

Super Son-in-law Chapter 1701-1710

Chapter 1701

The meeting quickly concluded with deliberations on how to deal with this oncoming Hu Clan.

Zhong Baiming spoke up, 'I think that the group battle is one, and in this regard our Zhong family will do our best to support, just that, if the other side's clan master battle, maybe we are at a bit of a disadvantage.'

Lin Hao nodded, Zhong Baiming was right, they currently have only one Grand Patriarch, that is Shen Xiyan, but Shen Xiyan is pregnant, or a Grand Patriarch piled up with resources, the general innate realm Grand Patriarch is estimated that Shen Xiyan can't even beat

This is indeed the shortcomings of the Lin family today, as well as the shortcomings of the Tianhai Group.

They counted, the equivalent of a clay-legged origin, relying on their own strength step by step to get to where they are today, cultivation is the same, so is the family business.

But these clan groups were completely different, after all, they had hundreds or even thousands of years of heritage in place, dao heritage, godly legacies and the like.

‘This matter is not something you should worry about, let the people below prepare for it.’ Lin Hao shook his head, a hundred billion dollars, I’m afraid it would be very difficult to snipe, but if the other party was really determined to continue, the problem would be somewhat serious, Lin Hao had to think of other ways.

‘Yes.’ The others nodded and went out, there was nothing they could do, this matter was indeed not something they could handle to solve, now Lin Hao and Jun Wu Regret’s strength had plummeted, but the other party was once powerful after all.

After the others had left, Jun Wu Regret also sighed, ‘It’s too hard, it’s really difficult for us to get back to the top now.’

Lin Hao nodded, he felt this too.

Without the support of the Dao Implication, their combat power plummeted, and even when they faced strong people of the same level realm, it was extremely dangerous to fight.

This was one of the disadvantages, the other disadvantage was that their cultivation speed was also greatly reduced, trying to re-cultivate was too difficult? 洱零侍西西拂地爱? It’s difficult.

Right now Lin Hao is stuck at the peak of the Great Perfection of the Innate Realm and wants to break through to become a Grand Master, he feels that the shackles are incredibly strong and extremely difficult to break.

These times Jun Wu Ren had also been cultivating like crazy, but he just still hadn't reached the late innate realm, still stuck at the peak of the middle innate realm.

'And I've had a bit of a miserable time finding someone to fight in the past few days, nearly capsizing in the gutter, I fought against a Patriarch of the same level and almost got fucked over.' Jun Wu Regrets had a headache, if Dao Yin was around, not to mention the same level, he wouldn't be a wimp even if it was the Grand Perfection of the Innate Realm, even if it was the early stage of Grand Master, he would dare to touch it.

'There's no way out, and this restriction is too rigid, you're not allowed to bear the Dao Yin until you reach the Xuan Shi level, what can I do? I feel like those two old seniors are deliberately screwing us over and want us to be the hard labour.' Lin Hao was also helpless, but what could be done about it.

Jun Wu Ren shrugged his head, his head was hurting.

Knock knock.

A knock sounded outside the door.

'Enter.'

The door to the meeting room pushed open and a delicate beauty in classical Chinese dress, Xu Linglong walked in with a smile, 'Brother Lin Hao, hello brother Jun Wu Ren, why are you hanging your head? Have you encountered something unhappy, tell me about it.'

This sweet voice seemed very normal.

But when Jun Wu Ren found out Xu Linglong's identity, he couldn't help but feel a jolt in his body. It was true that he was a cute and pretty little girl, but this was the Chief Grand Disciple of the Huashan Sect, a big brother at the early stage of the Grand Master.

Lin Hao even had a headache, he was a little bit scared by this little girl pit, headache rubbing the protruding temples: 'Auntie, what the hell are you playing at again?'

'Brother Lin Hao you've wronged me! You have to apologize to me, I'm not happy.' When Xu Linglong heard this, she pouted unhappily.

'I'm wrong, auntie I'm wrong alright? If there's something you want, just say it.' Lin Hao didn't want to continue fooling around with her.

'Nah, this is for you, the old ancestor asked me to pass it on to you, from now on, you can practice this as much as you want.' Xu Linglong placed a scroll with an ancient inscription in front of Lin Hao, along with a card, and leaned in next to Lin Hao's ear, whispering, 'There are three hundred billion in this card.'

Chapter 1702

What the hell!

Lin Hao was a little shocked, three hundred billion, beautiful, now that he was fighting with the group, what he wanted was cash flow.

Lin Hao took a look at the inscription scroll, and Lin Hao was even more delighted, the Seven Killings Divine Sword Duel!

After a short glance, he knew that this was Chen Bei Xuan's famous technique, if he practiced it, he could make up for his lack of combat power due to the loss of his Daoist heritage.

However, Lin Hao still didn't dare to move and looked at Xu Linglong with great caution, 'You, what are your conditions? Or demands?'

Lin Hao was really scared by this ancient and quirky girl.

