

She Shocks 651

Chapter 651: Bullsh*t God (2)

“His flesh, blood, and spiritual power blocked the Time Gate. Hahaha, it’s a pity that you weren’t there. If you were, you would have been scared out of your wits!”

As he spoke, that hand squeezed Di Ruofeng’s neck forcefully. Di Ruofeng’s head was separated from his body and he died with his eyes open.

“Grand Mentor!”

...

“Grand Mentor!”

A scream startled Pupu An and Di Ruofeng, who were teaching. Pupu An’s tail swept violently, almost sending Donor and Estelle, who were closest to him, flying.

Di Ruofeng also opened his eyes when he heard Yu Huang’s shrill and painful shout.

Everyone looked at Yu Huang together, not understanding why she was screaming during class.

Di Ruofeng stroked his small beard and said to Yu Huang with a smile, “Little grand-disciple, what’s wrong? I’m still standing here properly. With you shouting, you make it seem as if I’m already dead.”

Yu Huang looked at Di Ruofeng in a daze.

Under the sunlight, Di Ruofeng’s white beard seemed to be plated with a layer of golden light. He was smiling, and his small eyes looked even smaller.

Yu Huang staggered to her feet and suddenly ran forward to hug Di Ruofeng tightly. “Grand Mentor.” Yu Huang’s voice was quivering. If one listened carefully, they would think that she was frightened.

Di Ruofeng smiled and patted Yu Huang’s shoulder. He said, “Child, I’m fine. I’m standing here safe and sound.”

Sheng Xiao got up and walked to Yu Huang’s back. He pressed Yu Huang’s shoulder and said to Di Ruofeng and Pupu An, “I’ll take her to rest.”

“Okay.”

Sheng Xiao pressed Yu Huang into his arms and left the field with her.

After being disrupted by Yu Huang, Pupu An was no longer in the mood to lecture. He said, “Everyone, go to the back of the mountain to build a house. Don’t sleep too soundly at night.” After saying that, Pupu An wagged his tail and left.

The so-called building a house at the back of the mountain was to let the students use the Black Spirit Stone mine they had dug for the past two months to build a house for them to cultivate. A house built with Black Spirit Stone would be filled with spiritual power, and it would be easier to cultivate.

The students were ready-made laborers. The leaders didn't feel any guilt when enslaving them.

Everyone looked at Yu Huang and Sheng Xiao before going to the back mountain.

After chasing the students to the back of the mountain, Di Ruofeng walked to a corner of the field and said to Sheng Xiao and Yu Huang, "Follow me."

The couple followed Di Ruofeng to the top floor of the administrative building.

Di Ruofeng brought them to his lounge. He took out three bottles of cold beer from the fridge and gave two to Yu Huang and Sheng Xiao. He took one himself.

Di Ruofeng opened the beer can and took a sip before saying, "What did you foresee?"

Yu Huang was still in shock and was still unable to recover from the scene she had foreseen. Therefore, after hearing Di Ruofeng's question, she was in no hurry to answer.

Yu Huang closed her eyes and saw corpses everywhere. When she opened her eyes and met Di Ruofeng's concerned gaze, her heart ached even more.

Sheng Xiao had been comforting Yu Huang just now and didn't ask her what had happened. At that moment, he was looking at Yu Huang with concern.

He asked Yu Huang, "Did you really foresee a new future?"

Yu Huang suddenly took a sip of cold beer. The cold water entered her stomach, and she gradually calmed down.

After licking her lips, Yu Huang said with lingering fear, "Grand Mentor, I foresaw a disaster we will encounter a few years later... I saw the Central Pagoda, the corpses of Beast Tamers everywhere, a pitch-black hand reach out from the dark clouds, and your... death."

Sheng Xiao was shocked. His pupils dilated.

After Di Ruofeng heard Yu Huang's words, he only stroked his beard and asked, "When will it happen?"

Yu Huang thought about the details carefully before saying, "It should be when the next Central Pagoda challenge opens because I saw the door of the Central Pagoda open. There were a few of my schoolmates lying in front of the Central Pagoda."

Di Ruofeng nodded with a serious expression and said thoughtfully, "It's the same as what the Grand State Master divined."

Yu Huang said, "Could it be that the calamity that Godfather once said was this calamity that I predicted?"

"I think so."

Thinking of the Grand State Master's recent situation, Sheng Xiao couldn't help but ask Di Ruofeng, "Dean, the Grand State Master is clearly innocent. Can't we do something to clear his name? The Grand State Master can predict the future. With him around, we can predict in advance and think of a countermeasure. If anything happens to him, we will be in danger."

Just as Di Ruofeng was about to speak, Yu Huang said, "The more we hope that the Grand State Master is alive, the more that person hopes that Godfather will die. His goal is to get rid of the Grand State Master, clear the obstacles, and let us walk into his trap step by step."

Yu Huang looked at Sheng Xiao and said, "Do you think that he will still give the Grand State Master a way out after holding back for so many years?"

Sheng Xiao narrowed his eyes. "You know who that person is."

The figure of the faceless man in the Saint Tomb flashed across Yu Huang's mind.

Yu Huang didn't say it clearly. Instead, she mentioned to Sheng Xiao, "Brother Xiao, have you regained all the memories you lost in the Central Pagoda?"

Di Ruofeng looked at Sheng Xiao with concern.

Sheng Xiao nodded. "I remember everything."

Di Ruofeng was somewhat relieved. "It's good that you remember."

Yu Huang asked him, "Did you see a god in the Central Pagoda?" When she said 'god', the expression on Yu Huang's face was filled with disdain and disgust.

Sheng Xiao shook his head. "Bullshit god." He was just a coward who cowered in the Central Pagoda.

Yu Huang knew that Sheng Xiao had seen through the person's true colors.

After a moment of silence, Yu Huang said, "Actually, I've seen that person before."

Sheng Xiao raised his eyebrows. "Where have you seen him before?"

Di Ruofeng also looked at Yu Huang in surprise.

According to his and the Grand State Master's analysis, that person had always been hiding in the Central Pagoda. Yu Huang had never participated in the Central Pagoda challenge. How did she meet him?

