Chapter 71: Envious

Master Lingxu explained, "The Innate Moon Spirit Body can absorb the moon's essence to cultivate under the moonlight. The high-level cultivation can be said to be advancing at a tremendous pace. It's a gift from the heavens!"

As he spoke, Master Lingxu started to feel envious. At this time, some people were born with Innate Spirit Bodies and even Innate Dao Bodies. It was heaven-defying for ordinary people to cultivate, but these innate people followed the will of heaven. Once they started cultivating, it was as if the heavens were helping them.

Dong Xi's eyes lit up after hearing this. She immediately approached her master and asked, "Master, then I'm also a genius?"

Master Lingxu looked at the little girl and noticed that her eyes had widened a lot. Her face was slightly red, and she was obviously overly excited.

He raised his hand and gently stroked Dong Xi's head, sighing.

Dong Xi instantly became nervous when she saw her Master sigh.

As the old saying goes, one is not afraid of Master's laughter, but afraid of Master's sigh.

Then, she heard Master Lingxu say, "Little Xi, Master has never seen the Innate Moon Spirit Body before. However, according to the popular saying about the Innate Moon Spirit Body, the Innate Moon Spirit Body is related to the water spirit root. Moreover, it's only a water spirit root. The root value is basically above 90. However, your..."

There was no need to say more, Dong Xi already understood.

She had three spirit roots, and none of them were water spirit roots.

Master Lingxu's expression was a little awkward, and Dong Xi was also able to get over it. She smiled and said, "Master, it's fine. No matter what kind of spirit body it is, my cultivation speed is not slow. It's pretty good."

Hearing Dong Xi's words, Daoist Lingxu was stunned for a moment before he laughed and said, "Although Little Xi is young, her heart is clear. On the contrary, it was I who fell

into the chaos of overthinking. Little Xi, cultivate well. If you have any problems, come and find me.”

Dong Xi hurriedly cupped her fists and left her Master’s cave.

Dong Xi returned to her cave abode. As soon as she opened the door, a foul smell swept out from the room.

She frowned and subconsciously looked at the snake on the bed.

It would have been fine if she had not looked, but the moment she did, she felt as if her heart had been struck by a heavy blow. She was stunned on the spot.

Su Cheng was lying on the bed. There were still traces of blood on the side of the bed. His head was lowered, his eyes were closed, and there was still blood on the corner of his mouth.

His long black hair was scattered on the side of the bed.

No matter how she looked at it, it felt like this place was a murder scene.

Dong Xi did not have time to think. She dragged her trembling body and carefully ran to the bed. She reached out and touched the artery on Su Cheng’s neck.

However, the moment her fingertips touched Su Cheng, she did not even feel his pulse. In an instant, a force threw her out again.

Dong Xi was thrown against the wall, and pain shot through her body.

“Bastard! In the future, even if you really die, I won’t care!” Dong Xi said painfully. She wanted to rush up and eat Su Cheng right now.

Su Cheng slowly sat up from the bed.

His face was pale, and he had one hand on the bed, looking weak and fragile.

Who could associate him with the ruthless person just now?

Su Cheng lowered his head so that no one could see his expression. A trace of guilt flashed through his vertical pupils, but it was instantly hidden. Dong Xi did not notice it at all.

He had heard Dong Xi’s words and knew that she was concerned about him. However, to him, defense was an instinct, and not intentional.

Not to mention, the place she had touched just now was the snake’s weak point.

Seeing that he did not apologize, Dong Xi became even angrier. She walked angrily to the training room and was just about to sit down to cultivate when he heard a deep and magnetic voice say, "If you're not in a good mood, you might have Qi deviation."

Dong Xi told herself in her heart to ignore this big snake. However, when she heard the snake's words, she could not help but stand up from the ground.

Dong Xi really could not hold back her anger!

"So what if I get Qi deviation?!" Dong Xi resentfully replied. "It's better than being killed by you, right? You demons, are you all so ungrateful?"

Su Cheng looked at the angry little girl and retorted, "No."

Dong Xi wanted to say something, but she saw a smile on Su Cheng's face. Su Cheng just looked at the angry little girl and continued in a good mood, "The other demon beasts aren't, but I am."