'Yes, from now on I'll live here, I'll go wherever you go, remember, from now on I'm your sister, got it?'

Sister?

Who would believe it ?

But Xu Linglong was at least a strong early stage Grand Master, with her around, she could indeed stabilize the difficult situation nowadays, she could watch the hilarious situation, but when it really came to the time of necessity, when the building was about to fall, would she still watch the hilarious situation ?

Now Lin Hao also probably understand, Chen Bei Xuan do so, is to let him ? The er dyed er whisked Lu Xixi steak ? When the tool man to deal with the trouble, so it is not possible to let him die, otherwise waste this energy to do what !

‘Okay, I agree that you can stay, sister Linglong.’ Lin Hao smiled and put both the card and scroll away.

Jun Wu Ren blearily looked at Xu Linglong, ‘Ahem, that Sister Linglong, where’s mine, where’s mine ?’

He had seen Chen Beixuan’s sword that opened the gates of heaven, it was too powerful !

Ling Tian’s sword was unstoppable !

They thought they were already strong enough to straddle the Chinese martial arts world, but who knew that the other party would teach them to behave with a single sword.

‘You ? I don’t know, the old ancestor didn’t entrust me to give you anything, but I feel like there should be something, it just hasn’t arrived yet.’ After saying that, Xu Linglong also ignored the bitter-faced Jun Wu Ren and just left.

‘Is this the difference in treatment ?’ Jun Wu Regret was speechless.

‘Lin Hao, this is a courier from Seibei, it’s addressed to Jun Wu Regret, I helped sign for it.’ Lin Qingcheng came in, threw a palm-sized courier to Jun Wu Regret, greeted him, and also went to work.

Although the battle hadn’t started now, but all of the Tianhai Group knew that their opponents were very strong, so apart from the two of them, everyone else was busy like crazy.

Jun Wu Ren opened the courier carelessly, a courier from Sebei ? It didn’t say who the sender was either. After opening the scroll, Jun Wu Regret was suddenly startled, his whole body exploded back and threw the courier box out.

Because a palm-sized half-moon blade Qi shot out from the courier box and pointed straight at Jun Wu Ren!

Swoosh!

Two more slash qi appeared, a total of three slash qi, and even though Jun Wu Ren threw the box away, it still found its target with precision!

‘No way!’ Jun Wu Ren began to explode out his powerful qi one after another, trying to block these three slashes, although this slash qi was only palm-sized, it gave Jun Wu Ren an extremely strong sense of crisis: ‘Is this Seibe Mad Blade deliberately screwing me over, I’m in such a state, and he still won’t let me go!’

Lin Hao was also very amazed, a bull, this small express box, nothing inside, but was able to hide three saber qi, this technique must have reached the level of returning to the basics!

‘Don’t resist, it might be a chance.’ Lin Hao hurriedly stopped Jun Wuhuai.

Jun Wu Ren had a black face, ‘Brother Lin, it’s not like you’re the one who’s going to die, right? If I don’t resist, these three slashes can kill me!’

Poof!

Jun Wu Regret was distracted and was slightly inadvertently slashed on the chest by the first slash, Jun Wu Regret spurted out a mouthful of old blood.

Bang Bang!

The remaining two streaks of blade qi also slashed at Jun Wu Regret without hesitation, and with a loud boom, Jun Wu Regret was directly shaken out by the terrifying force.

Then, there was a large human-shaped hole in the wall of the Tian Hai Group's conference room!

The commotion here was not a big deal, the first to arrive was Shen Xiyan, Lin Qingcheng, Zhong Baiming, Mo Tianji and others all rushed in: 'What happened? The Yuehai Clan or the people from the Moving Mountain Sect?'

Super Son-in-law Chapter 1703-1704

Chapter 1703

Lin Hao was just about to explain when Jun Wu Ren's unbridled and unrestrained laughter came from outside the broken hole: 'Hahahahaha, the Seibe Mad Sword has treated me well! I bow to Master!'

'Hahahahaha, three swords to break the heavens, domineering, out of this world swordsmanship, what a great swordsmanship!'

Everyone looked at each other in disbelief, not understanding what was going on?

Lin Hao told them what had just happened, and explained that it should be because the senior had draped the sword technique in this sword qi, and had directly struck into Jun Wu Ren's body.

After hearing this, the crowd suddenly understood and were envious.

This was just a small incident, while Lin Hao secretly found a believer and threw the three hundred billion bank card to him, arranging for him to go and take care of this matter.

After dealing with these matters, he went to look for Jun Wu Regret, after all, he had waited for so long and had not returned. When he saw how Jun Wu Regret looked now, Lin Hao was happy, so miserable?

The company's main business is to provide a wide range of products and services to its customers.

'Brother Lin, don't look at me like this, this sword technique is incomparably strong, although there are only three simple slashes recorded, but it is also terrifying, it is the lifetime masterpiece of the senior of the Seibei Wild Sword, of course, to practice this sword technique, every time you practice it, there will be one more slash on your body, to exercise your body, so that you can explode the most powerful sword qi!' Jun Wu Ren was full of excitement, although he wasn't a martial artist who used a sword, he could use a sword for the sake of this sword technique!

