

Super Son-in-law Chapter 1401-1410

Chapter 1401

It's not just the giant sharks who are upset, the others are also very upset... it's rare to see such behaviour in M! They are a proud race! It is the intelligent ones, the world dominators!

The little China is not in their presence. The little Chinese are no match for them?
Enough to see

'Oh, deputy, you always talk like this about how great China is, but what is great about it? The first thing you can say is that they are really good. We know you have a high status, but it doesn't mean that whatever you say is true. As we all know, the radicals in the country or intellectuals who think they have some knowledge, plus a bunch of old schoolboys, are always talking about how great China is! Haven't you ever been out of Area 51? Oh, I forgot, you've been at the base for over a hundred years and really don't know the outside world! Look at our land, there are Hwa Hsia people coming on pilgrimage in every place! They can't be driven away, they can't be scolded, they can be humiliated!' The giant shark T4000 said triumphantly.

After he finished, several people echoed the sentiment, this was the picture they saw, not a single adulteration, except that some of them, just like those in Giant Shark T4000's mouth, had read some books and studied the history of the Chinese, and then made the same arguments as the deputy captain, only unfortunately. You can never wake someone who is faking their sleep

After all, when you are awake alone, or when a few people are awake. You can never wake up a group of people who are pretending to be asleep, no matter what.

Because it is their pride, and if you strike their pride, you are insulting their dignity! That is something that no one wants to accept!

That was the case with that group of people, led by the giant shark.

He said that the deputy captain had not been outside the base for years, but how had the sharks themselves ever really understood how the Chinese community had changed in the last few years?

They no longer see M as a place of pilgrimage, they just see it as a place to hide from crime after having the most economic criminals in the world in M. Criminals all run to M. This is no longer a pilgrimage paradise, but the strongest haven for criminals It is ridiculous that this group of criminals still hold their own companies in M and then think, how can they offset the economic crimes and return to their own country

The deputy captain looked at the giant shark still so blindly convinced of what China looked like decades ago, and he had countless others to echo his remarks, and this is what hurt his heart. History always moves on, and the wheels of history will crush the victors who still stand complacent in their positions back then!

The deputy captain said with a smile, 'If you had really infiltrated inside the more orthodox traditional Chinese martial arts clans, you might have known that they, the orthodox clans, would not have been tainted with purple energy. And what we are spreading out might just be the same policy that the Dragon Sect is trying to propagate, we might be helping the Dragon Sect to do the graft! After all, this group of powerful people from the Dragon Sect, they don't have purple qi around them either!'

At these words, the whole room erupted!

The giant shark was shocked and his entire being felt turned upside down!

The Chinese orthodox heritage clan was indeed something they couldn't infiltrate no matter what! After all, the more orthodox this race is, the more they believe in the saying, 'If it's not my race, it's different. So no matter how much resources they were given, or money they were given, or whatever, they could not enter them to cultivate.

Chapter 1402

After all, they will also keep up with the times, once they find out that the person's blood is not full of Chinese blood, they will definitely not recruit! This is externally, but internally, they are also extremely strict, and when they recruit a foreign disciple, they look up the person's ancestors to see if his or her roots are clean! Then they will also trace his past, and only finally to look at the other person's roots, so cautious and strict checks, to be honest, even if they can buy to train traitors, but really can not infiltrate

After all, if you want to brainwash a person, it's a long time to do it day and night. And then if such a piece of the past is missing, the other side will immediately know that the person has a ghost!

This is where the horror of China comes in, it is better to believe it than not to believe it! Meaning, once the slightest flaw appears, the other side simply denies it

'That's impossible!' The giant shark finally smashed and said, honestly, it hit him too hard!

They thought to themselves, made a good? Shan Shan Wu Ai Yi Wu picketing service? Hands and feet, and then to the head man, but to help the Dragon Gate as a graft, this let them this group of conceited and proud people how to accept!

‘Deputy, you must be talking nonsense!’ The mellow voice of the giant shark T4000 said in a low voice, expressing his anger!

