

Special Forces 1731

## Chapter 1731

At this time, Ye Muqi became more confident and said to Zhao Yajue: "Patriarch Zhao, since it is time to eat and drink, I believe Brother Lin is full. Anyway, I am already full. Now this time point is also the best time for treatment, so now take me to see for your wife what the specific illness is."

Lin Kai didn't say anything, but he also nodded. At this banquet, he was completely wasting time.

When Zhao Yajue saw Lin Kai and Ye Muqi's statement like this, he naturally wouldn't refuse anything, not to mention that both of them were going to save his wife. In fact, they wanted Lin Kai and Ye Muqi to see.

It was only because he had to be polite enough to show the hospitality of the Zhao family, which was the reason for the banquet.

So Zhao Yajue immediately responded and said: "Mr. Lin and Brother Ye, if they are full, I won't delay anything, just ask them to come with me."

As Zhao Yajue said, he left the position and headed to the fourth floor of this luxurious villa.

The main reason why I chose to eat in this luxurious villa was that Zhao Yajue's wife was in the room on the fourth floor of this luxurious villa.

In this villa, there is still a private elevator.

Zhao Yajue took Lin Kai and Ye Muqi and took the elevator to the fourth floor room.

And Zhao Wuhao, Zhao Ziyang and others, including Luo Suyi, also followed.

Zhao Wuhao and others are all relatives with Zhao Yajue's wife, so naturally they are also concerned about this matter.

And Luo Suyi was curious as to whether her senior brother Ye Muqi could win or Lin Kai could win.

In fact, she inexplicably felt that Lin Kai could win, even if she knew that her senior brother was more accomplished than her master in medical skills.

Father Zhao, Zhao Fusheng, didn't follow him. There were enough people to go up anyway, and his identity was not easy to join in the fun.

At this time, in a room with the best location on the fourth floor, the decoration inside is not so luxurious, but rather a kind of living decoration.

On the bed in the bedroom of this room, there is a pale lady lying there with her eyes closed.

An oxygen mask is also worn on the face to provide oxygen.

And beside him, two nurses who were specially invited to look after him were there to avoid accidents.

In addition to a nurse, there is also a female doctor in a white coat.

Especially next to it, there are various professional instruments to detect the condition of the body, what kind of heart pulse diagram.

The medical equipment here is better than the top wards of many hospitals.

It is reflected from the side that with private nurses, private physicians, and so many private professional medical equipment, the Zhao family's financial resources are still very strong.

Zhao Yajue took the lead in entering the bedroom, directly facing the female doctor, and said: "Doctor Hu, what are my wife's current symptoms? Are there any breathing problems?"

This female doctor, the Doctor Hu that Zhao Yajue said, was quite young, less than thirty years old, and her appearance was a little more beautiful than ordinary girls.

Before she could answer, she immediately noticed, and several people followed Zhao Yajue.

Dr. Hu was taken aback for a moment, and then he said, "There is no dyspnea symptom anymore, and it remains normal at present, but after all, this state is still uncertain in the future. However, some best plans will be formulated to avoid as much as possible. The dangerous situation of the last time. All possible dangers can be stifled in advance."

The last time was actually a few days ago, Zhao Yajue's wife had an inexplicable breathing difficulty. Fortunately, there are special nurses and doctors here.

Only then was it processed in a timely manner, and then it could be normal.

Hearing what Dr. Hu said, Zhao Yajue nodded and said, "I'm not considering those for now. I brought two doctors this time and let them see. Maybe I can treat my wife. Well, it is very possible."

Zhao Yajue naturally put all his hopes on Ye Muqi. If Ye Muqi can't do anything, it may be that there is really nothing left.

After all, Ye Muqi's true biography is that of the world-famous medical saint decades ago.

But when Dr. Hu heard Zhao Yajue say this, he was taken aback: "Two doctors have been invited?"

Dr. Hu's eyes fell behind Zhao Yajue, looking from left to right, it didn't seem to happen, who was like a doctor.

She asked curiously: "Patriarch Zhao, I know that you are eager to save your wife, and I can understand it. Before I know you, I have invited famous medical experts from all over the country, including my teacher. But even my teacher, it is also helpless. My teacher is the top expert in this field, and he is also trying his best to find a way.

So at present, the country and even the whole world are helpless with this disease of your wife. Therefore, Patriarch Zhao, I am also concerned about your wife's situation. I wonder who the two doctors you invited are?"

This Physician Hu became a physician director at such a young age because of his high level. Together with her teacher, she is one of the most well-known experts in brain science in China.

Therefore, Zhao Yajue was specially invited to take care of his wife.

Zhao Yajue heard the words and did not explain much, but he still pointed to Lin Kai and Ye Muqi respectively, and said, "These two, one is Mr. Lin and the other is Brother Ye. The two are still in medical skills. With certain accomplishments, it is very possible to treat my wife well. So I will trouble Dr. Hu later. If you need to cooperate, cooperate with Mr. Lin and Brother Ye."

Dr. Hu suddenly frowned slightly, she first looked at Ye Muqi and then at Lin Kai, her eyes were puzzled.

Judging from the appearance of the two of them, there is no such thing as a doctor. And they are all younger than her, one seems to be in her early twenties, and the other is estimated to be around twenty.

She had never heard of anyone at such a young age.

She is almost 30 years old, and she is the youngest doctor in China. She came to this point because of the good luck of a famous teacher, coupled with her own talent.

But even she has nothing to do with Zhao Yajue's wife. Let alone her, her teacher is useless.

Not to mention the two in front of him, such a young man.

And there is another one who looks embarrassed and looks like a liar.

Could it be that Zhao Ya was so anxious that he invited two crooks from the rivers and lakes to treat his wife?

Thinking of this, Dr. Hu couldn't help but say to Zhao Yajue, "Patriarch Zhao, I can understand your feelings. Madam has not been treated well, and you can understand it if you are anxious. But after all, as a doctor, I'm still rash. In a word, the two of them will only add to the chaos and will not cure your wife at all."

## **Chapter 1732**

Dr. Hu paused for a while, and then quickly added: "Patriarch Zhao, it's not that I don't want your wife to be cured. I also hope that your wife will get better quickly. But your wife's current situation is I can't toss it anymore, otherwise, I will..."

Before Dr. Hu finished speaking, Zhao Yajue waved his hand and said with a smile: "Doctor Hu, don't say anything, I know what you mean. But they are not liars, I know the bottom line, if this world, if they are not treated well, then no one will be treated well.

So Dr. Hu, you just have to cooperate here later. Mr. Lin and Brother Ye are still trustworthy, and I will trouble you later."

Although Zhao Yajue did not think that Lin Kai could treat his wife well, he believed that Ye Muqi was most likely to treat his wife well.

But Zhao Ya definitely did not deny, Lin held a meeting with medical skills. After all, An Xiaoran's grandfather said that.

He also knows that Grandpa An Xiaoran's illness.

But that disease, the famous domestic medical experts, can treat the symptoms but not the root cause.

It's just that Lin Kai just happened to treat An Xiaoran's grandfather, the root cause of the disease completely.

Coupled with Lin Kai's own strength, he is also very strong, no matter what, he has his own unique way of medicine.

As for Ye Muqi, in his opinion, let alone. He is the younger brother of Chamberlain himself, and he was recommended by him.

Qian Bo is his dead brother. Besides, Ye Muqi is the apprentice of that medical saint. How could he not be weak in medical skills.

He just told Dr. Hu that he was actually talking about Ye Muqi.

It was only in order to take care of Lin Kai's face that he brought Lin Kai with him, saying that there is no cure for the two people in the world, then no one in the world can cure it.

In fact, he was talking about Ye Muqi alone.

