

Schoolgirl 1871

Chapter 1871: sent someone to deliver a letter to her

If Ye Ling had refused in the beginning, Ling Wei would not have forced her.

But since she had agreed, she could not refuse.

This was Ling Wei's usual behavior.

If she had agreed, then there would be no more discussion.

Ye Ling's pair of pure sky blue eyes were particularly attractive. Her long eyelashes fluttered up and down, accentuating her pair of beautiful and beautiful eyes.

Different from the beautiful women who wore cosmetic contact lenses, Ye Ling's eyes were pure sky blue, a beauty born from nature.

It also attracted Ling Wei.

Ye Ling was able to survive the lion's blood, so she was naturally not a weakling. However, Ling Wei was the strongest of the four leaders of the dark soul organization.

He was usually in charge of the dark soul organization's assassin training camp and had trained many powerful characters.

To be fair, when Yun Jian was the Sha God, if not for Lin Wei's guidance, she would not be where she was today.

Yun Jian was indeed powerful and was even stronger than Lin Wei now. However, without Lin Wei's guidance, her strength could not have been expanded.

And Lin Wei's strength was also an existence that could spread across the world just by announcing his name.

Ye Ling was not a match at all. Hence, Ling Wei grabbed her wrist, and Ye Ling was at her wit's end.

Ye Ling was a smart person. This could be seen from the fact that back then in the huge cage, she knew that Buddy had bad intentions towards her. She knew how to use Ling Wei's identity to ward off Buddy's bad intentions towards her.

But Ye Ling did not think that Ling Wei would really take it seriously.

As her thoughts changed, Ye Ling immediately looked at Ling Wei. She swallowed her saliva and very unconfidently wanted to negotiate with Ling Wei:

"I lied to you on purpose. I admit this. I'm very sorry about this. I know that I don't have the qualifications to negotiate with Lord Ling Wei right now, but can you wait for me to leave the hunting school? After I have my own strength, I will agree to whatever you ask of me... .."

Ye Ling's words were very lacking in confidence.

After all, she had nothing at the moment.

“Alright.” Ling Wei’s words made ye Ling let out a sigh of relief.

Who knew that just as ye Ling let out a sigh of relief, Ling Wei grabbed her wrist and pulled ye Ling into his embrace. Then, he carried her horizontally and said coldly, “I want you to give birth to my child.”

Ye Ling:” ...”

...

In the female dormitory building, Yun Jian and Ye Ling’s dormitory.

After ye Ling was called away by the people sent by Ling Wei, Yun Jian not only unkindly closed the door, but also locked it.

At this moment, she was leaning against her bed with her head on her pillow and resting with her eyes closed.

“Dong Dong Dong.” At this moment, the dormitory door was knocked again.

The dormitory door here was very dilapidated. The people outside could break the lock and enter with a kick. Since the people outside had chosen to knock on the door, they must not be the people from 211.

Yun Jian stood up, walked to the door, and opened it.

What entered his eyes was a very ordinary yet unfamiliar face of a man.

“Young Madam, I Am Ghost Shadow. Young master asked Lord Mosen to send me to deliver a letter to you.” Seeing that there was no one around, the man handed an envelope to Yun Jian and turned around to leave.

Ghost Shadow was Mosen’s subordinate. He himself was rather delicate and handsome. Clearly, he had disguised himself to sneak into the hunting school.

Yun Jian saw Ghost Shadow leave after giving her the envelope. She closed the door as well.

The hunting school was isolated from the outside world. Yun Jian’s cell phone had also been confiscated. Therefore, Si Yi sent someone to secretly deliver the letter to her.

She closed the door and opened the letter.

After reading the contents of the letter, Yun Jian’s face turned red.

There were not many words written on the letter, but it was indeed Si Yi’s style: Little Jian, I really want to stay in your body for the rest of my life and become one with you.

...

At Linwei’s residence.

Ye Ling was still unable to react the moment she was picked up by Linwei.

In the next second, Ye Ling had already been thrown onto his bed by Linwei and smelled his scent.

Ye Ling panicked. Just as Ye Ling was about to stand up, Linwei's strong body had already pressed down on her. He pressed down on her hand and his breath sprayed onto her neck, causing ye Ling's entire body to tremble.

Ye Ling was frightened by Ling Wei at this moment. She was about to struggle when Ling Wei pressed down on her whole body.

Ye Ling could even feel her legs being separated...

Then, Ling Wei's words rang out. "I've given you a choice. Since you've agreed, you're not allowed to refuse. From now on, you're not allowed to leave my sight until you give birth to my child."

Chapter 1872: I Promise You, the night is not peaceful

After Ling Wei said this, Ye Ling placed her hands on her chest and pressed against Ling Wei's body. Her beautiful little eyes blinked, but she did not make a sound. She was obviously frightened by Ling Wei's words.

Ling Wei looked at Ye Ling. He looked at Ye Ling for two seconds, then finally got down from ye Ling and stood on the edge of the bed.

After two seconds of silence, Ling Wei finally said to ye ling, "From now on, you'll stay in my room."

It was still a simple and straightforward statement, yet it was very direct in declaring sovereignty.

