

## **She Shocks 1011**

### Chapter 1011: Yu Huang: He Is My Mentor (2)

Such an expert definitely knew many secrets that ordinary Beast Tamers didn't.

Philand's expression turned serious when he heard Sheng Xiao's words. He knocked his fan heavily as he said, "Legend has it that the Black Qing Sky Dragon Race from the ancient era was born with the superpower to travel through time and space. Could it be..."

As Philand stared at Sheng Xiao's tall and strong body, his expression darkened when he felt how powerful the blood in Sheng Xiao's body was. "I really didn't expect that someone from a peripheral world could awaken the Black Qing Sky Dragon."

Philand thought of something and said, "Four years ago, there was a Black Qing Sky Dragon in the Doomsday Battlefield..." Then, he narrowed his eyes and stared at Sheng Xiao in shock. "Could that kid be you?"

Sheng Xiao didn't expect that the news of the Black Qing Sky Dragon appearing in the Doomsday Battlefield had already reached Philand's ears. He said with a smile, "I did participate in the Doomsday Battlefield four years ago."

Philand fell silent.

He stared at Sheng Xiao for a moment before pointing in the direction of the town. He said, "If you want to enter the Cang Lang Continent, you have to register your identity with me. However, only those who have completed the assessment mission can successfully register their identity."

Philand thought about it and said, "Go to the underground arena in the town. Come and register your identity with me when you defeat the boxer on the seventh floor." Then, Philand threw a beginner's handbook to Sheng Xiao and waved his hand impatiently. "Leave quickly. Don't disturb my sleep."

Sheng Xiao caught the beginner's handbook.

Although Philand seemed like he was about to sleep, Sheng Xiao didn't leave. Sheng Xiao asked the previous question again, "Sir, have you met an ascendant called Yu Huang?" The marriage line told Sheng Xiao that Yu Huang was in this world.

As the supervisor of the Cang Lang Continent's Time Pavilion, Philand must have seen Yu Huang before.

Philand opened his eyes a crack and sneered. "If I say that she's not here, are you going to continue to the next world?"

Sheng Xiao didn't say anything, but his determined gaze showed his attitude.

Philand snorted. "What a hopeless romantic."

Philand closed his eyes again and said, "She's in the town."

"Thank you, sir." Sheng Xiao left with the beginner's handbook.

After he left, Philand said in a low voice, "No one will disturb me now, right..."

The sun was getting warmer, and Philand was sleeping soundly. He was about to enter a dream when he was woken up again.

“Sir.”

... It was the language of the Holy Spirit Continent again.

Philand took a deep breath and opened his eyes. As he stared at the pale and dark elves in front of him, he couldn't help but frown as he asked, “What's going on? Are the Beast Tamers of the Holy Spirit Continent coming to the Cang Lang Continent for a tour this year?”

Upon hearing this, Donor and Estelle looked at each other with delighted expressions.

Could Sheng Xiao and the others be here too?

Donor smiled and asked Philand, “Sir, other than us, are there other ascenders from the Holy Spirit Continent?”

“Yes, there were quite a few of them!” Philand glared at the two of them angrily and threw the beginner's handbook to them as he said impatiently, “Go to the small town's Fencing Arena to accept the assessment mission. After you're done, come and find me to register your identity!”

Seeing that the old man was so irritable, although Donor and Estelle, who had just arrived in the Great World, were dissatisfied, they didn't dare to offend him, so they took the beginner's handbook and left. Just as the two of them left, Philand saw two beautiful figures walking side by side from the path.

The woman on the left had a sexy figure. She was wearing a tight black sweater and skinny jeans. Her voluptuous and graceful figure accentuated her sexiness. The woman on the right was wearing a white turtleneck sweater. Her black hair was draped behind her head, making her look gentle and charming.

Philand was old and had long passed the age where he lusted after beautiful women. He only glanced at them before looking away.

Soon, the two women arrived at the beef noodle restaurant.

The white-robed woman's voice was gentle and pleasant as she asked in a low voice, “Sir, which world is this?”

They were also ascenders from the Holy Spirit Continent.

Philand had a feeling—

—The name Holy Spirit Continent might resound throughout the entire three thousand worlds in the future.

In any case, Philand would never forget this peripheral world.

“Stop asking.” Philand said in one breath, “This is the Cang Lang Continent. That's right, your companions are also here. Take the beginner's handbook and accept the mission.” After Philand threw the beginner's handbook to Beatrice and Yin Rong, he returned to the house with the fan.

He probably wouldn't be able to nap today.

...

The sky began to darken.

After Yu Huang had been springing cotton for an entire day, her back was sore, her arms were swollen, and her ears had long been numbed by the zither music emitted by the cotton bow.

At this moment, loud discussions suddenly erupted from the ore shop in town.

After the owner of the cotton shop heard the commotion, he immediately walked out of the kitchen. He stood at the door of the cotton shop and looked at the ore base. It was unknown what he saw, but he watched with relish.

Yu Huang put down the cotton bow and planned to rest.

After the noisy zither music disappeared, Yu Huang rubbed her ears and finally perked up. At this moment, Yu Huang heard someone say in the distance, "It hasn't even been a day yet, but it's already filled with two ships of ores. The ascenders from this peripheral world are really capable."

Another man continued, "Mr. Lin came from a world called the Holy Spirit Continent. He's not a Beast Tamer, nor does he cultivate spiritual power, but he uses a mysterious power called psychic power. He used that psychic power to threaten those demonic creatures and made them work for him for free."

The other onlookers were shocked when they heard this man's words.

"What? He actually ascended even though he's not a Beast Tamer?" This was the first time they had heard of such a thing.

"That ascender can actually threaten demonic creatures?" This was even more shocking than Ye Qingyang being able to control ghosts.

"What kind of power is this psychic power?" This was something that many ascenders were puzzled and curious about.

At the door, the owner of the quilt shop also revealed a curious and shocked expression when he heard their discussion. "...Psychic power..." As the owner stared at the dark sky above him, he couldn't help but mutter, "What is that?"

"Psychic power is the purest and kindest benign psychic energy in the world." The one who replied was Yu Huang, who had been springing cotton all day long.

The owner turned around and looked at Yu Huang in shock as he asked, "How do you know about psychic power?" After asking, the owner belatedly remembered that this ascendant called Yu Huang seemed to be from the Holy Spirit Continent as well. "Could it be that you know that person?"

Yu Huang smiled and said, "He's my mentor."

The owner was even more surprised.

So, the mentor and disciple had ascended together?

Knowing that Lin Jiansheng was here, Yu Huang was no longer in the mood to spring cotton anymore. She rushed out of the cotton shop and walked towards the ore base quickly.

At this moment, many ascenders from other worlds were surrounding the ore base and discussing how Lin Jiansheng was able to control the demonic creatures.