When Dr. Hu heard Zhao Yajue say this, her brows frowned more severely, and she felt that these two people were liars. Just how old you are, you can boast about how amazing your medical skills are. Anyway, you have to cheat when you are old, otherwise you will think it is fake at first glance.

But Dr. Hu didn't dare to say it. If he did say it, wouldn't it offend Zhao Yajue. Zhao Yajue's money was very generous.

More importantly, she also persuaded Zhao Yajue, but Zhao Ya would never listen and insisted on letting it go for two days. So no matter what kind of trouble these two people caused while waiting, it had nothing to do with her.

Of course, it is also considered that if it really threatens the life of Zhao Yajue's wife, it is not good, after all, this is Zhao Yajue's wife.

The status is there, even if she is really held accountable, she still has a certain responsibility.

Therefore, Dr. Hu thought for a while, and said, "Patriarch Zhao, I suggest that only one person should be treated for your wife. If the time is delayed, it won't be great. My teacher and I will have to make a plan. It must be implemented as soon as possible, it is still very troublesome to continue.

Although you think these two ladies can heal you well. But I still have to remind one thing, what if it is not cured? You have to take this into consideration, even if you are performing an operation in a hospital, even if it is an operation with a very high success rate, you have to sign. Because there is also a chance of failure, what will be the consequences."

Hearing what Dr. Hu said, Zhao Yajue felt reasonable, not afraid of ten thousand, just in case.

Zhao Yajue nodded and said, "Indeed, you have to consider if there is no good treatment. If it is delayed like this, it will be really troublesome later."

After all, his wife's condition is not so good.

So Zhao Ya could not help but looked at Lin Kai first, and said apologetically, "Mr. Lin, I'm very sorry. You also heard what Dr. Hu said just now. Only one person can treat my wife. It's not that you don't believe in your medical skills. It's about my wife's life, so Mr. Lin, I'm sorry, but I won't let you go for nothing, and there will be a lot of money to thank you."

Zhao Yajue was also euphemistic. He wanted Ye Muqi to see a doctor for his wife, but he did not offend Lin Kai.

After he finished speaking, he looked at Ye Muqi and said with a solemn expression: "Brother Ye, I will trouble you. If my wife is cured by you, I will have a generous reward and thank you."

Ye Muqi didn't have much interest in any remuneration. Hearing what Zhao Yajue said, he couldn't help looking at Lin Kai, with a hint of pride in his eyes. It seems to be saying, if you look at it for yourself, even Zhao Yajue thinks that his medical skills are good, so he chose him.

How can I say that this is a classic two-choice one, whoever chooses will choose which one he thinks is more likely to be treated.

As a result, Lin Kai didn't care much about what Zhao Yajue said.

Now he sees it even more. Ye Muqi's somewhat proud expression, he shook his head and laughed, "Patriarch Zhao believes that you can heal his wife. Don't let Patriarch Zhao down, go quickly. As long as you can heal it well. , Then naturally I lose. I wish you success and don't let me down."

Ye Muqi chuckled and said: "Brother Lin, just wait for your words. Wait a minute, you will honestly hand over the exercises you have practiced. Of course, if you don't want to hand over, that's fine. You You can use some information from Miss An to replace your practice technique."

Lin Kai suddenly smiled and shook his head, he didn't say anything.

But Ye Muqi started walking towards the bed at this time.

It didn't take long before Ye Muqi got there, and he directly took care of Zhao Yajue's wife.

Everyone on the scene couldn't help but focus on Ye Muqi.

People in the Zhao family looked at Ye Muqi in surprise, and didn't know whether Ye Muqi could be cured.

They knew that Ye Muqi was Qian's junior, but they still believed it a little.

Physician Hu didn't know Ye Muqi that much, and didn't believe it at all. Even if she saw it, Ye Muqi's pulse movement seemed to be the same thing, and he sneered immediately.

Although the pulse is based on Chinese medicine, and she is studying Western medicine, she will also communicate with Chinese medicine, and she can understand the simple things.

Physician Hu found that Ye Muqi's pulse seems to be rusty, so he shouldn't get it often. Also, every young man in his early twenties, no matter what, is it impossible to have rich experience.

Then, after Ye Muqi finished the pulse, he gently rolled the lady's eyes, and then pressed the position between the eyebrows.

After about a few minutes, Ye Muqi seemed to have been diagnosed. He turned his head and looked at Zhao Yajue and others, and said, "After the diagnosis, Madam's state is actually the cause of her spirit and she has been unconscious. Wake up. The spirit, energy, and spirit represent the whole state of the human body. If it keeps losing, it will definitely be like this."

### Chapter 1733

Ye Muqi said here, paused for a while, and then said: "This kind of energy is missing, but I have a way to treat it quickly. Just need, I use acupuncture and moxibustion with some supplementary herbs. , So that Madam Ling can be treated well."

Zhao Yajue was surprised and delighted. He immediately asked, "Brother Ye, I will trouble you! What kind of medicinal materials do I need? I will ask someone to buy it now! Buy more!"

"Then you don't need to buy that much, just a few days' worth."

Ye Muqi shook his head and said, as he was talking, Zhao Yajue had sent someone to send Ye Muqi a pen and paper.

Ye Muqi immediately wrote down some medicinal materials, and he opened his mouth and said to Zhao Yajue: "Patriarch Zhao, I not only wrote about the medicinal materials used, but also the method of boiling the medicine. I want to buy the pot that is not in the city, but It is the kind of large pot stove in the country to boil. And the bottom used to burn is not ordinary wood, you must use peach wood.

Although Taomu is rare this season, I believe that with Patriarch Zhao's ability, he can still get it quickly. I wrote it all on this paper. As long as I follow the instructions on my paper, there is no problem at all. As long as Madam Ling took the medicine, Madam Ling could still wake up from the coma first. "

Zhao Yajue looked overjoyed, and quickly called for someone to follow the contents of Ye Muqi's paper.

I have to say that if you have money, you can do whatever you want.

The things written on Ye Muqi's paper do not need to be taken by the Zhao family. Instead, the bosses of the medicinal stores, the bosses who sell pot, and the boss who sells wood, etc.

They are all Pidian Pitian, and they personally delivered these things to Zhao's house quickly.

So in only ten or twenty minutes, everything written on Ye Muqi's paper was done.

Ye Muqi asked his junior sister Luo Suyi to boil medicine. After all, he still had to find out about this kind of thing, otherwise there would be errors and some trouble.

The most important thing is that Ye Muqi wants to win Lin Kai, so no mistake can happen. In order to avoid any accidents, he asked his junior sister Luo Suyi to stay up late.

At this time, Ye Muqi took out a white cloth from his bag. The white cloth was special and could hang a dozen cyan needles of different lengths.

These green needles, in the eyes of others, just feel a little strange.

After all, the ordinary needles are silvery white, but Ye Muqi's needles are all blue.

But in Lin Kai's eyes, he couldn't help showing an interesting look. He could see that the set of green needles belonged to a magic weapon. Of course, it is the lowest level magic weapon.

Lin Kai didn't feel surprised, after all, Ye Muqi and Luo Suyi's teachers had incomplete cultivation techniques, and they were able to enter the Qi Refining Period.

This is enough to prove that there are still other magic weapons for cultivating immortals, but like the incomplete cultivating techniques, they will not be complete. Even if there is a good magic weapon, there is no way to exert its full power.

At this time, Ye Muqi spoke to the crowd and said, "Medicines must also be combined with acupuncture and moxibustion, so I will take acupuncture for Madam Ling first. Once the medicine is ready, just take it."

Naturally, Zhao Yajue didn't refute anything. He trusted Ye Muqi very much and nodded in response: "Okay, just do what Brother Ye said."