Chapter 652: Have You Dugged A Grave Before? (1)

"When I was in the Yin Clan's Saint Tomb, I saw it once. It deliberately acted mysterious and brought me into its sealed space to tempt me to cooperate with it." Yu Huang shook the beer can and listened to the sound of water inside. She sneered and said, "I don't like people who hide their identity."

After he learned that that person could actually enter and exit the Saint Tomb freely, Di Ruofeng's expression changed drastically. "In that case, the other party's activity range isn't only limited to the Central Pagoda?"

"Yes."

Sheng Xiao was stunned. "I always thought that that person's range of activity could only be in the Central Pagoda. According to you, if he can enter and exit the Saint Tomb freely, then he is indeed very

strong.” That was the Central Pagoda. Even the Grand State Master could only enter freely when the Central Pagoda was opened.

And that person could actually ignore the boundaries and shuttle through the Central Pagoda. This was indeed very terrifying.

Di Ruofeng couldn't sit still anymore. He said, “I have something to verify. Cultivate on your own.” Di Ruofeng left in a hurry.

After Di Ruofeng left, only Yu Huang and Sheng Xiao were left in the lounge.

Sheng Xiao was thinking about the ‘god’, but Yu Huang was thinking about what happened to Sheng Xiao in the Central Pagoda. Yu Huang asked coldly, “What did you see in the Central Pagoda?” He must have seen something very important. That was why the god risked being exposed in order to erase his memories.

Sheng Xiao subconsciously thought of Jing Huang and Yu Aofeng's past. However, he didn't want Yu Huang to know about that heavy past.

Sheng Xiao smiled at Yu Huang. “Because I exposed God's true identity in front of everyone in the Central Pagoda. He was angry and worried that I would expose his existence, so he erased my memory.”

“Oh really?” Yu Huang asked curiously, “What exactly happened?”

Sheng Xiao explained patiently, “In the Central Pagoda, there is a test called the Inquisition. In the Heart Questioning Bureau, the heavens will ask us a few questions. We can't lie. We have to answer truthfully. After we pass the test, we can ask the heavens a question. The heavens must answer truthfully.”

“I don't know what the price of lying is, but my guess is that it's very serious. Otherwise, that ‘god’ wouldn't have been forced to admit his identity. And my question was...” Sheng Xiao paused on purpose and tilted his head at Yu Huang while waiting for her to ask.

Yu Huang refused to cooperate with him.

Sheng Xiao knocked her forehead and said, “Then, why don't you think about what I asked him?” He added, “If you guess correctly, I'll treat you to supper tonight.” The students would be very tired after the beast tide battle tonight. It was only right to eat supper as a reward.

Only then did Yu Huang become interested.

Her brown eyes darted around as she said without thinking, “I guess you must have asked him if he was the Divine Master who created our world.”

Sheng Xiao's eyes widened.

He looked at Yu Huang in surprise and admiration. He said proudly, “My wife is so smart.” He held Yu Huang's hand and kissed it. He smiled and asked, “How did you guess it?”

Yu Huang explained, “You and I have both comprehended the power of the Divine Master. I don't know what's in your Divine Master world, but my world was lifeless at first. However, when I fed my spiritual power to that world, that world actually regained life. Although it was only the weakest plant, it was still

different. Moreover, there was a pyramid in my small world. That tower was very tall. Even though it looked different from the Central Pagoda, my intuition told me that the tower is the foundation of that world.”

“Later, when I entered the Doomsday Battlefield and saw that there was also a Central Pagoda in the Doomsday Battlefield, I was even more certain of this guess. At that time, I thought that if the last Dragon Race crown prince didn’t give up the chance to become a Divine Master and really became a Divine Master, would his small world have developed into a brand new world?”

“There’s also a Central Pagoda in our Holy Spirit Continent. The Central Pagoda is connected to a small world and a Great World. Then is it possible that it’s also a world comprehended by a Divine Master?”

Yu Huang had an even more bold analysis in mind. She said, “I even suspect that the so-called Divine Master is actually a super Beast Tamer who has successfully created a world.”

Chapter 653: Have You Dugged A Grave Before? (2)

Sheng Xiao was excited after hearing Yu Huang’s analysis.

He held Yu Huang’s face and pressed his forehead against hers. He couldn’t hide his pride as he sighed. “You’re really too smart. I like you so much.” How could she be so smart?

“I think the same as you.” Sheng Xiao pressed the tip of his nose against Yu Huang’s. He said softly, “I’ve been thinking about a question. Why is that person trying his best to get rid of Divine Masters in this world? What do you think about this?”

Yu Huang looked at Sheng Xiao’s clear eyes at a close distance. She said the most shocking words in the calmest tone. “He’s afraid that we’ll kill him.”

This time, Sheng Xiao kissed Yu Huang’s mouth.

She was too eloquent.

She was also very kissable.

Knock, knock.

There was a knock on the door.

Sheng Xiao quickly let go of Yu Huang and turned to look at the closed door. He heard Lin Feng say outside the door, “If you’re done resting, go to the back mountain to build a house. Don’t hide here and slack off.”

Yu Huang chuckled and pulled out a chair to stand up. “Let’s go and build a house.”

“Yes.”

* *

Di Ruofeng rushed back to the Divine Moon Empire. When he arrived at the capital of the Divine Moon Empire, the sky was already dark.

After recognizing Di Ruofeng, the staff in the Alliance Building immediately bowed to him respectfully. "Greetings, Prime Master Ruofeng."

Di Ruofeng waved his hand and strode to the elevator before heading straight to the top floor.

There were only four Beast Tamers with the cultivation level of a Prime Master on the continent. No one dared to stop Di Ruofeng from meeting Mo Xiao. However, the news that he had appeared in the Alliance Headquarters building still reached Sheng Lingfeng's ears immediately.

When Sheng Ling received the news, he only said, "Prime Master Ruofeng is noble and upright. He won't do anything stupid."

After receiving Sheng Lingfeng's reply, the guards on the top floor of the headquarters building were relieved.

They were really afraid that Di Ruofeng was here to break into the prison.

If Di Ruofeng wanted to take the Grand State Master away, they really couldn't stop him.

When Di Ruofeng arrived, Mo Xiao was enjoying his dinner. There were four dishes and a soup. There weren't many dishes, but they were Mo Xiao's favorite. Seeing that the alliance didn't mistreat Mo Xiao, Di Ruofeng was relieved.