Yu Huang squeezed out of the crowd and looked up to see a burly man in a black robe standing in the hall of the ore base with his back facing them. There were two boats behind him, and the boats were filled with black ores.

The owner of the ore base was weighing the ores on the ships.

Even though the burly man was standing with his back facing her, Yu Huang still recognized him at a glance.

"...Mentor!" Yu Huang called out before running into the ore base and hugging the surprised Lin Jiansheng tightly.

1012 Lin Jiansheng's Potential (1)

Originally, Yu Huang thought that only she had ascended to the Cang Lang Continent.

Who wouldn't feel lonely after coming to an alternate world all alone?

Therefore, on this day, Yu Huang didn't rest and had been springing cotton all day long. She wanted to register her identity as soon as possible, leave the town, and go to the Cang Lang Continent to search for better opportunities. The sooner she became stronger, the sooner she could return to the Holy Spirit Continent.

Therefore, when she suddenly saw Lin Jiansheng and found out that she wasn't alone and that she had someone to rely on in this world, Yu Huang felt a lump in her throat and almost cried.

Lin Jiansheng only heard Yu Huang call him mentor before he was hugged by her.

When he came back to his senses, he was also overjoyed.

Ah Huang was also in this world!

Realizing that his beloved disciple was in the same Great World as him, Lin Jiansheng was also a little emotional. He hugged Yu Huang and patted her head comfortingly before letting go of Yu Huang. "Ah Huang, you're actually here too! We're indeed fated!"

Lin Jiansheng rubbed Yu Huang's face hard and laughed loudly as he said, "That's great. In the future, the two of us will explore the Cang Lang Continent together. I will continue to protect you and guide you!"

"Okay!"

With her mentor accompanying her, Yu Huang immediately felt at ease.

At this moment, the owner of the ore base had already finished weighing the ships.

After he finished weighing the ships, his expression became mixed.

These two ships of ores were both full of authentic magic ores.

“Congratulations, Mr. Lin, for successfully completing the assessment.” With that, the owner pressed his thumbprint on the assessment document.

When Lin Jiansheng heard that he had passed, a smile appeared on his face.

When he handed the assessment document to Lin Jiansheng, the owner said, “Mr. Lin, I’ve worked in the ore base for 200 years, and you’re the first person to successfully complete the assessment mission in only ten hours. You’re... very impressive.”

To be honest, when the owner saw Lin Jiansheng reporting this morning, he didn’t take Lin Jiansheng seriously. He was even thinking to himself, “Where did this country bumpkin come from? He looks so fierce, and doesn’t look very smart or capable at all.”

Who knew that this person would give him such a big surprise?

Lin Jiansheng took the assessment document and thanked the owner. Then, he said to Yu Huang, “Let’s go, Ah Huang. Accompany me to the Time Pavilion to register my identity!”

“Okay!”

Lin Jiansheng stopped Ah Kong. “Ah Kong, come with me.”

When Yu Huang saw Ah Kong and Lin Jiansheng together, she subconsciously looked at Lin Jiansheng to say something, but considering that Ah Kong was there, Yu Huang held back.

Upon hearing Lin Jiansheng call him over, Ah Kong nodded and subconsciously followed Lin Jiansheng out.

After leaving the ore shop, Ah Kong noticed that the sky was dark, and that some of the bosses in town had already begun to close their doors. Ah Kong hesitated for a moment before stopping and whispering to Lin Jiansheng, “Uncle Lin, I can’t go.”

Lin Jiansheng lowered his head and looked at Ah Kong in dismay as he asked, “Why?”

Ah Kong stared in the direction of the cotton shop and said softly, “It’s dark. Mr. Zhang’s shop is closing soon, so I have to go back quickly.” If I go back too late, I won’t be able to enter.

Ah Kong was grateful that Mr. Zhang was willing to take him in and give him a place to stay.

Ah Kong was afraid that if he went back too late, he wouldn’t be able to enter and would annoy Mr. Zhang.

Then, he wouldn’t even have a place to sleep.

When Lin Jiansheng saw the worry and sadness in Ah Kong’s eyes, he suddenly fell silent.

Lin Jiansheng felt sad when he thought about how this child had been living a life of taking potluck for the past four years.

In order to reassure Ah Kong, Lin Jiansheng could only suppress his sorrow and say to Ah Kong, “Alright, go back first. We’ll play together tomorrow.”

When he heard this, Ah Kong's black eyes suddenly lit up.

It was as if stars suddenly lit up in a dark and chaotic space.

However, Ah Kong quickly calmed down and told Lin Jiansheng, "After ascendants successfully register their identities, they will leave the town and live in the outside world." Ah Kong asked Lin Jiansheng nervously and reluctantly, "Aren't you leaving? Will you really stay and accompany me tomorrow?"

Lin Jiansheng stroked his head and said, "Yes, I'm staying."

Ah Kong suddenly smiled.

A bright smile bloomed on his emaciated face, making him look childish and innocent.

"Okay!"

After watching Ah Kong leave in the direction of the cotton shop, Lin Jiansheng left the ore base with Yu Huang.

With envy in their eyes, Gu Huan and Li Jianbing stood in the crowd as they watched Lin Jiansheng and Yu Huang leave.

#### Chapter 1013 Lin Jiansheng's Potential (2)

Gu Huan had already stayed in this lousy town for a year, while Li Jianbing had also stayed for half a year. Their hands already had calluses from all the digging, but they had yet to fill up two ships. However, Lin Jiansheng, who came from a small world, only used ten hours to complete the assessment mission.

This dealt Gu Huan and Lin Jianbing a serious blow.

After Yu Huang sensed two tense gazes on her back, she tilted her head and said to Lin Jiansheng, "Mentor, there are two people glaring at you."

Lin Jiansheng sneered and said, "They're two idiots." Lin Jiansheng told Yu Huang what had happened with Gu Huan and Li Jianbing.

After knowing that those two ascenders had actually mocked and slandered Lin Jiansheng, Yu Huang grinned. "Seeing that you completed the mission so quickly, they must feel ashamed."

"Of course."

The two of them chatted and laughed as they left the town. When they were about to reach Philand's beef noodle restaurant shop, Yu Huang stopped and raised her head to say to Lin Jiansheng, "Mentor, did you also sense a familiar soul aura from Ah Kong?"

Lin Jiansheng also stopped.

He lowered his eyes and asked Yu Huang, "You noticed it too?"

"Yes." Yu Huang sighed and said, "I really didn't expect that we would actually be able to meet Kong Qing's reincarnation. I just didn't expect that his life is still so rough." His father's identity was unknown, and his mother died during labor. He had been treated as a jinx ever since he was young.

Yu Huang didn't dare to think about what kind of life Ah Kong would have in the future if they had not ascended to the Cang Lang Continent and met him.

