

She Shocks 621

Chapter 621: Shady Trick (1)

Moreover, he had gone to the Upper World to train.

Mo Xiao's cultivation level was powerful and his age was a mystery. It was also possible that he knew the details of the Death Curse.

Mo Xiao could be that mysterious person!

Di Ruofeng's heart was already in turmoil, but he hid it very well. But even so, Mo Xiao still understood Di Ruofeng's emotional change.

Very suddenly, Mo Xiao turned around and gave Di Ruofeng a playful and unfathomable smile.

Upon seeing that smile, Di Ruofeng couldn't help but feel a chill down his spine.

"Dean Di, do you think it's me too?" Mo Xiao asked with a smile.

Di Ruofeng subconsciously asked, "Who else could it be?" He basically admitted it.

Lin Jiansheng was just careless, not stupid. When he heard their conversation, he immediately understood what Di Ruofeng was thinking. Lin Jiansheng looked at Di Ruofeng in surprise and said, "Why would you suspect the Grand State Master?" He didn't see any evil intentions from the Grand State Master.

However, it was also possible that the Grand State Master's cultivation level was too high, so his psychic power was unable to see through the Grand State Master.

Di Ruofeng rubbed his nose and didn't explain.

Mo Xiao explained patiently, "Sheng Lingfeng also asked me this question a few days ago." As the president of the Alliance, Sheng Lingfeng was truly a smart and wise person. He was the first person to notice the problem.

However, out of respect and trust for Mo Xiao, Sheng Lingfeng didn't suspect him for no reason. Instead, he found Mo Xiao and asked him many questions.

Di Ruofeng revealed an enlightened expression. "So it's Prime Master Ling Feng." Di Ruofeng narrowed his eyes and examined Mo Xiao. He asked suspiciously, "Is it you?"

Mo Xiao suddenly fell silent.

It had been some time since Su Xuanye's death. In the beginning, no one realized that there was something suspicious about Su Xuanye creating the Death Curse. But soon, Sheng Lingfeng discovered it and suspected him. Immediately after, Lin Jiansheng and Di Ruofeng also thought of this and suspected him at the same time.

He believed that before long, those experts in the cultivation world would discover these doubts and then sort them out bit by bit.

In the end, everyone would suspect him.

In the end, even if there wasn't enough evidence to point out that Mo Xiao was the mastermind, those experts would raise their swords and stab him out of suspicion, interest, and various factors.

At that time, once he, the strongest prophet on the Holy Spirit Continent, died, no one would know of that person's existence, his motives, and his subsequent actions.

This move was really dangerous and fatal!

Seeing that Mo Xiao didn't speak, Di Ruofeng and Lin Jiansheng's expressions became more and more serious. "Grand State Master, is it you?" Lin Jiansheng couldn't help but ask.

Even though he knew that this outcome might be difficult to change, Mo Xiao still didn't dare to accept his fate.

He shook his head. His voice was soft but clear. "It wasn't me."

Upon hearing this, Di Ruofeng and Lin Jiansheng heaved a sigh of relief.

Lin Jiansheng patted his chest and exclaimed, "You almost scared me to death!"

Mo Xiao suddenly set up two layers of barriers, one soundproof and one invisible. "Dean Di, Ling Xiao, I have something to say to you guys."

That night, Mo Xiao, Di Ruofeng, and Lin Jiansheng chatted for a long time...

Chapter 622: I Want to Woo You (1)

After the Ghost-Wrapping Flower was planted, it was as if someone had cast an immobilizing spell on it. It did not die or grow.

Feng Yuncheng would visit the Ghost-Wrapping Flower every morning, but he would go with anticipation and return with regrets. Compared to him, Xiao Shu was very calm. Ever since he planted the Ghost-Wrapping Flower, he had never taken care of it.

He spent all his time mining with Yin Rong.

The Black Spirit Stone mine was very difficult to dig. They could at most dig out a palm-sized mine in a day.

Every night, everyone would be so tired that they could not lift a hammer. They would meditate and rest on the spot for a moment. When their bodies recovered some strength, they would continue mining.

Just like that, a month passed on and off. Their interspatial bag finally bulged a little, but it would still take a long time to fill it up.

Yu Huang held the fasting pill in her hand and revealed a dejected expression. She loved meat. This Fasting Pill was novel for the first time, but after eating it a few more times, she felt bored.

She turned the fasting pill in her hand. When she saw Sheng Xiao and Sheng Zhou sitting together and talking to the sun, she got up and walked to Sheng Xiao. She tapped his shoulder from behind.

Sheng Xiao knew that it was Yu Huang.

Yu Huang squatted down and fed Sheng Xiao the fasting pill. "Here, breakfast." Yu Huang had been feeding Sheng Xiao with the fasting pill for the past few days.

He looked at Yu Huang helplessly. In the end, he opened his mouth and swallowed the fasting pill. Sheng Xiao was tired of the fasting pill too. However, when Yu Huang fed it to him, it tasted sweet.

He took a bite of the fasting pill. Immediately, an indescribable smell entered his nose and throat. Sheng Xiao frowned and said, "This fasting pill is so disgusting."

Upon hearing this, Yu Huang asked curiously, "Are there delicious fasting pills?"

"Of course, some particular alchemists will add some precious herbs to the fasting pill. Some like the taste of chicken, some like the taste of vanilla, and some like the taste of cod. In short, fasting pills can be produced in different flavors."

When she heard this, Yu Huang was somewhat puzzled. "Then why did the academy give us the most unpalatable kind?" Although the original taste was healthy, it was so bland.

Sheng Zhou held back his laughter and explained, "Because it's cheap. For the original fasting pill, an alchemist only needs to charge materials processing and alchemy fees. For fasting pills that have added flavor, you need to charge additional material fees."

Pills were expensive to begin with. There were five hundred students in the academy, so it was not a small sum of money to distribute a bag for each.

Yu Huang cursed the academy for being stingy. After she felt that she had recovered most of her strength, she returned to mining.

Seeing that Yu Huang was working so hard, Sheng Zhou bumped Sheng Xiao's shoulder and smiled at him. "Your wife is so hardworking."

Sheng Xiao looked at Yu Huang's back and chased after her. He saw her walking straight to her mine. She held the hammer and started mining seriously. Every hammer was filled with all her spiritual power. She was taking this opportunity to cultivate.

Sheng Xiao turned around and looked at the sun that rose out of the valley in the east. He smiled and said, "She's very attractive when she's serious, isn't she?"

Sheng Zhou did not dare to say yes.