"What a coincidence. It's dinner time. Have you eaten? If you haven't, eat with me." Mo Xiao was in a good mood and even invited Di Ruofeng to eat with him.

Di Ruofeng was in a hurry to rush back to see him. He really didn't eat anything on the way.

Di Ruofeng had been starving since he was young. Later on, even after he became a Beast Tamer, he didn't abstain from eating. He would still eat three meals a day on time. Di Ruofeng didn't stand on ceremony with Mo Xiao. He pulled out a chair and sat opposite Mo Xiao.

Seeing this, the staff guarding outside the door hurriedly added a set of cutlery for Di Ruofeng and served a few more dishes according to Di Ruofeng's preferences.

When Di Ruofeng saw that Mo Xiao had someone to serve him, he smiled and teased Mo Xiao, "It's much more comfortable to stay here than at Lin Jiansheng's place."

During the few days he stayed in Lin Jiansheng's manor, Mo Xiao had eaten instant noodles and drunk Sprite Coke and soda. He lived the life of an ordinary person. He shook his head and smiled. "It's not fun to stay at his place." He missed the spicy hotpot Lin Jiansheng ordered. It was just that there were too many peppercorns, so his mouth was numb and he couldn't speak properly.

The two of them chatted and laughed as they finished their dinner. After the staff removed the bowls and chopsticks, Di Ruofeng immediately set up a soundproof barrier outside the house. "Grand State Master, Yu Huang activated her foresight ability again today."

Hearing this, Mo Xiao smiled in relief. "That child has improved very quickly. Those children on the Divination Continent have to learn for ten years before they can successfully activate the Eye of All Things. How long has it been? She's already very impressive."

Mo Xiao felt a little regretful. He said, "If there's a chance in the future, I have to send Yu Huang to the Divination Continent to undergo professional divination studies. I'm a dabbler myself, so I can't teach her well."

"There must be that chance."

"Tell me what she foresaw."

Di Ruofeng told Mo Xiao what Yu Huang had foreseen.

After hearing this, Mo Xiao was very calm. He said, "Look, this is why the Eternal Eye is so powerful. I can only divine that there will be a calamity in the Central Pagoda, but she can foresee a more detailed future."

Mo Xiao reminded Di Ruofeng solemnly, "Dean Di, after I'm eliminated, Yu Huang will become an eyesore to him. You must protect her well. Nothing can happen to her."

"Grand State Master, don't worry. She is my grand-disciple and the only child Mingjue left in this world. I will protect her even if I have to risk my life."

Mo Xiao nodded and felt relieved.

"Grand State Master, I actually have something to discuss with you today."

"Huh?"

Di Ruofeng told Mo Xiao about Yu Huang meeting the faceless man in the Saint Tomb and Sheng Xiao interacting with the 'god' in the Central Pagoda. "According to the description of these two children, the 'god' seems to have an activity range than expands beyond the Central Pagoda."

Di Ruofeng approached Mo Xiao and lowered his voice to say softly, "Grand State Master, where can God hide if he leaves the Central Pagoda?"

Mo Xiao smiled coldly.

He looked out the window and through the city's night light, he looked at the location of the Xuanyuan Clan in the distance. "The Saint Tomb is where powerful souls gather. Why do you think that person hid in the Saint Tomb? Is it because he needs the nourishment of the souls? Or is there another reason?"

He couldn't possibly like to play among the dead, right?

Mo Xiao tapped his fingers lightly on the table and suddenly said, "Fifty years ago, didn't the Xuanyuan Clan bury a Prime Master in the Saint Tomb?"

Di Ruofeng stared at the unfathomable smile on Mo Xiao's lips and his mind raced. As he thought, he said, "Fifty years ago, the disciples of the Xuanyuan Clan discovered the corpse of one of their ancestors in a desolate mountain restriction. That ancestor had been dead for more than a thousand years. When his corpse was discovered, it was said that he had already lost his inheritance and only had weak spiritual power left. Therefore, the Xuanyuan Clan decided to bury that ancestor's corpse in the Saint Tomb to benefit the future generations."

Because that ancestor's inheritance had been lost, the Xuanyuan Clan's Saint Tomb wasn't open to the public.

"Grand State Master, are you suspecting..." Di Ruofeng saw the unfathomable smile on Mo Xiao's lips and gasped. He said in disbelief, "God, are you suspecting that the Xuanyuan Clan's ancestor wasn't buried there, but..."

Di Ruofeng covered his mouth with his hand and didn't dare to say the rest.

The Grand State Master only laughed until Di Ruofeng's scalp went numb.

Mo Xiao supported his forehead with his hand and leaned back in his chair lazily. He suddenly asked Di Ruofeng, "Dean Di, have you dug a grave before?"

Di Ruofeng was speechless.

The longer he lived, the more exciting his life became. He really didn't expect that when he was tired of being the dean, he would actually have to become a tomb robber.

"... Now?"

Mo Xiao shook his head calmly. "No, don't alert them. Let them be smug for a few more days."

Di Ruofeng was enlightened. "I understand. We have to take them by surprise and kill them in one move!"

Mo Xiao closed his eyes and waved his hand. "From tomorrow onwards, there will be chaos. Dean Di, I'll leave everything to you."

Di Ruofeng stood up and bowed solemnly to Mo Xiao before leaving.

Chapter 654: Amazing, Donor (1)

The Black Spirit Stone was ridiculously heavy. A Spirit Stone weighed five hundred kilograms. Using such a Spirit Stone to build a house was especially inefficient.

The five hundred students worked together for most of the day to build a foundation.

They worked from morning until the sun set before they finally heard Pupu An say, "Alright, today's cultivation is over. Go back and rest."

Pupu An's voice was extremely pleasant to the students' ears.

The fatigue on the students' faces was instantly replaced by smiles. "We can finally rest. Let's go to the canteen to eat!"

Only after working hard would one realize how delicious food was.

Pupu An stared at their smiling faces and reminded them, "I forgot to say that there will be a beast tide tonight. Don't slack off."

The smiles on the students' faces instantly disappeared.

Everyone went to the canteen in silence and ate in silence. Then, they returned to the dormitory in silence and fell asleep.