As a result, Ye Muqi took out three green needles of different lengths. He did not rush to acupuncture Zhao Yajue's wife, but looked at Lin Kai with a hint of provocation in his eyes.

Immediately, Ye Muqi said triumphantly towards Lin Kai: "Brother Lin, the method of acupuncture and moxibustion I will use next is the method of my practice called Three Needles to Set Yin and Yang, don't you want to see it? You have the opportunity to see that these three needles are specifically aimed at the symptom of yin and yang coordination and lack of energy."

Lin Kai didn't want to say anything more, but Ye Muqi took the initiative to provoke him. He couldn't help but say: "Brother Ye, I just guessed that the soul might be different. Now I can be sure that the soul is different, not what you said. It's like that. No matter what three needles you have for yin and yang or the medicine you boiled out, it's ineffective."

Ye Muqi naturally didn't believe Lin Kai's words, he suddenly snorted: "It must be because you didn't want me to win, so you said this deliberately. Brother Lin, don't waste any more words. I will now be the wife of Patriarch Zhao. Treatment. When it is cured, let you take a good look at my medical skills!"

Ye Muqi's desire to win, which he had never had before, became more and more prosperous. Mainly because he had always believed that his ability, even if it was not the best, was among his peers, and it made everyone feel hopeless.

Until he met Lin Kai, all his pride was crushed clean.

Regarding demons and demons, Lin Kaiyuan surpassed him and did not say.

It never occurred to him that he was not as good as Lin Kai in terms of cultivation strength.

If it's just better than him, he wouldn't say much, but the difference between the two is not just a little bit.

Ye Muqi could feel a sense of suffocation from Lin Kai, as if he was facing his master, which made him feel desperate.

After hearing about Lin Kai, Ye Muqi knew how to do medicine. Like him, he went to Zhao's house to see a doctor for Zhao Yajue's wife.

Therefore, he took the initiative to gamble with Lin Kai again, confident that he could win Lin Kai.

Ever since, Ye Muqi thought, and began to use three needles to determine yin and yang for Zhao Yajue's wife, that is, the lady.

I don't know whether these three needles have always been like this for yin and yang, or Ye Muqi wants to show off in front of Lin Kai. In short, the three green needles are constantly waving and flamboyant in his hands.

It made Zhao Yajue and the others even more convinced of Ye Muqi's ability. This acupuncture looked very unusual.

Lin Kai didn't feel much, but these three needles fixed yin and yang, there are still some desirable things, such as that fixed yin and yang.

The main reason is that Ye Muqi hasn't learned so deeply yet, or because of the incompleteness of the exercises he practiced, these three needles are also incomplete.

With Lin Kai's venomous look, he could see that these three needles fix yin and yang, the so-called fixation of yin and yang, is to heal the soul.

Lin Kai suddenly narrowed his eyes. He used a golden extraction ability to learn the extraction ability, which can quickly learn the opponent's movements.

Of course, this is only the gold extraction ability and can only record actions and the like.

If you want to show it, you can only show it through your own talent, or you have to keep practicing.

For Lin Kai, he only needs to deduct it in his mind.

It didn't take long for Ye Muqi to use up the three green needles, sticking them into the neck of Zhao Yajue's wife, and two hands.

After about a few minutes, it was Luo Suyi who cooked the medicine and walked in with the medicine.

### **Chapter 1734**

When I saw my junior sister Luo Suyi, she had already brought the boiled medicine.

Ye Muqi immediately took the three green needles back.

Then Ye Muqi asked a nurse to help Zhao Yajue's wife up and leaned there.

Let another nurse start to give Zhao Yajue's wife a little bit of this boiled medicinal soup.

Originally, nurses were specialized in nursing care, so they were handed over to nurses.

Four or five minutes later, the medicinal soup in his hand had been fed to Zhao Yajue's wife.

Ye Muqi saw this scene with great satisfaction, as if everything was in his grasp.

He immediately said with confidence, "Everyone waits patiently for a few minutes, anyway, no more than ten minutes, so that the lady can definitely wake up from the coma. Then he will cooperate with this medicinal soup for a few days. , It can be treated thoroughly."

Hearing Ye Muqi's words, Zhao Yajue was first excited. He believed Ye Muqi very much, thinking that his wife would wake up later.

Other members of the Zhao family, like Zhao Wuhao, Zhao Ziyang, etc., naturally hope to wake up, but they are still a little doubtful.

As for Dr. Hu, she didn't believe it at all. From her point of view, three needles set Yin and Yang, it was simply nonsense.

In short, apart from Lin Kai, the others with different expressions began to wait for Zhao Yajue's wife to wake up.

Lin Kai shook his head slightly. In fact, he couldn't bear to break this, and everyone was looking forward to it.

But in fact, I won't wake up. It is said that the greater the hope, the greater the disappointment.

Lin Kai couldn't help but said, "Although I also hope that Madam Ling can be cured by Brother Ye. In fact, Brother Ye still disappointed me. Your diagnosis is wrong, so Madam will not wake up."

Zhao Yajue's first expression was very unsightly. If it wasn't for Lin Kai's strength, and also for Lin Kai, he participated in the competition for a while, otherwise he would have turned against Lin Kai.

Even so, Zhao Yajue still said in a bad tone: "Mr. Lin, what you said is wrong. Brother Ye, as the heir of the medical saint, has learned a true story. Now Brother Ye is so sure, 100% sure. Treating my wife, then there must be great hope."

Although the others didn't say anything, they all agreed with what Zhao Yajue said in terms of their expressions.

Lin Kai ignored the gazes of the people and continued to speak: "I also said that I hope Madam can wake up. But in fact, it is not as good as you think. Brother Ye's medical skills are indeed good, but his diagnosis is wrong. No matter how good the medical skills are, if the judgment is wrong, it will not help."

Lin Kai also secretly nodded and affirmed Ye Muqi's medical techniques. It's just that Zhao Yajue's wife is not at all a loss of essence, energy, and energy. No matter how Ye Muqi uses it, medicinal materials for replenishing essence and energy, or treatment methods, will not be useful.

Without waiting for Zhao Yajue to speak again, Ye Muqi was a little unhappy now, and said with a hum, "Brother Lin, I thought you were willing to bet you too. I didn't expect to see that I was going to win, but you were anxious. If you don't believe my judgment, then wait patiently for a few minutes, no more than ten minutes, no, it's no more than eight minutes now, you just wait to surrender yourself!"

Hearing Ye Muqi's words, Lin Kai shook his head and laughed. Since everyone still believed Ye Muqi like this, he didn't bother to argue.

Facts speak louder than words, so why not wait a few minutes.

After waiting eight minutes, everyone naturally panicked.

In this way, under the expectation and waiting of everyone, time flew slowly, all looking towards the bed, Zhao Yajue's wife was looking forward to waking up.

Zhao Fusheng, the old man of the Zhao family, didn't know when he came here, and was also waiting for Zhao Yajue's wife to wake up from a coma.

No matter how slow time passed, it didn't take long for four or five minutes to pass.

Zhao Yajue's wife still had no response. Don't say anything about the reaction, I didn't even move.

Immediately, Ye Muqi's forehead was filled with cold sweat. Is it true that as Lin Kai said, he was wrong?

Do not! impossible!

Ye Muqi believed in his own judgment, then settled down and continued to wait.

One more minute, two minutes...

Under everyone's original expectations, they gradually became disappointed.

Especially Zhao Yajue, who trusted Ye Muqi so much, as a result, it was almost ten minutes in total, and his wife showed no signs of waking up.

Until a total of ten minutes passed, Zhao Yajue's wife still did not wake up.

Zhao Yajue and others couldn't help looking at Ye Muqi.

Ye Muqi was really panicked in his heart. He didn't know what the reason was. He kept talking about whether it should be. He didn't want to just lose.