Sheng Xiao was a possessive person. He could praise Yu Huang for being attractive, but Sheng Zhou could not admit that Yu Huang was attractive. If he admitted it, Sheng Xiao would ask him, "Are you attracted to Yu Huang too? Do you like her too?"

Therefore, Sheng Zhou shut his mouth and pretended not to hear it. He got up and continued mining.

These days, Feng Yuncheng and Xiao Shu were also mining in the crowd.

Seeing that the sky was bright, Feng Yuncheng put down the hammer and got up tiredly to walk to the black soil beside the feces pit. As usual, he had to observe the growth of the Ghost-Wrapping Flower.

Just like before, he slowly walked to the side of the Ghost-Wrapping Flower field. He squatted down and approached the Ghost-Wrapping Flower to size it up. He actually saw something different.

“Senior Xiao Shu!” Feng Yuncheng waved at Xiao Shu excitedly. “It’s sprouting! The Ghost-Wrapping Flower has sprouted!”

Xiao Shu did not show much surprise when he heard this.

He seemed to have expected this.

Xiao Shu put down the hammer and walked towards the bag of Ghost-Wrapping Flowers.

Beside the roots of the red Ghost-Wrapping Flower, five to six very petite Ghost-Wrapping Flower seedlings grew. The seedlings were only the size of a human thumb, but they already had the general appearance of the Ghost-Wrapping Flower.

Chapter 623: I Want to Woo You (2)

Feng Yuncheng looked at the seedlings as he said excitedly, “This is great. The Ghost-Wrapping Flower has sprouted. The two of us can stay in the Holy Spirit Academy!”

After these few days of observation, Feng Yuncheng finally realized that there was no difference between being a student and a cleaner in the Holy Spirit Academy. In any case, they had to do manual labor.

Xiao Shu nodded and said to Feng Yuncheng, “Go get Director Lin Feng to come and take a look.”

“Okay!”

Feng Yun ran to look for Lin Feng and told him about the situation with the Ghost-Wrapping Flower.

After knowing that they had really planted the Ghost-Wrapping Flower, Lin Feng suppressed the surprise in his heart and said to Feng Yuncheng, “Go back first. I’ll come later.”

“Alright, we’ll wait for you!”

After Feng Yuncheng left, Linfeng went upstairs to look for Mo Xiao.

Yu Huang, the white Companion Beast that Lin Jiansheng always kept by his side, ran to Mo Xiao’s room. It squatted on a small table and waited for Mo Xiao to feed it.

There was an empty plate in front of Yu Huang, which was its plate.

Mo Xiao was very patient with such small animals. He used a small porcelain spoon to scoop out the honey from a jar and placed it on the plate.

As soon as the honey landed on the plate, Yu Huang stuck out its pink tongue and licked the honey clean. Then, it looked up at Mo Xiao with a covetous expression.

Lin Feng looked at the clean plate and realized that Yu Huang might have already taken a few bites. He hurriedly reminded Mo Xiao, "Grand State Master, Ling Xiao warned that Yu Huang can't eat too much sugar at once. It's old and will become fat if it eats too much. It will cause all kinds of problems..."

Mo Xiao glanced at Lin Feng with impatience in his eyes.

Lin Feng quickly shut up.

Mo Xiao fed Yu Huang a few more spoonfuls before covering the honey jar. "Why are you looking for me?"

Lin Feng pointed at the back mountain and said with a smile, "Xiao Shu and Feng Yuncheng really managed to plant the Ghost-Wrapping Flower."

Upon hearing this, Mo Xiao wasn't shocked. He said with an unfathomable expression, "How can they not be able to plant it..."

Lin Feng looked puzzled, but Mo Xiao didn't intend to explain, nor did he dare to ask. Mo Xiao leaned lazily against the chair and said, "Let them stay."

"Okay!"

Lin Feng went to the back mountain and informed Xiao Shu and Feng Yuncheng.

After knowing that the two of them had successfully passed the cleaner's interview and could continue to stay in the Holy Spirit Academy, Feng Yuncheng was instantly relieved.

Over the past few days, he had been mining among the students and had already found Beatrice. However, he wasn't sure if he could stay, so he didn't dare to approach Beatrice.

After finally receiving an affirmative reply, Feng Yuncheng immediately rushed to Beatrice's side.

Beatrice was a rough and powerful man in her heart. She casually fixed her long curly hair on her head with a hairpin, rolled up her T-shirt sleeves, and worked. She raised her hammer and looked even more like a miner than Mo Yuelou, who was beside her.

Noticing that Feng Yuncheng had arrived, Mo Yuelou raised his head and gave him a friendly smile before lowering his head to mine.

Mo Yuelou actually admired Feng Yuncheng.

This guy clearly looked like a pretty boy, but he dared to provoke a demoness like Beatrice.

No man in the Divine Moon Empire dared to provoke Beatrice. Even Sheng Xiao kept his distance from her.

Feng Yuncheng dared to covet Beatrice and even dared to pursue her. Mo Yuelou sincerely admired him.

In fact, Mo Yuelou also hoped that Feng Yuncheng would be able to win the beauty's heart. If Feng Yuncheng could successfully win Beatrice's heart and erase her childhood trauma, Mo Yuelou would thank his entire family.

When Beatrice saw Feng Yuncheng leaning over, she couldn't be bothered with him and focused on mining.

She held the hammer in her right hand. As she waved her right arm, the muscles on her arm and hand burst with wildness and power. Feng Yuncheng looked at Beatrice's arm and then at his own arm. He immediately felt ashamed.

He said, "From today onwards, we can meet every day." Then, he ran back to his position, picked up the hammer, and continued to strike the mine.

He wanted to train his muscles.

At least he had to be stronger than Her Highness.

Otherwise, he wasn't worthy of her!

As soon as Feng Yuncheng left, Mo Yuelou started laughing at Beatrice. He said, "That kid hasn't given up. He still wants to woo you."

Beatrice turned to look at her brother with a cold gaze.

Mo Yuelou hurriedly apologized. "Alright, alright, I'll shut up."

Mining was a boring and tiring job. Yu Huang had been mining in the back mountain for a month, and even her fair and tender skin had become a little tanned. However, at the same time that her skin became tanner, she could sense that the spirit energy in her body had also become mellow and solid.

Back in the Saint Tomb, her spiritual power had broken through too quickly, causing her spiritual power to be unstable. After a month of tempering, her spiritual power, which was restless, was suppressed until it was firm and mellow.

After she experienced the benefits of mining, she no longer despised the taste of fasting pills. Mining was too tiring.

Yin Rong almost couldn't hold on a few times, but when she raised her head and saw Yu Huang hammering the mine, Yin Rong gritted her teeth and persevered.

