

Chapter 2511 Tang Xiao Xiao's Condition

The finely-dressed young man's nose flared in anger as though he was going to breathe out fire when he heard Duan Ling Tian's words. "What did you say?! You dare to call me a dog? I, Tang Zhen Bao, have never been humiliated in such a way in my entire life!"

The finely-dressed young man, Tang Zhen Bao, glared at Duan Ling Tian balefully before he said to the men standing behind him impatiently, "What are you waiting for? Kill him! Kill him now!"

As soon as Tang Zhen Bao was done with his tirade, the middle-aged man and the old man said unison, "Yes, Young Master."

The two men were about to attack when Tang Xiao Xiao who wore a dark expression on her face said coldly, "He's my man. If you dare attack him, I'll kill both of you. You should know I'm more than capable of that."

The two men's expressions changed when they heard Tang Xiao Xiao's words. At the same time, they quickly retreated and withdrew their energies. After all, they would die if she really decided to kill them. Not only was she the strongest person among the younger generation in Tang Sect, but she was also greatly favored by one of the Supreme Elders of Tang Sect. Even if she was no match for them, the Supreme Elder would definitely help her as long as she asked this of him. Although their master was a descendant of the other Supreme Elder, the Supreme Elder would not openly oppose another Supreme Elder for their sake,

When Tang Zhen Bao saw his two followers' hesitation due to Tang Xiao Xiao's threat, he threatened them as well, "If you don't do as I say, you'll definitely die!" These two men were his followers. When he saw them hesitating due to Tang Xiao Xiao's threat, he felt even more humiliated. How could he let this matter go?

The two men's expressions changed again. At this point, they had no choice but to attack. Regardless, they would have to offend one of the two parties. In that case, it was better for them to listen to their master. Perhaps, they might be able to stay alive this way.

The old man looked at Duan Ling Tian as he said to the middle-aged man, "Stop her. I'll kill the boy toy!" As soon as he finished speaking, he charged toward Duan Ling Tian.

The middle-aged man nodded before he said to Tang Xiao Xiao, "I'm sorry, Miss Xiao Xiao!" He moved next to her, intending to stop her, so his companion could kill Duan Ling Tian.

"Two Four Tribulation Bodiless Celestials?" Duan Ling Tian easily discovered the two men's cultivation bases when they made a move.

"Seeking death!" Tang Xiao Xiao said in anger when she saw Tang Zhen Bao's followers making a move despite her warning. She waved her hand and a dagger materialized in her hand. When she sent her energy into the dagger, the dagger began to emit a blindingly bright light. Its aura was terrifying!

Tang Xiao Xiao did not waste any time and struck immediately. Her target was not the middle-aged man, but the old man who was charging toward Duan Ling Tian.

Although the old man was a Four Tribulation Bodiless Celestial, he did not notice Tang Xiao Xiao since his attention was focused on Duan Ling Tian. After all, he did not know Tang Xiao Xiao who possessed a Celestial Supreme Treasure was now as strong as a Five Tribulation Bodiless Celestial. For this reason, her dagger was only a foot away from him when he finally noticed her!

“No!” The old man cried out. It was too late by the time he noticed Tang Xiao Xiao. Put aside the fact that Tang Xiao Xiao’s strength was currently comparable to a Five Tribulation Bodiless Celestial, even if her strength was still at the level of a Four Tribulation Bodiless Celestial, it would still be difficult for him to avoid the strike.

Tang Xiao Xiao’s dagger stabbed the old man’s glabella, and he died instantly. After killing the old man, her expression turned even colder. Suddenly, she threw the dagger out in a strange manner.

Whoosh!

The dagger flew toward the middle-aged man charging at Tang Xiao Xiao. He was thoroughly shocked when he saw her killing his companion in just a blink of an eye. He wondered how she had done it? At most, her strength was on par with theirs. How did she cast such a powerful strike? When realization dawned on him, he cried out, “Celestial Supreme Treasure!” He discovered how extraordinary the dagger was when she threw it at him. Similar to his companion, the dagger stabbed his glabella.

Tang Xiao Xiao killed two Four Tribulation Bodiless Celestials in just a blink of an eye!

‘Apart from being a hidden weapon technique, the Celestial Technique that Tang Xiao Xiao mastered doubled as a hand-to-hand combat technique?’ Duan Ling Tian could clearly see through the technique Tang Xiao Xiao used.

When the dagger returned to Tang Xiao Xiao’s hand, Tang Zhen Bao finally regained his senses. Greed was the prominent emotion in his eyes as he stared at her. “Y-you... You own a Celestial Supreme Treasure?!”

Tang Xiao Xiao did not deign to reply to Tang Zhen Bao, she only glanced at him coldly before saying to Duan Ling Tian, “Let’s go!”

“If it’s inconvenient for you to kill him, I can kill him for you.” Duan Ling Tian remained motionless. His eyes were trained on Tang Zhen Bao. Although he seemed calm, killing intent could be seen flashing in the depths of his eyes. Since Tang Zhen Bao had the audacity to order his men to kill him, Tang Zhen Bao would have to pay the price for it. Moreover, he thought it was inconvenient for Tang Xiao Xiao to kill Tang Zhen Bao.

Tang Xiao Xiao said, “I know you want him dead, and yes, he deserves to die. However, if you kill him, you can forget about my ancestor lending you the star chart. After all, Tang Zhen Bao belongs to the Tang Sect even if he’s not related to my ancestor. If you kill him, you’ll be an enemy of the sect.”

After listening to Tang Xiao Xiao's words, a slight frown appeared on Duan Ling Tian's face, but he nodded anyway. "Fine, I'll spare his life for your sake. However, he must still pay a price for his actions."

As soon as Duan Ling Tian finished speaking, he moved like a ghost and appeared before Tang Zhen Bao in just a blink of an eye. He moved at lightning speed as he broke Tang Zhen Bao's arms and legs. He also suppressed Tang Zhen Bao's cultivation base so Tang Zhen Bao could acutely feel the pain.

Unsurprisingly, Tang Zhen Bao began to shriek like a pig. His cultivation base was merely at the Ninth Form of the Saint Celestial Celestial Stage. He was as vulnerable as a defenseless baby in front of Duan Ling Tian! It was as easy as ABC for Duan Ling Tian to make him suffer.

"Let's go," Duan Ling Tian called out to Tang Xiao Xiao after he was done with Tang Zhen Bao, ignoring Tang Zhen Bao's murderous gaze.

Then, Duan Ling Tian and Tang Xiao Xiao made their way to see her ancestor to borrow his star chart. He could have killed Tang Zhen Bao and snatched the star chart from Tang Xiao Xiao's ancestor with his current strength, but he decided against it for Tang Xiao Xiao's sake. After all, she was a decent person and had helped him out in the Beyond Heaven Secret Zone!

"No matter who you are, you must die! I want you dead!" Tang Zhen Bao said through gritted teeth as he watched Duan Ling Tian and Tang Xiao Xiao's figures slowly disappear from his sight.

...

Meanwhile, after a bout of silence, Tang Xiao Xiao finally said, "I'm confident I'll be able to borrow the star chart for you from my ancestor if you promise me something."

"Speak." Duan Ling Tian said. He was slightly displeased by Tang Xiao Xiao's sudden demand. He felt the gap between them widened. He had just begun to treat her like a friend, and yet, she had a condition in return for doing him a favor.

Tang Xiao Xiao said bluntly, "After we get the star chart, take me away from this galaxy."

"That's it?" Duan Ling Tian assumed she would take advantage of this chance and demand something outrageous from him, such as another Celestial Supreme Treasure. As it turned out, he had thought the worst of her. In his opinion, her request was tantamount to nothing. Even if she could not help him obtain the star chart, he would not reject her if she requested him to bring her away from this galaxy.

Chapter 2512 The Thousand Opportunities Galaxy

"That's your condition?"

Tang Xiao Xiao nodded. She did not detect Duan Ling Tian's abnormal behavior earlier. She seemed to recall something at this moment and said apologetically, "Duan Ling Tian. I apologize for saying you're my man earlier in front of Tang Zhen Bao. I wanted to put on an act in front of him."

"It's alright." Duan Ling Tian shook his head. "I just find it strange that you need to put on an act in front of him since he's not your suitor."

"He's close to Yang Yu Ting, the Young Mansion Master of Heavenly Wave Mansion. I want him to pass the news to Yang Yu Ting so Yang Yu Ting will give up on me." Tang Xiao Xiao paused for a moment and

smiled bitterly. "I didn't expect sect leader would promise my hand in marriage to the Mansion Master of Heavenly Wave Mansion while I was in the Beyond Heaven Secret Zone!"

"So the act was all for naught?" Duan Ling Tian asked.

"Yes." Tang Xiao Xiao nodded as her eyes flashed with determination. "However, I'd rather die than marry Yang Yu Ting."

"You seem to despise Yang Yu Ting," Duan Ling Tian cocked an eyebrow and said, "The Heavenly Wave Mansion is as powerful as the Celestial Master Sect. Both of them have one Nine Tribulation Bodiless Celestial in their ranks. That's probably why your Tang Sect is so eager for a marriage alliance. With such a lofty status, why do you despise him?"

"Because Yang Yu Ting is a good-for-nothing scumbag!" Tang Xiao Xiao's disdain was apparent on her face as she spoke, "The things he did... It's revolting just to think about it, let alone say it out loud. That's enough. I don't want to talk about him anymore." After a few moments, she added, "We should go to my ancestor for the star chart and leave as soon as possible. Otherwise, sect leader and the others will definitely stop me if they learn of my plan! If I'm not mistaken, Tang Zhen Bao should've already gone to look for his ancestor." When she reached the end of her sentence, a sense of urgency could be heard in her voice.

"You want to leave just to avoid the marriage, right? You're also worried the sect leader and the Eight Tribulation Bodiless Celestial in the sect will force you to marry." It was not difficult for Duan Ling Tian to figure this out.

