

Super Son-in-law Chapter 2711-2720

Chapter 2711

Soon, Xu Lin carried a four-square table and placed it at Chen Yuan's door, a bowl of water and a bowl of raw rice on the table.

The woman inside that bubbling green light did not make a scene, but instead looked curiously at the scene in front of her, wondering what this strange guy was up to.

Lin Hao took a closer look at the woman, hey, looked as if she was wearing a cheongsam from the Republican period, ah, a sense of age.

The woman with the green glow's bulging eyes glared fiercely at Lin Hao, as if she was also curious if Lin Hao could see him?

Luckily, Lin Hao didn't have the time to care about him right now, taking out his phone and turning on the screen, staring at it while the small, black notebook was placed on his desk.

Lin Hao took a sip of water, tilted his head and cleared his throat with a gurgle, then, swallowed it, swallowed it!

'Here it comes! Taishang pardon, super you lonely souls and ghosts, all four living beings dipped in grace, er' Lin Hao's aura was overwhelming and his voice was

powerful as he drank, only to forget his words after two sentences and look down at his phone again.

‘There is the head of the super, no head is born, gun special knife kill diving, hanging beam bright death dark death injustice bent dead soul debtor injustice chattering life children, kneel before my stage uh, what is next, oh, gossip release light zhan you and go, super born other side, for men and women to bear their own, rich and poor by your own call’

‘Mud, this is too long.’ Lin Hao exhaled a foul breath, who did this, making so many words, although it was quite coherent and imposing.

Lin Hao put the phone away, while Chen Haobei and Xu Lin, who were standing behind Lin Hao, looked at each other with a tired face, especially Chen Haobei, his eyelids were jumping wildly, dammit, just now Lin Hao was asking Dou Niang with his phone, right? The actual fact is that you can find a lot of people who have been in the business for a long time, but you can’t be a little more professional and smooth.

The actual fact is that you’ll be able to get a lot more than just a few of these. Lin Hao does not care about this, for the first time feel how exhausting it is to pretend, or simple and dry is better, one word fuck him!

Bang!

Lin Hao slammed the tabletop, a huge force shook up that yinji road guide, at the same time the black book opened, a ghostly light lit up, forming a circular ghostly light channel, similar to the kind of empty door.

This time Xu Lin and Chen Haobei were scared and hurriedly took a good few steps back, as if, as if they were really capable huh ?

‘No, master you wait! You damn well don’t follow the rules, huh?’ The green-light banner woman, who had been unmoving, was also frightened enough when she saw the spectral light channel appear, and hurriedly greeted Lin Hao, knowing that she had met someone really capable this time.

She didn’t want to go back to that dark cage, where life and death went back and forth endlessly.

‘You have something?’ Lin Hao raised his eyebrows, thinking you wouldn’t open your mouth.

‘The first thing is that you don’t have all the things you need, where is the chicken, duck, fish, candles and paper money? You can pretend to fool the ghosts, can’t you?’

‘Besides, if you want to redeem the ghost, why don’t you ask me if I have any unfulfilled wishes or grievances that I won’t leave, and let’s go through the process?’ The cheongsam woman was speechless, that’s not how it plays out on TV.

The corners of Chen Haobei’s mouth twitched, Lin Hao’s unprofessional standard was too much even for the subject to watch.

Xu Lin, on the other hand, turned his head straight away, forcing himself to hold his laughter, not daring to let himself laugh out, the two of them had just been tapped by Lin Hao with his book, and were able to see and hear this cheongsam woman.

‘You’re teaching me how to do things?’

Lin Hao rolled his eyes, who has time to fulfill your heart’s desire to go? Besides, you’ve been dead for how many years, what’s the point of being unwilling!

The golden light around Lin Hao’s body shone brightly, and the Yinji Road Guide in his hand lit up with a dazzling light. Lin Hao’s powerful, majestic and solemn voice rang out once again, ‘The Yinji is in order, the Yellow Springs can be crossed, go you

The dark light passage was like a bloody mouth, suddenly a tongue as big as a carpet poked out from inside, and rolled the flag-robed woman into it with a fierce roll, no matter how the flag-robed woman struggled, it was useless.

Chapter 2712

After being swept in, the spectral channel dissipated in the blink of an eye, and with a snap, the black book fell untouched on the table.

The flag lady was taken away, and for a moment, Chen Yuan let out a wail, seeming to regain some consciousness, though too weak, after all, having been tossed around by that thing for so long, she was a little frazzled and had trouble standing up.

The situation was somewhat worse than that's all.

Lin Hao then put away the book on the table, while Xu Lin walked over quickly and asked, 'Master Lin, is this the end of it? Is she alright, Xiao Yuan?'

'Definitely not!' Lin Hao spoke without good humour, scaring Xu Lin enough, is it still not resolved?

'The people who can talk about it have all passed out, the money can't be settled, this is a big deal.' Lin Hao rubbed his fingers, he decided to carry on with the role of a godsend to the end.