In the beginning, Yu Huang could dig out one Black Spirit Stone a day at most. Every hour she dug, she would suffer from severe consumption of spiritual power and dizziness. Every time more than these symptoms appeared, she had to sit cross-legged and rest for a moment before continuing.

However, after a month of tempering, she could already mine two Black Spirit Stones a day. She, who originally needed to rest after working for an hour, could actually mine for three hours in one go before she felt dizzy.

Yu Huang felt the spiritual energy in her body become more and more mellow, and her entire body seemed to have endless strength.

She felt that the mining experience wasn't in vain, so she was even more motivated.

Chapter 624: Yu Huang's Self-Created Cultivation Technique (1)

"I can't take it anymore. I can't dig anymore!" Estelle dug for three hours in one go. He was so tired that he couldn't raise his arm. He put down the hammer and looked up at Yu Huang. "Yu Huang, let's rest for a while."

Yu Huang continued mining and ignored him.

Estelle didn't feel offended. He closed his eyes to rest for a moment. When he opened them again, he saw that Yu Huang was still mining tirelessly. Only then did he find it strange. "Yu Huang, aren't you tired?" Was this person's spiritual power inexhaustible?

Yu Huang didn't speak. She raised the hammer again and ruthlessly struck the Black Spirit Stone.

Estelle sat up straight and stared at Yu Huang as she swung the hammer. He said in surprise, "What's going on? Why do I feel that her hammering force is getting stronger and stronger?" Estelle had never taken standard Beast Tamer lessons before. He was worried that he was mistaken. He quickly shouted at Sheng Xiao, "Sheng Xiao, look at your wife! There seems to be something wrong with her!"

Hearing Estelle's shout, everyone stopped what they were doing and turned to look at Yu Huang.

Sheng Xiao put down the hammer and walked towards Yu Huang.

Sheng Xiao walked to Yu Huang's side. Seeing that Yu Huang didn't notice him approaching, he shouted in a low voice, "Wine."

Yu Huang ignored him and didn't stop mining.

Seeing this, they all revealed worried gazes.

What was going on? Why didn't Yu Huang react?

Could it be that she had gone crazy from mining?!

Sheng Xiao stared at the way Yu Huang held the hammer in her left hand. He noticed that the spiritual energy fluctuations she emitted when the hammer landed on the Black Spirit Stone were getting stronger and stronger. He felt the spiritual energy fluctuations released by the hammer. He rolled his eyes and said thoughtfully, "She's..."

"Epiphany!" The old dean's voice suddenly sounded behind Sheng Xiao.

Everyone turned to look behind Sheng Xiao and saw the principal walking over briskly.

Di Ruofeng stood beside Sheng Xiao. He observed Yu Huang's every move attentively. He noticed that Yu Huang's gaze was becoming increasingly focused. The spiritual energy fluctuations of the hammer in her hand were getting stronger and stronger. She was in a mysterious state

Di Ruofeng exclaimed, "Yu Huang is in a state of epiphany. Don't disturb her."

Epiphany was a mysterious state that cultivators yearned for the most but couldn't get. Every time they had an epiphany, cultivators could make shocking progress. Some could double the absorption of spiritual power during the period of epiphany, while others could break through the bottleneck and

improve through epiphany. There were even talented people who could create their own cultivation technique during the epiphany.

In the three thousand worlds, most of the cultivation techniques were created by Beast Tamers through summarizing their life experiences and insights. However, there were also some people who were blessed by the heavens to suddenly enter an epiphany at an unexpected moment and create their own cultivation techniques.

Back then, Yin Mingjue had created the Blazing Moon Art through epiphany during a desperate battle. However, he didn't know what Yu Huang would comprehend.

After knowing that Yu Huang was in a state of epiphany, the students felt admiration.

"Impressive." Feng Yuncheng held the hammer and said with an envious expression, "When others mine, the more they mine, the more difficult it becomes. When Yu Huang mine, the more she digs, the crazier she becomes. She can even comprehend something from mining. This comprehension..." Feng Yuncheng shook his head. However, when he thought about how Yu Huang had long comprehended the power of the Divine Master, he didn't feel shocked.

It seemed that no matter what happened to Yu Huang, it was only right.

"Go and mine. Don't crowd around here." Di Ruofeng waved his hand, and the students hurriedly dispersed. They pretended to focus on mining, but their eyes kept looking at Yu Huang.

Di Ruofeng stared at Yu Huang and couldn't help but feel gratified.

Regardless of whether Yu Huang could comprehend anything or not, being able to enter a state of epiphany was enough to make him feel satisfied.

At this moment, Yu Huang's consciousness was blurred. Her body was clearly in a severely exhausted state, but her mind was unprecedentedly lucid. The spiritual power in her body was like a waterfall as it gushed out non-stop.

Spiritual power poured into her left arm. When Yu Huang felt that her spiritual power was completely exhausted, she swung the hammer in her hand based on her senses.

The hammer that contained all of Yu Huang's spiritual power forcefully struck the Black Spirit Stone. The Black Spirit Stone beneath her feet suddenly trembled forcefully. Following that, the unshakable Black Spirit Stone actually spread out in all directions with the hammer in Yu Huang's hand as the center.

Chapter 625: Yu Huang's Self-Created Cultivation Technique (2)

Immediately, spider web-like cracks appeared on the Black Spirit Stone.

When Di Ruofeng saw the change in the Black Spirit Stone, a look of surprise appeared on his face.

Was she comprehending a cultivation technique?

Yu Huang focused her mind. She was carefully sensing the changes in the spiritual power in her body. Her body was clearly still filled with spiritual power, but she could sense that there was something terrifying in the spiritual power that exceeded her energy range.

She felt all the spiritual power in her body pouring into her left arm, so she calmed down and carefully sensed the changes in this moment.

When the spiritual energy surged into her left hand, she could feel that her left arm was like an infinitely deep black hole. The black hole absorbed all the spiritual energy in her body. It gathered the spiritual energy and suppressed it into small beans.

When the spiritual power was completely exhausted, the little beans became a string under the control of her left arm. Then, they followed Yu Huang's arm and entered the hammer. When the hammer hit the Black Spirit Stone mine, the spiritual power beans would fight to escape.

They would use the powerful impact to quickly spread throughout the Black Spirit Stone mine. Then, they would find a good spot to ambush and explode—

Bang!

The indestructible Black Spirit Stone mine under Yu Huang's feet shattered into more than ten pieces.

Upon hearing the commotion, the surrounding students looked at Yu Huang in shock. When they saw the shattered Black Spirit Stone mine under Yu Huang's feet, everyone's expressions became incredulous. "Oh my God!" It was unknown who exclaimed, but everyone ran to Yu Huang's side.

