them were purely here to experience life.

Lorraine, on the other hand, had worked very hard to learn her skills.

After sending away all the eliminated special forces soldiers, Fang once again gathered the remaining 20 people in the open space.

Among these 20 people, Nan Linlin and Lorraine were not included.

“In a while, I will bring you to a taekwondo dojo. In the next few days, you will stay there. As for us, we will only borrow the venue of the Taekwondo dojo.

The 20 people that you will stay behind will directly have a one-on-one competition. Each day, they will have a competition. The specific rules will be explained in detail at the beginning.

“After we get there, the Taekwondo dojo has its own business. Everyone can train in the Taekwondo dojo, but don’t disturb their business. Now, I’ll take you there.”

After officer Fang explained everything, he told Yun Jian and the others to pack up and prepare to go to the taekwondo dojo.

Chapter 1632: one-on-one, one-on-one matches

After saying this, officer Fang left the remaining people to pack their luggage.

After staying here for twenty days, Luo Ji was somewhat reluctant to leave.

"I suddenly feel a bit reluctant to part with so many people who have been eliminated," Luo Ji pouted and said somewhat dejectedly.

"There is no banquet in the world that does not end. In ten days, our preliminaries will officially end," Xu Mei had no choice but to say something that caused Luo Ji's heart to ache.

Luo Mei was still too naive.

"Then can I still play with you guys in the future?" Luo Mei looked at the cloud paper and then at Xu Mei, asking with some anticipation.

"Of course you can." Xu Mei replied coolly.

When Luo Mei heard Xu Mei's words, she looked expectantly at the cloud paper.

"Yes." The Red Arc of the cloud paper moved slightly, and she said indifferently.

"Great!" Luobai grinned at Yun Jian and Xu Mei. She clapped her hands excitedly.

"TSK, we've only stayed together for a few days! It's as if we're Friends of Life and Death! Pretentious!" Nan Linlin, who was beside Luobai, couldn't help but complain after hearing what Luobai said to Yun Jian and Xu Mei.

As soon as she finished speaking, the call that Nan Linlin had dialed was picked up. She quickly clicked on the speakerphone and pressed the phone to her ear. The disgusting face from before instantly disappeared, what replaced it was an intimate and disgusting smile.

"Hello, dear, what are you doing? me? We're going to a taekwondo dojo. I don't know where it is. Okay, okay, okay. I'll send it to you as soon as I know the address..."

"Yes, yes! I love you too. I want to kiss you! I've been staying here for you these past few days, and I'm almost bored to death..."

After Nan Linlin finished her mushy words, Yun Jian only raised his eyebrows slightly.

Luo Mei and Xu Mei's endurance was obviously weaker than Yun Jian's. After hearing Nan Linlin's mushy words, even though it was not the first time they had heard it, the two of them still twitched the corners of their mouths fiercely, indeed, it was because of the mushy words that they had such a reaction.

However, at this time, Yun Jian had already packed his school bag, slung it over his shoulder, and was about to walk out of the door.

"We're done too!" Luo Mei and Xu Mei couldn't stay here any longer. The two of them quickly picked up their luggage and followed Yun Jian out of the door.

...

After everyone had arrived, officer Fang led everyone to the Taekwondo dojo that he had mentioned.

This taekwondo dojo was very big. It was the first and only one in the entire Z nation.

Officer Fang led everyone by bus and took two hours to get here.

Other taekwondo dojos only had one floor and didn't take up a lot of space. However, this taekwondo dojo had three floors. The entire third floor was the taekwondo dojo's territory. There were three floors, and each floor was an endless training ground.

The business here was very big, and there were many people who came here to practice taekwondo.

Moreover, there was a hotel on the third floor, a place to stay.

As soon as Yun Jian and the others arrived, they were arranged to stay at the hotel on the third floor of the Taekwondo dojo.

Because the taekwondo dojo's business was booming, many big shots from all over the country rushed here. There were even people who were famous internationally, so the hotel business was also booming.

After Yun Jian and the others moved into the third floor, the one-on-one competition was not in a hurry to start.

At night, Fang gave everyone free time to move around. They could also find friends to go out, eat out, go to the supermarket to buy something to eat, and so on.

After Yun Jian, Xu Mei, and Luo Mei settled down, they went downstairs to look for food.

It was still early at this time. Five o'clock was the time when the taekwondo students went home to eat, so Yun Jian and the other two went downstairs and did not see any taekwondo students.

They found a nearby snack shop and sat down to order three bowls of snow vegetable noodles. Just when Yun Jian and the other two let out a sigh of relief, they heard someone at the next table mention:

"Hey, did you know? I heard that there are a lot of special forces who have just checked in from the Taekwondo dojo next door. I heard that they are going to hold a one-on-one competition and then choose the three most powerful people!"