Lin Hao also became interested when he heard the other party say that, 'Oh? Is that so? How is this sword technique, tell me about it!'

‘Hey, then you can listen carefully! This blade technique only has three moves! The first move is, ‘The Yellow River will break the flow of water, the second cut will open the mountains and split the sea! Three strokes to break the sky! How about that?’ Jun Wu Ren raised his eyebrows in triumph.

‘Hiss!’ Lin Hao sucked in a cold breath, ‘That sounds fierce!’ This slash after slash, the aura kept climbing, strong was really strong!

It was just that this cultivation was a bit scary, good man, look at Jun Wu Ren, there wasn’t a single place on his body that was intact and uninjured, it was all covered in slash marks.

‘How is your Seven Killings Divine Sword Duel?’ Jun Wu Regret came to be interested, a comparison? The thought of envying Lin Hao just now was completely gone, it just vanished into thin air!

Lin Hao took the scroll out, the scroll blossomed with a dazzling purple light, then it shattered with a click, the inscription carrying the sword skill into Lin Hao’s brow.

Seven Killings Divine Sword Duel,? closed and dyed Wu Zhai Serving Wu Er? There were seven swords in total, and the sword stance aspect seemed to be a little more chopped up than this Three Blades Breaking Cangtian Blade Technique, but Lin Hao could see it now.

The more powerful the technique moves, to the point of returning to the basics, that is to simplify the complexity, the simplest moves can explode the most powerful attack power!

This is the real power, right, not those complicated and flashy moves.

‘Not bad, seven sword moves, but it seems like this sword technique of yours smells better.’ Lin Hao shook his head, but was still happy, the sword stance was still great, using qi to turn into a sword, and the intention to gather the sword soul!

Reaching the ultimate, it could take the enemy’s head from a thousand miles away!

Jun Wu Ren didn’t dwell on this topic either, he was too busy cultivating, having gotten something good, he naturally immersed himself into it wholeheartedly.

Lin Hao didn’t stay idle either, he returned to his courtyard and began to close down to cultivate his sword skills.

This scene made Lin Qingcheng, Mo Tianji and the others a little confused!

A big war was about to start, although it hadn’t started yet, but everyone was tense and busy, but the two of them went straight into seclusion and cultivation, they hadn’t seen the two of them out of the courtyard for three days, they ate, drank and shit all in the courtyard!

But both of them are benefited greatly, this is really the lifelong mastery of the seniors!

On Jun Wu Regret's side, he had already mastered the first stab of the sword technique, a stab that broke the flow of the Yellow River! Jun Wu Regret's personal combat power had also been greatly enhanced.

Of course, this move is still not strong enough if you want to really draw a blade to the extent that the water breaks!

Chapter 1704

On Lin Hao's side, he is still cultivating in seclusion, and his powerful qi is transforming into swords in the courtyard? In three days, Lin Hao had begun to control his sword qi with ease. In three days' time, Lin Hao initially began to control his sword qi with ease and comfort, but he was only able to master two swords at the same time.

Jun Wu Ren came out, and he had also managed to break through to the late Xiantian realm Patriarch level because of his sword cultivation!

Lin Hao was still in seclusion and had no intention of coming out.

On the fourth day, the battle began!

The Hu Group and the Hailan Group struck at the same time, cutting off the Tianhai Group's suppliers and distributors, while three subsidiaries and a dozen shops of the Tianhai Group were suspended for inspection under the collective reporting operation of the other side.

The news flew out, causing a very huge impact, and the stock market started to fluctuate, which was fine at first. However, when the other side started to jointly snipe the shares of the Tianhai Group, the turmoil became even more huge.

Luckily, Mo Tianji was prepared for this and the final strategy discussed changed from active attack to gathering funds for defence.

'Not good, it's falling too fast, we can't defend.' The financial team's faces turned green when they saw how fast the stock market was falling!

'It's someone who collected those retail investors' shares one step ahead of us, and as the negative news spread, the other side increased their propaganda and then started to pull out and smash down the share price, the retail investors are all following the trend, they don't need too much money, and it caused this situation today.'

The financial team's analysis caused Mo Tianji's face to turn black to the bottom of a pot.

According to the financial team's analysis, the other side hadn't made much of a move yet, and in fact, the Tianhai Group was also desperately collecting shares from retail investors, just in case the other side came up with this move.

But it was still unexpected that the problem was so serious!

The other side has at least billions of chips, but they also have almost 20 billion chips in their hands.

It's just that the secondary market is swarming with demons, not to mention that when used properly, billions of dollars can pry up a market that is ten, or even tens of times larger than their own capital.

'It's no longer useful to be proactive on the defensive, be proactive!'