They squatted around Yu Huang and reached out to touch the shattered Black Spirit Stone mine. After discovering that the ore had really been shattered by Yu Huang's hammer, everyone fell silent.

As everyone knew, this Black Spirit Stone mine was the densest and toughest spirit stone mine known on the Holy Spirit Continent. Even a Supreme Master would have to spend a day to successfully excavate one or two.

However, Yu Huang dug out seven to eight pieces at once!

Was this possible?

The old dean saw that Yu Huang's eyes were flickering slightly. He called out tentatively, "Little grand-disciple?"

Yu Huang's curly eyelashes trembled a few times before she opened her eyes.

When she opened her eyes, she saw many people squatting by her feet. Yu Huang was shocked. "What are you all doing?!"

No one said anything. They all looked at her as if she was a monster.

Yu Huang tilted her head and looked at Di Ruofeng. She asked in surprise, "Principal, why are you here?"

Di Ruofeng pointed at the Black Spirit Stone mine under her feet. "Look, this is the power used by your hammer just now."

Yu Huang lowered her head and looked at her feet.

When she saw that the ores under her feet had already shattered, Yu Huang was shocked. She squatted down and raised her hands forcefully, successfully lifting up a spirit stone the size of a head. Under her feet, there were six spirit stones of the same size.

“Everyone, disperse. Don’t steal from me!” Yu Huang hurriedly chased the other students away. She put the Black Spirit Stone into her interspatial bag. Seeing that the old dean was still standing at the side, she squatted on the ground and looked up at him. “Principal, is there anything else?”

Di Ruofeng blinked at her and said, “You just comprehended a cultivation technique, right?”

Yu Huang did not admit it directly, but the corners of her lips curled up uncontrollably.

“Sheng Xiao!” Di Ruofeng suddenly waved at Sheng Xiao.

Sheng Xiao walked over with a dark expression. He stared at the mine under Yu Huang’s feet and said nothing. Yu Huang could dig one ore a day before, but Sheng Xiao could dig five Black Spirit Stones a day on average. After a month of digging, Sheng Xiao’s mine was already very big.

Yu Huang’s mine was wider and deeper than the other students’ mines.

Clearly, Yu Huang’s mining speed was considered fast.

“Sheng Xiao, compete with Yu Huang,” Di Ruofeng suddenly said.

Yu Huang and Sheng Xiao looked at Di Ruofeng at the same time. “Compete?” They asked the same question.

“Yes.” Di Ruofeng pulled the beard on his chin and said, “I want to see what grade the cultivation technique you just comprehended is.”

Yu Huang rubbed her nose in shame, and her clean nose was instantly smeared with dirt by her. She said, “Grand Mentor, I only comprehended one move. It’s not considered a cultivation technique.” Ordinary cultivation techniques had many moves. She was embarrassed to call it a cultivation technique.

Di Ruofeng snorted. “What’s there to be humble about? Isn’t the Blazing Moon Art only one move?”

Chapter 626: Yu Huang’s Self-Created Cultivation Technique (3)

Hearing this, Yu Huang immediately felt that she was quite something.

She glanced at Sheng Xiao and suddenly said, “Come on, let’s try.”

Sheng Xiao wanted to see the cultivation technique that Yu Huang had created herself. He nodded seriously and turned to fly towards the distant plain. He said, “Let’s stay away from the school. Don’t ruin the school’s construction.”

Yu Huang nodded and followed Sheng Xiao.

Seeing that the couple was about to fight again, everyone stopped working.

The students stood up and looked at the distant plain.

Sheng Xiao and Yu Huang flew to the plain between the Black Dome and Rakshasa City. The plain was flat, and the beast tamers could only see two black dots.

When his feet landed on the ground, Sheng Xiao immediately summoned Black Qing Sky Dragon. The dragon's body floated in the void, but its head was pressed against Sheng Xiao's waist.

Sheng Xiao stroked the beard on Black Qing Sky Dragon's head. "Use your full strength. I won't show any mercy."

Yu Huang sneered. "I don't need you to show mercy."

Then, she raised her left hand slowly. When she raised her left arm, Sheng Xiao sensed that the air around Yu Huang had become distorted.

He narrowed his eyes slightly and his expression became serious.

Sheng Xiao thought about it and Black Qing Sky Dragon turned into the Dragon Sword. Sheng Xiao held the sword and drew an array. A starlight array appeared in front of him. He poured the whole array into the Dragon Sword and it became filled with black light.

The scorching sun above them was covered by dark clouds.

Dragon roars sounded from the Dragon Sword.

Sheng Xiao raised the Dragon Sword. The long sword cut through the sky and pierced into the clouds before entering the galaxy. "Galaxy Slash!" The sword energy shuttled through the clouds. The galaxy hidden in the deep sky flickered with it.

When Sheng Xiao broke through to the Prime Master level and became a Divine Master, he could control the galaxy with a casual raise of his hand.

Galaxy Slash was a terrifying move of the Myriad Slash technique.

Therefore, when he said that he wouldn't show mercy to Yu Huang, he really wouldn't show mercy.

When that sword slashed down, a starry spiritual pressure instantly appeared in the sky. The star light pressed down on Yu Huang, and it was more powerful than a mountain pressing down. It seemed as if the sky was about to collapse. Yu Huang stared at the star light above her head. She wasn't shocked, nor did she retreat.

She suddenly closed her eyes. Then, a string of red beads suddenly appeared on her left arm.

Those beads shone brightly, and the dark clouds above the starlight caused the scorching sun to scatter across the ground.

The blazing sun seemed to have heard Yu Huang's call and was given life. The fiery red light of the sun covered her left palm. Yu Huang still didn't open her eyes. She only forcefully threw her left fist at the starlight in the sky.

Boom!

The 11 fiery red mini suns left Yu Huang's left fist and charged into Sheng Xiao's array!

Bang!

They attached themselves to the huge star array at the same time. Immediately after, the first small sun exploded, then the second, the third, the fourth...

The 11 small suns exploded. The power of their explosion shattered Sheng Xiao's starlight formation!

Boom!

The air in the sky became distorted, and there was a muffled sound of thunder. The plain under Yu Huang's feet was shaking, the black dome in the distance was shaking, and the distant Rakshasa City was also shaking...

When the Starlight Sword Formation was successfully resolved by Yu Huang, the dark clouds that enveloped the plains were completely devoured. Then, the scorching sun sprinkled onto the plains and onto Yu Huang's body. Her short black hair fluttered in the wind, and her eyes were dazzling.

