

She Shocks The Whole World After Retirement –

Chapter 1051 - 1057 Untitled

1051 Untitled

There were a total of 12 deputy managers and one chief manager in this spiritual field base.

The part of the Spiritual Field where He Zhiqiu and the others were located belonged to the Ascending Town. It was the only area in the entire Spiritual Field base that wasn't under their management. Usually, these managers rarely came to patrol here.

However, He Zhiqiu had spent ten years here, so he was quite familiar with the 13 managers.

Sensing that 13 waves of intense energy were rapidly flying over, He Zhiqiu subconsciously pulled Yu Huang behind him and hid her. He stuffed a temporary identity card into Yu Huang's palm and said in a low voice, "Run quickly. Go to the foot of the mountain and take the pill cart back to Ascension Town!"

After uncovering the Space Administration's scheme, He Zhiqiu had a premonition that his life would most likely end in this spiritual field base.

Yu Huang, who had helped him expose the truth, naturally wouldn't have a good ending either.

He was already old and didn't have much time to live. So what if he died?

However, Yu Huang was still young.

She was able to ascend to the Cang Lang Continent at such a young age and even successfully obtained an S-rank identity card. Her future was full of immeasurable potential and couldn't be ruined here.

He Zhiqiu told Yu Huang, "Use the identity card in your hand to swipe at the pill car's identification window, and the pill car will automatically start. Leave quickly. When you return to the Ascension Town, in front of those ascenders, even Philand and the others won't be able to make things difficult for you!"

He Zhiqiu gave his identity card to Yu Huang, giving her hope of survival.

Yu Huang held the identity card as she bit her lip as she asked, "Mr. He, what about you?"

He Zhiqiu said, "Don't worry about me. Leave quickly!"

With that said, He Zhiqiu suddenly hit Yu Huang's shoulder with his walking stick.

The full-strength attack of a Grand Master sent Yu Huang flying on the spot. Yu Huang's body suddenly flew down the mountain and landed in front of the pill cart.

At this moment, an ear-piercing roar resounded throughout the entire spiritual field—

"He Zhiqiu! How dare you!" The Director's voice sounded before he even reached He Zhiqiu's spiritual field.

The Director's roar successfully attracted the attention of the entire plantation base. Naturally, it also attracted the attention of the other 15 ascenders participating in the assessment in the Spiritual Field base.

"What did He Zhiqiu do?"

"What did he do to alarm the Director?" From the Director's tone, it was obvious that he wanted to kill He Zhiqiu.

Other than patrolling in the morning, noon, and night, these managers usually wouldn't take the initiative to come out to see the herbalist. The ascenders who were sent by Philand to the Spiritual Field Base to participate in the assessment mission were not under their jurisdiction at all.

SSince the Director came to cause trouble for He Zhiqiu in such an overbearing manner, He Zhiqiu must have done something that the managers couldn't tolerate.

However, they knew He Zhiqiu's character very well.

He was really a hardworking old man.

What could he do to make the Director fly into a rage and even want to kill him?

There might be a misunderstanding.

Whether it was out of friendship or morality, the ascendants couldn't watch coldly from the side. They put down their hoes and hurriedly walked towards He Zhiqiu's spiritual field. When they arrived at He Zhiqiu's spiritual field, the 13 managers were also there.

.

As a super large world, the Cang Lang Continent was vast and rich in spiritual power. The total population of the Cang Lang Continent already exceeded 10 billion, and there were 200 million Beast Tamers. This was a relatively high proportion of Beast Tamers.

On the Holy Spirit Continent, because the spiritual power was sparse and limited, fewer and fewer Beast Tamers awakened their powers. Among the billions of people on the Holy Spirit Continent, there were only a million Beast Tamers. Therefore, on the Holy Spirit Continent, every Beast Tamer was a precious and respected existence.

Because the Cang Lang Continent had many Beast Tamers and had a long history, many special professions were born, such as Pharmacists, Blacksmiths, Healers...

Among them, most of the pharmacists were Beast Tamers who had awakened plant beast forms. They were born with extraordinary sensitivity towards all kinds of spiritual herbs. They could purify and refine all kinds of spiritual herbs into medicinal pills that could both treat illnesses and increase cultivation.

As the name suggested, Blacksmiths were Spirit Tool Blacksmiths. Most of them were Beast Tamers who had awakened pure weapon beast forms. These Beast Tamers were born with extraordinary perception and control over various metals.

Holy Spirit Goldfeather was a refiner.

Not all Beast Tamers who had awakened plant beast forms and pure weapon beast forms could become pharmacists and blacksmiths. These two professions depended on luck and talent. Only a very small number of people could become pharmacists and blacksmiths.

When the supply didn't meet the demand, the status of these pharmacists and refiners became even nobler and rarer.

Therefore, on the Cang Lang Continent, pharmacists and blacksmiths were very respected professions.

On the Cang Lang Continent, all the spiritual fields belonged to the Pharmacist Association, and the development rights of all the metal mines were in the hands of the Refiners Association.

The spiritual field where He Zhiqiu and the others were located belonged to the Pharmacist Association. The managers in charge of this spiritual field base were also members of the Pharmacist Association. They were not only Beast Tamers, but also Pharmacists.

In the blink of an eye, the 13 managers appeared in He Zhiqiu's spiritual field. These managers were all wearing long dark red coats with green Cypress Grass embroidered on the shoulders. In the eyes of the pharmacists, the cypress grass symbolized powerful and endless vitality. They regarded the Cypress Grass as the grass of life.

When He Zhiqiu saw the Cypress Grass pattern on the shoulders of these managers, he was enraged.

Ten years ago, when he first saw the cypress grass pattern embroidered on the Director's robe, he was even smug that he had awakened the Cypress Grass beast form.

