

She Shocks 481

Chapter 481: See Through The Disguise and Stay True to Yourself

At this moment, Yu Huang saw her former high school homeroom teacher, Li Shi.

After a few years, Li Shi's originally robust figure had gained a lot of weight because of his lack of exercise.

After gaining weight, Li Shi no longer wore oxford shirts, but polo shirts.

Today, Li Shi was wearing a blue and white striped polo shirt. He had a pitifully small mask on his chubby face. He was carrying a suitcase and undergoing testing at test number 5.

The officer checked Li Shi's arm and confirmed that he wasn't infected. The officer pointed at Li Shi's suitcase and said, "Open it and let me take a look." The suitcase could hold people. He was worried that Li Shi had hidden someone in the suitcase. According to the rules, the officer had the right to ask Li Shi to open the suitcase and check.

Li Shi thought: "You want to check exam papers that haven't been marked?"

He thought so, but he still bent down and opened the box.

When Yu Huang heard Li Shi's thoughts, the corners of her lips curled up slightly.

Seeing that Li Shi's box was filled with test papers and books, the officer was somewhat surprised. "It's so heavy. I thought it was money."

Li Shi said, "Heh, all money are stored in bank cards now. Who still carries cash? These are all the exam papers of my class. They haven't been marked yet. I'm a responsible homeroom teacher. I taught a top scorer on the college entrance examination in the past."

Li Shi closed the suitcase and carried it through the testing table. He turned around and said to the officer, "Why don't you ask me what the top scorer student I taught is called?" Yu Huang was the first top scorer Li Shi had taught in his life, and she might be the only one. Therefore, Li Shi could boast about Yu Huang becoming the top scorer for the rest of his life.

The officer couldn't be bothered with Li Shi. He didn't believe that this fatty could teach a top scorer.

"Oh, is that so? Then you're quite impressive." The officer was very perfunctory.

Seeing that the officer clearly didn't believe him, Li Shi scratched his head and said in a low voice, "I really taught a top scorer..."

Yu Huang suddenly walked over and called out in a low voice, "Teacher."

Upon hearing Yu Huang's voice, Li Shi suddenly turned around. He stared at Yu Huang's face, which was covered by a scarf. After recognizing that the murderous Beast Tamer from before was the top scorer student he was proud of, his mood instantly became complicated.

"Yu Huang, why are you here..." Li Shi knew Yu Huang's personality.

This child was definitely not a ruthless person.

She must also feel very sad to have killed those innocent citizens who had been cursed.

Li Shi reached out and patted Yu Huang's shoulder. He didn't ask why Yu Huang took on the responsibility of being an overseer, nor did he ask why she was so ruthless as to kill the man from before.

Li Shi only said with trust, "Yu Huang, I believe you. Just do what you want to do and have a clear conscience."

Yu Huang said, "Yes."

After watching Li Shi board the ship, Yu Huang went to test number 6.

Su Qianqian and the others happened to be at checkpoint 6.

Seeing that Yu Huang had been standing in front of test number 6, Su Qianqian secretly pulled Qin Hengzhi's sleeve. Qin Hengzhi lowered his head and heard Su Qianqian say, "Can we go to test number 7?"

When Su Qianqian saw Yu Huang kill that man without blinking, she was already afraid.

Qin Hengzhi said, "Don't be afraid. We're not infected. We'll be fine. Besides, it's almost our turn. If we change teams now, we'll definitely be discovered."

Su Qianqian could only give up.

"Next!"

The assistant hurriedly took a step forward and handed the form he had filled in in advance to the officer. The officer looked at his information and checked his arm. After confirming that the assistant wasn't infected, he said, "Go to Boat 4!"

The assistant heaved a sigh of relief and took the form with both hands while bowing to the Beast Tamers respectfully and stood in the empty space behind Yu Huang while waiting for Su Qianqian and Qin Hengzhi.

"Next."

Su Qianqian took a deep breath and stood in front of the test entrance.

As a professional actress, Su Qianqian's acting skills were naturally good. If she wanted to act as a healthy person who wasn't infected, it would be very difficult for others to notice.

Su Qianqian handed the form to the officer. Her voice also came from under the gas mask. "Hello, Sir. I'm actress Su Qianqian." After Yu Huang left the entertainment industry, Su Qianqian became the most dazzling young female celebrity in the entertainment industry. Even the officers who had been in the military camp for a long time knew Su Qianqian.

The movie that Su Qianqian acted in last time was shown in the military's screening room.

After knowing that the woman in front of him was the celebrity Su Qianqian, the officer became slightly more gentle.

However, even a big star had to follow the rules.

The officer said in a businesslike manner, "Let me see your arm."

Su Qianqian raised her arms calmly.

She was wearing a tube dress and her arms were not covered by any clothes. The officer lowered his head and glanced at Su Qianqian's arms. He saw that both her arms were very fair and her blood vessels were a faint light green. He picked up the steel seal and stamped it on the form. "Go to Boat 4!"

Su Qianqian took the form with both hands.

She saw the word "uninfected" on the form, but she didn't completely relax.

Because she understood that passing the officer didn't mean that everything was fine.

She would only truly pass if she could get past Yu Huang.

Su Qianqian walked calmly past the test entrance and arrived in front of Yu Huang. She held the form and bowed to Yu Huang and the other two Beast Tamers respectfully. Then, she stood up and walked towards the assistant.

From the corner of her eye, she saw that Yu Huang had her head lowered and didn't react. Su Qianqian thought that she had fooled her. She thought smugly, 'What Beast Tamer? She still didn't see through my disguise.'

Su Qianqian walked briskly towards the assistant. Before her feet touched the ground, she suddenly heard Yu Huang shout, "Stop."

Her voice was soft.

However, the moment Yu Huang spoke, everyone at the test window stopped working.

The officer, the Beast Tamer, and Qin Hengzhi, who was being tested, raised their heads to look at Yu Huang. Then, they looked at Su Qianqian.

Qin Hengzhi was shocked and uneasy.

Why did that person suddenly call out to Qianqian?

Su Qianqian's pupils dilated slightly. She wanted to pretend that she didn't know that Yu Huang was calling her, so she pretended that nothing had happened and continued walking towards the assistant.

At this moment, Yu Huang's voice sounded again—

"Stop, Su Qianqian!"

Since Yu Huang had called her name, Su Qianqian could no longer pretend.

Su Qianqian turned around stiffly.

Yu Huang was looking at her with a cold gaze.

Su Qianqian broke out in cold sweat when she saw Yu Huang's intimidating gaze.

"Lord." Su Qianqian braced herself and asked as calmly as possible, "Lord, what's the matter?" Perhaps, Yu Huang had only recognized her and wanted to catch up with her?

Su Qianqian could only comfort herself optimistically.

Su Qianqian didn't dare to think about the other possibility.

Qin Hengzhi hurriedly shouted at Yu Huang, "Sir, I'm Su Qianqian's manager. May I ask what stupid thing Qianqian did to offend you? Tell me, and I'll punish her!" Qin Hengzhi couldn't watch as Yu Huang targeted his money tree.

Yu Huang slowly walked to Su Qianqian. She didn't explain anything and only said, "Give me your arm!"

"What are you doing? That officer from before has already done the test for me!" Su Qianqian subconsciously looked at the officer who had done the test for her earlier. She said in a pitiful tone, "Sir, help me say something."

Su Qianqian was weak and pitiful. The military man couldn't bear to see her like this, but he didn't intend to protect Su Qianqian. He knew that this mysterious Beast Tamer was a supervisor personally hired by Her Highness. This supervisor had the right to make any requests.

The officer said to Su Qianqian, "Please cooperate with the supervisor!"

Su Qianqian felt despair when she saw that the officer was unwilling to help her.

Yu Huang warned Su Qianqian impatiently, "Raise your arms! Cooperate with us!"

Su Qianqian looked at Yu Huang in despair. She felt angry because of the ridiculous situation.

She really didn't expect that the woman who was mocked by people in the industry after her disfigurement back then would now become the supervisor who controlled her life and death!

Su Qianqian raised her right arm shakily.

Yu Huang said, "Left arm!"

Su Qianqian bit her lip and slowly raised her left arm.

Yu Huang reached out and grabbed Su Qianqian's left arm. She rubbed her arm heavily with her thumb, and there was actually a lot of foundation. Without the concealment of the foundation, the black blood vessel line on Su Qianqian's arm was instantly clearer.

When he saw that black line, the officer's expression changed drastically. Qin Hengzhi also widened his eyes. "Qianqian! You're infected!"

In less than an hour, the blood vessels on Su Qianqian's arm were even darker than before.

Yu Huang stared at the black line, and her gaze instantly became fierce.

“Su Qianqian, as an infected person, you actually dared to try to smuggle through and wait for an opportunity to escape! Do you know that your actions might bring destruction to the entire Divine Moon Empire?! You are a female celebrity and are loved by tens of millions of people. You are doted on by them, so how can you bear to harm them?!”

Yu Huang looked down on Su Qianqian’s actions.

Although it was natural for people to be afraid of death, as a female artiste, Su Qianqian had enjoyed the best things in life. She shouldn’t have done such a selfish thing.

This wasn’t what an idol should do!

Su Qianqian was so frightened by Yu Huang that she immediately cried.

She suddenly took off her gas mask and pulled off Yu Huang’s scarf.

The scarf was lifted, revealing Yu Huang’s face. Her skin was fair, and her facial features were gorgeous. She was peerlessly beautiful.

Su Qianqian stared at Yu Huang’s face. She smirked as she said in tears, “Yu Huang, you hate me, right? You hate me for snatching your opportunities and hate me for hitting you when you were at your lowest point! You’re waiting for an opportunity to take revenge on me, right?!”

Yu Huang stared at Su Qianqian coldly. She couldn’t be bothered to argue with her and waved at the officer in the distance. “Send her back to the Prosperous Capital!”

The officer immediately walked over and grabbed Su Qianqian’s arm before bringing her to the bus. Su Qianqian scolded Yu Huang, “Yu Huang! You b*tch! You’re just jealous that I’m famous now and that I won the Best Actress Award!”

“Yu Huang! You murderous demon! You’ll die a horrible death!”

Su Qianqian’s curses were getting further and further away, but Yu Huang was still standing upright in front of the test entrance. She was calm and composed.

