

Super Son-In-Law Chapter 241 -

Xiao Hang replied, "Mr. Cohen, the things you gave me are special. I have done something to confirm the identity through those things. My colleagues in the laboratory also said that generally speaking, the cases involved in that kind of situation are not small..."

Alex nodded his head gently. He pulled a chair and sat down before replying, "Captain Xiao, to be honest, as you have guessed, something bad has indeed happened. However, in order to protect the victim better, I don't want to blow up this matter and want to keep a low profile. Captain Xiao, please understand."

"I understand how you feel, but... President Cohen, even if you don't care about my identity as a law enforcer, from the perspective of friends, I still want to remind you that it's better to go through the trial. Because I learned through the test that the identity of that person is quite special."

"Captain Xiao, thank you for your reminder. In fact, I have yet to think about how to deal with this matter. Currently, I am only anxious to know the identity of that person."

"Well... then you'll understand after looking at this."

Xiao Hang hesitated for a moment, took out a pale yellow envelope from under the pillow, and handed it to Alex.

Alex took the envelope and quickly opened it. He took out the test results. There were a lot of professional data listed on it. As a layman, he couldn't understand it at all. He directly jumped over it and looked down. His eyes were fixed on the data of the target who was determined by the test. He saw an unusually eye-catching key eye: Jared Xavier!

In addition to names and other personal information, there were also black and white identification photos attached below.

With just a glance, Alex's heart tightened.

It was hard to accept that Cynthia had been violated, but now it was even harder to accept that it was done by Jared.

Alex couldn't help but wonder if he had lost all his good luck. In this kidnapping incident, good luck didn't come again, and the bad premonitions came true one after another. God didn't care about Cynthia, a good person, until the development of the situation reached the most difficult level, and he was going to collapse.

"How could this be? Why did God treat her like this?"

The result of the test made Alex's guilt toward Cynthia deepened again, and his hands kept patting his forehead.

Xiao Hang held Alex's shoulder and comforted him, "Mr. Cohen, this kind of thing is not up to you to decide, nor is it your fault."

"No..." Alex shook his head and said, "Captain Xiao, there's something you don't know. The victim was implicated by me and got into trouble. Jared and I have a deep grudge against each other. In the case that we can't take revenge on me, we vented our anger on my friend. It's not the first time that I have implicated the people around me. I feel more and more that some people are scolding me. I am a disaster star!"

"President Cohen, your idea is wrong..."

Xiao Hang tried his best to persuade him.

From the perspective of the law, the kidnapping of the people around Alex had nothing to do with him. If it had something to do with him, there was no need for him to blame himself. The police would arrest him and force him to bear the responsibility.

For this kind of thing, the kidnapper should be fully responsible for the kidnapper.

Alex knew what Xiao Hang said was reasonable, but the problem was that he still could not overcome the hurdle in his heart.

Xiao Hang realized that there was a serious knot in Alex's heart, which could be said to be a psychological problem. However, the persuasion in words could not be resolved. The matter had already happened, and there was no room for recovery. The only way to solve the knot in Alex's heart was to let him take revenge and make the kidnapper pay the price to get justice for those who were implicated by him.

In addition, he couldn't think of a better way for the time being.

After analyzing this point, Xiao Hang made up his mind and said to Alex, "I really can't bear to see you like this. How about this, Mr. Cohen, I won't ask you about it again, nor will I tell anyone. I will pretend that I don't know anything. You can deal with it according to your idea, but... considering that Gerald is one of the famous entrepreneur in the city and is not an ordinary person, he will definitely spare no effort to protect Jared. Therefore, when you deal with this matter, you must be as careful as possible."

Alex nodded gratefully. "Captain Xiao, thank you for your understanding and reminder."

"President Cohen, are you waiting for my words?"

"Ah? No, I... I'm just a little excited. I didn't expect to get your support."

“Not only did you not think of it, but I also felt a little surprised when I said those words because I was hot-headed... Forget it, I didn’t have any reason to take back my words. Even if I was tricked by you and made the wrong decision, I would admit it.”

As Xiao Hang spoke, he couldn’t help but smile bitterly.

In fact, Alex had no intention of playing tricks on Xiao Hang. His reaction just now was full of feelings.

Getting Xiao Hang’s understanding and support was a completely unexpected joy for Alex. Excitement came from the bottom of his heart, not from pretending.

Alex did not hand over the test tube to Group Leader Pang because he did not want the police to know that Cynthia had been violated, so he handled it on his own. Now the only police officer who knew the situation had voluntarily chosen to stand on his side, so he could rest assured that he could take revenge boldly...

