

## Super Son-In-Law Chapter 221 -

Cynthia was stunned.

As Yue Lao, she urgently hoped that Isla and Alex would be able to achieve their aim. It was one of the necessary steps for Alex to propose marriage to the Sullivan family. However, no matter how anxious he was, he had to be careful when he spoke and did things. Before Xena allowed them to interact, Alex had made it clear. It was typical to alert the enemy, and it would be strange if they did not touch the wall.

Isla was also confused. She reached out and grabbed Alex's waist and said in a low voice, "Do you want to die? What nonsense are you talking about? Who has fallen in love with you?"

Relatively speaking, Xena was the calmest of the three.

Xena just frowned and then sneered. "Alex, I knew that you didn't give up on Lala. Since you transferred Gold Stone to Lala and ran to Gold Stone almost every day, I have basically confirmed this."

Alex was not surprised by Xena's calm response. He replied in the same calm tone, "I know what you're thinking. People with discerning eyes can see the relationship between me and Isla, and sooner or later, I will make it public. So I don't think it's necessary to pretend that you don't know it. To be honest, I transferred Gold Stone to Isla, and I don't intend to take it back, because that is our love token, and it can also be said to be one of the betrothal gifts. Vice President Xena, as long as you can accept me as your son-in-law, I will also send the villa as a betrothal gift."

Before Xena said anything, Isla became anxious. She pinched Alex's waist again and said eagerly, "It's not over yet, is it? You're still a big boss. Don't you know that you should pay attention to the occasion when you talk? If you dare to talk nonsense again, I'm really angry!"

Cynthia also hurried to the front of Alex and reminded him softly, "I admire your courage, but courage and recklessness are not the same concept! You are usually very smart and know what to do. What's wrong with you today? Are you too happy because you have become the big boss?"

Alex waved his hand, gave Isla and Cynthia an affirmative look, and continued to say to Xena, "Vice president Xena, you may not know me very well. Let me take this opportunity to introduce myself. I am the second largest shareholder of Henggang Pharmaceutical Company, occupying 45% of the shares. I am still the legal representative of Qingyun Media, taking 51 percent of the shares. There are still some small industries, I will not say. Anyway, my total value is about 60 billion. In the last year, the richest person in the city, the boss of Henggang Pharmaceutical Company, the

total value of my uncle-in-law, is 530 billion. Of course, there is a possibility that he has a secret deposit that outsiders don't know..."

"You..." Xena was extremely shocked. "You have so much money? Is it true?"

"I admit that I have a lot of shortcomings, but I can't boast. Vice President Xena, I have found my biological parents, and I'm not short of money. It's impossible for me to be your live-in son-in-law. But as long as I get married to Isla, the two of our family will be inseparable... Do you understand what I mean?"

Xena fell into deep thought with a sullen face.

Isla thought that Xena was angry and she was very disappointed with Alex's performance today. She got up and was about to leave.

Cynthia also felt that Alex had lost his composure today, but she still persuaded Isla earnestly.

Just as Cynthia failed to dissuade her and was about to leave with Isla, Xena finally raised her head and said to Alex with a poker face, "Do you think that I'm in charge of Lala's marriage purely for money? Do you think that I want to take back Gold Stone and the villa just for myself?"

Alex was a little dumbfounded. "Vice President Xena, what do you want to say? I don't understand what you mean."

"I've already figured it out. Lala's father is right. Lala has grown up, and she can make her own decisions for her lifetime. Alex, don't think that you can buy everything just because you have money. At the very least, you can forget about buying love. Even if you give all your assets to me, don't think about forcing me to marry Lala to you. I won't interfere in her marriage again."

"Vice President Xena, are... are you serious?"

When Alex heard the first half of the words, he thought that Xena had taken the wrong medicine today.

It was not until he heard the latter that he suddenly realized that there was such a shameless person in the world!

It was no exaggeration to say that Xena's thick skin refreshed Alex's cognition.

In addition to being shocked, Alex couldn't help but think of a part. Someone asked, "A young and beautiful girl who is a poor girl and an old rich divorced woman, which one are you willing to marry?" The person who was asked answered seriously, "It doesn't matter if you have money or not, mainly I like older people."

When Alex accidentally saw this joke, he was amused.

Now the joke had become a living reality, but Alex couldn't laugh. On the contrary, he felt very sad. He felt sad for Xena, who was so vain that she had no bottom line. Fortunately, although Isla was the flesh that fell from Xena's body, it was mainly inherited from Victor's character.

Like Alex, Cynthia was speechless about Xena and did not know what to say.

Isla was used to this, and her focus was different. She approached Xena in a daze and asked expectantly, "Mom, is what you just said true? You really don't interfere my marriage?"

Xena nodded. "Lala, I've thought it through since your father passed away, but I haven't told you."

"Thank you, Mom! Even if you don't interfere anymore, I will think about it carefully. I won't joke about my happiness."

"Yes, I believe in your judgment and respect your choice."

"Mom, if..." Isla pursed her lips and looked at Alex. After hesitating for a few seconds, she gathered up her courage and continued, "I mean if, if I really get together with Alex, can you accept him as your son-in-law with your current relationship?"

"Silly child, isn't what Mom said straightforward?"

Xena was a little anxious. The reason why she deliberately turned a corner just now to hand over the choice to Isla and accepted Alex's proposal tactfully was that she wanted to save some face for herself. She was really embarrassed to admit that she was willing to accept Alex's son-in-law for the sake of money.

But Isla was too excited and thought that she had heard it wrong, so she wanted to confirm it again.

Hearing this, Cynthia became anxious and said to Isla, "What's going on? Why do I feel that you and Alex are weird today? Auntie means that no matter who you like, she won't object, including Alex. In other words, Auntie has agreed to your marriage."

"I see. Thank you, Mom!" Isla finally felt at ease. She grabbed Xena's hand and said excitedly, "Mom, don't worry. I will discipline him well in the future and ask him to be filial to you with me. If he doesn't listen to me, I... I will separate from him!"

Xena nodded repeatedly. "Okay, okay, okay. Mom knows that my Lala is the most filial..."

Cynthia found it incredible that Isla and Xena were snuggling together.

Who would have thought that this mother-daughter pair, who had a deep understanding of each other and were deeply touched, had once severed their mother-and-daughter relationship?

It was really a vast world!

Feeling Cynthia who had opened her eyes, she secretly sighed with emotion. She stood up in a daze, called Alex to the balcony, and gave him a thumbs-up without hesitation. “I thought you were crazy today. You talked big and talked nonsense. But now, I am convinced of your magical operation today...”

Alex smiled awkwardly. “At the beginning, I was indeed a little impulsive because I was angry. Fortunately, Vice President Xena is not an ordinary person and was not angered by me. Otherwise, when I woke up, I would definitely regret it. Let’s not talk about anything else; I think you and Isla will be disappointed with me.”

“I’m very curious. Why didn’t you change your mind and continue to propose after you woke up?”

“Because it’s hard to change people’s nature. In the past, I didn’t think Vice President Xena was easy to deal with, because I didn’t find the right way to deal with her. Since I found her seven inches, I’ve been grabbing her by the hand every time and holding her tightly...”

## **Super Son-In-Law Chapter 222 -**

Alex came here today just to talk to Isla and Cynthia about borrowing management staff, but he didn’t expect that he would suddenly propose marriage. However, Xena wanted the company and the villa. It was impossible for him to spoil Xena, but he couldn’t argue back directly. So he decided to show his financial resources and publicly expose his relationship with Isla to create a difficult problem for Xena.

He knew that for the sake of his sixty billion yuan, Xena would definitely agree to the marriage between him and Isla.

At that time, in order to climb up to Grand Express Corporation’s position, Xena had threatened Isla to marry Jared, the scumbag. Later, in order to get 50 million penalty fees from him, Xena asked Isla to have sex with him. From these two points, he made his judgment.

However, given the current relationship between Xena and him, she probably would not agree on the spot.

As a result, all the people present, including Alex, underestimated the thickness of Xena's skin...

The more Cynthia thought about it, the more incredulous she felt. She sighed again and said, You and your future mother-in-law are in such a stalemate, and you even succeeded in proposing marriage. If this matter is spread out, no one will believe it! Let alone outsiders, I, a person who knows the details, feel that it is unreal.

Alex just smiled and changed the topic. "Beauty Cynthia, how have you been with Hunter recently?"

"Ah? What do you mean? Isn't that all?"

"Well, in order to ensure your safety as much as possible, I will not only arrange for people to protect you, but also find someone who can understand and get along well with you. If you get along well with Hunter, I will let him continue to protect you. If you can't, I will change a person..."

"No need, no need. I think Hunter is a good person. We've been together for a while and we're familiar with each other. If something unexpected happens, we can discuss how to deal with it. If it's someone else, we have to be familiar with each other again. It may not be easy. If we don't like each other and don't cooperate at the critical moment, it will be troublesome."

"So, you have a good impression of Hunter?"

"Whether it's his professional ethics or character, he's not bad. Not only me, but Lala is also very satisfied with him. We've never treated him as a bodyguard, but as a friend. He's not as reserved as he was when he first came."

"In that case, let him continue to protect you..."

Alex and Isla combined Hunter and Cynthia to be together separately, and each of them was responsible for one. Hunter knew that both of them were helping him. Only Cynthia thought that only Isla was helping, but she didn't know that Alex was also involved.

At present, Alex didn't want to break this situation, so he didn't directly ask, but took action from the side.

At present, from the impression and attitude of Hunter and Cynthia to each other, the momentum was still quite good. As long as this momentum continued, it would not be

long before they would become lovers. Moreover, the chance of them finally being together was very high.

Alex's own marriage was basically settled, and Cynthia's progress was not bad.

This could be said to be a double joy.

Alex was in a good mood and decided to treat everyone to barbecue.

In order to maintain a good figure, Isla and Cynthia did not have the habit of having dinner at night, but today's situation was special. In addition, they had the urge to drink some wine, so they made an exception and agreed. In the alley less than two hundred meters away from the community, there were several barbecue restaurants. The five of them did not drive, but walked forward.

Cynthia was very familiar with this place. She chose a good barbecue restaurant and asked for a private room.

Under the repeated demands of Alex, Big Ken and Hunter also went to the table.

However, Big Ken and Hunter did not drink, and they were always on alert. They were still in work mode.

With their protection, Alex, Isla, and Cynthia had nothing to worry about. It was rare to have such an opportunity. The three of them, who had been suppressed for a long time, chatted happily for a long time. Although the three of them were in different situations, they had connections with each other. No matter what topic they talked about, they could chat together.

The reason why Alex spoke the most sincerely was that he had experienced too many changes and the relationship with Isla was bizarre. After several partings, they finally returned to the right track.

After going through the storm, the relationship between them became deeper and deeper. Without any confession or confirmation of their relationship, they came directly to propose marriage. To outsiders, this matter seemed to be very abrupt, but neither of them felt uncomfortable. Instead, they naturally accepted this unexpected fact.

It had been raining for a long time. Suddenly, the clouds were lifted and the sun was visible. This kind of carefree feeling was hard to describe.

Isla was in the same mood as Alex, but she was a little shy in addition to excitement.

From today onwards, she and Alex would be true lovers.

On the way to have barbecue, she began to think about a problem.

From a friend to a lover, the relationship changed, which meant that the way they got along would also change.

But she, who had never been in love, had no idea how to play the role of “girlfriend”.

Compared with Alex and Isla, Cynthia’s mood was not so complicated. She was not only excited but also excited. Isla was her best sister, and Alex was her good friend. The two of them could be together, except for the two parties involved, she was the happiest. Moreover, Alex and Isla could be together, and she was the first hero. Therefore, in addition to being happy, she had a great sense of achievement.

