

# Super Son-in-law Chapter 2531-2540

## Chapter 2531

The main thing was that Lin Hao had come here, if he hadn't, probably with his salty character, he might not really care about these things.

‘Yes, yes, I will immediately inform the Lord of the country and then have him inform everyone.’ After saying that, the diplomatic envoy also started explaining to those people gathered around him, telling them to run around and promising that the fairy who came from China would definitely save them, but not now, but wait to be healed together as a group.

Although these people were all a bit half-hearted, feeling that the other side was stonewalling them, after all, one person's ability is limited, even if it is a fairy, it is impossible to save everyone, right, they must have wanted to branch them out and then only treat some important big shots, they this? They must have wanted to get rid of them and only treat some important people. They must have been abandoned.

The trust between people under the threat of life and death is very insignificant, and the credibility of these bigwigs is also not very good, which can only be said that the national conditions of each place are different.

Seeing that these people still did not disperse, the diplomatic envoy was also very helpless, while his face could not be embarrassed.

Lin Hao frowned, this is not nonsense, is ready to pull his daughter and Ling Yun to take the lead to leave, said will treat all, then will definitely treat all.

But he was stopped by Ling Yun, who shook his head gently, 'It's alright, it's not a problem, it's just a matter of raising a hand, it won't affect much.'

As Ling Yun raised her hand, a rain of colourful flowers rained down on Tege.

The Yin Qi contained in the surrounding air was dispersed, including the Yin Qi on these bodies, not just the thousands of people gathered here, but encompassing the entire airport area.

Although the number of people at the airport is now small, after all, in this situation, who would dare to come to the hustle and bustle except for non-essential situations, most of them are thinking of how to escape from here.

However, together with the staff, thousands of people were still gathered here.

In a matter of moments, the whole aura was cleansed and everyone was relieved. Countless people looked at the flower petals sprinkled in the sky in amazement and shouted that the gods had revealed themselves, some even shouted that the Buddha had revealed his spirit.

Anyway, all those who shouted anything fell to their knees in reverent gratitude, and the news was passed on like the wind, with countless people flocking towards the airport like mad.

But the people who gathered around Lin Hao and the others knew what was going on, and they knelt before Ling Yun in reverence and bowed down to express their gratitude.

But more people poured over, and Lin Hao and the others had no choice but to rise up in the air and leave first.

‘Look, it’s the Chinese deity, not Buddha, it’s the Chinese deity who saved us!’

‘Don’t go away, Chinese deity, save us, save us!’

‘Kneel down, you can’t blaspheme the gods!’

In the local language, they kept shouting, and they all knelt down in the direction where Ling Yun and the others had left.

The people who had arrived at the news also felt that the air at this airport was incomparably fresh, without the influence of the Yin Qi making them uncomfortable, and even though they knew that the gods were not here, they still gathered here, just unwilling to leave.

But the yin energy emanating from them quickly fouled the air of the airport once again.

They were desperate, realising that there was no clear ground here, and the only way to get out of here was to flee. Those who had been dispelled by the spirit rhyme also became extremely uncomfortable as they inhaled the Yin Qi again.

Lin Hao and the others were unaffected, as they were able to form a shield of spiritual energy to keep out the surrounding Yin Qi, but if they wanted to regain their spiritual energy, they would inevitably inhale it, which was also a great headache.

The people who had just seen hope were faced with despair again, so they could no longer hold back their madness and began to smash everything, even to the point of a tragic crowd of a thousand people.

Well, those who learned of the news were so surprised that they simply opened a city-wide proclamation for the capital!

‘All immediately stop the current violent acts, the fairy Ling Yun of China, as well as the general Lin Hao and his daughter of China, they are able to solve this disaster and save the whole city!’

Chapter 2532

‘Everything at that capital airport is the work of the Spiritual Rhyme Fairies, they have found the root of the problem of cracking it, all stop the violent acts immediately and wait for the extensive healing that will follow, otherwise, they will not be eligible for healing!’

‘Let the god who saved us be remembered forever! Remember her likeness, we shall be eternally grateful to her, and henceforth the capital city shall be renamed the City of Flowers, and this city shall be renamed for her!’

The news was met with great excitement and enthusiasm, and everyone was so excited that they burst into tears, folded their hands and looked at the projected image of the three with reverent eyes, kneeling and worshipping.

The city of Tege, too, was overwhelmed by the spirit? The name of the city was changed to Wu Zero Dye Wu Ai Zha Ai Wu? Rhyme’s name was changed to honour her contribution to the capital city of a country, showing how grateful she was to Rhyme.

It was also a real blessing in disguise! After all, if this situation persists for much longer, Tyger will be a dead land, and the land will be wiped off the map!

Lord Adhikar himself had come forward and promised and assured that everyone would be treated and healed, and that the problem would be solved gradually, so they had to believe in Lord Adhikar’s words, even if no one did.