The Deputy Captain’s icy voice resumed, ‘It’s not like you weren’t at that stop fifty years ago! You also took part in that stop fifty years ago and decades before that. Tell me yourself, in that group of Huaxia’s bottom powerhouse, did they show signs of purple energy?’

Once this statement was made, the giant shark T4000 was directly silent and did not speak.

The deputy captain felt the silence in the virtual conference room and breathed a sigh of relief. After more than ten years of deduction, he had finally discovered something extraordinary, it was just a pity that he had never had the chance to publish it in a big way, because he was afraid that it would cause displeasure to this group of people!

If he hadn’t happened to find this opportunity, also out of the same two Purple Qi powerhouses, Lin Hao and Jun Wu Ren, he really wouldn’t have known how to find an opportunity to say these words, so that this group of people would raise their spirits and then face China again!

After all, even if they had said that they had won the battle at that stop decades ago, had the Holy Lord ever said that they had won? The Holy Lord didn't say that, so that means they didn't win

Just so as not to discourage this group of people, the Holy Lord also took it as silent and did not comment. So the group was allowed to think that they had won. Of course there was still suspicion back then, but then the whole world came on pilgrimage to M, which made them even more convinced about the conclusion that they just won big!

'Then, no matter what, we will kill Lin Hao and Jun Wu Ren!' A voice finally rang out from a man who had been silent for a long time, he was no longer dwelling on the victory and defeat back then and the various statements now in the present, he didn't care how M was developing at the moment, that wasn't something he had to pay attention to, all he cared about was what would happen next to these people of extraordinary strength!

'Yes, the purple qi is a divine collection of things, no matter what, we can not let them in China, after all, the divine collection of such things, can perfectly accelerate the strength of the strength of the person refinement countless times, and the weird thing is, China now has thousands of years of unused purple qi divine collection, once they each innate master use it, there will be countless great success, even break through the great master Once each one of them uses it, countless Grand Masters will emerge, even breaking through to the Grand Master! Everyone here knows that the Chinese Ascended Masters are even more powerful than the average T2000 level cyborg, and some of them can even match the T3000!'

Super Son-in-law Chapter 1403-1404

Chapter 1403

When it comes to fighting a T3000 level powerhouse, this group of people immediately thought of the Dragon Sect. The strongest warriors inside the Dragon Gate were the strongest warriors in China, their strength was terrifying and their will to fight was even more difficult for ordinary people to reach. Some of their T3000 level cyborgs would have some stage fright even when facing this group of warriors

‘We must kill them both, no matter what!’

A chorus of echoes rang out, the deputy captain T4000 went straight to silence, the seriousness of the matter was completely lost on this group, all they wanted was to deceive at all times.

He glanced sadly towards the ceiling, there were some things that really weren't his to change. And what about the Holy Lord, what was the Holy Lord thinking? Why did the Holy Lord never care, no matter what happened, why did he never care what the future held for his people when he was the head of all the Mechanics?

Is it really like the saying that goes around that the superpowers, are all cold-blooded?

Perhaps so.

After all, the powerful rioted in Western Europe, killing and injuring countless people. Yet Pope Peter treated them like grass, without remembrance or care. He even took power in their bodies himself.

He couldn't do it.

Looking at the man who was plotting, Deputy Captain T4000 fiddled with his iron hooked arm as he pondered his next plan.

Inside his bedroom, there was a projection of a map of the world, with China, the Bear Kingdom, and East Japan marked in order of colour in deep red, red, and light red

On the high seas.

While following the signs of the high seas, Forest Wolf T4000, who was participating in the meeting, looked ahead. In fact, at the moment of the death of the Iron Wings T3000, his mission on this trip was a complete success before, but because of this meeting, his mission, did not end here!

Because of the theme of this meeting, that was the killing of Lin Hao! To cut off the news that the Chinese martial arts world could use the Purple Qi from him forever! Let the Chinese martial arts world always regard the Divine Hidden Purple Qi as dross!

Sensing that Lin Hao was coming at a rapid pace, it was finally time for the Forest Wolf T4000 to speak his mind!

