

# Super Son-in-law Chapter 1501-1510

## Chapter 1501

Bigel obscurely said some of his own experience back then, anyway, is that should be a lump sum, he will not seriously say more, his own relationship with the Gaither family is also lightly described and passed, the world just know that he and the Gaither family in recent decades to befriend, and now the head of the Gaither family just think that he will only shelter him for decades, but he Bigel does not go back to explain, the dead man's agreement, is it considered an agreement?

Sort of. ....

Giant Eagle King nodded, Boris is quite shocked that this top powerhouse is so early with the Gaiter family, but think about it, this Gaiter family's ability to make death is still quite powerful, I think if it were not for the existence of this, it would not have been inherited for hundreds of years, the ups and downs .....

Haywell's face did not move much, as if he already knew the news.

They both gestured for Bigil to continue on.

This is how Bigil slowly spoke about the news he had received from the ancient prison of the East over the past hundred years.

Bigel recalled deeply for a moment and then processed some of the knowledge a little bit, 'My ministry has just come back with the news that during these days of the shaking of the ancient prison of the East, there are countless organizations of powerful people who are relatively peaceful in exploring the secrets inside! But all were blocked out, which the deepest probing should be one of the four town guards of the Dragon Sect of China, but apparently, Yuan Wu is not among them, and then Taotie has to guard some of the old Chinese! Among the remaining two, Qin Long has relatively less time to spend, he is the head of the Dragon Sect, that is Yang Hu has explored deeply, but this trail is not known to anyone!'

The giant eagle king nodded, gestured for Bigir to go on to say, China to explore that is expected, only the deep exploration of things, that is really not clear, after all, that inside are all the defense network laid out by M, there are also strong people of M to guard, without a certain strength, completely can not go deep.

And Bigel's information was relatively more accurate, no less than the information they had received.

This makes Hywel shocked, at first thought Bigir know only the peripheral information, unexpectedly he all go deep inside, this is simply unbelievable, but think, silver wolf king Bigir set up a hundred years, if there is no a little harvest or, it is really not to say .....

Besides, although what he saw on top of the Garonne River and the high seas were all top powerhouses battles, which were all shocking scenes, all invincible powerhouses that were never more than one in the world, but that doesn't mean he is too! And Bigir is now a king-class powerhouse, which before now would have been an unearthly powerhouse! Extremely dangerous people, and generally the ZF controls the presence of this part of the population .....

Earlier he had ignored the Silver Wolf King Bigir's power because of a brief moment of visual fatigue, but now he didn't dare.

Boris listened to the clouds, only but was very careful to write down the information, he can not analyze, but write down, still have certainty! He couldn't understand it, but it didn't mean that Lin Hao couldn't understand it, ah, he could just relay it to Lin Hao after listening to it.

And he felt that the message was important!

Bigir glanced at the crowd and noticed that the Giant Eagle King already had some expectation inside his eyes, while Hywell, who had previously treated himself with slackness, was also instantly somewhat respectful, so I guess this news was very important!

Bigir took a breath and continued, for him? Closed West Italian Servant West Lu dyed closed? The next thing he said was very immediate news, and news that was of great interest to the Giant Eagle King and Hywel, and indeed to all of Western Europe!

## Chapter 1502

Because after the loss of Arashiyama and White Dwarf's private guards, the other two guards who are staying in the East will be attacked by all the powerful people, and at this time, whoever steps into the area around the ancient prison of the East will have the best chance of getting the secrets inside first!

‘After White Dwarf and Arashiyama leave! The first thing that happened was that the world’s powers were shouted back to their own kingdoms to guard their security, but there were also a few strong? The first head of the big Powerhouse organizations was called back to his kingdom to guard security. The first heads of the big power groups did not go back! However, White Dwarf and Arashiyama are dead, so what’s next for that place?’