The riot was thus put to rest and they had been informed to disperse individually, even if they were at home, and they would be treated in half an hour’s time.

Lin Hao and the three of them were even arranged to stay at the State House, and even Chen Wu and the others took advantage of Lin Hao’s presence and stayed in together.

Adika even personally accompanied Lin Hao towards the high platform of the State Lord's residence and looked into the sky of the capital city, which was now nearing four in the afternoon, and the sky looked even darker.

'Daddy, there's a big, big bowl covering the place up.' Lin Ruoshi looked around, a little curious, how could there be something so big covering this place ah.

Lin Hao stroked Lin Ruoshi's head, 'This is not a bowl, this is a formation, an extremely malicious person used a formation to seal the entire city, but what was sealed was the aura. Then a large number of soul-devouring beasts were released to devour living beings, capable of releasing soul-eroding Yin Qi all the time, which caused this situation today.'

'General Lin, then, after this formation is broken and they are cured, what if those rampaging monsters come back?' Adika panicked, curing these people but still not dealing with the underlying problem ah.

He was even afraid that the person behind the curtain would come back and set up another formation, and wouldn't that still be the end of the story?

'These monsters, we can only wait for the person behind the curtain to be solved completely, but so far it's a bit difficult, and things are far from simple, all we can do now is to break the formation first and let these people return to normal.' There was nothing Lin Hao could do about this.

Unless the Soul Devouring Beast that was controlling these monsters was taken out, or unless Qin Bingyu, the evil woman who was controlling the Lord of the Soul Devouring Beast, was killed.

And it was clear to Lin Hao that things weren't that simple, his arrival was enough that this place wouldn't be calm anymore.

'Then I would like to thank General Lin and the fairy, there is no way to repay such a great kindness, in the future, if there is anything your benefactor needs, we will do everything we can to satisfy it, and for generations, we will make good friends with China and completely break away from the clutches of the Rice Kingdom.' Adika had long been unhappy with Rice.

He has been trying to control them as a fighter against China, relying on his own bullying to make things happen, and is a master of shouting but not contributing, and the most crucial thing is that this time something so big has happened, but the other side has not shown any sign, even to the point of trying to drop stones!

'Let's talk about this later.' Lin Hao waved his hand.

Lin Hao raised his head to the heavens and spoke indifferently, 'Then let's begin!'

The Heavenly Sin Sword appeared automatically as if it had a feeling, and with a clanging sound, the blade detached from its scabbard and hovered in front of Lin Hao.

The moment the Heavenly Sin Sword came out of its sheath, Chen Wu and the others were all startled, even Adika, an ordinary person, felt the intimidating sharpness, and the biting killing intent formed a terrifying field around them.

## **Super Son-in-law Chapter 2533-2534**

Swish!

Lin Hao instantly gripped the hilt of the Heavenly Sin Sword, and plainly handed out a sword towards the sky!

The dark and condensed cloud was struck by the cold aura, and in an instant, it was as if an incomparably terrifying bomb had exploded, and the dark cloud had blown a huge gaping hole in the sky, and then the space above the dome shattered directly, and the extreme sword power stirred up that space, no matter how much it tried to heal, it could not heal at all.

These dense Yin Qi was sucked away, even ordinary people could see this scene clearly, after all, the Yin Qi at the opening was too dense, gathering the Yin Qi of the whole city gathered over, so naturally they could see it clearly.

In the Flower City, the Illusionary Spirit Masters affiliated with Tege, however, looked at the spatial opening above them in shock, and then came back to their senses in shock, looking in the direction of the State Lord's residence, their gazes filled with sublime respect for the supreme power!

With the simple handing out of a sword, the person had solved the most fundamental problem, which was the dense Yin Qi, and now with this opening in place, there was no Yin Qi left at all, and it would be impossible for anyone other than a great power to break through this spatial field.

What they admired most was that Lin Hao's mastery of the sword had reached a perfect level. This sword had broken through the spatial opening and only sucked the Yin Qi from this world without causing any damage to the surrounding people and the city.

In fact, Lin Hao was not as powerful as they thought, he only broke the space to form a formation, as for the other manipulation methods, it was because Lin Ruoshi was there, Lin Ruoshi was the master of manipulating all the power of the void, this little problem was just a trivial matter to Lin Ruoshi.

But this scene also shocked Chen Wu and Adika, they didn't think it could be done like this!

At the same time, Ling Yun was holding a palace lantern, and her whole body slowly rose into the air on the petals of flowers, and the palace lantern in her hand even blossomed with a pink light that was enough to illuminate the entire Flower City.

Immediately afterwards, the peach petals began to fall once again, dispersing the Yin Qi from the people and treating them for the after-effects of the Yin Qi that had attacked them for a long time.

