Chapter 1621: Bugs

So wait a minute, if Lin Kai sits on this chair, then all the broken legs of the chair naturally cannot bear the weight of people, so they fall to the ground.

Then, Lin Kai was definitely stabbed by the sharp spikes on the chair.

Xu Kaiwei continued to think viciously.

Where did he know that Lin Kai had already seen through these little vulture skills.

Now that Lin Kai had seen it through, he wouldn't try to hide anything, so he just kicked it over, and the chair fell instantly.

Although Lin Kai didn't use much strength, the chair still seemed to have received a heavy blow, instantly like a cannonball, flying out in several directions, making great movements.

All the students at the scene were shocked by the movement.

After Lin Kai finished this, he looked at Xu Kaiwei faintly, and said calmly: "Only the mentally retarded can think of this kind of trick."

Xu Kaiwei's face flushed red immediately, when Lin Kai said so, especially in front of many juniors and sisters, he was said so, and there was no face at all.

After all, these classmates knew that it was his idea, and at this moment he couldn't wait to find a place to sew it.

But facing Lin Kai, he still wouldn't admit it, and snorted coldly: "I have said it, this is not what I did!"

The corner of Lin Kai's mouth showed a playful look: "I said, did you do this? I'm just saying that only the mentally retarded can think of such a trick."

When Lin Kai said this again, Xu Kaiwei's expression became even more embarrassed.

Don't talk about Xu Kaiwei. Those who set up these traps with Xu Kaiwei this time also turned red, and they were obviously ashamed by Lin Kai.

Those female classmates were all relieved. They did not expect that the person invited by Professor Yang Deren was indeed unusual.

At least in terms of seeing traps, it is still better than ordinary people.

If you change to an ordinary person, maybe Xu Kaiwei will really be very miserable. When everyone's expressions were inconsistent, a girl suddenly appeared at the door. The girl frowned and said, "Whats the situation? Isn't this potion used for experiments? Who brought such a dangerous thing, who brought the plastic bucket? Pretend, even knocked over

Earth, is anyone injured? "

When all the students in the classroom saw this girl, many of them yelled: "Mr. Xu! Why did you come?"

The person here is Xu Qingcheng, that is, yesterday, Lin Kai was the teacher of the college who treated his feet and waist disease.

Xu Qingcheng also studied Chinese medicine, so she also taught this aspect.

She heard that Professor Yang Deren invited someone to give a lecture, which was also an open class, so she wanted to come and listen.

Therefore, Xu Qingcheng said: "I am still idle anyway, just come to listen to the class, but you haven't answered me, what the **** is going on here, how dangerous things are brought here."

When Xu Qingcheng noticed that many classmates looked at Xu Kaiwei's place, Xu Qingcheng couldn't help but ask: "Xu Kaiwei, what is going on? Are you using it for something bad?"

Xu Qingcheng had to doubt Xu Kaiwei. Although she and Xu Kaiwei both had the surname Xu, they had nothing to do with each other.

Xu Qingcheng also knew that Xu Kaiwei used his status as the president of the student union, which was often domineering.

At this time, Xu Kaiwei would naturally not admit it, and repeatedly denied it and said: "It wasn't me who did it, I'm not that retarded. I don't know who did it, right?"

Xu Kaiwei said, his eyes swept to all the students on the scene.

The implication was that they actually continued to threaten the group of female classmates.

As for the male classmates who all participated, of course they were on the same line with Xu Kaiwei, each of them echoed Xu Kaiwei: "Indeed, I don't know who did it."

Xu Qingcheng frowned her eyebrows. In fact, she didn't believe it, it was probably Xu Kaiwei.

She was about to say something, she glanced at Lin Kai on the podium suddenly, and suddenly said in surprise: "Mr. Lin, you, why are you here?"

While talking, Xu Qingcheng stepped on high heels while waiting, and quickly came to the podium and stood beside Lin Kai.

Lin Kai didn't expect that Xu Qingcheng would come, so he responded with a smile: "I was invited by Professor Yang Deren."

When Xu Qingcheng heard the words, she immediately realized: "No wonder! If it's you, then it's normal!"

Xu Qingcheng had also heard before that Professor Yang Deren invited a young man in his twenties. As a teacher at the school, she knows some of the inside stories better, and the school side initially opposed it.

But the old Professor Yang Deren insisted on inviting the young man, saying that the level of the young man would be very high and he would definitely teach the students some knowledge.

At first, Xu Qingcheng also disagrees. Traditional Chinese medicine is more popular as it gets older. A twenty-year-old young man, even if you learn from a young age, will have more than ten years of experience.

For old Chinese medicine practitioners, which one has 30 to 40 years, 40 to 50 years of experience.

So Xu Qingcheng didn't take it seriously, but old Professor Yang Deren could insist that the young man would teach students knowledge.

This made Xu Qingcheng very curious, so let's take a look.

Now that I learned that it was Lin Kai, I understood why the old Professor Yang Deren insisted on inviting Lin Kai. She also believed that Lin Kai could teach students knowledge. Not to mention students, even teachers can learn things! She knows that Lin Kai's Chinese medicine is really good. After all, her illness was cured by Lin Kai. Her disease, even Professor Yang Deren, can only treat the symptoms but not the root cause. As a result, it took Lin Kai a few minutes, her

The illness is completely healed. Xu Qingcheng was very pleasantly surprised, but she also noticed that the chairs were torn apart, and many spikes were scattered. She immediately wondered what she was doing, so she asked Xiang Linkai, "Mr. Lin, are these students using these? Means to fix you

Up? All right? "At this moment, Xu Kaiwei became nervous in an instant. After all, Xu Qingcheng is a teacher, or a teacher in his department, if it is revealed. He, the student council president, will not be able to do it. He doesn't have the title of student council president. , Then only

There will be some problems on the resume.

The other male classmates who participated were also very nervous.

Lin Kai doesn't have much time to say this now. He has a way to teach Xu Kaiwei, and he responded: "I'm fine, it's still important to lecture."

Xu Qingcheng nodded when she heard Lin Kai say this, but she still could see that Xu Kaiwei must have done it, so Xu Kaiwei and others were asked to clean the hacksaw frame here and the doorway. After everything was cleaned up, the bell just rang, and the lectures were available.

Chapter 1622: Public Consultation

At this moment, Dong Shu just stepped on the spot and ran into the classroom, spitting at Lin Kai as he ran: "The tutor didn't find me at all. I didn't expect that the classmate had mistaken my tutor."

Lin Kai shook his head slightly when he heard this. How could he not know that Xu Kaiwei deliberately distracted Dong Shu.

However, Lin Kai didn't say much. He had already rang the bell. He had to start the public lecture and complete the mission of the system.

Dong Shu and Xu Qingcheng also understood that the time for the open class was up, so they found a place to sit down and prepared to listen to Lin Kai's public lecture.

When Lin Kai saw everyone sitting down and quiet, it might be his previous actions that shocked all the students on the scene.

Even Xu Kaiwei sat there honestly, not daring to do anything.

However, Lin Kai could see that in Xu Kaiwei's eyes, he and another male classmate were still looking at each other. It seemed that he was going to wait and what he would do.

Naturally, Lin Kai was not afraid. He didn't let Xu Kaiwei go out. He wanted to see what Xu Kaiwei did.

Therefore, he didn't delay any more time, so he said lightly: "Hello, my classmates, my name is Lin Kai, I am invited by Professor Yang Deren, for..."

Before Lin Kai finished speaking, a male classmate suddenly interrupted Lin Kai's words: "True Moji, your age is not as old as ours, what can you teach me as far as your level is? Really ridiculous!"