He was a newly promoted T4000 level cyborg and had only just been exposed to Legion meetings, so he didn't dare to happen much. The T3000 level members, not to mention making remarks, many of them were not even qualified to participate in this meeting

‘Everyone, the King of China, Lin Hao, is less than two minutes away from me! I will definitely live up to the Holy Lord’s high expectations and kill the King of China and Jun Wu Ren! I will make sure that this secret is cut off from them forever!’ Wolf of the Forest T3000 said solemnly.

The giant shark exclaimed, ‘Good! Forest Wolf will definitely bring back his corpse for dissection by us!’

‘Yes, he is so strong, he must have an unspeakable secret, we must bring back his corpse. If? Shanshanxi zero yifu yipao? Once we have studied it thoroughly, when the time comes to create a few functions, our strength will be refined a lot more!’

Many people shouted.

They did not have the slightest doubt that the Forest Wolf T4000 would be able to kill Lin Hao, and they believed that once Lin Hao dared to come and meet with the Forest Wolf, then he would definitely die! And there was no doubt about it!

Even though the sea was now filled with warships and weapons from all countries, they had already received word that World War III would not be fought!

Chapter 1404

Because, when thermal weapons can control the powerful, the ZF department will not cause too much of a stir because of the powerful.

Peace, always the theme of the world!

Even the M's would not like to see any degree of war. Of course, a war of the same level, not a crushing war For a crushing war, they are still happy to wage it

'I will!' Forest Wolf T4000 said with a smile, his heart incomparably smug.

Another credit to be made?

Today could be the day of one's rise to power!

I was worried that I hadn't saved the Iron Wings T3000? The Wusanzai zero flicker of service? But everyone simply ignored the life and death of the Iron Wings T3000 and began to divide and share the regenerated hearts. Perhaps that was the interest.

But it was just what he wanted, once he killed Lin Hao and brought his body back to Sector 51, then he would be the biggest contributor to the Mechanical Legion into the 21st century!

He was already about to enjoy the joy of victory.

Excitement and exhilaration, countless emotions in his heart, it was hard to express

Not only him, but the entire top echelon of the Mechanical Legion was in excitement because the conspiracy was about to succeed and their fears were about to end. They didn't need to go out and take the trouble to solve a big problem, as for whether or not this trouble was eradicated, they didn't care, all they cared about was not disturbing their holiday

Flying out of the signal shield, Lin Hao stopped.

Forest Wolf T4000 froze for a moment, 'What's going on, why did he stop, is he scared, damn it! It's amazing that the place where he stopped is just above the marine territory of Western Europe, I wouldn't dare to offend in this territory!'

The giant shark felt the scene and immediately roared, 'Does this Lin Hao sense danger! Cunning Chinese, to retreat at the slightest hint of danger! Damn it, damn it!'

'Cowardly Chinese! Damn them all! Is our reckoning really just going to go nowhere?'

'Damn it! I think it's sensing more and more troublesome things!'

'Guys, don't worry, even if he fears death now, he will never back down, you know he is capable of doing anything for his wife! From what we have learnt so far, Shen Xiyan's body is in great need of the Heart of Regeneration, and now that the Forest Wolf happens to have the other half of the Heart of Regeneration on him, then the odds are that Lin Hao will go ahead. Even if he is blocked by the Dragon Sect, but with his character, he will definitely come to grab

the Regeneration Heart! So, he will definitely die!’ A sensible T4000 level cyborg powerhouse said calmly.

Hearing such a sentence, everyone’s breath calmed down.

The deputy captain had just thought that it was something that could be looked at, to wait and let Lin Hao die a little slower so that they could be impressed internally that China was developing at a high rate and let them be on their guard.

But just like this reminder just now, this Lin Hao is a complete and utter reckless man! A man of strength overwhelmed by love!

A powerhouse with super strength, yet he is wrapped up in worldly ennui, it’s still ridiculous

‘King of China! Don’t you want the Heart of Regeneration? I have it in my hand, don’t stop, come here!’ The Forest Wolf T4000 shouted at Lin Hao, his voice was loud, like a radio transmitter at sea, the radiation range was wide, everyone could hear it, even some fishing boats passing by or even people on top of cruise ships on holiday could hear it clearly.