After working hard, they were very tired and weak. The students fell asleep on the bed almost instantly and slept soundly. They felt that they had only closed their eyes a second ago, but in the next second, they heard a sharp and ear-piercing alarm.

Warning! Warning! The beast tide is here!

Warning! Warning! The beast tide is here!

The alarm rang non-stop. The bed under them were also shaken by the beast tide, as if there was a strong earthquake.

The students woke up and rubbed their eyes in confusion. They realized that the beds and the ground were shaking. They could even hear a deafening beast roar in the distance. Realizing that it was a beast tide, they immediately woke up.

“It’s a beast tide!”

“The beast tide is here!”

“Quick! Get dressed and gather at the field!”

The students dressed up immediately and ran to the field to gather.

It was different from the panic they had on the first night of school when they faced the beast tide. For once, although the students’ expressions were tense and serious, they could maintain their composure. Their movements were fast but organized.

The students stood in many camps. On the leftmost side, there were flying battle-type Beast Tamers who were good at high-altitude combat. In the middle, there were Beast Tamers who were good at land combat. The support-type Beast Tamers stood on the rightmost side.

Yu Huang stood in the second row of the left camp, while the powerful Donor stood at the front of the camp. He was the vanguard of the flying battle camp. Like him, Sheng Xiao stood in the first row of the land battle camp.

When the battle horn sounded, Donor and Sheng Xiao, the vanguard, were the ones at the front.

Mo Yuelou stood on the city wall and stared at the densely packed demon beasts below. He took a deep breath and muttered, “Come, let’s see whose head is harder.”

“Hmph!” An ear-piercing cry sounded from the back of the demon beast pack.

When he heard this familiar cry, Donor’s expression became a little strange.

Yu Huang even noticed that Donor’s legs trembled.

Sheng Xiao noticed Donor’s reaction. He teased Donor. “Donor, you don’t have to be afraid. There are so many alumni protecting you. The Pixiu Demon won’t do anything to you.”

Donor gave Sheng Xiao a fake smile. “Shut up!”

Sheng Xiao held back his laughter and stopped talking.

Behind the beast tide, the roar of the Pixiu Demon sounded again. His roar was like a horn. Hearing the roar of the Pixiu Demon, the demon beasts suddenly stopped running.

Mo Yuelou noticed this scene and hurriedly picked up the binoculars to check the situation. He saw that the Pixiu Demon was giving orders to the little demon beasts.

Unfortunately, they were too far away and Mo Yuelou couldn't hear what the Pixiu Demon said.

On the other hand, Yu Huang relied on her sensitive hearing to hear the Pixiu Demon's order. The Pixiu Demon was saying, "Little demons, if anyone can help me catch the most beautiful elf in the Holy Spirit Academy, I will give him a top-grade Marrow Cleansing Fruit!"

Yu Huang was speechless.

Yu Huang stole a glance at Donor.

Donor didn't realize that a disaster was imminent. He was still glaring at Sheng Xiao.

The name Marrow Cleansing Fruit sounded very tempting.

Back then, Xiao Shu and Feng Yuncheng had been attacked by the Wind Fire Elephant because they had accidentally picked the Marrow Cleansing Fruit of the Wind Fire Elephant. The Marrow Cleansing Fruit could transform demon beasts. Low-level demon beasts could advance to intermediate-level demon beasts, and intermediate-level demon beasts could advance to high-level demon beasts.

Chapter 655: Amazing, Donor (2)

As for this supreme-grade Marrow Cleansing Fruit, its effect was even more powerful than that of the Marrow Cleansing Fruit. Any demon beast that consumed it would break through the cultivation limit of their main body. There was a 70% chance of becoming a divine demon!

As for the divine demons, they were the overlords of the Abyssal Origin Forest.

A demon beast that didn't want to become a divine demon wasn't a qualified demon beast.

One could imagine how tempting the Pixiu Demon's conditions were.

The cultivation path of demon beasts was somewhat different from the cultivation path of human Beast Tamers. After human Beast Tamers broke through to the Master Realm, they could engage in short high-altitude battles. After their cultivation broke through to the Supreme Master Realm, they could also fly for a short distance. And after their cultivation broke through to the Grand Master Realm, they could come and go freely.

However, the demon beasts weren't so lucky.

Among the demon beast group, other than the flying demon beast that was born good at flying, the other demon beasts had to meet two conditions if they wanted to fly.

1. Their cultivation level had to reach level seven (equivalent to a human Supreme Master); 2. They have to successfully comprehend flying skills.

Therefore, even if a demon beast broke through to level seven, if it couldn't comprehend flying skills, it couldn't fight in the sky, let alone fly.

Therefore, when they heard the tempting conditions proposed by the Pixiu Demon, the land demon beasts that couldn't fly immediately ran towards the Black Dome with all their might, and the flying demon beasts instantly rose from the ground.

Mo Yuelou only saw a group of black flying demon beasts flapping their wings as they flew across the plains towards the Black Dome. He immediately shouted, "Form the umbrella array!"

Just as the students were about to set up the formation, Yu Huang ran out from the camp. She stood beside Donor and reminded all the students loudly, "Everyone, pay attention to protecting Donor. The demon beasts' target is Donor!"

Donor looked surprised and shocked. He lowered his head and asked Yu Huang, "Why?!"

Mo Yuelou, who was standing on the city wall, was also staring at Yu Huang in confusion.

Sheng Xiao asked Yu Huang, "How did you know?"

Yu Huang told them, "I heard that Pixiu Demon give the demon beasts an order just now. It..." Yu Huang looked at Donor sympathetically and said with an ambivalent tone, "It's offering a top-grade Marrow Cleansing Fruit in reward for capturing Donor."

Donor's legs went weak and he almost lost his balance.

He pressed his hand on Yu Huang's shoulder. After barely stabilizing himself, he said with a pale face, "That pig demon hates me. It definitely won't let me off!"

The Pixiu Demon was powerful, and Donor knew that he wasn't its match.

At the thought of the Pixiu Demon's ugly appearance and the evil methods he used to torture women, Donor felt a chill down his spine.

He definitely couldn't be captured by that Pixiu Demon!

If he was captured, not only would he be defiled, but he would also die.

Sheng Xiao walked to Yu Huang's side and removed Donor's hand from her shoulder calmly. He pinched Donor's shoulder and said in a calm voice, "Don't panic. The school won't let the Pixiu Demon mess around."