This male student who spoke out was the one who Xu Kaiwei glanced at each other just now.

The first person to frown was Xu Qingcheng. She knew Lin Kai's medical skills, but as a teacher at the college, she couldn't stand up and refute the student's words immediately.

More importantly, even if she stood up to refute, there was no strong evidence.

Xu Qingcheng was thinking about whether she should stand up and refute. Lin Kai said indifferently: "It has nothing to do with age, as long as you work hard and talented enough, in any industry, you can be a top-notch position at a young age. I have some experience in Chinese medicine. I believe you all. After listening carefully

, There will be some gains. "

He was not only talking to the student who was speaking out, but also to everyone present.

What Lin Kai said is true, although talent is also important, but hard work is also important. He can achieve today's achievements, not only relying on some talents, but more of all kinds of sweat and persistence.

Even if he is a cultivator now, but to become a cultivator, his life is in danger at every step. At this time, another male classmate sneered: "Meaning, you have achieved the top position? What a joke! Do you think you are the old professor Yang Deren! Don't be nonsense! I guess, you are in the field of Chinese medicine, without us. Great! And you are so

Young, am I not in college yet? You are not qualified to teach us! "In response, Lin Kai still looked calm, and said, "Yesterday, there was a special patient in the central hospital of Nanjiao City. Mr. Cheng, Professor Yang Deren, and Dean Feng Jiayi of your college, Dean Wang of the Central Hospital, and

More than ten famous medical experts in Chinese medicine. They are all helpless with the disease of that particular patient. Finally, Professor Yang Deren invited me over to see the illness of that particular patient. And I, using Chinese medicine, cured that special patient's disease. In this way, not qualified yet

, Give you a lecture? "

Lin Kai seemed to be making a statement, something very common.

However, Lin Kai's words fell in the ears of everyone at the scene, looking at Lin Kai in shock.

They all learned this aspect, how could they not know that Lao Cheng and the like mentioned by Lin Kai are the top experts in this aspect.

If Lin Kai said so, of course he is qualified to teach here, let alone qualified, can become a professor here, not necessarily.

Most people still believe in Lin Kai. After all, they have said it openly. There must be such a thing.

Especially Xu Qingcheng, she knew that Lin Kai's medical skills were so powerful, and she couldn't imagine that she could be as good as Professor Cheng Lao and Professor Yang Deren.

If she hears that after Lin Kai, she has taught Lao Cheng, Professor Yang Deren, and the group of famous medical experts, it will be even more shocking.

Of course, some of the students at the scene did not believe it. For example, headed by Xu Kaiwei, a male student suggested by Xu Kaiwei sneered: "I have seen bragging, but I have never seen you bragging like this. Let alone Cheng Lao and Yang Deren, such top-notch old Chinese doctors. There is a famous doctor in it

Home, a finger is better than you.

You still brag that you can cure the patient, and they can't cure the patient! It should be that they cured the disease unintentionally, but you picked it up and put gold on their face! "

The male classmate was also clever. He did not deny that Lin Kai went to the hospital to treat the patient, but he attributed the credit to Lao Cheng and Professor Yang Deren.

Many students at the scene seemed to think that this made sense, but it might be the case.

If Lin Kai didn't think it was for the sake of a group of students, he wouldn't bother to care about it. He continued to speak patiently: "Since you don't believe it, then listen patiently. Or, I will use the inspection of Chinese medicine to give some of you a doctor. If the doctor is completely correct, you should believe it. So among you

, You can stand up for any symptoms or discomforts you have recently.

Then I will see a doctor for you, I will tell you the cause of your current symptoms, and then provide you with how to use Chinese medicine to quickly cure. "

When he heard Lin Kai's words, everyone on the scene looked at him dumbfounded.

This is too exaggerated. Even the top old Chinese doctors like Professor Yang Deren and Cheng Lao can't do this. This is just like the genius doctor in the film and television drama, but that's it!

First of all, there was a male classmate with a very high hairline and about to be bald. He was very unbelieving. He immediately stood up and said: "This is what you said, but you are me. I have any symptoms." Lin Kai said lightly Glancing at this male classmate with a high hairline, he said: "You are physically weak, and you will feel breathless if you don't run a few steps, even if you run a few hundred meters, you have to take a few minutes. . Otherwise, you will

Now dizzy. Therefore, every time you run in physical education class, you always postpone it for various reasons. In fact, you are so vacant because you stay up until two or three o'clock every day. At that time, the evil spirit is the strongest. In addition, you usually like to eat cold drinks, and you always do other things at night. As a result, there is not a little bit of anger in your body, and it has become more and more empty for a long time. "

Chapter 1623: Scrambling

Lin Kai did not finish, but after a short pause, he continued: "Not only is the body weak, but the entire internal organs are all weak. You are also going to be bald. Your family does not have the habit of baldness, so neither is it. Genetic. But your body

It will cause you to gradually bald. "

Lin Kai's words made the male student with a very high hairline widened in an instant.

This male student with a high hairline never thought that Lin Kai not only explained all his symptoms clearly, but even all the details were very detailed.

It seems that Lin Kai has done a full-body examination for him and asked about his personal situation!

But this Lin Kai can see all his faults just by looking at him, it is incredible!

This male student with a high hairline was very shocked, and at the same time he hurriedly said, "Mr. Lin! Then how can I cure my weak body disease?"

This sentence was changed to Lin Kai. It was Teacher Lin, and he could tell that this male classmate with a high hairline was obviously treated by Lin Kai.

Everyone at the scene looked at Lin Kai in surprise. Lin Kai ignored those gazes and responded indifferently: "First, go to bed before twelve o'clock in the evening. If you don't even get there, don't even think about getting a thorough treatment. Second, you can buy some chrysanthemum tea every night. Soak and drink, don't drink

many. Usually eat less cold drinks, and then do not need to run sports, indoor sports, such as sit-ups, push-ups, etc., do as many as you can. Maintaining the amount of exercise in this way makes the body feel a little angry for at least half a month.

It gradually worked. "

This male student with a very high hairline expressed gratitude to Lin Kai with a look of excitement: "Thank you, Teacher Lin! Thank you, Teacher Lin! These symptoms have been bothering me. With Teacher Lin's consultation, I can rest assured!"

The male classmate with a very high hairline now trusts Lin Kai, because Lin Kai completely understands his situation. If it was wrong, as long as one place was wrong, he would not trust Lin Kai so much.

But Lin Kai said nothing wrong, as if seeing him with these symptoms with his own eyes, so he had to trust Lin Kai extremely.

At this time, all the students on the scene were also stunned.

They all know that this male student with a very high hairline can be regarded as Xu Kaiwei's younger brother. Usually, this male student with a very high hairline is next to Xu Kaiwei's domineering.

But now, he is biased towards Lin Kai. It seemed that Lin Kai was really right.

They were all shocked at what Lin Kai did!

Seeing this scene, a female student with acne on her face immediately stood up and asked Lin Kai in a low voice: "Teacher Lin, you can help me see a doctor." Lin Kai glanced at it, she had acne on her face. After the female classmate with acne, she said: "You are the opposite of the previous one. You have too much virtual fire in your body. You usually like to eat spicy and stimulating food. And you seem to be quiet, but recently you always

She loses her temper easily and is very irritable. Your acne is also emerging recently, this is not a pimples. The most important thing is that you control the degree of spicy food. You should be the one who likes to challenge recently, eating the kind of pepper that normal people don't dare to eat at all. What is the devil's spicy food?

Kinky spicy stuff. If you eat it again, your acne will never go away. "

"Huh? So serious?"