Dong Xi, "..."

She had seen shameless people before, but she had never seen someone as shameless as this.

It was indeed true. Don't try to wake up a person who is pretending to be asleep. That person will not wake up, and you should never expect a shameless person to abide by any morals.

As Dong Xi was organizing her words, Su Cheng used a cleaning spell to clean up the cave.

"Little girl, come over and treat me," Su Cheng ordered.

Chapter 72: I'll Also Throw You Out

Dong Xi crossed her arms and snorted coldly without saying anything.

Su Cheng was not a good-tempered person to begin with. He had already gathered the spiritual Qi in his palm, but he hesitated, and then the spiritual Qi dissipated.

Su Cheng lowered his head and whispered, "I didn't mean to do that just now."

Dong Xi was stunned. She looked at Su Cheng. Was this guy apologizing?

"I'll throw you out too, and then say I didn't do it on purpose, okay?" She bit her lip.

Su Cheng thought about it and nodded. "Sure."

Dong Xi was a little surprised. She turned her head and saw the snake's tail from his exposed chest, as well as the tip of the tail that was wagging back and forth.

Dong Xi was very certain that even if she was ten times stronger, she would not be able to defeat the big snake!

"Just you wait," Dong Xi muttered in a low voice, "it's never too late for revenge! When I'm successful in my cultivation, I'll definitely take revenge!"

Su Cheng leaned weakly against the wall and looked into Dong Xi's eyes with a smile on his face, making her a little dazed.

However, his vicious tongue never disappointed Dong Xi. He said indifferently, "A mantis trying to stop a chariot."

Dong Xi, "!!"

Su Cheng casually took out something and threw it to Dong Xi. He said calmly, "Treat my injuries and this is yours."

Dong Xi held it in her hand and saw that it was a turtle shell-like object.

Su Cheng explained, "This is a protective spirit tool. It can withstand three heavy blows from anyone below the advanced level of the Nascent Soul stage. Take it to save your life."

Dong Xi was overjoyed when she heard this. Wasn't this three more lives?

Alright, since he was so sincere, she would forgive him this once.

Su Cheng did not have any other intentions when he gave her this. He was just afraid that she might accidentally kill this little girl one day...

Dong Xi had taken his money, so she will treat his injuries. She obediently placed her hand on his tail.

She did not know that when other people transmigrated, the demon beasts they got were powerful companions or pets. She was the only one who picked up an ancestor for herself and had to serve him carefully!

The spiritual Qi in Dong Xi's Dantian was about to be exhausted, so she stopped healing and let him have a good rest. Then, she turned around and went to the practice room.

First, she took out her communication jade slip and saw her friend's message. Ke Xin had asked her to go to the market with her. Dong Xi thought about how she had not seen her sister in a long time and agreed.

She immediately arranged to meet the next day and collected all the message jade slips.

Dong Xi took out two cultivation techniques. One was the Eight-nine Cultivation Technique and the other was Grand Sun Flames. From the names, one could tell that they were very powerful cultivation techniques.

Dong Xi's fire spirit root was the best, and she felt that she should cultivate the Grand Sun Flames. Chi Yan had said that this cultivation method had no attribute, so she could only see if the cultivation technique would choose her.

With an attitude of giving it a try, she opened the Grand Sun Flames and followed the instructions on the cultivation method to integrate the spiritual energy into her blood. However, she did not expect that she could not hold on even at the first step. The cultivation method was too overbearing, and intense pain instantly came from her meridians. The blood in her body churned, and her face turned pale. She immediately spat out a mouthful of blood.

Dong Xi could not even maintain her meditating posture. She supported herself with both hands to prevent herself from lying down.

Su Cheng also noticed the sound from the cultivation technique, and his expression changed instantly.

In the next second, Dong Xi fell into a cold embrace, forming a sharp contrast with the hot spiritual Qi in her body. She shivered, and her mind became clearer.

Before she could see what the snake was doing, she felt everything flash past her eyes. In an instant, she fell into the water.

The icy cold pond water instantly submerged Dong Xi's entire body. The pain in her meridians was greatly alleviated, and Dong Xi heaved a sigh of relief.

However, when she saw where he was, he instantly started to struggle.

