

Amongst Cultivators, I Stand Above All #Chapter 21 - Read Amongst Cultivators, I Stand Above All Chapter 21 Online -

Who Are You?

Ke Xin had just returned with a few steamed buns and happened to hear Dong Xi's words. She felt that it was very reasonable. If the sect could distribute Fasting Pills, they would have more time to cultivate. They would also be able to draw Qi into their bodies earlier. However, it did not matter. There would be a gathering in a few days.

Ke Xin smiled and said to Dong Xi, "It's okay, we have spirit stones in our hands now. At the gathering in a few days, there will definitely be people selling it. I'll just buy it then."

Dong Xi nodded, and the two of them went their separate ways. Ke Xin went back to cultivate, but Dong Xi did not. Instead, she walked up the mountain path, wanting to go to the Cultivation Technique Hall that Rui Xiang had sent her to yesterday to take a look. Could it be that she had really gone the wrong way? But this time, Dong Xi had only just left when he was stopped by two people.

The two people held magic tools in their hands and asked coldly, "Who are you?"

Dong Xi was stunned for a moment and subconsciously took two steps back. These two people were holding magic tools in their hands. Who knew if they would suddenly attack? It was not easy for him to come back to life, so she could not just be killed so easily. Dong Xi still wanted to live on and experience the elegant demeanor of the Immortal cultivation world.

Dong Xi cupped her fists and said respectfully, "Hello, Senior Brothers. I'm an outer sect disciple, Dong Xi. I just happened to pass by..."

Before Dong Xi could finish her sentence, one of them interrupted her. This was not a place that ordinary people could come to. However, this girl was just a child and an outer sect disciple. She might have taken the wrong way, so she passed by here. However, she must be warned not to walk around randomly in the future.

One of them said coldly, "This is the forbidden area of the Alchemy Sect. No matter who you are, without the order of the Sect Master, you are not allowed to pass."

Dong Xi took two steps back when she heard the unfriendly tone of the two men. She was afraid that the two of them would attack her because of a disagreement. At that time, she would die in vain. The sect would not blame them either. Dong Xi could only say that she had wandered off on her own.

Thinking of this, Dong Xi hurriedly bowed respectfully to the two men and immediately said to them, "I'll leave now, I'll leave now."

As she spoke, she immediately turned around and left. She was afraid that if she walked any slower, these two people would think that she was up to no good. Now, Dong Xi finally understood that he had not gone to the Cultivation Technique Hall yesterday. It was Rui Xiang who had sent him to the wrong place. However, Rui Xiang could not be blamed for this. Dong Xi had also learned how to form a seal, and that seal was probably a big move.

However, Dong Xi had a guilty conscience, so it was better not to show that she knew these hand seals. Dong Xi went straight back to her residence, took a wooden bucket, and went to get some water from the pond to put in the house for later use. Then, she sat down and took out the Dust-expelling Pill that he had just received today. The pill had a faint fragrance, and it was not comparable to the unknown pill.

Dong Xi did not think too much about it and immediately swallowed the Dust-expelling Pill. The pill melted in her mouth, and a faint fragrance spread through her mouth and spread to her internal organs. Her body was like a land that had been dry for a long time and was receiving good rain, frantically absorbing the nutrients in the pill. Dong Xi even felt her muscles and bones stretch out inch by inch, and the circulation of her spiritual energy became smoother.

However, her spiritual Qi would decrease a little after each circulation. Dong Xi still did not understand why. At this time, the comfortable feeling after taking the pill suddenly stopped. It was like scratching an itch through her pants. As soon as she felt it, the effect of the pill wore off. Dong Xi frowned and took another pill with dissatisfaction. Then, she closed her eyes to adjust her breathing. After taking all three pills, Dong Xi let out a breath of turbid air and opened her eyes, which were as bright as torches.

Now she understood why the sect only gave each new disciple three pills and not more. It was because three pills were just right. Dong Xi moved her muscles and bones, and she felt as if something on her face was falling off. Dong Xi frowned, and the sensation was even more severe. She raised her hand and realized that there seemed to be an additional layer of gray keratin on her skin, which was a little hard.

It also gave off an indescribable smell, like some kind of food that had been thrown into a trash can and fermented for a long time. It also smelled like it was slowly rotting after death. In short, it was very unpleasant. Dong Xi stood up and was about to take off her clothes to clean her body.

As she took off her clothes, she sighed, "This should not be called a Dust-expelling Pill. It should be called the Life Dust Pill! After eating it, a pile of dust will be produced on your body. And it smells so bad."

“Fortunately, no one saw it in my house. If there was someone else here, they would suspect that I pooped my pants. Otherwise, how could it be so smelly?”

Amongst Cultivators, I Stand Above All #Chapter 22 - Read Amongst Cultivators, I Stand Above All Chapter 22 Online -

I Must Buy a Bath Barrel

In front of Dong Xi was a pool of water that she prepared. After removing her clothes, she sat down in the wooden bucket. The bone-chilling water had been left in the room for a while, and Dong Xi still shivered from the cold. She gritted her teeth and circulated her spiritual Qi. Only then did the cold in her body slowly dissipate. Dong Xi took out a handkerchief and carefully washed the dust off her body.

As she bathed, she thought to himself, ‘It’s a good thing that the original body is only ten years old. Otherwise, this small wooden tub wouldn’t be able to fit in. When I’m more well-off in the future and have some spare money, I must buy a bath barrel, a good wooden tub. Then, I can take a hot bath. I can’t take a cold bath like this anymore.’

After the bath, Dong Xi put on her old clothes and prepared to wash the sect robes. After everything was done, Dong Xi sat down cross-legged again and began to feel the effects of the three Dust-expelling Pill. She did not know if it could really improve her cultivation speed, as her previous cultivation speed was slower than a snail. After she finished, she concentrated on feeling the spiritual Qi around her. However, just as she felt it, she opened her eyes again.