This female classmate with acne on her face was taken aback. She really likes to challenge this stimulating pepper more and more recently. Originally she grew up, she was not hot and unhappy.

Of course, it was normal to eat hot pepper before, and would not try to eat it. Normal people would not dare to eat hot pepper.

But recently, when she tried to eat that kind of noodles for the first time, which was very popular on the Internet, she started to like this kind of spicy chili.

Then all kinds of devil chili peppers and so on, the result continued to grow acne, and people became easy to lose their temper. She could guess that it might be the reason for eating these devil chili peppers, but she didn't care so much.

I thought she would be better after a while. But now I heard Lin Kai say this, it seems very serious. Lin Kai nodded and said, "Of course, it is said that the disease comes out of the mouth. You are a typical example. If this continues, the acne will be mild, and the stomach may be perforated. I suggest you stop eating those peppers. I really want to eat it. If it's spicy, you make a bowl of soup every day

, Boil it with dried ginger, licorice, etc., after taking it for a month and a half, the acne will disappear. "

"Understood Teacher Lin! Thank you!" The female classmate with acne on her face said gratefully to Lin Kai with joy.

At this moment, all the students were shocked beyond words.

Immediately, the classmates shouted eagerly.

"Mr. Lin, give me a doctor!"

"Ms. Lin! I'll talk about it first, let me see a doctor!"

“You are talking nonsense! Obviously I stood up first, Teacher Lin, show me!”

Whether it was a male or female classmate, at this time, they all scrambled to stand up and asked Lin Kai about their physical condition.

Because Lin Kai has proved that he is indeed very powerful, this level is simply a genius doctor!

As a result, even if those male students receive the benefits of Xu Kaiwei, their health is naturally the most important thing.

This was just one by one, and they all went to see a doctor in front of Lin Kaizheng.

When Xu Kaiwei saw this scene, his face became very embarrassed. He never expected that Lin Kai had this kind of medical skills. Especially when I saw, several of his followers all stood up and asked

Let alone this group of classmates, if it wasn't for Xu Qingcheng's face as a teacher, it was not easy to fight with this group of classmates, and she would also be tempted to ask Lin Kai to help her see if she had any physical problems.

Although I have a waist disease, there may be something wrong. Lin Kai was a little surprised seeing these classmates scrambling like this. Anyway, he has two lecture hours, he lectures to complete the task passed down in the system, so he intends to use this first class time to treat these students

.

So next, Lin Kai started to see doctors one by one for these classmates who were scrambling.

After class is over, it is a break time after class.

Xu Qingcheng couldn't help but walked to the podium and smiled at Lin: “Mr. Lin, thank you again. After I was completely cured yesterday, I stood on the podium and I was not as tired as before. It can be said that I am now His body is much better than before.” Lin responded with a smile, “It's okay. In addition, I still don't stand for too long or run vigorously these days. Although it has been thoroughly treated, I still need to take more rest these days. , Otherwise it will easily cause recurrence.”

Chapter 1624: Director Zheng

Xu Qingcheng nodded her head obediently, and said, “I will pay attention.”

As she said, she looked at Lin Kai again with a look of admiration, and said, “Mr. Lin, you have completely convinced me in the field of Chinese medicine. I did not expect that you are better than the old professors like Yang Deren and Cheng Lao. Be more powerful.

No wonder Professor Yang Deren, so persistent, invites you to come here to give lectures to students. Don't talk about this group of students in your class, they all benefited a lot after listening, and our teacher is the same. “

Lin Kai smiled and shook his head when he heard the words.

On the seat under the podium, Xu Kaiwei saw Xu Qingcheng and Lin Kai, it seemed that the relationship was quite unusual. Xu Kaiwei thought of something instantly, his eyes were full of meaning, and then he started to walk outside the classroom. When I got out of the classroom, I immediately took out my

mobile phone and made a call to the dean of education, who was the same Dai who had been pursuing yesterday.

Man with gold wire glasses.

“Director Zheng, I saw the woman you were after, chatting very intimately with a young man in this classroom. Well, well, I am here too...”

Before long, Xu Kaiwei finished the phone call with the man with gold glasses. Xu Kaiwei put the phone in his pocket while showing a rather sullen smile on his face, and then said to himself: “Lin Kai! You wait, even if I don’t have to do it, I can ruin you! Hey, want I know Director Zheng, but always

The suitor, Mr. Xu, couldn’t stand it at all. Mr. Xu was intimate with any man. “

Xu Kaiwei smiled triumphantly again. He knows that the man wearing gold glasses, that is, the director of education, can never stand this.

Last time there was a male classmate who just helped Xu Qingcheng get something, he was given by the director Zheng, who found a reason and was punished.

You can see how distorted Zheng Dean is.

It is mainly Zheng Dean, and the relationship behind it is the Deputy Dean.

Dean Feng Jiayi is about to retire, and it is the deputy dean who takes over the position of dean.

Therefore, Dean Zheng can become more and more presumptuous in the school.

What’s more, Xu Kaiwei naturally added more energy and vinegar, portraying the very intimate kind of Xu Qingcheng and Lin Kai chatting together.

Dean Zheng would definitely not be able to stand it, and he would come angrily.

Xu Kaiwei just wanted to use Director Zheng to teach Lin Kai severely.

In order for Xu Kaiwei to make it, Dean Zheng came over quickly, and at the door of the classroom, he secretly took pictures of Xu Qingcheng and Lin Kai, chatting happily on the stage. It was sent directly to Director Zheng through communication software.

Dean Zheng was indeed very angry. He saw it yesterday. Xu Qingcheng and a young man were in Xu Qingcheng’s dormitory. They didn’t know what they were doing.

However, there is that young man, plus, he is really wrong, it is hard to say anything.

More importantly, Xu Qingcheng’s attitude suddenly became tough, which made him want to find an opportunity to show Xu Qingcheng again and not allow Xu Qingcheng to contact any man.

Unexpectedly, I heard Xu Kaiwei say that it was all time for class, and he was still so close to other men.

When Dean Zheng was about to go there, he received a photo from Xu Kaiwei and noticed it instantly. Isn’t that the young man who had a very happy chat with Xu Qingcheng, isn’t he the one from yesterday?

Since then, Director Zheng was furious, so he called and called the security room.

The security captain of the security room immediately answered the phone and asked, "Which one?"
"1."

The security captain of the school, hearing this voice, he knew who it was without needing to say anything from Dean Zheng. He quickly replied: "It turns out it is Dean Zheng, haha, do you have any instructions?"

The security captain was an ordinary security guard two months ago. Because he and the deputy dean were close, he often helped the deputy dean solve some problems, and was promoted to the security captain in a short time.

And this Director Zheng, he also knows his true identity, and is the illegitimate son of the Deputy Dean.

Therefore, Dean Zheng, who is less than thirty years old, became the dean of a prestigious university.

Therefore, the security captain did not dare to neglect Dean Zheng in any way, and it was too late to even flatter.

"Now you take a few of your subordinates to Class 6 on the first floor of the central teaching building, that is the large classroom for open classes, and go and hit me."

The security captain was taken aback, but he didn't ask much, anyway, something happened and Dean Zheng was around. So he just asked: "Dean Zheng, who to beat?" Dean Zheng immediately said with a grim expression: "A hairy boy! This hairy boy pretends to be a teacher in our school, and what will he give to the students? Open class! Its so easy, you just pretend to be an ordinary teacher.

Pretend to be the teacher of the open class!

And this hairy boy even hooks up with the woman I like! This is absolutely intolerable! So hurry up and take your hand down and beat that little boy! "

The security captain, how could he not understand that the first half of the words of Dean Zheng was just a wording, an excuse.