After ye Ling heard it, she blinked and said, "My things are still at the girls' dormitory, and how can I live with you alone..."

Before ye Ling could finish, Ling Wei's voice interrupted her, not giving her any leeway. "Go and get them."

Finally, hearing that Ye Ling was not willing to live with him, Ling Wei's sharp eyes were directly above him, and his brows suddenly furrowed.

In the next second, his brows relaxed, and Ling Wei's words followed closely. "If you're not willing, I'll get buddy to look for you."

Ye Ling was very smart. She had obviously agreed to live with Ling Wei in order to avoid buddy.

But Ling Wei was not stupid, so he naturally knew of ye Ling's little tricks.

Therefore, when she heard Ling Wei's words, Ye Ling immediately remembered that buddy had been indulging himself in that group of women from 211 day and night.

In that female dormitory building, except for her and the new student Yun Jian, all the female students, Buddy, had already tasted the taste.

Disgusting. This feeling was not ordinary.

If she let buddy treat her like this, then she might as well die.

"I... Promise you..."Ye Ling said very softly.

Although Lin Wei did not look like a good person, ever since Lin Wei appeared, she had never seen him look for another woman like other men.

Moreover, at this juncture, she had no choice but to agree to Lin Wei first.

"Go and move it now."Lin Wei carried ye Ling on his back, and his simple and clear voice fell.

However, in a place that ye Ling did not see, Ling Wei's lips, which had been indifferent for his entire life, actually curved up slightly.

One had to know that ever since Ling Wei had followed Si Yi, his face had always been flat and narrow. Whether it was pain or happiness, there had never been a second expression on his face.

And today, because of ye Ling's helpless appearance of agreeing to live with him, the corners of his lips curved up at a moment that he himself could not even notice.

If this was seen by Xue Ying or Adam, they would probably jump up with their eyes wide open and exclaim, "This isn't our Ling Wei!"!

...

In the female dormitory building, Yun Jian hid the envelope that Si Yi had sent someone to give her at the last minute in his backpack.

Then he continued to close his eyes and rest.

Not long after he closed his eyes, the door was knocked again.

This time, it was Ye Ling who returned.

"Yun Jian, I can't live with you anymore..."Ye Ling said to Yun Jian with some frustration. At the same time, she recounted what had just happened to Yun Jian. Of course, she did not mention the matter of Ling Wei touching her chest and kissing her collarbone on her shoulder.

After Yun Jian heard that, he only said two words, "Go."

After two seconds of silence, yun Jian added, "Do you need me to help you tidy up your things?"

The look on his face as if he could not wait for her to go to Ling Wei's Place Made Ye Ling almost suspect whether Yun Jian was Ling Wei's biological mother.

In the end, Ye Ling simply tidied up her things and moved away.

Ye Ling moving away was the best choice.

Ling Wei would protect her on Ling Wei's side.

And tonight was destined not to be a peaceful night.

Yun Jian closed his eyes and continued to rest.

...

At night, 1:30 am.

“Hateful, ah, lord ba di, please be gentler... ah... Uh Huh...” in dorm 211, 211 was doing some strenuous exercise with Ba Di.

All the roommates in Dorm 211 were present, but they were already immune to 211 and BA DI’s actions.

They were unwilling to see ye Ling move to Ling Wei’s place just like that! The fat meat that was in her mouth had run away!

After the incident, 211 could tell at a glance why Buddy was angry. She suddenly thought of what the cloud note did to her during the day. Her eyes rolled and she immediately recommended herself to Buddy:

“Master Buddy, although Ye Ling has left, there is a girl who is even more beautiful than her in her dormitory!”

“Oh?” When buddy heard that, his wretched face revealed his lascivious look.

“But that woman is a student of our hunting school. I think this matter is not easy to deal with...” 211 lowered his head and sighed.

“Student? There is only one woman in this batch of students. Could it be her?” Suddenly thinking of the cloud note, Buddy’s angry emotions immediately surged up his brows.

That kick still hurt him!

“Sir Buddy knows that woman? That woman aside, I think she is quite interesting!” 211 leaned on Buddy.

Buddy suddenly licked his lips and revealed a sinister smile. “Since that woman dares to do this to me, I must have her!”

As he spoke, Buddy thought of the pretty face and body of the cloud tablet and grabbed 211 for a new wave of movement... ..

...

Chapter 1873: gas bomb, non-dust layer

At three in the morning, Buddy had already returned to his residence. He grabbed a few women who were good in bed and took turns to serve him. Now, he could finally calm down the anger from Yun Zhi’s kick during the day.

3:15 in the morning.

At night, it was finally quiet.

Yun Zhi, who had been resting since the day, suddenly opened her eyes in the darkness. Her pair of beautiful black eyes seemed to be able to refract a strange light.

In this hunting school, unless one had an international status, a student like her would usually start from the moment she entered the hunting school, regardless of how many brilliant and beautiful battle achievements she had in the past.

Other than the fact that the men in various countries were slightly stronger than the women, those who could enter the hunting school were usually men.