'Hey, I thought what's the matter, it's fine, the money is definitely not less for you.' Xu Lin was speechless, not to mention more, after solving such a big matter, when Chen Youde woke up, thousands of millions would not be a problem.

'I mean other things? Any more questions?' Xu Lin was also afraid that things would not be solved completely, what if there was a relapse?

Lin Hao rolled his eyes: 'Since money is not a problem, then there is no problem, open the windows for more ventilation, let her get more sunlight, and eat something to nourish her and it will be over.'

This time Xu Lin was relieved and hurried to do what Lin Hao said. Not to mention, after sunbathing and ventilating the room, it didn't take long for Chen Yuan to wake up,

but she was still very weak, but Chen Yuan herself didn't even know what was going on, asking that she just had a long, long, horrible nightmare.

As for the real truth, no one dared to tell her, otherwise it would have scared her to death, it was no joke.

'Teacher Lin, you, how do you pass on like this, it's too much of a personality.'
Chen Yuan noticed Lin Hao's make-up at this time and couldn't help but laugh, 'Are you going to dance as a big god, Mr. Lin?'

'Yes, how else would you wake up, this means it's working, remember to owe me a favour.'
Lin Hao smilingly took off the set of clothes, once again greeting Chen Bei Xuan ten or eight times in his heart.

Chen Youde settled the matter and was completely relieved, when Xu Lin conveyed Lin Hao's intention, Chen Youde took out a cheque without saying a word and signed it and handed it to Lin Hao to fill it out himself.

Lin Hao brightened up, took it over, took out a pen and filled it out, with his mouth chanting, 'Nine billion nine hundred and ninety nine million'

'Uh, Mr. Lin, you, you're really filling this in casually.'
Chen Youde was also frightened enough, let you fill in casually you are really not polite ah, his entire Chen Group is only more than ten billion, and this is only the assets, can come up with a billion cash flow is considered a bull.

Lin Hao threw the cheque back, 'You asked me to fill it out yourself, you don't like it if I fill it out myself, it's troublesome.'

'Fill it out yourself, give as much as you want, give a dollar and I'll admit it.' Lin Hao was not really short of money, and it felt like this godly man was quite fun to be.

Chen Youde laughed bitterly and had to take out a new cheque and fill in five million, sign it and hand it to Lin Hao. Lin Hao couldn't even close his eyes, 'Rich man, haha, thank you boss.'

'No, no, I should thank you, Mr. Lin stay for a casual dinner?' Chen Youde also did not expect Lin Hao to change his face so quickly, although he did not know Lin Hao well, at least feel that Lin Hao is not a lack of money, not to say more, eighteen million he is able to take out, right.

The actual fact is that there is a saying that your own and earned, that is two? The actual fact is that you can find a lot of people who are not able to get a lot of money. The code thing!

'Dinner forget it, there is no need, I go back to eat with Hao Bei.' Lin Hao did not intend to continue to bother them, he was still thinking about how to explain to Shen Xiyan about the child, which had the time to eat with them.

Xu Lin was responsible for seeing Lin Hao and the others off outside, just as they reached the courtyard, Lin Hao received a phone call from Lin En, Lin Hao didn't say a word when he got through, his face instantly fell and he asked sorrowfully, 'Are you sure that son of a bitch is claiming 100 billion?'

Super Son-in-law Chapter 2713-2714

Chapter 2713

Lin En smiled bitterly: 'Yes, and that guy also threatened that one hundred billion, not even a single penny less, and said that he would not let our Lin Group go, and had the intention of implicating our Lin Group if he did not pay out.'

'Oh, one hundred billion, really lion's mouth, also not afraid that the mouth of the pass is not good chipped teeth!' Lin Hao laughed coldly, this is the thing that rants and raves, 'You confirm once more if you really want one hundred billion, also, if you confirm, go and ask him for the company account of Tian Long Group, I will transfer it immediately and tell him, I hope he has this good teeth to eat it.'

'Okay, I'll get on it.'

Lin Hao hung up the phone, cursed and got into his car with Chen Hao Bei and quickly drove away.

Xu Lin, on the other hand, was dumbfounded and petrified on the spot, did he hear correctly just now? Lin Hao was being sued for a hundred billion dollars? A hundred billion!

That's ten times more than the Chen Group, and this is cash flow that can be mobilised at any time!

What kind of concept is that, and what does it mean that it can be transferred immediately?

Xu Lin shook his head with a bitter smile, it did not look like a hundred billion big brother ah, Xu Lin went back to talk to Chen Youde as if it was a joke, that is what he heard Lin Hao say on the phone just now.

Chen Youde, however, froze: 'Tianlong Group? Claiming a hundred billion? You wait a minute.'

Chen Youde seemed to have heard of this, the volume of the Tianlong Group, that is a large group equal to Junmen Airbus, Tianji Medicine, trillions are to small estimates of multinational technology enterprises.