He still remembered that the first time the Director saw him, he had patted his shoulder affectionately and said to him, "The Cypress Grass is an extremely powerful plant beast form. Mr. He, it's really impressive that you awakened the Cypress Grass beast form. I think highly of you. I hope you can plant the Bone Nurturing Grass as soon as possible and go to the outside world to take a look..."

Now that he thought of those words, He Zhiqiu only felt that it was ironic and laughable.

He didn't believe that as the Director of the Spiritual Field Base, the other party didn't know about Philand and the others' scheme.

The Director knew that he would be trapped in this spiritual field base for the rest of his life, but he still said those hypocritical words to him!

How ridiculous!

The person standing in front of the managers was a very young-looking pharmacist beast tamer. He was the Director, Yuan Ying. To be able to become the Director of a spiritual field, Yuan Ying's actual age definitely wasn't young. Perhaps, he was also an old man who was hundreds of years old.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

1052 Distorting the Truth

The Director, Yuan Ying, had a gentle temperament and a fair face. When he didn't smile, he gave off a kind and amiable feeling. When he smiled, he gave off a comfortable feeling.

It was said that most of the pharmacists appeared benevolent and good-tempered.

As the Director, Yuan Ying rarely appeared in front of these pharmacists and ascenders. However, the few times he appeared, he always had a friendly and pleasant image. However, this time, everyone realized that he wasn't smiling at all.

When the Director had a serious expression, he actually looked a little sinister and ruthless.

Yuan Ying stared at the spiritual field under He Zhiqiu's feet and saw the energy transmission tubes that he had dug out deep underground. His eyes were filled with gloom.

“He Zhiqiu! What are you doing?!”

He Zhiqiu sneered and forcefully inserted his walking stick into the spiritual field. Then, he retorted fearlessly, “As you can see, I dug them up!”

“You actually dared to dig out the energy transmission tubes! Do you know how important these energy transmission tubes are? If you dig them out, you’ll destroy the foundation of the entire spiritual field! He Zhiqiu, you’ve committed a huge crime, do you know?!” Yuan Ying glared at He Zhiqiu. From his expression, it seemed like he wanted to skin him alive to vent his hatred.

After He Zhiqiu admitted it so frankly, He Zhiqiu became even angrier.

Seeing that the 15 ascenders were standing behind him to support him, He Zhiqiu immediately felt more confident.

“I committed a serious crime?” He Zhiqiu pointed at the surrounding ascenders and asked the Director, Yuan Ying, “Manager Yuan Ying, do you dare to tell these ascenders what these energy transmission tubes that I dug out are for?! Where did the energy they absorbed come from?”

He Zhiqiu felt that Yuan Ying didn’t have the guts to reveal their scheme openly.

If he dared to say a single word, it would be humiliation to the Cang Lang Continent.

But—

Yuan Ying had a spurious smile as his gaze passed He Zhiqiu and landed on the group of ascenders behind him.

As if he was acting in a stage play, an angry expression suddenly appeared on Yuan Ying’s face as he said loudly, “Friends who have come from afar, you might not know, but these underground energy transmission tubes are the foundation of the entire spiritual field space. If He Zhiqiu digs them all out today, the energy tubes will no longer be able to transfer energy to your spiritual fields. In that case, I’m afraid your assessment mission...”

Yuan Ying glanced at the livid He Zhiqiu and said meaningfully, “He Zhiqiu is clearly ruining your assessment results!”

Hearing Yuan Ying’s words, He Zhiqiu was so angry that his body was trembling. “You, you, you!!” As He Zhiqiu pointed at Yuan Ying, he trembled non-stop and was so angry that he almost fainted. “Yuan Ying, you’re simply distorting the truth! Do you dare to tell them the truth about these energy transmission tubes?!”

However, after those ascenders heard Yuan Ying's first words, they didn't care what He Zhiqiu said after that.

There was only one thought in their minds—

If the energy transmission tube was broken, they would fail their assessment mission.

And this was all thanks to that old fellow, He Zhiqiu!

A middle-aged woman questioned He Zhiqiu angrily, "Mr. He! Did you really dig out this energy transmission tube? Why did you dig it out?!"

He Zhiqiu was angry and anxious to explain, but then he pressed his chest as he coughed.

After he recovered, He Zhiqiu was about to explain when a middle-aged man suddenly pushed He Zhiqiu's chest.

For the past ten years, He Zhiqiu would nourish the spiritual power and vitality of the spiritual field under his feet every morning. After ten years of consumption, his spiritual power and vitality were very weak now. After being pushed by a young and strong man, He Zhiqiu could no longer stand still and staggered to the ground.

He Zhiqiu looked up at the man who pushed him with a mocking expression.

He Zhiqiu knew this person. He was a Grand Master Beast Tamer who had ascended from a small world last year. His name was Ji Qing'an. This morning, when He Zhiqiu and Yu Huang walked into the pill cart, Ji Qing'an had even stood up to help him.

Before he violated his personal interests, Ji Qing'an showed a compassionate attitude. However, once his interests were violated by He Zhiqiu, he turned hostile and attacked him.

Seeing that He Zhiqiu had been pushed to the ground by him, Ji Qing'an was stunned and felt flustered.

Seeing the mocking look in He Zhiqiu's eyes, Ji Qing'an felt even more guilty.

Ji Qing'an had many things to ask He Zhiqiu, but he was suddenly speechless.

At this moment, another ascender stood up and pointed at He Zhiqiu. "He Zhiqiu! You're a Grand Master Beast Tamer, so how can you be pushed down by Mr. Ji with a single palm? Don't rely on your old age to play the pity card! You dug out the energy transmission tube and committed a huge crime. In order to avoid punishment, you pretended to be weak, right?!"

For a moment, everyone couldn't help but judge He Zhiqiu's words and actions with the greatest malice.