He also said with a hint of hope: "Everyone's physique is different, and the wife has been in a coma for so long without timely treatment. Therefore, the lack of vitality is serious. In addition, the effect of the medicine is also serious. It didn't fully play out, so wait a few minutes to see. When the effect of the medicine is fully applied, I guess I will wake up."

Ye Muqi's words really make some sense.

Ever since, Zhao Yajue and others began to wait patiently again.

This time, I waited for ten minutes.

Zhao Yajue trusted Ye Muqi again, and couldn't help but said, "Brother Ye, why is my wife still not moving?"

Ye Muqi was completely panicked, but on the surface he remained calm, pretending to think: "There is nothing wrong with my methods and methods, is there something wrong with other aspects?"

Having said that, Ye Muqi looked at his junior sister Luo Suyi, and asked: "Are the medicinal materials bought according to the year and quantity I wrote?"

Luo Suyi responded: "Brother, there is nothing wrong with the medicinal materials and pots. I have strictly checked them. I also followed the way I boiled medicine on the mountain. There will be no mistakes. Brother, you are you suspecting me, can you make the wrong medicine?"

Ye Muqi suddenly looked embarrassed, and immediately said, "How can I doubt you... Then, what is the situation?"

Ye Muqi was also very puzzled. Since each step was strictly followed, he said.

So now Zhao Yajue's wife has never woken up, so she should say she shouldn't.

Dr. Hu couldn't help but sneer: "Patriarch Zhao, I have said that these two are still very young, and they are completely wasting time. I doubt that the medicine he has boiled will cause his wife to be taken. Bad reaction. Wait a minute, I have to give Madam Ling a good check to avoid any accidents."

### **Chapter 1735**

When Dr. Hu said so, the hope in Zhao Yajue's heart was instantly shattered. Also, his wife is domestic, and the famous medical experts of the older generation can't treat them well and can't see much.

Although the medical sage has been famous all over the world decades ago.

But after all, a few decades ago, the modern medical level was still not so developed.

Over the past few decades, the modern medical level in China has become one of the top in the world.

Therefore, if the medical saint's disciple, even if the blue is better than the blue, it seems that he can't keep up with the current level.

Thinking of this, Zhao Yajue said desperately: "Doctor Hu, then listen to you. First check for his wife, what is the current physical condition, and whether something will happen."

Zhao Yajue and the others felt like they had fallen from heaven to hell.

Of course, Zhao Yajue did not dare to blame Ye Muqi.

Although Ye Muqi didn't get a good treatment, Ye Muqi was stronger than Qian Bo, and I saw this with his own eyes.

On the contrary, Ye Muqi is now skeptical of life. He doesn't seem to understand that his methods are correct, why didn't he let the patient be treated? Not to mention that the treatment was good, and I didn't even move.

And Dr. Hu was about to walk towards the bedside to check if there was anything wrong with Zhao Yajue's wife.

But one person, Dr. Bihu, walked to the bed first, and it was Lin Kai.

As Lin Kai walked to the bedside, he faintly said, "Although Brother Ye was diagnosed wrongly, one thing is right. Madam's energy is indeed reduced, but it is not enough to cause Madam to coma. For a long time. So the medicinal soup that Brother Ye took for his wife, not only did nothing, but it would restore her lack of energy, and also added a lot of nutrition."

If Ye Muqi's medicine was really harmful to Zhao Yajue's wife, he would naturally stop it.

But Zhao Yajue's wife did have some reasons for this, and more of it was the instability of the soul, which led to the coma.

Therefore, Lin Kai went on to say: "So there is no need to check anything now, I will take action now, so that Madam will get better treatment."

Hearing what Lin Kai said, whether it was Zhao Yajue, Zhao Wuhao, Zhao Ziyan and others, naturally they did not believe what Lin Kai said.

Even Ye Muqi couldn't help it, let alone Lin Kai.

Therefore, Zhao Ya sighed heavily and said, "Mr. Lin, don't bother you. Brother Ye has not been treated. It seems that no one in this world can treat a good wife. Alas, my wife is also fate. Suffering, I stayed with me when I was most desperate. It was only a few years ago that I stabilized myself and became the head of the Zhao family.

Originally, my wife was enjoying the moment of glory and wealth, but unexpectedly, it became like this inexplicably. Alas, but I will not give up, only if I have a little hope, I will try my best to heal."

Uncle Qian was also next to him, and he couldn't help but speak to Zhao Yajue: "Although my junior's medical skills vaguely surpass Master. But after all, Master has so much experience, there is still great hope. Wait a while. Time, I ask Master, can I help."

Ye Muqi looked a little downhearted at this time, and he sighed and said: "Master's experience is indeed older than me. I am still no better than my master. But, my master will not go down the mountain for treatment. And I almost treat me. Master's abilities have basically been learned. Maybe my master is here, and it is useless. Perhaps no one in this world can treat Madam Ling well."

Hearing Ye Muqi's words, Zhao Yajue was even more desperate.

At this time, Zhao Wuhao looked at Lin Kai with a calm face, and couldn't help but say: "Anyway, there is not much hope, just let Mr. Lin try. Mr. Lin was also invited by us, if you don't try it it was not good. In addition, Mr. Lin also cured Mr. An.

You have heard of Mr. An's illness. He is also a well-known expert in the country, and there is nothing to do. However, Mr. Lin was able to completely cure the root cause of Mr. An's illness. Therefore, Mr. Lin still has some hope."

Although Zhao Wuhao said so, he actually had no idea about Lin Kai in his own heart. The main reason was that he invited Lin Kai to come. If he didn't let Lin Kai give it a try, he could be regarded as offending Lin Kai.

Before everyone could say anything, Dr. Hu jumped out first and immediately said: "Absolutely not! Madam Ling has been delayed, and if you delay it, there will be problems. Who knows if there is anything wrong with the medicinal soup, you have to wait for an inspection. Only then can we judge, instead of relying on his mouth to say."

Lin Kai didn't feel angry about Dr. Hu, but admired Dr. Hu, which shows that Dr. Hu is still very responsible for the patient.

So Lin Kai said lightly: "Then please ask Dr. Hu to check first. If the check is all right, I will try again."

Dr. Hu didn't appreciate it at all, and sneered: "Want to try it? Are you going to kill the patient? I just didn't say it directly because of Patriarch Zhao's face. Since you are so persistent, I To clarify the words, you and Ye Muqi are nothing more than slanderers, no medical skills! People like you are the most hated, not only cheating others' money, but also cheating!"

Hearing that Dr. Hu was so righteous and awe-inspiring, Zhao Wuhao didn't know what to say for a moment, so he could only look at Zhao Yajue.

After all, only Zhao Yajue and Zhao Fusheng can dominate here.

Moreover, Dr. Hu's status is not ordinary, and he represents some famous medical experts in China.

The reason why Zhao Yajue's wife can survive is because of the care and examination of Dr. Hu over the past months.

At this time, Zhao Yajue first glanced at Physician Hu, and then at Lin Kai, who looked calm.

Zhao Yajue was surprised that Lin Kai could still maintain this calm look.

In any case, what Dr. Hu said just now is indeed a bit too much.

But he didn't blame Dr. Hu, Dr. Hu didn't know the true ability of Lin Kai and Ye Muqi.

Zhao Yajue and An Xiaoran's grandfather are also very familiar, and they know the symptoms.

He thought for a while, and then immediately said to Dr. Hu, "Doctor Hu, I know that you are doing this for my wife. But it's not what you said. In fact, whether it is Mr. Lin or Brother Ye, It's not a liar. They are all in medical skills, and I really have the ability to invite them.

