

She Shocks 541

Chapter 541: Sheng Xiao Helping His Wife Grab the Umbrella (1)

The two of them continued south. The further south they went, the more obvious Sheng Xiao's spiritual power became.

Evelyn also sensed the spiritual energy fluctuations of an expert. She said, "There's a Grand Master expert ahead."

Yu Huang said, "My husband seems to be in front."

Evelyn wanted to watch the battle between the strong, and Yu Huang wanted to find her husband. The two of them tacitly chose to fly south.

Boom!

The ground suddenly shook, and the forest below collapsed one after another. Soon, a huge pit appeared in the vast and boundless forest.

Evelyn noticed the change in front of her. She suddenly grabbed Yu Huang and shouted sternly, "Ah Huang, stop! There's a super expert fighting in front!" Yu Huang was only a Master Beast Tamer. The battle power of a super expert was extremely destructive. Evelyn was worried that Yu Huang would be injured.

Yu Huang stopped and stared at the forest in front of her. She saw a black dragon fighting with someone in the forest.

"Roar!"

The dragon emerged from the forest and soared through the sky. Its black dragon scales emitted a cold luster under the scorching sun.

Evelyn looked up at the huge dragon that roamed between heaven and earth. She muttered in shock, "Black, Black Qing Sky Dragon..." Evelyn trembled. She couldn't believe that she would be able to see the Black Qing Sky Dragon of the ancient divine beast race in her lifetime.

Yu Huang's eyes lit up when she saw Sheng Xiao.

At that moment, a red Torch Dragon with two horns on its head and wings on its back flew out of the forest. It looked seriously injured, and the soft scales on its body were lacerated.

The Torch Dragon stared at the Black Qing Sky Dragon in the deep sky with fear in his eyes. He said something, "Ancestor, which world did you suffer in? Tell me, and I'll report to the Patriarch when I get back. He'll definitely go to the small world to find you!"

Black Qing Sky Dragon was an ancient divine beast.

In ancient times, the Torch Dragons were only qualified to be Black Qing Sky Dragon's guards.

The Torch Dragon was Black Qing Sky Dragon's most loyal servant.

However, Sheng Xiao couldn't understand what the hybrid dragon was saying.

Because of the language barrier, Sheng Xiao misinterpreted the Torch Dragon's concern as a provocation. "Are you still unwilling to admit defeat?" Sheng Xiao was too lazy to argue with it. He suddenly turned into a black Dragon Sword and stabbed at the Torch Dragon with a destructive aura.

Seeing that Sheng Xiao was so irritable, the Torch Dragon didn't dare to continue fighting. He gritted his teeth and removed the survival ring.

The Torch Dragon's figure disappeared from the battlefield. The Dragon Sword passed through the void and stabbed into the forest below.

The forest was instantly torn apart and filled with cracks.

"Sheng Xiao!"

Yu Huang suddenly pulled Evelyn's hand away and spread her Vermillion Bird wings to fly into the forest. Sheng Xiao heard Yu Huang's call and the Dragon Sword turned into a black fog. Then, Sheng Xiao appeared in the black fog.

Sheng Xiao saw Yu Huang descending from the sky. He opened his arms to catch her.

Yu Huang hugged Sheng Xiao tightly and bit his collarbone beside his Adam's apple. Then, she said, "Brother Xiao, it's been a few days. Did you miss me?"

Sheng Xiao patted Yu Huang's waist and hinted to her, "Stop it."

At that moment, Sheng Xiao sensed a stranger's aura. He raised his head and looked at the participant from the Upper World through the leaves.

Yu Huang suddenly stood up from Sheng Xiao's arms. She held Sheng Xiao's hand and turned to Evelyn. "Evelyn, let me introduce you. This is my husband. His name is Sheng Xiao. He is a Grand Master Beast Tamer."

Evelyn stared at Yu Huang and Sheng Xiao's interlocked hands. Her beautiful face was suddenly filled with hostility.

"Yu Huang." Evelyn's tone was cold. "What's your relationship with him?"

Yu Huang didn't understand what Evelyn meant.

Evelyn realized that she had been tricked by Yu Huang, and her eyes were filled with anger. Evelyn suddenly pulled out her sword, pointed at Yu Huang, and scolded, "Yu Huang, you clearly like men, so why did you seduce me?! Is it fun to toy with me?!"

Evelyn was so angry that her hand trembled as she held the thorn.

Yu Huang stared at the thorn in Evelyn's hand and looked down at her and Sheng Xiao's hands. She thought about the ambiguous actions Evelyn had done to her along the way. Yu Huang was shocked.

Damn!

At that moment, another accusatory gaze landed on Yu Huang's face. "It's only been a few days since we last met, but you've already created a love rival for me?" Sheng Xiao looked at Yu Huang with an unreadable expression. His lips were pursed and his gaze was filled with displeasure.

Chapter 542: Sheng Xiao Helping His Wife Grab the Umbrella (2)

Was this considered a slaughterhouse?

Yu Huang broke a tree branch and squatted on the ground to draw two matchstick figures.

The stick figure on the left was her. The stick figure on the right had a leg in the middle. It was obvious that it was a man. Yu Huang drew a heart between the two stick figures. She pointed at the stick figure with a tree branch and said to Evelyn, "This is me and Sheng Xiao. We are husband and wife."

How could Evelyn not understand when she saw the painting?

So she was overthinking.

Yu Huang had no such feelings for her!

Damn language barrier!

Evelyn stared at Yu Huang with resentment, but she was still unwilling to accept it.

It was not like married couples couldn't divorce!

Evelyn squatted down and used a tree branch to draw a cross on the heart between the two stickmen. She looked up and asked Yu Huang, "Will you guys get a divorce? If you will, I... I'm still willing to look for you." It was rare to meet a girl who she was satisfied with in everything. Evelyn was unwilling to lose Yu Huang like this.

Yu Huang's expression was awkward.

Sheng Xiao looked at Yu Huang coldly.

Yu Huang suddenly held Sheng Xiao's face and tiptoed to kiss his lips. Yu Huang leaned against Sheng Xiao's chest and lowered her head to say to Evelyn, "This is my answer."

Evelyn suddenly threw away the tree branch and stood up. She stomped her feet and scolded, "Yu Huang, you better never appear in front of me ever again. If you dare to let me see you, I'll tie you up and lock you up at home!" With that, Evelyn turned around and left.

Seeing that Evelyn had finally left, Yu Huang heaved a sigh of relief.

"What did you do to make her covet you so much?" Sheng Xiao's tone was cold, but he grabbed Yu Huang's wrist tightly.

Yu Huang felt wronged.

"I didn't do anything. I don't know why she would misunderstand me like that. We don't speak the same language. What could I possibly do to her?"

Sheng Xiao snorted and suddenly asked, "Have you held hands before?"