“When I retire, can I be used as a matchmaker?”

She felt that she had the potential to be a matchmaker, so she thought so.

Besides, she had never had a boyfriend since graduation. After so many years, she finally met a man she liked, Hunter. Although they had just known each other for a short time and they could only be considered friends at present, they got along very well and had a chance to develop further.

She was too embarrassed to say it out loud, but she was still very excited when she thought about it...

Happy times always passed quickly, and it was almost eleven o’clock in the blink of an eye.

The capacity of Isla and Cynthia to drink was very limited. They were a little dizzy after drinking several glasses of beer.

Alex paid the bill and helped Isla up. Then he winked at Hunter and said, “I’ll leave the beautiful Cynthia to you.”

“Huh?” Hunter was stunned and replied awkwardly, “Send her home?”

“Otherwise, where else do you want to take her?”

“Hehe, go home, send her home...”

Hunter smiled foolishly and helped Cynthia up. He imitated Alex’s behavior, grabbing Cynthia’s arm with one hand and holding her waist with the other, letting her lean against him. He whispered in her ear, “Beauty Cynthia, it’s time to go back. Hold my clothes and don’t fall.”

“Uh-huh...”

Cynthia's drinking capacity was better than Isla's, so in fact, she was not very dizzy.

The reason why she pretended to be unable to walk was to create an opportunity for herself to be close to happiness.

Seeing Alex and Isla together, she was no longer envious and a little anxious...

On the way back, Alex helped Isla to the front, followed by Hunter and Cynthia. Big Ken was at the back, keeping a high vigilance. From the moment he left the barbecue shop, Big Ken felt that something was wrong, as if he had been targeted.

After passing a crossroad, Big Ken finally saw something unusual. There was a black domestic car that had been following them all the time. It was about dozens of meters away, maintaining the same speed as them. A young man sitting in the passenger seat was holding a single-handed camera that added a long camera.

Seeing that the situation was not right, Big Ken inadvertently approached Alex and said softly, "Young Master, I'm afraid that we have to speed up. There are suspicious people on the right... Don't look back! The other party has been following us silently and doesn't seem to want to take action. Don't alert the enemy first."

"I see," Alex said and subconsciously quickened his pace.

After entering the community, Big Ken saw that the following car did not follow them in. He was a little relieved and said to Alex, "Young Master, you go up first. I'll wait at the door to see what's going on. By the way, don't go upstairs directly. Go around the community first. After entering the house, immediately close all the curtains. In order to be safe, it's best not to open the curtains during the day..."

## **Super Son-In-Law Chapter 223 -**

Alex did not dare to be careless. He remembered Big Ken's reminder and sent Isla home. He temporarily gave up the idea of leaving with a kiss. He closed the curtain and hurried downstairs to meet Big Ken at the gate. He asked anxiously, "What's going on now?"

Big Ken pointed to the road and said, "The car went straight there and didn't come back. If my guess is right, they were just here to step on the ground or to investigate. They didn't intend to take action. But next time, it's not certain."

"Then let Isla and the others live in another place as soon as possible?"

"That's for the best."

"I see."

Alex nodded and took Big Ken back to the car. He immediately took out his mobile phone and sent a WeChat message to Fang Chen.

People of different identities might have different ways to deal with the same problem. Ordinary people needed houses, so they weighed whether to rent or buy them based on their own economic strength. If they wanted to buy them, they needed to find the house source by themselves, or find acquaintances who sold houses to ask if there was a suitable house source.

As for Alex, he didn't want to rent a house at all. He could just buy it directly.

Anyway, he had nothing to do with the money in his card, so buying houses was just an investment. What's more, he contacted the son of the boss of the largest real estate enterprise in the city! His economic strength was not something that anyone could have. His connections were not something ordinary people could compare with.

On the way back to the villa area of South City, Alex had been thinking about two things. The first was to analyze and guess the identity of the stalker just now. Only when he knew the identity of the other party could he make a necessary decision. Otherwise, he could only constantly transfer and get into trouble.

Advertisement

The second problem was the house. In addition to solving the living problem of Isla and others, he also had to consider promising the betrothal gifts of Xena. If Wyatt Corporation had a suitable house source, it would be better to buy two more sets...

Unknowingly, Big Ken had driven the car to the entrance of the villa area in South City.

Alex inadvertently noticed that on the bulletin board next to the front door duty room, there was a sign of rent. He was suddenly interested. "Stop!"

Big Ken instantly became nervous and quickly stepped on the brake. "Young Master, what happened?"

"I'll go check the notice..."

Alex pointed at the bulletin board, got out of the car, and walked over quickly. He approached and looked at it carefully. When he learned that there were two adjacent villas selling in the villa area at the same time, he couldn't help but sigh. "Is this a gift specially prepared for me by God? God is too considerate!"

Big Ken also came over and frowned. "Why did someone suddenly sell a villa?"

“Who knows? I’ll know when I call...”

As Alex spoke, he took out his mobile phone and was ready to dial the number left on the notice.

At this time, the security guard on duty came over and said to them politely, “I’m sorry, but you can’t park the car at the door.”

“I’ll copy a phone number and leave right away.” Alex nodded to the security guard and asked casually, “Brother, I’ve been staying here for a while. I haven’t seen anyone selling villas before. Why are there two sets of them today?”

“I was still talking to my colleagues about this in the afternoon. I heard that two bosses from other cities failed to invest in the local area and were ready to go back to their hometown to develop.”

“I see. It sounds miserable.”

“Haha, for a big boss like you, it’s really miserable. But for ordinary people like us, a thin camel is bigger than a horse. Even if their investment fails and there is no harvest, just selling the villa can bring back millions of yuan, and they are still rich. By the way, I heard that the two bosses are shareholders of Qingyun Media. They are not simple...”

“What? A shareholder of Qingyun Media?”

“Yes! What’s wrong?”

“No... nothing.”

Alex shook his head and subconsciously withdrew his finger, which was ready to dial. He couldn’t help but think that if the former shareholder of Qingyun Media was selling a villa, he might not be able to buy it. After all, in the eyes of those shareholders, he was the main cause of their failure in investing.

This problem was easy to solve. He could ask someone to buy it for him.

The next morning, as soon as Alex got up, he received a phone call from Fang Chen. “I’m sorry, Mr. Alex. I slept early last night and my phone was muted. I didn’t see your WeChat message in time. Do you want to buy a house? Coincidentally, there are two villas sold in the villa area where you live.”

“I saw the notice,” Alex replied, “I heard that the owner of the two villas turned out to be a shareholder of Quill City Media.”

“That’s right. Originally, if someone wanted to sell the villa, we would try our best to buy it back and then sell it. As a result, the two of them recognized me and refused to sell it to me. After several rounds of negotiation, they insisted on selling it by themselves. By the way, Mr. Alex, if you want to buy it, you’d better not buy it in person.”

“I’m thinking about it. I’ll call a brother to help...”

After chatting with Fang Chen, Alex confirmed the news he heard from the security guard last night. He immediately called Felix and asked him to help buy the villa.

Felix readily agreed and got in touch with the seller. They made an appointment to meet at 11 o’clock in the morning to talk in detail.

At half past ten, Felix drove to the villa area and met Alex. They were discussing how to work separately and cooperate. Fang Chen also came over and added some information to them.

It turned out that the name of the person who sold the villa was Cao Zhenxing, and he lived in Villa B07.

The owner of B06 next door was Cao Zhenxing’s friend. He had left the city first and asked him to help sell it.

They turned out to be small shareholders of Qingyun Media. After the stock was sold, they agreed to go back to their hometown to develop, so they planned to sell the villa. Fang Chen knew their identities. When he proposed to buy the villa out of sympathy, he did not lower the price. Instead, he directly offered a genuine price that met the market price, which was six million yuan.

But Cao Zhenxing bore a grudge. Not only did he not appreciate it, but he also spoke rudely.

Fang Chen’s heart was burning with anger. He rushed over and wanted to discuss the price with Alex. Cao Zhenxing didn’t accept his kindness, but now he had a “evil” intention. His only purpose was to try his best to lower the price and never let Cao Zhenxing take any advantage!

Although it was a little boring, the three of them calmed down and started to think...

At 11:30, Cao Zhenxing called and said that he was the door of the villa.

According to the plan they had discussed, Felix replied that they were still on the way, but they should arrive on time at 11 o’clock according to the agreement and let Cao Zhenxing wait for a moment. Then, Alex and Fang Chen rushed over first and met Cao Zhenxing.

Cao Zhenxing felt disgusted when he saw Fang Chen. When he found that Alex was also there, his face immediately darkened. "What are you doing here? Did you call just now?"

Alex pretended to be surprised and asked, "What call?"

"It's good that you didn't call me. Tell me, why did you come to me?"

"I've heard from you that you want to sell a villa. I'll come and have a look. You know, I like investment. If the price is right, I'm willing to buy your villa. Last time we cooperated happily. I believe that we can also cooperate happily this time."

"Happy? What do you think? Alex, you'd better get out of here before I get angry!"

Cao Zhenxing's heart was twitching.

Alex's words were like salt on Cao Zhenxing's wound. Previously, he was in a hurry to make the shares in his hand in real life, so he gritted his teeth and agreed to give the shares to Alex. But now, when he was not worried about the villa being sold out, how could he cooperate with Alex again?

Alex pretended to be confused and asked, "What's going on? I took your shares and helped you stop losing. It's a kind intention. But according to your words, you don't seem to be happy. Do you want to repay kindness with revenge? Haven't you heard that a drop of water should be repaid with a spring?"

"Get lost! My villa can't be sold to you!"

"Then I can guarantee that your villa can't be sold!"

"Hiss... Alex, where did you get the confidence to do that? The man next to you doesn't dare to say that, does he?"

Cao Zhenxing was talking when he received a call from Felix. Knowing that Felix was coming soon, he hung up the phone and sneered at Alex. "Didn't you fucking say that my villa can't be sold out? Then I'll sell it out in front of you!"

## **Super Son-In-Law Chapter 224 -**

"Really? Then I'd like to see who dares to buy your villa!"

After Alex finished speaking, he and Fang Chen looked at each other. Both of them were very happy.

The first step of trapping Cao Zhenxing was basically successful.

Before long, Felix arrived. Pretending not to know Alex and Fang Chen, he followed Cao Zhenxing to see Villa B07. Then he came to the yard and said to Cao Zhenxing, “Is the pattern of Villa B06 the same as this villa?”

“Exactly the same,” Cao Zhenxing replied, “but there are some differences in decoration.”

“What kind of difference?”

Advertisement

“Well... how should I put it? The style is different. You have seen my villa with your own eyes. The style is relatively modern, which is in line with the taste of young people. You can move in directly. The decoration style of B06 is relatively retro. If you buy it, you will have to spend a certain amount of money to modify it. Moreover, from the beginning, I bought this villa for myself, and all the things bought at home are high-end goods. B06 was bought and invested by my friend. It didn't cost much money on decoration... So, you should understand.”

Hearing this, Alex frowned and interrupted, “Boss Cao, your friend trusts you so much and asked you to sell the villa on behalf of him, but you gave such an evaluation of his villa. Won't your conscience hurt?”

Cao Zhenxing blushed. He glared at Alex and said, “I allowed you to watch me sell houses, but I didn't allow you to interrupt!”

“Are you anxious? You feel guilty after being hit in the vital part by me, don't you?”

Advertisement

“Shut up!”

