

Super Son-in-law Chapter 1461-1470

Chapter 1461

Yuan Wu's heart was not strong enough, that slash had defeated 60% of his internal energy, he wanted to perform that slash again, but his internal energy was not enough, it was unbearable, depressing, angry!

Yuan Wu turned his head to look at Lin Hao, whose body was covered in blood!

Overpowered beyond recognition, Yuan Mo twisted his head to look in the direction of Hua Xia, Wang Ming! You damned piece of shit, if Lin Hao is killed, Dragon Sect's research group, I'll just dismantle it! Directly lay off straight away, I can't believe that Kirin Qin Long Yang Hu would disagree!

'A bunch of trash! So many years of research, nothing has been researched, and the weights are still so high! Putting up with you guys for a few years, do you really think you're something?'

Yuan Wu cursed angrily in his heart!

Lin Hao wasn't badly injured, but the Forest Wolf T4000 wasn't much better either!

Before, it was Lin Hao who had pressed the Forest Wolf T4000 and had also injured the Forest Wolf T4000, but now it was the other way around? The Forest Wolf T4000 is now a counter? But it doesn't mean that the Wolf of the Forest T4000 is intact!

The two are not even close to each other! Of course, if we are to compare who is in better shape, the Wolf T4000 still has a slight advantage!

The main thing is that the Wolf of the Forest T4000 now dares to fight, whereas before he was afraid to fight! Cowering, he had been pushed back by Lin Hao.

Now he dared to fight, and directly brought out his T4000 level strength! Naturally the dominance that comes with it is much stronger!

Lin Hao's entire body was weak under the 100% Extreme Dao power exerted, and while he was invoking the Forest Wolf T4000's chattering killing moves, he looked over to Yuan Wu's side, who was displaying a weaker dominance than the Forest Wolf T4000 suppressing himself, but Yuan Wu was in good shape!

And although his own form was poor, he was feeling himself more and more as he fought!

He wasn't afraid of losing, nor was he afraid of dying! He had only one aim, and that was to snatch the Heart of Regeneration! It was useless for anyone to stand in the way!

Even if he dies! He would not let the Heart of Regeneration stray!

Forbidden Zone 51!

The Mechanical Legion meeting room!

Deputy Captain Golden Hook radiates a strong killing intent, damn it! And Arashiyama was dead?

They were still in the middle of a heated discussion about what was going on down there, but this King of China madman was so crazy as to give his back to a man no less powerful than himself, what a fucking bastard!

He looked at the situation at hand now, the Forest Wolf T4000 was bursting out as strong as he should be, but Yuanwu against White Dwarf! White Dwarf was getting beaten up by him!

White Dwarf's strength without his Origin Body is similar to that of an average T3000! Of course, if we were to compare, he might be more powerful than the T3000 on the giant shark's side, but this is not the time to compare!

Because the battle was still going on!

He didn't have a backstop!

He didn't dare to decide which side the situation would ultimately end up on! His mind is broken, this was his advantage, because of the fear of the Wolf of the Forest T4000 and his inexperience in combat!

Although he was now bursting forth with the dominance he should have had, it was too late! A full time death late!

Damn it!

‘Giant Shark, all your men, pull them all back now and give me the harshest of all the adventures! If you don’t finish, you’d better not return to my headquarters! Damn it!’ The second-in-command captain eventually couldn’t help but roar.

Chapter 1462

He had no patience at this moment!

The giant shark T4000 stared at Lin Hao with a grim face, gritting his teeth and shouting to those around him, ‘All of you, come back to the calendar! Anyone who doesn’t pass early enough will not be able to load up on the resurrection function!’

The other two T3000 and two T4000 cyborgs in the conference room struggled for a little while before they all slowly got up!

Their faces were incomparably ugly and they felt humiliated!

Especially the T4000 level cyborgs, they hated the death of the Forest Wolf
T4000!