At this moment, everyone felt more relaxed and relieved than ever before, and felt that their whole being had been greatly uplifted.

It was better, really better, they could clearly feel that their bodies were getting better fast, this improvement was beyond obvious, and with that huge hoover in the sky, they didn't have to worry about being attacked by Yin Qi anymore.

The whole city was abuzz with tears and people were kneeling towards the goddess of the sky, after a long ordeal they were finally waiting for the light of hope, they no longer had to worry about breathing hard enough to turn themselves into horrible monsters.

Even if they still had to guard against the great horror of the monsters that would follow at nightfall!

When the treatment was over, the sky began to drift down and it was really getting dark.

The people, therefore, had only time to kneel and give thanks in haste, and all, like mad, fled home, as if death would catch up with them if they did not return home in the dark. This was the case throughout the city.

The ear-piercing sirens of anti-aircraft sirens also sounded, as well as, the troops of illusionists from the State Lord's House and all departments, who all recovered and rushed out in quick formation in full spirit, filling all corners of Flower City, standing at attention.

'General Lin, or ? Wu Di Zero Er Zero Ai Xi Pao ? First of all, let's take care of you guys, the city is controlled by Teg's Illusionist troops, those monsters are rampant but still within control.

'Are you sure it's under control ?' Lin Hao but shook his head: 'I feel that tonight will not be too calm, the person behind the curtain is afraid to sit down, let's go, first simply eat something, don't make it too grand, just write some end as soon as possible.'

Chapter 2534

Adika also knew that I was afraid that tonight would not be too peaceful, so he also agreed to Lin Hao's suggestion, but he already wanted to make the level of the banquet too simple, just invite the most important people to attend, but also full of 30 or 50 people, Lin Hao almost did not collapse.

Big brother do you have some misunderstanding of his words ah!

If there are so many people, and so many people have to die, how can it be? What the hell is it going to be like?

Lin Hao was also extremely helpless. At the banquet, everyone expressed their gratitude to Lin Hao and Ling Yun, came up to toast them, and when they saw the incomparably cute Lin Ruoshi, they were also incredibly friendly and greeted Lin Ruoshi.

The female guests at the banquet, all of whom were of a very high status in the Tigers, spoiled Lin Ruoshi rotten, giving her everything she wanted, almost anything she asked for, and they tried everything to get it for her.

Lin Hao was a bit helpless. He didn't want to spoil his daughter.

But how much more do these people spoil Lin Ruoshi than Lin Hao does?

In a small village on the border of Tege, the place had long since become a dead land, and all the living people in the village had become puppets, on the surface everything looked normal here, but in reality, it had long since been reduced to a field of death.

Just as Lin Hao broke the sky with his sword, in a certain house in the village, Qin Bingyu and Ao Feng snapped open their eyes at the same time, Qin Bingyu frowned slightly, 'He's here.'

'I sensed it too, it's in the direction of Tege, now it's basically confirmed, just Lin Hao, his daughter, and Ling Yun arrived in Tege, but I'm not sure, if Qing Shirt will leave a backhand.' Ao Feng spoke in a jarred voice, 'How do we move?'

'Action? Why should we act?' Qin Bingyu looked at Ao Feng with some surprise, he couldn't be stupid, didn't he understand about the gun hitting the head?

The Moon Wheel Immortal Palace had suffered several losses at the hands of the other side, and had learned to be smart long ago.

Ao Feng frowned, although he didn't want to face Lin Hao either, but he had destroyed the two most important trump cards in his plan, this revenge had to be avenged.

'The Inquisitor of the Western European Church has arrived in the same way as the High War God of the Angelic Church, what's the point of us following along, just keep making trouble for them.' The corners of Qin Bingyu's mouth rose, filled with a mocking sneer, 'Don't

they want to save someone? Then let's give them the chance, if he saves one city, I'll give him another city to destroy, so that he'll be exhausted and consume their energy to empty it!

'Got it!' Ao Feng laughed, 'Then we can just work it out slowly.'

'No, it's not a matter of trying to make a plan, but to take advantage of the opportunity to capture Ling Yun and blackmail her with her life, whether it's Lin Hao or Qing Shou, both must be afraid of the threat, so we can take advantage of the opportunity to kill Lin Hao. Also, go and tell those Judges in the Underworld.'

'Tell them that we don't mind them crossing the border? I'm not going to tell them that we don't mind them crossing the border? But also tell them not to grab business and cause trouble on our turf, as long as they are the ones dealing with Lin Hao, we don't care and will even help.'

'Wonderful, really wonderful, I'm going to contact the Judges over at the Underworld.' Ao Feng's eyes glowed and he quickly left, but after he left he cursed in his heart, 'It is true that only a woman and a villain are difficult to raise, the most poisonous woman's heart, such a poisonous plan can be thought of.'

