C161

Once a person had no spiritual energy, they would instinctively absorb the surrounding spiritual energy. All the people in the village were like dried up wells that could not be filled, and over a hundred dried wells had consumed almost all of the spiritual energy within a radius of tens of miles.

“My god, this atmosphere is really strange.” His name is Zhao Xuewen, one of the few first-rate personnel in the department. Right now, we are in an era where talent is scarce, and there are not many young people as capable as him and Senior Brother Ju Yi in the department, even though there are still over a hundred people in the department, they are mostly support personnel. The mission this time was only a cleaning mission, so the higher ups only sent him as a cultivator to assist Group Leader Gao.

Even though he was young, he had some background and his master was once an elder of a department, the composition of the department was mostly like this: Master bringing his disciple, there were benefits and disadvantages to it, the good thing was that there were very few opportunities for people with ulterior motives to enter the department, to establish themselves in the department, and also to come into contact with people like Pei Hongdu who were well-versed in secrets. There were also a few people like him who took the initiative to join the department, and only after a long period of investigation, would they be able to gain the trust of the department.

The village had an uncomfortable feeling. Even in broad daylight, the lifeless feeling of desolation lingered, the closer they got to the center of the village, the more they felt. It was like an isolated island abandoned by the world, and every second they entered this place they clearly felt out of place with the village.

“Senior brother Ju Yi, didn’t you come here because the higher-ups are saying you can’t come? Didn’t you have another mission, why did you suddenly come here? Is it because the people from the Longevity Hall value this place highly, it’s not like you can’t come” When I saw this Senior Brother Ju Yi, he was like a little fan seeing her idol, constantly asking questions. I was getting more and more confused about Senior Brother Ju Yi’s position in the department, I never thought that there would be so many people worshipping me at his age.

However, looking at how calm Senior Brother Ju Yi is, without a single ripple on his face, this made me even more impressed, and if it's said that there's really a difference between a person and a person, then if someone were to ask me all sorts of questions with an expression of admiration, I would have already floated up. Senior Brother Ju Yi continued to calmly answer his questions, looking like an expert who had left the world.

“Senior brother Ju Yi, can this be the home of the Longevity Hall? You don't know, a few days ago, it was here that Senior brother Ju E was injured by the mysterious person. Let me tell you in secret, the higher ups said that the Longevity Hall might have a mining site here, and furthermore, those who mine are not human ...” When Zhao Xuewen said till here, he mysteriously lay next to Senior Brother Ju Yi's ear and said: “It's a half human half beast monster. That kind of monster's strength is extremely great, I heard that it's a experiment made with Longevity Hall, they specially made it for them to work hard, just thinking about it makes me scared. Senior Brother Ju Yi, are you afraid?”

However, seeing his serious expression, Senior Brother Ju Yi did not have the heart to refute him. He faintly smiled and said: “If there really is that kind of monster, there's no need to be afraid. If it could be controlled by Longevity Hall, why can't we control it?” This is such a good idea. If we let those monsters work for us, that would be great, think about it ... ”

Just as he was about to start a conversation, Group Leader Gao walked over and said, “Xuwen, pay close attention to your surroundings. Don't let any mishaps happen here, okay?” He only stopped talking after being told by Group Leader Gao. I looked at Group Leader Gao in gratitude, it was all thanks to him, otherwise my ears would have been grinded by this nagging Zhao Xuewen.

This village was relatively backward, there were basically no modern farm tools, and not a single person could be seen. Maybe it was moved, or maybe it was even killed, or maybe it was dug a hole and buried, there was no trace of it at all. This village was located deep in the mountains far away from the city, and would only be discovered after who knows how many years had passed.

It's a pity that after wandering around the village for a while, they couldn't find even a trace of human life. They have been here twice, and both times, they were still somewhat popular, although we didn't find where the human life came from, and we didn't see any living people, but at least there was some hope. But now, we all think that the entire village has died by accident, and when we think of those corpses with their skulls opened, my heart starts to churn.

“Chief, what should we do next?” We sat down to rest and discuss what to do next. Everyone was discussing, and only Zhao Xuewen remained silent. After a while, he walked over to Group Leader Gao

and said: "Group Leader, do you realize that the road here is a little different from the last time we came in."

"I noticed it too, but I don't know how to explain it. I've been here three times already, and every time there's a difference. This village is really weird." The first time they entered the village, Chief Gao said, the road was very flat. The second time they entered, the road was a bit rough, but this time, there were bulging bags on every road, as if something was about to dig out from the ground.

"Why does it look so strange? Ju Yi, what do you think?" The senior brother said, "I once heard from Master that a place where spiritual energy is scarce will cause nature to protect itself, and that the spiritual energy of heaven and earth will be coordinated and unified is an iron law. If one place's spiritual energy is depleted and lost its protection, an irreversible disaster will occur, such as a flood or a mudslide, which are all related to the depletion of spiritual energy.

Just as everyone was listening to Senior Brother Ju Yi speak, a green light suddenly lit up on one of the instruments in the probing machine's hand. Just as he finished speaking, the door of a house not far away opened and a person walked out.

Seeing that someone had appeared, all of us stood up. That person walked out unsteadily, and upon seeing so many people, he stumbled and closed the door, then entered. Group Leader Gao shouted: "Hurry up, don't let him escape, it might even be someone from Longevity Hall." We all ran toward the house.

Zhao Xuewen took the lead and ran at the front, he then smashed the broken wooden door with a kick, we followed closely behind him, only to see a person crawling under the bed, his butt was exposed, and his entire body was trembling. Zhao Xuewen pulled one of his legs out and pulled him out, that person was so scared that he shouted loudly, Zhao Xuewen laughed and said: Group Leader Gao, I have caught the remnants of this Longevity Hall.

When he came back a few days ago, he had discovered the changes in the village, especially his own parents, who could not even remember his name. Just when he thought that his parents were sick and had lost their memories, just as he was about to bring his parents out to see a lot of black-clothed people, they caught a lot of people from door to door. His parents, who were already close to dementia, tried their best to hide him in the cellar at home and only then did he manage to avoid the calamity.

We gave him food to eat, and he wolfed it down. He rested for a while, and just as we were getting impatient from waiting, he suddenly burst into tears. It was really hard to understand, and it took him a while to stop crying.

Just as we were about to take him out, the moment we opened the door, the ground suddenly shook. Could it be an earthquake? Before I could react, countless cracks suddenly appeared on the ground and our entire party along with this fellow who was crying out loud fell to the ground.

Just as I was about to stand up, I heard the sound of ghosts wailing and wolves howling behind me. Soon after, two people rolled down from above, and moaned for a while before standing up again, they were Zhao Xuewen and the university student, the two of them were in a very sorry state, the originally clean and tidy Zhao Xuewen was now covered in mud, the university students were as well, their eyes had long since disappeared, and their pretty faces were also covered with a black and purple color. They were groping around on the ground, not knowing what they were touching.

I helped Zhao Xuewen up, while touching his glasses, the university student yelled out, "Where are my glasses? How are my glasses going? I helped him up and said, "Stop looking for him. It's good enough that you're still alive." He felt around like a blind man and I quickly handed him my hand. He grabbed my hand and said in a sobbing tone, "Don't leave me behind. I can't see anything without my glasses."

I waved my hand in front of his face and he said, "You. What are you doing?" I said, "You can see it." He said, "I saw something moving. I'm not lying to you. Why would I lie to you ..." Seeing that his eyes were red, I said in my heart that I was going to cry again. I quickly held his hand, and he grabbed me with both of his hands. He looked as nervous as a man who has fallen into the water.

However, looking at his pitiful appearance, I could only suppress the discomfort in my heart. I tried to persuade him, "Don't worry, I won't leave you behind. Besides, there's still Brother Zhao. I don't care if you, Brother Zhao, will care about you, right?" After hearing my words, the university student grabbed onto me even more tightly, causing my hand to ache. He said in a sobbing tone, "I don't believe it, he" "When he fell down earlier, he used his foot to kick me non-stop. Look at my face, isn't it broken? How many times has he kicked my face ..."

I then realised that the lines on his face looked really like shoe prints. I looked at Zhao Xuewen and he said indifferently, "I didn't do it on purpose, how scared I am when I'm around. I just wanted to step on something.

C162

In front of him was a valley. From afar, he could see all kinds of strange flowers and herbs. It seemed like there were very few signs of human habitation. However, there were traces of many people walking across the valley.

Before I could recover from my shock, I was attracted by the valley. When the university student saw that I didn't say anything for a long time, he hurriedly asked, "What happened? Where are we? Where did we fall?" I asked, "Do you know that you have a valley here?" What... "What valley? There's nothing like that."

This was quite strange. He was here, yet he didn't know that there was a valley here. Could it be that this valley appeared out of nowhere? We fell down from the huge crack created by this earthquake, it was almost impossible for us to climb up, we could only move forward, there might be a way out of the valley, and looking at the footprints on the ground, it was very likely that the villagers were here.

The university student's reaction was very intense. "I'm not going, I want to go back, I don't even know where we are, I'm not going to risk my life with you, that's right, who are you, have you anything to do with the people who kidnapped my parents?"

He seemed to have forgotten that he still had to rely on the two of us for a chance at survival. Otherwise, putting aside the fact that there was nothing to eat or drink here, it would be difficult for him to walk out of here without his glasses.

"I say, this ... If you don't want to go with us, then go well, I won't send you off." Zhao Xuewen seemed to really not like him, as he pulled me forward. I didn't have any good feelings towards this reckless guy, since he didn't want to go together with me, then I will go by myself, when Zhao Xuewen and I walked forward, the university students behind us probably didn't expect us to be so cold. This time they really were going to cry.

In the end, he gave in. I didn't want him to hold my hand, so I just let him put his hand on my shoulder. Both his hands were on my shoulders.

The three of us awkwardly walked forward and entered the valley. Only then did we realize that this place was very wide and much larger than the ones we saw outside. I didn't know if it was because of my nervousness or because the temperature here was lower, but I felt that there was something different about this place.

"Phew ..." Looks like the people from your village have stopped running around here." Zhao Xuewen said, what appeared in front of us was a row of houses, the doors were tightly shut, we did not know if there was anyone inside, but if there was someone inside, why would they lock it up, "It's the Qi of a human, it's right there." Zhao Xuewen lifted his nose and inhaled deeply, then said to me, Actually I already knew that, since long ago, there were definitely people there, and there were quite a few of them. Just now, when I stimulated the Fox Blood a little, I could smell the disgusting smell of feces, urine and sweat that came from the rows of houses.

The university student saw the two of us clutching our noses and retching. He did not know why, but he asked, "What did you smell? This reaction..." I can't smell anything." It took a while before she stopped retching and wiped her tears. We walked forward and the university students also saw the row of houses. "They must be inside. There's no need to think about it. Let's go quickly."

Arriving in front of the house, Zhao Xuewen looked through the glass and saw that they had all retreated with a cry, their eyes were filled with disgust and fear, when I looked inside, an uncomfortable feeling spread from their hearts to their entire bodies. The floor of the house was filled with people, regardless of whether they were men or women, young or old, naked, emaciated and skinny, hugging each other and sleeping soundly.