Super Son-in-law Chapter 1405-1406

Chapter 1405

They inexplicably heard such a sentence, each of them looked at each other, and then asked the people around them if they heard such a sentence

The cold smile on the corner of his mouth was strong when Lin Hao, who was answering the satellite phone, heard such a phrase, and at the same time there was a burst of joy, there really was!

He was trying to find out if this person had the Heart of Regeneration on him, but the way he couldn't wait to tell himself, he seemed to think of himself as prey

'Killed' their T3000 level cyborg and made them angry? Unfortunately, this is just the beginning!' Lin Hao said darkly.

The matter of the Rhythm Regeneration Heart was something Lin Hao had taken to heart and would never forget! Anything that could threaten Shen Xiyan, Lin Hao would not turn a blind eye to!

'I am Yuan Wu.' A dull voice rang out next to Lin Hao's ear, this call interrupted Lin Hao's original thought of calling Shen Xiyan.

'Yuan Wu?' Lin Hao murmured, then asked, 'Someone from the Dragon Sect?'

'Right.' Yuan Wu nodded and didn't ask how Lin Hao knew the reason why he was from the Dragon Sect.

Because he didn't need to think about any of this, Lin Hao had stayed and worked together with Jun Wu Regret for a long time. Most of the information Jun Wu Regret knew would

have been told to him? The reason for this was that he didn't have to think about it. After all, Jun Wu Regret is the one who is going to enter the Dragon Sect!

It's just that they hadn't counted on the Lin family's Lin Hao to be so outstanding, so they had been wrong.

But this is also a surprise for them

A powerful mid-Grand Master superpower, how much of a deterrent he is, no need for Yuan Wu to say.

Lin Hao knew about the Dragon Sect not really because Jun Wuhui had mentioned it to him excessively, but because of what the Iron Wings T3000 had told him a short while ago.

He didn't really know much about the Dragon Sect.

'I don't know what the genin called to see me about. I've already asked Brother Jun to secretly repatriate the Iron Wings T3000 back home. I heard that the Dragon Sect was keen to lay hold of an advanced cyborg back for research, only it seems that because they didn't catch each other, they would all blow themselves up. But now there is a chance, the Steel Wing T3000 personally begged me for mercy, only his request is that he is willing to cooperate with your research, but he does not want you to imprison him to study day and night, I also hope that the genro can respect him. After all, people surrendered because of me, ' Lin Hao said with more respect.

Faced with the sudden arrival of the Dragon Gate, Lin Hao could only be forced to accept it. Only the request that the Iron Wings T3000 had made to him before, Lin Hao still repeated it for him.

It wasn't that Lin Hao wanted to threaten the Dragon Gate, nor did he have any distrust of Lin Hao, but he didn't want the Iron Wings T3000 to be imprisoned too cruelly inside the Dragon Gate again, leading to self-destruction, and then he wouldn't get a report on the research of the robots.

Then a subsequent conflict with the mechanical legion would remain a bewildering unknown, and Lin Hao still felt somewhat troubled. After all, a so cooperative traitor willing to cooperate with their research, when the time thought that a certain person a certain factor this traitor died, he died or not, for Lin Hao does not matter! What mattered was how much of his secret was researched before he died.

Tianhai Bund!

The phone Yuan Wu was holding trembled violently, grabbing the cyborg, and it was the Iron Wings T3000!

'Yuan Lao, what's wrong with you, are you not feeling well? Is something wrong over in Western Europe?' His men asked anxiously, the genin's body reacted so much, could it be, that something went wrong? Was this M Nation's mechanical army really that terrifying? It was even more terrifying than the ones they had fought before?

‘No, not physically uncomfortable! Rather, it’s too comfortable!’ Yuan Wu shouted excitedly.

‘Xiao Ce! Do you know what the Lin family master told me just now? He said he had captured a cyborg! And it’s an Iron Wings T3000! It’s a T3000-class cyborg, alive! And there’s more to it, he’s an Ironwing!’ He then shouted, his voice starting to tremble!

The Dragon Sect had been trying for so many years to capture a cyborg and use it for research, but no matter what they did, they never got what they wanted, and now, now this chance! Here it was!

