## **Chapter 1651: Unscientific**

Chapter 1651

The woman was remorseful for being scolded, and she knew it shouldn't have been that way.

Especially when Xu Huicheng said that she wanted to divorce her, she regretted it and wanted to go to Lin Kai for mercy.

However, Lin Kai had already left here with An Xiaoran and Yang Mengzi.

After all, the ambulance arrived in time, and the life of the young pregnant woman could naturally be saved.

Of course, before leaving, Lin Kai turned a trace of real energy into the belly of the young pregnant woman, allowing the child in her belly to recover. After treatment in the hospital, the child can also be saved.

In addition, the ambulance has come, and many onlookers have to give way because the ambulance has come.

Therefore, the originally congested road here has become extremely smooth.

Therefore, Lin Kai could continue to drive and stay away from this place.

He has been driving north, and the East China Sea to the north is actually a sea.

But beside the area of the sea, there is a continuous mountain range.

The mountain range is in a state of undeveloped, mainly because it is not allowed to be developed there, but is preparing to create a wild ecological forest.

This wild ecological forest has many wild animals, including bears, wild boars and even tigers.

Naturally, few people come here in this area.

Lin Kai came here to find a medicinal material called White Beard. This white beard must use the freshest.

But the white beard medicinal materials on the market are basically specially processed.

Lin Kai needed the original white beard medicinal materials so that he could heal Grandpa An Xiaoran's injuries.

So, about an hour later, I arrived at the wild ecological forest.

Few people come by itself, but the ecological environment here is in that kind of primitive state. There are many wild herbs in this place.

Lin Kai has been to this place before, knowing that there are wild herbs for white beard.

In this way, Lin Kai took An Xiaoran and Yang Mengzi and gradually approached this wild ecological forest.

If someone else is here, Yang Mengzi is still a little scared, but with Lin Kai here, she is very relieved.

As for An Xiaoran, needless to say, she is naturally not afraid of anything, and even anxious for something evil to appear so that she can solve it.

“Wow!”

Before entering this wild ecological forest, I heard a cry like a wolf.

An Xiaoran is not afraid of evil, but he is still a little afraid of such wild beasts, so he immediately said: “Lin Kai, Mengzi sister, have you heard? This voice should be the cry of a wolf? This place, How come there are wolves.”

Lin Kai couldn't help but glanced at An Xiaoran and said, “Are you still afraid of wolves?”

“Humph! Who is afraid!” An Xiaoran curled his lips: “No, I am afraid, I am afraid of a big pervert like you.”

Lin Kai was speechless.

At this time, Yang Mengzi chuckled and said, “Xiao Ran, don't worry, Lin Kai's ability to deal with wolves and tigers is still okay.”

Yang Mengzi knew that Lin Kai was very strong.

Just when Yang Mengzi's words fell, the constant cry of wolves suddenly stopped.

But suddenly, not far ahead, there was the sound of children playing for a while.

Whether it was Lin Kai, Yang Mengzi, or An Xiaoran, they were all stunned. Where did the child come from in this wilderness?

When the three of them were puzzled, they saw that they actually saw them in front of them. There were probably two five or six-year-old children chasing me.

The speed was still very fast, and it disappeared all at once, as if it had never appeared before.

This made Lin Kai squinted his eyes and secretly urged the golden pupil to look.

An Xiaoran estimated it was a professional reaction, and couldn't help taking out her blue long sword from her waist.

Obviously, An Xiaoran suspected that the two children might be evil.

As for Yang Mengzi, he looked suspicious: “There are really two children, these two children run fast. Look at the direction that runs, how come it seems to be the previous wolf cry? If two children meet that Wolf, isn't it dangerous?”

An Xiaoran nodded and said, “Sister Mengzi said it is right, let's go take a look.”

How could Lin Kai fail to see what An Xiaoran was thinking about, and thought it was evil, so he wanted to chase after him and solve it.

Lin Kai smiled faintly, did not say much, and headed in that direction with An Xiaoran and Yang Mengzi.

It's just that the three of them have chased it for one or two kilometers. If you are in the city, one or two kilometers is not too far, and the average walk is only ten minutes. Go fast, it can be done in a few minutes.

But this is a deep mountain in the wilderness, one or two kilometers is still very far away. It is difficult for adults to walk, let alone two children who are only a few years old.

So Yang Mengzi was very puzzled, and said: "Two teenage children can't run so fast, right? Why didn't you see the two teenage children along the way?"

Yang Mengzi was puzzled. The flashlight they were carrying was a professional flashlight with a very wide range and very bright light. It could still be seen within a few hundred meters at night.

An Xiaoran said: "Sister Meng Zi, don't worry about those two few years old children, let me see what is going on.

While talking, An Xiaoran took out a compass from his backpack, which surprised Yang Mengzi.

Lin Kai smiled beside him. He didn't say much, but looked around.

At this time, An Xiaoran was holding the compass, and started to say something, but it didn't take long.

An Xiaoran also looked puzzled and muttered to herself: "It's unscientific, how could it not be sensed, why not show it? Is this broken compass broken?"

Yang Mengzi, who was next to him, became even more puzzled, and didn't understand what An Xiaoran was doing.

Lin Kai was able to know what An Xiaoran thought. An Xiaoran should have been affirmed just now. Those two few-year-old children were evil, so he took out the compass. He wanted to use the means of dealing with evil spirits to find the whereabouts of the two teenage children.

The reason why An Xiaoran used the compass to find it, there was no response. It's not that the compass is broken, but that the two teenage children are not evil at all.

At first, Lin Kai thought it was something evil, but after careful observation, it was not evil at all.

He was about to say something to An Xiaoran at this time.

Abruptly, there was a sound of children playing again not far away.

It is still those two teenage children who chased me after you. Just like last time, the two several-year-old children quickly disappeared in front of Lin Kai's trio.

This time, An Xiaoran quickly chased after him without hesitation.

Yang Mengzi felt even more weird, but after thinking about it, he still followed An Xiaoran.

As for Lin Kai, he followed without any haste.

## **Chapter 1652: White Wolf**

### Chapter 1652 White Wolf

Lin Kai thought about it, and slowly walked towards An Xiaoran and Yang Mengzi in the direction they were chasing.

Yang Mengzi seemed to think of something in front of him. He turned around and found that Lin Kai was still walking slowly. He said silently, "Lin Kai, why are you so slow? So are the two children. How can they run better? The rabbit is fast."

An Xiaoran, who rushed to the front, realized that he couldn't catch up with the two children, so he stopped immediately. She just heard Yang Mengzi's words behind her, and turned her head to look at Lin Kai.

An Xiaoran's bright eyes rolled slightly, and she turned towards Lin Kai, chuckling: "Yes, Lin Kai, your speed is much faster than me. I can't catch up now, you go and chase the two children, it should be more appropriate."

Lin Kai just smiled faintly at what An Xiaoran said, how could he know what An Xiaoran was paying attention to, just want him to take action and chase the two missing children.

Then An Xiaoran will solve the evil that she thinks.

However, Lin Kai didn't break An Xiaoran's careful thoughts. He still walked forward without rushing, and asked Yang Mengzi and An Xiaoran, and said, "Aren't you curious, this barren mountain, and it was the big night when these two teenagers popped up. Even running so fast, they disappeared all at once. Didn't you feel weird?"

Hearing what Lin Kai said, Yang Mengzi, who was still suspicious at first, was shocked. Goose bumps were all up, and he hurried to Lin Kai's side, which gave him a sense of security.

Immediately, Yang Mengzi's voice was trembling, and he asked Lin Kai weakly, "Lin...Lin Kai, what does this mean?"