‘Inside my information, there is a T3000 level cyborg situated on the surface of the ancient prison of the East, only this person never cared about the affairs of the East Japan Ninja Alliance, only about his own growth! Even when Zu died, he didn’t show his sight! But the other T3000-level cyborg had shown his face for a brief period of time, which means that if you add Arashiyama and White Dwarf, there were four T3000-level cyborgs on guard at that time! Now that M’s base card has been released to the public, do you think that organizations like the ancient Powerful Ones will take advantage of this opportunity to attack inside?’

The Giant Eagle King was shocked, his eyes looked at Bigir in shock, this king level expert who had only just been promoted, he knew so well about the power of M Nation’s system arrangement over in the East, this was too shocking, all this information, he didn’t even know about it!

They had previously guessed that M Nation might have a T3000 level cyborg holding down the fort in East Japan, but now it seems! If you include Arashiyama and White Dwarf who didn’t support the Great War, then that means that there had been four T3000 level cyborgs before!

That was a very terrifying force!

He saw Arashiyama and White Dwarf fight! Both were top king-class masters, exploding into a fight that was as close to the Vampire King as you could get!

He wondered if the Vampire King had brought the White Bear King and the Black Crocodile King forward for a strong attack, would he have simply fallen!

Even thinking about it makes one's heart tremble, M's hand is too long, but when you think about it, it's not surprising that M has been laying out for decades and has such a reserve there!

What is even more terrifying is that when Zu died, not a single one of M's mechanical powerhouses came out! Their discipline, it was too terrifying, wasn't it?

The Giant Eagle King's heart churned, thinking that if the King of China hadn't played out two of M's terrifying cards in this battle, the day Pope Peter told him to go with the Silver Wolf King and the others to forcefully attack the ancient prison's defences, he might have simply fallen by then!

Not to mention the rest of the organisation!

Terrifying, too terrifying!

And he guessed down the line with Bigir's statement! When Joe died, not a single person had risen to the surface! So that meant that when the then King of China and Jun Wu Ren were fighting Zu at that time, there were countless individuals watching!

I'm afraid that the strongest of M's mechanical legion was also concerned about this group of people, so they didn't venture out!

This .....

The giant eagle king, as the world's top powerhouse, couldn't help but feel that his information was simply too closed, that he didn't have any obscure information about such a big divine treasure as the ancient prison of the East, that he only had a vague idea of how the other side's strength was laid out and what the personnel arrangements were!

He panicked violently, then his heart couldn't help but be grateful to Bigel, if it wasn't for him, he might have fallen while in the Ancient Prison .....

Then again, he wondered, would Peter know all this? Maybe know it!

## **Super Son-in-law Chapter 1503-1504**

### Chapter 1503

So much for Peter's global layout, and for thousands of years at that! How long he's been pursuing the divine collection at the mouth of the world means how long he's been laying it out... shock, shock!

He's in the top five of the Church and he's like a white boy! If people found out, they would not let them laugh at him. The Giant Eagle King's heart was very upset.

Not to mention him, even Hywel was also smacking his lips. He couldn't imagine that M had laid out such a big plan in the East, so he thought it was going to kill a lot of people!

He imagined that if the real news hidden in the ancient prison in East Japan was revealed, those crazy powerful people would go over there in droves! And naturally, M would not stand idly by, and then he would send his counterpart, so that would be N+4! With their terrifying strength, it would be enough to kill the first group!

It's frightening, considering the fact that they only have six or seven strong people at their disposal, if this group goes there! Faced with M's layout in the East, I'm afraid that except for Pope Peter and the Vampire King, all the others would have to fall .....

The fact is that the information he had was worth a lot of money!

The giant eagle king stared at Bigir and said indifferently, 'This information of yours saved your life and mine! It's a good thing you spoke in time, otherwise you would have fallen and I would have been fatally wounded! You saved yourself and you saved me, but I'm grateful to you for that! I will save your life when the future war of the powerful comes! I think with your wisdom, my guarantee of your life will never be used by you.'

Bigil was horrified beyond belief that he had provoked such a reaction from the Giant Eagle King by simply giving what he thought was a rather horrific piece of news, and what did he say?