"What happened inside? Is everyone from our village inside?" The university student shouted anxiously from behind. I went to the door and looked, there was a new big lock firmly locked on the door, I used all my strength to kick on the door, but the metal door gave off a rumbling sound and didn't move at all, this is too strong, I silently activated the Fox Blood, and retreated two steps back before slamming into the door, hoping to break it open or break it open. Unexpectedly, under my full force of impact, the iron door bounced me off, no less than a few meters away.

"This door is so sturdy, it's impossible to use brute force." Zhao Xuewen laughed as he walked towards the door, walking to the door and locking it. As he read, his hands made a gesture to open the door, and suddenly opened his eyes, shouting "Open!" as he opened his right index finger and middle finger formed a sword and pointed towards the door. I stared at the door with wide eyes, but did not move.

“Open it!” He kept shouting at the lock, his eyes almost bloodshot. He couldn’t see any shaking in the lock.

“This lock is too...” The quality is too great, even the word test won’t work, hur hur. ” The university student and I had been staring at Zhao Xuewen for five whole minutes, but Zhao Xuewen didn’t even have the slightest intention to move the lock. The university student said with a sad face, “Is there really no other way? Everyone in our village is here, you two can’t just ignore it.”

Looking through the windows, there was a pile of people, either sleeping or lying, staring at the windows with lifeless eyes. When the university students first saw the people in the room awake, they shouted loudly through the windows, telling them not to worry, they would soon rescue them out, but those who did not sleep did not even react when they saw him, even their eyes did not shift, as if they had been sucked dry of their intelligence, and were thrown here as trash. However, what’s strange is that the Longevity Hall people shut them up, and according to my previous habit, I only ate their brains after opening their Longevity Hall.

What should we do? My fellow villagers have all become idiots. Sob, sob ...” He couldn’t tell that this guy really had feelings for his fellow countrymen. “Hey, college student, don’t worry about your fellow countrymen. Worry about yourself first. Whether or not the three of us can walk out of here is still up to you.” The university student said in a low voice, “I’m the only university student in our village, three years ago when I left, our village was as lively as if it was the New Year, all of them came to my house to send me money and food.” The university student whispered, “I’m the only university student in our village, three years ago, my village was as lively as if it was the New Year’s Eve, all of them came to my house to send money and food.

Er Wa? Your name is Er Wa? ” Zhao Xuwen asked with a smile. Perhaps he felt that this name was a little funny, “Yes, I’m the second oldest at home. Everyone calls me Er Wa.” “You have a brother?” “I have an elder sister who was married a few years ago. I don’t know where she is now.” “Where did your sister marry?” “I don’t know. He left while working with someone else.” “Isn’t that called getting married? That’s called running away.” “Yes, she ran away. My sister always said that her family was too poor.” “Then what is your surname? You can’t not have a famous name, right?” “My surname is Liu. Originally, I did not have a big name, but when the Village Head told me that I could not always call him by his nickname, the second child and the second child made people laugh, so he gave me a name, called Van der Sin.” Your surname is Liu, and you are named Van der Sin? ” The village head took care of me. He was busy with everything in my house, and my father was not well, so after giving birth to my sister, he could no longer do any heavy work. The village head always came to my house to help, and he treated me and my mother well. Oh ... “Hehe, pretty good, pretty good, your surname is Fan ...

I looked at the two of them chatting happily, and in my heart, I felt admiration towards them for their calmness, what kind of situation was this, and how could they even have the mood to chat about family matters, I was not interested in his family's matters, so I stood up to walk, and wanted to see if there were any valuable clues. Suddenly, I saw a few figures walking towards us, their leader was tall and mighty, extremely similar to Lv Tianhe.

Pulling the two who were still blabbering away into a corner, I sneakily stuck out half of my head to take a look, only to see that the three of them were all carrying large bags, and inside of them were three people who were carrying large bags I didn't know what was inside, the one leading them wasn't Lv Tianhe, but rather tall and sturdy, but rather a little cumbersome. He walked slowly with the largest bag on his back, and the other two were the little shorty that I had seen previously, walking together with Lv Tianhe in the hospital, and the other one with a cold gaze.

The man with cold eyes said, "Boss' idea is definitely correct. We will just follow it, but ..." "Hehehe, although we're supposed to be in charge of these things, a few died accidentally, so there's no way around it, right? Besides, there's so much of this stuff, who would be able to detect it? Hehehe ..."

The man's laughter was as unpleasant to hear as a raven's caw, moreover his speech was very stupid, no one knew where his accent came from, but upon hearing his words, the little shorty also laughed: "Brother Shi Yuan is right, we're so bored here, I'm almost suffocating, after I finish feeding him, let's play a bit." After he finished speaking, he and the short man called Shi Yuan started laughing. The big and silly guy seemed to not know what was going on as he also followed along and laughed foolishly.

"Sun Hao, these three guys are definitely from Longevity Hall. How about we capture them?" Zhao Xuewen looked at me excitedly. It seemed like he was not going to capture three people, but three chicks instead. I said, "Brother Zhao, calm down, there are three of them, only two of us." Also... And me." The university student also came over, Zhao Xuewen hurriedly said: "Right, right, there's still him, later, you just have to delay that little shorty, Sun Hao, who are you going to deal with him?"

I simply did not know what to say to Zhao Xuewen. Even if he did not know the level of that little shorty, he should not have instigated this university student.

Record of Strange News in Northeast - C163

C163

The two of them were excitedly discussing their battle plans, beads of sweat rolling down from the students' heads. However, they still attentively listened to Zhao Xuewen's words.

"Brother Zhao, Brother Zhao, Zhao Xuewen." I called out to him twice, but he didn't seem to hear me, so I could only pat him. "Brother Zhao, be rational. This is not a joke." Zhao Xuewen said: "Sun Hao, you are too timid. If you don't dare, it doesn't matter, you can just stay here. We will go."

I really think that this guy took the wrong medicine, "Brother Zhao, you... I really don't know what to say. What are you thinking? Zhao Xuewen looked at the university student and asked, "Are you afraid?" No... "Don't be afraid." "It's good that you're not afraid. Just hold onto that short man and leave the other two to me."

I almost laughed out loud, although I'm not familiar with this guy, but seeing that he's not even thirty years old yet and his cultivation isn't considered deep, where did my confidence come from? As the two of them rubbed their palms together and were about to leave, I pulled on the undergraduate's pants and pulled back abruptly, causing him to tumble backwards. Before Zhao Xuewen could react, I used my left hand to grab onto his right hand, and pressed my thumb onto the back of his elbow forcefully, "What are you doing, aiya ..." I pulled him into my arms, put my left arm around his waist, and gripped his left arm.

I controlled him and whispered, "Brother Zhao, calm down and listen to me. We don't know the depth of those three. I've met that little shorty before. I can't do anything to him alone, so don't act rashly." "Yes, yes, yes, I know, let go of me ..." Only then did I release him. The ulnar nerve was also known as the hemorrhoid, and a slight kneading would cause excruciating pain. After I used my heavy hand to massage it, his arm was almost numb.

"It hurts, you ..." "Sigh, what are they planning to do?" Just as Zhao Xuewen was about to grumble, he suddenly saw the actions of the three people outside. The three people took out their keys to open the door, and the little shorty even muttered: "Why is there a trace of it, could it be that these things still want to escape?" The one called Shi Yuan said, "It doesn't look like it ... Don't worry about it. Let's start quickly. I can't wait any longer. "

The big guy pushed the door open, the big guy struggled a bit to push the door open, but the person inside did not seem to have any thoughts of running out. Seeing the door open, he just stared blankly at it, and then, what happened? Shi Yuan went in to look, smiling sinisterly as he went in, and grabbed onto two people in a moment. Don't look at how small he was, he had a lot of strength, holding onto a person's neck with one hand, just like carrying a little chick.

One of them was a male and the other was a female, both looking slightly energetic. Compared to the wood people inside, these two had some reaction, even after being thrown onto the ground, they still frowned and rubbed themselves, letting out sounds that were close to moans and dissatisfaction.

“How is it, these two aren’t completely stupid, they picked it out with great difficulty.” Seeing the two people’s reactions, Shi Yuan was satisfied. The little shorty said: “Mr. Shi Yuan is so arrogant, I can’t even tell, let’s play with these two.”

Hearing this, my heart sank. Seemingly aware of the meaning behind their conversation, the university student came over and asked with a frightened expression, “Who is the person that was arrested?” How could I know who it was? Shi Yuan took out a large piece of hard stuff from his bag and threw it onto the ground, it was a dead chicken, the two men on the ground immediately became excited after seeing this and pounced on it like wild beasts, the two of them started to tear at the chicken, this competition was almost no different from a wild beast, the two of them started to moan in a threatening manner, using their hands and feet to attack the man crazily, the man obviously had more strength, he bit on the chicken and then grabbed onto the woman’s hair with all his might.

Shi Yuan and the short guy were watching the show with interest, “Damn it, it’s really horny. They don’t see us as people.” Zhao Xuewen said bitterly. The university student groped his way over and asked: “What are they doing?”

“I really want to kill them.” Zhao Xuewen said as he clenched his fists until they were red, I said: “It’s fine if we can protect ourselves, but then again, those people are now completely bereft of intelligence, to put it bluntly, saving them would be useless.” As he was speaking, a sharp scream suddenly came from the other side. I looked over, and saw that the man had struggled away from the woman, and grabbed onto the woman’s hair with both hands, and pulled fiercely with all his might, and pulled down a handful of hair along with his scalp. In an instant, a large amount of bloody scalp appeared in the man’s hands, and the little shorty could not hold back anymore, and retched as he bent down to dry vomit.

As she spoke, she went up to kick the woman. The woman curled up on the ground while holding onto the wound on her head, Shi Yuan pounced on her crazily and kicked her hard, but the woman seemed to no longer have any ability to resist. No matter how hard Shi Yuan kicked her, she still did not react. “Useless thing.” After he finished speaking, he walked into the room with a kengchi sound and quickly brought out a naked person, which he threw on the ground with a “pa” sound.

That person was an old man, his hair and hair on his lower body were all gray, he was so skinny that he was practically skin and bones, his entire body was extremely weak, and looked like he was about to die at any moment. After being thrown onto the ground by Shi Yuan, his entire body trembled, and he did not even dare open his eyes.

Shi Yuan snatched the chicken from the man's hand and threw it onto the old man's body. The man was currently tearing the chicken, and after being snatched away, he immediately became very angry, but seeing the chicken being thrown onto the old man, he probably thought that the old man was going to snatch his food, and threw himself onto the old man with a loud 'peng peng peng' sound. The poor old man hit a big hole in the ground, and blood continuously flowed out, and a large portion of the chicken wet the old man's body.

"This is also a piece of trash." Shi Yuan sighed, as though he was not satisfied with this unilateral abuse. He walked forward and kicked the man who was committing violence away, took out a small bag from his pocket, opened the mouth of the old man who was almost unconscious, and poured the bag full of powder into his mouth.