"Sister Mengzi, don't be afraid, if Lin Kai and I are here, it's okay." An Xiaoran said as she walked to Lin Kai's side, and then said: "That's not enough, it must be evil."

Yang Mengzi was even more afraid when she heard this. After all, in her cognition, there is no evil in this world.

But now, An Xiaoran directly insisted that the two fast-running children of a few years old were actually evil, which naturally made her feel terrified.

But what made Yang Mengzi breathe a sigh of relief was that at this moment, Lin Kai smiled and shook his head and said, "This is not evil."

"Oh? It's not evil, what is it? You wouldn't say, is it a normal child?"

This time, it was An Xiaoran's turn. Judging from her two to three months of experience in the Huaxia Mansion, the two children who were a few years old were probably evil.

However, Lin Kai said no, but she did not doubt what Lin Kai said.

After all, Lin Kai's professional level is even better than her, but I just don't understand what it would be if it wasn't evil.

When Yang Mengzi breathed a sigh of relief, she was also puzzled. She was thinking, that is not an ordinary child. If it is an ordinary child, how could it be possible to show up in the wilderness at night, and even run much faster than a rabbit.

More importantly, the two ordinary children seemed to be dressed like ancient children's bellybands. The children nowadays don't wear the old belly-pocket dress.

So, if it's not evil, what would it be?

As a result, An Xiaoran saw Lin Kai but did not answer for a long time, so she couldn't help but ask again and said, "Lin Kai, you just said it quickly.

Lin chuckled without saying a word, and said with a smile: "You'll know later, because we are very close to the two little guys now."

Ok?

An Xiaoran and Yang Mengzi both looked blank at the same time, and then under the doubtful eyes of the two women, Lin Kai walked slowly towards the left.

Seeing this, An Xiaoran and Yang Mengzi also followed Lin Kai.

After walking for about five or six minutes, the surrounding area no longer looked like all kinds of weeds, but there was an open space.

Especially at the end of this open area, there is a hillside across there, like a natural ravine, dividing this open area into two.

What made An Xiaoran and Yang Mengzi stunned was that there was a rare white wolf on the hillside.

This white wolf, under the shining of the moonlight, looked quite extraordinary, and vaguely revealed a bloodthirsty and violent aura. Especially now, the white wolf is staring at Lin Kai, An Xiaoran and Yang Mengzi.

Yang Mengzi banned An Xiaoran and approached Lin Kai again. She was weak and weak: "Could it be that the two weird children have been eaten by this white wolf?"

An Xiaoran is actually no more nervous than Yang Mengzi, she is not afraid of any evil. For example, in that ancient tomb last time, the hydra evil is very powerful.

In order to save people, An Xiaoran rushed forward without hesitation and fought with the hydra evil.

This proves that she is not afraid at all.

But it wasn't evil, she was still a little afraid of all kinds of wild wolves, tigers and lions.

However, in order not to let Lin Kai despise her, she pretended to be calm, but she still held the blue long sword in her hand and looked at the white wolf vigilantly.

Generally, wolves are social animals. As long as there is one wolf, there must be at least ten or twenty wolves nearby.

Although An Xiaoran believed that she and Lin Kai could still deal with dozens of wolves. But I am also afraid that it will attract other wild animals. In other words, I don't know how many wolves there are.

Once there are too many, Yang Mengzi is just an ordinary person, and it is inevitable that there will be missing wolves, which is not very good.

Therefore, An Xiaoran couldn't help saying: "Lin Kai, let's not look for the two teenage children. Although the two teenage children are not evil, they cannot be humans. So, let's withdraw first, I'm still looking for white beard medicinal materials."

Although An Xiaoran still doesn't understand what the two teenage children are, but now they can't manage that much, it's important to withdraw first.

Yang Mengzi also agrees with what An Xiaoran said, since he is not a normal child, then there is no need to risk finding it. She naturally worried about her own safety, and also worried about the safety of Lin Kai and An Xiaoran.

Even though she already knew that Lin Kai and An Xiaoran had something extraordinary, after all, they might be facing wolves.

At this time, Lin Kai shook his head and smiled: "Aren't those two children who are a few years old also on the hillside?"

"what?"

An Xiaoran and Yang Mengzi were both taken aback.

Then the two girls immediately looked at the hillside, and saw the two teenage children next to the white wolf. I don't know when they were there.

And the two teenage children were very, very close to the white wolf, only ten centimeters away.

By the way, those two few-year-old children were playing around.

### **Chapter 1653: Tiancai Dibao**

Chaotic Sword God Chapter 1653

In other words, the white wolf wants to attack two teenage children at any time.

What made An Xiaoran and Yang Mengzi both stunned was that the white wolf seemed to have not seen the two teenage children next to them, playing there.

The white wolf still stared at them with bloodthirsty and violent eyes.

An Xiaoran and Yang Mengzi both glanced at each other, and they could see that each other was puzzled. They already knew from Lin Kai that the two few-year-old children were neither evil nor human.

So what is it that will come to the hillside at such a fast speed. Moreover, staying next to that white wolf, it was all right.

An Xiaoran couldn't bear the curiosity in his heart, and said to Lin Kai: "Lin Kai, just tell me, what are those two teenagers?"

Lin Kai was surprised at An Xiaoran's sudden act of acting like a baby. This was the first time he saw An Xiaoran like this, and he immediately glanced at An Xiaoran a few more times.

An Xiaoran found that Lin Kai still hadn't answered her, so she rolled her eyes at Lin Kai, she was so coquettish, and even indifferent did not answer her.

At this moment, Lin Kai smiled and asked An Xiaoran, "Are you afraid?"

"Afraid? I'm not afraid!" An Xiaoran hummed immediately.

"Don't be afraid of you, just follow me to protect Meng Zi, and you will know what it is later."

After Lin Kai finished speaking, he immediately headed towards the hillside.

An Xiaoran hummed suddenly, she didn't want to be despised by Lin Kai. Of course, she still has to consult Yang Mengzi. After all, in this situation, she still has to protect Yang Mengzi.

Yang Mengzi probably saw that Lin Kai was so confident, so he said it was okay and went with him.

So An Xiaoran took Yang Mengzi, followed Lin Kai and walked over to the hillside.

But this time, I don't know why, the two few-year-old children have been playing next to the white wolf all the time.

It's not like the previous two times. You chase me after two teenage children, and they disappear all at once.

More importantly, with the approach of Lin Kai, Yang Mengzi and An Xiaoran, the white wolf's eyes under the silver glow became more fierce. He even let out a low growl, as if to make Lin Kai, An Xiaoran and Yang Mengzi leave quickly.

Naturally, Lin Kai's expression was very calm, and he still approached the hillside unhurriedly, and now he is infinitely close.

An Xiaoran was still very nervous, for fear that the white wolf roared so loudly, and then called dozens or hundreds of wolves, that would be regarded as stabbing the basket and not easy to handle.

It's just that on the surface, she is still very calm, holding Yang Mengzi, while holding the blue long sword in her hand in front of her, ready to shoot.

After a while, Lin Kai had completely come to this hillside.

Previously, it was because the distance was a little far away, and the silver brilliance happened to be scattered on the hillside, resulting in a gray shadow when viewed from a distance.

Now I got closer and saw that this white wolf turned out to be as big as an adult tiger.

Normally, at least three ordinary wolves can be compared to an adult tiger.

As a result, this white wolf is already a heavyweight equivalent to an adult tiger.

If there are wolves nearby, then this white wolf definitely belongs to the king of the wolves.

When Lin Kai was looking at the white wolf, the white wolf was also staring at Lin Kai vigilantly, and opened his mouth slightly to reveal the sharp fangs inside. Especially under the sprinkling of Yinhu, it looked even colder, like a sharp knife point.

