

Super Son-in-law Chapter 1491-1500

Chapter 1491

Shen Xiyao looked at Lin Hao, she didn't know why, in her eyes Lin Hao seemed to have become different, more imposing, more mysterious, more handsome, more tender!

She didn't care, what she cared about was Lin Hao himself!

She was thrilled!

Disregarding anyone's displeasure, she pounced straight at Lin Hao! Smashing heavily into Lin Hao!

And Lin Hao's whole body trembled!

Bijir's body, standing next to Lin Ha, was trembling violently, they knew that the Hua Xia King was injured all over, don't look at Shen Xiyao's weakness, but she could still inflict secondary damage on the Hua Xia King if she mounted up like that!

But he was interrupted by the Giant Eagle King to remind him.

The Giant Eagle King looked at Lin Hao's tenderness, how tender such a strong man was at such a moment, how quiet, how like a harmless youth, not at all like the strong man who had turned the world's perceptions upside down above the high seas! A strong man who dared to face the entire mechanical army of M alone!

How much did he really love his wife? This is the best proof of that!

To keep his wife from worrying, he chose to bathe and change into his previous clothes before he came, rather than undergo treatment! The Silver Wolf King Bigir might not know why this was, but the Giant Eagle King knew that it was the King of Hua Xia who was afraid that his wife would worry about him, so he chose to cover it all up in order to, well, reduce his wife's discomfort!

Such love was perhaps only worthy of that great battle.

'Haven't you noticed why the King of Hua Xia bathes and dresses before he comes?' The Giant Eagle King said by voice transmission.

Bigir froze, then snapped? Ai Wu Lu Zha Di Yi Zha Er? opened his eyes, then slightly moistened, is this love? Irony and tenderness! He was somewhat touched to the point that the love of a supreme power was also so humble

Bigir felt like he had seen the most beautiful love story in the world right in front of him,.....

His hazy eyes inside, at this moment like to see Lin Hao that clothes inside, is flowing blood, but he found that Lin Hao did not feel pain, but full of happiness!

Bigel shook his head, maybe no need to guess, the reality is this! Just now, the King of China's body was trembling, why was it not because the wound had been hurt twice?

Love, it turned out, could be so touching!

'Husband!' Shen Xiyan softly shouted, then Shen Xiyan stared at Lin Hao, with a questioning look, and said, 'The baby and I are so worried about you, but why do you keep calling your phone and you don't answer!'

At this moment, Shen Xiyan's aura looked like it was turned up to one hundred thousand eight, and at the side Bigel and the Giant Eagle King were also physically trembling, what kind of scene was this?

It was just that the two of them had always been single, so naturally they couldn't understand what kind of scene this was! But at heart they were incomparably shocked! The reason is that they knew what kind of strength the King of China was, it was a supreme power, but what kind of strength was his wife, a normal person, how dare she question the King of China like this? This, this

Yet inside their eyes, the King of China trembled with fear!

His trembling eyes looked as if he had seen an invincible powerhouse!

They were shocked!

Could it be that the Hua Xia King's wife was also a peerless powerhouse! A great power that was even more powerful than the King of China! A powerhouse that can kill everything in seconds?

This was, this was too shocking, wasn't it?

Lin Hao was also embarrassed, in front of so many people, he couldn't kneel down in front of them, right?

'Wife, didn't I say that it was just an errand, I'll be back immediately after I'm done here. Hey hey, wife, there are so many people, let's talk about it at home, okay?' Lin Hao said humbly, he knew that Shen Xiyao was worried about him, and knew, for sure, that he was very worried!

Chapter 1492

But to be questioned like this in front of so many people, he doesn't want to lose face, right?

Look at the people around Shen Xiyao today! There are two of the top five strongest men in Western Europe! And then there was Admiral Haywire of the F-Navy, who was smiling with a naive look on his face, looking at the show with the look of a man who had been there before! Shame on you!

Think of yourself before, that superb posture, and now? I'm just a kneeling bastard

The man who is the most important person in the world is the man who is the most important person in the world.