Looking at the medicine bag, I immediately opened my eyes wide, and sure enough, after consuming the medicine bag, the old man slowly opened his eyes, and from the throat came out a series of low moans, his whole body was trembling, and the shaking got stronger and stronger, it seemed like the medicine bag was really effective, but the old man kept trembling, and when Shi Yuan saw the medicine bag, he walked forward and poured the rest of the medicine bag into the old man's mouth, "Old thing, your appetite is really big, ah I'll give it all to you. As he spoke, he shook his body and poured all the medicine in the bag into the old man's mouth.

Shi Yuan went up and slapped the old man's face with his big mouth, causing the old man to roll on the ground. Shi Yuan smiled sinisterly as he watched, and not long later, the medicine started to take effect, the old man painfully moaned and clawed at the ground with both of his hands, before suddenly jumping up and fighting with the man together. The old man suddenly turned from a sick cat into a fierce tiger, crazily biting and biting at the old man.

At this moment, my interest towards these three people was piqued, because I saw that the medicine Shi Yuan took out, and gave it to the old man to eat, the old man's reaction was precisely the insanity caused by the leakage of spirit energy. The old man had already lost most of his consciousness, and after taking the medicine, he would not be able to extract anything from it.

“Brother Zhao, do you want to take down those three? The credit will go to you.” I said, and Zhao Xuewen, after hearing my words, was stunned for a moment. “You were just ...” “It was just a moment ago.” “Alright, which one are you going to deal with?”

I looked at it and said, “That little shorty knows some evil arts and can control an external body. He’ll give it to you, and the other two will give it to me.” Zhao Xuewen heard and said, “Other than that, I will not take advantage of you. I will pass the big guy to you and the other two to me. As we were about to go out, the student said, “What about me?” “Protect yourself,” I said.

No wonder it smelled like the stench of rats, but it was really useful, neither too heavy nor too heavy, and it was really convenient. Zhao Xuewen put his two hands together, thumb and forefinger together as he muttered to himself, and then suddenly drank a mouthful of the God Slaying Token with his eyes wide open, “You have my hair ... Great Sage Xiao Lin [1] subjugated demons from the lower realms. She was extremely anxious.”

The voice was not heard by the ears, but was suddenly felt by the aura. He was chanting the Serene Great Sage’s holiness technique, which was a orthodox mantra that belonged to the Daoist sect, and it was different from inviting the Evil God’s upper body. Although the Evil God’s upper body can quickly increase one’s strength in a short period of time, it has a huge impact on the body, and the Evil God’s negative energy would spread to the people who request for the gods.

Record of Strange News in Northeast - C164

C164

“Phew ... Phew ... Phew ...” Zhao Xuewen continuously took in a deep breath. It seemed like the pressure on his upper body was too great, and now his face was turning redder and redder, as if he was having a fever.

I was about to ask if he was alright when he suddenly stood up and walked outside. I hastily followed him. The sudden appearance of the both of us shocked the three people outside, causing the big bloke

to not be able to speak quickly, "You guys ..." "What kind of person is it?" Shi Yuan quickly calmed himself down and said gloomily: "Who cares who he is, we'll catch him first."

Zhao Xuewen's face was flushed red and his eyes were staring. When the big sized guy walked over, Zhao Xuewen suddenly extended a finger out of his right hand and pointed at the big guy's face, forcing out a word from his mouth, "You dare?"

For a moment, my mind was filled with the word 'dare'. The big bloke was obviously intimidated, and didn't dare to take a step forward. His pupils slowly dilated, his mouth opened wide, and he looked like a fool.

The short man shouted, "Old Zhong, Old Zhong, what's wrong?" He recognized me and pointed at me: "It's you, kid. You're lucky you didn't kill them that day. Just you wait, Shi Yuan, don't let them run away, I'll go look for someone right now." After saying that, he turned and ran back. Of course, I wouldn't let him escape, the Fox Blood took advantage of this and swung out, its two legs were as easy as stepping on cotton. Just as it was about to chase him, Zhao Xuewen suddenly shouted: "Come back!"

Although it was a shout, he actually only spoke normally, but his voice had just sounded out from his mouth, it was as if his voice had been amplified by a loudspeaker. After shouting, Zhao Xuewen's fingers, which were like swords, straightened up to his face, and the palm of his left hand was facing forward, the back of his right hand was facing forward, and his mouth was trembling as he closed his eyes. As the trembling of his mouth spread throughout his entire head, both his head and neck slowly trembled, and suddenly, with a stuffy groan, his mouth squeezed out a "Go!" "Aiya ..." The little man fell to the ground, moaning.

Shi Yuan was extremely shocked when he saw this scene. He kept muttering to himself, "Naras first ... Who are you? Why are you here?" I said, "You must be someone from the Longevity Hall. We are ..." Without waiting for me to finish speaking, Zhao Xuewen suddenly opened his eyes and said hatefully: "The crime cannot be pardoned, according to the rules, you shall be punished." A sword fingers on his right hand pierced through the air, accompanied by a grunt from him, I felt something shooting towards Shi Yuan through the sword fingers on his right hand. Shi Yuan was shocked by Zhao Xuewen's actions, and quickly reacted as he pulled out a Volcano Blade from his waist, grabbing it tightly with both hands as he looked at Zhao Xuewen nervously.

I was also shocked by Zhao Xuewen's movements. When I looked at him again, I saw that he had been maintaining this posture the entire time, but the expression on his face kept changing, and his facial features twitched and twisted. After a while, that little shorty crawled over, but Zhao Xuewen and Shi Yuan still maintained the same posture.

I clearly felt an energy shot out from Zhao Xuewen's fingers to Shi Yuan just now, but looking at it now, Zhao Xuewen's constipated expression made me more worried than Shi Yuan. Shi Yuan nervously holding onto the blade was obviously frightened by Zhao Xuewen's actions.

I looked at Zhao Xuewen, whose expression looked like he had been frozen. I pushed him and said, "Brother Zhao, how much longer are you going to remain stiff? He didn't move at all. I slapped him hard on the shoulder, and all of a sudden, he collapsed to the ground, as if he had lost his breath. I could feel that the Qi in his body was rapidly dissipating, and for some reason, I could see that the power he borrowed from the True God was returning.

"Brother Zhao, wake up." I patted his face. The qi was flowing too fast, so I was afraid that it would affect his body. I slowly helped him up. Suddenly, I felt that he had grown taller. "Brother Zhao, how did you ..." Just as I asked him what was wrong, his eyes swept over me, and I immediately felt that something was wrong. It was a very subtle feeling, as if the person in front of me right now was still him.

His temperament was completely different, and he stood very straight, as if he had suddenly grown a lot taller. In fact, he wasn't, but was the result of the oppression he exuded. When his eyes swept over me, I felt a flash of electricity pass over me, and I couldn't help but stare into his eyes.

This kind of strength was strong to the point that it slightly changed his appearance. The corners of Zhao Xuewen's eyes were raised, and he seemed to be very energetic, but now they were drooping down, as if there was an old man behind this leather bag of his.

I couldn't help but swallow a mouthful of saliva. His gaze looked at me indifferently and that glance alone gave me the illusion of being surrounded by a tall mountain or a sea. I didn't even dare to move my feet, afraid that one of my actions would anger the person in front of me.

With just a simple glance, it already brought me such great pressure. I didn't dare imagine which god Zhao Xuewen invited, and in my heart, there wasn't the slightest bit of frivolity. Even if one knew that it was a god, his dignity didn't decrease at all, and very quickly, sweat dripped down his forehead.

He slowly looked forward, and Shi Yuan and the little shorty were also staring nervously at the two of them. Only after sensing that Zhao Xuewen was not looking at me, did I dare to raise my head, and only saw that his expression was solemn and he did not look at me, which made me feel a little more relaxed. Suddenly, Zhao Xuewen slumped against me, and I hurriedly supported him, "Brother Zhao, wake up."

Really, why did he faint at this moment. I placed him on the ground in a flurry, and when Shi Yuan and the other two saw Zhao Xuewen's state, they immediately revealed pleased smiles, "Very good, why did his spirit disappear just now, hahaha, Huan Zi, don't you think these two guys are funny?" Shi Yuan laughed at us wantonly. The short man called Huan Zi wiped his sweat and said, "You scared me to death. Brother Shi Yuan, you should kill him while he is still alive."

Shi Yuan laughed and walked over to me. I placed myself in front of Zhao Xuewen, and slowly extended my hand to his waist, and touched the handle of the whip, thinking to myself that under the current situation, I can only quickly kill one of them before dealing with the rest.

The little shorty Huan Zi laughed wickedly behind me, as if he really hoped to see Shi Yuan slash at me. Wait a moment, he didn't seem to remind Shi Yuan about my matter, could it be that he is that confident in Shi Yuan, or ... Thinking about this, I couldn't help but laugh, these two people were obviously not of the same heart, I don't know if it was Shi Yuan who was foolish, or if Huan Zi was just too smart, and wanted to use me to get rid of Shi Yuan? Or wait until Shi Yuan and I fight until both sides suffer.

"Brat, what are you looking at?" Shi Yuan raised his blade and walked over. Looking at him, it seemed that he was unsatisfied with my smile. I said: "Shi Yuan, you are a citizen of Eastern Pill Kingdom right?"

He was obviously stunned for a moment before saying, "How do you know ..." "So what? You're already going to die under my blade." I said, "Why did you come all the way here?" Shi Yuan said: Ha, telling you is fine, since you are a dying person, I have come here with my father's will, and this, will be the place for me to display my talent, and I will also obtain the rights to eternal life here, I am the chosen one, hehe, that is not something you can find.

I said, "What do you mean by eternal life, what is that? What is your father's will?" Shi Yuan said: "Idiot, for a person like you who is sitting and waiting for death, you do not have the qualifications to steal such a high level secret. That is Tian Ji ..." Saying this, his face revealed an expression of longing.

"Brother Shi Yuan, stop wasting time with him. Quickly kill him." Huan Zi reminded her from behind. She turned her head and said, "I know ..." He did not say the next word, because I had already activated my Fox Blood s the moment he turned his head, and suddenly lashed out with the whip. In terms of strength, I lashed out at his ear, and with a crisp 'pa' sound, Shi Yuan covered his ear, and collapsed onto the ground with a look of disbelief. Just with this, I laughed disdainfully. I rubbed my hands together and said to Huan Zi: "We should settle our debts now, right?"

Huan Zi slapped his thigh and sighed: "Aiyah, this idiot ... Why are you so stupid? Aiya, aiya, you're really pissing me off ... What's the use of having you... "Oh my god ..." From the looks of him, I almost suspected that he had lost his mind. Right now, there was no one around him, and it seemed that he also had nothing in his hands, like the last time we met in the hospital, when he had been prepared to become a few steel pipes and an iron pot, and now that he was alone, I didn't know why he still hadn't run away, but he was still in the mood to thump his chest and stomp his feet. I sneered and slowly walked toward him with the whip in my hand, having thought of a hundred ways to deal with him.

