

Special Forces 1981

Chapter 1981

The next day, before dawn, hundreds of scientists were waiting in the classroom.

They all had big panda eyes, and it was obvious that they slept all night last night.

However, their spirits are very excited, and they obviously can't wait to solve their confusion.

When they saw that Lin Kai hadn't come for a while, they couldn't help discussing it again.

After discussing for a while, they quarreled again, and this situation had been going on all night.

Their noisy blushing and thick necks, no one can convince anyone.

Seeing that they were about to use physical means to persuade each other, Lin Kai's figure Shi Shiran appeared in the teacher.

"Mr. Lin is here!"

Their eyes were shining, like a hungry wolf looking at the little white rabbit, as if they wanted to devour Lin Kaisheng.

Lin is very happy, but seeing their eyes still can't help but feel a bit cold.

Lin Kai stood with his hands behind and smiled faintly: "I think you have a lot of doubts now, please start asking questions."

"Let me ask first, there is a question that has bothered me all night, and I want Mr. Lin to answer it!"

A young man quickly stood up.

An old man stood up, blowing his beard and staring: "I am an elder, I will ask first. Don't you know whether you respect the old and love the young?"

Another old man stood up with a very loud voice: "I am the oldest, so I will ask questions first!"

A young man sneered: "In academia, regardless of age. It only depends on academic level."

He proudly said: "My results are obvious to all, and it can be said to be the strongest among us! So, let me ask questions first!"

"Fuck your grandma, shameless!"

How could other people bear it? This young man sprayed **** on his face.

"enough!"

Old Gu's face was very ugly, he stood up and applied for it and looked at everyone with dignity.

As soon as everyone saw Gu Lao got angry, they closed their mouths in a shame.

Gu Lao is the dean of these academicians and the one who has achieved the most.

Everyone respected Gu Lao very much. Gu Lao was angry, and they didn't dare to be presumptuous.

Old Gu looked around at everyone, like a king.

He nodded in satisfaction, and turned to look at Lin Kai.

Old Gu's serious old face bloomed in an instant, and he smiled and said, "Mr. Lin, I have a question for you. The 30-year-old Lanzhi grass and the 50-year-old longhorn flower are mixed by special means. Why is there such a big change?"

Everyone's eyes widened, and their hearts flashed past.

This old thing told them to shut up, the feelings are the first to ask!

They complained in their hearts and looked at Old Gu with fiery eyes.

Old Gu's expression was indifferent, as if he couldn't see their eyes, he sneered in his heart, fighting with me, you are still tender!

Lin Kai smiled slightly and explained it carefully.

When everyone saw that Lin Kai had already started to explain, they didn't have time to care about Old Gu, and they quickly listened carefully.

After Lin Kai finished speaking, Old Gu suddenly realized, his face flushed with excitement.

He finally knew the problem that had troubled him all night, which made him very satisfied.

Of course, others are not disappointed.

Because of this problem, they also don't know, but the proportion of the problem in their hearts is different.

Old Gu coughed lightly, and then asked, "Mr. Lin, I have another question..."

"Humph!"

"Old Gu is too much!"

At this moment, the others couldn't help it anymore. They glared at Old Gu, with anger burning in their eyes.

If Gu Lao dared to ask again, they wouldn't care about Gu Lao's identity, they had to let him know why the flowers were so popular.

Old Gu hesitated for a moment, finally sat down, and said helplessly: "Come on one by one, quickly put down the bricks in your hands, are you going to kill me?"

Lin Kai shook his head, and said with a finger, "You can ask."

The man quickly stood up excitedly and asked his question.

Throughout the morning, Lin Kai kept answering everyone's questions without stopping.

Lin Kai checked the time and said, "Okay. That's it for today's class."

“No!”

“Mr. Lin, you can’t leave us behind.”

“Yes, I always feel that not only has the doubts not reduced, but has become more and more.”

Everyone is a little anxious, they can’t wait to tie Lin Kai here and teach them to class.

However, they knew that their physique was not an opponent, not to mention that they now respect Lin Kai very much.

In their hearts, Lin Kai’s status has surpassed any academic master.

In their eyes, Lin Kai was already the incarnation of wisdom and the **** of wisdom.

They looked at Lin Kai eagerly, hoping to impress Lin Kai and let him continue the class.

Lin Kai said lightly: “You don’t have to look at me like this. This is not something that can be accomplished overnight. Even if I tell you for a few days, I can’t give you all the knowledge.”

Lin Kai smiled and said, “In the afternoon, we will start the experiment and enter the practice stage. Practice is the criterion for testing truth!”

After hearing Lin Kai’s words, everyone finally cheered up again.

After Lin drove away, everyone still did not leave.

At this time, Old Gu looked at everyone and said with emotion: “Everyone, if we make use of our knowledge, it will not only be a revolution in medicine, but also a revolution in the world.”

Another person’s eyes gleamed with wisdom, and he nodded: “For example, one of the branches can develop a drug that will greatly extend the lifespan of humans. It is conservatively estimated that the upper limit of human lifespan can be extended to two hundred. age.”

Everyone was shocked, but he believed in his prediction.

Because he is a scientist who specializes in human health and medicine.

Someone talked eloquently and boldly predicted: “The knowledge in it is closely related to the human body, which not only affects the lifespan of human beings. Human beings may really be able to return to their ancestors and regain some of the instincts of ancient times.”

Everyone was moved, and they already wanted to return to the research room to study these epoch-making technologies.

Of course, if you let them go now, unless you kill them.

Everyone stopped chatting, but hurriedly went to eat, then cultivated their spirits and prepared for the afternoon experiment.

Entering the experimental stage in the afternoon, you must cultivate your energy and not be sloppy.

In the afternoon, Lin Kai led everyone to a very huge laboratory.

Inside there are various instruments and many strange medicinal materials.

These medicinal materials are all raw materials for refining genetic medicine.

Without too much nonsense, Lin Kai led everyone to start the experiment.

In the beginning, everyone didn't do anything, just watched Lin Kai's own genetic medicine.

Lin Kai patiently explained the details to everyone while making it.

After Lin Kai finished the explanation, everyone started to finish it alone.

Lin Kai stood by and patrolled, and when he saw that someone had made a mistake, he immediately corrected it.

Chapter 1982

Of course, these scientists cannot complete the production of genetic medicine on their own. They need the help of many assistants to complete it.

Therefore, while absorbing knowledge from Lin Kai, they patiently explained to the assistants how to do it.

At this time, Xuanyuan appeared next to Lin Kai. He smiled at everyone with serious expressions and serious studies.

He said faintly: "Hua Xia can rejuvenate, because there are people like them."

Lin Kai nodded, agreeing with Xuanyuan's words.

At this time, an old man raised his head, looked at Xuanyuan dissatisfiedly, and said disgustingly: "God of War, this is a place for academic research, what are you doing? Get out quickly, and Mr. Lin will take us to study!"

The others also raised their heads and looked at Xuanyuan with disgusting eyes.

Xuanyuan's complexion froze, and with a helpless smile, he could only step away and leave.

Until late at night, a young man flushed and shouted: "I made it!"

Everyone suddenly raised their heads and looked at the bottle of medicine in the young man's hand.

Lin Kai also walked to his side, swept away with his spiritual thoughts, and then nodded.

He patted the young man on the shoulder, admiringly said: "Good job!"

The youth's expression became even more excited, as if Lin Kai's encouragement made him happier than making genetic medicine.

When everyone saw Lin Kai's admiration for the youth, his eyes suddenly turned red.

The young man raised his head triumphantly, looked at everyone with a triumphant smile.

"Damn, this guy was encouraged by idols!"

“Huh, the villain is determined. You’re just lucky, finish it first!”

“I almost finished it, this encouraged person should be me!”