No matter how the world humiliated and slandered her, she remained true to herself.

Chapter 482: A Game

Su Qianqian took the initiative to remove her gas mask and everyone recognized her.

She cursed as the officer dragged her to the bus.

Wherever Su Qianqian passed, all the citizens quickly covered their mouths and noses with their clothes or masks and took a step back in fear, for fear that they would be infected by Su Qianqian.

The double-storey bus in the Prosperous Capital could seat a hundred people. Now, there were already 20 infected people on the bus.

When Su Qianqian saw the pairs of despairing and lifeless eyes in the car, a strong sense of fear suddenly overcame her.

“I don’t want to get in the car!” Su Qianqian hugged the car door tightly and refused to get in.

The officer was very tall and sturdy. He was a Beast Tamer who had awakened his beast form.

After the incident of an officer being maliciously retaliated against by an infected person, Sheng Xiao quickly organized two teams of Beast Tamers to be in charge of handling the infected citizens.

The ordinary soldiers were in charge of maintaining order.

The officer escorting Su Qianqian looked to be in his forties. Because he had been in battle for many years, his gaze was extremely sharp.

He pried Su Qianqian’s fingers away from the car door one by one.

With every finger that was pried off, the despair in Su Qianqian’s eyes deepened.

“Sir.” Su Qianqian bit her lip and looked at him with tears in her eyes. She said, “Sir, please let me go!” Su Qianqian deliberately bent down, revealing her cleavage.

Su Qianqian was very confident in her beauty.

In the entertainment industry, there were countless seniors and big shots who coveted her body.

The officer in front of her looked like the type who stayed on the front line all year round and rarely came into contact with women. Su Qianqian pretended to be calm and smiled charmingly. She said in a weak voice, “Sir, I’m the female celebrity, Su Qianqian. Let me go. After this Death Curse is cured, I’ll look for you personally.”

Su Qianqian bent down even lower, revealing more of her cleavage.

She looked at the officer seductively and hinted, “From now on, I will only serve you.”

The officer was speechless.

“How f*cking disgusting! Do you think I’m so pitiful that I can’t find a woman?! Do you think you can be better than others just because you’re good-looking?” The officer mercilessly pulled Su Qianqian’s fingers away from the door. Then, he picked up Su Qianqian’s arm and roughly pushed her into the bus before closing the door.

* *

When Qin Hengzhi saw that Su Qianqian was infected and sent back to the bus, he immediately felt uneasy.

The officer in charge of the test stared at his arm a few more times before picking up the second seal on the table and stamping it on Qin Hengzhi’s form. “Qin Hengzhi, go to Boat 1 to quarantine.” After a pause, he said, “And Mo Bei.”

Mo Bei was Su Qianqian’s assistant.

Qin Hengzhi and Mo Bei were sent to Boat 1.

There were two Level 5 Purifying Spirit Masters on Ship No. 1. They were responsible for the second physical examination of the isolated citizens who were sent to Ship No. 1. Once they were discovered to have been infected, the infected people would be sent back to the city. Those who were not infected would go to Ship No. 3 or Ship No. 4.

Because Su Qianqian was infected, Qin Hengzhi and Mo Bei were naturally quarantined.

The surveillance work continued in an orderly manner. At the same time, more and more citizens in the Prosperous Capital discovered that they had been infected. Most of the citizens accepted their fate after discovering that they had been infected. They gave up the chance to escape and chose to stay with their families to wait for death.

Of course, there were also a large number of people who were like Su Qianqian. They clearly realized that they were infected, but they tried to smuggle through.

At night, the infection test continued.

At night, the secretary of the mayor handed the latest data of the infected people to Lu Yubei.

Lu Yubei took the data report and saw that the total number of infected people had exceeded 1.2 million. He immediately leaned heavily on the pearwood chair.

Lu Yubei put down the report and pinched his glabella with his index finger and thumb while revealing a sad expression.

In just half a day, 1.2 million people were infected.

By tomorrow morning, this number would definitely double.

Lu Yubei opened his eyes and perked up. He picked up the phone on the table and called the headquarters of the Beast Tamer Alliance in Jingdu.

The person who picked up the phone was Fu Yu'an. "Hello, this is the secretary office of the President of the Beast Tamer Alliance. I'm Fu Yu'an."

"Secretary Fu, I'm the mayor of the Prosperous Capital, Lu Yubei."

Fu Yu'an immediately stood up, and there was more respect in his voice. "Sir, what's the situation in the Prosperous Capital now?" As he spoke, Fu Yu'an had already picked up the phone and walked into Sheng Lingfeng's office.

Lu Yubei sighed sadly and said, "As of the data I obtained just now, 1.2 million citizens of the Prosperous Capital have been infected. I estimate that by tomorrow night at the latest, the entire Prosperous Capital will fall."

In the face of the Death Curse, Lu Yubei was helpless.

He had called to ask if the Alliance Headquarters had any countermeasures.

"Secretary Fu, are you really planning to abandon the Prosperous Capital?"

Fu Yu'an stopped in his tracks.

He stopped and said to Lu Yubei in a low voice, "This is the most tragic disaster in the history of the Holy Spirit Continent. None of us want to see it happen. But it has already happened, so we have to minimize its impact."

"I know that abandoning the Prosperous Capital is inhumane. But if we don't abandon the Prosperous Capital, then the entire Holy Spirit Continent will fall."

"Abandoning the millions of citizens in the Sheng Capital is for the future of humanity and the Holy Spirit Continent."

Lu Yubei suddenly cried on the phone. He roared in a low voice, "But there are millions of lives! Didn't we boast that we were powerful? Don't we have Prime Masters?! Why can't anyone save them?!"

Facing Lu Yubei's breakdown and rampage, Fu Yu'an was not angry at all.

On the contrary, Fu Yu'an did not feel good either.

Fu Yu'an told him, "This is actually a game. It's a game between the Blood Peacock and all the Beast Tamers in the cultivation world of the Holy Spirit Continent."

Fu Yu'an told Lu Yubei, "We have already received a letter of challenge from the Blood Peacock Organization. They publicly admitted that the disaster in the Prosperous Capital was caused by them. They also said that they have a way to resolve this disaster. However, the Blood Peacock made a request."

Lu Yubei was stunned. "The Death Curse was activated by the Blood Peacock?"

"Yes."

An hour ago, the Blood Peacock Organization took the initiative to call the President's secretary office. Su Xuanye admitted his crimes against the Prosperous Capital on the phone. He also said that he had a way to resolve this crisis.

However, if they wanted to save the lives of the millions of people in the Prosperous Capital, they had to promise him one thing.

Chapter 483: Never Give Up

Lu Yubei clenched his fists and gritted his teeth as he asked, "What does he want?!"

Fu Yu'an said, "He wants the Beast Tamer Alliance to cooperate with him and plant the Spirit Restraining Parasite on all children under the age of 13. He also wants all the Beast Tamers in the cultivation world to self-destruct their Beast Hearts and become ordinary people. He wants there to be no more Beast Tamers on the Holy Spirit Continent!"

"What?!" Lu Yubei's eyes widened.

"Actually, it's not only the Prosperous Capital that has a Death Curse case. Currently, there are Death Curse cases on all the continents. After Su Xuanye cultivated the fruit of the curse, civilians infected by the Death Curse were secretly sent to all the continents. Currently, there are Death Curse cases in the

capital of the Light Sea, the Blazing Realm Continent's Huo Yang City, the Ice Domain Continent's Snowfall City, and the Beast Continent's Lion King City. Currently, these cities have already taken measures to seal the city."

And these cities had one thing in common, which was that they had a large population and were prosperous.

"Mr. Lu, this isn't a disaster for the Prosperous Capital, but for the entire continent."

After receiving Su Xuanye's letter of challenge, the Beast Tamer Alliance held an emergency meeting. At this moment, both the beastmen and the elves had arrived in Jingdu and were discussing in the international conference room.

When Lu Yubei learned of this news, he was shocked and felt that it was ridiculous.

For a moment, he didn't know if he should admire Su Xuanye's ruthlessness or despise his heartlessness.

Should he sacrifice the lives of 40 million citizens to protect the Beast Tamer's own interests? Or should he sacrifice all the Beast Tamers to save the lives of those 40 million citizens? Su Xuanye had already handed the decision to them.

It had to be said that this move was ruthless.

This was no longer a disaster for the Prosperous Capital, but for the entire continent.

Knowing that he wouldn't get the answer he wanted from Fu Yu'an, Lu Yubei hung up.

Lu Yubei put down the phone, pulled up the suit jacket hanging on the floor rack, and put it on. He walked out of the majestic manor and onto the street.

The usually bustling streets had become chaotic.

On the street, there were people fighting, people robbing, people hugging their heads and crying, and there were also children hugging dolls and shouting for their mothers helplessly.

After Lu Yubei graduated from the Divine Realm Academy, he had been working in the Prosperous Capital's Mayor Manor. It took him 30 years to climb from the bottom to the position of Mayor. For 30 years, he lived in the Prosperous Capital, and the Prosperous Capital had long become his home.

When Lu Yubei saw the destroyed boutiques and the chaotic streets, he suddenly squatted down on the spot and hugged his head while crying.

As the mayor, he felt guilty for failing to protect his citizens!

At this moment, the little girl holding the doll noticed Lu Yubei. She came to Lu Yubei timidly and looked at him silently.

Realizing that someone was standing in front of him, Lu Yubei slowly raised his head and saw a dirty doll.

"Sir, you can't find your mother either?" The little girl stuffed the doll between Lu Yubei's arms. She wiped her tears and pouted. "I can't find them either, but I'm not crying."

Lu Yubei clenched the doll tightly and stared at the black blood vessel on the little girl's arm. He felt so uncomfortable that his heart ached. "Little girl, where are your parents?"

The little girl pouted in grievance and wanted to cry again.

She quickly wiped her tears and hiccuped before saying, "Mommy said that I was infected. She went with Daddy to buy medicine for me and asked me to wait for them at home. But it's already dark, and they still didn't come back." The little girl asked Lu Yubei, "They won't come back, right?"

Lu Yubei reached out and touched the little girl's hair. He said, "This city has a plague, and you're infected. Your parents must have gone to another city to live."

The little girl thought about it seriously before asking, "Is the other city infected?"