'Throw the chips out to me, slam the stock up and lift it up, over at the PR department, hurry up with the disinformation, and also, start on the previously scheduled plan.' Mo Tianji had a headache, he was now specifically responsible for this secondary market piece.

He is now in charge of the secondary market, while Gu Nansheng is in charge of the group's operation, as well as the industrial confrontation with the other side, but now Gu Nansheng is also very headache ah.

There is a problem with the distributor and a big problem with the supply of goods, so it is clear that the group is under siege!

Gu Nansheng was only able to find new suppliers, even at a higher price, to stabilise these first, and as for the companies that were suspended, he was also actively trying to get through to them, and at the same time, started to fight back to some extent.

Soon, the stock market and the market for the company's products on both sides saw huge fluctuations in the last few days, whether down or up, all very violent!

Now even a fool could see that the Hu Group and the Hailan Group were clearly trying to take out the Tianhai Group.

They knew whose group the Tianhai Group belonged to, Lin Hao!

They were reluctant to take action because they were afraid of the Dragon Sect.

Recently the Dragon Sect's majesty could be said to be at its peak, recently because of the entry into the world there were some sects that were not too disciplined and were directly suppressed by the four town guards joining forces, the strength of the four town guards had soared, even the strength of the eight great war gods had also increased fiercely.

Therefore these people wanted to finish off Lin Hao and Jun Wu Ren, yet they couldn't do it easily, since someone was now doing it, they were naturally happy to watch the action, not to mention that they were not ashamed of who lost or won, whoever lost they could enter and divide the piece of cake.

A week has passed in the blink of an eye, and both sides are fighting fiercely, even in the secondary market, the Tianhai Group has sniped at each other's stocks.

But the effect is not great, the key now want to defend are a little difficult, a lot of money evaporated, this kind of group war, although there is no smoke, but burning money.

Super Son-in-law Chapter 1705-1706

Chapter 1705

The competition is about who is more clever, who occupies the initiative, and who has more money!

Right now, the Hailan Group and the Hu Group had the absolute advantage, and the Tianhai Group was losing ground. Even with the injection of funds from Jun Wu Ren, the situation was still miserable.

Now that the battle has been fought for more than ten days, the situation of the Tianhai Group is so miserable that its assets have shrunk by twenty percent in one go!

That's the equivalent of twenty billion dollars evaporated in ten days!

The Tianhai Group's cash flow was almost burnt out, the hundred billion dollar group however included both movable and immovable properties, most of which were immovable properties.

Therefore, once the cash flow burned up, the Tianhai Group would have to declare bankruptcy, and the other party could simply declare a compulsory takeover of the Tianhai Group when their holdings reached a certain level!

The Hu Group and the Hailan Group currently, had reached a terrifying level of forty percent holding in the Tianhai Group.

‘Hasn’t Lin Hao come out yet?’ Shen Xiyan’s face was full of haggardness and exhaustion, the others were no better off, even worse than her, and it could be said that everyone hadn’t been able to get a good night’s sleep in the past ten days or so.

The opponent’s attack is too fierce, and this? Wu Ai Ai Lu Fu Er Xi Fu? The three axes came down, catching them off guard.

Jun Wuhui shook his head helplessly, ‘There is a lot of commotion in his courtyard, yet there is no sign that he is going to come out.’

Everyone’s expressions darkened.

Gu Nansheng hurried in from outside, ‘Our sources of goods have been intercepted and we can’t ship them out, even if we sell them at low prices there is no way to exchange them for cash flow, because of the corporate war, the banks have suspended loan applications for any of our groups!’

‘Mo Tianji, tell me now, how long can we maintain our cash flow in this current situation?’

Everyone was filled with bitterness, the group’s share price had now dropped to a cabbage price, the industry’s capital was shrinking like crazy, not to mention fighting back, it was extremely difficult to maintain the current share price.

Mo Tianji shook his head bitterly, ‘I don’t know, if they want to just smash the market, after tonight, we won’t be able to tense up, if the other party wants to tease us, it might be a matter of these two days, our cash flow has already been burned up, life and death is already set.’

All the top brass of the Tianhai Group were here, their faces ugly and sad, just, just swallowed up like this?

Even the Zhong family had been completely staggered into this battle, losing all their family money.

Now there is no longer any chance, the entire company’s staff to the top, all panic, many people have directly left, they all see understand, this company, I’m afraid is completely going to collapse.

By now, the company has lost at least one tenth of its people.

One tenth may not seem like much, but for a huge group like the Hundred Billion Group, one tenth of the staff loss is already a level that hurts the bones!

Suddenly, a cry of alarm came from the head of finance in the office!

‘It’s over! There’s no chance, it seems the other side is so impatient.’

As soon as Mo Tianji heard this, everyone quickly ran to the stock panel, everyone’s face was pale, it’s over!

The other side is starting to make a deadly move! At this rate, in less than four hours, if the other side didn’t announce a compulsory takeover of them, they would all have to take the initiative to declare bankruptcy for the Tianhai Group

In Lin Hao’s garden, Lin Hao was still cultivating the Seven Killing Divine Sword Duel, which had reached its bottleneck.