"In the next few days! It will be very interesting! We can go and have a look then!"

Chapter 1633: Taekwondo Hall, currently in competition

"Special Forces? Special Forces come to Taekwondo Hall to compete? Is this information true or false? Did you get the wrong information?" Another person asked with a slightly suspicious tone.

"Can my information still be false? Do you know the international hunting school? Heh, it's the place that trains special forces!"

"I heard that the special forces are here to compete and then choose the top three most powerful people in order to send the top three most powerful people to the hunting school for further study!"

“Well, I heard that 80 special forces have been eliminated. Now, the top 20 have been selected and the final venue for the competition is the Taekwondo dojo!

“These 20 most powerful special forces soldiers are the most powerful in the entire Z Nation! They are not something that ordinary special forces soldiers can compare to!”

The burly man sitting next to him sucked on the noodles repeatedly, bared his fangs and brandished his claws as he described this matter as if he was intoxicated. He looked as if he was one of the powerful special forces soldiers that he described.

Hearing the burly man’s bragging, the few burly men next to him were completely mesmerized by his bragging. They clapped their hands and exclaimed, “Powerful, powerful!”.

They had no idea that two of the twenty special forces soldiers that they were bragging about were right next to them.

With Yun Jian and Xu Mei’s appearance, it was normal for outsiders to not be able to see their strength.

“Cough, cough!”Hearing the bragging of the few burly men next to them, Xu Mei blushed in embarrassment on the spot. She coughed lightly twice to show her embarrassment.

Luo Mei and Nan Linlin were not counted among the twenty people, so Luo Mei was only a little surprised.

Yun Jian was calm and relaxed, as if nothing could change her facial expression.

“The noodles are here! Three bowls of snow vegetable noodles! It’s hot, so be careful not to burn it!”The owner brought three bowls of snow vegetable noodles that had just come out of the pot and placed them in front of Yun Jian and the other two.

“Wow! It looks delicious!”Luo Berry couldn’t help but pick up her chopsticks and put the noodles into her mouth.

“Phew! It’s so hot! Don’t get scalded!”

Luo Berry took a deep breath. She was afraid that Yun Jian and Xu Mei would also be in such a hurry to eat and get scalded like her. She endured the burning pain in her mouth and quickly spoke to Yun Jian and Xu Mei.

“Hurry up and drink some water. Look at how anxious you are!”Xu Mei laughed dryly and quickly poured Luo Mei a glass of water.

Yun Jian’s eyelids slightly raised and her red arc slightly curved.

...

Perhaps it was because the snow vegetable noodles were too delicious, Yun Jian ordered three bowls in a row and ate all three bowls of snow vegetable noodles without blushing or jumping.

By the time they finished eating dinner, it was already 6:30 pm.

Yun Jian and the other two had just returned to the Taekwondo dojo when they saw about 20 to 30 taekwondo students drinking and drinking in the training ground on the first floor.

There were also quite a number of people standing beside them. It seemed like they were here to watch a show.

“Go! Go! Go! Lin Kun, Go!”

There were actually girls dressed like cheerleaders standing beside them. It seemed like they were cheering for one of the more handsome boys among the 20 to 30 taekwondo students.

“It seems to be a competition. Let’s stay and have a look before we go back,” Xu Mei said with her eyes narrowed. Her interest was piqued.

“Okay!” Luo Ji nodded.

Yun Jian also stood where he was.

These students were all practicing the moves of taekwondo. They wanted to see who was better at boxing.

The boy named Lin Kun instantly became the center of attention.

To this, Yun Jian could clearly see the boy named Lin Kun raise an arc and proudly raise his eyes slightly to the sky.

Chapter 1634: ungrateful, shocking identity (1,600 + words)

The boy named Lin Kun was the most popular among all the taekwondo students present.

Moreover, the boxing style of this boy named Lin Kun was indeed powerful.

Lin Kun enjoyed the attention of the crowd. The girls around him wore cheerleading clothes to cheer for him.

Today was the monthly boxing competition of the Taekwondo dojo. It was a competition to see who could punch accurately and accurately.

“Ha!” It wasn’t until the boy named Lin Kun threw his last punch that the group of girls in cheerleading uniforms screamed and hyped up the atmosphere to the highest point.

There were also quite a few parents standing around. Most of them looked like they were accompanying their sons. When they saw their sons fighting in front of these twenty to thirty taekwondo students, they felt a sudden surge of pride.

Some of the parents even pulled the people around them to point at a certain figure and say, “This is my son,” Yun Yun.

The boy named Lin Kun was about eighteen or nineteen years old. When he swung his last punch and heard the screams of the girls around him, his smug look could no longer be concealed.

“They’re all so powerful! They’re simply young geniuses! Each and every one of them has unique skills!” One of the parents shouted exaggeratedly and praised the twenty to thirty taekwondo members.