Could he not be excited? There were not many things he wanted to pursue in his life, and the biggest wish in his heart was to find the weakness of the mechanical army, because he? Lu Fuzhan Xi Ai Wu Fuzhan Closed? couldn’t let go of the security of his homeland!

Now! They can finally solve the depression caused by the Mechanical Legion!

‘Genro, this Lin family master, he is too terrifying, isn’t he? He’s so powerful that he was able to bring the Iron Wings T3000 to its knees? But you must know that the Wings of Steel is one of the most advanced of the second generation of robots, covering almost all the technology of the entire Mechanical Legion! And he will also be involved in the third generation of cyborgs! Once we get hold of his secrets, we will know most of the secrets of the Mechanical Legion!’ Xiao Ce’s military aura was strong, and the more he spoke, the more excited he became. The aura of iron blood boiled up in his body.

‘Haha!’ Yuan Wu was so excited that he laughed loudly and cheerfully, in all these years, nothing had made him happier than this one!

‘Elder Yuan, don’t get too excited, your body is important!’ Xiao Ce hurriedly went up to assist him.

But the old man pushed him away, and his body, which was as old as a bell before, was now like a tough warrior, with an attitude of a man who can’t be defeated, as if he had returned to his old days of vigour and vigour!

He is so happy! It’s a blessing for all of China!

‘Can I not be excited? This Lin family head is a great blessing to us!’ Yuan Wu said, ‘This second generation of robots is incredibly powerful and has many secrets! Now that we have received news that the Mechanical Legion has obtained the Regenerating Heart of Western Europe, I’m afraid that in the near future, we will be able to create a third generation cyborg! We were discussing before that if we didn’t even have control over the weaknesses of the second-generation robots, then if the third-generation robots went into battle, I’m afraid that our Dragon Sect disciples would suffer again! Good thing, good thing that the heavens have goodness in them

The second generation of cyborgs is so terrifying, if the third generation of cyborgs is really researched by the M country, I’m afraid the world will really be in chaos, thinking about that image, Xiao Ce is trembling, because with the M country’s hegemonic mind, who knows what he will do?

‘Xiao Ce, go and inform Qin Hu and Yang Long now, and tell them to go and greet Jun Wu Regret, and remember, make sure you give the greatest salute! He is a meritorious servant, and the approval department had better speed up the process of his joining the Dragon Sect, if this matter has to be delayed, I want to see who treats the Dragon Sect as a backyard! Tell

them what Dragon Sect is all about! If we don't hammer some people at Dragon Sect, I'm afraid that group of people won't even know what Dragon Sect is for!' Yuan Wu pounded his fist on the red flag car next to him and a huge hole was dented.

An old man, surprisingly has such strong strength, I'm afraid that back then was also a strong man, it's just a pity that the years are merciless, in his face, leaving all the marks

Super Son-in-law Chapter 1407-1408

Chapter 1407

A feeling of a hero in his old age, rampant on his face

'Yes!'

Xiao Ce looked at the old man's service to cover the west love to close the wu service back, knew that he was going to clear the Dragon Gate, think about it, nowadays at this time, if there was some kind of chaos, who knows what great things would happen?

Lin Hao could feel the two talking and could hear the old man's thick, strong but old voice. Listening to his words, Lin Hao looked up at the east and thought to himself: with such an old general, why not worry about the prosperity of China?

After chatting briefly with Xiao Ce, Yuan Wu immediately went on to say to Lin Hao, 'Master Lin, this time, you are again a great credit to China!'

Lin Hao's body shook slightly at this sudden appreciation and praise. This Yuan Wu's identity was not ordinary, that was a Dragon Sect power level figure, his words were too deep in force!

'Elder Yuan, this is all what I should do.' Lin Hao said, except that his eyes kept staring ahead.

Above the open sea, it was becoming increasingly dangerous. Countless powerful people stood on the boundary line of their own seas, a leap of power within them, a crisis, growing, above the sea, which was not calm, and now the waves were slowly raging up in a big, congratulatory way!

'No, Lin family master. This Iron Wings T3000 to the Dragon Gate role you may not have thought of at all.' The patriarch said calmly.