In half a month’s cultivation time, he was only able to cultivate the first two moves, but the third move could not be cultivated, and Lin Hao still could not break through the shackles of the Great Perfection of the Innate Realm to reach the Grand Master Realm!

But fortunately, it was a small achievement, and his combat power had greatly increased!

The first stance of the Seven Kill Sword, Sword Qi Breaks the Water! The second stance, Sword Intent! The third stance, Sword Field of Gods! The fourth stance, Splitting Mountains and Crushing Rocks! The fifth stance, Human Sword Unity! The sixth stance, a sword that opens the gates of heaven! The seventh stance! One Sword Seven Killings!

Only then did Lin Hao realise that the One Sword Opening Heaven's Gate was already the penultimate stance of this sword technique, no wonder it was so terrifying!

Chapter 1706

But what really shocked Lin Hao was the last move, which was the One Sword Seven Kill!

Not one sword to kill seven? Yi Lu Ai Xi Di Ai Zha? It was not one sword that killed seven people!

Rather, it was as if the last sword had instantly used all the previous moves of the Seven Killings Divine Sword Duel and fused them into one move!

There was no description of how terrifying its power was, but Lin Hao could feel that if this move was practiced, its power would be astounding to the heavens and the earth and the gods!

Powerful Qi Condensing Sword!

Buzz!

Five pure white sword shadows surrounded Lin Hao with an overwhelming aura, the pure white lustre of the solid sword qi, crystal clear inside, beautiful and aesthetically pleasing!

‘First stance! Sword Qi Breaks the Water!’ As Lin Hao’s angry shout rang out, his mind turned and a sword qi swung out violently!

Boom boom boom!

The three fake mountains in the courtyard directly exploded, while the small waterfall on the fake mountain directly cut off its flow! The water flow was cut off out of thin air!

There was no water below, and the upper part of that water was still hanging there, as if the waterfall was jelly and the lower part had been cut off hard!

This situation lasted for a few seconds before the waterfall flowed back to normal again.

Lin Hao shook his head, his strength was still a little weak, but even being able to hold on for a few seconds was still very good!

‘Second style! Sword Intent Vertical! Open!’

Lin Hao shouted angrily, and with a buzzing sound, the five sword qi around his body exploded with an intimidating sword intent, so sharp that it even gave off a more stern feeling than a real sharp sword!

These five swords were enough to protect Lin Hao at full range!

These five swords were enough to protect Lin Hao at full range!

‘Kung Fu out of the gate!’ Lin Hao’s face was filled with a smile, but unfortunately the only beauty was that he still hadn’t broken through to the Grand Master realm: ‘Go!’

As Lin Hao pointed, five sword qi swooped out, producing an ear-piercing sonic boom, and in an instant, the courtyard wall in front of Lin Hao instantly fell apart and collapsed directly!

After the smoke and dust rolled by, Shen Xiyan appeared in it with a black face, her body covered in dust.

Lin Hao's movements came to a screeching halt, it was so embarrassing, especially when he saw the exhaustion and despair on Shen Xiyan's face, Lin Hao felt so guilty.

Shen Xiyan revealed a smile with difficulty, hoping that Lin Hao would not be so stressed, and flirted helplessly, 'Well, Lin Hao, with this move, you have froze the Tianhai Group, which was already on the verge of bankruptcy, and added to it.'

Lin Hao was secretly surprised in his heart: had it gotten this serious?

'Don't joke about it, I'm here for everything, with me, Lin Hao, the Tianhai Group will never go bankrupt, listen, go back and rest, I'll take care of the rest!' Lin Hao seriously looked at Shen Xiyan, his eyes were full of pity, she was pregnant, how could she be so exhausted?

'Yes, I'll listen to you husband.' Shen Xiyan's heart was filled with warmth, she had been scared for so many days, especially just now, when the other side made a final counterattack, they were already desperate.

But the moment Lin Hao stepped forward, Shen Xiyan felt as if she had come to life again, as if these things were nothing to Lin Hao.

The hardships they had encountered along the way were nothing less!

Lin Hao wasn't in too much of a hurry, he had reserved three hours for them, so what was the hurry?

After sending Shen Xiyan back to her room to rest, Lin Hao took out his mobile phone and dialed a number: 'Prepare to close the net, in addition, put a hundred billion into the company's account.'

'Yes Lin Shao, I've made the arrangements, counterattack immediately!'

Only after making this call did Lin Hao slowly and leisurely arrive at the wartime command room, the boardroom had now been changed into a temporary command headquarters, almost everyone who could speak in the company was here.

But everyone was hanging their heads, no one was talking, it was smoky inside, but no one spoke up to reprimand.

The smokers were even smoking one cigarette after another.

Today, the Tianhai Group lost another two tenths of its staff, a total of almost one-fifth of the group's staff.