After all, Donor was the prince of the elves. If he was captured by the Pixiu Demon in the Holy Spirit Academy, how would the Holy Spirit Academy explain it to the elves?

Sheng Xiao looked at the top floor of the administrative building and vaguely saw Di Ruofeng, Pupu An, and Lin Jiansheng standing side by side. Sheng Xiao said firmly, "If the Pixiu Demon wants to capture Donor, it's like the enemy attacking our food warehouse during a war. Protecting Donor will be like protecting our army's food warehouse."

“This is a new strategy.”

Donor calmed down a little.

Mo Yuelou looked at Sheng Xiao in admiration. He said, “If you were in the military camp, you would definitely be an outstanding strategist.” Then, Mo Yuelou turned around and looked at the sky. He suddenly raised the sword in his hand.

He unsheathed his sword and drew a dazzling rainbow in the black sky. “Everyone, listen to my command. Form the Nine Stars Moon Protection Formation to protect Donor!”

All the students quickly approached Donor and stood in a circle with their backs facing him. With Donor as the center, the circle became larger and larger. Sheng Xiao, Fang Peipei, and the others, who were the strongest, stood closest to Donor.

When the flying demon beasts flew above the Holy Spirit Academy, the students had already surrounded Donor to protect him.

The flying demon beasts flapped their wings and floated in the sky. Their eyes were filled with greed and madness. “The Pixiu Demon said that whoever catches the most beautiful elf first will be able to obtain the supreme-grade Marrow Cleansing Fruit. Everyone, take a closer look and see which elf is the most beautiful!”

Chapter 656: Amazing, Donor (3)

Upon hearing the flying demon beasts’ words, a portion of the Light Elves lowered their heads since they were afraid that they would be targeted by the demon beasts.

Only the ugly Estelle was fearless.

His ugly looks became his protective shield.

“Found it!” The Peacock Demon that led the flying demon beasts to attack the Holy Spirit Academy last time recognized the Light Elf at the center of the circle at a glance. He was the most beautiful one among all the elves.

“There he is! The elf in the middle of the field is the elf the boss is looking for!” The Peacock Demon beast stared at Donor with a bright gaze and even let out a creepy laugh.

When the other demon beasts heard the Peacock Demon’s words, they all looked at Donor in unison. They wanted to see what kind of beauty could break the heart of their leader.

But...

“That’s not right!” A little demon that looked like a flamingo but had a colorful crown on its head revealed a suspicious gaze. It said, “Peacock, that’s a man! Our boss likes women!”

“Is that so?” The Peacock Demon stared at Donor’s figure and looked carefully. That person’s chest was flat, and his features were not as soft as a girl’s. He was indeed a man.

But he was indeed the best-looking one among all the elves.

Perhaps their boss' preferences had changed.

The Peacock Demon quickly thought it through and said, "Who cares?! It's dark in the Pixiu Demon's cave. Once it's dark, what's the difference between a man and a woman?"

"You're right."

The voices of these flying demon beasts were loud. Therefore, the students who heard these words all wanted to laugh, but they held back their laughter.

Even Mo Yuelou was smiling.

Only Donor's expression was dark. He suddenly clenched the Light Sword in his hand and roared at the group of flying demon beasts, "Bastards, come and capture Donor if you have the ability!"

"Heh, you're quite stubborn, and you're feisty! Hahaha, the Pixiu Demon Leader likes this type!" After confirming Donor's identity, the group of flying demon beasts spread their wings and flew towards Donor without a word.

As they flew, the demon beasts attacked.

In an instant, the night sky was lit up by colorful demonic power attacks.

Seeing this, Mo Yuelou shouted, "Form a protective shield!"

Bang!

Spiritual energy surged out of the students' bodies. They fused with each other and formed a protective shield in the blink of an eye. The protective shield enveloped the field and resisted the waves of attacks from the demon beasts.

This time, the demon beasts didn't use a group battle method. They were all fighting separately. They all wanted to unleash their strongest strength and become the first person to abduct Donor.

Demonic power landed on the sturdy and powerful protective shield and was quickly neutralized by the students' protective shield.

Seeing this, the Peacock Demon realized that this battle method was wrong.

"Swish!" It cried out and gestured for the little demons to transfer their demonic power to him.

After understanding what the Peacock Demon meant, the little demons were somewhat hesitant.

They wanted to capture the elf alive.

The Peacock Demon snorted. "We can't even break through their protective shield, so why catch the elf?! The most important thing now is to unite and break the protective shield!"

Hearing this, the little demons reluctantly transferred their demonic power to the Peacock Demon.

After accepting the demonic power offerings of the little demons, the Peacock Demon's body expanded, and its demonic power instantly increased to the peak of level 8!

Its strength was already comparable to that of a human Prime Master!

After gathering the demonic power of all the flying demon beasts, the Peacock Demon spat out an incomparably huge demonic power energy ball. The energy ball hit the protective shield, and after the originally indestructible protective shield shook a few times, it didn't completely disintegrate as the Peacock Demon had imagined.

Seeing this, Mo Yuelou and the other students were somewhat surprised.

Last time, the demons' full-strength attack destroyed their protective shield. But this time, they actually didn't. What did this mean?

This meant that their two months of bitter cultivation had achieved very obvious results!

The Peacock Demon stared at the protective shield that had dimmed a little but had yet to shatter. Its gaze slowly became serious.

This group of human students had become stronger.

Chapter 657: Amazing, Donor (4)

"Flower Peacock!" A gray unicorn with fur led a group of land demon beasts to the top of the Black Dome. They stood at the entrance of the Holy Spirit Academy and raised their heads to shout at the peacock demon in the sky, "What? You can't deal with this group of human cubs? Do you need our help?!"

The peacock demon sneered. "Shut up! Let's see if you can do it. If you can, go ahead!"

So be it!

The gray-furred unicorn gave the order. The hundreds of demon beasts behind him sacrificed their demonic power at the same time and transferred it into the gray-furred unicorn's body. The gray-furred unicorn's fur became much brighter, and it looked rather majestic.

The fur on its body stood up one by one, and small flames emerged from its pores. The unicorn instantly turned into a warrior covered in flames.