Yu Huang was stunned. Then, she rubbed her nose awkwardly and lowered her head to look at the ground without daring to say a word.

Sheng Xiao said expressionlessly, "It seems like you have."

Yu Huang hurriedly explained, "It was too cold back then. I thought she just wanted to hold hands and warm up..."

Sheng Xiao interrupted Yu Huang's explanation impatiently. "Have you hugged her before?"

Yu Huang thought of the hug last night and felt even more guilty.

Sheng Xiao was furious. "Yu Huang, we've only been apart for a few days, but you're already holding hands and hugging someone else behind my back. Your ex-fiancé is also still in love with you. The participants from the Upper World are also in love with you. You're indeed a superstar. You're so charming."

After saying these sarcastic words, Sheng Xiao turned around and left.

Scumbag!

She was a jerk who didn't know how charming she was!

Yu Huang quickly caught up with Sheng Xiao. She wanted to hold Sheng Xiao's hand, but Sheng Xiao refused to let her touch it. The two of them pulled and tugged as they moved forward when the hot weather suddenly arrived.

Sensing that the weather was rising, Yu Huang was about to mobilize her spiritual power to keep cool when a white cherry blossom umbrella suddenly appeared above her head.

Yu Huang raised her head and stared at the umbrella in surprise. "You brought an umbrella?"

Sheng Xiao held the umbrella above Yu Huang's head. The shadow protected Yu Huang's delicate body while Sheng Xiao was completely exposed to the hot sun.

Sweat flowed from his forehead to his eyes. Sheng Xiao wiped his sweat and explained, "I didn't bring it. I snatched it."

"Huh?" Yu Huang was extremely shocked. "You actually know how to snatch others' things."

Sheng Xiao remained silent.

On the way south yesterday, Sheng Xiao met a female Beast Tamer. The lady was a Master. The weather was very hot at that time. The lady walked very quickly with an umbrella. She didn't look very affected by the hot weather.

Sheng Xiao guessed that the umbrella she was holding might be a spiritual weapon that could withstand high temperature. He showed his Grand Master strength and forced the lady to give him the umbrella.

If this matter got out, Sheng Xiao's reputation would be ruined.

Yu Huang could guess why Sheng Xiao snatched the umbrella. She was touched.

Sheng Xiao said angrily, "I risked my reputation to snatch the umbrella for you, but you went around fooling around behind my back. Yu Huang, do you have a conscience?"

"Thank you." After a pause, Yu Huang called out awkwardly, "Hubby."

Sheng Xiao stopped in his tracks and blushed.

After being married for so long, Yu Huang rarely called him hubby. She didn't even call him that in bed.

Today, pigs flew.

After a while, Sheng Xiao suddenly said, "Call me that again."

Yu Huang couldn't call out anymore. "No."

Sheng Xiao was disappointed, but he didn't force her.

With Sheng Xiao accompanying her, the two of them bickered and flirted. Soon, they finished enduring the extreme weather. When the snowstorm in the afternoon stopped, Sheng Xiao carried Yu Huang and flew south. Grand Masters flew much faster than Masters. In the evening, they arrived at an abandoned city.

There was a dilapidated city wall outside the city. On the city wall, there stood three Beast Tamers.

Outside the city wall, there was also a large group of Beast Tamers.

After entering the Doomsday Battlefield for so long, this was the first time they had encountered a large group of Beast Tamers.

Yu Huang saw participants from the Holy Spirit Continent among the Beast Tamers. Among them were people she and Sheng Xiao knew.

"Your Highness," Yu Huang called out to Beatrice, who was looking around.

Hearing the familiar voice, Beatrice immediately turned around. When she saw Sheng Xiao and Yu Huang, the aloof beauty looked excited.

Yu Huang noticed that Beatrice's fair skin was covered in dead skin from the scorching sun. She looked a little disheveled.

But there was vigor hidden in her eyes that would never be extinguished.

She was an extremely resilient woman.

"Young Master Sheng, Master Yu Huang!" Beatrice walked towards them quickly. She only felt relieved when she saw that Yu Huang and Sheng Xiao weren't injured.

Sheng Xiao stared at the people on the city wall. He asked Beatrice, "What is going on here?"

Beatrice said, "I've asked around. There are a total of 100 cities in the Doomsday Battlefield. This is the first city. The people standing on the city wall are the city guards selected by the Administration. Only participants who successfully defeat these 100 city guards are qualified to participate in the Central Pagoda's hunting battle."

Beatrice pointed at the leftmost city guard and said to Yu Huang, "That's a Master."

She pointed at the city guard in the middle and said, "That's a Supreme Master. The one on the right is a Grand Master."

After hearing Beatrice's introduction, Yu Huang said thoughtfully, "In other words, if we want to successfully reach the Central Pagoda and top the Ten Thousand Ranking List, we must first successfully defeat these 100 city guards? We can't lose a single match?"

"That's right."

Yu Huang and Sheng Xiao looked at each other and saw the fighting spirit in each other's eyes.

"I'll wait for you in the Central Pagoda." Then, Sheng Xiao suddenly jumped up and appeared in front of the broken city wall.

Sheng Xiao nodded at him. "Sheng Xiao, the Grand Master Beast Tamer of the Holy Spirit Continent, is here to challenge you!"

The Grand Master city guard was wearing a translator device in his ear. He stared at Sheng Xiao for a moment. After the device translated Sheng Xiao's words, he nodded and said calmly, "City Guard No. 100 accepts the challenge!"

Chapter 543: Grand Master Battle, Successful Clearance (1)

Number 100 meant that he was the guardian of the 100th city. Among this group of guards, the Beast Tamers with the lower number were weaker.

However, they were only relatively weak.

What the participants didn't know was that these city guards were also participants of the previous batch of world competitions. Although they didn't successfully enter the Grand Master Ten Thousand Ranking Lists, their strength couldn't be underestimated.

As everyone knew, the Beast Tamers who could participate in the Doomsday Battlefield World Competition were all between the ages of 20 and 50. To be able to reach the Grand Master cultivation level before the age of 50, they were outstanding people in various worlds. It wasn't easy to defeat them.

The number 100 city guard tapped the translator device on his ear. He cupped his hands at Sheng Xiao and refused to say anything else. He fused with his beast form and attacked Sheng Xiao.

It was an eight-clawed octopus. The octopus's body was covered in many dense suction holes, and it looked hair-raising.

Beatrice stared at the densely packed suction cups on the octopus' body. She grabbed Yu Huang's arm and said with a pained expression, "I have tryphobia." The moment she saw the suction cups on the octopus' body, she felt her scalp go numb and her toes tighten.

Seeing that Beatrice was indeed feeling uncomfortable, Yu Huang comforted her. "Don't be nervous. Look at those tentacles. They're thick and strong. Aren't they very suitable for barbecue? One tentacle is enough for us to eat. We can roast them and sprinkle some chili powder and pepper powder. Wouldn't that be delicious?"