So Dr. Hu, just as Mr. Lin said just now, please check my wife first. If there are no problems, letting Mr. Lin try it under no circumstances will cause any problems. "

### **Chapter 1736**

Physician Hu immediately shook his head and said, "Patriarch Zhao, even if these two have some abilities. You said so, I will believe that they are not liars. But you have also seen that Ye Muqi, whom you trust, doesn't The treatment is good, Madam Ling. This is definitely not good for Lin Kai, right?"

She went on to say: "Furthermore, Madam Ling has already been tossed once. If you still toss like this, Madam Ling will not be so good in the first place, and it will be very bad if you delay it."

But at this moment, Ye Muqi's expression turned red. His medical skills were actually passed on by his master, and he had learned almost the same, and he could compare with his master.

He had also treated many patients before, all of them were cured. However, treating Zhao Yajue's wife today has no therapeutic effect.

This is because he was very confident before that, and everyone trusted him very much.

The most important thing is that he bet with Lin Kai and praised Haikou very confidently, and he was sure to win.

But now, it's not the same thing at all.

He even had to be told by Dr. Hu that he was a liar, which made Ye Muqi very sad, but he couldn't find any reason to refute it. After all, he did not treat Zhao Yajue's wife.

Lin Kai still looked calm, but seeing Dr. Hu's reluctance, he didn't have so much time to talk nonsense with Dr. Hu.

Although Dr. Hu was thinking about the patient, he accused him and Ye Muqi without getting to know him.

You know, let alone Lin Kai himself, just say Ye Muqi, the medical skills are learned from the cultivation technique.

Even if that cultivation technique is incomplete, but if you learn it, you can really be called a genius doctor.

It's just that Ye Muqi's shallow experience, coupled with the incomplete cultivation method, led to Ye Muqi's failure to diagnose the specific reason.

Therefore, Dr. Hu didn't understand, everyone would be a little annoyed just by scammers.

Lin Kai didn't feel anything, but it didn't mean that he would let Dr. Hu go on like this.

Therefore, Lin Kai set his eyes on Dr. Hu and said lightly: "Since Dr. Hu thinks that I am a swindler, then I will ask you now, if I can see, hear, and cut, I will quickly determine directly that there is What kind of illness, specific circumstances, do you still think, is it a deceitful person?"

"What does this mean?"

Dr. Hu frowned, suddenly puzzled.

Lin Kai said indifferently: "It's very simple, that is, I'm just where I am. Looking at you like this, I can judge what your body is like through seeing, hearing and asking, I will ask you, do you believe it or not?"

"You stay on the spot, do not touch me, take the pulse for me? Can you immediately judge my physical condition?"

Dr. Hu was surprised at first, and then, as if hearing a huge international joke, she couldn't help but ridicule. How could this be possible!

Dr. Hu hurriedly said with disdain: "It seems that what I said is not false. This is not what a liar is? This kind of thing only appears in movies and TV dramas. How can I have this kind of ability in reality. You know, I I worshipped the top famous medical experts in China, and I went to the most famous medical university abroad to study for several years. I couldn't do this.

Besides, my body is very healthy. I maintain a normal routine every day, and I don't eat randomly. It has been a long time since I got sick. I'm not sick, what can you see? "

Lin Kai said indifferently: "It seems that you are not sick, and you think that as a doctor, you have a full body check in the hospital several times a year, and your body is healthy. In fact, some problems cannot

be detected temporarily. And the doctors can't help themselves. Doctor, you should understand this. In my opinion, you are sick."

Dr. Hu sneered again and said: "Since you don't die until the Yellow River, then I want to see, do you see any illnesses in me? Of course, it is very likely that you are making up the illness. I will not trust it. If you talk nonsense, I will unceremoniously reveal your true colors!"

Lin Kai didn't take it seriously, and immediately glanced at Dr. Hu, and then said in an uncharacteristic manner: "When the catkins fall every year, you have to wear at least two layers of masks from the time you go out. Because you just touch them at all. No catkins, as soon as you touch the catkins, you will have difficulty breathing.

Although ordinary people are allergic to catkins, they also stay under catkins for a long time. And you are like a little cloud. This shows that you still have some problems with your respiratory tract. Also, you can't drink that kind of ground coffee, because you are allergic to coffee beans. Once you drink it, you will have diarrhea. Dr. Hu, you said, am I making up?"

At this time, Doctor Hu sneered again and again from the very beginning, following Lin Kai's words, her expression changed again and again, now she was shocked.

Then, Dr. Hu looked at Lin Kai uncertainly again, and asked, "How did you know? Did you follow me or investigate my information?"

Lin Kai said indifferently, "I don't even know you. If I follow you, how can I investigate? I don't even know your name."

At this time Zhao Yajue seemed to have rekindled hope. He did not expect that Lin Kai really had some abilities.

He said to Dr. Hu: "This Mr. Lin is in Donghai, but he is in charge of many company shares. This is the first time he has come to our Shenling. Therefore, it is absolutely impossible to know you. And Mr. Lin can come to do so. My wife was also invited by us to see a doctor. If we hadn't invited over, he would have left."

When Dr. Hu heard Zhao Yajue's words, he was silent for a while, and then said stiffly: "These are common people's reactions. It's just that I'm slightly more serious. This is not a real illness."

Lin Kai said indifferently, "Indeed, these are indeed the reactions of ordinary people. However, not everyone is like this. I not only saw you, but also said in such detail, you also think that I am here to cheat. Besides, from the point of view of my medical skills, this kind of illness of you is just your natural cause."

In an instant, Dr. Hu fell silent again, trying to say something, but found that he had nothing to say and was unable to refute.

And Zhao Yajue, who had already ignited hope, saw this scene. He didn't delay anything. He immediately looked at Lin Kai and said, "Mr. Lin, how offended you were before! I will trouble you to try it!"

At the same time, Zhao Yajue also looked at Dr. Hu and said: "Doctor Hu, Mr. Lin has also proved that he is not a liar. And if there is any problem, you don't have to be responsible for anything."

## Chapter 1737

But this Doctor Hu, just like the dog skin plaster, even if Zhao Yajue promised it that way, she still sneered to Lin Kai and said, "You just said that from your point of view, my natural allergy is a kind of Is it sick? Since it is a disease, it is not a terminal illness, there is always a solution. If you can cure my illness, I will believe in your ability."

After all, I also looked after Madam Zhou here for several months, and finally pulled Madam Zhou back from the line of life and death. Naturally, I couldn't helplessly watch Madam Zhou another accident. If you can heal me, I will trust you."

"simple."

Lin Kai said calmly, "Just grab these kinds of medicinal materials, no need to boil them, just mix them with a little boiled water and take them together, and it will have an effect in less than a minute."

The boss who came to the pharmacy not only brought me the medicinal materials written by Ye Muqi. I was also afraid that Zhao Yajue would need other medicinal materials, so he brought a large number of medicinal materials, including ordinary medicinal materials and unusual ones.

The several medicinal materials provided by Lin Kai are actually the most common medicinal materials.

Therefore, I found those kinds of medicinal materials at once, all of which are small particles, just like cold medicine, they are taken with boiling water.

At this time, Physician Hu's hand was holding a glass of boiling water in one hand, and several medicinal materials in the other.

She said to Lin Kai: "If I take this boiled water and prepare a piece of catkins, if I am not so uncomfortable, and there is no severe cough, it will prove that it is cured, and I will not stop anything. But I still feel uncomfortable, and if I cough violently, it means it's invalid. Please don't waste everyone's time and delay it!"

Lin Kai didn't have any comments, so he responded, "Okay."

Hearing Lin Kai's affirmative response, Dr. Hu just started, first put several medicinal materials into his mouth, and then drank the slightly cooled boiling water.

In this way, Dr. Hu combined several medicinal materials with boiling water and swallowed them.

Although this season is not the season of catkins drifting, as long as you have money, there is nothing you can do.