Chen Youde called up his secretary and asked for the surveillance video at the time. After all, there were cameras everywhere outside the company just now, so it was not difficult to gather the video information at the time.

Soon, Chen Youde received the video sent to him by the secretary, along with the cause and effect, after watching it Chen Youde sucked in a breath of cold air: 'Damn, old brother Xu, we may have really looked away this time

Chen Youde handed his phone to Xu Lin, who also felt his brain buzzing after watching it.

Even Chen Youde had to treat Shui Yunlong as an ancestor when he saw him, even if he was a president of the Jinling branch, he was not something Chen Youde could afford to mess with.

As a result, Lin Hao had not only beaten someone up, but also had the time to come over to deal with their family's problems.

Chen Youde gritted his teeth, this was definitely an opportunity! It was up to him whether he would grasp it or not.

After thinking about it for a long time, Chen Youde asked Xu Lin to find Lin Hao's phone number and called him up, 'Master Lin, I heard that you are a bit short of money recently, why didn't you tell old brother about it.'

'Shortage of money? Which son of a bitch said I was short of money? Isn't it true that Boss Chen just gave me five million, how could I possibly be short of money.' Lin Hao received a puzzling call from Chen Youde.

'Well, I heard that old brother Lin is being claimed for a hundred billion dollars, I wonder if I can help? Our company is small, at most we can squeeze out five hundred million dollars of cash flow in a short period of time to help old brother Lin, it's a way for big brother to repay your kindness, no interest.' Chen Youde gritted his teeth and directly offered a bigger concession.

Xu Lin next to him listened with alarm, once the cash flow of five hundred million was withdrawn, it might cause the entire Chen Group's capital chain to break, and the ten billion dollar group might collapse with a bang ah.

And five hundred million, even the interest is astronomical ah, as a result he? dyed ground steak ground er love wu zero? Do not interest.

Xu Lin feels, how to look, Lin Hao is not like to take out a hundred billion ah, you say he can take out tens of millions, that Xu Lin does not deny, after all, no point home base, how can have Chen Hao Bei such an expert follow is not.

‘Chen old brother you have said, a hundred billion ah, you five hundred million top of the fart ah.’ Lin Hao rolled his eyes, but since the other party had the intention, Lin Hao also had the intention to give the other party a word of advice: ‘By the way, a friendly reminder, if your company has dealings with the Tianlong Group, break it off as early as possible, otherwise I don’t care about the damage caused.’ After saying that, Lin Hao didn’t say anything more and hung up the phone.

Chapter 2714

Chen Youde, on the other hand, was deep in thought, and then snapped out of it, ‘Go, go to the company! ~Go to the company immediately!’

Chen Youde was not a stupid person, Lin Hao was planning to mess with the Tianlong Group, although the Chen Group’s main business was pharmaceutical products, but with a volume like the Tianlong Group, there would be more or less some business dealings.

Now no matter what, hurry up and break, the stop loss stop loss, the break hurry up and break, don’t give yourself uncomfortable.

For Chen Youde's sudden do so, but will cause huge losses to the company, many shareholders have refused.

After all, all the shareholders are desperately trying to climb up with the Tianlong Group, but you, the chairman, are not climbing up the relationship, even if it is not enough, but also offend people, you are not making a scene ?

Chen Youde saw that the advice was ineffective, simply did not bother with them, quickly withdrew the share belonging to himself, anyway, it is time to remind remind, it is time to say, anyway, people do not believe him, there is nothing he can do.

Chen Youde didn't know what kind of ecstasy he had eaten, he always felt that Lin Hao could make a huge commotion.

Lin En's side naturally got the exact answer, one hundred billion, not a penny less, into the company's account doesn't matter, Shui Yunlong directly gave Lin En the account of the South China Regional Company, which is the company his cousin uncle Shui Wu Chang is in charge of.

In response to the threatening words, Shui Yunlong did not take it to heart at all, and Shui Yunlong simply did not believe that the other party could come up with one hundred billion.

You should know that the Tianlong Group's Jinling branch only had a volume of tens of billions, and the South China Regional Company, in total, was more than 300 billion.

These were all asset volumes, not money that could be taken out directly.

It was more difficult for a trillion dollar group to mobilize a hundred billion dollars!

Lin Hao got Lin En's reply and his gaze went ice-cold, it seemed like there was really no way to make this matter go away ah.

Lin Hao took out his mobile phone and dialed the number that had been dusty for more than ten years.

'Lao, boss?' The other party spoke incredulously incomparably, and didn't quite dare to believe it, after all? Love serve west closed Lu Shan'er intention? This phone call has not been able to call through for ten years ah.

'It's me, I heard that you guys are now making a lot of money overseas, right?' Lin Hao grinned.

'Hey, hey, more or less is another story, anyway, the boss needs to point wherever he can.' The other party was smug, it was the same stock market finance team that Lin Hao had once cultivated, the Skyfall Justice Organization, a professional.