Lin Jiansheng was also very emotional. He swore, "In this life, I have to protect him and dote on him. He has no parents, so I'll be his parent."

Yu Huang nodded. "Of course."

"After you complete the assessment mission and register your identity, we will bring Ah Kong with us. In the future, his home will be wherever I am." After making up his mind, Lin Jiansheng felt motivated. With the assessment mission document in his hand, he knocked on the door.

Philand opened the door slowly.

He thought that it was another ascender from another world who had come to ask for directions. However, when he opened the door and saw Lin Jiansheng and the assessment document in his hand, his expression changed slightly.

"Mr. Philand." Lin Jiansheng handed the assessment mission document to Philand and said in a low voice, "I've already completed the assessment mission and obtained the boss' signature. Check it. If there's no problem, please register my identity."

"You passed the test?" Philand couldn't hide his surprise.

Lin Jiansheng nodded. "Yes."

After Philand took the assessment document and checked it, he realized that the boss' fingerprint was really on the document. Only then did he believe that Lin Jiansheng had really completed the assessment mission. Philand opened the door a little and said, "Come in."

Lin Jiansheng and Yu Huang walked into the shop together.

Philand pressed a green button on the wall of the stove, and a virtual display appeared in the void of the dining room. It was an identity information sheet. Philand typed on the virtual keyboard in the void with both hands. Without looking up, he asked, "Name."

"Lin Jiansheng."

"Age?"

"192."

Nodding, Philand typed the number 192. Then, he raised his head to look at Lin Jiansheng and asked, "Identity?"

Lin Jiansheng looked at Philand before replying, "Purifying Spirit Master."

Hearing this, Philand moved his hand away from the keyboard.

He revealed a curious expression and asked Lin Jiansheng, "Purifying Spirit Master is a unique profession on the Holy Spirit Continent?" He had guarded this place for thousands of years, but this was the first

time he had heard of the profession of Purifying Spirit Master. According to what he knew, there was no such profession in the ten super Great Worlds or the hundreds of Great Worlds.

So, what kind of profession was this? “Tell me about the abilities of a Purifying Spirit Master.”

Nodding his head, Lin Jiansheng said, “What a Purifying Spirit Master cultivates is not spiritual power, but psychic power. A Purifying Spirit Master can purify all impurities in the world, such as vengeful spirits plagued by resentment, demonic creatures born from demonic energy, or impurities in a person’s body. In addition, a Purifying Spirit Master can purify a low-level beast form and raise the potential of the beast form to its strongest state.”

After a pause, Lin Jiansheng added in detail, “For example, beast forms with the bloodline of a phoenix, such as phoenix sparrows and vermilion birds can increase the purity of the phoenix bloodline in their bodies and increase their combat strength under the purification effect of a powerful Purifying Spirit Master. Similarly, we can also repair a deformed beast form to its complete beast form.”

After quietly listening to Lin Jiansheng’s story, Philand suddenly narrowed his eyes.

“Do you know what you’re talking about?” Philand’s expression suddenly became menacing as he said, “You’re talking about a new profession that has never appeared in the three thousand worlds. Do you know that if you have the intention, you can develop the Purifying Spirit Art into a new system that is not inferior to the Beast Tamer system?”

“Are you planning to come to the Cang Lang Continent to promote your cultivation path?”

These words were a reminder to Lin Jiansheng and himself.

This was because he had already realized how terrifying Lin Jiansheng was.

The rough-looking but unfathomable man standing in front of him was very likely to become an unparalleled existence here! Yet such a talented and capable person came from a bottom-tier peripheral world.

Letting someone from a peripheral world develop to his heart’s content in the Cang Lang Continent would be a threat to the Cang Lang Continent.

Philand was suddenly unwilling to register Lin Jiansheng’s identity.

He was worried that Lin Jiansheng would have extraordinary achievements in the future and threaten the Cang Lang Continent’s safety.

Chapter 1014 As Expected of My Mentor, He Was a Hustler No Matter Which World He Was In (1)

Lin Jiansheng was meticulous and had already sensed Philand’s thoughts. Although he looked brash, he was very observant. Without waiting for Philand to continue, Lin Jiansheng said, “The Cang Lang Continent isn’t the only one with a Time Pavilion, right? I think every world in the three thousand worlds has an independent Time Pavilion that belongs to it.”

Upon hearing this, Philand looked at Lin Jiansheng thoughtfully and asked him, “What are you trying to say?”

Lin Jiansheng smiled mockingly and said, "Supervisors like you must belong to the same organization. You must also have to abide by the organization's rules. I guess that your job responsibility is to provide appropriate help to the ascendants from alternate worlds and register an appropriate identity for us."

"I've completed the assessment mission you sent me, so I deserve to have an appropriate identity. You can't refuse to register my identity just because of your delusions and fear of my future potential." Lin Jiansheng pointed at the display screen in the void and said sinisterly, "Sir, if you refuse to register my identity due to your own selfish desires, you're abusing your power!"

"I want to file a complaint against you!"

Philand was speechless.

He sneered. "Go ahead." There was no way for Lin Jiansheng to complain.

Upon hearing this, Lin Jiansheng suddenly took out the beginner's handbook and said, "Then I'll file a complaint."

Seeing that Lin Jiansheng had actually taken out the beginner's handbook, Philand immediately panicked. "Stop!" Philand was enraged.

Lin Jiansheng really stopped.

He stared at the old man calmly and asked with a frown, "Are you willing to register my identity for me?"

Seeing that Lin Jiansheng didn't really open the beginner's handbook, Philand heaved a sigh of relief, but at the same time, he felt puzzled. He asked Lin Jiansheng, "How do you know that ascendants can complain about the supervisor through the beginner's handbook?"

Yu Huang also looked at Lin Jiansheng in shock.

There was indeed an organization behind overseers like Philand. That organization was called the Space Administration.

The Space Administration was composed of the top experts of the ten super Great Worlds and hundreds of Great Worlds. They restrained each other and kept each other in check. According to the rules of the Space Administration, anyone who had obtained the Great World Pass could enter that world to live.

The reason this assessment procedure was set up was to appraise the potential and strength of ascendants.

The more difficult the assessment mission was, the higher the rank of the ascender's identity card. Conversely, the more resources and help he could obtain.

As for those ascenders who had been unable to complete the assessment mission for a long time, their talent was relatively mediocre, so they naturally couldn't get any precious and superior resources.

The beginner's handbook was created by the director of the Space Administration. The beginner's handbook wasn't only a beginner's handbook, but it could also serve as a supervisor. If any supervisor

dared to use his power for personal purposes and do something that violated the agreement of the Space Administration-

-As long as this matter was exposed to the headquarters of the Space Administration, they would be punished.

Therefore, it was against professional ethics for Philand to refuse to register Lin Jiansheng's identity.

