Chapter 1441: Intranet

Chapter 1441

“How... maybe... how is it possible! Why is he here!”

I thought that the person in front of me was the target person to assassinate.

Fujino Jiro was like five thunderstorms, dull and dull, his face pale, and cold sweat broke out. In short, all kinds of unbelievable and terrified emotions emerged.

After a short lag, Fujino Jiro didn't even think about it, and was about to run outside the building.

But before he started to escape, his feet instantly stood on the ground.

It turned out that Lin Kai pinched the neck behind Fujino Jiro just like mentioning a chicken.

Lin Kai first used the ability to tell the truth to make Fujino Jiro into a sluggish state, and then led him to the next stairwell.

Fortunately, this is a big night. This building is a business building. Except for those who work overtime at night, they still stay in this building, so few people come and go here.

When he got to the stairwell, Lin Kai began to ask Fujino Jiro.

It is this person who is a native of R country and only speaks part of Chinese.

Therefore, Lin Kai reluctantly heard that this man was named Fujino Jiro, he was a killer on the Internet, and other than that, he didn't inquire any useful information.

Lin Kai was speechless and had to say that mastering a language is still very important.

...

Ten minutes later, a pair of plainclothes police came to a hidden place in the building.

I saw a corpse, it was Fujino Jiro's corpse, and the modified gun was also there.

This was naturally called by Lin Kai and secretly handled Fujino Jiro's body.

Lin Kai first called Jiang Shu.

Jiang Shu couldn't expect that there was a killer from the Internet, sneaking in.

And Jiang Shu also said that they are also staring at Leiyuan Group throughout the whole process, whether it is online or offline, it is very likely that Leiyuan Group did not do it.

Lin Kai still felt something was wrong with this.

At this moment.

Lin Kai was sitting casually in a barbecue restaurant, eating barbecue, using his mobile phone, downloading several complicated software, and setting up several networks.

He logged in to a black page, which was the landing page of the extranet.

The account that Lin Kai used was the account password he learned from Fujino Jiro.

This type of account password is not a simple account password. It requires a special black card and a mark to log in.

Lin Kai immediately took out a black card and drew a mark on the screen of the phone, and the network sensor sensed it.

Therefore, he successfully used Fujino Jiro's account on the external network to log in to the external network.

Lin Kai is actually no stranger to this extranet, even very familiar.

In order to complete some of the special forces missions performed by Jiulongshan before, this extranet is naturally indispensable.

In addition to assassinations on the extranet, there are also various foreign criminal forces who do some things on the Internet.

The reason why Lin Kai now uses Fujino Jiro's account to log on to the Internet is naturally to contact Fujino Jiro's employer.

So he quickly found the chat window between Fujino Jiro and his employer.

Lin Kai first used the input method of country R, and then wrote: The mission target has been killed.

Not long after, the employer replied with a message: "Well, wait for me to check if you are dead. If you die, I will pay you immediately and recommend you to go abroad."

After Lin Kai received the news, he smiled secretly and then withdrew from the Internet. While eating barbecue, he looked at the door of the hotel where he was staying, and urged the golden pupil so that he could clearly see it for the first time.

But for a while, a BMW X6 stopped at the door of the hotel where Lin Kai lived.

Immediately walked down two people in suits, one went to the hotel, and the other went to the opposite building.

A few minutes later, both of them hurriedly returned to the car.

The car left here quickly.

In fact, this was what Lin Kai expected. The reason why he didn't intercept the car was because it was useless if intercepted. The people in the car were pure tools.

However, it is not without a little useful information.

Lin chuckled, then picked up his phone and logged in to the Internet. Sure enough, he saw that the employer had sent a message: "You are not Fujino Jiro, who are you!"

This time, Lin Kai replied in Chinese characters: "Good and evil will eventually be rewarded."

After he finished speaking, he directly withdrew from the Internet.

It is simply impossible to find the opposite information on the Internet.

Because this extranet is the world's most powerful hacker, and none of them has done it.

Therefore, it is impossible to investigate any information on the Internet.

"It's the killer of this extranet, he's really not afraid of death."

Lin Kai let out a sneer. He had solved it earlier. Two extranet assassins had unexpectedly come to assassinate him.

He thought, and immediately downloaded a few more software, and then logged into a white page website.

There is an external network, and naturally there is an internal network.

There are many transactions on this intranet, but they are often used for inquiries.

For example, at this time, Lin Kai uploaded a photo of that BMW X6.

Not long ago, Lin Kai took a picture of the BMW X6.

As for why you don't take the license plate, you don't have to guess, the license plate must be fake.

Even if the license plate is fake, you only need to upload the full picture of the vehicle on the intranet and spend 20 intranet coins.

Fortunately, Lin opened this intranet account with enough intranet coins.

He didn't hesitate to spend 20 intranet coins, and quickly got the news about the car.

The intranet is also made by the world's top hackers, but this intranet uses global big data.

More importantly, the hacker is actually a Chinese national.

In the area of big data, globalization has been achieved, especially in the area of vehicles.

"Although it is not owned by Leiyuan Group, it is owned by a small company invested by Leiyuan Group. This small company is invested by a foreign capital in Donghai. In other words, Leiyuan Group should be, and use That foreign capital bypassed Jiang Shu's surveillance, and Jiang Shu didn't find useful information."

After Lin Kai saw the BMW X6 vehicle, he suddenly guessed the reason.

He didn't even think about it, and told Jiang Shu about it.

This matter is not a trivial matter. It concerns domestic companies and colludes with foreign companies.

What's more, this domestic company is Leiyuan Group. If it can find out something, it will be a fatal blow for Leiyuan Group.

So Lin Kai will not let go of any chance.

After receiving the call from Lin Kai, Jiang Shu learned that Lin Kai had investigated some information. After being pleasantly surprised, he also said that he would do his best to investigate.

Lin Kai felt very relieved of Jiang Shu. After all, Lin Yuan had been more honest in the past few days, and he did not dare to act recklessly.

Chapter 1442: Follower

Chapter 1442

Lin Kai and Jiang Shu called, after talking.

Lin Kai also finished the barbecue, was paying the bill and leaving, drove the Rolls-Royce Phantom, and quickly caught up in the direction where the BMW X6 was leaving.

And in a single-family villa in a suburb of Lingnan.

A very ugly man named Zhou Zhenyuan, looking at the Internet chat window on his mobile phone, his face was even more ugly.

He himself is an ancient warrior of the martial sage level, using the external network to offer a reward to the killer to assassinate others.

Before that, Zhou Zhenyuan would definitely be very disdainful, he could do it himself.

But the goal of the assassination was to make his boss Lin Kai very troubled.

He naturally knew something about Lin Kai. If his boss confronted him, he would not be an opponent, let alone him.

Therefore, a professional killer must be hired to assassinate.

The boss, Lin Yuan, secretly trained him and several other ancient martial artists to serve Lin Yuan secretly, and he would not directly obey Lin Yuan.

Simply put, in order to avoid any intersection with them, Lin Yuan would not directly order, but would communicate through some hidden intermediary means.

This time, the task given by the boss Lin Yuan was to cooperate with the assistance of foreign investors and then publish a reward on the Internet to assassinate Lin Kai.

The person who picked up was the 39th on the extranet killer list.

After Zhou Zhenyuan looked at the information, he knew this person, he could possibly assassinate Lin Kai.

Of course, Zhou Zhenyuan was not on a mission. This person could face Lin Kai head-on, but if he was assassinated, that would not be the case.

But I didn't expect that the assassin couldn't kill Lin Kai at all, and even Lin Kai gave one.

"On the Internet just now, it was definitely not Fujino Jiro who sent me a message. Is it really Lin Kai?"