1

Beatrice thought of the taste of roasted octopus and her tense toes gradually relaxed. "Now that you mention it, it's not that scary."

After the city guard transformed into an octopus, four spirit energy rings appeared above his head.

He was indeed a Grand Master expert.

"Excuse me!" The octopus said politely. Its eight tentacles spread out in all directions at the same time. The moment they all opened, a powerful suction force suddenly appeared and almost sucked Yu Huang and the others into the tentacles.

Seeing this, the beast tamers watching the battle below quickly retreated into the distance to avoid being affected.

Yu Huang and the others retreated a thousand meters in one go. Only then did the suction force weaken. Sheng Xiao, who was deep in the center of the battle, didn't move at all. Not even his hair swayed.

A look of surprise flashed across the city guard's eyes.

Sheng Xiao could still remain motionless under his suction force. This meant that the spiritual power in Sheng Xiao's body was very strong. At least, it wasn't weaker than his.

It seemed that the participants from this small world were quite capable.

Seeing that, the city guard stopped hiding and decided to fight Sheng Xiao with his real abilities. In the sky, dark blue patterns suddenly appeared on the octopus' body. Then, the octopus's body changed drastically.

His limp body suddenly stood up straight, and his round head was raised high, revealing a slender neck covered in black scales. Sharp bones cracked the back of the octopus, and two wings that were like bat wings extended from the back of the octopus. At the same time, many tentacles emerged from his soft abdomen.

The mutated octopus was even more terrifying.

The sky above the city was suddenly filled with dark clouds. The mutated octopus stood under the dark clouds like a demon. The creature in front of him was no longer an octopus, but a mutated species that Sheng Xiao had never seen before.

Sheng Xiao finally felt a sense of danger from the spiritual power released by the other party.

“You can force me to use my killing move in such a short time. Sheng Xiao, you’re not bad.” The octopus stared at the small figure on the ground and said, “I won’t show you mercy just because you’re a participant from a small world. Sheng Xiao, show me your true ability and fight me!”

Although Sheng Xiao didn’t understand his language, he could guess what he meant.

He finally moved.

The shirt on his body suddenly moved without any wind. Then, there was the sound of bones being torn apart and reassembled in his body.

Sheng Xiao’s body suddenly turned red and hot. His bones expanded. He raised his hands that were by his legs and curled them up in pain. “Ah!” Sheng Xiao raised his head and shouted in pain. The city guard saw a pair of black and hard dragon horns coming out of Sheng Xiao’s forehead.

Then, dense black scales appeared on Sheng Xiao’s body. Under the dark clouds, Sheng Xiao’s body suddenly expanded!

Chapter 544: Grand Master Battle, Successful Clearance (2)

Sheng Xiao disappeared on the spot. A thick black fog suddenly appeared in the world. The city guards couldn’t see the changes in the black fog, but they heard a scalp-numbing roar. The roar was something the city guards had never heard before. The roar seemed to come from ancient times and was filled with pressure.

The city guard vaguely saw a huge black shadow rising into the sky from the black room. He looked up at the dark clouds above him in surprise and heard the angry roar in the dark clouds. His heart suddenly skipped a beat.

What on earth was that?!

“Roar!”

Suddenly, a huge creature rushed out of the dark clouds and towards the city guards.

After the city guard saw the creature’s appearance clearly, he subconsciously staggered back.

It was actually a dragon!

Although the dragon was covered in a layer of ice and snow, its beast body was still mighty and huge. There was a pair of mighty dragon horns on its head, and its neck was covered in majestic dragon whiskers. The scales on its body looked indestructible.

After seeing the creature’s appearance clearly, the guard’s pupils suddenly dilated!

This thing was especially similar to the ancient divine beast Black Qing Sky Dragon he had seen in ancient books!

Could this thing really be the Black Qing Sky Dragon?

When the city guard came back to his senses, the dragon had already transformed into a powerful Dragon Sword that shot towards him! Seeing this, the wings on the city guard's back quickly flapped. The tentacles on his body completely spread out and wrapped around the dragon sword.

"Inescapable Net!" All the tentacles quickly intertwined in the air, forming an inescapable net.

The tentacles of the octopus had a very strong suction force. It was an inescapable net formed by countless tentacles, and there was a powerful and chaotic suction force inside. When they attacked at the same time, they could instantly tear the enemy into countless pieces.

Therefore, this move was called the inescapable net.

After the Dragon Sword was completely enveloped by the tentacles, the deafening dragon roar disappeared.

When he couldn't hear the dragon's roar, the city guard thought that he had defeated Sheng Xiao. He heaved a sigh of relief and was about to let the defeated Sheng Xiao out. However, at that moment, he sensed a terrifying energy fluctuation in the net.

Immediately after, a sharp sword instantly shattered all the tentacle suction cups in the net.

The inescapable net wrapped the Dragon Sword tightly. The spectators couldn't see the battle inside clearly. They only saw the tentacles moving quickly. They thought that Sheng Xiao had been defeated, but at that moment, they heard the screams of the guard.

"Ah!!"

The screams of the city guard made one's scalp tingle.

At that moment, the inside of the inescapable net had already been destroyed by Sheng Xiao. It was covered in blood and flesh.

The suction cups on the tentacles were as important to the octopus as the blood vessels in the human body. The suction cups were ruthlessly crushed by Sheng Xiao. The city guard was severely injured and screamed.

One tentacle after another was cut off by the Dragon Sword. The tentacles fell from the net. Finally, a crack appeared in the net.

Sheng Xiao noticed the crack and quickly flew towards it.

He was unstoppable and cut off all the tentacles that blocked him.

"Ah! It hurts!" The city guard could no longer hold on. His body quickly fell to the ground.

The city guard fell to the ground on his knees. He was in so much pain that he pressed his hand on his abdomen and the wings on his back were trembling.

Seeing that the city guard had been defeated so miserably, the bystanders couldn't help but look up at the sky.

There stood a tall figure.

The dragon horn on the young man's head was still there. He held the Dragon Sword in his hand. His short black hair fluttered in the wind. His shirt was torn, and his muscular body was covered in stiff dragon scales with red blood beads hanging on them.

Blood and power combined made him look indescribably charming.

Sheng Xiao looked down at the city guard and asked calmly, "Did I succeed?"

The city guard nodded with a complicated expression when he heard the contents of the translator. He said in a hoarse voice, "Congratulations on passing checkpoint 100." Perhaps he didn't notice that his eyes were filled with awe when he looked at Sheng Xiao.

"Okay." Sheng Xiao glanced at Yu Huang and said, "I'll wait for you in the Central Pagoda."

Then, Sheng Xiao turned around and flew towards the 99th city.