At the same time, An Xiaoran took Yang Mengzi and also came behind Lin Kai, but still did not step forward.

On the hillside, not only the white wolf, but also watching Lin Kai.

Those two few years old children also saw Lin Kai, An Xiaoran and Yang Mengzi arrive here.

The two teenage children first glanced at Lin Kai and the three of them, then immediately stopped playing, and instead looked at each other.

“Human! Why did you come here without making a sound!”

One of the several-year-old children was very surprised.

In fact, it was Lin Kai who secretly urged Zhen Qi to get him, An Xiaoran and Yang Mengzi, and let them approach the hillside silently.

This led to the fact that the two few-year-old children only discovered the arrival of Lin Kai, An Xiaoran and Yang Mengzi until now.

Another child of a few years old was also surprised, and then quickly said: “Run!”

The fairy tale of this few-year-old kid had just finished, and only two few-year-old children were seen. In fact, they disappeared in place without running.

At such a scene, Yang Mengzi was stunned, and was so scared that he held An Xiaoran tightly again, exclaiming: “Lin Kai, Xiao Ran, have you seen it! Those two few-year-old children just disappeared. Is it really evil?”

An Xiaoran is okay. How to say, she has seen all kinds of evildoers, and it's not strange what those evildoers do. But this time, she did feel that there was no evil spirit in the two teenage children.

In the previous two times, I saw the children who were a few years old in an instant, and there was no time to react. The two children who were a few years old had disappeared.

But this time, when she was so close to the two teenage children, she could sense that the two teenage children were indeed not evil, and it was no wonder that the compass she used did not respond.

New doubts are coming again. It's not evil, what else could it be, with this ability to disappear directly in place?

Lin Kai saw An Xiaoran's doubts and Yang Mengzi's surprise.

He didn't hide anything, and smiled faintly: "Everything has spirit, flowers, plants and trees, and all have life. Especially medicinal materials, which absorb the essence of the sun and moon itself. Coupled with this for many years, it is naturally born. Spiritual consciousness is the so-called congenial essence. The body of the two teenage children is actually medicinal materials.

To be precise, it was the white beard that gave birth to spiritual consciousness, and after a few hundred years, it could transform into an adult. The white beard was originally an ordinary medicinal material, and the two white beards have already been born with spiritual consciousness, so they can be regarded as real treasures of heaven and earth. With just a little bit of powder, your grandpa can solve the problem completely.

Originally, I had to dig a lot of fresh white beards, so I asked you to come over and help dig white beards together. Now it seems that there is no need to be so troublesome. "

Yes, those two few-year-old children are the common medicinal material of White Beard, who have absorbed the essence of the sun and the moon for thousands of years, have their own spiritual consciousness over time, and then transform into human form.

The medicinal materials do not belong to the demon, but belong to the treasures of heaven and earth.

### **Chapter 1654: Take The Beard Root**

#### Chapter 1654

Often beside this kind of heavenly material and earth treasure, there will be strange beasts guarding it.

The white wolf in front of him was guarding the two celestial treasures.

It was originally just a very ordinary wolf, but as time passed by, it mutated and became a strange beast.

In fact, it was a win-win situation. Therefore, when Lin Kai, An Xiaoran, and Yang Mengzi approached, the white wolf had been warning and staring at the three of Lin Kai.

The white wolf also had some spiritual sense, knowing that Lin Kai was very strong, so he didn't dare to act rashly. Otherwise, if he changed to someone else, he would have rushed over fiercely.

These Lin Kai did not tell An Xiaoran and Yang Mengzi, because this white wolf still belongs to the category of animals, not a monster, and there is nothing to say.

Even if I didn't say that the white wolf, just saying that the two a few years old children were the spiritual consciousness born of medicinal materials, it made Yang Mengzi and An Xiaoran just like listening to the sky.

An Xiaoran only knew that evil spirits still existed in this world, and that where grievances persist after death and where evil spirits are strong, evil spirits are still prone to emerge.

Tiancai Dibao, An Xiaoran also knows that it is nothing more than the kind that absorbs the essence of the sun and the moon, and then the effect is many times more powerful than ordinary medicinal materials.

But for the first time she knew that this heavenly material and earth treasure could also give birth to spiritual consciousness, and could also transform a human form, which she had never heard of, had never seen.

The same is true for Yang Mengzi. After all, her ancestor was an excellent Chinese medicine practitioner, and she was an ancient book from her ancestor. Although it has also been said that the treasures of heaven, material and earth may be able to give birth to spiritual consciousness, even the ancient books say that it is only a rumor, and most of it is false.

Unexpectedly, after a trip with Lin Kai, it seemed that the whole world had changed and became very strange.

Lin Kai ignored the shock of An Xiaoran and Yang Mengzi, he first asked An Xiaoran to pay attention to the white wolf. Then, he moved towards the hillside and approached again.

In fact, the two few-year-old children didn't run away, but the white beard medicinal materials on the hillside.

Lin Kai is now going to dig out the two white beard medicinal materials.

As for the white wolf, seeing Lin Kai getting closer and closer to the two white beard medicinal materials, it opened its mouth again, and this time its fangs were completely exposed, glowing with sharp cold light.

Furthermore, the white wolf kept growling low, trying to scare Lin Kai away.

This white wolf and two white beard medicinal plants are a win-win situation. It guards the two white beard medicinal plants, so that the two white beard medicinal plants don't have to worry about being picked or eaten by others or other beasts.

And the two white beard medicinal materials leaked some essence of the world and provided them to the white wolf, thus achieving a win-win situation.

If it hadn't been for this white wolf, he was keenly aware that the dangerous aura that Lin Kai radiated was too terrifying, otherwise it would not have been like this and could only intimidate.

In fact, ordinary grandmaster-level ancient martial artists can't do anything with this white wolf, but they are so passive when they meet Lin Kai.

How could Lin Kai not know what the white wolf was thinking about the white wolf's constant roar.

Lin Kai faintly said, "Don't worry, I won't pick them all. I only need to pick one white beard. From now on, you don't want to harm innocent people, and I won't do anything to you. After all, you are also very rare. Under such an environment, it is very difficult to form spiritual consciousness."

What Lin Kai said was true. He didn't know what happened on the earth hundreds of years ago, which caused the earth to have no immortal cultivators.

But through his discovery, the true energy of Heaven and Earth is not as strong as before, but rather very thin.

In this environment, it is indeed rare to be able to give birth to such a conscious, human-shaped treasure of heaven and earth.

The tree demon I encountered last time in the provincial capital only gave birth to spiritual consciousness, but did not transform into a human form. Originally, it was rare for Lin Kai to see a tree spirit with spiritual sense. Unexpectedly, the tree demon chose to harm people in order to quickly transform the human form. He naturally couldn't keep the tree demon.

But these two heaven, material and earth treasures are not the same. They belong to the heaven, material and earth treasures themselves. They only need to absorb the essence of the sun and the moon of the heavens and the earth, without using other means to evolve.

What's more, this is still in the wilderness, and it is impossible for anyone to pass by.

Lin Kai is a rare treasure of heaven and material, so he planned to take a beard with a white beard, which would not harm two white beard medicinal materials with spiritual consciousness.

Moreover, this kind of treasure is only used for healing, and has no effect on his cultivation.

The white wolf also had some spiritual sense, and naturally he could understand what Lin Kai said.

The white wolf, with a humanized half-belief in his eyes, continued to let out a few low growls. These few low growls did not mean any warning, but with a questioning meaning.

Lin Kai continued to speak: "You know, it's easy for me to deal with you. I really want to take away these two white beard medicinal materials, you can't stop it at all. I'm not talking about nonsense here."

