

## I Am Born With A Silver Spoon Chapter 484

Jin Diao and the others did not expect the people from Tian Long Group to completely drop all niceties around them.

It looked like they were all emboldened.

If they weren't able to display their power right now, it would be harder to tame the Tian Long Group in the future!

In no time, the Literacy and Martialism Night started.

A large stage was positioned at the center of the venue.

All five of the leaders had dispatched the strongest elite fighters from their underlings to participate in the brawl.

For Chen Hao, he had decided to dispatch Shen Wanshan as well as his brothers.

Previously, he had personally given them some special training.

Hence, it was an understatement that they were much more powerful than they used to be.

Right at the start of the brawl, they managed to garner attention from the others when they struck their targets.

They beat their opponents to a pulp, giving them absolutely no chance to strike back.

“What?!”

Jin Diao and the others' eyes twitched.

Initially, they thought that the Tian Long Group was just like the president from the previous herbal medicine factory, quick to boast but actually had no power.

At most, maybe he would just have a few men from the special forces with him to keep up his appearance.

However, at this rate, it looked like it wasn't as simple as that.

These people were actually really strong.

“Looks like President Chen really is something, huh? Those underlings of yours are strong! Looks like after the Literacy and Martialism Night this year, you will be getting a huge piece of territory from the partition of power later on!” Jin Diao put on a false smile and said.

After all, the sharing of power between the six of them will be different from the sharing of power between the five of them previously.

Moreover, Chen Hao's underlings had the capability to take down every one of their fighters.

This wasn't a good sign.

Chen Hao remained silent.

However, Jin Diao and the others couldn't hold back any longer.

After a few rounds of the brawl, all of their underlings were defeated even before the man named Shen Wanshan struck any one of them

The whole banquet was dead silent, even the sound of a pin falling to the ground could be heard.

"Master Jin, thank you for your kindness. All five of us even managed to win this together! I'm grateful for your kindness!" Shen Wanshan walked over and thanked him profusely.

Jin Diao laughed awkwardly. "It's nothing! However, I didn't expect all of you to be so strong! We have really embarrassed ourselves this time around!"

"President Jin, you've got it all wrong. The strongest person here isn't any of us, but is none other than our master! We were all trained by him personally!" Shen Wanshan denied his praise and chuckled bitterly.

"Oh? Is that so? Chen Hao, you're actually even more powerful? Wow, looks like the few of us were wrong about you!" Jin Diao laughed along.

However, his emotions were all over the place.

After all, everyone had witnessed Chen Hao overpowering all five of the leaders today.

They had initially planned to show dominance over the Tian Long Group, however, they were overpowered instead.

"Well, President Jin, do you still mean it when you said that the winner will be able to divide the territories for everyone?" Shen Wanshan questioned again.

Jin Diao let out a dry cough and chuckled. "Of course! Alright, we shall discuss the partitioning of powers after this banquet!"

Being put right under the spotlight, Jin Diao did not dare to talk more about it.

After all, he couldn't just break his promises.

"I need someone to remove the plaque that says 'The Hall of Literacy and Martialism of the Five Leaders' and change it to 'The Hall of Literacy and Martialism of the Six Leaders'!" Jin Diao ordered his men.

As for the other four leaders, they all remained silent.

However, all of them were thinking of different things.

Some of them hated the Tian Long Group for sticking their nose into the partition of power while the others were happily looking on.

After all, those with lesser power had always hoped for someone new to be able to break the balance of the initial division of power. If that were to happen, they would finally stand a chance to gain more power amidst the chaos.

After his commands went down, a few workers came over with ladders to remove the plaque.

“Let me save you the trouble!”

Chen Hao gave a chuckle.

He took a chopstick and flicked his wrists abruptly.

Whoosh!

The chopstick sailed smoothly and pierced the middle of the plaque, successfully breaking it.

Then, with a crack, the plaque broke into four pieces and fell to the ground.

“What?!”

All five of the leaders were shocked.

The cigarettes in their hands fell to the ground.

“This man, who is he really?!”

H-H-How is this possible? To be able to break a plaque into pieces solely with human strength?!”

All five of them were appalled. It was obvious that all of them had never come across something like this before. If the chopstick wasn't aimed at the plaque but at their heads instead, even from a distance that far, what could have happened?

Shen Wanshan and his brothers looked at each other.

They all thought in unison, Hmph! Looks like Master's move had successfully scared all of them!

The reason why Chen Hao did that was clear.

It was to warn all of them that he wasn't in a mood to fight for any partition of power. If the five of them did not want to cooperate, he shall end them like how he broke the plaque!

Chen Hao sat down with a small smile.

“President Jin, President Zhu, come have a seat!” Chen Hao called out to them with a smile.

“Alright! M-M-Mr. Chen!”

Right now, although Jin Diao was trying his best to stay composed, the cold sweat on his forehead was a dead giveaway.

If Chen Hao really wanted to kill one of them, then wouldn't the chopsticks on the table be his best weapon?

Right then, even the way they addressed him changed tremendously.

"It was unexpected that Mr. Chen is actually that powerful! If you're willing to accept them, I, Zhang Tao will transfer all of the territories under my name to you! I'm willing to serve as one of the men below you!"

At that moment, one of the five leaders piped up.

After he spoke up, some of them immediately agreed with his suggestion.

Chen Hao and Shen Wanshan glanced at each other. Jin Diao was the only one who did not agree nor say anything regarding this.

Although some of them weren't satisfied with it, they still went along with it.

However, after this visit today, he was sure that the five leaders of Tagou Town knew what to do after.

And that was the main reason why Chen Hao came tonight.

The Literacy and Martialism Night this year ended with a different atmosphere.

After they went back, Shen Wanshan told Chen Hao in excitement that many of the merchants from Tagou Town had turned to seek protection from them.

Even some of the leaders came over to flatter them after the banquet. There were also some that wanted to join the Tian Long Group.

They had already received tons of gifts already.

However, Chen Hao wasn't in a mood to care for all these. Thus, he handed these issues to Shen Wanshan to handle.

Up until today, the Tian Long Group that he had founded on his own finally managed to officially have its place in Tagou Town.

Tian Long Group would finally have its own territory.

What Chen Hao wanted to do next was to rescue Tian Long.

The connections in Tian City were very complicated. Not one of them was to be looked down upon.

That was what Zhang Hu, also known as Di Hu, told Chen Hao previously.

Zhang Long and Zhang Hu tried to establish a connection in Tian City using money because they wanted to look for him in the Southwest Region. However, they were defeated by the local tyrant, Wen Sen, in no time.

Moreover, Tian City was much larger than Tagou Town.

There were even more forces and influences there, with different connections all over the place.

It was unknown as to how many forces out there that were as powerful as Wen Sen.

However, Chen Hao couldn't afford to think about these right now. The more they delayed, the more danger Zhang Hu would be in.

He couldn't possibly wait any longer for preparations.

"Wanshan, contact the others. We will set off today to Tian City!" Chen Hao commanded.

"Yes, Mr. Chen! I will prepare for it right away!"