"That's right. He Zhiqiu, you're a Grand Master. Why are you pretending?!"

"He Zhiqiu! If you're a man, speak up! You have the ability to dig out the energy transmission tube, but now, you don't even have the courage to bear the responsibility?"

"You didn't succeed in planting the Bone Nurturing Grass even after ten years, so today, you completely lost your patience and wanted to drag us down with you! He Zhiqiu, I didn't expect you to be so despicable!"

...

Everyone surrounded He Zhiqiu and condemned him.

At this moment, He Zhiqiu could no longer hear what they were saying. He sat in the spirit field with a numb expression as he looked up at Yuan Ying, who was standing in front of him and looking down at him with condescension.

Yuan Ying looked at him with the joy of a victor and the arrogance of a superior person.

He was just an old fart who had no one to rely on. It was his honor to be chosen by the Cang Lang Continent.

How ungrateful!

He Zhiqiu looked at Yuan Ying in silence. There was originally a glimmer of hope in his eyes. However, at this moment, those lights dimmed bit by bit.

At this moment, He Zhiqiu understood everything—

After Yuan Ying appeared just now, he didn't confront He Zhiqiu. All he had to do was arouse the hatred of all the ascenders.

This move was despicable but premeditated.

Probably, on the day they decided to use the lie of planting the Bone Nurturing Grass to keep him, they were prepared that he would discover that the entire matter was a scam one day.

Therefore, after knowing that he had discovered the truth and dug out the energy transmission tube, Yuan Ying calmly directed all the blame on him.

He was really good at distorting the truth!

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

1053 Yu Huang Reported Him Just Like That (1)

When these ascenders determined that He Zhiqiu was guilty, He Zhiqiu's innocence no longer mattered. Even if He Zhiqiu told these ascenders the truth about the energy transmission tubes underground, these ascenders probably wouldn't believe every word he said.

They would only think that He Zhiqiu was lying to clear his name.

At the thought of this, He Zhiqiu felt dejected.

The feeling of being alone in an alternate world and being bullied by the people of an alternate world while being alone and helpless was too despairing.

Yuan Ying lowered his eyes and looked at He Zhiqiu, who was crying. His gaze was cold, as if he was looking at a group of ants carrying food on a rainy day. "He Zhiqiu! The evidence is conclusive. Do you admit your guilt?"

Upon hearing Yuan Ying's words, the ascenders fell silent.

At this moment, they had all calmed down.

He Zhiqiu had destroyed the entire spiritual field. This was a serious crime, and he definitely couldn't escape punishment. The spiritual field had lost its vitality, so they couldn't plant spiritual herbs anymore. Presumably, after Mr. Philand found out about this, he would set up a new assessment mission for them.

With this thought, everyone regained their rationality. They looked at He Zhiqiu with disappointment and disgust.

He was already so old, so why was he so stubborn?

When they all fell silent, He Zhiqiu raised his head and saw the expressions of the ascendants.

Those disgusted gazes made He Zhiqiu's heart ache.

He Zhiqiu picked up his walking stick and slowly got up. Then, he walked to Yuan Ying while trembling and said firmly, "I won't admit guilt!"

Yuan Ying's eyelids twitched when he heard this, and he said with a fake smile, "You destroyed the most precious spirit field base on the continent. This is a huge crime that

is punishable by having your soul destroyed, yet you actually refuse to confess! What, do you think you can leave after you caused trouble?"

"Since you're an ascender from a small world, you should know your place and learn to abide by the rules of the Cang Lang Continent." In the eyes of the locals of the Cang Lang Continent, other than the ascenders from the nine other super Great Worlds, the ascenders from the other worlds were all country bumpkins from small worlds.

It was precisely because of this that Yuan Ying dared to bully He Zhiqiu.

When the other ascenders heard Yuan Ying's words, they naturally felt uncomfortable.

They were all ascenders from small worlds.

So in the eyes of these experts from super Great Worlds, they were actually so lowly?

A deputy manager surnamed Zhang noticed the reactions of the other ascenders and couldn't help but approach Yuan Ying. He reminded him softly, "Director, watch your words."

Yuan Ying raised his eyes and glanced at the other ascenders. Seeing their angry faces, he realized that he had misspoken. Yuan Ying couldn't offend all these ascenders, so he added, "He Zhiqiu, you should learn from the ascenders behind you. They are also ascenders, but they are very down-to-earth and diligent."

However, when they heard Yuan Ying's comforting words, those ascenders didn't feel any better.

"He Zhiqiu, whether you're willing to confess or not, you have to follow me today! You have to accept the punishment of the continent's laws!" With that, Yuan Ying grabbed He Zhiqiu's right arm and pulled him away.

Those ascenders opened their mouths to try to stop him, but no one dared to.

To be honest, they were all ascenders from small worlds. It wasn't easy for them to come to the Cang Lang Continent. Who was willing to take the risk to offend a powerful manager of the Cang Lang Continent for an old man?

It wasn't worth it.

At this moment, an aloof and crisp female voice came from below. "Wait!"

After Yuan Ying stopped in his tracks and turned around to look down the terraced field, he saw a woman riding a sword.

The woman was wearing a black sweater and light blue jeans. Her long black hair was casually tied into a bun, and her face was covered in dirt, making it impossible to see her original appearance.

The woman jumped down from the sword and landed behind He Zhiqiu.

“Director.” Yu Huang raised her hand and held He Zhiqiu’s right arm. Her hand happened to land below Yuan Ying’s hand.

When He Zhiqiu saw Yu Huang return, he immediately cursed angrily, “Why did you come back?!”

Yu Huang didn’t answer He Zhiqiu.

She raised her chin slightly and looked at Yuan Ying. Her calm gaze was filled with determination as she said, “Director, there’s something I’m very puzzled about. As the Director here, I think you must be able to enlighten me.”