She blinked his eyes in surprise. Why was the effect of this pill so good? When she felt the spiritual Qi just now, it was even longer than the first time. The surroundings were densely packed with spiritual Qi. It was as if a casual breath was equivalent to a whole day of cultivation without sleep or rest. It was a little too strong.

However, after thinking about it carefully, Dong Xi felt that something was wrong. It must not be just the effect of the Dust-expelling Pill. The sect could not be so generous to new disciples. If the effects of the pill were really so good, it should have been given to the inner sect disciples long ago. Why would it be given to Dong Xi and the other newly arrived outer sect disciples? However, these days, Dong Xi had been cultivating in her room all the time. What was different?

After thinking for a moment, Dong Xi saw the moonlight reflected on her arm. She was stunned at first, then she suddenly understood something. Could it be because of the moonlight? In order to verify her guess, Dong Xi picked up the futon on the ground and went to the courtyard. Then, she sat cross-legged under the moonlight and began to

feel the spiritual Qi in the surroundings again. This time, the spiritual Qi in the surroundings was even denser.

There was even a sticky feeling. Su Cheng, who was sleeping in the room, suddenly opened his eyes. It was not his divine sense, but he really opened his eyes. He looked at the sticky spiritual Qi outside the room and immediately used his divine sense to check the situation. Su Cheng was very surprised. This movement was caused by the little girl who was taking care of him. How could this be?

A child with only three spirit roots could actually attract such spiritual energy? Could it be that this girl had some Innate Spirit Constitution? Su Cheng did not have time to think. He spat out his inner core and used his last bit of strength to cast a spell to cover up the strange phenomenon here. After setting up everything, Su Cheng could not hold on any longer and fell into a deep sleep. The spiritual energy that he had just recovered was completely exhausted.

The moment he fainted, Su Cheng was still thinking that the little girl should not cause any more trouble and attract those old farts from the Ningtian Sect. If those old farts came, they would definitely find him. At that time, whether it was him or the little girl, neither of them would get any benefits. However, this was all Su Cheng could do now.

However, Dong Xi did not know about this. Although she had attracted so much spiritual energy, she had just started cultivating not long ago. The amount she could absorb was only a little. Dong Xi felt that her entire body was filled with spiritual Qi. The spiritual Qi was flowing along her meridians and finally gathered in her Dantian.

After the cleansing of the Dust-expelling Pill, there were indeed some changes in her meridians. From the original small path, they had become a large path. The spiritual energy circulation was also smoother. This time, the spiritual energy that entered her Dantian did not separate in its own corner, but directly merged into purple spiritual energy. However, after one round of circulation, the spiritual energy would still be much less.

Dong Xi did not understand why her body was leaking spiritual energy. Although it was leaking, according to the current cultivation speed, Dong Xi could still accept it. As long as there was enough spiritual Qi left, it was not a big deal to lose some of it. After a few rounds of circulation, the purple spiritual Qi in Dong Xi's body turned dark purple. Looking at the dark purple spiritual Qi, Dong Xi suddenly thought that if he used this kind of spiritual Qi to temper her meridians, would her meridians become better after a long time? Would it be easier to circulate spiritual Qi? Not only that, if she cultivated in the future, her speed would increase, right?

Amongst Cultivators, I Stand Above All #Chapter 23 - Read Amongst Cultivators, I Stand Above All Chapter 23 Online -

Tempering the Meridians

When Dong Xi thought of this, she immediately began to refine her meridians little by little with the spiritual Qi in her empty body. She tried to refine her meridians with spiritual energy, but nothing unusual happened. Dong Xi also heaved a sigh of relief. Since there was no problem, she could refine without any worries. Due to a freak combination of factors, Dong Xi did not know that he had actually embarked on the right path.

A strong meridian was not only better in a battle, but it was also easier for her to break through the cultivation realms than others. Unknowingly, Dong Xi had been tempering for an entire night until the spiritual Qi around him began to thin. Dong Xi stopped her cultivation and slowly opened her eyes. After a night of tempering, her meridians emitted a faint purple light.

Looking at the state of the meridian, Dong Xi felt that there should be no mistake. The effect would become more and more obvious if this continued. She would wait until all of this meridian had been completely tempered before breaking through. According to the current speed of tempering, if she could be exposed to moonlight every day, she would be able to completely temper the meridian in about one or two months, and then break through to the second level of Qi Refinement.

Dong Xi patted her body to get rid of the mist. Looking at the sun and moon shining in the sky, her heart became even more determined. When she had just passed transmigrated, she did not know what had happened, but it was different from the original body in the book. Now it seemed that it was not a bad thing. Although he was not a genius now, a few years later, she definitely would not be a waste who was only at the third level of Qi Refinement.

Dong Xi stretched lazily, her mood had become quite good. Ever since she had entered the sect, the problem that had been troubling her had been solved. In the days to come, she only needed to cultivate well. Not only did she have to live well, but one day, Dong Xi would also Ascend to the Immortal world and see what a true Immortal was like.

Meditating during the day was not as efficient as meditating at night. Dong Xi gave up the idea of meditating during the day. Instead, she used a branch as a sword and practiced the basic subtraction he had learned in the forbidden land that day. She did not stop until the sun was high in the sky. She washed herself with the remaining pond water and ate the steamed buns left from yesterday. Then, she changed the medicine for the little snake and fed it half of the spirit fruit.