The scene was extremely loud, and countless people were cheering and screaming.

“They are the hope of the Motherland!” Some parents even shouted loudly.

To the parents, these young people who trained in taekwondo were like martial arts experts.

Because they knew taekwondo! That feeling was different from ordinary young people.

In short, in the eyes of the parents, as long as the children had a little bit of ability, it was already very impressive.

This was also the reason why the boy named Lin Kun, who was rather good-looking, was so cocky.

A person’s cocky self was completely dependent on the praise of the people around him.

If the people around him did not praise him, then there was no doubt that this person would not feel that he was different from ordinary people.

After Lin Kun finished his boxing, he turned around in a domineering manner. He walked over and took a bottle of mineral water from a girl. He opened it and drank it.

The girl was so happy that she almost fainted. Lin Kun actually took the mineral water from his hand!

Lin Kun was already tired of these girls. Every time, the same group of people came to watch his boxing. Once or twice, he felt very smug and very good at bragging about his strength.

However, every time, the same group of people would come to watch him fight, and then they would scream and cheer. He was no longer satisfied with this.

Just as Lin Kun took a sip of the mineral water that the girl handed him, he inadvertently caught a glimpse of Yun Jian and the other two girls not far away.

He had never seen these three girls before?

Lin Kun threw the mineral water into his hand and let it flow on the ground. Then, he walked toward Yun Jian and the other two girls.

“Hey, Lin Kun went to pick up girls again!” A few people who were about the same age as Lin Kun and were also members of the Taekwondo Dojo and Lin Kun’s good friends began to tease him.

However, Lin Kun was already standing in front of Yun Jian.

“Hi, Beautiful, How was your brother’s boxing just now?” Lin Kun flipped his hair and looked straight at Yun Jian and Luo Lei, waiting for their reply.

Luo Lei swallowed her saliva and hid behind Yun Jian, not making a sound.

Lin Kun looked at Yun Jian.

“Are you sure you want my comment?” Under Lin Kun’s expectant gaze, Yun Jian said this calmly.

“Of course!” Lin Kun flipped his hair again. He looked at Yun Jian with great anticipation and continued to confirm.

He was fully confident that the cloud note would definitely give him a very high evaluation.

Because his strength was there and he would not accept any rebuttal!

Lin Kun’s friends in the distance all revealed mocking smiles.

Which young girl would be able to resist giving a high evaluation when she saw Lin Kun’s handsome and attention-grabbing side?

The surrounding people looked at the cloud note with solemn eyes.

However, the cloud paper gave a 13-word evaluation: “Flashy moves, flashy but not practical. Looks Good, but not useful.”

The 13-word evaluation almost made Lin Kun freeze on the spot.

She said... What did she say?

She said he looked good but not useful?

“What’s wrong with you, Girl! Lin Kun is the best fighter in our Taekwondo dojo. You, a girl who doesn’t know how to fight, how can you say that Lin Kun’s fighting skills are flashy and not practical?”

“You’re provoking us! Do you think you’re one of those famous special forces soldiers who moved in today? You’re just a young girl, yet you’re using such a tone to judge us! If you have the guts, then fight for us!”

As soon as Yun Jian finished his comment, the boys who were with Lin Kun immediately ran over from afar and pointed at Yun Jian.

Their tone was full of contempt for Yun Jian.

It was as if they were saying, “You’re a girl, you should praise me. You Don’t know taekwondo, so what’s so amazing about you?”!

As soon as they finished speaking, a person walked in from the main entrance.

This person looked around and found the person. Then, he called out to Yun Jian, Xu Mei, and Luo Mei respectively:

“006,057,101, the official is calling for us to gather outside!”

This person was a special forces soldier who was with Yun Jian and the others.

When he suddenly heard what this person said, the boy who said that Yun Jian was not a special forces soldier immediately dropped his jaw in shock.

He looked at Yun Jian and his eyes suddenly widened. He said in horror, “You... you are a special forces soldier? You are one of the most powerful special forces soldiers who just entered the country today?”

Chapter 1635: she was actually the strongest

The team of special forces led by Officer Fang had entered the Taekwondo Dojo and was about to have a one-on-one Battle of strength. Even though officer Fang had brought Yun Jian and the other 20 or so people here to keep a low profile.., the news had still leaked out.

To ordinary people, special forces were a sacred symbol!

Normally, they were existences that they couldn't even meet!

The special forces represented strength!

Why did these youths of the Taekwondo dojo practice so hard?

Wasn't it to make themselves stronger?

And the special forces were such powerful existences.

As the saying goes, powerful people were always looked up to. When they heard that Yun Jian was a special forces soldier, all the parents and students of the Taekwondo dojo looked over with curious and shocked eyes.

