Chapter 1801

I didn't even think it was enough. As long as they were related to the Cao family, they had to be treated like a guest after seeing the girl!

Lin Kai nodded in satisfaction with the reactions of these Cao family members, and then said: "As for the second thing, your Cao family members, it seems that you are indulging in the habit, which has caused many of you in the Cao family to be Flying and trekking. If in the future, if I see you from the Cao family and still do what I do today, you can also give it a try!"

Although Lin Kai couldn't manage that much, if he saw it, and met it in person, he should be allowed to converge, and he should be converged, instead of doing this unscrupulously harming the party.

Regarding Lin Kai's words, these Cao family members were one of them, and then they all opened their mouths, and would not dare to condone it in the future.

I also understand that what Lin Kai said about today is naturally that Cao Lixing forcibly took Xu Qingcheng away. Let alone Lin Kai this kind of thing, in fact, many people in the Cao family can't look at it.

The main reason was that Cao Lixing was the young master of the Cao family. Many people just dared not speak.

Now that he got into such a strong man, it would naturally be no longer to condone some of the Cao family's behavior.

Seeing these people from the Cao family, Lin Kai didn't say anything, and immediately glanced at Cao Lixing deeply.

Cao Lixing could not move, but under Lin Kai's eyes, Cao Lixing's whole body trembled.

It was precisely because the body trembled that it caused endless pain in the whole body again.

Lin Kai didn't go to see Cao Lixing again, and drove away immediately.

These people from the Cao family are left behind. You look at me and I look at you, but they all look like a survivor. At the same time, what Lin Kai said is also extremely deep in his heart.

At this time, Lin Kai was heading back to the East China Sea, but before driving over, he sent a message to Xu Qingcheng so that Xu Qingcheng didn't have to worry about the Cao family anymore.

Although the Cao family is the first family here, it is no better than the East China Sea, and even in the East China Sea, it is not ranked in the top ten.

This is the gap.

So even if the Cao family knew Lin Kai's identity, they wouldn't dare to do anything to Xu Qingcheng.

Lin Kai originally drove directly to Donghai's home, but he received a message halfway through.

That is, in front of the mountains in the western suburbs of the city, the health city, where a temple was built.

This temple was arranged by Li Shengxian, and he felt that a temple was needed to guard it.

Of course, this temple is not a monk temple, but some gods and gods of Taoism.

After all, powerful evil spirits have appeared here. To prevent evil spirits from appearing again, such a temple was built.

But the construction was almost done, and when the beam was about to be mounted, the inexplicable beam broke.

And when I changed another one, it broke inexplicably.

It was as if there was no way to put that beam well.

This strange phenomenon caused many people to panic.

So Li Shengxian contacted Lin Kai and asked Lin Kai to go over and take a look.

Lin Kai happened to be heading in the direction of the suburbs in the west of the city and preparing to return to the East China Sea.

After he heard Li Shengxian's words, he immediately went to the mountains in the western suburbs of the city.

Half an hour later, Lin Kai came to the temple in front of the mountains on the western outskirts of the city.

Shangguan Cong and the short fat man were actually here long ago, but they didn't dare to show up like that.

When Lin Kai arrived, both Shangguan Cong and the short fat man appeared next to Lin Kai and talked to Lin Kai about the situation here, but the two monsters also found it strange, but they just couldn't see why.

Shangguan Cong and the short fat man had been subdued by Lin Kai, so they naturally listened to Lin Kai very much.

When something happened here, they all rushed here as soon as possible, but the two demons didn't know exactly what was going on either.

After that, Lin Kai came to the temple. The temple was almost built, and he was about to go to the beams.

Fortunately, no casualties were caused, and Li Shengxian also came here.

Seeing Lin Kai coming, Li Shengxian breathed a sigh of relief, then came to Lin Kai, pointed to the temple, and said, "I don't know what's going on. As long as the beam is lifted to the top, this beam will be disconnected voluntarily. After changing three times, it is still the same.

Because I was worried about problems with the main beam, I prepared three. Unexpectedly, there were three problems this time, all for the same reason, very inexplicable, and there is no major replacement now.”

Lin Kai was even more surprised when he heard Li Shengxian’s words. He looked at the temple up and down, and from the outside, he found nothing unusual.

It was the task that was suspected of extracting the ability of the generals. The second phase of the task had ended, but the third phase was triggered at this time.

However, this task triggered again does not have any detailed introduction. It is just a simple sentence, that is, to solve the immediate problem.

As for this immediate problem, it is most likely the problem of the temple’s girders.

Thinking of this, Lin Kai said to Li Shengxian: “You first arrange for someone to rush to work, and I will go in and have a look. You guys don’t follow in to avoid accidents.”

Li Shengxian nodded, and after the girders came out three times, he prevented other people from approaching the temple, let alone entering.

The main reason is that there is something weird in this temple, in case something happens, it will be troublesome.

Lin Kai immediately walked into the temple without hesitation.

He wanted to see what went wrong.

Although this temple is a separate first floor, it is still quite large.

This temple enshrines Zhenjun Erlang, Laojun Taishang and the like.

The statues inside are on both sides.

After Lin Kai walked in, nothing happened.

And Shangguan Cong and the short fat man hesitated outside, and then also entered the temple.

Shangguan Cong and the short fat man are both monsters, so naturally they are more courageous than ordinary people. The most important thing is that they know Lin Kai’s strength.

I believe that with Lin Kai’s strength, they would not suffer any harm.

“I think it should be a problem with the structure of the temple, which caused the girders to be unable to bear it, and the broken ones are the same.” The short fat man said.

Although he rarely enters human society, he still knows a little about these things. After all, he didn’t live in vain for hundreds of years. Even if the time to enter human society is short, it can be said to be a slowly accumulated experience.

Shangguan Cong was nothing, but like Lin Kai, he carefully looked at this temple.

Compared to other similar temples, this temple is actually quite normal.

This is what Lin Kai wondered. It is no different from other temples. Why is it so?

Chapter 1802

Lin Kai was still in this temple, carefully observing.

Shangguan Cong observed for a while, but didn't look at it again. Instead, he said to himself with some doubts: "How can I feel that it was purely an accident? Maybe there was a problem during the construction, which caused the successive beams to break. Cause this situation now."

Shangguan Cong naturally didn't see anything, there was anything unusual, and then he spoke.

The short fat man, heard Shangguan Cong say this, he said with a smile: "What I just said is right, you still don't believe me, you have to go and see it. From my point of view, it must be when it was built, where it was not built. Yes. As a result, this beam can't bear it at all, and it will break apart when it is crushed by something."

This short, fat man was talking very well.

Although Shangguan Cong heard that the short, fat man's words seemed to make sense, he quickly shook his head: "Isn't he still watching Mr. Lin? Mr. Lin should have noticed something wrong, we can compare Don't catch Mr. Lin's eyes, just wait first."

The short fat man originally wanted to refute something, but after thinking about it carefully, what Shangguan Cong said was not unreasonable. After all, they all knew Lin Kai's ability.

In their opinion, Lin Kai is definitely the legendary cultivator in the foundation building period.

They have never encountered immortal cultivators in the foundation-building period on this earth now.

To be precise, when they were first born two or three hundred years ago, they saw a powerful immortal cultivator, but as early as more than a hundred years ago, the entire earth was faulted.

At that time, they were all ordinary animals, and they didn't have much intelligence, so I didn't remember much, but they were very powerful that I had vaguely seen.

So in their eyes, Lin Kai's current Lin Kai is the same as those powerful immortal cultivators back then.

For Shangguan Cong and the short fat man, they were talking quietly there.

Lin Kai didn't care much, but he did see something. Although he thought there was nothing wrong at first, he could take it seriously and observe it carefully. Indeed, he found some clues, and then after this clues, there was a little difference.

This is why Lin Kai has been observing for so long.

At this time, Lin Kai spoke to Shangguan Cong and said, "Shangguan Cong, you go out and call the engineer responsible for the construction here."

