

GACHA SOVEREIGN

4 Scheme and Encounter

At night, in John's room

You can see 2 people, a man and a woman chatting with an evil smile.

"John, I want to make Alexander exile from this kingdom" Said Sandra with a seducing smile

"Hoho, sure. How do you want to do it ?" Asked John

"We can just ask the king. Surely he won't offend both hero and arch mage right for some commoner right? hehe.." Explained Sandra

"Sure, let's do it. You are an evil woman, aren't you... Hehe... But first.." grabbing Sandra's thigh

"Ara.. aren't you are the bad guy here" and you know what happened if a wolf gets seduced by a witch

Meanwhile in Alex's room,

'Knock, knock' Alex surprised about this sudden knock at his door. "Who?"

"It's me, Maria" Alex more surprised about the one who came right now.

"Please.. come in" opening his door, Alex said to Maria

"Can we talk?" Asked Maria.

"Yes, Please sit" Alex invited Marian in and pointing at the chair

"I'm sorry for what happened about you and my childhood friend, Sandra." She bowed to Alex

"....." shook his head "It's not even your fault, why you apologized to me? aren't you hate me becoming Sandra's boyfriend?"

Maria Explained guiltily "Yes, at first I don't like you becoming Sandra's boyfriend. But, after I overheard you buying Sandra Golden Necklace with

your own hard work. My view of you has changed. But, I never thought Sandra do something like that to you. I'm sorry" Bowing her head once again

"It's alright. With my ability on Earth, it's already good enough to dream like that. I don't have any purpose anymore in my life on Earth. Now, in this world I want to restart my life once again" he said with a determination in his eyes

"Umm... It's good then. if you need my help just ask me. I will try to repay you for what my childhood friend did"

"It's not your fault, you don't need to repay me anything. Besides if what I predicted correct, then you won't have the chance" said Alex with a low voice

"umm.... what do you mean?" Maria confused.

"Never mind... All in all, it's not your fault. Since it's already late, we better rest"

"Okay then... Goodnight Alex...ander"

"Yeah good night" After sending Maria off, Alex sit on his bed and sigh

"Sigh... If what I predicted correct, then they are going to send me out of the castle soon"

Alex wanted to sleep, but a voice can be heard
