

Super Son-in-law Chapter 1041-1050

Chapter 1041

The silver light of the ancient sword looked icy cold under the moonlight as well as the illumination of the campfire, emanating with a bone-chilling killing intent. Lin Hao's battle intent was overwhelming as he gripped this ancient sword.

Finkin Gatt looked at the look of stony treatment on Lin Hao and sneered, pretending to wait for a sword to strike through the corner of his disgusting oriental monkey mouth.

Chen Shanshan squeezed her arm, finally or demon open fight, this time there is really no room for manoeuvre, can she still see Lin Hao in the future? Maybe there won't be a chance. She wasn't worried that Lin Hao would lose, just that he would be expelled from the West after offending the Gaither family

Mu Chen shook his head, reckless, completely and utterly reckless, he sighed repeatedly

The surrounding nobles cheered, finally to fight, they have long been uncomfortable with this new Golefant castle master, and some even hotly debated in private whether to buy a murder to kill him and then divide the castle, but was immediately overruled, not to mention really can kill him, even if they did, there is still Bob exist, unless they kill Bob together

Only what they vetoed, Bob's best friend was going to do That's how the nobles think, take by force! Greed to the core!

‘Finkin stabbed him in the mouth! I’m not in the mood for such an Oriental monkey’s face either!’

‘Finkin! Crush his testicles! He’ll never be a man in his life! Let’s see if he dares to be arrogant again!’

‘Ahahahaha, Finkin, humiliate him slowly, don’t end the fight too soon! It’s a beautiful bonfire tonight, but I always felt something beautiful was missing, so it’s the sword show that’s waiting for you!’

A chorus of chants celebrated as if they were celebrating Finkin Gat’s victory, and then Lin Hao heard it loud and clear, take your time? Humiliation?

What a pathetic bunch of people, so arrogant and arrogant, humiliate him slowly? Ridiculous, you want to take your time and humiliate me, then he would be domineering and unparalleled, ending this battle outright, shattering this group of Westerners’ bubbling illusions about the Chinese with a single sword, showing them that the Chinese are terrifying!

The two ancient swords gently touched together with a crisp sound of metal touching metal, and Finkin Gat’s blood instantly exhilarated, he had been looking forward to picking up his sword and fighting someone to the death, but he knew at the same time that he was not allowed to just stab a pauper. This was his regret, and he had thought to leave it for a later time when he would succeed himself as head of the Gaither family, but now it seemed that the opportunity had come, and at the same time he found that stabbing the paupers was less trouble than stabbing the lowly Orientals After all, the Orientals were so weak that it did not matter at all to kill their citizens

‘It has begun!’ Someone exclaimed. Inside the countless nervous eyes, finally the sparring match began, Finkin Gatt inside their eyes, is the personification of the western noble knight, no matter the appearance or temperament, are incomparably fit, causing the rich man’s daughters on the scene to scream and scream? The daughters of the rich were screaming. The first time I saw him, he was smiling, he loved the flattery

The battle was between the dignity of the East and the West, and it was clear that in the eyes of this group of Westerners, the East was just a monkey. For the pride of their aristocracy comes from the pride of books, they learn everything from books, they don’t keep up with the times, they listen to what the older generations pass on from mouth to mouth, which is incredibly sad. For they only remember how to open the doors of the ancient Chinese civilisation, but forget their own past of being annexed, they only remember the glory that belongs to them and cannot face their losses, the inferiority complex of their nation, as if they were like the people of the East, denying their past

Chapter 1042

This is perhaps the consciousness of a nation without a bottom, like the people of the ancient Chinese civilization, they can face these ‘humiliations’ of the past because they will know and remember, they will succeed and they will fall behind, they don’t care about falling behind because they often look forward to the feeling of being on top of the world every time, it’s just like their big ups and downs, the only way to experience the big ups is to fall big

Finkin-Gate sneered, ‘Wait a minute don’t fall too fast!’ After saying that, his sword stabbed out, and it was very tricky to stab directly at Lin Hao’s face, the speed was fast, aimed at the corner part of Lin Hao’s mouth, if it was an ordinary person, I’m afraid it was really difficult to dodge

‘Good! This sword is simply too tricky, without national level this sword athlete is difficult to dodge! Of course there are also national level fencing clubs here, but obviously they are nowhere near the sharpness of this sword!’ This was not flattery, it was the plain truth, even the nobles who had not learnt fencing were in awe at the sight of this sword, it was too fast.