If one had to ask the reason, it was probably because, no matter what happened in the hunting school, men were always better than women

If a woman lost her innocence here or something like that, then she would be ruined for the rest of her life.

And if a man was raped... ? ... It would probably be done by a gay?

Unless a woman was so fierce that she couldn't find a man to do it?

...

At about 3:35 am.

A series of earth-shattering loud sounds rang out. In the next second, both the male and female dormitory buildings seemed to have been blown apart by something.

Was an earthquake coming? This was the feeling.

"What's wrong? What's wrong? What's going on?" The men from all over the countries in the male dormitories were all frightened. One by one, they got up from their beds, wearing clothes and pants at an especially fast speed.

They were all from the army and were elites from all over the countries. These men were naturally not weaklings.

Soon, everyone put on their clothes and rushed out of the dormitory building.

"Bang! Bang! Bang!" After they rushed out of the dormitory building, they were faced with one gas bomb after another.

The gas bombs were like those on the battlefield. One after another, they fell from the sky, causing everyone to be confused.

"What, what is going on!" A foreign man exclaimed!

Everyone was terrified. Among this group of foreigners, the calmest ones were probably Chen Yang and Ding Jianlin.

Perhaps affected by the calmness of the cloud paper, Chen Yang and Ding Jianlin also became calm and collected when they encountered trouble.

"Don't panic. There must be a reason for all of this!" Chen Yang frowned and kindly reminded them.

At this moment, the super large loudspeaker in the dormitory building sounded. Chief Instructor Jamil's voice immediately sounded:

“Hey, students, How Was Your Rest Tonight? Did you enjoy the Big Gift Tonight?”

After making a small joke, Jamil quickly got to the point:

“Before entering the school, I forgot to tell you that our emergency gathering in the middle of the night, including the wake-up horn, uses gas bombs to replace whistles, horns, and so on. “As for you, you must pass through our dormitory building in a gas bomb and arrive at our large playground in three minutes.”

As he spoke, Jamil added, “Oh, right, if you can’t pass in three minutes, you’ll be the first person to be eliminated by the school. Then, I wish you all good luck.”

After he finished speaking, the gas bomb was still ongoing. When everyone heard this, their fighting spirit surged. One after another, they ran towards the large playground while dodging the gas bomb.

In three minutes, everyone arrived at the large playground.

As a group of elites, they didn’t even have this bit of strength. Naturally, they wouldn’t be sent to the hunting school.

But even so, there were still quite a few people who were injured.

Basically, at this moment, everyone had abrasions. Or, one could tell with a glance that they had broken through the encirclement of the gas bomb.

But when everyone arrived at the large field, they saw at a glance that Yun Jian was leaning against a tree, lazily standing there. Her clothes, which didn’t have any layer of dust on them, seemed as if she hadn’t experienced any disturbance at all.

However, everyone knew that the male and female dormitory buildings had been attacked by a gas bomb.

The hunting school would not show mercy to women.

Therefore, when they saw this scene, the male students were stunned on the spot.

Chapter 1874: At this level, bombs were useless

Compared to the embarrassed crowd, Yun Jian stood in front of them. She put her hands on the back of her head, as if she had just walked all the way to the playground, it was as if she had not experienced the sudden attack of a gas bomb.

“1...16, how did you get here so quickly?” Chen Yang and Ding Jianlin looked at Yun Jian in surprise. Perhaps it was because they had not reacted from Yun Jian’s dormitory building so quickly.

“It’s you guys who are too slow.” Yun Jian narrowed her eyes and looked at everyone’s miserable appearance. She straightened her body that was leaning against the tree and walked over with her hands in her pockets.

At this moment, this group of men could not say a word.

Yun Jian glanced at the crowd and pursed her red lips. She suddenly raised the corner of her lips.

“This... This is impossible! You are just a mere woman!” A foreigner pointed at Yun Jian and suddenly shouted in disbelief.

They didn’t believe it! They wouldn’t believe it even if they were beaten to death!

Could This girl be heaven-defying? ! She was actually able to leave the place in such a short period of time when the gas bomb attack was so overwhelming, so fast, and not a single black or gray layer was left on her body. She was the first to arrive at the large field!

Even though everyone present was elites from all over the world, they were all wounded at this time.

Some of them were even seriously injured, but they still dragged their heavily injured bodies over.

However, Yun Jian did not even have a scratch on her body from the previous wave of gas bombs. She just stood in front of everyone!

She was just a woman!

Yun Jian only curved his lips and did not say anything.

“Pa Pa Pa!” Just as everyone was shocked, a figure walked out from the darkness.

The person who came was Jamil.

Jamil clapped his hands. Although he was also very surprised, he still smiled and walked over.

“There’s no need to doubt. My hunting school is filled with cameras in every corner of the school. She also quickly came to the large field from the gas bomb just now. There’s no doubt about this.”

Jamil admitted to the cloud note.

And when he said this, Jamil’s eyes flashed slightly.

It could be seen that at this moment, Jamil also had a certain level of disbelief.

Just now, he saw from the surveillance camera that Yun Jian’s figure that was as fast as lightning passed through a large area of gas bombs. It actually strangely passed through without even touching a speck of dust.