Why was it all water? She did not know how to swim!

When she had just transmigrated, the feeling of imminent death struck her again. Dong Xi felt difficulty breathing and struggled with all her might, but she could only watch as he slowly sank to the depths of the pond...

Dong Xi tried to mobilize her spiritual Qi to stop herself from sinking, but it was of no use.

Tears flowed out of her eyes and instantly melted into the cold pond.

This huge snake! How did she offend him?! He actually wanted to kill her!

Su Cheng threw Dong Xi into the pond and waited for a long time, but she did not come back up. He thought she still had not recovered, so he did not care.

After a while, he suddenly noticed that the aura in the lake had become very weak, and he knew that something was wrong.

Dong Xi felt her hand touch something very hard and cold. The next moment, her slender waist was hugged by someone.

Dong Xi tried her best to open his eyes, only to see a snake tongue sticking out. Her willpower could no longer hold on, and she fainted.

Su Cheng did not expect this person to be drowned. The Su Cheng's clan loved water and humidity. They were born to swim and grew up in the water.

Chapter 73: Eating the Inner Core of the Big Snake

When Su Cheng was still a small demon, he had to rely on water to escape many times when his life was in danger.

He transformed back into human form, picked up Dong Xi with his tail, and turned her upside down to control the water.

Seeing that Dong Xi still did not move, Su Cheng frowned.

Su Cheng was a venomous snake and did not have the ability to save people. This girl's body was not good either. What if she really...

Su Cheng's face instantly darkened. He did not know if he should save this little girl. Was there a need to?

He had killed countless people, so why would he care about such a small cause and effect?

However, when he saw the little girl still lying on his tail, he immediately changed his mind.

Su Cheng first gave Dong Xi some spiritual Qi to protect her heart and brought her back to the cave. He placed her on the bed and spat out an inner core.

If one were to look closely, one would discover that there were some cracks on the surface of the inner core.

He raised his hand and suspended the inner core above Dong Xi. The light enveloped Dong Xi's body, making her look like a dream.

In a daze, Dong Xi felt as if he had been wrapped in something warm. There was also a strange power that entered her body, making her turn over comfortably.

Su Cheng caught the inner core and helped Dong Xi regulate the spiritual Qi in her body. However, the next second, he opened his eyes and looked at the bed.

All he saw was his inner core being suddenly pulled to Dong Xi's mouth by a suction force. Dong Xi opened her mouth and ate it.

Su Cheng's face darkened, and he grabbed Dong Xi's neck.

He had tried so hard to save this person, but this person actually dared to swallow his inner core! Humans, no matter big or small, were all extremely cunning. Even a little girl like her could be so scheming!

In Dong Xi's dream, it was as if something was wrapped around his neck. It was extremely uncomfortable, and she instinctively raised her hand to pull it away.

With a struggle, the inner core was immediately swallowed.

Su Cheng panicked when he saw this. Although his inner core was damaged, it was not something this girl could handle. The violent Qi in the inner core would soon rush out of her Dantian and her meridians...

He immediately picked Dong Xi up and pressed his finger on the place three inches above her belly button, wanting to make Dong Xi spit out the inner elixir.

However, he did not expect that no matter how many times he tried, it would be useless. Dong Xi coughed a few times and slowly opened his eyes. She discovered that he had been wrapped by the huge snake's tail and was being lifted in the air.

She looked at Su Cheng's eyes and saw a bit of resentment. Then, she looked at his face and saw that black patterns had appeared.

Dong Xi wanted to go down, but Su Cheng let her go and she fell to the ground.

Dong Xi pushed herself up with both hands and could not help but shout, "Are you crazy? You threw me into the pond, I can't swim! You almost killed me!"

Su Cheng saw that she was full of energy. What he was worried about did not happen at all. He could even feel his inner core floating in her Dantian.

Su Cheng forcefully stopped the thought of opening her stomach and taking back his inner core. He coldly said, "You ate my inner core."

Dong Xi was just about to say something when she heard the black snake's sudden words. She was stunned.

"You, what did you say?" Dong Xi asked in surprise.

Su Cheng looked at her and repeated with a serious expression, "You ate my inner core!"