When the white wolf heard Lin Kai say this, the wolf roared rather dissatisfied, and then stepped back.

Stepping back shows that this white wolf is already compromising.

However, the white wolf did not step back too far, but stared at Lin Kai, as if afraid that Lin Kai would really give the two white beard medicinal materials that gave birth to spiritual consciousness to a pot.

Lin Kai just smiled, not paying attention to anything. He stepped forward, then bent down, and slightly pushed away the weeds on the ground.

Under the weeds, there are two like the roots of weeds, there are several.

These are all white. If you are not sharp-eyed or familiar with white beard medicinal materials, you may not be able to recognize them. This is the beard root of white beard medicinal materials.

In fact, the real body of these two white beard medicinal materials that gave birth to spiritual consciousness is underground. This is a clear difference from ordinary white beard medicinal materials.

Common white beard medicinal materials grow on the ground like a weed.

And this kind of white beard medicinal material that gave birth to spiritual consciousness can know how to pretend to be oneself more, hiding the body under the ground to avoid it, only revealing the roots of

the beard. Even if the roots of these beards were taken away, there was no harm to the body. It was nothing more than waiting for a period of time to grow out.

So at this moment, Lin Kai circulated his zhenqi secretly without hesitation, and then condensed it into his hand, and then gently stroked it toward a long beard root.

Like a sharp knife, the long beard root immediately broke away from the white beard medicinal material.

## **Chapter 1655: Misfortune**

### Chapter 1655

When Lin Kai just finished taking the roots of this white beard.

The white beard medicinal plant let out a voice, milky voice: "Big bad guy, return my hair!"

After speaking, the white beard medicinal plant immediately turned into a child of several years old and appeared in front of Lin Kai.

Compared with the previous child with a pair of pigtailed on his head, now his head is half-bald.

This was naturally because Lin Kai took one root of the white beard. As a result, the child's head began to show signs of baldness.

So at this time, this white beard medicinal plant couldn't help showing up, and was not afraid of Lin Kai, just looking at Lin Kai very aggrievedly.

In this regard, Lin Kai just smiled: "Little guy, you are not a real human. Real humans, this kind of baldness is still difficult to get back. And you only need to absorb some essence of heaven and earth, after ten and a half days Month, you can Zhang come back.

What's more, saving a life is better than building a seven-level Buddha. I took the root of your beard not deliberately, but to save people. Of course, maybe you don't want to save people, but I have pulled out the roots of your beard. "

Lin Kai said with a smile, and then, regardless of the more aggrieved gaze of those few years old, he put the beard roots in his hands into the wooden box.

He didn't bother him, so he turned around and walked back to An Xiaoran and Yang Mengzi.

The white wolf suddenly relaxed a little when seeing Lin Kai making no further movements. However, he still stared at Lin Kai, afraid that Lin Kai would return the carbine.

On the contrary, another white beard medicinal material also turned into a child of a few years old, and then laughed at the bald child, the middle piece on the head, without hair.

Suddenly, the bald child started to play with the children of a few years old. The two little guys seem to know that Lin Kai is not bad-hearted, so that they are so bold now and continue to play around.

At this time, Lin Kai came to the side of An Xiaoran and Yang Mengzi, and smiled: "I have obtained this white beard medicinal material for the birth of spiritual consciousness. Although there is only one beard

root, it is enough to treat Xiao Ran's grandfather. . So there is no need, go and dig ordinary white beard. It's late now, let's go back."

An Xiaoran and Yang Mengzi nodded their heads when they heard Lin Kai say this. This would be great, so as not to have any accidents.

After all, now, whether it is the white wolf or the two white beard medicinal materials, the spiritual consciousness is born, which is beyond the cognitive scope of Yang Mengzi and An Xiaoran.

If there are a few more powerful ones, it is still very dangerous.

Although An Xiaoran and Yang Mengzi are still very puzzled, why this kind of phantom humanoid was born can be seen in film and television dramas. In reality, it actually exists.

An Xiaoran is naturally better, already knowing that there are evils in the world, and he is also specializing in dealing with evils. But compared to evil, this is much more bizarre.

Not to mention, Yang Mengzi, who didn't even know that there was an evil presence, was even more shocked.

In fact, it's easy to understand that Lin Kai is a cultivator of immortals, and in the world of cultivators, evil spirits are just the most common. And the treasures of heaven and earth that transform into human form are also quite rare.

Now, the treasures of heaven and earth that transform into human form only exist in film and television dramas or myths.

Although evil spirits are the same, many evil spirits are more or less believed. No one believes in the treasures of heaven and earth in human form.

This led to An Xiaoran and Yang Mengzi still in surprise.

Immediately, Lin Kai took An Xiaoran and Yang Mengzi and left the hillside.

Just before Lin Kai, An Xiaoran and Yang Mengzi had been walking for five or six minutes, a gunshot sounded abruptly from another part of the hillside.

Originally this place was the kind of wilderness, with only the sound of insects or beasts at night. Overall, it was very quiet.

With this gunshot, the silence here was suddenly broken.

Lin Kai's expression changed, he had sensed that the fast-flying bullet was heading towards the hillside position.

He didn't have time to rush to the other side of the hillside.

If he is a little closer, or the bullet is driving towards him, then he can resist the bullet, it will take minutes.

Therefore, the next moment, there was a stern wolf cry from the direction of the hillside.

Lin Kai, An Xiaoran, and Yang Mengzi immediately looked back. The white wolf in between, with a bullet in his body, suddenly fell to the ground.

On the other side of the hillside, there were two men cheering there immediately.

“Finally found a chance and hit the white wolf!”

“Haha, the blood of that white wolf should not be simple. It can definitely sell for a good price! And last time I saw it, there are two very different white beard medicinal materials, not to mention a thousand years old, the value is definitely It’s also very high!”

The two men said excitedly, and then hurriedly went to the white wolf.

Seeing this, Lin Kai decisively walked towards the hillside.

As for An Xiaoran and Yang Mengzi, they followed Lin Kai.

Originally, Lin Kai saw the white wolf and two white beard medicinal materials, which could give birth to spiritual consciousness, which was quite difficult, so they did not harm them.

In addition, he already owed the white beard medicinal material a favor, so he naturally couldn’t just watch the white wolf and the two white beard medicinal materials were killed.

Most importantly, it seemed that because of the arrival of Lin Kai, Yang Mengzi and An Xiaoran, the white wolf was completely exposed on the hillside.

And the white wolf had been watching Lin Kai all the time. Under the perception of the white wolf, Lin Kai was the most threatening, so he ignored the two men.

That led to the two men, so easily succeed, and directly hit the white wolf.

Lin Kai speeded up his pace, so he and the two men arrived at the white wolf on the hillside in almost the same time.

When the two men arrived on the hillside, they noticed Lin Kai and An Xiaoran and Yang Mengzi following behind him.

Suddenly, the two men were a little stunned, as if they didn’t even think that they could still meet people in this wild night.

Especially, An Xiaoran and Yang Mengzi, who followed Lin Kai, belonged to high-value beauties.

Let the two men shine in front of them, and when they looked at each other, they could see each other’s unexpected gains.

One of the men was a sallow-faced man with dark circles under the eyes. In this view, he was the one who had been hollowed out by wine for a long time.

The sallow-faced man with dark circles kept his eyes on An Xiaoran and Yang Mengzi, with wretched eyes. As for Lin Kai, he naturally ignored it.

**Chapter 1656: My Lord The Times Have Not Changed**

Chapter 1656 Lord, the times have not changed

“Hey, I can’t think of our brothers. They came out to hunt wild beasts this night and saw two beauties. In this wilderness, two beauties followed a little white face. What are you doing?”