Sheng Xiao looked down at Yu Huang and smiled. "Congratulations on creating your own cultivation technique!"

Di Ruofeng also teleported in front of Yu Huang from afar. He happily pressed down on Yu Huang's shoulders and said excitedly, "Your self-created cultivation technique isn't inferior to your father's Blazing Moon Art!" It wasn't that Yu Huang's self-created cultivation technique was really more powerful than Yin Mingjue's.

However, any cultivation technique could only unleash its strongest power in the hands of its founder.

The Blazing Moon Art could only unleash 100% of its power when it was in Yin Mingjue's hands, and Yu Huang's self-created cultivation technique could unleash destructive power that far exceeded that of the Blazing Moon Art when it was in her hands.

Yu Huang didn't expect that the cultivation technique she comprehended from mining could successfully resolve Sheng Xiao's Galaxy Slash.

Although the Galaxy Slash was only one of the moves in the Myriad Slash that Sheng Xiao cultivated, Sheng Xiao was an early-stage Grand Master! Yu Huang should be proud that she could successfully resolve Sheng Xiao's power as a late-stage Master!

"Give your technique a name." Sheng Xiao looked at her encouragingly.

Yu Huang suddenly smiled playfully. She blinked at Sheng Xiao and said, "It's called Star Slaying."

Sheng Xiao was stunned. Di Ruofeng looked at Yu Huang disapprovingly. "A cultivation technique should have a famous name. What kind of name is Star Slaying? Nonsense!"

Sheng Xiao was caught between laughter and tears. "Alright, I know that this move of yours is very powerful. It can slash my starlight. You should give your cultivation technique an impressive name."

Yu Huang was bad at naming things.

Back then, she had racked her brains to name Xuan Yu. It was really difficult for her to name a cultivation technique.

She thought about it and said, "Let's call it... Cloud Tearing."

Only by tearing through the dark clouds could light appear.

Di Ruofeng felt that this name still wasn't sensational enough, but it was much better than the so-called Star Slaying. He said, "Then let's call it this. I see that your cultivation technique is very powerful. I think it's not an ordinary cultivation technique. It should have the power of a Witch-level cultivation technique. When you have the chance in the future, go to the Great World to test its power."

"Okay!"

While Yu Huang was mining, she had also created a powerful cultivation technique. This became something for Di Ruofeng to show off about. After returning to the back mountain, Di Ruofeng held a whip in his hand and narrowed his eyes as he stared at the students.

Whenever he saw anyone who was tired and wanted to slack off, he would ruthlessly hit the hammer in their hands and curse angrily, "Little brats, are you done mining? Yu Huang has even comprehended her own cultivation technique, yet you still have the cheek to rest?!"

"Continue digging! If you don't dig until your arms can't raise a hammer, I'll beat whoever dares to rest!"

If they didn't force them to the point of exhaustion, they would never break through.

For a moment, the students were secretly cursing Yu Huang.

Damn it, they had agreed to mine together, but she had secretly comprehended a cultivation technique.

Chapter 627: Strange, Sweet (1)

Under the influence of Yu Huang's successful epiphany of the cultivation technique in the mine, in the next few days, everyone was excited. They were full of enthusiasm when digging the mine. They all fantasized about being able to enter a state of epiphany.

They didn't fantasize about comprehending a cultivation technique. He only wanted to absorb more spiritual power and increase his cultivation as soon as possible.

After Yu Huang created the Cloud Tearing Technique, her mining speed became much faster. In just five days, the mine under her feet was as deep as the mine under Sheng Xiao's feet. At this time, Yu Huang had to jump into the mine to dig.

Day after day, those who squatted on the ground or mining in shallow pits dug the Black Spirit Stone pit under their feet until it was deep and wide.

Everyone was squatting in the deep pit and mining. Occasionally, they would see someone slacking off and wanting to stand up to rest. Di Ruofeng and Pupu An would swing a big hammer at them.

Under the supervision of Di Ruofeng and Pupu An, less and less students slacked off.

Gradually, they all sensed that the spiritual power in their bodies had become much more mellow and solid. In the beginning, those students who could only last for an hour before their spiritual power was exhausted could mostly last for more than three hours.

As for Yu Huang, she could last for four hours before standing up to catch her breath.

When there were six days left until the two-month deadline, Sheng Xiao's interspatial bag's space was full. He heaved a sigh of relief and jumped out of the mine. He looked up at Di Ruofeng and Pupu An, who were drinking tea on a mountain. "Principal, my interspatial bag is full."

Hearing this, the students squatting in the mine revealed envious expressions.

As expected of Grand Master Sheng, he had filled the mine so early.

Di Ruofeng glanced at the interspatial bag beside him through the air and saw that it was indeed filled. He said, "Transfer your interspatial bag to the top of the mountain beside you." The Black Dome looked like a lonely mountain from the south, but there were a few small hills in the north.

The small hill Di Ruofeng pointed at was behind the Black Spirit Stone mine.

Sheng Xiao looked over and saw that there were two to three hundred meters between the two hills. His expression became distorted. In the early stages, he could dig five Black Spirit Stones every three days. Later on, he could dig three Black Spirit Stones a day.

There were a total of 122 bricks in his pocket. One brick weighed a thousand pounds, so he had 122,000 pounds.

Even Sheng Xiao couldn't carry such heavy bricks!

He took a deep breath and resigned himself to fate as he walked into the distance. He picked up the pole on the ground, took out four Black Spirit Stones from his interspatial bag, and started to pick up bricks.

He thought he would be able to relax after mining.

But no, there was more mining waiting for him!

The students felt despair when they saw that Sheng Xiao was mining again after finishing.

In their hearts, they scolded the academy for being cruel, but deep down, they knew that the academy was urging them to train for their own good.

Even though everyone was complaining in their hearts, no one voiced any complaints out loud.

Soon, Yu Huang also filled up her interspatial bag. Without waiting for Di Ruofeng and the others' instructions, Yu Huang obediently found a shoulder pole and silently picked ores.

On the way to the mountain nearby, she met Sheng Xiao halfway there.

After mining for nearly two months, both of them looked disheveled. Yu Huang stared at Sheng Xiao, who had lost his noble aura, and suddenly burst out laughing. Sheng Xiao looked at the ashes on Yu Huang's face and thought of the big black cat that everyone raised in Yufu City.

“Pfft!”

The two of them smiled at each other and continued with their work.

Just as Yu Huang was about to finish picking the ores, the other students also filled up their interspatial bags. Then, everyone carried shoulder poles and picked ores.

Sheng Xiao was the first to complete the mission.