Without saying anything, they continued to experiment.

After a while, some people completed it one after another.

Until the wee hours of the morning, everyone made genetic medicine.

Lin Kai sighed that these people are worthy of being the world’s top scientists. In such a short period of time, they can complete a genetic medicine.

Lin Kai waited for them to finish, then said lightly: “In fact, the industry is very developed now. After editing the data, you can use the machine to produce genetic medicine in large quantities. And the speed is much faster.”

He looked at the crowd and asked calmly: “You won’t blame me and waste your time?”

Everyone shook their heads, and Old Gu respectfully said: “Sir, this is our learning process.”

“In our eyes, we are no longer confined to genetic medicine in this area. We have more development content and more research directions.”

Lin Kai only laughed when everyone agreed.

They have this thought and consciousness, and they deserve to be national academicians.

At this moment, a young man stood up suddenly, and bowed respectfully: “Sir, I have a question that is very puzzled and I want to ask for advice.”

After Lin Kai signaled, the young man said with doubts: “I found that the genetic medicines we made are somewhat different from the genetic medicines circulating on the market. It seems that there are some differences in the ingredients.”

“I have done various experiments, and I found that if the gene medicine on the market is injected with blood, it will disappear strangely.”

The young man said puzzledly: “But after testing with various machines, nothing can be found. What is going on?”

After hearing what he said, many other people nodded and said, “Yes, I also found an abnormality. I was not sure at first, but now I think about it, something is really wrong.”

Lin Kai looked at the crowd and said solemnly, “You are right. The genetic medicines on the market are indeed somewhat different from the genetic medicines you make.”

“How is this going?”

They have a strong confidence, and with the knowledge they have now, they can clearly tell them that this is the most perfect kind of genetic medicine.

If there is a problem with the two, then the problem must be...

“Is there a problem with the genetic medicine sold by Leiyuan Group?” a scientist said boldly.

“This is impossible!”

A young man stood up, his expression was very puzzled and panicked.

Because he is an evolutionary who injected D-type genetic medicine!

The young man yelled: “I have studied gene medicine for a long time, and I injected it myself. I don’t think it is a problem!”

Another person retorted: “Are you saying that there is a problem with the genetic medicine we made?”

Others looked sideways and were very dissatisfied.

It doesn’t matter if you doubt their abilities, this is related to Mr. Lin’s reputation, and no one is allowed to destroy it.

The young man flushed, and he said, “Of course the genetic medicine we made is fine...”

Lin Kai stopped their quarrel and said with satisfaction: “You can find the problem. To be honest, I was very surprised, but also very pleased.”

“Because there are indeed problems with the genetic medicines on the market, but this is not something that our current technology can detect.”

“Don’t talk about science and technology, even Xuanyuan God of War can hardly find the difference.”

“And what you can find is that your understanding of genetic medicine has far exceeded my imagination.”

Hearing Lin Kai’s boasting, everyone was not too surprised, but fell into shock.

“Is there really something wrong with the genetic medicine on the market?”

“What will happen to it, if this is a problem, this is going to be a big deal!”

Everyone shuddered, and now there are hundreds of millions of evolvers.

If they have problems at the same time, a world war may break out.

The evolutionary scientist also paled and panicked.

Lin Kai explained in a deep voice: “There is a very mysterious and evil energy in those genetic medicines,”

“After it is injected into the evolutionary body, it will attach to the heart, silently absorbing their blood.”

“When the evolutionary dies, the weird energy will instantly absorb the essence and blood in the evolutionary’s heart, and then go away and disappear.”

“As for the evolvers who are still alive, I find that this energy will grow stronger with the evolvers, and they will continue to grow.”

“Even if the evolvers do not become stronger, they will still grow. Maybe after many years, the evolvers will die of heart failure!”

After listening to Lin Kai’s explanation, everyone was in shock and speechless for a long time.

In particular, the evolutionary’s face became paler and he smiled helplessly.

In fact, he did not become an evolutionary to become a powerful man of force.

For him, force is just brute force.

He did this entirely because he has a very **** wife.

In order to satisfy his wife, he chose to become an evolutionary.

This has indeed greatly improved his abilities, and made his wife very satisfied.

But now, he knew that the price might be his future life.

One person stood up suddenly and said angrily: “Leiyuan Group is so brave, what on earth do they want to do!”

Old Gu also stood up and said in a deep voice:

“Whatever it is, we must not let their conspiracy succeed!”

Chapter 1983

Lin Kai slapped his hands and stopped the angry crowd.

Otherwise, he is worried that these people will directly rush into the Leiyuan Group in angrily or directly face social exposure.

This may cause immeasurable disasters.

Lin Kai said solemnly: “Everyone, the Leiyuan Group’s conspiracy, Xuanyuan War God and I already know about it. Moreover, we are now ready to plan to defeat the Leiyuan Group’s conspiracy.”

The evolutionary stood up suddenly, his expression agitated.

If it was before, he had already cursed Lin Kai without hesitation.

However, now he respects Lin Kai very much.

He could only slightly aggrieved, and said: “Mr. Lin, since you have known that there is a conspiracy, why do you allow the people to inject genetic medicine?”

The evolutionary expression was a little horrified: “If something goes wrong with us, the evolutionary, it will cause chaos in the country and even the whole world.”

Lin Kai didn’t get angry because of his accusations, and said calmly: “Because this world needs genetic medicine, it needs an evolutionary.”

“So, we didn’t do it before I researched genetic medicine.”

When everyone heard it, their eyes widened, and they exclaimed: “Mr. Lin, are you saying that the formula of the gene medicine was developed by you with the finished product?”

Lin Kai nodded and sighed softly, “Unfortunately, the time is too late. Otherwise, I can slowly deduce type A genetic medicine or even S type genetic medicine with low-level genetic medicine.”

Everyone glanced at each other, deeply impressed by Lin Kai’s ability.

A young man stood up with strong self-confidence in his eyes: “Mr. Lin, if we used to, it would have been impossible for us to do it.”

“However, we have mastered the principles of genetic medicine. The task of deriving advanced genetic medicine is left to me!”

“There is me, count me!”

“Yes, let’s work hard together!”

In a row, more than a dozen scientists stood up again, and they were gearing up, eager to try.

Lin Kai was really surprised this time.

He has too many things to do now. If someone helps, why not do it?

Lin Kai smiled and encouraged: “Which one of you can deduce first, I will give him a big surprise!”

After hearing what Lin Kai said, everyone became interested.

Of course, it doesn’t matter whether you are surprised or not. The most important thing is that they all like to delve into it very much.

However, what exactly is Mr. Lin’s surprise, I really want to know!

Old Gu stood up and asked with a hint of concern: “Mr. Lin, I don’t know your plan, whether there is any need for us, it is our duty!”

“Yes, Mr. Lin. It is useful to get us, please let us know.”

Everyone also said one after another.

Lin Kai nodded and said solemnly: “There is indeed a need to go to your place.”

Lin Kai glanced at the crowd and said solemnly, “Now hundreds of millions of ordinary people have become evolvers, and 20 million of them are Chinese.”

“So, before Leiyuan Group officially sold genetic medicine, I had a way to deal with that evil energy.”

“But it’s only me acting on my own. It’s a drop in the bucket. It’s impossible to save everyone.”

“So, I seized the time and worked out the antidote to this evil energy.”

“As long as he eats it, within two days, the evil energy in his body will be purified.”

When Lin Kai said this, his thinking went back to the time.

He was immersed in retreat and tried many ways to stop and solve this evil energy.

However, all methods are not ideal.

Lin Kai was depressed, so he left in the morning to practice cultivation in the morning.

When he swallowed the first ray of solar energy, he suddenly wondered whether the solar energy could affect this evil energy.