The Giant Eagle King was incomparably puzzled, then quietly walked over to Haywire, then asked in a whisper, 'General Haywire, what's going on?'

Haywire looked at King Giant Eagle with a meaningful look, then said something that King Giant Eagle still had trouble understanding, 'You would understand if you had a wife.'

King Giant Eagle? Flicking the ground and picking the er woo ground and flicking the er? Hold your tongue, unintelligible!

Looking at the eyes projected by the Giant Eagle King, Bigil also shook his head, he didn't understand it either, he was in the world but that was in the Gaither family! The women inside that castle had a high status outside and were the envy of countless people, but inside the castle, women were women! They would never dare to question their husbands like Shen Xiyuan is doing today, high and mighty!

'Could his old man also be a supreme powerhouse?' The Giant Eagle King inquired.

Bigir shook his head, 'I don't know.' He was a little confused now.

'Lin Hao! Are you even trying to perfume me now? Do you know how worried the baby and I are? And you? It's been so long, and the phone can't get through! You don't know, our whole family is worried! When my sister called, my brother-in-law said she was in tears, but what about you? How can you be so cruel to ignore us

Shen Xiyan chattered on and on, Lin Hao couldn't help but blame himself!

Thinking of his sister Lin Qingcheng's crying red-eyed look, his heart was incomparably depressed! Yes! Just that kind of great battle, before the signal shield, he can't make a call! But what about afterwards? The big battle with the Forest Wolf T4000, he didn't dare distract himself from calling out again, but in the end he was still wrong.

In the end Shen Xiyan cried again as she spoke, she said softly, 'Honey, I know you must have met difficulties that you don't want me to know about and don't want me to worry, but I'm your wife, you're not willing to let me take on anything, how do you want me to truly melt into your world? You can't just block me out every time you encounter any difficulties, this will make me think I'm just a big drag

Lin Hao hugged Shen Xiyan and whispered in her ear, 'I'm sorry, Xiyan! This time in a hurry, I wouldn't have had this happen, but I can tell you that this is the last time!'

In the end, Lin Hao didn't take credit for saying that he had found the regenerating heart that cured Shen Xiyan's brain field problem, Shen Xiyan didn't know that she had a brain field problem, and she had come to Western Europe for a holiday.

‘Wooo~ wooo~‘ Shen Xiyan hugged Lin Hao tightly and cried in a small voice.

‘Honey, I love you.’

‘I love you too, wife.’

Lin Hao finally breathed a sigh of relief, finally he had comforted Shen Xiyan, he was incomparably nervous before, not knowing how to face Shen Xiyan! His heart was incomparably tormented all the way! This process just now, he also felt that it had taken even longer than the great battle that had just taken place.

The Giant Eagle King and Bigir looked at each other, bewildered, incomparably bewildered!

Super Son-in-law Chapter 1493-1494

Chapter 1493

The two men looked as if they were saying, ‘What is this? What the hell is this? Why does it warm and touch the heart of the person looking at it? This thing is really weird

A few seconds later, Shen Xiyan resulted in the tissue that Wang Shufen handed over.

Wang Shufen had been staring at Lin Hao, she could see that Lin Hao should have been injured, looking at the blood that seeped out from inside his clothes, that slightly red patch, I'm afraid it's still bleeding!

But because he loved Yan too much, he endured secondary injuries. Remembering herself again from back then, Wang Shufen almost gave herself a slap

Only her eyes still glanced at a few people around Lin Hao! This person's aura was superb, like not a normal person, especially one of them was a general!

A general, what concept is that? That was a real phoenix among men, but why was such a general still behind Lin Hao? What had his son-in-law done before? What did his son-in-law do before to make a general come in person? This is also

Wang Shufen was once again plunged into chagrin.

Night One walked out from the crowd and stood shoulder to shoulder with Gu Yue at a distance, he could feel his wife crying again, his big brother's love was really bumpy! Judging from big brother's current physical condition, he was hurt very deeply, immensely deeply!