Super Son-in-law Chapter 1707-1708

Chapter 1707

With a creak, the door of the conference room was pushed open by Lin Hao, hands in his trouser pockets casually walked in, everyone was hanging their heads, and no one cared about him, even came in without noticing that he had come in.

Lin Hao walked to the chairman's seat and kicked Jun Wuhuai who was sitting on it: 'Get up, is this where you sit?'

Lin Hao's voice was not loud, but it was like a thunderclap on the ground, everyone stood up suddenly: 'Chairman, you are finally here!'

'Lin Hao, you're out of the gate?' Lin Qingcheng was also a bit surprised, didn't expect that at the last moment, Lin Hao came back.

'Brother Lin, you've finally come out just, it's already a foregone conclusion, there's no way out.' Jun Wuhuo face full of bitter smile, this guy if a day or two earlier out of the gate, perhaps things may still have room to turn around, just, now are too late.

The others saw Lin Hao all appeared a fleeting glance of hope, just a fleeting moment, they all know that now in this situation, there is absolutely no way to create any miracle.

Lin Hao also can not!

If both of them are still in strength, no matter what the situation is, they can fight back to flip, this world is still a world where strength is paramount.

Just now the strength is not as strong as the other side, and the corporate war was taken out by the other side, there is almost no chance of turning the tide.

‘What for? I wasn’t just absent from the company for less than half a month, and the company let you guys create this shitty situation? Is this how you all manage the company?’ Lin Hao was a bit speechless.

Mo Tianji and Gu Nansheng looked at each other bitterly. The company’s management is not only a company, but also a company. Laughs: ‘Chairman, this is our fault, only now, we will either be forced to buy out or declare bankruptcy

‘Bullshit! With me, Lin Hao, who can acquire the Tianhai Group has not yet been born! One hundred billion dollars should arrive immediately in a moment!’

‘It’s not bankrupt yet, everyone looks like they’re already bankrupt, so let’s take action! I don’t care how you use, immediately let the whole group to me to run, action! Prepare for a counterattack! It’s time to fight back.’ Lin Hao shouted angrily, his voice was loud and clear!

The board of directors were dumbfounded, what?

One hundred billion?

Are you kidding, now not to mention a hundred billion, not even a hundred million group can not get.

Mo Tianji said with a bitter smile, 'Lin Hao, don't joke about this, not to mention 100 billion, 10 million can't be taken out now, we are completely drained, the last drop of blood has been shed.'

Ding Ding Ding!

Mo Tianji's cell phone rang, Mo Tianji saw that it was the finance director calling, Mo Tianji took the phone and asked sullenly, 'Say.'

However, in the next second, Mo Tianji's entire body bounced up, just like being electrocuted, and his expression was even more wonderful: 'Crap, what did you say?'

'You confirm? It's really a hundred billion in the bank?'

'Really? Quickly, act immediately and put the funds into motion!' Mo Tianji put down the phone, and then slammed the table and yelled in full force: 'All departments take action! One hundred billion, we now have one hundred billion liquidity, all riveted to him, the time has come for us to counterattack!'

Roar!

All the directors and department managers in the office, like a group of vengeful beasts, roared with excitement!

One hundred billion dollars of cash flow!

No matter where Chairman Lin got it from, but it's real cash!

Although the Tianhai Group was indeed shrunken, but with the injection of 100 billion, it could be revived instantly!

All departments are running fast, these points we can all hold a force, how can easily give up on the enemy to bite hard?

Wanted to bite long ago, before is no opportunity just!

After the others left, Gu Nansheng, Mo Tianji and Lin Qingcheng were left in the conference room. The first thing you need to do is to get a good idea of what you want to do.

Mo Tianji looked at Lin Hao: 'Lin Hao, this money, where did you get it from? And at this time out, I'm afraid it was predicted, right?'

Chapter 1708

Lin Hao helplessly shook his head: 'This really does not have, I just chose to leave the gate this afternoon, as for the 100 billion, find someone to borrow.'

Borrowed!

Who is so generous 100 billion said borrowed ah!

Everyone thought that Lin Hao was reluctant to say, they also had the sense not to continue to ask questions.

Soon the head of the finance department came in and handed the report to Mo Tianji.

After reading it, Mo Tianji's face became even more ugly: 'Lin Hao, this 100 billion, I'm afraid it may still not be enough, the other party has increased the leverage too hard, if we smashed all 100 billion, I'm afraid there is still no way to raise the stock price back to normal.'

'And, we can only take out sixty percent of the cash flow to inject into it, other aspects still need cash flow support.'

‘Secondary market stocks that do not need you to manage, you just have to do the point is that the other side to me to hold down, never allow them to exit, now both sides have smashed the plate smashed to this extent, shrinkage is not only our funds, but also the other side’s funds!’

‘As long as the other side can’t pull out and can’t eat our group, that’s when we win, and the stock bottoming out is a matter of minutes.’ Lin Hao is not the least bit worried about what his family’s stock price has fallen into.