Cao Zhenxing was indeed a little anxious. He quickly said to Felix, “Ahem... little brother, don't listen to his nonsense. I'm just telling the truth. You're so young. I'm inclined to suggest you buy my villa so that you won't spend money wrongly. If the person who comes to see the house is old, I will recommend Villa B06. If you want to promote it, you must recommend the products most suitable for customers first.”

Felix shrugged. “Boss Cao, there's no need to explain. I don't care about this, but I never said that I just want to buy a villa.”

“Ah? Little brother, what do you mean...”

“As long as the price is right, I'll buy these two villas.”

"That's great! You're a straightforward person. If you sincerely want to buy two sets, then I won't lie. I'll give you a friendly price of 13 million yuan. It's only six million and five hundred thousand yuan. It's quite a bargain. If you don't believe me, you can ask around. In the entire villa area, no one is willing to sell the villa at this price except me."

Fang Chen laughed and said to Alex, "I remember that the villa I sold to you before only received five million yuan, didn't it?"

Alex understood and nodded in agreement. "Yes, five million!"

Felix pretended to be curious and asked, "Five million? Is that true?"

Advertisement

"That's for sure," Alex replied. "How about showing me my father's contract?"

Cao Zhenxing was excited again, but in the territory of Wyatt Corporation, he didn't dare to scold Fang Chen like how he scolded Alex just now. He replied with a red face, "Young Master Chen, you have a good relationship with Alex. You gave him a friendly price, which is half for sale. Can it be the same as my situation?"

Fang Chen replied casually, "The friendship price I gave you is true, but you just said that it's also a friendship price for this little brother. It's the same friendship price, why is there a gap of 1.5 million? Is the friendship in your eyes different from other people's understanding?"

Cao Zhenxing suddenly regretted having Alex and Fang Chen witness him selling houses. However, things had come to this point, so he had to bite the bullet and continue, "Young Master Chen, your family is in real estate. Don't you know that the price of the house won't change? On the contrary, the price of the house has changed a lot, almost at the same price every day. In addition, now I am talking business with this brother, so you can stop interrupting. You are all big bosses, or do what you want to do. Don't waste your time here."

"You're the one who invited us to witness your house sales. Are you driving us away now?"

"I... Forget it. You can stay here, but don't interfere with my sales."

Cao Zhenxing felt helpless. After speaking to Fang Chen, he quickly explained to Felix, "Little brother, don't listen to them. What I give you is indeed the most favorable price now. If we weren't in a hurry to get the money back, even if it was idle, my friends and I wouldn't sell villas."

Felix thought for a moment and replied, "I don't know how to judge your words. I can only believe my own judgment. These two villas, you can say 13 million yuan, I won't say 10 million yuan. Let's do it by 11 million yuan. What do you think?"

"No! We've lost out on this price."

"Forget it. Sorry to disturb you. Goodbye!"

"Alas... Little brother, don't leave in a hurry!" Cao Zhenxing quickly pulled Felix and said, "How about this? I'll let you pay me a little more and pay me 12 million yuan! This is definitely the price of bargain selling. To be honest, we spent so much money buying these two villas at that time. The decoration we made is for you!"

Hearing this, Alex and Fang Chen looked at each other subconsciously.

12 million was exactly the price that Fang Chen had mentioned before, which was also the most suitable price. It could basically be sold. However, Cao Zhenxing proposed the price at the beginning of the discussion. It was very likely that there was still room for him to continue to lower the price.

Felix also felt that it was about time. While waiting for Alex's further instructions, he pretended to be thinking. "Twelve million yuan... it's still out of my expectation. Boss Cao, at least give up a little more."

Alex was the first to say to Felix, "Young man, think about it. I took a fancy to these two villas first. Let's make it clear, I'm a vengeful person. If you insist on taking them, you will be my enemy. I hope that you won't ask for my help in the future..."

Fang Chen then said, "I also wanted to buy these two villas, but if you buy them, it's equivalent to robbing my business. In the future, if you live here, you should pay more attention..."

Felix pretended to be scared. He pulled Cao Zhenxing aside and said softly, "Mr. Cao, I'm sorry. I don't want to buy the villa anymore. I don't dare to buy it. By the way, I have to remind you that you'd better deal with those two people first. Otherwise, I'm afraid that you can't sell these two villas."

"No..." The situation that Cao Zhenxing was most worried about finally happened. He was so anxious that his forehead was sweating. "Little brother, don't be so timid. You can rest assured that they are actually scaring you. They won't really make trouble for you."

"It's easy to say. If they make trouble for me, are you responsible for it? I have to spend a lot of money to buy a house. In order to live here safely, I have to spend money to resolve their hatred for me. Time and effort are still needed. Instead of making it so troublesome, I might as well go to other villas."

Felix was about to leave as he spoke. "All right, Mr. Cao. Let's stop here. But if you can deal with them, you can contact me again."

Cao Zhenxing was helpless. If he could deal with Alex and Fang Chen, would he need to lower the price again and again?

He was shocked by what Felix had just said. It was rare for him to meet a potential buyer. He didn't want to miss it easily. He gritted his teeth and said, "If it really doesn't work, I'll give up a little more? I'll do as you say, 11 million? I'll give you one million as compensation."

Felix pondered for a moment and asked, "Are you sure?"

"I'm sure! But... you have to do me a small favor. The agreement can only write ten million yuan, five million yuan for one set."

"Then you can only give your friend five million, and you can take six million?"

"Don't get me wrong. I don't want to cheat my friends, but his house is indeed not as valuable as mine. But in order not to let him think too much, it's better not to let him know the price of the two villas is different. Otherwise, I may lose this friend of mine. This is also the only chance for us to make this deal."

"Well... then it's up to you."

Felix didn't care whether Cao Zhenxing cheated on his friends or not. It was the most important thing to save money for Alex and Cao Zhenxing.

In order to prevent Cao Zhenxing from going back on his word, Felix immediately signed the agreement and paid for it with the money that Alex had just transferred to him...

## **Super Son-In-Law Chapter 225 -**

Cao Zhenxing was in a hurry to sell the house and also in a hurry to "attack" Alex's face. He was even more afraid that Felix would go back on his word. Without any delay, he immediately went to the Real Estate Bureau to complete the transfer procedure as soon as possible and transferred the two villas to the name of Felix. Before three o'clock, all the procedures were completed.

The money for selling the house had already been transferred into the account.

Cao Zhenxing immediately called his friend who asked him to sell the house and explained the situation. Then he found Felix and reminded him again, "Little brother, if my friend contacts you and asks about the price, don't tell him the truth."

Felix touched his chin and said after thinking for a while, "How about this? Give me your friend's number and I'll call him when I have time to explain the situation. Although his villa is handed over to you for sale, in the final analysis, he sold it to me. We can't talk about it in detail. I should give him a call to explain the situation."

"Well... that's good, so that he won't be suspicious."

Cao Zhenxing didn't think much about it. He reported his friend's number to Felix, then went to the hall, found Alex and Fang Chen, and said proudly, "Alex, didn't you say that my villa can't be sold? Now my deal with my little brother has been officially reached. What else do you want to say?"

Alex and Fang Chen smiled at each other and replied, "Boss Cao, don't worry. I'll reply to you after I finish the formalities."

"Hmm? What... what are you going to do?"

"This is the Real Estate Management Bureau. Of course, we have to go through the transfer procedures."

"Aren't you here to join in the fun?"

Advertisement

"Do I have nothing to do, why am I here to join in the fun? What's more, what's there to do with you? You, on the other hand, can watch the fun." Seeing Felix coming over, Alex went up to him and said, "Do we need to line up?"

Felix shook his head and said, "I've informed the staff who just completed the formalities. There's no need to queue up. Just go there."

"Then hurry up. We can't waste his time."

Alex grinned and led Felix into the service hall again.

Cao Zhenxing was stunned and had an ominous feeling in his heart. He stared at Fang Chen in shock. "Master Chen, what's going on? Is it..."

Fang Chen spread out his hands. "Obviously, that's what you guessed. Boss Cao, do you know who Felix was, the one who bought your villa?"

"I don't know."

“Then let me tell you, Felix is the deputy general manager of Gold Stone. He has another identity, an old classmate of Alex. Well... to be exact, he is Alex’s brother. By the way, Gold Stone is also one of the industries controlled by Alex.”

“What? Felix and Alex... are they in cahoots?”

“You finally know. It’s a pity that it’s too late. After a long circle, your villa fell into the hands of Alex, and it was sold at a price lower than the market price. It’s not like I’m complaining. If you sold the villa to me earlier, you could have more than one million yuan. Isn’t that great?”

“I... I was fooled?”

Cao Zhenxing, who finally knew the truth, almost burst into tears. He was so angry that he lost his mind. He strode into the service hall and rushed to the window where Alex was. He shouted that he didn’t want to sell them and wanted to take back the two villas.

As a result, Cao Zhenxing was kicked away by Big Ken before he got close to Alex.

Then, two security guards rushed in, one on the left and the other on the right, controlling Cao Zhenxing tightly.

Even if the transfer procedure of the villa had not been completed, it was impossible for him to take back the villa.

Alex’s plan had been achieved. He did not take Cao Zhenxing seriously at all. He calmly completed the procedures and transferred the two villas from the name of Felix to his own. So, he became a person who held three top villas in the South City villa garden.

After that, Alex came to the duty room and waved the agreement that he had just signed to Cao Zhenxing. He said with a smile, “You could have sold the villa to me directly, but you insisted on making it so troublesome. Fortunately, you saved me a million yuan at once. I didn’t lose, but you are not as lucky as me...”

Cao Zhenxing was so angry that his face turned red and his neck became thick. He suddenly stood up and pretended to curse.

As a result, the security guard in charge of guarding Cao Zhenxing pressed him back before he opened his mouth. “Be honest!”

Seeing that Cao Zhenxing was like a wronged child, Alex couldn’t help laughing out loud and said to the security guard, “He has some personal grievances with me. He just rushed to me and didn’t mean to target you. I’m sorry to have troubled you.”

The security guard saw that Alex's attitude was not bad and that nothing had happened. He nodded and said to Cao Zhenxing, "For the sake of this little brother's position, I won't blame you this time. But you'd better remember that this is not a place to deal with personal grievances. If you dare to do it again, I promise I will send you to the police station!"

"Yes, yes, yes. I was impulsive just now. I promise there won't be a next time..."

Cao Zhenxing didn't want to get into any unnecessary trouble. He bowed to the security guards repeatedly, and then came outside. He instantly changed into a look of eating people and said to Alex fiercely, "Alex, what's the grudge between you and me? You first used dirty means to make me fail to invest, and then you used tricks to trap my villa. I'll remember this hatred!"

Alex frowned and said, "Boss Cao, I protected you. It's okay if you don't thank me, but you still want to remember my hatred? Sure enough, you don't have any gratitude at all..."

"Humph! You've tricked me several times, and you want me to thank you? Dream on!"

"Let me be honest with you. That I protected you isn't because I cared about you, but because I didn't want you to miss some important moments..."

"Hiss... what do you mean?"

Cao Zhenxing had already seen Alex's scheme. Although he didn't understand what Alex meant by "the most important moment", he still became nervous for no reason. He always felt that something bad would happen... It might have happened.

Seeing Felix coming over, Alex did not say anything more and turned to leave directly.

When Felix passed by Cao Zhenxing, he raised his hand and made a call gesture. He said with a smile, "Be careful to answer the phone."

"What's going on?"

Cao Zhenxing thought for a while and suddenly thought of a possibility.

At this moment, his cell phone rang. It was the friend who asked him to sell the villa on his behalf.