It was their worst fear, and then it finally came! Although they had pitted
Arashiyama silly, they didn't get much benefit from it

The deputy captain looked at the two T4000 level cyborgs, thought for a moment
and then said, 'T4000 level don't need to attend now, now in the tense moment of the great war,
if you go there and delay, you may not know what the situation will become when you come out.'

For the sake of the greater good, the deputy captain had to say so. After all, the
situation that followed was one he didn't know what the next situation would be. know what it
would be like, plus they looked like they had a lot of people, but not many of them could be of
use, and once Mega Shark lost the main warring faction forces, then the conspiracy faction led by
Joker was afraid that they would have to trip themselves up!

The two factions exist in a constrained relationship, but once Giant Shark loses his
power to do battle, he will take most of his time to confront Joker! This is something he doesn't
want to see, infighting, he has actually wanted to exterminate this idea for a long time, but does he
dare? He wouldn't dare.

Giant shark smells straight up joy!

What was originally thought of was using the Forest Wolf T4000 for the lives of
Arashiyama and White Dwarf, and now it's almost a done deal! As for his own people going to the
harshest adventure, so be it, anyway, the Forest Wolf T4000 performed so poorly in the front that
everyone could accept it!

Now the second-in-command captain was keeping his right hand man, could he not be happy? It's not like he'd run out of people to use for the T3000, but once the T4000 was rebuilt, he wouldn't really have much say in the matter.

Good thing now, no more such worries!

A great victory!

The giant shark was incomparably relieved, sweeping away the haze of his previous gloomy mood.

The clown was full of joy, but as he listened, he realised that this was not a big stick and a date. The fact that he was so blatantly biased, he really didn't expect it, so that means that it was all an act!

And this play has been re-enacted since early in the morning? The purpose was to make fun of himself?

The Joker stared at the second-in-command captain for a few moments, his heart irritated beyond belief. He looked at the giant shark and in his eyes he saw joy!

Yes! The joy of victory!

Naturally Joker knew what this was about! Not yet the Forest Wolf T4000 might win, but Arashiyama and White Dwarf, who were particularly close to him, might actually die!

He had thought he had added two generals to his team, and now they were gone! But the giant shark that killed them didn't get the corresponding punishment?

Could he believe them when they said there was no deal? He didn't!

But even if he had a grievance in his heart, he didn't dare to say it to his face, it was too important for him to question!

Super Son-in-law Chapter 1463-1464

Chapter 1463

With his heart harbouring fire, the Joker stared hard at White Dwarf with a grim face? Flicking zero closed love zero love yi lu? The battle with Yuan Wu! He couldn't wait to rush forward and kill these two himself!

Suddenly as if he thought of something, Joker said to his second-in-command Captain, 'Captain, Arashiyama is dead, if White Dwarf is dead! Even if we win, I feel like we've lost out! And judging from the current situation, once Yuan Wu decapitates White Dwarf and calls it quits, there is a great possibility that he will join forces with the King of China, and by then the Forest Wolf T4000 will also be dead for sure!'

Today's Joker was no longer talking about Lin Hao, but was tacitly acknowledging that Lin Hao was the King of China!

It can be imagined that he still has some recognition for Lin Hao!

Strong in strength, strong in heart, experienced in fighting, with a strong psyche, keen perception, and bold ideas, as well as the courage to act, such a strong man deserves the name King of China!

Giant Shark also nodded, he recognized what Joker said, but well, if she went to support now, she still somehow could not accept it, at least, at least wait for White Dwarf to die, and then go to support, otherwise he could not accept it!

The giant shark saw the Joker's eyes and didn't say anything, but simply ignored the look the Joker was projecting, instead lowering his head and fiddling with the coffee table as if he was blaming himself in general.

The deputy captain's heart was furious, at this time the giant shark still had to play his own little game, did he not know that the situation was so bad today? If only he had agreed, he could have sent his men to support him! Of course maybe say not for support, but to kill Yuan Wu and Lin Hao! He was really too heartbroken to trust anyone else

He knew that next even if he said he had sent strong people to support him, the giant shark might not agree. He stared at the giant shark and said, 'I think the clown has a point! Of course he might still be a bit one-sided, killing Yuan Wu and Lin Hao is the top priority at the moment! Don't look at the Forest Wolf T4000 to have the upper hand, but once we don't kill them, there's a chance that Yuanwu will close in and come over to fight two to one, and then the Forest Wolf T4000 will definitely be no match!'