Zhou Zhenyuan felt very upset when he thought of this, and he always felt a kind of uneasy feeling.

He is making a call now. Although the call cannot be directly connected to Lin Yuan, it can be transferred to Lin Yuan.

But Zhou Zhenyuan thought about it carefully and decided not to make a call.

He was very clear about Lin Yuan's behavior. If he knew himself, Lin Kai would put him like this, Lin Yuan would definitely kill him.

Last time his partner was also an ancient martial artist at the martial arts level, who also served Lin Yuan for half a year.

However, in the end, Lin Yuan didn't give up before being said to give up, and even sent them to solve the life of the partner.

They didn't want to, but there was no turning back. The handle was in Lin Yuan's hands. Even if they knew that they were working for Lin Yuan, they didn't know when Lin Yuan would take their own lives.

However, the benefits are also amazing. Following Lin Yuan's years, he can also make a lot of money.

They can divide the money and treasures obtained by killing people and overtaking goods.

Therefore, Zhou Zhenyuan did not want to let Lin Yuan hear it.

Otherwise, Lin Yuan would be the first to kill him.

Zhou Zhenyuan thought about it again, and started making another call. When the call was made, he directly said: "Don't be stunned, don't move, don't reveal any news, just as if nothing happened. After all, according to the news, the killer The body has been taken away by the police. If the police investigate us, we all have to finish it. Do you know it?"

The calls he made were from a few people from a foreign company.

Those people specially cooperated with him to complete this assassination.

Because of his status, it is natural to be above those people, so he has the right to command those people.

Those few people are sitting on the BMW X6 at this time.

A man in a suit in the car responded to Zhou Zhenyuan and said, "Brother Zhou, we all understand this. Don't worry, we won't disclose it."

When the man in the suit and Zhou Zhenyuan finished talking on the phone.

The other two people in the car all looked at the man in the suit and asked, "What did Brother Zhou say?"

The man in the suit said, "Brother Zhou told us to shut up about this matter. Then, Brother Zhou will arrange the following things. We only need to keep silent."

Both of them nodded, and both understood that Zhou Zhenyuan was also doing them well.

But one of them couldn't help but complain: "What is the top 40 assassin on the extranet list. He is still professional. I don't think there is any professionalism! Assassinated others, and ended up being slaughtered!"

Another person also immediately said: "Yeah, this makes us very embarrassed now, we can neither negotiate nor disclose anything, mainly because we were put together."

It was the man in the suit who made a summary: "Let's not think about it so much. Anyway, Brother Zhou will carry it for us, and the rest will be handled by Brother Zhou."

As he said, he paused and looked out the window, with a wretched look in his eyes, and smiled: "Since Brother Zhou, let us not go back, let's just have fun in Lingnan. I heard that this is a club in Lingnan. It's pretty good, right here. There is someone I know in this club, named Brother Xiaodao, Brother Xiaodao specially for our third brother, I left a few, let's see."

"Haha, this feeling is good!"

"Yeah, yeah, I haven't been so relaxed in a long time."

The other two also immediately laughed wretchedly.

Soon the car stopped in front of a clubhouse nearby.

The three of them got out of the car and went into a clubhouse.

Lin Kai was driving the Rolls-Royce Phantom while urging the Golden Eye to catch up with the BMW X6.

A few minutes later, Lin drove the car and came to the clubhouse.

As soon as he arrived at the door of the clubhouse, there were a few beautiful welcomers who bowed and said, "Welcome!"

Then a gorgeous woman with heavy makeup walked up to Lin Kai and even grabbed Lin Kai's arm, and said softly: "The boss should be the first time here. We have many price points here, and there is always a kind of satisfaction. Your boss."

They naturally saw that Lin Kai drove a Rolls-Royce Phantom, so they respected Lin Kai.

This kind of money is not stingy when spending money on this.

Even if I was fortunate enough to be favored by the boss, it was to enjoy a lifetime of glory.

However, Lin Kai didn't appreciate it, and moved her arm slightly, the woman seemed to be shaken by some force, and then she backed away a few steps.

"Boss, I didn't open up early, and you can't do that either."

The woman looked aggrieved, if she changed to driving a car with less than one million, she would have a different look, she would definitely be angry.

But in front of me, driving a tens of millions of luxury cars, I have to bear no matter what.

Lin Kai did not pay attention to the woman either, but continued to urge the golden pupil, and soon locked on the few people who were in the BMW X6.

He went straight to the second floor.

All of a sudden, the women at the door felt bad and immediately became alert. After all, how could the guests who come in look like Lin Kai?

Chapter 1443: Follow The Vine

Chapter 1443

As a result, these women all looked at each other and could see each other's doubts.

"This person behaves very strangely. Would you like to inform Brother Xiaodao?"

"Although this person is very rich, it doesn't seem to come to us for consumption. Let's inform Brother Xiaodao."

"Yes, go call Brother Xiaodao!"

The women discussed a little bit, and decided to call, the little brother in their mouths.

After a while, Lin Kai walked up to the second floor smoothly, but on the top of the stairs on the second floor, several strong men with tattoos blocked the way.

The headed person looked at Lin Kai with cold eyes in his eyes, and said cruelly: "Boy, I ask you, are you here to consume? Or are you here to find the difference? If you come to consume, we welcome you. Im so embarrassed to come here, and I wont be able to tolerate some of us not being merciful."

Lin Kai's eyes became colder and colder, but it was not because of the words of the leader.

It was because he used the golden pupil to see the three people in the BMW X6 in a room on the second floor. They were using coercive means to force the young girls inside into prostitution.

At first glance, those young girls were students who hadn't been involved in the world.

This was something Lin Kai couldn't bear, so he punched them casually and hit them hard.

These people seemed to have been hit hard, each spit out a big wound, the injuries were extremely serious, and even their ribs were broken.

I can't get out of bed without lying in the hospital for more than half a year.

Lin Kai didn't kill them, he was very polite. These people are doing things to help this club, and the club does such an unreasonable thing, and naturally these people can't get rid of the relationship.

But fortunately, those young girls resisted fiercely and didn't let them succeed.

But Lin Kai still had his eyes, extremely cold, he went to a private room on the second floor after a while, and then pushed directly away.

I saw the three people in the BMW, each lying on a bed.

There are three women with heavy makeup who work in this club, doing massages for the three.

One of the women with heavy makeup said, "A few bosses, you don't understand. What's so good about those school girls? It's just not sensible. Technically, we must be good."

"Hey, you guys are really good. You have to change your taste, even if those school girls are not obedient, you still have to ask Brother Xiaodao to adjust."

A man in a suit in a BMW car said with a smile.

Just as these people were talking, Lin Kai walked in from outside the private room.

A man was shocked when he saw Lin Kai coming in, and immediately shouted coldly: "Boy, are you sick? I haven't seen anyone in this private room, so please get out!"

"Huh? It's kind of interesting. It seems that you were so dazzled by desire that you don't even recognize me?" Lin Kai said, walking slowly into the private room, with a faint smile on his mouth: "I am From the hotel where I live, I followed it all the way to here."

It's just this smile, very cold.

The expressions of the three men on the bed changed drastically, and at the same time they exclaimed: "Lin Kai! You... why are you... here!"

As this time, they helped the assassins to assassinate Lin Kai together, how could they not know Lin Kai's appearance, when Lin Kai said that, the three of them felt as if they had first awakened, and then they all showed shock.

The three of them did not expect that Lin Kai would follow them!

The three of them are also very strong in anti-reconnaissance capabilities! Unexpectedly, it was tracked!

Faced with the reactions of the three, the three women with heavy makeup were very confused, obviously not knowing who this Lin Kai was.