A future war of the powerful ?

Save his own life ? Close the love-service-siyiyi-service-pak ?

Biggil's insides turned over, he as a king-level expert under the ZF today, the war of the strengtheners, he could not stand by and watch ? From what Bigil was saying, he would certainly not be able to avoid it then, a hint of danger welled up in his mind!

A thousand thoughts went back and forth in his mind, and at this time he was thinking, should he tell the Giant Eagle King all the information he had gathered ? Only after thinking about it, he cut off the idea, thinking no don't, everyone has their own cards, he couldn't shake out all of his, although it would be in exchange for the goodwill of the Giant Eagle King, but he was also one of the top powers!

Boris took these messages down firmly, he glanced towards the sky, Bigil the Giant Eagle King and Hywel looked on and didn't say anything to tell Boris not to spread the word, no one wanted to offend the King of China! But then again, thinking about it, there was absolutely no need for them to offend the King of China over news that was about to explode, it wasn't worth it.

In this day and age, information is worth a fortune! The more confidential information they got, the safer they were!

Above the sky, Lin Hao walked into a sky garden, he looked around, it was a small villa, covering an area of about fifteen hundred square meters, inside the flowers

and plants, fake mountains and water, it was quite pleasing to the eye, it was unexpected that such a place existed above the sky, within the clouds, in today's contemporary world, it was worthy of being a thousand year old powerhouse!

This is a place of great depth!

‘King of China, please also come to the hall for a chat.’ Pope Peter invited Lin Hao, who was admiring the surrounding scenery on the lawn.

Lin Hao took a flying leap and came directly within Pope Peter's hall.

#### Chapter 1504

The hall's shelves are medieval squares, but the furniture furnishings are modern objects, which means that Pope Peter is not absolutely old-fashioned. It seems that this man is more integrated into society than the hidden oldies of their Chinese kings.

Come to think of it, this man has been in pursuit of the mouth of the world, searching for the mystery of ascension!

All searched for a thousand years, although many people have no trace of him, but also from the side, he is often into the world, just in what capacity, that way, no one knows .....

‘Pope Peter is a good elegant, means is also high, in today’s society supreme, but also able to put the castle building in the air, and also not be discovered.’ Lin Hao looked at a seat and sat straight up, then complimented.

Pope Peter smiled, ‘Some small objects, with the strength of the King of China today, I’m afraid it can be done.’

Lin Hao shook his head directly after hearing this, ‘I don’t have any? Dyeing zero whiskers to serve Lu Pao Siao Siao? Such a big gesture.’

Don’t look at this small castle villa style novel, is the modern style, but Lin Hao perceive his foundation, found that is not this era involved, and the power emerged inside makes Lin Hao very familiar, like Mohammad Kato used before the scepter of the Pope!

It was shocking to think that the power that Mohammed’s scepter had exerted was comparable to that of some of the weaker king-level masters, and here, a foundation was such a gem!

This thousands of years of heritage is just muddy. ....

The pope Peter handed out a tall glass, the wine inside was bubbling with blue mist, the energy was thick, pope Peter said seriously: ‘Inviting the king of China to come here is not to study any castle, but to want to cooperate with the king of China! A most sincere cooperation!’

Lin Hao took the cup of blue agaric syrup, gently took a sip and said to Pope Peter, 'This is really an honour for me. I wonder what kind of cooperation Pope Peter wants to talk to me about?'

Looking at the mighty Pope Peter, Lin Hao felt that he was still hiding certain tricks, as the absolute king in this dojo in Western Europe, he had fought him twice, twice with the Vampire King, and three times against the Iron Wings T3000, and each time, although he was slightly injured, he gave the impression that it was a 50/50 split!

Yes, it's a 50/50 split with any stage of strength, which is bizarre .....

Steel Wings T3000 with a defensive shield exerts a strength comparable to that of T4000!

In other words, his strength, definitely has hidden! This man is really a wonderful person, you can never guess his strength .....