From the beginning of the hunting school until every batch of students entered the school and accepted the gas bomb’s surprise attack, Jamil had never seen anyone who could be as calm and leisurely as Yun Jian to avoid the large area of gas bomb’s surprise attack.

What was even more unbelievable was that she was only a young girl!

Hearing Jamil say so, the people present naturally did not doubt it.

However, the amazement towards the cloud paper’s actions did not stop.

“Very good, you all survived.” Standing in front of the people, Jamil narrowed his eyes and swept his gaze across the crowd.

Although there were many people who were injured, everyone survived.

In the past, there were also students who died in the gas bomb raid.

The hunting school was famous for being the most effective school for special forces soldiers to increase their strength, but it was also the cruelest school.

That was because every weapon used in the training of the hunting school, including the drill in the jungle, was made with real guns.

Of course, the hunting school would not deliberately attack the students.

Once there was an accident, it was also a case of failure.

Therefore, there were a lot of casualties.

“What are your thoughts on the gas bomb raid?” Jamil suddenly asked.

After saying that, Jamil turned to look at the cloud paper, narrowed his eyes and said, “Let our number one say his thoughts.”

As he spoke, he pointed at the cloud paper.

Everyone present looked at the cloud paper.

They saw that the cloud paper was curved. The red arc was unusually bright under the light of the night.

In front of everyone, she said, “The power of the bomb is not strong enough. Using a bomb of this level to launch a surprise attack is very useless.”

Chapter 1875: a pair of mysterious, black eyes

A single sentence summed up everything.

However, after hearing what Yun Jian said, everyone present, including Jamil, curled the corners of their lips and stood rooted to the ground in shock. They could not react for a long time.

What did he mean by the power of the bombs was not strong enough?

The sudden attack of the gas bombs just now had already caused many people present to be grazed, and a few were even seriously injured!

The successive waves of bombs had completely overwhelmed everyone present!

As for Yun Zhi! She actually said that the power of the bombs wasn't strong enough?

Using such a level of bombs as a surprise attack, was it really useless?

Did she mean that it was completely useless?

“You... What do you mean by that! ? Do you think you're so amazing! Little Girl, uncle will give you a piece of advice. Your strength isn't bad, your ability is strong, and your talent is high. This is your ability.

“However, in this world, it’s not just your strength that is not bad. Just because you are strong and your talent is high, you can talk nonsense. If this continues, you will eventually have to pay the price for your nonsense!”

After hearing Yun Zhi’s words, one of the foreign men’s face stiffened. Then, he used the tone of an adult to speak to Yun Zhi.

So What If Yun Zhi was powerful? Seeing how arrogant she was, even if she had the ability, she would still pay the price for her arrogance!

“I don’t know if I will pay the price in the future, but I know that strong people are born under impossible circumstances.

“Today, you think that you have dodged a bomb of this level and are very powerful. Then, Tomorrow, you won’t continue to work hard.

“As for the price you said, if I become the king, who can do anything to me?”

Yun Jian’s words rang out word by word, spreading to every corner of the area, causing everyone, including Jamil, to perk up their ears.

No one had ever expected Yun Jian to have such an awareness.

That’s right.

Everyone thought that Yun Jian Kuang, and felt that it was indeed amazing for her to possess such strength at such a young age. However, how many young elites had become so powerful because of their own arrogance, because they felt that they were powerful, they spoke rudely to others, spoke arrogantly, and spoke nonsense.

In the end, the price they had to pay was that all of their talent was destroyed in an instant.

However, the crowd did not expect Yun Jian to say such words.

If she was the king, who could do anything to her!

At such a young age, she already had such a deep philosophy. This point made everyone present have no choice but to be convinced.

“Clap Clap Clap!” While everyone was deep in thought, Jamil clapped again.

What followed was Jamil’s Loud Laughter. “Little girl, good! Haha! Good! You have a future!”

After that, Jamil’s face suddenly darkened. He said darkly to the cloud note, “I hope you can successfully graduate from the hunting school!”

Graduation meant that one could safely leave the hunting school alive.

After Jamil said this, he ended the emergency gathering in the middle of the night.

After giving the order to disperse, everyone walked towards their own dormitories.

Yun Jian was no exception as he turned around. With his hands in his pockets, he leisurely walked towards his own dormitory.

“16!” At this moment, Chen Yang and Ding Jianlin shouted at Yun Jian.

Hearing this, Yun Jian narrowed his eyes and turned around.

“You’re very outstanding!” Chen Yang and Ding Jianlin gave Yun Jian a thumbs up.

“Thank you.” Yun Jian nodded and replied, “You too.”

Seeing this, Chen Yang and Ding Jianlin scratched their heads and headed back to the dormitory.

The moment they turned around, Yun Jian felt a pair of pitch-black eyes staring at him in the dark.

Yun Jian paused and did not stop walking towards the dormitory.

In the dark, when the owner of that pair of pitch-black eyes saw that Yun Jian did not notice that he was walking towards the dormitory, that pair of pitch-black eyes flashed even more sharply.

Sorcerer God, finally see you again.

I, very much look forward to meeting you again.