His heart jumped to his throat in an instant. He took a deep breath and picked up the phone. Before he could speak, his friend's voice came from the other end of the phone. "Cao Zhenxing, did you fucking fall into money, or was your conscience eaten by a dog? I treated you as a friend and brother, so I trusted you. But you actually cheated on my money?"

Hearing this, Cao Zhenxing knew what was going on. Felix must have called his friend secretly.

The situation that he was most worried about had finally happened...

In stark contrast with Cao Zhenxing, who was angry, annoyed, and anxious with sweat all over his head, Alex was excitedly clapping hands with Fang Chen and Felix beside the car. This time, not only did he successfully buy two villas, but he also saved a lot of money. At least, he didn't need to pay for the modification of two villas.

Fang Chen and Felix still had something to do, so they went back first.

When Alex returned to the car, he immediately called Isla and asked Isla to take Cynthia and Xena to the South City villa to have a look. He planned to give the newly bought villa to Xena as a betrothal gift, so that the villa he lived in now would not be given out.

Now that Isla and Alex had established a romantic relationship, she was no longer as reserved as before and agreed readily. Before she got off work, she rushed to the villa area with Xena and Cynthia to meet Alex. Then, they went to see the two villas B06 and B07.

Isla didn't express any opinions. After listening to Xena's opinion, she chose Villa B07. Because the decoration style of this villa was similar to the villa she used to live in. Moreover, because the previous owner didn't live much, the interior of the villa seemed to be updated to B06.

Alex had no objection. He immediately called Old Sid over and asked him to modify the villa according to Xena's idea.

While they were busy, outside the villa, in a black glass commercial vehicle, Pei Chong stared at Alex through the telescope and said to his subordinates in a low voice, "We can't let him jump anymore. Let's do it tonight..."

## **Super Son-In-Law Chapter 226 -**

Alex still didn't know that danger was coming, so he waited patiently at the door of Villa B07.

Since Big Ken was followed last night, he had raised his vigilance again, but that was all. It was just that his awareness of defense had been strengthened, and he did not have the ability to accurately predict the danger...

At about seven o'clock, Xena finally finished telling Old Sid the requirements for modification.

Alex called everyone present and asked Felix and Fang Chen to have dinner together. On the way to the restaurant, he called Old Sid to the car and talked about the decoration.

Old Sid was professional in decoration. He had been working in the decoration industry for more than ten years from an apprentice to a foreman. He was experienced. Just now, he had remembered all the requirements of Xena. After weighing them for a moment, he was relieved and said to Alex, "Mr. Alex, Vice President Xena proposed small-scale changes. They can be completed in three days or five days."

"The sooner the better!"

Advertisement

Alex nodded. When they arrived at the private room reserved at the restaurant and sat down, he said to Xena and Isla, "Are you sure you have no other requirements? Time is pressing. In order to let you move here as soon as possible, we have to set the modified plan today. We can't change the following plans."

Xena said calmly, "I don't have high requirements for living conditions. I just want to fulfill all the requirements I just proposed. When the modification is done, we will move over. If we find a new place to be modified, I will think of other ways."

Isla shook her head. "I have no objection."

"Okay. The modification is settled. Old Sid, cut in line with this project and need to be completed in a hurry. I won't ask what materials and how to modify it. Remember all the expenses. When it's completed, I'll transfer them to you at once."

"Okay, Mr. Alex."

Old Sid agreed without hesitation.

However, Xena was a little dumbfounded and confused. "Alex, why didn't you tell me earlier that you will pay for the decoration?"

Alex was also puzzled. "Vice President Xena, is there any difference?"

"The difference is too big!"

"No... Why am I getting more and more confused?"

Xena had thought that she would have to pay for the modification by herself, so she endured it again and again when she made the request. She felt that she had spent a

little more money, so she did not say it out loud. She only proposed a bunch of small details that she really did not like. The work was small, and the cost was very low. If she had known earlier that the modified money was paid by Alex, there would not be necessary to watch any modification at all. She did not even need to look at the original decoration. She could have planned the renovation plan completely according to her own thoughts.

But now, so many people were watching.

Other people were fine, but Fang Chen was also there.

Xena was too embarrassed to lose face in front of a big shot, so she waved her hand and said, "It's okay, it's okay..."

Alex did not ask any more questions. He continued to follow his own thoughts and said, "Isla, the current situation is special. When the villa is finished, you will move over immediately. Cynthia beauty, you can cancel the rented house and come to live with them. There are many acquaintances here. It's livelier and you can take care of each other."

Cynthia was stunned. "Forget it. I'm used to living there."

"If you are not used to living with others, you can live by yourself. Anyway, I still have an empty villa."

"It's not that I'm not used to it, I..."

Cynthia was thin-skinned and had accepted Alex's precious gift. She was sorry to bother Alex again and did not want to bother Xena.

However, it was hard to refuse his kindness, so she felt a little embarrassed for a while.

At this time, Isla took over the conversation, took Cynthia's arm, and said, "You can come over and live with us first. When you need a private space, you can go out to find a house at any time. There is a big neighborhood opposite the villa area, and you are not afraid that you can't find a house. Let's talk about it first. If you don't agree, I will not move in."

Cynthia pondered for a moment, then gritted her teeth and said, "Then I'll listen to you..."

After the meal, because there was no further arrangement, the people of all sides separated at the entrance of the restaurant.

Before leaving, Big Ken called Hunter aside and whispered, "The enemies lurking in the dark will take action sooner or later unless they are caught. Originally, the enemies didn't show up, but they suddenly appeared last night. I always feel that the enemies can't sit still. Then, the people we protect may be in danger at any time, especially in the dark and windy night."

Hunter nodded heavily. "I know, Brother Big Ken. I will be on my guard."

"Okay!"

Big Ken patted Hunter on the shoulder, turned around, got on the Lamborghini, and drove Alex to the villa area of South City Villa.

When they reached the edge of the city and were only a few kilometers away from the villa area, a dazzling white light suddenly hit the rearview mirror. Big Ken stared at the rearview mirror with wide eyes and said subconsciously, "Young Master, we may be targeted again!"

"Be careful!"

Alex was also about to look at the rearview mirror when he suddenly found that there was also a car in front of him that had turned on the headlights. The dazzling white light shone over, and the road track of the white light ahead was so vast that he couldn't see clearly. What was worse, judging from the path of the white light, it was still coming straight in this direction. It seemed that it should be a lane in the opposite direction, which went against the rules and entered this side!

Big Ken's nerves tensed up in an instant, but he was not absent-minded. He quickly slowed down and drove to the side, turning into a one-way path.

Alex had been staring at the white light in front and back, entering the path and leaving the shooting range of the white light. Only then did he vaguely see that there was a black car in front and behind at a very fast speed. The two cars did not stop, but turned into the path with his Lamborghini.

It was obvious that they came with ill intentions!

Just as Big Ken expected, the enemy lurking in the dark finally took action.

Alex had experienced this kind of scene several times, but he was still very nervous. He quickly took out his mobile phone and sent a warning to the brothers, asking the nearby brothers to come and help. Big Ken drove with one hand and held his mobile phone with the other hand. He called Group Leader Pang of the Municipal Bureau for help.

After the phone call, Big Ken asked Alex to take out two bulletproof vests from a bag in the back row. In case of accidents, both of them quickly put on the bulletproof vests close to each other.

As soon as he changed his clothes, Big Ken quickly stepped on the brake, looked at the few small buildings in front of him, and said, "No, there is no road ahead!"

"Fuck!"

Alex was already nervous, but when he encountered such an accident, he couldn't help swearing.

He looked around carefully and found that there were a few families here, and the path was only connected here!

Before they could find a way out, the two cars rushed over and arrived in front of them in the blink of an eye. Just as Alex was about to get out of the car and walk away, his cell phone rang. Seeing that it was Isla calling, his heart suddenly trembled. He quickly picked up the phone and asked eagerly, "What's wrong?"

Isla's anxious voice came from the receiver. "We're being followed!"

"What? You're being followed? Where are you?"

"We're almost at the gate of the villa!"

"Then hurry up and call the police. Tell them that you've met gangsters. Tell them to be serious. I... I'll come as soon as possible!"

Alex's heart was about to jump out of his throat. He wanted to say that he would be there soon, but the two cars following them had already arrived in front of him, so he couldn't get out of it in a short time. Although he was anxious, he could only solve the trouble here first. As for Isla, he could only count on Hunter.

Since both sides were being followed at the same time, it meant that the enemy was well-prepared and must have been carefully planned.

This also meant that they encountered great trouble this time.

The more Alex thought about it, the more anxious he became. He subconsciously took out the cane.

Realizing the seriousness of the problem, Big Ken took out a gun and handed it to Alex. "Young Master, take this. But the opponent may also have guns. If the gun fight is triggered, the consequences will be unpredictable. So don't show it first. Let's see what will happen first. Use it at the critical moment!"

Alex nodded. "Okay... What about you?"

"I don't need this! What if I need... There is a sniper rifle in the trunk."

While Big Ken and Alex were talking, the other side's two cars stopped. Six men got out of the cars and came over.

The leader was a strong man wearing a mask. He knocked on the window of Big Ken and stared at him. He said in a commanding tone, "Get out of the car!"

Big Ken did not get out of the car. He asked through the glass, "Who are you?"

"Don't worry about that. Get out of the car!"

"Unless you show your identity and purpose first, or we won't get out of the car!"

"Look at how capable you are! Do you think I can do nothing to you without you getting out of the car?"

The strong man glared and turned to whisper a few words to a follower beside him.

After hearing this, the attendant immediately returned to the car, started the car, slammed the accelerator, and hit the Lamborghini directly. With a bang, the rear end of the Lamborghini was deformed. The damage of the black car was even more serious. The engine lid was knocked, but it could still drive.

Then, the attendant got out of the car and crashed into it again.

Big Ken realized that it was not a good idea to keep hitting like this. If the glass of the car was shattered, the bulletproof measures would be ineffective. More importantly, if the car was broken, it would be impossible to get out of here quickly even if they were out of danger.

After some consideration, Big Ken made a decision. He opened the door and got out of the car, but was immediately blocked by the enemy.

The strong man stared at Alex again and said coldly, "What are you waiting for? Get out of the car!"

Alex knew that he couldn't hide, so he got out of the car from the other side and quickly ran over to stand with Big Ken. He stared at the six people on the other side carefully one by one, but he didn't see any familiar faces, so he said to the strong man, "Now that we are out of the car, you should show your identity, right?"

“You’ll know in a while! I’ll remind you first. The task I’ve received is to take you back. Therefore, as long as you two cooperate, I won’t hurt you. But if you dare to play tricks, humph... then don’t blame me!”

As the strong man spoke, he took out a pistol from his waist and pointed to the car, saying, “Go there!”

Alex and Big Ken looked at each other and took a step at the same time.

The moment they confirmed that the opponent had a gun, their hearts were hanging. However, the good news was that the strong man’s task seemed to be to catch them alive. That was to say, unless there was no other way, the strong man would not kill them. Even if he had a gun, he would not shoot easily.

Now that they were surrounded and monitored by his opponent, they could not communicate, so they could only communicate with their eyes.

In less than 30 seconds, they arrived in front of the intact car.

The strong man asked a follower to fetch the rope and instructed, “Find out what they are carrying, and then tie up their hands and feet!”

Hearing this, Alex and Big Ken looked at each other again.

The next second, the two of them took action at the same time.

If they were searched, their guns and bulletproof suits would be discovered.

These two were their life-saving talismans!

In order not to be too passive, they had to take action first.