The shoulder pole lacerated the skin on his shoulder and he bled. The shirt on his shoulder also fused with the lacerated skin. After two months of hard work, Sheng Xiao’s hair had grown much longer. It was mixed with his sweat and stuck to his face messily. He looked miserable.

He held the pole in his hand and placed it on the ground forcefully. He said to Di Ruofeng in a muffled voice, “Principal, my mission is completed.”

Di Ruofeng snorted. “Go back and rest.”

“Okay.”

Sheng Xiao saw that Yu Huang was about to complete her mission. He stood aside and waited for a while. After he waited for only an hour, Yu Huang finished it.

Chapter 628: Strange, Sweet (2)

The couple looked at each other and saw the fatigue in each other’s eyes.

The couple returned to the academy side by side. Lin Feng stood at the back school gate and said to them, “Students who complete the mission on time can go to the charging window to collect points.”

Yu Huang’s eyes lit up again.

They went to the charging window and the staff charged each of them 100 points.

Holding the point card, Yu Huang suddenly exclaimed. She patted the card in her hand and sighed with a smile. “This is the first time I felt so rich. 100 points. I can eat my fill and take a bath.”

Sheng Xiao scratched her nose. “Good for you.”

“Are you going to eat?” Yu Huang was starving. She felt that she could finish a cow all by herself now. She never wanted to eat fasting pills ever again.

Sheng Xiao said, “Go back to the dormitory and take a shower. Then, we’ll go on a date.”

Date?

Yu Huang looked at Sheng Xiao in confusion, as if she had seen a ghost. “We’re going on a date together?”

Sheng Xiao’s gaze darkened. He narrowed his eyes and asked, “Who else do you want to date?”

Yu Huang hurriedly waved her hand and said, "Don't misunderstand me. It's just that we've been married for so long, but the number of dates we've been on can be counted on one hand. I'm a little surprised that you suddenly said that you want to go on a date."

Sheng Xiao reflected on himself.

After self-reflection, he realized that after knowing each other for so many years, the two of them had already gotten married and had sex many times. However, the two of them hadn't had many dates.

As her husband, he had failed her.

"Then let's go on a date today."

"Sure!"

When Sheng Xiao mentioned a date, Yu Huang felt that she wasn't very hungry anymore. She could endure the hunger.

At that moment, most of the other students were still working. They were the only ones in the entire campus. When they returned to the dormitory, Sheng Xiao kissed Yu Huang's forehead. Then, he parted ways with her at the corner of the corridor.

Sheng Xiao returned to his room while Yu Huang returned to her dormitory.

The moment she returned to the dormitory, Yu Huang swiped her point card and filled the bathtub with water. She laid in the bathtub and took the most comfortable bath she had in the past two months.

After showering, she wrapped herself in a bathrobe and sat at the small table in the room. She took out a mirror and placed it on the table before taking out her cosmetics and makeup tools.

Yu Huang stared at her pile of expensive cosmetics in a daze. These cosmetics were about to expire, but she didn't even have the chance to enjoy them yet. How sinful.

After being exposed to the wind and rain for two months in the back mountain, Yu Huang's skin had become a little rough. She wiped the foundation on her face and realized that her foundation looked very cakey on her face. Yu Huang sighed and sat down cross-legged on the spot. She began to chant the Purifying Spirit Incantation.

The Purifying Spirit Power shuttled through Yu Huang's body and cleansed her meridians and flesh. All the pores on her body relaxed, and soon, some black dirty things were expelled from her body through her pores.

Yu Huang opened her eyes and saw that her face was covered in a layer of black dirt. She returned to the bathroom to wash up.

When she returned to the dressing table again, Yu Huang saw that in the mirror, her skin looked smooth and delicate, like a freshly boiled egg. She touched her face and thought to herself, "If I open a beauty spa, I might be able to earn a lot of money."

In this world, it was easiest to earn money from women, and women loved beauty the most.

The Purifying Spirit Art could cleanse all the filth in a person's body. It could help them detoxify and become beautiful in the healthiest way. Who wouldn't love it?

Yu Huang thought about that scene and couldn't help but smile.

In this life, she was getting younger.

Sheng Xiao waited for Yu Huang in the dormitory downstairs for a long time. When he didn't see her downstairs, he guessed that she was dressing up.

Every time his mother dressed up, she would make him and his father wait for a long time. Sheng Xiao knew that it took a lot of time for a woman to get ready. He didn't rush Yu Huang. He only sent her a message. "Find me in the canteen when you're done."

Yu Huang held the camera brush in one hand and put eyeshadow on her eyes.

When she heard her phone ring, she glanced at it and continued applying makeup.

Putting on makeup required patience and technique. Yu Huang didn't dare to be distracted.

After sending Yu Huang a message, Sheng Xiao went to Rakshasa City alone. He went to the supermarket to buy a lot of things. When he returned to the Holy Spirit Academy, it was almost dark.

He went straight to the canteen while Yu Huang stood at the entrance waiting for him.

She was dressed very formally today.

Yu Huang was wearing a long black tube top dress. Under the high slit skirt, a slender and fair leg was revealed. The ten-centimeter-long high heels made her already slender and graceful figure appear even more enchanting and charming.

After months of growth, Yu Huang's hair was already five to six centimeters long. However, she probably felt that her hair was too short and not charming enough, so she wore an elegant black hat.

When Sheng Xiao saw Yu Huang, she was taking a selfie with her phone at the entrance of the canteen. She was looking up at the camera with a proud and cold gaze.

Sheng Xiao rarely saw Yu Huang being vain. He stood quietly in the distance with the shopping bag since he didn't want to disturb Yu Huang.

However, Yu Huang was a Purifying Spirit Master. With her outstanding hearing, she had already noticed Sheng Xiao's approach.

Yu Huang suddenly threw her phone at Sheng Xiao.

Sheng Xiao quickly threw down the shopping bag in his hand and grabbed the phone with his right hand.

Yu Huang leaned against the wall of the canteen and said, "Please take a photo of me." After a pause, she said, "You have to take a photo that makes me look noble and elegant, yet candid."

This request was really difficult to satisfy.

Sheng Xiao said sincerely, "I can't do that. My wife is noble and charming. You can't pretend to be an ordinary person."

Yu Huang was pleased with Sheng Xiao's flattery. She said, "Then, take a few photos. I'll post them on Weibo." The fans were still waiting for her posts.

Sheng Xiao nodded and squatted down to take two photos of Yu Huang.

The camera was tilted up. Yu Huang's high heels were on the cement stairs. Her graceful and enchanting body was leaning against the reddish-brown wall. Sheng Xiao's photo could have graced the cover of a fashion magazine.

Yu Huang checked the photo and said in surprise, "Your photography skills aren't bad."