"Yes." Tang Xiao Xiao nodded.

"Actually, I can help you if you truly oppose the marriage. There's only one Nine Tribulation Bodiless Celestial in the Heavenly Wave Mansion anyway," Duan Ling Tian said flippantly. Although his strength was only on par with a Nine Tribulation Bodiless Celestial, he believed they would concede to him. After all, he was just a sectless cultivator in Yan Huang Realm, he had no attachments here. The Heavenly Wave Mansion would not want to offend someone like him. As the saying went, 'You have nothing to lose if you have nothing to begin with'. Even if he could not defeat the Nine Tribulation Bodiless Celestial from Heavenly Wave Mansion, he could easily deal with the people from the mansion.

"I know you're as strong as a Nine Tribulation Bodiless Celestial, and to be honest, I've thought about it." Tang Xiao Xiao sighed when she heard Duan Ling Tian's words. "However, the Nine Tribulation Bodiless Celestial in Heavenly Wave Mansion is not an ordinary Bodiless Celestial. He has mastered the Soul Congregation Embodiment! Without the Soul Congregation Embodiment, you'll be evenly matched. However, with his soul attack, how can you, as an Eminent Celestial, possibly bear the brunt of the attack?"

Regardless of how strong Duan Ling Tian was, he was still an Eminent Celestial. Even with his techniques and weapons that made him as strong as a Nine Tribulation Bodiless Celestial, his soul was that of an Eminent Celestial. There was no doubt that he would not be a match for the Nine Tribulation Bodiless Celestial in Heavenly Wave Mansion who had mastered the Soul Congregation Embodiment. Let alone a

Nine Tribulation Bodiless Celestial who had mastered the Soul Congregation Embodiment, he would have a hard time dealing with a Three Tribulation Bodiless Celestial's soul attack!

"A Nine Tribulation Bodiless Celestial who has mastered Soul Congregation Embodiment?" Duan Ling Tian was taken aback. Currently, the only people who were a threat to him in the mundane realms were Bodiless Celestials who had mastered the Soul Congregation Embodiment. Previously, when he was in the Beyond Heaven Secret Zone, he was forced to hide in a heaven-rank treasure vault when he was hunted by a Four Tribulation Bodiless Celestial who had mastered the Soul Congregation Embodiment. At that time, he was already as powerful as an Eight Tribulation Bodiless Celestial and could easily kill an ordinary Seven Tribulation Bodiless Celestial! However, just because the Four Tribulation Bodiless Celestial had mastered the Soul Congregation Embodiment, he still had to hide from the Four Tribulation Bodiless Celestial and wait for Chen Yi Ru to come to his rescue.

Duan Ling Tian asked grimly, "Are you sure the Heavenly Wave Mansion's Nine Tribulation Bodiless Celestial has mastered the Soul Congregation Embodiment?"

"Yes." Tang Xiao Xiao nodded.

"If that's the case, then, I really can't help you." Duan Ling Tian sighed before saying, "Let's go! We'll meet your ancestor."

The planet Tang Sect was in Planet Shu Tang, and the planet was located in the Thousand Opportunities Galaxy.

Tang Xiao Xiao's ancestor is one of the two Supreme Elders of Tang Sect so he lived in the inner court of Tang Sect.

As the strongest disciple among Tang Sect's younger generation, Tang Xiao Xiao's face was all the pass she needed to enter the inner court. Along with her, Duan Ling Tian also managed to enter without any obstacles.

When they arrived in a large courtyard, Duan Ling Tian finally saw Tang Xiao Xiao's ancestor. He was a kind-looking old man with keen eyes.

As soon as Tang Xiao Xiao entered the front yard, she called out, "Ancestor!" Then, she sat down at the stone table, directly opposite the old man who was sipping tea.

"I've never cared much about your manners when you're with me. Who knew you'd act this way as well when there are outsiders around. You're getting more and more unruly," the old man said as he glanced at Duan Ling Tian. The old man might sound like he was chiding Tang Xiao Xiao, but there was no hiding the affection and adoration in his eyes as he looked at her.

"Ancestor, he is my friend. He's not an outsider." Tang Xiao Xiao smiled. Then, she called out to Duan Ling Tian, "Duan Ling Tian, come sit. This is my ancestor. He's one of the two Supreme Elders of Tang Sect, Tang Zhong Yi!"

“Senior.” Duan Ling Tian nodded at Tang Zhong Yi before taking a seat next to Tang Xiao Xiao. He was calm, not a trace of nervousness could be seen at all. After all, the old man might be a powerful Eight Tribulation Bodiless Celestial, but the old man was no threat to him at all.

Tang Zhong Yi frowned upon seeing Duan Ling Tian’s nonchalant behavior. Upon closer inspection, one would be able to see displeasure in the depths of his eyes. Tang Xiao Xiao might be able to act flippantly in front of him, but that was because she was the most outstanding disciple in the sect, and he truly adored her. However, what right did this young man have to act in this manner with him? As soon as Duan Ling Tian appeared, he had already probed Duan Ling Tian’s cultivation base with his Divine Consciousness. Therefore, he knew Duan Ling Tian was just an Eminent Celestial.

For Tang Xiao Xiao’s sake, Tang Zhong Yi did not show his displeasure. He turned to Tang Xiao Xiao and asked, “Girl, how was your trip to the Beyond Heaven Secret Zone?”

“Ancestor, take a look.” Tang Xiao Xiao lifted her arm and placed the dagger she obtained in the Beyond Heaven Secret Zone on the stone table before looking at Tang Zhong Yi

“This is...” Tang Zhong Yi took the dagger, his eyes widening in shock. “A Celestial Supreme Treasure? You obtained a Celestial Supreme Treasure?! Good, good! Well done!” He could not hide his happiness at all as though he was even happier that she had obtained a Celestial Supreme Treasure compared to if he had obtained one himself.

“Girl, with this Celestial Supreme Treasure, your strength is equivalent to a Five Tribulation Bodiless Celestial now!” Tang Zhong Yi truly thought Tang Xiao Xiao was worthy of her title as the strongest person among the younger generation. She was truly the pride of the family and the sect. He could not help but lament inwardly, ‘If only Xiao Xiao is a boy.’

Suddenly, Tang Xiao Xiao’s expression turned solemn as she asked, “Ancestor, do you know about the engagement sect leader promised on my behalf?”

“I know.” Tang Zhong Yi nodded and sighed. “Girl, I have thought through it before you came back. If you’re truly reluctant to marry Yang Yu Ting, I’ll send you away. You can cultivate quietly elsewhere until you ascend to a Devata Realm.”

Upon hearing this, Tang Xiao Xiao trembled as tears began to pool in her eyes. “Ancestor!”

Tang Zhong Yi rose to his feet and said, “You’ve just arrived, the sect leader and the others probably haven’t heard about it. You should leave now. I think you’ll be able to avoid them for now.”

Suddenly, a hearty laughter rang in the air. After a while, a voice said, “Xiao Xiao, you managed to obtain a Celestial Supreme Treasure in the Beyond Heaven Secret Zone?”

“Sect leader?!” Tang Zhong Yi’s expression changed instantly.

Chapter 2513 Three Greatest Powerhouses of Tang Sect Are Gathered

Although Tang Zhong Yi was a Supreme Elder of Tang Sect and the strongest among the three Eight Tribulation Bodiless Celestials, if the two Eight Tribulation Bodiless Celestials were of the same opinion, he would not be able to veto their decision. The rules in Tang Sect had always been to follow the majority’s vote when it came to decision-making for the high-ranking officials. If he was a Nine

Tribulation Bodiless Celestial, he could have refused to let Tang Xiao Xiao marry into the Heavenly Wave Mansion since the other two would not be able to do anything. It was unfortunate that he was not a Nine Tribulation Bodiless Celestial and could not help Tang Xiao Xiao get out of the marriage alliance.

Tang Zhong Yi had devoted most of his life to Tang Sect. This was the first time he had a personal stake in the sect's matter and planned to act selfishly by sending Tang Xiao Xiao away. Who would have thought the Sect Leader of Tang Sect would arrive at this moment?

'Why did he come so quickly?' Tang Zhong Yi was baffled. He looked at Tang Xiao Xiao with a hint of distress. If the sect leader was not aware that she had returned, he could secretly send her away. However, now that sect leader was aware of her return, it would be impossible for him to do so. If it was just the sect leader alone, he might be able to defeat him. The problem was there was also the other Supreme Elder of Tang Sect.

'He must have come because I killed Tang Zhen Bao's men.' Tang Xiao Xiao frowned a little when she heard the sect leader's voice, but her expression remained largely unchanged. At the same time, she turned to Tang Zhong Yi and said through Voice Transmission, "Ancestor, I remembered you saying that you have a collection of star charts that encompasses the stellar province of the galaxy where Planet Yan Huang is situated... Can you borrow me that star chart?"

"Star chart?" Tang Zhong Yi was still feeling unresigned for not being able to send Tang Xiao Xiao away when he heard her words. He was taken aback for a moment. Finally, he replied through Voice Transmission, "What do you need the star chart for?"

"Ancestor, I'm very touched by your words earlier. However, since the sect leader has come, I'm afraid you won't be able to quietly send me away. If I have the star chart of the stellar province of the galaxy where Planet Yan Huang is located, I might have a chance of leaving Tang Sect," Tang Xiao Xiao said through Voice Transmission.

"You're able to leave Tang Sect if you have the star chart?" Tang Zhong Yi was baffled by Tang Xiao Xiao's words. After a while, he replied through Voice Transmission again, "How are you going to do that?"

"Ancestor, stop asking so many questions, you'll see soon enough. Can you please borrow me the star chart before the sect leader arrives?" Tang Xiao Xiao said urgently.