Lu Yubei thought about it and said, "If you guys stay in the Prosperous Capital obediently, then the other cities won't."

The little girl looked at Lu Yubei with tears in her eyes. She said, "I hope that Daddy and Mommy are healthy. In that case, I'll stay in the Prosperous Capital." The little girl pointed at the city wall beside the Mayor Manor and cried, "I definitely won't run out of the city gate. I'll stay here obediently. When this city recovers, my Daddy and Mommy will come back to find me!"

"Alright, then follow me. I'll wait for Daddy and Mommy with you."

Lu Yubei brought the little girl back to the Mayor Manor. After settling her down, he went to the office and called his secretary and assistant to the office.

Seeing a dirty doll on Lu Yubei's table, the secretary and assistant looked at each other and didn't speak.

"I called you here to order you guys to do a few things."

"Please instruct us."

Lu Yubei said, "I went to the city just now and found many children and old people who were separated from their families. These people have been infected. I want you to gather the children abandoned by their parents and the old people who can't move. In addition..."

After a pause, Lu Yubei continued, "The more chaotic the situation is, the less humane people become. From now on, the financial center building will be requisitioned as a temporary shelter for women. The Prosperous Capital's trading building will also be requisitioned as a shelter for males. By grouping men and women separately, many chaotic situations can be avoided."

"During this period, if there are any citizens who dare to challenge the law, they will be executed!"

The secretary and assistant knew very well what the chaotic scene Lu Yubei was talking about was. The more chaotic the situation was, the greater the manifestations of evilness. Currently, there were only scenes of looting and smashing in the city. Later, there might be situations where weak women were raped.

Grouping men and women separately in advance could prevent trouble.

Lu Yubei stared at the dirty doll on the table and said, "Even if the entire world abandons us, we definitely can't abandon our citizens!"

"Yes, mayor!"

* *

At the Beast Tamer Alliance headquarters.

International Conference Room building.

Today, all the top experts of the Holy Spirit Continent were gathered here.

The interior of the conference building was fan-shaped. In front of the conference room, there was a huge screen. At this moment, the screen was broadcasting the scenes of the five infected cities. Sheng Lingfeng looked up at the heartbreaking scene in the live broadcast. He felt his heart ache and lowered his head in shame.

Just like him, the other Beast Tamers felt ashamed and helpless. They couldn't bear to watch the live-stream.

Someone said, "Turn it off."

Then, more and more people echoed.

Fu Yu'an picked up the remote control and turned off the live broadcast.

No longer seeing those heartbreaking scenes, the experts in the conference room immediately heaved a sigh of relief.

There was a black conference table under the big screen with six microphones on it. Sheng Lingfeng walked to the back of the conference table and stood there. He took out a piece of paper from his document bag and said, "Two hours ago, the Blood Peacock issued a challenge to the entire cultivation world!"

Sheng Lingfeng placed the letter of challenge on the table. He aimed a camera at the paper and projected the contents of the paper onto the big screen.

All the Beast Tamers saw the contents of the paper clearly

[To all Beast Tamers:

I, Su Xuanye, have already sent five civilians who were cursed to the Prosperous Capital, Holy Mountain, Lion King City, Huo Yang City, and Snowfall City respectively yesterday afternoon. In less than three days, these five cities would definitely fall. In less than ten days, the Holy Spirit Continent would also be destroyed.

Then, Beast Tamers, I wonder if you are willing to save the entire Holy Spirit Continent?

If you are willing to self-destruct your Beast Heart and establish Spirit Restraining Sites all over the world, take the initiative to plant Spirit Restraining Parasites for every child, and swear that no new

Beast Tamer will awaken on the Holy Spirit Continent, then I am willing to take the initiative to provide a way to resolve the Death Curse.

If you reject my suggestion, then I can only send the civilians of the Holy Spirit Continent to death!

Upon seeing every word on the paper, the experts were enraged.

“Su Xuanye is shameless!”

“Despicable! He actually mercilessly gambled with the lives of all the commoners in the world. He really deserves to die!”

The Grand State Master looked at the letter of challenge calmly and didn't say a word.

Chapter 484: Anna Is That Chance of Survival

Suddenly, Xuanyuan Shen stood up and said in a puzzled tone, “I've never figured out one thing. After the battle of the Eight Towers Mountain, Su Xuanye was greatly injured and went into hiding. The traitors who followed him in the Divine Realm Continent were also captured and imprisoned in the Beast Tamer Prison. If he wanted to create a Death Curse, he had to form a curse fruit. Everyone knows that when a hundred Beast Tamers with the cultivation of a Supreme Master self-destruct their beast hearts, they can use their will to form a curse fruit.”

“But recently, no Beast Tamer with the cultivation of a Supreme Master has died or disappeared in the cultivation world. Then, where did the hundred or so Beast Tamers who created the Death Curse come from?!”

After hearing Xuanyuan Shen's question, everyone started whispering.

“That's right. More than a hundred Supreme Master powerhouses suddenly died. This is a big deal.”

“Which Supreme Masters betrayed us?!”

Sheng Lingfeng raised his arms and gestured for silence.

Seeing this, everyone fell silent.

Sheng Lingfeng told them, “The Alliance has already found the whereabouts of the hundred Supreme Masters.”

Below, Fu Yu'an opened his laptop and opened a document called prison. The moment the document was opened, the scene of the Beast Tamer Prison appeared in front of them.

There were 18 levels in the prison. The lower the level, the heavier the punishment.

Staring at the terrifying punishment devices inside the prison, everyone felt their scalps go numb.

“President, why are you showing us the prison surveillance cameras?”

Sheng Lingfeng told everyone, "We've already thought of this question. In order to investigate the origins of the hundred Supreme Masters, we thought of many possibilities. In the end, I thought of the Beast Tamer Prison."

At this moment, Fu Yu'an picked up the microphone and explained, "After the battle of the Eight Towers Mountain, all the Beast Tamer traitors were locked up in the Beast Tamer Prison. During that period of time, the President of the Alliance was Garo Zhengyang. As the President, Garo Zhengyang had control over the prison."

At this point, Fu Yu'an's expression instantly turned cold. He said angrily, "But Garo Zhengyang colluded with Su Xuanye internally and externally and secretly transferred the prisoners out of the prison through the underground tunnel!"

Garo Zhengyang needed to absorb the spiritual energy of powerful Beast Tamers to increase his cultivation, while Su Xuanye needed pious believers to create the Death Curse.

The two of them hit it off immediately and released the Beast Tamers imprisoned in the prison.

Now, all the traitors in the Beast Tamer Prison had been transferred.

The Beast Tamer Prison had always been the most heavily guarded place in the Holy Spirit Continent. Fu Yu'an and Sheng Lingfeng did not expect Garo Zhengyang to do such an inhumane thing.

After knowing the truth, everyone was stunned.

Caro Xiangfu buried his head in shame and was too ashamed to face anyone.

"The Death Curse has been successfully created by Su Xuanye. This matter is already set in stone." Sheng Lingfeng narrowed his eyes and looked at the experts of the various continents in front of him. He said in a low voice, "Everyone, you have all seen the contents of the challenge letter in my hand. I called you here today to discuss countermeasures."

"At the moment, we still can't find a way to resolve the Death Curse. Now, the five capital cities, including the Prosperous Capital, have already fallen. If we can't find a way to resolve the Death Curse, then soon, the entire Holy Spirit Continent will fall."

"Everyone, what do you think?"

After hearing Sheng Lingfeng's words, the meeting room became noisy.

A Grand Master with a human body and a snake tail stood up and cursed, "Why should we submit to Su Xuanye's blackmail?! If all of us Beast Tamers join forces, we don't believe that we can't deal with a mere Blood Peacock Organization!" The feeling of being controlled by Su Xuanye was really suffocating!

The leader of the Lion King Clan also stood up and said, "That's right! We, the beastmen, elves, will join forces with the humans and behead that bastard Su Xuanye!"

The Grand State Master suddenly sneered. He said in a neutral voice, "Let's join forces and chop off Su Xuanye's head. Then?"

The leader of the Lion King Clan looked at the Grand State Master with some fear. He said, "Then, we'll destroy his nest!"

The Grand State Master continued, "Then what? Kill Su Xuanye, destroy his nest, and watch as seven billion civilians of the Holy Spirit Continent die for nothing? Is this your plan?"

The leader of the Lion King Clan was speechless.

Queen Daiya of the Elve Clan slowly stood up and said, "Now, it doesn't matter if we kill Su Xuanye or not. Whether we can resolve the death curse and save all the civilians of the Holy Spirit Continent is the only thing we should think of now."

Sheng Lingfeng nodded at Queen Daiya. "Queen Daiya is right. At this time, even if we work together to destroy the Blood Peacock's nest, it will be useless. What we should do now is find a way to resolve the Death Curse. The only person who knows the way to resolve the death curse is Su Xuanye."

"Everyone has seen Su Xuanye's request. If we want to save the world, we have to do as he asks..." After a pause, Sheng Lingfeng looked up at the strongest Beast Tamers and said, "Self-destruct the Beast Heart, plant the Spirit Restraining Association, and plant the Spirit Restraining Parasite for all the children. This is the only way to save the world."

When they heard this, there was silence in the conference hall.

Self-destructing a Beast Heart was easy to say, but how many Beast Tamers were willing to self-destruct?

If they self-destructed their beast hearts, they would lose their cultivation and become ordinary people.

How could someone who had been strong be willing to become an ordinary person once again?

Sheng Lingfeng sighed and said, "The Holy Spirit Continent has a total of more than seven billion people, and as of June this year, we have a total of 1.86 million Beast Tamers. The real citizens of the Holy Spirit Continent are the seven billion civilians, and we are just lucky people favored by the heavens!"

"We have enjoyed the greatest benefits on this continent and obtained supreme glory and power. Then, when calamity descends upon us, us cultivators must be the first to suffer, if suffering there must be, but if benefits are to be gained and distributed, be the last to claim them!" Sheng Lingfeng hammered his chest hard and said loudly, "I, Sheng Lingfeng, am willing to self-destruct my beast heart and save the world!"

Sheng Lingfeng's voice spread throughout the entire conference building.

For a moment, the hall was silent.

Everyone looked at Sheng Lingfeng. Some were filled with admiration, while others felt guilty for their selfishness and cowardice.