'The Dragon Sect has been rubbing shoulders with the Mechanical Legion for decades, and knows the horrors involved! And the other side iterates so quickly, the technology in it is so subtle, we have never been in control of the other side's cracking code, under today, there will be a third generation machine out immediately, once the third generation machine appears, their strength will be extremely terrifying, at that time, Dragon Sect will have a large number of deaths again!' The Genro's voice was slightly icy.

'The Dragon Sect is not an enemy of the world, it only defends the borders of China!'

Lin Hao nodded, aware of the thousand year old philosophy of China. After all, this Chinese frontier, what should be developed, the ancient sages, the high patriarchs and saintly

ancestors had already fought almost, and what was not incorporated into the territory, most of it was some barren land.

Lin Hao looked ahead and did not mean to rush, 'Elder Yuan, I wonder what you need to instruct me to do for your sudden visit.'

The Yuan Lao immediately said, 'Haha, cough' He was so excited and forgetful that he had almost forgotten the real purpose of this visit to Lin Hao.

He moistened his throat, 'Lin family master, above the high seas, we do not want you to go out, after all, above the high seas, but the default territory of M. Although Huaxia is strong, but it has only revived a few decades of heritage, it is no match for the heritage of M! But the soul of China is definitely not comparable to that of M! So, let's hope that's the end of it.'

Dissuaded?

Lin Hao lowered his eyebrows, then shook his head, although the Yuan Lao was a very strong and respected elder! But Shen Xiyuan is also very important, he definitely will not let go of Shen Xiyuan regardless!

Although the Wolf of the Forest T4000 is strong, it is not invincible!

And the more he knew about the Mechanical Army, the more he felt the terror of the other side. Of course, he was not afraid of the Mechanical Army, but that did not mean that Shen Xiyuan could wait!

Time does not wait for anyone!

Nor will chance stand still!

It was self-deceiving to carve a boat for a sword!

Seeing that Lin Hao did not speak for a long time, Yuan Lao continued, 'Lin family master, a gentleman

Lin Hao directly interrupted Yuan Wu, 'Elder Yuan, this trip is another reason why I have to go. Your dissuasion, and your reminders are appreciated by me.'

Chapter 1408

Genbu paused, and suddenly there was a note of despondency in his tone, 'Isn't there any possibility of retreat?'

'The strength of the Forest Wolf T4000 is not comparable to all the opponents you have encountered before!' Yuan Wu reminded.

Lin Hao smiled, 'Elder Yuan, my mind is made up. Sorry, I'll hang up on this.'

With that said, Lin Hao hung up the phone straight away, he knew Yuan Wu's intentions and he would remember the kindness of the Dragon Sect, but stopping him from saving his wife, that was something no one could do!

He didn't even want to listen to what Dragon Sect Yuan Wu had to say about a gentleman's revenge not being too late in the decade, because he didn't want to ruin the impression of the Chinese Dragon Sect in his heart. Some people would choose to throw something away to commiserate!

But he, absolutely not!

Over there Yuan Wu ate without taking the satellite phone off his ear, quietly looking at the sea in the darkness, in a trance, despondent, and then instantly tens of times older.

He looked at the message of Lin Hao in his hand, heavy with love and affection.

Looking at the story of his journey with Shen Xiyan, Yuan Wu then fell silent, yes, how can he persuade others to let go easily without his human feelings? Isn't that a joke?

But when he slowly put down the message in his hand, his gaze, then sharp, once to travel through the stars

Today, Yuanwu is not broken until it is broken!

Straight to the Grand Master!

It's not that there aren't any Grand Masters in China, it's not that China doesn't want to advance to Grand Master!

It's just that some people have chosen to retreat in order to avoid war, and have simply backed off, causing the heart of Huaxia's wariness to decline, forcing it to listen to the threats of the Hundred Clans and having to choose not to advance to Grand Master!

But, this did not mean that China could never again advance to Grand Master!

At this moment, he also slowly learnt that war could not be avoided by retreating and giving in. A single retreat would make some people feel they could be bullied!

A flash of light, dazzling like a curved moon in the sky, just for a brief moment, was to vanish straight away, like a ladder cloud vertical firework, only faster than it was, dissipating in the blink of an eye!