Although Tang Zhong Yi had many questions on his mind, he knew time was of the essence, and he could hear the urgency in Tang Xiao Xiao's voice so he no longer questioned her. He quickly gave her the star chart. Only after he handed over the star chart did he ask, "Are you still trying to be mysterious? Tell me about your plans quickly!"

Whoosh!

Just as Tang Xiao Xiao was about to reply, a gust of wind blew in the front yard before a figure appeared in front of the stone table.

The figure belonged to a middle-aged man who was dressed in a silver robe with golden trim. He had a medium build, a square face, and spiky hair. His aura was imposing, it was clear that he had long gotten used to being in a position of power.

'This must be Tang Chong, the Sect Leader of Tang Sect.' Before Duan Ling Tian arrived in Tang Sect's inner court, Tang Xiao Xiao had told him the sect leader's name. He also learned that Tang Chong was one of the three Eight Tribulation Bodiless Celestials in Tang Sect.

As soon as Tang Chong appeared, his eyes did not leave Tang Xiao Xiao.

"Lord Sect Leader." Tang Xiao Xiao rose to her feet immediately before bowing respectfully. "I did manage to obtain a Celestial Supreme Treasure."

"Congratulations," Tang Chong said before turning to look at Tang Zhong Yi who was standing at the side. "Elder Yi, your descendant is truly outstanding. Not only is she a genius, but even her luck is good."

"You are being too kind with your words, sect leader," Tang Zhong Yi said modestly.

At this moment, Tang Chong's eyes found Duan Ling Tian who was still seated at the stone table. His eyes instantly turned cold and piercing.

However, Duan Ling Tian remained unaffected. Not only was he indifferent to Tang Chong's cutting gaze, but he even moved to pour himself a cup of tea, completely ignoring Tang Chong.

Tang Chong continued staring at Duan Ling Tian pointedly as he asked in a deep voice, "Xiao Xiao... I heard from the others that this person is your man?"

The moment Tang Zhong Yi heard Tang Chong's words, his expression changed drastically. He quickly turned to look at Tang Xiao Xiao with an expression of shock and disbelief.

"Yes," Tang Xiao Xiao said. She did not expect Tang Chong would bring this up, but she had no choice but to answer in the affirmative.

Upon hearing Tang Xiao Xiao's admission, Tang Chong and Tang Zhong Yi's expressions changed dramatically.

"Xiao Xiao, don't forget that you're engaged!" Tang Chong looked at Tang Xiao Xiao and said in a deep voice, "We've already discussed this with the Heavenly Wave Mansion and agreed that the engagement ceremony would be held as soon as you return from the Beyond Heaven Secret Zone! How can you recklessly bring another man here?" His voice turned deeper and deeper the longer he spoke.

"Sect leader," Tang Xiao Xiao said softly, "I don't want to marry Yang Yu Ting... My heart already belongs to someone else." When she finished speaking, she turned to look at Duan Ling Tian.

An angry and deafening roar that seemed to come from all directions rang in the air as soon as Tang Xiao Xiao finished speaking.

"Sect leader, why are you wasting words with her? In my opinion, we should just kill the brat!" A tall and muscular old man appeared at this moment. He had a beard and messy white hair that looked like a

lion's mane. He glared at Duan Ling Tian with killing intent as soon as he appeared. He asked imperiously, "So you're the one who broke my descendant's arms and legs to humiliate him?"

'Tang Hong?' Since the old man had mentioned his descendant, it was not difficult for Duan Ling Tian to guess that the old man was Tang Hong, the other Supreme Elder of Tang Sect and Tang Zhen Bao's ancestor.

Similarly, Tang Xiao Xiao had revealed the name of the other Supreme Elder of Tang Sect to Duan Ling Tian earlier.

Duan Ling Tian continued to sip on his tea calmly as though he was truly engrossed in it. He seemed to completely disregard the presence of these Eight Tribulation Bodiless Celestials.

"Ancestor, that's him! Please avenge me!" Another voice rang in the air as Tang Zhen Bao appeared. It seemed like he had recovered from the injuries that Duan Ling Tian had inflicted on him earlier. At this moment, he seemed quite energetic as he pointed at Duan Ling Tian angrily. He stared at Duan Ling Tian as though he wished he could tear Duan Ling Tian into a million pieces.

"It seems like you didn't learn your lesson," Duan Ling Tian said before turning to Tang Xiao Xiao, saying, "Xiao Xiao, I've already spared him once. I won't do it again. Sorry." As soon as he finished speaking, Tang Hong and the others did not even have time to react before a sword appeared in his hands and flew out immediately.

Sword Wielding Art!

Duan Ling Tian had cast the technique so quickly that no one had time to react at all. However, before the sword pierced Tang Zhen Bao's glabella, the sword suddenly came to a halt a mere foot away from Tang Zhen Bao's forehead.

Swoosh!

A large palm that seemed as though it could cover the sky appeared and grabbed Duan Ling Tian's sword. It was none other than Tang Hong who had acted. His eyes lit up as soon as he discovered how extraordinary the sword was. "Celestial Supreme Treasure?"

"A Celestial Supreme Treasure?" Tang Hong's words instantly caught Tang Chong and Tang Zhong Yi's attention.

Chapter 2514 Is He Truly Your Man?

"boy, i didn't expect you to own a celestial supreme treasure!" tang hong's eyes seemed to be glued to the celestial sword before he averted his eyes that were filled with greed to duan ling tian. "in any case, it belongs to me now!" based on his words, it was clear that he intended to snatch the celestial sword away from duan ling tian.

duan ling tian sneered when he heard tang hong's words. "a mere eight tribulation bodiless celestial dares to say such words!" then, he mobilized his energy before it surged out of his body that formed whirlpools around him. in just a blink of an eye, he absorbed all the heaven and earth spirit energy in his surroundings.

"assist-type divine ability?"

“how powerful!”

the three eight tribulation bodiless celestials from tang sect were stunned by duan ling tian’s assist-type divine ability. they were further stunned when they saw another sword appearing in duan ling tian’s hands. the sword’s aura was piercing and terrifying.

“another celestial sword!”

“duan ling tian has two celestial supreme treasures? moreover, they’re both celestial swords?”

“who is he?!”

both tang chong, the sect leader of tang sect, and tang zhong yi, the supreme elder of tang sect, were shocked to the core by the second celestial supreme treasure. it should be noted that there were only three celestial supreme treasures in the entire tang sect. even if they counted the celestial supreme treasure that tang xiao xiao obtained, there were only four celestial supreme treasure in the sect. however, duan ling tian who was just an eminent celestial possessed two celestial supreme treasures. how could they not feel shocked?

“another celestial supreme treasure!” tang zhen bao exclaimed as he stared greedily at the celestial sword in duan ling tian’s hand.

on the contrary, tang hong, the other supreme elder of tang sect, who had coveted duan ling tian’s celestial supreme treasure earlier and announced he was going to snatch duan ling tian’s celestial supreme treasure away, suddenly turned wary. the greed in his eyes had disappeared at this moment. “w-who are you?!”

it was possible that an eminent celestial got lucky and obtained a celestial supreme treasure in the beyond heaven secret zone. however, the odds of obtaining two celestial supreme treasures in the beyond heaven secret zone due to luck was extremely slim. after all, there were no shortages of mighty powerhouses in the beyond heaven secret zone. there were many eight and nine tribulation bodiless celestials in the beyond heaven secret zone. for an eminent celestial to obtain two celestial supreme treasures in the beyond heaven secret zone, the eminent celestial had to have an extraordinary background. for this reason, tang hong began to feel wary.

“i’m the one who’s going to kill you today,” duan ling tian replied to tang hong’s question. as soon as he finished speaking, the celestial sword in his hand flew out and began to spin around him at an increasing speed. in just a blink of an eye, tens of thousands of sword rays appeared above his head.

a series of swords’ cries rang in the air as a sword formation formed above duan ling tian’s head. the void trembled as soon as it was formed. then, a mysterious energy surged out in all directions and shrouded everyone present on the scene.

whoosh!

tang hong’s expression changed immediately when he discovered the celestial sword he had snatched earlier had broken out of his grip. moreover, during the process, it had injured him as well. he could only watch helplessly as the celestial sword flew toward the sword formation above duan ling tian’s head and

became part of the formation. at this moment, upon seeing this scene and recalling duan ling tian's earlier words, an ominous feeling rose in his heart.

duan ling tian scoffed before the sword formation above his head flew toward tang hong at lightning speed.

swoosh! swoosh! swoosh!

when the sword formation flew out, it seemed like the sky was covered with swords, and it left terrifying-looking tears in its wake that looked like gigantic black pythons.

boom!

faced with the fierce sword formation, tang hong had no choice but to defend against it even though he knew he might not be able to successfully defend against it. his energy surged out quickly from his body.

at this moment, the sect leader and the other supreme elder of tang sect, tang chong and tang zhong yi, cried out in unison, "please show mercy!" their expressions had changed drastically at this moment.

boom! boom!

as they spoke, their energies surged from their bodies as well. however, the sword formation that covered the sky had already clashed with tang hong's celestial supreme treasure, a seven-inch-long throwing knife.

with his life on the line, tang hong unreservedly sent all his energy into the throwing knife. his strength was now comparable to the strength of an ordinary nine tribulation bodiless celestial who did not possess a celestial supreme treasure!

xiu! xiu! xiu!

swords' cries rang in the air again when duan ling tian's sword formation clashed with the seven-inch-long throwing knife. the throwing knife suddenly turned against tang hong, leaving him defenseless and vulnerable in just a second. before he could even react, duan ling tian's attack landed on him. at the moment he died, his eyes were still widened in shock and disbelief. perhaps, before he died, he finally realized how futile it was to point a celestial supreme treasure at duan ling tian.