'I will send you an account later, put one hundred billion into it, then investigate the Tianlong Group for me, three days, I want his Jinling branch to collapse, that one hundred billion, you guys just earn it back with interest, if their other regional companies want to intervene

to save the market, then play with them.' For this team, Lin Hao trusted 100% of them, and their ability, Lin Hao would not have any doubt.

'Tian Long Group? That's a big multinational corporation, it's a bit complicated that's all, their financial system is very mixed, if we really want to attack, I'm afraid it will cause a chain reaction, do we need to discuss it with Brother Jun and Brother Mo first?' The other party was naturally talking about Mo Tianji and Jun Wuhui.

'Look after it yourself, no need to ask me.' Lin Hao hung up the phone and replied to Lin En.

Lin En hung up the phone, his whole body was dumbfounded, was it true or not, not joking about himself, right?

A hundred billion ah, just call it?

Lin En still went to the hospital to inform Shui Yun Long that the money had been paid, only to be kicked out straight away.

'Mud, psycho, hurry up and get out, don't come to fool me, selling your Lin's group is not even worth a hundred billion!'

Shui Yunlong didn't believe this at all! Inside the office of Tian Long's South China Regional Corporation for a few days.

A big-bellied, Mediterranean man was chatting freely about life with his secretary, shutting the door tightly, when a very urgent knock suddenly sounded outside the door.

The man in the office almost shuddered and was disturbed, so he cursed, ‘Go away! You’ve got no eyes!’

‘President, something big has happened, really big, it’s very urgent and needs to be dealt with immediately.’ The competent woman outside the office door was also extremely helpless, she naturally knew what was happening in the office, but this matter was really urgent, so even if she was scolded, she had to find Shui Wu Chang to deal with it ah.

Super Son-in-law Chapter 2715–2716

Chapter 2715

When he saw that it was the head of the finance department, he was a bit puzzled, and his voice was low and cold: ‘What on earth is it that you have to find me at this time? If you don’t tell me, you’ll know the consequences better than I do!’

The head of the finance department smiled bitterly, ‘Someone transferred a hundred billion dollars from overseas to our regional company account, and we can’t find the source of the funds!’

‘What? Yi Shan Serving Xi Shan Zha Xi Shan? What!’

Waterless stood up with a bang and looked at the other party dumbfounded, one hundred billion? You’re fucking kidding me!

The regional company has a volume of more than 300 billion, the financial side does not even have a hundred billion.

‘We’ve confirmed it ten times, it’s true, moreover, this is the other party’s transfer message.’ The head of the finance department handed an A4 piece of paper to Shui Wu Chang.

Water Irregularity was also confused when he read it: one hundred billion has arrived, I hope your teeth are good enough to eat it! Get ready, starting with the Jinling branch!

What the hell?

The money was transferred in, but the tone was a bit provocative.

He remembered that his nephew had called him before and said that he had been beaten up and put in hospital, and at that time he wondered who was so brave as to touch anyone from the Shui family.

When Shui Yunlong answered the phone, he was still in the hospital, and just as he picked up, he heard Shui Wu Chang’s words: ‘What’s going on over there, you kid? Did something happen? You haven’t offended anyone you can’t afford, have you?’

‘Are you kidding, Uncle? I’ve already had someone dry the hospital, who else could I offend?’ Shui Yun Long don’t mention how depressed: ‘The key to find people to deal

with, one by one don't want to care about this matter, the relevant departments don't give a shit about me, angry me, the most critical is the guy who beat me also said one hundred billion compensation has been transferred by me, by the way, I gave is cousin uncle your company's account, you say he is not stupid.'

'What did you say!' Shui Wu Chang was stunned, crap, this unlucky kid, it seems that he has really invited someone he shouldn't.

A big brother who could mobilise a hundred billion dollars in cash at any time, was someone they could offend?

'What's wrong with cousin uncle? What a shock, you didn't really receive it, did you?' Shui Yunlong also froze.

'I was wondering what was going on! Do you know what you've provoked! One hundred billion did arrive, and they said the first one they'd take would be the Jinling branch! Think about it yourself, a big shot who casually mobilises a hundred billion in cash is someone you can offend?' Shui Wu Chang's face was incomparably gloomy.

If people sued him for extortion, they would be able to get away with it, and the public accounts would be too easy to investigate.

'How is it possible, how can he come up with so much money? And besides the fact that his friend is a ten billion dollar group boss, it doesn't seem like there's that much money to be taken out, right? That kid I checked, doesn't have any background.' What Shui Yun Long said about not having any background was because everything about Lin Hao he couldn't find out.

Even a big group like them couldn't trace the information about Lin Hao.

'I'll transfer this money back to you intact, go and find someone to apologise immediately, or don't fucking drag me into it when the time comes.' Shui Wu Chang angrily hung up the phone, but felt that it was not quite safe, and started to call the bosses of the major regional companies, and even the head office.

The head office, in the middle of the night, was awakened by Water Wanderer and first scolded him, then asked him about it.