After a pause, the deputy captain continued, 'Of course I'm talking about the current situation, have you ever thought that even if it's the best situation, Yuanwu kills White Dwarf. The Forest Wolf T4000 killed the King of China, but!'

When Giant Shark heard this he immediately raised his head ready to stir things up, but was subdued by the sharp gaze of the deputy captain, causing him not to speak up and say 'isn't that the situation we want, killing the Chinese King and then the Forest Wolf T4000 still unable to fight a Grand Master'?

The second-in-command captain continued, 'But at that point, the Forest Wolf T4000 still has the extra heart to be able to muster the relative strength to actually kill Yuanwu! That's the good side of it, but what about the bad side? If Yuanwu kills White Dwarf and joins forces again to kill Lin Hao, who has not been solved by Forest Wolf T400 during this time, then Forest Wolf T4000 will still have to die!'

Joker hurriedly said, 'I think what the captain said is right.'

The giant shark this time saw Joker speak up and said hurriedly, he didn't think it was such a situation. 'I think the deputy is a bit over worried. With such a huge advantage, there's no way the Forest Wolf T4000 can't kill the King of China! And even if we send over support, on the one hand is whether we can send, on the other hand is whether the people sent over can arrive in a short time, and finally, even if the people sent over arrive, will they be able to participate in the battle? Even if they can, who can guarantee that the Bear Kingdom will really sit back and wait for death? Will the other two of China's four guardians really not come and kill us? Once we provoke the other Great Town Guards to also advance to Grand Master, then wouldn't our plans be shattered by ourselves! That's all I have to say.'

When Giant Shark said the last, he gave a direct dose of something that they wanted to stifle, and if they sent support there, would it not touch the bottom line of China? Letting someone like Qin Long and Yang Hu also dare Yuan Wu to advance to Grand Master?

As for Taotie, he might not be able to close down and come over to support, after all, he has to suppress that unstable group of oldies in China

The deputy captain was silent at his words, and this was the situation he was most worried about.

Seeing that the deputy captain was silent, the joker could not help but laugh coldly in his heart, he thought you deputy captain had something outstanding, but it turned out that you were just acting in front of me again!

He smiled and said to the two strong men, 'I have concerns about your worries, so I feel that this time I can't send some small robots, nor can I send those whose strength is not up to par!'

When he said that he was not strong enough, he could not help but add more syllables.

This annoyed the giant shark, 'Then who do you want to send? Send you?'

The second-in-command captain also looked at the Joker.

Only to see the Joker smiling at his words, 'Yes, that's me going!'

The giant shark froze and looked at Joker in some disbelief, he was willing to take such a big risk? This

The second-in-command captain couldn't help but say, 'Joker this time is not the time to be impetuous, the giant shark is right, even if you go out, you can be sure to reach the high seas, this journey, but the difficulties, obstruction. And if the Bear Kingdom eventually intervenes as well, there's a chance you won't make it back, so I won't accept your offer.' The deputy captain finally refused, he did not like to see the Joker go out at this time to encounter danger, this danger may be weak, but he also can not accept the Joker this level of strong people encounter accidents, and once the Joker encounter accidents, so many people around him are unstable factors, he dare not risk

As the deputy captain feared, he looked at those great generals under Joker's banner, a group of people who were stunned and shocked, but inside their eyes were all revealing looks of admiration!

No need to think, this is the aura emanating from the leader! The Joker's ability to buy people's hearts at this time was at its peak.

'Oh, if I want to go, no one can stop me. Above the sea? So what. A few of you here, I don't think anyone can stop us from going to the open sea if we want to! It's just that some people don't want to go, and whether you want to go or not is up to you, but I don't want to see my friends and family die again! And I don't believe that Giant Shark would watch the Forest Wolf T4000 die senselessly, do you? I also don't want to believe that Captain Deputy would give up a T4000 level powerhouse, do I?' Joker said with a great sense of righteousness.