Shangguan Cong knows some methods to make others think that he is a normal human being.

So when Shangguan Cong came to the western suburbs of the city, he came in as a human being.

Lin Kai and Li Shengxian greeted him. Shangguancong is his friend, so Shangguancong can come and go freely.

The short fat man can see the problem at a glance because of his own, transformed human form, so the short fat man is not suitable for appearing in front of humans.

That's why, the short fat man can only stay in the mountains, lest he be discovered to be a demon.

After hearing Lin Kai's words, Shangguan Cong didn't hesitate, and started to go outside, preparing to call the engineer responsible for building the temple.

The short fat man said with a smug look: "I'll just say, it must be during the construction, there were some problems, but Mr. Lin called all the engineers in charge of the temple."

Lin Kai ignored the short fat man's words, he continued to observe the temple, not letting go of any detail.

Before long, an old man about sixty years old followed Shangguan Cong in.

This old man in his sixties is the engineer responsible for the construction of this temple. He is one of the unfamiliar engineers in the field of construction in China.

Even with rich experience, it was the first time he encountered such a strange thing, which made him feel very puzzled and puzzled, and he couldn't understand it at all.

The engineer in charge of the temple has been in charge for 40 years. I don't know how many such temples have been built.

It should be said that he is very experienced, and there is no possibility of making mistakes in construction. However, nowadays, there have been three consecutive beams, all of which broke apart after being put on.

The beam has been checked and there is no problem, so only this construction of the temple has some problems.

But the engineer in charge of the temple also ran in and looked like he didn't find any problems.

Because of this, the engineer in charge of the temple wanted to know exactly where the problem occurred.

Originally, the engineer in charge of the temple didn't know Lin Kai's. Even if he knew, he was just a friend of the boss of the Healthy City project.

But since he went to the back of the mountain range, his view of Lin Kai has changed, and he has become very admiring Lin Kai.

He had heard that the ancient buildings behind the mountain range were designed by Lin Kai himself, and every detail was thought of by Lin Kai. It can be said that Lin Kai is the overall engineer of the ancient buildings behind the mountain range.

Among those ancient buildings, there are naturally such Taoist temples.

The engineer in charge of the temple also went in to see, and he admired Lin Kai even more. As the so-called layman sees the excitement, and the insider sees the doorway, through the structure and various details, it is already known that Lin Kai must be a real master in this area.

Even those real famous masters in the country may not be better than Lin Kai.

At this time, the engineer in charge of the temple had already come to Lin Kai. He respectfully said to Lin Kai, "Mr. Lin, what happened to this temple? Why did the beam break three times, and all it is broken into three pieces, what is the problem? Could it be that I really built the wrong thing? No, if it really was built wrong. If it is really impossible, I won't make such a big mistake, right?"

The engineer in charge of the temple really wanted to know, so he couldn't help asking out loud. At the same time, he is also confident that no matter how he makes a mistake, he cannot make such a big mistake.

After all, girders are also the most important part of the entire house structure. If the girders fail, then the house will easily collapse, just as important as the load-bearing wall.

Lin Kai shook his head and said, "Naturally it is not your cause, but for the time being, I can't see the specific reason. I called you over so that you can wait for the beam to come over tomorrow, and then you enlarge the beam like that. Once, I will personally take a look at the scene when the time comes."

Hearing what Lin Kai said, the engineer in charge of the temple immediately felt relieved. Since it is not his problem, it is easy to handle.

It was also unexpected that Lin Kai could not see a specific problem at present.

But it will be confirmed by Lin Kai to see it in person tomorrow.

The engineer in charge of the temple retired without delay.

Chapter 1803 is broken again

The engineer in charge of the temple is going to explain to Li Shengxian that he wants to fix the beam again, and it is best to build a few more, so as not to be like that tomorrow.

If Lin Kai can't see it, it's not so good, so I have to spare a few more.

As for Lin Kai, let Shangguan Cong and the short fat man go away first, and he himself left here, first talking to Li Shengxian.

I will look at the specific reasons tomorrow. Although Lin Kai guessed something, he still has to look at it before he can truly be sure.

The main task is the third phase of the system. For this, we have to be more rigorous in order to be more cautious.

This mysterious mission seems to be a serial mission, and I don't know how many.

Once all are completed, then the final reward will be obtained.

Lin Kai is still looking forward to it, this reward will be a god-level extraction ability.

After talking with Li Shengxian, Lin Kai went to the back of the mountain range first, while Yin Suyan was still making a movie there. In order not to disturb him, he went straight back.

Early the next morning, after a night of practice, Lin Kai could feel more and more that he was one step closer to the Yuan Ying stage.

“After completing this mysterious mission, consider breaking through to Yuan Ying.”

Lin Kai thought to himself, because he understood that he still had some difficulty in breaking through to the Nascent Soul on Earth.

The true energy of the earth today is still very thin, plus it can't bear the strength of a very high cultivation level.

This is also why it is difficult to see monks above the foundation on the earth, and this is one of the reasons.

The reason why Lin Kai can have the golden pill, and even Yuan Ying later, is entirely because of the system.

If there is no system, it would be extremely difficult.

Even if there is a system, looking at the current situation, there is a certain danger in trying to break through Yuan Ying.

Lin Kai also knows that breaking through the Nascent Soul by himself is by no means as simple as the average cultivator breaking through the Nascent Soul.

The main reason is that the immortal method he has cultivated is still very powerful. The current golden core has been mutated, and it must be that the Yuan Ying will also mutate.

So inevitable, Heavenly Tribulation will also be different.

In this case, it is natural to make full preparations. For example, if the mysterious task is completed, if the reward is the god-level extraction ability, of course it is better.

No matter what kind of god-level extraction ability, it is definitely helpful for crossing the catastrophe.

After Lin Kai thought for a while, he didn't waste any more time. After a simple wash, he headed to the suburbs of the west of the city.

Two hours later, he came to the temple again.

There are five girders, which were made overnight, and they are all exactly the same. They are completely the same as the three girders of yesterday.

Now placed in front of the temple, the person in charge of building the temple, Li Shengxian, is also here, just waiting for Lin to open.

When Lin drove over, he began to arrange workers, just like yesterday, he began to install a beam.

But this time, for safety's sake, many protective clothing worn by each worker will not be hit by injuries.

Somewhat unexpectedly this time, the big beam was actually installed.

Seeing the beams were placed in the temple, the workers also evacuated.

After a while, there was no movement in the beam. This made the person in charge of the temple very curious. Why is the first beam okay today?

Could it be that the way of installation yesterday was wrong? Isn't that right? The installation method yesterday is exactly the same as today.

In other words, Daliang is different from yesterday's?

That's even more wrong! Yesterday's girders and today's girders, the person in charge of building the temple, have been inspected by the Zongmen, and they are completely the same.

So no matter what it is, it is the same as yesterday. But the result is different.

Yesterday, the girder was just installed. The girder seemed to have been subjected to some external force, and it was neatly broken into several sections. This is the case for three consecutive roots.

But today is different. Today's first beam has been installed for about five or six minutes, and there is still no movement.

The person in charge of building the temple just wanted to talk to Lin Kai.

However, Lin Kai took it seriously and stared at the installed beam again.

The person in charge of building the temple was immediately puzzled. Isn't this the girders already installed? Why are you still watching so carefully there?

So the person in charge of building the temple couldn't help but laugh at Lin: "Mr. Lin, it might be because of yesterday's wind. Also, when it was installed yesterday, the weather was still a bit gloomy. Although the wind was not strong, it was in In this mountain, the wind may be a little different. Maybe the wind changed the wooden structure, causing some problems with the beam.

Today is different. The weather is not only clear, but there is no wind at all. So now, after the girder is installed, there is no problem. But the key is, if the wind blows later, will there be any big beams, and the love will be broken..."

Before the person in charge of building the temple could finish speaking, only a clear voice suddenly sounded.