Chapter 1876: Plot 211, skydiving

After Yun Jian returned to his dormitory, he fell asleep immediately.

Ye Ling had moved in with Ling Wei. From now on, she would be the only one in this dormitory.

Nothing happened that night.

Although the emergency gathering in the early morning was over three o’clock, Yun Jian had a little rest during the day, so he did not fall asleep early the next morning.

Yun Jian woke up at 4:30 in the morning and only slept for more than an hour. After going out for a morning run, it was already five o’clock.

At 5:00 in the morning, the wake-up call of the gas bomb arrived as scheduled.

Everyone was worthy of being the elites of various countries. With the experience from last night, everyone cleverly avoided the sudden attack of the gas bomb.

Although everyone’s faces were still stained black like charcoal by the dust from the gas bomb, and their clothes were also stained with dust, compared to the high probability of being injured last night, no one was injured today.

Perhaps it was because of what Yun Jian said, or perhaps it was the first day of the hunting school, everyone unanimously requested Jamil to be more strict with everyone.

The training in the hunting school was a total of one year.

In other words, during this year, the special forces of various countries had to undergo many inhuman training. If they could not take it, they would be disqualified Midway and would not be allowed to graduate.

Even if they were seriously injured midway, as long as they did not rejoin the team after 48 hours, they would be disqualified immediately.

Moreover, during this year, there would be countless gun battles, and the selection would take place in a state of actual combat.

For example, while crawling forward, bullets would fly above their heads, and the selected members would not have any protection. If they deviated from the direction, they would also be hit by mines.

Therefore, the death rate of the hunting school was extremely high!

For this reason, some students would not be able to complete the graduation mission of the hunting school and return to their hometowns with regret. Some students would be unfortunate enough to sacrifice their lives.

Returning to reality, Yun Jian was still the first to arrive at the designated large playground. Although the other students were a little slower, they were much faster than yesterday.

Other than Yun Jian, the other countries' special forces had all experienced the training of special forces in actual combat. Their foundations were naturally deep-rooted.

When this group of people came to the hunting school, they must remember one thing. They did not come to train to become a special forces soldier. Instead, they wanted to reach a higher level within the sphere of influence that special forces could reach and become a true powerhouse!

The people who came here were not weak!

When everyone gathered on the large field, Jamil gave everyone a 20 kg combat backpack and asked them to carry it and carry it for the 20 km cross-country military training.

This was a task that they had to complete every morning when they woke up!

In the next 15 days, Yun Jian and the others completed the more than 20 dangerous subjects under the actual combat conditions that they had to complete in the 15 days before they entered the school.

Yun Jian did not perform exceptionally. On the contrary, he performed the worst.

This made everyone feel slightly surprised, but no one thought too much about it.

...

On the 16th day of coming to the hunting school, the real training officially began.

Early in the morning, after everyone had completed the 20 kg 20 km cross-country marching training, they were brought to an open space by Jamil.

After Jamil brought them to this empty space, he temporarily left this place to give them some time to rest.

Everyone sat on the lawn. It was rare for them to have time to rest like today. The training a few days ago made them breathless, so they all sat down.

Yun Jian leaned against a big tree and closed his eyes to rest.

“16! 16!” At this moment, Chen Yang called out to Yun Jian.

Seeing this, Yun Jian opened his eyes and walked over.

He saw that 211 and a few other women suddenly appeared in the venue that was filled with men just a moment ago.

“They are good girls. They brought us water!” Chen Yang drank a bottle of water that 211 passed to him and said to Yun Jian.

Obviously, Chen Yang was deceived by 211’s appearance.

“I heard that you will carry out a high-altitude parachute jump later. It was Lord Buddy who told me. Now, Lord Jamil should mobilize a large helicopter to come over. Later, they will carry you into the air.” 211 very friendly told everyone what he knew.

At this point, 211 turned to look at the cloud paper and said to the cloud paper with a good look on his face, “They are all men. You are the only girl here. Can you really skydive?”

“And I heard that you are still in high school. They have gone through formal training and have been trained in everything, but you...” you are just a high school student.

211 showed a worried look.

“Skydiving?” Yun Jian raised her eyebrows.

Seeing Yun Jian’s expression, 211 thought that Yun Jian was afraid. She replied, “Yes! I see that you are delicate. Why Don’t you ask the instructor for a leave of absence and don’t go...”

211 spoke anxiously, but before she could finish, Yun Jian interrupted her.

In front of the group of people, Yun Jian sneered and replied, “I have jumped from a height of 20,000 meters. Could it be that the height of the skydiving here is higher than 20,000 meters?”

Chapter 1877: overlapped with his memory

The height of skydiving here was naturally not higher than the 20,000 meters mentioned by Yun Jian, but it was indeed much more difficult than ordinary skydiving or parachuting.

As for the 20,000 meters skydiving mentioned by Yun Jian, it was completely unheard of here, in the ears of everyone present, or in the ears of 211 people!

20,000 meters, that was something that could only happen if it broke the world record!

Moreover, skydiving followed a principle. The higher the height of the skydiving, the faster the landing speed, and the greater the danger factor.