All the regional bosses thought it didn't matter, after all, the overall volume of the Tianlong Group, what the hell, this 100 billion can eat, and even thinking how to divide this 100 billion.

But not all of them are stupid, the head office said the money can not be touched, at the same time began to investigate information, in addition to begin to test the attitude of Junmen Technology, Tianji medicine and another media.

Chapter 2716

These three are the three giants of China today, if they don't have any indication, then they will eat it, a hundred billion dollars delivered to the door, don't want it for nothing.

The head office's order came down, Shui Wu Chang had to do as he was told and conveyed the meaning to Shui Yun Long, who was happy, it seems that someone is really stupid, not to take such obvious money for nothing.

It must be said that the Shui family is swollen, Shui Yunlong knows that the person who easily takes out 100 billion is not an ordinary person, but the Tianlong Group may not be afraid of you not!

As for going to check Lin Hao, he had long gone to check, there was nothing, at most found some relationship with Chen Youde and Lin's group, Lin's group and Chen's group has terminated the cooperation with Tianlong Group Jinling branch.

The two ten billion dollar groups are nothing, and the cooperation is all small projects.

Things passed calmly for a day, did not hear any movement, the investigation of Junmen Technology, Tianji medicine, there is no movement seems to be.

The news began to report to the head office, we are somewhat relieved down, feel no need to panic, but still let people keep an eye on the stock market, careful to give people a foot, there is the situation of shops, sources of goods and so on one by one to check, especially the Jinling branch.

The water cloud sky felt that it was more than necessary.

Unfortunately, in the early hours of the next morning, Shui Wu Chang and Shui Yun Tian were both woken up by phone calls. According to the news that the investigation had just received, the retail investors of the Jinling branch and the South China Regional Company had been cooped up!

And the other party didn't even hide it in the slightest? The intention is to tell you clearly: 'I'm going to screw you, get ready!'

'Sniping our stock market? What a joke!' Shui Wu Chang received this news are feeling a little funny, although each regional company is divided into discs, the other side want to eat them can not be so simple, this operation is like a layman.

The company's head office ordered Shui Wu Chang to smash the 100 billion again, since the other side wants to play, then smash it up, directly without leaving any bones for the other side, these days it is not easy to meet such people who are stupid and rich.

The next day, the stock began to plummet, but Shui Wu Chang knew that this was only logical. 100 billion continued to be smashed down, even though the other side was constantly operating, but the stock price remained high and kept rising!

The upward trend is very fierce, many people have noticed this demon stock, but no one dares to bid, and those who want to get into it can't get in, now it's a fight of the gods inside!

'Throw, keep throwing for me, then keep smashing for me, come against them.'
The excited Shui Wu Chang felt like he could lie down and count his money, according to the

current situation, they have only smashed 100 billion into it, the other side has at least smashed more than 200 billion, rich people ah.

The bosses of the regions were all red in the eyes, and even the head office was a little jealous, they hadn't met such a wealthy boy!

Unfortunately, the situation took a sharp turn for the worse on the third day and something went terribly wrong!

The South China Regional Company had thrown in too much, and its own shares could no longer be held, while the other side directly controlled more than 65% of the shares.

There were only two ways out, they could either go bankrupt or face a compulsory takeover, and it was already very clear that the other party was planning a compulsory takeover of a regional company.

How could the senior management of the Tianlong Group be willing to sell, it was tantamount to cutting the meat ah, but not cut the meat, the compulsory acquisition of the other side will be rich, if declared bankruptcy, it was even more finished.

And on the third day, all the major companies at the same time, no matter how high the breach of contract, all cut off all contact with the Tianlong Group at the same time, all the flow of funds, as well as the provision of raw materials and so on, all stop, even the suppliers are collectively returned.

After all, if one or two companies stopped, the Tianlong Group would not bother to cooperate with them, and they would not need to take the initiative to negotiate.

Super Son-in-law Chapter 2717-2718

Chapter 2717

But if it all stops, it will be the end of ah.

But the outside world simply does not know what is going on, Chen Youde these days in the company can not be less cynical, such a wave of money to send the welfare ah, Chen Youde actually gave up, Tianlong Group stock skyrocketed, even the partners have benefited greatly. ‘

Chen Youde knew the cause and effect, already shocked speechless, his own guess was right, Lin Hao is really a hidden big brother ah, so much money said to smash down without blinking an eye.

‘Oh, let’s wait and see.’ Chen Youde didn’t care at all about the shareholders’ cynical comments.

But many of the shareholders were also smart enough to feel that there was something fishy going on here, and they had also asked the Tianlong branch side, and the answer they got was that it was business as usual and there was no feedback.

But it feels like the other side is always tensing up, and many smart people are already looking to retreat.

The head office also realised that something was not right, as Junmen Technology and Tianji Medicine were acting in tandem, and it was crucial that the other side was only targeting the South China company, if they were targeting the entire Tianlong Group, it would be a problem.