"ancestor!" tang zhen bao cried out, his face had turned pale immediately. although he could not really see what had happened due to his weak cultivation base, he had clearly sensed his ancestor's aura vanishing. there was only one explanation for this; his ancestor must have died!

tang chong and tang zhong yi's expressions turned grave. they did not expect that duan ling tian would be so overwhelmingly strong. he had managed to kill tang hong with just a strike! it happened so fast that they did not even have time to help tang hong. however, they knew very well that even if they managed to help tang hong, they still would not be a match for duan ling tian.

"his attack is extremely effective against celestial supreme treasures! it managed to turn the celestial supreme treasure against its owner!"

“even if all three of us wielded celestial supreme treasures, it would be pointless for us to use them. however, if we don’t use them, we won’t be able to defend against his attack that’s comparable to the full force of an ordinary nine tribulation bodiless celestial!”

tang chong and tang zhong yi were well aware of this. for this reason, their eyes were filled with fear when they turned back to look at duan ling tian.

xiu! xiu! xiu! xiu! xiu!

after killing tang hong, the sword formation continued on its trajectory and headed toward tang zhen bao before killing him.

after that, duan ling tian retrieved his two celestial swords along with tang hong’s celestial supreme treasure. “xiao xiao!” he called out before tossing the throwing knife to her. it seems like he had no intention of keeping the celestial supreme treasure even though no one would have dared to say anything even if he had done so.

“this...” tang xiao xiao said hesitantly as she held the throwing knife in her hand. after all, the throwing knife rightfully belonged to duan ling tian who had killed its owner.

“give it to your sect leader... since you helped tang sect reclaim the celestial supreme treasure and tang hong is dead, there should no longer be a reason for you to marry the young mansion master of heavenly wave mansion. moreover, your ancestor wouldn’t allow it even if your sect leader tries to force you!” duan ling tian said through voice transmission.

tang xiao xiao finally understood duan ling tian’s intention after listening to his words. she smiled at him gratefully before she handed the throwing knife to tang chong, the sect leader of tang sect.

as tang chong held the throwing knife in his hand, various emotions swelled in his heart.

meanwhile, tang zhong yi who had regained his senses thought to himself with a sigh as his eyes darted back and forth between duan ling tian and tang xiao xiao, ‘i really didn’t expect xiao xiao would bring someone so powerful back to the sect.’ all his dissatisfaction with duan ling tian earlier had vanished. after all, duan ling tian had the capabilities to act so casually before them. in the end, he asked, “xiao xiao, is he really your man?”

“no.” at this time, tang xiao xiao no longer had any reason to lie since, to a certain extent, the crisis had been resolved.

“that’s too bad...” tang zhong yi mumbled to himself. an expression of disappointment could be seen on his face when he heard tang xiao xiao’s words.

Chapter 2515 Planet Sattel in the Coste Galaxy!

Tang Zhong Yi was not the only one who looked disappointed. Even the Sect Leader of Tang Sect, Tang Chong, seemed disappointed.

After both of them had witnessed Duan Ling Tian’s strength that rivaled a Nine Tribulation Bodiless Celestial, they felt emotional when they recalled Tang Xiao Xiao had said that he was her man. This meant the Tang Sect had a powerhouse whose strength was equivalent to a Nine Tribulation Bodiless

Celestial! In their opinion, it should not be of great consequences even if Duan Ling Tian opposed the Heavenly Wave Mansion. How could they not feel disappointed now that they learned of the truth?

"Ancestor, what are you saying?" Tang Xiao Xiao's face flushed a deep shade of crimson when she heard Tang Zhong Yi's disappointed sigh and words. She looked as shy as a young bride.

"Girl, since Supreme Elder Tang Hong has died, there's no need for you to leave," Tang Zhong Yi said. After all, now that Tang Hong was dead, he was more than capable of stopping the marriage between Tang Xiao Xiao and the Young Mansion Master of Heavenly Wave Mansion. Apart from that, he was certain the sect leader would no longer insist on marrying Tang Xiao Xiao off like he did before after witnessing Duan Ling Tian's strength.

"Ancestor, I think I'd like to travel and see the world..." Tang Xiao Xiao said with a smile, "Before ascending to a Devata Realm, I'd like to take my mind off things by traveling in the mundane realm."

"As you wish." Tang Zhong Yi nodded when he heard Tang Xiao Xiao's words. "However, you must visit me before you ascend..."

"I will." Tang Xiao Xiao nodded.

At this moment, Duan Ling Tian who was ready to leave called out to Tang Xiao Xiao, "Let's go." In the beginning, he thought Tang Xiao Xiao would no longer follow him since he had already killed Tang Hong. He did not expect that she would decide to follow him.

"Mhm." Tang Xiao Xiao grunted in acknowledgment and left with Duan Ling Tian.

"The star chart that Xiao Xiao requested from me... I have a feeling Duan Ling Tian is the one who wants it." Tang Zhong Yi somehow guessed the situation as he looked at the duo's retreating backs. He thought to himself, "Xiao Xiao must have some kind of agreement with Duan Ling Tian. She probably promised to help him obtain the star chart that plotted the stellar province of Planet Yan Huang's galaxy in exchange for his help to bring her away from Tang Sect!" He could guess this much after witnessing Duan Ling Tian's strength.

"Elder Yi," Tang Chong, the Sect Leader of Tang Sect, called out after he put the Celestial Supreme Treasure, the throwing knife, away. A bitter smile could be seen on his face as he said, "We should think of a way to deal with the Mansion Master of Heavenly Wave Mansion. Although I don't think the Heavenly Wave Mansion will sever their relationship with our sect, we are still trampling on their pride by breaking the engagement. Even if they don't declare war on us, I don't think they'll let the matter go." The bitter smile on his face grew more pronounced when he reached the end of his sentence.

Tang Zhong Yi understood the gravity of Tang Chong's words, and his expression darkened when he thought about the matter.

...

Meanwhile.

"We'll be going to this galaxy first. It's near the galaxy where Planet Yan Huang is situated."

Duan Ling Tian and Tang Xiao Xiao were near the Interstellar Transportation Formation.

Tang Xiao Xiao smoothed out the star chart she obtained from Tang Zhong Yi and pointed to one of the charted galaxies as she spoke to Duan Ling Tian. "It's also the only galaxy nearest to the galaxy where Planet Yan Huang is located... These few galaxies around Planet Yan Huang's galaxy are slightly more primitive. They do not have any Interstellar Transportation Formations. Our only choice is to traverse the stellar province with our physical bodies and enter Planet Yan Huang's galaxy before going to Planet Yan Huang," Tang Xiao Xiao continued.

"Mhm." Duan Ling Tian nodded. "Let's proceed according to what you've said... I'll follow you."

Shortly after, Duan Ling Tian followed Tang Xiao Xiao through dozens of transfer points before they arrived at their intended destination. They were now at the Interstellar Transportation Formation nearest to Planet Yan Huang's galaxy.

This Transportation Formation was situated in a galaxy called the Coste Galaxy.

"The Coste Galaxy is completely ruled by technology... This planet we're on is the mother planet, Planet Sattel."

They had just arrived on Planet Sattel in the Coste Galaxy.

Tang Xiao Xiao had launched into an explanation of their whereabouts before they even left the Interstellar Transportation Formation.

"Naturally, I learned all this from the annotations on the star chart... I've never even heard about this galaxy until today. After all, this galaxy is too far away from the Thousand Opportunities Galaxy where our Tang Sect is located," Tang Xiao Xiao said with a smile.

"Yan Huang Realm is too big! Our Saint Province Realm can't compare at all!" Duan Ling Tian exclaimed emotionally.

"That's only natural." Tang Xiao Xiao continued to say, "Your Saint Province Realm is but a small mundane realm... Our Yan Huang Realm is a large mundane realm. Well, when you ascend to a Devata Realm, you'll learn the meaning of big. Moreover, there are 81 Devata Realms in total. Each and every one of them is larger than our Yan Huang Realm! Naturally, a large mundane realm like Yan Huang Realm is the closest thing to a Devata Realm. There's also a boundless starry sky in the Devata Realms, with countless planets, galaxies, and stellar provinces.

"The Devata Realm..." Duan Ling Tian's interest in the Devata Realms was further piqued when he heard Tang Xiao Xiao's words. He felt like a country bumpkin who went to a metropolis when he arrived at Yan Huang Realm after leaving the Saint Province realm. According to Tang Xiao Xiao, the Devata Realms were even bigger than Yan Huang Realm. It was as though it was boundless.

"Let's go! We need to leave Planet Sattel and the Coste Galaxy, traverse the stellar province with our physical bodies, and make our way to Planet Yan Huang's galaxy." After Tang Xiao Xiao beckoned Duan Ling Tian to leave the Interstellar Transportation Formation, she took out the star chart again and spread it out. "According to the annotations on this star chart, after leaving the Coste Galaxy, we'll still have to

go through three galaxies before we arrive in Planet Yan Huang's galaxy. If you bring me along, with your speed, I think it'll take three months for us to arrive. This is based on the condition that you use your full speed throughout the journey."

Tang Xiao Xiao looked at Duan Ling Tian as she continued to say, "I came to this conclusion after I take into account of us traveling on using your Sword Formation and your speed that's comparable to a Nine Tribulation Bodiless Celestial. If the condition is not met, we'll take a longer time.

"It's so far away?!" Duan Ling Tian was taken aback by Tang Xiao Xiao's words. With his full speed, they would still need three months to arrive in Planet Yan Huang's galaxy? With this speed, they would have been able to complete a circle around the Upper and Lower Province in the Dao Martial Saint Land in just a few days. His mood took a dive as he thought to himself, "Compared to a small mundane realm, a large mundane realm is so big?"

Duan Ling Tian was about to bring Tang Xiao Xiao to their destination when an excited voice rang in the air. "So cool! This is so cool!"

The voice sounded as though it was close to them.