Use this wording as an excuse to beat that hairy boy.

The security captain still knows that there will be two fixed classes in public classes every once in a while. Now a class is just over, if you really pretend to be a teacher, you will be discovered long ago, so how can you wait until now?

The most important thing is a sentence that the director Zheng said afterwards.

The security captain understood in an instant, why he was going to beat that hairy boy.

As a result, the security captain immediately said: "Director Zheng, don't worry, I will definitely handle this matter very properly."

Then, the security captain said along the way: "Since that hairy boy is pretending to be a teacher in our school, he must not be spared!"

"Haha! Good, good!"

Dean Zheng was very satisfied. As the security captain said, he said: "If this matter is really done, you still have room for improvement."

When the security captain heard the words of Director Zheng, he suddenly became energetic. The implication is that he can still be upright! This is a great thing!

Although he is now the captain of security, the captain of security is a security after all. In terms of salary and welfare, he is still far inferior to many professions in the school. There are too many jobs in schools, especially in such prestigious universities. The security captain made up his mind to get the matter done well, and go to give a severe lesson to the Maotou kid named Lin Kai! In front of Director Zheng, do a good job!

Chapter 1625: Investigate

The security captain's name was Ma Dexing. After Dean Zheng hung up the phone, he quickly called the nine security guards.

After all, it is a well-known university in China, with a large area, many teachers and students, and ten or twenty security guards.

Therefore, Ma Dexing almost called half of the security guards to teach Lin Kai's according to the instructions of the director Zheng.

So that, under Ma Dexing's command, they all picked up matching sticks and the like, and went directly to the classroom where Lin Kai was, the public lecture class.

At this moment in the classroom, the second class has already begun.

This time, Lin Kai taught these students the knowledge of Chinese medicine that the system gave. Of course, whether you can comprehend the knowledge points depends on your personal attainments.

At least, yesterday he understood a lot for Cheng Lao and Professor Yang Deren. In particular, Professor Cheng Lao and Professor Yang Deren have made great progress.

But this group of students still can't understand the current deep knowledge. Just let them remember, and when they can understand it later, not to mention how high their future achievements are, but how to be a well-known doctor.

When Lin Kai said, this system task was also completed, and the rewarded silver extraction ability is estimated to be useless for a lifetime.

He didn't have much, after all, the current silver extraction ability depends on luck. If you are lucky, the ability to extract silver is somewhat useful, but if you are lucky, you may not be able to use it in this lifetime.

But, there is no absolute thing in the world. In short, the more extraction capacity, the better. Who knows what accident will happen on the day, and it will be useful.

At this time, the classmates at the scene, no matter who it was, even if it was Xu Qingcheng, as a teacher, she was instantly fascinated by Lin Kai's lecture.

It turns out that Chinese medicine still has such a magical method, but this knowledge is still difficult. If you don't take the time to research, you can't understand the real thing.

But even if you know these simple knowledge points, you can still benefit for life.

This group of students did not expect that Lin had a meeting to share this new knowledge with them.

Each one more admired Lin Kai.

A female classmate couldn't help but exclaimed: "Mr. Lin, you are too good! Old Professor Cheng and Professor Yang Deren, I guess they are not as good as you!"

This is the female student sincerely praising Lin Kai. After all, Lin Kai's knowledge can treat many complicated and intractable diseases.

The other students, except for Xu Kaiwei, were all impressed by Lin Kai.

As for Xu Kaiwei, no matter where he has the mind to listen to Lin Kai's class, he originally hated Lin Kai very much, which is equivalent to an enemy. So he can't go to the enemy's class.

More importantly, in his opinion, Lin Kai's knowledge point is just a good one, thinking that there is no such thing as a shit, and he doesn't even bother to learn this stuff.

Therefore, Xu Kaiwei would not go to the class taught by Lin, but always play with his mobile phone there.

Especially now, he learned from the little brother outside the classroom that a group of security guards had already arrived here, which made him very excited. Looking at Lin Kai on the podium, there was a vague complacency in his eyes.

According to the report from his younger brother, there were about ten security guards who came over with sticks and the like. Let Lin Kai this kid be beaten up!

But now, when Dong Shu saw these classmates, he was impressed by Lin Kai, and there was a hint of pride on her pretty face. This was the man he liked.

Xu Qingcheng, who was sitting next to Dong Shu, looked at the podium, Lin Kai who was giving a serious lecture, an admiring look appeared in her eyes. She didn't expect Lin Kai to be so talented.

Xu Kaiwei just noticed that the look on Dong Shu's face made him very angry. I prayed in my heart that the school security group would come soon, so that Lin Kai would be ashamed in front of all the students on the scene!

Especially in front of Dong Shu, let her see how incompetent Lin Kai looked when she was surrounded by the group of security guards!

Just when he was going to ask, the boy outside the classroom, when the group of security guards would arrive.

Unexpectedly, a group of security guards led by Imad, one by one, broke into the classroom of the public lecture.

Except for Xu Kaiwei's surprise look, all the students at the scene, including Xu Qingcheng, the school teacher, were surprised at why the security guards broke into the classroom during class.

Did something happen?

Under the surprised eyes of everyone, the security captain Ma Dexing looked at Lin Kai on the podium first, and sneered: "Who are you? You shouldn't be our school teacher? Why are you teaching here?"

Of course Ma Dexing was asking knowingly, otherwise, there would be no reason to do something with this kid. He naturally knew that the public lectures at this time were invited by the school. Not a teacher in this school, it's normal.

Lin Kai responded indifferently: "I am..." Before Lin Kai could finish speaking, this Ma Dexing quickly interrupted Lin Kai's words, and then commanded a group of security guards behind him, and said in a cold voice: "That's it through someone reporting People! Pretending to be a teacher in our school is too bad and must be stopped in time

only! Otherwise, the teachers and students of our school will be deceived by this person! Take it directly to me, take it back to the security room, and investigate! "

When Ma Dexing finished speaking, all the students at the scene were very puzzled. Lin Kai had already used the knowledge of Chinese medicine to teach them.

The students at the scene did not doubt that Lin Kai was a fake teacher. It is Professor Yang Deren, the teacher invited to give them a public lecture.

If they were changed to an average level of Chinese medicine, and they were so young, they would be a little surprised at what Ma Dexing said.

But now, Lin Kai's ability, let alone teaching them, can directly become the top professor of this school, the kind who is as famous as the old Professor Yang Deren, there is no problem.

How is this possible? I am impersonating a teacher.

As the teacher of this school, Xu Qingcheng is the only one on the scene, and of course he has the obligation to stand up and defend Lin Kai.

So she couldn't help but said to Ma Dexing: "Captain Ma, I think you have misunderstood. This teacher's name is Lin Kai, who was invited by Professor Yang Deren."

Ma Dexing knew that Xu Qingcheng was here, but he also understood that Director Zheng had long attributed Xu Qingcheng to his woman.

As a result, Ma Dexing naturally did not dare to offend Xu Qingcheng, but just bit the bullet and smiled: "Teacher Xu, you don't know anything about it. It's not just a few days after the freshman school started. There will always be some at this time. Small gangsters in the society, idlers, etc., got into our school and made trouble. We just took him to the security room to investigate. As you said, he must be released."

Chapter 1626: Taken Away

This was Ma Dexing, who had already thought out the wording, and took Lin Kaiqi away without guilty of Xu Qingcheng.

After all, Director Zheng, if he said, if this matter is done, then he can be promoted by one or two in the future.

As for the so-called, taking Lin Kai to the security room for investigation was nothing more than an excuse.