'The Mouth of the World. The King of China must also know something about me, and as you guessed, my goal has always been the Mouth of the World, and it has not changed in a thousand years.' Pope Peter put down the blue jelly and said with unmistakable determination in his eyes.

Lin Hao nodded, he knew this, Jun Wu Ren had mentioned it, after all, China's depths were still deep, and he thought he must know something about the organizations of the world's power players, whether it was the secrets of the Dragon Sect or the Intelligence Bureau, they must have a way to get some vital information.

Pope Peter continued, 'The breath of the Mouth of the World I have felt in your body!' The moment he finished speaking, Pope Peter looked slightly agitated.

And Lin Hao's entire person also shook .....

I've felt it on my body?

Could it be in Noble Hospital No. 3? Or was it a sudden outburst?

## Super Son-in-law Chapter 1505-1506

### Chapter 1505

Lin Hao was caught up in a brief moment of speculation, in fact he was aware of it, the appearance of the blackened Lin Hao! That a mysterious incarnation of Shen Xiyan flashed, a black hole-like virtual space that engulfed him, and all these scenes were very real, all these existences made Lin Hao not dare to casually put down his thoughts, after all, the stronger he was, the more many bizarre things felt to exist!

For example, the scene at the moment, as a top tycoon, he was in disbelief that such a thing existed! Before he became a mid Grand Master strength person, he was just a martial artist with good martial arts talent and a body of extreme dao, but after becoming a Grand Master? No, becoming an Innate Patriarch? The West Closed Squire Whisker Squire Dye Sensei? After that, everything he experienced inside the ancient prison, as well as the fight with Cang before, had shown him that the world was actually slowly changing, it was just in which direction this change was going, he was not sure .....

Lin Hao calmed himself down and said with a smile, 'Is Pope Peter joking?'

Pope Peter hemmed and hawed and said with a smile, 'I still doubt my judgment, after all, I've been chasing after this thing for a thousand years! I've been working on this since I became Pope, I don't think my sense of smell suddenly went out of whack, of course it wasn't the first thing I thought of on you, but the scent that leaked out of the ancient prison in the East after the shaking there, followed by a brief spatial disorder inside my No. 3 Noble Hospital, forced me to be a little suspicious.'

Lin Hao didn't take up the conversation, and Pope Peter consciously continued, 'Perhaps you won't believe it, but this kind of thing, to use your old Chinese saying, is: it's better to believe it than not to believe it!'

Lin Hao chuckled, his heart sinking into contemplation, Pope Peter's words were simple and straightforward, if not for the conflict that had occurred between the two men before, which of course had already been resolved before.

This aspect of interest is always so dry and yet so amusing! In the world of adults, perhaps the thing to talk about is interest .....

Seeing that Lin Hao had remained silent, Pope Peter took a sip of the divine hidden jelly that had been hidden down for a thousand years and spoke, 'The premise of our cooperation is naturally not based on the two of us talking casually. Rather, it is based on your wife's hidden illness, which can be solved in my Western Europe, and the ZF can also solve it, but treating the root cause is not the root of the problem.'

Only then did Lin Hao look extremely serious, the two of them had talked earlier and although Lin Hao was curious and cared, he still seemed lazy and relaxed in front of Pope Peter!

But when it came to Shen Xi Yan's matter, Lin Hao felt that he would not be slack.

Lin Hao looked at Pope Peter, this man was really well prepared, which was true, he had actually told himself about this before he came, otherwise he wouldn't have answered the invitation.

Now that the main topic had finally come, Lin Hao was really starting to take it seriously.

Seeing Lin Hao's serious expression, Pope Peter also thought to understand that the Mouth of the World was important to some old, old monsters, but still did not appear to be very important to young people like this, because they were all people who lived under these scientific times, who had a superb scientific foundation, and not people who grew up under theology, who did not believe in theology, who did not believe in faith. What goes beyond scientific interpretation, they don't believe!

Yet, what is science?

Science is just a rule!

All science is pseudo-science!