Although not in the country, there is the opposite season in foreign countries.

Of course, there is no time to buy directly from abroad.

Fortunately, there are people selling this kind in Shenling.

So when he was getting the medicinal materials, Zhao Yajue sent someone to buy catkins.

At this moment, someone brought a piece of fresh catkins and asked Dr. Hu to smell it.

Dr. Hu couldn't ask about the catkins at all, even if it was one piece, so every time the catkins floated, she had to wear at least two thick masks. If the wind is strong, she has to wear a three-layer mask.

In fact, Dr. Hu was still very scared of the catkins, but she considered that she wanted to expose Lin Kai's liar, so she was heartbroken and took the initiative to approach the catkins, and then smelled it.

Before changing, Dr. Hu would definitely cough violently, and then feel very uncomfortable.

But Dr. Hu is now surprised to find that he is completely fine!

what's the situation? Is it really effective, this symptom has been cured?

Dr. Hu felt a little unbelievable, and continued to smell the catkins. The catkins were indeed fresh, but no matter how she smelled them, or even put her hands in front of her nose, there was no problem.

At this moment, Dr. Hu was very surprised and seemed to be really effective!

Looking at Lin Kai's young age, she didn't expect that she still had such skills!

Suddenly, Dr. Hu only felt ashamed. She did not understand the situation of Lin Kai and Ye Muqi before, and directly said that they were both liars.

Especially now, when Lin Kai showed her casually, she could see her physical condition and even healed it easily!

Dr. Hu couldn't help looking at Lin Kai, first glanced at Lin Kai gratefully, and then embarrassedly said: "Mr. Lin, I am sorry, I had no eyesight before! Please forgive me! Thank you, heal My symptom! With your ability, Madam Zhou really hopes to be cured!"

Lin Kai nodded slightly, but did not respond.

He didn't waste any time. He immediately looked at Zhao Yajue's wife and said to everyone, "Brother Ye's medical skills are also very good. As I said before, brother Ye was diagnosed with a wrong diagnosis. The source of the diagnosis is all. Wrong, that is one step wrong, wrong step. Even if the latter is right, but the source is wrong, it will be completely denied.

Brother Ye said that the lack of spirit and spirit is correct, the key is that Madam Ling is not caused by some lack of spirit and spirit. It's still what I originally guessed, because of the strangeness of the soul."

When Zhao Yajue and others heard Lin Kai say this, they couldn't help but believe them. After all, Ye Muqi's medical skills are indeed true. No matter what, it is impossible to have no response at all. It seems that the diagnosis was wrong at the beginning.

Ye Muqi thought a little bit, and then asked: "Brother Lin, it may be true, because I intuitively found that the spirit and energy are lacking. When I came in, I observed that the spirit and energy were indeed missing. It's so uncertain. But what is the reason for the strange soul?"

Lin Kai looked at Zhao Yajue and said, "In fact, at the banquet, Patriarch Zhao has already explained why."

"Hmm? Did I say that?" Zhao Yajue was immediately astonished, with a blank face, how could he know the reason for the abnormal soul, let alone say it.

Lin Kai said: "When you were at the banquet, you already said that although there is no way to make a detailed diagnosis of the famous domestic medical experts. However, there are two general situations. One is that there are fewer brain cells. The other is. One is that it's caused by breathing difficulties. My judgment is, breathing difficulties, and then aroused other aspects, and finally formed the soul abnormality, it became this state."

Lin Kai could see that the current state of Zhao Yajue's wife was not like He Shiyun's mother.

He Shiyun's mother was taken away by the tree demon because of a soul, which caused He Shiyun's mother to remain unconscious.

As for Zhao Yajue's wife, it was not that she was missing a soul, but after suffocation, she did not suffocate completely, but entered a state.

Immediately it made the soul a little unstable, in short, it was the kind of wandering too empty.

Now Lin Kai only needs to stabilize this strange state of soul.

However, there is no way to explain this to these people, Lin Kai simply said: "You should know that you are too imaginary, Madam Ling is in this state now."

Hearing Lin Kai's words, I was very surprised. I didn't expect that Zhao Yajue's wife had gone through that kind of suffocation.

### **Chapter 1738**

Dr. Hu was the first to speak, and asked Xiang Lin Kai: "Mr. Lin, since Mrs. Zhou was fortunate not to die because of suffocation, she has entered the state of being too vacant. Then, what kind of treatment is needed to cure this situation? ?"

Today, Dr. Hu believes in Lin Kai a little, but still feels that this wandering is too vain, it's still quite ridiculous.

What can be used to treat this?

Don't talk about her, everyone else looked at Lin Kai one by one, with suspicious eyes.

Lin Kai said blankly and said, "The first thing is to take off the oxygen mask. The previous symptoms of dyspnea were not due to hypoxia. Think about it for yourself, there has been no hypoxia before, why suddenly Difficulty breathing? Actually, this is because the soul has been unstable for too long."

Dr. Hu was said by Lin Kai. After thinking about it carefully, it seemed that this was the case. In fact, Zhao Yajue's wife was not hypoxic.

It was that I had difficulty breathing last time, but it was short-lived breathlessness at the time, and there was no similar situation.

The reason why I wear an oxygen mask is to prevent that from happening.

Ever since, Dr. Hu complied.

There are machines there anyway, and once something happens, you can see it immediately.

At the same time, Lin Kaichao Ye Muqi temporarily borrowed the three green needles that he used not long ago.

This made Ye Muqi very confused and said: "Brother Lin, my three green needles are specially used to cast the three needles to fix Yin and Yang. If you need other green needles, I can provide you with them, and these three green needles, It has no effect on you."

Ye Muqi thought that Lin Kai wanted to use other methods of acupuncture for treatment.

As a result, Lin Kai's next words left Ye Muqi stunned.

"Brother Ye, I'm sorry, you let me see your three needles to determine yin and yang before, I know it. As everyone knows, I have the ability to never forget. And you three needles to determine yin and yang, I can also deduce it, yes It's broken."

When Lin Kai said this, he paused for a while, and then continued: "Actually, your three needles are used to regulate yin and yang. The real function is not for the coordination of yin and yang. Needles are not used in this way."

After Ye Muqi listened, he was even more surprised.

The same is true for Luo Suyi, she is also very good at setting yin and yang with these three needles, but it is still a bit difficult to learn these three needles to control yin and yang, she has not reached the height of her senior brother Ye Muqi.

What's more, Lin Kai also said that these three needles are not used to coordinate yin and yang.

This made Ye Muqi and Luo Suyi both surprised.

The main thing is that Lin Kai can tell that these three needles are incomplete for yin and yang.

Because the three needles fix Yin and Yang, this acupuncture method is indeed incomplete.

Not only did Lin Kai learn it, but even saw it, it was natural that Ye Muqi and Luo Suyi were both surprised.

Maybe Lin Kai could do it right away, but he still didn't believe that Lin Kai could still make up for the missing parts of the three needles to fix Yin and Yang.

As a result, under the mixed eyes of everyone, Lin Kai began to use three needles to fix Yin and Yang.

Others are paying attention to whether Zhao Yajue's wife will be awakened by Lin Kai.

Ye Muqi and Luo Suyi are paying attention to whether Lin Kai can really complement the three needles to fix yin and yang?

No matter what thoughts he had, Lin Kai waved the three green needles in his hand at this time, and that action seemed more skillful than Ye Muqi!

This surprised everyone. If Lin Kai hadn't just said it, he had an unforgettable ability and would have learned it.

And these three needles are the true biography of Master Ye Muqi.

Otherwise, I really thought that the three needles had been setting Yin and Yang for a long time since Lin started school.

But Zhao Yajue and others became even more nervous.