"She is one of the most powerful special forces soldiers in the country? She! ?" Lin Kun, who was swinging his body in front of Yun Jian, was so shocked that his eyes widened and he looked at Yun Jian with fear.

The girl in front of him was one of the most powerful members of the special forces in the country?

Was she eighteen years old?

Lin Kun's face suddenly changed. He stared at the cloud note, as if he had stepped on dog shit.

He had been showing off in front of the cloud note. He was thinking about a girl, but she dared to judge him with such a contemptuous tone. She was good-looking, but not good-for-nothing?

But now, it seemed that his actions and actions just now had turned into a ridiculous joke!

Lin Kun's face was extremely dark.

"Let's go, let's gather." Xu Mei was, after all, the oldest. When she saw that Lin Kun and the other brats had just said Yun Jian like this, and now that they had suffered a setback, she just twitched the corners of her mouth and couldn't be bothered to argue.

Xu Mei beckoned Yun Jian and Luo Ji with a wave of her hand and walked towards the entrance of the Taekwondo dojo.

Yun Jian merely smiled coldly. Then, she turned around and followed Xu Mei out of the Taekwondo dojo.

Yun Jian's long hair was tied up high at the back of her head. She was dressed in a black tights that fully displayed her tall and beautiful figure.

Her back view was so free and easy that it made people's blood boil.

“Are the special forces gathered at the entrance? Go, Go, Go! This is a once-in-a-lifetime opportunity! Everyone, go and take a look!”

Some parents reacted and shouted excitedly.

All the students and parents in the Taekwondo Hall reacted and followed her out.

Although Lin Kun felt awkward, he still couldn't help but be curious. He walked out of the gate side by side with the group of Taekwondo dojo students.

...

Yun Jian and the other two were the last to gather at the gate. Officer Fang was standing on the steps of the Taekwondo dojo, looking down at the crowd.

Yun Jian and the other two entered the line and stood in their military positions. Everyone had already arrived.

At this moment, Lin Kun and the others walked out of the gate of the Taekwondo Hall with curiosity.

Everyone stood in the distance and looked at Yun Jian and the other two dozen people.

“Tomorrow, we will officially start the one-on-one competition. The rules of the competition are very simple. We will draw lots one-on-one. The winner will stay, and the loser will be sent packing. From today onwards, we will have a competition every day until the final three spots are chosen!”

When Officer Fang and the others arrived, they spoke in a very solemn and solemn manner.

Because they had gathered temporarily at the entrance of the Taekwondo dojo, the people who passed by all stopped in their tracks and looked over.

There were parents and Lin Kun and the others standing beside them.

The biggest shock to Lin Kun and the others was that Yun Jian was actually one of these special forces soldiers!

However, the shock was far from over.

After officer Fang said this, he continued, “Now, each of you can express your own thoughts or your confidence in your own competition.”

After officer Fang said this, he looked at Yun Jian and said to Yun Jian, “006, you are the best. You Go First.”

After saying this, Lin Kun and the others watched Yun Jian walk out of the special forces and up...

The Best?

This youngest girl was actually the best?

The few boys who had mocked Yun Jian earlier, as well as Lin Kun himself and the surrounding crowd, were all dumbfounded. They were all stunned on the spot.

Chapter 1636: Waiting for you to be kicked off the stage

Lin Kun and the others watched as Yun Jian left the team and slowly walked up the stairs at the entrance of the Taekwondo dojo. They stood side by side with Fang and turned around to look down at the people in the team.

When they saw Yun Jian's solemn appearance, Lin Kun and the others, who were standing in the distance, had a momentary misconception.

Yun Jian's appearance was as if she was the king of all beings, looking down on all beings.

Although Yun Jian's age was completely different from the aura she was exuding at this moment, Lin Kun and the others who were standing in the distance could not help but sigh with emotion at Yun Jian's aura.

At this moment, Lin Kun seemed to feel the difference between him as a taekwondo master and Yun Jian as the King of Special Forces.

However, Lin Kun still swallowed hard. He shook his head and looked at Yun Jian again.

Yun Jian stood beside officer Fang and narrowed her eyes. She pursed her lips. In front of so many people, adults, and children., she calmly said these words, which made the people around her feel that she was arrogant:

"The champion of this year's preliminaries, I'm sorry, but it's mine."

Yun Jian's words were extremely arrogant.

If the person who said these words was a tall, burly, and strong man, then the people present would not have any doubts.

But the person who said these words was a young girl who seemed to be under the age of 18.

Although Yun Jian had a slim figure, she was already 1.65 meters tall. Among women, this height was not considered short.

However, Yun Jian was very thin. With her slim figure, she looked like a delicate and weak little girl.

Not mentioning this, she looked at the group of Special Forces soldiers standing below.

There were one or two of them. which one of them had a slim figure like Yun Jian?

But Yun Jian was still so arrogant.

Although the officer said that Yun Jian's ability was the best.