Because all these ideas are based on a rule that lives under a relative idea, if that! What if, under this relative philosophy, the balance is suddenly broken one day? What if the foundations of this scientific philosophy are turned upside down? Are the current scientific formulas still scientific?

Chapter 1506

So, science and theology, just go ahead and believe! Don't go into denial, after all, with today's science zones dissected, the world is not just as big as Earth, there are creatures with breath outside of Earth, just too inferior a civilization, and with his strength, he can't leap too many spans into other galaxies .....

So!

Science, just a simple common sense of life under the rule system of the universe! And these commonplaces of life change over time! Maybe the basis of science a thousand years ago was not the same as the basis of science today! Or maybe in ten thousand years there will be a stronger scientific basis!

Everything changes over time!

Human beings are just a small species!

Not to mention some ordinary people, who are a grain of sand in the river of time, very, very small!

And an existence like his, which spans a thousand years, may be a special existence in this galaxy! But what is it to the whole universe?

Moreover, his thousand-year lifespan is not without an end, he has an end of death too!

He can't break the rules of Earth, he can evade them! That is, the lifespan line, but for how long?

He's nearing the final point of his life span! Not in a couple of hundred years, but this aimless waiting! Sooner or later, he would die .....

If he really dies, he stays in this strength to live for a thousand years, then is it necessary to live for so long? After standing on top of the world for a thousand years, is it really necessary to wait for death?

This would be unacceptable to anyone .....

'Your wife's condition is gradually deteriorating. If treated with a regenerating heart, a whole regenerating heart treatment would allow him to reach the same length of life as you, but! Half a Regenerating Heart would give her nothing more than a fix, a simple fix! With the addition of my means, I can guarantee as well as keep

your bloodline alive within your kaiju! And I can be certain that there is absolutely no second person in this world but me! And if I were to do it myself, after you have obtained the other half of the regenerating heart, I could once again heal your wife with my own hands and give her a certain amount of life!

‘A strong man like us! In terms of your Chinese classification, after reaching Grand Master, or certain powerful Ascended Masters, their life span can be extended! And you got your lifespan without you knowing it! Because of people like us, who have broken some of the rules of relative conservation of the universe. Imagine if you had another 300 years to live, and your wife, your children were dead, and you were then looking up at yourself all alone, wouldn’t that be a bleak feeling! And I can change all that!’

Pope Peter ended with an incomparable heart.

Lin Hao listened to this crazy statement, and some unintelligible east? He said, ‘I love you, I love you, I love you. He looked at him with narrowed eyes. He narrowed his eyes and looked at Pope Peter!

What Pope Peter said did make sense, if Shen Xiyan died and his child died and he was still alive, then what kind of situation that would be, he didn’t dare to imagine, didn’t dare to imagine at all.

Lin Hao shook his head, he knew that he would be accepting Pope Peter’s invitation, no, it wasn’t an invitation, it was a deal!

It wasn't that Lin Hao couldn't ask the ZF for help, but who was the strongest person in the ZF? It was the giant eagle king! And the Giant Eagle King? It was the eagle from Pope Peter's tree of enlightenment back then, and the two of them had a better relationship than he, an outsider, for sure!

## Super Son-in-law Chapter 1507-1508

### Chapter 1507

And why not the best when he can get the strongest, and the one who asks for it? And to settle for second best!

In saying? Wu Di Er Shan Serving Ai Yi Serving? He also felt that the matter of the ancient prison in the East must have something to do with him, and instead of going to both, why not go with Pope Peter, a man of great strength!

He was an individual, and although Pope Peter didn't care about the whole Church in Western Europe, that didn't strip him of his position as Pope, and the power he could exert!

Faith, he was the faith of tens of millions, hundreds of millions of people!

It was a very strong man.

And what about him? Behind him stands China. It was engraved in his bones, but before the Great War, the only person he could give his back to was Jun Wu Ren, that Dragon Gate?

He thought about it, it was a pain in the ass! From the words and the way Yuan Wu was acting, he felt that the Dragon Sect had their own business to deal with!

