

She is a ceo Chapter 471

Spencer walked up to Lucia with a confident smile because he knew exactly how Lucia would choose.

“Have you made up your mind?”

She was in pain, and the man in front of her who said he loved her was smiling. Lucia really felt disgusted, but after hesitating for a while, she nodded lightly. Although her movement was light, her mood was heavy.

“Okay,” Spencer was overjoyed, and approached Lucia recklessly, smiling,

“Then how to deal with Arthur?”

“Shouldn’t you just donate bone marrow to Teddy right now?” Lucia frowned in disgust.

“No, no,” Spencer shook his head with a smile. “Lucia, although I know you promise, I still hope to choose the most conservative plan. What if you regret it after I donate the bone marrow, right?”

Lucia’s brows were furrowed, and she said coldly, “Then what do you want to do?”

“It’s up to you. The more you try to save Teddy, the sooner you will cut ties with Arthur. As for how to do it, you have to figure it out for yourself.” Spencer said softly with a hint of slyness in his eyes.

Spencer just said so, but it seemed like a knife had been stabbed in Lucia’s heart.

Not only did he want her to leave Arthur herself, but he also wanted her to find a way to cut off the relationship herself, didn’t he?

Her eyes were like being enclosed in a ten thousand-year-old glacier that couldn't melt. Lucia looked at Spencer coldly, "Okay, very good!"

"Lucia, you're so smart. I'm sure you can figure it out, right?" Spencer said with a smile, trying to reach up to touch Lucia's chin, but she dodged quickly.

"Are you sure you're not embarrassing me? Do you think there is any way to make Arthur give up on me in an instant?" Lucia said impatiently, but said bitterly to herself. He loved her so much...

"No?" Spencer asked.

"Do you think everyone is as good at intriguing as you are?" Lucia said coldly, stabbing Spencer with her eye.

Spencer smiled instead and said, "Lucia, cleverness and trickery are just different in terms of words. I'm willing to cooperate with all your actions, as long as I can see Arthur's despair!"

"Spencer, aren't you afraid of your own retribution in the future?" Lucia asked him seriously, listening to Spencer's calm but in fact extremely vicious words.

"Retribution?" Spencer laughed and said, "I'm an atheist. Even if I believe in retribution, it won't fall on me. The Edwins have taken too much from my father. There are too many things that should not belong to Arthur. The retribution should fall on their family!"

Lucia really regretted what she had just asked. It was like asking why a wolf would brutally eat a sheep. That was his nature.

Suddenly she didn't have the desire to continue talking, gave Spencer a cold look, and said lightly without any emotion,

"Whatever you say. I can't help..."

"Lucia, Teddy can't wait any longer." Spencer just wanted Lucia to think herself.

Theodore had always been Lucia's weakness, but she didn't show anything on the surface, but still said without emotion,

"You can't force me again. The big deal is that I'm really cruel to let Teddy go through chemotherapy and wait until the next person who can save him appears."

He asked Lucia to find a way to hurt Arthur herself. She can't and she was not that cruel.

The smile on Spencer's face froze. He wasn't sure if what Lucia said was serious, perfunctory, or really cruel, but he didn't dare to let her continue in that direction, or else he would fall short..

"Really can't figure it out?" Spencer asked.

"I can't think of it." Lucia replied simply.

"Okay, then I'll find a way, but you have to promise to cooperate with me 100%. As soon as Arthur leaves, I will donate bone marrow to Teddy immediately." Spencer agreed slightly and anxiously.

"Whatever you want." Lucia had already determined her attitude towards Spencer. It was useless to reason with him. Indifference was the only correct way. At this point, she turned her eyes away directly, not even bothering to look at him.

Spencer didn't know what to talk about for a while. It seemed that he was deliberately trying to please her, but he was unwilling to be embarrassed and speechless, so he insisted,

"Lucia, we're going to be together in the future, but there's so little time to spend together now. Would you like to spend more time with me?"

Hearing this, Lucia raised her brows directly. The contempt in her eyes was undisguised, as if she was saying "who are you?" and "why do I spend time with you?"

The meaning expressed by Lucia's eyes was too obvious. Spencer was disappointed when he met her eyes. He can't help but wonder, even if he got her, can he conquer her heart?

Feeling displeased, Spencer scowled and said,

"Lucia, am I so disrespectful to you? Do you know what I gave up for you? My marrow can save Theodore. Edwin and Sophie love their grandchildren so much. As long as I ask, let alone the whole Davonnis Corp, I'll let them kneel down for me. But for you, I gave up that opportunity, as long as you are willing to be with me. Can't this move you a little bit?"

Hearing this, Lucia narrowed her sharp eyes, because she realized that what Spencer said was true. If Edwin and Sophie knew that Spencer could save Teddy, they could really do that for their grandchild.

No, she couldn't let that happen, and she would feel guilty for the rest of her life.

Suddenly, there was another reason for Lucia to give up on Arthur, and the one she couldn't resist.

Seeing Lucia's eyes flickering, Spencer knew that he was on the point of her concern, so he continued,

“Lucia, I didn’t ask you to have a close relationship with me right away, but in the future, at least we can respect each other. Don’t talk to me with that disdainful attitude, okay?”

“Okay,” Lucia answered succinctly, but she quickly added, “As long as you don’t mess with me.”

“You’re going to be my wife. How could I mess with you,” Spencer said softly at last with a smile on his face.

Lucia frowned slightly. And there was a bitter sigh in her heart.

In what direction were things going to develop...

Arthur...

Just when Lucia was still feeling sad, her cell phone rang. Lucia had it been on mute all the time before, so she would not answer anyone’s call. She just turned off the mute code today.