It was just that big brother's strength had refined a lot more, and he didn't know how strong his big brother was, nowadays.

He looked towards Lin Hao's body? Ai Shan closed Xiyang closed Xiyi? The few people on the side!

'These two are both strong! And one of them is even stronger than the strength of big brother before, of course nowadays it is certainly not as strong as big brother, the other one is also very strong, both of them are, at the Grand Master level! Why are they intact, what exactly did big brother go and do before?'

Night one stared at Lin Hao, just looked for a long time, did not find a so, finally also had to give up in the idea of snooping, big brother did something must be a major thing, if he wanted to let himself know, will certainly tell himself.

'Xiyan, let me introduce you to a few people.' Lin Hao held Shen Xiyan tightly, then turned to her and began to introduce Hai Weier, the Giant Eagle King, and the Silver Wolf King in front of him, but before he did so, he told Night One to come this way with Gu Yue.

When Gu Yue arrived, Shen Xiyan's other hand took Gu Yue's arm.

'Xiyan, you really are so happy.' Gu Yue said softly.

Shen Xiyan lifted her chin slightly, and inside her incomparably charming eyes, they were full of happiness.

'This is my brother, Night One.' Lin Hao pointed at Night One and introduced him, then looked at Gu Yue again, 'This is his wife.'

Night One nodded his head with Gu Yue.

Only then did Lin Hao start to introduce Hywel and the others, 'This is General Hywel, this is a confessor of the Bigirgate family, and this is powerful, he is an elder of the church.'

The Giant Eagle King was flattered, and Ri was busy holding his hands in ten and bowing slightly, 'Greetings to the two ladies.'

After a little acquaintance.

Boris finally found an opportunity to come forward, he was now undoubtedly the most powerful winner and he was full of joy.

Only within this one step inside the journey, he didn't know how he should open his mouth to greet Lin Hao and General Hywel!

Because he didn't know whether he should greet General Hywel first or Lin Hao first.

Just thinking about it, just now General Hywel had been respecting Mr. Lin Hao, so surely Mr. Lin Hao must have something that deserves General Hywel's respect! Even General Haywell respected Mr. Lin Hao so much, what reason did he have not to respect Mr. Lin himself?

Chapter 1494

Although General Hywel gave a super powerful opportunity, it was earned by himself, and ultimately, Mr. Lin helped earn it! Besides, that great battle over the Garonne River, Mr. Lin deserved to be honoured for his strength!

And he couldn't forget how terrifying that great battle over the Garonne River was!

How powerful was that Mr. Lin who saved the day! A man who did not even show weakness in the face of the Pope! And now that he was accompanied by a top powerhouse biochemist from the ZF side, didn't that just prove his superiority and extremely high status?

'Greetings, Mr. Lin. Hello Mrs. Lin.' Boris shouted with immense respect, from before when he was working with Lin Hao on an equal footing, to now when he could no longer see Lin Hao's tail, such a feeling, Boris had never experienced in his life, but at this moment, he felt it! For real! Of course he didn't have any psychological discomfort, he wouldn't dare!

An existence that destroyed the heavens and the earth, an existence that could rival a superpowered technological weapon! If he had known that Lin Hao was so strong, he wouldn't have dared to do that kind of cooperation with him, after all, that would be looking down on Mr. Lin Hao Lin, no, this is the King of China!

To imagine that he had such a contact with the King of China, Boris felt like his life was going to be spiced up!

Thanks to Hua? Sisi closed love Sisi steak love? The King of Xia!

‘Good morning General Hywel.’ Boris also greeted respectfully.

Lin Hao smiled at Boris, this man had always treated him with respect, and judging from the security at the scene, he had sort of fulfilled the gentleman’s agreement between them and hadn’t put Shen Xiyao under any threat, he still had good senses about this man!

‘Mr Boris is a man who keeps his promises.’ Lin Hao said.