The faster Finkin-Gate was, and the more tricky his swordplay, the louder these nobles cheered, they thought, Lin Hao had lost, and the next thing they knew was the look of Lin Hao’s mouth being pierced, and the thought of this tough-talking oriental monkey’s mouth being pierced excited them to no end!

Lin Hao shook his head when he saw how confident this Fen Jin Gaiat was, having such ruthless swordplay, this man was really looking for death!

Since he wanted to stab him in the corner of the mouth, let’s do to him what he did to him!

In the next moment, Lin Hao moved, his feet stepping down as if he was stepping on the wind, his speed was extremely fast, compared to Finkin Gat? Serve Pao Xi Di Dye Wu Di Yi? s swordplay was even faster

The man who was explaining the swordplay before suddenly became alarmed and shouted, ‘Not good! Don’t mess around, Oriental Monkey! He’s from the Gaité family

‘What!’ Countless people opened their mouths in surprise

Finkin Gaither's eyes went wide, the sword, so fast, so fast that he could not even detect the signs, and then a burning pain appeared in the corner of his mouth

'Ah! No! My face! My face!' Finkin-Gate roared, tearing his throat out in a roar that was hard to resist the pain of what seemed like the loss of half his face

'Ah!' Not only was he screaming, but the young girls who saw him at this moment were also screaming in terror, half of a man's face was just gone, although they admired and looked up to Finkin Gatt, they still felt scared when faced with a man who had lost half of his face, it was too scary

'A ghost!' Someone shouted

Finkin Gat heard this and touched directly to that half of his face, and when he touched it, it was all thick blood, and very sensible bones

He knew that he had lost half of his face!

His face is now very scary, like a TV drama ghost movie, the person is hard and missing half of his face. How can I put it, instead of half a face, all the flesh was missing from the right side of the face, the cheekbones inside were showing and the teeth were exposed, the bloody flesh was hanging and blood was trickling out

Lin Hao withdrew his sword, as Finkin-Gate had lost his strength to fight, the pain spread throughout his body, causing him to sit directly paralyzed on the ground, his white shirt covered in blood, the diamonds on it, reflecting a blood red light, the ancient sword smashed on the ground, reflecting his half face that had lost its flesh, Finkin-Gate directly fainted in shock, not from the pain, but from the shock of his appearance

‘It can’t be dead’ someone shouted

‘No good’ a noble lady studying medicine rushed up, she knew of an Oriental healing art that was so amazing it could restore consciousness to a person in shock, so she went up to him, only to have her hands shiver in fear when she saw Finkin-Gate’s face, but she knew that saving lives was the greatest

So she pinched Finkin Gatt directly, and in less than three seconds, Finkin Gatt woke up, the other half of his face covered in blood, unable to see his expression clearly, but inside his eyes, it was like an endless jet of anger

‘I will make you die!’ The bodyguards, who were hidden in the darkness to protect him, rushed over at the first opportunity, but they were still too slow, when they heard the roar of Finkin-Gate, they all rushed over in a swarm, the sound of machine gun fire hit the ground, but Lin Hao’s figure wavered and wavered again, a bullet pierced through his shadow and hit the ground again

The nobles who heard the sound of machine gun fire were scared and hugged their heads to dodge, they were scared and incomparably frightened, they also did not expect such a situation to happen, then while running away they, while seeing Lin Hao’s appearance of dodging bullets, were also frightened, people, can dodge bullets? Isn’t this the same kung fu that that legendary Bruce Lee knew? It was just that their older parents had said that the so-called Bruce Lee knew kung fu was all to deceive the poor,

and in the eyes of their nobles, it was just an acrobatic skill, but, but, they had seen it with their own eyes, a man could dodge bullets, wasn't it kung fu?

'What!' Finkin-Gate's eyes were wide and scarlet. A man could dodge a gun, was it that level of character? Run! That was his first thought, he knew he couldn't deal with someone like that, but! The mercenaries their family had recruited could, so the main thing he did now was to avoid them and then go back home and call out these mercenaries, he didn't say he was going to let Lin Hao off the hook! In his bones even though he couldn't beat Lin Hao himself, he still thought that the mysterious power of the West, absolutely crushed the mysterious power of the East!

