The Emptiness Realm Expert was sweating profusely as he stared at the body of the Evil Flood Dragon. However, Hu Taimei had long since retracted her fire and said, "You brat, to be able to attract the God-Slaying Thunder, your future is limitless. Why don't you acknowledge me, Hu Taimei, as your master?" "Senior, you must be joking." "Don't worry, Boss Qian and I have some friendship, so we won't steal his disciple."

"How do you know who my master is?" Hu Taikou said, "When you, Boss Qian, risked your lives to attract eighteen Divine Annihilation Bombs, turning the white fur of the Yellow Mountain into ashes. I'm sure no one but him has the ability to do so." "Senior doesn't know. From then on, my master didn't permit me to activate the Godly Thunder. Because the backlash was too great, Master only gave me three God-Slaying Thunder talismans."

Before she left, Mrs. Liu and Ms. Hu said: "The disaster this time is too big, and I may have to trouble Ms. Hu too much." Hu Taimei promised and left.

When we went back, the platoon leader who was protecting us was called Wang Xuanyuan, an enthusiastic northeastern man who kept praising us, saying that today was the day that we opened our eyes, but unfortunately, we couldn't go back and boast with our families, because they had signed a confidentiality agreement, so they could only pretend not to know anything, and kept asking me how old I was, where did I come from, and when did I learn magic.

Just at this moment, a discordant sound came from behind, the fast boat on our left turned over, and the soldiers were dragged down by a few black shadows the moment they came out of the water. Seeing that they couldn't get back up, Wang Xuanyuan's anxious eyes turned red, and with a furious roar, he raised his submachine gun and fired at the water. Right at this moment, the fast boat's soldiers were on guard on the other side, and suddenly, a big black fish came out, I could clearly see that it was a big black fish, but it was similar to the human's four limbs, its mouth was full of teeth.

The soldiers were shocked. Wang Xuanyuan shouted, "What are you all doing? Hurry up and start the boat! Move forward!" Everyone came back to their senses and drove the motor to its maximum capacity. After rushing for about 100 meters, the boat suddenly stopped moving and gradually rose up.

The head of a giant beast appeared in front of the boat. It was as big as a door, and the body of the giant beast immediately appeared. It was a giant turtle, and its body was as big as a house. Later, Eyebrows explains to me that the Lord of the Rich River is a great beast of the river, rumored to be the guardian of the treasure.

The Rich River Lord blocked our two speedboats. Wang Xuanyuan and a few other soldiers raised their submachine guns and fired at it, but to no avail. Instead, they infuriated it. With a loud roar, it bit onto the bow of our speedboat, causing the boat to emit creaking sounds.

At this moment, Old Lady Liu stared at the rich river lord and chanted the incantation. The rich river lord was obviously stunned for a moment, but the condescending look in his eyes told Wang Xu Yuan to stop firing. I know, this is Old Lady Liu's "Beast Gathering" incantation, which not only can attract all kinds of beasts, but it can also communicate with them and communicate with them.

Rich river lords, this kind of legendary beast have extremely high intelligence, but the beasts are hard to tame, so they won't let us pass. We have no choice but to turn around and return the way we came from.

On the way, we were afraid of encountering that man-eating black fish, so we raised our vigilance. Eyebrows took out a peach wood sword from her backpack, and Old Mrs. Liu chanted the spell "Controlling the Birds". After a while, a group of gyrfalcons flew over from above us. These gyrfalcons were clearly different from the average gyrfalcons. They were huge in stature, almost two meters tall, and their wings spread out to nearly five meters.

A moment later, we saw groups of black shadows under the water again. The man-eating black fish were coming again, but they seemed to fear the gyrfalcons circling above us, and they only hovered near our speedboat, not daring to attack.

I took the opportunity to observe them carefully. Their bodies were similar to that of fish, but their mouths were wide and large, filled with long teeth. Their limbs were very similar to human limbs.

The big black fish occasionally stuck their head out towards us, as if they were ready to jump in at any moment. After a long while, they all collectively dived down, and we all thought they were afraid of the gyrfalcon and didn't dare to come out. At that moment, suddenly, countless big black fish came out from all directions at once.

Wang Xu Yuan shouted, "Get down!" and before we could get down, the gyrfalcons in the sky were faster than us, shooting down like sharp swords. Immediately, there was a gyrfalcon on top of every big black fish.

They fought side by side, and the soldiers didn't dare to shoot. The gyrfalcon used its beak and claws to cut open the heads of the black fish, tearing open the bellies of many black fish. Many black fish wrapped their limbs around the gyrfalcon, and fell into the water, or grabbed the gyrfalcon with their beaks and dragged it into the water.

In the blink of an eye, the water surface had calmed down, leaving only the corpses of the birds and fish floating in the air. The water surface had already been covered by the blood.