Philand thought that Lin Jiansheng was a country bumpkin from a bottom-tier small world and might not know these rules. That was why he had such intentions. Unexpectedly, although this person looked foolhardy, he was smart.

All these years, no one had discovered the secret of the beginner's handbook.

Upon hearing Philand's question, Lin Jiansheng smiled mysteriously and praised himself proudly. "You can't judge a book by its cover. Although I look uneducated, I was the top scorer of my world's college entrance examination. This morning, when Xiao Ya promoted an automatic translator to me, I realized that she wasn't an intelligent program set up by a robot, but a staff member of your organization."

"I think that this beginner's handbook is actually a phone. If you open it, you can call the staff of your organization. So..." Lin Jiansheng shook the beginner's handbook and said, "If you don't register my identity for me, I'll complain about you."

After hearing Lin Jiansheng's analysis, Philand became truly afraid of this person's intelligence.

This was the first time he had encountered such a weirdo in his entire life.

After taking a deep breath, Philand suppressed his anger and continued to fill in the information angrily.

"Hmph, you'd better not do anything to harm the Cang Lang Continent. There are many powerhouses in the Cang Lang Continent. If you dare to mess around, you definitely won't be able to escape from the Cang Lang Continent alive!" With that said, Philand filled in the information with a few clicks. Finally, behind the table with the word 'level' at the end of the information page, he typed an S.

Chapter 1015 As Expected of My Mentor, He Was a Hustler No Matter Which World He Was In (2)

Those with S-rank potential could obtain the highest level identity card.

With this identity card, Lin Jiansheng could freely enter and exit every country and academy of Cang Lang Cang Lang Continent, and he could enjoy the treatment that only local Grand Masters enjoyed.

After filling in the information form, the screen in the void suddenly distorted and spun, turning into a virtual identity card that was quickly implanted into Lin Jiansheng's shoulder.

"Alright, with your identity card, you can leave the town and live in the Great World." Philand was asking Lin Jiansheng to leave.

He found Lin Jiansheng an eyesore.

Lin Jiansheng patted his shoulder and said, "I won't leave for the time being."

Philand rolled his eyes. "Why are you still here? I don't have any free beef noodles for you!"

Lin Jiansheng said, "I still have to wait for my disciple."

After Philand glanced at Yu Huang and thought about how they still had a few companions in the town, he immediately lost his good impression of the Beast Tamers from the Holy Spirit Continent. Philand sneered as he said, "You can continue to stay here, but the town won't provide you with food and accommodation."

Lin Jiansheng was a little hesitant.

He didn't prepare food.

Yu Huang told Lin Jiansheng in a low voice, "Don't be afraid, Mentor. I have a self-heating hot pot. I can even set up a tent for you."

Upon hearing this, Lin Jiansheng immediately felt more confident. "Mr. Philand, goodbye."

"Hurry up and leave!" After Philand chased Lin Jiansheng and Yu Huang out of the shop, he closed the door forcefully and turned around to walk into the room. However, he muttered curiously, "What's a self-heating hot pot?"

He had never heard of such a thing.

\* \*

After leaving the beef noodle shop, Lin Jiansheng took off the sleeve of his long robe in front of Yu Huang. He moved his muscular arm in front of Yu Huang and said, "Ah Huang, look, this is my identity card!"

Yu Huang lowered her head and looked at it carefully.

The identity card was light blue in color. There was an S on the bottom of the card, which represented Lin Jiansheng's identity card level. The words on the card were very simple, and only Lin Jiansheng's name, age, and profession were written.

Yu Huang said, "With this, you can come and go as you please in the Cang Lang Continent."

"Yeah."

"By the way, Mentor, how did you discover that Xiao Ya was a staff member?"

Lin Jiansheng told her about how he bargained with Xiao Ya to buy the automatic translator.

After knowing that Lin Jiansheng had only spent 150 spirit stones to buy the automatic translator, Yu Huang's eyes widened. "Heavens, I spent 2,000 spirit stones."

Lin Jiansheng was so angry that he smacked Yu Huang on the head. "Do you have too much money to squander? Why didn't you think about it? A f\*cking translator is worth 2,000 spirit stones?"

Yu Huang knew that she was in the wrong, so she didn't dare to quibble after being taught a lesson.

"Now, before you even got your identity card, you're already in debt." Lin Jiansheng frowned deeply.

After the mentor and disciple returned to the town in silence, they realized that the iron door at the entrance of the town was already locked.

Clearly, they couldn't enter the town anymore.

Seeing that the terrain outside the town was relatively flat and not noisy, Lin Jiansheng said, "Let's set up camp here."

"Okay."

The mentor and disciple worked together to set up the tent. Under the starlight, they sat outside the tent and ate hotpot.

It was a spicy hotpot. There were beef, fishballs, kelp silk, and golden mushrooms inside.

The aroma wafted far away.

How far away did it waft?

It wafted so far away that even Philand could smell it.

Philand had been cooking beef noodles in this town for more than a thousand years and was already tired of eating the food in the town's canteen. Suddenly, he smelled an intense and delicious spicy aroma. He laid on the bed and tossed and turned, unable to sleep. Philand simply got up and stood at the bedroom window to look towards the town.

Upon seeing Lin Jiansheng and Yu Huang, who were camping at the entrance of the town to eat, Philand hesitated for a long time. In the end, he couldn't resist the temptation of delicious food and teleported to the entrance of the town.

"What is this?" Philand asked.

Yu Huang and Lin Jiansheng had long sensed Philand's energy fluctuations.

Upon hearing Philand's question, Lin Jiansheng snorted and ignored him. Yu Huang raised her head and said to Philand with a smile, "It's a self-heating hotpot."

As Philand stared at the delicious food in Yu Huang's bowl, he could clearly feel that he was secreting more saliva. Philand frowned and said, "Is that so? Is this a specialty of your small world? I've never seen it before."

He was dropping hints like crazy.

Philand thought to himself, "I'm the supervisor of the Cang Lang Continent's Time Pavilion after all. Whether it's bribery or flattery, after hearing my words, I should be given one."

But...

Yu Huang lowered her head and ate, as if she didn't hear what Philand was saying. She remained silent.

Lin Jiansheng remained silent as well.

Philand felt embarrassed, so he flung his sleeves and snorted while planning to leave.

At this moment, Lin Jiansheng said, "Sir, if you want to eat it, you can buy it."

Philand had worked here for more than a thousand years. His salary was paid monthly, but he rarely bought anything. He had no family members and no shopping impulses.

When was the last time he bought something?

Philand couldn't even remember.

Philand didn't have much, but he was rich. He turned around and asked Lin Jiansheng, "How much does it cost?"

Just as Yu Huang was about to say a hundred spirit stones, she heard Lin Jiansheng say, "One serving costs 1,200 spirit stones."

Yu Huang was speechless.

Even gold wasn't that expensive.