Dong Xi suddenly understood why he had been so resentful when he woke up. But why had he eaten his inner core? The difference in strength between the two of them was not just a little bit. Even if there were a hundred of him, he might not be able to touch him.

Su Cheng saw her frowning and said, "I noticed that you were suffering from Qi deviation, so I kindly helped you to get rid of the fire poison in your body. I even saved you from the water and used my inner core to help you heal. I didn't expect that you would bite the hand that fed you. You actually ate my inner core. Humans are all cunning. In order to get back my inner core, I can't let you live!"

Su Cheng put one hand behind his back and raised the other in the air. A ball of green mist appeared in his hand.

The air around the mist seemed to have a fault. Dong Xi was shocked. She did not doubt that this mist could make her disappear without a trace.

her forehead was full of cold sweat. She quickly went into havoc and immediately said, "big snake! It's fine to kill me, but I can't hurt your inner core!"

Su Cheng smiled coldly. Dong Xi looked at his white teeth and was even more panicked.

"Don't worry, I know how to control my strength," Su Cheng said lightly.

Dong Xi's face turned even paler. How could she have eaten the snake's inner core for no reason? Why did she not know anything about it?

Didn't he say before that eating a demonic beast's inner core would cause one's body to explode and die? But now...

When Dong Xi thought of this, she instantly felt even worse. No one would be able to remain calm if they had a bomb in their stomach and were facing the possibility of being killed at any time!

Chapter 74: The Demon Beasts Are the Treacherous Ones

Dong Xi subconsciously checked the inner core in her Dantian. She saw the inner core floating in his Dantian, surrounded by his own light purple spiritual Qi.

Surrounded by spiritual Qi, the cracks on his inner core seemed to be healing. Looking at Dong Xi's spiritual Qi, it was getting lesser and lesser, and it was about to drop to the next realm.

When Dong Xi saw this, she was instantly stunned. She looked up at Su Cheng. Dong Xi gritted her teeth and said, "Demon beasts are the treacherous ones! You're clearly using me to repair your inner core! Why are you looking for excuses?"

Dong Xi was naturally afraid of death, but if she did not provoke him now, she might really die.

"What did you say?" Su Cheng frowned in dissatisfaction.

Dong Xi raised her chin and said unhappily, "You put the inner core in my Dantian to use my spiritual energy to repair it. Now that your inner core is about to recover, I can't keep my cultivation realm!"

Su Cheng hurriedly used his divine sense to investigate and found that her current situation was very bad. The fire poison in her meridians had not been completely removed, and his inner core was absorbing spiritual energy like a bottomless pit. Even her new cultivation realm was showing signs of falling.

Su Cheng frowned and raised his hand to press on Dong Xi's lower abdomen, but she found Dong Xi holding her stomach and taking a few steps back. Dong Xi asked alertly, "What are you doing?!"

Su Cheng's face was still calm as he said in a low voice, "Shut up and sit down. I'll help you stabilize your realm."

Although the drop in the cultivation realm did not seem to have much of an impact, it would be more difficult to break through again.

Dong Xi struggled internally for a moment before compromising.

After all, whether she died or not depended on the black snake's thoughts. What if she did not listen to the snake's words and angered it?

Dong Xi sat on the bed with an aggrieved expression. Su Cheng sat in front of her, put his hand on her lower abdomen, and closed his eyes.

Without the oppressive feeling of the vertical pupils, the snake's unparalleled beauty did not diminish even though there were some black patterns on his face. Instead, he looked more wild.

Dong Xi was engrossed in watching and heard Su Cheng say, "Reclaim your origin energy."

Dong Xi came back to her senses and immediately did as Su Cheng said.

Su Cheng's spiritual Qi entered her body and tried to connect with his inner core.

His inner core seemed to have its own thoughts as well. It only swayed in Dong Xi's Dantian for a while before it quieted down.

Su Cheng was clear about his inner core. The small cracks on his inner core had been partially repaired, and the big cracks were slowly getting better.

He was very surprised. He had slept for so long and used spiritual energy to nourish it for so long, but the effect was not as good as this little girl's Dantian for a short while?

Su Cheng did not understand either. He tried to communicate with the inner core again to see if he could mobilize the spiritual Qi inside.