When Lin Kai experimented, he was pleasantly surprised to find that when this evil energy met his inner strength full of sun, it was as if fire met water, ice and snow met flames, and instantly melted.

However, if he is allowed to treat those evolved one by one, let alone the danger of being discovered.

Furthermore, even if he is exhausted.

He can't save everyone.

When Lin Kai thought hard, he thought of a herb.

It is called Sunflower, a flower that grows in full sun and absorbs the essence of the sun.

With the attitude of trying, he actually found this kind of flower.

It grows above the equator and is very large in number.

Lin Kai hurriedly closed the door again, and finally refined this pill from Sunflower and some other masculine medicinal materials.

Lin Kai named it Zhiyang Dan.

In fact, the Zhiyang Pill developed by Lin Kai is not dedicated to detoxification.

But it has the effect of replenishing vitality and blood, and even inner strength and spiritual power.

Detoxification is just a surprise.

Of course, what Lin Kai needs is this unexpected joy.

If, as usual, he would never use this extremely precious medicine.

Because the Zhiyang Pill is very effective even for ordinary great masters.

It can quickly restore his vitality and internal energy.

If ordinary people take this kind of pill, not only is it not good, but it is easy for blood to attack the heart and cause hematemesis.

Serious, and even life-threatening.

Of course, there is that fel energy in the evolutionary body.

Zhiyang Pill and that evil energy offset each other, and the evolutionary will not appear abnormal.

"Great, Mr. Lin is really a god!"

The crowd looked at Lin Kai very admiringly, they couldn't even detect the evil energy, let alone how to eliminate it.

However, Mr. Lin has actually developed an antidote.

Mr. Lin is simply amazing!

They only heard that Lin Kai's force was so powerful that it could even fly into the sky and escape.

But unexpectedly, Lin Kai is not only superior in force, but also unparalleled in his wisdom.

In this world, as long as Lin Kai is willing, is there anything he doesn't?

Many scientists are very sane people, but they can't help but blindly worship Lin Kai.

In their eyes, Lin Kai became a fairy-like figure.

Lin Kai smiled and said, "Tomorrow, I will formally teach you how to refine the antidote."

"This antidote, I call it Zhiyang Pill."

Lin Kai looked at them and said in a deep voice, "After you learn, you will travel to various parts of China and start to lead students and workers to refine Yang Dan in large quantities."

"Of course, after Zhiyang Pill is refined, it will be handed over to Jiulong Mountain for safekeeping."

Lin Kai looked at the exhilarating crowd and said in a deep voice, "This matter is related to the life and death of the country and the world, so it must be kept secret."

"If you accept this task, you will lose your freedom before reaching Leiyuan Group, allowing professionals to monitor it all the time."

Chapter 1984

Old Gu stood up and said loudly, "Mr. Lin, you don't need to say more. We guys, we don't have one or two state secrets in our minds. We all understand these necessary procedures very well."

"Yes, as far as we are concerned. The needs of the country have exceeded our personal lives and deaths."

Everyone got up and looked at Lin Kai very firmly.

They are already prepared, and they may even stay incognito in their entire lives, and can only hide in the dark.

Lin Kai's face was calm, and he nodded slightly: "It is an honor for Lin Kai to work with you."

"Being a student of Mr. Lin is the greatest luck in our life!"

Everyone said in unison.

The next day, Lin Kai began to teach everyone to refine the Yang Dan.

This time, the refining to Yang Dan, everyone learned very quickly.

Lin Kai looked at everyone doing the experiment with serious expressions, feeling deeply moved.

Actually speaking, this Zhiyang Pill is a kind of pill that belongs to the realm of cultivating immortals.

In the world of cultivating immortals, only alchemists can refine it.

However, in this world it is not for nothing.

These ordinary people, relying on technology, can do many things that alchemists can do.

Even, they have more perfect control over various details than alchemists.

Because they are assisted by machines.

Moreover, as long as they set up various programs, they only need to control the general direction, and the machine can do everything well.

Moreover, the speed of the machine is unmatched by alchemists.

This is the power of technology!

Of course, Zhiyang Pill is just the most common pill in the world of cultivating immortals.

Some elixir, even elixir, can't be refined by machines.

At least the current technology can't do this at all.

Maybe in the future, science and technology will reach its limit, and it may be possible to produce elixir in large quantities.

When Lin Kai thought of the elixir spilled all over the world like candy, the goose bumps on his body stood up.

If you think about it this way, technology is actually too perverted.

After everyone had learned how to refine Yang Pill, Lin Kai looked at everyone with a serious expression.

Everyone's eyes were bloodshot, but their expressions were very excited.

They also looked at Lin Kai seriously, waiting for Lin Kaixun's words.

Lin Kai didn't say anything else, but first affirmed: "You did a great job! You didn't disappoint me!"

Everyone looked excited and showed innocent smiles like children.

Lin Kai said solemnly: "Your task is very heavy. You must refine both genetic medicine and Zhiyang Dan."

"Of course, you have to spend 80% of your energy and time on refining the Yang Dan."

"As for genetic medicine, it's a secondary goal."

Lin Kai looked at everyone and said with emotion: "Everyone, we are going to say goodbye this time."

Hearing these words of Lin Kai, everyone's excited expression suddenly became low.

These scientists, whether they are young, middle-aged or old, everyone regards Lin Kai as their teacher.

This sudden separation made them feel uncomfortable and even more reluctant.

Lin Kai smiled and said, "Get up and don't forget your mission. Besides, we will meet again in the future!"

"Understood, teacher."

Everyone changed their names and no longer called Mr. Lin, but directly called the teacher.

This represents their approval and respect.

Lin Xinxing became hot, these people are human wealth, but they are all looking at him with very respectful eyes.

This made him feel complicated, but he was also very moved.

Lin Kaizuoyi said loudly: "You cherish it, see you next time!"

"Teacher cherishes it!"

The crowd reddened their eyes and yelled loudly.

Lin Kai took a deep breath, and disappeared before everyone's eyes in a flash.

Xuanyuan came to Lin Kai's side and said with a smile: "Boy, can't you bear them?"

Lin Kai shook his head: "They are pure-minded people, with few distractions except academics. I have learned a lot from them. At the same time, I also like such people very much."

Xuanyuan smiled bitterly and said, "Only a person like you with a brain knowledge can get along with them happily."

"When other people get along with this group of scholars, they feel angry."

Xuanyuan seemed to recall the bad past, and his complexion was a bit ugly.

Lin chuckled and started talking about business.

"Brother, after a large number of Zhiyang Pills are refined, the most critical question is how to make all the evolutionaries take the Zhiyang Pill without disturbing the Leiyuan Group and Lin Yuan."

Xuanyuan frowned and said softly: "With our Huaxia's ability, it is not difficult for all the evolving people of China to subdue to Yang Pill."

Xuanyuan looked into the distance and seemed to see beyond Huaxia: "The difficulty is foreign countries. Do these governments have strong executive power for those who evolve to follow?"

Lin Kai shook his head, not optimistic about the situation abroad.

He looked indifferent, and said coldly: "Foreign, let's do everything to do with the destiny. We only need to take care of China's affairs."

Xuanyuan nodded, with the same indifferent expression: "In order to prevent foreign countries from dragging back, we first let all the evolutionaries in China take Zhiyang Pill, and then notify the foreign government."

"We will do our best to convince their government that there is a problem with gene medicine, but whether they can do it depends on their own good fortune!"

Lin Kai and Xuanyuan's two words decided this global sensational event.

After bidding farewell to Xuanyuan, Lin Kai did not take a plane, but directly soared into the sky and flew towards Donghai Province.

In the past few days, he has been at a secret base in the capital.

There was no signal here, and Lin Kai never contacted Tang Ying.