After chatting with Xiao Hang, Alex went back to Cynthia’s ward with the results of the test.

Because special effects were not regular drugs, ordinary doctors did not dare to use them and did not know how to use them. Director Deng, who had used other special effects many times, took the task of using special effects to treat Cynthia in order to save time and reduce unnecessary explanations and troubles.

After a while, the door of the ward was opened, and Director Deng came out first. Before the crowd could ask, he took off his mask and introduced himself, “I’m telling you a piece of good news. The condition of the injured has stabilized, and all vital signs are getting closer to the normal level! I can basically be sure that the injured can be saved!”

When everyone heard this, they were extremely excited. They were even happier than when they had escaped death.

Wang Shunquan and Liu Yunxiu were the most excited. They kept thanking Director Deng and were about to kneel down.

Director Deng quickly grabbed their arms and explained, “I’m a doctor. It’s my duty to treat patients. I just ate this bowl of rice. You don’t have to thank me. Besides, this time, the wounded can save his life because of the special medicine provided by Alex. If you want to thank him, thank him.”

Wang Shunquan immediately grabbed Alex’s right arm tightly and said with a red face, “Young man, it’s all thanks to you this time. First, you found a good hospital and a doctor for Cynthia, and then you contacted a helicopter to pick us up. Now you’re giving her special effects medicine... No matter what, ordinary people can’t do it. You’re not

only Cynthia's benefactor, but also our family's benefactor! We'll remember your great kindness..."

Liu Yunxiu grabbed Alex's left hand with one hand and wiped her tears with the other. She added excitedly, "Benefactor, we are willing to be your horses and cows to repay your kindness. If we can't finish it in this life, we will repay it in our next life..."

Alex tried not to cry. Instead, he grabbed his parents' hands tightly and said, "Uncle, Auntie, don't say that. Maybe you already know that this time, Cynthia got into trouble because of me. Everything I did is to make up for my mistakes. I really can't bear your gratitude. I am very satisfied that you can forgive me!"

"Young man, your words are too heavy..." Wang Shunquan waved his hand and said, "Cynthia often mentioned two people when she called our family. One is Lala, and the other is you. She said that both of you are good people and good friends. No matter what happened this time, I believe that she won't blame you. We didn't mean to blame you from the beginning. Don't blame yourself, or our family will feel sorry!"

"Uncle, Aunt, I..."

Alex was very touched and didn't know what to say.

Alex finally reached an agreement with Wang Shunquan and his wife after Isla's "reconsolation". Alex no longer blamed himself, and Wang Shunquan and his wife did not say anything to thank Alex. In addition, Cynthia was saved, so this ending was a happy ending.

Seeing this scene, Xena, who was not far away, turned around and left in anger.

Because the plan to incite Wang Shunquan and his wife to make trouble for Alex was completely ruined.

Alex calmed down and looked at Cynthia in the hospital bed through the crack of the door. He clenched his fists and his eyes were like torches. He secretly made up her mind that it was time to make the scumbag Jared pay the price!

Super Son-In-Law Chapter 242 -

However, it seemed that Jared had reached a cooperation with Pei Chong.

If he wanted to take revenge on Jared, he not only had to pass the test of Gerald, but also might be stopped by Pei Chong.

Alex didn't take Gerald seriously, but he didn't dare to look down on Pei Chong. He had no choice. Pei Chong and his men were all villains who regarded human lives as trifles and killed people without blinking. They also had guns in their hands. On his side, not

everyone was as powerful as Big Ken, and not everyone had a high-level bulletproof vest.

Thinking of this, Alex had to suppress the anger in his heart. He held back his anger and didn't go to find Jared immediately. He found Big Ken and said, "The brothers in the hospital haven't slept for more than a day. Now that Cynthia has been rescued, you don't have to worry too much. You can arrange for them to take shifts to rest."

"Okay." Big Ken nodded and said, "Young Master, what about you?"

"I... I still have something to do, so I won't sleep for now."

"That won't do. If we don't have a good rest, how can we have the energy to do things? The strong enemy is only temporarily repelled. We have to keep our spirits up and be ready to face the counterattack of the strong enemy at any time. Young master, I will also send you back to rest. No matter how urgent it is, let's wait until we recover."

"Okay. I'll go and say hello to Director Deng."

Alex thought about it. Now he was exhausted both physically and mentally, and his mind was heavy. He was not smart enough, so he really needed to rest. When he recovered, maybe he could come up with a more reasonable revenge plan. Anyway, Jared didn't know that he already had evidence, and he wouldn't run away.