And although Yuanwu was not weak like that, he was still much weaker than himself! He was stronger than Yuan Wu, and Yuan Wu had a high status in the Dragon Sect, so what would his status be if he entered the Dragon Sect? Would he be higher than Yuanwu?

What position would he have after surpassing Yuanwu?

That's not realistic!

Even if he could beat everyone into submission, but with a great war on the horizon, he wouldn't have time to do it!

The Dragon Sect, would not be his choice. But protecting the strong men of the Dragon Sect, if he could do it, he would certainly not watch the men of the Dragon Sect being pitted and rounded up. After all, Huaxia is the Chinese people's Huaxia, and what Dragon Sect does is to guard and defend it!

What's that saying?

The rise and fall of the world is the responsibility of every man!

If the Dragon Sect is still in existence, then it is the strongest backbone to defend the Dragon Sect!

If the Dragon Sect is not here, then Lin Hao is the last one to defend the Dragon Sect!

If you want to step in, you have to go over his dead body!

‘I promise you an invitation to a trip to the Ancient Prison, or if the Mouth of the World is not in the Ancient Prison, I will work with you too! But that premise is that you cannot play tricks on my wife, otherwise, this Sky Castle, too, will not be able to withstand my wrath!’ Lin Hao said without anger.

This castle looked like just a castle, but what was contained within was a very terrifying formation that could defend against an attack by an average person of mid Grand Master strength, and that was a joint effort by many people!

When Pope Peter heard Lin Hao’s accurate recovery, he stood up in excitement!

A thousand years!

A thousand years of waiting!

He was finally seeing great hope, and he was overwhelmed with excitement!

‘King Huaxia, you and I will join forces! This Mouth of the World, we can definitely enter! Haha, haha, even the First Pope can’t enter the mouth of the world, but I, Peter, can!’

‘King of China, if I didn’t guess, no one who has ever left from the Mouth of the World, except for the Chinese, no other race of people!’ Pope Peter suddenly spoke again.

This sentence made Lin Hao a little confused, this Pope Peter knew too much, and it was all extremely secretive matters, it seemed that he hadn’t lived this thousand years for nothing.

But this sentence was also a reminder to him, it seemed that there were some things he needed to ask about when he returned to China!

He couldn’t really rush in on the basis of Pope Peter’s mere words, could he?

What was that if not a death sentence?

‘The matter of treating my wife is put for tomorrow, if we treat her today, it would seem too abrupt, and I’m afraid my wife wouldn’t be too receptive.’ Lin Hao finished and rose, then said, ‘You and I have had a rather long chat, so I should go back. I will wait for you tomorrow at Golephant.’

## Chapter 1508

Said Lin Hao with a flash, directly from the sky downwards.

Inside this period of flight, Lin Hao pondered about teaching with Peter? Xi Pao Pao Shan Di Ai Ai Shan? What the emperor talked about, it involved too many things, many of which even he didn’t understand very well, there was no way around it, Pope Peter had been studying the Mouth of the World for a thousand years!

And Lin Hao could be sure that what was said today was not all that Pope Peter knew! After all, Pope Peter was too capable of hiding tricks!

‘What he said moved me, and the questions that had vaguely troubled me before, he pointed out directly. Yes, if I could really live a long time, I would indeed be somewhat unable to accept it if Shyam and the child could only live a hundred years! If I couldn’t change it, then I would gladly accept it, but what if I could change it? Why should I follow my destiny? Against the heavens, are you just swimming against the current!’

Lin Hao glanced towards the East, the image inside the ancient prison appeared at one point, that mysterious and terrifying Shen Xiyan of another appearance, giving him a feeling that it was not at all a picture that could be manifested on Earth!

Not even a mirage could reflect it!

The mirage was only a scene that had appeared on Earth, and the appearance of that day was mysterious and mysterious.

He had searched all over the world, every scene! He had searched for them all, but he could not find a single scene that matched that day, which had to worry Lin Hao.

Something was like this, if it didn't appear, it definitely wouldn't matter, but once it appeared, it was impossible to wave it away .....