But ability did not represent strength!

"This little girl became a special forces soldier at such a young age, and she is still a special forces soldier who stood out after eliminating other special forces soldiers. She is really amazing!

"Unfortunately, she is not modest and her strength is not that strong. Such an arrogant little girl will not last long!"

A male parent who knew about the preliminaries shook his head and said with a sigh.

“Ha! Who are you trying to show it to?” Nan Linlin, who was standing in the distance, sneered and mocked Yun Jian after hearing his words.

She didn’t say anything.

Zhou Duanzheng and his group, who had been at odds with Yun Jian all this time, didn’t tear down Yun Jian after hearing his words in front of so many people.

When Yun Zhi returned to its original position, it was Zhou Duanzheng’s turn to go up. Only then did Zhou Duanzheng glare fiercely at Yun Zhi and strode up the stairs.

“006, Tomorrow’s one-on-one battle will officially begin. When the day comes when I battle you, I will let you know how to write the words ‘strength gap’!”

Zhou Duanzheng used Zhang Yang’s words to provoke Yun Zhi as soon as he stood on the stairs. His tone was rather mischievous, causing the surrounding audience to be dumbfounded.

When they finally reacted, the surrounding audience suddenly became excited.

Challenge in public?

Then, the one-on-one battle starting from Tomorrow would be fun!

When Zhou Duanzheng came down from the steps, Yun Zhi narrowed her eyes. She looked at Zhou Duanzheng without any hesitation. In front of everyone, she mercilessly retaliated against Zhou Duanzheng’s provocative words just now:

“I’m waiting for the Day I kick you off the battlefield!”

Chapter 1637: stay away from her and live a long life (1,400 + words)

Yun Jian’s counterattack made Zhou Duanzheng’s face sink.

Anyone who was smarter could see that Zhou Duanzheng and Yun Jian were on bad terms.

“See you on the field!” Zhou duanzheng gritted his teeth and replied Yun Jian.

Zhou Duanzheng was a member of the special forces after all. Therefore, Lin Kun, who wanted to show off in front of Yun Jian, immediately felt his whole body tremble.

Lin Kun was still young after all. Although at this age, his strength was already regarded as the most talented and the most powerful among the youths.

However, compared to the special forces, it was not worth mentioning at all.

Especially when Zhou Duanzheng was a special forces soldier who was emitting an imposing aura, Lin Kun even felt a chill run down his spine when he looked at Zhou Duanzheng last time, not to mention when he said to Zhou Duanzheng in an overbearing manner like Yun Jian.

'I'm waiting for the day when you're kicked off the battlefield by me', such a flamboyant and unbridled statement.

In this regard, no matter how strong Yun Zhi was, Lin Kun fiercely swallowed a mouthful of saliva.

Officer Fang obviously did not stop Yun Zhi and Zhou Duanzheng's verbal challenge.

Sometimes, if one did not stimulate one's potential, one would never know what level one's strength could reach.

After all the members went up to talk about their fighting spirit, officer Fang concluded with one last sentence and dismissed everyone:

"Starting tomorrow, whether you stay or go, please remember that you are the best!"

Some people would be defeated for their entire lives because of one failure.

Officer Fang was afraid that the eliminated special forces soldiers would have doubts about his strength, so he would transmit some positive energy to everyone before each large-scale elimination.

"Alright, from now on, you can put your number plates on your chests. From tomorrow onwards, you will enter the finals and have a one-on-one match! Now, you can be dismissed!"

After Fang Fang said this, he announced that they were dismissed.

The moment Fang Fang announced that they were dismissed, for some reason, Lorraine heaved a heavy sigh of relief.

Only then did Lorraine take out the number plate from her pocket and put it on her chest.

Although Luo Berry and Nan Linlin were not participating in the finals tomorrow, the two of them were training like Yun Jian's twenty men.

"Why can't I put this brooch on? Sister Mei, can you take a look at it for me?" Luo Berry did not put the number tag on her chest after a long time. After pulling for a while, she moved closer to Xu Mei.

Yun Jian was standing not far away at this time. She crossed her arms across her chest and did not put her number tag on.

This was because Lin Kun, who had been showing off in front of her, was standing in front of her.

"So you are a special forces soldier. Let's make friends. My Dream is to be a special forces soldier! To become a soldier! I believe that with my strength, I can definitely become a special forces soldier like you!"

"It's just that the heavens haven't given me the opportunity to join the special forces like you, but I believe that I will definitely join the special forces! I believe that we are definitely the same people!"

"So let's make friends!"

Lin Kun confidently extended his hand towards Yun Jian. He had a kind of enigmatic confidence. He felt that if he joined the special forces, his strength would definitely be stronger than Yun Jian's.