Lin Hao didn't want to say that he would kill Fingin Gaiter in one blow, otherwise he would have absolutely no chance of still being alive. The reason he didn't kill Finkin-Gate was because he sensed that Bob was incomparably afraid of this Gate family, and it didn't matter if he killed Finkin himself, but the Gate family's anger afterwards might spill over to Jenny

A black shadow crossed from the air, the scarlet moon shone on the mid-air, the ground Finkin Gaither instantly people disappeared. Lin Hao's keen and incomparable eyes? Isizha closed the door to close the sun whisk? Light stared at the flickering shadow, the corners of his mouth showing contempt. At the same time is also some curiosity, if the rat half-orc in Twitter that makes him feel half-human, half-beast, like a remnant, but the werewolf just now makes him feel the taste of biochemicals

However, judging from the general past, it is no different from the feeling that Twitter gave him, only aggravated by a more beastly feeling, as for the strength, there is not much difference between the two

Super Son-in-law Chapter 1044-1046

‘What was that just now!’ Bolt asked in horror, he had been staring at Finkin Gaiter, but Finkin Gaiter just seemed to have gone straight from where he was.

‘The Gaiter’s werewolf Bigil.’ Dwarf Scorpion said, this man was one of the three high level cyborgs in the mouth of ‘X’ leader Mohammed Katou, a formidable figure living in legend, a living piece of Toulouse history He held countless secrets of Toulouse’s rise to power, only these, like him, they were all legends, only why such a legendary figure would join the Gaiters was also a secret

‘Werewolves? A biochemist?’ Polter said in amazement, he knew about biochemicals and had faced them and was surrounded by them, but still could not help but feel a heartfelt awe of them while looking forward to the day when he would be on an equal footing with them

‘Finkin the trouble is gone, but we’ll have to speed control Bob soon.’ Dwarf Scorpion didn’t go on, he could see that Bolt’s greedy mouth was contemplating what future contact with the Church would look like, he hated the idea of such a man joining the Church, but the Church would love such a man, because the Church loved money as much as he did, and loved rich businessmen who could hit on producing it in quantity

‘I know where Bob is, we’ll go there now.’ Bolt said straight away as he pulled his thoughts back to reality. With that said he left by the window and headed straight for Bob’s private hospital

‘Brother, I couldn’t catch up with that man just now’ Night One bowed his head with an unmistakable look of loss and remorse, he had felt the black shadow as it appeared, then as he had only just felt it, the black shadow disappeared, so he caught up

with it. Only he didn't have to chase it for long before he felt that he had lost the tracking eyes? The first time he felt it, he lost sight of it.

The other party's strength was obviously several notches stronger than Night One's, and he still chased after him despite the danger. He patted Night One's shoulder and said comfortingly, 'He's stronger, don't take it to heart. Let's go see Bob and Jenny, I always feel that something is wrong

Night one's heart sank, in fact he also felt the identity of that dwarf scorpion, if it was just as Lin Hao said, he was from the Black Scorpion organization, why didn't he just turn on his big brother, but followed by Bolt's side, this was beyond puzzling, after all, big brother was without most of their organization's elite, such a revenge could be dragged? Unless it was something other than that they were after something else, and it was at Castle Golephant, then it was absolutely certain that it was something to do with Bob!

Something to do with Bob! Wouldn't that

Night One stared in horror at Lin Hao, and found that Lin Hao was also looking at him, and the two of them guessed each other's purpose in a heartbeat!

This side Bob is checking his wounds at his own hospital, just now the wounds were badly split open because of what happened to Finkin, if Jenny hadn't been sharp-eyed and seen his injuries, I'm afraid it wouldn't just be a matter of losing face, but of losing a hand!