But it was such a quick dissipation that many people caught the light!

'Damn, how can one advance to Grand Master in China! Suppressing Cang for a hundred years, are all the efforts to be turned into useless?' A voice from the clouds of a deep mountain shouted angrily.

But the visitors on the mountain did not notice the voice, only the birds and beasts in the forest trembled and were uneasy.

‘Humph! Lying for hundreds of years and forgetting the Ming Extermination Martial Incident? Open the mountain if you are able again? Shan zero Yi Di Wu Serving Shan Wu? And out, that great battle decades ago, we have not forgotten!’

‘Oh, it’s been decades, the past is in the past, we shouldn’t stay in the past, but should look to the future.’ Another voice joked.

‘Dao He, don’t be your peacemaker, you’re the only one who can do things that don’t take advantage of both sides!’ The gruff voice sneered.

‘Yuanwu has advanced to Grand Master, if the Ancient Sect is not pleased, they can open the mountain gates and let my Dragon Sect lance kill! That stop forty years ago, the Dragon Sect will not forget!’ That voice with military might rang out again.

This time, it was even more majestic and carried the aura of killing!

What had happened forty years ago? What happened forty years ago that made this man so nostalgic, and even more so, that these ancient clan’s strongest men would not mention a single word?

‘Taotie, there is no need for you to keep an eye on us, you also know that we will not come out even if we are sitting down.’

Taotie sneered and said, 'Then it's best not to come out! Don't think that I really don't know about the incident in the East, you old undead sneak out to scout, just because I don't say anything doesn't mean that I didn't see it!'

Super Son-in-law Chapter 1409-1410

Chapter 1409

When Taotie's voice dispersed, the whole valley was silent, but invisibly, a pressure, gradually spread among the crowd.

Finally, I don't know who it was, but he gave a soft hum

Yuanwu's advancement to Grand Master broke the checks and balances and the rules that were set back then, so the guys who had let the whole ancient clan fall silent could no longer rest in peace, plus the fact that the ancient prison in the East was shaken and a hint of breath leaked out made them feel like they smelled hope

At this moment, the already tense relationship was once again ambiguous

'I'll go take a look.' After Yuan Wu said these words, he directly disappeared from his original place, the place he went to was the high seas of this part of Western Europe, with his speed, he could soon arrive

Lin Hao seemed to feel the qi in his body tremble violently, and then looked incredulously in the direction of China, someone advanced to the Grand Master?

Isn't it said that the Chinese qi luck, it is difficult to support a more grand master to advance? This

Just a little thought, he advanced, Jun Wu Regret advanced, long ago broke this rule, perhaps this rule inside, there are unknown secrets

Exploring China, he had found many powerful and muddy innate patriarchs, and he could be sure that these peak grand masters, he did not see.

It was just that these things were not clear to him, and no one had told him

Shaking his head, Lin Hao stopped thinking about this matter and instead took a deep breath and dialed Shen Xiyan's phone number.

Shen Xiyan was being anxious beyond belief, trying to figure out what to do everywhere, and Anna's side had even dispatched countless people to look for signs of Lin Hao.

Night One, who was hiding behind the crowd, had red eyes. Madam was so anxious, it was hard on his heart! He was thinking, what if big brother saw this scene, what should he do?

But the Kallang River battle, he was so weak that he wasn't even cannon fodder!

He was now an Innate Patriarch with superb perception. So what was happening inside, he was more or less able to feel

Inside, the raging power rampaged through, countless strong people fell, and those countless times stronger than him even directly lost their lives in a short moment, he had the heart to go, he was determined to go, but he also knew how much of a gap there was between himself and his big brother today

‘Lin Hao!’ Shen Xiyan cupped her mobile phone, and when she saw Lin Hao’s call come in, she squealed with unbridled excitement.

Just a squeal, and now everyone on the floor looked over!

Boris also looked at Shen Xiyan, Lin Hao still had time to call with Shen Xiyan at this time? Was this a farewell call? Or was it?

His heart seized and he was a little reluctant to imagine any of the images that would follow.