Boris looked at Lin Hao once again, not daring to hold himself back at this time to say something like I’m a mayor, but flattered that it was too hard to make a good impression in front of such a top man!

He was a benefactor to General Hywel when he thought he was recognized by him!

As Haywell watched the exchange between Boris and Lin Hao, he couldn’t help but fall into contemplation! From the look in Lin Hao’s eyes, he didn’t see any deliberate attempt to clear the air, or any kind of general acquaintance, but a genuine recognition!

At this moment, Hywell was even more certain in his heart that Boris was definitely a talent and worth training!

Boris had no idea that Lin Hao's recognition would lead to a smooth political career for him.

He wanted to be grateful but had no chance!

Boris hurriedly said, 'Mr. Lin, this is the agreement between us, I will definitely do it.'

Lin Hao smiled, this Boris was a good person, a man who did things, but it was quite lamentable that he would never meet again.

'Mr Boris is definitely a man who does real work, and I believe that under your leadership, Toulouse will grow even better in the future! Lin's new investment I've decided will be situated on Toulouse forever, no! Wherever Boris goes to take up his post, Lin's New Investment will go!' Lin Hao said.

Lin Hao was still grateful to Boris that he went to the Battle of the Garonne! The Battle of the High Seas! That all had reasons for having to go, and Boris's offer was only done in passing on his necessary way, yet he did it to protect Shen Xiyan's safety!

Super Son-in-law Chapter 1495-1496

Chapter 1495

Everything he did was for Shen Xiyan, if he left Shen Xiyan's side, but Shen Xiyan was seriously threatened, kidnapped or anything like that, or if any accident happened, then he absolutely couldn't accept it!

‘Thank you, thank you, Mr. Lin!’ Boris instantly said incomparably excited, with Lin Hao’s words, then it meant that his future position was untouchable!

What is political achievement? It’s GDP! No one would dare to think how much GDP would be driven by a new business and financial giant of Lin’s magnitude!

As Haywell watched this scene, he was once again sure that this Boris was definitely the pivot for their friendship with the Chinese King Lin Hao. The only thing they need to do is to let Boris have a good time. If they let Boris have a good time, then their friendship with the Chinese King Lin Hao would not be too bad! With the friendship of such a strong man, their country F will be taken care of somehow in the future war of power players!

This is a surprise presence that will appear to be of absolute value in the future

The four great clans also came up one by one to congratulate each other, and Lin Hao returned the greeting.

Once again, when he looked at Finkin-Gate and Bastian, Lin Hao smiled, he knew that he and these two people, it would be difficult to meet again in the future, but of course Finkin-Gate did not think so, after he met Lin Hao, he felt that the door to a new world had opened, he had secretly vowed that when Lin Hao returned to his country, he would follow!

He saw this as an advantage for him, an advantage that Bastian didn’t have!

Lin Hao didn’t know what he thought!

But the party, with the appearance of Hywel, was once again sublime!

However, Lin Hao did not need such vanity, he had organized the banquet in order to reach out to the Church and to gain its approval! But after the Battle of the Garonne, he had met the Pope, and with the Pope's backing, he did not need to go through the techniques of the Church at all, and not only with the Pope's backing, but also with the backing of the ZF, his purpose in Western Europe had been achieved!

The banquet was still going on and Pope Peter waited in the air for a few moments, when he saw that Lin Hao had finished his pleasantries, then he greeted Lin Hao, 'King of China, could you come up now and have a chat?'

Lin Hao looked up and said through his voice, 'I still need to wait a little longer, my wife's side is in a special emotional situation!'

Pope Peter, who had been watching Lin Hao from the sky, was puzzled beyond belief when he heard these words! After all, Lin Hao had done so much for his wife, fighting to the death to snatch the Heart of Regeneration, and now that he had obtained it, under his own means, his wife's injuries would certainly heal, and as long as Lin Hao obtained the other half of the Heart of Regeneration, Shen Xiyan would be able to live for a very long time, and as to how many years this long time period would be, he didn't have a number in his own mind!