Duan Ling Tian focused his eyes and saw three young men wearing clothes that resembled a suit in his past life on earth. The three young men were standing on something that resembled skateboards and speeding toward both of them.

It was obvious the skateboards were not ordinary skateboards. Duan Ling Tian extended his Divine Consciousness into the three young men's skateboards, and he discovered the skateboards' internal structure. When he discovered the densely packed capacitances and wires within, he felt his scalp tingling. 'The technology here has progressed so much?'

Duan Ling Tian clearly remembered that the most sophisticated technological product in his past life on earth was nothing as complicated as these skateboards. It could not even compare to the simplest parts of these skateboards.

Beep! Beep! Beep!

Duan Ling Tian was still in awe of the three young men's skateboards when a red light shone from their skateboards and sounded a warning.

"They're standing on flight skateboards. They can be seen everywhere in a galaxy that's ruled by technology... The humans within the galaxies ruled by technology rely on them for flight." Tang Xiao Xiao seemed to have noticed Duan Ling Tian's shocked expression. She quickly explained. "You must have probed their flight skateboards with your Divine Consciousness, right? Otherwise, the skateboards' alarms won't go off."

"Mhm." Duan Ling Tian nodded, still in awe. Although he had known that technology and cultivation co-existed in large mundane realms, he was still amazed by the technology in large mundane realms. Although earth also had its own technology, it was primitive compared to this. He mused inwardly, 'If earth's technology were to progress normally, it would take 10,000 years for it to be this advanced!'

One of the young men standing on the skateboards glared at Duan Ling Tian as he said in a deep voice, "Boy, how dare you do as you wish in our Coste Galaxy when you're just a cultivator? You must be tired of living!"

Another young man said lecherously as he looked at Tang Xiao Xiao, "Let's kill the male cultivator and take the female cultivator with us... Come to think of it, it's been a while since I had some fun with a female cultivator."

Chapter 2516 Mecha?

"what makes you think you can?" the corners of duan ling tian's lips instinctively curved into a disdainful sneer as he coldly looked at the young man who was staring at tang xiao xiao lecherously. when he had extended his divine consciousness earlier, he had learned everything about the three young men. although the three young men had stronger physiques and greater strength compared to the average person, they did not have any power within. to him, they were no different from the average man.

tang xiao xiao laughed mockingly and did not take three young men seriously. "you want to capture me? we'll just have to see if you have the capability to do so!"

"it seems like these two cultivators are very confident..." the young man who had not spoken until now said when he saw the disdain and mockery on duan ling tian and tang xiao xiao's faces. then, his lips curved up into a cold and cruel smile. among the three young men, this young man seemed to have the strongest physique. he was three times stronger compared to the other two.

naturally, this did not make him any different from the other two young men in duan ling tian's eyes.

the young man who had spoken first chuckled. "boss nok, according to the old rules, you'll have to hold the line for us. if we can't handle them, you'll have to help us!" the 'boss nok' he had mentioned was the strongest young man out of three of them.

as soon as the young man had spoken, an illusory image appeared on his and the other young man's body. in just a blink of an eye, the illusory image came to life. then, the two young men who were originally around 180 centimeters in height grew to 3 meters. at this moment, both men's bodies became extremely angular and their skin had turned shiny like metal. it seemed like they were encased in some flexible and unusual metal. in fact, they looked like those 'mechas' duan ling tian had seen in science fiction movies in his past life on earth. those in the movies were fake, but these were real.

"mechas?" duan ling tian raised an eyebrow. he really did not expect the mechas he had seen in movies in his past life were real.

"isn't your saint province realm a small mundane realm? do you have mechas there as well?" tang xiao xiao was surprised when she heard duan ling tian's words. "i thought small mundane realms are different from large mundane realms. they don't have planets, galaxies or stellar provinces, right?"

"so these are really called mechas?" duan ling tian was stunned as well when he heard tang xiao xiao's words. he did not think these things before him were also similarly called mechas.

'is it possible that mechas from planets with advanced technology have visited earth before? if not, where did the word 'mecha' come from in the first place?' duan ling tian began to speculate inwardly. now that he discovered the existence of mechas in this galaxy that was governed by science and technology, he found it hard to believe that someone on earth had casually coined the term 'mecha'. the world is vast, but there could not possibly be a coincidence like this, right?

at this moment, a square lens embedded in the left eye of one of the mecha men suddenly blinked. then, he turned to the young man who had not transformed into a mecha and said, "boss nok, it looks like you won't need to do anything... these cultivators aren't even 100 years old."

"that's right. there's no need for us to worry about two cultivators under the age of 100!" the other mecha man chimed in agreement.

it was clear their transformation into mechas was all thanks to science...

"they can actually read our age?" duan ling tian turned to tang xiao xiao who stood next to him, looking mildly surprised.

"it's normal." tang xiao xiao did not seem too surprised. "the mechas they've transformed into are equipped with investigative probing functions... the lenses on their left eyes aren't just for show. their structures are far more complicated than the average man's imagination."

duan ling tian nodded. he had seen it with his divine consciousness.

"no more than 100 years old?" the young man called boss nok burst into laughter. when he looked at duan ling tian and tang xiao xiao again, his eyes were filled with disdain. he had a good understanding of cultivators. it was difficult for cultivators below the age of 100 to enter that saint celestial stage. although cultivators under the age of 100 who had broken through to the saint celestial stage or higher were not considered rare in the ten stellar provinces in the coste galaxy, there were not many of them. it was unlikely for the two cultivators to have broken through to the saint celestial stage. even if they did, they would probably only be at the first form of the saint celestial stage or third form of the saint celestial stage at most. after all, the number of cultivators in the ten stellar provinces in the coste galaxy was few and far in between. he did not think they would be so unfortunate to run into those rare cultivators below 100 years of age who were at the fourth form of the saint celestial stage or higher. currently, his two friends had strength comparable to cultivators at the third form of the saint celestial stage now that they had transformed into mechas.

duan ling tian and tang xiao xiao were, naturally, unaware of the thoughts running through nok's mind. otherwise, they would have laughed. fourth form of the saint celestial stage? let alone the fourth form of the saint celestial stage, their cultivation bases were much higher than cultivators at the ninth form of the saint celestial stage. they were eminent celestials. moreover, they were not ordinary eminent celestials. duan ling tian's full strength was comparable to a nine tribulation bodiless celestial! even tang xiao xiao who was much weaker than duan ling tian possessed strength comparable to a five tribulation bodiless celestial! if only they knew nok thought they had not even broken through to the saint celestial stage.

naturally, nok could not be blamed for his misconception. after all, the stellar provinces around this stellar province in the coste galaxy that were governed by cultivators were not unified. there were many

small unknown factions in yan huang realm that did not have much cultivation resources. strong forces like the tang sect or the celestial masters sect would not even take notice of the cultivation resources there, let alone take root there. in fact, even those forces weaker than the tang sect and the celestial masters sect would be loath to set up a base there. for this reason, it was only natural that these forces with cultivators who were under 100 years of age and managed to break through to the fourth form of the saint celestial stage were considered as rare geniuses. apart from that, the cultivators who traveled in the coste galaxy that was governed by science and technology were generally from the nearby stellar provinces since this was a very remote place. it only stood to reason that nok thought duan ling tian and tang xiao xiao were cultivators from one of the nearby stellar provinces.

if nok had known duan ling tian and tang xiao xiao were travelers from somewhere far away, the thousand opportunities galaxy, he would not have dared to provoke them. he looked at duan ling tian and tang xiao xiao contemptuously as he said with a smirk, "seeing as they're no older than 100 years old, i'm sure both of you are capable of crushing them..." after a pause, he said coldly, "kill the man, spare the girl!" his eyes flashed lecherously as well when he spoke.

"kill!!!" the two young men in mechas attacked as soon as nok finished speaking.

click! click! click!

click! click! click!

the two mechas looked extremely heavy, but they were rather agile in their movements.

one mecha extended its right arm, and a sharp blade made of fine steel appeared after it shook its arm. the blade gleamed with a cold light, looking as though it could cut through anything.

the other mecha extended its left arm, and a black hole appeared at the end of its arm. a white light flickered in the black hole before it grew brighter and brighter to the point where it looked as though it was about to explode.

whoosh!

the first mecha moved at lightning speed as it charged at duan ling tian with its blade pointed at his chest. the young man in the mecha could move at such fast speed because of the propulsive force pushing him ahead from behind. this propulsive force came from the three vacuum recoil installations behind. the vacuum recoil installations released vacuum blasts to push him forward speedily.

"this speed is on par with a cultivator at the fourth form of the saint celestial stage." although the mecha was moving at a snail's pace in duan ling tian's eyes, he still found the speed startling.

boom!

a loud explosion rang in the air. it came from the blaster at the end of the arm of the other mecha. a bright light filled the void immediately. 'a laser blast's attack that's comparable to the strength of a cultivator at the fourth form of the saint celestial stage?' duan ling tian was also taken aback by this discovery despite it posing no danger to him.

faced with the two mechas' attacks, duan ling tian and tang xiao xiao stood indifferently in their spots, clearly not taking the mechas seriously.

however, in the eyes of the two young men controlling the mechas, they thought that their speed was so fast that duan ling tian and tang xiao xiao could not catch their movements, and therefore, could not react in time.

Chapter 2517 The Garnier Family

'they can't even react in time? it's no surprise since they haven't even broken through to the saint celestial stage!'

"how boring!'

these were the thoughts running through the minds of the two young men in the mechas. inside the mechas, their eyes that were filled with killing intent flashed with disappointment at the seemingly lack of challenge their opponents presented. after all, even a cultivator at the first form of the saint celestial stage would put up a better fight compared to these two people.

nok, who was standing nearby and observing everything, sneered disdainfully. "how weak..." however, his expression froze in the next moment as he exclaimed, "how's this possible?!"

soon after, two alarmed cries rang in the air. they were from the two young men who were controlling the mechas.

at this moment, one of the mechas was right in front of duan ling tian, the sharp blade made of fine steel was aimed at duan ling tian's chest. it seemed like the blade was capable of easily cutting through a thick steel plate! however, the sharp blade stayed one foot away from duan ling tian's chest. it could not draw any closer. there seemed to be something shrouding duan ling tian.