Soon, Liuli Xiangsi, who was wearing a red dress, stood up charmingly. She said, "The Patriarch of the Divine Realm Continent's Liuli Clan, Liuli Xiangsi, is willing to self-destruct her beast heart in exchange for the lives of all the living beings in the world!"

“Feng Tang, the head of the Feng family of the Ice Domain Continent, is willing to self-destruct his beast heart in exchange for the lives of all living beings in the world!”

“The elven queen, Daiya, is willing to self-destruct her beast heart in exchange for the lives of all the living beings in the world!”

“I, Di Ruofeng, am willing to self-destruct my beast heart and disband the Divine Realm Academy in exchange for the lives of all living beings!”

...

More and more Beast Tamers stood up and expressed their positions. The Grand State Master watched this scene quietly and suddenly smiled with relief.

“Actually, we still have a chance of survival.”

Hearing this, everyone looked towards the Grand State Master.

The old dean, Di Ruofeng, asked, “Grand State Master, you mean...?”

Sheng Lingfeng also looked at the Grand State Master with a burning gaze. “Grand State Master, did you divine a chance of survival?”

The Grand State Master shook his head. “It wasn’t me. Yu Huang predicted this chance of survival.”

Sheng Lingfeng knew that Yu Huang had the Eternal Eye. He hurriedly asked, “Grand State Master, what does Ah Huang mean by this chance of survival?”

The Grand State Master smiled and said, “Every time there’s chaos, the heavens will leave a chance of survival in the corresponding world. This chance of survival is the Eternal Eye and the Divine Beast Form!” The Grand State Master looked at Sheng Lingfeng and said, “Yu Huang’s eyes can see the future and the past. They are the Eternal Eye. And...”

The Grand State Master looked at the old dean, Di Ruofeng, and said, “There is a type of beast form that can use all things in the world as nourishment, be it spiritual power, magic power, or poisonous gas. Anything in the world that enters its body can automatically be transformed into an energy body and be absorbed by it...”

“Grand State Master, you mean...” The old dean widened his eyes in disbelief and cried out, “Anna!”

Chapter 485:

The Grand State Master nodded at the old dean and said, “It’s Anna.”

Anna?

Many people revealed puzzled expressions.

Who was Anna?

This name was too common. In the Elve Clan and Beast Clan, people called Anna were everywhere.

However, they didn't know any powerful Beast Tamers called Anna.

On the other hand, Xuanyuan Shen's expression became strange when he heard Anna's name.

"Anna?" Sheng Lingfeng asked in surprise, "But isn't Anna's Mutated Devouring Beast a demonic beast?"

The Grand State Master shook his head slightly and said, "The demonic beast form can't be controlled by the host. Instead, it will devour the host's consciousness. The mutated demonic beast form that can be controlled by the host is actually a divine beast form. A Death Curse that can't be resolved with the Purifying Spirit Art can be devoured by the divine beast form."

"There's actually such a magical beast form!" Sheng Lingfeng had lived for more than a hundred years, but this was the first time he had heard of such a powerful beast form.

"In every world, there will be a pair of Eternal Eyes and a divine beast form. The Eternal Eye is easy to distinguish, but the divine beast form is extremely similar to the demonic beast form. Perhaps those beast tamers who have awakened the divine beast form will be killed by other beast tamers as demonic cultivators before they can unleash their true divine power."

At this point, the Grand State Master glanced at Xuanyuan Shen meaningfully.

Xuanyuan Shen didn't dare to look straight at the Grand State Master and hurriedly lowered his head.

The Grand State Master told Sheng Lingfeng and the others, "A few days ago, Yu Huang predicted a disaster, but her current cultivation level was still low, so she didn't see where the disaster happened and when it would erupt. However, she predicted Anna's contribution during that disaster. Therefore, when she found out that Patriarch Xuanyuan had led a large number of experts from the Divine Realm Continent to the Abyssal Origin Forest to kill Anna, Yu Huang begged me to protect Anna."

"Patriarch Xuanyuan was determined to get rid of the demon and wanted to kill Anna no matter what. Fortunately, I wasn't too late and my cultivation level wasn't weak, so I saved Anna from Patriarch Xuanyuan. Otherwise..."

Otherwise, if Anna was really killed by Xuanyuan Shen, then the Prosperous Capital and the other four cities would completely fall, and the cities would be destroyed!

Upon hearing the Grand State Master's words, everyone looked at Xuanyuan Shen with suspicion.

Liuli Xiangsi immediately mocked Xuanyuan Shen. She said, "On the day the Imperial Dragon Mountain collapsed, Yu Huang was almost killed by Garo Zhengyang, but I didn't see Patriarch Xuanyuan save her. Now that it's time to subdue the demon, Patriarch Xuanyuan has become proactive and righteous. I really wonder if Patriarch Xuanyuan hates demons, or found out something in advance, so he wanted to kill Anna."

Liuli Xiangsi and Liuli Nuonuo had always been competing when they were young. They both wanted to be the future successor.

However, before a victor could be decided between the two of them, Liuli Nuonuo was raped by Xuanyuan Shen, ruining her reputation.

After Liuli Nuonuo married Xuanyuan Shen, Liuli Xiangsi naturally became the heir and took over the Liuli Clan.

Although Liuli Xiangsi was competitive, she was also an upright person. Liuli Xiangsi disdained winning without a fight.

When she thought of the despicable methods Xuanyuan Shen used on Liuli Nuonuo back then, Liuli Xiangsi looked down on Xuanyuan Shen.

She had always known that Xuanyuan Shen wasn't a good person, and she didn't believe that Xuanyuan Shen gathered a large number of experts to kill Anna out of justice. This person most likely had a guilty conscience and wanted to kill Anna to achieve a certain goal.

When Xuanyuan Shen heard Liuli Xiangsi's words, his face instantly turned red. "Liuli Xiangsi, what nonsense are you spouting?! I didn't know that Anna had a divine beast form. She cruelly killed three guest elders of the Xuanyuan Clan. Isn't it only right for me to kill her?!"

"Besides, everyone is responsible for killing fiendish cultivators!"

Liuli Xiangsi snorted. "Heh! Garo Zhengyang was also a fiendish cultivator. Why didn't you kill him?!"

Xuanyuan Shen was speechless.

Sheng Lingfeng said at the right time, "Alright, now isn't the time to quarrel."

Seeing that Sheng Lingfeng had spoken, Liuli Xiangsi shut her mouth. Xuanyuan Shen glanced at Sheng Lingfeng and the Grand State Master fearfully and quickly lowered his head to reduce his presence.

The Grand State Master looked at the old dean and asked, "Dean Di, where is Anna?"

Di Ruofeng subconsciously looked at Sheng Lingfeng. "My disciple follows your son and daughter-in-law every day. Tell me, where is she?"

Sheng Lingfeng was speechless.

"Wait a moment. I'll call and ask."

Sheng Lingfeng hurriedly called Yu Huang.

It was already late at night, but the Three Waters Pier of the Prosperous Capital was still crowded.

Yu Huang picked up the phone and shouted, "Dad."

"Ah Huang, is Anna with you?"

Yu Huang subconsciously thought of the scenes she had seen through the Eye of All Things.

Yu Huang told Sheng Lingfeng, "Anna went to pick Vivian up. Vivian's family is infected. She's pregnant but isn't infected. She's on her way to Jingdu."

"When will she come back?"

Yu Huang looked at her watch and said, "It should be soon. I'll call and ask."

After hanging up on Sheng Lingfeng, Yu Huang called Anna.

Late at night, Anna and the Icy Night T-Rex stood at the entrance of the toilet in the highway service area. They were waiting for Vivian.

The people at the Prosperous Capital Healing Center thought about how Vivian's family was infected and were worried that she might also be infected, so they specially arranged a small car for her to escort her to Jingdu on the highway. This would reduce her contact with others.

Anna drove her car and waited for Vivian in a high-speed service area.

Anna was wearing a gothic black tube top dress today. She had a ruby necklace on her neck and a small black bag with a chain on her shoulder. Her hair was styled into low pigtails. Anna stood in the service area .

However, beside this little girl was a fierce-looking ice-blue Tyrannosaurus.

The passing tourists couldn't help but secretly size up Anna and the huge Tyrannosaurus beside her.

The combination of a lolita and T-Rex was superb.

Suddenly, Anna's phone rang.

Anna thought that Vivian had arrived and hurriedly took out her phone. Seeing that it was a call from Yu Huang, Anna smiled sweetly again. "Yu Huang, I haven't seen Vivian yet. When I called earlier, she said that she would be here in half an hour."

Yu Huang nodded and told her, "After you pick up Vivian, go to the Alliance headquarters."

Anna asked curiously, "Why are we going there? Is there a new mission?"

"They have something to ask of you."

"Something to ask of me?"

The Alliance was filled with big shots. Anna really didn't know what she could help them with.

"Okay."

At that moment, a white car drove into the service area and noticing the letter "S" on the front of the car plate, Anna said, "They're here. I'll hang up first." With that, Anna hung up and ran towards the car.

In the car, Vivian was sleepy from the bumpiness. After she fell asleep, she kept dreaming of the tragic deaths of her family.

"Ah!" Vivian was startled awake and found someone beside her.

Vivian turned her head and saw Anna's face. She suddenly relaxed. "Anna!" Vivian hugged Anna tightly. She could no longer hold back her emotions. She revealed her most fragile side and hugged Anna while crying.

Anna patted Vivian's back gently and comforted her. "Alright, Vivian, you're safe."

Vivian bit her lip and choked. "Ah Feng and my family are all infected. On the way here, I saw the emperor's speech. Anna, the Prosperous Capital has been sealed, right?"

Anna didn't hide it from Vivian. She said, "The Prosperous Capital has been sealed. I heard from Yu Huang that other than the Prosperous Capital, there are four other major cities on the Holy Spirit Continent that have also been sealed. Even the capital city of the Elven Kingdom has been sealed. Vivian, this Death Curse isn't only a disaster for the Prosperous Capital, but also for the entire continent."

Vivian let go of Anna and looked at her with tears in her eyes. She asked in disbelief, "Is it that serious? His Majesty said that if the city isn't sealed, the entire continent will fall and all humans will go extinct. Is that true? Is it really that serious?"

"... Yes."

The hope in Vivian's eyes was instantly extinguished. "Then, is it really hopeless for Ah Feng and the others to be saved?"