Seeing Sheng Xiao leave the abandoned city in the blink of an eye, the beast tamers standing outside the city couldn't help but feel excited. It was as if they saw hope after Sheng Xiao defeated the city guards.

At this moment, Beatrice flew out from the crowd.

Beatrice nodded at the people standing on the city wall and said, "The Beast Tamer of the Holy Spirit Continent, Beatrice, is here to challenge you!"

The Supreme Master raised his eyebrows and looked at Beatrice. He couldn't help but ask, "You're also a participant of the Holy Spirit Continent?" This was the second time he had heard the name of this continent in a day.

Beatrice nodded. "I'm from the Holy Spirit Continent."

Sheng Xiao had just defeated the Grand Master city guard. His stunning performance made the Supreme Master city guard look forward to the participants of the Holy Spirit Continent.

He nodded at Beatrice and said, "Supreme Master City Guard No. 100 accepts your challenge!"

He wanted to see if this female Beast Tamer could bring them a surprise, like the young man called Sheng Xiao.

Beatrice closed her eyes slightly. In the next second, her slender and sexy legs turned into a gorgeous fishtail.

Without giving the city guard any time to prepare, Beatrice charged towards the city guard like a small cannonball.

As the commander of the Divine Moon Empire's Iron Thunder Army, Beatrice never liked to waste time during battle.

She liked to end things quickly.

Chapter 545: Jing Jiaren of the Divination Continent (1)

As soon as the battle began, Beatrice used her ultimate move. She swung her fishtail forcefully, and the hills outside the city were uprooted by a powerful energy.

Beatrice swung her fishtail angrily, and the hill immediately flew towards her from the sky.

Beatrice flew up and caught the incoming hill with her seemingly slender arms.

When her arms collided with the hill, the muscles on her arms and her veins bulged. She was filled with strength. At this moment, Beatrice looked like a mighty and powerful man with endless energy in her body.

Beatrice raised the hill with both hands and shouted in a low voice, "Nine-Layered Divine Pagoda, first form!"

Beatrice gritted her teeth and smashed the hill towards the city guard!

Rumble!

The heavy hill smashed towards the city guard like a star that had descended from the sky with the destructive power to destroy the world.

The city guard sensed the destructive storm contained in those hills. He didn't dare to lower his guard at all. He hurriedly mobilized all the spiritual power in his body and used all his strength to resist Beatrice's attack.

A light flashed in his hand, and a mortar-like weapon appeared.

The Supreme Master city guard was a pure battle-type Beast Tamer. His beast form was a pure weapon beast form, a mortar! What the mortar needed to fire wasn't artillery shells, but spiritual power. The guard carried the mortar and injected spiritual power into it. With a cold expression, he fired a shot at the hill.

Boom!

The spiritual cannon charged towards the hill and collided with it. With a deafening explosion, the small hill was blasted into countless pieces by the other party's spiritual cannon.

Seeing that he had successfully resolved the other party's attack, the city guard revealed a look of joy.

It seemed that this participant's ability was only so-so.

As soon as this contemptuous thought appeared, before the city guard could rejoice, he saw the shattered stones actually overlap on their own before condensing into a mountain that was even larger than the previous small hill!

The guard's smile froze.

How... how was this possible?!

Beatrice's figure was like a ghost as she quickly flew to the top of the hill. "Nine-Layered Divine Pagoda, second form!" Beatrice suddenly swung her tail at the mountain, and the hill smashed towards the city guard again!

This time, the destructive power brought by the small hill was even greater than the last time.

Facing the small hill that was charging straight at him, the city guard became slightly solemn. After he realized that Beatrice's strength couldn't be underestimated, he hurriedly filled the mortar with spiritual power again and fired another shot at the small hill!

When this shot was fired, the city guard's handsome face turned slightly pale.

Bang!

The city guard destroyed Beatrice's mountain attack again.

Seeing this, the city guard heaved a sigh of relief.

But at this moment, the shattered mountains overlapped again, forming a mountain that was even larger and more terrifying than the previous two.

The city guard glared at it and cursed angrily, "What cultivation technique is this?!"

What the hell? Was this thing indestructible?!

The Nine-Layered Divine Pagoda was a strange cultivation technique that allowed one to fight to the death. Every time it was destroyed, it would condense into an even larger energy tornado and return. Only after it was destroyed nine times in a row would it be completely destroyed.

This was Beatrice's ultimate move.

The city guard gritted his teeth and endured the spiritual power to destroy five consecutive attacks from Beatrice. When he saw that the shattered hill had reformed again and was even more majestic than before, the city guard finally admitted defeat.

"I admit defeat." The city guard wiped the sweat off his forehead and admitted defeat with a dejected expression.

"Thank you."

Beatrice nodded at Yu Huang. With a sweep of her tail, she flew towards another city.

Just as Beatrice flew away, Yu Huang released her Vermillion Bird wings and flew out from the crowd.

The Vermillion Bird's wings were fully extended, giving off an imposing aura that blotted out the sky. She attracted the attention of all the Beast Tamers, including the city guards standing on the city wall.

Yu Huang stood in front of the Master city guard and said loudly, "Master Beast Tamer of the Holy Spirit Continent, Yu Huang, boldly requests to fight!"

It was the Holy Spirit Continent again!

Before today, the participants and city guards of these great worlds had never heard of the existence of the Holy Spirit Continent. But today, they had heard this name from three people in a row.

It seemed that this small world called the Holy Spirit Continent was quite strong.

Chapter 546: Jing Jiaren of the Divination Continent (2)

At this moment, they didn't know that in the future, the name of the Holy Spirit Continent would become the most resounding name in the three thousand worlds.

The Master city guard thought about Sheng Xiao and Beatrice's performance in the battle. Then, he looked at Yu Huang's calm demeanor and the pair of gorgeous wings on her back. He suddenly had a bad feeling.

Could this little girl in front of him also be a participant with powerful combat strength?

The city guard nodded with a complicated expression and replied, "Master City Guard No. 100 accept the challenge!"

Yu Huang was the same as Beatrice. They both liked to end the battle quickly. Therefore, from the beginning of the battle, she activated her psychic power and spirit energy to use the Blazing Moon Art.

The city guard stared at the little pheasant above Yu Huang's left hand and the crystal ball in her right palm. His gaze instantly became solemn.

What was the other energy this little girl used? Why had he never seen it before?

Due to the fact that Sheng Xiao and Beatrice's performance was too shocking, the city guard didn't dare to let his guard down when he fought Yu Huang. He used his ultimate move.

A creature with the body of a dragon and the head of a human appeared in front of Yu Huang. That thing opened its mouth and spat a round ball of lightning at Yu Huang. Lightning flashed and thunder rumbled on the ball of lightning. Yu Huang could hear muffled thunder coming from the ball of lightning.