I carefully walked in front of him until I was two meters away from him. What surprised me was that Huan Zi was still beating his chest and stomping his feet nonstop, and his mumbling was getting more and more indistinct, his expression extremely complicated. His movements were extremely small, but very quick.

Without waiting for me to finish speaking, a wave of evil wind assaulted me from the back of my head. I hurriedly rolled to the left, barely dodging the wind, and looked up, only to see the big sized man who was knocked out by Zhao Xuewen earlier standing up angrily. The evil wind was due to his fist.

"Hehehe, do you take me for an idiot?" Huan Zi laughed sinisterly, at the same time, his fingers moved nonstop, the big sized man started to move according to his movements, could it be that the big sized man was his incarnation?

It would be too much trouble if this burly man was really his external body avatar. Because someone had planted someone else's will in him and commanded him, such an avatar did not have the ability to think independently. In other words, he was currently no different from a few steel pipes or tree branches.

The human body is clearly much more nimble than other dead beings, at least there are joints and muscles, this way of manipulating it is like controlling my own body. The big man slowly clenched his fist, his five thick fingers slowly curled into a ball, and I could even hear the crisp sound of pressure coming from them. In the next second, this big man's fist swung towards my head.

It was so fast, and because of the slow movement of his fist, I did not expect his next move to be so fast. Luckily, the Fox Blood was still boiling over and barely managed to dodge this strike. The big sized man rushed over like a mad bull. Under Huan Zi's control, every part of his body became a deadly weapon, because he did not know pain. Even if he knew pain, and could not control the pain, he could only endure it.

I took advantage of the moment to kick him in the jaw, which was a fatal blow to the jaw and would make him faint from the blow. I used all my strength to kick him squarely in the jaw, but he didn't react at all, and as soon as I hit the ground, he fell back and smashed his head at me. I didn't expect him to do this.

Shaking my head a bit more sober, suddenly a big hand grabbed my hair, followed by a big fist heavily smashing into my face, immediately sinking into darkness, with a gurgle, Fox Blood gushed out of my nose, and it took a while for me to get up from the ground.

I opened my eyes and touched my nose. There wasn't any blood. Was it an illusion? Where was it? Looking at the dark sky above, I frowned and stood up. Suddenly, someone lifted my leg. Then, before I could open my mouth to ask anything, I was thrown out and slammed into the wall.

In reality, the attack of this burly man was not enough to make me lose my ability to retaliate, it was just that I had been thinking about how to strike down the person behind him. As the one who cast the skill, Huan Zi clearly understood his weakness, so he precisely controlled this burly man and protected himself well.

It looks like it will be difficult for me to find Huan Zi after passing through this clone. I squinted and looked at the man who was taller than me, thinking to myself, Since you don't know pain, and you don't know how to dodge, then I will just smash you into pieces.

The Fox Blood was secretly excited to the limit, its hair standing up straight. Fortunately, my hair was short, and I saw the difference in the big sized man's eyes, because at that moment, his eyes were no longer those simple and honest eyes, but filled with an evil smile. It was obvious that it was the eyes of the person behind him.

I gestured to him, and he came slowly, and as I shot forward, he grinned and spread his arms wide to give me a bear hug, and I ducked under the hug and shot up, the middle and index fingers of my right hand jabbing him in the eye, and with all my strength, he lost both his eyes.

His eyes were the only part of the connection between the two of them. I circled around the person in front of me and ran towards Huan Zi, and just as I passed the big guy's body, the big guy suddenly hugged me, and Huan Zi forced himself to open one eye as he stared at me closely: "Your father will die with you today."

The big man's body suddenly trembled, and the arms that were hugging me gradually became thicker. I could even feel the violent trembling that came from under his muscles, and just when I was curious, he gave a muffled cry as he exerted his strength in his arms, immediately choking me to the point that I couldn't breathe.

As his strength grew stronger and stronger, I mustered all of the Fox Bloods on my body to just barely contend against him. As his strength grew stronger, I gradually began to be unable to hold on, and under his immense pressure, the bones and joints on my body made light sounds, and the bones in my chest and arms almost broke. I didn't know where that big guy got this strength from, but if this went on, I would be strangled to death.

I saw blood slowly flowing out of Huan Zi's eyes, I was afraid that he was completely overtaxing himself. If I could hold on to it, then I would still have a sliver of hope, I told myself, but the Fox Blood in my body was slowly retreating, I felt my body becoming weaker and weaker, and my breathing becoming more and more difficult. Could it be that I am really going to die in this place that no one knows about, because I was afraid that my master would not find me here?

Just when I was certain that I was about to die, a 'putong' sound suddenly rang out and the pressure on my body disappeared. The burly man who was holding me down fell to the ground.

Raising my head, I saw the university student holding onto a rock and staring blankly at me. There was a short man with blood dripping from his head. I forced a smile as I supported myself up and walked over, "Can your eyes see it? Then come over here."

It was obvious that he was scared. When he saw me coming over, he threw the stone away and said in a sobbing tone, "He" He's not dead, is he?" Pointing at Huan Zi who was lying on the ground, I said,

“Why are you still worried that he won’t die?” The college student said, “I killed someone... I killed...”
“What should I do ...” He had a face full of panic. I leaned over and sighed at Huan Zi’s breathing, at the same time, a little weak breathing. “You, smash him to death.”

The university student didn’t seem to understand what I said. He just looked at me and said, “Ah!” I said, “My two arms are useless now. I can’t even hold the stone. Just hit him a few more times, just like how I did just now.” After hearing my words, the university student’s legs gave way and he sat back down on the floor, saying, “I don’t dare. You’re looking for someone else. I don’t dare to kill.”

I replied, “Why are you crying? He’s a bad person. The reason why you killed him is to eliminate all harm. Hurry!” Huan Zi would definitely kill both of us without any hesitation if he wakes up. I could only squeeze out some patience, “Don’t worry, there’s only you and me here, if worst comes to worst, I’ll just say that I killed him, so hurry up and make a move, otherwise, he’ll definitely kill both of us.” The university student, who was intimidated by me, picked up the rock hesitantly. After a few days, his legs trembled as he walked towards Huan Zi, walking to his side. When his hands loosened his grip, the rock had fallen on Huan Zi’s head.

I dragged my body, which was covered in pain, towards Zhao Xuewen. At this moment, his mouth was already frothing, and I didn’t know why, but just as I was struggling to carry Zhao Xuewen, the university student behind me let out a scream of panic. Just as I was about to turn around, my left knee felt a sharp pain, and just as I was about to stand up, Zhao Xuewen, who was still on top of me, smashed heavily onto my body.

“Hehehe, you idiot, how could you be so careless? Hehehe, your father is fine ...” It was unknown when Huan Zi stood up, but the pain in his knee caused him to kick me, causing me to become extremely weak. I looked at the university student for help, but he was so scared that his entire body was trembling, he did not even know how to run or hide, and just stood there in a daze.

Seeing that I didn’t have the strength to fight back, or perhaps the way he looked at me was too pitiful and too tragic, he tremblingly said, “I didn’t kill you just now, so you can’t kill us now either.” Huan Zi was startled. He turned his head to look at him, then looked at me and said, “Where did this guy come from ... “You were the one who hit me, right? Good boy, you actually dared to hit me.” He walked over to him.

It was unknown what kind of demonic method Huan Zi had used, but at the moment, his steps were weak and weak, but it was still possible to kill both of us. The university student watched him approach step by step, fearfully curled up into a ball, like a little chick trembling without any signs of resistance.

Huan Zi had overdrawn his body, adding that he was short, he was basically not his match. But he was so scared that I could only rely on myself, if I were to also sit here and wait for death to come, the three of us would die here.

Gritting my teeth, I tried to activate the Fox Blood. But no matter how I called for it, the Fox Blood in my body would only stay in my Dantian and would not move, maybe it would consume too much energy, and activating it again would cause it to run out, sigh, after all, it isn't my own thing, in these thousand years the Fox Blood has gained consciousness in my body, it realised that the host is also mine, and it is on the verge of death, not willing to help me anymore. Thinking of this, I bitterly smiled.

Huan Zi walked over, swaying on top of the university student. He stretched out his dried up claws and grabbed at the university student's neck, wanting to strangle him to death. At this moment, even the weakest would resist, so even with their instincts, the university student started to struggle against him.

Seeing that he could not kill the student with a pinch, Huan Zi grabbed the man's neck with one hand and slapped him with the other. But now, he was extremely weak, so much so that he could not even slap him, causing the university student to wake up a little from his slumber. Maybe he could tell that the person who hit him was also that weak, causing him to feel a little less fear.

Taking advantage of when Huan Zi was not focusing on me, I secretly took a breath of air and concentrated my energy, taking out the five ghost runes given to me by the First Martial Uncle at my chest. This is my last killing move, I placed the five ghost runes on the palms of my hands, and used the last bit of Yang Qi that I had to use to activate it. Slowly, my body became colder and colder, and all of the Yang Qi in my body were concentrated in between my two hands.

C166

The Five Devils Talisman in my hand vibrated more and more violently. I felt something was summoned by the talisman and couldn't help but be ecstatic. The Five Devils being here would be of no concern at all.

Suppressing my pounding heart, I swallowed my saliva and chanted the incantations of the Five Devils, the incantations only allowed the Five Devils to draw them up, the incantations let them know who had the hands of the Five Devils, and who should obey them, I often chanted the incantations, and although the incantations were not very complicated, but it required mental strength to drive them to an effect, my body was extremely weak, and I was barely able to calm my mind, my strength was already too small, so even though the Five Devils' incantations rustled me, I could not feel any of the five Devils in my hands.

He cursed himself in his heart for being disappointing, but he did not dare to let out any complaints or anger, because this kind of extreme emotion could only affect his recently calmed mind. Right now, the only option was to continuously chant this incantation, hoping that the Five Devils would arrive soon. When Huan Zi fought with the university students, Huan Zi ignored the situation and bit the students' ears with his teeth, while the university students wailed in pain as he slapped Huan Zi's face with his hands. That kind of ridiculous appearance, but I really could not laugh at all, because I did not even have the strength to laugh.

Suddenly, a gust of cold wind blew and I was overjoyed. I was finally able to completely relax and relax. My body collapsed with a 'putong' sound and a floating voice sounded from behind me. "You're looking for us?"

I didn't even turn my head and said, "See those two people in front of us? Kill the short one. Let's go." Just as I finished speaking, five gusts of cold wind blew behind me, I did not have the strength to open my Heaven's Eyes, but I knew that the five ghosts' efficiency was not to be worried, although I was extremely weak, and the five ghosts that were summoned were just ordinary ghosts that could not have too much power, but it was still more than enough to deal with Huan Zi.

Sure enough, Huan Zi stopped biting the university students and turned his head to look around in fear. I sneered, not knowing if he could see the Five Devils, if only he could, and at least understand why he died.

Both of Huan Zi's arms were stretched out unnaturally, he struggled with all he had, but he couldn't resist it at all. He was slowly lifted up into the air, his feet left the ground, and his entire body formed the word "big", the distance between his arms opened up to the side became larger and larger, all the way to his limit, the two of his arms were almost pressed behind him, he shouted and cried, the sound

was extremely unpleasant to the ears, in the next second his voice came to an abrupt stop. His chin was pressed down unnaturally, his face slowly turned red, four slender red marks appeared on his neck.