The sallow-faced man with dark circles could not help but let out a very wretched smile as he spoke.

The other was a muscular man with dark skin, and he also showed a wretched smile. His gaze is also constant, looking back and forth between An Xiaoran and Yang Mengzi.

That wretched look, I can’t wait to rush over now.

When he heard the sallow-faced man with dark circles say this, he couldn’t help but glanced at Lin Kai and smiled disdainfully: “It’s really a little white face. It doesn’t look good. It’s a little more handsome, but it’s definitely not practical.”

The dark-skinned muscular man paused for a while when he said this, and then awkwardly facing An Xiaoran and Yang Mengzi, he said: “Two beauties, you and this little white face have a tryst in the middle of the night, are you here to find excitement? Hey, this little white face doesn’t look good, it’s better to accompany our brothers to seek excitement.”

“Yeah yeah, two beauties, still follow us.”

The sallow-faced man with dark circles also immediately echoed wretchedly.

An Xiaoran’s face suddenly became cold, holding her blue long sword, and snorted coldly: “Believe it or not, I cut you two and turned both of you into eunuchs!”

Although Yang Mengzi didn’t say anything, he was also very angry. After hearing what An Xiaoran said, he also supported An Xiaoran’s point of view.

At this time, Lin Kai came to the side of the white wolf, then squatted up and carefully checked the white wolf’s injury. Fortunately, the bullet did not hit the deadly place, just because the power of the bullet was still so great that the white wolf was directly knocked down.

In addition, she is bleeding too much, and she is still very weak.

Lin Kai immediately stopped the white wolf from bleeding, and then ran the zhenqi, let the white wolf heal a little first, and ensure that it would not die.

Now he heard the conversation between the two men and An Xiaoran. He got up and looked at the sallow-faced man with dark circles and the dark-skinned man.

Lin Kai faintly said, “You two, go back wherever you come from. This wolf and the two white beard medicinal materials are not something you can get involved. Also, it’s best for you two to have mouths. Let me put it down. There are some things that you can’t say.”

Lin Kai naturally refers to the sallow-faced man with dark circles and the dark-skinned muscular man who just molested An Xiaoran and Yang Mengzi there.

As soon as Lin Kai’s words fell, the expressions of the two men suddenly became very embarrassed. They couldn’t think of a young guy who even taught them a lesson.

The sallow-faced man with dark circles smiled in anger, and directly held the spear in his hand. This spear was a special hunting gun and was very powerful. Even a big bear can be killed with one shot as long as it is shot accurately.

“Boy, dare to teach us? You really eat the guts of the bear heart and leopard! Anyway, this is a wilderness, or it is the night, and a few people are missing, it should be nothing.”

The sallow-faced man with dark circles gave a grin again, and then raised the spear in his hand, already aimed at Lin Kai, and could shoot at any time.

The dark-skinned strong man also sneered in a threatening tone and said, “Boy, if you don’t want to die, let me go! Only those two beauties, just stay and stay with us all night. If yes, you interfered with our brothers, the price of hunting!”

“Hehe, so much nonsense with this kid, in my opinion, it’s better to shoot this kid to death. I won’t have trouble afterwards. Moreover, I can’t wait to seek excitement with these two beauties. “The sallow-faced man with dark circles under the eyes looked like he couldn’t wait.

An Xiaoran became even more annoyed when she heard this. Her family background was unusual. From a young age to now, she can be regarded as a little princess.

How can I hear these words, so she immediately asked Lin Kai: “Lin Kai, is it you to solve it, or me?”

An Xiaoran actually wanted to personally teach these two wretched men, but Lin Kai was also here. Lin Kai was better than her, so she asked first.

For An Xiaoran’s words, he did not have any surprises. When he was in that casino before, An Xiaoran even fought the young master, let alone these two wretched men.

Therefore, Lin Kai directly responded: “If you want to solve it, you can solve it.”

Hearing the conversation between Lin Kai and An Xiaoran, the sallow-faced man with dark circles and the dark-skinned healthy man were all puzzled. What does it mean?

Both of them felt that something was wrong, and even felt uneasy.

It seemed like they were both very bullied. Besides, both of them are holding powerful shotguns.

Thinking of this, the sallow face of the dark-rimmed man, and the dark-skinned muscular man’s anxiety disappeared immediately.

It’s just that before the two of them felt a little relieved, An Xiaoran directly held the blue long sword and immediately came to the two of them.

For the sudden arrival of An Xiaoran, the sallow-faced man with dark circles, and the dark-skinned muscular man, although he was surprised at An Xiaoran’s speed, he saw that An Xiaoran was only holding a sword in his hand.

Suddenly, the two of them showed a touch of disdain.

“What age are these, cold weapons are still being used, the times have changed, now is the era of hot weapons. Little sister, follow my brother and I will buy you a decent hot weapon in the future.” The dark circles on his face were sallow. The man smiled wryly.

Only the next moment, his wretched smile froze immediately.

Because An Xiaoran swung a sword incomparably quickly, and it fell directly on the wrist of the sallow-looking man with dark circles, just lightly pick it.

Suddenly, the sallow-faced man with dark circles let out a scream, and his hand was directly abandoned, so the shotgun in his hand fell to the ground.

Immediately, An Xiaoran swept over again, slashing across the chest of the man with dark circles under his eyes, and with a force of strength, he blasted off directly, and immediately rolled off the hillside.

An Xiaoran could probably fight the ancient warriors at the pinnacle of the warrior without using evil means. If you add the means to solve evil, you can also fight the ancient warriors who have just arrived at Wusheng.

So these two men, even with extremely powerful shotguns, if the shotguns are too late to fire, of course it is useless.

“My lord, the times have not changed.”

After An Xiaoran sneered, with another backhand sword, he hit the dark-skinned man who was about to shoot.

## **Chapter 1657: Intend**

### Chapter 1657

This sturdy, dark-skinned man was struck directly on his wrist by An Xiaoran’s quick sword, and the shotgun also fell on the ground.

Only this time, An Xiaoran put away the sword, then waved his fist, and slammed the dark-skinned strong man heavily. The extremely powerful force also knocked the dark-skinned strong man into the air.

Seeing this muscular, dark-skinned man rolling down the hillside, An Xiaoran curled his lips: “I thought how strong it was, it turned out to be such a weak chicken. I can’t even hold a punch, let alone the little white faces in your mouth. Lin Kai is here. He is much better than me. You still have the face to say that Lin Kaizhong doesn’t like it. It’s really not ashamed.”

Lin Kai was speechless when he heard An Xiaoran’s words, so he pulled it on his head.

The dark-skinned muscular man who rolled down naturally heard An Xiaoran’s words, and he was extremely angry in an instant. He never thought that he was worse than a woman.

Thinking like that, with a bang, his head hit a stone, and the muscular, dark-skinned man immediately passed out into a coma.

As for the other man with a sallow face and dark circles, he had fainted a long time ago.

For Lin Kai to be able to win so easily, these two men, he did not have any surprises.

But Yang Mengzi saw An Xiaoran's so handsome look and immediately said, "Xiao Ran, I didn't expect you to be so good!"

"That is." An Xiaoran said proudly, but she looked at Lin Kai with a calm face, and found that Lin Kai didn't even look at her, so she squatted down again to look at the white wolf.

An Xiaoran was immediately discouraged again, and said dejectedly: "It's still not as powerful as Lin Kai's radish, but I will surpass him sooner or later! Humph!"

Yang Mengzi heard An Xiaoran say this and looked at Lin Kai more admiringly. She originally thought that Lin Kai's performance in the cinema last time was very powerful.