Of course, even if Jared ran away, no matter where he ran, he would find him.

If he could not avenge himself, he would never be a human being!

After Alex and Big Ken finished talking, they went straight to Director Deng's office, closed the door, sincerely expressed their gratitude to Director Deng who provided great help again, and added, "There are some things that I don't want Cynthia's family and friends to know for the time being. Director Deng, please help me keep it a secret."

Director Deng nodded and said, "When I was in the lounge, I guessed that you deliberately interrupted the doctor's words. It's no problem for me to keep it a secret. I will also issue a sealing order to other medical staff who know the situation. But I'm very curious, how did you know that? Except for you, no one else knows about it."

"The doctor in charge of the rescue of Cynthia in Trinity Hospital told me alone. The female doctor was very kind and did not make a sound. She even provided me with evidence. I have found the culprit with this evidence. As for whether to report it to the police or not, we can decide whether to report it or not after Cynthia wakes up."

"I see. Alex, I see that many of you are tired. Go back and rest."

"Okay, Director Deng. I'll take my leave first. Thank you very much!"

Alex bowed to Director Deng, left the office, and went to greet Isla. Then he left the hospital with Ma Zhiyuan and Big Ken. He wanted Hunter to change shift to rest, but Hunter was unwilling to leave the hospital and had to stay in the hospital to guard Cynthia, so he had to give up.

The three of them found a small restaurant to eat and then went back to the villa to rest.

When they woke up, it was already past six o'clock in the evening.

Alex finished washing up and changed his clothes. He felt refreshed and immediately called Group Leader Pang. He knew that Group Leader Pang had rested for a few hours in the daytime and was now busy with work. He was still working overtime and had a meeting with the City Public Security Bureau after a while.

Soon, Big Ken and Ma Zhiyuan got up one after another.

Ma Zhiyuan was going back to his post, so he had to go first.

Alex, accompanied by Big Ken, rushed to the Municipal Bureau.

On the way, Big Ken turned around and looked at him. After hesitating for a few times, he asked tentatively, "Young Master, I vaguely heard from Boss Sullivan that Jared has been to the place where Pei Chong keep the hostages?"

"Yes." Alex nodded. "Jared not only went there, but also made an unforgivable mistake. I'm thinking about how to take revenge."

"You don't follow the law?"

"Well, if I let him go to jail, it will be too easy for him. A scum like him can't offset all the sins he has committed. He should be cut into pieces. I am in a hurry to meet with Group Leader Pang because I want to know the police's plan to handle the case. I have to take revenge on my own when I try not to alert the police."

"Understood!"

Big Ken nodded and drove straight to the municipal public security bureau without saying a word.

Alex found a home-cooked restaurant nearby and invited Group Leader Pang over.

After Group Leader Pang took his seat, Alex went straight to the point. "Did you get anything from the two teams you sent to chase Pei Chong last night?"

Group Leader Pang shook his head and said, "We almost caught up with them, but those desperados shot, injured several police officers, destroyed the police cars that

opened the way, and then they took advantage of the chaos to escape. I have already sent more police and they are still chasing. Sooner or later, I will arrest them all!”

“At that time, we left a few of Pei Chong’s men to ask for valuable clues?”

“They are all very stubborn. I suspect that they have all received relevant training and are able to deal with the interrogation with ease. They have clearly explained the situation that we have investigated, but they did not say a word. What I want to know the most is where Pei Chong is hiding. I haven’t asked yet. President Cohen, Pei Chong obviously came for you. This time his plan did not succeed, and he will definitely continue to think of ways to deal with you. Not only do you have to be careful, but you also need to remind the people around you to pay more attention to not let such a situation happen again.”

“Thank you for your reminder. We will pay more attention to it.”

“In addition... Mr. Cohen, through this incident, you should know what kind of person Pei Chong is. In order to ensure your safety, if Pei Chong contacts you again, or deal with you directly, don’t pretend to be strong and don’t solve it privately. You must inform me immediately. We have communicated with the special police team on our side. If necessary, we can get great support from the special police team at any time.”

“Okay, Group Leader Pang. If you have any progress, please tell me. My friend is still lying in the hospital. I have to give her an explanation...”

Through the communication with Group Leader Pang, Alex could figure out that Group Leader Pang had not yet grasped the fact that Cynthia had been violated. Maybe he did not know that Jared had been to the place where Pei Chong was holding hostages last night. After thinking about it carefully, it could be understood. Generally speaking, how could the criminal take the initiative to explain the crimes and accomplices that the police had not noticed?

In this way, Alex’s revenge plan would not have any connection with Group Leader Pang’s investigation.