There is no need to investigate anything at all, just take it back to the security room and close the door again. Let the security guard under his hand severely beat Lin Kai to relieve Dean Zheng, even if the matter was settled.

So at this time, Ma Dexing didn't have Gu Xu Qingcheng's next words, and once again called the security under his hand to go to the podium to catch Lin Kai.

Although these security guards are all young and tall men, in Lin Kai's view, they are like ants.

But the scene is basically all students, and he doesn't want to do anything here. The most important thing is that he wants to see who is targeting him.

How could Lin Kai fail to see that these security guards were targeting him with a purpose. Obviously, someone behind the scenes is ordering these security guards to take him away.

So Lin Kai didn't resist anything, letting two security guards, one on the left and the other on the right, grabbed his arm.

In fact, as long as Lin Kai shook it slightly, the two security guards would be shaken out, but he wanted to see who brought these security guards over.

Of course, it is impossible for Lin Kai not to refute anything, which also raises doubts.

Lin Kai casually said, "Ms. Xu is right. I was invited by Professor Yang Deren to give a lecture to the students."

Ma Dexing is reluctant and unforgiving, humming: "Is it right? You will go to the security room to investigate with us. If not, I will let you come back and continue the class. This is the school's regulations, we just follow the rules, please You cooperate."

Naturally, Ma Dexing was talking nonsense, and was nothing more than taking Lin Kai away as soon as possible to avoid any accidents.

Lin Kai understands that Ma Dexing is definitely not forgiving. He just wants to achieve this goal, so he pretends to be very helpless, and said: "Yes, the clearer is clear, I will walk with you. "

Ma Dexing couldn't expect it to go so smoothly, and he was very happy, but he didn't want to make the matter a lot, after all, there were so many students on the scene.

So he asked the two security guards to loose Lin Kai's arms before he said to Lin Kai, "I don't want to make it difficult for you, as long as we walk with us."

Lin chuckled: "No problem."

As he said, he put down the chalk in his hand, and get out of class is about to end anyway, and his content is almost the same. What's more, the system task has been completed.

"Mr. Lin!"

On the contrary, Xu Qingcheng looked anxious. She might have guessed something, otherwise Lin Kai would not be taken away for no reason. So she said, "Mr. Lin, don't go with these security guards. I will call now. School, you..."

Before she finished speaking, Lin Kai was able to guess something, and smiled faintly: "It's okay, it's about to end get out of class, don't bother you to find a school."

After speaking, Lin Kai followed the group of security guards.

Dong Shu also looked worried. She did not expect that the group of security guards at the school would not find out in advance, so they would just take people away at will. "Teacher Xu, I just called old Professor Yang Deren. It is estimated that Professor Yang Deren is at Baishantang, where he is treating patients and has no time to pick up. How is this good?" Dong Shu is not worried about the security guards, what about Lin Kai Kind, but worried

She always felt that there was something strange, for fear that it would be bad for Lin Kai.

After all, in a place like a school, it would be bad if you just give it a charge.

Xu Qingcheng thought for a while, and said, "I'll call the dean. The dean will come over to the school today. I don't know if he has come now."

It didn't take long.

This group of security guards led Lin Kai into the security room.

As soon as they entered the security room, the two security guards split up, one closed the door tightly, the other closed the window, and then pulled the curtains down.

In this way, people passing by can not be seen at all, and what is happening inside can not be heard.

Lin Kai had a calm face, as he expected. But Ma Dexing looked at Lin Kai triumphantly, and said with a weird smile: "Boy, are you scared? Hey, you don't need to know anything. In short, you are in our school, posing as a teacher! Neither Will transfer you to the police

, But you still can't do without a severe beating! "

After Ma Dexing finished speaking, the security guards under his hand were all knowingly, they stepped forward and surrounded Lin Kai, all picked up the sticks in their hands, and all smiled weirdly.

Lin Kai's face was still calm, his eyes narrowed slightly. Since there was no conclusive evidence, he was not easy to judge, who wanted to get him.

He didn't bother to guess who it was, didn't these security guards want to teach him? After he gave the group of security guards a lesson, he asked the group of security guards who instructed them to do so.

As a result, Lin Kai glanced at the group of security guards indifferently, and said calmly: "If you want to make a move, do it. I advise you to go together, otherwise it would be a waste of my time."

Ma Dexing was surprised, why Lin Kai was still so calm, and now he still said such big talk.

Ma Dexing looked at Lin Kai with an idiot look at Lin Kai's such big talk. Really, the group of security guards under his hand are eating dry food?

Look at you again, let alone a group of people on board, a security guard under his hand may have put this kid on the ground.

The group of security guards who surrounded Lin Kai were both disdainful and angry. They did not expect to be looked down upon by such a young boy.

These security guards were very angry, so they couldn't care about anything, they just surrounded Lin Kai.

In an instant, there was a sound of fists hitting meat in the security room.

Outside the security guard, Xu Qingcheng, Dong Shu, and some classmates who were worried about Lin Kai also followed.

Xu Qingcheng didn't get through the dean's phone, nor did she know what she was doing.

So I had to follow along, especially now that I heard there seems to be a fight in the security room.

Although the doors and windows are closed, some movement can still be heard inside.

Except for Dong Shu, the other students were all worried after hearing the movement inside.

"Teacher Xu, what is the situation! Why did the security guards act on Teacher Lin!"

"Yeah! Mingming Lin was invited by Professor Yang Deren!" Xu Qingcheng also expressed deep concern. She currently has no good solutions. She can only knock on the security door and shout: "Open the door!" Open the door! Captain Horse, you really misunderstood!"

Chapter 1627: Until Serving

Chapter 1627

Xu Kaiwei naturally followed. At the end of the group of classmates he stood there, he saw the anxious appearance of Xu Qingcheng and others, and an extremely proud expression appeared on his face.

He estimated that Lin Kai had already been severely taught in the security room.

Especially from the security room, the sounds that were just made seemed to be fists, and it seemed that Lin Kai had been beaten miserably.

What surprised Xu Kaiwei was that he noticed Dong Shu's expression and was very calm, as if he was not worried about Lin Kai at all.

what's the situation?

Xu Kaiwei was a little puzzled, could it be that Dong Shu didn't like Lin Kai at all, so she didn't care at all?

Thinking about this, Xu Kaiwei is still very pleased. If it is true, it would be great.

But the next moment, what made him even more puzzled was why different people made the screams from the security room at this time? It seems that there are many people screaming there, what's the situation?

At this moment, there was no more movement in the security room.

And at this time, the door of the security room was opened.

Under the gazes of Xu Qingcheng and the group of classmates, they could see that it was Lin Kai who had come out of the security room.

The most important thing is that Lin Kai walked out from the inside unscathed, as if nothing had happened inside.

Everyone was shocked. What happened? Could it be that there was no beating inside at all?

There was a smile on Dong Shu's pretty face. She knew Lin Kai's strength, and when there were hundreds of security guards, Lin Kai could easily deal with it.

At this time, Lin Kai looked at the group of classmates and said, "It's lunch break. You still go to the cafeteria to eat. There is no need to be here. As for me, there is nothing wrong."

"Mr. Lin, has the investigation been made clear? Why did something happen inside just now?" Xu Qingcheng was quite puzzled, and it didn't seem to be a mistake. It's okay for a person to hear it wrong, but it's impossible for a group of people to hear it wrong.

Upon hearing this, Lin Kai completely opened the door of the security room. Standing outside, Xu Qingcheng and others saw the whole view of the security room.

I saw in the security room, Ma Dexing's group of close to ten security guards, all lying in them, all screamed in pain, as if they had been beaten strongly.

Lin Kai pretended to be very helpless: "This group of security guards have to discuss with me, no one would think that they would be so casual."