"Alright!" Philand took out his bank card on the spot and leaned against Lin Jiansheng's shoulder. The spirit stones automatically entered Lin Jiansheng's identity card.

Philand left with the hotpot.

Lin Jiansheng smiled proudly at Yu Huang and said, "See, we just got the money to pay off our debt?"

Yu Huang gave Lin Jiansheng a thumbs up.

As expected of her mentor. He was a hustler no matter which world he was in.

Chapter 1016 Her Love Is Silent Protection For Eternity (1)

With a debt, Lin Jiansheng couldn't even sleep soundly.

Yu Huang was tidying up the trash when she heard Lin Jiansheng say, "I have to pay off our debt first." Otherwise, it would be difficult for him to sleep.

Yu Huang knew how much Lin Jiansheng loved money very well.

However, she saw that it was already late, so she said, "Why don't we do it tomorrow? At this time, Xiao Ya might be resting."

"I'll try." Lin Jiansheng opened the beginner's handbook and shouted softly, "Xiao Ya."

Seeing that there was no sound from the beginner's handbook, Yu Huang said, "See, Xiao Ya has gotten off work." Even the staff of the Space Administration needed to rest.

Lin Jiansheng glanced at Yu Huang and revealed a spurious smile. Then, he tapped his finger on the beginner's handbook and said, "The Space Administration should have someone on duty 24 hours a day. If you ignore an ascendant's consultation, isn't this considered slacking off?"

Lin Jiansheng snorted and said, "I'll complain that you slacked off at work."

Just as Yu Huang was about to ask Lin Jiansheng not to cause trouble, she saw the beginner's handbook sway. Then, Xiao Ya's voice came from inside. "Why is it you again?" Xiao Ya sounded like she was gritting her teeth.

Yu Huang froze.

Xiao Ya was really on duty.

Lin Jiansheng chuckled and said, "You knew it was me, so you pretended you were off work?"

Xiao Ya took a deep breath. She clearly didn't want to talk to Lin Jiansheng.

After working for so many years, this was the first time Xiao Ya had met such a stingy person like Lin Jiansheng. She really didn't want to speak with Lin Jiansheng.

However, she was afraid that Lin Jiansheng would report her.

The benefits of this job were great. She could stay at the headquarters of the Space Administration. There was abundant spiritual power here, and it was the most suitable place for cultivation. The salary was also high, and there were many handsome men, beautiful women, and big shots. If she worked for ten consecutive days every month, she could rest for twenty days. It could be said to be the easiest and most lucrative job.

Xiao Ya couldn't bear to lose this job.

"I want to make a payment," Lin Jiansheng said coldly.

Xiao Ya was a little shocked. "Payment?"

Xiao Ya didn't think that Lin Jiansheng had passed the assessment mission so quickly and registered his identity card. She didn't believe that Lin Jiansheng had earned 150 spirit stones in a short day.

Xiao Ya told Lin Jiansheng, "We don't accept installments."

Installments?

How condescending.

Lin Jiansheng said, "I've already registered my identity card. There are 1,200 spirit stones in my personal account. I want to use this money to pay off my and Yu Huang's loans."

Hearing this, the beginner's handbook suddenly fell silent.

Yu Huang glanced at the manual and thought to herself, "Why isn't she saying anything? Could it be that Xiao Ya is checking my mentor's account?"

As expected, Xiao Ya quickly said, "I found your identity card. You're right. There are indeed 1,200 spirit stones in your personal account." Xiao Ya asked Lin Jiansheng, "Customer, are you sure you want to repay it now?"

Lin Jiansheng said, "Yes!"

Xiao Ya continued, "According to the rules, you can only return your own loan. Yu Huang's loan must be repaid by her herself."

Lin Jiansheng was a little surprised. "Are you spouting nonsense, or is this a rule set by the Space Administration?"

Xiao Ya replied, "It's the bureau's rule."

Lin Jiansheng gave Yu Huang a rueful look.

Yu Huang smiled and said, "It's fine, Mentor. I can earn money myself."

"Alright." Lin Jiansheng said to Xiao Ya, "Goodbye."

He wouldn't throw the beginner's handbook away.

After Lin Jiansheng discovered the truth of the beginner's handbook, it was impossible for him to throw it away.

In the eyes of other ascenders, the beginner's handbook was just a manual. However, in Lin Jiansheng's eyes, it was just a computer and an encyclopedia. If there was anything he didn't understand, he could ask Xiao Ya.

Lin Jiansheng treated Xiao Ya as Wikipedia.

Little Ya didn't know that she was about to meet the biggest scoundrel in her career.

Seeing that Lin Jiansheng was about to end the call, Xiao Ya couldn't help but ask, "How did you complete the mission assessment in a single day?" Xiao Ya had been in this position for a hundred years. She had personally received many talented ascenders, but Lin Jiansheng was the only one who could complete the assessment mission, register his identity card, and earn 1,200 spirit stones in a day.

This person was considered a genius.

Lin Jiansheng smiled arrogantly and touched his bald head as he said, "Of course it's because of my outstanding wisdom."

As soon as he finished speaking, the beginner's handbook dimmed.

Chapter 1017 Her Love Is Silent Protection For Eternity (2)

Clearly, she had cut off the call.

Yu Huang chuckled and couldn't help but laugh at Lin Jiansheng. "Mentor, the customer service lady despises you."

Lin Jiansheng clicked his tongue and closed the beginner's handbook before putting it away. He was about to enter the tent to sleep when he seemed to have sensed something. He stopped and said, "I brought the Companion Dog Beast here." As he spoke, Lin Jiansheng carried the Companion Dog Beast out from his interspatial ring.

Back then, when Yu Huang met her Companion Dog Beast in the Yin Clan, its teeth had been pulled out, and its white fur was dry and dull.

At that time, her Companion Dog Beast looked like it was on the verge of death.

However, after being pampered by Lin Jiansheng for five years, her Companion Dog Beast was already radiant. It looked smart and adorable.

Yu Huang was the Companion Dog Beast that Yin Mingjue had captured to accompany Yu Huang. Its body had fused with Yu Huang's blood, and Yu Huang was the meaning of its existence. Even though it had been treated well by Lin Jiansheng for five years and was very close to and trusted him, the person it trusted and cared about the most was always Yu Huang.

As soon as he saw Yu Huang, Yu Huang jumped into Yu Huang's arms and rubbed Yu Huang's chin enthusiastically while whimpering.

After Yu Huang stroked Yu Huang a few times, she realized that Yu Huang's fur was as smooth and comfortable as silk. She was extremely happy. "Mentor, you've taken really good care of Yu Huang."

Lin Jiansheng said, "I carry it wherever I go. I gave everything I couldn't bear to eat or drink to it. How can it not be well taken care of?" Lin Jiansheng opened the tent's zipper and entered as he said, "It will sleep with you tonight."