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

1054 Yu Huang Reported Him Just Like That (2)

Yu Huang didn’t give Yuan Ying a chance to refuse at all. She said quickly, “The energy transmission tube is not some dirty secret, so why must it be buried deep underground? Since this thing is so important, you should have told all the herbologists in advance and ask them to be as careful as possible so that they don’t accidentally dig out these energy transmission tubes.”

“Can you explain to us why you buried such an important thing underground and refused to tell all the herbalists?” Yu Huang narrowed her eyes and asked, “Could it be that this thing is actually something shady?”

Yuan Ying was speechless.

After hearing Yu Huang’s words, be it the ascenders or the herbalists who heard the commotion and gathered beside the field ridge to watch the commotion, they all revealed curious and shocked gazes.

A professional herbalist said in confusion, “That’s right, Director. Since the energy transmission tube is the foundation of the entire Spiritual Field Space and can’t be damaged, it shouldn’t be buried underground! Our job is to dig soil and plant grass, so it’s inevitable that it will be damaged. Besides, we’ve worked here for so long, but we’ve never known that the energy transmission tube was buried underground!”

Hearing this, everyone lowered their heads to look at the spiritual field under their feet. When they saw the energy transmission tubes that had been dug into pieces underground, they all revealed suspicious gazes.

That's right. Why did such an important thing have to be hidden underground so secretly?

Could Yuan Ying give a reasonable explanation for Yu Huang's question?

Absolutely not!

Yuan Ying realized that Yu Huang was a troublemaker, so he decided to find an excuse to get someone to take Yu Huang away first. However, before he could think of a reason, he heard Yu Huang say, "Also, Mr. He didn't dig out these energy transmissions on purpose!"

As she spoke, Yu Huang turned around and looked at the ascenders behind her. "As everyone knows, Mr. He has been in this spiritual field for ten years and hasn't been able to plant the ninth-grade Bone Nurturing Grass. He's old and his stamina isn't good. Coincidentally, I accompanied him here today to observe and learn. Mr. He saw that I was young and strong, so he asked me to help him renovate this land in order to plant new seeds."

Yu Huang smiled at the ascenders and said, "Everyone had probably seen it earlier. In the beginning, I was the one digging the ground!"

Ji Qing'an nodded and said, "I did see you helping Mr. He dig the ground before. I thought you were his helper."

Upon hearing Ji Qing'an's words, the other ascenders also expressed that they had seen Yu Huang carrying a hoe and digging the ground.

"Director." With a smile, Yu Huang said to Yuan Ying, "This is the first time I've planted spiritual herbs, so I dug a little deeper than usual. Who would have thought that I would actually dig up a translucent water pipe?! And those water pipes were very strange. They were actually absorbing the vitality of this land! Mr. He suspected that the reason why this land is barren is precisely because of these water pipes! As the saying goes, if the crops want to grow well, we have to weed them! We clearly saw that water pipe absorbing the vitality of this land, so we couldn't let it continue to absorb it, right?!"

At this point, a puzzled expression appeared on Yu Huang's face again as she interrogated Yuan Ying, "Director, can you explain to us why this energy transmission tube didn't transfer energy to Old Master He's land, but secretly stole all the energy from his land?"

Yuan Ying was speechless.

At this moment, the ascenders standing behind Yu Huang looked at Yuan Ying with strange gazes.

Suddenly, Ji Qing'an said, "How strange. When I first came to the base last year, in order to increase the survival rate of the spiritual herbs, I even specifically renovated the land in my spiritual field. I dug deeper than they did, but I didn't see any energy transmission tube..."

At this moment, the other herbalists and ascenders also said, "We've never seen an energy transmission tube in our field either."

Everyone was talking, except for those herbalists who were working in high-quality spiritual fields. Because they had a guilty conscience, they didn't dare to participate in the discussion.

Hearing everyone's discussion, Yu Huang knew that she had basically achieved her goal.

At this moment, because of his guilty conscience, Yuan Ying's grip on He Zhiqiu's arm weakened.

Yu Huang pulled He Zhiqiu's arm back, then she silently took a step forward and shielded He Zhiqiu behind her.

Yu Huang looked at Yuan Ying with a meaningful smile as she said, "Elder Yuan Ying, these are all my questions. Please answer them one by one. As the Director of the Spiritual Field Base, don't tell me that you don't know."

Yuan Ying was unable to answer a single one of Yu Huang's questions.

The 12 deputy managers standing beside Yuan Ying had strange expressions.

The deputy manager of the western base, who had met Yu Huang once in the morning, also recognized her at this moment. As he stared at the cunning smile on Yu Huang's face, he immediately guessed the reason why she went to the western base in the morning.

So she went there to investigate the situation!

However, this deputy manager didn't dare to tell the Director that he had seen Yu Huang before. If he did, he would definitely anger the Director. He might even be kicked out of the Pharmacist Association by the higher-ups for 'dereliction of supervising responsibility'.

The other ascenders and herbalists also looked at Yuan Ying suspiciously while waiting for his reply.

When He Zhiqiu saw that Yuan Ying refused to speak, he couldn't help but sneer. "Director, why aren't you saying anything? Could it be that only my spiritual field has the so-called energy transmission tube hidden under it? Could it be that in the past ten years, not a single blade of grass has grown on my land because of you guys?"

He Zhiqiu's words were so straightforward that everyone could understand why he dug out all the energy transmission tubes in a fit of anger.

If it were them, they definitely would have done the same.

Everyone looked at Yuan Ying and the other 13 elders with hostility and speculation. "Director, can't you answer these questions?" Ji Qing'an and the others questioned the Director.

Yuan Ying realized that there was no way to hide the conspiracy.

