

Super Son-in-law Chapter 1331-1340

Chapter 1331

'No!' The Vampire King saw this image and his whole body was dumbfounded!

The move he had just used was the same as the one Pope Peter had used, moreover, the other's looked even more terrifying than the other!

As for why the Vampire King knew this move, it was because he had once spied on a secret cemetery where countless secrets about the Pope and the Church were recorded, and it was for this reason that he had trained Mohammedan Catholics!

The reason why he trained and kept Mohammedan katuns was to unleash such a bloody spectacle, to shed the blood of countless high-class biochemicals, and then with his vampire king identity talent, to perform this with the help of the blood can play out one hundred and three percent of his strength, and is also one of his powerful cards

But now such a secret, such a bottom card, but it is one of the moves of others?

How could the vampire king who knew the benefits of this not panic?

And here was Lin Hao's panic, such a tactic was exactly the same as the Vampire King's sudden outburst, even more refined and ingenious, while looking even more inhumane. The Vampire King needed countless prerequisites to unleash such a move, but Pope Peter was

directly forcing all the senior biochemists present to sacrifice their own blood for Pope Peter to perform such a tactic!

Furthermore, from Lin Hao's own analysis, it could be concluded that when the Vampire King executed such a move, the Vampire King, with the peak strength of a Junior Grand Master, could injure a strong person with the peak strength of an Intermediate Grand Master. An explosion that exceeds the rank, this is a superb undercard! Once the opponent is unaware of it, it is enough to deal a fatal blow!

The Vampire King had just taken advantage of Pope Peter's carelessness to strike, plunging Pope's huge body into a direct target, hitting Pope Peter also did not dare to take it lightly, Lin Hao was wondering, if placed in the Vampire King used such a sophisticated technique of Pope Peter, with the carelessness of Pope Peter at that time, would it not result in the death of Pope Peter directly?

Not only was Lin Hao alarmed, but all the others were in a state of panic, but there was no time for them to speculate any more, as Pope Peter's fist finally came out!

The sky was filled with blood, covering the sky at this moment, the sky and earth were blood red, the smell of blood was thick, like the fury of Pope Peter, this unbeatable gesture!

'No!' The White Bear King and the Black Crocodile King also roared in anger, this terrifying outburst made their hearts tremble, they used their whole body, they fought with 12 points of concentration, they used their strongest defensive stance, but they still felt endless danger enveloping them, that kind of oppression, it made people unable to breathe

Panic, endless panic

They looked at Lin Hao with their eyes, with hopeful eyes, expecting him to step in and help them in this deep water!

‘Save me!’ The Black Crocodile Dynasty roared at Lin Hao.

‘Save us!’ ? The white crocodile shouted at Lin Hao. The White Bear Dynasty shouted hysterically to the west!

The Vampire King first followed the Black Crocodile King’s gaze towards Lin Hao and found that Lin Hao was also looking grave, then couldn’t help but look in the direction the White Bear King was looking over, there, was a super powerhouse, no, probably not! That was the Third Chief of the Mechanical Legion over in North America! A super-powerful man who could rival the Pope!

If he joined them at this time, he might be able to save them!

Chapter 1332

‘Strike quickly! I’ll pay any price!’ The Vampire King shouted angrily.

All at once a mechanical engine sound roared from the sky, the kind of overpowering mechanical engine sound that was simply louder than a super loud speaker!

‘It’s too late!’ Pope Peter shouted, flying at the trio, and at the same time angrily saying, ‘Whoever comes is too late! You all must die!’

‘Whoever comes today will have to die! I will kill all of you!’ Pope Peter said.

The group below, prostrate on the ground, their bodies like a source of power for use, their essence blood bubbled right out, but instead of flowing on the ground, it leaked towards the sky, extremely, extremely fast!

Lin Hao looked down and found that Mohammad Qatou’s body was bubbling out blood, that miserable look, he really felt pitiful!

But he wasn’t the only one who was pitiful, but all the senior biochemists present!

Following the Vampire King’s gaze towards the west, the rumbling engines, coming with a legion of black pressing machinery, the wind whistling, shaking the ears, very uncomfortable

At this time, the voice in Lin Hao’s ear came out: ‘Mr. Lin Hao, please also come out once! Just this once, our cooperation will be concluded! We agree to whatever you ask for!’

It was Boris’s voice, and Lin Hao was puzzled, not understanding why!

But apparently, when? The time? It was already too late between now and then!