It didn't matter where he went, as long as he left this place where he had stayed for a thousand years.

He felt that it was a waste to give the Heart of Regeneration to Shen Xiyan, but it was something that Lin Hao had gotten from his own robbery, and he had no right to ask about it. With the terror of the Heart of Regeneration, if Lin Hao had used it himself, he was afraid that his strength would have been further refined.

China is really a person blessed by heaven, it is really enviable!

Chapter 1496

Thinking of this, Pope Peter looked to the east, where, over China, there was a horrible aura of hovering, like a giant dragon dozing, his pair of eyes, although they were closed, but revealed a majesty that still made it impossible not to feel awe, spare him, but also felt that this thing was terrifying

China's totem is not similar to the bear country, the bear country's white bear totem has been cultivated by the totem powerhouse to eat up a lot of qi rhythm, but China's giant dragon totem now has no one to cultivate it, it is completely and totally whole, and it looks like it will never dissipate!

For a thousand years he has looked across the sea from the other side, he has not opened his eyes many times, but every time he does, he is able to affect many people, to shock many people, to give some kind of warning to China!

Is this the strongest reserve, the strongest card in China, this dragon? Why is no one in the entire martial arts world practising this? What is the hidden secret here?

The power of China's Dragon Totem is no weaker than the Bear Country's White Bear Totem, it is even much stronger, yet China does not cultivate it, but chooses to cultivate internal qi instead, which makes people feel puzzled, after all, for so many years, except for this year when a super strong person like Lin Hao has driven the Chinese martial arts world to rise rapidly, unlike before when it was dead and dull!

Of course can't say that, across the sea to China for a thousand years, the sinking and rising over there, he was watching, hundreds of years ago the martial arts qi rhythm plummeted, almost collapsed from then on to break the inheritance, that time the situation was really horrible

Pope Peter looked at the King of China Lin Hao, then shook his head, not to continue to think, many things, look at a thousand years did not see, also not in a hurry this moment

'King of China, I am actually puzzled, you have done so many things for your wife, pay so many years, why face his reproach, still so so humble?' Pope Peter asked sincerely.

Lin Hao smiled, 'You don't understand, I have done so much for her, why can't I do the next little thing?'

Pope Peter smiled and froze, then laughed out loud, it was his own shallow eyes, he hadn't even figured out such a simple truth, what had he lived to for a thousand years?

'Then I am waiting for you for a little time, a thousand years of waiting can afford to wait, such a little time, surely it does not matter.' Pope Peter said and stowed away in the

clouds, as he had said, a thousand years of waiting could afford to wait, now a little time was floating around.

Pope Peter is not urging, Lin Hao followed Shen Xiyan walk here and there, the scene is still a lot of people are international celebrities, Shen Xiyan also took the opportunity to the international market? Zero love love steak closed love serve zero? The company's brand is a very important part of the company's business.

Lin Hao wondered if that Pope Peter, hidden in the clouds, hadn't left his dojo for a thousand years! He was powerful, but he shouldn't be able to walk around at will, should he?

After all, there were so many powerful people all over the world, and I was afraid that such a powerful person might offend someone if he entered their dojo hastily, right?

One disturbance might turn a blind eye, but multiple disturbances could lead to trouble. This unexplained mischief, to be honest Lin Hao now think, also do not go to every time to cause it, and also bring Shen Xiyan!

Super Son-in-law Chapter 1497-1498

Chapter 1497

He himself had come out of a deadly battle and was not afraid of any danger at all, but what about Shen Xiyan? He had experienced such a great battle, could Shen Xiyan really withstand the aftermath of such a fight?

Her physical condition is really not up to it! In Toulouse today, a small cyborg could threaten Shen Xiyan's life! He could always be by Shen Xiyan's side, but there were always times when he had no time to care.

‘The more powerful you are, the more things you carry, and the more constraints you are subject to.’ Lin Hao sighed in vain, helplessly.