One of the women with heavy makeup asked first: "I said Brother Tian, that kid looks weak, so what is there to be afraid of, and the name Lin Kai is very ordinary, why are you so scared?"

The woman with heavy makeup didn't care, she continued to massage the man on the bed and smiled.

Another woman with heavy makeup also didn't care, and smiled: "Yes, but although this kid doesn't look that strong, he looks pretty handsome."

When I heard these women with heavy makeup, they were smiling and talking.

The trio's expressions were very embarrassing, especially the man in the suit. Didn't this make Lin Dahui more angry?

The man in the suit shivered when he thought of this. Lin Kai was a character who could even kill as a killer.

So he quickly yelled: "You guys, shut up Lao Tzu!"

Another man said: "This kid should be lucky. He killed the killer, boss. We are afraid of what this kid will do. Anyway, we will come to our door. It's better to fight, if this kid is taken, we Wouldn't it be possible to get a generous bonus?"

This bonus, originally a big head, was for Brother Zhou. But Brother Zhou vowed to deal with Lin Kai. No, not only hasn't done it yet, but Lin Kai has tracked it over. So, Brother Zhou, why should I get most of the bonus, so this time I didn't do anything else, and this kid was done, and we monopolized the bonus! "

When the man said, whether it was a man in a suit or another man, his eyes lit up.

I think he was right, it must be because this kid was lucky to kill the killer.

Besides, the strength of the three of them is not weak, and they don't think they can't beat Lin Kai.

Naturally, the three of them hadn't heard of Lin Kai, specific things.

After all, the three of them came from a foreign company. The company was acquired by Leiyuan Group only half a month ago, and they don't know much about Lin Kai.

So these three people, after looking at each other, immediately jumped off the bed.

Under the horrified eyes of the three women with heavy makeup, each of them took out a dagger and swiftly moved towards Lin Kai.

Lin Kai sneered secretly as he watched the attacking three people. He stood still, and the three of them were at the level of a martial artist. He casually used his infuriating energy and pointed at it again.

The daggers of these three people were knocked off one after another, and immediately before the three of them, there was a flower in front of them, and Lin Kai punched them fiercely, and instantly fell to the ground and screamed.

Then he did not hesitate to extract the ability to tell the truth, whether it was the three men or the three women with heavy makeup, all used the ability to extract the truth, leaving them in a sluggish state.

Lin Kai first asked the man in the suit and instructed the three of them to go to the hotel and the opposite building to check who the evidence was.

Although he knew that the real person behind the scenes was Lin Yuan, he had to follow the vine, investigate the matter step by step, and hand it over to Jiang Shu to deal with it.

This matter is also related to Jiang Shu's department.

It didn't take long for Lin Kai to ask what he wanted to ask one by one. After he understood all of them, he unlocked the ability to extract the truth for the six people.

Chapter 1444: Wake Up

Chapter 1444

"The three of you, I have abolished your dantian, not only that, but also castrated you chemically, so that you will not harm other girls again."

After Lin Kai finished speaking, he walked out of the private room.

When he unlocked the extraction ability to tell the truth, he turned his madness and abolished the dantian of the three men in the suit.

In other words, these three people are useless, unable to use the methods of ancient warriors.

Not only that, but he also castrated the three of them with true energy. Since he saw this, he wouldn't care about it.

In addition to these two things, to seriously wound these three people, at least they had to lie down on a hospital bed for half a year.

This is a severe punishment for the three of them.

Lin Kai didn't care how the three of them treated themselves, but he had to give a severe lesson to him because he almost made the kind of damaging thing.

After Lin opened this private room, he quickly walked into the next private room.

Resolute went in, and he saw several young girls crying in this private room. They looked at Lin Kai in horror, for fear that Lin Kai would take them away.

These young girls are very young and basically poor at home. I wanted to find a part-time job while studying, but was tricked into by a man named Xiaodao.

When these young girls realized that they were wrong, it was too late.

Brother Xiaodao used threats to force them to stay here.

At this moment, Lin Kai sighed in his heart when he saw these few young girls who looked like frightened birds. This is the sinister way of this world.

Fortunately, he met today. Otherwise, these young girls will definitely be ruined in the years to come, and it will be a never-ending nightmare.

But Lin Kai discovered that among these young girls, one girl was a bit special.

This special girl is the prettiest of these young girls.

It's not that it's beautiful and special, but it's actually because, compared with the other girls, this girl looks calm and doesn't cry.

Even in terms of expression, it can be said that it is not calm, but a sense of indifference to the world.

Lin Kai was just a little curious, and immediately said to them: "Don't worry, the group of people in this club has been solved by me. You can go now, and be careful in the future. Don't be deceived."

He also asked why these young girls were deceived, so he added a special sentence.

Except for the special girl, several other young girls were very pleasantly surprised, and then quickly fled out of the net room.

Only some special girls sat there, motionless, without any intention to leave.

This made Lin Kai frowned, walked over and asked, "This girl, why don't you leave?"

"Why should I leave?" This special girl first glanced at Lin Kai, her eyes were very cold, but her face showed a smile that was even more beautiful than a flower, and asked: "Am I beautiful? "

Although he was laughing, his eyes were still cold.

Lin Kai frowned further. He didn't respond to anything, but looked at the girl quietly.

The girl saw that Lin Kai did not speak, and continued: "Five thousand, one price, double the price for the night. And this is my first time, so there is no discount."

The girl said, her expression was unusually calm, as if she was stating something very common.

If it was other girls who said this, Lin Yishi would ignore it, but this girl made him feel weird.

It's obviously the first time, why is it so peaceful? Could it be that you were brainwashed by this club?

If that's the case, Lin Kaizi would not sit idly by.

So he asked: "Is this voluntary or forced by others?"

"It doesn't matter to you," the girl said, and then said: "As long as you give the money, I will do it."

She suddenly laughed. Of course, her eyes were still cold: "If you think I'm pretty good, if you have the ability, you can spend tens of thousands of dollars a month, and it's okay to support me."

When Lin Kai heard this, he couldn't help walking towards the girl.

Seeing Lin Kai getting closer, the girl sneered inwardly, secretly saying that the men in this world are all the same, on the surface they look like dogs, but each one is very hypocritical.

For example, the man in front of him did not agree or refuse. What does this show? Explain that this is by default.

Besides, the man started to walk towards her, it was even more obvious.

If before, if this man refused, she would take a high look, now she is full of contempt.

In fact, she despised herself more. If it weren't for the lack of money, she would not sell her body so cheaply.

Being kept by this man is like being in a clubhouse.

And this man who is getting closer is also very handsome, not a disadvantage.

When the girl was thinking, Lin Kai had already walked up to the girl.

The girl immediately stopped thinking, stood up quickly, and then showed her slender figure, then said: "Is it satisfied? If you are satisfied, I will follow you..."

Before the girl finished speaking, she stopped her voice suddenly. She was not interrupted by any sound. She stopped talking by herself.

Because when she was speaking, she saw it very clearly, and in the eyes of the man in front of her, there was no insignificant meaning, or even thoughts about her.

The girl could sense that the man in front of her was just looking at her purely.

What made this girl unexpected was that the man in front of her immediately grabbed her arm.

Naturally, Lin Kai didn't use any force, but took her to the bathroom.

Before the girl could react, Lin Kai grabbed the girl under the faucet and turned on the faucet.

"Ah! What are you doing to me! Let go of me!"

The girl finally panicked and wanted to struggle out of Lin Kai's hand, but how could she, an ordinary weak girl, be able to get out of Lin Kai's hand?

So even if the girl resisted desperately, Lin Kai was forcibly taken under the tap and poured water onto the girl's hair.