Above 5,000 meters, the skydiver needed to carry oxygen in the cabin.

Therefore, Yun Jian's 20,000-meter skydiving directly made 211 and everyone present freeze on the spot, unable to return to their senses for a long time.

Yun Jian's words... shocked everyone present!

It made 211's face sink when he heard it.

Yun Jian's words were clearly a ruthless slap to her face! He was going against her!

"You're bragging again! Other than bragging, can your Z nation bring out some real skills!"

Just as everyone was stunned, a man's voice came from the side. The man who said this was the man who had tried to warn Yun Jian by the seaside of Brunei's six-star Empire Hotel, but was slapped in the face by Denmark.

On that day, Yun Jian had dismantled a time bomb left behind by the black-robed man in public. His ability had indeed amazed him, so much so that he did not speak.

However, he was not someone to be trifled with. Yun Jian had slapped him that day, and he had been slapped by the little girl. These days, he had been ridiculed by his friends.

Naturally, it was impossible for him not to take revenge.

Meidan's words made Yunjian cast him a sidelong glance, but he did not say much.

"These are GPS trackers. Put them in your pockets and immediately board a large helicopter for high-altitude parachuting. The landing point is in this large jungle.

"But for the sake of convenience, we will use the GPS to find you. Don't lose this GPS Tracker."

Seeing that the cloud note was silent, Denmark was about to help 211 use words to provoke the cloud note, but he was interrupted by Jamil's voice, who had just left and returned.

An accident might happen during high-altitude parachuting. For example, what if they were so nervous that they couldn't open their parachutes and fell to their deaths?

All of these accidents constantly reminded everyone that they had to make second-hand preparations at all times.

Even if something really happened, they had to at least find the person's body, right?

At this time, the GPS tracker would be very useful.

After all, this forest was very big. Even if they landed safely, it was not necessarily safe.

When everyone heard this, they stuffed the chip of the GPS tracker given by Jamil into their pockets.

At this moment, after getting the equipment, the group boarded a large helicopter. Under the instructions of the commander, the group of people who were equipped with parachutes sat on the large helicopter. The helicopter immediately took off.

Jamil stood on the flat ground and narrowed his eyes. He raised his head to look at the figure of the large helicopter that was gradually flying high into the sky.

At some point in time, Ling Wei walked over from not far away.

Jamil glanced at Ling Wei, then curved his lips and said, "Tell me, how many of them will be able to walk out of the jungle alive?"

The successful landing from the sky was just a small step.

The people from all the countries who came here were eyeing each other like tigers eyeing their prey. After finding such a chance to be alone with each other, how could they guarantee that they would be safe and sound?

"That girl will not die." That was all Ling Wei said.

It was not only because Yun Jian was the young madam of his dark soul organization.

The reason why Ling Wei was so convinced was that he had also seen from Yun Jian the figure of the woman who overlapped with his memories. She was also the strongest person in history who had been trained by him. No one could surpass her!

If her code name was to be abbreviated with letters, it would only be two simple strokes — ss!

Chapter 1878: Bear with my anger

Ling Wei did not have much contact with Yun Jian. It could be said that ever since Si Yi had diligently run to Longmen City, Ling Wei had basically been in the dark soul organization. Even if he had met Yun Jian a few times, it had never been more than five times.

During these five times, the number of times he spoke was pitifully few.

Or could it be that he had never spoken to Yun Jian at all?

Si Yi knew that the cloud token was the identity of the brake god. Naturally, he could not spread it around.

Even if Xue Ying, Adam or Molson knew the identity of the cloud token, they would not easily bring up this matter.

This also caused Ling Wei to not know the details of the cloud token. He only knew that the cloud token had some dealings with the ancient kill mercenary group. But he would not know that the cloud token was the brake god, which was SS.

"This is really an interesting game. Then, let's wait and see." After hearing Ling Wei's words, Jamil drew an arc.

...

The cloud tablet sitting in the large helicopter was already equipped with a parachute.

The women from 211 naturally did not have the qualifications to follow.

At this moment, the cloud tablet was sitting in the large helicopter's cabin.

This time, it was a long jump from a height of 3,000 meters. To everyone, this height was not considered high, but it was not low either.

"When the cabin door opens later, I'll be the first to jump! If you're a man, follow me!" Denmark's loud voice rang out.

It was clear that Denmark was displaying his masculinity in front of everyone.

Perhaps in front of a group of men, Denmark did not need to display his masculinity.

But at this moment, there was a woman sitting in the cabin...

"16, don't be nervous, just relax."

Chen Yang and Ding Jianlin both came from Z country with Yun Jian. They were very upright people, so even though they knew Yun Jian's strength, they could not help but say a few words of goodwill when they saw Yun Jian's age.

"Yes." Yun Jian nodded, showing his friendliness to the two of them.

"The helicopter's flying height is 1 meter, 2 meters, 3 meters... 2,998 meters, 2,999 meters, 3,000 meters..." the instructor's voice rang out continuously, when the helicopter reached 3,000 meters, it was exactly the height of a high-altitude landing. Then, the helicopter stopped in the air.