There was silence inside his headset, and then another voice emerged, ‘King of China, is he really going to fight a T4000 level powerhouse?’

‘Can he win the fight?’

They had experienced victory and the joy of victory because of Lin Hao, but now when they saw Lin Hao going forward to a higher level battle ground with the strength of the moment, the surge of excitement they had? The heart of Lin Hao's family began to change. Their hearts began to turn strange

The voices of the crowd that had not been optimistic about Lin Hao before resounded again

'I think he'd better not go, after all, T4000 level powerhouse, only a nuclear bomb can suppress it, his body today is really no match for a T4000 level powerhouse

'Yeah

Heywell suddenly coldly snorted, 'Humph!

He did not say anything, just a cold snort that made the people who had been singing the praises of the people lose their voices at once.

Chapter 1410

'Remember, people have done you a favour! Politicians are a bunch of profit-oriented fools!' Hywel went on to say, ? The ground cover closed service Xixi Lu Yi? Randomly also saw Lin Hao direction, just now that briefly lost the monitoring of the screen, he actually missed what kind of information

After that brief battle, the Iron Wings T3000 seemed to be caught into a vacuum field, and then when he reappeared where he was, it had exploded, falling in a shower of blood, did he really fall

I think so, the scale of that explosion is clearly the scale of what happens after the core chip is destroyed

‘Xiyan!’ Lin Hao’s heart trembled violently, he could hear the trembling in Shen Xiyan’s voice, he could also feel Shen Xiyan’s worry and anxiety

His heart was hard, but he knew that he could not immediately appear in front of Shen Xiyan and stroke her hair, telling her that he was fine

he had more important things to do

‘Lin Hao where have you been, I’m really worried about you!’ Shen Xiyan’s voice was tinged with tears, she had a moment where her heart was overwhelmed beyond measure, like she was going to lose Lin Hao in this life

When this feeling appeared, Shen Xiyan’s entire being collapsed straight away

she couldn’t accept it... ..

Lin Hao was uncomfortable, unbearably uncomfortable! He wanted to immediately appear in front of Shen Xiyan right now to comfort her and tell her that he was fine, but he couldn’t!

The Wolf of the Forest T4000 still carried the Heart of Regeneration, which was the only divine treasure he knew of that could save Shen Xiyan’s brain field. He also knew that

once the Wolf of the Forest T4000 returned to the territory of M, the chances of him snatching it up next time were very slim

His heart of invincibility is still there, but the power of the M country he also gradually clear, but also know that he can not delay the time

‘Xiyang I’m fine, I can get to you right away.’ Lin Hao endured a trembling vocal cavity to keep himself calm and collected.

Shen Xiyang immediately shouted, ‘I don’t want to be able to immediately, I want you to appear in front of me right now immediately!’

Lin Hao knew Shen Xiyang would say this, but he couldn’t give Shen Xiyang a straightforward affirmative answer, ahead, there was still a crisis

The strong enemy of the high seas is still there, and he doesn’t mean to go, which is why Lin Hao can call!

He felt the other party’s strong killing intent, and he was waiting for himself to go over

‘Xiyang, I’m sorry. I can’t do it.’ Lin Hao finally couldn’t stand it and said with a weak trembling voice, shaking his head.

Shen Xiyan froze, when had there been a time when Lin Hao would reject himself outright in front of his own face? Did he not love himself anymore? Or why?

Shen Xiyan tears flowing, she directly held squatting on the ground, looking up at the distance, she and Lin Hao heart and soul, she can feel as long as Lin Hao can, he will appear directly in front of his heel

‘Honey, you’re in some kind of trouble! I can actually face it together with you.’
Shen Xiyan spoke.

She had experienced a lot of things with Lin Hao and knew a lot, so it was inevitable for her to think in this direction

Lin Hao’s heart warmed, ‘Wife, no need. After I finish the matter at hand, I’ll come to you right away, wait for me, I’ll find you right away!’ After saying that Lin Hao directly hung up the phone, he could no longer go calm and easy to listen to Shen Xiyan’s voice

‘Whatever you are t a few thousand, I will make you, pay the absolute price!’