But now An Xiaoran is so powerful, he can easily deal with the two men holding shotguns alone.

Unexpectedly, An Xiaoran said that Lin Kai was better than her.

As a result, Yang Mengzi worshiped Lin Kai even more.

Now Lin Kai ignored An Xiaoran and Yang Mengzi, he first removed a beard root from another white beard medicinal material.

This is the white beard medicinal plant that he actively handed to Lin Kai.

Obviously, it was hope that Lin Kai could cure the white wolf.

So next, Lin Kai first used his true energy to get out the bullet that hit the white wolf.

Then he used infuriating energy to powder the white beard's beard roots, and then spilled it on the wound.

After doing this, Lin Kai faced the white wolf and said, "You are fine, just rest for a few days quietly, and don't move around during this time."

After Lin Kai finished speaking, he stood up.

At this moment, An Xiaoran came to Lin Kai and pointed to the hillside. The man with dark circles under his eyes and sallow complexion, as well as the muscular man with dark skin, had passed out, and said, "How should these two people deal with it?"

Although An Xiaoran couldn't wait to kill these two trivial guys who had never seen a woman. But after all, she is a member of Yanhuang Mansion, unless these two wretched guys have something to do with evil, otherwise, she can't kill like this.

Lin Kai heard An Xiaoran's words, thought about it a little bit, and said, "I am going to chemically castrate these two people. I don't know how many girls will be harmed by these two people. However, the two of them are indeed sins. Not to die, so let them go."

The chemical castration Lin Kai talked about was actually he castrated it secretly with true energy.

What he said was right. If it weren't for him and An Xiaoran, if he were to be an ordinary person, he would really have to be succeeded by these two wretched guys.

An Xiaoran nodded, and then said: “We are leaving, when they wake up, we will hurt the white wolf and the two white beard medicinal materials?”

An Xiaoran also knows now, that the white wolf and the two white beard medicinal materials can give birth to spiritual consciousness, which is hard-won.

Before leaving the hillside, Lin Kai told them.

In addition, the white wolf and the two white beard medicinal materials were harmless, so I couldn't bear to look at how the white wolf and the two white beard medicinal materials were hurt.

Lin Kai said, “Don't worry, I have my own way so that the two of you won't do anything to the white wolf anymore.”

He had already used infuriating energy to enter the sallow-faced man with dark circles and the dark-skinned strong man. If it hurts, the two white heads, or two white beard medicinal materials. It will happen and it will be very painful.

At the same time, Lin Kai also faced the white wolf and said, “Don't do anything to those two people. They won't hurt you again after they wake up.”

Hearing Lin Kai's words, the white wolf immediately felt relieved.

After the order, Lin Kai took An Xiaoran and Yang Mengzi and left the hillside directly. As for the white wolf and the two white beard medicinal materials, what arrangements will be made in the future are their own business.

This scene happened tonight, and it will definitely happen in the future.

After Lin Kai, An Xiaoran, and Yang Mengzi walked a short distance, the two white beard medicinal plants were transformed into the appearance of a few years old children. Both children have bald heads.

One was bald because Lin Kai wanted to save An Xiaoran's grandfather, and the other was offered to Lin Kai, hoping to save the white wolf.

However, the two white beard medicinal plants are no longer in the mood to laugh at each other or play around.

The white beard medicinal material that turned into two a few years old children, at this time, looked very worried, the white wolf.

When I saw it, the white wolf was gradually recovering from the wound, and he felt relieved.

“Unexpectedly, there are still humans helping us like this.”

“That big brother is really nice.”

Two teenagers kept praising Lin Kai.

One of the few-year-old children said, “We have been here for so many years, and our tracks have been discovered by nasty bad guys. Who knows, there will be no one like this in the future. Why don't we go to that big brother?”

“Okay, okay!”

Another child of a few years old kept nodding his head, obviously agreeing with this sentence.

Therefore, the two few-year-old children looked at the white wolf again and asked, “Xiaobai, would you like to go with us, that big brother?”

The white wolf, after hesitating slightly, also nodded, obviously agreeing to the two white beard medicinal materials.

### **Chapter 1658: Characterization**

#### Chapter 1658

Ever since, the two white beard medicinal materials rushed towards Lin Kai with the white wolf.

Lin Kai, An Xiaoran, and Yang Mengzi are all about to leave this deep mountain.

As a result, the two white beard medicinal plants and the white wolf that turned into a childish human form ran up to Lin Kai, hoping that Lin Kai could take them away and follow Lin Kai.

In fact, the most important thing is the two white beard medicinal materials, the white wolf, knowing that Lin Kai will not harm them. And the two white beard medicinal materials, for some reason, stayed by Lin Kai’s side, as if they were much better than staying in the wilderness.

It’s like, by following Lin Kai, you can absorb the essence of the sun and the moon, and it will seem faster.

For two reasons, the two white beard medicinal materials that transformed the child’s human form, and the white wolf, all ran to Lin Kai.

An Xiaoran and Yang Mengzi were very surprised by their arrival.

However, Lin Kai was only surprised, not too surprised. He guessed that it should be because of his immortal cultivator, and he did not have any malice.

Often those treasures of heaven and earth that have transformed into a human form will either stay in a place full of innocence, or they will stay with the powerful cultivator.

Because a powerful cultivator can provide a purer heaven and earth true energy for the celestial material and earth treasure that transforms into a human form, and can accelerate the cultivation of the heaven material and earth treasure.

Simply put, it is also a win-win situation. The heaven and earth treasure that transforms into a human form, as long as you occasionally give some medicinal materials on your body, the powerful cultivator will provide purer heaven and earth true energy.

Because of the current earth, I don’t know what happened, and now, there is only Lin Kai as a cultivator.

Moreover, the true energy of the earth at present is actually quite thin.

Therefore, the two white beard medicinal plants that transform the child’s human form are very likely to want to follow him in this way.

Lin Kai was also a little moved. This kind of heavenly material and earth treasure that gave birth to spiritual consciousness can also be transformed into a human form, indicating that it can be upgraded upwards.

No matter what the treasures of the heavens and the earth, they will also experience the Tribulation when they reach a certain level. Once the Tribulation is successful, it will be the real elixir.

The real immortal medicine only needs a tiny pill or a drop of liquid medicine. Not to mention the resurrection of the dead, the rebirth of blood can be achieved.

Of course, with the current earth environment, it is still very difficult to make the heavenly materials and earth treasures that transform the child's human form a real elixir. No less than Lin Kai reached the stage of transforming gods, it would take a long process.

Lin Kai didn't immediately agree to the two white beard medicinal plants and the white wolf, but explained in advance that following him, there would be no freedom in this wilderness.

After all, Lin Kai lives in the city, but he can use gossip to extract his powers to depict a small space formation at home.

However, his current cultivation base can only depict a formation with a small space, but it is enough for the two white beard medicinal materials and the white wolf to live.

At the same time, it can also portray a Qi gathering formation method, pour the heaven and earth true energy into the space formation method, so that the two celestial treasures that transform into human form, and the white wolf, can quickly improve.

This is what Lin Kai thought, if there are any natural treasures in the future, they can also be put into the space formation to improve.

He himself has the funnel extraction ability, which in itself is double the speed of cultivation, the space formation method and the gas gathering formation method are not very useful. Unless he can portray the space-time formation, that is, ten minutes inside, only one minute has passed from the outside world.

This kind of gossip extraction ability still cannot be extracted, after all, it is only a demigod extraction ability.

When Lin Kai was thinking about it, the two white beard medicinal materials that transformed the child's human form and the white wolf did not hesitate to agree to Lin Kai.

They had already decided to stay with Lin Kai, and naturally they would not give up easily.