The strong man did not expect that the surrounded Alex and Big Ken would dare to attack first. He widened his eyes in shock and shouted angrily, “Take them down! Remember, catch them alive!”

Hearing this, Alex was secretly delighted.

He had made the right move!

However, before Alex was happy for a few seconds, he encountered a very difficult problem. The opponents he faced today were not ordinary people, but top masters. Not to mention him, even Big Ken couldn’t end the battle quickly. This was the first time that he had seen such a situation...

## **Super Son-In-Law Chapter 227 -**

Alex knew what he was capable of. In the case that Big Ken couldn't defeat his opponent quickly, he had no chance of winning at all. He didn't know when the helpers would arrive, and now he could only rely on himself. This made him and Big Ken in an extremely dangerous situation.

They had to think of a good way; otherwise they might not be able to hold on until the arrival of the helpers.

Bang!

While Alex was thinking about it, he suddenly suffered a heavy blow in his lower abdomen and fell backward straight.

After a short period of contact, he had already noticed that the three opponents who were besieging him were not ordinary people, but one of them had the most outstanding combat capability and was a top master. Now he was sent flying by the top master's kick.

After landing on the ground, he fell to the ground and was hit on the back of the pistol. The intense pain went straight to the depths of his mind, which made him feel absent-minded and a little confused. He had experienced a lot and knew clearly that the more critical the situation was, the more sober his mind should be.

Advertisement

Otherwise, he could only be trampled upon by others!

Alex clenched his teeth, shook his head with all his strength, and forced himself to calm down. He noticed that the three opponents were all rushing over, and quickly rolled to the side with his hands. He avoided the attacks of the opponents, and then climbed up. During this process, he also grabbed the pistol in his hand. The bullet was loaded, and he raised his hand to fire two shots.

With two "bang bang" sounds, one bullet missed the target and made a hole on the ground. The other bullet hit the opponent's waist. The man was hit on the spot and could not get up in a short time. Unfortunately, the reaction speed of the top master was very fast. He dodged in time and was not shot.

Alex unexpectedly lit up his gun and decisively fired it, catching the opponents off guard and giving them a chance to breathe. However, considering that the opponent also had a gun, he did not dare to relax at all. He quickly turned the muzzle and aimed at the top master, roaring, "Don't move! Don't move if you don't want to die!"

Advertisement

The top masters knew that Alex was not joking, so they quickly raised their hands, ready to take out their guns.

On the other side, when Big Ken heard the gunshot, he realized that something was wrong.

Sure enough, the strong man who led two followers to besiege Big Ken also took out his pistol.

If the hand-to-hand combat turned into a spear battle, the situation would suddenly improve, and the danger level of both sides would be greatly increased.

What Big Ken was most worried about wasn't his own safety, but he didn't want Alex to be in a more dangerous situation. In order to avoid the gun fight, he quickly controlled an opponent and put his neck in front of him, so that the strong man wouldn't dare to shoot easily.

As long as he could form a stalemate with his opponent, he could win more time.

Alex saw that Big Ken and the strong man were also confronting each other. Without any worries, he bravely approached the opponent who was lying on the ground. He raised his gun with one hand and aimed at the top master. He began to fumble around the opponent with the other hand and found that there was no gun on this person.

It seemed that not all six opponents had guns, which was good news.

Alex suddenly thought that if all the opponents had guns, they would take them out after he showed the guns. If his guess was right, among the six opponents, only the top master and the strong man had guns. The other four people were relatively weaker, but they had little followers and did not have guns!

Advertisement

Just when Alex was hesitating whether to take away the guns from the top master, he suddenly heard the siren!

Finally, reinforcements arrived!

Alex was overjoyed. He quickly ran to the front of Big Ken and stood back to back with Big Ken.

The opponents all panicked. Except for the one who couldn't get up and the one who was controlled by Big Ken, the other four opponents also gathered together. Today's action was supposed to be a sure one, but there was a mistake. In the plan of the

strong man, the person in charge of this task should have completed the task on the road.

Big Ken's psychological quality was good. He didn't make a mistake in a hurry and successfully resolved the danger of being chased.

After arriving here, Alex showed his gun and the current siren, which were also unexpected for the strong man. It was the continuous accidents that blocked the strong man's task and put him in a dilemma. If he retreated now, he was really unwilling. But if he didn't leave, he couldn't leave when the police came.

After a brief discussion with his companions, the strong man took out his mobile phone and made a phone call. Then he made up his mind and said to his companions, "Retreat now!"

After that, the four turned around and ran away.

Knowing that they would run into the police car head-on, they did not drive, nor did they pay attention to their two temporary companions.

Big Ken took the gun from Alex and fired several shots at the escaping opponents.

Although Big Ken's marksmanship was very good, the accuracy of the pistol was several levels lower than that of the sniper rifle. In addition, the opponents rushed into the dark slope, so he couldn't see clearly. After the first round of bullets, only two opponents were knocked down. The two most powerful ones, the strong man and the top master, disappeared at the end of their sight.

About two minutes later, the police officer led by team leader Pang arrived at the scene.

After knowing the situation from Alex and Big Ken, Captain Pang immediately sent someone to chase after the strong man and the other two. Then, he arranged the police to arrest the three opponents who failed to escape. The two who were shot had to be sent to the hospital and the interrogation had to be carried out in the hospital.

Fortunately, there was another one who was not seriously injured. He could directly take him back to the Municipal Bureau for interrogation overnight.

Alex was relieved of the danger, but he couldn't be happy. He immediately dialed Hunter's number, but no one answered. He quickly dialed Isla's number and finally answered. He heard Isla's crying voice, "Our car was intercepted at the gate of the community. Hunter is negotiating with the other party..."

"What? Then you and Cynthia stay in the car and lock the doors and windows. Don't get out of the car!"

Alex's heart was in his throat. After giving some instructions, he hung up the phone and said to Group Leader Pang, "My friends are in danger. We must save them immediately!"

Captain Pang frowned and said, "Lead the way!"

Alex quickly got in the car and told Big Ken what Isla had just said on the phone. Then he added, "I was confused just now. The number of enemies was the absolute advantage, and the number of guns was more than ours. They actually escaped before the police arrived. Now I understand that catching us is only one of their tasks. It doesn't matter if we fail. As long as they catch Isla, it's no different from catching me directly!"

Big Ken nodded. "Young Master, didn't you call for help just now? Tell them to change the direction quickly."

"Yes, yes..."

Alex was suddenly enlightened and quickly called Ma Zhiyuan. The danger on their side had been resolved, so there was no need for Ma Zhiyuan's helpers to run here. They rushed directly to Isla and might be able to support them before they arrived.

As for Alex, he could not help now. The only thing he could do was to pray that Isla could also overcome the danger...

At this time, Isla was sitting in the passenger seat of her Maserati, and Cynthia and Xena were sitting in the back row. The three of them looked very serious, staring at Hunter who was standing in front of the car and confronting several opponents. Before Hunter got out of the car, he said the same words to them as Alex, telling them not to get out of the car.

Of course, even if no one said it, they did not dare to go down now.

Because Maserati was blocked by two domestic cars, the distance between the front and the back was less than 30 centimeters, and it was blocked tightly. Moreover, on both sides of the car, there was a young man with a mask on his face guarding it. If the door was closed and they could not open it from the outside, they would have been dragged down long ago.

The more Xena looked at it, the more anxious she became. She said with a sullen face, "Are those people the enemies of Alex? We are also implicated by him!"

"Mom, now is not the time to talk about this..."

Isla turned around and was about to explain to Xena.

Cynthia's eyes suddenly widened. "Oh no, they're fighting!"

“Ah?”

Isla looked up again and found that Hunter was fighting with someone.

More importantly, Isla saw in the rearview mirror that someone took out a big hammer from the trunk of the car from the back and quickly walked over. It was about to break in!

## Super Son-In-Law Chapter 228 -

“It’s over!”

Isla guessed what the man with the hammer was going to do, and her heart immediately went cold.

Seeing this scene, Hunter’s face turned pale with fear. He knew that the Maserati’s glass had been changed. It could be bullet-proof, but it couldn’t withstand the hammer’s strikes! Even if it could withstand one or two strikes, it couldn’t withstand the big hammer’s thump. Not to mention the glass, even the iron sheets couldn’t withstand it so much.

Now it was time for Isla and Cynthia to urgently need help, but Hunter was surrounded by four or five opponents, and two of them were top masters. It was difficult for him to resist and he couldn’t retreat at all. Even if he was willing to risk his life to help, the opponents would definitely not let him get what he wanted.

Having analyzed this point, Hunter still ran to Maserati without hesitation.

But the next second, he suffered a heavy blow and was kicked to the ground.

He endured the sharp pain and got up to continue fighting, trying to rush out of the encirclement. He had tried his best, but there were some things that could not be achieved by working hard. Just like now, the opponent’s fighting capacity was not bad, and he had guessed his intention. How could he let him achieve his goal when he could stop him?

Soon, the situation that he didn’t want to see the most happened.

With a bang, the person holding the hammer in both hands swung the hammer with all his strength and smashed it on the window of the Maserati’s co-pilot seat. The glass was not broken, nor did it fall off, but there was a crack on the glass. Then came the second and the third.

The man with the hammer smashed fiercely, showing a posture that he would not stop until the glass was smashed.

Isla was so scared that her soul was almost gone. Every time the hammer hit, her whole body and heart would tremble. She climbed to the driver's seat with fear, clutched the back of the seat tightly, and looked at Cynthia and Xena, who were also nervous and afraid that they could not speak, and wanted to ask what to do.

But on second thought, since both Alex and Hunter were not there, she was the backbone.

Therefore, after asking Cynthia and Xena to stabilize themselves, Isla braced herself and said, "Mom, Cynthia, don't worry. The glass of this car should have been changed by Alex. They can't smash it. Besides, I have called Alex and called the police. Someone will come to save us soon!"

Xena said eagerly, "Then hurry up and call!"

"Okay, okay, I'll call right now!"

Isla quickly took out her mobile phone.

Cynthia did not respond and kept observing the glass smashed by the hammer. She guessed that Isla was pretending to be calm. She knew that some glass was made of composite materials, and the hardness was very high. For example, the glass used by the glass warehouse could not be smashed by the hammer. However, the glass was very thick, and the glass on the window was less than one finger thick, so it was impossible for it to withstand the continuous strikes.

In other words, the replaced glass could not bring 100 percent safety.

In addition to worrying about the safety of the three people in the car, Cynthia also cared about the safety of Hunter. The current situation of Hunter was the same as the glass of this car. Hunter had a high fighting capacity, strong strength, and could fight against the opponent. But if they continued to fight, he would be at a disadvantage.

As she thought about this, Cynthia's eyes suddenly widened, eyes about to roll out. It was because she saw a hole appear on the glass that had been smashed by the hammer many times! Along with the glass that was pierced through, there was also the last safety barrier of the three of them!

If the glass was smashed, it meant that the breakthrough point had been opened, and the next step would be simple.

In less than a minute, the glass was almost smashed into half. The person in charge of smashing the glass put down the hammer, reached his hand into the car, and was ready to open the door.

Cynthia and Xena were so scared that they snuggled tightly together.

Isla, who was talking to Alex, was also scared out of her wits. In a hurry, she suddenly raised her foot and pressed the hand that was about to open the door against the car door. She quickly exerted all her strength and stepped on it again.

“Ah... My hand!”

The man felt the pain and quickly withdrew his hand. He glared at Isla and gnashed his teeth. “Bitch, how dare you kick me? You’re courting death!”

After that, the man took out a gun and was about to shoot Isla.