For a girl of Yun Jian's age to be able to join the special forces, it meant that it was not difficult to stand out in the special forces. And with his strength, if he wanted to stand out in the special forces, it would definitely be extremely difficult!

In short, Lin Kun was full of confidence in himself.

Even Yun Jian could not help but twitch the corners of his mouth when he saw his confident look.

"Ah! Lin Kun actually personally invited a girl to be his friend! So handsome! So handsome! I'm going to faint. Why Am I Not That Girl? That girl is so happy!"

"Oh my God, I'm really going to die from being handsome. As expected, Lin Kun, who is making friends, is the most handsome! That girl has been lucky for several lifetimes! She can actually make friends with Lin Kun! !!"

...

The group of girls who were cheering for Lin Kun when they were boxing were all mesmerized.

Lin Kun admitted that he made friends with Yun Jian because Yun Jian was good-looking. However, Lin Kun did not like Yun Jian.

He simply felt that Yun Jian was weaker than him, but he also felt that the people from the special forces might be of great help to his future development.

Just as Lin Kun reached out his hand towards Yun Jian, Yun Jian narrowed his eyes. Before he could refute with words, Yun Jian felt that a hand had suddenly appeared on his waist.

In the next second, a large palm grabbed her waist and pulled her into a warm and comfortable embrace.

"Stay away from my woman. You can live a long life."

In the next second, a domineering voice suddenly sounded and spread throughout the entire place.

Chapter 1638: Morson, apologize to me

Even if Yun Jian didn't guess, he could guess who the warm chest came from within a second.

Who else could it be other than him?

Si Yi would come looking for him anytime and anywhere as long as Yun Jian was free.

To use an unkind word to describe si yi, even if she hid to the ends of the earth, he would use his super-invincible dog nose, which was hundreds of millions of times more sensitive than a dog's, to find her.

Shh, if he were to tell him that she actually dared to use the word super-invincible dog nose to describe his ability to find people, Yun Jian would probably really not be able to get out of bed tomorrow.

He would definitely 'love' her well!

“You Are... her boyfriend?” Lin Kun was not as ignorant as any of the boys Yun Jian had met before. Other than his arrogance, Lin Kun was an outstanding person.

Hearing Si Yi Call Yun Jian his woman, Lin Kun immediately reacted. The Man in front of him was Yun Jian’s boyfriend?

“We are already married. She is now my wife!” Si Yi did not care about Lin Kun’s opinion of Yun Jian. As he spoke, he reached into his pants pocket with his big, slender palm.

Yun Jian knew what Si Yi was going to do just by looking at his gesture.

He was going to take out his country R marriage certificate again...

Yun Jian was a little embarrassed to say this strange habit of Si Yi’s. She coughed dryly and reached out to grab Si Yi’s big palm, preventing Si Yi from taking out his marriage certificate.

Initially, Si Yi wanted to take out his marriage certificate and show it again before putting it back. However, at this moment, Yun Jian pressed down on his big palm and felt the soft touch of a young girl in his big palm. Si Yi was mesmerized by her beauty, he forgot to reach into his trouser pocket to get the marriage certificate.

When they heard Si Yi say that Yun Jian was his wife, everyone was a little surprised. However, when they saw Si Yi’s handsome face, they could not refute him.

Si Yi’s handsomeness made everyone present speechless.

“Ahem! That’s a boyfriend, I know.” Lin Kun coughed dryly.

In school, couples would sometimes use the term ‘husband and wife’ to refer to each other. Lin Kun did not find it strange.

“I just want to make friends with her. After all, we are all outstanding talents. It’s normal for talents to make friends with talents. Besides, I don’t have any other malicious intentions...”

Lin Kun still felt that he had a point. He spoke to Si Yi confidently.

However, Si Yi interrupted Lin Kun halfway through his sentence.

“Do you think you’re worthy of making friends with My Woman?” He actually wanted to make friends with his little pad? Si Yi resisted the urge to shoot Lin Kun in the heart. He held onto the soft body of the cloud pad and refused to let go.

HMM...

It was so soft...

Especially when his arms rubbed against her voluptuous body.

MMM...

Just by rubbing his hands against her voluptuous figure, he could feel her fullness.

He really wanted to rub, touch, and lick her... ! ... Cough Cough!

If Yun Jian knew what Si Yi was thinking right now, he probably wouldn't even let Si Yi hug him.

"Wow! Yun Jian, you're actually married! Congratulations, Congratulations, Congratulations! As a good friend, I'll definitely go to your wedding party in the future!"

Upon hearing Si Yi's words, even though Luo Mei was a little surprised, she still chose to believe it and immediately congratulated Yun Jian.

Luo Mei was still fiddling with the number plate on her chest with Xu Mei, but the number plate was not on it. After hearing Si Yi's words, she spoke happily to Yun Jian.

Xu Mei was also a little surprised, but she was, after all, more mature than Luo Mei, so she did not say anything at the moment.