"Okay."

Yu Huang carried Yu Huang and crawled into her blanket.

She took off her leather jacket and laid on the bed in a tight T-shirt and jeans. As she stroked Yu Huang's fur, she said to Lin Jiansheng, "Mentor, where do you think Brother Xiao, Donor, and the others have gone? Did Godfather return to the Demon Beast Continent?"

Lin Jiansheng replied, "I don't know either, but who cares? I will always be with you anyway."

Yu Huang acknowledged it, but she couldn't fall asleep.

Lin Jiansheng laughed at her. "Do you miss Sheng Xiao?"

Yu Huang admitted it directly. "Of course. When I think about how I'm in a different world from him, I feel a little sad."

Although Yu Huang had always been independent and was not as clingy as other girls-

-She loved Sheng Xiao.

She would not cling to Sheng Xiao, but she hoped that he could be beside her.

Her love for Sheng Xiao was silent companionship and eternal protection.

Therefore, Yu Huang felt melancholic when she thought about how many years it would be before they met again in another world.

Sigh, if she had known that she would be separated from Sheng Xiao, she would have made love with Sheng Xiao for three hundred rounds before she ascended...

Now?

They could only wait for the day of their reunion to release their passion.

Yu Huang fell asleep with regret. In her dream, she was making out with Sheng Xiao passionately.

When she woke up in the morning, Yu Huang sat on the bed as she recalled the erotic dream from last night. Apart from feeling vexed, she felt a sense of reminiscence.

Tsk.

Shaking her head, Yu Huang walked out of the tent. Seeing that the gate of the town had already opened and Lin Jiansheng had already woken up, she said, "Mentor, I still have to go to the cotton shop to spring cotton. You still have to accompany Ah Kong, so let's go together."

Lin Jiansheng said, "You go first. Ah Kong will be going to Mr. Philand's place to get breakfast later. I'll wait for him here."

"Okay."

After Yu Huang tidied up herself, she walked into the town.

On the roadside, various assessment bases had already opened. The ascenders who lived in town had just finished breakfast and were walking towards the town from the canteen at the end of the town. Those ascenders came from different worlds. There were humans and some strange races.

But most of them were humans.

When Yu Huang glanced at the team of ascenders opposite her, she even saw winged elves. She thought to herself, "I didn't expect that there were elves living in other worlds, and a dark elf and a light elf of two different races..."

Huh?

One dark elf and one light elf?

Yu Huang's gaze shifted to the ascenders again.

Her gaze passed through the crowd and landed on the two elven ascenders in the middle of the team.

The white elven man was wearing a moon-white suit. His smooth golden hair was tied to the back of his head, revealing his handsome and noble face.

Donor!

And as for the Night Elf with black wings standing beside Donor, who else could it be but Estelle?

Seeing familiar friends in a small town in an alternate world, for the first time, Yu Huang felt that Donor was so handsome and lovable!

Yu Huang couldn't help but wave at them and shout, "Donor! Estelle!"

"Yu Huang?" When Donor and Estelle heard Yu Huang's voice, they looked in the direction of the town's entrance.

Seeing Yu Huang standing alone in the middle of the town's street, Donor and Estelle revealed excited expressions.

"Yu Huang!"

Donor and Estelle immediately rushed out of the crowd and ran towards Yu Huang. Then, the three of them hugged each other tightly.

The joy of meeting good friends from their hometown in an alternate world was indescribable.

The three of them hugged each other forcefully and said excitedly, "You're here too!"

"That's right!"

After the three of them separated, Yu Huang asked Donor and Estelle, "When did you two arrive?"

The two of them said, "Yesterday afternoon."

"What about you, Ah Huang?" Estelle asked Yu Huang.

Yu Huang said, "Late night the day before yesterday."

As the three of them spoke, they suddenly heard a crisp and charming male voice coming from above a three-story building by the street—

"Wine."

"Donor, Estelle."

The three of them were stunned.

Sheng Xiao?

Yu Huang looked up at the roof of a three-story building on the right side of the street and saw Sheng Xiao standing at the window.

"Brother Xiao..." Yu Huang thought that she was seeing things.

Chapter 1018 Bringing Glory to the Ancestors (1)

Everyone turned around and saw Feng Yuncheng, Yin Rong, and Beatrice walking over quickly. Joy appeared on their faces again. "Yin Rong, Cuisi, Feng Yuncheng! You guys actually came to the Cang Lang Continent too!"

"That's right! I thought it was just the three of us!" Feng Yuncheng happened to meet Beatrice at the hotel in town last night. Only then did he find out that Beatrice and Yin Rong were also in the Cang Lang Continent.

Yin Rong was assigned by Mr. Philand to the Magical Hand Rejuvenation Center for her assessment mission.

Just now, Beatrice and Feng Yuncheng were accompanying Yin Rong to the assessment base to report. Coincidentally, they heard Sheng Xiao and the others talking, so the three of them ran out to investigate.

Everyone was excited to be reunited with their good friends in an unfamiliar world.

When the two teams met in the middle of the town street, they immediately realized that one of the eight of them was missing—

Xiao Shu wasn't around.

"Didn't Xiao Shu come with you?" Yu Huang asked Yin Rong.

Yin Rong couldn't hide her disappointment.

Everyone was there except her lover. How could Yin Rong not feel sad?

She suppressed the longing in her heart and shook her head. "No, I don't know where he went either. I thought that only Yuncheng, Cuisi, and I came to the Cang Lang Continent. I didn't expect all of you to be here!" This was the happiest thing for her.

"Where did Xiao Shu go?" Everyone was curious.

After Holy Spirit Goldfeather died, the Holy Spirit Continent lost the heavens. On the day of Yin Rong and Xiao Shu's marriage, they only held a wedding and didn't form a marriage contract. Therefore, even Yin Rong couldn't sense Xiao Shu's exact location.

After some thought, Sheng Xiao speculated that Xiao Shu might have gone to the Demon Beast Continent. "Xiao Shu is the master of all demons. He most likely obtained the pass to the Demon Beast Continent."

Everyone felt that Sheng Xiao's analysis made sense.

"What about Sister Peipei?" Donor asked again.

Sheng Xiao shook his head. "I don't know either."

When Beatrice thought of Mo Xiao and Lin Jiansheng, she said, "I wonder which world the Grand State Master and God Ling Xiao went to?"

"Mentor is also in the Cang Lang Continent." Yu Huang told them about Lin Jiansheng's situation.

"Mentor successfully passed the assessment mission yesterday. He was the first person among us to register his identity card. Oh right, the identity card he obtained was S-level."

"As for where Godfather went, I don't know either." However, Yu Huang's intuition told her that Mo Xiao had most likely gone to the Demon Beast Continent.

After all, the Nine-Tailed Fox Clan of the Demon Beast Continent was Mo Xiao's belonging.