He didn't even say goodbye to Tang Ying even when he left in a hurry.

Now, he wanted to see Tang Ying very urgently.

Of course, before that, he also secretly went to Long's house.

He saw Long Xiaoling, one of the sisters.

She was reading a book in her boudoir, her expression was very peaceful, and she seemed to enjoy the time very much.

Lin Kai's eyes had a trace of pity, Long Xiaoling used to be very lively and lovely.

It was all because of Lin Yuan, a beast, that changed Long Xiaoling's personality.

Although nothing irreversible happened, this incident dealt a huge blow to Long Xiaoling's spirit.

Lin Kai hesitated several times, but still did not show up.

He had no face to see Long Xiaoling now, and he wanted to personally apologize in front of Long Xiaoling with Lin Yuan's head.

Lin Kai took a deep look at Long Xiaoling, and said to himself: "Ling'er, this time will not be too long. I hope you can forgive me then."

Lin Kai turned and left, with sharp murderous intent flashing in his eyes: "Lin Yuan, here I am!"

Lin Kai didn't know that when he flew into the sky, Long Xiaoling actually put down the book in his hand.

She came to the window and looked at Lin Kai's figure that ordinary people and even great masters could not find.

"Fool, I understand, I am not angry with you anymore."

Chapter 1985

Long Xiaoling endured his thoughts, returned to the table and sat down and continued to look at the book in his hand.

Suddenly, her eyes fluctuated slightly, seeming to be aware of it.

After a few seconds, a figure slowly appeared in Long Xiaoling's boudoir.

Long Xiaoling put down the book and said in surprise: "Sister, you are back."

Long Xiaoyun wears leather armor and outlines a perfect figure, which makes everyone obsessed.

It is a pity that she wears a mask on her face, and she cannot see her face.

Moreover, what was even more weird was that the eyes exposed on the mask were burning with black flames, which was very weird.

This look is enough to keep these obsessed people away.

Long Xiaoling rushed up, not caring about Long Xiaoyun's appearance, but put her arms around her waist, buried her head on Long Xiaoyun's chest, and said coquettishly: "Sister, you have been out for a long time, people think is you."

Black flame flashed in Long Xiaoyun's eyes, as if he wanted to attack Long Xiaoling.

Long Xiaoyun snorted coldly and forcibly suppressed Hei Yan, revealing her bright eyes.

This is a pair of starry eyes, she is glowing with water, looking at Long Xiaoling tenderly.

"Ling'er, my sister missed you too much."

Long Xiaoyun sounded with a slightly hoarse voice.

Long Xiaoling raised his head and looked at the mask on her face, with a trace of distress and hesitation in his eyes.

Long Xiaoling said softly: "Sister, do you wear this mask, does it hurt?"

Long Xiaoyun hesitated, then shook his head, and said softly: "It brings me great power, and there is always a price to pay."

After hearing this, Long Xiaoling's eyes felt even more distressed.

Her little hand stretched out and touched the mask on Long Xiaoyun's face.

Long Xiaoyun did not expect that Long Xiaoling would touch her mask, and quickly stopped: "Don't touch it!"

However, under her shocked eyes, Long Xiaoling actually touched the mask, and the mask did not respond.

"what?"

Long Xiaoyun was a little confused and said to himself: "Is it because of the twins of Linger and I that I didn't let the mask fight back?"

Long Xiaoyun sighed in fear: "Ling'er, I can't completely control this mask. Fortunately, the mask didn't respond, otherwise what should I do if it hurts you?"

Long Xiaoling stroked the mask and whispered softly: "Sister, can this mask be taken off?"

Long Xiaoyun shook his head and said calmly: "I tried it before, but I can't get it."

Long Xiaoling asked curiously: "Then didn't you let others take it down for you?"

Long Xiaoyun had a trace of sadness in his eyes, but he was very confident, and said softly: "If I can't do anything in this world, no one can do it. Even Xuanyuan War God can't do it!"

If you let the outside world know about Long Xiaoyun's arrogant remarks, he would definitely sneer at him. The joke is that Long Xiaoyun doesn't know how high the world is.

However, this is a matter of course for Long Xiaoyun.

Long Xiaoling's hand fell on the mask and stopped stroking, she whispered slightly hard, "Then if it can be taken off, sister must be very happy, right?"

A ray of verdant green light appeared in Long Xiaoling's hand, whom Long Xiaoyun hadn't been able to.

It is very soft and full of life.

However, its energy fluctuations were only limited to Long Xiaoling's hands, and it was not discovered by Long Xiaoyun.

Long Xiaoyun chuckled and shook his head: "I was really happy at the beginning, but now I can't live without it."

Long Xiaoling's small hands stopped, and she asked inexplicably, "Why? This mask brings you so much pain."

Long Xiaoyun said solemnly: "This is the reason, because I need strength."

Her gaze drifted away, with a hint of resentment in her tone: "That idiot often does some dangerous things. If I don't have strong power, I can only watch."

Long Xiaoling was silent, put her little hand down, and sighed faintly: "Sister, have you been protecting Brother Lin Kai?"

Long Xiaoyun snorted coldly, and said disdainfully: "No. This **** has been here just now, and he didn't even show up to see you."

Long Xiaoling smiled slightly and said naturally: "Maybe, he wants to wait for Lin Yuan to be killed before he comes back to see us."

Hearing Lin Yuan's name, Long Xiaoyun's eyes instantly became cold, and even the black inflammation that was forcibly suppressed by her faintly appeared in her eyes.

Long Xiaoling glanced indifferently, and the Hei Yan slowly backed away unexpectedly.

Long Xiaoyun said bitterly: "When I arrived in the East China Sea, I wanted to kill him directly. Unexpectedly, he actually came up with something like genetic medicine."

"Lin Kai seems to be planning something, wanting to save his life temporarily, I didn't kill this beast."

With a trace of doubt in Long Xiaoyun's eyes, he said in a deep voice: "He went to a secret base this time when he came back, and I didn't even dare to approach it there."

Long Xiaoling's expression moved slightly, and if nothing had happened, he said, "Maybe there is something wrong with the genetic medicine, he is studying how to solve it."

"What can be the problem with genetic medicine?"

Long Xiaoyun shook his head, this kind of thing is of no use to her, and she has not paid much attention to it.

Long Xiaoyun hesitated several times in his eyes, but he hesitated and said, "Ling'er, that **** Lin Kai has a new woman in the East China Sea..."

She carefully looked at Long Xiaoling's expression, and said angrily: "I must kill that bitch, then interrupt Lin Kai's five legs, bring him back, and let him confess!"

Long Xiaoling bit her teeth lightly, an inexplicable sorrow and grief appeared in her heart.

She smiled bitterly, originally she thought that nothing could shake her heart now.

Even if Lin Yuan, who once frightened her, stood in front of her, she did not have any mood swings.

However, after hearing that Lin Kai had another woman, her calm heart finally rippled.

When Long Xiaoyun saw Long Xiaoling's sad look, her heart suddenly ignited a lot of anger.

She suddenly turned around and said bitterly: "I will kill that **** now, and then bring Lin Kai back!"

Long Xiaoling was taken aback, and quickly stopped Long Xiaoyun: "Sister, don't be impulsive. Lin Kai is an excellent man. It's normal for girls to like him."

Long Xiaoyun said angrily: "But Lin Kai is sorry for us!"

Long Xiaoling shook his head and said softly, "Lin Kai is a passionate but not dedicated person. His heart is strong on the outside but very soft on the inside. If a girl can touch his soft heart, he It's hard not to like her."

Long Xiaoling smiled and said, "That must be a very beautiful and excellent girl, just like us. Otherwise, Lin Kai won't like her."