"Definitely." Hearing that Lorraine was coming to drink her and Si Yi's wedding wine, Yun Jian's lips parted slightly, and she pursed her lips into a faint smile.

After Lorraine finished talking to Yun Jian, she lowered her head and fiddled with her number plate again.

Why Can't I get this thing on!

In the distance, Nan Linlin saw that Yun Jian actually had such a handsome boyfriend, so she wasn't convinced. Seeing that Lorraine was on good terms with Yun Jian, and Lorraine was fiddling with the brooch, she walked over and hit Lorraine hard!

"Ah!" Luo Lei fiddled with the brooch, and the brooch just happened to pierce into her tender hand. She screamed in pain on the spot.

Seeing this, Yun Jian and Xu Mei wanted to make a move.

However, before Yun Jian and Xu Mei could make a move, Nan Linlin, who was about to enter the Taekwondo dojo aggressively, was grabbed by Mo Sen, who was standing behind Si Yi, and blocked Nan Linlin's way.

Mo Sen glared at Nan Linlin and shook off her wrist, throwing her to the ground. Then, he yelled at her, "Apologize to me!"

Chapter 1639: she was his, so she was his

If a person stood up for a member of the opposite sex that he had never met before, then perhaps this person was just delirious and suddenly wanted to vent his anger on the other party.

Morson stood behind Si Yi, but he was in the best position to see Nanlin Lin see Lorraine holding up her number plate and playing with the brooch, deliberately colliding with Lorraine and causing her hand to heavily pierce the brooch.

Yun Jian was Lorraine's friend, but when Mo Sen saw this scene, he instinctively rushed up to avenge Lorraine.

The brooch wasn't deeply pierced, but it wasn't shallow either. It was already bleeding.

Lorraine gritted her teeth in pain and pulled the brooch out of her tender hand.

Nan Linlin, who was dragged to the ground by Mo Sen, originally wanted to say something arrogant, but when she saw Mo Sen's murderous gaze, she hurriedly apologized.

"I, I'm sorry! I'm Sorry!"

After apologizing, Nan Linlin flew away.

Seeing this, Molson did not chase after her. He saw Lorraine pull out the brooch from her tender hand, bleeding profusely.

So he reached into his pocket and took out a few pieces of toilet paper. He walked over and pulled Lorraine's other uninjured tender hand, then placed the toilet paper on Lorraine's uninjured tender hand, then, she turned around and stood behind si yi without saying a word.

Lorraine looked at the toilet paper that Morson had placed on her hand. Her beautiful eyes widened slightly as she looked at Morson's side, then, she lowered her head and looked at the toilet paper in her hand.

"Thank... Thank you!" Lorraine thanked Morson politely.

Mosen did not say a word.

Mosen was also very handsome. Although he was not as handsome as Xue Ying, he was still very handsome.

If Xue Ying did not have that terrifying scar on his neck, he would be the most handsome one among the four leaders of the dark soul organization.

It was a pity that with such a long scar, even though Xue Ying was still handsome, Mosen was more handsome than him by two points.

"The finals will start tomorrow. How about it, young man? Do you want to have a meal together?" Officer Fang walked over from the side and looked at Si Yi with a 'young man, promising future' expression, he invited Si Yi in a friendly manner.

"Everyone, come together. Today, I'll be the host. Let's go to the hotel and have a good meal!" Officer Fang called out to the others and said excitedly.

If Yun Jian wanted to go, Si Yi naturally had to go as well.

Nan Linlin had caused trouble for Luo Lei just now, and after apologizing, she had run away. No one wanted to pay attention to her, and even chief Fang looked down on her.

Thus, when the group went to the hotel to eat, no one called for her.

Chief Fang ordered three or four tables of food. Twenty or so people gathered together and ate with relish.

There would be a new competition starting tomorrow, but before that, when they could relax, they naturally had to relax.

Halfway through the meal, Yun Jian sat next to Si Yi. Next to Si Yi sat Mo Sen, and next to Mo Sen sat Luo Berry.

Luo Berry was a little shy because Mo Sen had stood up for her just now, so she didn't dare to raise her head.

Yun Jian was holding a glass of sprite and enjoying it.

Delicacies usually had to be eaten slowly and slowly. Only by enjoying it in the most comfortable way could one realize the true meaning of delicacies.

At this moment, officer Fang came over with a glass of wine and toasted Si Yi and Mo Sen. Then, officer Fang approached Si Yi with some curiosity. Seeing that Si Yi had not let go of the cloud paper from the beginning to the end., thus, he asked Si Yi jokingly in front of the entire table,

“You two young people are really loving each other. You can not bear to let go at all times! By the way, how far have you two young people reached, HMM?”

Officer Fang raised his eyebrows as he spoke and looked at Si Yi with a curious expression.