She did not know if she had sensed it wrongly, but she felt that the little snake's condition was even worse today. Its scales, which were originally glistening with a cold light, now looked a little gray. Dong Xi had no other choice at the moment. She had been taking care of the little snake for a few days, and she could not just watch it die. She could only wait for the gathering a few days later to see if there were any medicine to treat spirit beasts. Right now, he could only hope that the little snake would hold on.

It was already the fourth day since Dong Xi and the other new disciples had entered the sect. By right, there should be someone who had already completed the Qi-guiding process. Dong Xi decided to go to the real Cultivation Technique Hall to have a look. Otherwise, it would be useless no matter how much spiritual Qi He absorbed. When Dong Xi arrived at the Cultivation Technique Hall, there were already people there.

It was a tall and thin boy who looked to be about 15 years old. When the boy saw Dong Xi come in, he became very vigilant. Dong Xi just pretended not to see him. In any case, she was here to learn magic spells today and did not want to cause trouble. Dong Xi quickly stepped forward and cupped her fists toward Senior Sister Wang Ying, who was teaching the other disciples.

"Hello, Senior Sister."

Wang Ying still had an impression of Dong Xi. The other day, Dong Xi and Ke Xin had come together to receive the newcomer's benefits. Dong Xi was much prettier than Ke Xin. Whether it was men or women, it was always easier to remember good-looking people.

Wang Ying smiled. She did not expect this little girl to have successfully drawn Qi into her body. "You've also successfully drawn Qi into your body?"

Dong Xi nodded. Of course, she had absorbed Qi into her body. Moreover, she had done it on the first night. However, she could not say it like that. If she did, these people would probably think that she was a lunatic, and a lunatic who only knew how to brag.

Dong Xi thought for a moment, then smiled and said to her Senior Sister, "Yes. I drew Qi into my body last night, so I wanted to learn some simple spells today."

Wang Ying asked Dong Xi to place her hand on the spirit testing stone. Dong Xi knew that this was to test the amount of spiritual Qi she had. Dong Xi had deliberately concealed her strength and only drew out a small portion of her spiritual energy. The spirit testing stone emitted a faint light.

Wang Ying saw this and smiled. The strength of the new disciples and outer sect disciples was basically the same. "That's right, it's indeed spiritual energy that has entered your body. Junior Sister, you should have a fire spirit root, and your root value is not bad. Do you want to learn a fireball technique first?"

Amongst Cultivators, I Stand Above All #Chapter 24 - Read Amongst Cultivators, I Stand Above All Chapter 24 Online -

Fireball

When Dong Xi heard Wang Ying's words, she also felt that she was right. Among the three spirit roots, her fire spirit root value was higher. Therefore, it should be easier to learn the fireball technique. Moreover, the fireball technique was an attack technique. If she encountered any trouble in the future, even if she could not defeat her foes, she could still attack and then escape.

Dong Xi nodded and said, "Then I'll have to trouble you, Senior Sister."

Wang Ying immediately taught the fireball technique to Dong Xi. Then, she very responsibly and seriously taught Dong Xi how to form the seal and how to draw out the fire spirit essence. Although Dong Xi understood, she was still very confused. But now, the three spiritual Qi had all turned into a ball of purple spiritual Qi. How was she going to separate the fire spiritual Qi?

Wang Ying looked at Dong Xi's wide-open eyes. She had a cute and silly look on her face. Perhaps this little girl did not really understand what she was saying. This was normal. They were not geniuses, so it was impossible for them to learn it in a short time. This was especially so for new disciples. It was natural for them to learn it a few more times.

Wang Ying could not help but pinch Dong Xi's face when she saw how cute he was. She said gently, "You guys probably don't understand, but it's okay. Try it, you'll slowly find the feeling."

Dong Xi was a little embarrassed. She was already 18 years old, but she was living in the body of a 10-year-old, and her face had to be pinched. This feeling was really uncomfortable. However, when she saw the encouraging smile on Wang Ying's face, Dong Xi followed her movements and began to form hand seals. In the end, she saw Wang Ying draw out the fire spiritual essence, and a ball of fire condensed in her palm.

Dong Xi did not know how to separate the fire spiritual Qi from the purple spiritual Qi. In the end, she simply drew out a little bit of the purple spiritual Qi. A small flame also appeared in Dong Xi's palm and then disappeared. Wang Ying saw the flame quickly disappear in Dong Xi's palm. Her eyes were a little surprised and she encouraged Dong Xi.

“Not bad. You’re able to make fire appear on your first try. This is considered a very good result. Let’s try again.”

Dong Xi knew very well that the fire had disappeared after appearing for a while only because she had drawn out too little spiritual Qi. If she had drawn out more, the fire would have lasted longer. Dong Xi sensed a gaze on her and turned around to see that it was the tall and thin boy. His gaze was extremely unfriendly, and her negligent vigilance immediately rose.

That’s right, he was upset. Dong Xi, a trash with three spirit roots, was able to draw Qi into her body within four days. This was already shocking enough. If news of her amazing comprehension ability were to spread, Dong Xi was afraid that she would not have any peaceful days in the future. After making up her mind, Dong Xi immediately formed another seal in front of everyone. However, this time, there was not even a flame.

After trying several times in a row, Dong Xi’s face became somewhat impatient. All of this was done for the sake of giving a false impression, so that they would not find trouble with her in the future. All Dong Xi wanted was peace and quiet, and to cultivate properly. At this time, Dong Xi deliberately raised her voice and said loudly, “How did this happen? I did follow the previous movements.”

Dong Xi’s words immediately attracted the attention of everyone in the Cultivation Technique Hall. Some of the children of the same age had a hint of contempt on their faces, while the Senior Brothers and Sisters had playful smiles on their faces. The boy who had an unfriendly look on his face earlier chuckled a few times.