Everyone was instantly surprised, why the voice seemed to be broken, but they still didn't have any problems seeing the beam.

Only after Lin Kai heard the crisp sound, he narrowed his eyes and continued to stare at the beam.

By Lin Kai's side, the person responsible for building the temple seemed to be more serious when he saw Lin Kai, and he was still staring at the beam.

Could it be that the crisp sound that seemed to be broken just now was really from that beam?

The person responsible for building the temple is even more alarmed.

I didn't see any problems yesterday, and the situation today is even more complicated. It is different from yesterday.

If it is really broken, then this problem is likely to be unsolvable.

If today's situation is the same as yesterday's situation, it may still be solved. After all, as long as you find a pattern, you can find a solution.

But now, it seems that there are no rules at all, so it is troublesome.

If this does not solve the problem of the temple, then his decades of experience in building temples will fall short.

After all, this kind of weird problem has occurred. If the real cause is not found, then he definitely attributed the final result to his wrong construction.

Only with such an explanation can it be explained clearly that this strange phenomenon occurs.

If this is the case, then few people will come to him to build a temple in the future.

Although he earns enough to make money, he still has a little experience to officially become the country's highest-level architect.

And to become this kind of builder, then you have to accumulate a lot of experience, and he's pretty close.

This is why the person responsible for building the temple is extremely nervous now.

Chapter 1804 The Prosperous Ancient Building.

After Lin Kai handled everything, he took Li Shengxian to Donghai Province.

"Lin Yuan, here I am. Are you ready?"

Lin Kai stood with his hands shouldered, looking at the outline of Donghai Province from a distance.

Even if he didn't have any cultivation base at this time, there was a celestial demeanor spreading away.

Li Shengxian walked to Lin Kai's side and hesitated: "Lin Kai, my third brother Li Longxian called me and asked me to go to the Dingsheng Old Building."

"Dingsheng Ancient Building?" Lin Kai raised his eyebrows and asked faintly: "Where is that place?"

"Dingsheng Gulou mainly deals in antiques, jade and other sounds. It is the country's largest antiques and jade trading market."

"The owner behind Dingsheng Ancient Tower is unknown, but it has a huge amount of energy. In Donghai Province, no family dare not give it face."

Li Shengxian introduced Lin Kai.

Lin Kai nodded and asked, "Then what did he tell you to go to Dingsheng Ancient Building?"

Li Shengxian said angrily: "The third brother is the eldest brother's doglegs. They are jealous of my father's favor, so they often humiliate me."

"Now he invites me to go, I don't know what's bad about it!"

Lin Kai smiled with interest, and said with a smile: "Go, why not go. I would like to see this ancient building with great prosperity."

Li Shengxian still didn't dare to go, and said timidly: "My third brother is not a simple character. I don't want to be ashamed in front of him."

Lin Kai frowned and shouted coldly: "Li Shengxian, if you still want to be the heir to the family, instead of being played like a dog all day, just brave me. Are you going to be a waste of your life?"

Li Shengxian flushed, and said loudly: "Damn, just go. I'm afraid of a bird!"

They drove all the way and soon came to the Dingsheng Old Building.

As soon as he arrived at the Dingsheng Ancient Building, Lin Kai received the task.

"Help Li Shengxian to be proud of the Dingsheng Ancient Building and get random rewards."

"I would like to call you the boy of good fortune, Li Shengxian!"

Lin Kai smiled and patted Li Shengxian on the shoulder inexplicably.

Li Shengxian trembled and looked at Lin Kai in horror: "How do I feel that you are now more scary than anyone else."

Lin Kai said softly: "Don't be afraid, I will always protect you."

Li Shengxian cried and felt like he was on the thief ship. Lin Kai's tone and eyes clearly saw him as a piece of fat!

Lin Kai stood with his hands on his back. This is a building that does not look like a modern building, but an ancient palace.

Moreover, what is even more amazing is that such a hall has nine floors.

"Nine floors? Is it because the nine is the respect?"

Li Shengxian took a deep breath and walked inside with the calm Lin Kai.

Two security guards stopped them suddenly.

A security guard said lightly: "Please show the invitation letter or introducer."

Li Shengxian said, "I am Li Shengxian and I was invited by Li Longxian."

The two security guards looked at each other, and one of them took out his mobile phone and asked him for instructions.

After a while, the call was transferred.

The security guard respectfully asked, "Hey, is this Mr. Li Longxian? Is the person below who claims to be Li Shengxian invited by you?"

On the seventh floor of Dingsheng Ancient Building, Li Longxian smiled sinisterly and said in surprise:

"I don't know him. You must not let him in. And this kind of person who lied about his identity might have some tricks to be detrimental to the ancient building. You have to look it up!"

The security's complexion changed, and after hanging up the phone, his complexion suddenly became serious.

A security guard said coldly: "I'm sorry, Mr. Li Longxian doesn't know you."

Li Shengxian looked surprised and hurriedly said: "I'll call him."

After Li Shengxian fought over, Li Longxian said leisurely: "Good brother, what's the matter?"

Li Shengxian said angrily: "You obviously invited me to come, why do you lie about not knowing me?"

Li Longxian sneered and said, "Why, the children of the dignified Li family, do you need my identity to come in?"

After speaking, he hung up the phone without hesitation.

Li Shengxian's face turned red and explained to the security guards: "I am from the Li family in Donghai. Since you are not allowed to enter, we will leave!"

The two security guards stepped forward, drew out their batons, and shouted coldly: "It's not that easy to go. Now, I suspect that you want to disadvantage the ancient building. You must follow me to investigate."

With that, they directly turned on the baton switch.

The electric current slapped on the baton, and Li Shengxian's face turned pale.

Lin Kai stood in front of Li Shengxian, looked at them coldly, and said indifferently, "Is this how Dingsheng Ancient Building treats guests?"

The security sneered, "Guests, we naturally respect them. But gangsters must also be punished! Dare to come here to go wild and find death!"

Lin Kai squinted his eyes slightly, furious, and said in a deep voice, "What do you want?"

"how?"

The security guard looked grim and gave a cruel smile, "Now let you know what I want!"

As he said, he swiped a stick toward Lin Kai without hesitation.

At the same time, the current on the baton was also driven to the maximum by him.

The security guard seemed to have seen Lin Kai's bounce and foaming end.

"Lin Kai, hide away!" Li Shengxian exclaimed.

However, Lin Kai stood with his hands in his hands, looking at the security guard indifferently.

The security guard flashed countless thoughts for a moment, whether he was frightened or relied on.

Soon, the security knew the result.

Just when the baton was about to hit Lin Kai's body, his body was suddenly struck by lightning, and he flew out with a bang.

The security guard bounced on the ground several times, without even humming, he passed out to death.

When the other security guard saw this, his eyes suddenly shrank.

What method did the man in front of him use, and why would his companion fly out out of thin air.

He took out his flute and played it frantically.

"There is an enemy attack!"

In an instant, dozens of security guards rushed out of the building.

One of them even jumped directly from the seventh floor.

When pedestrians on the road saw the jumper, they couldn't help shouting: "Someone jumped off the building!"

However, the next moment, that figure seemed to be catkins, and it fell to the ground lightly.

"Ancient Warrior!"

Everyone flashed this thought and gathered around excitedly.

The figure is a middle-aged man, fluttering in white, with an elegant appearance.

The middle-aged man glanced at Lin Kai and said lightly: "I am really impatient to dare to make trouble in the Dingsheng Ancient Building!"

Lin Kai's eyes flashed, and he said in a deep voice, "Grandmaster-level ancient warrior?"

The middle-aged man said in surprise, "I have good eyesight. But the person who hurts me must pay the price!"

The middle-aged man moved his body and slapped his palm.

This palm seemed to be powerless, but with Lin's eyesight, he knew that it could easily smash the skulls of ordinary people.

Lin Kai's expression was indifferent, and he threw out a token.

With a move of his wrist, the middle-aged man took it steadily.

He looked at the token, his expression changed drastically, and he knelt in front of Lin Kai with a 'poof'.