With that one sentence out, Giant Shark shut up straight away, if he dared to say anything about not being able to go at this time, then these two T4000 level cyborgs under him would hold the same sentiment towards him. Giant Shark wouldn't dare take that bet!

The second-in-command captain was also silent, the words had come to this? Close the ground Wu Lu Shan Yi Serving Wu? If he still disagreed, he would lose hearts and minds himself

Headache ah, headache beyond compare.

'All right then, remember, you have to be more careful. The distance is a bit far, but with your strength, in less than three minutes, you should be able to feel it!' Said the second-in-command captain as he flung out an object and said to Joker, 'This is a fourth-generation booster, you can use this and arrive in two minutes! Assuming, of course, that no one is in your way!'

As the second-in-command captain pulled out the Generation IV booster, the faces of those present changed dramatically, was the Generation IV finally being researched? They had heard this news in private, but they had never really seen the actual product of the Fourth Generation!

Super Son-in-law Chapter 1465-1466

Chapter 1465

Now I've seen it!

The giant shark stared at the scene with narrowed eyes, which meant that in the end, the joker had taken all the benefits? He stared at the second-in-command, were these two acting? He must have been, sending all his men away and then eventually pulling out the Quad Boosters in front of everyone, telling his men that he was the one who had screwed them. Damn the deputy captain, a good game!

Of course the giant shark didn't say it now, wouldn't he be looking for death if he said it now? The deputy captain was a real half-saint level powerhouse!

And what is his philosophy? The Great Unification of the Mechanical Legion

The clown flew out of the fifty-one restricted area, extremely fast, and disappeared in the blink of an eye, with no one seeing his trail.

Inside a dark room inside the restricted area, a black man stared at the disappearing trail of the Joker, and at this moment, he revealed a smile: 'We, win. With the IV booster, no one can have the speed of the Joker!'

He was finally smiling, but of course with his status and strength, he could have paid no attention to these minor issues

But because the items he was concerned about, joked with him and said that the people he was training were all wastes, that's why he had to pay more attention

Above the high seas, a huge aircraft carrier slowly recommended, the huge bear on top of it angled forward, directly killing the high seas area, countless people warships for the shock!

The chief officer on top of M's warship roared in anger: 'Damned Maoists, how dare you break the constraints! I'll make you pay the price for your blatant threats to our soldiers!'

'Calling HQ to HQ, requesting carrier support!'

It was a moment like world news exploding! No, it was like a world war, and the sudden entry of the Bear Kingdom meant that the situation had changed again!

I mean, where has the situation changed? Who is the number one enemy of the Bears? The M's, of course? What does it mean that he is now openly moving into the high seas? It means that M is in great danger!

Yuan Wu was also shocked. The Bear Country's open advance was a warning of danger, meaning that M had sent another powerful enemy? This damned M country, is it really going to start a world war? Don't you see so many warships watching? Once anyone fires the first salvo, it will be followed by a loud cannonball blast!

Countless ships have war, the huge aircraft carrier of the Bear Kingdom is majestically advancing, in his route, countless warships converge, the military flag above can always be seen? The flag is always visible? A bit of red, like the Macro of the day!

On the East Asian side, China looks like it is isolated, but this is the style of a great power! Of course the rhythm here is not really as imaginary as the scene seen, not far away, there is a group of fighting warships assembling, a group of warships, it is not clear to which faction they belong to, but the combat power formed is so strong that no one dares to ignore it!

The situation was beginning to look grim, like it was unexpected, but on reflection, it was within expectation!

The ancient dragon of China is once again on top of the world, an inevitable part of history and a necessary part of the train tracks! However, they are not just dragons that existed in the distant past, but dragons that have always been alive, only to doze off at times!

The Dragon Gate!