Looking at the fist that was about to come out, Lin Hao struggled for but a breath, and finally struck!

Such a devastating situation made the voice that had been roaring in his heart finally come forward!

Lin Hao knew that he was afraid that he would be unable to deal with Pope Peter's full strength strike, so he could only blacken and add the Extreme Dao, all he could think of was, let's hope that he could recover with the help of his power!

The reason why Lin Hao agreed to Boris' request was because nowadays, in such a situation, if the Pope won, I'm afraid there would really be no human king level expert to save Shen Xiyan!

This was something he did not want!

He didn't want to see that either! For the sake of Shen Xi Yan, he had been running around for so long, but if he was finally told that the people who could save him had all died, how would Lin Hao accept it?

Lin Hao wouldn't think that after the three kings were dead, the Giant Eagle King and Silver Wolf King of the ZF would listen to him, and as for this cruel Pope, it would be a fool's errand to ask him to assist him!

So Lin Hao chose to make a move!

But he also knew that it would be a dangerous situation for him to strike!

For he did not know whether his sanity under blackened himself would be able to overcome the blackened Lin Hao.

Whatever!

There was no time for that! He didn't believe that his obsession would be worn down by himself in his blackened state! He loved Shen Xi Yan so deeply that no matter who it was, it would be impossible to erase it!

Even if blackening was his own demon, wasn't his own demon his love for Shen Xi Yan? He loved her like a madman! Love the mountains and the sea together!

'Come out!' Lin Hao roared, black qi twisting, endless power branching out to crack the barrier formed by the scarlet thicket as he punched towards the Pope!

'Hm?' The angry Pope, cautious of a shred of sanity, sensed Lin Hao's arrival, and this power of Lin Hao's!

The eyes lit up!

Super Son-in-law Chapter 1333-1334

Chapter 1333

He was extremely familiar with this power, this was the power that he had been searching for for a thousand years and had only thought about a few times, he was so excited!

Lin Hao looked at Peter, who was already in a blackened state, so he didn't care about that much, and unleashed the most terrifying blow on Pope Peter's now huge body!

Pope Peter, who hadn't had time to rejoice yet, unleashed the most terrifying move of his life the next moment!

He felt Lin Hao's killing intent, no, perhaps it was Lin Hao's killing intent in this state.

The scales on his body looked even more shiny under the originally scarlet barrier, and between the scales, it was as if there was some sort of pattern flowing in the middle, it was an ancient rune, very bizarre.

The mechanical hordes attacking from the sky? The chieftain saw the appearance of the scales. The chief was astonished to see this appearance, and at the same time he felt the shells from the countless cannon types coming towards them to kill them!

‘Little ones! Defend yourselves!’ A pair of steel wings sprouted from his back, and he flew rapidly towards the sky, his speed still exceeding the speed of sound, and even several times faster, so that even the missiles tracking him could only look away from his buttocks, and he looked like a naughty child teasing the missiles, but this image was a horrifying scene to Boris and the others. The technology of the North American side is really very good, just this means, already has the strength of the Grand Master

The T3000 robot has its own steel wings and can activate the jet launcher, but other mechanical equipment produced by the system is difficult to avoid such a new generation of missiles.

The air rumbled and countless machine parts and flesh and blood fell from the sky like a flock of birds hitting a fast-flying aircraft

Countless wails rang out in the air like an air disaster, but the ground was also in a terrible state, and now in this moment, it seemed to echo

‘This damned machine is trying to join the battle at this time and collect the fruits of victory! What a bunch of bastards!’ A politician couldn’t help but curse.

Boris, however, was staring dead at Lin Hao there, Lin Hao’s sudden move really took him by surprise, to be honest, he was just in the mindset of trying it out, but he never thought Lin Hao would really make a move!

‘The King of China has made a move, is there any room for manoeuvre in the situation?’

Listening to such voices constantly coming out of his headset, Boris shook his head and lost his smile, how could this group of people be so pathetic? In such a short period of time, they didn't know which way they had leaned, and now when they saw that Mr. Lin Hao, the King of China, had gained some advantage, they were leaning on Lin Hao again?