So this girl was just lucky just now, but now she could not replicate it. The boy said with a hint of ridicule, “It was luck just now. Do you really think that Immortal cultivation relies on luck? If you had learned the fireball technique in one or two tries, you would have been an inner disciple long ago. How could you be an outer disciple?”

When Dong Xi heard this, her face was filled with disappointment. However, she was overjoyed in his heart. Children were so easy to fool. She just put on a show and these children believed her. This was great. It would save her a lot of trouble in the future.

Wang Ying was very unhappy and frowned. They were all disciples of the first batch. How could he say such things? Wang Ying walked to Dong Xi’s side and comforted her, “Don’t give up. There was a girl with a root value of 99 in the same batch of disciples as you. She also took two days to master this magic spell. So, don’t be anxious. Take it slow. You’ll probably get better with more practice.”

Dong Xi nodded her head. This Senior Sister was so good. At the critical moment, she even knew how to play along with her. Now, no one would think that she had a high level of comprehension. They would only think that she was lucky. From now on, she would be able to cultivate in peace and not pay attention to the outside world.

Dong Xi looked at Wang Ying with a depressed expression and said in a light voice, "Thank you, Senior Sister. I understand. I'll continue to practice after I go back."

Amongst Cultivators, I Stand Above All #Chapter 25 - Read Amongst Cultivators, I Stand Above All Chapter 25 Online -

Petty-Minded

Dong Xi turned around and left. Her lonely back seemed to be in a daze. Wang Ying sighed as she looked at Dong Xi's back. This little girl was still too young. She felt like she had suffered a disappointment just like that. In the future, the girl will learn that there are disappointments everywhere on the path of cultivation.

Dong Xi went out. After confirming that she had left everyone's line of sight, she immediately returned to her normal state. That thin and tall boy looked like he had the life of a cannon fodder. He was so willing to meddle in other people's business and was also so petty. He could not bear to see others doing well.

Dong Xi walked back to her small house. This time, she had been in seclusion for four days. She would go to the canteen every morning and take some steamed buns. After she returned, she would spend the entire day in her house studying how to use spiritual energy.

First, she formed a seal according to the method Wang Ying had taught her. Then, she drew out spiritual Qi and controlled the size of the fireball in his hand according to the amount of spiritual Qi. Dong Xi memorized these feelings. Next time, she did not form any seals. He just opened his palm and a fireball appeared.

When she reached out to touch the fireball, she did not burn her hand. However, she could still light a lamp with the flame in her hand. Dong Xi's heart moved. The flame on her fingertip turned green in color and then yellow in color.

Dong Xi looked at the changes in the spiritual Qi on her hand and smiled. The purple spiritual Qi could change at any time, which was also very good. The attributes of wood and earth spiritual roots were relatively low, and the absorption was also very slow. If it was transferred over like this, the fire spiritual Qi would be more abundant.

Dong Xi now understood that the purpose of the Cultivation Technique Hall was to teach these new disciples how to use spiritual energy. However, it was still the same. Fire spiritual Qi was fire, and wood spiritual Qi could promote the growth of plants, and it could also distinguish the age and attributes of plants.

It was just that the new disciples were not familiar with it yet. As long as the spiritual energy in their bodies was matched with the corresponding detection, they could suppress other spiritual Qi. Dong Xi did not have these problems. When her spiritual Qi entered her Dantian, it immediately turned purple. When she needed to use it, she could just change it directly. She did not need to go through the trouble of suppressing it.

Dong Xi casually played with the green ball of light, thinking about whether she should accept some sect missions next. Although the sect provided food, accommodation, and welfare for the entire year, the outer sect disciples like them had relatively poor aptitudes.

It was useless to only know how to cultivate. One still needed to have some fortuitous encounter or the help of special medicinal pills. Disciples below the second level of Qi Refinement stage could not take on missions outside, but they could still take on missions within the sect.

For example, helping to dig up some herbs in the herb field, or going to the kitchen to fetch water and wash vegetables. Dong Xi thought as she retracted the spiritual energy in her hand. The next moment, she looked at her fingers and her eyes widened.

Dong Xi still remembered that when she had gone to pick the fruit that day, she had accidentally cut her hand. How could there not even be a scar now? This morning, she could still see the scar. After pondering for a moment, Dong Xi recalled that wood spiritual energy was the spiritual energy of life.

She had wanted to continue experimenting, but looking at her own delicate hands, Dong Xi really could not do it. Dong Xi was in a dilemma for a long time. Suddenly, she thought of something and turned to look at the little snake on the bed. There was a little white lab rat over there, right? Why did she need to experiment on herself when she had this snake?

Dong Xi picked up the little snake, untied the cloak on the little snake, raised her hand to gather the green wood spiritual Qi, and covered the little snake's injured area. Su Cheng woke up again, and was suddenly a little irritable.

No one would be happy if they were woken up by someone from their closed-door cultivation. Moreover, this was not just once or twice. They woke up several times a day. Su Cheng now wanted to swallow this girl in one bite.

However, in the next moment, Su Cheng's violent temper was purified by a cloud of dense wood spiritual energy. Snakes loved plants. This dense wood spiritual energy entered his body and repaired Su Cheng's slightly broken heart. As it was repaired bit by bit, his heart started beating again.

However, Dong Xi's cultivation level was too low. She only repaired it for a while before withdrawing her hand. As the comfortable feeling dissipated, Su Cheng subconsciously

curled himself around Dong Xi's finger. Dong Xi felt a cold sensation on her finger. At first, she was stunned, and then her face was filled with ecstasy.

"It's true. The wood spiritual energy does have a healing effect. It's the spiritual energy of life. The little snake has come back to life not long after it's been used." Dong Xi said excitedly as he grabbed the little snake.

"As expected, as expected. Little snake, you're alright? You're alive? That's great, I was right."