Therefore, the two white beard medicinal materials that transformed the human form of a child, and the white wolf, left with Lin Kai.

Lin Kai first sent Yang Mengzi back to Baishantang, and then An Xiaoran back to the hotel. When tomorrow morning, he would personally go to Baishantang to rescue the grandfather of An Xiaoran.

Lin Kai only returned home near one o'clock in the morning. He took the two celestial treasures that transformed into a child's human form, and the white wolf, first arranged in the living room.

Whether it is the two celestial treasures that transform into a childish human form or the white wolf, they are very curious about everything around them.

After all, they are all in the wilderness and have lived for a long time, and this is the first time they have come to a modern city.

Lin Kai could see it naturally, and he said, "When you stabilize first, you can occasionally let you go out to have a look. Of course, you can only go out in the dead of night. Unless you have the ability to completely transform your human form, you can go out during the day. ."

Although the two white beard medicinal materials that transformed the human form of a child are very good, if you look closely, you will still find some flaws. If you have experienced ancient warriors, you will definitely find a different situation.

For example, the last time, the black flame Taoist priest who did not know where he got it belonged to the kind of existence that might find this kind of heaven and earth treasure.

The two white beard medicinal materials that transformed the child's human form, and the white wolf, had no objection to Lin Kai's words.

Immediately, Lin Kai didn't pay attention to them anymore, but began to use gossip to extract abilities and portray two formations.

Although he had the help of extraction ability, he still portrayed it himself.

But the system has already provided him, how to describe this kind of formation and so on.

In fact, a variety of materials are needed to depict formations, and different formations have different materials.

But these, the gossip extraction ability will all solve them.

You only need to use your own true energy and energy to portray the formation.

Therefore, Lin Kai's current cultivation base can only describe the two simplest formations.

As a result, after about two hours, Lin Kai had already portrayed both the small space formation and the Qi gathering formation, forming a double formation.

Lin Kai took the white beard medicinal material that transformed the child's human figure, and the white wolf into the double formation.

There is probably a radius of ten miles in it, but although the sparrow is small and complete, there are mountains, waters and grassland.

As for other creatures, naturally there are none.

The two white beard medicinal materials in the shape of a child don't need to eat, as long as they absorb the true energy of heaven and earth.

The white wolf cannot reach this level for the time being, but Lin Zhuan often feeds the white wolf.

After his cultivation level is upgraded, he will depict a larger space formation, and then raise some other creatures, as well as the heavenly materials and earth treasures that have not been born with spiritual consciousness, and put them inside.

Form a complete ecological chain, maybe you can create a wonderland of your own!

### **Chapter 1659: I'm In A Hurry**

#### Chapter 1659 I'm In A Hurry

Later, after Lin Kai arranged the two celestial treasures that transformed the child's human form and the white wolf, he withdrew from the space formation.

He had planned to practice immediately, but he never expected Li Shengxian to call.

It is said that the health city and scenic area projects in the western suburbs of the city are to be operated independently. Simply put, it is to set up a new company to operate the suburbs in the west of the city.

Otherwise, don't dismantle it like this, it will be more troublesome if it starts to operate in the western suburbs.

In fact, this is what Li Shengxian had long ago. He originally planned to make Lin Kai the chairman of the new company.

But considering that Lin Kai was running around recently, there was no time to talk to Lin Kai.

However, tomorrow's new company building has been renovated and some employees have been recruited, just waiting for Lin Kai to go there.

The most important thing is that this new company is cooperating with a group in the provincial capital.

Lin Kai only needs to go there occasionally to deal with some of the company's affairs.

Of course, Lin Kai's shares in this company occupy the vast majority.

Originally, Lin Kai wanted to decline, but considering that Li Shengxian is indeed too busy now, he has to manage his company and monitor the progress of the suburbs in the west of the city.

Therefore, Lin Kai agreed.

Then he said a few more words with Li Shengxian, then hung up the phone.

At the same time, Li Shengxian also sent him the address of the new company called Xianyue Group.

This Xianyue Group is the name of the new company, and the mountain range on the western outskirts of the city has also given a name, which is called Xianyue.

Whether behind or in front of the mountains, they are worthy of the term "Xianyue".

Soon after Lin opened his cell phone, he entered the cultivation state, and he was getting closer and closer to the Golden Core Stage completion.

Once he breaks through to the Golden Core Stage and enters the Nascent Soul Stage, his strength will rise sharply.

...

Early the next morning, Lin Kai drove to Baishantang.

Because he still had to go to the Xianyue Group in the morning, he had to treat An Xiaoran's grandfather early.

An Xiaoran's grandfather did not live in a hotel, but in Baishantang.

An Xiaoran's grandfather is the provincial capital of Guangling Province, the president of a well-known national association, with a high status.

Lin Kai did not expect that An Xiaoran's grandfather would be him, and he still knew.

No wonder An Xiaoran used to be like a little princess before, and she has really been like a princess since she was a child.

However, after these days of tempering, An Xiaoran has indeed grown a lot.

About half an hour later, Lin Kai arrived at Baishantang. Baishantang had already opened its doors, and An Xiaoran's grandfather and Yang Deren also got up early.

When Lin Kai came, he saw the two elders playing chess in the yard.

Lin Kai did not bother, but came to the side and quietly watched Yang Deren and An Xiaoran's grandfather, playing chess there.

As the saying goes, watching chess but not talking about true gentlemen.

Until An Xiaoran's grandfather beat Yang Deren, An Xiaoran's grandfather laughed loudly, then looked at Lin Kai, and said, "You are Lin Kailin?"

Before Lin Kai could answer, Yang Deren smiled and said, "This is the little friend Lin Kailin. If he takes action today, then I can rest assured that your many years of illness will be completely cured."

"Oh?"

An Xiaoran's grandfather was surprised. He heard last night that Yang Deren said that Lin Kai's superb medical skills might be able to heal his injuries completely.

An Xiaoran's grandfather naturally didn't believe it, especially when he heard that Lin Kai was still a young man.

As a result, he did not expect that when Lin Kai was mentioned, both his granddaughter and Yang Deren's granddaughter would praise Lin Kai.

This was the first time he saw that his granddaughter An Xiaoran praised a man who was still a young man.

Moreover, his granddaughter An Xiaoran seemed to be very familiar with Lin Kai, which surprised him very much.

He has also heard of Yang Deren's granddaughter Yang Mengzi. Since returning from abroad, he has begun to hate men. How long has passed since then, a young man named Lin Kai is full of praise.

So An Xiaoran's grandfather was very curious about Lin Kai. It just so happened that his granddaughter An Xiaoran also knew him, so he could bother to find Lin Kai.

Lin Kai only agreed, but he couldn't come over the next day.

His old friend Yang Deren heard Lin Kai's promise for the first time, and he was relieved, saying that Lin Kai really promised to come and he would be 100% cured of his illness.

An Xiaoran's grandfather is even more curious about Lin Kai. He is naturally very old to his old friend Yang Deren. From a young age, he and Yang Deren have been good friends. Forty to fifty years have passed, and they often meet.

So seeing that Yang Deren admires Lin Kai so much and believes in Lin Kai so much, he can completely heal him, more or less believe.

However, it is still very uncertain.

Now An Xiaoran's grandfather finally saw Lin Kai himself, and heard Yang Deren again say that Lin Kai would definitely cure his illness.

An Xiaoran's grandfather didn't dare to neglect anything. He stood up quickly and said to Lin Kai with a smile: "Lin Xiaoyou, I've been hearing your name for these two days. I finally saw you in person. He is indeed a young and promising. My handsome boy. I'm bothering you because of my illness. Whether it's completely cured or not, I'll pay generously."