Qin Long and Yang Hu were sitting inside an ancient architectural palace, but of course it was not a gilded imperial court, but rather like the door to a king's palace or something like that. The two sitting in the upper seat were dull and not happening, in the two rows sitting were similar to the existence of great generals, on the left were strong and powerful men of great strength, on the right were some people with glasses, like researchers.

Chapter 1466

The representative sitting at the head of this faction was Wang Ming, and at this moment his face was very ugly, the high and mighty Wang Ming was now afraid to look at the others!

Not only him, but also the group of people who were usually very respectful, but now everyone except Wang Ming had a bad look on their faces!

Wang Ming couldn't imagine why he, who normally had such a strong voice, was being crushed by countless people today? Even some martial artists with very low status dared to refute himself? What qualifications did this group of limbless martial artists have to speak about themselves?

For the sake of a Yuanwu who had almost been reduced to a waste? Just because he contradicted Yuan Wu? But Yuan Wu was already wasted now, so to cross him, a top researcher, for the sake of a wasted man? He didn't think it was worth it! He felt that this group of people were really just simple-minded

But in the face of so many people, he still selectively kept quiet, but at the bottom of his heart he had a grudge against Lin Hao and Yuan Wu!

Shouldn't the remnants of the old era be left to die inside time? And the old era heads of state should have been left to die in time.

Wang Ming knew the general trend, so he did not open his mouth to say anything more, but kept his head down and listened quietly.

Qin Long, a middle-aged man with a country face and long hair tied up in a city a crown of hair, stared down, especially at this group of eyesore fellows! How could they have the virtue to sit in a conference room with them?

I don't know what Taotie was thinking, sparing himself to subdue that group of oldies and wasting his own cultivation time in exchange for such an opportunity, and now well, this situation has arisen!

China's peerless fighting force is now in a quagmire! The surveillance from far away on the M side saw a residual shadow going away, like a 4th generation booster, plus a super power, they didn't need to guess, they knew it was going for support!

And what about their own side? Unless it was a full force, which? The other side? And unless they were all out in force, how could they be a match for the other side?

And it's all because of this group of researchers who have no brains but the ability to think!

'Perhaps there are still some people present who do not know the situation on the high seas today, we are all fighting for China! So I think it is necessary for you all to know something about the situation.' Qin Long spoke once more, breaking this dead silence, already the resentment in all of you, he was also very uncomfortable, but silence cannot solve the problem!

After saying that Qin Long glanced at Yang Hu, who just nodded, and from his face it could be seen that he was also in a very unhappy mood, his face was very gloomy.

Qin Long then spoke: 'On the high seas, the warships of various countries have now taken sides, no longer just exerting pressure like before! It's as if the situation has definitely escalated at this time!'

Qin Long said here and deliberately paused.

Some people were concerned about the situation on the high seas before, while others weren't, they just knew the situation was bad!

But now that Qin Long had pointed it out, those who were speculating knew in a unified manner that the situation might have really reached an irreversible point!

What does it mean to stand in line?

In other words, if we don't stand in line at this moment, the next moment we fight, we will hurt our friends by mistake! Another meaning is that the war has reached an irreversible stage!

Even the most stupid person knows that the situation has reached a certain point!

'Those who were under the illusion of giving us five to ten years can put that away at this moment! Of course the start was made by Lin Hao, a man who is an uncertainty to all the nations of the world! We can't judge him on his merits, after all, China is not a one-man China, no matter what! And it is difficult for everyone here to represent China, so all certain people present should stop holding their pride!'

Super Son-in-law Chapter 1467-1468

‘When the Dragon Sect was first established, it was to protect China from threats, from powerful enemies and from some mysterious organizations! Not to allow certain people to embrace their troops or power! I knew in my heart that Xiao Ce Shang Cai had been stopped before, and who stopped it, I won’t say much about it, but the curative words were in my hands. I have looked at it carefully and thought about it seriously, only I know that now is not the time to settle this matter, but I tell you anyway! This matter is not over, and when the battle on the high seas is over, I will personally seek to settle the score! Therefore, everyone present will not be able to leave this meeting room from now until the end of the Great War!’