Gu Nansheng shook his head: ‘Lin Hao, although I do not know much about stocks, but I at least know that this problem is a bit serious ah, after all, is able to hold down the other side, but consume up to us is not good.’

‘Consumption? We need to spend with him, immediately they are more anxious than us!’ Lin Hao switched his laptop to the stock screen and made a chart of the two groups’ share prices, thus putting it on the big screen.

‘See something?’ Lin Hao inquired indifferently.

‘These people suck blood really hard, the share price is raised so high?’ Everyone else was dumbfounded, this was exactly the share price of Hu Group and Hailan Group.

It’s been floating in the red, and the rate hasn’t stopped, it’s been floating upwards!

Compared with the trend of Tianhai Group, it is simply a fall to the bottom, one up to the sky, really people than people die ah.

This is the intention that the other side of the results to humiliate themselves?

Look how many times it has been stopped, and from two days before the war, the other side's stock has been going high ah.

'Not true! There is a capital entry sitting on the bank, this stock price raised too bizarre? Flicker service intention zero Shan dyed? The capital bank retreat, once the capital bank, this is a live big leek ah!' Mo Tianji on finance is quite a study, after a careful look around, immediately found something wrong!

Capital entry as a banker, that will find ways to buy a large number of shares, and then raise the share price, to attract leek retail investors have to enter, the stock will remain high all the way high, not a professional simply can not find.

Once pulled up almost, leeks enough, the banker directly away, a large number of leeks were harvested.

Hiss!

Mo Tianji sucked back a breath of cold air, some disbelief stared at the smiling Lin Hao: 'Lin, Lin Hao what do you mean?' 'My meaning is very obvious ah.'

Lin Hao smiled happily: ‘This situation now is also what you guys want to see the most, right?’

‘Hiss, my goodness ah, when did you start this layout ah, the other side has been pulling up the stock price, and then using idle funds to snipe our stock, and they are dead set on holding on to their chips, thinking that they can still raise.’ Mo Tianji sucked in a breath of cold air, this move kettle bottom is a bit vicious ah!

Lin Qingcheng and Jun Wuhuai do not know much about the stock manipulation, Gu Nansheng knows some, but is not proficient.

Otherwise the company is not Gu Nansheng is responsible for the company’s operation, Mo Tianji is responsible for the intelligence and financial sector.

The other people do not understand the look, Mo Tianji told them to explain, that is, the current situation of the Hailan Group and Hu’s group.

The first stage of Mo Tianji also went to snipe the stocks of these two groups, but because the entry situation is not good, plus the other party has the intention to defend, simply did not let the other party cause too much trouble.

Chapter 1709

So Mo Tianji gave up sniping the other side’s stocks and concentrated on defense.

The other side's stock thus remains high, and the other side is not afraid that Mo Tianji has time to deal with them, they did not defend their own stock, but instead to hold on to their chips and sit back and wait for the appreciation to double.

After all, if the sky sea group to eat, the two stocks will still rapidly soar, there is no doubt about it.

The two sects' faces are here, and no one dares to easily enter the mess, at most, when the dust settles, these forces rush in for a mouthful of soup.

However, they did not dream that before the battle was fought, the dealer entered.

The dealer is a secondary market lobbyist, see the right stock to enter, with funds to raise the share price, attracting retail investors into the field, commonly known as leeks.

With the continuous raising of stock prices, retail investors have also entered the field, then the banker to see earn almost, quickly leave the field to make money away.

The stock price down, those who heard the wind and move the retail investors have naturally retreated, the front of the walk still have to earn, the back of the walk, that can be miserable, bloodless leeks ah.

This is a set of operations, now the two groups are estimated to have not found the dealer has entered the field, coupled with the winning ticket, they did not think to focus on their own stock market.

A few people listened to still some blindfold, Gu Nansheng is some response: 'I can not be so understanding, now these two groups of stock price is we can manipulate, to rise, to fall can make it than our Tianhai Group fell more miserable?'

'That is to say, plus our side of the kettle bottom, hold down their smashed into our company plate of money can not get out, we do not have to go bankrupt, bankruptcy instead of them! ?

'No problem!' Mo ? Pawu ground cover Lu dye Aizhen ? Tianji and Lin Hao replied in the same breath.

'Hiss, Lin Hao you're really ruthless with this move, but I like it, haha.' Jun Wuhuai a sigh of relief, so many days, finally can come out a breath of anger, they are the whole hold nearly being half a month ah!

Surrounded by two large groups, beating them back and forth, routed all.

Lin Hao rolled his eyes: 'I'm returning the favor, if the other side does not engage us, I most cut a wave of leeks to earn some money on the withdrawal, that have the heart to care about these ah, but the other side is so nonchalant, then we do not have to be polite, right?'

The crowd thought, it is so.

‘Down, is falling wildly! No, it’s down, poof, so hard?’ Mo Tianji suddenly discovered with horror that the two stocks they were looking at, plunged directly off a cliff, a green bottom ah, not to mention the other side’s reaction, even those who wanted to leave the field of retail investors did not react, directly down!