Lin Kai shook his head and smiled: "The remuneration is unnecessary, and I'm in a hurry. Let's just start treatment."

While talking, Lin Kai took the roots of the beard he had obtained from the white beard medicinal material that transformed the humanoid child last night in the wilderness.

In the morning, he had ground to powder in advance,

At this time, he put the ground powder into the cup that Grandpa An Xiaoran was drinking.

Then, Lin said with a smile: "You can drink it, and the disease will be completely cured."

"What? This will cure my illness completely?"

An Xiaoran's grandfather looked very disbelieving.

Not to mention An Xiaoran's grandfather, Yang Deren also looked incredible.

What happened in the wilderness last night, even if Lin Kai didn't say anything, Yang Mengzi and An Xiaoran didn't tell their grandfather, and they won't tell anyone in the future.

After all, Yang Mengzi and An Xiaoran knew that the two humanoid treasures had already followed Lin Kai.

So this matter can be revealed without revealing it. As a result, Yang Deren is a little dumbfounded now, can this cure Grandpa An Xiaoran's illness?

However, Yang Deren saw Lin Kai's calm expression, and thought of Lin Kai at the Southern Suburb Central Hospital a few days ago. Didn't Lin Kai cure the foreign patient fascinatingly.

Thinking of this, Yang Deren said to his old friend: "Listen to Lin Xiaoyou, just drink it first. It is very likely that the handle will be cured completely."

### **Chapter 1660: Fight First**

#### Chapter 1660

Hearing what Yang Deren said, An Xiaoran's grandfather drank the water in his cup with the attitude of a dead horse being a living horse doctor.

An Xiaoran's grandfather still didn't feel much when the water started to drip into his belly.

After about a few seconds, the whole body is very comfortable, especially the blood vessels that were blocked in the first place.

Not only that, the whole mental outlook of An Xiaoran's grandfather was also completely new, and he seemed to be ten years younger in terms of vitality and blood.

Yang Deren saw the changes of An Xiaoran's grandfather unexpectedly and logically. Unexpectedly, he still underestimated Lin Kai's methods.

He first praised Lin Kai: "Xiaoyou Lin really deserves the title of genius doctor."

Lin Kai waved his hand and said with a smile: "It's not my god, but I just found a magic medicine last night. This magic medicine can completely cure the disease."

An Xiaoran's grandfather was still in shock at this time, and he was already dumbfounded compared to Yang Deren's surprise.

Unexpectedly, for the past two days, he has been listening to Yang Deren's admiration. His granddaughter An Xiaoran and Yang Deren's granddaughter Yang Mengzi are also in Nazan Forest.

He still doesn't take it seriously. For so many years, because of his professional characteristics, he has seen many young and promising people.

For example, the Huaxia Mansion has many young and powerful people.

But now it seems that it is nothing compared to Lin Kai.

Those young and powerful people, no matter how powerful they are, are no better than the older generation.

However, Lin Kai is much better than Yang Deren, one of the most powerful Chinese medicine practitioners in China!

It is enough to prove that Lin Kai is indeed a juvenile genius doctor!

If An Xiaoran's grandfather knew that Lin Kai was not only good at this aspect, but also the kind of existence that was even more powerful than the elders in the Huaxia Mansion, he would be surprised that his jaw would fall.

"Thank you, Xiaoyou Lin! I was offended before! Xiaoyou Lin, what kind of compensation do you need..."

Not waiting for An Xiaoran's grandfather to finish.

Lin Kai waved his hand again and responded with a smile: "I said that I don't need any compensation, and I'm in a hurry, so the second old man, I'll leave."

With that said, Lin Kai turned around without looking back, and left Baishantang.

He was in a hurry, so naturally he went to the new company Xianyue Group earlier to deal with the matter there.

Although the suburbs in the west of the city have not yet been opened to the outside world and are under construction, after all, the scale is still very large, so some staff will be recruited in advance to complete some daily tasks.

Therefore, Lin Kai didn't delay in Baishantang any longer, and left directly.

An Xiaoran's grandfather in the courtyard, seeing Lin Kai so swiftly and neatly, left like this, he was shocked.

Yang Deren, who was sitting opposite, smiled: "Xiaoyou Lin is much lower-key than me. The foreign woman who was cured a few days ago, who is a princess in the royal family, said to pay Xiaoyou Lin. What you want, just tell her. In the end, Xiaoyou Lin refused directly, so don't bother to give Lin Xiaoyou any reward."

"Unexpectedly, Lin Xiaoyou still has such good qualities. It is rare among young people now."

An Xiaoran's grandfather sighed with emotion. As he spoke, his eyes lit up and he muttered to himself: "Xiao Ran seems to be very familiar with Lin Xiaoyou. Well, there is a chance that Xiao Randuo will meet Lin Xiaoyou, young people. There are still many topics in between."

When Yang Deren heard Grandpa An Xiaoran say this, he couldn't help but say: "My granddaughter is also very familiar with Lin Xiaoyou. How to say it, I have to come first, then come."

An Xiaoran's grandfather suddenly said, "It was obviously my granddaughter who first met Lin Xiaoyou..."

Ever since, the two old guys kept fighting like this for a priority.

Naturally, Lin Kai didn't know that An Xiaoran's grandfather and Yang Deren fought over who knew Lin Kai first for their respective granddaughters.

At this time, he drove the car and followed the address set by Li Shengxian in the early morning. After half an hour, he arrived at a center in the East China Sea.

This center is also a very lively area in the East China Sea. Of course, this is not the city center.

To be precise, Donghai has two centers, one is the current city center. The other is the old center. The old center is the former center, but for convenience, it moved to the new center.

Due to the rapid development of the East China Sea in recent years, the old center has gradually become prosperous, and various high-rise buildings have been built.

At this time, Lin Kai came to this tall building, a place similar to a courtyard house.

This place is still quite large, and it is where the new company Xianyue Group is located.

In fact, this large courtyard house belongs to Li Shengxian. The Li family itself is the largest family in the East China Sea. It has a history of many years in the East China Sea, so it is good to have an old house.

However, in order to be worthy of the mainstay in the western suburbs of the city, Li Shengxian changed this set of similar courtyards to the group company.

Lin Kai didn't feel much about it. He parked the car in the parking lot next to it.

At the gate of this group, words such as the Xianyue Group were written, and when the western suburbs of the city were completely opened in the future, tourist attractions in the western suburbs of the city would also be written.

I haven't written it yet, that is, it has not been opened to the outside world, so I will keep it secret for now.

On both sides of the door, two security personnel stood on each side. These two security personnel are both ancient warriors, and at the level of martial arts, they can be regarded as comparative security personnel.

These two security personnel knew Lin Kai and had personally seen Lin Kai easily defeat a master-level powerhouse.

They admired Lin Kai very much, so when they heard that the boss here was Lin Kai, they didn't hesitate to submit a resume and come here to work.

Therefore, these two security personnel respectfully said to Lin Kai: "Hello boss!"

Lin Kai could see that the two security guards knew him. He smiled kindly, nodded at them, and walked into the courtyard.

As soon as I entered, I saw some staff members busy inside.

This part of the staff is here temporarily to plan for those projects in the Health City.

Lin Kai is now going to be simple, to deal with some of the recruitment information of the past two days, mainly to recruit some senior executives. If you are not a high-level person, just arrange it for others.

It is precisely because of the recruitment of senior management that Li Shengxian asked him to come and deal with it.

So according to the guidance of the staff here, Lin Kai came to his office. The best room in this courtyard has been transformed into a spacious, slightly luxurious and quiet office.

Lin Kai started, looking at various materials, to see which senior was suitable.

But just when he was almost finished reading it, there was a sound outside.