In the end, we learned that it was actually because of the contradiction of Shui Yunlong, who was immediately removed from his post, scolded, and told to go apologize immediately to people to obtain forgiveness, otherwise his legs were broken and he was directly expelled from his home, and

Lin Hao, the past three days have been running around, dealing with some bizarre events, and there is news from the Skyfall Justice team that everything is ready.

If needed, this regional branch could go bankrupt right now and take over all his industrial chains and markets!

‘Let’s see their attitude, if it’s not too much, we’ll just teach him a lesson too, if it’s too much, I don’t mind making them pay a bit more.’ Lin Hao hung up the phone and coincidentally, Chen Hao Bei came in and said that Shui Yun Long had come to visit and had brought a whole bunch of gifts.

‘Speak of the devil, speak of the devil, let’s go out and see what this kid is playing at.’ Lin Hao stretched his back and got up to go outside. Arriving at the Lin family’s ancestral home, Shui Yunlong was a little apprehensive, how could this kid be living here ?

After all, as a member of the Shui family, he naturally knew some of the inner workings of such a large volume laid out here, but it was also because of the cataclysm ten years

ago, when all the major clans went into seclusion and were exterminated, and it was said that the experts of those clans had mysteriously disappeared.

This is what gave rise to the rapid rise of the Shui family momentum, ten years, it can be said to be riding the wind, quickly catching up with Junmen Technology, Tianji Medicine, etc., even that Night One's media company was suppressed.

He also knew some secrets, although he did not know much, but he was still clear, in this area of ancient mansions, can live here are not hidden big brothers, ah, there were also rumors, ten years ago that a catastrophe, related to the Lin family in this place, the background is deep, ah, no wonder no matter he looked for some relevant departments, no one cared about him.

Just when Shui Yun Long was apprehensive, Lin Hao walked out, Lin Ruoshi and Chen Hao Bei followed behind him, and Shui Yun Long was in the courtyard, with a few bodyguards who were carrying a large pile of gifts in big bags.

Lin Hao smilingly walked forward, 'Congratulations, President Long, you've become rich now, I should have known I'd buy a bit of your company's stock too, just look, your stock has gone up like crazy in the past few days.'

'By the way, did you receive the 100 billion yuan compensation?' After saying that, Lin Hao teased Shui Yun Long with a smile, at this moment this guy was still lying on the wheelchair, so it was obvious that Lin Hao had beaten him up really badly.

The corners of Shui Long Yun's mouth twitched fiercely, don't pretend to be confused, okay? The company's stock has skyrocketed like this, but it's not because of you? The actual fact is that you have to be able to get a lot more than just a few of these. The ghost.

The company's shares have been driven to a dead end by a few hundred billion dollars, which is definitely a big brother.

Now just because the share price has skyrocketed, but also put them in an awkward situation, either to be replaced by a compulsory takeover, or possibly face a bloodbath and then a compulsory takeover.

Chapters 2718

Who let you even have enough equity in the company to make decisions!

Although this situation may result in a blood loss of over two hundred billion dollars for Lin Hao, they are missing a piece of fat meat and losing control of the market in the South China region.

This huge South China market was more than 200 billion dollars of market share ?

'We have received the compensation, this is a gift from me to Mr. Lin, I just don't know what exactly Mr. Lin means? The hundred billion dollars for beating me up last time is naturally written off, but what exactly does Mr. Lin mean when he suddenly snipes at our stock market and wants to compulsorily acquire our company?' Shui Yun Long's brows were locked, this matter had already made the head office incredibly annoyed with him. ..

This time, apart from making apologies, he still wanted to find out what exactly the other party meant, and probe the bottom of the barrel in the meantime.

Obviously, people are greedy, they want to eat the 100 billion that Lin Hao compensated, and they want to eat the money that is now hitting them in the stock market as well!

You know, the Tian Long Group wouldn't be scared in the slightest even if they were to take on either of Jun Men Technology or Tian Ji Medicine.

'Reason? Do you need a reason?' Lin Hao looked at Shui Yunlong indifferently, 'I thought you guys came here today to reconcile, but it turns out that you came to probe my bottom, since that's the case send the guest away.'

It seemed that there were really some people who were too greedy, frantically probing on the edge of death.

'Mr. Lin, our Shui family gives you face, but we also advise you not to be insensitive, otherwise even with the volume of Junmen Technology, you are no match for us.' Shui Yunlong snorted coldly and turned to leave.

'Then I ask you, do you represent your personal meaning today? Or is it the meaning of the entire Shui family?' Lin Hao raised his eyebrows, if he wanted to move him in the Chinese region, then just wait and see.

Originally, he wanted to teach the other party a lesson, after all, the other party didn't know that Shen Xi Yan was a married woman, but now the other party even wanted to be greedy and eat the bait he threw out, so don't blame him for being ungracious.

'I am representing the opinion of the senior management of the Shui family today! Since Mr. Lin is so bold, it might as well be a try.' Shui Yunlong left, too? Sandidi grasped Xiyi zero? informed the Shui family senior management of Lin Hao's attitude.