'I don't know if the Mouth of the World really exists! But right now what I need to solve is Xiyan's condition as well as solve the problem of Xiyan's lifespan, and also, after I return to China, I have to inquire about the Mouth of the World, or about ascension!'

'Let's hope that the Dragon Sect won't be looking for my business. After all, the Iron Wings T3000 has already been sent back, and I also hope that there won't be any more accidents on top of this matter, time, definitely not to be wasted!'

Lin Hao thought as he thought about accelerating his flight, he was already a little impatient to get back.

‘Hm? The injuries on my body seem to have almost recovered! And there are signs of solid refinement?’ Lin Hao frowned and went to feel his body in some disbelief!

The body that was previously covered in bruises was now intact! Moreover, the unstable roots of his aura after the wave of refinement also appeared to be very solid, the peak strength of the middle Grand Master, solid as can be!

‘It seems that the energy contained in the blue agaric syrup handed to Pope Peter is very terrifying, no wonder his unstable aura cannot be felt either. Earlier during the great battle, when he had a hard encounter with the Vampire King, one could still feel that he had been affected by something, causing his breath to be not very stable, and this sign of instability had appeared very clearly from time to time during the subsequent battles .....’ Lin Hao glanced back.

Unknowingly, Lin Hao had also become hidden for playing his terrifying power in front of normal people. It was spontaneous from the inside out, and I don’t know why I did it, but it just did .....

Back at the party, Lin Hao couldn’t wait to find Shen Xiyan!

## **Super Son-in-law Chapter 1509-1510**

### Chapter 1509

Shen Xiyan is talking to the crowd about how to develop a business map, after all, the people in here are all geniuses, are business elites, even if they are noble rich second

generation, but they were born to learn things about how to do business, their disciples are better than average!

And the business they use to practice is also an extremely expensive industry, not a small? The ground is closed and the land is closed? It's a small business. You ask them how to make a product, they may some of them do not know, but you ask them how to expand sell to fight the price war, then each have their own get place, after all, they are engaged in this work!

Moreover, the family is not short of money, the loss can still come back!

Isn't there a saying?

What is the history of entrepreneurship for the second generation of the rich? What is the history of entrepreneurship? It's the history of a person who starts a business and loses money over and over again, and eventually succeeds once, then he is successful!

But what about the average person?

Can he afford to fail again and again?

Maybe his success was by chance, but in this case, he had many potholes that he didn't have time to circumvent .....

Far from it, of course.

Shen Xiyan was amazed at what all these people were saying, a lot of business laws that he hadn't been exposed to! For example, choosing a storefront, not a busy one is best! For example, it is not the best to choose a busy storefront, it is the best to choose a storefront with similar products!

Because people shop around! If there is no choice, then he will not come to see the products.

This reminded Shen Xiyan of one thing, and that was shopping on her own. She and Lin Hao or with Gu Yue shopping will not shop in one, even if this are top master design brand-name clothes shoes shoes bags, she will not look at one and do, but go to compare three .....

This kind of reasoning, in this group of people he knows a lot.

In fact, this is all simple business operation avoidance point, Shen Xiyan according to the gourd drawing ladybirds before will, but really ask inside the learning, she may not have mastered, but after today, Shen Xiyan necessarily mastered.

When they saw Lin Hao appear, they all showed their flattering expressions.

‘Madam Lin is extremely intelligent and has a generous personality, such a small matter and still quite us chattering, really beautiful and generous, it is my wait’s inferior.’

‘Yes, yes, Madam Lin’s business talent makes us ashamed of ourselves, and also able to put down her body to ask for advice, such atmosphere, is what we can’t do.’

‘Mrs. Lin and the love story, it is really enviable, from Mrs. Lin’s eyebrows to see all the delicate tenderness of Mr. Lin, Mrs. Lin’s words show the love as well as love, really the best words on earth.’

‘I don’t know if we can keep our original marriage going, Mrs. Lin, can you tell us how you manage to keep your love so fresh and enduring?’