It looks like he's dead, the Five Wraiths might be worried that he's not completely dead. I saw Huan Zi's body sway a few times in the air before falling to the ground with a thump.

I bitterly smiled, just like last time, I will use my life to pay for it. I pointed at my own head, the meaning was obvious, the Five Devils weren't courteous, I immediately felt five cold hands on my head, my body completely relaxed, I let the Five Devils absorb my life.

Life is equivalent to a lifetime, moreover when making a deal with the Five Devils, one would have to pay more than just a little bit of lifespan, not just in heavenly calculations, but in annual calculations. This time, the Five Devils used less yin qi, so presumably, they didn't need too much lifespan, one or two years would be enough, but lifespan was extremely important to anyone. Not to mention one or two years, even one or two days was worth anything in exchange for something.

Five minutes later, the feeling in my head disappeared and the yin aura around me dissipated slowly. Seems like the Five Devils left, I heaved a long sigh, however, I was rather envious of Zhao Xuewen who was lying on the floor, and the university students whose heads were filled with blood. I stood up with difficulty and walked over to the shivering university students and said, "Student, are you alright?"

His ears were almost bitten off by Huan Zi, his face was covered in blood, he was curled up, and even when I spoke, he ignored me. Seems like he was really scared, I used my foot to lightly tap him, and only then did he turn his head, and his gaze was unfocused as he pointed at Huan Zi's corpse on the ground and said: "He ... Is he dead? "

"Don't worry," I said, "I'm completely dead." He asked, "Who killed him?" I said, "I killed him! College student, where did all these questions come from?" He said, "No, you didn't kill him. You've been sitting there all this time, and he..." "He suddenly floated up and then died ..."

Looking at his frightened expression, I thought to myself, this guy's desire to know more is really strong, "College student, don't ask so much, hurry up and carry Zhao Xuewen, I really don't have any strength left." He still stayed on the ground and whispered, "I'm not a university student, I'm Fan Dexin. Are you a good person or a bad person, I don't want to go." I tried my best to give him a kick, but it didn't hurt, but he reacted really fast. He shouted out loud, "Are you trying to kill me? I saw you kill someone, and you're afraid of me going out to talk about it, so you're going to kill me and bury my body. Nobody knows what you did in this desolate place."

I said, "Cut the crap, hurry up and carry Zhao Xuewen and follow me." After being kicked by me, he didn't have any more questions, he simply carried Zhao Xuewen on his back. After I kicked him, his eyes started to shine like stars, and he had to lean against the wall to rest, Fan Dexin carried Zhao Xuewen on his back and secretly looked at me, seeing that I wasn't moving, I said, "Wait, I really can't move." I also saw the three corpses on the ground, commanding Fan Dexin to throw the corpses to a remote place, as well as two naked men who looked like idiots. Just now, Huan Zi and the others were making these two naked men fight, the old man who looked like he was going to die was twitching on the ground, while the other middle-aged man's face was filled with stupidity, completely losing his bravery while fighting.

Only after seeing the both of them did I remember that Huan Zi and Shi Yuan still had medicines on them, and I ordered Fan Dexin to look for them, only when Fan Dexin said that he did not want to do so did I give him a kick again. He was extremely unwilling to go, and after searching for a long time, he finally found a bag of medicines that was the same size as Shi Yuan's bag, but there were not many pills left inside, and I cursed in my heart. Did they treat these life-threatening medicines as snacks?

But this was also Senior Brother Ju E's hope, and thinking about this, I felt that it wasn't really a big deal that I almost lost my life just now. After instructing Fan Dexin to leave, he pointed at the naked old man and said with a trembling voice: "He seems to be my Third Elder."

Fan Dexin walked forward and looked at the naked old man carefully. If one were to say that nearness was really life-threatening, he would probably put his face close to the old man's face, and those who did not know would think that he wanted to kiss. After looking for a long time, Fan Dexin said with certainty: "This is my Third Elder, I want to take him away."

I said, "Dexin, let's not talk about whether we can leave this place or not. Even if we can leave, it would be useless for you to bring him out. He has no intelligence at all. He can't even be compared to a fool. It's useless even if you bring him out." Fan Dexin lowered his head and stubbornly said: "Everyone in our village is here, I can't leave. My parents are definitely here as well, I want to find them." I didn't know whether to laugh or cry when I saw his stubborn ass. But then again, who would've thought that his parents wouldn't just leave like that? Forget it, understand?

There were a few rows of houses here. After Fan Dexin carried the old man in, he started to look around one by one, but other than the rooms here, all the other rooms were locked, he could only look in through the window, but he couldn't clearly see anything. It took him a long time to see everything.

I asked him if the other middle-aged man was a person from their village, and he said no, their village wasn't big, and he recognized practically everyone from the village. If that's the case, then besides the people from their village, there was still someone else from the village, and I wondered where the Longevity Hall had grabbed them.

It's not like other rooms, where the smell of feces and piss could be smelled from the windows. However, when I looked around at the large pile of people with white flowers, I still felt a little uncomfortable, Fan Dexin had found quite a few familiar people here, some random aunties had found a large pile of people, and looking at the stupefied expressions of these people, Fan Dexin's eyes filled with tears of regret.

I said, "College student, what are you crying for?" Fan Dexin said: "Do you still have a bit of humanity left in you? If all of you villagers had turned into idiots, how could you still be so calm?" I said, "I only know that crying won't solve the problem. It will only make my heart even more agitated. It's better to think of a way. You can just cry. Crying and crying will solve everything in your village. Then, let's go out together. How nice, right?" Fan Dexin ignored me, and only hugged his three great masters as he silently shed two tears.

I quietly adjusted my body. Fox Blood s have a special characteristic, it is that their body recovers very quickly, I have felt it many times, and this time it was no exception, after resting here for less than an hour, I could already move normally, and after a while, my body's injuries had already healed. I tried to activate the Fox Blood, and sure enough, I was able to use the Fox Blood normally.

"Cough, cough, cough ..." Accompanied by a burst of coughing, Zhao Xuewen slowly opened his eyes and asked in confusion: "Where are we?" "We're still here," I said. "Warm up in the house. How are you?" Just as he was about to sit up, he frowned and lay back down. "I remember that before I fainted, I seemed to ..."

I said, "Please possess the divine spirit. But after that, for some reason, you fell. Wipe your mouth." He wiped the white foam on the corner of his mouth and said with a stern expression: "Sun Hao, I have a favor to ask of you." I said, "Go ahead." He said, "I can't get out. I asked the True God to possess my body, but in the end, I ignored my own abilities and forcefully used the True God's power to suppress that person. That person called ... I think I will die in a few hours, and at that time, I won't bother you to bring my corpse out. You help me bring a message to my master, tell him that his master doesn't forget to have me as his disciple."

I saw that he didn't want to joke around, so I nodded my head. In my heart, I was a little suspicious, why did he use the power of a god to have such a huge backlash? I couldn't understand, so he asked me:

“That Shi Yuan, how is he?” I replied, “I don’t know. You pointed a finger at him and he fainted. He no longer breathed. He was probably dead.”

Record of Strange News in Northeast - C167

C167

Zhao Xuewen continued: “Also, I have something else to ask of you. My card is in my home’s safe, the password for the safe is ...”

I hastily interrupted him, “Stop, I don’t want to know your safe’s password. If you lose it, blame me.” Zhao Xuewen laughed and said: What are you missing, if I die no one will know the password. Right, you can take it as a good thing, you took out the card in the cupboard, which contained my salary for all these years, there are a lot of it inside, it’s a pity that it’s lost, if you give all the money to my master, at his age, my parents don’t need my control, furthermore, I can’t do anything about it ...

After listening to him ramble on for a long time, I almost got tired of it. “Big brother, you treat me like a filial son. You must be fine. Don’t worry. You really don’t know what you’re thinking by saying your last words so early.” Actually, I was also curious in my heart. Since this person was already certain that I was about to die, how could he still be so calm? It was also because of his calmness that I didn’t take his words seriously.

Fan Dexin stayed in the house and reminisced about the old days with his fellow villagers. Zhao Xuewen said that he wanted to see the corpses of Shi Yuan and the rest, so maybe the key was on them, so we really did find a bunch of keys on Huan Zi’s body. We really don’t know why Fan Dexin didn’t find it just now, but this guy probably really learned how to be stupid.

However, we found a question. Three bodies were missing one, and Shi Yuan’s body was originally pressed under the big sized one, but now there isn’t any, if Zhao Xuewen didn’t search the big sized one’s body, I really wouldn’t have found it. The two of us stared at each other, as if trying to get an answer from each other.

“What happened? Didn’t you say that everything was here?” I personally saw Fan Dexin put it here. ” Furthermore, the big sized corpse still held onto that posture, and saying that it wasn’t right for others to take Shi Yuan’s corpse out, suddenly I felt cold sweat trickling down my back, could it be that this fellow had some kind of evil demon technique that allowed him to sink into the ground?

This fact was really out of my imagination, it was really strange. Both of us pondered for a long time, but still couldn't come to a conclusion. Zhao Xuewen sighed: "If he hadn't died, then my crime would have been reduced a little." So at that time, Zhao Xuewen didn't care about it at all, and took advantage of the fact that the power of the True God hadn't faded yet, and used the True God's power to change Shi Yuan's fate. It could be said that the result of using the True God's power to cut off Shi Yuan's life was not certain, and that Zhao Xuewen's fate would be for him to die on the spot, but if it's like this, Zhao Xuewen's fate would be very miserable. The True God's use of strength is temporary, and there are some things where the True God definitely wouldn't permit a person to change their fate.

The two of them took their keys and left. Before Zhao Xuewen left, he carried some dirt and covered the heads of the remaining two people. In his words, this could be considered as doing a good deed.

The innermost room had some rice noodles, which should be the place for Huan Zi and the other two. After taking a few bites, it could be considered as not having caused our stomachs to feel too much discomfort. After all, we had already been here for a long time, and had gone through such a physically exhausting activity.

We put the dead chickens and ducks in sacks and carried them out to the demented villagers, but no matter which room we opened, there was no reaction from the people inside, and occasionally a few of the slightly more energetic ones moved, but that was good, too, so that I wouldn't have to see some bloody scenes.

Fan Dexin said that he would go with us. After all, the people who were with him here isn't a long term plan, we should find a way out as soon as possible.

It was getting dark, and the three of us were walking slowly in the dim light of the night. The road ahead of us was a little smoother, and after a while we could hear the clanging of metal in front of us.

There were also people shouting. There were quite a few people listening to the sounds, so we secretly took extra care. Could it be that this was the base of Longevity Hall, and there were only three of us?

"Tell me, what are they doing here in such a remote place?" Zhao Xuewen asked. "Who knows? You two, don't leave me. I'm so scared." Fan Dexin said with a worried expression.