With that said, he glanced at Ma Dexing and said lightly, "Captain Ma, isn't it? I'm right?"

"Yes! Yes! Our craftsmanship is not good, we were beaten well!" Where did Ma Dexing dare to have any objections, he said in pain, and looked at Lin Kai with fear.

In his eyes, this Lin Kai is simply not a human being. Just now a group of them besieged Lin Kai. Unexpectedly, Lin Kai just casually, the group of them was shocked by Lin Kai, and they were all seriously injured.

Xu Qingcheng, including those classmates, naturally could see that it was this group of security guards who wanted to beat Lin Kai, but unexpectedly, Lin Kai was even stronger than them.

Usually this group of security guards can be regarded as domineering in the school. It doesn't care about the safety of students in the school, but likes to bully some students.

As a result, those classmates looked at this group of security guards and were beaten up by Lin Kaiji, and thought that this group of security guards had been beaten well!

“Teacher Lin, from today, you will be my idol!”

Some female classmates even spoke out without evasiveness, staring at Lin Kai’s eyes.

After all, Lin Kai’s strength in the field of Chinese medicine is even more powerful than that of Professor Yang Deren. Now it has shown that fighting is also very powerful.

This made the female classmates begin to regard Lin Kai as an idol they worshipped.

Only Xu Kaiwei’s face was very gloomy, he could not think that Lin Kai was also so good in fighting.

Suddenly, Xu Kaiwei was really tricky.

At this time, even a female classmate said, “Mr. Lin, why don’t you stay as a teacher in our school? As long as it is your class, every class will definitely come! You will also listen carefully. !”

This sentence attracted the approval of other female students.

In this regard, Lin Kai just smiled: “I am not a professional teacher. Of course, if I have the opportunity in the future, I will still teach you another class.”

After finishing talking, Lin Kai let the group of students disperse again, don’t stay here.

After Dong Shu and the others have finished their meal, they have other classes to attend. After all, this is just beginning of school, so they can’t be absent from class as soon as school starts.

When Xu Kaiwei left, he looked at Lin Kai very bitterly, and at the same time showed a very helpless look.

After all, those security guards couldn’t do anything to Lin Kai.

So Xu Kaiwei could only leave without resignation.

Lin Kai looked at Xu Kaiwei’s back and narrowed his eyes slightly. He didn’t pay much attention to it. He already knew the ins and outs of specific things.

Since he encountered this matter and bothered him, he naturally had to solve it.

So when those classmates were gone, Lin Kai let Xu Qingcheng stay.

Xu Qingcheng seemed to have thought of something, so she stayed obediently, and was about to talk with Lin Kai.

At this moment, a figure rushed over here, it was Director Zheng.

It was Lin Kai who asked Ma Dexing to call Dean Zheng and deceived him.

When Director Zheng came, he was stunned when he saw that Lin Kai was not injured and stood beside Xu Qingcheng, even talking and laughing with Xu Qingcheng there.

Then he glared at Lin Kai and yelled: "Boy, all have warned you to stay away from Xu Qingcheng! I will stay away!"

The reason why Lin Kai called the Dean Zheng, was naturally the Dean Zheng who asked these security guards to teach him.

He also asked the specific reason from Ma Dexing, but he didn't expect the director Zheng to be so distorted in his heart.

Xu Qingcheng has repeatedly rejected Zheng Dean, but the Zheng Dean is psychologically distorted, completely treating Xu Qingcheng as her own woman.

In this case, Lin Kai would not sit idly by. If this continues, Xu Qingcheng will be forced to commit suicide by the director Zheng sooner or later.

As for what means Lin Kai will have next time, let the director Zheng recognize himself and let the director give up Xu Qingcheng.

In fact, it is very simple, that is, fight, fight and serve.

After hitting this, Director Zheng did not dare to have any thoughts.

Simple and rude is also the most effective way.

When Lin Kai was about to do this, Xu Qingcheng saw Dean Zheng running up, and then combined with the group of security guards to take Lin Kai away, and instantly understood.

Chapter 1628: Determination

Chapter 1628

When the group of security guards rushed into the classroom of the public lecture, the group of security guards targeted Lin Kai.

At that time, Xu Qingcheng suspected that it was Dean Zheng who was behind the scenes.

Unexpectedly, it really made Xu Qingcheng's face very bad. Unexpectedly, the director Zheng became more and more bold.

She has spoken hardly to Director Zheng since yesterday, so now it is no exception, mainly Lin Kai is next to him, very safe.

As a result, Xu Qingcheng couldn't help but speak to Director Zheng in a cold voice: "Are you getting more and more excessive?"

"What makes me more and more excessive? It's nothing to do with me, I just happened to be passing by. As for the security, I can't believe it all! Someone must have framed me!" Of course, Director Zheng will not admit anything, after all This thing is really shameful. Most importantly, the matter was revealed.

If it hasn't been revealed, according to the original plan, he will voluntarily admit that this matter was instructed by him, and then warn Xu Qingcheng by the way not to have such contact with other men.

It's a pity that it was revealed, so I won't admit it.

On the contrary, Director Zheng still looked at Lin Kai on the matter, with anger.

Without waiting for Xu Qingcheng to say anything, Lin Kai said with a smile to the director Zheng, "Is there such a coincidence?"

Director Zheng's expression became gloomy for an instant, and he continued to hum, "I am also a school teacher. Isn't it normal to pass by? On the contrary, it is you, not a school teacher, or a student. Why did you appear in our school for two consecutive days? Is it a ghost?"

Director Zheng naturally knew that Lin Kai was invited by Professor Yang Deren, but he would not admit it. Otherwise, you will be caught by the opponent.

Lin Kai heard the words of Director Zheng, his mouth continued to smile with a hint of playfulness, but his voice increased a little. At the same time, his voice said coldly: "I ask you again, did you really happen to be passing by?"

This voice fell in the ears of Director Zheng, resounding like a bolt from the blue, and his mind was blank for a moment, and he even took a step backwards with a pale face.

Seeing this, Xu Qingcheng finally confirmed that it was the Dean Zheng who arranged the group of security guards to take Lin Kai away, and immediately said, "Zheng Fugui! You asked the school security to disturb Mr. Lin, right?"

Director Zheng's mind was blank, and he couldn't help responding: "What about me!"

After seeing Dean Zheng confessed, Xu Qingcheng's face also showed anger: "Zheng Fugui! Don't think that your father is the deputy dean, so you can cover up the sky at school! In the past few months, you have done many bad things, I know it all!

Mr. Lin was only invited by Professor Yang Deren, but you are like this! Do I really think I am afraid of you? The big deal is that I'm fighting to be fired and I want to report you! "

Director Zheng immediately recovered and was very flustered. At the same time, he didn't think why Xu Qingcheng, who was so weak before, had become so rigid.

He treated Xu Qingcheng that way because he saw that Xu Qingcheng was so weak and didn't dare to do anything to him.

Unexpectedly, the current Xu Qingcheng would deal with him in a way that would kill him.

Director Zheng's face was very ugly, and he quickly said, "Xu Qingcheng, you say it again! Don't think that you can go to other places smoothly if you leave here! I'll give you the opportunity to take what you just said Yes, take it back! Otherwise, try it!"

Dean Zheng is of course alarmist, even his father, the deputy dean, has no such ability. It is nothing more than scaring Xu Qingcheng.

Xu Qingcheng no longer eats this set, and sneered: "I think your father doesn't have that much energy, right? If you really have this energy, you won't be promoted as a teaching director for two years."

Xu Qingcheng now uses Lin Kai to undermine Zheng's plan. Director Zheng did not dare to do anything to Lin Kai.