Amongst Cultivators, I Stand Above All #Chapter 26 - Read Amongst Cultivators, I Stand Above All Chapter 26 Online -

You're Not Dead After All

Su Cheng felt that someone was pinching his weak spot. He instinctively rolled up his tail and wrapped it around Dong Xi's hand. Dong Xi saw the little snake move and let out a sigh of relief. It seemed that she did not need to buy any spirit herbs.

Dong Xi said happily, "You're not dead. I knew it. That's great."

These words of concern changed the feeling in Su Cheng's ears. From the moment he was born, Su Cheng had crawled out of a snake's egg alone. He had no parents and no one cared about his life or death. This was the first time someone cared so much about him. Su Cheng's mood suddenly became a little happy and he unconsciously flicked his snake's tongue.

Dong Xi saw this scene and asked happily, "Little snake, are you hungry? If you're hungry, just nod."

Su Cheng was a great demon who had survived the Lightning Tribulation. He had abstained from food a long time ago, so how could he be hungry? Su Cheng shook his head. Dong Xi's eyes lit up when he saw Su Cheng shaking his head. This little snake could actually understand!

Dong Xi could not help but say excitedly, "You can understand my words? As expected, you're a spirit beast. You're so powerful."

Su Cheng looked at Dong Xi's face and thought to himself, 'Human babies are really childish. What's there to be happy about?'

Dong Xi took out a fruit from her storage bag and said carefully, "Look, I have some fruits here."

"I'll let you eat it, but you can't bite me, okay?"

Su Cheng looked at the low-grade spirit fruit that would not normally appear in front of him, and his pupils shrank. Dong Xi looked at the little snake for a long time, and the snake still did not nod its head. Her face suddenly became very serious. If she was bitten by it and it was poisonous, she might die on the spot.

Su Cheng looked at Dong Xi, then laid on Dong Xi's arm. Dong Xi's body was overflowing with spiritual Qi. He did not know what kind of Spirit Constitution this girl had, but it actually had some effect on his injuries. He decided to keep her for the time being.

Dong Xi saw the disdain in the eyes of the little snake and immediately frowned. She took a bite of the fruit. A spirit beast was actually so picky and even dared to despise this fruit.

Dong Xi ate while mumbling, "I gave you food and you're still not happy? You know, when you were unconscious, the food you ate was especially fragrant."

Su Cheng felt a little helpless. This little girl took advantage of him when he was down, and now she had the nerve to say it? If the little girl was not still useful, Su Cheng would have swallowed her on the spot to save himself the trouble.

Dong Xi saw the little snake lying on her arm and closing its eyes again. It was obvious that it did not want to talk to her. Dong Xi was very unhappy. She pinched the little snake's tail and pulled it off her arm. Since it did not want to talk to her, it should lie on her arm.

Su Cheng had just fallen asleep when he was woken up by the little girl. Although his heart meridian had recovered a little, his injuries were still very serious. When he was ambushed and resisted the Lightning Tribulation, most of his meridians were broken, and he was still very weak.

Su Cheng needed to sleep and recuperate. He could not be woken up again and again, which would only delay his healing. Su Cheng opened his eyes and heard the little girl's dissatisfaction.

"Don't pester me, go to sleep by yourself."

Su Cheng was suddenly very angry and once again climbed onto Dong Xi's arm. Just as Dong Xi was about to reach out and take the snake away, she saw the snake twining around his arm and flickering with a dark light. A black tattoo in the shape of a snake appeared on Dong Xi's white and flawless arm, as wild as it could be.

Dong Xi was extremely angry, but there was nothing she could do. She could only let the little snake rest on her arm.

The next day was the day that Dong Xi and Ke Xin had agreed to meet. Today was the day that they would go to the gathering to take a look.

Dong Xi stood up from the futon. After washing up, she took her storage bag and went out to wait at the place they had agreed on.

After 15 minutes, Ke Xin ran over from afar and said to Dong Xi while panting, "Dong Xi, I've succeeded, I've drawn Qi into my body."

Dong Xi was very happy when she heard Ke Xin's words. After drawing Qi into one's body, one would truly enter cultivation. In the future, one would have to cultivate even more diligently. Although one's aptitude was not very good, as long as one cultivated diligently, perhaps there would be a difference.

Dong Xi said sincerely, "Congratulations, you've managed to draw in Qi into your body in just eight days. You're already very impressive."

Dong Xi did not know if something had happened to her during her transmigration, but based on the original body's aptitude, even if she tried to draw in Qi for a month, she probably would not be able to do so. Compared to Ke Xin, Ke Xin's aptitude was much better than the original body's.

Amongst Cultivators, I Stand Above All #Chapter 27 - Read Amongst Cultivators, I Stand Above All Chapter 27 Online -

Aren't We Going Down the Mountain?

If Dong Xi remembered correctly, Ke Xin was also born for alchemy, and had fire and wood spirit roots. Both of their spirit root values combined did not even exceed 80, otherwise, they would have been inner sect disciples by now.

Ke Xin said happily, "I've just successfully drawn in Qi into my body this morning, so I'm a little late. You're not angry, are you? I'll treat you to a good meal later."

Hearing this, Dong Xi smiled. Of course, she was not angry. Even though her body was only 10 years old, her soul was almost 20. How could she get angry so easily?

Dong Xi smiled as she spoke to Ke Xin. "I'm so happy for you, why would I be angry? Let's go quickly, I want to see what this Immortal market is like, I don't know what's the difference between them and our family's."

Ke Xin nodded. Dong Xi was not the only one who was curious, Ke Xin was extremely curious as well. When she saw Dong Xi about to head down the mountain, she immediately grabbed her and looked at her with a strange expression. "Where are you going?"