Just thinking about Bob makes him feel scared

Just as he was breathing a sigh of relief, Bolt and Dwarf Scorpion walked as if no one was there inside his castle's private hospital. Bob first frowned, then shook his head, thinking that this was his good friend after all, and it made sense to have access to his private hospital

Chapter 1045

'Bob. I had heard that you had a mysterious object with a curse in your house and you said it bothered you a lot, and I felt very sorry for you at the time, but now it's okay, I've invited a great master over for you and he can help you with this, trust him, because he's a cyborg!' This was the response they had discussed beforehand, and Bolt said, in a straightforward manner

After hearing this, Bob's eyes lit up as he looked to see Dwarf Scorpion, who still didn't have a trace of kindness inside his eyebrows even though he pretended to be kind. Bob looked at such a Bolt, also still surprised, he was happy for his old friend, to have a cyborg helper is very powerful

Bob shook his head and said regretfully, 'I have already transferred the castle to Mr. Lin Hao, now it is his business, I can show you around. But I'll have to speak to him beforehand.' Bob was a very principled man, the Golephonte was now Lin Hao's, and now that the rich and powerful of Toulouse knew about it, it would be a discreditable thing for them to know that they were trespassing at Lin Hao's castle and visiting the owner's things at will. Among other things, of course, was that Bob was really not willing to face that thing

The dwarf scorpion's face, which was still pretending to smile, instantly sank, and a wave of malice instantly burst out. After seeing this, Jenny directly protected Bob's heels, and also pointed at the dwarf scorpion and said, 'Uncle Bolt, why is he angry? This

castle is already Brother Lin Hao's castle, and if you want to visit the inside of the castle, you do have to speak to the owner

Dwarf Scorpion looked at such an incomparably beautiful young girl, she looked like a princess from the old century, if he were an average person he might have been attracted to her pure goodness, but he wasn't! And he'd be killed if he couldn't find the biotch! So the prettiest woman was nothing to him when compared to life again!

Faced with this little beauty, Bolt was speechless for a while, originally according to their idea is Bob dare to resist, then just strike, just when Dwarf Scorpion was about to explode, he pulled Dwarf Scorpion's shoulder, Dwarf Scorpion's eyebrows were angry, the evil colour was boundless, but once he thought that Bolt was going to give him one or two hundred million euros, for the sake of one or two hundred million euros, Dwarf Scorpion tightened his mouth, snake letter swallowed back

Dwarf Scorpion knew what Polter was thinking, this filthy aristocrat, wanted to get this little beauty's body, just why would such a despicable person be so rich? The dwarf scorpion couldn't figure it out

'It's okay, it's okay, this uncle is just a bit evil-faced. He's actually very powerful.' Polter explained, while Dwarf Scorpion saw a greedy look inside his eyes, which made him sick for a moment. Polter continued, 'Jenny, can you take us to watch that thing? He'll be able to fix it. You know, it has caused a lot of trouble for Golefant, and surely you don't want your big brother Lin Ho to be bothered by it?'

After hearing this, Jenny's white face showed joy, and her blue starry eyes were overflowing with colour inside, she felt she had been guilty of Lin Hao, after all, Lin Hao had come from the East to the West because of her, or put aside his own wedding honeymoon to come over, and she, herself, had done nothing, her father had instead

repaid her for her big brother Lin Hao, now there was such a good moment in front of her, Jenny agreed straight away without thinking

‘You can really solve that similar to ? West cover up whisked closed steak love love love ? heart of something cruel ? I don’t know why my ancestors made them like that, it’s really cruel’ said the biochemical thing, Jenny face sorrow, feeling that her ancestors did something to shame herself

Chapter 1046

The cruel heart-like object heard Dwarf Scorpion’s breath catch, is this not a biochemical object, forgiving a character like Dwarf Scorpion, he could not help but say excitedly, ‘I can, absolutely can really’ leading him to three affirmations in a row, you can imagine how excited he must be

At such certainty from the dwarf scorpion, Bob was also startled for a moment, marveling in his heart, could that heart-like artifact of his own really have something to do with the cyborg ? Still, he turned to look at Jenny’s happy look and nodded his head in hard agreement, ‘I’ll take you there then, but after I take you to the artifact room, I’ll take Jenny and leave, we don’t want to face that thing, it makes us very uncomfortable ‘

‘Anything, anything.’ Dwarf Scorpion said excitedly after hearing this, completely ignoring Bolt who kept grabbing his cuffs to signal him to let him talk, he couldn’t afford to face the wrath of Mohammed Katou, so he had to get the bio-object first no matter what, after all, the pressure that Tatna brought him was still relatively high, after learning the news of Tatna’s death, Dwarf Scorpion was thinking that he was really too stupid, otherwise how could he Letting Twitterna overturn all their plans and travel alone

Bob was actually very curious as to why Dwarf Scorpion was so excited, ? The ground service wu closed zero shan zero wu ? But the thought of the heart artifact scared him a little, thinking it was a ghost god. After all, from the time his father had told him of the existence of the artifact, which by his own estimation was around two hundred years old, or even further back, such a heart artifact, still alive today, as a regular person, could he not be afraid ?