The lightning ball met the wind and turned into an endless lightning wall.

Yu Huang stared at the lightning in the wall of fire and guessed the beast form of the city guard.

He had a Leize beast form.

Leize was a very powerful beast form species. They had the body and head of a dragon, and their energy naturally contained lightning power.

Leize had a dragon body, so they also had dragon power, although it was extremely weak.

If other Beast Tamers met Leize, they would definitely be suppressed by his power.

Unfortunately, he was unlucky enough to meet Yu Huang.

Yu Huang stared at the dragon body of the city guard and suddenly felt hungry. She closed her eyes and tried her best to suppress the urge to devour the dragon body. Then, she pulled the longbow forcefully and fired the fan-shaped arrow condensed from psychic power.

"Blazing Moon Art!"

The fan-shaped arrow shot into the lightning wall and split into countless sharp daggers.

The dagger was filled with the energy of the Phoenix True Fire. They quickly shuttled through the lightning wall. The lightning wanted to disintegrate the flames, and the Phoenix True Fire also wanted to devour the lightning. The spectators saw that the lightning wall was sometimes struck by lightning and sometimes by raging flames.

The evening sky was red from the lightning wall.

Sensing that the flames released by Yu Huang's beast form could actually devour lightning, the city guard instantly became stunned. What exactly was this girl's beast form? Why was her flames able to disintegrate the power of lightning?

At this moment, the city guard heard Yu Huang shout, "Tears of Samsara!"

The city guard hurriedly raised his head to look in Yu Huang's direction and saw a crystal clear tear floating above her head.

The tear shattered with a bang. Wherever the tear passed, everything became still.

The energy in the burning lightning wall suddenly stopped moving. The weeds that were swaying in the wind also stopped swaying. The city guard realized that he couldn't move anymore. He couldn't even blink.

That tear actually froze the entire space!

In this frozen space, Yu Huang was the only ruler.

The wings on her back flapped, and in the blink of an eye, she appeared in front of the city guard with a spirit sword in her hand. When the effect of the Tears of Samsara disappeared, the city guard lowered his head and saw a spirit sword pressed against his throat.

Yu Huang held the spirit sword in her hand and said calmly, "You lost. Thank you."

The city guard had a complicated expression.

This battle ended too quickly.

What kind of place was the Holy Spirit Continent? Why were the Beast Tamers from that world so tough?

The country bumpkins of the small world were all very impressive.

The city guard took a step back and avoided the spiritual sword. Then, he said softly, "Congratulations on successfully passing the test."

Yu Huang nodded and left.

In the next few days, Yu Huang had been attacking the city. She overcame all obstacles and started challenges from the 100th city to the 10th city.

The last ten cities were difficult to pass through. The strength of the city guards had clearly reached the peak of the late-stage Master Realm. Yu Huang gradually felt the pressure, but she still didn't intend to

give up. As long as her limbs were still there and as long as she could still fight, she wouldn't take the initiative to give up.

Yu Huang spent another four days before she reached the third city.

On the other hand, the city guards of this city were no longer Masters, but early-stage Supreme Masters. Most of the participants who had successfully passed the 97th city in front had been eliminated. Yu Huang sat on the grass and watched as wave after wave of participants were expelled from the Doomsday Battlefield. Her mood became more and more gloomy.

Even before reaching the Central Pagoda, the challenges were already so difficult to pass. She wondered how terrifying the Central Pagoda's hunting battle would be.

At this moment, Yu Huang noticed that a new batch of challengers had arrived on the battlefield.

There were more than ten challengers this time. From their attire, it could be seen that they came from two different forces.

Yu Huang heard two participants from the Demon Beast Continent discussing in low voices in the distance. "Look, they're participants from Cang Lang Academy!"

Cang Lang Academy?

Yu Huang immediately turned her head to look at the group of men and women in academy-style suits standing on her left. The group of participants all wore the same badge on their shoulders. From the looks of it, they were students of Cang Lang Academy. The man in the lead had an extraordinary aura. He stood there with a gun in his arms, giving off a sense of oppression that couldn't be ignored.

Cang Lang Academy was the number one academy in the Cang Lang Continent. Yu Huang's father, Yin Mingjue, had studied at Cang Lang Academy back then. Her mother, Jing Rujiu, was also a student of Cang Lang Academy.

If she could go to the Upper World in the future, the academy that Yu Huang wanted to go to the most was also Cang Lang Academy.

Yu Huang heard someone say again, "Are those participants from the Jing family of the Divination Continent?"

Yu Huang looked at the two participants from the Demon Beast Continent and realized that they were sizing up the group of new challengers on her right. She also turned her head to look.

The participants standing on her right looked very young. They were all wearing loose short robes with a wide belt around their waists. Among them, the men had short hair, and the women's long hair was all tied up and decorated with an ancient hairpin.

Yu Huang heard someone from the Demon Beast Continent say, "I heard that the Jing family's Jing Jiaren broke through to the Grand Master realm at the age of 28. She must have a place in the top ten of the Grand Master rankings." As she spoke, the gazes of the two participants from the Demon Beast Continent landed on the woman at the front of the Jing family's team.

Yu Huang was also looking at the woman.

The woman's posture was elegant. Her wide belt accentuated her narrow waist, making her look slender and alluring. The short robe on her body was very loose, revealing her slender and elegant fair neck. There was a pair of exquisite earrings hanging from her ears.

Even though the woman's face was covered in a layer of ice and snow, Yu Huang could still see her astonishing beauty through that layer of barrier.

After Yu Huang saw the other party's face clearly, she was extremely shocked.

Damn, she broke through to the Grand Master realm at the age of 28. What kind of monster was this woman?

Even with drugs, one couldn't be so fast!

The Great World was indeed filled with big shots.

Chapter 547: Jing Rujia Is Her Aunt (1)

The other party was only six years older than her, but she had already broken through to the Grand Master realm. This dealt a huge blow to Yu Huang's confidence.

She couldn't help but wonder what level she would be at when she was 28 years old.

Could she successfully break through to the Master Realm and become a Supreme Master?

Perhaps it was because Yu Huang's gaze was too focused, but the woman called Jing Jiaren lowered her eyes slightly and glanced at her. Now that the ten Great Worlds had long been interconnected, the participants of the Great Worlds wouldn't be restricted by the barrier.

When Jing Jiaren saw that Yu Huang's body was covered in a layer of yellow sand, she lost interest in probing and retracted her gaze.

Jing Jiaren looked at Yu Huang as if she was a movie star looking at those unknown extras.

She had clearly seen Yu Huang, but she didn't take her seriously.

Because she had no sense of existence.

Anyone who could attract the attention of an expert was definitely an expert.

Yu Huang noticed that Jing Jiaren's gaze swept past her. When Jing Jiaren turned her head away, she couldn't help but pluck a blade of grass from beside her leg. She lowered her eyes to hide the sadness in her eyes.