In the end, it did not have any effect, and Su Cheng was relieved.

Forget it, since it's useful in the little girl's body, let's leave it at that for now.

Su Cheng mobilized a trace of spiritual Qi from his inner core to remove the fire poison in Dong Xi's meridians.

However, even this trace of spiritual Qi was a little difficult for Dong Xi to bear. In addition, Su Cheng's spiritual Qi was naturally poisonous. Even if Su Cheng controlled it carefully, it still caused slight burns to Dong Xi's meridians.

Dong Xi felt uncomfortable. She instinctively circulated her spiritual Qi and wrapped her fragile meridians with a thin film.

Then, she automatically started to circulate the spiritual Qi according to her memory, which also contained a trace of the spiritual Qi of Su Cheng.

Su Cheng felt that she had taken away his control of the spiritual Qi. He thought about it for a moment and let her control it.

The light purple spiritual energy wrapped around a trace of green spiritual energy and was quickly absorbed. Then, it circulated around the meridians and returned to the Dantian. It was then absorbed by Su Cheng's inner core.

Gradually, Dong Xi's body also formed a subtle cycle.

Su Cheng saw that her realm was stable and stopped.

Dong Xi also opened her eyes. As soon as she opened her eyes, she saw Su Cheng also looking at her. Her eyes unconsciously drifted.

"I won't take out the inner core for now, it's in your Dantian," Su Cheng said lightly.

Dong Xi was stunned for a moment. She looked up at Su Cheng and asked, "Does that mean I don't have to die?"

"I'll spare your life for now," Su Cheng nodded.

Dong Xi heaved a sigh of relief and fell back onto the bed.

Su Cheng looked at her and could not help but laugh. He said, "You don't have to be too happy. Are you going to practice the cultivation technique that the little bird gave you? As for that book, it might work. Try it."

When Dong Xi thought of the blood she had vomited while cultivating and the pain in her meridians, she felt a little scared.

“If I can’t practice it, then so be it. Why is this happening?” Dong Xi asked, confused.

Su Cheng glanced at her and said, “Do you think that other people’s family’s cultivation techniques are so easy to practice? Don’t you think that there will be a threshold? No matter what, she’s a demon beast. Their bodies are better than humans, and their cultivation techniques are even more overbearing.”

Chapter 75: Do You Know How to Swim?

Dong Xi, who was like a salted fish, also knew that the cultivation technique really was not suitable for her. At the same time, she became even more dispirited. She secretly decided to quickly refine her body.

However, she had to learn how to swim before she could train her body.

she could not always fall at the same place, not to mention that she had fallen a few times in the same place. Drowning was very uncomfortable and she did not want to experience it again. Dong Xi looked at the snake and asked, “Snake, can you swim?”

Dong Xi recalled the scene she had seen before she fainted. A huge snake head, and even that head was much bigger than her.

She suddenly realized that she seemed to be talking nonsense. Why couldn’t the snake swim?

“Forget it, just pretend I didn’t ask,” said Dong Xi.

Su Cheng looked at Dong Xi and saw her tie her hair up again. He said lightly, “You almost drowned. Humans are still useless.”

The useless human, Dong Xi, stood up and said, “Don’t mess with me, or I’ll self-destruct with your inner core!”

She recalled reading a book in her previous life. It was always written that someone would use their entire life's cultivation to self-destruct, always bringing two people with them. The power should be quite great.

Hearing this, Su Cheng's lips curved up slightly as if he was ready to see a joke.

Su Cheng mercilessly told her the truth and said, "I'm just afraid that even if you explode into dust, my inner core will be unscathed."

Back then, a total of 81 Lightning Tribulations had caused Su Cheng's inner core to crack. With Dong Xi's pitiful cultivation? Hehe.

Dong Xi did not want to say anything more to him. Dong Xi could also see that the black snake only knew how to scare people.

He said he would kill her repeatedly, but he even helped her get rid of the fire poison. When she was drowning, he was also the one who saved her. He even used his cracked inner core to heal her.

This was what it meant to have a sharp mouth but a soft heart.

These people from the world of self-cultivators were really proud, and Senior Brother Song Qingfeng was the same.