Leading Polter the Dwarf Scorpion forward, Bob had no idea that danger had been lurking around him, and if it hadn't been for Jenny's kindness that had impressed the demon Dwarf Scorpion, I fear his life would have ended at the hands of his good friend Polter, but at the same time, if it hadn't been for Polter's greed and lust, he would have been dead long ago

The artifact room was in the middle of the castle's basement, and the secret door into the basement was so hidden that Bob didn't let his underlings know how to get in, so it was four people going forward. As for Bob's wife, she didn't follow along because she really didn't want to see the heart. After walking down the three metre long basement staircase and opening another hidden door, it was the canal towards the real artefact room, glowing with a ghostly light on both sides, with ancient iron cast knights standing two rows abreast, holding oil lamps above them, Bob lit a piece of firewood and threw it in, the entrance to the canal instantly lit up, followed by him lighting one after the other.

'I'll help you.' The dwarf scorpion was impatient and said he would step in to help Bob, only to be stopped by Bob, and the kind Jenny explained straight away, 'There are rules for it to be lit, if it is lit at random it will cause a collapse, and a mechanism inside, that is a very dangerous mechanism, and grandfather said that it is impossible for anyone to avoid that mechanism, no matter who... ..'

Bob also said with a smile, 'These organs are the organs passed down from the Eastern tomb passage, a very terrifying kind of quicksand as well as glazed fire, it can instantly engulf the whole tunnel, then above it falls a kind of thin oil that penetrates the

mud and sand, after meeting the open fire, it instantly turns into a sea of fire, because of the narrowness of this tunnel, so it causes no one to be able to avoid this kind of danger

After hearing this, Dwarf Scorpion was also astonished, he also found this horrible level of organ tricky

Not to mention Bolt, regardless of the fact that he was grateful for Jenny's kindness in explaining to him how to enter this artifact room, he thought, when the time came, he could be gentle with this little beauty, of course, he was willing to hide him within this basement if he could

With Bob leading the way, it was finally time to go deeper into the artifact room, a fist-sized fishy red heart puffing away in a glass jar container

Super Son-in-law Chapter 1047-1048

Chapter 1047

The heart inside the glass container looked like it was not inside the glass container, but like a living organism, alive and moving, Dwarf Scorpion's eyes widened and his breath really tensed, this was a biochemical, a living biochemical, and such a complete biochemical, once this came inside the Church's vision, then the Church's power would be greatly increased!

If Mohammed presented this to the Church, he would be greatly appreciated, wouldn't he? He may even become a senior biochemist if he is a member of the Church. I'm not sure if I'm going to be able to get a job. The actual fact is that you will not be able to get a lot of money from the church. The unity within the 'X' organization is the same as their previous Black Scorpion, he felt that even if he really became an intermediate biochemist, he would not necessarily be a match for Mohammad Kato

Bob left the artifact room straight away and handed the contents over to Bolt and Dwarf Scorpion to deal with. The fishy red heart, for some reason, kept bursting out of his own heart, and he couldn't help but ask, 'What is the use of this thing? Or perhaps, be able to tell me a little about its existence

The dwarf scorpion was happy to tell Bolt, because Bolt was of great use to him, and, in his latent consciousness, Bolt was also an unforgivable bastard, the same type of species as they were

'I heard the chief say that before the eighteenth century inside the top noble families, there would be a biochemical. But back then it wasn't called a biochemical, it was called a 'heart of regeneration', and legend has it that the 'heart of regeneration' was a grace bestowed by the Pope on every knight of the Church, and the families that had it were all ministries of the Church and all had a second chance at life

'When Porter said this, there was actually doubt in his heart, he had been wondering about the authenticity of the 'Heart of Regeneration', only once he thought of Bigel, the doubt in his heart would be much less, but, can people really come back to life again? Had Bigel really lived for hundreds of years? And what about the Pope? The legend said that there was not just one Pope? Could it be that the Pope could separate man from beast

This is what he wondered after he came into contact with becoming a cyborg, but of course, he would never say it to anyone, or even ask, because, the Pope is an unquestionable being, that is, an existence that can kill them at will

The Pope of terror that no one could disrespect!