Such aimlessness is really worse than a beggar quarreling on the street

Of course Boris also dare not speak out to mock, after all, there are countless big brothers hidden inside, such as the big brother who launched the open fire command, before is ready to fight towards Pope Peter them, but see Lin Hao Lin Hao out, and the situation slightly better, so they opened fire towards the mechanical legion side, are open fire, but are using the usual time inside never take out the pressure box weapons

The actual situation at the moment, there is no room for his private preparations, after all, this gun down, and the Pope can only talk once, after thinking about opening such a gun, that is to the Pope's disrespect, but really will annoy the Pope!

After all, when the cannon was fired, it was a three-way dispute, and it was only reasonable for everyone to strike, within the rules.

Such a tragedy is not something that any country would want to happen. Of course, no one would look at the Pope and provoke his majesty. There have been countless politicians who have gone out to win over the middle class by provoking the Church, and where have they ended up? Death by accident, once or twice is justifiable, every time, people must not believe that it is such a coincidence again

‘Who knows, let’s hope he doesn’t die too soon, after all, now that the General has struck out against the Mechanical Legion, if he were to give away such a chance, we really wouldn’t be in a position to win. Why is it not nonsense for the General to strike out at this Pope and the others, instead of striking out at the North American side of the powerful? After offending everyone, we will be isolated’ this politician’s mouth now keeps complaining, he is still on the side of not trusting Lin Hao, the Pope has given him countless blows, he had to believe in the Pope’s might, now he is not trusting his own people either

As for why they want to take action against the mechanical army, it is because the vampire king has betrayed their country, that is, they have given up their pope to the mechanical army of North America, this situation is what they can not accept in any way, once North America has taken over the church, then the general political implementation of their country will have to look at the mouth of the North American group, which is not conducive to suicide... ..

But even so, he thought that the General could take matters into his own hands, take a chance, if he lost, then forget it, if he won, it would be a big profit

It’s not a loss anyway, it’s a big deal to go back to the old days, but a win would be a huge profit

Finally!

At that moment!

The sky was dark, endless energy tilted out, monstrous power exploded in mid-air, rubbing out blazing heat, scorching the air and burning the blood-red sky!

It was a situation of imminent doom, the river below seemed to have shifted to the sea, gale force winds and waves rose, the whole sky was covered with gloomy black clouds, thunder and lightning inside

This is a duel that transcends the threshold of power of a great master!

What is the strength above the Grand Master? No matter what one knows, even a pope as strong as the Pope doesn't know what strength is above the Pope! He had lived for more than a thousand years and had never seen anyone above the Pope!

Above the Pope, that is, above the intermediate level of the Grand Master!

Of course any of him inside was except for the inhumane group of North American cyborgs who, in order to create super-strength people, built human bodies into robots and implanted them with various chips.

Although many people say what is the difference between the current advanced biochemicals and the group of North American cyborgs, in fact Peter knows in his heart that there is a non-powerful difference between these two species.

One directly implanted mechanical chip, although the modern manufacturing method of advanced biochemicals is not much different from them, but they are still based on the

ancient handed down culture manufacturing, only one to the program of which is missing, resulting in the current human advanced biochemicals can no longer cross the advanced biochemical strength, but this situation he can not do anything about, the power above the earth to take resources has been incomparably scarce, can no longer be a large number of biochemicals It was like the blue power gem in Mohammed Kato's hand. A thousand years ago, which king-class master did not have a large number of them ? But what about today ? Is there a piece of the sceptre intact, apart from this tattered and torn one that was found somewhere ?

Of course there is, but Pope Peter will not use all his spare energy to find this chicken, just like the Heart of Regeneration, although it is of use to him, but he will not search this Western Europe in order to find the Heart of Regeneration

The earth, plunged into the end times.

Such an end time, in China came much earlier, long before Cang was deep in it

Peter felt this car beyond the earth's strength burst, it turns out, it turns out that what he was struggling to find is here, really stepped through the iron shoes, to get all the work

But just as he was happy, Lin Hao's fist, with the destruction of heaven and earth had already collided with his claw, to a place!

The whisking of the Servant Servant whisking Lu Dengdi whisking ? The violent power, uncontrollably poured outward, like a river and sea of extinction

Super Son-in-law Chapter 1335-1336

Chapter 1335

Under blackening Lin Hao looked at Pope Peter, his face hideous, his huge head, his two scarlet eyes bleeding profusely!

Under blackening Lin Hao was oblivious to his pain, but his whole body was already covered with overflowing blood!

Instead of feeling uncomfortable, Lin Hao's fighting spirit was high, as if with some kind of obsession, he drew his fist out and struck at Pope Peter again!