Anna couldn't answer the question.

To be precise, she couldn't bear to answer this question.

Seeing Anna's silence, Vivian understood what she meant.

Vivian sat back down. She leaned against the back of the chair and started to cry silently. Vivian placed her hands on her stomach. The thought of being alone with the child in her stomach when it was born and growing made her heart ache.

How could this be?

Everything was fine yesterday. How did it suddenly become like this?

Anna looked at Vivian's face, which was full of tears, and felt upset. She held Vivian's hand. "Vivian, I'm sorry."

Vivian covered her mouth with her hand and tried not to cry.

Finally, the car arrived in Jingdu at half past four in the morning.

Anna sent Vivian to Yu Huang's villa beside Lovers Lake.

The butler saw that Vivian had been running all the way and because she was too sad, her face was very haggard. Without Anna's instructions, the butler thoughtfully made a bowl of Soul Calming Grass for Vivian. This Soul Calming Grass soup wouldn't have any side effects on the child in Vivian's stomach and could even have a nourishing effect.

The butler lied to Vivian. "Miss Vivian, you've been on the bus all day. You must be tired. Have some warm soup before you rest. You're pregnant now. You can't starve the baby."

The baby was the only thing that kept Vivian alive.

Vivian stared at the pale green Soul Calming Grass and asked curiously, "What soup is this?"

Anna said, "A nourishing soup." The Soul Calming Grass was extremely expensive. Anna was afraid that Vivian wouldn't dare to drink it after knowing the value of this bowl of medicine.

Hearing this, Vivian didn't suspect anything and drank the soup in one gulp.

Chapter 486: Hundred Division Sacrifice, Helping Anna Become Emperor

The Soul Calming Soup was made by Lan Yao for Sheng Xiao a few years ago. It was very effective. Vivian drank the Soul Calming Soup and felt exhausted in less than half an hour.

Vivian fell asleep on the sofa.

Anna was petite, but she was strong. She easily carried Vivian and sent her into the guest room.

After covering Vivian with a thin blanket, Anna lowered her head and kissed Vivian's forehead. She whispered, "Vivian, rest well. I hope you can get good news when you wake up." Anna left the room and said to the butler, "I need to go to the Alliance Meeting."

The butler said, "Young Master has already called me to tell me about this. The car is ready. I'll get someone to send you there."

"Sorry to trouble you."

"It's my duty."

Anna and the Icy Night T-Rex got into the car heading to the Alliance headquarters.

As soon as Anna appeared at the front desk of the headquarters building, the front desk picked up the phone and called the secretary's office. "Anna has arrived at the headquarters building."

Fu Yu'an hung up and quickly went to the conference building.

He pushed open the door and entered. A group of big shots looked up at him.

Sheng Lingfeng looked at him too. "What's wrong?"

Fu Yu'an walked to Sheng Lingfeng and nodded. "President, Anna will be here soon."

Sheng Lingfeng immediately stood up.

Soon, Anna was led into the conference hall by a staff member.

The most powerful people in the entire continent were gathered in this building.

Anna walked into the conference room and looked up. When she saw so many big shots, her legs immediately went weak.

Anna felt helpless and uneasy. After she found her mentor's location, she hurriedly walked to Di Ruofeng's side. Anna hugged Di Ruofeng's arm and asked softly, "Mentor, why did you ask me to come over?!"

Di Ruofeng blinked at Anna and said mischievously, "I want you to be a hero and save the world."

Anna was speechless.

Everyone was sizing up Anna.

Anna was about 1.5 meters tall and looked very petite.

Could such a cute little girl awaken a divine beast form?

Everyone was skeptical.

Sheng Lingfeng waved at Anna and said, "Anna, come here."

Anna glanced at Di Ruofeng and stood up after seeing him nod at her. Anna tightened her grip on the dress and sighed to herself before walking to the front of the conference hall in front of everyone.

Anna looked up into Sheng Lingfeng's eyes and asked softly, "President, why are you looking for me?"

Sheng Lingfeng looked at the Grand State Master.

Anna also looked at the Grand State Master.

The Grand State Master had saved Anna once. Anna respected and admired the Grand State Master. "Grand State Master, why are you looking for me?"

The Grand State Master walked down from his seat. He walked to Anna and lowered his head to tell her, "Anna, we have discovered a way to resolve the Death Curse. This method is related to you."

Anna's eyes darted around. She thought of something and her face instantly turned pale.

Anna stammered, "Are... are they going to kill me and sacrifice me?" Anna thought about how she was a fiendish cultivator and how the righteous cultivators hated her to the bone. She thought that the Grand State Master and the others were planning to kill her and sacrifice her body.

When the Grand State Master heard Anna's question, he was stunned.

Sheng Lingfeng shook his head and laughed. "We're not sacrificing you."

Anna was instantly relieved.

"It's like this, Anna. The Mutated Devouring Beast you awakened is actually not a demonic beast, but a divine beast." Next, Sheng Lingfeng told Anna the theory that the Grand State Master had mentioned.

After Anna heard this, she knew that she was actually the owner of a divine beast form and not a heinous demonic cultivator. Her eyes instantly turned red. "In that case, I'm not a demonic cultivator? I can control my beast form? I won't hurt the people around me when I lose control of my consciousness?"

Sheng Lingfeng nodded. "Yes."

Anna immediately burst into tears of joy.

"That's great. I'm not a fiendish cultivator." Anna turned around and said to Di Ruofeng, "Mentor, did you hear that? I'm not a fiendish cultivator. I'm not a fiendish cultivator!"

Di Ruofeng was affected by Anna's emotions and felt a little emotional.

After knowing that she had a divine beast form, Anna hurriedly asked Sheng Lingfeng, "Grand State Master, President, what do you need me to do?"

Sheng Lingfeng didn't know the exact method.

Sheng Lingfeng asked the Grand State Master, "Grand State Master, what should Anna do to resolve this crisis?"

The Grand State Master pondered for a moment before saying, "The Hundred Masters Sacrifice will help her become the Emperor!"

"Hundred Masters Sacrifice?" Sheng Lingfeng frowned and asked the Grand State Master, "Grand State Master, can you explain it clearly?"

The Grand State Master turned around and faced the powerful Beast Tamers behind him. He explained loudly, "Although Anna is in her divine beast form, her own abilities are too weak. Five large cities on the Holy Spirit Continent are about to fall. The power of the Death Curse in the five capital cities is too powerful. Anna is unable to completely resolve the power of the Death Curse unless she can break through to the Prime Master cultivation level and become a Prime Master powerhouse!"

Anna's eyes widened.

When she lost control of her consciousness previously, she had absorbed a portion of people's spiritual power. Now, she was only at the peak of the late-stage Scholar Realm.

She had to become a Prime Master to resolve this crisis. How could she break through to the Prime Master realm in a short period of time?!

If Anna could think of it, how could Sheng Lingfeng and the others not think of it?

Recalling what the Grand State Master had just said, Sheng Lingfeng vaguely understood what the Grand State Master meant. "Grand State Master, you mean to ask the Beast Tamers to sacrifice energy to help Anna break through to the Prime Master Realm?"

"Exactly!"

Hearing this, the entire conference hall fell silent again.

The Grand State Master looked at the experts sitting in front of him with a cold expression. He said, "Everyone, a hundred Supreme Master experts took the initiative to self-destruct their beast hearts to form the curse fruit. If we want to resolve this, how can we not make some sacrifices?"

"May I ask who is willing to take the initiative to step forward and sacrifice all their spiritual power to help Anna break through to the Prime Master realm and resolve this crisis?"

No one answered the Grand State Master's question.

Previously, they were willing to self-destruct their Beast Hearts in exchange for peace in the Holy Spirit Continent. That was based on the principle of everyone dying together or surviving together. Now, after

knowing that only a portion of the people needed to sacrifice their interests to resolve this crisis, no one was willing to make the sacrifice.

Everyone wanted to reap the benefits.

The hall became quieter and quieter.

Just as the Grand State Master thought that no one was willing to sacrifice him, Dean Di Ruofeng stood up. "I've lived for more than four hundred years and have seen all the prosperity in the world. Since no one is willing to be the sacrifice, let me do it."

"... Mentor!" Anna looked at her mentor in a daze and felt her heart ache.

The Grand State Master said, "Dean Di, I admire your boldness. But now isn't the time for us to make sacrifices. We have to stay alive for the final battle with the Blood Peacock!"

Hearing this, some Beast Tamers with lower cultivation levels immediately buried their heads in shame.

Suddenly, someone raised his hand.

"I do."

The Grand State Master turned around and saw Fu Yu'an raising his hand.

Fu Yu'an smiled and said, "I'm 96 years old today. I've been stuck at the early-stage Supreme Master Realm for 50 years. I think that even until death, I will only reach the mid-stage Supreme Master Realm. In that case, I might as well give up my cultivation and contribute to my hometown."

Fu Yu'an took off the identity badge of the Beast Tamer Alliance on his chest and said in a powerful voice, "I'm willing to give up my cultivation to help Miss Anna become an emperor!"

Although Fu Yu'an's cultivation level was average, he was the secretary of the president of the Beast Tamer Alliance. He had a very high say in the alliance. Seeing that he had decided to give up his hard-won status and fame without any hesitation, many people were moved by his boldness.

At that moment, an old man stood up.

Sheng Lingfeng recognized that person. It was the Sixth Elder of the Sheng family.

The Sixth Elder was called Sheng Tianlun. Sheng Tianlun looked at Sheng Lingfeng and said, "I'm 206 years old today, but my cultivation level has stopped at the late-stage Supreme Master Realm for more than 60 years. Among the elders of the Sheng family, my cultivation level is the weakest. In the final battle with the Blood Peacock Organization, I don't think I can do much. In that case, why don't I give up my spiritual power and help Anna become a Prime Master?"

As soon as the Sixth Elder sat down, another old female Supreme Master stood up.

The female cultivator had a head of silver hair and her face was covered in wrinkles. She even had a walking stick in her hand.

The old woman said, "My name is Madam Eagle Spirit. I was an itinerant cultivator. Although I'm only an intermediate-stage Supreme Master, I'm also the strongest person in our small city. Ten years ago, a

flood erupted in our small city. Back then, the mayor of the Prosperous Capital, Lu Yubei, personally led the medical team and rescue team of their city to our small city and helped us save many people.”