The two sects had many experts and the Hades had forcibly smuggled in a large number of Judges, and their purpose was also clear: they wanted Lin Hao's life.

Since they both wanted Lin Hao's life, why did they have to make a move?

It didn't matter even if any of them failed, it wasn't like their people were the ones who died anyway, it was none of her business who should fuck whoever was killed.

Qin Bingyu only wanted one, and that was Ling Yun!

Her goal was very clear, as long as she had Ling Yun under control, then there would be no more problems, Qing Shirt and Lin Hao were like tigers without pressure.

## Super Son-in-law Chapter 2535-2536

Chapter 2535

Qin Bingyu had also thought about the others, but there was no chance at all.

Either they didn't have enough weight to threaten Lin Hao at all, so that Lin Hao wouldn't dare to make a rash move, and the ones with enough weight, they couldn't do it.

For example, Lin Ruoshi, even how much it had cost and how many men had been lost to capture her.

As for Lei Ling, now that her strength had increased, it was even more of a headache. Thinking about it and doing the math, then there was only Ling Yun as a target.

'Little Spirit, you can't touch the fish too obviously, have your little brothers, start launching a fierce attack on Tege Capital City, give them a boost of fire.' Qin Bingyu sneered,

even trying to use this to push all the problems onto those two sects, giving them the illusion that it was all those two sects that were responsible for this Taig matter.

Unfortunately, Lin Hao and the others already knew that it was Qin Bingyu who had done it, but as for the others, they didn't know at all, and Lin Hao, however, didn't dare to tell them, and when the time came that China was involved, it would be an international dispute. Therefore, Qin Bingyu still has a lot of room to maneuver.

The scene turned to the other side, the flower city of the Tege capital, Lin Hao had just finished the banquet on their side, Adika had two servants lead Lin Hao to rest first, and at this time, the roar of monsters resounded throughout the flower city, thousands of soul-devouring beasts poured in like a tidal wave.

The people of Flower City panicked, and even the Phantom Spirit Masters were dumbfounded.

As expected, the destruction of the formation had enraged the people behind it!

But even so, there was nothing they could do, they could only put their heads together and block these Soul Devouring Beasts, whose attacks were dedicated to attacking souls and devouring them.

The roar of the Soul Devouring Beasts and the miserable screams of the Illusionary Spirit Masters resounded through the clouds, and the whole Flower City trembled at these roars.

This scene took everyone by surprise, even though Adika knew that this night would be unsettling, but this was not unsettling, it was a straightforward sea of unprecedented terror. It was an unprecedented sea of terror. It's an unprecedented tsunami!

‘General Lin, Fairy Ling Yun, you should go back and rest first.’ Adika said stiffly to Lin Hao and the others, he instinctively felt that Lin Hao and the others were definitely not low in strength, if the two of them were to fight, perhaps the situation might not be as bad this night.

But he couldn't open his mouth.

Luckily, Lin Hao waved his hand and refused, ‘Wait, this is just the beginning.’

This was just the beginning?

This statement stunned everyone present, an attack of this scale, and it was only the beginning, so what other horrors were to appear down the line?

‘By the will of God, grant you the right to believe! By the judgment of the Judgment Division, wash away your sins!’

A divine silver light descended from the sky, and a hundred-metre silver cross of the Holy Sword shone brightly, illuminating the land.

Roar!

Countless soul-devouring beasts rushed at the huge silver light sword and hissed continuously.

A blood-cloaked Western European Inquisitor slowly descended and stood in the middle of the cross, so that everyone could see him clearly, as holy as a god!

Immediately afterwards, another holy six-manifold pillar of light descended from the sky.

‘By the will of God, listen to your call!’

A six-winged female angel, clad in silvery armour and holding a blazing angelic sword, likewise hovered with the city of flowers.

‘Aww shucks! These dogs, they’re all the same, they’re all pretentious, they’re all like lazy asses when they’re needed, they’re all full of shit! When things are settled, one by one, they are quicker than the other to run out and grab the credit, what a bunch of bishops!’ Seeing this scene, Adika and the others cursed up in a low voice, as the top brass, they knew the true meaning of the wording of the brainwashing set of these clerics, it was pure lunacy.

This was nothing but a bunch of truly self-serving bastards. At the time of Tag’s distress, Adika did not know how many times he had asked for help, almost as often as once a

day, but the other side had simply been perfunctory, and what was even more disgusting was that they did not even bother to be perfunctory later on.

Chapter 2536

Now that the matter has just been settled, each one of them has started to venture out in a moral manner.

They are really shameless!

Lin Hao looked at Adika and the others in amazement, well done, completely cursed out all he wanted to cuss, just comfortable.

However, Lin Hao looked quite grave, these two guys were not simple, they were many levels stronger than the guys who came to attack the Sea of Heaven last time.

It seemed that on the side of the Underworld, the two sides had completely broken up as well had they?