The top brass of the Water Family made an immediate decision and immediately started to make all possible pledges of funds, as well as raising funds frantically overseas, obviously they wanted to make a serious profit, knowing that Lin Hao's bottom line was full, but they weren't bad at playing a big game.

This is where they, Tianlong Technology, might leap up and directly overtake Junmen Technology and Tianji Medicine from then on, becoming the rightful leading boss, thus starting to cast a full net, forming a monopoly mechanism and building the Shui family's business empire just around the corner!

Lin Hao didn't rush into action, giving them ample time to prepare, as Chen Tianyue on the team's side had already given Lin Hao a clear answer that they, as a team, could directly overthrow the entire Shui Family Group if they struck!

What was quite shocking to Lin Hao was that after ten years of development, not only had the others taken off, but so had they as a team, and the cash flow they controlled was even more terrifying than Tianji Medicine and Junmen Technology put together.

Lin Hao gave Dragon Master Liu a call over to ask if moving the Shui family would cause problems for the authorities.

Liu said, 'You look after it yourself, don't worry about anything else, as long as it doesn't cause massive unemployment, settle these practitioners down and cause no unrest.

And the Shui family's Tianlong Technology is a multinational enterprise, doing something somewhat similar to the kind of thing that second-hand dealers do, acquiring foreign technology at low prices, as well as technology products, and selling them at high prices within China, to be honest, the higher-ups also want to deal with this Shui family, nay, the Shui family already has the volume it has today, once the Shui family is moved, it may cause more than a million people to lose their jobs overnight, and the upheaval caused cannot be small.

Since Lin Hao wanted to move him now, there would be no problem.

'Boss, I just received news that the Shui family is raising money like crazy, as well as picking up a fight with the financial companies over on Wall Street, the other party has currently gathered almost a trillion US dollars, pressing the entire Tianlong Group up, he is trying to kill you ruthlessly boss ah.' Chen Tianyue laughingly teased up.

Super Son-in-law Chapter 2719-2720

Chapter 2719

Looking at Chen Tianyue's such a relaxed tone, he obviously still didn't put the other party in his eyes, one trillion US dollars, that's more than six hundred million Chinese Yuan, plus his own funds, that's quite a lot, it seems the other party didn't underestimate himself either.

Lin Hao smiled, the other party was trying to eat himself without any bone crumbs left, so he thought he already knew his identity.

‘Then let’s do it this way, all out war, no need to play any tricks either, just face them head on, half of the money earned will go to the state treasury, the remaining half will be your hard work, the market and those personnel receiving, leave it to Jun Wu Ren and the others to handle, any questions?’ Lin Hao had already made up his mind.

‘Uh, boss you say that, do I dare to take this money? Turn it all in, we’ve been secretly buying technology and intellectual property over the years and secretly transferring it to China.’ Chen Tianyue grinned lightly, ‘Don’t forget, I’m a Chinese.’

‘But Boss, really don’t you want to tell Jun and the others, they all miss you quite a bit.’ Chen Tianyue had contacted Jun Wuji and Mo Tianji, and even Gu Nansheng, but quite helplessly, they didn’t seem to know about Lin Hao? Shan’er closed Shan’er and zero Zhaoxian Shan’s already back.

Plus their head office had also left because of Lin Hao and thus moved back to Tianhai City, otherwise but whenever they came to the old Lin family residence to take a look, they would have known that Lin Hao had returned.

After thinking about it, Lin Hao finally shook his head, ‘Let’s talk about it, just leave this matter to you, I have other things to do, I’ll hang up first.’

Since he had to leave sooner or later, why contact them, forget about the river and the lake, unless he had to contact them or could not avoid the situation, Lin Hao was most annoyed by the pain of parting.

Chen Tianyue immediately began to work, will be in the hands of the chips, but any of the profit, or a slight loss does not matter, all throw out, in the fastest speed to gather a huge and terrifying cash flow.

This also led to a full-scale shock in the overseas market in the short term, scaring many people enough to think that the sky was falling.

It turned out to be a day and a half of turmoil, and then it calmed down again.

But the real bigwigs felt that it was not simple, that someone was converging on a huge cash flow, and this had been noticed by the top brass of the Water family.

Wall Street, inside the office building of the Sky Dragon Group's technology headquarters.

A dozen of the Water Family's top decision-makers were gathered.

Sitting at the top was the Shui Family's highest decision-maker, a middle-aged man in his fifties, Shui Chengfeng.

'Now that we have gathered a total of over nine trillion dollars in cash flow, we are ready to deal with any unexpected situation, but yesterday's sudden overseas stock market turmoil on a wide scale for a short period of time, I suspect that someone is forcibly gathering

cash flow against us. The other side has a very professional financial team, and now it's your turn to analyse it.'

'Should we give up on this fat piece of meat, or swallow him up piece by piece with all the scraps of bone! Let the Shui family run straight to a ten trillion dollar super conglomerate!' Shui Chengfeng's voice was calm and steady, and his eyes showed authority as he looked around the circle, but he was just talking a bunch of nonsense.