Pope Peter's eyes glared, his face was already exhausted with bitterness, and when he saw Lin Hao's fist again, his whole body panicked and looked fearful!

Today, he was already 50/50 with Lin Hao, and the secret of the two of them was exposed! But Pope Peter didn't want to be the winner here today!

After knowing Lin Hao's strength, he had already achieved his goal!

Moreover! A thousand years of searching had come to fruition, and with such a powerful Lin Hao, the two of them had not been able to explore the mouth of the world, and he did not believe that Lin Hao would wait to die! And Shen Xiyan's condition was not like an

ordinary disease, and if Peter told Lin Hao that he could treat Shen Xiyan's condition, only that it would only renew Shen Xiyan's life for sixty years!

Why did he say he could only prolong her life for sixty years? Because there was a terrifying power in Shen Xi Yan's brain that he had peeked into!

It's inside Hospital No. 3!

The whole of Western Europe was under his control, the Chinese Gaijin, how could he ignore it?

He was as strong as he was, but his heart still froze when he was confronted with this terrifying force. Of course this news was unknown to Lin Hao, he did not intend to tell Lin Hao before, that was because at that time Lin Hao was not even a king level expert!

Although his strength reached the king level expert, but let his own strength cultivation, and did not grow to the bottom line of the king level expert

For such a person, he said sincerely, do not need to pay too much attention, but now is different, Lin Hao this sudden outburst of power, is what he struggled to find, and Lin Hao's strength, burst up, if the moment is not in the Western European continent, he really is not Lin Hao's opponent!

Of course, he was shocked!

This punch, he still took it again!

Countless violent forces, gathered in one place!

A fist that seemed to have penetrated the great resistance finally struck Pope Peter's blocking arm! The sky trembled so violently that the Silver Wolf King Bigir could not stand still, his body shook so violently that the aftershock was so terrifying that it was going to consume him and even injure him!

Bigir fell backwards quickly!

'Humph!'

Pope Peter took dozens of steps backwards, his terrifying body smashing the clouds upside down and pouring rain, a mysterious and mind-blowing image brought out by the resistance of gravity and friction, and the inability of scientific forces to peer into the forces of nature at the moment

Of course no one had time to enjoy it!

The Iron Wings T3000, far away in the sky trying to collect the fruits of victory, saw this scene and turned angry, this King of China, Lin Hao, had such strength!

What an abomination!

Damned thing!

But this Chinese Lin Hao is not in China, without the protection of the country's heavy military weapons, they cyborg group can find the opportunity to kill him, but at the moment, his own strength is really not, suddenly he was thinking, if the T4000 out, is not it possible to kill all this group of people? The T4000 is a very powerful and powerful tool that can be used to kill all of them.

Chapter 1336

The T4000 will be deployed and the Western European powers will find the Bear Kingdom and use nuclear weapons to attack them. ...

They have done experiments, the core chip of the T4000 is unable to block such an explosive force, which is also their most scornful power, otherwise with the M country has such a powerful strong, on top of the Earth, created the beginning of the empire ruled, where there will be other countries, all kinds of problems

'Damned Chinese king! It is really abominable, now it seems that if we do not lure him to the territory of M country, it is really impossible to kill him!' The Iron Wings T3000 whispered.

Pope Peter fell into the clouds, the powerful electric current creating terrifying power molecules that kept burning his torso, striking again a second time on top of his aching body

He hurriedly ran out from inside the clouds and then regained his person, looking at the battle-weary Lin Hao, Pope Peter was standing in mid-air as this one friend, which made the sensible Lin Hao also confused, what was going on with Pope Peter? He had been wounded by himself, why didn't he see his anger boiling over, instead he was in a friend stance!

'Turn into your strongest stance and fight me!' The blackened Lin Hao roared and once again threw a punch, but the power of this punch was not as terrifying as the previous Life and Death Absolute, it seemed a bit soft

When Pope Peter looked at Lin Hao like this, he laughed lightly, chattered out a mouthful of blood, and said, 'Mr. Lin, I have a very important message to tell you about Shen Xiyang.'

'I don't have time to joke with you!' Lin Hao under blackening when Pope Peter was halfway through saying? 依侍地伍零染染染染?, that fist struck again, but this provocative fist, in the eyes of Pope Peter, was just an incomparably slow fist, which he dodged without much effort

It was only when Pope Peter finished that Lin Hao, who was suppressed by his blackened state, rose up in direct resistance!