Long Xiaoyun couldn't figure out what Long Xiaoling said. She tried to ask, "Aren't you angry?"

Long Xiaoling waved his small fist, pretending to be angry and yelled: "Be angry, I must teach Lin Kai this big villain in the future."

Chapter 1986 Mental Illness?

Long Xiaoling took Long Xiaoyun's little hand, and smiled with big eyes: "After my sister goes to the East China Sea, you have to warn the big bad guy and don't let him find other women."

Long Xiaoyun hummed and tilted his head, "I won't go to the East China Sea!"

She touched the mask on her face again, and sighed inwardly: "Besides, I'm going to see him now. He will be scared by me."

"Okay, okay. Don't go to the East China Sea." Long Xiaoling hugged Long Xiaoyun and said coquettishly: "Sister, stay with me for a few days at home."

Long Xiaoyun hesitated, but nodded.

Seeing Long Xiaoyun agree, Long Xiaoling jumped up happily.

...

On the other side, Lin Kai looked solemn and flew in the air.

He did not show up to see Long Xiaoling. Another reason is that he fell in love with Tang Ying in Donghai, and his first time was given to Tang Ying...

This made him somehow to explain to Long Xiaoling.

When he thought of Long Xiaoling's sad eyes, his heart ached.

"Hey, how do those men with three wives and six concubines do it?"

Lin Kai sighed quietly, very troubled.

The smiles of the Long sisters kept appearing in his mind.

Also, Tang Ying's figure has been flashing in his mind all the time.

Even the appearance of Lin Xueer and Qian Lian'er appeared in his mind.

Lin Kai was taken aback. He considered these two girls as younger sisters. How could he make them think?

Lin Kai felt that something went wrong, how could he like so many girls?

Lin Kai stopped in the air, his expression changed several times, took out his phone, and searched.

After a while, his eyes lit up, and a smiling middle-aged man in a white coat appeared on the screen of his mobile phone.

Lin Kai turned around and fell from the air.

He walked on the streets of the capital and stopped a taxi.

He handed the phone over and asked, "Master, do you know this address?"

The driver looked at it and said with a smile: "That's a must, Dr. Wu is the top psychiatrist in Beijing, and even the world!"

He started the car and drove towards the destination.

The driver looked at Lin Kai from the reflector, and his expression was a little curious.

He sighed inwardly, now that more and more young people in this society have mental problems!

Lin Kai regretted seeing the driver's expression.

He also had a brainstorm, and he wanted to see a psychiatrist.

Lin Kai hesitated a few times and said, "Master, stop the car. I still won't go!"

The driver did not rush to a halt, and patiently persuaded: "Young people, you don't have to be embarrassed. Nowadays, there is a lot of social pressure, and almost five out of ten people have mental illness."

The driver talked eloquently: "Some people may not care, but there is a line of tolerance for pressure. If you cross this line, it may affect people's physical and mental health."

Lin Kai shook his head and said faintly: "I am healthy, these things can't affect me."

The driver smiled and said, "Of course, it's good to go and chat with a psychologist, which can relieve the psychological pressure."

Lin Kai thought for a while. When he wanted to see Long Xiaoling just now, sweat appeared on his forehead.

At that time, the psychological pressure was so great that he could only escape in embarrassment.

Lin Kai nodded: "Then go."

The driver was happy and in a good mood.

Not only did he make money, but he also saved a lost young man, which is nothing short of good!

An hour later, Lin got out of the car and looked at the manor in front of him.

Here is the outskirts of the capital, the environment is very beautiful.

Those who can live here are either rich or expensive.

However, the people who enter the manor are not only rich people.

Some people who do not seem to be very wealthy also walked in.

Some people don't seem to be here for the first time. Their expressions are very natural and they just walked in.

Some people cringe, looking at this place a little bit of resistance,

Because they knew that this kind of place should have been inaccessible to them in their lifetime.

When a few people arrived at the door, they retreated and wanted to turn around and leave.

"It's all said, let you not leave, why don't you listen?" Another woman receiving psychotherapy looked at the man who wanted to leave very angrily.

The man struck his neck and muttered: "What is your business if I go or not?"

The woman said angrily, "Do you know how difficult it is to make an appointment to Dr. Wu online?"

“Doctor Wu knows that poor people like us look down on mental illness, so he finds ten cases from ordinary families every month and receives his treatment.”

The woman said angrily: “These ten places are random. How lucky you are to get this place, but now you want to waste it, it is simply unforgivable!”

The woman seemed to get more and more angry as she spoke, even her face turned red.

She looked around, as if she was looking for something, and she kept muttering: “Where’s the knife, where’s the knife? I must kill him!”

The man was startled, he knelt on the ground and kept kowtow. He cried bitterly, “I’m going, I’m going. Don’t kill me...”

At this time, several people in white coats came out.

They were both Doctor Wu’s medical assistants. They discovered the conflict here and hurried out.

One of the men walked up to the woman and said softly: “It’s okay, relax.”

Another very sweet woman walked up to the man who had been kneeling and trembling with fright. Her eyes were also soft: “No one will hurt you.”

She stroked the man’s head lightly, comforting him softly and constantly.

In her careful care, the man’s emotions have also been relieved.

The female doctor said softly: “No matter what you have, you can talk to us.”

The man nodded and walked into the manor.

The woman’s anger gradually eased, and then she reacted. Just now, she couldn’t control her emotions because of her anger.

She looked ashamed and lowered her head: “I didn’t control my emotions.”

The doctor laughed loudly: “Nothing, you are already very good. At least, you don’t have a knife with you.”

He smiled and said: “After a few more treatments, you will definitely get better!”

After watching everyone enter, Lin Kai stood at the door silently complaining.

An angry uncontrollable emotion, even wanted to kill.

The other is as timid as a mouse.

A big man shivered with a few words from a girl and knelt on the ground begging for mercy.

Compared to these people, his psychological pressure is nothing.

However, all came.

If he didn’t see this Doctor Wu, he would have wasted more than an hour.

Otherwise, at this time he has already returned to the East China Sea.

When he walked to the entrance of the manor, two guards appeared, blocking Lin Kai's way.

Chapter 1987 Master Wu Qi

Lin Kai raised his eyebrows and asked, "Why, are you not allowed to enter here?"

A guard looked at Xia Lin Kai's clothes and said, "You don't look like a rich man."

Lin Kai wore a white robe, it was plain and unpretentious, and there was nothing special about it.

The guard didn't know that Lin Kai's white robe was a spiritual weapon.

It is not invaded by fire or water, and dust is not stained, and even has a defense that can withstand the blow of the Grand Master.

But such a mysterious treasure cannot be seen through by a guard.

Lin joked, "Why, don't the poor deserve to see a psychiatrist?"

The guard shook his head and said calmly: "I am not discriminating against the poor, but the treatment fee of the psychologist is a price that the poor can't afford. Of course, we will select ten poor people with mental illness every month. Treat them. This is what our doctors can do."

Lin Kai glanced at the guard in surprise, and he suddenly became curious about the doctor Wu.

Whether it was the assistants just now or the two door guards, they all showed excellent qualities.

To lead such outstanding people, this Doctor Wu must not be an ordinary person.

The guard asked, "Excuse me, are you one of these ten poor people?"

Lin Kai shook his head and said frankly: "I just searched the Internet and came directly."

The guard said regretfully, "That's really sorry, you can't go in."

Lin Kai smiled and said, "If you didn't let me in before, then I just left. Now, I have interest, so I must go in."

A look of vigilance flashed across the guard's face. These mentally ill people might have a tendency to violence.

There was a disagreement, and it was not that the incident of drawing a knife and hurting people did not happen.

He saw Lin Kai grinning and smiling, and he felt a trace of alertness.