The cash flow had all converged in his hands, and it was clear that he was going to set up a big fight, so how could he stop midway?

Very quickly, after analysis by the Shui family's professional financial team, the cash flow that Junmen Technology, Tianji Medicine, plus that one media company could gather in a short period of time was only about one trillion Chinese Yuan, so if we added that financial team from overseas before, the cash flow that could be gathered up was estimated to be around four trillion.

They had an absolute capital advantage, and now they had even more of an initiative and were not panicking at all.

'Good, then let's start the whole thing! Contact all the familiar groups and start making moves, be the first to start making the first move against opponents who are likely to make a move against us!' With a command from Shui Chengfeng, the entire huge Shui family group began to run wild.

What's more, it unleashed its ferocious fangs on its former rivals!

In just one day's time, the Tian Long Technology Group forcibly cut off business dealings and cooperation with Jun Men Technology, Tian Ji Medicine and many other large group companies, and began to encroach on each other's territories, physical shops, virtual markets and so on, with a fierce aggression that was not afraid of offending them in the slightest.

Chapter 2720

The momentum was so strong that the share price of Tianlong Technology Group was once again rapidly soaring even higher and more terrifying!

Countless people have followed suit, even Chen Youde was a bit restless, but he always felt that something was not quite right, he also learned the news, according to reason, Lin Hao had already smashed 200 to 300 billion down, how come he suddenly dumbled down?

Rather, the Shui family is taking advantage of this momentum to tear up the market of other big groups, wanting to leap up to become the leading boss in one go.

Plus now he is being blamed every day and even asked to step down and let others manage and deepen the cooperation with the Tianlong Group.

Chen Youde was also busy, but when he called to ask Lin Hao, Lin Hao only replied ambiguously and told him not to get involved.

Chen Youde gritted his teeth and sold all his shares, then stepped down himself. This group was built by his own hands, plus now the company's share price is good, after selling all his shares, he also took more than three billion yuan in cash to retreat from the pit.

Jun Wu Regrets met with Mo Tianji and Night One in private.

The three of them had the marks of the years on their faces, and when they met again, they couldn't help but sigh, wondering how the boss was doing now.

They hadn't heard anything for ten years.

I don't know, now make such a big noise, is their boss authorized

The three gathered together, no one spoke first to break the silence.

The three of them are reminiscing about the great days of the past. Nowadays, they are considered to be the lords of the market, and as long as they do not go against the top, the top will never touch them for the sake of their boss.

Naturally, it was impossible for them to go against the top.

In the end, it was Jun Wu Ren who was the first to speak up, 'This matter should have been authorized by the top, over the years Chen Tianyue has been closely linked to the top,

and has not helped the top a lot, this time he suddenly made a move against the Shui family, it seems that the top couldn't stand it anymore.'

'Hey, it's a hell of a thing for the top to look down on, see how arrogant the Shui family is? It looks like he's acting like he wants to swallow Chen Tianyue up and knock us down in the process, completely distancing himself ah.' Mo Tianji laughed coldly, the Shui family was really too naive.

Night One frowned but didn't say anything.

'How about we follow along for a piece of soup? Chen Tianyue and the others are a bunch of wolves who eat people without spitting out bones, those who can make them make such a big commotion definitely have something to gain, so let's follow suit?' Jun Wu Ren raised his eyebrows, naturally he had called the two of them here today for this matter.

They weren't worried that Chen Tianyue wouldn't be able to beat the Shui family, even if they broke the sky, there was still the top to hold them back, so they were afraid of nothing.

'I don't have a problem with it, right, what's wrong with you, Night One? Say something, take a stand.' Mo Tianji is indifferent, anyway, their three converging cash flow smashed in, follow the pace of Chen Tianyue, should also be just a mouthful of soup, eat some meat froth, after all, this time pulling off the momentum is too big.

But from the beginning to the end Night One was silent, leaving Mo Tianji a little puzzled.

‘I’m wondering if this matter has anything to do with the boss, after all, my men reported that this matter first broke out from the other party’s Jinling branch, and then began to spread to the companies in the South China region.’ Night One uttered his very bold guess.

Jinling, that was their boss’s territory, who would dare to make things happen there, unless it was the boss himself, otherwise it would simply be squashed before it got out of hand.

The night one’s words made the other two people face? The other two people were looking at each other. The other two people looked at each other, not to mention, there is really this possibility!

‘I’m afraid it’s really possible, after all, the top may not be able to command Chen Tianyue ah, if it was the boss who did it, then there’s nothing strange, but since the boss quietly came back, why did not contact us? Does the boss think that we can’t help?’ Mo Tianji was somewhat speechless.

Lin Hao had abruptly disappeared for ten years, they had searched for ten years, and although they knew a general idea, it was not clear that they might have come back now, yet they had no intention of contacting them at all.