Dong Xi looked at Su Cheng and raised her hand. A wisp of green mist appeared in her hand. Seeing Su Cheng's shocked expression, Dong Xi said, "It won't explode anyway, so I'll just use up all the spiritual energy in my Dantian!"

Su Cheng returned to his original form and said, "I advise you not to do this. Once you attract my enemies, you won't even have the chance to run."

Dong Xi panicked. She saw that the snake had already closed its eyes and was silent.

She could not help but think that without the inner core, the black snake's strength should have weakened a lot, right?

Dong Xi thought that she must take this inner core out of her Dantian. After all, such a time bomb was in her Dantian, and she could not cultivate in peace. She would go to the Cultivation Techniques Hall in a few days to see if there was any good way.

Dong Xi stood up and ate a Spirit Restore Pill. Her spiritual Qi instantly recovered, and she reached out to Su Cheng's body to treat him.

The black snake opened his eyes and glanced at Dong Xi, then closed them again.

Perhaps it was because she had the snake's inner core, Dong Xi took longer this time than before.

When she retracted her hand, a thought suddenly appeared in her mind.

The black snake was in such a bad state and was able to maintain its human form was probably because he did not have an inner core.

Dong Xi frowned. No wonder he wanted to kill her just now.

She raised her hand and touched her neck. She was still a little scared.

Dong Xi looked at the big snake again and found that he seemed to have fallen asleep, so she got up and quietly went to the practice room.

She did not know where the snake came from, but it was obviously much more powerful than her. Since he said that she should try Song Qingfeng's technique, Dong Xi would try it.

Most importantly, she had no other choice other than this cultivation technique.

Dong Xi sat down and waited for her condition to recover to its peak before taking out the cultivation technique. She read the words on it and said, "The Eight-nine Cultivation Technique."

The original book did not mention Song Qingfeng's family in detail, but Dong Xi could tell that this cultivation technique was not some low-level cultivation technique.

Flipping open the cultivation technique manual, he saw the words on the first page: 'There are 80 to 90 percent of things in life.'

Dong Xi's interest was immediately piqued. However, thinking about everything that had happened since the beginning, who could be more unlucky than her?

She drowned after finally getting into the university she was looking forward to. She was killed by a sword the moment she transmigrated. Then, she was reborn and picked up this snake. Every day, she was on the verge of death...

If only she was not so unlucky and everything went smoothly.

After clearing her mind, Dong Xi flipped to the next page. The human body's structure was drawn in detail on it, and it explained how spiritual Qi circulated and which acupuncture points should be attacked first.

Chapter 76: All Previous Efforts in Vain?

After Dong Xi finished reading, she closed her eyes and digested the contents of the book. When she was almost done, Dong Xi put raised all her limbs toward the sky according to the method in the book.

It was indeed a high-level cultivation technique. Dong Xi, who was at the third stage of Qi Refinement, had a feeling that her control of spiritual Qi was not in accordance with her heart.

After the spiritual Qi circulated once according to the method in the book, Dong Xi instantly became nervous.

The previous cultivation techniques all gathered spirit Qi and then dissipated it. If it dissipated again this time, would there really be no cultivation technique to practice?

However, after the spiritual Qi returned to her Dantian, it was unable to enter the navel point.

At any moment, Dong Xi's forehead was covered in sweat, and she gritted her teeth so hard that they were bleeding.

However, the green inner core in her Dantian seemed to be fighting with her spiritual energy, making her unable to continue.

When Dong Xi discovered this problem, she was extremely angry. She wished she could take out his inner core and give it to that broken snake to eat!

She was really done for by that stupid snake!

Dong Xi looked at the edges of her spiritual Qi slowly showing signs of dissipating. Dong Xi's expression was pained, and she even wanted to die.

Wouldn't this mean that... All her previous efforts would be in vain again?

Gritting her teeth, Dong Xi decided to persist a little longer. What if she succeeded?

I must persevere...

Dong Xi's face turned pale. At this moment, Dong Xi was overdrawing her spiritual power to control the spiritual Qi.

At this moment, a golden spot of light appeared on Dong Xi's forehead. If Dong Xi could see it, she would have realized that it was the blood Song Qingfeng had given her that day.

