

She is a ceo Chapter 453

Everyone gathered in the living room. This was probably the most gathering time between Luis and Frank's offspring in recent years. Elliot learned about Theodore's condition in depth and comforted Lucia and Arthur lovingly. Lucia couldn't help but marvel. Obviously he and Erik shared the same biological mother, but the difference in bearing and character was too great.

At noon, Elliot went with Edwin for a blood test. Lucia and Arthur were also around, but unfortunately, the results were still disappointing. Elliot and his children were also unmatched with Theodore.

"Miss Webb, Arthur, I'm so sorry we can't help." Elliot apologized to them as soon as he learned the results.

Lucia hurriedly bowed to Elliot after hearing this, and sincerely expressed her gratitude, "Edwin, please don't say that. I'm really grateful that you came all the way for Teddy, thank you."

Seeing Lucia being so polite, Elliot felt embarrassed himself and hurriedly persuaded her, while Erik and Spencer were away. Elliot expressed his apology to her and Arthur,

"I apologize to you for what Erik and Spencer have done. Erik has always loved fighting since he was a child. After his wife passed away in her early years, he never marries. As a result, Spencer's personality has subtly become exactly the same as his. Now it even threatens the relationship between you. I am really sorry for you and Edwin."

"Elliot, don't say that," Lucia and Arthur naturally couldn't bear the apology from their elders, so Edwin came forward and patted Elliot's arm a few times. The brotherhood was self-evident.

"What Erik and Spencer did has nothing to do with you. They are so focused on the bullshit that they always thought my dad had treated them badly. But as long as you're willing to believe in me and my dad, I'll be content."

With a sigh, Elliot said with emotion,

“Of course I believe in you, and I’m grateful for Uncle’s care back then. When my father passed away, if it wasn’t for your father’s full support, we two brothers would not have become now. Although the clan seems to be harmonious, it’s all about interests. Your father tried his best to protect us and helped us to develop abroad. I am very grateful.”

“Our fathers are brothers. We are cousins, as it should be. Maybe Erik’s development in recent years is not going well, and he is upset and blames everything on my dad’s poor care of him. Elliot, if there is a chance, you must persuade him. It’s futile for me to do so.” Edwin said earnestly.

“I know. Based on your strength, if you really break off the kinship, Erik is not your opponent even if he has the ability. You’re kind enough not to do anything to him until now. As his own brother, I am going to teach him a lesson.” Elliot said it sincerely.

“Elliot, it’s up to you whether Erik can persuade or not, but if you fail, I hope you will forgive me if I offend him in the future.” Edwin also took this opportunity to express his attitude. He could bear it, but won’t endure forever.

“I understand. If there is a day, let alone you, I will not let him go off!” Elliot said sternly. He can distinguish right from wrong. Of course he could see who was right and who was wrong.

“Thank you Elliot.” Edwin sincerely thanked Elliot for his understanding.

On the way home, Elliot’s mind was weighed down. This time he came to USA in person, not only to save Theodore, but also to teach his brother a lesson.

In the evening, after dinner, Elliot called Erik alone into the back garden, and the two brothers talked face to face under the moonlight.

Erik was still in awe of his brother, and he didn't say a word until he did.

"Erik, why do you have to fight against Edwin?" Elliot stared at his brother for a while, then asked him.

Erik bowed his head and said with disdain in his heart, "It's not a fight between children. Edwin complained to you?"

"If he doesn't tell me, who's gonna do so? Who can regulate you now?!" Elliot snapped.

"Elliot," Erik reluctantly looked up at his own brother and said,

"Why do you always help Edwin? Don't you understand the reason I oppose against him? When our dad died young, all the assets of the company should belong to our two brothers. Why did Luis keep it all for himself? You have to figure it out! I'm not robbing something, but recapturing!"

"How dare you say it!" Sensing Erik's tough tone, Elliot couldn't help but yell,

"How old were we when dad passed away?! What were you talking about managing the company as a teenage boy?! Think about it for yourself! If there is no uncle to take over the company, even if we get all the assets, can you survive the exploitation of other relatives? Auntie said she wanted to adopt us. Don't you know why?! Besides, uncle had never treated us badly. He sent us abroad to study, and gave us start-up capital to start a company. I even dare to say that he did better than our biological father!"

Elliot was not biased towards Luis. Their father, Frank, was short-tempered and not calm enough. He really did not have the vision of Luis's.

"Elliot, when did you get brainwashed by Edwin?" Erik said after listening to Elliot's words. Not only he was not taught a lesson, but he didn't think so,

“If the company was still in our hands, our two brothers would carry it forward. Wouldn’t it be better than being separated now and unable to get together? You have met a good opportunity in the British Isles, and now you are running the company prosperously. But what about me?! Have you ever thought about my situation?!”

“The way you run the company is inherently dishonest. It’s your own fault. No one’s to blame.” Elliot said coldly.

Erik was so annoyed by Elliot’s words that he simply refuted his brother with a strong attitude, “Whatever you say, you always stand on Edwin’s side, or blame me. In short, I must take everything that belonged to us at the beginning!”

Elliot now finally understood why Edwin was looking for him to persuade Erik, because if Edwin came to persuade Erik himself, he would definitely be mad by Erik to death! Anyway, he was already half-dead from anger now.

“Erik, since you don’t listen to my advice, then I’ll turn to warn you. You know exactly what kind of person Edwin is and what kind of strength he has. Against him, your strength, bearing, and self-discipline are not making you his opponent. Edwin doesn’t do anything to you considering family, but once he does, have you thought about the consequences?”

Elliot snapped.