‘My poor followers, the gods have had mercy on you, but you have blasphemed them again and again! But the gods do not blame repentant believers, for you are all children of the gods.’

‘You are only blinded by the devil, the three Chinese men and women whom you honour as gods, they are the real devils, the root of all this, they ruined everything for you, thus

appearing to stage a play, the gods could not bear for you to be deceived again, so the gods descended!‘ The female angel opened her speech by pointing directly at Lin Hao, dumping all the blame on Hua Xia.

‘Don’t be obsessed, all evil began with these people in China, the only way to eradicate this evil is to kill them, otherwise, there will be no peace in Tyger forever!‘ Western European Patriarch Siennes was even more direct, pulling out his cross holy sword and pointing it straight at Lin Hao.

The two sang in unison appearing so righteous and sacrosanct, and incomparably pitying their own followers.

What’s more, they dumped all the blame on Lin Hao, shrugging it off and not saying a word about what they did not hear before.

Beautiful, wonderful!

Each one of them is a talent!

This was so good that even Lin Hao couldn’t help but applaud for the other side.

However, they imagined that when they finished, they would immediately be embraced by the people, and all the people of Flower City would incomparably spit on Lin Hao and the others, and even curse, and swarm to throw raising big, smashing bricks at Lin Hao and the others.

After all, Lin Hao is a higher illusionary spirit master right, but he can't possibly strike out at ordinary people, ah, as long as he runs, then his crime will be completely sat down, he will be completely finished!

But .....

This is Asia, not Western Europe and not North America, and the people here really don't eat them up.

The people in this area are not really interested in this.

The appearance of Lin Hao and Ling Yun is no worse than theirs, and Ling Yun is a bit more ethereal and more in line with their assumptions about gods.

The most important thing was that it was Lin Hao and the others who really saved and solved their problems. With such preconceptions, even if they were telling the truth, not many people would believe their words, let alone the fact that they were not telling the truth.

Therefore, more than 60% of the people kept pointing at those two douchebags in the sky, while more than 30% fell into confusion and doubt, and only 10% blamed and angrily scolded Lin Hao and the others.

But with the 60% of the population leading the way, soon those people started to fall back in droves as well.

‘You shet shit Bitch!’

A loud, angry curse resounded throughout Flower City, shaking even Lin Hao and the others into confusion.

Adika took it directly? Chayi whiff er wu er shanshan? an oversized loudspeaker that connected to the entire Flower City’s radio and all the loudspeakers they could control.

The outrage rang through the clouds!

‘Stupid batch of things! What kind of dogs are you! Talking about you guys being so holy and draping the world with mercy, bullshit! I have sent you hundreds of distress signals in a month’s time, and not once did you respond, first perfunctorily, and finally directly not even bothering to perfunctorily, all rubbish, shit!’

Those people were even more enlightened at the moment, yeah, that’s right, what the Lord of the Land said!

They’ve been suffering for so long, who’s come to support them? Bullshit, what bullshit gods!

What kind of gods are you, who open your gates in times of prosperity and hide in the mountains in times of chaos?

So what if you're a god? You don't even care about us, so what's the point of worshipping you? You are nothing!

What neither side noticed was that in the middle of the exchange, the Soul Eaters retreated silently and said: 'You are playing .....

## Super Son-in-law Chapter 2537-2538

### Chapter 2537

This situation, too, completely enraged the two men, who could not have imagined that it was the opposite of what they had envisaged going forward!

'How dare you blaspheme the gods, preferring to believe in the demons rather than the gods, you deserve to sink into hell for all eternity!' Siennes raged, his radiance unfurled, countless shades of silver light appeared behind him, as if a thousand armies stood behind him, his aura was as powerful as a rainbow, invincible!

As the terrifying aura fell, the entire population of Flower City's breath stuttered, what a terrifying aura!

Even Adika was terrified, one of their strongest Teg was only at the peak of the sixth rank, the Living Buddha at that time, this was a country that believed in Buddhism.

But the Living Buddha was like ..... nothing compared to this Sines!

‘I can’t believe that you are so stubborn, then let the holy light of God wash away the sin in your hearts! With the flames of judgment, we will exterminate the demons of this world! Lin Hao, you devil, dare to fight me!’ Anya even pointed her sword straight at Lin Hao.

The purpose of their coming was to kill Lin Hao, and Anya’s purpose was even clearer, to kill Lin Hao and avenge her sister~!

The one who had been tortured by Lin Hao in Tianhai, who had been killed by Lin Hao’s sword, was her sister. When she learned of her sister’s bad news, Anya became furious and would have run straight to China with the Angel Holy Sword in her hand if the Godfather had not stopped her.

This time, when the Godfather gave the order, she even volunteered to fight!

An early eighth-ranked Illusionary Spirit Master, she had eyes for everything, and when she found out that Lin Hao was only a late sixth-ranked, she was even more disdainful.