Chapter 1805

The middle-aged man knelt on one knee, cold sweat dripping down his forehead.

He said with a panic expression: "Subordinate Zhang Xingjun, the rudder master of the Shadow Gate Branch of the East China Sea Province! The subordinate **** it, dare to attack the Hallmaster!"

The level in the shadow gate is strict, and the lower players dare to attack the upper ones, and there is only one dead end.

Just now, he actually wanted to make a shot at the hall master, which was a capital crime!

An angry expression appeared on Zhang Xingjun's face, and he flashed directly in front of the two security guards, his face grim.

"Dare to let me deal with the hall master and die for me!"

Zhang Xingjun slapped two hands like lightning, and slapped them on the heads of the two security guards fiercely.

The two security guards just snorted, then they exploded directly and died on the spot.

"What happened, what happened?"

The surrounding crowd looked at all this in amazement, feeling that their brains were not enough.

This middle-aged man was obviously a rescuer called by the security guard.

But now the rescuer actually beat the security guard to death.

"Does this young man have any mysterious identity?"

"He seemed to kneel in front of this young man just now."

"It's an illusion, this middle-aged man looks at his skill, but the master!"

Everyone talked a lot and was amazed.

Zhang Xingjun took a sip, still a little confused.

These two **** things almost killed him, so letting them die is really cheap for them.

Fortunately, Lin Kai just waved his hand gently, without looking at the two dead security guards, and asked indifferently: "Why are you in this ancient building?"

Zhang Xingjun respectfully said: "The forces behind the Dingsheng Ancient Building are inextricably linked to our Shadow Gate. Therefore, I have come to **** the Dingsheng Ancient Building to prevent disturbances. Unexpectedly, I ran into the hall master.!"

Lin Kai asked Zhang Xingjun to get up and said, "Don't reveal my identity. Just call me Lin Kai."

Zhang Xingjun respectfully said: "Yes, Mr. Lin!"

Lin Kai said lightly: "Let's go, this time I just came with my good friend Li Shengxian."

Several people just wanted to enter the Dingsheng Ancient Building, but several people came out facing them.

The man in the lead looked at the two corpses on the ground, furious, and said angrily: "Who killed these two security guards did you want to die?"

Zhang Xingjun frowned and said faintly: "I killed it. Why, Chu Huaming, President Chu, are you trying to kill me for revenge?"

Chu Huaming said that he was the president, but he was only managing one floor of the Dingsheng Ancient Building.

Therefore, Zhang Xingjun is not afraid of Chu Huaming.

Chu Huaming's face became stiff, Zhang Xingjun was a member of the Shadow Gate, and he couldn't afford to offend him.

But even Zhang Xingjun couldn't just kill the people in the Dingsheng Ancient Tower at will.

Chu Huaming looked embarrassed, and asked: "Master Zhang Ruo, why did you kill them. You have to give an explanation, right?"

Zhang Xingjun said lightly: "They offend the distinguished guest and take the blame."

Chu Huaming scanned Lin Kai with an expression of scrutiny, "Who are you?"

Lin Kai smiled lightly: "I'm Lin Kai and I come from Beijing. I'm just an ordinary rich man."

"Fuck..."

"This is forcing me to give 666..."

Lin Kai has not forgotten his mission is to help Li Shengxian become famous.

He pulled Li Shengxian with his head shrunk behind him, smiled and said, "I was invited by my friend Li Shengxian."

Lin Kai shifted his eyes slightly, looked at the man behind Chu Huaming who was seven-point like Li Shengxian, and smiled:

"You are Li Longxian, you invited us to Dingsheng Ancient Building, but did not let the security guard let us in, so that such a tragic thing happened, it is really regrettable!"

Li Longxian had always looked at Lin Kai with a vigilant gaze, but he didn't expect that Lin Kai would directly burn the flames of war on him.

"Is that so, Brother Hyun?"

Chu Huaming's face became cold, and he looked at Li Longxian coldly.

Li Longxian hurriedly explained: "Chairman Chu, don't listen to him nonsense. I didn't invite them at all."

Lin Kai sneered, "It turned out to be a trash that dared not act."

"you....."

Li Longxian gritted his teeth, but couldn't figure out Lin Kai's background, and didn't dare to talk back.

Chu Huaming's complexion returned to calm. He looked at Lin Kai lightly and said, "Mr. Lin, the two dead security guards are employees of the Wanxin Group. I will truthfully report today's affairs with the Wanxin Group."

"Wanxin Group?"

Li Shengxian was taken aback, walked to Lin Kai's side, and said nervously, "Lin Kai, Wanxin Group is the largest security company in Donghai Province. The masters in the company are like clouds, and there is a legend that there is a great master!"

Li Shengxian said worriedly: "Will they retaliate against us?"

Lin Kai patted Li Shengxian on the shoulder and comforted: "I believe Wanxin Group must be very sensible and a decent company. They will not trouble me."

"Haha, Mr. Lin's happy mentality is really worth learning."

Chu Huaming gave a mocking sneer.

Zhang Xingjun looked at Chu Huaming with a look of pity. These frogs at the bottom of the well didn't know the identity of the man in front of him.

In the mere Wanxin Group, the destruction of the shadow gate is as easy as turning a palm!

Lin Kai said impatiently, "Is that how you treat guests? Let us block the door?"

Chu Huaming sneered, and said lightly: "Virtuous brother, since the guests are your younger brothers, you can entertain them well."

Li Longxian was clear. He looked at Li Shengxian and said disdainfully: "Brother Thirteen, a small antique party is being held on the seventh floor. Brother Thirteen and this friend, do you want to palm your hands?"

Li Shengxian hesitated, but he didn't know anything about antiques, and he would only lose face if he went.

Lin Kai showed an expression of interest, and said lightly: "It's interesting, lead the way."

Li Longxian was a little surprised, and said softly, "Is this Lin Kai an antique master?"

Chu Huaming disdainfully said: "The antique industry requires a lot of knowledge accumulation. Look at his young appearance, know what a fart!"

Chu Huaming smiled confidently and said: "I have invited four master appraisers who are very famous all over the country. Today you will slap them in the face as much as you want and let them get out in a desperate manner!"

Li Longxian was overjoyed and promised, "Chairman Chu, leave it to me!"

The group came to the seventh floor together.

On the seventh floor, looking up, there are half of the old men in the room.

The remaining middle-aged men were all jeweled and followed respectfully, listening to these experts explaining antiques.

Li Longxian looked at Li Shengxian and said aggressively: "Since it's here, do you want to make a bet?"

Li Shengxian asked cautiously: "What do you want to bet on?"

Li Longxian smiled slightly, pointed to the antiques in the room, and said lightly: "We choose one antique in this room. How about waiting for father to give it to him on his birthday?"

"Impossible!" Li Shengxian refused without hesitation.

He doesn't understand antiques at all, and if he chooses fakes to give to his father, he will be completely ashamed.

However, Lin Kai held down Li Shengxian and said loudly:

"Good idea, we took this bet!"

Chapter 1806 Taobao

"I'm dizzy, Lin Kai. I don't know antiques at all." Li Shengxian said hurriedly.

"Don't worry, it's okay!" Lin Kai's expression was indifferent.

Li Shengxian looked suspicious and asked hopefully: "Do you know antiques?"

Lin Kai had a sincere expression and said honestly: "I'm not as good as you, I don't know anything about antiques."

Li Shengxian's eyes went black and almost fainted.

Li Longxian jokingly said, "That really admires your courage."

Chu Huaming led everyone to the center of the hall.

There, there are four old men of Zhongxing Pengyue.

Li Longxian respectfully said: "Four masters, please help me with my palms today."

After seeing Chu Huaming nodding, the four elders nodded slightly and said indifferently: "It's okay. This time, I will pay back Xiao Chu's favor."

"Then four of us old guys, let's make one move!"

As soon as this sentence came out, everyone around was shocked.

"Are the four masters going to take action?"

