a²**Her:**

I have always wondered how you came to me. What have I done to deserve you? Well the case is, I dont. I dont deserve you. You deserve someone better. Someone who can choose you. Someone who isnt afraid to say what she feels. I want to be that someone but I cant. Maybe this is not the time for us, maybe we were right for each other but we found our love at a wrong time. Its a pity I didnt even had the chance to say what I feel about you. I should've said it in the first time I saw you staring at me with your eyes wide open while I hold your hand and catch you before you fall. I should've told you the second time we met. I should've told you while we were at the balcony. I shouldn't have let all those chances to slip away. But you know? I dont ever regret meeting you or feeling this way towards you even if I am on the verge of losing my best friend because love, you are my angel. My miracle and my joy. I am finally letting your hand go and watch as you find your happiness in this world. I love you.