The blackened state of Lin Hao covered his head, his face was in agony and he was struggling terribly, which made Pope Peter inexplicably puzzled, and at the same time he felt the power he was looking for slowly disappearing!

At this time, the vampire king's eyes lit up!

To be honest Lin Hao's outburst had shocked him and at the same time made him feel intimidated!

This was the strength of the Chinese King Lin Hao, it was too terrifying! Previously he had felt that Lin Hao was no match for him and had always looked down on him! Even when he invited Lin Hao to throw a punch he didn't think Lin Hao was any more powerful than himself, after all, Lin Hao had taken a punch from Pope Peter, and so had he! And he had invited him just to draw on the power of the force, the four of them sharing Pope Peter's strongest blow together!

As long as this blow was carried off, Pope Peter would be at their mercy, but he had a good idea, however, Lin Hao didn't give them that chance!

Because Lin Hao had wounded Pope Peter all by himself, that kind of terror! It was unbelievable!

But now that Lin Hao and Pope Peter were both incomparably weak, wasn't this the best opportunity for him to finish them off?

If he didn't seize this opportunity, he really wouldn't stand a chance!

The Vampire King was overjoyed and shouted to the White Bear King and the Black Crocodile King as well as the Silver Wolf King, 'Take their lives while you can!'

Super Son-in-law Chapter 1337-1338

Chapter 1337

The three of them all ignored the situation and swarmed on each other, not giving Lin Hao a chance to fight for himself at all!

Lin Hao in his blackened state was so intensely fighting at this moment that he didn't want to stop at all, but when Lin Hao heard the question about Shen Xiyao, his whole demeanor tensed up and he wanted to ask a question, that's why he struggled so violently, Shen Xiyao was Lin Hao's life! Lin Hao would definitely not allow any accidents to happen to Shen Xiyao.

The Pope looked at the three fierce people looking for death, the corners of his mouth revealed a cold smile, the next moment, the senior biochemists who had been prostrating on the ground, once again viciously pressed into the ground, their entire bodies hated to be embedded into the earth, they were being fed energy by the Pope again!

This is one of the secrets of the Pope's power, that is, in Western Europe, all high level biochemists are just the power of the Pope, if he wants, he can put a high level? Earth zero closed service closed ground service cover? biochemist to ingest energy until the other person simply dies!

This is one of the main conditions of the Pope's invincibility in Western Europe!

‘How can you still perform a move like that! This can’t be! Their essence blood is almost drained!’ The Vampire King shouted in rage and despair as he saw Pope Peter grow stronger again and the sky turn red again.

Pope Peter didn’t care about the Vampire King’s roar, but turned on the three of them and slashed his claws across!

The irresistible blow slashed through the bodies of the three men!

Three streams of blood were instantly spilled all over the sky.

The White Bear King’s two remaining thighs had been severed, and now only one torso heel remained as he violently had to slam down, like a comet that had lost its life’s orbit

The black crocodile king also lost another front palm, the whole person shouted and roared in pain, and of course his body was like a cannonball, smashing fiercely into the ground, the huge impact sound and the terrifying force collapsed the ground, the debris flew and rolled, the river water poured in, not long, the huge crater smashed by the black crocodile king was flooded by the river, the originally clear river water was immediately muddied by two breaths, one was red with the smell of blood, one was black with the smell of foul odour

The huge bat stirred his wings with all his might, and although blood was pouring out of his chest, he managed to control the spread of his wounds. Finally, a foot above the ground, the vampire king stood firmly on his heels, but his trembling body shook incessantly

At first

glance, it was clear that he was badly injured, but he held back the pain for the sake of his pride and did not allow himself to fall into the water in a mess, otherwise he would have been too bad even if he had won

The pope did not stop with a single blow this time because of his noble status, but after seeing that the vampire king had actually stood firm, his whole body flew quickly, his huge wings, flapping at a speed that exceeded the vampire king's fastest speed!

The Vampire King's face was incomparable, he couldn't help but see Mohammed Katou, who looked like a dead fish in the distance, his eyes flashed, and in this short second, without waiting for Mohammed Katou's reaction, he directly snatched the Pope's scepter from his hand, and then, seeing Pope Peter's huge wings coming, he used the last of the scepter's power to launch a counterattack!

‘BANG BANG!!!’