There were many participants in the World Tournament, but there were only a hundred cities. Therefore, there were actually many city guards in each city. There were a total of 50 Grand Master city guards in this city. They lined up in a straight line and sat on the city wall waiting for the challenge. They looked like a group of sparrows.

According to the rules, the leftmost city guard was the weakest, and the rightmost city guard was the strongest.

Jing Jiaren's beautiful eyes swept across the group of city guards and finally landed on the city guard on the right. Jing Jiaren bent down slightly and said elegantly to the city guard, "Grand Master Beast Tamer Jing Jiaren of the Divination Continent has come to challenge you!"

Upon hearing Jing Jiaren's name, the city guards looked at her at the same time. From their expressions, it could be seen that they had all heard of Jing Jiaren.

There was silence for a moment. Then, the city guard sitting on the right stood up.

It could be seen that to them, Jing Jiaren was very strong. She was so strong that no one else dared to fight her, so their leader could only step forward. The city guard cupped his fists and said to Jing Jiaren, "Miss Jing, I accept your challenge!"

Hearing this, Jing Jiaren smiled faintly. In the next second, her expression suddenly turned cold.

Jing Jiaren reached out and pulled out the hairpin on her head. She held the hairpin in her hand and flew into the sky. Yu Huang only saw Jing Jiaren draw a few runes in front of her with the hairpin in her hand. She pushed the runes gently, and the runes instantly enlarged by thousands of times, covering the entire city.

The world suddenly darkened, and the entire world instantly fell into darkness.

At the same time, the rune emitted a golden light from the sky and pressed down on the head of the city guard.

The city guard actually gave up on attacking.

He immediately released all his spiritual power and built a protective shield around his body to resist Jing Jiaren's power.

From the battle performance of the city guard, it could be seen that the city guard was very wary of Jing Jiaren. It could even be said that he was afraid. Therefore, he didn't even have the courage to fight Jing Jiaren. He could only use all the energy in his body to block the opponent's attack.

The rune pressed down on the city guard, as if the sky had collapsed.

Soon, a layer of sweat appeared on the city guard's forehead, and his lips began to quiver.

He seemed to be unable to hold on any longer.

Just as this thought flashed across Yu Huang's mind, she heard a crisp crack.

Crack!

A crack appeared on the protective shield.

Crack! Crack!

Two seconds later, the protective shield shattered on the spot.

Without the protection of the protective shield, the guardian immediately knelt on the ground and shouted in pain, "I admit defeat!"

Before the battle began, the city guard admitted defeat.

Yu Huang stared blankly at the kneeling city guard and then at the slender figure standing in the darkness. Her pupils quivered slightly.

Yu Huang felt as if her chest had been punched by something.

It didn't hurt, but she was deeply shocked.

Jing Jiaren waved her right hand gently, and the runes that enveloped the world disappeared. The runes dissipated, and the endless darkness quickly retreated like the receding tide.

Light reappeared. Sunlight passed through the dark clouds and landed on Jing Jiaren's body, elongating her graceful and enchanting figure. It landed on the ground and extended to Yu Huang's legs. Yu Huang stared at the elegant shadow beside her and felt extremely bitter.

Chapter 548: Jing Rujiu Is Her Aunt (2)

Was this Jing Jiaren's strength?

As expected of a peerless genius who had the ability to enter the top ten of the Grand Master Ranking.

"Thank you for letting me win," Jing Jiaren said to the city guard with a faint smile.

The city guard slowly stood up and shook his head with a pale expression. He looked at Jing Jiaren with unconcealable admiration and said resignedly, "Miss Jing is powerful. I am willing to admit defeat."

Jing Jiaren nodded again and rushed towards the second city like a gust of wind.

After she left, there was silence outside the city. Everyone had yet to recover from their shock.

After a moment of silence, the man holding a gun at the front of the Cang Lang Academy team suddenly said in a low voice, "Jing Jiaren has become stronger again. Her cultivation and talent seem to be stronger than her aunt's."

The classmate beside him said, "Her aunt?"

The man with the gun nodded. "Yes, her aunt is Jing Rujiu."

Hearing this, his companions behind him became even more surprised. "The children of the Jing family are really impressive. Not only is Senior Jing Rujiu's cultivation level powerful, but her niece is even more outstanding."

Yu Huang couldn't understand the language of the students from Cang Lang Academy. If she could understand, she would definitely be very excited.

At this moment, the man with the spear also flew out from the team. He walked in front of the Grand Master city guard and said loudly, "Grand Master Beast Tamer Zhan Wuya of the Cang Lang Continent has come to challenge you!"

The group of city guards stared at Zhan Tianya in silence for a few seconds. The second last city guard on the right stood out. He looked at Zhan Tianya with some fear and said calmly, "City guard number 003 accepts the challenge!"

When Yu Huang saw that the man had issued a challenge, she immediately sat up straight.

This guy looked very powerful. She wondered how strong he was.

Soon, Yu Huang realized how powerful this man was. He wasn't inferior to Jing Jiaren at all. He only fired a shot at the city guard, and the city guard was sent flying hundreds of meters away by him and could no longer get up.

Zhan Wuya blew at the muzzle of the gun and said with a cold expression, "Thank you for letting me win." Then, he also left like a gust of wind.

Yu Huang was speechless.

The young people of the Great World were indeed powerful!

Yu Huang rested on the spot for more than two hours. After the participants from Cang Lang Academy and the Jing family successfully passed the challenge, she stood up.

"Master Beast Tamer Yu Huang of the Holy Spirit Continent has come to challenge you!"

Most of the city guards were accepting the challenges of the participants. In the city, only two city guards were left without opponents. The two of them sat cross-legged on the city wall, one sitting on the leftmost side and the other on the rightmost side.

The one on the left was the weakest among the city guards, and the one on the right was naturally the strongest.

Seeing that Yu Huang's body was covered in a yellow sand barrier, he knew that she was a participant from a small world. The city guard sitting on the right said, "Little girl, choose a challenger yourself."

The city guard spoke in a language that Yu Huang did not understand.

However, Yu Huang guessed that he was asking her to choose a challenger herself. She tactfully walked to the leftmost city guard.

When the senior saw that Yu Huang had chosen him, he nodded and stood up.

When the senior released his spirit energy, a white crane appeared beside him. The senior said to Yu Huang, "Participant of the small world, it's already very good that you can reach this point. I won't go easy on you just because you're a participant of the small world."

With that, the city guard extended his right hand, and the white crane instantly transformed into a white crane fan that was held in the city guard's hand.

Beast Tamers at the Supreme Master Realm could control their beast form to change their combat form.

The city guard held his fan and opened his right palm to say to Yu Huang, "Come, let me see your abilities."