The guard greeted another guard, and then half surrounded Lin Kai: "This gentleman, please leave. Otherwise, we have the right to control you and then hand over to the police."

The other doorman even directly released his aura and confidently said: "We are evolving, I advise you not to be foolish!"

Lin Kai looked at them in surprise, and curiously said, "Does your guard's salary here are so high, or do you have mines at home? Can you even buy genetic medicine?"

They shook their heads and said honestly: "We are all from very ordinary families. The salary is quite a lot. However, it is not high enough to spend one million to buy genetic medicine."

A look of respect flashed across a doorman's face: "This genetic medicine was given to us by Dr. Wu for free."

"Because he said that we guards often face customers with psychological problems and often face dangers, so he let us inject genetic medicine. In this way, our safety has been guaranteed!"

The guard turned around and said coldly: "So, you leave as soon as possible. Don't make trouble here, otherwise, don't blame us for being polite!"

Lin Kai smiled faintly: "You are already very qualified as the guards. So, I won't be embarrassed by you."

Lin Kai said lightly: "However, I must enter this door. You'd better not stop me."

Seeing Lin Kai's stubborn appearance, the guards became impatient.

They came forward and wanted to take Lin Kai directly, then called the police and handed them over to the police.

Lin Kaiyipao suddenly went silent.

His figure slowly hung in the air, he stood in the air, faintly looking down at the two guards.

The two door guards had already opened their mouths wide and looked at Lin Kai stupidly.

Lin Kai looked calm, saw through all obstacles at a glance, and saw a middle-aged man in the manor.

He is sitting in a chair, looking at a case in his hand.

This case is very complicated by other doctors, but it is very simple for him.

After a few treatment options, the results will be obvious.

Dr. Wu took out his pen, began to work hard and began to write.

Suddenly, his body stiffened suddenly, and drops of sweat rolled down, causing the paper in front of him to quickly become soaked.

He seemed to have become a little rabbit in the jungle. Unprepared, a white tiger with a hanging eye suddenly appeared in front of him, showing his fangs.

Soon, this huge majesty receded like a tide, and Dr. Wu suddenly lay on the table, and gasped for breath.

Outside the manor, Lin Kai smiled slightly: "Interestingly, he is still an ancient warrior at the master level."

The two guards looked at each other, chilling, but at the same time somewhat inexplicable.

This young overpowering man is talking about who is the grandmaster-level ancient warrior?

They are all people who are full of interest in Guwu, and they know all the masters in the capital.

But in the manor, they didn't know that there was a master.

Lin Kai lowered his head and asked calmly, "Are you still stopping me?"

The two guards smiled bitterly and stepped aside. Of course, it didn't make any difference who didn't.

Because they can fly!

Yes, this is a strong man who can fly!

The two guards looked very shocked, flying is the sign of the great master.

In other words, this young man turned out to be a great master.

Thinking of this, they thumped, knelt down, and looked at Lin Kai feverishly.

"I don't know how offended the Grand Master is in person. Please punish the Grand Master!"

Lin Kai shook his head: "You didn't do anything wrong, there is no need to punish you."

In the manor, Doctor Wu didn't have time to wipe the sweat off his face, and ran outside.

"Doctor Wu, what's wrong with you?"

His assistants exclaimed loudly, very shocked.

Because, no matter what happened to Dr. Wu, he always had a smile on his face.

Even when he met some high-ranking officials, he was neither humble nor overbearing and personable.

But now, he actually looked panic, as if something terrible had happened.

Moreover, Dr. Wu ran too fast.

Several assistants blinked, and Doctor Wu's figure disappeared from their field of vision within a second.

This is a corridor that is hundreds of meters long. Dr. Wu runs one hundred meters in a second?

They fell into deep suspicion, did they also suffer from mental illness?

Within a few seconds, Dr. Wu appeared at the door of the manor.

Doctor Wu looked at Lin Kai in mid-air with a look of horror on his face.

It turned out to be such a young master.

Dr. Wu arranged his clothes, bowed deeply, and respectfully said: "Wu Qi, who is scattered, pays respects to the Great Master."

Lin Kai fell in front of Wu Qi and looked him up and down.

This is a middle-aged man, full of middle-aged charm.

The clothes on his body are spotless and seem to be slightly clean.

Wu Qi felt Lin Kai's gaze, and the cold sweat on his forehead shed again.

Chapter 1988

At this time, many people slowly gathered around, and they were shocked to see Doctor Wu, whom they respected, worshipping in front of a teenager with a face of respect.

Moreover, his expression was very nervous, and cold sweat was still shed on his forehead.

"Who is this boy, how can Dr. Wu give him such a big gift?"

"It's too much, Dr. Wu is such a good person, isn't this boy afraid of losing his life?"

Everyone's expressions were very ugly, and Dr. Wu's behavior made them feel uncomfortable.

They accused Lin Kai one after another, and slowly gathered around.

Everyone wants to seek justice for Dr. Wu, whom they respect.

When Dr. Wu heard the voices of the crowd, he was scared and sweated even faster.

If you irritate this great master, it will become a disaster.

At this time, the two guards stood up, they stopped everyone, and shouted: "You can't go there until Dr. Wu allows it."

These two guards are also very clever, knowing that the others are useless, so they can only be suppressed in the name of Doctor Wu.

Dr. Wu gave the two guards a thumbs up!

Lin Kai stopped looking at Wu Qi, and suddenly smiled very politely: "Doctor Wu, I'm here to see the doctor. I'm sorry to trouble you this time!"

Wu Qi's mouth was filled with distress, a great master's illness, he was a little afraid to look at it!

Wu Qi said quickly: "Grand Master, please go into the house and talk."

Lin Kai nodded slightly, and walked into the manor with Wu Qi.

After they left, the crowd scolded the two guards one after another.

"You two eat things inside and out, haven't you seen Dr. Wu being bullied?"

"We should support Dr. Wu and let Dr. Wu know that with us, no one can let Dr. Wu bow his head!"

An assistant even stood up and said proudly: "I am the son of a high-ranking official in the capital. If anyone dares to bully Dr. Wu, I will let my father teach him a lesson."

A doorman gave a thumbs up: 'You're so awesome, you're not so cheating.'

The guard looked at everyone solemnly, and said in a deep voice, "This young man is a great master!"

He glanced at the assistant and asked, "Doctor Zhang, can you really let your father teach a great master?"

The assistant's face became stiff for a moment, and he asked incredulously, "How can such a young person be a great master?"

The guard said helplessly: "Just now, was he still flying? Didn't you see?"

Someone said weakly: "I saw..."

Everyone glared at him: "You bastard, why didn't you say it earlier. Almost caused a catastrophe!"

The man cried and said, "He is so young, I thought I was wrong!"

In Wu Qi's office, Wu Qi respectfully offered Lin Kai tea.

At this time, although his expression was respectful, he was no longer afraid.

Lin Kai asked strangely: "Why are you not afraid of me now."

Wu Qi smiled and said respectfully: "Because I know Mr. Lin's identity, you are the owner of Jiulong Mountain. Jiulong Mountain is the faith of China. How can you deal with me, a flat-headed citizen."

Lin Kai smiled faintly: "You are not an ordinary person, but an ordinary person does not have the realm of a master."

Wu Qi smiled bitterly: "Now the genetic medicine has been spreading rapidly, and there have been evolutionaries at the Martial Saint level. It may not be long before the masters will be all over the street."

Lin Kai shook his head and said faintly: "It's not so exaggerated. The medicinal materials used in type A genetic medicine are very rare, and it is destined to not spread on a large scale."

Lin Kai's eyes flickered. The medicinal materials in the outside world are indeed very scarce, but they are very common in the forbidden areas.

One day, maybe Type A gene medicine can be produced on a large scale.

However, this time may take a long time.