'Heart of regeneration'? A knight of the top nobility? Wouldn't that mean that Bob's family was a top noble before the eighteenth century?' Porter asked in surprise, but these are all history, he also did not think that the original Bob family had a moment of glory before the eighteenth century, only to fall later

At the same time he seemed to have discovered something, staggering asked, 'If so, the Gaiter family, would not also have 'Heart of Regeneration'?''

The dwarf scorpion's wild eyes looked at Porte, Mohammed Katou had been tracking down the secret of the Bigir. But there was no clue at all, and now that the secret between the Bobs and the Gates existed, in a flash Dwarf Scorpion figured out straight away why Biggil was with the Gates, and that was because, the Gates had risen to power because of the 'Heart of Regeneration'! The reason Biggil went to the Gaité family was also because of the 'Heart of Regeneration', perhaps the biochemicals who had lived for hundreds of years knew what the 'Heart of Regeneration' could do, much more than them, the biochemicals of the later generations. Like the Dwarf Scorpion, he just knew that biochemicals were previously called 'regenerative hearts' and knew that the Church was searching for them vigorously. They could create biotics, but how to use this 'regenerative heart' he didn't know, but he thought Biggle might know

Only suddenly Bolt shouted, 'No, Bob's out! We were so concerned about the regenerating heart that we neglected to catch Bob and Jenny

Dwarf Scorpion was also stunned and looked at Bolt, the two saw the magical regenerating heart and straight away forgot about catching Bob, which caused some distress, but well, Dwarf Scorpion didn't care, but smiled and said to Bolt, 'I was very happy to get the regenerating heart while knowing a lot of important news, and the chief will be very happy too. And your fears that Bob will run away, as well as that your little beauty will be lost, you have absolutely no need to worry too much about these, they won't get far! For they will be just as unable to escape from me as that Oriental!' The dwarf scorpion said with unparalleled confidence

Chapter 1048

Hearing a burst of comfort to Porter, the heart of the worry all lost, a fantasy, a burst of stare regeneration of the heart, regeneration regeneration, the heart of greed rose, just thinking about the powerful as the head of the 'X' organization are afraid of the Church Pope, so that he did not dare to covet a trace of the heart, but the heart of the itching hard level, no less want to get Jenny

The dwarf scorpion did not directly collect the heart of regeneration, but pulled out the satellite phone, and this is still a disposable satellite phone, the kind that explodes directly after use. The mystery of the 'X' organization, and the mystery of the leader of the 'X' organization, is comparable to the three senior biochemicals in Toulouse, nothing else, doing his line of work, if you reveal too much information, the faster you die, the more secretive, the longer you live, this person's city Very deep

After dialing a teleconnection, Mohammed Katou, who was drinking blood, was no longer a gentlemanly and elegant figure, but a brutal infidel who saw his satellite phone fluctuate, pulled out a red cotton spandex face towel and wiped the corners of his mouth some, then manipulated the entire basement system in the very modern, high-tech renovated basement so that the apparatus filled with blood disappeared directly in front of his eyes. Once the container was gone, Mohammed Katou removed the thin clean scarf hanging around his neck and the entire basement, which had been transformed directly into a top president's office, picked up the satellite phone and his icy voice inquired, 'Found the contents of the castle?'

'Yes yes!' Dwarf Scorpion said excitedly, that worry hanging in the back of his mind relaxing straight away.

The incredibly languid Mohammed Katou rose straight from the leather sofa and his tone became excited, 'It's a biochemical object?'

'Yes! An extremely complete and vital biochemical!' Dwarf Scorpion sensed Mohammed Kato's excitement and his heart was overjoyed.