! boom!

a series of explosions rang in the air as the other mecha continuously shot his laser blaster at duan ling tian. similarly, they did not affect duan ling tian at all and stopped a foot away from him.

"how's this possible?"

"with just that little bit of strength, you think you can kill me? i think you've grossly underestimated me." duan ling tian grinned when he heard the alarmed cries from the two young men in the mechas. his purple robes fluttered in the air. although it was just a simple movement, it looked extremely terrifying. after all, even when the two young men launched their attacks that were as powerful as cultivators at the fourth form of the saint celestial stage, they did not even manage to cause his robes to flutter. and yet, his robes were suddenly fluttering at this moment.

"retreat!"

"run!"

the two young men controlling the mechas exchanged a look before they activated the vacuum recoil in front of them, trying to use the vacuum blasts to retreat and quickly escape the battlefield.

however, could they escape?

“trying to run?” duan ling tian smiled coldly. he moved slightly and appeared before the mecha with a sharp blade. with just a punch, he pierced through the mecha. with just a shake of his arm, he destroyed the mecha. his hand that was still in the broken mecha moved around for a moment before he pulled the young man out. after that, he flew away at a leisurely pace.

however, in the eyes of the three young men, duan ling tian’s speed was anything but leisurely. he was moving at an extremely terrifying speed. to think duan ling tian did not even cast any of his techniques and was just moving. the three young men thought duan ling tian’s speed was not inferior to the speed of a cultivator at the sixth form of the saint celestial stage.

whoosh!

the other mecha’s front vacuum recoil was activated, initiating a sweeping vacuum blast and propelling him back at the same time.

unfortunately, duan ling tian who seemed like a demon at this moment appeared next to the mecha.

thump!

duan ling tian’s right arm moved forward like a divine dragon, replicating what had happened to the mecha earlier. similarly, he pulled another young man out of the broken mecha. he carried one in each arm like an eagle that had caught two chicks. “you dare to dream of killing me with your little bit of strength?” he sneered before he turned to look at nok who was standing nearby. then, in just a blink of an eye, he snapped both of the young men’s necks, instantly killing them. both of the young men were only slightly stronger than the average men, snapping their necks was enough to kill them.

“are you tong jin qiang or wu bo feng?” nok asked with a grim expression when he saw duan ling tian killing his two companions.

tong jin qiang, wu bo feng. these two men were illustrious figures in the stellar provinces in the coste galaxy. they were famous not because of their immense strength, but their innate talent. they were the rare cultivators in the stellar provinces in the coste galaxy who managed to break through to the fifth and sixth form of the saint celestial stage even though they were less than 100 years old. for this reason, nok had mistakenly believed duan ling tian was one of the two.

“tong jin qiang? wu bo feng? sorry, i’ve never heard of them,” duan ling tian replied indifferently.

“y-you... then, who are you?” nok’s expression changed drastically as he asked in a grave manner, “you... you can’t possibly be a cultivator from coste galaxy’s peripheral galaxy?”

“nope.” duan ling tian looked at nok meaningfully as he said, “i seem to recall you asking your two companions to kill me just a while ago...” a spine-chilling killing intent rose from the depths of his eyes when he spoke.

“sir, i might have asked them to kill you. however, you should’ve already vented your frustration by killing them so why don’t we leave the matter at this?” nok, naturally, had no intention of opposing

duan ling tian after witnessing duan ling tian's strength. he was not even certain if he could kill duan ling tian. even if he could, he would still be reluctant to kill duan ling tian now. after all, it was entirely possible that duan ling tian had an extraordinary background, based on his strength. it would be fine if the force behind duan ling tian was not as strong as the force behind him. however, it would be bad if the force behind duan ling tian was stronger than his. at that time, he would cause the annihilation of his family. all sorts of similar examples have been made in yan huang realm.

"my apologies." duan ling tian shook his head at nok's request, "put aside the fact that i've never been one to show mercy to those who try to kill me, i'm afraid my friend won't spare your life either. sometimes, a man has to pay for the words he has spoken."

duan ling tian might have spoken calmly, but it caused the expression on nok's face to change drastically.

"don't waste your breath on him," tang xiao xiao who was hovering in the air said after duan ling tian finished speaking. similarly, she did not cast any techniques at all. before nok could even react, she had already appeared in front of him.

nok's expression hardened as he said coldly, "you can't kill me! i'm from the garnier family. i..."

before nok finished speaking, tang xiao xiao moved her hand at lightning speed.

a rivet was embedded on nok's glabella. the rivet was the most simple and ordinary weapon in tang xiao xiao's arsenal. she had thousands upon thousands of them stored in her spatial ring. she did not bother to retrieve the rivet after killing nok since it was not valuable at all and she had many of them. her expression was deathly calm as she watched nok's body fall from the air. "garnier family? never heard of them!" then, she turned to duan ling tian and said with a smile, "let's go."

"mm." duan ling tian nodded.

the pair left as though nothing had happened. duan ling tian did not rush tang xiao xiao either. both of them casually rose into the sky and left the planet behind, heading toward the vast starry sky.

"are all the inhabitants in galaxies that are governed by science and technology non-cultivators?" duan ling tian did not rush tang xiao xiao because of a few questions that had appeared in his mind. he looked to her for answers. after all, science and technology did not exist in saint province realm. although science and technology existed on earth, their technology was like a baby who had just begun to learn how to walk compared to the technology he had just witnessed.

"didn't you scan their bodies when you used your divine consciousness to probe them?" tang xiao xiao replied to duan ling tian's question with a question. "their body structures are different from ours... while they have meridians in their bodies like us, but they're disjointed. that's why they can't cultivate. however, cultivators who have reached a certain level can perform meridian cleansing and allow them to cultivate. since there are so many of these people, it would be unrealistic to perform meridian cleansing on every one of them. under these circumstances, these people carved another path for themselves and turned to science and technology... you shouldn't underestimate their scientific

knowledge. the two mechas we encountered are nothing compared to yan huang realm's most advanced technology."

duan ling tian listened to tang xiao xiao as they left the coste galaxy's home planet, planet sattel, and entered the boundless starry sky, traversing into outer space.

...

meanwhile, in planet sattel. in a large high-tech modern city.

rapid breathing could be heard from the top floor of a large building that resembled optimus prime.

a projection appeared in the biggest office on the top floor of the high-rise building.

if duan ling tian were here, he would have recognized the man and woman in the projection. it was none other than him and tang xiao xiao. a corpse fell from the sky in front of tang xiao xiao at this moment.

Chapter 2518 The Disaster-Level Battleship

the garnier family was considered first-class and the very best in the coste galaxy. based on a comprehensive survey of the coste galaxy, only two other families were comparable to them.

currently, at the top floor of the skyscraper science and technology business' high-rise building, a subsidiary under the garnier family, the patriarch of the garnier family, dahl, angrily watched the scene of a young man being killed. the young man, nok, was his only son! although he had more than ten children in this lifetime, he only had one son who could legitimately inherit the family fortune. all his other children were daughters. now, his only son had died, murdered by a female cultivator.

...

beep! beep! beep! beep! beep!

the ear-piercing noise of an alarm rang from every watch that belonged to important members of the garnier family.

"what happened?"

"the patriarch has summoned us. something must have happened!"

"come!"

"let's go!"

it did not take long before all the important figures and high-ranking officials in the garnier family were gathered in the garnier family's main house. the main house was a modern and high-tech manor.

...

it should be noted that the sudden large gathering of the garnier family had shocked their family's two old rivals. for this reason, the two families whose strength was comparable to the garnier family called for an emergency meeting as well.

"something happened in the garnier family... did you manage to find out what it is?"

“is it possible that the garnier family is pretending to use some ‘incident’ as an excuse to fool us so they can act against us?”

“that’s highly probable. after all, this isn’t the first time the garnier family had released fake news.”

the two families felt this was a cause for concern, therefore, they were all compelled to call for a meeting to discuss the matter.

...

while the other two elite families were fretting over the garnier family’s gathering of important figures and high-ranking officials, a meeting was being held in the garnier family’s large, modern, and high-tech meeting room.

everyone’s attention was focused on the image projected at the end of the room.

“it’s nok!” someone exclaimed when three men appeared.

all the members of the garnier family were familiar with one of the young men. after all, he was the only son of the patriarch of the garnier family. he was the young master of the garnier family.

as the scene continued playing, their expressions turned unsightly. they watched as a male cultivator destroyed the mechas that belonged to their young master’s two companions before killing them. then, a female cultivator killed their young master.

“an insult! this is simply an insult!”

“how many years has it been? the great garnier family has never endured such an insult in years!”

“throughout history, no man or force has ever met a good end after insulting the garnier family... these people won’t be an exception!”

the people in the meeting room were in an uproar. the members and high-ranking officials of the garnier family were enraged. all of them seemed to be filled with the urge to kill these two cultivators and to dismember their corpses. however, in truth, not many of them cared about nok’s death. some of them even celebrated inwardly since nok’s death meant there was a chance that their own direct descendants would stand a chance in becoming the garnier family’s patriarch in the future. nevertheless, since nok’s death was a humiliation to the garnier family, it still angered them to a certain extent.

“silence!” dahl, the patriarch of the garnier family, bellowed, effectively silencing everyone in the meeting room. once everyone fell silent, he said, “i’ve summoned all of you so we can seek revenge from these two cultivators. they killed my son and trampled on the pride and dignity of our garnier family. only their blood can wash away this humiliation!”

dahl continued to say, “based on the scenes in the projector, we can tell that their cultivation bases are at the fifth form of the saint celestial stage at least. it’s possible that they’re even stronger than that! i’ve summoned all of you here to discuss the weapons we have at our disposal to kill them.”