Doctor Wu asked in surprise: "Mr. Lin, do you know the formula of genetic medicine?"

Doctor Wu's eyes flickered, but he heard that the two brothers Lin Kai and Lin Yuan are big enemies. Can Lin Yuan tell Lin Kai the formula?

Lin Kai smiled faintly: "I can't talk about this now, but it won't be long before you will know the whole story."

Wu Qi keenly felt that there was a secret hidden in Lin Kai's words.

This secret may be very shocking, and it can shock the world.

Wu Qi said with emotion: "Mr. Lin is a person who does great things. I admire him very much."

Lin Kai looked at Wu Qi and joked: "Even so, I also need your help. No, I'm just looking for you to see a doctor."

Wu Qi asked cautiously: "Mr. Lin looks very healthy, and you are a great master, if there is a mental problem..."

Wu Qi smiled bitterly: "Although I claim to be the world's top psychiatrist, I am really not sure about the illness of a great master."

Lin Kai waved his hand and said faintly: "It's just a small problem that affected my mood. Therefore, I need Dr. Wu to solve my doubts."

Wu Qi asked steadily: "Mr. Lin, what are your questions?"

Lin Kai took a sip of tea and pursed his lower lip: "You know, I have two fiancées in Beijing. They are sisters of the Long family."

Wu Qi's face is slightly bitter, are you here to show off?

This is the Long Family of Beijing's powerful family.

The twin sisters of Long's family were thought of by young men across the country and even around the world, and they did not expect to become Lin Kai's fiancée.

Lin Kai continued, "I went to the East China Sea because of something."

"In Donghai, a lot of things happened. Ahem, I met a girl, and then with her..."

"I understand, I understand..." Wu Qi nodded, wiping his cold sweat.

Lin Kai looked at Wu Qi seriously, and said in a deep voice: "You know, I am a very dedicated and good man. This incident makes me feel bad. But I don't want to be sorry for any girl. You think I should How to do?"

Wu Qi twitched his mouth. He turned his pen and asked, "Mr. Lin, are you only in love with one girl in Donghai?"

Lin Kai touched his nose, his eyes wandering: "Probably, maybe, right..."

Lin Kai saw Wu Qi looking at him with a very suspicious look, and he coughed lightly: "There are two girls, I like them very much. However, I only regard them as younger sisters."

"Although, one of the younger sisters. I have double repaired with her...but our relationship is still very pure!"

It took Wu Qi a lot of effort to not change his face.

Wu Qi rolled his eyes and complained inwardly:

"Isn't this a rotten peach blossom, a proper scumbag? Are you Versailles, what an innocent boy pretending to be!"

Of course, he would definitely not dare to say this, otherwise Lin Kai would slap him to death in shame!

Chapter 1989 Solve the doubts.

Wu Qi looked very calm and listened earnestly.

Lin Kai glanced at him, very satisfied, this professionalism made people very relieved.

Lin Kai said distressedly: "These girls are all excellent and kind people..."

Suddenly, in Lin Kai's mind, Long Xiaoyun with a ghost face, and a handful of black flames burned the bones of a demigod.

Wu Qi nodded earnestly, and said solemnly, "It is precisely because Mr. Lin is equally excellent that he can attract these girls."

"That's not bad, I'm really good." Lin Kai agreed very much and nodded.

Wu Qi said with concern: "Mr. Lin must be very happy with so many outstanding girls by his side?"

Lin Kai shook his head and sighed up to the sky: "I am a good man with a passion. It is not my intention to make so many girls fall in love with me."

"So, I'm very troubled by the development of things up to now." Lin Kai looked at Wu Qi and asked, "You must understand me, right?"

Wu Qi smiled, MMP in his heart.

Wu Qi nodded solemnly: "I fully understand Mr. Lin's troubles."

Lin Kai nodded and asked, "What do you think should I do?"

Wu Qi knocked on the table and said, "Mr. Lin, the most important point is how you think about five girls falling in love with you at the same time."

Lin Kai reminded: "It's three, I'm just my sister for those two..."

Wu Qi smiled and asked, "If your two sisters like two very good men, would you bless them?"

Lin Kai frowned and said flatly: "Impossible! There are no men better than me in this world, how could they like others?"

Wu Qi smiled helplessly: "Mr. Lin, feelings. It's not necessary to like the best people. Otherwise, won't the world be messed up?"

Wu Qi emphasized: "The heartbeat is an instant, and the two men also fell in love with your two sisters. They want to propose to your sister, would you agree?"

Lin Kai frowned deeply, and said displeasedly: "They are too young, I won't agree!"

Wu Qi can only say: "That's just a temporary relationship, don't get married yet."

When Lin Kai thought that Lin Xueer and Qian Lian'er were going to kiss me and other men, a tyrannical aura was born in his heart.

The cold light in his eyes flickered, and he said coldly: "That won't work, you must wait for them to become adults."

Unconsciously, Lin Kai exuded a slight aura, which made Wu Qi feel the powerful pressure again.

Wu Qi didn't back down this time, but asked with a very serious expression: "Mr. Lin, you are making excuses. Ask yourself, are these the real reasons?"

Lin Kai was silent, silent.

Wu Qi continued: "You just like them because you are possessive. So, you want them to stay by your side."

After a while, Lin Kai breathed out slowly, "Maybe. If they like other men, I can't accept it."

Wu Qidian nodded and said solemnly: "So, don't worry about it. Love them at the same time."

Lin Kai frowned and said, "But, isn't my behavior not so good? Moreover, it is very unfair to these girls."

Wu Qi smiled: "Not to mention, there are many wives in foreign countries at the same time. Even in China, as long as you don't get married, you can talk about several girlfriends at the same time. There is no problem in law. Of course, this is in the eyes of the world. It's immoral."

Wu Qi stood up and looked at the crowds outside the window. His voice was slightly indifferent: "But why do people like us care about the world's thoughts. Especially you, you are a man standing on the pinnacle of power in the world. As long as there is no act of forcing girls, then What's wrong with being more comfortable?"

"As for these girls, it is indeed very unfair." Wu Qi said: "Their hearts are all on you, but you have several women in your heart."

Wu Qi turned around and looked at Lin Kai: "However, this does not mean that you divide your heart into several points, so that the care they enjoy becomes less."

"It's not calculated like this. The love you give to every girl should be 100%, and it can't be transferred by any foreign objects. This is the way to make up for women's regrets as much as possible."

Wu Qi laughed and said, "Actually, I already have a wife. There is also a nanny at home and two assistants in the hospital. We have always maintained a relationship."

Lin Kai opened his eyes wide and asked, "Does your wife know about the existence of these girls?"

A soft color flashed in Wu Qi's eyes and nodded: "They all know the relationship between each other, and they are getting along very well at the moment."

A smile that everyone knows appeared on Wu Qi's mouth: "Moreover, we warriors are too strong. Only one woman will hurt her."

Lin Kai also smiled. Tang Ying is now a master, doesn't she still ask for mercy every time?

Lin Kai let out a sigh, and said solemnly, "Now, there is only one last question."

Wu Qi looked at Lin Kai with a serious expression as he was facing a major enemy.

Lin Kai looked at Wu Qi with admiration and asked, "How do you make these women get along well, teach me!"

Wu Qi breathed a sigh of relief and smiled: "I wonder why. It's not difficult for Mr. Lin."

"The most important thing is that you must be in an absolute position when you get along with women. Even if they are jealous, they will be afraid to make trouble because of you."

"Of course, you can't be ambiguous when petting, you must ensure that your love for them is fair. You will not pet a girl alone."

Wu Qi smiled and said, "The biggest difficulty is that men have to be in an absolute position. Of course, this is the easiest for Lin Kai!"