Of course, after ten seconds, Lin Kai took the girl back from under the tap.

With a flick of the girl's wet hair, she glared at Lin Kai.

Seeing this scene, Lin Kai continued to catch the girl under the faucet.

It won't help how the girl struggles.

Ten seconds later, Lin Kai moved the girl away from under the faucet again.

The girl was still not convinced, and even cursed Lin Kai.

Lin Kai was indifferent, repeating this way, showering the girl with water from the tap.

In fact, the purpose of Lin Kai's doing this was not for anything else, but just to make the girl sober.

Unfortunately, this girl is very stubborn.

Chapter 1445: Why You

Chapter 1445 How Are You!

Before Lin Kai was a special soldier, now he is a cultivator.

For girls such stubbornness, he does not have any softness.

Since once or twice, bathing the girl with water and not awake, then four times five times.

Four times and five times, I still haven't been awake, just eight times and ten times.

Until the end, the girl was going to pass out a bit, she was going crazy, she didn't have much strength, and she glared and cursed Lin Kai.

At this time, the girl's face was pale and extremely weak. And the wet hair was dripping with water, and water was spitting out from his mouth.

This girl didn't have the indifferent expression before, she looked at Lin Kai with a look of horror, as if in her eyes, Lin Kai was a demon.

"It's not bad, it's better than at the beginning. I stopped staring at me and didn't scold me." Lin Kai looked at the girl and smiled faintly.

This smile made the girl tremble involuntarily, as if she was afraid, Lin Xiaoxi took her again under the faucet.

No longer stubborn, she gritted her silver teeth and said, "Asshole! What do you want to do!"

Lin Kai did not respond immediately, but once again, grabbing the girl's head, pressing it under the tap, this time it took as long as thirty or forty seconds.

The girl kept coughing because of the water, and while spitting out water, she begged for mercy: "Let me go! Please! Let me go! Otherwise, you will really die!"

Hearing this sentence, Lin Kai pulled the girl back from under the faucet.

"Oh? Unexpectedly, you would be afraid of death."

Lin Kai shook his head and laughed, "I really thought that you wouldn't be afraid of death."

Without waiting for the girl to respond, Lin Kai continued to speak leisurely: "Don't you want to be raised by me? You passed my assessment, tens of thousands of dollars a month, which is a trivial matter to me. I will give you a month. How about 100,000 yuan? If it is not enough, you can still discuss it, provided that everything you do is obey me."

What Lin Kai said is naturally false, he just tried, is this girl afraid of it?

Sure enough, the girl was so busy that she shook her head again and again, like a rattle, and refused without hesitation: "I don't want to be taken care of by you! So please let me go!"

There was also a tremor in the tone of the speech, which was really scary.

Lin Kai heard this, and a cold smile appeared at the corner of his mouth: "Did you know? If you are nurtured, or stay in this clubhouse, whether it is the sponsor or the guests in the clubhouse, you will do whatever you want. What must be done. Give you a shower under the faucet, what is it?

When you are brainwashed, your whole life will be over, and it will only be a tool for letting go. So, do you still want to do this? "

Every word of Lin Kai pierced the girl's heart like a needle.

The girl's eyes were full of horror. She didn't want to, she really didn't want to, so she kept shaking her head again: "I don't want to, I don't want to be taken care of! I don't want to stay in this club anymore!"

"Oh, don't want? Is it too little money? Let's do it, I will give you one million a month. Within this one, I can do what I want to do to you, how about?" Lin Kai seduced.

"Woo, no matter how much money is given, I don't want to be taken care of!" The girl started crying: "Please! Please let me go!"

Hearing these words, Lin Kai's expression returned to his usual color. Looking at the girl's current regret, he knew that what he had done before was not in vain, and it had a great effect.

The reality is often not this, it is much more cruel.

If you are really mischievous, it would be more terrifying than death.

Lin Kai shook his head slightly, and then he took out all his cash, which was only a thousand yuan, not much.

After all, in what era, there are still very few people with cash.

Lin Kai then gave himself, all the cash, to the girl, and said: "The money is not much, just treat it as travel expenses, you still go home. There are many ways to make money in the world, the simplest and most direct way. Just study hard. See you are not too old, you should still go to school. Or add a message, if you have any difficulties, you can contact me later.

If it is the cost of going to school, or what happens to the family, you can contact me. "

As Lin Kai said, he also handed his business card to the girl.

As the saying goes, sending Buddha to the west, helping people to the end.

He chose to help this girl, and he also helped to the end.

But it is also a principled help, not a brainless help.

The girl was stunned by Lin Kai's words, she didn't expect Lin Kai to help him.

Before the girl had any reaction, Lin Kai quickly took her and walked out of the private room.

At the entrance of the stairs on the second floor, a few brawny men with tattoos were still lying on the ground and crying.

Naturally, they dare not call the police if they do this kind of activity.

He didn't dare to call an ambulance, and could only wait for people to come and take them to the hospital.

Lin Kai noticed that the girl's gaze stopped at one of them for a while.

That person is the person headed by these people. It seems that this person is the little Dao brother, that is, this clubhouse, the most sinful.

Ever since, when Lin Kai passed by, he secretly used his infuriating energy to castrate the knife brother.

There is no sense of this kind of castration, and you can only wait for Brother Xiaodao to discover it by himself.

Others in the club already knew that Brother Xiaodao and others were like Lin Kai.

So when they saw Lin Kai, they all showed fear, and didn't dare to stop him.

So that Lin Kai took the girl and walked out of the club very smoothly.

By the road, Lin Kai called a taxi for the girl. Whether the girl wanted it or not, he brought the girl into the taxi. Then he said: "It's almost midnight. It's not too late. You still go home. Yes. Please contact me for anything."

The girl didn't refuse this time, and even said, "Thank you."

Lin chuckled, didn't respond much, then looked at the taxi, drifting away.

After doing this, Lin drove the Rolls-Royce Phantom to the villa area in Lingnan.

After half an hour, the car stopped in front of a villa.

Lin Kai didn't sneak in either, but rang the doorbell at the gate.

Before long, there was a messenger at the door: "Who?"

"Takeaway."

"Takeaway? I didn't order the takeaway. Where did you get the takeaway?"

Lin Kai calmly said: "Someone should have ordered it for you, Mr. Zhou Zhenyuan in District 6, No. 123, Zhongtu Road, Lingnan, is this right?"

After hearing this sentence, the other side opened the door.

"You wait at the door, I will go out now." The other side responded.

But after a while, Zhou Zhenyuan walked out of it.

When he saw Lin Kai for the first time, he was shocked: "Why are you!"

Chapter 1446: Please Answer Me

Chapter 1446 Please Answer Me

After all, Zhou Zhenyuan was also a master of the martial arts level. After a brief shock, he reacted quickly and quickly prepared to escape here.

But how could Lin Kai give Zhou Zhenyuan a chance to escape? First with a casual kick, Zhou Zhenyuan tripped.

If it were changed, it would be impossible for an ancient martial artist of the same martial sage level to do it, and he would trip Zhou Zhenyuan with one kick.

This shocked Zhou Zhenyuan's heart, and Lin Kai was as powerful as rumored.

After he was tripped, he did not give up running away, using the power of his whole body, an instant horrible speed, first got up, and then jumped to the wall outside the villa at the fastest speed.

Zhou Zhenyuan also belongs to the upper middle level among the ancient martial artists.

If facing any grandmaster, he still thought, he could try it, fight with it a few times, and then run away.

But now facing Lin Kai! There is no idea of trying to fight Lin Kai at all! Don't even dare to even think about it!

After all, Lin Kai is the master who can suppress Lin Yuan, so he has only one idea to run away now!