It shook its mighty body, and the flames obeyed the unicorn's command and turned into a fireball emitting gray light.

Boom!

The fireball was thrown into the sky and attacked from above the Holy Spirit Academy.

Bang!

The fireball landed on the protective shield and turned into countless fragments that attached themselves to the protective shield and burned. The protective shield was instantly ignited, as if it had been splashed with gasoline, and burned very vigorously.

For a moment, even the faces of the students under the protective shield couldn't be seen.

Accompanied by a shocking explosion, the protective shield was finally shattered.

Hearing this commotion, the gray unicorn swaggered towards the peacock in the sky and said, "How is it? When it comes to a real battle, we land demon beasts are the ones to be relied on. We are the battle elites!"

The peacock snorted.

It lowered its eyes and looked at the field below. It thought that it would see the students lying on the ground with serious injuries. In the end, it saw those students standing upright in the middle of the field.

They looked energetic and didn't look seriously injured.

Seeing this, the peacock realized that the protective shield hadn't exhausted their spiritual power!

In just two months, the cultivation level of this group of young humans had increased a little too terrifyingly.

Mo Yuelou raised the sword in his hand and shouted, "Form the formation and counterattack!" Hearing this, the students all moved immediately. They suddenly turned around to face Donor, who was in the middle of the circle, and transferred the remaining spiritual power in their bodies into Donor's body.

The pure white wings on Donor's back suddenly spread out, and the wings were covered in a faint golden light. His long golden hair fluttered without any wind. Donor looked holy.

Swish!

Those handsome eyes suddenly opened. Dark golden light gathered in his eyes, making them look dazzling.

When the last trace of spiritual power entered his body, Donor suddenly pulled out the Light Sword in his hand and shot into the sky.

When the Light Sword was unsheathed, a golden rainbow cut through the night. It instantly lit up the pitch-black Black Dome Plains. Donor used this dazzling light to see the figure of the Pixiu Demon in the distance.

At this moment, his body was filled with the spiritual power of all his classmates. He was suddenly filled with courage, and his fear of the Pixiu Demon had faded greatly.

Donor held the sword in his right hand and cut his palm without hesitation. Golden blood flowed out of his palm. The golden blood flowed gently from the sword and was instantly devoured by the Light Sword.

The golden light in Donor's eyes became deeper and deeper. After being summoned by the Golden Bloodline, the Light Sword in his hand was finally activated.

The power of light was a fourth-grade Divine Rank cultivation technique that the Elven King, Moldo, had captured from the Lou Lan Ancient Pavilion. It was the strongest cultivation technique of the elves. Only elves with the Golden Bloodline in their bodies were qualified to inherit Moldo's inheritance.

When Sheng Xiao and the others went to the Saint Tomb to accept the inheritance, Donor also accepted Moldo's inheritance.

Under the power of light, all the demons died!

Donor muttered softly, "With my golden bloodline, I summon the Angel Sword. May the angel descend and kill the demons!" With that said, Donor suddenly threw the Angel Sword into the distant plain.

The golden light on the Angel Sword became even more dazzling.

All the light gathered together and condensed into an illusory angel image in the void.

The angel's figure was graceful. She was wearing an ankle-length dress. Her curly hair fell to her waist, and the wings behind her were fully spread, making it impossible to see the end of it.

Chapter 658: Amazing, Donor (5)

The angel was enveloped in light, and no one could see her face clearly.

It was precisely because they couldn't see her face clearly that she appeared even more holy and inviolable.

Seeing that Donor had actually summoned an angel, all the elves revealed ecstatic expressions.

Only the Elven King could summon an angel. Would His Highness Donor become the next Elven King?

Estelle stared blankly at the elf, then looked up at Donor. He took a soft breath and whispered, "Village Chief, I see an angel."

When the angel descended, all the dirty things in the world couldn't help but bend their knees and kneel on the ground. Even if they were unwilling, they couldn't control their legs at all.

Even the Pixiu Demon felt the blood in its body freeze in an instant.

In the sky, the angel suddenly opened her eyes and extended her right hand to gently press forward. At the same time, an ethereal and gentle female voice spread throughout the world—

"Demon filth, disperse!"

As soon as she finished speaking, some of the demon beasts with only Level 2 and 3 cultivation levels in the beast tide were reduced to ashes on the spot. Those medium-level demon beasts also covered their ears and howled in pain.

Di Ruofeng and Pupu An were shocked to see this.

"This is..." Di Ruofeng said in shock, "Could this be the legendary Angel Sword of the Elven King, Moldo?"

The Beast Clan that Pupu An lived in was relatively close to the Light Sea. They were more familiar with the legend of the Elven King. He nodded and said with a mixed expression, "I really didn't expect Donor to successfully obtain Moldo's inheritance."

The elves had Donor, the humans had Sheng Xiao and Yu Huang, and the merfolk had been destroyed. What about the beastmen?

It had been many years since a talented child appeared in the Beast Clan.

When Donor's spiritual power was exhausted and he fell to the ground weakly, the angel in the sky suddenly disappeared. On the ground, the weak demon beasts in the beast tide had all turned to ashes.

The Pixiu Demon watched helplessly as the little demon beasts were reduced to ashes. It looked at the Holy Spirit Academy with fear.

Back then, when they found out that Mo Xiao was going to build the Holy Spirit Academy and create a plan to create the strongest elite, the demon beasts didn't think much of it. In the first beast tide battle, the students were quickly defeated. The Pixiu Demon thought that the so-called elite academy was just a group of cowards.

However, in just two months, those children had made such great progress. The Pixiu Demon's mentality finally changed.

When he saw Donor summon an angel with his own eyes, the Pixiu Demon's feelings for him faded a little.

Forget it. This fellow was a stubborn person. He might as well forget him.

"Hmph!" The Pixiu Demon roared angrily and turned to return to the primitive forest.

Seeing that their boss had left, the other demon beasts also retreated.

Due to the excessive consumption of spiritual power, Donor had already fallen into a deep coma and was caught by Mo Yuelou. The students who had just watched Donor successfully summon the angel were all silent.

Donor's Angel Sword was really terrifying.

Yu Huang smiled at Sheng Xiao. "His Angel Sword isn't inferior to your Myriad Slash."