‘I’ll be right over! Remember, don’t have any accidents at this time, you can’t lose this thing even if you die!’ Mohammed Kato was all but hissing

This was the first time that Dwarf Scorpion felt such an exaggerated moment of Mohammad’s emotions, inside his impression, this man, calm and unlike a normal person

The satellite phone is also disposable, and he uses a disposable encrypted satellite phone to contact all his men, which is in itself secretive and can only be used once. No matter what? the Sam Fowler closed the door and served the land west? How can not find where he lives

And he has as many as ten such basements! And there is one in the top three floors of the office hall in the city centre building in Toulouse

Mohammed came out of the basement wearing only a pair of sunglasses, so large that they covered half of his face, and it would have taken a very long time to photograph his face and recover it with high technology, and! After he came out of the basement, the places he walked, are the dead center of the security cameras, he was so careful, but how powerful. How can I put it, the front says even if he gets a lick, but the problem is that he is so powerful that no one can get in front of him a lick

He was so careful, so careful that he hated that the world didn’t know that such a person as him existed

The pedestrians on the road were only slightly curious about this eccentric middle-aged man and then didn’t talk too much about it, that’s the way it is in the open

society of the West, even the most avant-garde can be accepted, even if they wear a pair of big sunglasses at night

Shuttling through the darkness, Mohammed leapt up like a bat in a hidden place, without disturbing a single fallen leaf in the surrounding area, and then shot straight towards Gorfint Castle, and not much later, arrived in the sky above Gorfint Castle

‘How can there be such a powerful aura of eastern power? Could it be the enemies of the Black Scorpion organisation?’ Mohammad stayed overhead and murmured with a gloomy expression

Super Son-in-law Chapter 1049-1050

Chapter 1049

Mohammed Kato is a powerful cyborg who has managed to go from being a small-time gangster to founding 'X', and no one outside the management of 'X' knows what the so-called leader of 'X' really looks like

Even Dwarf Scorpion was not allowed to see Mohammed Kato's true face until he became a junior cyborg

When he became a junior cyborg, he went to the mysterious Eastern China, he also went to the East, and he even went to North America, and finally he chose to return to his home base, and he also knew that in this world, junior cyborgs are considered to be in contact with a little bit of the core existence

The first thing you need to do is to get to know the existence of the Ascended Masters, and he fought with the Ascended Masters when he was a junior biochemist and

didn't get any advantage. When he first came into contact with the Ascended Master, his appetite was so exaggerated that he wanted to devour his stomach, and at the same time he observed the nature of his opponent's power and measured his strength, and found that it was similar to his own strength as an Orc. At the same time, numerous such forces came from all over China and Mohammad was so scared that he fled the country.

This reminds him of when he first became a biochemist, the Pope told him: you can go anywhere in the world, but China and North America better not easily expose themselves, because if not handled properly, may die The Pope said so, but Mohammed Kato did not let? Shan Fuzhan Shade Shade Fuzhan Wu? In the heart, his bones are the same as Lauren Jelson and others, are incomparably despise the Chinese, but after that battle, Mohammad Kato really understand, why even the Pope like a terrifying existence, are afraid of China, they are not only individual itself secretive powerful, but also incomparably united

Lin Hao emitted an aura of innate patriarchal great perfection, and this aura of strength he gave to the intermediate biochemicals was like the intermediate biochemicals feeling the existence of the primary biochemicals or even the half-orcs. How to say, this is the difference between the two systems, one is relying on their own strength after a long period of training, breaking the limits of the body burst out of the power, one is through the implantation of receiving biochemicals transformed into out of the power, itself is not the same power, so to each other's perception, both will bring illusion

The reason why Mohammad Kato said that Lin Hao gave him a very strong breath, it was because of his extreme caution, 'It seems that I have to take the things and leave, as for how the dwarf scorpion will be, I can't say a word more

Mohammed appeared and Lin Hao sensed it, he looked at the black shadow under the moon, the flickering black shadow that rushed straight into the castle, this power was completely different from the one that took away Finkin Ghate, this power gave him a somewhat unstable feeling, similar to the power of the one inside the castle

‘Is there still some secret that exists in Golefant? The few biochemicals that let in and out?’ Lin Hao rubbed his chin in thought

After Bob and Jenny came out of the basement, they started looking for Lin Hao, Bob was quite worried about Lin Hao, while Jenny was all worried about how injured Finkin-Gate was when she learned that Lin Hao had injured him, which made Bob look incomparably tormented in his heart, thinking that it was good that he hadn’t told Jenny that Finkin’s had lost half of his face, or was cut off by Lin Hao with his sword