He didn't dare to think about how the outside world would judge the Pharmacist Association and how their superior would be punished by the Space Administration once this conspiracy was exposed and such a scandal was spread.

Yuan Ying glared at He Zhiqiu venomously.

Desperate, he planned to kill He Zhiqiu and Yu Huang to silence them!

Yuan Ying's right hand, which was hidden under his wide long sleeve, suddenly curled up. He had just mobilized his spiritual power, but before he could attack, he saw Yu Huang suddenly take out a manual from her interspatial ring...

It was the ascendant beginner's handbook.

Yuan Ying was stunned.

Yu Huang opened the beginner's handbook without hesitation and shouted, "Emergency call for Xiao Ya, emergency call for Xiao Ya!"

In the next second, a clear and pleasant female voice sounded from the beginner's handbook. "Hello, S-rank ascendant Yu Huang. This is the Space Administration. I'm Xiao Ya, the customer service representative. How can I help you?"

Yu Huang blinked at Yuan Ying and said to Xiao Ya without hesitation, "Hello, Xiao Ya. I'm Yu Huang, an S-rank ascender. I want to report Mr. Philand of the Cang Lang Continent's ascension town, the owner of the plant cultivation base, and the 13 managers in the plant cultivation base space..."

After a pause, Yu Huang smiled mysteriously and continued, "I also want to report a certain pharmacist big shot from the Cang Lang Continent branch of the Space Administration!"

Yuan Ying was speechless.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

1055 Untitled

Seeing Yu Huang's actions, not to mention Yuan Ying, even He Zhiqiu and the group of ascenders behind him revealed stunned expressions.

What?

Xiao Ya was actually a real person? She could contact that staff member called Xiao Ya just by opening the beginner's handbook?

Back then, after they obtained this beginner's handbook, they exchanged for automatic translation rights with Xiao Ya and threw this beginner's handbook into the trash can as trash. However, no one had ever told them that the beginner's handbook had these hidden abilities.

If they had known that this thing had so many uses, they wouldn't have beared to throw it away.

At this moment, everyone felt vexed, as if they had lost 200 million spirit stones.

Not only did they not know, but even Yuan Ying and the others didn't know that the Ascendant's explanation manual had such a hidden function. Xiao Ya had worked in the Space Administration for hundreds of years, but this was the first time she had encountered such a scene.

Yu Huang was the first one to report people through the beginner's handbook.

And Xiao Ya's job was to serve these ascenders. Since Yu Huang had reported these people, Xiao Ya couldn't ignore it.

Not only could she not ignore it, but she also had to take this matter seriously.

After a moment of silence, when Xiao Ya spoke again, her tone became very serious and cold. Xiao Ya asked Yu Huang, "Why do you want to report them?"

Upon hearing that Xiao Ya was asking Yu Huang about this, Yuan Ying was crestfallen. He knew that it was over for him.

Oh no, oh no!

If this matter was exposed to the Space Administration, not only would they lose their positions, but their superior would also be implicated.

If their superior took his anger out on them, then—

Yuan Ying and the others couldn't help but feel their scalps go numb, as if they could already feel the pain of their scalps being forcefully pulled off their heads by their superior.

With a smile, Yu Huang glanced at the 13 administrators whose faces were ashen. She had a vivacious and charming appearance, but her smile frightened Yuan Ying and the others so much that they broke out in cold sweat.

Yu Huang said, "The ascendant, He Zhiqiu, awakened the beast form of the Soul Restoring Grass. He had endless vitality and was a natural top-grade herbalist. Ten years ago, He Zhiqiu was lucky enough to plant the Fortune Fruit, and his name spread throughout the Hongyan Continent. Because of this, he was chosen by a pharmacist in the Cang Lang Continent's Space Administration."

"Ten years ago, He Zhiqiu obtained the Cang Lang Continent's pass and ascended to the Cang Lang Continent. The assessment mission that Philand assigned to He Zhiqiu was for him to go to the plant cultivation base and successfully cultivate a ninth-grade Bone Nurturing Grass. After He Zhiqiu received a bag of spiritual herb seeds from the base owner, he stayed in the spiritual field for ten years and focused on cultivating spiritual herbs. However, for some reason, his spiritual herb field remained barren. Even so, He Zhiqiu never complained at all. He always felt that it was because he wasn't capable enough that he was unable to complete the assessment mission."

"However, today, when I was helping He Zhiqiu renovate the spiritual field, I accidentally dug up 200 energy transmission tubes under the spiritual field. After our investigation, we discovered that the energy transmission tube was actually stealing He Zhiqiu's vitality and spiritual power."

At this point, Yu Huang looked at Yuan Ying and the others with a cold expression as she said mockingly, "When the Director of the Spiritual Field Space, Yuan Ying, found out that we had discovered the truth, he actually distorted the truth and tried to silence us to conceal this ugly truth!"

"As the saying goes, corrupt officials protect each other. I don't believe that there's no one behind Yuan Ying and the others! Therefore, I want to report the above-mentioned administrators and request the Space Administration to investigate this matter thoroughly. I want to restore He Zhiqiu's innocence and give all the ascenders an explanation! We can't ruin the reputation of the Time Administration and the reputation of the ten super Great Worlds just because of these black sheep!"

Yu Huang was eloquent and explained everything in a few words.

After Xiao Ya heard Yu Huang's statement, she realized that this matter was very serious.

If this matter wasn't handled properly, not only would it tarnish the reputation of the Space Administration, but it was also more likely to arouse hatred between the Great Worlds.

Xiao Ya said to Yu Huang, "Yu Huang, we've received your report. If this is true, we will definitely investigate this matter thoroughly and definitely won't cover up for anyone. However, you have to swear on your soul that everything you say is true!"

Yu Huang nodded and said, "I'm willing to swear on my soul that everything I said just now is true!"