When Yun Jian heard this, his hand paused for a moment. However, he suddenly heard Si Yi's words:

“I've done what I should have done and what I shouldn't have done.”

This short sentence caused everyone present to let their imaginations run wild. Si Yi's degree of lying had not changed at all.

When Yun Jian heard this, she almost spat out the sprite in her mouth. She choked twice.

Si Yi, however, calmly touched Yun Jian's stomach in front of everyone and said, “Drink slowly. Don't hurt our baby.”

Chapter 1640: Si Yi peeled prawns

“PFFT!”

Just as Si Yi finished speaking, Fang Fang was holding a glass of wine to toast Si Yi. As he asked Si Yi, he did not forget to toast the people around him.

When Si Yi said the last sentence, Fang Fang was still holding a glass of wine to toast with the people. At the same time, Fang Fang had already brought the glass of wine to his mouth and swallowed a glass of wine.

The wine was still lingering in his mouth, and before he could swallow it, Si Yi's words had already sounded.

These shocking words directly caused Fang to spurt out the wine that he had yet to swallow, and it actually directly sprayed onto the face of a special forces soldier sitting in front of him.

After Fang Yi let out this breath, his expression changed greatly. He hurriedly pulled out sheets of toilet paper from the dining table, and as he apologized, he wiped the face of the special forces soldier who was sitting in front of him.

“Sir... I’m fine...”the special forces soldier who had been sprayed on looked at Fang Fang with a fake smile. The corners of his mouth twitched as he continued speaking.

How could he be fine? He had been sprayed on his face, and his face was covered in the other party’s saliva... ! ... Cough Cough!

“My Fault... My Fault...”Fang Fang looked at the Special Forces soldier with an awkward smile and an apologetic expression.

After wiping the Special Forces soldier’s face and coming back to his senses, Fang saw Si Yi had already let go of the hand that was stroking Yun Jian’s belly.

In fact, Yun Jian had taken the initiative to slap away Si Yi’s hand, who was lying in front of everyone with a face full of righteousness and shamelessness.

The dishes in the back were served one after another. Si Yi was not holding Yun Jian’s hand at the moment.

Fang Fang was still a little puzzled, but he did not ask any more questions. Cough! He was afraid that he would ask something strange again!

Before entering the selection field, the Special Forces soldiers had undergone a physical examination. Professionals could tell if a woman was pregnant just by touching her stomach when they had a physical examination.

Therefore, Fang was not afraid that Yun Jian would injure her stomach and have a miscarriage in the finals or something like that...

Cough Cough!

Si Yi doted on Yun Jian so much that he had been holding onto Yun Jian’s hand ever since he entered the room. Why did he let go now?

Just as Fang felt that it was strange, Si Yi stretched out his slender hand. His well-defined hand held his chopsticks and picked up one of the Lobsters on a plate not far away. Then, he put it into his bowl.

Then, he used his exquisite and perfect hand to peel off the shell of the lobster.

“Young people nowadays all like to eat lobster! This lobster lives in an unclean place. It’s better to eat less usually!”

A special forces soldier beside him nodded with a smile and then said to Si Yi slightly.

This special forces soldier was already in his forties. In terms of age, he could be considered quite old. He was also very concerned about the health of his diet. When he said this to Si Yi, he did not mean anything else.

Lobsters lived in dirty places such as dirty gutters, so it was not beneficial to eat more. However, if one really liked to eat them, it was still okay to eat less.

“Young people nowadays don’t know about this kind of healthy diet. All they care about is delicious food! Old Cheng, don’t try to persuade these people. Young people, eat well, eat well and drink well first!”

The other special forces soldier beside this kind-hearted special forces soldier also said something.

Both of them had been in the army for many years. They had the ability, but there was nothing to say about their abilities.

As the two of them chatted, they changed the topic to other areas.

Si Yi didn’t reply to them from the beginning to the end.

His handsome face didn’t look at the cloud paper, but his eyes were looking at the lobster he was peeling.

The people around him all thought si yi liked lobster.

Some people liked lobster, but they were too lazy to peel it, because delicious lobsters usually exploded with oil. After peeling the lobster, their hands were full of oil, and the oil could not be washed off. It was extremely uncomfortable.

So many people, even if they liked it, they were too lazy to eat it.

At least, the people around him thought Si Yi was hardworking.

Just as Si Yi was quickly shucking the lobster, the surrounding people thought that he was going to swallow his stomach.

However, they saw si yi dip the lobster meat into the taste of the bottom of the plate of lobster, and then he actually fed the lobster that he had painstakingly peeled to Yun Jian’s mouth.

“Xiao Jian, eat.” He looked at her with a gentle face, revealing a tenderness that only he would show to her.

The surrounding people are slightly surprised.

So he is for the cloud to peel the lobster ah?