The plane that was carrying passengers in the airport could not suddenly stop halfway. Even if it had to stop, it had to land slowly in the form of gliding.

The helicopter could stop at a high altitude, but similarly, the oars on the helicopter could not stop rotating. If it stopped rotating, the plane would also fall.

"The cabin door has been opened, you can jump." The pilot looked at them with cold eyes and said.

At this time, the cabin door had been opened.

At 3,000 meters in the air, the moment the door was opened, a huge gust of air rushed in.

Seeing such a huge gust of air, Denmark originally planned to jump down in front of Yun Jian. However, when the door was opened, he was slightly afraid. "I'll check my parachute."

Seeing that, everyone also checked their parachutes. In fact, it was because of a little panic in their hearts.

Who wouldn't be afraid of falling from a height of 3,000 meters?

However, just as everyone was checking their parachutes, Yun Jian slowly walked to the door of the cabin. Without hesitation, she jumped and took the lead to jump out.

"She, she, she! She jumped out just like that?" Seeing this, someone who was still checking their parachutes stopped and was stunned. He didn't have time to react and asked.

“This little girl has courage!” Another person said.

Chen Yang and Ding Jianlin from Z country were the ones who received Yun Jian.

Chen Yang and Ding Jianlin were very excellent special forces soldiers and were very upright.

When they saw Yun Jian jump out, the two of them also followed.

...

One after another, people jumped out of their parachutes in such a short amount of time. The helicopter was not stationary at all. In addition, the momentum of jumping down would cause people to move aimlessly.

It was very difficult for people who had landed to bump into each other.

Yun Jian put away the parachute after landing. She pursed her red lips.

Everything was very natural to her.

Not long after landing, Yun Jian suddenly heard a rustling sound.

She narrowed her eyes and stood beside the tree.

She was not unfamiliar with the owner of this sound. It was Buddy and 211.

“Lord Buddy, according to the GPS, she should be nearby!”

“Giggle, Giggle, this time, I’ll see where she can run to! She dared to kick me that day, so bear with my anger!”

Chapter 1879: overlapping scenes, you’re Ss

After Buddy and 211 finished speaking, Buddy suddenly shushed and said to 211 in a voice that only the two of them could hear:

“Don’t say anymore. She should be around. She’s not far!”

Only the two of them could hear buddy whispering to 211, but Yunjian’s ears were very sensitive. Even if Buddy deliberately suppressed his voice to the lowest decibel, Yunjian could still hear what he said to 211.

“Did you give her the water?” After two seconds of silence, Buddy’s voice sounded again.

“Of course. I saw her drink it with my own eyes!” 211 said confidently.

Yun Jian indeed drank the water that 211 gave her.

If she didn’t drink it, how could she see through 211’s trick so thoroughly?

“Very good! In this way, she won’t be able to resist me. I have a feeling that she must be nearby. Hurry up and find her!” Buddy kicked 211, his sharp eyes seemed to see the burning figure of the cloud paper.

“Yes.” 211’s face darkened, and he took the locator as ordered.

Obviously, since buddy could get the locator, he must have done something to Jamil.

“Sir Buddy, the Locator has a reaction. It’s Over There!” 211 suddenly pointed to a place and said to Buddy in surprise.

Destroying the cloud paper, there was Hope!

...

The sky gradually darkened. This high-altitude parachuting was not a competition of combat ability, nor was it a competition. It was just a high-altitude parachuting training for everyone.

After everyone landed, Jamil sent people to the jungle one by one to find people according to the Locator’s instructions.

After finding everyone, Jamil frowned.

“16 missing?” Jamil asked.

Ling Wei stood at the side, neither too fast nor too slow.

“She was the first one to jump down,” someone added at this time.

“Follow the directions of the locator and follow me to look for people!” Jamil frowned again and led everyone, including the women who were with 211, into the jungle.

When they found the chip of the locator according to the directions of the locator, it was almost dark.

When they found their destination, they were shocked by the scene in front of them.

However..

Buddy and 211 were naked and tied to a tree by parachutes. They were hanging on the tree without any clothes on. A pile of leaves was stuffed into their mouths, forcing them to be unable to speak.

On the ground facing them, there were many vertical blades.

If Buddy and 211 struggled to get off the ground, they would be stabbed by these blades. Even if they didn’t die, they would definitely be half-dead.

Therefore, Buddy and 211 hugged each other and didn’t dare to shake their bodies.

The moment he saw Jamil, buddy even let out a “Wu Wu Wu” sound.

“PFFT! What are you doing! Having sex in the air? Instructor Jamil, your subordinate really has a strong taste!” Someone laughed and mocked Badi at Jamil.

Everyone soon burst into laughter.

No one saw that when Ling Wei saw this scene, his brows furrowed even more tightly.

This scene strangely overlapped with what that woman did in his memory!

“Instructor Jamil, your subordinate wanted to offend me and even made this woman give me a sleeping drug, but unfortunately...”

“I’ll give her back to you.”

Yun Zhi walked out from the dark with her eyes narrowed. She spoke to Jamil in front of everyone without any courtesy.