"Okay!" Xiao Ya said, "Wait a moment. There's a document here that needs your signature."

"No problem."

Soon, a virtual document appeared in front of Yu Huang.

It was a real-name report promise that needed Yu Huang to personally sign.

Yu Huang read the contents and confirmed that there was nothing fishy about the contents of the promise letter. Then, she used her spiritual power to sign her name and pressed her thumbprint on it.

The document disappeared in front of Yu Huang in the next second.

Xiao Ya said, "This matter has been reported to the chief. Within three days, we will definitely investigate this matter and give all the ascenders an explanation." After a pause, Xiao Ya continued, "If it is confirmed that your report is true, you will be rewarded with 10,000 spirit stones."

Yu Huang was delighted when she heard this.

The reward of 10,000 spirit stones was a pleasant surprise.

"If there's nothing else, then this call is over."

"Okay."

Xiao Ya took the initiative to cut off the call with Yu Huang.

Yu Huang closed the beginner's handbook and looked at Yuan Ying and the others with a smile. She deliberately provoked them by asking, "Are you surprised?"

Yuan Ying and the others were so frightened that their legs went weak.

They couldn't believe that this woman who had ascended from a small world actually dared to offend them!

Wasn't she afraid of revenge from various factions?

"You, you, you, you, you!" Yuan Ying pointed at Yu Huang with a trembling finger as he roared in disbelief, "You actually dare to report us! You actually dare to report our superior! Do you know that if we want to kill you, it's as easy as killing an ant?!"

Only the Beast Tamers of super Great Worlds had the right to bully these ascenders.

No ascender had ever dared to offend them!

Yu Huang shrugged as she said, "Then let's see if I suffer revenge first or if you guys suffer retribution first."

Yuan Ying and the others were instantly speechless.

* *

The Space Administration clearly took this matter very seriously.

On the afternoon they received Yu Huang's report, they sent a supervision team to Ascension Town to investigate the situation.

At that moment, Yu Huang and He Zhiqiu had just taken the pill cart back to the plant cultivation base. Because the spiritual field had lost its vitality, the other 15 ascenders had nothing to do, so they returned with Yu Huang and the others.

As soon as the ascenders emerged from the pill car, they discovered that in the sky of the town, there was a colorful warship aircraft that looked like a UFO.

1056 Eight Prime Masters

The door of the aircraft opened, and a black escalator extended out from the aircraft and landed on the street of the town. Yu Huang saw a few people walk out of the aircraft. They stood on the elevator as they were teleported to the street of the town by the escalator.

After Yu Huang and the others ran out of the plant cultivation base and stood at the entrance of the base, they finally saw their appearance clearly.

It was a group of women in silver uniforms.

What shocked Yu Huang was that these women actually looked exactly the same. Be it their appearance, height, or aura, they looked exactly the same.

Yu Huang counted and discovered that there were a total of eight people.

They definitely couldn't be octuplets. No woman could give birth to octuplets at once. Even if they could, it was impossible for these eight children to happen to look exactly the same. Even their expressions and actions were exactly the same.

Yu Huang had seen many twins. Those twins did look very similar at first glance, but on closer inspection, one would discover that there were still many differences between them.

Everyone was unique.

Just like there were no two identical leaves in the world, there weren't two completely identical people.

So these eight people were definitely not twins.

It was four o'clock in the afternoon, so most of the ascenders were doing assessment missions at the base. There were only the owner of the bases, the staff of the bases, as well as Yu Huang and the others in town.

A UFO suddenly appeared in the sky, and eight beautiful women who looked exactly the same fell from the sky. This scene naturally attracted the attention of everyone in the town.

The boss and employees of the base walked out of the base one after another. When they saw the eight identical women, Mr. Zhang exclaimed, "It's actually the eight Prime Masters of the headquarters!"

As the name suggested, the eight Prime Masters were eight female Beast Tamers with the cultivation of Prime Masters.

They didn't belong to the Space Administration. They only belonged to the chief.

It was rumored that the eight Prime Masters were originally an eight-in-one green demon beast from the Demon Beast Continent. With the help of the chief, they were lucky enough to become a divine demon and the chief's mounts. After their cultivation level reached level ten, they turned into eight human women with the same appearance.

Not only were they the chief's mounts, but they were also the chief's eagle eyes.

The eight Prime Masters rarely acted collectively. Once they acted collectively, it meant that the director planned to kill someone again.

The eight Prime Masters represented the director.

Mr. Zhang and the others were all from various large families, so one could imagine how powerful the chief of the ten super Great Worlds was.

Therefore, when they saw the eight Prime Masters, even Mr. Zhang and the others had to be respectful.

The bosses of the various bases quickly walked to the middle of the street. They quickly lined up and bowed to the eight women. "Welcome, eight Prime Masters!"

Seeing Mr. Zhang and the others' actions, Yu Huang, He Zhiqiu, and the others also bent down to greet the eight women.

These women were all dressed the same, except for the number on the wide belt around their waists.

A woman with the number "1" on her waist took a step forward and stared at everyone coldly. When she spoke, her tone was flat and cold. "Where is Philand?"

Seeing that the other party wanted to see Philand, the bosses were all wondering.

Had Mr. Philand committed a crime?

At this moment, an old man holding a fan walked from the entrance of the town calmly. "I'm Philand. Welcome, eight Prime Masters. I wonder why you guys suddenly came to visit?!" This was the first time Philand had seen the eight Prime Masters in more than a thousand years, so he couldn't help but feel surprised.

Hearing Philand's voice, the eight Prime Masters turned to look at the entrance of the town.

In the blink of an eye, Prime Master No. 1 teleported in front of Philand. "You're Philand?"

Philand lowered his eyes and replied, "Yes."