Sheng Xiao continued to flatter her. "It's because the model is good-looking. You could star in a fashion blockbuster."

Yu Huang was speechless.

"What's wrong with you today? Did you secretly eat honey behind my back?" Why was he such a sweet talker?

Sheng Xiao said, "We're on a date. I think sweet talking will leave a good impression on you." He walked back and picked up the shopping bag. He looked up and asked Yu Huang, "You don't like it?"

Yu Huang pressed her slightly red ears and said, "I don't dislike it."

That meant she liked it.

Sheng Xiao took out a cup of milk tea from the shopping bag. "This is for you. I heard that this is the milk tea that girls in Rakshasa City like the most. I wonder if you like it." Sheng Xiao handed the milk tea to Yu Huang. "Try it."

"You went to Rakshasa City?"

"Yes."

Yu Huang took the milk tea and took a sip. She immediately frowned and said, "It tastes strange."

Sheng Xiao frowned. He thought that he had messed up. Then, he heard Yu Huang say, "It's quite sweet."

Sheng Xiao was relieved.

"Let's go to the canteen. I'll make you something good." Then, Sheng Xiao walked up the stairs. He was about to enter the canteen when he thought of something. He turned around and reached out to Yu Huang. "Come, I'll hold your hand."

Chapter 629: Another Prime Master Skeleton (1)

Yu Huang held Sheng Xiao's hand and walked into the canteen with him in her high heels.

After entering the canteen, Sheng Xiao told Yu Huang, "Sit for a while. I'll make you something to eat."

Yu Huang raised her eyebrows in surprise, but she didn't ask further.

Yu Huang chose a seat by the window and sat down. She drank her milk tea and watched as Sheng Xiao carried the bag into the kitchen. Through the glass window of the canteen, Yu Huang saw Sheng Xiao's back figure.

She didn't know what he was doing, but she saw his hands rubbing something in the basin.

What was he doing?

Preparing to make dumplings?

Yu Huang finished her milk tea. Sheng Xiao's food wasn't ready yet.

She was a little bored, so she opened Weibo to check the fans' comments.

The girls in the comments section seemed to have been possessed by Sheng Xiao. They praised Yu Huang.

First post: "Why do you have to be so drop dead gorgeous?! How will other women live?!"

Second post: "God has always been fair to ugly people, but he favors Yu Huang."

Third post: "I was feeling a little tired of my wallpaper this afternoon. Look, new wallpaper is here."

Fourth post: "Hello? Disney? Check if the door of your castle is broken. Why is a princess out?!"

Fifth post: "What a beautiful picture."

...

Yu Huang closed Weibo and crossed her arms as she looked out the window. She suddenly smiled again.

"What are you laughing at?" At that moment, Sheng Xiao's voice sounded in front of Yu Huang.

Yu Huang turned around and looked up at the table. She saw Sheng Xiao holding a plate with two white porcelain bowls and a spoon in each.

"What delicious food did you make for me?" Yu Huang smelled a familiar aroma.

Sheng Xiao placed the plate on the table and sat down.

Yu Huang glanced at the plate and realized that the bowl was filled with round white glutinous rice balls. She suddenly fell silent.

"Glutinous rice balls." Yu Huang belatedly remembered that today was the last day of the year.

Sheng Xiao said, "You once told me that the last day of the year is called the new year. You and your adoptive parents would gather to eat glutinous rice balls."

Sheng Xiao handed one of the bowls to Yu Huang. "Eat it. We'll still be together next year."

Yu Huang was touched. She picked up a porcelain spoon and scooped up a glutinous rice ball. Before eating the glutinous rice ball, she said, "If it wasn't for the fact that the occasion wasn't right, I would have eaten you." She took a bite of the glutinous rice ball and sugar flowed out from the corner of her soft lips.

Yu Huang stuck out her cherry red tongue and licked the syrup away slowly. She looked at Sheng Xiao with a dark gaze and said in a serious tone, "Eat you slowly from the inside out."

Sheng Xiao tightened his grip on the porcelain spoon. The hot soup in the spoon was shaking.

Sheng Xiao took a deep breath. He swallowed the glutinous rice ball and looked down. "I booked a room in Rakshasa City. I'll bring you there later."

Yu Huang's eyes lit up.

There were five glutinous rice balls in that bowl. Yu Huang finished them and placed the bowl in front of Sheng Xiao. She said, "More."

Sheng Xiao said, "There's more. I left ten for you."

"Then bring them all over."

"Okay."

After eating the glutinous rice balls, Yu Huang and Sheng Xiao decided to set off for Rakshasa City.

When the two of them were about to reach the school gate, they met Mo Xiao. Mo Xiao walked behind with a trash bag and the pet Yu Huang walked slowly in front.

When Yu Huang saw Yu Huang, it ran straight into Yu Huang's arms.

Yu Huang caught Yu Huang and exclaimed, "Yu Huang, you've gained weight." It felt a little heavy.

Yu Huang howled and laid in Yu Huang's arms while acting cute. Yu Huang stroked Yu Huang's shiny fur and shouted at Mo Xiao, "Godfather."

Sheng Xiao quickly shouted, "Godfather."

Mo Xiao looked at Yu Huang and Sheng Xiao. He said, "Do you want to enter the city?" They were the first to complete the mission. They could arrange their time freely during the break. Even Mo Xiao couldn't stop them.

Yu Huang nodded and said, "I heard that the cinema in Rakshasa City are very good. Let's go watch a movie."

Mo Xiao smiled meaningfully. "You two are on a date. No matter what you're going to do, you don't have to report the details to me." With that said, he reached out and took Yu Huang from Yu Huang's arms.

Yu Huang blushed. She held Sheng Xiao's hand and walked past Mo Xiao.

Chapter 630: Another Prime Master Skeleton (2)

Suddenly, Mo Xiao stopped her. "Ah Huang."

Yu Huang stopped and turned around to look at Mo Xiao. She asked in confusion, "What else is it, Godfather?"

Mo Xiao said gently, "Ah Huang, the Eye of All Things still needs to be practiced diligently. It's impossible for the Purifying Spirit Art to fall behind. You have to judge people and things with your heart. If you encounter something that you can't make a choice on based on your eyes and heart, then listen to your intuition."

"Do you know that the best choice is to make a decision subconsciously?"

Yu Huang frowned when she heard this. She looked at Mo Xiao with a deep gaze and suddenly said, "Godfather, is something about to happen?"

Mo Xiao pinched Yu Huang's soft little ears and shook his head. "No. Go play. After you come back, you still have to continue to work hard." With that, Mo Xiao carried Yu Huang and left.