At this moment, another man with a mask rushed over, grabbed the gun, and lifted it into the car. He aimed at Isla and said, “You’d better behave yourself, or none of you will survive! We caught you to deal with Alex. If you cooperate obediently, maybe you can save your lives!”

Hearing this, Xena confirmed her guess and once again felt endless hatred for Alex. But now it was not the time to discuss it. She replied quickly, “Let’s cooperate, 100%! As long as you don’t hurt us, we can help you deal with Alex!”

“That’s for the best! But it’s useless to just say it. If you want to save your lives, you have to find an opportunity to make contributions!”

“Don’t worry, if there is an opportunity to make contributions, we will definitely seize it. Lala, don’t act recklessly!”

Xena was self-righteous and used her own thoughts to represent Isla and Cynthia.

Isla did not intend to cooperate with the opponent to deal with Alex, but she was scared by the black muzzle and did not dare to move.

Without Isla’s obstruction, the door of the passenger seat was opened.

Then, the rest of the car doors were opened, and the three of them were pulled down brutally.

Among the opponents, a thin man and an expert were responsible for this mission.

The skinny man, who was participating in the siege of Hunter, saw Isla and the other two being captured and quickly pushed out the battle to run over. He stared fiercely at the three of them and suddenly waved his hand, saying, "Take them away and guard them closely. They are absolutely not allowed to escape. This is a death order!"

"Yes!"

A few of his lackeys got the order and dragged Isla to the back of the car in front of them. They tied Isla's hands and feet up, and there was a guard on both sides. Cynthia and Xena were taken to the back car, and they were also tightly guarded.

The skinny man sat in the passenger seat of the car in front of him and shouted at his followers who were still besieging Hunter, "Kill him, and retreat now!"

Since the two cars were full, it was destined that they could not take away all their followers. In addition, the thin man was in a hurry to go back to report. In order to prevent too many things from happening, he closed the car door after giving the order and let the driver speed away.

The car behind him followed closely behind.

The remaining two people from Hunter were dumbfounded. The situation was not within their plan, so they did not plan to walk out of the scene in advance. Thinking that the police might be coming soon, they put themselves in the first place in a hurry, so they had no scruples. In front of the onlookers, one showed his short knife, and the other took out his gun, ready to kill Hunter.

As for Hunter, after the thin man got rid of the battle, the pressure was reduced a little, and he could resist. Before the opponent with the gun fired, he took the short knife from the other opponent's hand and slashed at the right arm of the opponent with the spear. The man was in pain, and the gun almost slipped out of his hand.

Their opponents did not expect Hunter to be so capable. They looked at each other and chose to ignore the order issued by the thin man before they left. Then, they turned around and ran away.

Hunter quickly got on the Maserati and took out his gun. Seeing that the two opponents had run far away, he was too lazy to chase after them. He immediately drove to the direction where Isla and others were taken away. At the same time, he took out his mobile phone and reported the situation to Alex.

The Maserati's performance was amazing. It caught up with the two target cars in minutes.

But then, a new problem arose.

Knowing that Hunter had caught up, the thin man changed his plan again. At a fork in the road, the two cars separated in the opposite direction.

Now Hunter was in a dilemma.

No matter how strong his combat capability was, no matter how fast the car drove, in this case, he could only chase one car. The people in the other car would definitely be taken away. On one side, it was Isla, whom Alex had instructed him to focus on protecting, and on the other side, it was the mother of Isla and his beloved Cynthia, who he had to do his best to protect.

Obviously, this was a very difficult choice...

If it were an ordinary person, they would most likely choose to give up Isla.

Because there were two people in the other car. Two lives were more valuable than one life, weren't they? What's more, one of them was a person who he was pursuing. Although this choice was mixed with selfishness, even if the employer asked, it could barely make sense. If it really didn't work, it could be said that he had chosen casually at that time and didn't know who was in the car.

However, Hunter was not an ordinary person.

After thinking for a while, he gritted his teeth and made up his mind to give up his Cynthia and Xena.

Although he was not a soldier, he had received regular training since he was a child. Like a soldier, obeying orders was his duty. Saving Isla was the best choice for Alex. If he chose to save Cynthia, he could not explain it to Alex, nor could he overcome the obstacles in his heart.

Although giving up Cynthia was also very guilty, he made the right choice at an urgent moment.

If he hadn't paid attention to the license plates of the two cars just now, he wouldn't be so entangled now...

Hunter forced himself to make a choice first, and then he calmed down through taking a deep breath, and then concentrated on driving. After less than five minutes, he saw that the target car was about to get on the high bridge. He seized the opportunity and slammed into it, making the target car lose control and hit a stone block at the entrance of the high bridge. He bumped into it again and firmly resisted the front of the target car.

Finally, the target car was stopped.

Hunter quickly got out of the car and rushed to the target car. The opponents were all injured in the process of the collision, and they hadn't reacted yet. He didn't hesitate at all. He fired four shots in succession and disabled all the four opponents, including the thin man. As for whether those people could survive or not, it depended on their luck.

He didn't want to kill so many people, but the situation was urgent. He couldn't care so much and could only shoot decisively.

If the opponent reacted, then with Isla as a hostage, he would fall into a passive position and miss the opportunity to save her.

After dealing with all the opponents, he opened the car door and helped Isla out. Seeing that there was blood on Isla's forehead, he directly took her into the car. "Boss Isla, sit down. I'll take you to the hospital right now!"

"No!" Isla suddenly calmed down, shook her head, and said, "I just knocked my head a few times. It's not life-threatening. I'm not in a hurry to go to the hospital. My mother and Cynthia are the most important. Listen to me, go back quickly!"

"It's too late! This car is very fast, but it has been ten minutes. I don't know the escape route of the opponent, so I can't catch up with it."

"What should we do?"

"There is no good way at the moment. We can only take it one step at a time. However, don't worry too much. The opponent took them away to deal with the young master. They will definitely contact the young master. At that time, we will seize the opportunity to rescue them!"

Hunter also wanted to save Cynthia. Now his heart was bleeding.

However, reality did not allow it.

He was doomed to be unable to save Cynthia and Xena in time. What he needed to do now was to take Isla to the hospital for medical treatment. Giving up Cynthia was already a torture for him. If something happened to Isla again, all his efforts today would be in vain. He would definitely feel guilty for the rest of his life...

## **Super Son-In-Law Chapter 229 -**

Alex was still on the way when he received a call from Cynthia. When he learned that Cynthia and Xena had been taken away, and that Isla had been rescued but had been injured, his heart was immediately filled with anxiety. Fear, worry, and other emotions intertwined together, causing his mind to be muddled and buzzing.

When the mobile phone was turned on, Big Ken also heard the report from Alex. He was as worried as Alex, but he still kept his mind clear. After inquiring about the details from Big Ken, he immediately reported the new destination to Ma Zhiyuan and the other helpers on the phone. Then he came to the intersection of the car where Cynthia and Xena took.

Ma Zhiyuan, Xie Laosi, and Xiong Da and Xiong Er brothers also rushed here. The three groups of people would meet.

Big Ken introduced the situation reported by Hunter to everyone.

Alex finally came to his senses. Following Big Ken's words, he said to Group Leader Pang, "Although we know the vehicles and license plates, we can only search blindly. It's like finding a needle in a haystack. Group Leader Pang, I'm afraid that the task of tracking the target car will only trouble you police."

"No problem!"

Group Leader Pang nodded. After thinking for a while, he began to assign tasks to his subordinates.

The first task was to contact the traffic management department to transfer surveillance cameras and track down the target vehicles. The second task was to help Hunter deal with the aftermath. He had to pull away the car at the junction of the high bridge as soon as possible and the people on the car. The third task was to arrange competent people to prepare for the rescue of the two people. The fourth task was to interrogate the four people who were caught just now and try to confirm the identities of those people as soon as possible.

The four tasks were carried out one after another, and it required a large number of people to complete them at the same time.

In consideration of the lack of manpower in his team, Group Leader Pang borrowed some helpers from the team.

While Captain Pang was busy with his work, Alex was not idle. He called Ma Zhiyuan and the other brothers to the side of the car and ordered, "Send as many people as possible to search the whole city for suspicious people and prepare to support me at any time. In case the kidnappers contacted me before they were found by the police. In order to prevent the kidnappers from tearing the tickets, we can't count on the police and can only rely on our own strength to save people!"

Xie Laosi nodded without hesitation. "Okay, Mr. Alex. I'll arrange it right away!"

Ma Zhiyuan thought for a moment and replied, "Alex, most of the kidnapers are here for you. The most in danger thing now is not the two hostages, but you! At least, before the task of the kidnapers is completed, you won't be easily hurt and threatened."

Alex waved his hand and said, "That being said, we can't just wait. That will be too passive. If we can find the kidnapers before they contact me, we can take the initiative and get a certain initiative. It will be easier to save them."

"You're mistaken. I'm not saying that we won't do anything, but that I'll strengthen my protection for you while I'm preparing. How about this, I'll act according to the plan and let Xiong Da and Xiong Er follow you... Brother Big Ken, don't think too much. I don't think that you can't protect Alex alone, but the situation is special. That will be better if there are more people."

Big Ken waved his hand and said, "I think your suggestion makes sense. It's good for Xiong Da and Xiong Er to follow us. If something unexpected happens, I may not be able to handle it by myself. Young Master, why don't you accept the advice of Brother Zhiyuan?"

Alex knew that it was not the right time to be pretentious. For the sake of the overall situation, he decisively agreed. "Let's do as you say. Brother Yuan, Xie Laosi, we can't wait any longer. You should take action immediately. I have to go to the hospital. If there is anything wrong, report it to me in time."

Ma Zhiyuan and Xie Laosi nodded at the same time and drove away quickly.

Alex, accompanied by Big Ken, Xiong Da, and Xiong Er, rushed to the hospital.

Because Hunter didn't know how serious Isla's injury was, in order to be safe, he directly sent Isla to the military hospital. With the help of Director Deng's connections, he found the best surgeon in the hospital to examine Isla. He learned that Isla only had skin trauma and a slight concussion, so her life was not in danger.

When Alex arrived at the military yard and learned about Isla's injury, he was relieved, just like Hunter. Noticing that Hunter looked very bad, he was not in a hurry to visit Isla in the ward. He patted Hunter on the shoulder and comforted him, "Brother, don't worry too much. Cynthia is so kind. God will definitely take care of her..."

Hunter nodded and said with a sullen face, "Young Master, I'm sorry. I'm useless. I failed to complete the task you told me. Not only did President Isla get hurt, but I also let Cynthia and Vice President Xena fall into the enemy's hands. I... I was careless. If I had driven faster at that time, I might not have been blocked."

"I understand how you feel now, but we all know that it's not your fault. No one will blame you. You know, not only you, but also Brother Big Ken and I are blocked. From this, it can be seen that the enemy has made full preparation before the action this time.

Hunter, what you need to do now is not to blame yourself, but to cheer up, throw aside the distracting thoughts, adjust your state, and prepare to rescue Cynthia at any time.”

“Okay, Young Master! If there is any action, please let me take part in it. It’s best for me to take the lead! The enemy took Cynthia and Vice President Xena away from me. I want to save them myself.”

“No problem! Then you can rest for a while. You should rest and build up your strength...”

Alex knew that there were some problems with Hunter’s mentality because of guilt and anxiety. He was also very tired in spirit and body, and needed to rest urgently. So he asked Xiong Er to temporarily replace Hunter and keep an eye on the outside of the ward. He asked Xiong Da to accompany Hunter to the lounge.

After giving the order, Alex entered the ward of Isla.