Thinking that there must have been others to help with Annie’s death.

But the person in question, Lin Hao, looked here and there as if he hadn’t heard.

‘Lin Hao, it’s you who’s talking! Don’t play the fool, come out and fight me! You coward!’ Annya shouted, ‘I want to avenge my sister with my own hands!’

‘Damn you, I want to watch you pretend quietly, just leave when you’re done pretending, why do you have to involve me?’ Lin Hao was speechless, while looking at the other party in depression: ‘And which big brother is your sister? Don’t put shit in your mouth!’

Seeing Lin Hao ignore the other party so much, Adika and Chen Wu were dumbfounded, and Chen Wu couldn’t help but think of what kind of sacrifice he could make to save Lin Hao and buy them time to escape.

But when he heard Lin Hao say that, he was dumbfounded, no big brother, don’t you do that, or else Jesus will come, ah shucks, no, or else the Jade Emperor won’t be able to save you if he comes.

You are only a late sixth grade, can’t you see what level the opposite side is? It’s definitely fiercer than you, right? The actual fact is that you will be able to get a lot more than just a few of these.

‘My sister is Annie! Annie, who you tortured to death, you vile, shameless demon!’ Annieya was completely furious, this guy had insulted her sister so lightly, did her sister not deserve to be remembered by him is it!

She swore that she would kill Lin Hao today!

Snort!

The wings behind Annya burned with a blazing flame, and the aura of an early eighth grade deity descended upon the earth, at this moment, the two of them seemed to be the masters of this world!

Lin Hao cried and laughed: ‘She sought her own death, what does it have to do with me? Don’t say I’m a demon, don’t be so shameless, okay?’

Why is this so popular abroad? After beating up your son, you have to beat up your son, after beating up your sister, you have to beat up your sister, after beating up you, your father has to look for me too?

‘Today, I want you to die!’ Annya swooped down directly towards Lin Hao, her gaze as sharp as to, while the flames around her set the surrounding buildings ablaze, burning with blazing flames.

After all, the people of this Flower City were not believers of the Angelic Church, so how many deaths had nothing to do with her, and even if they were believers, how could you not die if the Lord told you to?

So Annya took the initiative to kill Lin Hao, and as for how many people would die as a result, she didn’t even bother.

‘Crusader Charge!’ Since Annya was aiming at Lin Hao, he, Cienus, would reluctantly deal with the two women beside Lin Hao.

#### Chapter 2538

As soon as he pointed his crossed swords, a thousand horses and armies charged along with him, collapsing buildings and shattering houses wherever he went.

The key is that Siennes is just pretending, the so-called crusader’s thousands of horses behind him is just an illusion of aura formed by the field, which is not useful for fighting, but in order to pretend, the other party has no regard for the death of others.

The people of Flower City also just really saw the faces of these people, hetui! Calling their benefactors demons, you calves are the real demons, so the people of Flower City cursed at these two guys even more fiercely.

Lin Hao saw this and frowned, how many people would have to die if these guys acted like this, I’m afraid the casualties would be even more horrific than those caused by the soul-devouring beasts.

This, is the justice and holiness that your Holy Church boasts of?

‘Little shi, that awful old man is in your hands, just hold him back, no problem, right?’ Lin Hao stroked Lin Ruoshi’s little head.

He knew very well how capable his daughter was, she might not be able to hurt Sienz, but she would have no problem at all trapping him in the void!

Lin Ruoshi made a cute gesture of OK, smiling to reveal two cute little tiger teeth.

The next moment, Lin Ruoshi tore through the void with her bare hands and shouted, 'Void Suppression!'

Then .....

They saw that Siennes, uncontrollably, directly stuck his head into the void rift, followed by Lin Ruoshi also diving headfirst into the void rift, and immediately afterwards, the rift quickly closed.

'Crap!' Chen Wu was dumbfounded, this cute little girl was also a big hidden boss!

What a killer!

The little girl that they had always ignored and thought was just a cute girl, actually had such skills!

Kneel down!

As countless people watched this scene, seeing Lin Ruoshi tearing through space and plunging headlong into the void with Sienz, many of the unknown people began to pray for Lin Ruoshi.

They thought that Lin Ruoshi had died with that Western Church demon. The ladies who had just doted on Lin Ruoshi at the banquet couldn't help but cry at the sight of this scene, the little girl was so cute, how could they bear it!

And Annya, who was attacking, was also shocked to see this scene, damn, fortunately she came to seek revenge on Lin Hao, this little girl had this kind of terrifying power, tearing space with her bare hands, the key is that little girl is only close to the sixth grade illusion spirit master, ah.

If she wanted to tear through the void so easily, only a seventh grade Illusionary Spirit Master would be able to do it, and only if the space was not very solid.