After walking forward for a while, there was a large pit in front of them, causing Fan Dexin to hide in a corner. The two of us went over and laid on the side of the pit, and when we looked down, we were so shocked that we almost shouted out loud.

Zhao Xuewen's mouth was wide open, I immediately covered his mouth with my hands, he nervously pointed downwards. This pit is extremely huge, there are many naked people digging inside, and there are also people carrying baskets out to transport things, the things inside the pit seem to be very heavy, and every step they took was extremely difficult.

"Damn, the people from Longevity Hall are digging here, but aren't these workers too impulsive? They are so excited after digging that they don't even have clothes to wear." Zhao Xuewen muttered softly, and I said, "Look carefully, those people have the same lifeless expression, similar to the people in Fan Dexin's village. Looks like they are also people who have their wits sucked dry, otherwise, how could so many people be commanded by these people?" "Why do these people still know how to move? Wouldn't it be foolish to just suck them dry?" They have a special kind of medicine. This medicine can stimulate the activity of spiritual energy, so I presume these people rely on medicine to maintain their body. "

Maybe one of the workers was old, as he walked and collapsed to the ground with a thump. When the nearby thugs saw him, they scolded him and walked over and whipped him, either because the whip was too rough or because his skin was too thin, with a single lash, it left a trail of blood. Zhao Xuewen and I frowned, but that person ignored us and continued to spank him, but the person on the ground did not seem to have any strength left, not even responding to such a fierce lash.

"F * ck, this bunch of people are really abnormal, they don't treat people as people." Zhao Xuewen said bitterly, the thug saw that the man could not get up anymore, so he shouted for someone to carry the unconscious man away, and threw him out like throwing trash.

Sun Hao, are you going to do it?" Zhao Xuewen asked with bright and spirited eyes. I said, "What are you doing?" "In any case, we also killed three people before, so we don't need these guys anymore." "You really are bold." "In any case, I'm already a dying man, so I'm not afraid." "Hehe, I'm not going to die even though you're about to die. I think it's better if you hide somewhere and run away first." "Why are you so timid?" "This is not being timid, this is being cautious.

The two of us argued for a while, but when Zhao Xuewen saw that I was not going, he could only stare without speaking. Right at this moment, a figure quickly ran out and squatted beside a small pile of soil under the big pit, "Who is that person ... Damn, isn't that Fan Dexin? "

I squinted my eyes, it really is him, my heart immediately sank, didn't this guy hide himself, why did he run out himself and remain squatting there without moving, what is he doing, what is he doing, what is he looking at, this guy is actually convenient, I really don't know what to say to this guy, when are you not convenient, just right at this time, he ran all the way to my eyes.

I can only pray that they don't see Fan Dexin. But Fan Dexin seems to have some sort of constipation, as he just squatted there motionlessly, ignoring the fact that the nearest thug was only a few meters away from him. My heart was thumping wildly.

"What did he go out to do, my mother... If you pull it up, it won't end well." Zhao Xuewen complained. The two of us were extremely nervous up there, thinking about what to do, and even if we weren't discovered now, he wouldn't be able to continue squatting there, no matter how hard I tried. Just as my imagination was running wild, my heart suddenly tightened, and a strong feeling of unease came over me.

Zhao Xuewen was still looking at Fan Dexin complaining, I slowly turned my head to look behind, but my neck suddenly stiffened, and even my breathing stopped.

At some point, there were seven or eight people standing behind me. All of them had no expression on their faces as they looked at the two of us naked.

I didn't even blink as I kept saying to myself, "It's over, it's really over." However, those people just stared at me indifferently. They didn't seem like they were looking at an enemy.

"Ai ai, what are you looking at ..." Zhao Xuewen patted me. Seeing that I had not turned around, he turned his head to ask me, but just as he was about to look at me, he became quiet as well. Out of the corner of his eyes, I saw that his mouth was opened wide in an exaggerated manner.

It was only after a gust of wind blew past that I realized we had been looking at each other like this for a few seconds. But to me, it felt like an hour had passed, and those seven people were looking at us, and then, they continued to walk towards us. I heard Zhao Xuewen, who was beside us, take a long breath, but neither of us took the initiative to attack.

We just lay there on the ground and watched them come, a group of seven men and women, all skinny, their eyes not dull but not full of spirit, moving slowly towards us, and although they didn't feel the killing intent, their actions startled me. What were they trying to do?

When these seven people walked to our side without any intention to stop, I kept asking myself in my heart whether I should make a move or not. Just when I was hesitating whether I should make a move, the seven of them had already walked past us, these seven people were completely naked, their feet were covered in mud, and they stomped on my body multiple times. Zhao Xuewen was even more miserable, at least two of their stomps landed on his face.

Record of Strange News in Northeast - C168

C168

C168

I wanted to laugh, but I didn't dare to. The seven men jumped past us and jumped straight into the pit, which was five or six meters away from the bottom. The seven jumped straight down.

"Pah pah pah ..." These guys are too much. They just stepped on me with their feet and the smell of their feet came from their mouths. " Zhao Xuewen's face turned bitter as he retched, "Seems like, these seven are workers too." When the seven of them jumped down, they fell onto the ground, the hole was filled with stones, they were all injured from the fall, their wounds were also bleeding, and these seven people acted as though they did not feel anything, so they kept walking forward without hesitating. The helpers on Longevity Hall brandished their whips and scolded them, and the seven of them quickly joined the mining effort.

Fan Dexin seemed to have finished his convenience as he touched his pocket, which had nothing in it. This brat could also be considered to be casual, he just pulled up his pants and walked out, and when the two of us saw him going out, we hurriedly waved at him, but it was basically useless. Firstly, the two of us did not dare to reveal ourselves, and we could only slightly wave our hands.

No matter how bad his eyes were, he could see so many people. He was stunned for a moment before he turned and ran away in a hurry. He had only taken two steps when he slipped and fell.

“Who is it?” This string of actions and sounds finally attracted the attention of the people from Longevity Hall, and a guy with a black and strong beard walked over while carrying a whip. Fan Dexin realized that it was dangerous, and just as he was about to get up and run away, he suddenly fell down again. He held his feet in pain, and from the looks of it, his ankle had been twisted again.

wailed in pain. The big bearded man grabbed Fan Dexin by the collar of his neck and walked back to where Fan Dexin was standing, but Fan Dexin’s head was injured and his feet were also injured. The big bearded man threw him onto the ground and Fan Dexin’s pants were all wet.

used one hand to cover his head and the other hand to cover his ankle, looking around him in a daze. The unknown liquid flowed down the leg of his pants, without saying a word, Big Beard first lashed him with two whips, causing Fan Dexin to scream in pain, the current him is extremely miserable, Zhao Xuewen and I were so resentful and pitiful towards him, but after the big bearded man gave him two whips, we asked, “Who are you, what are you doing?”

Fan Dexin was so scared that he did not know how to answer, he squinted his eyes and stared ahead, as though he wanted to see who was hitting him. The big bearded man saw that he did not say anything, and continued to whip him, one of the whips hit his face, and suddenly a line of blood appeared on it. The surrounding guards saw that he was surrounded, the big bearded man nodded and the few of them started to punch and kick him, and only after a while did they scatter, Fan Dexin was already on his last breath.

“Sigh, we have to save him. I think he’s going to die.” Zhao Xuewen said as I pulled him back and said, “Look at the sides.” The people who came in were all naked, and upon entering, they silently began to dig and move the ores around. Zhao Xuewen said, “There are more and more people here However, all of them have their wits sucked dry, so there’s no need to be afraid. I said, “That may not be the case. These people all have a little bit of intelligence, do you know why? My guess is that it’s to make it easier to control them. Those who hold the whip aren’t scary, so I’m worried that once we go down, they’ll control the people who aren’t wearing any clothes.”

Hearing my words, Zhao Xuewen also frowned, although the few hundred naked people were extremely thin and weak, with many people, they could easily crush us to death. Inside the pit, when Big Beard saw that Fan Dexin looked like he was about to die, he made the others stop and go forward to pluck at his face, “This fellow doesn’t look like a person from the security department, his eyes are also not very good, who exactly is he.” The bearded man muttered.

The person beside him walked up to him and said, "Who cares about who he is. We can't let him out anyways. It's better to let him work." Big Beard nodded his head. He carefully took out something from his pocket and placed it on Fan Dexin's face.

He opened the lid, and a toad jumped out from within. It wasn't very tall, and had bright colored stripes on its body, with a big beard holding onto Fan Dexin's head, the toad stuck out its tongue and placed it on Fan Dexin's head, and after a while, it shrank back into Fan Dexin's mouth. The big bearded man placed the toad into Fan Dexin's mouth, and just as the toad was putting its tongue into Fan Dexin's mouth, I suddenly saw Fan Dexin's disgusting actions, and started to roll his eyes, "Not good, he is absorbing the spirit energy of a university student." I said quickly.

Any beast with cultivation experience can absorb human spirit energy, and only by being completely defenseless can the person being absorbed can take it. By consuming spirit energy, whether it be from the three major acupoints on the head or from the mouth, seeing Fan Dexin's white eyes rolling up and down, I knew that it would be too late if I didn't save him, so I didn't think too much as I jumped down, Zhao Xuewen followed behind me.

I had already activated the Fox Blood in the air, and when I landed, I somersaulted to unload the inertia power. Zhao Xuewen didn't seem to be prepared for it, he fell down the side of the hole, falling until he was dizzy from the fall. It took him a while to wake up.

Without pausing, I jogged toward Big Beard, unbuckling my belt and gripping my whip. "Who are you?" The sudden appearance of the two of us caught them unawares, and I ran in silence, swishing my whip, and Big Beard pointing it at me, and before he could say anything, my wrist jerked, and the whip coiled around the whip in his hand like a snake, and after another round, he was surprised to find that his weapon was gone, and before the seven men had time to react, I whipped the whip out of their hands and flung it away.

According to him, this whip was made from the skin that he peeled off every time he cultivated up a flight of steps. It was about three meters long, sharp and extremely soft, the body of the whip was smooth and it was composed of two parts. One part was light gray and the other was dark.

Big Beard and a few others surrounded me. They were afraid of me, so they didn't dare to do anything to me for the time being, and I didn't think much of them, so Big Beard gestured for them to come up, and I saw that he didn't know any magic, and that he was just an ordinary person, so I relaxed and tied the whip back to my pants. Just now, I took the whip from his door because I was worried that it was his magic tool to control these people who had lost their sanity.

Seeing me take back the whip, the few of them became braver, and under the orders of the big bearded man, they slowly came over. Zhao Xuewen also came over, "You came down to greet me after I fell down earlier." As he spoke, he walked over, and two people from Longevity Hall walked towards him.

"You want to fight with this young master? Don't cry out in pain later." Zhao Xuewen said, adding that the three of them had surrounded him, I made the first move, I smiled at the person in front of me, that person was stunned by my laugh, he nervously stared at me, his fists were clenched tightly, his face was in front of me, I pushed off the ground with my feet, and flew towards the person on the left side. That person clearly did not realize that I had attacked him first, and was struck right in his face by me using a blade, causing a red line to appear on his face, and he fainted on the ground without making a sound.