Yu Huang stared at the white crane fan in the other party's hand and nodded. She closed her eyes and released her spiritual power. Fiery red spiritual power emerged from between Yu Huang's eyebrows. They lingered around Yu Huang's body and quickly fused together to become a bird the size of a wild pheasant.

Seeing that Yu Huang's beast form was actually a wild pheasant, the city guard was somewhat shocked.

The pheasant's attack power wasn't strong. For Yu Huang to successfully pass the first 97 levels, it could be seen that this little girl was really hard working.

The city guard held the crane fan in his right hand and fanned it forcefully. The white cranes on the fan suddenly flew towards Yu Huang. One, two, three, and finally, hundreds of white cranes appeared. Every white crane had an attack power that couldn't be underestimated.

"Hundred Birds Facing the Phoenix!"

The city guard flipped his fan and the birds formed a mighty and gorgeous formation in the air. They looked like a phoenix.

Yu Huang shouted in a low voice, "Xuan Yu!"

Swish!

The wild pheasant in front of her suddenly spread its wings and flew into the sky. As its wings flapped, the temperature became higher and higher. Its petite body instantly increased by dozens of times. Raging flames burned in the sky, and the leaves and weeds withered in an instant.

That ball of flames burned the sky red in the evening.

The city guard looked up at the flames in the sky and suddenly felt his heart palpitate.

He felt as if there was a terrifying creature hidden in the flames.

Swish! A sharp and loud bird's cry sounded from the flames that filled the sky. In the next second, a gorgeous and huge fiery red phoenix rushed out. The phoenix soared between the heavens and the earth. As it flapped its wings, the Purifying Evil Phoenix Flame fell in clusters.

When the Purifying Evil Phoenix Flame landed on the white cranes, they were actually burned to ashes in an instant!

Chapter 549: Scapegoat Yu Huang (1)

When the city guard saw this shocking scene, he trembled uncontrollably. "Divine, Divine Feather Phoenix!" When he saw the Divine Feather Phoenix that could only be seen in ancient records, the city guard was stunned.

The city guard could clearly feel the folding fan in his hand trembling. It was because he had sensed the powerful bloodline pressure of the Divine Feather Phoenix.

It was afraid!

It was trembling!

Yu Huang flew and stood on the phoenix's head. The Vermillion Bird wings on her back suddenly spread out. At this moment, she looked like a real phoenix, dazzling and eye-catching.

"Sky Full of Stars!"

The blood-red feathers fell one by one and turned into sharp daggers that quickly flew towards the city guard like stars.

The city guard hurriedly released a protective shield to resist the endless spiritual force daggers.

Ding! Ding! Ding!

The dagger hit the protective shield and left countless marks. Cracks appeared on the protective shield, but it still held on.

Seeing that the protective shield was not broken, the city guard was about to heave a sigh of relief when he saw a fiery red fan-shaped arrow shooting towards him. What was even stranger was that he didn't sense any spiritual energy fluctuations from the shaped arrow, but the energy contained in it was equally boundless!

It was not spiritual power, but an energy he had never seen before.

What did this mean?

Bang!

The psychic fan-shaped arrow pierced through the protective shield. The city guard immediately felt a sharp pain in the depths of his soul.

He covered his head with his hand and took a few steps back before raising his head. He looked at Yu Huang in the distance in shock. Yu Huang stood on Xuan Yu and looked at him calmly. She cupped her hands at the city guard and said, "Thank you."

The city guard stared at the majestic Divine Feather Phoenix beneath her with a complicated expression.

He really didn't expect that someone in the small world had actually awakened the Divine Feather Phoenix Beast Form.

"Congratulations on successfully clearing the level."

Yu Huang nodded indifferently when she heard this. She put away her beast form and flapped her Vermillion Bird wings as she flew towards the second city.

The cities were very close to each other. Yu Huang only took half an hour to reach the second city. More participants gathered outside the second city. She looked carefully, but didn't see Jing Jiaren, Zhan Wuya, and the others in the crowd.

It could be seen that they had already passed.

Perhaps they had already arrived at the Central Pagoda.

The guards guarding the second city were also Supreme Master experts. Yu Huang carefully sensed their spiritual energy fluctuations and discovered that they were slightly stronger than the guards of the third city. The group of guards in front of her were probably all late-stage Supreme Masters.

It seemed that the participants who could successfully enter the Master Ranking were all freaks who could defeat late-stage Supreme Masters.

Yu Huang had yet to figure out the other party's moves and strength, so she didn't dare to act rashly. She imitated the others and sat in the crowd to watch their battle. Yu Huang sat for a while before sensing a new energy fluctuation approaching.

She turned around and saw someone unexpected.

"Fourth Brother?" Yu Huang really didn't expect Feng Yuncheng to successfully enter the second city.

Feng Yuncheng was stunned when he heard the familiar language.

His gaze passed through the crowd and met Yu Huang, who was standing in the middle of the crowd. When he saw Yu Huang, Feng Yuncheng immediately ran over excitedly, as if he had seen his family. He hugged Yu Huang's shoulder tightly. "Yu Huang! I've finally met my own people!"

Yu Huang noticed that Feng Yuncheng's shirt was dirty and that his fair and handsome face had been tanned by the sun. She guessed that it hadn't been easy for Feng Yuncheng to clear the levels. "It's very good that you were able to reach this stage." Yu Huang really didn't expect Feng Yuncheng to be able to successfully pass the second city.

"Sigh, it's all thanks to luck. It's not like you don't know the characteristics of my beast form." Feng Yuncheng's Charming Butterfly could transform into the appearance of the person that his enemy cared about the most. He was indeed lucky to be able to reach this place with his early-stage Master cultivation level.

Yu Huang had also guessed the key to Feng Yuncheng's clearing, so she didn't say anything else.

Feng Yuncheng relaxed a little when he saw someone he knew. Feng Yuncheng touched his burning face and said, "Rest with me for a while. We'll clear the level together later."

"Okay."

Yu Huang thought that Feng Yuncheng was tired and wanted to rest on the spot. Who knew that Feng Yuncheng would actually take out a facial mask and say shamelessly, "The sun is so strong here. My handsome face is about to be disfigured. Let me put on a facial mask to take good care of my skin."

Chapter 550: Scapegoat Yu Huang (2)

Yu Huang was speechless.

He was really a high-maintenance handsome man.

Feng Yuncheng put on a mask and sat cross-legged as he asked Yu Huang, "Who did you meet along the way?"

Yu Huang subconsciously said, "I didn't see your brother and the others."

Feng Yuncheng nodded and told Yu Huang, "My second brother was eliminated long ago. I met my brother in the sixth city earlier, but I didn't meet him after that. I think he was eliminated in the fourth city. Then did you see any other participants from our continent?"