Lin Kai's mind once again flashed the scene of Long Xiaoyun burning the demigod to death with black flame.

He twitched the corner of his mouth, his face slightly bitter.

Wu Qi's expression suddenly stiffened, and he asked in shock: "Mr. Lin, are you serious? You are a great master!"

Lin Kai smiled bitterly and shook his head. Who would have thought that Long Xiaoyun had become so strong now?

Moreover, Long Xiaoyun's personality is also very strong, if you let Long Xiaoyun know that Lin Kai has found three sisters for her...

Lin Kai shuddered, he didn't dare to think about the consequences.

Wu Qi pressed his inner shock, he couldn't imagine that Lin Kai's girlfriend was even better than Lin Kai.

How can this be?

However, this is Lin Kai's personal matter, and Wu Qi is not easy to inquire.

Wu Qi asked, "What is the character of this girl?"

Lin Kai thought about it, and slowly said, "I hate the scumbag..."

Wu Qi: "..."

Lin Kai: "..."

Chapter 1990 Fearful Tang Ying

Wu Qi felt deeply troubled, and said solemnly: "This is not easy to do. This is a force to break ten guilds, and it can destroy all skills!"

Wu Qi handed over a copy of "The Encyclopedia of Love Saints" and sighed: "This is a guide written by a friend of mine. There is only so much I can do, and the rest is up to Mr. Lin himself."

With a solemn expression on his face, Lin Kai took the "Sage of Love" and said in a deep voice, "I understand!"

He flipped the palm of his hand, and the “Sage of Love” disappeared directly into his hand.

Wu Qi’s eyes widened suddenly. What’s the matter, a book just disappeared like this?

Wu Qi turned his eyes and saw a brocade bag hanging under Lin Kai’s waist, showing a thoughtful look.

Lin Kai smiled slightly without explaining.

Lin Kai said in a deep voice, “Doctor Wu, I have benefited a lot this time, thank you!”

Wu Qi waved his hand and said modestly: “It is an honor to be able to solve the puzzles of the great master.”

Lin Kai asked, “How should I pay the consultation fee this time?”

Wu Qi hurriedly stood up, and said with sincerity: “Mr. Lin is normal at first, but he is a little confused. If I accept your money because of this trivial matter, it would be a shame to kill me!”

Lin Kai pondered and said, “Well, I owe you a favor this time. I can help you once in the future.”

Lin Kai handed out a business card and said faintly: “You can make this call. If you can’t get through, you can go to Jiulong Mountain and let them find me.”

Wu Qi looked at the business card in Lin Kai’s hand and smiled bitterly: “It’s ashamed of it. It shouldn’t have been, but Mr. Lin’s favor is too tempting.”

Lin Kai shook his head and stood up: “Doctor Wu, then leave.”

Wu Qi hurriedly bowed: “Mr. Lin, please.”

Lin Kai, accompanied by Wu Qi, left the manor, soared into the sky and flew into the distance.

“It’s great, what is the experience of flying freely in the sky?”

Wu Qi looked at Lin Kai’s figure enviously, when can he fly in the blue sky?

Wu Qi shook his head and gave up this unrealistic fantasy.

This time, Lin Kai didn’t stay anymore and flew directly to the East China Sea.

An hour later, Lin Kai landed on the peak of the Tang family.

Tang Feng walked out and asked strangely: “Lin Kai, why are you here. Is something wrong?”

Lin Kai asked, “Uncle Tang, where is Ying’er? I’ll look for him.”

Tang Feng was helpless, now Lin Kai didn’t cover it up anymore?

Tang Feng glanced at Lin Kai angrily, and said angrily: “She has been in your villa, and she said she wants to wait for you to come back.”

Tang Feng’s face was very ugly, and he asked in a deep voice, “What have you been doing these days? Ying’er has been worried about you, don’t you know?”

Lin happily got nervous, and said quickly, “Uncle Tang, I’ll explain to you next time.”

When Lin Kai's figure flashed, he appeared directly from a kilometer away.

Then, a few consecutive flashes disappeared completely in Tang Feng's eyes.

Tang Feng watched Lin Kai leave in a hurry, snorted coldly, and muttered to himself: "Lin Kai, you'd better not do anything that makes Ying'er sad. Otherwise, her father will not let you go!"

In order to rush for time, Lin Kai has been using his magic power to rush to the villa quickly.

Within a few minutes, Lin Kai's figure appeared directly in the villa.

In the villa, Tang Ying lay by the window, staring blankly at the fog outside, she murmured, "Lin Kai, when are you coming back..."

She was really scared, afraid that Liushen Wuzhu.

That day, Lin Kai suddenly left with an ugly expression, making her very flustered.

Then, Lin Kai has not appeared in the past few days.

This gave her a very bad idea. When she thought of this, unprecedented fear appeared in her heart, making her unable to breathe.

Lin Kai appeared behind Tang Ying, looking at Tang Ying's haggard expression, very distressed.

He stepped forward and gently embraced Tang Ying's pretty waist from behind.

Tang Ying's body suddenly stiffened, and then she felt the familiar breath.

Lin Kai rubbed her nose gently against her hair, sniffed her fragrance, and said softly, "Ying'er, I'm back."

Tang Ying's shoulders shook, and immediately after Lin Kai's hands felt moist.

"Ying'er, don't cry."

Now, Lin Kai was a little panicked, he wanted to straighten Tang Ying's body.

However, Tang Ying stubbornly refused to turn her head and kept sobbing.

Seeing Tang Ying's reluctance to turn his head, Lin Kai let go of his hand and prepared to go outside the window to look at Tang Ying directly.

Unexpectedly, just after Lin Kai let go, Tang Ying turned her head in panic and hugged him: "Lin Kai, don't go..."

Lin Kai quickly sat by her side and embraced her, and said softly: "I'm not going, I've been there."

Tang Ying's grievance broke out completely, and she lay on Lin Kai's chest and cried loudly: "I thought, if you leave, you don't want me."

"You will scare me to death if you don't come back for so many days. Uuu..."

Tang Ying cried loudly, and the tears kept falling like scattered pearls.

Lin Kai looked guilty: "It's all my fault that makes you wronged."

Lin Kai really realized the mistake this time. No matter how important world events are, there is always time to make a phone call.

However, he ignored Tang Ying's feelings.

In other words, he was because Long Xiaoyun had been protecting him secretly, so that he didn't know how to face these girls.

Therefore, he subconsciously escaped.

However, this caused a lot of harm to this innocent girl.

Lin Kai let Tang Ying cry bitterly, patted her back gently with his hands all the time.

Moreover, he was still using his spiritual power to gently adjust Tang Ying's disturbed meridians and adjust his breath.

A ray of Buddha light radiated from his body, slowly soothing Tang Ying's tired expression.

Within a few minutes, Tang Ying fell asleep.

At the same time, her arm was still holding Lin Kai tightly, as if afraid that he would run away.

Lin Kai smoothed Tang Ying's frowning brows, and held her in his arms just like this, and looked at it idiotically.

What a beautiful girl this is, her face is gorgeous, her complexion is like peeled lychees, so crystal clear.

The beautiful eyebrows should have been full of heroic spirit, but now they have added a touch of weakness.

Her beautiful eyebrows were faintly frowned, and traces of sorrow were drawn on her little face, making Lin Kai's heart very soft.

Lin Kai gently stroked Tang Ying's smooth cheeks, and said softly, "Ying'er, I will never leave you."

As if hearing Lin Kai's words, Tang Ying's frowning brows suddenly calmed down.

The sound of her rapid breathing also became steady, and snoring slowly appeared.

Three hours later, Tang Ying opened her eyes suddenly, her eyes were very panicked and fearful.

However, she just opened her eyes and saw Lin Kaizheng holding her with a smile, his face full of tenderness.