At the same time, Annya was also a little glad that without this little girl around, who would be able to stop her killing moves!

'Lin Hao, suffer death, today is the day the Lord? Zero West Service Dyeing Lu Pao Er Ai? Come, it won't save you!' The Angel Sword in Annya's hand had already started to accumulate energy, and she even wanted to use the Angelic Judgement move?

Lin Hao had seen the horror of this move in the Dragon Clan's ancestral land, and only female angels could use it, it took time to build up energy, but the power was incomparably terrifying.

With this Annya's realm, an Angelic Judgement would have to purify the entire Flower City!

And a real purification, so clean that not a hair would be left behind!

Lin Hao sighed, 'It seems that Jesus has given you a lot of courage to say such words.'

'Brother ..... General, I beg you okay, hurry up and run with me, you can't fucking stimulate him anymore will you!' Chen Wu wanted to die, dragging Lin Hao to run away, but the result is that Lin Hao did not move at all ah. Buzz!

With a trembling sound, the Heavenly Sin Sword automatically appeared, and at the same time blossomed with a dazzling light, constantly releasing the aura of the field.

The Heavenly Sin Sword itself was enough to rely on divine patterns and release three different fields!

They were the Silent Death Domain, the Fire Phoenix Domain, and the Dragon City Field Domain!

Since the other party was Annie's sister, let's ..... give her an Annie's package as well!

Fire Phoenix Field!

In the next moment, Lin Hao's body directly disappeared in the same place, while the attacking Annieya likewise disappeared in thin air!

## Super Son-in-law Chapter 2539-2540

Chapter 2539

'Not good ..... Crap, big brother you don't have to be so desperate.' Chen Wu was terrified, anxiously jumping to his feet: 'It's over, it's over, now how can I go back and explain to the Dragon Lord ah.'

When the people of Flower City saw this scene, they too knelt down, it was over, their benefactors, they had lost two of them at once, how could this be done?

Adika likewise did not expect this, and because it all happened so quickly, they had no time to react.

'Don't worry, the two of them are fine, they just coalesced the domain to divorce them from this aspect of heaven and earth, the winner is yet to be determined, after all, they fought so violently and it happened in a densely populated and busy city, the after-effects are enough to destroy the city.' Ling Yun was quite helpless when she saw how demoralised they looked, Lin Hao was an existence that had fought against Ao Feng's doppelganger.

Ao Feng was also an eighth grade early stage Illusionary Spirit Master, and Ao Feng had lost quite a lot, it was considered a complete defeat, so Ling Yun had absolute confidence in Lin Hao, this Annya might not be able to win against him either, let alone in Lin Hao's domain!

'No? Close dyeing Lu Xi Yi zero love? It's possible! I'm not well read, don't lie to me, isn't it true that the only way for a person to condense their own domain is to reach the seventh level of Illusionary Spirit Master? It's true that a sixth grade Illusion Spirit Master can condense a domain, but that's just a prototype, there's no way it can trap an existence like Siennes.' Chen Wu, however, did not believe it, but it seemed like it was actually happening before his eyes.

After all, Lin Hao's almost four-year-old daughter had torn through the void with her bare hands.

'That's because Lin Hao is from the second class.' Ling Yun stretched her hand.

Chen Wu cried and laughed, auntie hey, it's already this time and you still have the heart to joke about it?

After all, if something happened to Lin Hao and the others in Taig, he would not be able to escape and would definitely not be able to suffer any good consequences.

Unbeknownst to him, after Lin Hao and Lin Ruoshi had each entered them to fight their enemies, three Soul Devouring Beasts, which had already reached the sixth grade Illusionary

Spirit Master realm, were flying rapidly towards the State Lord's residence, their target was unmistakable, and that was Ling Yun!

Soon, Ling Yun also similarly noticed the terrifying Yin Qi of this Soul Devouring Beast, as this thing had no intention of hiding, three clouds of Yin, which were incomparably obvious even at night.

'Back off quickly! A more powerful monster is coming.' Ling Yun hurriedly told the others to retreat, as the Palace Lantern in her hand continued to blossom with light, and her late-sixth-grade Illusionary Spiritist aura was fully unleashed!

The soul-devouring beast's Yin Jie Jie laughter was heard from all directions.

'Give up struggling, this will also save you from pain, hahaha, Lin Hao and Lin Ruoshi have been completely held back by those two guys, even if they can't lose, no one can come to your rescue now!'

'Follow us obediently, or else I'll let you taste the pain of your soul being torn apart!'

This was the situation Qin Bingyu wanted to see, someone to hold back those two most tricky existences, then they could naturally steal a wave of towers.

Moreover, this time it was only a test attack, otherwise it wouldn't have been possible to just send three sixth grade Soul Devouring Beasts.

With the soul-devouring beasts' bizarre attack methods, three sixth-ranked soul-devouring beasts would be perfectly capable of capturing Ling Yun.