Yu Huang tilted her head and looked at Feng Yuncheng. She asked with a faint smile, "Who are you referring to? Your Highness?"

Feng Yuncheng coughed in embarrassment, but he didn't deny it.

Yu Huang chuckled and told him, "I saw Her Highness during the city challenge a few days ago, but I never met her after that. I don't know if she succeeded or was eliminated."

Feng Yuncheng closed his eyes and praised Beatrice. "Her Highness is very powerful. She has experienced countless battles on the battlefield, big and small. She should be able to successfully pass through these 100 cities." As for whether she could top the Supreme Master Ten Thousand Ranking List, it was hard to say.

The two of them chatted for a while longer. Seeing that it was very late, Yu Huang said, "Don't rest. It's best if we can reach the Central Pagoda before noon tomorrow. Otherwise, we'll have to delay another day." The time until the Doomsday Battlefield closed was getting shorter and shorter. If they still didn't reach the Central Pagoda, they would miss the best opportunity to enter the rankings.

Feng Yuncheng tore off his mask and touched his smooth face. He patted his butt and said, "I'll go first."
"Okay."

Feng Yuncheng summoned the Bewitching Butterfly.

Feng Yuncheng had broken through to the Master Realm at the beginning of this year. After his cultivation level breakthrough, his beast form, the Bewitching Butterfly, looked even more dazzling and beautiful.

The Bewitching Butterfly spread its beautiful colorful wings. Feng Yuncheng stood in front of the wings of the Bewitching Butterfly and was about to take off. Yu Huang smiled at him. "Your cultivation has broken through. Your butterfly can finally carry you?"

Upon hearing Yu Huang's words, Feng Yuncheng couldn't help but think of how he had gone to the Divine Realm Academy to report, but was thrown down from the sky by the Bewitching Butterfly and fell to the ground. He had even been watched by Yu Huang the entire time.

Feng Yuncheng touched his nose and explained awkwardly, "My little butterfly has already grown up."
"Tsk. That's great."

When the city guards on the city wall saw a large butterfly suddenly appear among the participants, their eyes lit up.

As everyone knew, Beast Tamers who could awaken the butterfly beast form were generally beautiful women.

Thinking that a beauty was coming to challenge them, the city guards on the city wall stood up. "A beauty is here. Who wants to fight?!"

The Beast Tamer standing on the leftmost side of the team said loudly, "I fought with a group of rough men for the entire day today. How annoying. Give me this beauty. Don't snatch her from me!"

Seeing that their oldest buddy had spoken, how could the juniors have the cheek to argue? "She's all yours."

When he saw the butterfly fly to the city wall, he stood up and took a step forward. He softened his tone and asked, "Miss, are you ready for battle?"

The 'beauty' sitting on the butterfly slowly stood up.

Although Feng Yuncheng's body was covered by a layer of enchantment, and he couldn't see his true appearance clearly, he could still see the outline of the person in front of him clearly through the enchantment.

Damn! He was a rough man!

Feng Yuncheng cupped his fists at him and said, "I, Feng Yuncheng, the Beast Tamer of the Holy Spirit Continent, boldly challenge you!"

"Damn, he's a man." Feng Yuncheng's good mood was instantly ruined. "You guys fight him. I'll rest!" He waved his hand impatiently, turned around, and walked back to his seat to sit cross-legged.

Feng Yuncheng felt a little awkward when he saw him turn around and leave.

What, seeing that he was weak, he disdained to beat him up?

In the end, the person who stood out to fight Feng Yuncheng was a burly man who didn't look like someone to be trifled with.

Feng Yuncheng was only 175 centimeters tall. All the men in the cultivation world were strong. Feng Yuncheng was considered a short person in the cultivation world. However, he had a good figure and a handsome face. With his good looks adding points, everyone automatically ignored his shortness in height.

Feng Yuncheng stood in front of the burly man like Barbie versus King Kong.

Feng Yuncheng looked up at the two-meter-tall city guard and felt a chill down his spine.

Could he defeat him?

Knowing that there was a language barrier, the burly man couldn't be bothered to say anything to Feng Yuncheng. He summoned his beast form and attacked Feng Yuncheng.

To be chosen to be the guardian of the second city, the burly man's strength was naturally powerful. His beast form was an animal called a moose. The moose's body looked like a cow. It was strong and huge. The two antlers on its head were like two small coral bushes.

The antlers were covered in sharp thorns.

The burly man sat on the moose and flew towards Feng Yuncheng aggressively. The moose lowered its head and raised its pair of barbed antlers in front of it. It looked extremely dangerous.

Feng Yuncheng hurriedly released his spiritual power to block the other party's attack, but the moose's barbs had imposing might. As it rushed over, it directly broke through Feng Yuncheng's spiritual power shield.

Just as the moose's antlers were about to pierce Feng Yuncheng's body, Feng Yuncheng suddenly transformed into a powerful woman.

The woman was more than two meters tall. The muscles on her abdomen were about the size of her breast, and a muscular thigh was revealed under her high slit dress.

This was a woman who probably no man could be attracted to.

But when the burly man sitting on the moose saw the strong woman, his expression suddenly changed. "Barra?" The burly man's voice was quivering.

Barra was the burly man's fiancée, but she had died three years ago.

After she died, the burly man sealed his heart.

When he suddenly saw his deceased fiancée, the burly man suddenly lost it. He couldn't hear anything and only had eyes for Barra.

"Barra..." The burly man reached out to touch Barra's face. At that moment, a sharp dagger was quickly pressed between his eyebrows.

Barra was gone. In her place, there was an unfamiliar handsome man.

Feng Yuncheng took back the dagger and apologized to the other party with both hands holding the dagger. "I'm sorry, but you lost."

The burly man stared at the thin man in front of him and realized that he had fallen into his trap. This kid actually knew charm illusions.

"F*ck! You participants from small worlds are sinister and cunning! You're all despicable people!" The burly man cursed as he opened a path for Feng Yuncheng.

Although Feng Yuncheng didn't understand what he was saying, he knew that he was scolding him.

Feng Yuncheng felt extremely guilty and didn't dare to look at him. He hurriedly bent down and ran.

When Yu Huang saw that Feng Yuncheng had passed the test so easily, she was extremely envious. After Feng Yuncheng left, Yu Huang took the initiative to step forward to battle.

Upon hearing the words Holy Spirit Continent, the burly man, who was about to return to the city wall to rest, suddenly turned around.

He glared at Yu Huang with burning eyes and said in a sinister tone, "Holy Spirit Continent? You're with that bastard just now, right? Very good. Today, I'll let you participants of small worlds know what it means to be crushed!"

Yu Huang didn't understand the other party's language, but when she saw the other party's menacing aura, she thought about what Feng Yuncheng had just done to the burly man and immediately felt that something was wrong.

Damn!

Why should she take the blame for Fourth Brother?!
