

Skeletons 281

Chapter 281

However, Susan stepped on the box of pills.

“Hold on, Gale, what are those pills?”

“Move your foot away!”

Susan stepped on it even harder, “You seem nervous... Let me see.”

Gale immediately moved, lifting her foot with one hand and snatching it away with another.

However, it was useless.

“Those pills, aren’t they morning–after pills?” Susan said, “Gale, why do you have them?”

The moment she said that, Susan understood, “You. Last night, you and Mr. Wood...”

Taking advantage of Susan’s moment of surprise, Gale stuffed the pills right into her back and turned around to leave.

Susan caught up to her quickly, and grabbed her hand, “ No, Gale, you can’t leave.”

“What are you doing?!”

“Go see Mr. Wood with me!” Susan said, “You’re eating these pills behind his back!”

Gale denied it, “I don’t know what you’re saying.”

“Stop trying to deny it,” Susan

smiled, “If Mr. Wood doesn’t want you to have children, he would definitely have made precautions, or give you the pills to swallow right after. How could he let you buy those pills yourself?”

In a flash, Susan had a bright idea!

It was her chance to make a comeback!

She pulled at Gale firmly, “Come, let’s go see Mr. Wood!”

At Shawn’s office in the headquarters, Fiona said, “Mr. Wood, Ms. Fannin is about to barge in. I– I can’t stop her.”

“You can go out.”

“Yes.”

Fiona hurriedly slipped away, closing the door behind him.

Gale’s face was a little pale, and she did not say anything.

The truth was already exposed, so it was pointless for her to say anything.

Shawn leaned into his chair as his fingers tapped on the table gently.

He never expected that Gale would appear with Susan on that day.

The two of them should not have appeared that day.

“Mr. Wood, I found out Gale’s secret!” Susan said like she was reporting something, “I noticed a box of pills in her bag in front of the company just now!”

“Pills?”

“Yes, they’re still in her bag right now. She’s hiding it so desperately, not letting me take it!”

Gale answered, “Why would I need to give it to you?”

“Haha, you’re just feeling guilty!” Susan said, “Mr. Wood, come see for yourself what those pills are!”

Gale clutched her bag tightly.

The more she was afraid of something, the more it would happen.

If she had known, she would have just swallowed the pills dry without the water!

“Gale,” Shawn asked, “What are those pills? Take them out.”

She did not move.

She froze for over ten seconds before Shawn stood up walked over to her.

Gale took two steps back.

and

His long fingers grabbed onto her bag, reaching in to look around. He quickly found it.

Gale’s heart sank.

Shawn looked at the words on the box. The more he looked, the darker his expression got.

Susan fanned the flames by the side, “Mr. Wood, she

must be eating those pills behind your back. When I noticed it, she was in such a panic. She didn’t expect that I would bump into her!

“That was when I thought that you must not know about this. Gale just suffered a miscarriage, and she’s your wife, so she could only have done something like that with you. She clearly doesn’t want your child!

“I want to have your child so much. I want the change, but I can’t have it. Yet, Gale’s deliberately eating those pills.”

“She would rather give birth to a bastard child than yours ... Mr. Wood, it’s obvious who loves you and who doesn’t!”