‘Honey, I’ve already made a plan for our baby’s estate! As long as he makes a sound, he’ll be a billionaire!’ Shen Xiyang grabbed Lin Hao’s hand and said proudly.

Lin Hao rubbed her head and said dotingly, ‘I still want him to be a princess, hehehe.’

‘I want a son! Hmph! You want a princess, don’t you want a lover from a previous life!’ Shen Xiyang deliberately pouted her lips and pretended to be angry.

Lin Hao laughed harshly, ‘The main thing is that I want to have a daughter as beautiful as you.’

‘Count on your good sense.’ Shen Xiyang hummed, her heart warming up.

Wang Shufen looked at Lin Hao’s back, blood gradually surfacing, her heart ached like a pin prick, Lin Hao needed to go and receive treatment, otherwise if he stayed up like this, his body would definitely break!

She wondered what kind of injury Lin Hao had suffered, the way the blood was flowing down would be in this way

‘Xie Yan, Hao’er must also need to talk business with others, you should not be holding on to him, look at that General Heywell, ah, and Mayor Boris, look at him are with look like ‘lookout’, but because of your presence, they are too embarrassed to come and disturb you. ‘ Wang Shufen pulled Shen Xiyan and said with a smile.

Shen Xiyan then looked back and found that it was true, then her face dimmed a bit, but immediately revealed a beautiful smile as she said, ‘Honey, you go and talk to them, but when you’re done talking, make sure you remember to come and find me! If I can’t find you, humph!’

Hearing Shen Xiyan’s loving threat, Lin Hao naturally replied with a satisfied heart that he definitely wouldn’t, and then came over to the small dating circle of the Seawell Giant Eagle King and the others.

The Giant Eagle King glanced at the sky, just now Lin Hao and Pope Peter divine friendship he could sense, he was still very familiar with Pope Peter’s voice transmission, after all, the two of them are considered to have known each other for a thousand years, there are some things that are already deeply rooted!

For ZF officials, the giant eagle king is not very resistant to outside, then again Boris future development is certainly good, he is after all, the Chinese king Lin Hao feel good people, with the Chinese king Lin Hao this layer of relationship, he in? The future development of the country of F will not be wrong.

He, the Giant Eagle King, would not interfere with politics, after all, Western Europe was so big that the whole world needed his control, although there were not many things that he needed to manage, but he could not disrupt the order at will.

‘Mr. King of China, my Emperor must have something important to discuss with you, so we will not disturb your time!’ The Giant Eagle King said respectfully, for the first time in a thousand years, he had put his status so low, but when he thought about it, there was nothing he could do, the King of China had a strong national sentiment, and at the same time was still a powerful person comparable to the Pope’s level.

He also saw clearly in the previous battle, such a strong person, if he still holds his own status, it is simply looking for death.

He was a big man, but in front of Lin Hao, he was really nothing.

Chapter 1498

Lin Hao nodded and looked towards Shen Xiyan’s side and said to the Giant Eagle King’s few people, ‘A few of you help take care of my wife’s safety. I don’t want to see any bad situations when I come back, so I’ll have to thank the few of you.’

‘Mr. Lin, don’t worry, as long as I’m here, there will never be any accidents to your wife!’ Boris said immediately.

He was quite shocked that the Pope was waiting for Lin Hao to go to him, to where? How to find him? Of course he didn’t dare ask these questions, he only guessed a little, then he who had watched the great battle, couldn’t help but glance towards the sky, then nodded, maybe it was in the sky! It was only in the sky, higher up in the heavens, that their radar could not find any trace of the Pope during the great search.

After all, as the Pope of a Church whose congregation was measured in billions, the leaders of many nations in Western Europe wanted to meet with this mysterious Pope who had lived for a thousand years, but bar none, no matter who it was, they didn't have that chance.