But when he just jumped on the wall, Lin Kai came to Zhou Zhenyuan's side in an instant.

And Lin Kai also grabbed Zhou Zhenyuan's shoulders, and then slammed down, throwing Zhou Zhenyuan to the ground in the villa courtyard.

Lin Kai was another unrestrained person, falling beside Zhou Zhenyuan, looking at Zhou Zhenyuan condescendingly, and smiled: "The guests came, and they didn't welcome them, but wanted to flee. Just run away, and now they still have to bow to me. ."

Zhou Zhenyuan stood up swayingly, realizing that he couldn't escape Lin Kai's hands. His face was gloomy and terrible. He looked at Lin Kai, but still knowingly asked: "Who are you? What's the matter with me?"

"Oh? You don't know me, why do you tell me why you are when you see me at first sight? Not only that, but also run away immediately."

Lin Kai glanced at Zhou Zhenyuan and spoke leisurely.

This sentence left Zhou Zhenyuan speechless.

Lin Kai went on to say: "I think you know the name Fujino Jiro better than me. So I just come to talk, if I talk well, I can let you go. If you don't talk well, you figure it out."

Zhou Zhenyuan's face became more gloomy, and the last glimmer of hope in his heart was immediately shattered.

He originally thought that Lin Kai had something else to know that he was here.

However, after hearing the name Fujino Jiro, he knew that on the Internet, it was Lin Kai in front of him who would return his good and evil.

Zhou Zhenyuan felt powerless, but Lin Kai couldn't even deal with his boss, let alone him.

So he had to bow his head first and asked: "So, what do you want to talk to me?"

When Lin Kai heard Zhou Zhenyuan say this, he smiled again: "The practitioner is Junjie, but now that you know me, you must know what I am looking for. So there is no need for me to ask more?"

Lin Kai can naturally use the extraction ability to tell the truth, but there are still some flaws in the extraction ability to tell the truth.

For example, after Lin Kai finished asking a question, the other party only answered the question. This kind of question and answer is sometimes incomplete.

So if you can let the other person answer, just answer it yourself. Then combined with the ability to tell the truth, it is more comprehensive.

Zhou Zhenyuan was hesitant at first, when he heard Lin Kai say this, he gritted his teeth and said, "I am Lin Yuan's subordinate!"

Lin chuckled. Although he knew it a long time ago, Zhou Zhenyuan himself admitted that it was a good start.

He nodded slightly and said, "That's right, you continue."

"Lin Yuan has special subordinates, there are several, they will not have any contact with each other. My subordinate is composed of six martial arts and ancient martial artists. Because Lin Yuan has grasped the deadly information of the six of us, so had to work for it. Of course, because Lin Yuan paid a high price, he was willing to work for it in the end.

The six of us were like this, always listening to Lin Yuan's orders. However, Lin Yuan is cautious and will not directly order us. And he was cruel. A few days ago, one of our partners was ordered to be killed by Lin Yuan. Today, life and death are unknown. "

Lin Kai couldn't help but said, "That Zheng Tianhao, right? He is dead."

"What?" Zhou Zhenyuan was obviously suppressed, especially when he said it from Lin Kai's mouth, he was even more frightened.

It seems that Zheng Tianhao was killed by Lin Kai.

Zhou Zhenyuan glanced at Lin Kai fearfully, and continued to speak: "However, in the past few days, Lin Yuan has no energy to deal with you, so he ordered us to find a way to deal with you. I heard that Lin Yuan was planning secretly and annexing you. The big family groups in several nearby cities have been targeted in the East China Sea after all, and can no longer annex the East China Sea.

Therefore, Lin Yuan focused his idea on several nearby cities, including Lingnan, which is also part of the plan.

I don't know much about the specific plan. But in the task of assassinating you, let me cooperate with Fujino Jiro to assassinate you. "

Lin Kai spoke again: "You take me there, where you are in the department."

Zhou Zhenyuan immediately shook his head: "I also said that I have the handle in Lin Yuan's hands, and if I betrayed, Lin Yuan will definitely do something to my family."

"Your family?" Lin Kai frowned.

Zhou Zhenyuan reluctantly said: "Compared with the other people in the department, I am in a worse situation. I know the specific location of my family. Once in another department, I also learned the specific location of my family, and then attacked and wiped out the family. . Lin Yuan is cruel, so I don't need to say more."

Lin Kai nodded secretly, Lin Yuan could indeed do this kind of thing.

He thought for a while, and asked, "I am not Lin Yuan, and I won't hurt your family. You can, without taking me to your department. Even without you, I believe that afterwards, I can find it easily, but a matter of time."

Lin Kai was not joking, he now gradually grasped that Lin Yuan's secret power could still be found if he dig deeper.

Zhou Zhenyuan didn't expect that Lin Kai was so easy to speak, and he was immediately relieved.

But before he relaxed, Lin Kai said lightly: "I didn't talk about the previous ones. Now I talk about the external network. What method does Lin Yuan use to register the external network, and you are on the external network, how do you publish the reward task? answer me!"

The extranet is a global underground dark transaction. It is more difficult to register for an extranet account than to go to the sky.

Especially in China, the position is even more difficult.

Of course, with Lin Yuan's method, registration is no problem.

But if you release a task, it will go through various reviews.

In addition to proving that he is a wicked person, he must also provide evidence.

In other words, this matter was handed over to Zhou Zhenyuan, then Zhou Zhenyuan provided evidence that he was a villain, and then successfully released the reward task.

Chapter 1447: Women Are Trouble

Chapter 1447

Zhou Zhenyuan's face changed drastically, and it seemed that he didn't expect that Lin Xiong knew the rules of the Internet so well.

He killed a lot of innocent people in order to issue a reward mission, just to prove that he was a villain, and only then could he issue an assassination mission.

At this time, Zhou Zhenyuan's face was gloomy again, not knowing how to respond, and his mind moved quickly.

But in the end he gave up, and while Lin Kai was waiting for his answer, he punched Lin Kai in the head.

Want to kill Lin Kai unexpectedly.

Lin Kai was very calm, without any accidents, as if he had expected it.

He gently raised his hand to block Zhou Zhenyuan's punch.

Lin Kai looked at Zhou Zhenyuan with a frightened look, and said coldly: "It's also decisive, but unfortunately, your strength is still too weak."

As Lin Kai said, he punched Zhou Zhenyuan back and banged directly on Zhou Zhenyuan's chest.

In an instant, Zhou Zhenyuan flew out, and then hit the wall, the bones all over his body seemed to fall apart.

Not only that, the Qiqiao began to bleed.

While Zhou Zhenyuan was full of pain, he was extremely shocked!

Only when he played against Lin Kai did he truly understand that Lin Kai was powerful!

He is also an ancient martial artist at the martial sage level anyway, even if the opponent is a great master, he can at least survive a few moves.

However, in front of Lin Kai, like a child, he easily solved him.

When was Wu Sheng so weak?

As Zhou Zhenyuan thought about it, his consciousness became increasingly blurred.

This punch also injured his internal organs, making it difficult to survive.

After a while, Zhou Zhen was dead.

Lin Kai looked at Zhou Zhenyuan who was dead, and shook his head slightly, not regretting his death.

The reason why he didn't have the ability to tell the truth to ask for the specific location is because this would also affect Zhou Zhenyuan's family.

He is not like Zhou Zhenyuan, who kills innocent people indiscriminately.

What's more, Lin Kai is confident that he can find Zhou Zhenyuan's department in a short time.

After all, the six people in this department have already been solved by him.

In addition to this department, there is no threat to him.

If you really want to find outsiders in this department now, you will definitely be surprised.

Therefore, under comprehensive consideration, there is still no need for the extraction ability to tell the truth, so ask Zhou Zhenyuan.