After knowing that Lin Jiansheng had actually come to the Cang Lang Continent, everyone felt shocked, but at ease.

Although Lin Jiansheng didn't have any spiritual power or powerful combat strength, as a Purifying Spirit God, he could always make people feel at ease. With him around, they were like children with parents. They felt a sense of security.

After knowing that Lin Jiansheng had successfully registered his identity and obtained an S-level identity card, Sheng Xiao asked curiously, "There are different levels of identity cards?" In the era when Yu Aofeng lived, super Great Worlds were not exactly the same.

At that time, only Prime Masters were qualified to enter other Great Worlds, and Prime Masters were considered experts in any world. They would receive preferential treatment wherever they went.

At that time, there was no hierarchy when registering identities.

Hearing Sheng Xiao's question, Beatrice and the others noticed that there were different levels of identity cards.

Donor asked Yu Huang, "How is an S-level identity card different from an ordinary identity card?"

Since no one knew these rules, Yu Huang told them everything she knew.

When Sheng Xiao jumped down from the third floor and landed steadily in front of Yu Huang, he pulled her into his arms. Yu Huang felt a lump in her throat when she smelled Sheng Xiao's refreshing scent.

She hugged Sheng Xiao's waist tightly and murmured, "You're here too."

"Yes, I said that I would accompany you." Although the Great World was exciting, it was also dangerous. How could Sheng Xiao leave Yu Huang alone in the Cang Lang Continent?

Sheng Xiao didn't tell Yu Huang what kind of pain he had suffered in the space-time tunnel to find her.

Black Qing Sky Dragon could indeed travel through time.

However, forcefully passing through space was also an extremely difficult thing for Black Qing Sky Dragon.

The chaotic and overbearing energy in the space-time tunnel cut Sheng Xiao's body again and again like a burning knife.

Chapter 1019 Bringing Glory to the Ancestors (2)

Yu Huang asked him, "When did you come?"

Sheng Xiao said, "Yesterday afternoon."

Yu Huang let go of Sheng Xiao and frowned at his handsome face as she said in surprise, "You're a Grand Master and you're very talented. Logically speaking, you should have arrived in the town before me. Why did you only arrive yesterday afternoon?"

Sheng Xiao knew that Yu Huang would be suspicious, so he didn't intend to hide it from her. He told her honestly, "I ascended to the Demon Beast Continent, but I realized that you were not there, so I changed my path and chased after you to the Cang Lang Continent."

Hearing this, Yu Huang, Donor, and the others revealed dismayed looks, as if they were looking at a 'freak'.

The Grand State Master had said that only experts who had broken through to the Prime Master Realm could freely choose the Great World they wanted to go to.

Sheng Xiao was only a Grand Master.

To be able to forcefully change his path as a Grand Master and travel from the Demon Beast Continent to the Cang Lang Continent, if he wasn't a freak, what was he?

Sheng Xiao knew what they were thinking. He just smiled and didn't intend to explain how dangerous it was.

As a Purifying Spirit Master, Yu Huang's senses far exceeded that of ordinary Beast Tamers. She smelled a strong scent of blood on Sheng Xiao's body. "You reek of blood." Without waiting for Sheng Xiao to explain, Yu Huang quickly grabbed Sheng Xiao's sweater and lifted it, revealing his narrow waist.

There was thick gauze on his narrow waist.

Traces of mottled blood flowed out of the gauze.

Yu Huang fell silent as she stared at Sheng Xiao's waist.

Donor also revealed a worried and shocked expression.

Estelle asked Sheng Xiao, "Are you injured?"

Sheng Xiao looked down at Yu Huang.

He knew that he couldn't hide this anymore, so he could only tell the truth. "Forcibly passing through the Time Gate injured me a little."

"Is this a small injury?" Beast Tamers were very good at healing. Sheng Xiao was a Grand Master, so he could recover from ordinary injuries in half a day. However, a day had passed but the wound was still bleeding. It could be seen that his injury wasn't a small one.

Sheng Xiao sighed and held Yu Huang's slender fingers as he coaxed her. "I want to be in the same world as you."

Yu Huang shook Sheng Xiao off and turned around. After she took a deep breath, she turned around to roll her eyes at Sheng Xiao and said angrily, "If you keep toughing things out, when you hurt your waist, I'll change to another young hunk."

Sheng Xiao was speechless.

What a heartless woman.

"Don't worry, I won't."

Estelle and Donor understood what Yu Huang meant, so they looked at Sheng Xiao gloatingly.

A man could hurt himself anywhere, but not his waist and man part.

"Yu Huang, Senior Sheng!"

Yu Huang and the others seemed to have heard Yin Rong's voice.

Yu Huang asked Sheng Xiao and the others, "Did you hear Yin Rong's voice?"

Donor, Sheng Xiao, and the others nodded.

“We’re here!” Yin Rong held Beatrice’s hand as she ran out of the Magical Hand Rejuvenation Center with Feng Yuncheng.

“Those who have obtained the Great World Pass can enter the Great World to train. The reason Mr. Philand set up the assessment mission for us is to test our potential. Then, according to the completion progress and results of the assessment mission, he will register the corresponding level of identity card for us.”

“Mentor completed the difficult assessment in a day, so he obtained the highest S-level identity card. An S-level identity card is the same rank as that of a Grand Master Beast Tamer in the Cang Lang Continent. You can enter and exit various continents and countries freely. You can also enjoy the treatment of a Grand Master and obtain precious resources.”

“Correspondingly, the lower the level of your identity card, the fewer resources you can enjoy, and the more limited the authority you have.” As she spoke, Yu Huang thought of something else and added, “I forgot to say that the beginner’s handbook is not only a manual, but it is also a bridge between the ascendants and the Space Administration. You can treat it as a phone. As a new ascendant, if you have anything you don’t understand, you can consult Miss Xiao Ya in the beginner’s handbook.”

After hearing Yu Huang’s words, whenever Sheng Xiao and the others had anything they didn’t understand, they took out their beginner’s handbook and called Xiao Ya.

From that day onwards, the idle Xiao Ya suddenly became the busiest employee in the Space Administration.

“This beginner’s handbook actually has such a magical function?” Estelle glared at Donor and said, “You even wanted to throw that beginner’s handbook away yesterday. Fortunately, I put it away for you.” With that, Estelle handed a beginner’s handbook to Donor.

Donor quickly took the beginner’s handbook with both hands and thanked Estelle. “Thank you, Estelle.”

“Therefore, if we want to obtain more resources and unlock more authority, we have to complete the assessment mission in the shortest time possible!” Yu Huang clenched her right fist and extended it forward as she said in a low voice, “For the sake of the S-rank identity card, charge!”

Everyone extended their fists and roared in a low voice, “Charge!”