"This time I really came to the right, I can see the methods of the four masters."

Many elders were in tears, and the light flashing in their eyes was not much more than that of star fans.

When Li Shengxian saw that his opponent was such a respected four masters, his head was buzzing and he was about to faint.

The four elders discussed a few words, then dispersed, each looking for the most worthy antique.

Purchasing antiques is based on insight and luck.

In the antique market, it is difficult to distinguish between true and false, and whether they can find the genuine one depends on their own ability.

If you buy precious treasures with very little money, you can become famous in one battle and be respected by the world.

If you spend a lot of money and buy fakes, everyone will laugh at you.

Of course, no matter whether it is true or not, as long as the transaction is completed, you cannot go back!

The four elders are so famous and respected by everyone, it is not simply that they often buy genuine products.

More importantly, what they are best at is to spend very little money to find treasures that have been dusted.

The price difference between this is more than a million, and even a record of over 100 million has been encountered several times.

These four elders looked confidently in front of stalls.

Those stall owners are nervous and expectant.

I hope they can buy their own antiques, which will make their business more prosperous.

What's nervous is that if they really find the treasure, they will feel very distressed, especially if they spend tens of thousands of dollars to buy tens of millions of treasures, their hearts will bleed.

A large group of people followed each old man, and they stared at the old man closely.

As long as they stay on a certain antique for a long time, after the old man gives up, they will buy that antique without hesitation.

In the beginning, the rich and powerful people present all bowed their heads, making the stall owner happy from ear to ear.

Later, they also learned well, many rich people took turns to buy, anyway, there are many antiques.

Suddenly, an old man stopped his feet in front of a stall, and he crouched there to lift a small bronze tripod.

The old man played around for a while and asked faintly: "How much is this tripod?"

The stall owner swallowed his saliva and his eyes turned grunting.

In his eyes, this small tripod was a fake, a dilapidated tripod tripod, not worth anything at all.

But since the master asked, it is likely to be genuine.

The stall owner asked the lion to open his mouth, wanting to quote a very high price.

The old man's face became cold, and he snorted coldly: "If you dare to take the old man as a fool, I will make you unable to mix in antiques!"

When the stall owner heard it, he could only helplessly tell the original price.

"Master, this three-legged tripod, one thousand three hundred yuan."

The old man smiled, holding the three-legged cauldron, and ordered: "Give me the money."

The crowd watched eagerly as the old man walked away with the three-legged cauldron, and began to discuss.

"What age do you think the tripod in the hands of the master is, and how much is it worth?"

"At least one million!"

"Hehe, maybe the master punched his eyes."

Someone said jealously: "I think it is a broken tripod, worth one hundred yuan."

But soon, he knew that a disaster had happened.

"The mouse is short-sighted, do you think the master is the same as you?"

The old men glared at him and blasted him out.

Seeing that the four elders had selected antiques, Li Shengxian gritted his teeth and said fiercely: "I will buy the most expensive antique here. I don't believe it is fake!"

Lin Kai didn't stop Li Shengxian, and said lightly: "Then we should choose one."

After the two people discussed, they separated directly.

Li Shengxian ran directly to the most expensive antique in the antique market.

But Lin Kai did not rush to choose antiques.

Instead, he looked at the four old men with a serious face, holding various instruments to detect various antiques.

This process is extremely complicated and slow, but at the level of their masters, it is already very fast.

Lin Kai looked at it for a while and couldn't help nodding.

The antiques that these four old men are interested in are all genuine.

After all, Lin Kai didn't mix in this business, so after watching it for a while, he became bored.

"I'll choose one too."

Lin Kai smiled slightly, his mind moved, and a golden light flashed in his eyes suddenly.

"Golden pupil launches!"

“boom”

The entire antique market changed suddenly in Lin Kai’s eyes.

Those antiques radiated light of different colors in Lin Kai’s eyes.

Lin Kai studied for a while and found that the longer those years, the better the antiques, the brighter the colors.

Lin Kai seemed to take a walk in the garden, staying in front of each stall for only a few seconds, and then walked over.

“Hehe, it turned out to be a layman.”

“Unfortunately, I thought he was pretending to be a pig and eating a tiger!”

Not far away, Li Longxian and Chu Huaming who were observing Lin Kai sneered with disdain.

Suddenly, Lin Kai stopped at a stall.

In the eyes of everyone, the antiques in front of this stall are nothing but strange gadgets.

There are even glass marbles and rattles inside.

Everyone knew at a glance that this was a fake stall.

But in Lin Kai’s eyes, everything in front of him exudes a bright light.

One of the inkstones exudes colorful light, making Lin Kai’s eyes aching slightly.

Lin Kai squinted, waved a big hand, and said boldly: “I want all of you guys how much money!”

“Haha, I laughed so hard.”

“When someone else buys one, he buys a bunch.”

The stall owner is a thin, wretched man.

His eyes rolled around like a cunning mouse.

The stall owner said with a smile: “The shopkeeper, good eyesight. These treasures of mine are all taken out of a large tomb!”

“An archaeologist said that the big tomb is probably Qin Shihuang’s tomb!”

The serious-faced people beside them finally couldn’t help but laugh.

He smiled like a quail, and said, “Good fellow, it turns out that Emperor Qin Shi Huang also played rattles!”

The stall owner stared at the talkative man angrily.

However, Lin Kai was wealthy and indifferent and said:

“It turns out to be such a big backing. Then I want it all for one thousand yuan!”

Chapter 1807

The stall owner jumped up and shouted exaggeratedly: "You are making trouble. I have more than 20 antiques here. You only gave one thousand yuan? At least ten thousand!"

Lin Kai shook his head and said firmly: "Give up to two thousand."

"No, at least eight thousand before I sell it!" The stall owner was also very firm.

The person next to him was suffocating his smile and his stomach hurts.

These two people are so funny.

Does this treat the antique market as a place for collecting tatters?

Chu Huaming's face was already black like a briquettes.

On the day he was on duty, something like this happened and it was simply discrediting his performance.

Chu Huaming stood up with a cold face, and shouted angrily: "If you want to collect the tatters, get out. Play on your own. Don't tarnish our sacred antique market!"

Lin Kai said displeasedly: "What kind of tattered harvest? Didn't you listen to this stall owner? These things were all scoured from Qin Shihuang's tomb!"

The stall owner's complexion was also not good, he was not afraid of Chu Huaming, the big deal would not come later.

Anyway, he is not in the antique business himself, he is a snitch.

Shi Xiaoqian was an orphan, and inadvertently obtained an ancient martial arts technique that masters body training.

Unexpectedly, he actually fits this technique very well.

From then on, Shi Xiaoqian relied on his own fascinating technique to commit theft.

Shi Xiaoqian also stole these objects from a family.

The family did not have much wealth on the bright side, only found this pile of things that looked like broken copper and iron in the basement.

In line with the principle of thief not leaving empty, Shi Xiaoqian packed and took these things away.

Shi Xiaoqian saw that these things were quite old, anyway, when he was idle, he brought them to the Dingsheng Old Mansion and exchanged two money for them.

If no one wants them, he just throws them away as rubbish.

Now that he has finally met a man, Chu Huaming dared to destroy his business!

Shi Xiaoqian took a deep look at Chu Huaming and remembered him in his heart.

Chu Huaming couldn't even dream that he was spotted by a powerful thief.

Chu Huaming sneered: "Lin Kai, I think you are also a human being. I didn't expect to be so stupid. It seems that I look at you too highly."

"What are you talking about?" Lin Kai was furious and yelled: "Dare you make a bet with me, if there are treasures in these things, the value will be more than the treasures of the four masters. Just you kneel down and call Li Shengxian's father."

Shi Xiaoqian asked curiously: "Why is it called Li Shengxian's father instead of your father?"

Unexpectedly, Lin Kai showed a disgusting expression on his face, and said disgustedly: "It doesn't matter if he is as strong as a fat pig, and he is like a stupid pig with a simple mind. I don't want such a stupid son."