Shen Xiyao listened to the whole person who did not know where to be comfortable, but just felt in a pleasant mood, these people were too humble, if everyone was like this how much should they be.

‘Thank you all, I have asked my husband’s people to record all your contact information, in the future Xiyao will still ask each other if there is anything he does not understand.’ Shen Xiyao generously said.

The crowd was overwhelmed with excitement at her words, this relationship had been established.

Lin Hao smiled behind Shen Xiyuan, this group of people's eyesight was still top notch, after they saw themselves coming, they immediately started to patronize each other, but looking at Shen Xiyuan's pleasant face, not much antipathy, Lin Hao was also happy.

In fact, at the beginning of the few people patting Shen Xiyuan business talent top, Shen Xiyuan is still not very used, but the next few patting Shen Xiyuan and his love story, which makes Shen Xiyuan very happy, can see, this is love it .....

#### Chapter 1510

'Husband, I blame you for coming so quickly, otherwise I could still learn more about new business knowledge from them.' Shen Xiyuan held Lin Hao's arm and said in a very ambiguous manner, seemingly blaming him.

Lin Hao gently scratched Shen Xiyuan's nose, 'If you want to learn, many people in our family are business elites, why do you need to learn this from them? Is it really like what they say, no shame in asking questions. Our family's time is very precious now!'

Shen Xiyuan froze, then glared at Lin Hao with anger, 'Fine, you're making fun of me! See if I don't beat you up.'

Saying that Shen Xiyuan gave Lin Hao's waist a gentle twist as if with force, she gritted her teeth and said, 'Do you know you're wrong?'

Lin Hao hurriedly screamed twice, ‘Honey, please spare me, I won’t dare to do it again next time.’

Shen Xiyan gave a light hum and raised her chin in triumph, looking as if I couldn’t stand to test you.

The giant eagle king, Hai Weier, watched as several people looked at each other, in complete disbelief at what their eyes were seeing, and then looked away for a few moments, thinking that perhaps this was love.

Lin Hao that kind of terrifying identity, that kind of heaven-defying strength, now looks like a very small young couple, Lin Hao he such a heartbeat, is they these few people can not learn.

Boris looked at Lin Hao couple love, can’t help but think of his own wife, some days have not love with her, are about to ignore his feelings!

He couldn’t help but think back to when he was in college, he loved her to the bone, but because of the years in politics, was delayed by many things, resulting in almost? The fact is that the government has been delayed by many things during the years of politics. The child ignored her feelings!

Looking at Lin Hao, Boris could not help but sigh, the success of men is not built on ignoring the feelings of women, such success, indeed seems to be somewhat more than worth it .....

Boris thought thus.

The party continued.

Noon.

Finkin-Gate and Bastian invited the most powerful chef in F country and feasted all the people today, in fact, for today's Lin Hao, there is absolutely no need for such a false name anymore, but looking at the serious appearance of these two people, plus Shen Xiyan also preferred such a scene, Lin Hao did not interrupt him.

The Four Families' side.

Old Gaiter, because of Finkin Gaiter's relationship with Lin Hao, was once again above all four, and behind him was naturally Bastian's father.

Old Gat looked at Bigir, who had changed his bearing again, and he could feel that Bigir was now much stronger than he had been at the beginning!

It was obvious from the people around him, and perhaps the lowest status around him was that of the mayor of Toulouse .....

In his eyes, Boris is the most cautious, is also unable to intervene, can only watch dryly from the sidelines, such a feeling, reminds him of the previous Finkin-Gate in the same side of Lin Hao, for the general public, are against the background of status, but for the real big man, is just a small follower .....

Looking at the situation nowadays, Biggle and Grand Admiral Hywel are also looking a bit formal in front of another elder, I also mean this elder, who is more powerful and has a higher status.

Is he inside the Church, the other emperor ?

I suppose so ?

After all, let the Bigir so respect .....

The old Gator was a bit restless on his feet and wanted to walk up and give a greeting.