The river was so huge that the vampire king skidded on the surface of the water for dozens of steps before stopping, and the next moment the papal scepter he held in his hand, the precious blue energy stone cracked inch by inch, and finally the scepter lost its original luster, becoming only a study of ancient craftsmanship, and no longer a symbol of status as well as power

Chapter 1338

Mohammad Katu heartache incomparable, just look at the vampire king he did not dare to speak, in fact, he was just scared, he was very afraid, if just now the vampire king used him as a target to block the pope's blow, what would he be now? Terror are already a puddle of mud, right

he still believes in his heart that the vampire king can make this move, after all, the death of the tiger shark, in his eyes? zero west zero land west pickwood er? Just a mole die, and is not

subordinate, and he or she is still alive, then that means that he or she still has the value of using

Suddenly the vampire king became a little confused, he had easily become a senior biochemist, I thought I could use the king's position, become no longer hide and run carefully, but now it seems that he thought too much, he was just the trigger for the vampire king to start this war, and the role is to assist him to kill more biochemists, he was glad that he did not make a mistake at that time, thinking that he was afraid of not to do hard because he might make enemies around

'And hide?' Pope Peter was furious, his body became smaller again and his whole body became even faster, now he was in a good mood, but the anger in his heart did not become dissipated with a pleasant answer, one size does not fit all!

Looking at Pope Peter coming after him again, the fleeing vampire dynasty flew towards Lin Hao, he felt that now was a good opportunity to settle Lin Hao, Lin Hao's strength let him know that this man was not under his control, and Lin Hao was not his ally, so he would be happy if Lin Hao died, after all, Lin Hao still had his own noble status in Western Europe, and was also recognized by the Church, if this man also eventually started the King vs. Pope, he would not be able to beat him! So, he had to kill him while he was sick!

The reason he wanted to kill Lin Hao in this situation was all because his ally was not Lin Hao, but the Iron Wings T3000, and the entire North American Mechanical Legion

'King Hua Xia beware!' Pope Peter looked at the signs of the Vampire King and couldn't help but shout out!

But he knew that he was, after all, too slow, the Vampire King had suddenly burst out, was flying upwards at a desperate pace, and that Lin Hao was too close to the Vampire King! So close that this interval didn't give the Vampire King a time to catch up at all!

'Silver Wolf King Bigel save Lin Hao! Your mission for today is complete!'

'No way!' Another voice roared.

Boris froze directly after hearing this, meaning that they had given up on Lin Hao as an ally? This

Lin Hao was powerful, a terrifying partner that could allow them to subvert the Pope and the churches that were under his banner, if they offended Lin Hao as well, wouldn't that mean that they, the ZF, would have to rely on the Giant Eagle King, the weakest king in their midst, again? Wouldn't that be the same as them, standing still?

Aren't they seeking to break the game? Why have they all arrived at such a good opportunity! Once Lin Hao returned from his awakening, he would most likely be able to kill the Pope's! And wouldn't Lin Hao's strike against the Pope just prove that he was willing to cooperate deeply with the ZF? This

'Why! Didn't he strike for us? Isn't he our powerful ally?'

Super Son-in-law Chapter 1339-1340

Boris questioned with a near hiss.

A voice came from there, 'Boris, he is a Chinese after all! How can we trust him when his cooperation with us, or lack of it, is just a word of advice?'

'Yes, Boris, he? Dyed in the sand? Just a Chinese! How can we trust a Chinese? Even if he is powerful and vulnerable wins? If the Pope dies, there is no one stronger than him! The strongest of the mechanical legion over in North America is coming across the sea, we are allowed to use nuclear weapons, but against him, do you dare to use them? Would the Chinese government allow us to use nuclear weapons against their strongmen? Aren't you really afraid of facing the majesty of the Chinese nation today?'

With these words, the scene was once again silent, yes. They could use nuclear weapons against the North American Russians, that was the common decision of the world at the moment on how to target North American Russians, but what about China? China is a country of etiquette, they do not have many top-level powerhouses, but the strength of their middle strength can be compared to the strongest, plus the other side has become a hidden technological power, when their nuclear weapons to target the king of China, is not the same as annoying the country of China?

When the other side takes the opportunity to counterattack and say that back then, the Eight-Nation Alliance opened the door to their country, causing them to regress for hundreds of years, once such a situation happens, the country of F really cannot afford the pressure of public opinion in the world.

As for the Chinese nation, it is now firmly in the running for a new round of world supremacy.