Nodding her head, Prime Master No. 1 suddenly extended her right hand. In her hand, there was a silver-white official document. There was a special star steel seal mark in the lower right corner of the official document.

It was the personal steel seal of the director of the Space Administration.

Seeing this, Philand was even more confused.

What had he done to alarm the chief of the Space Administration?

“The headquarters has received a report from a mysterious person. They suspect that you, Prime Master Leng Shuang, and the 13 managers of the Spirit Grass Base are suspected of violating the Space Administration’s regulation 8. Please follow us for investigation and interrogation!”

Hearing this, Philand was filled with confusion. He was familiar with all the regulations of the Space Administration, so he naturally knew what the contents of regulation 8 were”

It was strictly prohibited for the staff of the Administration to abuse their power for personal gain and deceive ascendants.

Philand couldn’t figure it out. When had he ever deceived an ascender?

Before figuring out the truth, Philand was naturally unwilling to cooperate with the investigation. He placed his hand behind his back and said proudly, “This is slander! I, Philand, have been a supervisor in Ascension Town for over a thousand years. During this period, I have never done anything inappropriate. When have I deceived an ascender?”

“Someone must be slandering me!” Philand thought that an ascendant was dissatisfied with his arrangements and fabricated false accusations to tarnish his image.

Prime Master No. 1 refused to explain further. She only said, “Whether it’s slander or the truth, the headquarters will naturally investigate. Don’t you believe in the headquarters’ abilities?”

Prime Master No. 1’s question rendered Philand speechless.

How should he answer this question?

Would he dare to say that he didn’t believe in the ability of the headquarters?

Of course not.

“It’s fine for you to bring me to be investigated, but I have the right to know what I did to violate regulation 8, right? There has to be an explanation, right?”

This time, without waiting for Prime Master No. 1 to explain, He Zhiqiu stomped his walking stick hard and scolded in a low voice, “Don’t you know what you’ve done?” He

Zhiqiu staggered to Philand and took out a few black seeds from his pocket to throw at him. "Look at this!"

Philand grabbed two of the black seeds.

Puzzled, Philand placed the seed under his nose and sniffed it gently. He immediately frowned and said, "Black sesame."

"Heh, you also know that it's a black sesame seed!" He Zhiqiu glared at Philand with hatred in his eyes. His voice was quivering with anger. "Philand, ten years ago, you asked the black-hearted boss to give me black sesame seeds, but you also asked me to plant a Grade 9 Bone Nurturing Grass. If you're not a swindler, what are you?"

Hearing this, Philand was stunned. "What did you say?"

Philand looked shocked, as if he really didn't know the truth.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

1057 Become Yu Huang's Believer

He Zhiqiu thought that Philand was pushing the blame to clear his name, so he snorted and said, "What are you pretending for?! You're the one who asked me to plant the Bone Nurturing Grass. Don't say that you don't know about this!"

After figuring out the ins and outs of the matter, Philand didn't explain anything to He Zhiqiu. He only narrowed his eyes and looked at the black-hearted boss of the plantation base.

The black-hearted boss's gaze looked shifty, and he didn't dare to meet Philand's gaze.

Seeing this, Philand understood.

"Leng Shuang, you actually dare to play tricks under my watch!" Back then, Philand saw that Leng Shuang seemed quite levelheaded and reliable. That was why he chose him from a group of new employees and let him come to the town to work.

Unexpectedly, not only was Leng Shuang dark, but he was also blackhearted!

Everyone called him the black-hearted boss.

He deserved the name!

Leng Shuang probably thought of the kindness that Philand had shown him back then.

After the betrayal was exposed, Leng Shuang felt ashamed. He lowered his head and no longer had the courage to raise it.

Mr. Zhang, Zhou Yue, and the others also stared at the black-hearted boss with disdain.

Traitors were really detestable!

The eight Prime Masters naturally saw Philand and Leng Shuang's reactions, but they wouldn't believe that Philand was innocent that easily. Whether he was guilty or not depended on evidence. "Philand, Leng Shuang, please cooperate with our investigation and follow us to the Spiritual Field Base."

This time, Philand didn't resist. He snorted at Leng Shuang and followed the eight Prime Masters towards the plantation base.

Before the black-hearted boss left, he also glanced at He Zhiqiu.

Seeing He Zhiqiu glaring at him with burning eyes, he felt even more guilty, so he hurriedly caught up with the eight Prime Masters.

The eight Prime Masters came and went quickly. As soon as they left, the gossipy bosses gathered around He Zhiqiu and asked him questions—

"Mr. He, did the black-hearted boss really give you a bag of black sesame seeds?"

"Why would they lie to you?!"

"Hey, how did you discover the truth?"

After being deceived by the black-hearted boss and Philand for more than ten years, He Zhiqiu had lost all trust in the bosses of these bases. He snorted and wanted to leave with his walking stick. "Yu Huang, let's go. Country bumpkins from our small worlds are not worthy of breathing in the same air as these people from these super Great Worlds."

Yu Huang was speechless.

Yu Huang walked out of the town with He Zhiqiu.

* *

At night, when Sheng Xiao, Donor, and the others came out of the base, they heard that Philand and Leng Shuang had been taken away by the eight Prime Masters.

After knowing that He Zhiqiu had been deceived by Leng Shuang for ten years, everyone felt sympathy for this old man.

Since He Zhiqiu had fallen out with the Ascending Town, it was naturally inconvenient for him to continue staying at Mr. Zhang's place. He set up a tent outside the town with Yu Huang and the others to make do. After knowing that Yu Huang, Lin Jiansheng, and the others were staying outside the town, Donor and the others moved out of the hotel.

At night, Ascension Town was especially cold. The sky was covered in a thick layer of lead-gray clouds, and the cold wind blew.

The cold wind chilled their bodies, but Leng Shuang's actions chilled their hearts.