“i suggest using the disaster-level battleship!” an old man with a white beard promptly suggested in a grim voice.

“the disaster-level battleship?!” many people gasped upon hearing the white-bearded old man’s words.

“grand elder, is this necessary? although these two cultivators are powerful, based on the strength they showed, it seems like they’re only at the fifth form of the saint celestial stage. it’s highly unlikely that they’re even at the seventh form of the saint celestial stage. don’t you think it’s an overkill for us to use our family’s strongest battleship just for two of them?” a middle-aged man said to the white-bearded old man.

many of them nodded in agreement.

in their opinion, their family’s disaster-level battleship was a weapon that could even kill bodiless celestials. it truly felt like an overkill to use it to kill two cultivators who probably had not even broken through to the seventh form of the saint celestial stage.

even dahl, the patriarch of the garnier family, was taken aback by the white-bearded old man’s words. “there’s no need for that, right, grand elder?”

“it’s necessary!” the white-bearded old man said grimly, “no one has dared to challenge the garnier family like this in many years... this time, someone has directly insulted us so we must retaliate in such a manner! moreover, this show of power will show everyone that the garnier family is not to be trifled with even though we have kept a low profile over the years!” based on his words, it was clear that apart from killing the two cultivators, he intended to use the disaster-level battleship to show the garnier family’s might.

“i agree with the grand elder’s suggestion!” it did not take long before someone agreed with the white-bearded old man’s suggestion.

“indeed! our garnier family has stayed silent for so many years. it’s time for us to show people our might! i agree!”

“motion seconded!”

“motion seconded!”

soon after, everyone in the meeting room agreed with the white-bearded old man’s suggestion.

“since everyone has agreed...”

the crowd listened with rapt attention.

dahl said, “the garnier family will launch the disaster-level battleship to kill those two cultivators!” he continued giving out orders, “listen to me, heads of divisions. satellite intelligence division, locate the two cultivators immediately. public relations and media division, send out an announcement across the coste galaxy; let everyone know the garnier family will be launching the disaster-level battleship to avenge a member of our family and to wash off this insult against our family! another thing, prepare to project the scene when we kill the two cultivators. make sure that it’s aired everywhere in the coste

galaxy. let everyone in the coste galaxy know that those who insult the garnier family will not have a happy ending.”

after dahl issued his orders, the garner family’s heads of the satellite intelligence division and the public relations and media division were the first to leave to make necessary arrangements.

“grand elder!” dahl turned to look at the white-bearded old man and said, “both of us will go to the war division to authorize the launch of the disaster-level battleship to avenge my son and show everyone the might of the garnier family!” his eyes were red at this moment. after all, his one and only son had been killed.

...

following the garnier family’s chain of actions, not only the inhabitants from the coste galaxy’s home planet, planet sattle, were in shock, but all the inhabitants from other planets were shocked as well.

“someone killed the young master of the garnier family?”

“he was killed by two cultivators? are they seeking death? this is our territory after all!”

“i heard that the garnier family plans to launch their disaster-level battleship just to kill those two cultivators!”

“the disaster-level battleship? heavens! that’s the most powerful weapon in the entire coste galaxy. only the other two families have disaster-level battleships. the reason the three elite families can stand at the peak of the coste galaxy is due to their disaster-level battleships!”

“they’re actually launching the disaster-level battleship... are the two cultivators bodiless celestials?”

similar discussions could be heard on every planet in the coste galaxy. based on the garnier family’s actions, it was clear that the family was thoroughly enraged.

...

planet sattle.

the two elite families in the coste galaxy had also received news that the garnier family’s actions had nothing to do with them.

someone laughed. “the young master of the garnier family was killed by two cultivators? this is great news! that old fart, dahl, must be spitting with rage.”

“it seems like the two cultivators are extremely powerful. otherwise, the garnier family won’t launch the disaster-level battleship!”

“in fifteen minutes, the garnier family will broadcast the execution of the two cultivators! how exciting! i haven’t seen a disaster-level battleship in years!”

“the disaster-level battleship... the three elite families have relied on it to maintain our standing in this galaxy. it’s the reason why we’re on top of the food chain in the coste galaxy!”

fifteen minutes passed by as the two elite families in coste galaxy were fervently discussing this matter.

...

it did not take long before a projection appeared in every corner of every planet in the Coste Galaxy.

“Is that them?”

The figures of a man and a woman appeared before the eyes of every inhabitant in the Coste Galaxy.

Chapter 2519 A Master Stroke

Projections were aired in every corner of the Coste Galaxy. All the inhabitants would be able to watch it. Everyone in the Coste Galaxy had dropped everything they were doing to watch the projections. A man and a woman appeared before their eyes. The man was dressed in purple robes and his hair was tied with a headband. He had sharp and defined brows and looked extremely handsome. Many women sighed when they saw him.

“My, how handsome!”

“Are there really such handsome men among the cultivators?”

“I’m willing to have my life shortened if I can have such a handsome boyfriend.”

“He’s too handsome!”

Young women and teenage girls alike in the Coste Galaxy were squealing like fangirls.

The young man was none other than Duan Ling Tian. His appearance was outstanding and his strength was apparent, giving him an extraordinary aura. It was only natural that he had drawn the attention of the female population in the Coste Galaxy.

Similarly, Tang Xiao Xiao captured the male population’s interest as well when she appeared in the projections everywhere. Despite being dressed in loose black robes, her pretty figure was not concealed at all. The surroundings seemed to dim in comparison when she appeared.

“What a gorgeous girl!”

“A beauty! Truly a beauty!”

Many inhabitants in the Coste Galaxy could not help but marvel over Duan Ling Tian and Tang Xiao Xiao.

“An ideal couple... A truly ideal couple!”

There were also many women who were jealous of Tang Xiao Xiao. They wished they were the ones standing next to Duan Ling Tian. Similarly, the men were also jealous of Duan Ling Tian for being able to stand next to Tang Xiao Xiao.

“Such a handsome man and such a beautiful woman! It’s a pity that they’re going to die soon...”

“That’s right. Apparently, the Garnier family has launched the Disaster-level Battleship just to kill them!”

“The Disaster-level Battleship? Are they that powerful? To think the Garnier family decided to launch the Disaster-level Battleship because of them.”

...

The illustrious figures in the Garnier family were the only ones who knew the real reason they had decided to launch the Disaster-level Battleship. They did not launch the Disaster-level Battleship because Duan Ling Tian and Tang Xiao Xiao were powerful, it was because they wanted to display their strength for all to see!

The Garnier family had been quiet for far too long. Since they were presented with a rare chance to display their might to the inhabitants of the Coste Galaxy, they definitely would not let this chance slip by.

...

Many members from the two elite families in the Coste Galaxy were confused by the Garnier family's decision to launch the Disaster-level Battleship as well.

"I'm slightly confused. Is there a need for the Garnier family to launch the Disaster-level Battleship for these two cultivators?"

"Don't forget, powerful cultivators are able to retain their youthful appearances. They might look young, but for all you know, they're thousands of years old."

"That's right. After all, we can also maintain our youthful appearances with genetic medicine, let alone cultivators..."

"They must be extremely powerful to push the Garnier family into launching the Disaster-level Battleship!"

Most members from the two elite families felt that there were more than meets the eyes with Duan Ling Tian and Tang Xiao Xiao. Otherwise, the Garnier family would not launch the Disaster-level Battleship.

...

Meanwhile.

"Mm?" Duan Ling Tian, who was gliding leisurely in outer space after leaving Planet Sattel, the home planet of the Coste Galaxy, with Tang Xiao Xiao, suddenly sensed something.

"What is it?" Tang Xiao Xiao asked in confusion, coming to a halt as well.

"I feel as though we're being watched," Duan Ling Tian replied. His intuition told him they were being watched, and it made him feel uncomfortable. Initially, he had thought he was thinking too much. However, as time passed, he was certain that they were being watched.

"You feel it too?" Tang Xiao Xiao was taken aback. Similarly, she also felt as though they were being watched. However, when she saw Duan Ling Tian did not show any reaction, she had dismissed her thoughts. Who knew he had the same feeling as well?

“Something’s coming!” Duan Ling Tian said, he had clearly sensed something. He narrowed his eyes as he looked in the eastern direction. It did not take long before he swept his gaze in every direction. “It seems like... we’re surrounded.”

“What is it?!” Tang Xiao Xiao was about to use her Divine Consciousness to investigate when she saw gigantic birds flying toward them from all directions. As they drew closer, she discovered they were not birds at all. She exclaimed in shock, “Battleships?”

Duan Ling Tian regained his senses when he heard Tang Xiao Xiao’s words. As it turned out, the eighteen ‘Big Macs’ floating in the air that had surrounded him and Tang Xiao Xiao were the battleships that were shown in science fiction movies he had seen in his past life. However, the battleships in front of him were completely different from the ones he had seen in the movies.

These battleships looked like gigantic birds. Their size was as big as Rocs, the mythical birds from ancient legends in his past life. Their wings seemed to stretch endlessly, casting a shadow on a vast area.

“It seems like that Nok from the Garnier family isn’t as simple as he had appeared to be. If I’m not mistaken, these battleships are called Disaster-level Battleships,” Tang Xiao Xiao said.

“Disaster-level Battleships?” Duan Ling Tian was taken aback. “Disaster-level? There are different levels of battleships?”

“Mm,” Tang Xiao Xiao nodded as she patiently explained, “The Disaster-level Battleships’ attacks are equivalent to a natural disaster. Its destructive force is comparable to a flash flood, a volcanic eruption, a raging storm or an earthquake. It has enough power to kill Bodiless Celestials.”