Seeing that Isla’s head was wrapped in bandages and her face was haggard, Alex felt very uncomfortable.

Worry and heartache were inevitable, and every time under such circumstances, he would naturally feel guilty.

If he could choose, he was willing to bear all the blow and pain on behalf of those who had been implicated by him.

Unfortunately, such an opportunity did not exist at all.

Isla did not mean to blame Alex, but when she saw Alex coming, she immediately sat up and asked anxiously, “How is it? Have you got any news about my mother and Cynthia?”

“Not yet... But we and the police are trying our best to find them. I believe they will be found and rescued soon. Don’t worry too much.”

Alex helped Isla lean against the pillow, pulled a chair, and sat down beside the bed. He grabbed her hand and comforted her, “I just said to Hunter that Cynthia is a good person, and God will definitely take care of her. As for your mother... she is very lucky. This time, she will definitely be fine.”

“I hope so. In fact... when the kidnappers ran away separately, Hunter should have chosen to give up on me. Now I’m safe, but if something happens to my mother or Cynthia, I can’t accept it at all. It’s better to let the kidnappers take me away directly...”

“Isla, don’t say that. You have to believe that this is all God’s arrangement. There are many things that we can’t take the initiative to make a choice. At this point, we can only

accept reality. Regret and self-blame will only add to our troubles. What you need to do now is to take good care of yourself. As for saving people, leave it to me!”

Alex also felt guilty, but in order to comfort Isla, he could only pretend to be heartless.

After chatting with Isla, Alex found the attending doctor of Isla and asked the doctor to arrange a trustworthy woman for Isla. It would be inconvenient to accompany Isla. Cynthia, who was most suitable for doing this, was taken away, so he could only find someone else.

Then, Alex found Xiong Er again. “Hunter is eager to save people, so let me follow him first. Please take care of the hospital.”

Xiong Er nodded heavily. “Don’t worry, Young Master. I will protect Boss Isla.”

“Then I’ll have to trouble you!”

Alex patted Xiong Er on the shoulder, went back to the ward to say hello to Isla, and left the military hospital with Big Ken, Hunter, and Xiong Da. As soon as he returned to the car, he received a call from Group Leader Pang before he could call Ma Zhiyuan to ask about the situation.

Captain Pang came straight to the point and said, “Mr. Alex, after the preliminary interrogation, we have confirmed the identity of the four people who were arrested. You may not believe it, but they are not from Jing Kun or Gerald...”

## Chapter 230 A Heavy Price

##When Alex competed for the shares of Qingyun Media with Gerald, he vaguely guessed that Gerald might have reached a cooperation with Pei Chong. Compared with what had happened today, the first person he thought of was the two behind the scenes.

As the right-hand man of Jing Kun, it was not surprising for Pei Chong to take a gun with him on a mission.

As the boss of Grand Express Corporation, Gerald had the strength to hire killers.

As a result, Group Leader Pang directly excluded them.

Under the urging of curiosity, Alex hurriedly asked, “Group Leader Pang, who are they?”

On the other side, Group Leader Pang paused and said, “Mr. Alex, I heard that you have dealt with Tang Qingsong before?”

“That’s right. Hiss... Group Leader Pang, are they Tang Qingsong’s men?”

“That’s right! In addition to a group of professional fighters, Tang Qingsong also trained a group of reserve players. Usually, these reserve players are receiving secret training and will not easily perform missions, so very few people know about it. But this time, the situation is special. Tang Qingsong made an exception and used the reserve players.”

“No wonder those people are so powerful. It turns out that they are professionals who have received training!”

“However, they claimed that they were just following the coach’s orders this time and cooperated with others. They didn’t know the person leading the team, and the coach didn’t introduce them. Therefore, at present, we can only confirm that Tang Qingsong is a participant. As for whether he is the mastermind behind the scenes, we still need to further confirm.”

“Then, should we go and catch Tang Qingsong to know the situation next?”

“Not yet. The four people all said that it was the coach who gave them the order and did not mention Tang Qingsong. Therefore, we can only arrest the coach first. Even if I can guess that Tang Qingsong is the mastermind behind the scenes, even if we go straight to Tang Qingsong, we can only ask him to cooperate with us for investigation. Only through the coach finding some evidence can I apply for Tang Qingsong’s approval.”

“You go to catch the coach. You have to interrogate him before you can catch Tang Qingsong. It will take a lot of time for you to catch him. If the coach is stubborn and refuses to admit it, it will be even more difficult. But the situation here is urgent and we are waiting to save him!”

“President Alex, I understand what you’re saying. But I’m a law enforcement officer, and I have to follow the rules...”

“I see. Is there any news about the target car?”

“Not yet. The person in charge of the management and assisting us said that they saw the target car in the surveillance video. However, the target car did not stop in the urban area and went straight to the suburb where the camera was not completely covered, so the clue was cut off. However, I have already sent someone to search the location where the target car last appeared. I hope that there will be some gains. When there is news, I will tell you as soon as possible.”

“Alright, Group Leader Pang. In that case, you can continue with your work...”

Alex hung up the phone and immediately called Ma Zhiyuan. “Brother Yuan, I finally have a clue. I have to start with Tang Qingsong. Immediately find a way to confirm Tang Qingsong’s location and then go with me to meet him. Although I can only confirm that he is an accomplice, it is also the only breakthrough point...”

After Alex finished his call, Big Ken asked worriedly, "Young Master, if we go directly to find Tang Qingsong, won't we alert the enemy? Will Group Leader Pang have an opinion?"

"If team leader Pang wants to catch the coach, Tang Qingsong will definitely get the news and alert the enemy. In addition, according to my understanding of the law enforcement officers, team leader Pang took the initiative to share such an important situation with me. He also explained the next step of the plan to me in a tactful way. He is a law enforcement officer. He can't determine the suspect by himself, but I can!"

"I think so... Then there's nothing to worry about. Go and find Tang Qingsong directly!"

Big Ken understood. After that, he started the car and rushed to Tang Qingsong's territory.

He still didn't know where Tang Qingsong was, but there was a high chance that he could stay in his own territory...

As the saying goes, more people are more powerful, and more people are easier to do things.

It was difficult to find someone in such a big city, but there were many brothers under Xie Laosi's command, and he was always paying attention to the movements of other forces on the street. Not long after, Xie Laosi got the news that Tang Qingsong did not arrange any underground fighting tonight, and he stayed at home.

When Alex heard the news, he immediately perked up and asked Big Ken to rush to the address of Tang Qingsong provided by Xie Laosi.

Halfway there, Xie Laosi suddenly called and reported that Tang Qingsong had driven out.

It was already midnight, and Tang Qingsong was still running outside. Something urgent must have happened.

Alex analyzed this and said to Xie Laosi, "Send someone to follow Tang Qingsong secretly. Let's see what he is going to do at night. If he wants to run away, there is nothing to say. We must take him down. If he didn't run away, we will secretly know his whereabouts. But don't act rashly. Leave it to me."

"I know, President Alex..."

Xie Laosi, who was supported by Alex, agreed without hesitation.

Alex didn't say anything more. He asked Big Ken to stop the car at the side and waited patiently. Before confirming Tang Qingsong's movements, there was no need to rush

on. If it went against his will, it would be even more troublesome to find Tang Qingsong later. It was better to wait there.

About half an hour later, Xie Laosi sent Tang Qingsong's address.

Alex took a look and found that he knew the place. It was the fighting fan club that he had been to before. Xie Laosi was still fresh in his memory. That time when Xie Laosi was taken away by Tang Qingsong and Sukie, he was locked up there.

In fact, that was not only one of Tang Qingsong's underground combat grounds, but also a place for training fighters.

All the potential newcomers that Tang Qingsong had dug up through various channels were arranged there for professional training under the guise of "Fights lovers exchanging pointers". All the coach's and reserve fighters' residences were arranged next to the club.

Just now, the coach who was involved in the matter was suddenly taken away by Group Leader Pang. The others were all frightened.

Tang Qingsong didn't expect the police to take action so quickly, so he rushed over. In addition to taking charge of the overall situation, he was also in a hurry to warn others. In case the police came to know more about the situation, he should try his best to distance himself from the relationship between him and the coach who was involved in the matter, and he couldn't let him be targeted by the police...

Alex still didn't know why Tang Qingsong went to the club, but it didn't matter. He just needed to find Tang Qingsong.

By the time Alex arrived, Tang Qingsong had finished his work and was about to leave.

Tang Qingsong came out of the club and saw several cars parked at the door. Then he saw the familiar faces of Alex, Xie Laosi, and others. He was stunned on the spot. "Why... why are you here? Why don't you sleep at night? Why are you here?"

Alex took a few steps forward and said to Tang Qingsong, "I still want to ask you, what are you doing here?"

"It's none of your business."

"I usually don't care about your little tricks. But today, I have to do it! Tang Qingsong, since everyone is sensible, I won't beat around the bush. If you release the hostage immediately, everything will be fine. But if you insist on challenging my bottom line, I will make you pay a heavy price!"

“Are you sick? Did I provoke you? You threatened me as soon as you showed up. Do you think I was scared?”

“You’re pretending to be confused, aren’t you? Let’s talk about it with strength!”

As Alex spoke, he waved his hand and all the brothers present gathered around him.

Tang Qingsong had seen Big Ken, Ma Zhiyuan, Xiong Da, Xiong Er, and Xie Laosi before. Not only these faces, but also the scenes of his fighting fighters fought with Alex and his men last time were still vivid in his mind. The serious failure that was beyond his expectation had become a knot in Tang Qingsong’s heart, and he was not completely relieved until now.

When he saw these people again, he couldn’t help but feel nervous and a little afraid.

Tang Qingsong realized that Alex was no longer easy to get rid of, so he winked at the attendant next to him and asked him to organize his men. He had to be prepared to fight with Alex again in advance. With the painful lesson from last time, if they fought later, they could no longer fight one-on-one like last time. They had to attack in groups and take advantage of the advantage of their large number of people.

Only in this way could there be a possibility of winning!

Tang Qingsong didn’t show his panic. He made up his mind and pretended to be calm. He said to Alex, “Alex, don’t think that you can do whatever you want just because you have arranged someone to occupy Chase’s territory. Maybe others will be afraid of you, but I’m not! You want to make trouble for me for no reason? No way!”

Alex lost his patience. He shook his head and said, “Tang Qingsong, I’ve given you the opportunity. If you don’t cherish it, then don’t blame me. It doesn’t matter if you don’t dare to admit your evil deeds on your own initiative. I’ll beat you until you tell me the truth! To be honest, I didn’t want to deal with you again. But you don’t have a good memory, so you asked for it! Brothers, come on!”

After that, Alex rushed out first.

Big Ken and the other main forces quickly followed. The brothers that Xie Laosi arranged nearby also rushed over.

Tang Qingsong was frightened by the momentum of Alex. He quickly stepped back and let his men resist.

A fierce battle began.

Just like last time, Alex was still at a disadvantage in terms of numbers, but their overall strength was not bad. The top masters, Big Ken, Xiong Da and Xiong Er, targeted the

other side's masters and chased after them all the way. The others, including Alex, also chose their opponents.

While fighting, Alex noticed that Tang Qingsong wanted to retreat into the house. He quickly said to Hunter, "Capture the boss first! If necessary, you can shoot! But remember, don't kill him first."

Hunter followed Alex's gaze and instantly understood.

Hunter, who was holding back his anger and was in urgent need of venting, passed through the crowd and pounced on Tang Qingsong with a murderous look.

Although Tang Qingsong had some strength, he had no power to fight back against an expert like Hunter.