Dong Xi was also confused. Were they not going to the market? Of course they had to go down the mountain. Otherwise, how could they go to the market? The market could not be in the sect.

Dong Xi looked at Ke Xin in confusion and said calmly, "Aren't we going to the market? Of course, we're going down the mountain."

When Ke Xin heard this, she immediately laughed. Dong Xi actually wanted to walk down the mountain. One had to know that the sect was extremely large. If they walked down the mountain like this, by the time they reached the place, the market would have long since disappeared.

Ke Xin laughed and said, "The sect is so big, if you walk down, how long will it take you to reach?"

Dong Xi also knew that the sect was huge, but what else could she do if she did not leave? "We're all new disciples, and we don't have any spirit beasts to ride. There's no other way than walking. If we leave now, we might still make it. What else can we do?"

Ke Xin looked at Dong Xi's cute and dazed expression and could not help but want to laugh. Even if she had drawn Qi into her body and had spiritual energy, it would take a long time to walk. Walking was not a good idea.

Ke Xin immediately said, "Follow me, I've already asked around. There's a teleportation formation in the sect that leads there. It only takes two Spirit stones to get there."

When Dong Xi heard that she needed spirit stones, she felt her heart ache. Originally, she had only received ten low-grade spirit stones, but now she had to spend two. One-fifth of her wealth was gone in an instant.

Ke Xin looked at Dong Xi's expression and knew that he was feeling heartache for the spirit stones, so she whispered to her, "Dong Xi, I know your heart aches for the spirit stones. I've also asked Senior Sister Wang Ying. She said that we can go to the herb field to sort the herbs."

“That job is quite troublesome, and the rewarded spirit stones are quite low. The senior disciples are not willing to do it, but we can do it. We’ll be able to earn spirit stones then.”

When Dong Xi heard this, she nodded. However, if they could think of this, the other new disciples would also think of this. It was just that most of them had not drawn Qi into their bodies yet, so they should be able to earn a few days first before thinking about the future.

It did not take long for the two of them to arrive at the teleportation array. It could teleport ten disciples at a time. When Dong Xi and the other man arrived, they had just sent away a group of disciples. Now, they could only wait here until there were ten people to teleport together.

At this moment, a horse-drawn carriage flew across the sky, heading in the direction of the main peak. Everyone looked at the carriage in the sky enviously, and Dong Xi was no exception. Then, they heard the people around them discussing.

“Isn’t this the carriage from the Destiny Valley?”

“Why did they suddenly come to our sect? Could it be that something is going to happen in the Immortal world?”

“I don’t know. Quickly take out the jade slip and take a look.”

Dong Xi watched as some people took out jade slips and started to browse. It was very similar to surfing on mobile phones in the 21st century. It should not be said to be similar, but it was exactly the same. After a while, he heard people start to say.

“I see it, I see it. It seems like the valley Master of Destiny Valley has found out the whereabouts of the Demon Lord, Su Cheng.”

The name Su Cheng made Dong Xi’s pupils shrink. Dong Xi knew this name. Demon Lord Su Cheng was the Big Boss villain in the original book. The original book said that the Shocking Cloud Sect, Bright Moon Sect, Ningtian Sect, Heavenly Fiend Palace, Zongheng Pavilion, and other eight major sects had taken advantage of the Lightning Tribulation to encircle and annihilate Su Cheng.

In the end, Su Cheng resisted the Lightning Tribulation and even heavily injured the people of the eight big sects. He successfully escaped, and after recovering from his injuries, he returned to the demon’s cave and led many demons to invade the Northern Continent where the eight big sects were. In an instant, countless people were killed and injured in the Northern Continent.

Forcefully Lowering Intelligence

In the original book, Demon Lord Su Cheng almost destroyed the Northern Liang Continent. In the end, the female protagonist, Dong Rourou, used her talent and sword Dao to become one with the Heartless Sword to hurt Demon Lord Su Cheng. It was also this sword attack that made Su Cheng fall in love with Dong Rourou.

In fact, the Demon Lord was even willing to let go of all the grudges with the eight major sects. Dong Xi had seen this in her previous life and immediately gave up on reading it. The dignified Demon Lord of the generation was actually a love-struck brat? It was ridiculous.

In order to create a character for the female protagonist, the author even forced the Demon Lord to lower his intelligence because of one sword move, causing him to fall in love with the female protagonist. Was the Demon Lord a masochist?

Su Cheng, who had been wrapped around Dong Xi's arm, wanted to sneeze. He did not know who was talking about him.

Dong Xi recalled the contents of the book she had read in her previous life, especially the part where the Demon Lord had lowered his intelligence. Dong Xi was a little angry. It was simply written blindly.

At this moment, Dong Xi heard Ke Xin ask the others with practiced ease, "Senior Sister, who is this Demon Lord Su Cheng? Is that guy lost?"

Dong Xi turned around and saw Ke Xin standing beside the two senior disciples. They were discussing this matter with great enthusiasm. When Dong Xi saw this, she fell silent. Was she the so-called 'social butterfly'?

No wonder Ke Xin knew everything. No matter where she went, she could chat with everyone she saw. This kind of ability was really amazing. She had friends everywhere. Not long after, Ke Xin came back with the news she had heard.

Ke Xin said, "I've already asked around. Demon Lord Su Cheng is a bad guy. He was seriously injured during the Lightning Tribulation a while ago. The eight big sects want to destroy him..."

Ke Xin spoke non-stop. The gossip in the cultivation world was much more interesting than the ones in her hometown. When Dong Xi heard Ke Xin's words, she felt that they were different from what she had read in the original book. She could understand it.

After all, the two of them were in the territory of the Righteous Path. How could these Righteous Path sects let their disciples know that they took advantage of when Su Cheng was facing difficulties to ambush him?