When the seven of them shouted at the same time, the commotion attracted the attention of all the ascenders in the town.

In this small town, every day, new ascenders arrived, and the ascenders who had finished the assessments left.

Although the town wasn’t big, there were nearly a hundred ascendants gathered here.

They were all geniuses or experts from various worlds.

But most of them were lone wolves who fought alone.

Thus, Yu Huang and the others, who came from the same world and were equally young, became a dazzling sight in the town.

Even the bosses of the assessment base couldn't help but take a few more glances at them.

The bosses of the base assessment were also the staff of the Time Pavilion. They changed shifts every hundred years. This year was the time for this batch of bosses to change shifts.

Therefore, Yu Huang and the others were the last ascenders to be tested by the bosses.

Having been in the industry for a hundred years, they had also realized many things.

They knew very well that not only were peripheral worlds small, but even the resources there were very limited. It was rare for super experts to appear among them. It was already impressive for a small world to have a single Prime Emperor powerhouse. As for the top geniuses of peripheral worlds, even if they successfully ascended to a super Great World, they were not considered geniuses.

At most, they could only be considered talented young people. Compared to the genius disciples of the blue-blood families of the Cang Lang Continent, there was still a huge difference between them.

In the three thousand worlds, only the super Great Worlds that had established a connection with some of the Great Worlds' Beast Tamers could ascend to the Cang Lang Continent at any time. As for the Beast Tamers of the other worlds, they had to wait for the Central Pagoda's Time Gate to open every five years before they could ascend to the Cang Lang Continent.

The bosses had worked here for 100 years, but they had never met an ascendant from the Holy Spirit Continent. From this, it could be seen that the Holy Spirit Continent was a very small world, and it was the kind that was ranked at the bottom among small worlds.

However, this year, this small world seemed to be on fire. Eight Beast Tamers had ascended in a row. Among them, there was a weirdo who could control demonic creatures.

It was said that the mysterious ascender from the Holy Spirit Continent only used a short ten hours to complete the assessment mission assigned to him by Mr. Philand.

He even successfully obtained an S-level identity card.

Typically, those who could obtain an S-rank identity card were true geniuses in super Great Worlds and Great Worlds. For an ascendant from a last-rate peripheral world to obtain an S-rank identity card was really

He had brought glory to his ancestors.

However, it was already impressive that such a rare occurrence happened once in a hundred years.

The bosses didn't think highly of Yu Huang and the other ascenders just because Lin Jiansheng had obtained an S-level identity card. However, because of Lin Jiansheng, they were more or less interested in the ascendants from the Holy Spirit Continent.

Chapter 1020 Big Shots Like to Complain Too (1)

In the morning, the bosses of the base all gathered in the canteen hall at the end of the town to chat. Some were smoking, some were drinking, and some were drinking coffee.

They were chatting happily and complaining about the stupid things that happened to those ascenders in their assessment bases.

A tanned and tall boss said, "Sigh, that ascendant from the Hongyan Continent has been in my base for ten years but still hasn't completed the mission yet. Whenever I see him, my eyes hurt. Tell me, at this rate, could it be that he won't be able to pass the assessment mission even until he dies in my base?"

The boss who spoke was the boss of the plant cultivation base. He was nicknamed the black-hearted boss by other bosses.

Typically, the ascendants who were assigned to the black-hearted boss for assessment were mostly Beast Tamers who were good at healing. The Hongyan Continent was a medium-sized world. Ten years ago, an old man with a white beard successfully ascended to the Cang Lang Continent.

The old man's surname was He, and his name was He Zhiqiu. He was a Grand Master Beast Tamer who was over 600 years old.

According to the old man's words, he had been stuck at the late-stage Grand Master realm for more than 600 years. If he didn't break through soon, he would die in less than 20 years.

Philand assigned He Zhiqiu to the plant cultivation base of the black-hearted boss.

He Zhiqiu's assessment mission was to successfully cultivate a Grade 9 Spirit Grass called Bone Nurturing Grass.

Bone Nurturing Grass was a high-grade spirit herb that was close to divine-grade. It could help souls that had lost their bodies nourish a brand new skeleton.

It was said that in ancient times, although Bone Nurturing Grass was also precious and scarce, it wasn't extinct. At that time, if a top-notch big shot wanted to revive a person, he only needed to find a Bone Nurturing Grass and hunt the Monster Core of a demon beast called the Flesh God. Then, he would be able to grow bones and flesh and complete the revival.

However, in this era, Bone Nurturing Grass had long disappeared.

He Zhiqiu followed the cultivation method of the Bone Nurturing Grass and stayed in the plant cultivation base for ten years, but he never succeeded in cultivating a single Bone Nurturing Grass.

Just like that, he became an insolvent in the plant cultivation base.

The black-hearted boss sighed and said, "I suspect that Mr. Philand is making things difficult for He Zhiqiu. Could it be that he thinks that He Zhiqiu is old and doesn't want him to occupy the resources of our continent, so he deliberately made things difficult for him?" The black-hearted boss couldn't help but slander Philand.

Mr. Zhang shook his head and said, "Philand isn't that kind of person. If he was really that kind of person, he wouldn't have become the manager of the town."

The town manager personally chosen by the Space Administration would never do such a thing.

The black-hearted boss sighed and said, "Sigh, I hope I can send him away before I change shifts this year." The old man was already old. It wasn't easy for him to stay in the mountains and plant spiritual herbs all day long.

"Hey, by the way, Mr. Zhang, I heard that a beautiful woman came to your base. Is she really beautiful?" The black-hearted boss was referring to Yu Huang.

Mr. Zhang frowned and said, "It's none of your business."

He wiped his fingers on his apron and said, "She's already married. Don't think about her."

"Huh? She's already married?" The black-hearted boss said bitterly, "I've asked around. She seems to be very young. She's not even 30 years old, right? She's so young, so how can she be married already?" The black-hearted boss was still planning to get married to that little beauty.

Mr. Zhang sneered and said, "If she meets someone like you, she will naturally want to be single for the rest of her life. If she meets a handsome, talented, and considerate person, it's understandable for her to want to get married." Mr. Zhang was indirectly insulting the black-hearted boss for being ugly.

"Don't think that I can't tell that you're insulting me!" The black-hearted boss rolled up his sleeves and was about to fight with Mr. Zhang.

At this moment, a female voice suddenly interrupted the conversation between the black-hearted boss and Mr. Zhang.

"I heard that this year, eight ascenders from a peripheral world called the Holy Spirit Continent appeared in a single day. One of them even obtained an S-rank identity card. This is very rare."

Hearing this, Mr. Zhang and the others turned to look at the woman standing against the dining table diagonally behind them.

It was a woman in black jeans and a tight top that revealed her sexy waist. She had a bald head and was covered in tattoos.

Her name was Zhou Yue, and she was the owner of the boxing arena.