As for Zhou Zhenyuan's body this time, it was naturally handed over to Jiang Shu for processing.

...

The next morning.

On the outskirts of Donghai Xicheng, on the back of the mountain range.

Where there was no one, there are now hundreds of construction workers and many large construction vehicles, parked there, waiting for something.

Just wait, you can start work.

At a relatively high point, Li Ya'er and several people stood there to discuss, including the engineer Gao Zhengsheng.

Gao Zhengsheng looked at the watch he was wearing and found that it was already nine o'clock in the morning. He sneered: "Mr. Lin hasn't arrived from Lingnan yet. It has been three hours. The national highway should be almost there, right? Wait here? Mr. Li, I don't think Mr. Lin really has all the drawings and plans.

Even if it is done, it is estimated to be that kind of shoddy, and it must not be used first. According to my idea, I will go back first. I will conceive these drawings carefully. Although the speed will be slow, the quality will be greatly improved. “

Li Ya'er didn't say much, but just said: “Senior engineer, wait patiently. Since Mr. Lin said it is done, it must be done. As for the quality, Mr. Lin will have to talk about it when it comes.

Just as Li Ya'er finished speaking, an off-road vehicle drove over.

The visitors were director Pan Liguo and deputy director Wang Xiaoliang.

Since the filming location was changed, Lingnan would naturally not go, so Pan Liguo arranged for the entire crew early in the morning, chartered a few buses, and moved all to the East China Sea.

Pan Liguo and Wang Xiaoliang first came to the back of this mountain range and took a look.

When I got out of the car, Pan Liguo saw Li Ya'er who was in charge of this place, and smiled: “Mr. Li, hasn't Mr. Lin arrived yet? Speaking of which, Mr. Lin set off earlier than me, but he seemed to be taking Miss Yin and stopped on the way. I came down and had a breakfast.”

“Yes, it hasn't arrived yet.” Li Ya'er responded.

This caused Wang Xiaoliang to whisper to himself: “That's not right. Even after breakfast, it shouldn't be slower than us. Could it be that Lin Xian thinks that he didn't draw the drawings well, so he won't come here?”

As Wang Xiaoliang was thinking, another car also came, and it was Lu Qingfeng who walked down from this car.

As several important roles in the movie, you must first get acquainted with the location to be shot.

Whether it was Wang Xiaoliang, Lu Qingfeng, or other people, after seeing this mountain range, all of them were shocked by the beauty here.

They have to admit that this place is indeed, very suitable for the scene of the movie!

Of course, after Lu Qingfeng was slightly shocked, he realized that Lin Kai was not here, and immediately sneered: “Lin Kai drove in front of us. After entering the national highway, he disappeared. I don't think I dare to come, I'm afraid that there are so many. In front of people, kneel down and apologize.”

Everyone ignored Lu Qingfeng's words, but their expressions were all puzzled. Is it true that they dare not come?

While everyone was waiting, Lin Kai drove the Rolls-Royce Phantom and had already arrived within the suburbs of the west of the East China Sea.

He glanced at Yin Suyan next to him and said helplessly: “Miss Yin, you also know that I was in a hurry to send this drawing here. You shouted that you were hungry, so you stopped halfway and had breakfast. That's all. As a result, one meal is not enough for you, and you have a second meal.

And for the second meal, the ready-made broth dumplings are all sold out. You have to wait for the new broth dumplings to be steamed. I don't know how much time was wasted. Women are trouble. “

Lin Kai was rather helpless, not just because Yin Suyan had two breakfasts.

It was because of a very important reason, that was originally at five o'clock in the morning, Lin Kai was going to the East China Sea.

As a result, Yin Suyan also followed him.

Yin Suyan is indeed going to the East China Sea today, so Lin Kai will take it with him.

As a result, Yin Suyan didn't know what was going on today. He wanted to put on makeup, which lasted an hour.

At six o'clock, when Pan Liguo and others also got up and set off, they went to the East China Sea together.

Otherwise, Lin Kai arrived here at the western suburbs of the city at eight o'clock.

As a result, Lin Kai couldn't help feeling that women are in trouble.

"You also know that I am a woman, so please trouble me. Isn't it normal?" Yin Suyan rolled her eyes, and then she looked down at the stack of drawings in her hand, her beautiful eyes with a strong color of worship.

Naturally, Lin Kai only drew these plans for about seven hours last night.

Chapter 1448: Can't Afford To Lose?

Chapter 1448 Can't afford to lose?

"Lin Kai, these blueprints for setting up the movie scene were really drawn by himself?"

At this time, Yin Suyan couldn't help asking while looking at the large amount of drawing paper in his hand.

Lin Kai was speechless, but this was not the first time Yin Suyan asked.

Since Yin Suyan saw this pile of drawing papers in the morning, he began to ask.

I asked many times along the way, and Lin Kai naturally responded.

So he said helplessly at this time: "Miss Yin, just don't trust me like that? You didn't know that last night, I didn't have dinner with you to draw these drawings."

Yin Suyan immediately responded with embarrassment after hearing this, "Mr. Lin, I have no other meaning."

With that, she put the stack of drawing papers in her hand and put them away.

Soon she looked up at Lin Kai and smiled: "Mr. Lin, mainly because I think you are really too perfect. As if you can solve everything. I even wonder if you are a human being?"

Lin Kai laughed blankly: "I am not a human being, what is that? Alien? Or Avatar?"

When Lin Kai said so, Yin Suyan snorted and laughed.

In this way, in a joyous atmosphere, it didn't take long for Lin Kai to drive the car behind the mountain range.

It can be clearly seen from inside the car, and many people are waiting in the clearing.

Especially the various expressions of those people, Yin Suyan said with a smile: "Look at the engineer, Wang Xiaoliang, Lu Qingfeng and others, I guess they are all jokes about you."

Especially Lu Qingfeng, after all, he had bet with Lin Kai, and naturally he didn't want Lin Kai to win.

If Lin Kai doesn't have any blueprint plans, or if the quality of the blueprint plans is too low, I must let Lin Kai fulfill his bet, which is to make Lin Kai kneel and apologize on the spot.

Lin Kai just smiled at Yin Suyan's words. He actually didn't have any ideas. He just wanted to bring these blueprints and plans quickly. Let the construction team work earlier.

In this case, the progress of filming the movie will be accelerated.

Although Li Shengxian's company has new products that can drive a lot of income, the new products have a long history and cannot bring much income in a short time.

Relying on the cooperative seller, signing a contract, and getting a sum of money.

It's just that the money is now used to invest in the movie and build a scene for the movie.

Of course, the redundant construction scene is also produced by Li Shengxian's company.

After all, it is not only for the filming of the scenes, but also for the operation of the mountains behind the mountains as soon as possible.

After the mountain range is developed first, after the movie is released, take the lead in turning into a scenic spot for profit.

You have to wait in front of the mountains, and the health city under the mountains can be officially put into operation after the construction is completed.

The process is still quite long, so you have to use the beautiful scenery behind the mountains to attract people.

It just happens that there is the promotion of the movie, so there is no need to worry about the first tourists.

After waiting for the first batch of tourists, they felt that the back of the mountain range was worth seeing, which opened up the word of mouth.

So the development behind the mountains and the filming and release of the film early are also very important.

Lin Kai stopped the Rolls-Royce Phantom at random when he just took the stack of drawing paper in his hand and was about to get off the car.

Yin Suyan smiled suddenly: "Mr. Lin, I still don't feel rushed over. I don't like Lu Qingfeng's appearance, as if he has won the bet, let him be arrogant first, and then wait..."

Before Yin Suyan could finish, Lin Kai pushed the car door and got out of the car.