So she really wanted to understand that the director Zheng was actually bullying her, and she didn't dare to expose it before.

She took advantage of this opportunity to make Director Zheng abandon her completely.

"Yes!" Director Zheng, with a grim expression, pointed at Xu Qingcheng, and said cruelly: "You should be so bold because of this kid. Talk to me like this? You wait!"

However, the words "waiting" weren't finished, Lin Kai slapped heavily at the director Zheng.

In an instant, Dean Zheng was slapped by Lin's slap and flew far away and fell to the ground severely. The whole face seemed to have been given to Zhe by a wasp. It was so swollen that several teeth were broken.

Lin Kai used a little bit of strength to slap this dean Zheng.

Immediately, he looked condescendingly at Dean Zheng: "Wait? Who is waiting? You are too much nonsense."

Director Zheng was immediately stunned, because he had never been beaten like this since he was a child. He immediately stood up in shock and anger and yelled at Lin Kai: "Boy! Lao Tzu's father Zheng Tian! He belongs to this school." Deputy Dean, you dare to beat me! You are done!"

Dean Zheng said, losing his mind and rushing to Lin Kai.

Lin Kai glanced disdainfully, and the rushing Dean Zheng slapped it again.

Director Zheng let out a scream like a pig, and flew out again.

Lin Kai still used a little bit. This time, Director Zheng's entire face was almost a pig's head, and his mouth was full of blood.

Lin Kai naturally hit the Dean Zhengs service, and then he opened his mouth to Dean Zheng: "How old are you? Put your father on your lips whenever you want. Also, is a university deputy dean unusual??"

The real second generation that Lin Kai has seen is like Dean Zheng. Those real second-generation family backgrounds belong to the best in the country, and they dare not be presumptuous in the face of Lin Kai.

And this Dean Zheng, who is just the son of the vice dean of the university, is in the university, thinking that he can be aggressive.

When Lin Kai saw the director Zheng, he was still not convinced. He was about to do it again when he slapped the director Zheng.

At this time, several people walked in from the school gate.

One of them was Zheng Tian, the deputy dean of the medical school. He was talking and laughing to a few people in suits and leaders nearby.

Just as he walked in, Zheng Tian was talking, and he caught a glimpse of his son Zheng Fugui, lying on the ground for some reason, as if he had been beaten.

Zheng Tian was angry instantly. Who would dare to beat his **** son at school.

In the school, both teachers and students know that Dean Zheng is his illegitimate son.

Chapter 1629: Mr. Xiang Lin Admitted Wrong

Chapter 1629

This is no secret, so in the school, how much will give him Zheng Tian's face, and dare not do anything to the director Zheng.

Especially since he is about to become the dean, no one dares to do.

The most important thing is, isn't there a security room next to the school gate?

With so many security guards around, who would dare to beat his illegitimate son?

Zheng Tian thought with a gloomy expression and couldn't help but glanced at the security room, he was immediately taken aback. Because he saw that in the security room, the group of security guards were all lying on the ground, all screaming in pain, as if they had been subjected to a fierce attack.

"what's the situation!"

Zheng Tian was stunned, and at the same time more furious. It was normal for him to come to school in the morning. In the morning, a few higher-level leaders came from the provincial capital to investigate. After all, school just started.

Whoever thought of bringing the leader, he saw this scene.

Didn't this leave a very bad impression in front of these senior leaders?

The assailant must be dealt with seriously!

Zheng Tian thought of this and looked at the person in front of his son. Since he was facing his back, he couldn't see who it was.

But when he looked at that figure, why he was so familiar, he should have seen it.

"President Zheng, what happened to you?"

Beside Zheng Tian, a man in a blue suit spoke.

Judging from these people, the man in the blue suit is the head.

Zheng Tian didn't dare to be negligent, and immediately apologized to the man in the blue suit:

"Something went wrong at school, I will solve it now."

After Zheng Tian finished speaking, he quickly went to Lin Kai and Zheng Dean.

Director Zheng on the ground saw Zheng Tian coming, his face was instantly delighted, then pointed at Lin Kai, and then showed a hideous expression: "Father! This kid is pretending to be a teacher in our

school. I asked the security guard to bring this kid back. The security room investigated, but I didn't expect this kid to cooperate at all, and even started to beat the group of security guards and me!"

Before Zheng Tian approached Lin Kai, he didn't see what Lin Kai looked like, so he directly angered Lin Kai: "Who are you? Do you know what you are doing? Dare to be so presumptuous at school!"

Lin Kai heard the words and felt that the voice was familiar, so he turned his head and saw Zheng Tian.

He suddenly understood why his voice was familiar. Because of the group of famous medical experts in the central hospital yesterday, besides the director Feng Jiayi there, the deputy director Zheng Tian was also there.

At that time, Deputy Dean Zheng Tian also questioned Lin Kai constantly.

In the end, Zheng Tian stayed, and after listening to Lin Kai's class, he admired Lin Kai very much.

So when he saw that it was Lin Kai, he understood what was going on.

How could Lin Kai pretend to be a school teacher? It must be his illegitimate son, and what he is doing.

As a result, Zheng Tian laughed at Lin in a very embarrassing way: "It turns out that it is Xiaoyou Lin, the young man invited by Professor Yang Deren to give lectures to the students. It is Xiaoyou Lin! Haha, it is no wonder that Professor Yang Deren insists on inviting You come to lecture!"

Zheng Tian didn't know how arrogant he was in the school. While speaking to Lin Kai apologetically, he slapped it at the bewildered Dean Zheng!

"Nizi! Admit your mistake to Mr. Lin!"

Zheng Tian also slapped very hard, because he knew that he could not offend Lin Kai if he offended anyone. At such a young age, Lin Kai has reached the top in China in terms of medical skills. Future achievements will only get better and better.

Such a young genius doctor, how dare he offend.

Director Zheng was stunned again. He didn't expect that his father was actually facing Lin Kai. And it sounds like Lin Kai seems to be very uncomfortable, he should have kicked the iron.

Director Zheng was very unwilling in his heart, but seeing Zheng Tian's gaze, he knew that he had really hit the iron plate and had to bow his head to Lin Kai and admit his mistake.

Xu Qingcheng, who was next to her, watched this scene in shock. She thought that Zheng Tian's arrival would be very unfavorable for her and Lin Kai.

How to say, this director Zheng is the illegitimate son of Zheng Tian, and he is usually spoiled. Otherwise, Director Zheng will not let it go. He does things in this school. He often turns his eyes closed when he bullies his own illegitimate child.

Xu Qingcheng did not expect that Zheng Tian not only knew Lin Kai, but also seemed to be quite afraid of Lin Kai. After seeing Lin Kai for the first time, Zheng Tian apologized to Lin Kai. Then he let his illegitimate son confess his mistake to Lin Kai.

Lin Kai couldn't think that the director Zheng was the son of Zheng Tian, so it would be much easier to handle it.

Next, Lin Kai explained the specific situation, and finally let Zheng Tian take care of his son. Especially for Xu Qingcheng's almost perverted pursuit, let him stop this behavior.

Zheng Tian nodded repeatedly while sweating coldly. It was because the later superior leaders also knew Lin Kai and were in awe of Lin Kai.

This made Zheng Tian dare not agree, and the same was true of the director Zheng.

Director Zheng recognized the superior leaders, who were all very powerful characters. Now he has not only kicked the iron plate, it is even stronger than the diamond!

Director Zheng naturally didn't dare to do anything to Xu Qingcheng.

As for Lin Kai, after seeing Zheng Tian and Zheng Dean's promise, he said a few more words to make Xu Qingcheng feel at ease.