Yu Huang looked at Mo Xiao's back as he left. For some reason, she felt uneasy.

It was an instinctive sense of uneasiness.

"Godfather!" Yu Huang suddenly let go of Sheng Xiao and ran towards Mo Xiao. She grabbed Mo Xiao's arm and looked up at him. "Godfather, don't worry. I will remember your words."

Mo Xiao felt gratified.

He patted Yu Huang's head and left again.

.

Because of Mo Xiao's words, Yu Huang and Sheng Xiao didn't communicate when they went down the mountain.

When they reached the foot of the mountain, Sheng Xiao said, "Do you want to ride my motorcycle or drive your off-road vehicle?" This was a plain. Any off-road vehicle was fine.

Yu Huang stared at the sexy long dress on her body and said, "Let's drive the off-road vehicle. You drive, and I'll sit in the front passenger seat."

"Sure."

Yu Huang took out her off-road vehicle and set off for Rakshasa City with Sheng Xiao.

After the car drove for a while, Sheng Xiao suddenly said, "Is that companion dog called Yu Huang?"

"Didn't you know long ago?" Yu Huang felt that Sheng Xiao's question was strange.

Sheng Xiao stopped talking.

In the past, Sheng Xiao didn't think that there was anything wrong with Yu Huang's name. However, after he regained his memories in the Central Pagoda, he felt that it was strange when he thought about Yu Huang's name.

He was Yu Aofeng, and Yu Huang's Companion Beast was called Yu Huang.

Why did this sound like an insult?

"What's wrong? Is the name Yu Huang not nice?"

"... Sounds nice."

"Then you don't like it?"

"I like it."

"That's good."

Rakshasa City was very lively at night. Fugitives and killers from all over the continent were gathered here. There were men and women who came to Spring Night Street to have fun, and most gamblers came to Endless Street to gamble. In addition, it was also a red-light district.

Yu Huang even saw a three-storey building with the words 'Harmony Pictures' on it.

To be honest, Yu Huang's favorite film was produced by this company.

Yu Huang stood in front of the building for a moment. She couldn't help but take a photo with her phone. Sheng Xiao noticed Yu Huang's actions and quickly pulled her away.

The hotel Sheng Xiao had booked was at the end of Spring Night Street. Although the hotel was only four stories high, it covered a wide area. There was a pool in the middle of the hotel. Yu Huang and Sheng Xiao took the elevator upstairs. There was another couple in the elevator. The woman was a beautiful and sexy elf, and the man was a human.

There were no spiritual energy fluctuations on their bodies. Clearly, they were a pair of ordinary people.

Yu Huang felt that the female elf was a little familiar. After they got out of the elevator and entered the hotel, Yu Huang finally remembered the girl's identity. She said, "The woman in the elevator just now was the superstar of the elves, Steele, but I remember that her husband was also an elf."

Therefore, this was an adulterous couple who had come to Rakshasa City to cheat!

Sheng Xiao brought Yu Huang through the small living room of the hotel room and into the bedroom. He stared at the bed that was covered in roses and the various props and condoms on the bedside table. Sheng Xiao hugged Yu Huang's waist from behind.

Sheng Xiao said in a hoarse voice, "Aren't all the men and women here to cheat?"

Yu Huang immediately got into character. She looked up at Sheng Xiao's cold eyes and pretended to be shy. "Young Master Sheng, if Madam finds out that you followed me out behind her back, will I die?"

"She wouldn't dare to." Sheng Xiao took out a headband. He tied Yu Huang's eyes with a silk headband and coaxed her softly, "My wife is reasonable. She won't make things difficult for you."

The little girl turned around and grabbed Sheng Xiao's collar. She begged pitifully, "Young Master Sheng, let me get pregnant with your child. With the child, I will have someone to rely on. Perhaps your wife will allow me to be the second wife."

Sheng Xiao wanted to laugh. He tapped Yu Huang, who had gotten into character instantly. He hugged her and threw her on the bed. "Okay, I'll make you pregnant."

...

Yu Huang didn't know if she was pregnant, but her body was so tired that it was as if she had given birth.

After resting in the hotel for the morning, the two of them went to a stall across the street to eat dumplings before going to watch a movie.

Recently, there had been a few international movies with good reviews. Sheng Xiao wanted to watch a horror movie but Yu Huang wanted to watch a battle movie. Neither of them wanted to give in.

In the end, Sheng Xiao went to Hall 2 to watch a horror movie while Yu Huang went to Hall 4 to watch a battle movie.

The two of them, who were still intimate last night, fell out the next day because of the movie.

Sheng Xiao's movie ended first. He leaned against the wall with an unreadable expression. He was shocked when Yu Huang patted his shoulder. However, Sheng Xiao quickly calmed down and asked Yu Huang, "Was your movie good?"

Yu Huang nodded. "Nine points for the plot, ten points for the special effects, and nine points for the soundtrack. Not bad. What about you?"

Sheng Xiao was silent for a few seconds. "It scared people to death."

Yu Huang said, "Then it was probably quite terrifying."

Sheng Xiao continued, "I mean, the movie scared someone to death."

"Huh?" As she spoke, Yu Huang heard the ambulance arrive. Soon, the ambulance moved the person who was frightened to death while watching a movie.

Sheng Xiao was bold in real life, but he didn't dare to watch horror movies. That was because the movie had a soundtrack. The combination of the soundtrack and the horror scene could scare Sheng Xiao out of his wits.

Seeing that the ambulance had taken the person away, Yu Huang held Sheng Xiao's hand silently. She realized that his palm was covered in cold sweat.

Poor child.

Sheng Xiao only regained his warmth after they strolled under the scorching sun.

At this moment, they happened to pass by Bounty Street and heard the group of bounty hunters discussing something.

Yu Huang pricked up her ears and heard a group of bounty hunters discussing something strange in the distance—

Just yesterday, when a tourism development company in the Blazing Realm Continent was developing a mountain area, they found a skeleton in a cave in the mountain area. The skeleton carried resentment and killed nearly a hundred engineers on the mountain.

Helpless, the old CEO of the development company spent a lot of money to invite the only Purifying Spirit God in the world, Lin Jiansheng, to help.

After Lin Jiansheng arrived and successfully purified the skeleton, he discovered that the skeleton was that of a Prime Master! Before the Prime Master died, he had been tortured and his spiritual power had been sucked dry. Before he died, the Prime Master used his blood to leave the murderer's name in the cave.

However, time was limited. The Prime Master died before the murderer's name was completely written.

It was said that a few words written on the wall by the murderer.

This matter had already attracted the attention of the entire Blazing Realm Continent.