When Qin Long said the last sentence, it was with anger, with sadness, with helplessness!

They were asked by their superiors if they could go to reinforce them, and they refused because they couldn’t, not that they couldn’t, but they knew that once they did, the reinforcements would certainly die!

So, on the high seas, they were already desperate! Just the cause of this fiasco? The reason for this fiasco? If it wasn’t for this group of dried-up guys, they wouldn’t even have to be so upset because the other side had already conceded defeat!

As long as Wang Ming, the idiot, didn’t go and make that phone call to stop Yuanwu from going up there! At that time, the Forest Wolf T4000 would definitely die!

And this Wang Ming idiot, who couldn’t research anything useful on his own, yet had to ask for so much, saying that the T4000 was extremely noble and couldn’t be killed!

What a damn

Although at that time, they also hoped to be captured alive, they also equally knew that Lin Hao would definitely not stop

Because within this group of people, someone coveted the Heart of Regeneration!

That is a very terrifying divine treasure in Western Europe, having it is like having a second life

Such a divine treasure, everyone would covet it

Wang Ming lowered his head, his heart hid countless resentment malice, he called that phone, did not he have other people's meaning? He did want to build merit quickly, but Dragon Gate is not something he can say one way or the other! What could he do about something that big? Did he dare to stand on Yuanwu's head without relying on daring to do so?

Of course, at such a moment, he didn't dare to say anything, he could only silently accept the reprimand!

Yang Hu, who had been silent, scanned the circle before shaking his head again: 'I really hate it, I hate that I can't hold up this sky all by myself! Why else would I have built this Dragon Sect? Brother Long, is the path taken by Brother Wu the right one? He has advanced to Grand Master, and the combat power that he has burst forth with is now definitely something that the three of us combined cannot match!'

Qin Long was also lost in thought, and as for everyone else in the hall, they were both ignored by the two of them!

To be honest, apart from Yuan Wu and Taotie who were willing to mess with the Dragon Sect, the two of them were really not very willing to put in the effort to come up here!

After all, it delayed cultivation!

‘The gas that overflowed from the Eastern side, was it possible to analyse anything?’ Qin Long asked.

Yang Hu shook his head, ‘If I hadn’t been shouted back, maybe these two people would have gone away and I would have gone deeper, then I would have inevitably learned something.’

Qin Long sighed, hearing this news gave him another pang, it was really a house full of rain, and he could not stop drinking water!

There was no solution!

The hall was silent, after being delayed by Yang Hu, a more negative attitude plunged inside the blood of every martial artist’s body.

Qin Long had already spoken, so the group of them couldn't ask questions again, they could only stop talking and feel this stifling silently!

As for the researchers, they naturally did not dare to say anything more, after all, this meeting was aimed at them! If they dared to speak up, they would really be beaten to death

But they are not too willing to refute it either! After all, they mainly do scientific research, and have not experienced the kind of tension and oppression brought about by the war years, but also in this relatively peaceful era inside the living people, how can they know the hardships

The groups of strengths of the super human genetic phenomenon are meeting, after all, the groups of strengths are now an organization under the ZF department and they need to meet and report a specific solution under the leadership of the ZF.

Or if they can fight, or if they can't fight or some such solution, and not? erly flicking the woo-woo-shan-woo? s private in there talking about it and making personal decisions.

But when these organizations saw that M had sent out a T4000 level powerhouse, most of them chose to avoid it! The M's are the only ones who have ever seen the M's. The M's are the only ones who have ever seen the M's. The M's are the only ones who have ever seen the M's. The M's are the only ones who have ever seen the M's. The M's are the only ones who have ever seen the M's. The M's are the only ones who have ever seen the M's. Some doubted the truth, but most were convinced, after all, since that moment, M has become even more arrogant,

capturing most of the world's sacred treasures, otherwise it would not have developed three generations so quickly, and now even see the appearance of the fourth generation of boosters!