"The wine is boiling," Yin Rong said, then held a spoon as she filled a cup for everyone.

Everyone hugged their enamel cups as they drank the hot wine in small sips. Only then did they feel warm.

He Zhiqiu suddenly moved his body from the small stool and knelt in front of Yu Huang.

Yu Huang was so frightened that she hurriedly stood up. The others were also stunned by He Zhiqiu's action. "Mr. He, what are you doing?!"

Lin Jiansheng also frowned and said to He Zhiqiu, "Brother He, Yu Huang is a junior. If you have something to say, just sit down and say it."

As He Zhiqiu looked up at Yu Huang, he refused to get up and his eyes were filled with tears.

He Zhiqiu choked on his tears and said, "We only ascended to the Cang Lang Continent after experiencing thousands of hardships. If we want to survive in the powerful Cang Lang Continent, we have to protect ourselves. Today, when I was alone and helpless, Yu Huang was able to step forward. This is no longer just a simple act of upholding justice."

"Yu Huang, you were willing to publicly offend Philand, Leng Shuang, and the others for my sake today. I'm really touched. However, do you know that by helping me seek justice, you've offended the factions behind these people? You're still young, and your future is full of boundless potential. I delayed your future..."

With that, tears streamed down He Zhiqiu's face.

How could an old man like him be worthy of Yu Huang making such a sacrifice for him?!

How should he repay such great kindness?!

He Zhiqiu wiped away his tears and raised the porcelain cup in his hand as he said resolutely, "I, He Zhiqiu, am willing to swear that I will forever follow Yu Huang and

follow her lead as her believer!" After saying that, He Zhiqiu raised his head and drank the slightly hot wine.

Swallowing that mouthful of hot wine shattered all the grievances he had suffered in the past.

For the first 90 years of his life, He Zhiqiu lived for himself. For the rest of his life, he would only work for Yu Huang!

Yu Huang pursed her rosy lips and stared at the old man silently.

She thought in amusement, "Old man, you're already so old, so you have to take things easy."

He Zhiqiu had already sworn on his soul, so how could Yu Huang be heartless enough to reject his kindness? Besides, she had indeed offended a large number of factions by helping He Zhiqiu today. In the future, if she wanted to survive in the Cang Lang Continent, she would indeed encounter many obstacles.

It wasn't too much for He Zhiqiu to work for her.

However, He Zhiqiu was old and would probably die before he even started working for her. Perhaps in the end, she would have to pay for the old man's coffin.

At the thought of this, Yu Huang was amused and touched.

"Alright! You'll follow me from now on!" Yu Huang picked up her hot wine to drink and accepted her first follower in the Cang Lang Continent.

Sheng Xiao and the others were caught between laughter and tears.

* *

Philand was taken away by the eight Prime Masters, so Ascension Town temporarily lost its overseer. Donor and Estelle had already completed the assessment mission, but they didn't know who to find to register their identities.

Two days later, early in the morning, Yu Huang walked into the base of the cotton shop.

"Mr. Zhang." When Yu Huang saw that Mr. Zhang was opening a package, she walked closer and realized that Mr. Zhang was holding a small children's backpack.

Mr. Zhang had his head lowered as he carefully adjusted the backpack's strap. Without raising his head, he said to Yu Huang, "If you have something to ask, ask it."

Yu Huang stared at the bag and asked Mr. Zhang, "Did you buy this for Ah Kong?"

Nodding, Mr. Zhang said, "Yes, I found a kindergarten for him and plan to send him to school."

"Isn't there a kindergarten in the town?"

Mr. Zhang finally raised his head to look at Yu Huang and said, "In another month, my work term will be over. I plan to quit my job in the Administration and bring Ah Kong back to the Great World. It's time for Ah Kong to study. I can't delay his studies because of me."

From what he said, he was planning to adopt Ah Kong officially.

But her mentor also wanted to raise Ah Kong.

However, this was between her mentor and Mr. Zhang. As an outsider, Yu Huang couldn't say anything.

"What are you doing here?" Mr. Zhang asked Yu Huang.

Only then did Yu Huang remember the serious matter. She said, "Mr. Philand left the town, but my companions have completed the assessment mission, so who should they find to register their identities?"

"The new overseer should be here by now. You can go to the Time Pavilion to look for him now."

"Oh really?" Yu Huang asked curiously, "Who is it?"

"I don't know." Shaking his head, Mr. Zhang said, "I heard that his surname is Si. He used to be the director of the Doomsday Battlefield Administration."

Yu Huang didn't have a good impression of the Doomsday Battlefield Administration.

When Sheng Xiao was bullied by the participants of the Great World, no one from the Administration stopped the bullies. However, when Sheng Xiao was about to kill them, those people appeared in time.

Yu Huang didn't have a good impression of the Battlefield Administration, who had bullied her man.

After leaving the town, Yu Huang accompanied Yin Rong, Donor, and the others to the beef noodle restaurant.

The door of the noodle shop, which had been closed for two days, finally opened. There was a pink seashell wind chime hanging under the roof, and the curtain behind the window had been changed to a pink gauze curtain.

It seemed that the new supervisor was a woman who liked pink.

Sensing that Yu Huang and the others had arrived, the new overseer shouted from the noodle shop—

“Come in!”

It was a rough male voice.

Yu Huang’s gaze lingered on the wind chimes under the roof and the pink gauze curtain swaying behind the window for a few more seconds before accompanying Yin Rong and the others into the shop.

After entering the shop, they realized that the interior of the noodle shop had also changed.

The only dining table in the room had been moved away. In its place, there was a wooden embroidery rack with a pure white silk cloth on it. A man in navy blue velvet pajamas sat in front of the embroidered rack with his back facing them. He held a cigarette in his left hand and a needle in his right. Ethereal smoke swirled around him.