After all, Ye Muqi had just used these three needles to fix yin and yang, which had no effect on Zhao Yajue's wife.

But at this time, Lin Kai used these three needles to fix Yin and Yang again. This was the last hope.

If Lin Kai didn't get a good treatment, it would really be hopeless.

At this time, the three needles used by Lin Kai to fix yin and yang were somewhat different from those used by Ye Muqi before.

This difference surprised both Ye Muqi and Luo Suyi.

Because both of them can see that Lin Kai is not doing it indiscriminately! It is an effective three-needle setting for Yin and Yang!

Ye Muqi and Luo Suyi both glanced at each other, and they could see each other's surprise, and both became more and more uncertain.

It didn't take long before Lin Kai finished using the three needles to fix yin and yang. After putting the three green needles on Zhao Yajue's wife, after a few seconds, they all put them away.

Seeing this, Zhao Ziyuan couldn't help but said to Lin Kai: "Mr. Lin, has my mother been treated?"

Lin Kai looked at Zhao Ziyuan, who was worried, and smiled faintly: "This time, you don't need to wait long. You just need to close your eyes for a few ten seconds, and then open your eyes, you can see your mother, and you can wake up."

"Really?"

While Zhao Ziyuan was pleasantly surprised, she was also more disturbed.

She immediately closed her eyes, and then began to count down dozens of seconds.

In this room, there is only Zhao Ziyuan left, who has been counting these ten seconds.

Because all of them became silent, looking at Zhao Yajue's wife, they were all nervous.

Although it was only ten seconds, it was inexplicably long, as if it had gone through a century.

When the last ten seconds were up, Zhao Ziyuan also opened her eyes instantly, and then she was very surprised to see that at this moment, her mother who had been in a coma for many months also opened her eyes!

Zhao Yajue's wife woke up!

The huge surprise drowned everyone in the Zhao family present.

Dr. Hu and two other nurses were also shocked to watch this scene. They did not expect that the acupuncture method Lin Kai performed was really effective.

Especially for Ye Muqi and Luo Suyi, they were truly shocked beyond the reach.

Lin Kai can really fix the yin and yang of these three needles and show them completely!

Ye Muqi didn't believe it just now. Even Lin Kai seemed to have used the missing part of three needles to fix Yin and Yang, but he should have done it by himself.

Until now, Ye Muqi completely believed it! At the same time, he also lost!

Not only did I lose, but it was the kind of complete loss!

He still remembered what Lin Kai said to him not long ago: needles are not used like this.

Suddenly Ye Muqi was ashamed and wondered whether what he had learned was true. He also convinced Lin Kai.

It was the same for Luo Suyi, because she knew that three needles were actually difficult to determine Yin and Yang, and she never thought it would be so easy in Lin Kai's hands. Not only is it easy, but the three needles are used to fix yin and yang, and the missing parts are filled back!

This talent made Luo Suyi admire Lin Kai even more! After all, this is something that even her master can't do!

### **Chapter 1739**

Just when Ye Muqi and Luo Suyi were shocked by Lin Kai, they were able to use the three-needle technique to fix yin and yang, and to display the place of complement.

Zhao Yajue's people from the Zhao family were shocked that Lin Kai could really heal Zhao Yajue's wife with a method similar to Ye Muqi's.

Although they were all shocked, they were all suppressing the excitement in their hearts, because they were all watching Zhao Yajue's wife, for fear that it was an illusion or something.

On the contrary, Zhao Yajue's wife looked around in confusion, and then she couldn't help but said weakly, "You...you are? And me, what happened to me?"

As Zhao Yajue's wife spoke, the Zhao family members on the scene filled their faces with excitement, which shows that it is indeed not an illusion!

"lady!"

Zhao Yajue was the first one, she ran to the bed with extremely excited expression, and even tears appeared in the corner of her eyes.

It can be seen that the richest man in Guangling Province is still very emotional.

Immediately, Zhao Wuhao and Zhao Ziyun also ran over excitedly.

The other Zhao family members were also very happy.

Dr. Hu looked at Lin Kai, his eyes began to be filled with subdued exclamation, and couldn't help but say to Lin Kai: "Mr. Lin, I feel embarrassed again. I have always said that you are liars. It is true that I have no eyes. Please don't blame me. This method of Mr. Lin is also unheard of, and it is really shocking."

Lin Kai just smiled at what Dr. Hu said, and didn't care much, so he said a few words casually.

At this time, Ye Muqi was relieved from the shock, and then he looked at Lin Kai with a wry smile, then sighed heavily, and said: "Brother Lin, I give up, I really take it!"

After speaking, Ye Muqi gave a wry smile again, he found that what he was originally proud of, but in front of Lin Kai, it was nothing.

In terms of slaying demons and demons, he thought he was not top, but he was not weaker than most people, let alone among his peers.

Judging from the fact that his methods can cause harm to the powerful evil last night, it is more powerful than Master Zhicheng.

But when I met Lin Kai, he was completely crushed.

In terms of cultivation base, Ye Muqi was confident that he was among his peers, and there were few rivals, even the older ones, as long as they did not reach the half-step myth. Or a cultivator of the same cultivation level, he can still easily defeat it.

As a result, in Lin Kai's hands, he was still crushed.

As for his completely confident medical skills, he can dare to say that he is second in the country. Maybe someone can stand by his side, such as his master. But I think that no one dares to compete for the first place.

But he was still defeated by Lin Kai. Although he was not completely crushed, at least his three needles were correct, but he couldn't make up the missing part of the three needles.

Lin Kai was able to make up, he had to take these three needles to fix yin and yang.

Lin Kai smiled again at Ye Muqi's words: "Brother Ye, since he has surrendered, would you like to let me observe the method you practiced?"

Ye Muqi had a bitter expression, but he nodded and said, "Naturally, if I lose, I will lose. I won't go to shame. It's just that there are many people here, so let me go outside. Explain in advance, just let you watch. Now you have to give it to me after reading it."

Lin Kai shook his head and laughed, and said, "Don't worry, I just look at it, but I won't really learn the above."

Let alone other things, the exercises he practiced are not only complete, but also top-notch. How could he abandon his own practice and learn it?

The reason why I want to look at it is because I am curious to see what the content of this incomplete exercise is.

After all, it is rare to meet barely enough, as a cultivator, it is inevitable to be curious.

After that, Lin Kai looked at it slightly, satisfying his curiosity.

People in the Zhao family were very excited because Zhao Yajue's wife finally woke up.

I also thank Lin Kai in every possible way.

At the same time, I want Lin Kai to stay, thank you very much.

After all, Lin Kai saw through the evil at first glance, and indirectly saved the Zhao family father Zhao Fusheng. Furthermore, Lin Kai had to rely on Lin Kai to win the competition, and now it is the wife of Zhao Yajue who has been rescued.

No matter which one, the people of the Zhao family are very grateful to Lin Kai.

Lin Kai was in trouble, even if he was fine, he would leave.

So after saying goodbye to the Zhao family, he left quickly.

As for Ye Muqi and Luo Suyi, the Zhao family wanted to make friends with Ye Muqi and Luo Suyi.

Although these brothers and sisters were defeated by Lin Kai.

But this does not mean that Ye Muqi and Luo Suyi are weak, but because Lin Kai is too strong, Ye Muqi and Luo Suyi look weak.

This pair of brothers and sisters is not only not weak, but also belongs to the kind of top master.

Naturally, people from the Zhao family want to make friends with them.

But Ye Muqi and Luo Suyi were the same, both declined the kindness of the Zhao family, followed Lin Kai, and left the Zhao family together.

Zhao Yajue, the Patriarch of the Zhao family, and a group of Zhao family members, did not lose their manners, and all went out to send Lin Kai, Luo Suyi and Ye Muqi off.