"Fuck, you are so amazing!"

Shi Xiaoqian gave a thumbs up and said in admiration.

This means of pulling hatred is almost no one. Didn't you see that Chu Huaming was already shivering with anger?

Chu Huaming worked hard for a long time before he calmed down. He gritted his teeth and said, "I bet with you. If there is no treasure, then you will kneel and lick my shoes and get out of here!"

Lin Kai looked at everyone present and pointed at Li Shengxian and said loudly: "You heard it, this is the gambling game that President Chu promised. You all have to be a witness to prevent him from cheating and refuse to call Li Shengxian's father."

Li Shengxian, who was silently searching for the most expensive antiques in the far corner, was crying, so I hid here, Lin Kai, why do you even give me hatred?

Li Shengxian watched everyone staring at him. He wanted to kneel down and call Lin Kai's father. If there are a lot of adults, let him go.

Chu Huaming clutched his chest, his face was pale, and he was out of anger from a heart attack.

Lin Kai looked at Chu Huaming's appearance and muttered to himself: "It's not good, Li Shengxian seems to be going to give a white-haired man to a black-haired man."

"puff"

Hearing Lin Kai's words, Chu Huaming couldn't help it anymore, his face suddenly flushed, and a mouthful of blood came out.

"Chairman Chu, are you okay."

The subordinates quickly treated Chu Huaming.

Chu Huaming waved his hand and vomited a mouthful of stagnant blood, which made him feel much more relieved.

However, the gaze he looked at Lin Kai now was endless and resentful.

Dare to humiliate him like this, no matter what Lin Kai's identity is, he must die!

“Awesome, it made a living person so angry.”

“Chairman Chu is too miserable!”

“Will Lin Kai continue to be **** off so much, will he be **** to death?”

The audience was in awe. They wanted to mock Lin Kai for a few words to show their level of appreciation.

But now that they see the power of Lin Kai’s mouth-cannon, they should eat melons and watch the show!

Lin Kai turned to look at Shi Xiaoqian, and said, “I have already made a bet with Chu Huaming. You can sell it to me cheaper. In this way, I will pay 2,500 yuan for a price!”

Shi Xiaoqian shook his head and said firmly: “No, my bottom line is seven thousand!”

Lin Kai frowned and shouted coldly: “I’m up to three thousand! This is my bottom line!”

Shi Xiaoqian said in a loud voice, “Don’t think about it, I won’t sell it after six thousand!”

Lin Kai sighed, “Hurry up, sell it to me for four thousand. If I don’t sell it, I will leave.”

“Fuck, you two talk about cross talk!”

The onlookers felt that their spit energy was about to explode.

Is this really buying and selling antiques? This is clearly a bargaining in the auntie’s vegetable market!

Chu Huaming’s forehead bounced with blue veins, and when he looked like this, he was afraid that he would be vomiting blood again.

However, he couldn’t just let go.

If the business between Lin Kai and Shi Xiaoqian collapsed, then the gambling between him and Lin Kai would not be established.

Therefore, Chu Huaming directly ordered his subordinates and said: “Go, take ten thousand yuan.”

Chu Huaming said impatiently: “You two are enough. These are tattered, ten thousand yuan, I bought it for you.”

Shi Xiaoqian shook his head and said, “Ten thousand won’t work, but fifty thousand!”

“What!” Chu Huaming said incredulously: “Just this pile of rags, no one wants to throw it on the street, you sell me fifty thousand?”

“And, the price you just gave Lin Kai, isn’t it ten thousand yuan?”

Shi Xiaoqian said indifferently: “I and this little brother hit it off right away. This is a friendship price for him.”

“You fat man with big ears, you are not a good person at first sight. So, I sell it for fifty thousand!”

Chu Huaming felt that all four were empty, and this world was no longer worthy of nostalgia.

Chu Huaming had no spare energy to deal with this Shi Xiaoqian anymore. He gritted his teeth and said, "Give him fifty thousand!"

Shi Xiaoqian borrowed money and sighed in his heart: "Boy, I have done my best. He has given too much, I can only sell!"

After buying everything, Chu Huaming looked at Lin Kai in disgust and said, "These tatters are now yours."

Lin Kai said, "You gave me these treasures. You can't go back anymore."

Shi Xiaoqian also interrupted and said, "Furthermore, they are not tattered, they are treasures from the tomb of Qin Shihuang!"

Chu Huaming gritted his teeth vigorously to avoid a sudden runaway, and the two **** were killed at the scene.

"Don't worry, it's all yours, baby!"

Chapter 1808 Tang Bohu's Paintings

After Chu Huaming made repeated guarantees, Lin Kai still felt uneasy.

Lin Kai said cautiously: "I don't trust your character. We'd better sign a contract."

"You are so endless, do you want love!"

Chu Huaming roared, turned around and left.

He no longer wanted to see Lin Kai's face anymore.

Lin Kai hurriedly put the things in a package, and muttered: "It's a kind person, so many darlings, if you say you give it away, you will give it away."

Everyone looked compassionate, looking at Lin Kai's expression, they actually regarded this pile of tatters as treasures.

Shi Xiaoqian patted Lin Kai on the shoulder and sighed, "Brother, I'm sorry. Don't blame me, blame Chu Huaming if you want to blame!"

Lin Kai also patted Shi Xiaoqian on the shoulder, and sighed, "Brother, you are also sad. If you want to blame, blame Chu Huaming."

In the distance, Chu Huaming spewed out blood again, shouting in his heart: "Did God send these two **** to torture him!"

Lin Kai shook the parcel, put it directly on his back, and came to the edge of the central high platform.

At this time, the four masters have all chosen an antique, closing their eyes and resting.

Lin Kai spread the package on the high platform in front of him, smiled and said, "Everyone, I have also selected my antiques."

The four masters saw the pile of broken copper and iron in front of Lin Kai, and their brows twitched.

“Take these rags and get out of here!”

“It’s really unreasonable to stain the eyes of the old man!”

The four elders scolded one after another, pointing at Lin Kai and cursing.

At this time, Chu Huaming also put his heart in his stomach. Since these four masters have opened Chrysostom and said that these things are all tattered, then there will be no mistakes!

“Poor young man, he probably thought it was really a treasure.”

“Hehe, he didn’t spend any money anyway, what’s the pity?”

“You forgot, he made a bet with President Chu. If you lose, you have to lick President Chu’s shoes and get out.”

“Oh, that’s really pitiful. This young man probably won’t be able to lift his head for a lifetime.”

The crowd looked compassionate and sighed at Lin Kai’s tragic end.

Lin Kai looked awe-inspiring, and directly yelled: “Four old men, others are afraid of you, I am not afraid of you. Don’t pretend to be a wolf with a big tail here. If you have the ability, come and practice, and see if I can cut you off!”

Everyone was speechless, these four old men were all three hundred years old in total, and you are a young guy who wants to practice with others. It’s really not a shame.

The four old men also felt the pain of Chu Huaming being vomiting blood just now.

Chu Huaming hurried forward and told the four old men his and Lin Kai’s bet.

An old man took a closer look at the things in front of Lin Kai again and sneered: “Don’t worry, his things are rubbish, you are sure to win.”

Chu Huaming showed a grinning smile and mocked: “Lin Kai, did you hear that? The master has already spoken himself, don’t you kneel down and lick my feet?”

Lin Kai rolled his eyes and said with disdain: “What **** master, I think Li Shengxian is better than these so-called masters!”

Lin Kai never forgot the mission of the system and wanted to help Li Shengxian become famous.

Li Shengxian, who just came back from buying antiques, just heard these words.

Li Shengxian is speechless, why does this good brother always put him on the fire?

Is he really my friend, Li Shengxian thought desperately.

However, this time he was confident that he had beaten these four masters.

He carefully held out a calligraphy and painting, and said triumphantly: “Tang Yin, Tang Bohu’s authentic product, I bought it for 20 million!”