When the booster appears, then it means that the core chip of the fourth generation has been developed, and given some time to reproduce the skills and compile the corresponding code, they will be able to replace it with the fourth generation of robots! At that time, no one will be able to stop the M's anger

This is the reason why the powerhouse organizations are under the jurisdiction of the ZF, because even the strongest powerhouse can't beat technology! Such as the holy lord of M, when faced with a nuclear bomb will also weigh his strength to see if he can withstand the power of an atomic bomb!

Above the high seas!

A terrifying aura in the distance gradually approached, and Lin Hao instantly burst forth in a dark and incomparable black line, like an abyss enveloping in, the surroundings became dark and an extremely dangerous aura engulfed the four people present!

The Extreme Dao, at this moment, had advanced!

The moment the powerful aura came to suppress, an unprecedented desire to resist erupted within Lin Hao's body!

Lin Hao dared to leave his back to the Forest Wolf T4000 and White Dwarf because he was on the verge of enlightenment, and he was betting again on whether he would eventually complete his enlightenment or whether he would simply be killed!

Obviously he was right!

It was at the same time that he felt that it wasn't just Blackened Lin Hao who was crazy, but that he himself was a crazy person too! Only in the face of this madness, he had one thing to keep him sane, and that was Shen Xiyan!

Without the existence of Shen Xiyan, then Blackened Lin Hao would be Lin Hao Ben Lin!

It turns out that everything that happens in the world can be traced back, he didn't exist for no reason, nor did he appear without having to come, but rather at the inevitable moment, the inevitable thing that appeared! It's like the trance you think you're in at some point in time, as if for a moment you feel like you've done this before, only you've never done it before no matter how much you remember, but such a feeling has an unmistakable reality!

Super Son-in-law Chapter 1469-1470

Chapter 1469

Blackened Lin Hao, was this existence? Lin Hao only pondered for a short while before shaking his head and disappearing the thought!

Now at the moment was not the time to feel this, all he had to do was to use his current strength!

Kill the Forest Wolf T4000!

He had no intention of stopping the fight!

No matter who came today, he would kill him!

Forest Wolf T4000 was wrapped in a thick killing intent, strong as he was, his sense of smell was incomparably keen, and the moment this terrifying aura burst out, he felt he was in an incomparably dangerous situation!

White Dwarf also panicked for a moment, and with such a panic, he was directly hit by Yuan Wu's slash on his arm!

An arrow of blood shot out, and at the same time he? He lost his arm! He lost an arm!

It was too strong! Yuan Wu's strength was simply terrifying, just a trance, such a small break, and Yuan Wu was able to grab it viciously and deliver a fierce blow! This was perhaps an experienced and powerful man!

Bursting back dozens of metres before White Dwarf jumped out of this dangerous darkness, he ignored the pain and shouted to Forest Wolf T4000: 'Exit this weird dark space! Forest Wolf T4000 don't be blindly chasing after Lin Hao! He can't kill him! We only need to be

passive and defensive now, in a minute, our reinforcements will arrive! That's a super powerhouse, I can feel his aura, it's strong and familiar! He's countless times more powerful than you!

The Forest Wolf T4000 violently burst back tens of metres, approaching towards White Dwarf's sound source, in an instant Lin Hao chased after him with a punch, hitting White Dwarf's defence shield, the energy aura instantly floated on it like a ripple going back and forth, but cracks had already appeared on it!

Horrified, the Forest Wolf T4000 hurriedly swung a fierce claw towards Lin Hao! Five silvery manes with murderous intent tore through the air, and Lin Hao had to avoid them and retreat several steps back!

The darkness disappeared, and now Lin Hao's aura grew again.

Yuan Wu felt some of Lin Hao's aura and inquired, 'You've become stronger again?'

Lin Hao nodded slightly, wiped a handful of blood from the corner of his mouth, and stared at White Dwarf and Forest Wolf T4000 with a deadly stare, where as he stared at Forest Wolf T4000, it was like locking onto a weak prey!