After Boris finished speaking, Lin Hao then nodded his head, having worked with Boris, he still trusted Boris more. As for the rest of the people, to be honest, he was not too relieved, but well, he did not have to worry too much about this few people to make any trouble, but it is false to say that not worried about the emergence of accidents, for the Bigel, Lin Hao is still not very relieved, as for the big general Haywire, it is even more needless to say, this person he has not even contacted, besides, to his level, everything is the big picture, and many people do not care about the big picture. Many people will not care at all about children's love

Except for him of course

Looking at Lin Hao's disappearing back, the giant eagle king looked up at the sky, there, there is a place where Peter often stays, as if to say the city of the sky, but where in the end there is, he really does not know, after all, in modern society, if there is really a city in the air, will not be discovered?

He used to be a superstitious church, but with ZF contact over, he was somewhat shocked by these technologies, no way, he also had the privilege to follow the rocket to outer space, only than other people kind of need a variety of air suits ah, all kinds of in the air can not have the strength to walk such problems, he did not meet, just feel that outer space is very dangerous, his physical eyes although he can not feel where the danger, but his keen sense of God feels there are countless people staring at him, and that weak warning of danger, has been repeated

This is what he could not understand, he asked Peter, Peter did not explain anything to him, but only told him that his strength is too weak, but the ability to detect danger is

very strong, and then for this topic, even to this end, which makes the giant eagle king is very helpless!

No need to think to know that the Pope did not allow? Yifu Wu Ai Yi Zha Xi Ai? Ready to explain more to him.

‘King Giant Eagle, what do you think King Hua Xia and the Pope will talk about?’ Hywel inquired, at the same time curiously following Boris all the way to the sky, they had also scouted the skies of this part of Western Europe, but did not find anything about the so-called castle in the air, which made them puzzled, was this information false?

The Giant Eagle King shook his head, and he had difficulty determining exactly what the two would be chatting and writing about.

‘Maybe it’s about the East side, I don’t know how much the F country knows about the East side, I heard that the church on the F country side, sent a lot of biochemicals that are not weak and lost a lot of strong people.’ The Giant Eagle King remembered something and asked.

Super Son-in-law Chapter 1499-1500

Chapter 1499

Because Pope Peter was very concerned about what was going on over there in the East, he had a mind to observe what was going on over there, but because Pope Peter was so concerned, he didn’t dare to send someone to observe, like everyone else, because after all, Pope Peter hadn’t given the word or asked him to do it, and he didn’t quite dare to do it without permission.

But it was still possible to inquire and ask around.

Of course, he also had another source of knowing these things.

Heavil smiled and glanced at Boris again and found that Boris was also looking at him somewhat expectantly. Thinking of Boris' status nowadays, Heavil gritted his teeth and said: 'The Eastern side actually M made a series of plans, as early as after the end of World War II, the M side told the powerful countries on the Western European side that the Eastern side told us not to interfere in the matter, otherwise it would be not to give him? The government of the United States of America has been working on a series of plans. We have to save face! Of course the words are not vulgar, but that's the general idea.'

'But all said and done, we can't just do whatever he says, so we went over there and surreptitiously researched it! It was found that there was a distorted space in there, that space had powerful energy in it, and the gas in there contained a kind of energy that after humans breathed it, there would be a remarkable change that would change one's physique a little, but if one breathed too much of this air, it would make the body expand, and even the chest cavity would explode from storing too much of this gas! And once this gas enters the body, it is never, ever digested! This is bizarre! It baffles our scientists!'

Hywel spilled these secrets, it wasn't really a secret, after all, now that the Ancient Prison of Eastern Japan was exposed to everyone, it wouldn't be long before all of them in the group would know what they should know, so he went ahead and said this too!

The secret of the Ancient Prison of Eastern Japan, which they had been prying into for years! Although M dominated a lot of things after World War II, as two super empires, their strength should not be underestimated, so naturally they would not give the mysterious Ancient Prison away.

The Giant Eagle King smiled slightly, what Haywire said was very conservative, all things that were about to be announced in front of all the powerful people, and thought to himself that he was worthy of being a great general, the official words were at his fingertips.