In addition, in order to avoid Group Leader Pang’s pursuit, Pei Chong probably had no time to care about Jared.

After Alex finished eating, he watched Group Leader Pang leave. Then he took out his mobile phone and called Xie Si. He asked Xie Si to send people to keep an eye on Jared all the time. He must know the exact whereabouts of Jared at any time. In order to make sure that he could take revenge when he wanted to.

Xie Si immediately agreed and reported the situation to Alex.

Today, Xie Si had not done anything else, so he had been dealing with Tang Qingsong all day long. He had already used unconventional means to let Tang Qingsong transfer all the deposit, real estate, and properties to his name voluntarily. Basically, most of the achievements of Tang Qingsong's hard work over the past half of his life had been plundered.

These were all assets under Tang Qingsong's name, and their total value was about 15 million.

In addition, Tang Qingsong still had a 10% share of Bob's company.

He and Tang Qingsong had signed an agreement and obtained these shares nominally. However, for regular companies, taking over the shares would require the approval of the board of directors, and more than half of the shareholders would have to agree. With his relationship with the Tang family, it was absolutely impossible for Bob, who was the CEO of the company, to agree.

This made it impossible for him to officially transfer these shares to his name.

Alex knew that Xie Si was in trouble, so he took the initiative to take over this matter.

However, even if Alex intervened, it would not be easy to solve it. He had to think of a good way.

Alex was not in the mood to do anything else now. He could only wait until he avenged Cynthia.

After Alex and Xie Si finished talking, a few minutes later, Isla called and said eagerly, "Alex, come and have a look. Cynthia is awake, but she looks very abnormal..."

Super Son-In-Law Chapter 243 -

"She is awake? Not normal?"

Alex's heart was in his throat. He motioned for Big Ken to drive quickly and then continued to ask the phone, "Isla, what's going on?"

Isla spoke very quickly, "Cynthia doesn't even know us, not a single one of us! No matter who talks to her, she looks blank, even colder than strangers. I suspect that she... there might be something wrong with her brain, which caused her to lose her memory, and she can't remember anything!"

"How could this be? Isla, don't worry. Let's talk about it with Director Deng and the doctor first."

After saying that, Alex hung up the phone and asked Big Ken to speed up. Then, he fell into deep thought.

Those who cared about Cynthia were basically looking forward to Cynthia waking up.

Only Alex was an exception.

Ever since Alex learned that Cynthia had been violated, he felt very conflicted.

On the one hand, he desperately hoped that Cynthia could escape from danger.

On the other hand, he was a bit afraid that Cynthia would wake up.

Because Cynthia had been violated, she had already tried to suicide before she was rescued.

Now she had been rescued. When she woke up and saw her family and friends, she did not know how to face them. She would definitely feel more uncomfortable. Although it was not up to her to decide that she would be violated, she would still think that it was an ugly thing. It was a great shame. Only when she died could she be free.

Under such circumstances, the family and friends who could comfort her would become a burden instead.

After all, it was human nature to not let an acquaintance know about his scandal.

Once she woke up, her heart would definitely be even more conflicted than Alex's. In addition, the more family and friends cared about her, the greater the damage Jared's actions towards her would bring her. Fortunately, apart from Alex's, no one else knew that she had been violated, so they wouldn't mention it in front of her.

Otherwise, even if her family and friends brought up that matter, they would rub salt on the wound that had touched her soul.

According to Isla's description, the state of Cynthia after waking up was more complicated than Alex expected...

When Alex arrived at the military yard, he found that Isla, Hunter, Wang Shunquan, and Liu Yunxiu were all gathered at the door of Cynthia's ward. Looking through the crack in the door, he found out that Director Deng was examining Cynthia in the ward.

Seeing Alex coming, Isla quickly pulled Alex aside and asked worriedly, "Where did you buy the medicine you gave Cynthia at noon?"

Alex was a little stunned. "What's wrong?"

“Director Deng said that although Cynthia’s brain was hurt, she should not lose her memory normally. I thought that she might have been stimulated by the medicine and had side effects or left side effects... Alex, I don’t doubt what you mean, but after all, the medicine was not made by you. You are not a doctor, and you don’t understand this. How about you buy something else and ask Director Deng to test it?”

“Isla, the medicine is developed by my family and sent by my family. There is no problem with the source. I only got one medicine and have already given it to Cynthia, so I can’t test it for the time being. But... let’s wait for Director Deng to check it first. If there is really a problem with the medicine, I will immediately ask someone to send some more medicine.”