The golden light spot became brighter and brighter, and then it broke down into countless small light spots, which merged into Dong Xi's body.

With the support of the golden light spots, the spiritual energy that was originally fighting against the green inner core suddenly gained the upper hand.

The purple spiritual Qi slowly entered the navel point and wrapped around the green inner core in her Dantian.

The inner core seemed to have sensed the threat and wanted to escape from her sea of Qi. However, it seemed to be trapped by quicksand and was sinking in bit by bit.

When the inner core was completely wrapped up, Dong Xi opened her eyes. A trace of golden light seemed to flash in her eyes, and a smile appeared on her face.

It was a success!

However, before she could be happy for long, the snake on the bed suddenly spat out blood, and the color of the scales on its tail became darker.

Dong Xi was stunned. She did not expect that the inner core in her body would cause him such damage.

Dong Xi immediately panicked. The giant snake raised his head and flicked his tongue at Dong Xi.

Dong Xi suddenly felt a chill in her heart. It was absolutely creepy to describe it.

She quickly stood up and immediately waved her hand, "I didn't do anything! I really did not do it! It has nothing to do with me!"

In fact, Dong Xi knew in her heart that although this cultivation technique was called the Eight-nine Cultivation Technique, it was still a high-level cultivation technique, especially a righteous cultivation technique. The great snake was a poisonous snake to begin with, and his inner core was even more poisonous.

According to the tyrannical nature of high-level cultivation techniques, there was a high chance that the black snake's inner core would be completely purified.

Dong Xi could not help but imagine that the snake was probably trying to skin her alive at this moment, but the snake's reaction surprised Dong Xi.

The snake only glanced at her indifferently before lying back on the bed.

Since Su Cheng let Dong Xi cultivate this technique, how could he not have thought of the impact on the inner core?

However, in this world, there were good and bad times. Although the cultivation method would harm his inner core and bones, it also helped him to hide part of the heavenly secrets.

Dong Xi saw Su Cheng lying back on the bed and immediately let out a sigh of relief.

At this moment, the restriction at the entrance of the cave abode was touched.

Dong Xi was shocked. She came back to her senses and wanted to look outside, only to find that it was Chi Yan.

Dong Xi did not dare to let anyone enter the house. She immediately cast a cleaning spell and tidied up everything before leaving.

Chi Yan was still dressed in red. Dong Xi stepped forward and saluted, "Little Senior Sister!"

"Have you cultivated my cultivation technique yet?" Chi Yan nodded and asked.

Dong Xi was a little puzzled, but she nodded and respectfully returned the cultivation technique to Chi Yan. Dong Xi said, "Thank you, Senior Sister. I've tried the cultivation method, but I'm not fated to cultivate it. Sigh..."

In fact, Dong Xi was really disappointed. This cultivation technique was extremely compatible with the fire attribute. It was just that the cultivation technique was too overbearing, and she could not cultivate it at all.

Dong Xi frowned and did not see Chi Yan's strange expression.

This cultivation technique was too overbearing. Chi Yan was also worried that Dong Xi would be injured, so she came to check it out and gave Dong Xi some medicinal pills to heal her injuries. However, she did not expect her to be fine.

Thinking about how his Junior Sister only had three spirit roots and her aptitude was not very good, but she was still accepted as a disciple by her Master, Chi Yan knew that it was not as simple as it seemed on the surface.

Chi Yan thought for a moment and took out the pill she had prepared.

Even though Dong Xi seemed fine, it would be extremely troublesome if she suffered internal injuries.

Chapter 77: This Little Bird Is Still Very Cute

Chi Yan put the white porcelain bottle in Dong Xi's hand and said indifferently, "Junior Sister, this is a pill specially used to clear the fire poison. Keep it well and don't let the fire poison remain in your meridians, it will affect your future cultivation!"

Dong Xi looked at the porcelain bottle Chi Yan had given her. She was stunned at first, but felt a little annoyed.

Little Senior Sister was really something! If she had sent the pills earlier, she would not have had to suffer so much!

Of course, Dong Xi was still very shrewd, and nothing could be seen on the surface.

Dong Xi cupped her fists and gratefully said, "Little Senior Sister! You're really timely!"

Chi Yan's face was slightly red, and she felt a little guilty.