In less than three minutes, Hunter pressed Tang Qingsong to the ground, and his head was broken and bleeding.

Alex realized that Hunter's eyes were red from killing and he was afraid that Hunter would beat Tang Qingsong to death on the spot. He quickly shouted, "Stop! Stop! All of you! Tang Qingsong's men, listen up! He has been beaten to the ground. Not only this time, but he will never get up again. From now on, he is no longer the same person in the streets of the city. If you know what's good for you, you should find another way out and don't do anything for him. Otherwise, he will be your example!"

All the people present stopped one after another and stared at Tang Qingsong.

Hunter also came to his senses. Like picking up a chicken, he carried Tang Qingsong, who was stunned by him, to Alex with one hand and kicked him in the knee, making him kneel down. Then, he held his back neck tightly, making him unable to move. Then, he said in a loud voice, "Open your eyes and see clearly. Do you think such a loser deserves to be your boss? Don't you feel ashamed to follow such a person?"

Tang Qingsong regained a trace of consciousness and saw his situation clearly. He immediately wanted to die. He looked around and braced himself to say to Alex, "Do you think you can remove me from the list with your own strength? Don't you think you can see through the disputes on the street too easily? Do you think that my brothers will leave me after threatening them with a few words? You are too naive..."

## **Super Son-In-Law Chapter 230 -**

When Alex competed for the shares of Qingyun Media with Gerald, he vaguely guessed that Gerald might have reached a cooperation with Pei Chong. Compared with what had happened today, the first person he thought of was the two behind the scenes.

As the right-hand man of Jing Kun, it was not surprising for Pei Chong to take a gun with him on a mission.

As the boss of Grand Express Corporation, Gerald had the strength to hire killers.

As a result, Group Leader Pang directly excluded them.

Under the urging of curiosity, Alex hurriedly asked, "Group Leader Pang, who are they?"

On the other side, Group Leader Pang paused and said, "Mr. Alex, I heard that you have dealt with Tang Qingsong before?"

"That's right. Hiss... Group Leader Pang, are they Tang Qingsong's men?"

"That's right! In addition to a group of professional fighters, Tang Qingsong also trained a group of reserve players. Usually, these reserve players are receiving secret training and will not easily perform missions, so very few people know about it. But this time, the situation is special. Tang Qingsong made an exception and used the reserve players."

"No wonder those people are so powerful. It turns out that they are professionals who have received training!"

"However, they claimed that they were just following the coach's orders this time and cooperated with others. They didn't know the person leading the team, and the coach didn't introduce them. Therefore, at present, we can only confirm that Tang Qingsong is a participant. As for whether he is the mastermind behind the scenes, we still need to further confirm."

"Then, should we go and catch Tang Qingsong to know the situation next?"

"Not yet. The four people all said that it was the coach who gave them the order and did not mention Tang Qingsong. Therefore, we can only arrest the coach first. Even if I can guess that Tang Qingsong is the mastermind behind the scenes, even if we go straight to Tang Qingsong, we can only ask him to cooperate with us for investigation. Only through the coach finding some evidence can I apply for Tang Qingsong's approval."

"You go to catch the coach. You have to interrogate him before you can catch Tang Qingsong. It will take a lot of time for you to catch him. If the coach is stubborn and refuses to admit it, it will be even more difficult. But the situation here is urgent and we are waiting to save him!"

“President Alex, I understand what you’re saying. But I’m a law enforcement officer, and I have to follow the rules...”

“I see. Is there any news about the target car?”

“Not yet. The person in charge of the management and assisting us said that they saw the target car in the surveillance video. However, the target car did not stop in the urban area and went straight to the suburb where the camera was not completely covered, so the clue was cut off. However, I have already sent someone to search the location where the target car last appeared. I hope that there will be some gains. When there is news, I will tell you as soon as possible.”

“Alright, Group Leader Pang. In that case, you can continue with your work...”

Alex hung up the phone and immediately called Ma Zhiyuan. “Brother Yuan, I finally have a clue. I have to start with Tang Qingsong. Immediately find a way to confirm Tang Qingsong’s location and then go with me to meet him. Although I can only confirm that he is an accomplice, it is also the only breakthrough point...”

After Alex finished his call, Big Ken asked worriedly, “Young Master, if we go directly to find Tang Qingsong, won’t we alert the enemy? Will Group Leader Pang have an opinion?”

“If team leader Pang wants to catch the coach, Tang Qingsong will definitely get the news and alert the enemy. In addition, according to my understanding of the law enforcement officers, team leader Pang took the initiative to share such an important situation with me. He also explained the next step of the plan to me in a tactful way. He is a law enforcement officer. He can’t determine the suspect by himself, but I can!”

“I think so... Then there’s nothing to worry about. Go and find Tang Qingsong directly!”

Big Ken understood. After that, he started the car and rushed to Tang Qingsong’s territory.

He still didn’t know where Tang Qingsong was, but there was a high chance that he could stay in his own territory...

As the saying goes, more people are more powerful, and more people are easier to do things.

It was difficult to find someone in such a big city, but there were many brothers under Xie Laosi’s command, and he was always paying attention to the movements of other forces on the street. Not long after, Xie Laosi got the news that Tang Qingsong did not arrange any underground fighting tonight, and he stayed at home.

When Alex heard the news, he immediately perked up and asked Big Ken to rush to the address of Tang Qingsong provided by Xie Laosi.

Halfway there, Xie Laosi suddenly called and reported that Tang Qingsong had driven out.

It was already midnight, and Tang Qingsong was still running outside. Something urgent must have happened.

Alex analyzed this and said to Xie Laosi, "Send someone to follow Tang Qingsong secretly. Let's see what he is going to do at night. If he wants to run away, there is nothing to say. We must take him down. If he didn't run away, we will secretly know his whereabouts. But don't act rashly. Leave it to me."

"I know, President Alex..."

Xie Laosi, who was supported by Alex, agreed without hesitation.

Alex didn't say anything more. He asked Big Ken to stop the car at the side and waited patiently. Before confirming Tang Qingsong's movements, there was no need to rush on. If it went against his will, it would be even more troublesome to find Tang Qingsong later. It was better to wait there.

About half an hour later, Xie Laosi sent Tang Qingsong's address.

Alex took a look and found that he knew the place. It was the fighting fan club that he had been to before. Xie Laosi was still fresh in his memory. That time when Xie Laosi was taken away by Tang Qingsong and Sukie, he was locked up there.

In fact, that was not only one of Tang Qingsong's underground combat grounds, but also a place for training fighters.

All the potential newcomers that Tang Qingsong had dug up through various channels were arranged there for professional training under the guise of "Fights lovers exchanging pointers". All the coach's and reserve fighters' residences were arranged next to the club.

Just now, the coach who was involved in the matter was suddenly taken away by Group Leader Pang. The others were all frightened.

Tang Qingsong didn't expect the police to take action so quickly, so he rushed over. In addition to taking charge of the overall situation, he was also in a hurry to warn others. In case the police came to know more about the situation, he should try his best to distance himself from the relationship between him and the coach who was involved in the matter, and he couldn't let him be targeted by the police...

Alex still didn't know why Tang Qingsong went to the club, but it didn't matter. He just needed to find Tang Qingsong.

By the time Alex arrived, Tang Qingsong had finished his work and was about to leave.

Tang Qingsong came out of the club and saw several cars parked at the door. Then he saw the familiar faces of Alex, Xie Laosi, and others. He was stunned on the spot.

"Why... why are you here? Why don't you sleep at night? Why are you here?"

Alex took a few steps forward and said to Tang Qingsong, "I still want to ask you, what are you doing here?"

"It's none of your business."

"I usually don't care about your little tricks. But today, I have to do it! Tang Qingsong, since everyone is sensible, I won't beat around the bush. If you release the hostage immediately, everything will be fine. But if you insist on challenging my bottom line, I will make you pay a heavy price!"

"Are you sick? Did I provoke you? You threatened me as soon as you showed up. Do you think I was scared?"

"You're pretending to be confused, aren't you? Let's talk about it with strength!"

As Alex spoke, he waved his hand and all the brothers present gathered around him.

Tang Qingsong had seen Big Ken, Ma Zhiyuan, Xiong Da, Xiong Er, and Xie Laosi before. Not only these faces, but also the scenes of his fighting fighters fought with Alex and his men last time were still vivid in his mind. The serious failure that was beyond his expectation had become a knot in Tang Qingsong's heart, and he was not completely relieved until now.

When he saw these people again, he couldn't help but feel nervous and a little afraid.

Tang Qingsong realized that Alex was no longer easy to get rid of, so he winked at the attendant next to him and asked him to organize his men. He had to be prepared to fight with Alex again in advance. With the painful lesson from last time, if they fought later, they could no longer fight one-on-one like last time. They had to attack in groups and take advantage of the advantage of their large number of people.

Only in this way could there be a possibility of winning!

Tang Qingsong didn't show his panic. He made up his mind and pretended to be calm. He said to Alex, "Alex, don't think that you can do whatever you want just because you have arranged someone to occupy Chase's territory. Maybe others will be afraid of you, but I'm not! You want to make trouble for me for no reason? No way!"

Alex lost his patience. He shook his head and said, "Tang Qingsong, I've given you the opportunity. If you don't cherish it, then don't blame me. It doesn't matter if you don't dare to admit your evil deeds on your own initiative. I'll beat you until you tell me the truth! To be honest, I didn't want to deal with you again. But you don't have a good memory, so you asked for it! Brothers, come on!"

After that, Alex rushed out first.

Big Ken and the other main forces quickly followed. The brothers that Xie Laosi arranged nearby also rushed over.

Tang Qingsong was frightened by the momentum of Alex. He quickly stepped back and let his men resist.

A fierce battle began.

Just like last time, Alex was still at a disadvantage in terms of numbers, but their overall strength was not bad. The top masters, Big Ken, Xiong Da and Xiong Er, targeted the other side's masters and chased after them all the way. The others, including Alex, also chose their opponents.

While fighting, Alex noticed that Tang Qingsong wanted to retreat into the house. He quickly said to Hunter, "Capture the boss first! If necessary, you can shoot! But remember, don't kill him first."

Hunter followed Alex's gaze and instantly understood.

Hunter, who was holding back his anger and was in urgent need of venting, passed through the crowd and pounced on Tang Qingsong with a murderous look.

Although Tang Qingsong had some strength, he had no power to fight back against an expert like Hunter.

In less than three minutes, Hunter pressed Tang Qingsong to the ground, and his head was broken and bleeding.

Alex realized that Hunter's eyes were red from killing and he was afraid that Hunter would beat Tang Qingsong to death on the spot. He quickly shouted, "Stop! Stop! All of you! Tang Qingsong's men, listen up! He has been beaten to the ground. Not only this time, but he will never get up again. From now on, he is no longer the same person in the streets of the city. If you know what's good for you, you should find another way out and don't do anything for him. Otherwise, he will be your example!"

All the people present stopped one after another and stared at Tang Qingsong.

Hunter also came to his senses. Like picking up a chicken, he carried Tang Qingsong, who was stunned by him, to Alex with one hand and kicked him in the knee, making him kneel down. Then, he held his back neck tightly, making him unable to move. Then, he said in a loud voice, "Open your eyes and see clearly. Do you think such a loser deserves to be your boss? Don't you feel ashamed to follow such a person?"

Tang Qingsong regained a trace of consciousness and saw his situation clearly. He immediately wanted to die. He looked around and braced himself to say to Alex, "Do you think you can remove me from the list with your own strength? Don't you think you can see through the disputes on the street too easily? Do you think that my brothers will leave me after threatening them with a few words? You are too naive..."