“The Prosperous Capital is our savior. Now that the Prosperous Capital is in trouble, I’m willing to give up my ability to help them overcome it!”

After Madam Eagle Spirit sat down, another man with a black eye mask on his face stood up.

The man had a fiery personality. He said, “I’m Zhou Zheng. The people of the martial world call me the One-Eyed Supreme Master. I’m an orphan, and my cultivation and talent are very ordinary.” The One-Eyed Supreme Master pointed at the Beast Tamers in the hall who had their heads lowered and didn’t dare to say anything. He said, “In my opinion, all the old fellows with stagnant cultivation here should step forward and take the initiative to bear responsibility!”

“Why? Those young cultivators can’t die, because they are the future of the Holy Spirit Continent. Super experts like the Grand State Master and the others can’t die either, because they are the top experts of the continent, the backbone of the continent! Old fellows like us with ordinary cultivation and talent should take the initiative to contribute!”

“I, One-Eyed Master Zhou Zheng, willingly give up my spiritual power to help Anna become a Prime Master!”

Perhaps it was because Zhou Zheng’s scolding had worked, or perhaps it was because they had found their conscience, but more and more people stood up to express their willingness to be sacrificed. Among them, there were elves, beastmen, and humans.

Sheng Lingfeng asked the staff to make a Hundred Masters Sacrifice list.

He held the sacrifice table and said in a low voice, “All Beast Tamers who are willing to sacrifice, please come to the front of the conference hall.”

Fu Yu’an was the first to stand up.

Immediately after, many Beast Tamers in the conference hall stood up from their seats and came to Fu Yu’an’s side.

There were more than 120 of them standing together.

Sheng Lingfeng raised the form and said, “This is a list of sacrifices. Please sign your names on the form and press your fingerprint. After the Death Curse is successfully resolved, the alliance will build a monument for you. Your names will be engraved on the monument and this form will be placed in front of the monument for future generations to admire!”

Hearing this, Fu Yu’an was the first to pick up a fountain pen. He wrote his name on the first row of the form and pressed his thumbprint.

After he retreated, a second person walked up and wrote their names without hesitation.

Sheng Lingfeng lowered his head and looked at the dense signatures and fingerprints on the paper. His expression suddenly became solemn. “Everyone, stand up! Bow and pay your respects! Thank you, hundred masters, for sacrificing yourselves for me and saving the world!”

Upon hearing Sheng Lingfeng's call, all the Beast Tamers in the conference hall, regardless of their status or cultivation level, quickly stood up.

They bowed to the 120 Supreme Master experts.

Anna stared at the old but fearless faces and felt a sense of sorrow.

At this moment, they were all selfless Prime Masters.

Chapter 487: Untitled

The sky brightened.

A staff member hurriedly walked into the office building of the Mayor Manor and handed a newly calculated data sheet of infected people to the secretary of the Mayor Manor.

The secretary took the report and opened it. She was shocked.

In just six hours, the total number of infected people rose from 1.2 million to 3 million!

There were only eight million people in the Prosperous Capital. Currently, more than a million people had safely retreated. Currently, there were still seven million people in the Prosperous Capital, and among them, three million had been infected. Perhaps before tonight, the entire Prosperous Capital would fall!

The secretary's heart sank.

Was this city really going to collapse with its subjects?

The secretary hurriedly left the office building with the report and went to the activity building next door. The building was filled with children who had been rescued from the city. The youngest of those children was only two to three months old, and the oldest was thirteen to fourteen years old.

Two days ago, these children were still doted on by their parents and families. In the blink of an eye, they were abandoned by their families and became homeless orphans in the city. After only a day or two, these children had lost their innocence.

They knew that they were sick, and so was the city. Their parents would never come back for them.

Without anyone to love them, they could only group up.

The older children took the initiative to take care of the babies, while the slightly healthier children took care of the children who started to vomit.

The secretary hadn't changed his clothes for two days. He was wearing a wrinkled suit and his leather shoes were stained with dust.

The moment the secretary walked into the activity room, the children looked up at him with blank eyes.

The secretary couldn't bear to look at those pairs of eyes filled with despair. He found an older child and asked in a low voice, "Where's the mayor?"

The big boy pointed upstairs and said, "On the third floor."

"Okay."

The third floor was the seriously ill area.

The children on the third floor were all terminally ill and were about to leave this world.

The secretary took the elevator to the third floor with heavy steps.

When the elevator door opened, the secretary smelled a stench.

He stood at the elevator door and sized up the scene in front of him.

In the basketball activity room that was more than two hundred meters wide, nearly a hundred children were lying weakly on the ground. Beside them was a basin filled with vomit. Their respected mayor shuttled between these children and kept wiping their hands, faces, and patting their backs with a towel.

A three-year-old girl suddenly grabbed the mayor's pants.

Lu Yubei stopped and looked down at the child with tears in his eyes.

The child said, "I, I'm so sleepy. Sir, can you hug me to sleep now?" The basin beside the little girl was filled with her vomit. She wasn't sleepy. She was dying.

The little girl tugged at Lu Yubei's pants and said, "In the past, it was always Daddy who coaxed me to sleep. Sir, can you hug me?"

Lu Yubei nodded and sat down on the ground.

He held the critically ill little girl in his arms and heard the little girl ask, "Sir, am I... am I going to die?"

Lu Yubei looked up at the ceiling. His throat felt choked and he couldn't speak.

The little girl leaned against Lu Yubei's chest and said in a weak voice, "Daddy said that I'm sick and I'll be fine with an injection. Uncle, can you give me an injection? I don't want to die yet. I still want to participate in the kindergarten culinary competition with Daddy. My daddy's cooking is delicious."

When Lu Yubei heard the little girl's request, he could no longer hold it in. He hugged the little girl tightly and buried his head in her back while crying.

If possible, he would rather die than watch these little angels die!

When the secretary saw this, he couldn't help but wipe his tears with the sleeve of his suit.

He wiped his snot and carefully walked past the children. He stood in front of Lu Yubei and lowered his head to say, "Mayor, the new data of the infected has been calculated. Currently, a million people have been safely evacuated from the Prosperous Capital. There are still about seven million people in the Prosperous Capital. The number of infected has already risen to... three million."

When Lu Yubei heard the number three million, he slowly raised his head.

Lu Yubei asked his secretary, "What can we do? What can we do?"

The secretary shook her head. "We are helpless."

They were helpless.

This word made them feel the most helpless in the world.

* *

"Master Yu, the rate of infection in the city is increasing. An hour ago, a total of three million people in the city were infected. In just an hour, 3.2 million people have been infected." Beatrice walked to Yu Huang with the latest statistics.

When Yu Huang heard this number, she looked up at the sky and suddenly asked, "What time is it?"

Beatrice looked at her watch and said, "It's almost seven."

Yu Huang looked up at the rising sun and suddenly said something incomprehensible in a low voice. She said, "Soon."

Sheng Xiao stood in front of checkpoint 1 to supervise the work.

The officer finished the test for a man in his thirties and confirmed that the man wasn't infected. The officer stamped a steel seal on his form and handed it to him. "Go to Boat 18."

The man reached out and took the form.

He passed through the test entrance and saw Sheng Xiao. He suddenly stopped and asked boldly, "Sir, is there still hope for the Prosperous Capital?"

Sheng Xiao noticed that the man was wearing a pink bow tie on his wrist. He hesitated for a moment before asking, "Is your daughter infected?"

The man's expression froze.

He looked down at the bow on his wrist and said in a daze, "Ah." He said in pain, "Many children in my daughter's school were infected. I lied to her and said that I would buy her a beautiful headband. I would go back after I bought it. I..."

The man was suddenly speechless.

Sheng Xiao didn't know how to comfort the man, but he thought about it from another perspective. He thought, if his daughter was infected, he would never leave her alone.

Parents were children's sky. If the sky collapsed, how could the child live?

The man wiped his tears and took a few steps in the direction of the boat. He saw a young daughter hugging her father on the deck of Boat 18 to celebrate their narrow escape. The man watched this scene intently. He suddenly threw away the form and ran back.

"I can't leave!"

"I want to go back! I have to go back and find my daughter!"

The man suddenly ran towards the bus where the infected were imprisoned. He rushed into the bus without hesitation and squeezed with the infected before returning to the Prosperous Capital.

Even though there was peace outside the city gate, he was willing to stay inside the lifeless city gate. Because in the plagued city, there was also his daughter, who had fallen ill.

Since he couldn't save his daughter, he would accompany her!

Chapter 488: Too Heartbreaking

Sheng Xiao stared at the bus that was returning to the Prosperous Capital. He was stunned for a moment before he smiled.

Yu Huang had arrived beside him at some point. She also saw the person who had jumped into the bus without hesitation. "In front of survival and his daughter, he chose his daughter."

Sheng Xiao nodded. "Yes, perhaps he was once weak and afraid. But from the moment he jumped into the bus, he became his daughter's superhero."

"Yes."

The bus quickly stopped at the Mayor Manor.

The man jumped out of the car and was about to run home when he saw the staff of the Mayor Manor leading a few children into the Mayor Manor. The man stopped the staff and saw a Scholar's medal on his shoulder. He hurriedly asked respectfully, "Scholar, may I ask if all the children have been brought to the Mayor Manor?"

The Scholar said, "No, only children who are abandoned by their families and have no one to take care of them will be sent to the Mayor Manor."

The man was stunned for a moment before running into the Mayor Manor.

Under the staff's explanation, the man went straight to the activity building. He walked into the activity building and saw that the room was filled with homeless children abandoned by their parents, including even small babies. He immediately raised his right hand and slapped himself hard.

The man shouted from the first floor, "Yue Yue! Lin Xinyue! Where are you? Daddy is back!"

"Yue Yue! Yue Yue! Daddy is back!"

The children in the room looked at him with lifeless gazes.

The man shouted a few times, but he didn't hear his daughter's cry.

Could it be that his daughter was dead?

The man knelt on the ground and covered his face while crying.

At that moment, a boy in his early teens patted the man on the back.

The man raised his tearful face and saw the boy pointing upstairs. The boy said, "There are still seriously ill children on the second and third floors. Perhaps, your child is upstairs."

"Thank you! Thank you!"

The man staggered into the elevator and found his way to the third floor.

"Yue Yue!"