Yin Suyan looked at Lin Kai who got out of the car and couldn't help but curl her lips. After a blank glance at Lin Kai, she quickly got out of the car and followed Lin Kai.

"Heh, Lin Kai, you finally got here. You set off for ten minutes before us, and ended up being twenty minutes slower than us before you got here. And thanks to the Rolls-Royce Phantom you were driving, you don't deserve to drive this car at all. ."

As soon as Lin Kai appeared, Lu Qingfeng's yin and yang aura aroused.

Not only that, Lu Qingfeng mocked again: "I pretended to take a stack of drawing paper. If I guessed right, the drawing paper is just manuscript paper, right? It's not the same. Anyway, you have to, feel free. Take some printed drawings?"

Lu Qingfeng once filmed film and television dramas about engineers and knows some knowledge about construction drawings.

For this kind of large-scale project, the manuscript drawing is naturally not used. The manuscript is drawn first, and then scanned and printed on the computer, using software to create flat, three-dimensional, and detailed processing from various angles.

Because smart machines must be more precise than humans.

And after the modification is done on the computer, the professional drawings are used for printing. The professional drawings are to prevent accidents and not easy to be damaged.

Lin Kai's hands are all ordinary A3, A4 and other drawings. They are manuscripts at first glance. They are also prone to damage. Use this paper as construction drawings? What an international joke!

Lin Kai glanced at Lu Qingfeng faintly, and said calmly, "Lu Qingfeng, is it pretending? You won't know immediately. Why should you jump out in such a hurry? Are you afraid that you will lose? Can't afford to lose?"

"Can't afford to lose? Lin Kai, maybe you can't afford to lose!" Lu Qingfeng sneered, his tone full of disdain.

Lin Kai responded indifferently: "After all, if you lose, your own male number one will not be able to keep it. Then the second male number will play the male first. And you can only play the second male. With your reputation and status, why will be willing to play the second man, so I said, you can't afford to lose."

Lu Qingfeng sneered again: "Don't say I can't afford to lose, because you must lose. I am not worried that I will not be able to lose."

Lin Kai shook his head and said, "If you don't worry that you can't afford to lose, why did you wake up early in the morning? You didn't talk about it yesterday afternoon, and didn't even film the movie. Wait for a good rest and at least sleep until noon. Waking up faster than anyone else, I tried to look through my drawings, but I stopped.

In addition, you don't even wash your hair or put on makeup, which is completely different from the way you usually dress up. I even came here, just to see if my drawings were done. If you get it right, build the movie scene within ten days, and you won't lose. Various factors indicate that you are worried that you cannot afford to lose. "

Lu Qingfeng was told by Lin Kai, his face changed slightly, especially the strange gaze of people nearby, making him instantly embarrassed, looking at Lin Kai, quibblingly said: "That's because I also want to make a good movie. !

As a male one, shouldn't I follow Director Pan and come here to see the venue first? Therefore, I only woke up in the morning, and before I had time to wash, I followed Director Pan. I can't afford to lose! "

Chapter 1449: Question

Chapter 1449

Regarding Lu Qingfeng's words, Lin Kai shook his head without saying much.

Lu Qingfeng reacted so fiercely that everyone could tell that Lu Qingfeng was worried that he could not afford to lose.

So there is no need for Lin Kai to explain too much.

Lin Kai also directly ignored Lu Qingfeng's angry stare. He handed over the stack of drawing papers in his hand to the engineer who was in charge of setting up the scene for the movie.

That is the Goldman Sachs engineer.

Lin Kai said, "Senior engineer, you can see if there is any problem. If there is no problem, start construction and complete all the buildings to be built within ten days."

Gao Zhengsheng ignored Lin Kai immediately. After he took the pile of drawing paper, he actually had disdain on his face.

He is a real professional, than Lu Qingfeng, he naturally needs to understand construction drawings and cannot write manuscripts at all.

Take the manuscript and explain two situations.

The first situation is to fool around at will, and the second situation is to paint with oneself, quite confident.

Either way, it is extremely irresponsible.

Especially in one night, is it not a dream to draw a complete variety of ancient buildings and all the details? Not to mention him as a senior engineer, even his teacher, the few remaining special-grade engineers in China, may not be able to do it.

If it weren't for Li Ya'er here, he wouldn't even bother to look at these manuscripts.

It's just that Gao Zhengsheng lowered his eyes and unfolded the first drawing paper. He planned to look at it at will, but when he first saw the architectural graphics on the drawing paper, he was instantly shocked.

The buildings drawn on this drawing paper, including various details, are very perfect!

Flat, three-dimensional, magnified details, everything, and specific values are also written.

Every line is also extremely precise, which is better than the intelligence of a computer!

It can be said that as long as you follow the above, you can build it 100% perfectly! Great time saved!

Gao Zhengsheng's eyes widened, looking at the drawing paper in his hand, as if he had seen a ghost, with an unbelievable look.

Li Ya'er next to him was puzzled by Gao Zhengsheng's expression.

Li Shengxian handed over this project to her, and she naturally did her best to get it right, so she hired the country's top ancient architectural engineer.

What can shock a top ancient architectural engineer in this way?

Li Ya'er was a little puzzled, her gaze couldn't help but fall on the drawing paper that Gao Zhengsheng unfolded.

Even though Li Ya'er is a layman, but seeing the exquisite ancient buildings drawn on the drawings, all the details are better than those of the computer, and she also reveals an incredible color.

After a while, Li Ya'er returned to her senses and looked at Lin Kai with a look of admiration in her eyes: "Lin...Mr. Lin, this, is this really what you painted?"

Lin Kai nodded: "From four or five o'clock in the afternoon, until eleven o'clock, there was no time for dinner."

Li Ya'er heard this, with enthusiasm in her beautiful eyes, and she worshiped Lin Kai more and more. Now Lin Kai looked like a **** in her heart.

After Gao Zhengsheng came back to his senses, he still ignored Lin Kai, but rather carefully rolled up this drawing paper.

Then I opened the second drawing paper and looked at the exquisite ancient buildings drawn on the drawing paper very obsessively.

It seems to him that these are not paintings, but works of art.

The ancient buildings on each piece of drawing paper, let alone the details, are depicted as long as they can be thought of, and the unexpected.

Especially all kinds of ancient buildings are different in appearance and details.

Can a person paint for seven hours?

Normally, it can't be drawn within a few days.

At this time, Pan Ligu, Wang Xiaoliang and others also saw the strangeness and came to the side of Gao Zhengsheng to watch the drawing paper.

Although they are also laymen, as directors, they still know the scene well. When they saw the ancient buildings on the drawing paper, they all looked very excited and exclaimed that they were perfectly in line with the buildings depicted in the script!

Lu Qingfeng followed Pan Ligu and Wang Xiaoliang to see him. He was worried that he would lose.

However, looking at it this way, there was no blood on his face for an instant, and he didn't expect Lin Kai to really complete this blueprint plan!

According to the above blueprint plan, to build the ancient building, the construction will definitely be completed within ten days!

In this way, he really changed from male one to male two! This is unacceptable to him!

Pan Ligu laughed at this moment: "Mr. Lin really is a god! Not only is young and promising, but also has amazing medical skills! Nowadays, it is a painting of buildings with one hand, and it is also a magical pen! With Mr. Lin's drawings and plans, the progress of our filming has not Delayed! Can follow the planned process, and even finish the shooting ahead of time!"

Wang Xiaoliang also said: "Yes, there are buildings on these scripts, including how many other ancient buildings Mr. Lin himself painted, so it will be more convenient and quick to shoot, and there will be no excessive use of special effects. These magnificent The ancient architecture itself is a'special effect'!"

