

Skeletons 171

Chapter 171

"I should have asked you this question."

"I'm taking care of Gale. Is there a relationship between you and her? It seems that it's just a relationship between superiors and subordinates," Aurum replied directly. There would be no need for Shawn to come to the hospital for a mere employee.

Shawn said with a gloomy face, "Who asked you to take care of her?"

"I received a call from Gale last night, begging me to save her, so I came here."

"She is smart enough to know how to find you. Aurum, I advise you not to interfere in Gale's affairs!" Shawn snorted coldly.

"I promised her that she could come to me at any time if she were in trouble. With a gentleman's word, it is hard to go back," Aurum said respectfully and frankly, without any concealment.

However, it was this magnanimity that made Shawn even more unhappy.

Aurum was a gentleman, he was happy to help others.

That set him off.

Shawn said, "You can help her once, but you can't help her for the rest of your life. I don't care what your feelings for Gale are. In short, from now on, don't approach her again!" After speaking, Shawn took a step forward into the ward.