Li Shengxian looked at Li Longxian and said triumphantly: "Although this painting is worth less than 20 million yuan. But his father likes Tang Bohu's calligraphy and painting the most. I give him this calligraphy and painting as a gift, and he will definitely be happy."

Li Longxian looked a little ugly, and it was really bad this time.

For them, the most expensive antique is not necessarily the best.

Their father's preferences are the most important, even if the value is not equal, it doesn't matter at all.

It seems that the gambling this time will not make Li Shengxian ashamed.

Li Longxian sighed, disappointed.

He can only sigh, Li Shengxian's luck is too good.

Li Shengxian didn't understand Jianbao, but because their father liked Tang Bohu's calligraphy and painting, they all had deep research on Tang Bohu's calligraphy and painting.

Just now, Li Longxian has looked at this painting carefully, and it is indeed authentic!

The four elders stepped forward and made serious assessments.

The four discussed a few words with each other, and then stood there calmly again.

One of the masters took a look at Li Shengxian who was ecstatic, and sneered: "What a fool, this is a fake!"

"Fake?"

When everyone heard it, they were in an uproar.

This is a calligraphy and painting that was bought for 20 million. If this is a fake, it will be a big loss.

After Li Longxian heard it, his eyes glowed instantly and he was full of energy.

Li Shengxian was anxious. He said loudly, "Don't talk nonsense, it's obviously true."

Everyone is also a little confused, in their opinion, this painting is indeed authentic.

They have discovered this painting for a long time.

Some appraiser has also appraised it and confirmed that it is genuine.

The reason why no one bought it is because it looks like a painting by Tang Bohu casually and is not well-known in history.

The value of this painting is only a few million at most.

However, the four masters actually said that the painting was fake, which surprised everyone.

Li Longxian scolded: "Thirteen brothers, don't be presumptuous. These four masters are the most famous experts in appraising treasures in the country. They say they are fake, but they must be fake."

But how could Li Shengxian be convinced and could only keep his head silent.

An old man waved his hand and said calmly: "It seems that you are still not convinced, then I will convince you."

The old man opened the painting and said calmly: "This painting was painted by the painter Chen Zhuo in the last years of the Qing Dynasty. Here and here you can see some of his little habits."

The old man pointed to several places in the painting and pointed out the differences from the original work of Tang Bohu.

The old man cited the classics and analyzed it carefully for a long time, and finally came to the conclusion that the painting is a fake.

After Li Shengxian listened, his heart was cold.

Based on his understanding of Tang Bohu's calligraphy and painting, when the old man pointed out the first mistake, he already knew that it was not the genuine one.

"Haha, thirteen brothers. Twenty million, you bought this?" Li Longxian laughed excitedly.

The old man smiled slightly, and said: "This painting is by Chen Zhuo, and it's not entirely worthless. It's probably worth 200,000 yuan."

Li Shengxian took two steps back with his 'spin', only feeling that his heart was breaking.

He actually spent 20 million and bought a pair of words worth only 200,000.

Li Longxian patted Li Shengxian on the shoulder, showing his fangs, and said, "Thirteenth brother, don't forget to give this painting to your father to celebrate his birthday!"

Lin Kai stood up and said loudly:

"Wait!"

Chapter 1809 Tang Sancai

Li Longxian sarcastically said, "Why, does Master Lin think this painting is real?"

Lin Kai rolled his eyes and yelled mercilessly: "Is there something wrong with you? Which ear of your ears heard me say that this painting is real."

Li Longxian sneered: "Then what do you want to say, do you want to cheat or admit it?"

Lin Kai pointed to the pile of things in front of him, and said lightly: "The painting just now was an accident. The gift Li Shengxian wanted to give was actually in it."

"Haha, then I'm really sorry. I really misunderstood Master Lin."

Li Longxian's laughing stomach hurts. He patted Li Shengxian's shoulder and pretended to say kindly: "Thirteenth brother, don't hurry up and thank you for this friend."

Li Shengxian looked at the pile of things with a wry smile.

Even if he doesn't understand antiques, he can see that although these things look shabby, they are not too old.

Li Shengxian smiled bitterly: "Lin Kai, stop making trouble. I'll still use this fake. Then tell my father that I've hit the eye, and I believe my father will forgive me."

Lin Kai said displeasedly: "I have treasures here, so why have to use fakes? Don't talk nonsense, just pick one, you can hang them."

Li Longxian pretended to be scared and said, "I'm so scared. Thirteenth brother, I beg you not to choose, okay?"

Li Shengxian's face was flushed with shame, and he whispered: "Let's go."

Lin Kai said firmly: "If you are a friend, trust me."

Li Shengxian looked at Lin Kai's firm eyes and was also infected by him.

"Damn, you die! Isn't it shameful?"

Li Shengxian gritted his teeth and stomped his feet, chose a calligraphy and painting that looked very shabby, and held it in his hand.

Li Shengxian looked around a few times and showed a dumbfounded smile.

The picture above is like a picture of a chicken eating rice drawn by a three-year-old child, but it is actually signed by Tang Bohu.

As long as you are not a fool, you will know that this is a fake painting.

The most important thing is that the material of this painting looks like modern craftsmanship.

There was no such paper in ancient times.

Li Shengxian sighed, and said dejectedly, "Just this painting."

Li Longxian took a look, snorted, and laughed loudly: "My God, it turned out to be a picture of a phoenix spreading its wings."

The strong ridicule in the tone made Li Shengxian want to find a hole to get in.

After the four masters glanced at the painting, they turned their heads directly.

They are afraid of continuing to watch, and they will just vomit.

Chu Huaming sneered forward and said, "Lin Kai, will you use this painting to compete with us?"

Lin Kai glanced at the painting, and said sensibly: "Although this painting is an authentic work of Tang Bohu, it is not necessarily the most expensive."

Lin Kai picked up the rattle casually, shook his childishly a few times, and said, "I'll choose this one."

"Haha, is Lin Kai here to be funny?"

"Well, I admit I was amused by Lin Kai."

"Huh, no matter the occasion, the grandstander!"

Some people laughed, others disdain, but no one thought the rattle in Lin Kai's hand was an antique.

This is obviously a rattle this century, and I don't know which kid has played the rattle, but it happened to be regarded as a treasure by Lin Kai.

Chu Huaming sneered: "It seems that you have made up your mind to lick my feet."

Li Longxian touted: "Is Lin Kai actually a fan of President Chu? He deliberately made this bet with President Chu and licked President Chu's feet in a decent way."

Everyone suddenly realized that, thinking about it, it is really possible.

Lin Kai glanced at everyone and said calmly: "If you find that this is a treasure that looks down upon the audience, then I don't know if your face hurts or not."

Lin Kai looked at the two of them and sneered: "It's quite arrogant now. I'll be slapped in the face after a while, I hope you can still laugh."

Li Longxian sneered and teased: "Is that right? I can't wait to be slapped in the face by you. Please ask Master Lin to reveal the true face of this treasure."

Lin Kai said calmly: "No hurry, let's take a look at the antiques you choose. Can you compete with Li Shengxian's Tang Bohu calligraphy and painting."

"You won't cry if you don't see the coffin!"

Chu Huaming sneered, and respectfully said to the four elders: "Four masters, let this fool completely give up."

The four masters each discussed the selected antiques for a while, and finally decided to choose a Tang Sancai.

This is a two-humped camel figurine with a pannier decorated with animal faces. It opens its neck, its hind limbs are upright, and its front legs are slightly bent, as if it had just risen from a prone position, hissing on its back, and preparing to set foot on the west Journey.

Everyone stared at the two-humped camel, confused.

One of the Master Appreciation Master asked respectfully: "Master, we are all very familiar with Tang Sancai. Especially the two-humped camel figurines are very famous. But I can't figure out this Tang Sancai. It seems to be different from the legendary one. Too much like."

The old man whisked his beard, seemingly proud of recognizing this antique, and asked leisurely: "Why is it different?"