I don’t know what she will do when she learns this news

Lin Hao looked at Jenny’s struggling eyes and smiled playfully, this girl as long as she can follow her heart and live a good and happy life, whether her feelings towards herself are good or bad, it doesn’t matter anymore because Bob doesn’t want him to have too much interaction with Jenny, in that case, being able to give Jenny a more or less bad impression is exactly what he and Bob both want to see

Chapter 1050

‘Mr. Bob, I feel that the Golefant it has many secrets of its own, and now that it belongs to me, I wonder if Mr. Bob can tell me its secrets?’ Lin Hao looked at the disappearing figure of Mohammed Katou, and then asked Bob.

Bob’s eyes widened as he looked at Lin Hao, thinking to himself, ‘Has Mr. Lin sensed something? As soon as this thought came out, Bob felt that it was completely unnecessary to be too surprised by Lin Hao’s strength, he was in possession of a strength

that was even stronger than that of an Orc, and it was justified to be able to sense a little something different

‘Mr. Lin. You are in too powerful, within the basement of the castle, there is stored an artifact similar to a heart, which has been kept for countless years. It is very evil thing, every time I go to look behind it, bad things happen to me, so in giving you the Golephant really completely, I have helped hire someone is cleaning it, no need to thank me, it is what I should do’ said Bob. How to say it, Bob went to see this thing, always in their own encounter with problems to see it, to pray to it, after all, this is the ancestors left things, Bob encountered difficulties, thinking to pray to the ancestors, ask the ancestors to help help tide over the difficulties, apparently regeneration of the heart is completely without this direct manipulation of the situation, so Bob’s difficulties will not be solved, over time, Bob will In time, Bob came to believe that this thing was something that carried bad luck, a curse sent down by the ancestors

This regenerative heart is not to blame, it was Bob’s own poor business acumen that saw him take over the property his father had left him, and in less than five years of running it, it had shrunk by a third

Biochemicals? Preserved for countless years? Bob didn’t know what it was either? All these indicate that this thing is very mysterious, Lin Hao also sounded very mysterious, there is a feeling of wanting to find out, but then suddenly thought that the two biochemicals are afraid that at this time has arrived in the basement, and may even be stealing this biochemical

If Lin Hao did not know, did not know, perhaps Lin Hao did not care, but when he knew this thing, and Bob also told him, then he felt that the things of the things, no matter what he had to go through once, or he felt that there would be regret!

‘Mr Bob, I’d like to have a look inside, I wonder if you could take me in for a bit?’
Lin Hao asked.

Bob suddenly had some difficulty, he really did not want to go in, but after seeing Lin Hao’s serious expression, he still gritted his teeth and said, ‘The castle is all yours, as the master, you can totally go take a look, I will take you there, but I can only take you in and out once, in the future if you want to go in, if you forget how to get in, you can only think of your own way, I really don’t want to be in the basement of that place that makes me feel sad in my life

Bob led Lin Hao, step after step, incomparably detailed description of how to enter the tunnel, how to close used, what are the organs. When the introduction is almost done

Mohammad Kato looked at the regenerating heart in front of him, and his heart was also wild with enthusiasm. Clenching his fists in excitement, he said to the dwarf scorpion, ‘You have done well! I will praise you well in front of the Pope! The Pope will remember you!’

After saying that Mohammad Kartou directly grabbed this glass container, with a powerful force, he unscrewed the whole huge instrument directly, the moment he opened the instrument, blood gas filled the sky, the horrible blood gas spread throughout the whole basement, Lin Hao who was inside the canal only felt the blood smell pungent, it was even stronger than the blood smell of the scene where he killed the Holy Shinobi God Shinobi in the East, what was it, the blood smell was so heavy!

Bolt directly covered his mouth and nose, the smell, it was too thick! It was horribly thick! Thick and pungent, thick with cruelty, what kind of being is it that requires such a huge amount of blood to breed

Dwarf scorpion also ? The shayi yi pak yi di sisi ? is feeling shocked beyond measure, this regenerating heart, it actually needs such a huge amount of blood to nurture, he as a biochemical, contact with flesh and blood is a regular thing, but such a horrible amount of blood, still makes him feel shocked beyond measure

‘What the hell is this thing?’