When she had given Dong Xi the cultivation method, she had forgotten about her own bloodline of the demon beast. She did not think about the possibility of accidents.

When Chi Yan returned to the cave, she remembered that her ancestor had given the cultivation method to a person, and the person had suffered a backlash.

Thinking of this, Chi Yan hurriedly came to deliver the medicinal pill to Dong Xi, and in the end, she really made it in time.

Chi Yan put away the cultivation technique that Dong Xi had exchanged for and said indifferently, "Don't be discouraged. The heaven's chosen technique requires fate. My clan's technique isn't suitable. There are other techniques you can try."

Chi Yan still had an arrogant look on her face, and her words of comfort seemed to be an order.

Dong Xi felt it was funny, but he knew Chi Yan had good intentions and nodded. "Thank you for your comfort, Senior Sister. I will try the cultivation technique given by Second Senior Brother. If it doesn't work, I will think of another way."

Chi Yan gave the pills and left.

Dong Xi watched Chi Yan fly away in her original form and could not help but think that this little bird was still very cute.

Retracting her gaze, Dong Xi looked at the porcelain bottle in her hand, opened it, and ate a pill.

The high-grade pill did not need to be chewed. It melted in her mouth, and a cool feeling spread throughout his body, nourishing her meridians.

This feeling was very intoxicating, just like eating a piece of mint candy, very comfortable.

Dong Xi kept the remaining pills and remembered Chi Yan's kindness.

In the future, if Chi Yan needed Dong Xi, Dong Xi would definitely help.

The next morning, a message came from Dong Xi's communication jade slip. Dong Xi picked it up and read it. Ke Xin's voice came from it, "Sister! Let's go! I heard that there's an event at the store, and the second piece is free. If you're late, there won't be any!"

When Dong Xi heard this news, she was immediately overjoyed. No one could refuse a second item for free, including Dong Xi.

She immediately got up, cast a cleaning spell on herself, tied her hair, and stepped on a small leaf to go down the mountain.

Ke Xin kicked the small stones in boredom and sighed in her heart.

The inner sect was so far away, and by the time Dong Xi arrived, they did not know when they would be able to make it for the second event.

If he had known this would happen, she would have sent a message yesterday to ask Dong Xi to come down early and stay with her outside for the night.

However, it had already come to this. No matter how unhappy she was, there was no other way.

The next second, a voice suddenly came from above Ke Xin's head. Dong Xi said, "Sister, what are you standing there for? hurry up and come up!"

Ke Xin raised her head and saw a little leaf floating above her head. A girl was sitting on it.

It was Dong Xi, who Ke Xin had been waiting for.

Ke Xin's eyes brightened. The little leaf lowered its altitude and Ke Xin immediately climbed up.

Ke Xin said enviously, "Amazing, Sister! They all have flying magic tools?"

"Senior Brother lent it to me," Dong Xi said with a smile. "It costs a lot of spirit stones. I wouldn't have used it if I wasn't in a hurry!"

When the two of them reached the teleportation array, Ke Xin saw that the spirit stone was becoming dimmer and dimmer. She could not help but think to herself, 'Isn't this burning money?'

There were exactly eight people waiting for the teleportation array, so Ke Xin and Dong Xi had exactly ten people.

Having experienced this before, Ke Xin took out her snuff bottle and sniffed it before closing her eyes and entering the teleportation array.

When he opened his eyes again, he had already been teleported to the market.

They had arrived earlier today. The sun had not completely risen yet, and the entire market was dyed in gold.

Dong Xi walked out of the teleportation formation, but before she could stand still, Ke Xin pulled her hand and quickly walked towards the clothing store. Ke Xin said, "There must be a lot of people today. Grab me and don't let people squeeze me away."

Dong Xi agreed and quickened her pace. The two of them ran all the way to the clothing store and found that there were already many people lining up at the entrance.

Ke Xin pulled Dong Xi to the back and poked her head out to count the number of people in front.

"It's fine, it's fine," Ke Xin said as she counted. "There's only about 20 people. It should be our turn soon."

Dong Xi nodded. She was not worried that she could not buy it, but she was afraid that she could not afford it.

"Sister, what have you decided on?" asked Dong Xi.