Duan Ling Tian was shocked by Tang Xiao Xiao’s explanation. These battleships were capable of killing Bodiless Celestial? The technology of these battleships was so advanced? After all, even Bodiless Celestials who had not undergone their first Bodiless Celestial Tribulation had power comparable to cultivators at the Eighth Form of the Saint Celestial Stage.

One Tribulation Bodiless Celestials had strength comparable to a cultivator at the Ninth Form of the Saint Celestial Stage while Two Tribulation Bodiless Celestials had strength comparable to an Eminent Celestial. Three Tribulation Bodiless Celestials had powers that surpassed Eminent Celestials, let alone those Bodiless Celestials who had successfully passed more than three tribulations!

It was not difficult for Duan Ling Tian to figure out that these Disaster-level Battleships were capable of killing Three Tribulation Bodiless Celestials or those who were stronger.

“Eighteen Disaster-level Battleships...” Duan Ling Tian surveyed his surroundings and counted the battleships. He raised an eyebrow as he said, “This is not a small scale declaration of war.”

Both of them were surrounded in outer space by the eighteen Disaster-level Battleships. They looked like large moving forts.

Let alone Duan Ling Tian, even the inhabitants of the Coste Galaxy were shocked at the sight of the Disaster-level Battleships! A single Disaster-level Battleship was ten million times bigger than a human.

Duan Ling Tian and Tang Xiao Xiao looked like ants in front of the Disaster-level Battleships. With eighteen battleships surrounding them, they were left with no room to escape.

“Heavens! Eighteen disaster-level battleships! Just who are these cultivators?!” Many people in the Coste Galaxy cried out in alarm. The terrifying scene caused them to gulp.

“These are Disaster-level Battleships? All of them are Disaster-level Battleships?”

“Although the Garnier family had announced that they’re going to launch the Disaster-level Battleship to seek revenge, I had assumed they were only going to launch one Disaster-level Battleship. Who knew they would launch eighteen Disaster-level Battleships?”

“Previously, I heard that the Garnier family owns thirteen Disaster-level Battleships. It seems like they had more in secret storage. Based on what we can see, it seems like they have eighteen at least.”

“I’m more curious about the identities of these two cultivators. Who on earth are they? Just how powerful are they? The Garnier family actually launched eighteen Disaster-level Battleships because of them!”

Many inhabitants of the Coste Galaxy felt chills running up their spines when they watched the projection.

The purple-clad young man and the black-clad young woman were completely surrounded in outer space by the eighteen gargantuan Disaster-level Battleships. Moreover, all kinds of weapons from the battleships were silently aimed at them at this moment.

Chapter 2520 Is He Even Human?

The weapons from the eighteen Disaster-level Battleships were aimed at Duan Ling Tian and Tang Xiao Xiao as an emotionless voice rang in outer space. “These Disaster-level Battleships are under the command of the Garnier family. The great patriarch of the Garnier family, Dahl, is going to speak to you now!” “As expected, it’s the Garnier family!” Duan Ling Tian and Tang Xiao Xiao were not surprised when they heard the thunderous voice. They had long suspected the eighteen Disaster-level Battleships were sent by the Garnier family. The voice only confirmed their suspicion.

“I’m the patriarch of the Garnier family, Dahl!”

As soon as this voice had spoken, Duan Ling Tian and Tang Xiao Xiao saw the projection of a middle-aged man in front of the Disaster-level Battleship that had made an announcement earlier.

The middle-aged man was dressed in modern clothes. Based on the background, it was easy to tell that he was in one of the battleships. At this moment, he was glaring at Duan Ling Tian and Tang Xiao Xiao.

Dahl, the patriarch of the Garnier family, continued to say, “It has been a long time since someone had last challenged the Garnier family... You killed my son, the Young Master of Garnier family. This is as good as trampling on the prestige of the Garnier family and challenging our family... Today, the Garnier family will make an example out of both of you and execute both of you!” His expression was one of fury when he spoke.

...

The inhabitants of the Coste Galaxy broke into an uproar when they heard Dahl's proclamation.

"It's the patriarch of the Garnier family, Dahl!"

"Based on Dahl's words, it seems like he's not just avenging his son by killing these two cultivators. It's also to wash away the insult!"

"The Garnier family has been silent for many years. Look at them baring their teeth now! There's no doubt the Garnier family is using this as an opportunity to warn us that although they have been lying low, it doesn't mean that they're weak!"

"The Garnier family owns eighteen Disaster-level Battleships at least... I wonder if the other two elite families are a match for the Garnier family individually?"

Those who were intelligent easily guessed the Garnier family's intention. The Garnier family was killing a chicken to warn the monkeys! Avenging the Young Master of the Garnier family was just an excuse.

...

Meanwhile, the two elite families in the Coste Galaxy could not remain calm as well after witnessing the Garnier family's show of power.

"I really didn't expect that the Garnier family owns eighteen Disaster-level Battleships!"

"Our family only has fifteen Disaster-level Battleships! The Garnier family really hid their powers well!"

"Fortunately, we didn't get into a conflict with the Garnier family... If we fight, we won't be a match for them since our family only has sixteen Disaster-level Battleships."

...

The inhabitants of Coste Galaxy continued discussing among themselves as they watched the two ant-like figures that were surrounded by the eighteen Disaster-level Battleships. Many shook their heads regretfully while some delighted in the two figures' misfortune.

"These two cultivators are certainly unlucky."

"That's right. I'm afraid the Garnier family is only looking for an excuse to display their might. Killing the Young Master of the Garnier family only gave the family a reason to flaunt their strength!"

"How pitiful!"

To the inhabitants of the Coste Galaxy, it had been a long time since anything as exciting as this had happened. Although there was no suspense in this battle, they were extremely excited by the sight of eighteen Disaster-level Battleships.

...

At this moment, Dahl's voice rang out again. "Hear my orders, the Disaster-level Battleships of the Garnier family. Open..."

Everyone's eyes were trained on Dahl as he was about to order the eighteen Disaster-level Battleships to open fire on Duan Ling Tian and Tang Xiao Xiao. Their hearts were filled with suspense and they held their breaths as they watched...

However, before Dahl, the patriarch of the Garnier family, was able to finish his sentence, a cold scoff interrupted him.

The cold scoff seemed to contain some magic since it sent shockwaves through the bodies of every inhabitant in the Coste Galaxy who were watching the projection. Even Dahl who was in one of the Disaster-level Battleships was not an exception. It felt as though his eardrums were going to explode when he heard that scoff. It caused him so much pain that he stopped speaking momentarily.

Naturally, the person who had scoffed was Duan Ling Tian.

Swoosh!

Like a falling meteorite, he shot toward the Disaster-level Battleship that projected Dahl's image at top speed.

Every projection in the Coste Galaxy was specially managed. Therefore, no matter how quickly Duan Ling Tian moved, the viewers could still catch a glimpse of Duan Ling Tian's movements.

"So fast!"

"This cultivator must be a Bodiless Celestial, right?"

Many inhabitants from the Coste Galaxy were scared witless and dumbfounded when they saw this. Their expressions changed as though they had seen a ghost in the next instant as they watched the projections.

Bang!

Duan Ling Tian charged at one of the Disaster-level Battleships and tore a big hole on the battleship. A loud booming noise resounded in the ears of every inhabitant of the Coste Galaxy when he tore a hole in the battleship.

"Heavens! What did I just witness?!"

"He damaged a Disaster-level Battleship just like that?"

"Not even a Three Tribulation Bodiless Celestial could have easily broken through to the defenses of a Disaster-level Battleship, right?"

"Is it possible that the cultivator is stronger than a Three Tribulation Bodiless Celestial?"

The inhabitants of the Coste Galaxy were further shocked as they continued to watch the projections.

"This, this..."

"That's too outrageous!"

“Heavens! That’s... That’s a Disaster-level Battleship!”

“Am... Am I dreaming?”

All of them watched as the figure shot through the Disaster-level Battleship and exited from the other side. In just a moment, the Disaster-level Battleship was blown into smithereens as though it was hit by an immense force. It only left behind a mushroom cloud, shaking and tearing holes in the void. However, since it was dark in outer space, the viewers did not notice the tears in the void. Nevertheless, the quick destruction of the Disaster-level Battleship shocked them to their cores.

The force from the explosion that blew the Disaster-level Battleship into smithereens swept out in all directions violently.

Whoosh! Whoosh! Whoosh! Whoosh! Whoosh!

The terrifying shockwave spread toward the seventeen Disaster-level Battleships, rocking them from side to side. It looked as though the battleships were going to plummet and crash at any moment.

This was a scene the inhabitants of Coste Galaxy would not forget in their lives.

“That’s...”

“He... He... Is he even human?”

At this moment, Duan Ling Tian emerged from the mushroom cloud. He made his way out casually as he appeared before everyone’s eyes.

The viewers saw a light shield had shrouded Duan Ling Tian’s body. When the cameras’ zoomed in, they saw he was actually surrounded by Sword Qi that protected him. Duan Ling Tian who looked like a God of War was deeply etched in their minds. After a while, they regained their senses when they saw the wretched figure that was being held by Duan Ling Tian.

“That’s... Dahl, the patriarch of the Garnier family, right?”

The viewers watched as Dahl glared at Duan Ling Tian and asked, “You... You... Just who are you?!” There was a hint of fear in the depths of his eyes when he spoke. He would not be able to forget what happened today for the rest of his life. Not only did the purple-clad young man easily breached the defenses of the Disaster-level Battleships, the purple-clad young man even captured him effortlessly. He could only helplessly watch as the purple-clad young man summoned ten million sword rays that caused an explosion, effectively destroying the Disaster-level Battleship. He would have met a tragic end if the purple-clad young man did not drag him out. At this moment, he would have been a fool if he still did not realize the Garnier family had bitten off more than they could chew!