“SS?” Just when everyone was laughing and Buddy was so angry that he wanted to kill Yun Zhi, 211 also did the same thing. At that moment, Ling Wei’s voice suddenly sounded.

Hearing Ling Wei’s voice, Yun Jian was not surprised. Her eyes flashed with a deeper look and curved slightly.

“Lord Ling Wei, you are...” Jamil looked at Ling Wei in confusion.

Everyone around was stunned for a moment.

Ling Wei looked at Yun Jian as if he wanted to get an answer. He spoke again in front of everyone who was so confused that their breathing was slow. This time, he did not ask a question, but a confirmation:

“You are SS.”

Chapter 1880: was such a coincidence. He was already dead

“You are SS.” These four simple words that were as plain as “Have you eaten today?” Rang out. Everyone’s first reaction was not to think about who SS was.

Instead...

Ling Wei had always been known as a man of few words. Even if something major happened, based on his personality, he would not be bothered to repeat the same words twice to someone.

Of course, Ye Ling was an exception.

But Yun Jian, she was just a student of the hunting school!

Everyone also knew that as long as one entered the hunting school, no matter how impressive the student’s previous battle records were, or how strong they were, everything would start all over again.

And to be able to make Ling Wei ask Yun Jian the same words for the second time, one could imagine that even if Ling Wei was expressionless, his heart would definitely be filled with doubts.

“SS? Lord Ling Wei, you said that she is SS...why does this title sound so familiar?” Jamil touched his chin and began to think.

The name that resounded around the world was Sha Shen, and SS was just the name that some people used to call Sha Shen.

If one was an international racing driver, the name SS resounded around the world.

However, as an agent killer, there were only a few people who could call Yun Jian SS.

Of course, many people on the street also knew the meaning of SS, and also knew that SS was the god of Sha.

But obviously, the people here were not very clear about the direct connection between SS and the god of Sha.

Yun Jian was not surprised that Ling Wei could recognize her. She just narrowed her eyes deeply.

“Sir, Sir Jamil! Forget about SS, please save me first... save me...” with 211, he was tied up by a parachute and hung in the tree, not daring to move, afraid that the blade would stab him, Buddy rushed to Jamil for help.

What SS? At this moment, no one knew who it was.

Jamil was about to remember, but after hearing what Buddy said, he immediately forgot.

“Hurry up and put him down!” Jamil looked at Buddy with disdain and said to the other subordinate beside him.

Jamil’s subordinate accepted the order and quickly put Buddy and 211 down.

Seeing that Yun Jian did not reply to him, Ling Wei frowned slightly. Ling Wei was not stupid. Even if Yun Jian did not say anything, he already knew Yun Jian’s identity.

He really did not expect that his most powerful and proud subordinate in the past would actually become his young madam.

The corner of Ling Wei’s mouth twitched, a rare sight.

“Alright, since we’ve found the person, let’s all go back. We’ll continue our training tonight!” Jamil waved his hand.

However, just as Jamil finished speaking, Yun Jian’s words rang out, resounding throughout the entire venue. “Chief instructor, your people are delusional enough to offend me. Do you want to just let this go?”

After Yun Jian’s words fell, everyone present was shocked, especially Madan, who had wanted to lay his hands on Yun Jian from the start. All the surrounding students were stunned.

What kind of place was this? This was a hunting school!

No matter how much Jamil disliked Buddy, Buddy was still Jamil’s subordinate!

And Yun Jian actually dared to openly demand that Jamil punish Buddy?

Was she joking? Did she want to die?

“Are you ordering me around?” Jamil suddenly stopped smiling. He squinted at the cloud note, and the sinister look on his face made everyone slightly afraid.

“Don’t you know that the people who dared to order me around have already gone to see the King of Hell?!” Jamil’s sinister face instantly changed. He suddenly stared at the cloud note, and his voice unconsciously became higher, he said something that made the hearts of everyone present tense.

The hearts of the surrounding people tensed. It was obvious that they were shocked by Jamil's sudden change of tone.

"Is that so? What a coincidence. Those who tried to invade me, they have already..." Yun Zhi looked into Jamil's eyes. She spoke in front of everyone without the slightest bit of fear.

As she said this, she suddenly stopped. Yun Zhi glanced sideways at Buddy. However, under everyone's calm and Frightened Eyes, Yun Zhi flipped her right hand and a butterfly knife appeared!

The butterfly knife twirled between her five fingers and suddenly flew towards Buddy.

Seeing this, the naked buddy was so scared that he pounced to the side.

However, this butterfly knife seemed to have already known the trajectory that he wanted to dodge. It actually cut through Buddy's neck at a frightening speed and killed Buddy on the spot!

The butterfly knife swung past Buddy's neck and hit a tree, bouncing back. In front of all the students, including 211 and the group of women who were in cahoots with 211, it was easily held in the cloud tablet's hand again.

This process was fast to two seconds!

When Ling Wei saw this, his eyes flashed with a profound light.

This move...

In front of everyone, the cloud tablet curved slightly. Everyone was terrified. They could not believe that she had the ability and speed to kill buddy in just two seconds with the butterfly knife, the cloud paper added a sentence and calmly spat out two words that made people terrified:

"Dead."