"Yue Yue! Daddy is back! Daddy is back to accompany you!"

Upon hearing her father's voice, the little girl lying in Lu Yubei's arms suddenly moved her head.

"Father..." The little girl struggled to open her eyes and said to the mayor, "Sir, I think... I think I hear my father's voice..."

Lu Yubei looked up at the man who had run back in a sorry state. He carried Yue Yue and stood up. He walked to the man's side and revealed the little girl's face. "Is she your daughter?"

The man stared at the little girl's palm-sized face and immediately burst into tears. "Yue Yue, Daddy is here!" The man gently took the little daughter in Lu Yubei's arms. The little girl opened her eyes and really saw her father. She finally cried.

"Dad!"

The little girl pursed her lips and said aggrievedly, "I thought you didn't want me anymore."

The man hugged his daughter and knelt on the ground while crying bitterly. "I was a bastard. I was a coward. I almost lost my little angel! I will accompany you. Let's die together."

Yue Yue smiled again. "Okay."

The sick children in the room opened their eyes weakly and looked at Yue Yue and her father enviously.

If her father was back, would their parents still come back? The morning sun shone on the streets of the Prosperous Capital.

Usually, at this time, the roads of the Prosperous Capital would be blocked by all kinds of cars. However, today, the streets of the Prosperous Capital were empty.

On the street, only stray cats and dogs and tramps were searching for food.

In the house, those who were infected were about to die.

In a villa.

Jiang Shangfeng was holding a hoe and squatting in the courtyard with his father-in-law to make a crib.

Both of them looked haggard, especially Mr. West. He was older and his condition had worsened quickly after he was infected. At that moment, Mr. West couldn't even raise his hoe. He could only sit and talk to Jiang Shangfeng.

After Jiang Shangfeng nailed the last wooden board on the crib, he put down the hoe and sat in the courtyard. He looked up at the blue sky and suddenly said, "Vivian should have arrived in Jingdu safely."

Mr. West nodded. "Have you two ever named the child?"

Jiang Shangfeng shook his head. "We didn't have time."

Mr. West shook his head with emotion. He said, "This disaster came too quickly. I'm afraid we won't be able to see the child. Why don't you let me, his grandfather, give him a name?"

"Okay."

Mr. West thought for a moment before saying, "Why don't we call the child Jiang Taiping?"

May the world be peaceful and less miserable.

This name was very down-to-earth, but full of high hopes.

Jiang Shangfeng smiled and said, "Okay."

Jiang Shangfeng picked up a brush and wrote on the head of the crib—

[Jiang Taiping's exclusive small bed].

After writing, the brush in Jiang Shangfeng's hand fell to the ground. He suddenly knelt on the ground and vomited.

It was a feeling. He felt like he was about to spit out all his internal organs. It was very painful and smelly.

After Jiang Shangfeng finished vomiting, he laid on the ground and looked at the clear blue sky.

Vivian.

Goodbye, my love.

...

Buzz buzz buzz—

Buzz buzz buzz—

At this moment, a huge aircraft with the words "Alliance Headquarters" on it suddenly flew past the Prosperous Capital and stopped above the People's Square.

The aircraft circled in the sky and landed.

After the aircraft stabilized, a group of people in Beast Tamer uniforms and Beast Tamer medals on their shoulders walked out of the aircraft.

Lu Yubei sensed that powerhouses were approaching and immediately flew to the sky above the Mayor Manor.

It was actually an aircraft from the Alliance headquarters. Lu Yubei immediately flew towards the People's Square.

The square was filled with Beast Tamers.

The president of the alliance, Sheng Lingfeng, the Divine Moon Empire's Grand State Master, Mo Xiao, the old dean of the Divine Realm Academy, Di Ruofeng, and the merman race's Prime Emperor Dino.

Almost all the experts on the continent had arrived in the Prosperous Capital.

When Lu Yubei saw that there were many experts gathered, his heart raced and hope appeared in his eyes.

Could it be that the Prosperous Capital was saved?

On the distant dock, Yu Huang noticed the arrival of the aircraft. However, she didn't heave a sigh of relief. Instead, she became even sadder.

Sheng Xiao saw that everyone from the Alliance Headquarters had come to the Prosperous Capital. He said, "Everyone from the Alliance is here. Perhaps they have thought of a way to resolve the Death Curse." Sheng Xiao didn't hear Yu Huang's answer. He turned to look at her and realized that her beautiful face was filled with sorrow.

"Wine, what are you sad about?"

Yu Huang muttered to herself, "No wonder Foster Father said that being able to predict the future was never something to brag about, but something heartbreaking..."

The feeling of knowing that it would happen but being unable to stop it, let alone change the outcome, was really too heartbreaking.

Chapter 489: Untitled

Anna stood with the Grand State Master and the old dean. She said, "Grand State Master, I have to try first to see if I can really absorb the energy of the Death Curse from the infected."

"Okay."

When Lu Yubei heard this, he looked at Anna in shock. He asked the Grand State Master humbly, "Grand State Master, can this young lady resolve the Death Curse?"

The Grand State Master saw that Lu Yubei was dirty and covered in the smell of the infected. His gaze softened slightly. "Can you please find a few cases of the infected? We need to do a test."

Lu Yubei nodded vigorously. "Wait a moment, I'll go get a few people now!"

Lu Yubei immediately flew back to the Mayor Manor and brought the seriously ill Yue Yue and the other three seriously ill children to the People's Square.

As soon as these children were brought to the People's Square, they fell to the ground and vomited non-stop.

They were really about to die.

Anna stared at the children who were only five or six years old and had been tortured, but their eyes were still filled with the will to live. She looked at them and suddenly thought of her childhood.

They were all pitiful children.

The old dean nodded at Anna encouragingly.

Anna nodded as well. Then, under everyone's gaze, she walked to the children and knelt down. Anna grabbed Yue Yue's arm and lowered her head to bite her wrist. Yue Yue cried out in pain.

"Ah!"

Anna sucked hard and sucked out the dirty black energy bodies in Yue Yue's body.

During the process, Yue Yue kept trembling.

In less than three seconds, Anna absorbed all the Death Curse energy in Yue Yue's body.

Anna wiped the blood from her mouth and asked Moon in a low voice, "How do you feel, little girl?"

Yue Yue was a little afraid of Anna, but she still listened and carefully felt her body.

Yue Yue couldn't tell how she felt, but she no longer wanted to vomit.

A Purifying Spirit Master from the Prosperous Capital walked over to Yue Yue's hand and used psychic power to examine her body. He discovered that Yue Yue's body no longer had that indestructible black power, and his face immediately revealed an expression of ecstasy.

"It worked! Miss Anna can actually absorb the Death Curse energy in Yue Yue's body!"

When he heard this, Lu Yubei, who was always calm and composed, was actually as excited as a child at this moment. He stomped his feet forcefully. "That's great! The heavens didn't let the millions of citizens of the Prosperous Capital die!" Lu Yubei cried tears of joy, and his face was already covered in tears.

Anna was sincerely happy to see that she could indeed resolve the energy of the Death Curse.

Anna did the same thing for the other three children.

When she was done, Anna found a small black line on her arm. Anna stared at the line and her gaze changed slightly.

Could it be that the energy absorbed by the Death Curse had returned to her?

Anna quickly stood up. She placed her hands behind her back and walked briskly to the old dean. She raised her head and said to the old dean, "Mentor, I can really resolve the Death Curse!"

Her mentor asked her, "How do you feel?"

Anna shook her head. "Nothing's wrong," she said. "I just feel a little tired."

Hearing this, Di Ruofeng was relieved. "Your cultivation level is weak, so it's normal for you to feel tired."

The Grand State Master stared at the playful smile on Anna's face, but he calmly glanced at Anna's hands behind her back. "Anna, extend your hand for me to see."

Anna's smile stiffened.

The old dean felt uneasy when he saw Anna's strange expression.

"What's wrong, Anna? What happened to your hand?" The old dean ignored Anna's objections and forcefully pulled her right hand out from behind her back. When he saw a faint black blood vessel on Anna's right arm, the old dean immediately held his breath.

"This... Anna!"

Di Ruofeng trembled slightly.

The Grand State Master stared at the black blood vessel on Anna's arm. When he thought about how Yu Huang seemed to have a heavy expression when she came to look for him that day, the Grand State Master immediately understood everything.

Perhaps, Yu Huang hadn't only predicted that Anna would have a chance of survival in this crisis, but she had also predicted Anna receiving a backlash from the Death Curse.

Therefore, she couldn't be happy that day.

"Mentor..." Anna looked at Di Ruofeng sadly. She said, "Mentor, I've suffered a lot to get to where I am today, but I've also been lucky enough to be favored. I'm very satisfied to be able to know Yu Huang, acknowledge you as my mentor, and love the T-Rex."

"A person's life is either as important as a mountain or as insignificant as a feather. Your eldest disciple was a hero who sacrificed himself to save the world. I, Anna, can't embarrass you!"

Anna suddenly knelt down heavily in front of Di Ruofeng.

"Mentor, a disaster has arrived. I request to fight!"

Di Ruofeng's eyes were already red.

He looked at the petite Anna with tears in his eyes and said in a choked voice, "Child, do you know that this farewell will be forever?!" After Anna successfully resolved the energy of the Death Curse, how could she survive?!

Anna kowtowed to Di Ruofeng. Her forehead was pressed against the smooth stone surface, and her voice became choked. "I'm unfilial and can't send you off in your old age. Please don't blame me!"

Di Ruofeng looked up at the sky and two drops of tears were blown away by the strong wind. "Since you're willing to fight, I can't stop you! Anna, you're the same as your senior brother. You're the greatest pride of my life. Go!"

Di Ruofeng held Anna's arms tightly. He said, "Go!"

After receiving Di Ruofeng's approval, Anna stood up.

She turned around and took a few steps. Suddenly, she turned around and bowed to Di Ruofeng. She cried and said, "I thank you for your guidance and nurturing! I wish you longevity and peace and joy!"

With that, Anna walked towards the 120 Supreme Masters who had signed the sacrificial letter.

Anna bowed deeply to them. With tears in her eyes, she said, "Thank you for your sacrifice. If I can still live, I will definitely protect this world for you all!"

A beastman with a human body and a snake tail hammered his chest and shouted, "Come on, Anna, hurry up. Let's not waste time!" The longer they delayed, the more people would be infected.