A chief director and an associate director were full of emotions, and when others heard it, they also looked forward to it.

Wu Feifan naturally followed. Seeing these drawings and being so recognized by everyone, he understood that replacing Lu Qingfeng's role as the male one is a sure thing.

With great joy in his heart, he also decided that he should do well, and within these ten days, he would polish the script lines of the male one.

After all, Lin Kai also said that if he had not studied the script lines of the male one, he would not be replaced.

Now that there is such an opportunity, Wu Feifan will definitely not let it go.

When everyone was surprised by Lin Kai's drawing paper, Gao Zhengsheng had already flipped through the next drawing paper.

It's just that when Gao Zhengsheng saw this drawing paper, he no longer showed his obsession, but frowned deeply.

Soon, he pointed his finger to a certain place on the ancient building on this drawing paper, questioning: "Is the support position of this ancient building reversed? It is built like this, it looks good, but it cant bear it at all. Live with winds above level 6. This is on the mountain. Winds above level 6 are common. If there is an accident during filming or when tourists are visiting, it will be a big trouble."

When other people heard the words, they all frowned when they saw the location Gao Zhengsheng was referring to, as if there was indeed something wrong.

Li Yaer asked, "Senior engineer, should I be able to change it?"

Gao Zhengsheng shook his head and said: "In fact, it is not just a matter of reversing it, it affects the whole body. I also noticed this. In fact, every building on the drawing paper has this kind of problem. Modification can be modified, but it has to It will take a few days at least. If you don't fix it, these drawings are invalid and useless, so it's better to repaint."

Chapter 1450: No One Knows Architecture Better Than Me

Chapter 1450 No One Knows Architecture More Than I

When he heard Gao Zhengsheng's words, except for Lu Qingfeng, everyone else sank.

It means that these drawings Lin Kai drew are useless?

Pan Ligu is a little anxious, but it has something to do with the process of making a movie.

Although my illness has been cured by Lin Kaijii, I can finish the filming sooner.

So he said, "Senior engineer, you mean, if there is a wind force of level 6 or above, it is easy to blow down this ancient building?"

Gao Zhengsheng said with an unsure look: "It's not easy to blow down. The structure of this ancient building is very different from the structure of our modern building. If you build it according to the drawing paper, it will be very different. Stable. Winds above level 6 will sway under long-term blowing, and may collapse in severe cases.

This kind of risky construction is absolutely impossible to build in our industry. After all, if something happens, the engineer will be the first to be held accountable. So I dare not build these drawings. "

After hearing Gao Zhengsheng's explanation, everyone understood that these drawings really can't be built. If something goes wrong, let alone other things, it's probably impossible to make a movie.

Lu Qingfeng was the most excited one of the people at the scene, and sneered at Lin Kai unceremoniously: "Haha! Lin Kai! I said that you are going to lose, don't you believe it? I really thought I drew it overnight. Can it be constructed immediately? It's superfluous!"

Lu Qingfeng seemed to have come from **** to heaven at once, and that mood made him extremely happy. It seems that he won the bet between him and Lin Kai!

At this time, Li Ya'er looked at Lin Kai and said, "Mr. Lin, the ancient buildings and various details you painted are really perfect. But if you really say that to a senior engineer, these drawings won't work."

Li Ya'er spoke very tactfully, but she could hear that these drawings could not be constructed immediately, and they were either redrawn or revised.

Either way, it will take at least a few more days.

Before Lin Kai could speak, Lu Qingfeng continued mocking: "So what are you doing euphemistically? Just say that these drawings are invalid!"

Lin Kai's expression was very calm, his eyelids lifted, and he glanced at Lu Qingfeng lightly, without saying anything.

He quickly shifted his gaze to Gao Zhengsheng, and said with a smile: "Gao Engineer, you might as well tell me exactly what went wrong."

Gao Zhengsheng was stunned. He didn't expect Lin to meet so calmly. Could it be that he humbly accepted the problem?

Goldman Sachs didn't think much, and immediately said all the problems that had arisen.

After Lin Kai listened, he shook his head and laughed, "Senior engineer, you overlooked a little. You also know that ancient buildings are different from modern buildings, but they also have a lot in common. To be precise, modern buildings have absorbed many ancient buildings. The ancient architecture you know is just a fur. With thousands of years of history in China, in this area of architecture, dare to be the second in the world, and no one dares to be the first.

That is because the history of our ancient buildings has a long history. The ancient buildings I constructed, this structure can be said to be more stable than the current high-rise buildings of five to six hundred meters high. Not to mention the sixth level of wind, even if it is increased by several levels of gale, it is not afraid. In addition, the earthquake resistance is also very strong, at least able to withstand earthquakes of magnitude nine. "

Lin Kai didn't laugh. The structure he chose was the strongest structure rarely seen in history.

The reason why it is rare is that no one can describe it, and he has the ability to extract all the details easily.

Therefore, this structure is the best in all aspects of security.

Gao Zhengsheng's expression gradually cooled down when he heard Lin Kai's words. He didn't expect Lin Kai to refute him.

He is an engineer in ancient architecture. Is it possible that Lin Kai knows ancient architecture better than him?

Gao Zhengsheng coldly snorted: "Mr. Lin, the paper you drew proves that you have a certain accomplishment in drawing, and I am indeed inferior. But no one understands the structure of ancient buildings better than me, including you. I am In studying the structure of ancient buildings, they are more thorough than my teacher. My teacher is the only remaining in the country, special-class ancient building engineers.

In other respects, I am not as good as my teacher, but in terms of ancient building structure, I dare to say that I am the first in China. You insist that the structure of the ancient building you painted is fine, and I can understand it. After all, this is what you have painted so hard, it must be difficult to accept, and all your paintings are invalid.

But don't lose face because of yourself and forcefully construct these problematic ancient buildings. This harms other people, your responsibility is essential! Let me put it this way, this kind of problematic drawing scheme, I will not go to construction! "

Li Ya'er sighed helplessly, and said to Lin: "Mr. Lin, otherwise, the drawing plan is still drawn by a high-level engineer, which will only take a few days. At most, it will delay the filming of the crew for a few days. Is this OK?"

Lin Kai responded indifferently: "I said, there is nothing wrong with the ancient building structure on my drawing. If there is a problem, how can I take it out. The senior engineer is not enough academically, and claims to be in the ancient building structure. The research in this area is the first in the country. In my opinion, it is a vain name."

This made Gao Zhengsheng's face even colder: "Mr. Lin, what are you talking about? You said I don't have enough academics? It's just a fame?"

Lin Kai continued to speak lightly: "Yes, you don't even know the structure of this ancient building. Fortunately, you said that your research on ancient architecture is the first in the country. Also, no one knows ancient times better than you. Architecture, tut..."

Goldman Sachs was a little annoyed: "Hehe, tell me how strong this ancient building structure you have painted is! If you can prove it, I admit that I have a false name, otherwise, you will slander you!"

Lin Kai shrugged: "Since you don't believe it, only the proof is for you to see. So I have to do a simple experiment. Just follow my drawings and build a simple house in the way of an ancient building structure. In this way, we can clearly see whether the structure of this ancient building is strong or not."

What's a joke, but he used his extraction ability to extract the best ancient building structure plan, would it not be strong?

But everyone was curious when they heard Lin Kai's words. Is Lin Kai really so confident?

Even Gao Zhengsheng frowned, with a little doubt in his eyes, but after another thought, no one knew architecture better than me.

Therefore, Gao Zhengsheng sneered again and again and called a group of workers.

Fortunately, the materials have already been transported here.

Gao Zhengsheng commanded these workers and began to build simple houses based on the ancient building structure painted by Lin Kai.