Dong Xi asked calmly as she was more interested in the jade slip that those disciples had used. "Do you know what they were using just now?"

Ke Xin was a person who liked to have deep relationships, so of course, she would not disappoint Dong Xi. She had found out everything clearly, and in the process of gossiping, she would naturally ask about this.

Ke Xin immediately said to Dong Xi, "It's called a communication jade slip. After the two of them leave their spirit breath behind, they can contact each other at any time. There's also some news about the cultivation world that everyone can see."

When Dong Xi heard this, she instantly reacted. That was like a mobile phone for the cultivation world, right? Dong Xi immediately became even more interested. In order to be able to integrate well into the cultivation world, she had to give herself leverage.

Actually, the most important thing is that an internet-addicted girl just wants a small phone like this. When she was bored, she could go online and browse the news, just like how she did with social media in her previous life.

Ke Xin said, "They're sold at the gathering, I'll take a look when I get there."

There were still many disciples who wanted to go to the gathering. Before long, ten people were gathered. The person in charge of the teleportation told the new disciples to close their eyes when they were teleported. They might feel a little dizzy, and they had to be mentally prepared.

In less than 15 minutes, they would be teleported there. Dong Xi obediently closed her eyes. The teleportation began, and the dizziness was a bit similar to the carsick feeling in her previous life. In her previous life, Dong Xi took the bus every day, so she quickly accepted it.

Ke Xin, on the other hand, did not have such a good reaction. The moment she was teleported to the place, her face was pale and she looked extremely uncomfortable. The Senior Sister who had been gossiping with Ke Xin took out a small bottle and passed it to Ke Xin.

She spoke with experience, "I bought this before teleporting. Try it."

Ke Xin opened the bottle's stopper and took a deep breath. Immediately, a cool and refreshing feeling rushed up to the top of her head. Her facial features scrunched up, but she quickly recovered. After it was done, Ke Xin wanted to return it to this Senior

Sister, but the Senior Sister waved her hand and said, "I don't need it anymore, so I'll give it to you."

"Thank you," Ke Xin said. The two Senior Sisters then left.

When they were far away, Ke Xin suddenly remembered that she had not even asked which sect they were from.

Dong Xi said indifferently when she saw Ke Xin's dejected expression, "Let's go buy a jade slip later. Next time you see Senior Sister, you can add her... No, I mean, you can ask her to leave her spirit breath. When the time comes, you can contact each other at any time. You can chat whenever you want."

Communication Jade slip

Ke Xin nodded after hearing Dong Xi's words. With the jade slip, they could contact each other at any time. When the time came, they would know everything. There was no need to ask around.

Ke Xin said to Dong Xi with a smile, "That's right. We need a communication jade slip so that we can contact each other in the future."

Dong Xi thought to herself, 'Are you sure you want to contact her? You just want to gossip, don't you?'

Dong Xi did not expose Ke Xin. She saw that most of the people on the street were disciples of the Ningtian Sect, and they were all wearing the uniform of the sect.

It was said that some of the shops here would even give a discount to the disciples of the Ningtian Sect. Ke Xin thought about the jade slip and brought Dong Xi to find out where to buy it. She immediately went to the jade slip shop. This thing was something that everyone in the cultivation world could have.

The price of a piece of basic equipment was not very high. The two of them soon arrived at a jade slip shop. Ke Xin impatiently dragged Dong Xi in. As soon as they entered, Ke Xin loudly asked, "What's the price? Shopkeeper, do you have any more communication jade slips?"

A person quickly walked out from the counter. After seeing the two girls' age and the clothes they were wearing, a professional smile immediately appeared on his face. As long as they entered the door, they were guests and must be treated well. The waiter said with a smile, "You two are the new disciples of the Ningtian Sect?"

Dong Xi nodded. She wondered what qualification was needed to buy a jade slip. However, when she saw the smile on the waiter's face, Dong Xi seemed to have understood something. Whether it was in the 21st century or the Immortal cultivation world, business should be the same.

Dong Xi said indifferently, "That's right. Why? does your shop offer a discount? "

The waiter still had a professional smile on his face. Jade slips were not sold by his shop alone. Now that someone had entered the shop, of course, he would try his best to get the customer to buy it in his own shop.

The waiter immediately said, "Of course I do. May I know what type of jade slips you two Fairies want?"

Dong Xi was stunned when he heard this. There were even categories? Just like how there were brands for cell phones in the 21st century? Every brand was different?

However, Dong Xin did not care that much. She instead waved her hand and said to the waiter, "Take them all out, let's choose."

The waiter nodded, turned around, and walked back to the counter. After a while, he found a wooden box from an unremarkable place, took out all the jade slips inside, and said to the two with a smile, "Faries, these are the jade slips you wanted. The white ones are more common and relatively cheaper. The pink and green ones are relatively more expensive."

Ke Xin looked at the jade slips in front of her and immediately took a fancy to one of the pink ones. After comparing it to the other colors, this pink one looked the best. She held the pink one in her hand and asked the waiter, "How much do you need for this?"

The waiter was very good at reading people's expressions. When he saw Ke Xin holding the jade slip fondly, he knew that he had made a profit. He frowned and thought for a moment, then looked at Ke Xin with a smile and said sincerely, "It should have been 13 low-grade spirit stones."

"But we have a rule in our shop that disciples of the Ningtian Sect get a discount when they buy anything. Eight spirit stones will do."

At first, Ke Xin had been a little worried that she would not be able to buy it if she did not have enough spirit stones. However, after hearing about the discount, she had just enough spirit stones on hand.

Just as she was about to pay, she heard Dong Xi say, "Give us a cheaper price."