Sheng Xiao didn't deny it. Instead, he analyzed objectively, "Donor borrowed our power just now to successfully summon the Angel Sword. However, using external power isn't as easy as using his own energy. I think he didn't really unleash the true power of the Angel Sword. When he grows up, he will definitely unleash even more terrifying power."

Sheng Xiao sighed. "The Angel Sword is indeed very powerful. As expected of the strongest technique of the elves."

As the beast tide took the initiative to retreat, the battle of the beast tide was finally over.

Although the Pixiu Demon took the initiative to retreat, it didn't mean that the students had really won. After all, only those mid and low-level demon beasts took the initiative to attack them tonight.

The truly powerful demon beasts had yet to attack.

After a night of intense battle, the sky lit up.

Sheng Xiao called Yu Huang over to eat breakfast. When Yu Huang was about to finish eating, she saw Yin Rong and Xiao Shu walking towards their table in a hurry. As soon as they sat down, Xiao Shu said, "At five o'clock this morning, a powerful Prime Master's skeleton was found under a glacier in the Ice Domain Continent. And..."

Xiao Shu looked at Yu Huang and Sheng Xiao and lowered his voice. "Someone had set up a Spirit Plundering Formation under the glacier."

Chapter 659: The Icebound Prime Master (1)

Another Prime Master skeleton was discovered. This news was truly shocking.

Yu Huang was a foodie, but after she heard this news, she couldn't eat a single bite.

She put down the spoon in her hand and looked up at Xiao Shu. "How did you know?"

Xiao Shu said, "Look at Weibo."

"Weibo?" Yu Huang was somewhat puzzled. "Why would the matters of the cultivation world spread on Weibo?" Generally, things that happened in the cultivation world would only be announced on the Beast Tamer Alliance's website. This was an unwritten rule.

Sheng Xiao thought about it and came to the truth. "Someone is deliberately expanding the influence of this matter." If someone had not secretly spread it, this news would have been quickly deleted by the administrator. It would not have caused such a huge commotion on Weibo.

"Most likely." Yin Rong agreed with Sheng Xiao.

"Let me take a look first." Yu Huang opened Weibo on her phone. The Weibo app had not been used for a long time. The moment she opened it, it reminded her to update the latest version. Yu Huang turned off the reminder in frustration and lowered her head to ask Xiao Shu, "Is the topic trending?" As she asked, she opened the Weibo hot search.

Xiao Shu replied, "It's trending."

Yu Huang opened the trending page and saw that the trending topic at the top was # The corpse of the Prime Master appeared at the Blue Lake Glacier #. There was the purple-red word "trending" at the back of the topic.

This topic received too much attention, and the number of views became the highest today. All the users who used Weibo saw this topic and participated in the discussion.

Yu Huang opened that topic and saw the first report. It was an exposé forwarded by the official news account of the Divine Moon Empire. The writer of the original exposé was a user called 'Glacier Exploration Team Star'.

The Glacier Exploration Team Star was a very famous glacier expedition and glacier protection organization on the Ice Domain Continent. The members of this organization were all geologists and exploration enthusiasts. This team lived in some inaccessible glacier areas all year round and relied on

live-streaming and editing videos to promote the glacier protection culture, advocate global protection of the environment, protect the Earth, and global warming awareness.

Because their videos were nice and the exploration was filled with thrill and the unknown, the glacier expedition team was extremely popular on Weibo and other media websites.

This Prime Master's corpse was discovered by the team at four in the morning at a glacier called Blue Lake in the Ice Domain Continent.

Yu Huang found the original blogger's Weibo and opened the video edited from the live broadcast.

In the video, a group of explorers in polar jackets and waterproof high-top shoes were sliding through a glacier with heavy bags on their backs. As they walked, one of the explorers suddenly tripped and rolled down a cliff.

When he fell, the team members all shouted in panic and worry.

When the team members were urgently rescuing their companion, they actually discovered a very small hole in the middle of the cliff.

As soon as the explorer with rich exploration experience saw the entrance, he boldly analyzed, "There's a high chance that this is a glacier cave."

The explorers were excited that they were about to discover a new mysterious ice cave. "We have to go in and take a look." The explorers secured the mountain rope, then tied the life rope around their waists and slowly headed into the ice cave.

The cave was very narrow at first, and could only accommodate a medium-sized person. "No, it's too narrow inside. We have to abandon the backpack." The backpack was filled with dry food, emergency medicine, and survival devices.

Abandoning one's backpack meant putting one's life in danger.

After a short period of hesitation, the explorers took off their backpacks and crawled into the cave.

The crawling process was a little long. After the video was edited, it was only ten seconds.

"Look! It's indeed an ice cave!"

"God, this cave is the largest cave I've ever seen in my life!"

The photographers aimed their cameras at the cave in front of the explorers. The cave was five to six hundred meters high. No one expected that under the Blue Lake Glacier, there was a natural glacier cave!

A huge ice pillar stood in the middle of the cave. It pierced straight into the top of the cave from the bottom. In addition, there were countless ice pillars in the cave. Those ice pillars were shaped like various animals and looked shocking.

Chapter 660: The Icebound Prime Master (2)

The explorers were stunned.

Yu Huang even heard the photographer's heavy breathing.

Clearly, even the photographer was mesmerized by the magical and magnificent scene in front of him.

"What is that?!" Suddenly, an explorer cried out in shock.

The camera moved to the explorer and then to the direction he was pointing at. The camera was aimed at the towering ice pillar. When he found that the scene taken from a distance wasn't clear, the photographer quickly adjusted the camera and saw the situation inside the ice pillar more clearly.

Thus, Yu Huang saw a patch of blue appear in the middle of the ice pillar. If one looked carefully, they would realize that the blue patch was actually clothes.

"Is it a person?" The photographer was the first to question.

The other explorers also said in disbelief, "How is that possible?!"

"That's impossible! How can there be someone in the ice pillar?"

The photographer's hands were trembling. He adjusted the camera again. This time, the image in the ice pillar was even clearer.

There was a woman in a blue dress hidden in the middle of the ice pillar!

It was a Snake Clan woman. Her long tail, which was similar in color to the ice pillar, was completely sealed by the ice pillar.

"Heavens!" Several shocked cries sounded in succession in the video. "There's actually a Snake Clan woman sealed in that ice pillar!"