The others also roared, "Anna, come! Don't hesitate!"

Anna gritted her teeth and suddenly opened her arms.

Immediately, black mist emerged from between her eyebrows. The black mist turned into 120 Mutated Devouring Beasts that clung to the 120 Supreme Master experts.

The 120 experts all stood upright in the square. They held their Beast Tamer Medals tightly in their hands and looked at Anna firmly.

When the Mutated Devouring Beast bit through their skin, they didn't cry out in pain, nor did they kneel down. They only tacitly placed the Beast Tamer Medal on their chests.

All the sacrifices were for the future of the world and the continent!

Chapter 490: Anna Becomes A Prime Emperor

In just a few seconds, the hair of this group of Beast Tamers instantly turned white. Immediately after, their smooth skin also aged and relaxed at a visible speed.

Bang!

The first Supreme Master collapsed to the ground because his spiritual energy had dissipated.

Bang!

Second place, third place...

In less than five seconds, they were all sacrificed.

After they sacrificed themselves, their power was returned to Anna's body by the Mutated Devouring Beast. Anna's body suddenly floated in the air, and pure spiritual power entered her body. Her cultivation level rose rapidly in a short period of time!

Master!

Supreme Master!

Grand Master!

However, the spiritual power surrounding Anna's body was still surging crazily and didn't show any signs of stopping.

Her cultivation was still breaking through!

At this moment, the sky was suddenly filled with dark clouds. Lightning flashed and thunder rumbled. The tribulation lightning quickly condensed in the clouds and transformed into mighty lightning dragons.

“... Prime Master Tribulation.” Seeing the dark clouds above his head, the old dean was deeply shocked. He muttered in a daze, “Anna is really going to become a Prime Master.”

Boom!

The first lightning dragon was finally formed!

The lightning dragon descended from the sky and struck Anna’s body mercilessly.

Anna’s petite body suddenly suffered the first explosive blow from the lightning. Her fingers suddenly clenched tightly, and her nails sank into her flesh. She shouted in pain, “Ah!”

Jingdu, Lovers Lake.

Before Anna left, she tricked the Icy Night T-Rex into drinking a glass of wine.

After drinking, the Icy Night T-Rex fell asleep.

At this moment, the Prime Master Tribulation in the Prosperous Capital was extremely powerful. Most of the Divine Moon Empire was shocked by this commotion and walked out of their houses. They looked up at the sky of the Prosperous Capital. They couldn’t see what was happening there, but they could see the tribulation lightning clouds that enveloped the Prosperous Capital.

The thundercloud almost completely enveloped the Prosperous Capital. They didn’t dare to imagine how powerful the tribulation lightning produced by the thundercloud was.

Wouldn’t such a lightning strike destroy the soul of the person being punished?

Boom!

The first lightning dragon struck down at the Prosperous Capital.

The sleeping Icy Night T-Rex suddenly felt a burning sensation on his chest. He suddenly opened his eyes and stared at the spot where his protective scale was missing.

Why did his heart ache so much?

At this moment, the second lightning dragon struck the Prosperous Capital again.

When the Icy Night T-Rex heard the loud thunder, his heart ached even more, as if it was riddled with holes.

“Anna!”

Could it be Anna?

The Icy Night T-Rex suddenly roared. Its huge dragon body broke through the clouds and flew towards the Prosperous Capital.

The Beast Tamer robe on Anna's body had already been torn apart. Her long black hair was all standing on end. The skin on the back of her hand had turned charred black, and one could vaguely see cracks tearing through her skin. It was filled with flesh and blood.

Boom!

The third bolt of lightning struck!

After this lightning bolt struck Anna's body, Anna's body suddenly burst like a balloon filled with blood being smashed by a hammer.

In an instant, blood splattered!

Blood splattered on the old dean's face. He raised his hand to wipe the blood, and his eyes were filled with heartache.

He looked up at Anna, who was on the verge of death from the tribulation lightning. He sighed. Just as the fourth tribulation lightning was about to descend, the old dean suddenly transformed into a huge ancient alligator!

"Anna, I'll help you!" When all the Beast Tamers hugged their heads and hid in the distance, only the old dean pounced on Anna without hesitation.

The ancient alligator protected Anna's petite and broken body in its arms. It roared at the sky, and its golden eyes were filled with anger. "Roar! Come, let me experience the Prime Master tribulation lightning again!"

When the old dean broke through to the Prime Master realm decades ago, he had experienced the Prime Master tribulation lightning.

However, the old dean's cultivation path was very bumpy. Be it the Master Tribulation, the Supreme Master Tribulation, or the Grand Master Tribulation, he had gritted his teeth and endured them. After being struck a few times, he had some experience when facing the Prime Master Tribulation Lightning.

When he experienced the lightning tribulation of the Prime Master, although the old dean was also in a miserable state, he still endured it.

But Anna was different.

An hour ago, Anna had been a mere Scholar.

Anna had never tasted tribulation lightning before and didn't know how terrifying it was. Moreover, the energy in her body wasn't cultivated step by step by her own ability. It was obtained by forcefully absorbing the spiritual power of others for her own use.

The heavens definitely couldn't tolerate Anna's actions. Therefore, the lightning tribulation that the heavens had given Anna was far more powerful than the lightning tribulation that Sheng Lingfeng and the old dean had suffered.

If it continued, Anna would be killed.

In the history of the Holy Spirit Continent, many experts had died under tribulation lightning.

The fourth tribulation lightning struck the old dean's back!

When the powerful tribulation lightning landed on the old dean, even someone with the old dean's cultivation level couldn't help but open his mouth and spit out a mouthful of blood.

However, he still used his body to protect Anna.

Anna narrowed her eyes and looked at her mentor, who was protecting her in his arms.

In this world, although many people spoke ill of her and bullied her, there were also people like her mentor and Yu Huang, who were loyal to her and protective of her.

She was willing to sacrifice her life for these cute people.

There were a total of five lightning bolts.

This last bolt of lightning was the strongest and most powerful.

If that bolt of lightning struck the old dean, there was a high chance that he would be crippled. However, if Anna was struck by this last bolt of lightning, there was a high chance that she would be killed.

Just as the old dean gritted his teeth and was about to bear the last bolt of tribulation lightning for Anna, a black fog suddenly appeared in the square below. As the fog surged, a huge nine-tailed black fox slowly condensed.

The nine-tailed black fox let out a sharp cry. It suddenly jumped and flew towards Anna and the old dean. When it flew up, nine smooth and huge black tails suddenly rose from its back!

As its tail swayed, terrifying energy spread out.

When the lightning tribulation sensed the existence of the nine-tailed black fox, it seemed to have been threatened by something. It actually gave up on Anna and mercilessly struck the nine-tailed black fox.

A look of disdain flashed across the nine-tailed black fox's eyes when it saw the tribulation lightning running towards it.

Want to strike him?

No way!

The nine-tailed black fox suddenly transformed into the Grand State Master, and the nine tails was still behind him.

Facing the tribulation lightning with an imposing aura, the Grand State Master didn't dodge. Instead, he raised his right hand with a stern expression. Just as the tribulation lightning was about to strike the Grand State Master, the five fingers of the Grand State Master's right hand suddenly contracted and actually grabbed the domineering tribulation lightning.

Waves of muffled thunder erupted from the tribulation lightning. It was obvious that he was extremely angry.

The Grand State Master's lips curled up slightly as he said mockingly, "Is that all you've got?!" The Grand State Master gritted his teeth and swung his arm forcefully. The huge tribulation lightning in his hand was actually thrown fiercely onto the square!

Pa!

The tribulation lightning that was imposing just now lying on the ground like a stray dog.

The Grand State Master snorted and stepped on the lightning tribulation again.

The tribulation lightning struggled for a moment before disappearing.

Seeing this scene, Dino looked at the Grand State Master in surprise. What was Mo Xiao's cultivation level? He could actually tear apart this lightning tribulation with his bare hands!

1

One had to know that the tribulation lightning was a clone left behind by the heavens in every world. That was the power of the heavens!

As the last tribulation lightning was defeated, the dark clouds that enveloped the sky above the Prosperous Capital instantly dissipated. Soon, sunlight shone on the ground again. At this moment, the citizens who remained in the Prosperous Capital were alarmed and walked out of their houses.

Everyone stood on the street and looked up at the ancient alligator in the sky. Their eyes, which looked lifeless after they were tortured by the illness, gradually showed the will to survive.

If the Beast Tamers came to the Prosperous Capital, did it mean that the Prosperous Capital was saved? They weren't abandoned?

The old dean quickly regained his human form. He immediately took out a coat from his interspatial ring and put it on Anna.

Anna's body was shedding. Soon, the charred skin on her body fell off automatically and new fair skin grew.

Anna opened her eyes and saw a smear of blood by her mentor's mouth. She smiled sweetly at her mentor and reached out to wipe the blood away from her mentor's mouth. "Mentor, thank you." After saying that, Anna took the initiative to jump down from her mentor's arms.

She stood in the void and looked down at the Prosperous Capital with a compassionate expression. There were many infected citizens standing on the street. Anna met those pairs of eyes that refused to accept their fate, and was instantly invigorated.

She pressed down on the heart-protecting scale and felt it burning on her chest.

"Goodbye, T-Rex."

With that, Anna's body instantly disappeared from the sky above the Prosperous Capital and appeared at the center of the five infected cities.

These five infected cities were the Prosperous Capital of the Divine Moon Empire, the Holy Mountain of the Elve Clan, the Lion King City of the Beast Clan, the Huo Yang City of the Blazing Realm Continent, and the Snowfall City of the Ice Domain Continent. The Abyssal Origin Forest, which was located in the center of the Ice Domain Continent and the Blazing Realm Continent, was the center of these five cities.

Anna stood in the sky above the Abyssal Origin Forest. She looked down at the hinterland of the abyss below and saw the bottomless abyss rift. She suddenly felt relieved. If she died in the abyss, she would die in the hometown of the T-Rex.

Anna suddenly raised her head and flew into the deep sky. Her petite body flew through the clouds and only stopped when she was twenty thousand meters high.

At this height, Anna turned to look in five directions below her.

She saw all five infected cities.

Anna closed her eyes, opened her arms, and circulated all the spirit energy in her body.