After solving this problem, Lin Kai left the medical school.

He has completed the system tasks and finished the lecture. It also solved the trouble for Xu Qingcheng, so there was no need to stay any longer.

But Xu Qingcheng originally wanted to invite Lin Kai to dinner.

Then she learned that Lin Kai was going to treat people, and Xu Qingcheng immediately asked Lin Kai if she could follow her.

She also listened carefully to Lin Kai's class in the class not long ago.

As a teacher at the medical school, Xu Qingcheng certainly understood a little better than that group of students. So about Lin Kai's lectures, he still understood some, but only some.

If she wants to make progress quickly, she wants to see how Lin Kai treats patients.

Lin Kai considered that Xu Qingcheng had such a love of learning, so he agreed, and took Xu Qingcheng out of school together.

Immediately, Lin Kai let Xu Qingcheng get in the car, while he drove the car while contacting Qiao Daqiu, chief engineer of the Health City.

After all, in the morning, he promised Jodaqiu to treat his daughter for a disease.

Even the old Professor Yang Deren couldn't see this kind of disease, so Lin Kai became interested.

Lin Kai found that when he treated this kind of intractable disease, he could also slightly improve his cultivation. To be precise, it is a cultivation technique.

Soon, Lin Kai got through the call from Qiao Daqiu, Chief Engineer of Health City.

Chapter 1630: Four Corners Game

Chapter 1630 Four Corners Game

After Lin Kai asked clearly where is the address where Qiao Daqiu lived, he drove there decisively.

Qiao Daqiu is not from the East China Sea, but because he is responsible for the overall project here, he moved here, especially after seeing the beauty of the mountains in the western suburbs, he has decided to stay in the East China Sea.

Therefore, Qiao Daqiu bought a good house in Donghai, where he lived with his wife and daughter.

So at this time, Lin Kai drove back to Donghai and went to Qiao Daqiu's house.

Qiao Daqiu stopped what was in his hands because Lin Kai was about to come, and returned to his home, waiting for Lin Kai's arrival.

About an hour and a half later, Lin Kai drove to a villa area.

As a well-known domestic engineer, Qiao Daqiu has also been responsible for many national projects.

This time, he is the chief engineer of the health city of Li Shengxian's investment project, and he still has some family background.

After Lin Kai arrived at the villa of Qiao Daqiu, Qiao Daqiu and his wife Hu Yingying were at the door long ago, waiting for Lin Kai's arrival, all with a look of expectation.

Before Lin Kai got out of the car, Qiao Daqiu and Hu Yingying came to Lin Kai's car, and they were all welcomed with smiles.

Lin Kai got out of the car at this time.

Qiao Daqiu even more politely said: "Mr. Lin, it happens to be lunch time for lunch. I have asked my wife to make a rich lunch. After eating first, I can help my daughter take a look. Hurry up. Come in, come in!"

At this moment, Xu Qingcheng also got out of the car.

Qiao Daqiu looked at Xu Qingcheng for a moment, and said, "This lady is?"

Lin Kai responded immediately: "She is a teacher at the medical school. She specially came to watch how I treated the patients. To be precise, she came to learn."

As soon as Lin Kai finished speaking, Xu Qingcheng took the initiative to introduce herself.

Geordaqui certainly wouldn't say anything, and the same warm welcome.

Then, since I came into Jodaqui's house, I started eating first.

Lin Kai was fine, mainly because Xu Qingcheng was really hungry.

During the meal, Lin Kai wondered why Qiao Daqiu's daughter hadn't come to eat together, so he couldn't help asking: "Engineer Joe, your daughter, why didn't you call out for dinner? Or, she was very sick and couldn't leave. Bed or room?"

When Lin Kai asked, he also inquired about the condition of Jodaqui's daughter.

Qiao Daqiu shook his head helplessly when he heard this, and said: "My daughter actually has no problem with her health, just like a normal person. The only problem is that she doesn't want to get out of the room at all, and she doesn't know why.

It means that every time we eat, we will deliver food. But eat a little every time, or just don't eat it at all. If this continues, sooner or later the body will not be able to hold it. "

Xu Qingcheng said, "How old is your daughter? Isn't it depression or autism? In these cases, there will be this kind of not going out of the room and not eating much. status."

At this time, Qiao Daqiu's wife, Hu Yingying, put the last vegetable dish on the table, and then smiled bitterly: "Who knows what's going on? Didn't my daughter just start school a few days ago? With some classmates who had fun, I don't know who suggested it. I have to play some games in a classroom in the school where I committed suicide in the middle of the night.

My daughter has been like this since that night. The mental aspect is getting worse and worse, and I don't want to leave my room. I doubt whether it is an evil. "

When Lin Kai heard Hu Yingying say this, he moved in his heart and continued to ask, "What game did you play in the middle of the night?"

"What a four-corner game."

Qiao Daqiu was helpless when he heard this: "I didn't know what a four-corner game is before, but now I know that it is a psychic four-corner game. Now children, how can they pursue this kind of excitement. I hope it's not something evil. Right..."

Qiao Daqiu actually had no bottom in his heart. He had experienced the weirdness of the mountain range in the west of the city.

Of course, but now I feel a little relieved, because Lin Kai is here.

Lin Kai solved the mountain range in the western suburbs of the city. That place was weird.

Even so, Geordaqui still hopes that this is not the case. After all, this is still quite uncertain. Who knows if Lin Kai can solve this.

Lin Kai frowned when he heard this and asked about the specific situation.

Qiao Daqiu then explained the detailed process, which was learned through his daughter's classmate, who was playing the four-corner game together.

Joe Daqiu's daughter is named Qiao Shanshan, and Qiao Shanshan that night, this problem has arisen since playing for a while.

According to the statements of those classmates at the time, they didn't notice any problems. They just played a little bit, and there seemed to be no movement.

However, Qiao Shanshan was the last to leave the classroom, locked the door of the classroom, and returned to the dormitory together.

After this problem occurred, he was sent home by the school and sent to the hospital for treatment by his parents.

In the past few days, Qiao Daqiu and Hu Yingying have taken to many hospitals and met many famous doctors, but they didn't see any problems. Including Professor Yang Deren, it is the same, and nothing can be detected.

If it is not forced out, otherwise, stay in the room.

Qiao Daqiu would go every day, in the mountains on the outskirts of the city, to see the specific construction. He is responsible for the health city project.

But since his daughter was like this, he has almost lost his mind, which has caused the progress of construction to be slower.

Li Shengxian understood the situation of Qiao Daqiu, so he didn't say much.

Until the morning when Lin Kai came, Qiao Daqiu remembered that Lin Kai, who Baishantang recommended him, was alone.

Then I heard Li Shengxian say that Lin Kai solved this mountain range.

Qiao Daqiu became excited instantly and asked Lin Kai to treat his daughter.

After Lin Kai finished listening, he knew the whole process. He thought about it a little bit, but didn't say anything at this time. After eating, he will look at Qiao Shanshan's specific situation.

Immediately, Lin Kai also started to eat, and chatted a few words while eating.

When the fast food was almost the same, Lin Kai said to Qiao Daqiu: "Engineer Joe, you can't eat any food, so take me to see your daughter and see what's going on. I will proceed according to the situation. treatment."

He hasn't seen it personally yet, and he is still not sure whether Qiao Shanshan has some strange disease or something else.

On the contrary, Qiao Daqiu and Hu Yingying have not been in the mood to eat, they just started to eat a few bites, and then they couldn't eat anymore. Obviously, they are still very worried about their daughter.

Lin Kai saw it and ate it quickly at will.