What happened back then, the invading allied forces, led by the Eight-Nation Alliance, are now trembling in fear. Who knows if China will return to clean up after them if it does become the hegemon of the earth? So the stronger the country of China is, the greater the pressure in their hearts

And this Boris, just see a glimpse of the immediate good, but want to keep following so much, this is just a young politician, how can with decide the future international changes?

Still too young

The pope's heart ached as he watched the vampire king's angry and hysterical strike, the vampire king was such a crazy person, even thinking of killing people stronger than him at this time, why was his faith so determined?

Pope Peter thought about it, perhaps this is a thousand years of resentment

The King of China, after all, also has a Chinese king status in Western Europe nowadays, and is still more powerful than him. If he loses himself, he won't be able to be a pope either

Just he just thinks he can lose in Western Europe?

Once Lin Hao is dead, he will really be invincible in Western Europe! But he doesn't want Lin Hao, because Lin Hao is involved in his future grand plan!

But he couldn't keep up with the Vampire King's speed!

The Giant Eagle King and the Silver Wolf King Bigir looked at each other, just about to make a move, but quietly dropped it, and could only watch the scene unfold in front of him. The Giant Eagle King only knew at this time that, as it turned out, the person playing chess was not himself. Himself at best acted as a fighter centuries of strong men, finally reduced to ZF mercenaries, from one organization to another, but always an outsider, his face showed the silent sorrow of a strong man, the giant eagle king lost his mind for a moment, then stared at Lin Hao there.

Where Pope Peter and the Vampire King, the Silver Wolf King, had not noticed, the Iron Wings T3000 had assembled his armoury and were slowly approaching Lin Hao as well, and their target, apart from Lin Hao, was Pope Peter!

It's over, they're all screwed!

'Get the hell out of my way! I'll fight him to the death! If you kill him, you can definitely save Shen Xiyang!' Blackened Lin Hao roared in rage as he took control of Lin Hao's body and fought for it in the air, going berserk!

'No, he knows Xiyang's secret! He absolutely cannot be allowed to die!' Lin Hao roared in rage, hysterical. The reason why he reacted so tremendously was that there was something in Pope Peter's words, he knew that Peter was spying on them, so he was sure that Pope Peter must know something about Shen Xiyang, and as a strong person at the peak of the middle level of Grand Master, he felt that Pope Peter's eyesight must be too powerful compared to the likes of the Ascended Masters, just as the Vampire King, a junior Grand Master, could determine how to cure Shen Xiyang without looking any further, such an How could he not trust Pope Peter?

Of course, the main thing here is that Lin Hao is too worried about Shen Xi Yan, he does not believe in missing a single question about Shen Xi Yan, she is not only herself now, but also their two children, Lin Hao is not willing to face any hint of the possibility that he will be the closest relative again! He couldn't accept it!

Or how could he accept what happened that day under such a heaven and earth? If Lin Qingcheng was around, she certainly wouldn't want history to repeat itself

'Get lost! There are curmudgeons coming!' Blackened Lin Hao roared, snatching control of his body!

This caused Lin Hao's body to sway in the air like a giant lighthouse staring at a hurricane, with a precarious meaning

Lin Hao did not give up because of the blackened Lin Hao's words, he could feel that Pope Peter was no longer a match for Lin Hao in his blackened state, but Lin Hao also knew that Pope Peter would certainly not sit around and wait to be killed by them, but after completely offending Pope Peter, then everything about Shen Xiyan would never be known!

Chapter 1340

'Stop it! That's about the Shen Xiyan issue, you have to know that your appearance, that's all because of Shen Xiyan! You are the nightmare of Shen Xiyan in my heart!' Lin Hao's cold voice said, he let Lin Hao in his blackened state free, wasn't it because blackened Lin Hao was closely related to everything that had happened to Shen Xiyan and him in the past? If Shen Xiyan was hurt in the slightest, Lin Hao would never let go of the slightest chance he had to take revenge! Even if it was himself, he wouldn't!

‘Trying to make me stop, that’s impossible!’ The blackened Lin Hao roared, hardened his attitude, and with half of his control, he struck out at the Vampire King who was coming towards them with a blazing blow, blackness filling the air, space collapsing around him, a whistling burst of sound with a terrifyingly determined killing intent, the space around him trembling violently, the power of this blow was incomparably terrifying! If the Vampire King was not careful, he might even die by their hands!