Big Beard ran straight over, his hulking look was like that of a wild boar, and I laughed to myself as he came in one after the other, my whole body was filled with Fox Blood, his movements were slow in my eyes, he came over and tried to grab my hands, my hands were hanging together, he grabbed my wrists and thought he had me under control, he smiled, the person behind him came over and strangled my neck, and the smile on Big Beard's face deepened.

Before he could laugh, I easily broke free of his fat hand and threw the man who had tried to hold me back onto his beard. The two of them didn't get up for a long time.

Looking over there, Zhao Xuewen was already out of breath after fighting with the two of them for a while. I said, "Brother Zhao, didn't you say you were very skilled? Zhao Xuewen said: "I am still weak right now, or else ... What else can these two be? Hurry up and take a look at the university student, is he dead yet? "

I walked to Fan Dexin's side, and when the toad saw that I was about to come over, it took a deep breath before retracting its tongue and running away. I opened Fan Dexin's eyes, and saw that fellow's pupils had stopped moving, and thought to itself, Don't tell me that this guy was sucked to death with just one or two gulps, this is too weak, after probing for a bit, he still has some breath left. I helped him up, and rubbed his back, letting him breathe in comfortably before he slowly opened his eyes and took a deep breath.

"Where am I?" he asked weakly. I said, "You just kissed the toad. Are you okay? Remember who I am?"

He squinted at me and almost put his face on mine. He stared at me for a few seconds before saying, "It's you ..." A few people hit me and I fainted. Did we go out? " It seemed that I hadn't been sucked into a fool. I said to him, "I'm not out yet. Why did you suddenly run out just now ..." Suddenly, a cold sensation comes from my waist. The muscles on my back immediately tenses up. I can't say for sure, but as I move forward, I give a backhand punch.

The big bearded man cried out miserably as he fell to the side. The trident in his hand flew out as well and he felt pain on his waist. I touched it and felt for a bit of blood.

Thinking about this, I started to sweat profusely, the Fox Blood that was almost gone, started to rush up again, I picked up the trident and walked towards him, maybe due to the Fox Blood, the more I thought, the stronger the killing intent in my heart became, the more Big Beard looked at me as though he was afraid, he kept moving towards me, "I have something to say, how about this, I'll leave now, if you want the mines here, I'll give them all to you, alright? Do you want me to help ..." He stared at me nervously as he spoke.

At the moment, I could not listen to what he was saying, all I wanted was to open two holes in his body, the Fox Blood kept urging me, one wave was stronger than the other, the red light in my eyes flashed past, this is the reaction of the Fox Blood, right now I only have one word in my head, kill, Big Beard crawled for a while, and suddenly picked up a small pot, it was the one he had just taken out, and with a blow of his mouth, he suddenly made a long and low sound, the sound seemed to have some sort of magic, I immediately woke up a lot, and the Spirit people who were originally carrying the ores in the pit heard the sound, and stopped when they looked in our direction.

Record of Strange News in Northeast - C169

C169

C169

I immediately felt that the situation wasn't good. Indeed, when the naked people heard the sound, they immediately put down the tools in their hands and started to roar.

Hundreds of people roared at the same time with an earth-shattering sound, shocking me to the point that I stood there in a daze, not knowing what to do. This roar caused Zhao Xuewen to also be stunned. "What are you doing?" One of them looked nervously at the bearded man and questioned him. The bearded man did not say a word, but held his breath and continued to blow the iron pot with all his might, creating a steady stream of sound. Those people were howling crazily under the pressure of the pot, the veins on their neck were popping out and their faces were flushed red, but they did not seem to have any intention of stopping at all.

Zhao Xuewen's opponent turned around and ran towards both sides. I looked at the two of them strangely, not knowing what they were running for, when the pot sound suddenly stopped and the roars of the hundreds of people also stopped. In less than a second, those people suddenly ran towards us.

The two of them ran to the edge of the pit, and just as they were about to climb up, the crowd behind them moved much faster than them, and very quickly pulled them down. Following a few screams before death, the two of them were torn to pieces in the blink of an eye, and I shouted "Run!" to Zhao Xuewen, and turned to run, not wanting to be torn to shreds by them.

He nervously grabbed me with his legs and wrapped his arms around my neck. He asked with a trembling voice, "What's going on, what's going on? Why are there so many people shouting?" I looked back, and saw that Zhao Xuewen had caught up to me while gasping for breath. Without hesitating anymore, I ran towards the nearest crater.

The hundreds of people behind him did not know of the pain and were running around barefooted. Almost everyone had blood flowing out of their feet, Zhao Xuewen shouted, "I can't take it anymore, you guys run first." After he finished speaking, he sat down on the ground, and saw that those people were about to catch up to him.

I cursed silently, then took out my whip and swung it over, the whip accurately wrapped around his neck. He subconsciously grabbed onto the whip, I put it over my shoulder and pulled forward fiercely, Zhao Xuewen was pulled over by me just like that, "You ... Let go of me, I want..." "It's strangled to death..." He shouted with great difficulty, I did not dare let go of him, and with my legs in the air, I carried Fan Dexin and started running like a madman. Zhao Xuewen was pulled by me, while both of his hands tightly gripped onto the whip, and he started to run like a madman, his face completely red. If not for his tongue sticking out and unable to speak, he would have surely scolded me.

When we reached the edge of the pit, I handed the whip to Fan Dexin and said, "Hold him." He said, "I can't..." At this moment, there was no other way around it. I looked at the top of the hole that was five to six meters above the ground. The panting and footsteps behind us were almost catching up to us. The

Fox Blood poured all its energy into its arms, causing them to become as red as two hot irons. With a “peng” sound, it dug itself deep into the ground in front of them.

In order to move the weight of the three of us, I had to dig deep into the ground every single time. Very quickly, I felt my strength dissipating, and smiled wryly in my heart, even if the Fox Blood were to use all of its strength to force us, it would still be too difficult to bring two people up.

Every time I pull my arm out of the ground and insert it back in, the speed at which I pull it out becomes slower and slower. Every time I pull my arm out of the ground and insert my arm back into the ground, the speed I pull out my arm out of the ground become slower and slower.

His body suddenly sank, and I turned around to see that Zhao Xuewen had been captured by a naked guy with a pale white skin. That guy was grabbing onto Zhao Xuewen’s ankle tightly, and his lifeless eyes were staring straight at us, those eyes were dull and lifeless like glass beads. At this moment, they could no longer be considered human, but machines that can move.

I already overused my strength, but now that the weight on my body has been increased by another, I no longer held any hope of going up. I just persevered on with my body instinct and my will to live, persevering on not to pull my arm out of the ground and not to die here.

Retreat!” Suddenly, a thunderous shout came from above my head, waking me up. My body suddenly lightened, and before I could see clearly, a vigorous figure descended from the sky, dashing down the slope with a “deng deng deng” sound.

He went straight to the crowd below and stepped on the head of the person at the very front. With a “Hua la la” sound, he brought the group of people down with him, and without slowing down, he took out two Talisman papers and held them in each of his hands. Like a spinning top, he rapidly spun around in the crowd, accompanied by the sound of explosion.

When he passed by Zhao Xuewen, one of his hands grabbed onto his clothes, while the other grabbed onto the protruding rock. He forcefully pulled him up, and just as he was about to reach the top of the big pit, he used one hand to throw Zhao Xuewen up. Then, he grabbed onto the end of the whip.

After I climbed up, I was so tired that I fell to the ground, and I didn’t even have the strength to lift my eyelids. It took a while before I regained my senses, and said to him: “Thank you, Senior Brother Ju Yi.”

That's right, the one who came was Senior Brother Ju Yi. The moment I saw him, I knew that I wouldn't be able to die, so he came over to help me sit up and said, "Luckily I came in time."

After searching for a long time, he only found the corpses of two of his colleagues. Just now, he was attracted by the loud roars that suddenly came from this side, and ran over, only to see us in such a sorry state.

The people below the giant hole were all forced by the big bearded man to climb up. The hole was at least five meters deep, they stretched their hands in a daze, unable to climb up at all. Senior Brother Ju Yi looked at them and said, "Sigh, so many people died here." Fan Dexin squinted his eyes and looked at Senior Brother for a while, then said: "I remember you, you came with them, you are very powerful, can you save them?"

The Senior Martial Brother lightly said, "They are already dead." Fan Dexin said: "Of course I'm dead, I'm still alive right now, there might be people from our village among them, I'm begging you to save them." With that, he walked up and held onto Senior Brother Fan Dexin's hand without letting go, and then said to Fan Dexin: "Senior Brother Ju Yi is right, they are already dead. Just look at how they are moving, it's just that the big bearded man is controlling a bit of their consciousness." Fan Dexin looked at the hole below with tears all over her face and couldn't help but to cry. I walked over and patted his shoulder and said, "Don't worry, we will definitely find the culprit and help you ..." Without waiting for me to finish speaking, Senior Brother Ju Yi suddenly stood up.

I don't know why his reaction was so huge, but when Senior Brother Ju Yi looked at me with a serious expression, I followed his gaze and instantly felt my head buzzing.

There was a person standing on the other side of the huge pit, which was too far away, but I was extremely familiar with that person. It was Lv Tianhe, and beside him stood a few people, one of them was extremely short and strong, and I could clearly see that it was Shi Yuan with my focused eyes, he was not dead, so Zhao Xuewen also noticed the person over there and asked, "Who is that person?"

I said, "The enemy is a very troublesome enemy." While they were talking, Lv Tianhe and the rest ran down the side of the pit. When Big Beard saw him coming, he jogged over and bowed: "Boss, you're finally here. Those guys are here to cause trouble, luckily I ..." Fortunately, you used the copper pot to force the last bit of intelligence out of these people who failed, and you didn't die, right?" Lv Tianhe said.

Big Beard dryly laughed with some guilt. "Boss, there's nothing I can do." Lv Tianhe said: "Then it's not that easy to deal with, all these people have lost the last bit of their consciousness, and can't do their work, what should we do?" Big Beard immediately said, "Boss, don't worry. I'll go out and capture him immediately. He'll definitely satisfy you."

Lv Tianhe laughed and said, "But there's only three days left. I don't think there's enough time." The bearded man's eyes darted all over the place. "Boss, what's with this? You're the hall master's savior, two days is not enough time for one word of yours. Please ask the hall master ..." Begging for leniency? "I can't afford to lose my face. I think you should just finish the rest of the work."

Big Beard forced a smile and said, "Boss, I can't finish all of it by myself." After Lv Tianhe heard this, he laughed out loud, "Don't worry, you won't feel tired." Instantly, his brain and fresh blood mixed together flowed down, and the big bearded man's headless body fell to the ground. Lv Tianhe used his fingers to stick onto the red and white brain matter on the ground, and placed his fingers into his mouth to suck on it, revealing a very satisfied expression.