The man respectfully said: "Tang Sancai is a multi-color low-temperature glazed pottery. Various colors can be perfectly integrated on the pottery."

"But this piece of ceramic has only two colors, and they blend very differently. So, I feel that this is one piece..."

He didn't dare to finish the latter words.

But everyone understood what he meant, this is a fake.

Everyone regards the veteran in the antique market, and naturally they all agree with this person's words.

The old man was not annoyed, and said leisurely: "This is indeed not Tang Sancai."

Everyone was shocked, patience, waiting for the old man's words.

Sure enough, the old man continued: "That's because it is Chinese porcelain that is earlier than the Tang Dynasty! It is the prototype of Tang Sancai!"

The old man once again demonstrated his strong knowledge base and explained the origin of Tang Sancai.

At this time, the professionals also used professional equipment to perform precision tests and announced: "This is indeed a piece of Chinese porcelain. It is worth about 50 million yuan!"

The audience was shocked when he said this.

This is the ceramic that the old man bought for only 800 yuan.

The stall owner was clutching his heart, feeling that he urgently needed a quick-acting heart-saving pill to survive.

Everyone looked at the old man in admiration, and patted a bunch of rainbow farts desperately.

The old man was also very proud and laughed.

At this time, the other three elders also tested their choice of antiques.

As a result, the antiques they chose turned out to be all genuine.

And they are all rare treasures worth millions.

Now, the reputation of the four elders became even stronger.

It can be said that no one can shake their status in the future.

However, just as everyone looked at the four elders in admiration, an untimely voice rang.

"Not bad, so-so. I can barely be my opponent!"

Chapter 1810

Lin Kai's expression of approval, the expressions of the four elders worthy of his opponents, completely angered everyone present.

"Lin Kai, I don't hesitate to talk about you, look at what tattered things you are pursuing."

"Yes, what qualifications do you have to compare with the four masters."

"If there is something valuable in it, I will twist my head off and kick the ball."

Everyone pointed at Lin Kai's face and gave output.

Chu Huaming sneered and teased: "Masters, please identify if this Tang Bohu painting is authentic."

The four elders didn't even look at it, and said directly and categorically: "Fake, looking at the scroll year, less than a hundred years old. It's probably a kid's graffiti during the Republic of China."

After the appraisal staff casually appraisal with the instrument, he sighed again for the old man's venomous look.

He sighed: "The master is right, this painting is indeed from the Republic of China."

Li Longxian laughed and said, "Thirteenth brother, you have promised your friend to use this painting to celebrate his father's birthday. You can't break your promise."

Li Shengxian originally thought that a miracle would happen, but now that he has been appraised with an instrument, it seems hopeless.

Li Shengxian looked desperate, feeling that life is better than death.

He is holding this picture of a chicken eating rice from the Republic of China. How should he face his father?

Li Shengxian seemed to have seen the mocking faces of the twelve brothers and sisters, and the furious and disappointed expressions of his father.

Chu Huaming also showed a hideous smile, stretched out his shoes, and smiled presumptuously: "Lin Kai, lick my feet."

"Lick it quickly, I'm willing to bet and lose!"

"Tsk tsk, see if you will be arrogant."

The crowd roared in the periphery.

Shi Xiaoqian stood on the outside and sighed, "Little brother, I hurt you."

Lin Kai glanced around for a week, and coldly shouted: "Are you all rushing to reincarnate, so anxious?"

When everyone looked at Lin Kai's undue beating expression, they couldn't help but burst into flames.

Chu Huaming sneered, "See what tricks you still want to play."

Lin Kai looked at the four old men with a look of disappointment, "I thought you really lived up to the name of a master, it seems that I look at you highly."

Lin Kai glanced at the four of them, and said disdainfully: "You are nothing but that!"

"Enough, Lin Kai. Are you shameless? What qualifications do you have to say to the master?"

The crowd scolded one after another.

The four masters also showed anger on their faces and stood in front of Lin Kai.

They looked at Lin Kai indifferently, and said coldly: "What do you want to say. If you can't give us a satisfactory explanation, we will make you unable to mix in the East China Sea!"

“It seems that the masters are really angry.”

“Hehe, the four masters are very popular, who won’t give them face in Donghai Province?”

“Now, Lin Kai is digging his own grave, which is also considered to be self-inflicted!”

Everyone looked indifferent, thinking that Lin Kai’s ending was completely made by himself.

Lin Kai sneered: “You all thought I would be beaten, but now I will tell you who was beaten!”

Lin Kai stepped forward, picked up the painting, patted it with his hand, and took the scroll down.

Then he shook a few times, and a layer of interlayer appeared in the painting.

“There are other things!”

Everyone present was shocked.

“boom”

The four elders seemed to be directly hit in the face by a fire, fierce and painful.

No matter what is hidden in this painting, they didn’t even see it as their master appraiser, which shows their inferior level.

In fact, if they study this painting carefully, they will definitely find that there is something else in the painting.

However, their arrogance made them lose their eyes, so that they were completely slapped in the face by Lin Kai today.

“What if there is a mezzanine, I don’t believe there is really any antique in it!”

Chu Huaming and Li Longxian looked at Lin Kai’s hand nervously, as if that hand was holding their destiny.

Lin Kai carefully clipped a picture from the inside and placed it on the high platform.

All the people gathered in an instant and watched nervously.

Among the people, the four masters, Chu Huaming, and Li Longxian were the most excited.

Especially Shi Xiaoqian, he swears that he has never had such a complicated mood in his life.

Tang Bohu loves beautiful women and peach blossoms the most, so these two paintings are also the most famous.

The current painting is just a peach blossom picture.

Unfortunately, it is not a peach forest, but just a lone peach tree.

“You all get out of me!”

The four masters pushed everyone aside and couldn’t wait to test them.

Ten minutes later, the four of them said with complex expressions: "This is indeed Tang Bohu's painting, it is authentic!"

As soon as these words came out, everyone present went crazy.

"My mother, actually let Lin Kai find the treasure. Isn't this world too crazy?"

"Even the four masters didn't discover the secret of this painting, but Lin Kai discovered it."

The appraiser used the instrument to appraise its approximate year, before agreeing: "The master's vision, coupled with the aid of the instrument. It is already confirmed that this painting is the original Tang Bohu."

They estimated for a while and said: "This peach blossom picture is worth about 15 million!"

"Haha, I won!"

Li Shengxian had been standing stupidly, only then did he laugh.

He stepped forward and patted Li Longxian on the shoulder, and said, "Brother Brother, it seems that the younger brother is going to show off again this time. Haha."

Li Shengxian looked at Lin Kai excitedly, and said gratefully: "Thank you, Lin Kai. I will pay you the original price for this painting."

Lin Kai pretended to be displeased and said, "Is our friendship worth only ten million? If it is a friend, then take the painting away. I can come today, but it's not your light."

Li Shengxian was excited with tears in his eyes, but he was no longer hypocritical.

He hurriedly used a professional box to carefully put the painting away, and hugged it in his arms silly.

Paintings of this level are hard to get even for his father.

If he gave it to his father, his father's balance would definitely be tilted towards him.

Li Longxian's face was ugly, extremely angry, and disappointed.

Since childhood, Li Shengxian's luck has been very good, and he is more favored.

Now, he still hasn't overwhelmed him, making Li Longxian very unwilling.

The four elders sighed, bowed deeply to Lin Kai, and apologized: "We are blind, please don't blame Lin!"

Lin Kai nodded slightly, and pointed, "Never let your arrogant heart blind your eyes. Otherwise, your life of appraising treasures will end here."

The four of them shook all over, and they felt suddenly open.

This time they were really convinced, and their cloudy eyes instantly became clear.

They paid the respect directly, knelt down, and said respectfully: "Mr. Great kindness, thank you students!"

Everyone looked at them dumbfounded, no words could describe their shocked hearts.

What did they see?

The top master appraiser, respected by the world, in China's Taoli all over the world, actually kneeled to a young man with the gift of a student!
