

Silly Teen 36

Chapter 36

When Guan Dongxuan heard this, he immediately panicked: “Brother Cao, this matter, there is no need to make a scene like that If I really get stabbed and hospitalized, my father will trace it and you guys will be in trouble.” His words were more like a threat to Cao Ge and the others.

But Cao Ge and the others didn’t eat this at all.

They were putting the initiative in my hands and letting me do whatever I wanted.

As I looked at Guan Dongxuan lying on the ground, I was reminded of my old self and the day he stabbed me, when he asked me to get under his crotch and learn how to bark like a dog.

“Guan Dongxuan, if you want to say that you were stabbed, I’m also afraid of being responsible. How about this, you slap yourself thirty times in front of everyone and let’s just forget about it.” I gave Guan Dongxuan a stepping stone and a way to vent my anger in my heart.

“This” Guan Dongxuan’s expression, for a moment, froze a little.

“What? You didn’t tell me to learn how to bark like a dog then! I’m just asking you to slap yourself thirty times!” I asked Guan Dongxuan with a sneer.

“Do you really want to do that?”

Guan Dongxuan asked, gritting his teeth.

“What else? I am now giving you the solution!” I said very forcefully at Guan Dongxuan. After I was expelled from school, my thoughts, changed drastically. I thought, I was now in a situation where I already had someone to back me up, so why should I be afraid of anything from Guan Dongxuan?

Besides, in this case, it wasn’t my fault at all, I was forced to do it by Guan Dongxuan!

If that’s the case, why can’t I just give it back?

I’ve been bullied for so many years, from primary school to junior high and then to high school. I’ve been called the ‘son of a murderer’ and no one wants to play with me. No matter that, they still have to step on me again. Now that I have someone to fall back on, why don’t I stand up for myself?

I’m a human being, I have my pride too! Why should I continue to live like this, to have my self-respect trampled on?

And if I want to stand up, I must start with Guan Dongxuan!

He’s my first hurdle!

“Guan Dongxuan, have you thought enough?” It was at Guan Dongxuan that I prodded.

“What else do you need to think about? Guan Dongxuan, are you going to do it or not? Easy you don’t do it, then don’t say we didn’t give you a chance later.” Cao Ge then said from the sidelines.

“Fine, fine, I’ll do it!” Only then did Guan Dongxuan agree.

As for his little brother, he was on the sidelines and was looking very surprised. A group of us, we watched as Guan Dongxuan lifted his hand and rushed towards his face. But he didn't do it with much force, and the expression on his face, instead, was very exaggerated.

"Guan Dongxuan, you're not f*cking full, are you?" Cao Ge kicked at him straight away.

"You don't dare to do it, do you want us to help you?" Cao Ge's little brother then asked from the sidelines.

"No, no need." Guan Dongxuan said awkwardly.

He gave Cao Ge and the others such a push, which was to increase his strength. But his subsequent slap still did not use his full strength. It landed on the face although it made a sound, but it was still a little too quiet.

"It looks like Guan Dongxuan, it's better for me to help you!" Cao Ge said, is towards Guan Dongxuan walked over.

When Guan Dongxuan heard this, he hurriedly was shaking his head, "Brother Cao, it's really not necessary, it's enough for me to do it myself."

"But you're just like a mosquito, how can you do that?" Cao Ge just asked rhetorically.

"I... I'll push a little harder."

"How is some enough? Use your full strength!"

Cao Ge said so, and when Guan Dongxuan heard that, his face turned even redder for a while. In this situation, he could only follow what Cao Ge said. The location of the restaurant was also some distance away from the school's main entrance. Guan Dongxuan couldn't expect the police or the security guards to come and rescue him.

He used to get people into trouble, and he basically got them to a more remote location. And now he had some experience of this feeling.

And it was between the hands of Guan Dongxuan, without even me getting involved, Cao Ge and the others were on the sidelines helping me count. If any of them failed, they just told Guan Dongxuan to start over. One failure, one doesn't count. Two failures, and the number was directly reduced by five from what was already there.

Guan Dongxuan's face was a little swollen, but Cao Ge and the others weren't satisfied with that either.

"Ah Chao, how did it work out?" Cao Ge asked at me as he stood just off to the side.

"It's not even close." I said bluntly. This was something that the old me would not have dared to say. If it was the old me, watching Guan Dongxuan slap himself in front of me, I would definitely have already 'gone soft' out of fear of Guan Dongxuan's subsequent outburst.

But at this moment, I wasn't so! And as soon as Guan Dongxuan heard my words, he looked at me with an instant straightening of his eyes. It was more as if he was glaring at me!

“Guan Dongxuan, for these last ten slaps, you might as well kneel down!” Cao Ge said in a straightforward manner.

“But this

Guan Dongxuan had something else to say, but Cao Ge beside me interrupted directly: “But what do you want to say? If you don’t, you have to think it over yourself!”

And when Guan Dongxuan heard this, he could only kneel down in my direction. Each of these last ten slaps was particularly hard for him. I looked at his already red and swollen face, and my heart was even more at peace.

But it was at this time that Guo Xuefu came up to me anxiously. She pointed in a direction at me and said to me: Teacher Lin is here!

I turned my head to look. It was really watching Teacher Lin coming in our direction.

She had obviously seen me. And I felt even worse inside as I watched her walk.

“What’s going on here? Jin Chao, you’ve already been expelled and you still want to bully your classmates as a result?” Teacher Lin asked with a cold face at me. Her expression was very serious, and she also looked disappointed in me to the core.

“Teacher Lin, listen to my explanation.” I got anxious all of a sudden.

“No need, there’s nothing to explain.” Teacher Lin plunged straight into the crowd, just to pull up Guan Dongxuan who was kneeling on the ground, “Dongxuan, let’s go.”

But Guan Dongxuan still insisted on kneeling on the ground: “Teacher Lin, don’t worry so much for now. This matter, is between mine and Jin Chao.”

As I listened to Guan Dongxuan’s words, my heart exploded even more. I could not wait for Guan Dongxuan to leave now. If he stayed here, I was only afraid that it would cause Ms. Lin to have a bigger misunderstanding about me. More so, he would see me as a bad person!

And beside me, Cao Ge, was glancing at me, waiting for my meaning.

“Guan Dongxuan, you guys should go.” I said with a long sigh.

“So the rest of the ten slaps aren’t needed?” Guan Dongxuan still seemed to give a deliberate emphasis.