Forest Wolf T4000's eyelids jumped wildly.

White Dwarf grunted, 'Don't panic now, we just need to avoid the defences! Once our reinforcements arrive, the two of them will be dead for sure! I'm really not T4000 level, otherwise these two would have died under us! Damn it!'

White Dwarf's mind was a bit exploded, he was an infiltrator, originally such a person would end up appearing to pit a strong person, but now he appeared, the effect of the pit was not achieved, instead one of their own people even died, how could they easily accept this.

It was also blamed, blamed on the fact that this T4000 level cyborg around him was a complete waste, and a waste of a waste at that!

If he hadn't just become the backbone of the other side nowadays, would he have fought with such a fool?

'Are the people coming really strong?' Forest Wolf T4000 asked in a low voice, just now Lin Hao's sudden outburst had horrified him, and he didn't want to die.

Chapter 1470

White Dwarf, angry, gritted his teeth and said, 'Can't you feel it?'

Forest Wolf T4000 blushed a little, he did feel it, but he didn't feel like one of his own. If this wasn't one of his own, he'd really be dead

He still had half a regeneration heart in his hand, and the reason he had been unafraid for so long in the war was because he had the regeneration heart Lin Hao needed! And apparently at that moment when Yuan Wu set aside time, he knew that not only did Lin Hao need it, but the Dragon Sect needed it badly too! So, this was his greatest guarantee!

Once the final moment came, he could completely defend himself! So he didn't want to be without a bottom in his heart!

Forest Wolf T4000 wasn't talking, but crossed with White Dwarf to dodge Lin Hao and Yuan Wu's terrifying killing attack!

In just a few dozen seconds, Yuan Wu had already swung dozens of slashes, yet only a few of them had hit, and even if they did, they only left the two men slightly shaken!

The reason for his frenzied attack was that he sensed a terrifyingly familiar aura, an aura he had dealt with back in the war!

That is to say, the M country has sent over reinforcements again, and also disregarded the world security organization, and privately sent such a powerful cyborg? Westland West land closed zero dye? The M Nation has sent reinforcements!

'M country has sent over strong reinforcements, very strong, the peak battle power of the middle stage of the Grand Master, considered the group at the top of the world! I'm no match for him, and you probably aren't either! If we really want to deal with such a person, unless he comes to our border, maybe we still have a chance! But above the high seas, I'm afraid we won't stand a chance!' Yuan Wu said in a low voice, not forgetting to glance back after he finished, not a trace of fear could be seen in his eyes!

The strongest, perhaps, are all like that!

Lin Hao naturally felt it, otherwise how could he possibly advance in the Extreme Dao?

But so what?

He stared at Yuan Wu and found that the cause wasn't afraid either, but said with a smile, 'Even if he came, so what? Middle peak Grand Master?'

Yuan Wu froze after hearing Lin Hao's words, this youth, he really was crazy and confident! And overbearing too!

Suddenly Yuan Wu felt old again! Yes, he hadn't been afraid either, yet he was worried that Lin Hao was afraid, he was really overthinking himself! Look at how many things Lin Hao had done before he came? He even felt that if he hadn't come, I'm afraid Lin Hao wouldn't have lost so quickly!

With his current killing spree, what if the three came? He had never worried about losing, and all he could think about was that until the last moment, it was still uncertain who would win or lose! But now they're losing before they've even opened up! And the two of us had the advantage of playing!

The fleeting battle, the death of Arashiyama! The fall of that moment touched the hearts of countless people, and the Silver Wolf King Bigir could hardly speak to comment on the battlefield at that moment, it was too shocking!

To think that the Chinese King he had once 'fooled' was so powerful, he would not have dared to do so even if he had been given a hundred thousand guts at that time!

Feeling his heart beating violently, he looked to the Giant Eagle King and was almost as dumbfounded, could it be otherwise? A Chinese king, who not so long ago had been a disgrace to himself and others, was now on top of the world and beginning to dominate the world's landscape. After all, he knew after leaving the Vampire King's side that he had made the right choice!