The worst part was that in this entire Flower City, there was only one peak sixth-ranked Living Buddha, plus three sixth-ranked early stage Illusionary Spirit Masters, who could not stop them at all.

'Amitabha Buddha, my Buddha is merciful.' The Living Buddha of Taig struck out.

But the next moment, the Living Buddha suddenly let out a hissing, miserable cry as another Soul Devourer that had been arranged to specifically sneak up on him sneaked up on him.

Likewise, all the other sixth-ranked Phantasmal Masters were attacked.

'See, no one can save you anymore, will you come with us or will we ask you to come with us?' The three ugly soul-devouring beasts stepped out of the cloud and the terrifying Yin Qi from their bodies caused the temperature around them to plummet, as if they were instantly thrown into a freezer.

'Dragon Sect members, listen to the order! Prepare for battle!' Chen Wu shouted angrily and all the strong men of the Dragon Sect converged, they knew they couldn't defeat it, but they had to fight!

Chapter 2540

This is their duty!

‘Protect the fairies, all troops on command! Defend the House of the Lord!’ Adika also gritted his teeth and immediately ordered all the Illusionary Spirit Masters to gather.

He had sort of completely broken with the West, and was now on a united front with China, and had to protect them, for there was only hope for Tege if they lived!

Even if he had to sacrifice all the Illusionists, he would not hesitate!

The Illusionists also understood that if Lin Hao, Ling Yun and the others died, it would not only be them, but the entire population of Tigers would be swallowed up!

‘It’s useless, you guys can’t stop these monsters at all, they are monsters that specialize in devouring and tearing souls, it’s better to let me do it.’ Ling Yun shook her head helplessly, it seemed that it was her time, right?

With a faint smile on her face, Ling Yun looked at the spot where Lin Hao had just stood and spoke softly, ‘Lin Hao, goodbye.’

‘Huh, how disgusting, we’ll see each other in a moment, do we have to make it so diabolical?’ An incomparably disgusting female voice suddenly rang out, and it was so beautiful and melodious that it sounded like heavenly music.

Swoosh, swoosh, swoosh!

Immediately afterwards, three silvery cold rays lit up above the sky, like three silvery needles with sharp cold light descending from the sky!

Bang Bang!

The three needles hit the three Soul Eaters with unerring precision, directly penetrating their bodies and pinning them to the ground, unable to move at all, as the sharp weapons hit the Soul Eaters at their life-gates.

The three soul-devouring beasts screamed in agony, and the person behind them seemed to know that this was not the time to do anything, and that Ling Yun was surrounded by experts who were secretly protecting them. The three soul-devouring beasts were automatically destroyed and turned into a huge black Yin Qi, which was absorbed by the huge vacuum cleaner-like gap in the sky.

The three huge sharp blades were brightly nailed to the ground, shining with a crystal clear cold light, very beautiful, and only after a closer look did they turn out to be the hairpins of ancient women.

Seeing that hairpin Ling Yun was pleasantly surprised, 'Xiao Bai, is that you?'

Ling Yun recognised the identity of the other party through her silver hairpin, it was none other than Xiao Bai, one of the Thirteen Golden Hairpin, and one of the four eighth-grade Illusionary Spirit Masters among the Thirteen!

What Ling Yun did not expect was that her sister had sent Xiao Bai to protect her secretly, which she really did not expect.

'Che, you only have your lover in your heart, there's nothing for me to do, you can play by yourself ah.' The three hairpins on the ground rose up from the ground and disappeared into the night, but from the beginning to the end, the Little White that Ling Yun spoke of never appeared.

But this scene was enough to shock the people of Flower City!

Adika and Chen Wu were also stunned, dammit, apart from the presence of such a powerful person on the surface, there was an even more powerful existence hidden in the shadows protecting them!

Adika suddenly felt that he had made the right decision, to completely clear his ties with the West? To close the ties with the West? The Chinese government is now standing with China, and its determination to assist them is unprecedented!

The words are divided into two parts, the fire phoenix field, Ania found herself suddenly intruding into other people's fields, she did not care, some of the more special late sixth grade illusionary spirit masters, indeed, can already condense the field.

It was just that such an existence was nothing more than a child's toy in the eyes of a great man of her realm.

Unfortunately, Annya soon realised that something was wrong, this domain was so strong and solid that it could be compared to the domain condensed by an eighth level Illusionist!

This was impossible!

How did Lin Hao, a small sixth level late stage Illusionary Spirit Master, manage to do that?

What made her feel even more deadly was that this domain was an endless sea of fire, the flames were even more terrifying than the blaze on her body, surprisingly capable of burning the soul, even the soul was able to burn it, and there was no way to prevent it, there was no way to avoid it.

Even with her powerful realm to resist it, it still caused her pain.