The king's army is also in the East, and over the years, he has secretly supported many people, but the strength is not very strong, after all, his base, compared to other kings, is still much weaker.

However, because of the weakness of his people, he has infiltrated many of them, which has led to the surveillance of the M country and the counter-intelligence bureau of the East Japan to pay little attention to his men.

So over the years, he had more or less gotten a bit of information, the kind that wasn't classified.

He was not afraid of the F general, but he had to respect the King of the Eagles, although he was one of the top five in the F country, but in front of the King of the Eagles, he was nothing!

For example, in the church, he was the giant eagle that watched the Pope rise to enlightenment, he was a wild one! In the ZF, for example, he was also under the Giant Eagle King, and the Giant Eagle King? is the head of the entire majority of the country recognized biochemicals, which is officially endorsed, people, ah, is really a comparison, the existence of the angry

The most important thing is that you can get the most out of your life, and you can do it with the help of your own family.

Chapter 1500

Haywell is also curious to glance at Bigir, this existence can be considered really some low-key terrifying, so many years, only know its people, it is difficult to see his real face, after all, the official know his strength, naturally not willing to offend the previous pseudo-king strength of Bigir, after all, the king and the pope battle is imminent, offend any side of the powerful forces, are to their own victory to weaken some

So the F nation also let Bigir lay low and leave him alone

The giant eagle king looked at Bigir, the king class who is now the top fighting force? The most important thing is that you can't be too careful. The high hand, these years but on the surface but low-key, but also quite a lot of layout

The two newly promoted pseudo-kings, Asura Zeus, he will not think that these two will listen to him, he is more think, these two will be close to Bigir in the future, for no other reason, but a little bit of brains also know, to the weak to unite against the strong, is the way to survive, and conspire with the strong, is the right to be cannon fodder

The first thing I did was to send a group of people to the East a hundred years ago, and that was directly around the ancient prison, a place I found when I was traveling.'

As Bigir spoke, he found the Giant Eagle King staring dead on, then coughed softly and awkwardly, 'Actually, my connection with the Gaité family goes beyond these decades, I've followed their family for around two hundred years and have known Gaité's father today for many years, back when he was a not-so-weak mid-career biochemist, I took this opportunity to befriend him and gain his trust! Because I have been in Toulouse for around six hundred years, I

have searched all the castles in Toulouse, and the only two castles that have a divine treasure like the Heart of Regeneration are the castle of the Gaité family, and the one that is Golefant!

The Giant Eagle King nodded his head and said to himself, 'This Bigir is a liar, I'll have to be more careful with him in the future, if I'm fooled by him, I'll be embarrassed.'

The process of being promoted from a False King to a King-level powerhouse was something he could feel, and so could the Vampire King! Not to mention the Pope! It was also Bigir who had known the mystery of the four kings many years ago, so he had delayed his promotion, even with an unbelievable divine collection like the Heart of Regeneration, and was still suppressing his strength

But then again, every person has their own secrets that are not to be easily pried into, and he should not press the issue.

He gestured for Bigir to go on.

'Having known the father of the present-day Gat, that is, for many years, on the occasion of his death, he told me this news which I already knew, and gave me half of the Heart of Regeneration! Then told me to shelter their family for a hundred years! Half is a hundred years, the full is two hundred years After using half of the Regeneration Heart, my False King strength was already extremely solid, and the very powerful thing about the Regeneration Heart was that it could mask my strength! So I've been walking around the world with the strength of an advanced biochemist!'

'Once again, when I escaped from China to the East, I felt a terrifying aura near the ancient prison, which was so strong that I got a trace of it and refined it for a long time, but I was

unable to refine it all, and eventually just forced it out of my body, but I've had a strong concern about this place ever since! After all, such a terrifying breath, I have no reason not to pay attention! But what followed was the reform of the East Japan, followed by what we all know, the global change, so I didn't dare to go there myself, so I laid pieces there early on, monitoring every move in the ancient prison of the East Japan.'