Seeing this, Zhao Xuewen retched, spitting out a mouthful of saliva, he said: "Senior Brother Ju Yi, let's go." Senior brother Ju Yi said: "I'm afraid we won't be able to leave. This is their territory, we are not familiar with them, if we run, we will get caught sooner or later." "Then what should we do?" There is only one way, to capture the thief and capture the king, and then kill Lv Tianhe, the rest will be fine. "

Hearing his words, I was at a loss of what to do. I had experienced more than once how powerful Lv Tianhe was, not many of us in the Spiritual Vein could kill him, and his Four Devils' hiding technique was extremely terrifying. Even my master's Divine Flame Talisman couldn't hurt him, so if we relied on four of us, how could we kill him?

Without waiting for us to speak, senior brother went down the steep slope. I hurriedly followed, and Zhao Xuewen and Fan Dexin came down as well. Lv Tianhe saw the few of us laughing loudly: "Good, good, good."

Zhao Xuewen said: "What's there to be proud of? Senior Brother Ju Yi is here, can you still smile?" Lv Tianhe asked curiously after hearing what he had said, "What senior brother?" Zhao Xuewen pointed to Senior Brother Ju Yi and said, "This is one of the top experts of our department, you're dead for sure." Lv Tianhe walked over and pointed at Senior Brother Ju Yi, "Is that him?" "Right."

"Hahahaha ..." How could Zhao Xuewen have known that Senior Brother Ju Yi had almost died at Lv Tianhe's hands, and that it was in an alliance with others? In his eyes, Senior Brother Ju Yi had always

been an invincible existence, and now that Senior Brother Ju Yi looked so confident, Zhao Xuewen had even more confidence in him.

Record of Strange News in Northeast - C170

C170

C170

“What are you laughing at?” Zhao Xuewen pointed angrily at Lv Tianhe and asked. Lv Tianhe smiled as he approached us, but senior brother suddenly shouted out, “Dangerous!”

With a ‘swoosh’ sound, the two of them moved at almost the same time. Lv Tianhe charged towards Zhao Xuewen with a lightning speed and a ferocious smile on his face, his right arm extended out as two of his fingers pointed straight at Zhao Xuewen’s eyes. In the blink of an eye, they arrived before him, and in the next second, Zhao Xuewen’s eyes were about to be destroyed.

Senior Brother appeared in front of Zhao Xuewen like lightning and kicked away Lv Tianhe’s hands. It was only then that I could see clearly that Senior Brother’s two legs were respectively pasted on the Godly Horses, which emitted a weak glow. No wonder Senior Brother was so fast.

“Aiyee ...” What a pity, if it wasn’t for you causing trouble, I would have already shut up. ” Lv Tianhe rubbed his wrist, and said with a look of pity: “Master “Senior apprentice-brother.” Only now did Zhao Xuewen react, and his face instantly became pale white. He did not expect Lv Tianhe to be so terrifying, if not for his Senior Brother’s quick reaction, both of his eyes would have already been gouged out.

“You retreat.” I could feel that my Senior Brother’s anxiety level was not any lower than mine, but Lv Tianhe had a face of indifference. I looked behind me, and saw those people who failed to make it in time falling crookedly on the ground, seems like they had exhausted the last bit of their spirit energy.

“This person is so scary.” Zhao Xuewen came over and asked with lingering fear, “Tell me, will Senior Brother Ju Yi be able to defeat him?” “I don’t know.”

“Brat, I remember you. I fought with you before, but I’m not interested in you.” He pointed at me. “I’m more interested in that kid.”

The Senior Brother kept silent, took out a red medicinal pill and placed it in his mouth, acting as if he was going to. Lv Tianhe was stunned for a moment, then said: “You really don’t want to live anymore.” After he finished speaking, he slowly walked towards his senior brother.

Every step he took, the dense ghostly atmosphere on his body became thicker, and when he was one step away from senior brother, the dense ghostly atmosphere on his body almost took form, and under the enveloping of the ghostly atmosphere, the senior brother’s Qi became weaker and weaker. The two of them stood there, and when Lv Tianhe was tall enough, he required senior brother to raise his head to see his face.

Lv Tianhe fiercely swung his elbow towards Senior Brother Lv Tianhe’s forehead. His elbow was an extremely solid part of his body, and with the force and speed of this blow, it was extremely fast, I was so nervous that I couldn’t even breathe, the Senior Brother unhurriedly raised his head backwards, at the same time kicking his right leg towards Lv Tianhe’s chin. The two of them stood together.

The two of them were experts, and the battle was extremely intense. The Divine Horses on their Senior Brother’s legs were flickering in the battle, and with the armor horses driving him, the Senior Brother’s speed increased a lot, it was extremely difficult for Lv Tianhe’s attack to hit his Senior Brother.

However, Lv Tianhe didn’t dodge at all, and forcibly took the kick, which was one of the weak parts of the human body. Just as I was about to cheer, Lv Tianhe didn’t retreat and instead went forward to grab my Senior Brother’s wrist, the Senior Brother was shocked, he didn’t expect Lv Tianhe to be so fierce, and quickly calmed down after grabbing onto his right wrist. His left hand also grabbed Lv Tianhe’s wrist, and the two of them held each other’s wrist tightly.

Senior apprentice-brother.” The black aura seemed to have a mind of its own, enveloping the Senior Brother’s face and not letting go for a long time. I could not see the Senior Brother’s face, but the Senior Brother’s hand seemed to loosen a little after being sprayed by the black aura.

Just as his fist was about to hit Senior Brother’s face, his hands suddenly came together to block Lv Tianhe’s fatal punch. “Explode!” Accompanied by an explosive shout, his hand exploded loudly.

It turned out that the moment Lv Tianhe spat out that mouthful of black Qi, Senior Brother had already sealed his own Qi, but from the looks of his face, it could be seen that he had more or less sucked in some of it. Just now, Senior Brother had played a trick on me, causing Lv Tianhe to think that he was struck by's black Qi, and the instant he released his hand, he actually took out the Five Thunder Divine Symbol and placed it on his palm. Only then did I manage to injure Lv Tianhe.

However, I was too hasty just now. Senior didn't manage to control the divine talisman well enough and was also injured by the divine talisman. Although I couldn't see the wound, I still found out Senior's trembling hands.

"Alright, alright, alright. You have improved a lot." Lv Tianhe laughed sinisterly, he raised his fist to his mouth and licked the blood on it, "But you still managed to absorb my black fog, the taste is not good, hehe."

He took out the Divine Fire Talisman and placed it on his lips. Suddenly, a long fire dragon collided with the black Qi around Lu Tianhe's mouth, causing the air to crackle, and both sides began to muster their true qi. This was the first time I had seen such a powerful Divine Fire Talisman, and even Master's Divine Fire Talisman had not reached such a high level yet.

Just as I was about to make my move, Zhao Xuewen took the initiative and threw out the Breaking Talisman, dispersing the black aura and fire dragon's energy. The rebound force bounced Zhao Xuewen far away, and although the Break Talisman could break the power of the spell, the user had to bear the rebound force that was broken. Zhao Xuewen was flung onto the ground, not even catching up to him in one breath, as his eyes rolled back and he fainted.

Just as Lv Tianhe saw that he was about to knock down his senior brother, he was interrupted by someone. He must be extremely angry, as he tore off his clothes and pointed at us: "You are truly courting death." After saying that, he charged towards us, with a few people following behind him.

I didn't expect that the target of the spear would suddenly be me. Just when I was about to support Zhao Xuewen to see if he was dead, Lv Tianhe had already arrived in front of me. Senior Brother was about to come over, but it was already too late. With that said, he bit Lv Tianhe's thigh.

"Little bastard, you're courting death." Lv Tianhe grabbed him by the neck and lifted him up, the big fist in his left hand punched towards Fan Dexin's thin body, the power of this punch was extremely strong,

bringing a gust of wind that struck Fan Dixin's body, with just a single punch, Fan Dixin surged out with all the food he ate a few days ago, following that Lv Tianhe threw Fan Dixin over to me, the huge impact caused me to be forced back.

Looking at Fan Dixin being beaten up like this, my heart was filled with rage. Not only was the person in front of me terrifying, the Fox Blood in my body bulged out, took out its whip, and swung it down fiercely at Lv Tianhe's head from top to bottom.

It seemed like Lv Tianhe had already activated the Four Wraith hiding technique. At this moment, his body was simply invulnerable, and he chuckled coldly, as Lv Tianhe rushed over like a rhinoceros, I rolled on the ground, and swung the whip in my hand towards Lv Tianhe's lower body. The whip wrapped around his lower leg, and I attempted to pull him down.

A figure appeared from the corner, his sword fingers pierced straight into Lv Tianhe's weak spot, he never thought that the invulnerable Lv Tianhe would be pushed back so easily, the person who got his hands on the sword turned around and retreated to my side, Lv Tianhe looked at us with a serious expression, "Senior brother, are you alright?" This person was his senior brother, Lv Tianhe's subordinates were unable to stop him.

"I'm fine, we can still persevere. We have to hurry up and find Lv Tianhe's mingmen, do you still remember the Phantom Hand that Martial Uncle taught you?" I remember now, master said that to deal with someone like Lv Tianhe who just practices his muscles and bones, the only way is to hit the weak spots on his joints.

Lv Tianhe called Shi Yuan over and pointed at me. "You stall him, don't let him disturb me." Shi Yuan nodded, and the remaining three people rubbed their palms as they asked: "Boss, what about us?" Lv Tianhe laughed: "You guys are also very useful." Suddenly, a punch landed on the head of a person who died on the spot.

Lv Tianhe's speed did not decrease at all, with a flip of his finger, he pierced the other person's temple, causing his index and middle fingers to sink in as well. The person fell on the ground, not moving an inch, after which he threw a punch onto the last person's throat, and with a single punch, he broke that person's neck, and that person died.

"Three living ghosts, that's enough for boss." Lv Tianhe laughed apologetically at the side. Lv Tianhe looked at the three people who had died miserably and said, "This place is extremely tight, there isn't

even a person here, let alone a dead person. These three trash can be considered to be more useful, much better than those guys who had long lost their consciousness.”

“Bastard”, the Senior Brother scolded. Lv Tianhe looked at the two of them and said, “You two will end up like them soon.” With that said, he undid the seals on his hands and ghostly atmosphere s covered his entire body. Very quickly, the three corpses released waves of black Qi, slowly being attracted by Lv Tianhe.

“Stop him.” If he were to absorb the three ghosts that had just died, his strength would increase tremendously. Senior Brother and I would charge towards him at the same time, heading straight for his joints.

Shi Yuan let out a weird cry and rushed over, being whipped by me, my senior brother and I attacked Lv Tianhe repeatedly, grabbing or hitting all over his joints, but Lv Tianhe was unable to move right now, he could only block our attacks. I circled behind him, and attacked his spinal joints again and again, and Shi Yuan pounced on me again and again, he knows that this is a life and death situation, if Lv Tianhe fell, he would definitely not be able to get away from me, and I would fall to the ground because he was short but heavy.

After being hit by me for dozens of times, I felt a warm feeling on my face, and a thick liquid dripped onto my face. I raised my head and saw that fresh blood was flowing out from Shi Yuan’s mouth, he had already been beaten to the point of internal bleeding, but his hands didn’t relax at all as they still held me down.