Before leaving, Zhao Yajue forcibly gave Ye Muqi 500,000 cash as a thank you.

Originally wanted to give more, but Zhao Yajue considered that giving so much, Ye Muqi would definitely not accept it. And it is inconvenient to give so much cash.

Zhao Yajue also wanted to transfer a large sum of money to Lin Kai, thanking him, but Lin Kai just waved his hand.

Then the three of them completely left the Zhao family's scope.

Zhao Yajue naturally wanted the driver to send Lin Kai, Luo Suyi and Ye Muqi three people, but they also declined.

Ye Muqi and Luo Suyi had never received so much money in the world, so they naturally had to go shopping in Shenling, so there was no need for a driver to pick them up.

Lin Kai has his own business and doesn't need it.

Ye Muqi suddenly asked Lin Kai, "Brother Lin, when you called Miss An before, Miss An was in that ancient city on the Cloud, and it sounds like you have to go there too. . When will you go there? Do you need the help of me and my junior sister, anyway, this time the test failed, but you can stay in the world for a few more days."

Lin Kai glanced at Ye Muqi and said faintly, "I've gone, what else can you help?"

Ye Muqi suddenly had nothing to say and was embarrassed. He wanted to refute something, but he couldn't refute it. After all, he completely lost to Lin Kai.

Luo Suyi beside him couldn't help laughing and saying: "Brother, look at your embarrassed look now. I don't think I'll see you when I go to Miss An. You'd better stay on the mountain and learn more from Master's teachings. Maybe you're here. You still have a chance at the state mentioned."

### **Chapter 1740**

He Shiyun is in trouble

Lin Kai laughed secretly when he heard Luo Suyi's words. In fact, the realm that Ye Muqi and Luo Suyi's master said was building foundations.

Ye Muqi and Luo Suyi's master had spent a lifetime, but couldn't break through to the foundation building, and put their high hopes on Ye Muqi and Luo Suyi.

Even if Ye Muqi broke through to build the foundation, there was no way to do Lin Kai, there was no actual harm.

These words also made Ye Muqi even more embarrassed. He didn't say anything to Lin Kai to go to Yunshang Ancient City, and hurried away with Luo Suyi.

And Luo Suyi enthusiastically bid farewell to Lin Kai, saying that if he goes down the mountain in the future, he will look for him.

Lin Kai shook his head when he saw Ye Muqi and Luo Suyi's distant back.

Now that we are all gone, we should take care of ourselves.

Go to Yunshang Ancient City and complete the mysterious mission given by the system.

So far, the system has not given out any information or rewards.

Lin Kai thought for a while, it was time to go to the ancient city of Yunshang, and promised He Shiyun to take He Shiyun.

Thinking of this, Lin Kai started calling He Shiyun and asked if she was still in the hotel.

What Lin Kai didn't expect was that he had just called He Shiyun.

He Shiyun also picked it up, but she said in a choked voice: "Mr. Lin..."

"What happened?"

Lin Kai couldn't help asking when hearing the choked tone.

He Shiyun immediately told Lin Kai about all the grievances he had encountered.

After listening, Lin Kai knew what had happened.

In the morning when Lin Kai went to the Shenling Martial Arts Hall, He Shiyun was not idle, and went to the place where antiques were appraised.

Basically, if you want to be recognized by an official institution, you must go to the official institution to certify and obtain an antique certificate.

Appraisal costs a few hundred yuan.

He Shiyun knew that this was a formal appraisal agency, so he spent money to appraise Pisces Golden Lock.

The appraisal is indeed genuine, and the value is quite high. The valuation is between 1.5 million and 2 million, and may even be higher.

He Shiyun was very pleased. She wanted to sell the Pisces Golden Lock and gave all the money to Lin Kai.

Only at the auction, I encountered some problems.

He Shiyun brought the Pisces golden lock to this auction, and the auction also saw the certificate and the Pisces golden lock.

The people at the auction thought that this might be a fake, driving down the price a lot.

He Shiyun naturally refused to agree, and kept negotiating with the people at the auction, but the price kept dropping, and he said it must be fake.

Who could have imagined that He Shiyun wanted to turn around and leave, as soon as he turned around, he bumped into an oncoming auction staff member.

At that time, the staff member was holding a blue and white porcelain vase. The staff member did not hold it firmly and broke the ground.

The people at the auction immediately blamed all the responsibilities on He Shiyun and asked He Shiyun to pay for the blue and white porcelain vase.

According to the price given in this auction, the blue and white porcelain vase is worth three million, which is more expensive than He Shiyun's Pisces golden lock.

How can He Shiyun have any money to pay for this blue and white porcelain vase.

And He Shiyun also doubted whether this blue and white porcelain vase was genuine.

Besides, the biggest responsibility is the staff, who walks where the guests are so casually, and also walks by the side with blue and white porcelain vases casually.

Under the circumstances at that time, it could be seen that He Shiyun could leave at any time.

And before leaving, He Shiyun also said that he was leaving.

But the staff member still has to pass by her.

He Shiyun was so suspicious, but she didn't have any evidence to prove it.

The people at the auction house insisted on asking He Shiyun to compensate all the blue and white porcelain vases, and said that if they couldn't get the money, they would put the Pisces golden lock first. The auction money will be repaid as much as there is. If it exceeds three million, he will give it to He Shiyun.

He Shiyun naturally disagrees, but the people at the auction house are still aggressive.

Just when he was aggressive, He Shiyun received a call from Lin Kai.

That is why He Shiyun seemed so wronged and told Lin Kai about this.

After Lin Kai heard what He Shiyun said, he also felt that there must be something weird in it, so he first comforted He Shiyun and told He Shiyun not to act rashly and wait for him where he is. He has passed.

Then He Shiyun gave Lin Kai the location of the auction house.

After seeing the location of the auction house, Lin Kai determined a direction and came to an empty place.

Immediately after he performed the immortal technique, his figure flashed, and he moved in the direction of the auction house extremely fast.

At this speed, even the kind of camera that can delay the action cannot capture it, and the speed is very fast.

In about a few minutes, Lin Kai arrived at the place where the auction house was given by He Shiyun.

After a while, Lin Kai arrived at the door of the auction house.

However, as soon as Lin Kai arrived at the door of this auction house, he saw several staff members of this auction house and drove He Shiyun out.

One of the staff of the auction house sneered towards He Shiyun and said: "Our auction house is already doing charity. The valuation of your Pisces Golden Lock is only 150 to 2 million. Between. And I don't know if it is true or not. Our blue and white porcelain vase is genuine and worth three million.

Therefore, using your Pisces golden lock as a mortgage does not require any excessive compensation from you. It is already our auction house's generous kindness. The main thing is to see that you really have no money to hand it over. Otherwise, you will have to give us at least 1.5 million, so you are cheap! Do you dare to make trouble here, believe it or not, if you continue to make trouble like this, you have to give us the 1.5 million yuan!"

The staff of this auction house spoke with a sneer in a threatening tone.

He Shiyun said anxiously and said: "I just ask you to adjust the monitoring, if it is what you said! I will definitely pay you, but you don't even show me the monitoring, how can you be like you! The appraisal, the certificate of the blue-and-white porcelain vase, shouldn't be made by the institution where I belong, right? Besides, my friend is coming soon, at least wait for my friend to come over to discuss!"

“Haha, do you think that there is only one appraisal agency in Shenling? But there are several, if you don't believe it, go and check it yourself. As for the monitoring, we all said that our auction house will change the monitoring these few days. It happened to be changing the monitoring in the morning. The monitoring is useless at present, can't see it. You can go to the police, anyway our monitoring is useless.

And the friend you said is coming soon, what can your friend do even if it comes. If your friend wants to make trouble here, then let your friend pay for 1.5 million! “