The video stopped here.

Yu Huang stared at the video in a daze. When she looked up again, she realized that Sheng Xiao, Yin Rong, and the others had gathered beside her and were looking down at her phone screen.

Yu Huang placed her phone on the table and turned to Sheng Xiao. "The video is real. There are no signs of photoshop."

Sheng Xiao nodded solemnly.

Yu Huang turned on her phone again and opened the comments section.

Things about the cultivation world rarely appeared on Weibo, let alone such a strange matter. This matter concerned the mysterious death of the Prime Master, so all the netizens were in an uproar. Everyone left comments in the comments section to express their opinions.

Some Beast Tamers called 'insiders' even revealed a lot of internal information in the comments section.

One of the most liked comments was revealed by a netizen called 'Don't ask me who I am'.

Don't ask me who I am: "Don't guess anymore. The person who was frozen was indeed a Beast Tamer, and she was even the number one beauty of the Snake Clan four hundred years ago, Bai Zhenzhen.

Before Bai Zhenzhen disappeared, she was already a Prime Master. To be honest, when they found out that the Beast Tamer in the ice pillar was Senior Bai Zhenzhen, everyone in the Beast Tamer world was very shocked. After the Snake Clan found out about this, there was a commotion. Currently, the alliance headquarters is sending people to the Blue Lake Glacier to investigate this matter. As for who the murderer who sealed Bai Zhenzhen in the ice pillar is, without sufficient evidence, I don't dare to spout nonsense. However, as long as the people in the Beast Tamer world pay more attention to the recent changes in the alliance headquarters and see which big shot was interrogated, they will know who the suspect is."

This person's account had been registered for three years, but he rarely commented, and there wasn't a single post. Yu Huang couldn't guess his identity.

Weibo wasn't like the Beast Tamer Alliance's website. The certification conditions were not that harsh.

If a Beast Tamer wanted to gain access to the Beast Tamer Alliance, they could only do so when they were applying for the Beast Tamer Badge. The staff of the Beast Tamer Alliance would help them open the certification, and private personnel were unable to do so. Therefore, those who didn't dare to spout nonsense on the Beast Tamer Alliance's website came to Weibo with their alternate accounts.

After seeing the comment of 'don't ask me who I am', the civilians outside the circle replied to the comments and asked about the suspect's identity. Many civilians started to imagine and guess.

Civilians were not Beast Tamers. There was a 'wall' between them and the cultivation world. They could speak freely on Weibo without worrying that they would be discovered by the Beast Tamer Alliance. Therefore, they dared to say whatever they wanted.

A user left a message: "After Saint Su Xuanye, another big shot in the cultivation world is about to be exposed. No one is above the law. I look forward to the day when that demon is punished."

Second floor: "A person who can seal a Prime Master is at least at the Prime Master Realm. I just don't know if the murderer has already died or is still alive. If he's still alive, it's not difficult to find the identity of the suspect. After all, there are very few Beast Tamers on our continent who have reached the Prime Master Realm."

Third post: "Does everyone still remember what happened to Prime Master Dongfang Sile in the Blazing Realm Continent a few days ago? I have a feeling that Senior Bai Zhenzhen's death is related to Dongfang Sile's death. I seriously suspect that the murderer is the same person. I heard from a friend that the places where Senior Bai Zhenzhen and Senior Dongfang Si Le's remains are hidden have been set up with a Spirit Plundering Formation. It is said that this Spirit Plundering Formation is a very cruel cultivation technique that steals other people's spiritual power."

Fourth post: "OP, the suspect you're talking about is DGS?"

Fifth post: "DGS? MX? Don't scare me!"

Sixth post: "MX? There are only a few Beast Tamers on the continent who have broken through to the Prime Master Realm. There's only one big shot called MX. May I make a guess? Could it be... DGS from the Divine Moon Empire?"

Everyone could tell who DGS and MX referred to at a glance.

In the beginning, the netizens were only guessing and didn't dare to name names. However, as more netizens participated in the discussion, everyone's fear faded. When it reached more than 200 comments, they mentioned the Grand State Master directly.

This time, everyone began to suspect Mo Xiao.

Yu Huang's expression was solemn. She said, "This so-called insider is deliberately spreading news to tarnish the Grand State Master's reputation."

That person was very smart. He first used Dongfang Sile's death to ruin the Grand State Master in the cultivation world. After the people of the cultivation world became suspicious of the Grand State Master, he used Bai Zhenzhen's death to ruin Mo Xiao's reputation in the entire continent.

Rumors were terrifying. Even if Mo Xiao wasn't the murderer, when most people thought that Mo Xiao was guilty, Mo Xiao would really seem guilty.

Yu Huang recalled that the Grand State Master had said that this was his tribulation. Since it was a tribulation, it was unavoidable.

It could be seen that this matter wasn't over yet.

At that moment, the word 'Mentor' appeared on Yu Huang's phone screen. Seeing that Yu Huang was distracted and didn't notice that her phone was ringing, Sheng Xiao reminded her, "Your mentor is calling you."

Yin Rong and Xiao Shu retreated.

Yu Huang came back to her senses and hurriedly picked up the phone. "Mentor."

Lin Jiansheng said, "Ah Huang, prepare to go out with me."

Yu Huang's heart skipped a beat. She asked Lin Jiansheng, "Are we going to the Blue Lake?"

Lin Jiansheng acknowledged and hung up.

Yu Huang quickly got up and brought the dishes back to the sink. Sheng Xiao followed her and said, "Mentor asked you to go to Blue Lake with him?"

"Yes."

Yu Huang felt uneasy. She walked to the sink with Sheng Xiao to wash her hands. Cold water flowed between her fingers. She couldn't catch the water or the ghost hiding in the dark.

"Brother Xiao." Yu Huang lowered her head and looked at her slender fingers. She said, "Why did they pretend not to see such an obvious trap?"

Sheng Xiao placed his hand on Yu Huang's head and squeezed it gently. He said mockingly, "Because being powerful is admirable and scary." When all the evidence pointed to Mo Xiao, the people would waver.

Lin Jiansheng called Yu Huang again. Yu Huang waved her hand and picked up the phone. She quickly hung up. "My mentor is urging me to leave. I'll go first."

“Okay.”