The Vampire King’s eyes glared as endless fear hovered in his eyes, he couldn’t have imagined that Lin Hao, in his current state, could still have such a quick time to counterattack! Damn it! But luckily, he had his helpers in the air too!

‘Iron Wings T3000, kill him while you still can! He carries the Heart of Regeneration on his body! Kill him and the Heart of Regeneration will be yours!’

‘What! You gave him the Heart of Regeneration, dead bat, do you know what would have happened to you if you had lost it? What a damned thing! Forget it, I’ll get it myself!’ A voice of anger spat out from beneath the iron helmet-covered head of the Iron Wings!

He was uncomfortable in his heart, thinking that this damned thing was expecting them, saying that the first gift of thanks for their coming would be the Heart of Regeneration, but unfortunately for this boy, he wanted to use the Heart of Regeneration, left and right!

But so be it, now killing a Chinese powerhouse is something they would be very happy to see!

M and China are in a hostile relationship, and their Iron Legion is a powerful product that is completely under the jurisdiction of the ZF army, killing a Chinese strongman is a way to get to? The killing of a Chinese strongman is a great honour! High honour!

Lin Hao directly ignored the Iron Wings, blackened Lin Hao felt that the Vampire King was simply abominable, to deceive them! This man deserved to die, he didn't deserve to die! So, he would kill him! No matter what, he had to kill him!

In his blackened state, Lin Hao was mad, the most emotionally stimulated, and if Lin Hao's own execution had been carried out, he certainly wouldn't have been so mad as to leave his back to a powerful man, because with their current bodies, these two men, no, even if the Vampire King had brought the White Bear and Black Crocodile Twin Kings along with the Iron Wings T3000 and his legion, they would not have been a match for them!

'Not good!' Jun Wu Ren was furious, he saw how terrifying Lin Hao was once again, but he also saw how crazy Lin Hao was at that moment, to leave such a perfect back to a superpower, wasn't that the same as being helpless? Lin Hao was not such a person!

What had happened? Did something happen to Madam Lin's side, Shen Xiyang?

Damn F, if Lin Hao fell over here, he definitely wouldn't make it easy for the F's!

Jun Wu Ren stepped from his spot and his entire body flew directly towards Lin Hao's side, extremely fast, weaving directly through the red barrier and through the blood-filled Garong River!

‘Another strong man arriving? King level strength! No, more powerful than a king class, this’

The Giant Eagle King stared and his whole body shook, surprisingly there was still a peak king level expert hiding, and by the looks of it, it seemed to be from the Chinese side! This

Pope Peter stared at Jun Wu Ren and also shook his head, he felt that even if Jun Wu Ren came out, it would be difficult to unlock the current situation, and it was even highly likely that he would get himself involved!

But Pope Peter gritted his teeth, he didn’t want to see Lin Hao die like this! He felt that he would not let Lin Hao die even if he still had a breath!

He couldn’t afford to miss out on a thousand-year plan, or else he wouldn’t be able to wait another thousand years!

And, he may not live another thousand years, looking at the group of advanced biochemicals, which is the source of their vitality for a thousand years, but now they are almost spoiled by themselves, and the foundation is not stable now, it is still difficult to build another advanced biochemical ecosystem in time, and even if it is built, with the infiltration ability of the ZF, not many of them can be used for him

The actual fact is that you’ll be able to get a lot more than just a few of these.

He flew up and was heading towards the mechanical army.

The Iron Wings T3000 stared at the reappearance of the Chinese T3000 level powerhouse and perked up, because in his opinion, the Vampire King was his subordinate, and nowadays Western Europe was their backyard in M. Once they took care of Lin Hao, they could completely spare their hands to deal with this Chinese in front of them!

Two of China's T3000 level masters are going to die under his own hands!

Hahahahahahaha

'Hahahahahahaha

'Such a great feat, I can't believe I've met it! What a happy mood!' Steel Wings T3000 laughed loudly in excitement

'BANG BANG BANG!!!'

Violent sounds came out as Lin Hao hammered hard at the Vampire King's huge bat head, landing punch after punch, beating the Vampire King to a bloody pulp!

The tearing pain caused the Vampire King to wail and shout in anger, 'Don't do anything yet!'

There he knew that he didn't even have the strength to become the Chinese King Lin Hao for a single blow, damn him! Silver Wolf King Bigir's heart was pounding violently as he watched this image, was Hua Xia King Lin Hao so terrifyingly strong?

The Giant Eagle King's heart was also pounding!