Trading is certainly the first to start from a large single, a large single smashed down, directly down, those who want to leave the field of retail investors, are not able to leave the field, directly locked up!

This is simply not to give anyone a way to live ah.

Mo Tianji looked at Lin Hao in bewilderment, so ferocious team? The team is a werewolf, but Lin Hao found such a horrible team of traders, if this is placed in the financial sector of the Tianhai Group, the Tianhai Group’s capital will at least double now, right?

Lin Hao also did not expect that the Xiyue Emperor was so ruthless!

Xiyue Emperor is Chen Tianyue’s code name, but also the decision maker of the Heaven Sent Justice team, but everything is at the command of Lin Hao, the Taishan Prefect.

Is Lin Hao has been scattered team, it basically did not care much about them, they use their own means also crazy in the secondary market to collect a lot of money.

As for that Xu Linglong gave three hundred billion, Lin Hao let people take it over, but let Xiyue Great Chen Tianyue to return.

Lin Hao thought about it, can't be too hard, took out his phone and called Chen Tianyue: 'Xiyue Da Di, don't press it to death, give the retail investors some time to leave the market, according to this trend, can still press down, what I want is to completely drop their stocks to the bottom, and then most of their chips will be all eaten for me!'

Chapter 1710

'Yes, Prefect, I understand.' In some hidden but very luxurious office, a middle-aged man hung up the phone, the face of the kingdom, full of majesty, this person is no other than Chen Tianyue.

Chen Tianyue walked out, there are currently a dozen people here, all of them are where the elite are.

See Chen Tianyue out, everyone did not care, all in charge of their own things, even they operate this Hailan Group and that Hu's group, but also able to divide most of the manpower to continue to collect funds in the secondary market, or with the bankers inside over the move!

Chen Tianyue clapped his hands: the government ruler has an order to open a small opening for retail investors to leave the market. Shun Feng Ears, you are responsible for throwing out all the negative information you collect on these groups!

‘Yes, Great Emperor.’ A thin, monkey-like young man with thick, nearsighted glasses faintly agreed to come down, Shunfeng Ear, responsible for collecting negative information about the group, or releasing the news through special channels to influence the movement of their company’s stock, so as to achieve the purpose of manipulation.

‘Third Prince Nezha, this time the manipulation is your responsibility.’ After saying that, Chen Tianyue went straight back to his office.

Another calm and composed middle-aged man also nodded without speaking, he was the codename Nezha Third Prince, Wu Feng, the manipulator responsible for turning the river over!

This time against two large groups, the entire Heaven Sent Justice team just sent three people! Just three people to make two groups close to a hundred billion dollars to make the chicken jump!

The clairvoyant, Qin Yue, is a sister, what she has to do is to accurately pick out the advantageous handicap that can be entered!

Smooth ear Qin Feng, Qin Yue’s brother, is responsible for is the intelligence aspect.

The third prince of Nezha, Wu Feng, is responsible for the specific operation!

.....

Hailan Group and Hu's group of people, did not sleep all night, ah, this situation they did not expect, why suddenly fell down?

The next day early in the morning began to open, the two groups quickly began to hold press conferences, meaning that the group does not have any problems, we stabilize!

Just negative news about the two groups, has been flying around, these are gossip, but the more gossip, the more those retail investors smell the wind ah!

So their clarification did not help, plus the stock fell once, just after the opening of the market, many of the retail investors who had heard of the wind have left the market!

But although they were given a gap to let some retail investors leave, they were not given many opportunities!

Three minutes after the opening, the Skyfall Justice team struck, another large hand of a large single, directly sealed the stop!

Down again!

Hu Group and Hailan Group both went crazy, what the hell is going on?

Now the two groups' financial teams, even if they were stupid, they always reacted to the fact that their handicaps actually let the lobbyist predators sneak in early!

They actually did not find out, this is simply a great shame!

'Throw, throw out ten percent of the shares! Wait for the next round to pull the stock up for me!'

'Also speed up the acquisition of the Tianhai Group, otherwise the night will be too long!' The two groups chose to spit out their losses almost without hesitation, and then dealt a final blow to the Tianhai Group!

As a result, when they attacked Tianhai Group, they were shocked to find that Tianhai Group suddenly came to life, the influx of hundreds of billions of dollars, which instantly revived their handicap, and what's worse, their funds were hard locked up!

It's over!

And all the shares they threw out were not harvested by Skyfall Justice at a low price, as much as they could eat! Although it brought a slight pull up in the stock.

After all, two consecutive precipitous drop, now a slight pull up, or good, those spitting blood wanting retail investors to see this scene, slightly relieved, which began to rebound?

However! Closed steak zero service intention to love the ground? Dream on!

The third round, and two minutes later, a precipitous drop, green to the heart panic ah!

This round than the first round left less time for retail investors to escape!