Ke Xin was clearly taken aback. You can even haggle over this? This was a communication jade slip, and it had always been quite expensive. The shopkeeper most likely would not agree to this.

Ke Xin watched as Dong X put on a cold expression and pointed at the jade slip as she spoke to the waiter. "These are all designs from many years ago. It'll be hard for you guys to sell it. If we don't buy it, you'll have to wait a long time before you can find a disciple who is willing to buy it. If you can't sell it, and you still need to occupy space, it's more appropriate to sell it to us at a lower price now."

The waiter originally wanted to earn more, but he did not expect that these children would be so hard to fool. They even knew how to bargain. However, the waiter still wanted to fight for more sales, so he said with a serious face, "Little Fairy, I'm just an employee, I can't make the decision. Whatever price the owner wants me to sell it for, I can only sell it for that price."

Dong Xi knew that this was the same as the mobile phone in his previous life. The profit was high. In fact, these jade slips could not be so expensive. The price should be very low.

Dong Xi said to the waiter, "Then go and invite the Boss over, I'll talk to him."

Amongst Cultivators, I Stand Above All #Chapter 30 - Read Amongst Cultivators, I Stand Above All Chapter 30 Online -

Haggling

The waiter did not expect that this little girl would actually want to directly speak to the Boss. In fact, these jade slips have been unsalvageable for a period of time. They could be sold at a cheap price, but it would be best if they could be sold at a high price.

The waiter pretended to be helpless and said, "The Boss is not here."

Dong Xi did not believe in these things. In her previous life, when she bought a phone, she could get a discount of a few hundred yuan after haggling. Now, a jade slip could naturally be cheaper.

Dong Xi said to the waiter, "You also have a communication jade slip, can't you just ask?"

Ke Xin looked at Dong Xi in shock. She wanted to tell Dong Xi that she had some money, so they did not need to haggle. However, when she saw Dong Xi haggling with the waiter with a serious expression, Ke Xin could not say anything. In the end, the waiter gave in and asked, "what's wrong? How much do you want to buy it for?"

Dong Xi had been observing the waiter's every expression. She did not ask for any details. At this time, Dong Xi knew that the price could be lowered. She did not hesitate and said to the waiter, "Two low-grade spirit stones."

When the waiter heard the price, he immediately fell silent. Ke Xin was even more shocked. She sneaked a glance at the waiter's expression, afraid that they would be driven out. After all, the price was too low. Dong Xi, on the other hand, said this with a calm expression.

"Sell it to us. When we return, we will tell the other disciples to come and buy it from you."

When the waiter heard this, he started to think. If they really went back and told the other disciples, the price would definitely attract a lot of people. At that time, they would not have to worry about not being able to sell these.

The waiter immediately said, "Alright, we'll do it according to your price."

When Dong Xi heard the waiter's words, she fell silent. She felt that the price could even be lowered to one spirit stone, but since things had already come to this, it was not good to say anything more. She looked at the dazed Ke Xin and patted her on the shoulder.

"Deal, here are the spirit stones."

Only then did Ke Xin snap back to her senses and look at Dong Xi with adoration. She had thought that Dong Xi was introverted and did not like to talk, but she did not expect that every word she said would be used on the knife's edge. With just a few words, she had saved quite a few spirit stones. She was truly amazing.

Ke Xin immediately paid two Spirit stones and held the pink jade slip in her hand, her heart filled with joy. Seeing that Ke Xin had paid, Dong Xi turned around and walked out. Ke Xin looked at Dong Xi in surprise and asked in confusion, "You're not going to buy one?"

After negotiating the price for half a day, Dong Xi actually did not want to buy it. When they first came in, it could be seen that Dong Xi was also very tempted. Although Dong Xi really wanted to buy it, there were other uses for spirit stones, so she could only say, "No, I'm going to use spirit stones to buy Fasting Pills."

Ke Xin fell silent. They were both new disciples, but Dong Xi was working so hard. That was a little too much, right?

In fact, Dong Xi also wanted a jade slip very much, but Fasting Pills were more important. If she bought more Fasting Pills, she could replace the time spent for eating with cultivation. She would be able to cultivate to the second level of Qi Refinement a little earlier, and she could take on some missions outside the sect.

Ke Xin looked at the communication jade slip that she had just bought and instantly felt that it was not good anymore. She put away the jade slip and thought about how they were still young and that cultivation had to be done step by step. However, if they did not listen to the gossip in time, they would not be able to pass.

Furthermore, Ke Xin's father had given her about seven or eight spirit stones when she left home. Ke Xin suddenly missed her father. She wondered how he was doing. If there were suitable Fasting Pills later, she would definitely buy some.

The two of them walked out of the shop and saw many small stalls on the side of the road. Some of them were even stalls set up by sect disciples. Dong Xi and the other man had never seen much of the world, so they were curious about everything they saw along the way. There were talking dolls, Immortal swords, cultivation techniques, and even medicinal pills. There was everything here.

Dong Xi finally stopped in front of a stall selling medicinal pills. The stall was not very big, and they only had a few porcelain bottles and a sign. The sign said 'self-produced and self-sold'. The price was not expensive.

Dong Xi did not waste any words and directly asked, "Fasting Pill, do you have it?"

The stall owner was wearing the uniform of the Ningtian Sect. He was also a disciple of the Ningtian Sect. When he heard the question, he raised his head and saw two young girls. They were obviously new disciples and Junior Sisters of the same sect.

The stall owner replied enthusiastically, "Of course. Six lower-grade spirit stones per bottle. There are ten pills in one bottle, one pill can last for two days."

There were also different levels of Fasting Pills. A high level fasting pill could last for about a month. However, he did not have the ability to make such a high level Fasting Pill, and could only sell it for this price.