“The medicine developed by your family? There must be no problem. There must be another reason for Cynthia’s abnormal behavior.”

“No matter what the reason is, we will find out as soon as possible...”

Alex put his arm around Isla’s shoulder and comforted him. Seeing the door of Cynthia’s ward open, he quickly ran over with Isla.

Director Deng came out and explained to the people who were waiting anxiously, “After the examination, we can basically be sure that the abnormal condition of the injured is not caused by the brain injury. In fact, when we were having surgery, we checked carefully. The injury will only recover relatively slowly, but there will be no sequelae.”

Wang Shunquan and Liu Yunxiu looked at each other and asked in confusion, “Director Deng, what’s the reason?”

“Based on my experience from the first half of my life as a doctor, I’m most likely suffering from psychological problems. The injured was kidnapped and had a strong shock. It’s very likely that he has a psychological trauma. If my analysis is correct, the injured must have suffered from selectively amnesia.”

“What kind of disease is this? Does... does it have any cure?”

“The so-called selectively losing memory refers to the people who have been stimulated by external stimulation or their brains have been hit, forgetting some things that they don’t want to remember or want to escape from. Strictly speaking, this is not a disease, but an instinctive reaction based on self-protection. Generally speaking, selectively losing memory will gradually recover after time erosion. However, for some things, objects, or people that have a psychological impact on the patient themselves, it is not ruled out that there is a possibility of selectively forgetting.”

“Ah?”

Wang Shunquan was just as confused as Liu Yunxiu.

Isla understood what he meant, but he soon realized a problem. “No, Director Deng, it’s obvious that Cynthia has forgotten not only about being kidnapped, but also the people she is most familiar with. We can’t say that we have also caused her psychological trauma, can we?”

“This...”

Director Deng thought for a moment and replied, “The wounded just woke up. Not only is her body very weak, but her spirit is also very low. This situation is probably equivalent to a normal person’s half-awake state. Everyone should have experienced this kind of experience, right? They just feel that they are awake, but they can’t move or make a sound.”

“Yes, yes, I have such experience.”

“The wounded should be in such a situation. Don’t worry too much and don’t worry too much. The wounded are seriously injured, and their physical and mental recovery are destined to be a long process. You have to maintain enough patience and create a quiet and familiar environment for her to recover. This is good for her recovery.”

“Okay, I see. Thank you, Director Deng.”

Isla nodded gently and said nothing more. Obviously, he believed in Director Deng’s explanation.

However, Alex noticed a problem, so he followed Director Deng to the office and closed the door. He asked mysteriously, “Director Deng, is the selectively amnesia mentioned just now fake? I know this symptom does exist. However, from the current state of Cynthia, I can’t come to this conclusion.”

Director Deng smiled bitterly and said, “I know I can’t fool you. Tell me, how did you analyze it?”

“Isla said that I don’t know anyone now, as if I don’t remember anything, and I don’t simply forget something that may happen. This means that I have completely lost my memory. But you just said that there is nothing wrong with her brain. It is very likely that... she is pretending!”

“It’s not possible. I’ve already confirmed your guess. Because during the examination just now, I accidentally found that she was crying, secretly crying... Besides, with my experience, I can tell from my eyes that she really lost her memory. In short, I can almost be sure that the injured couldn’t accept a certain fact, and I don’t know how to face family and friends, so I created an illusion of losing her memory.”

“If I were to change to her position, I would probably make the same choice. In a situation where I really can’t accept and can’t face it, escaping from reality is also a kind

of rational choice. Especially when she just passed through the jaws of death, her body and mind can't bear the blow, nor can she bear the torture..."

Alex's guess was confirmed, but unfortunately, it was a disappointing result.

If there was a drug in the world that could selectively make people lose their memory, Alex would buy one for Cynthia without hesitation.

Unfortunately, there was no such magical medicine.

He could not let Cynthia forget the pain, so he could only help her get through the difficulties as much as possible.

Alex made up his mind to invite Isla, Hunter, and the Wang family elders to the lounge. He solemnly reminded them that before Cynthia recovered, they should try not to disturb her as much as possible and let her rest quietly. Because the knot in Cynthia's heart was either a mental demon or a mental demon, they could only be removed by self-conconconconsolation. No one could help them.

The only thing that could be prayed and amplified was revenge for her...

Super Son-In-Law Chapter 244 -

Isla and the others all thought that what Alex said was reasonable. They must severely punish the kidnapers.

What they didn't know was that the biggest enemy of Cynthia was not the kidnapers, but Jared!

Alex didn't make it clear, but secretly made up his mind to take revenge on Jared. He couldn't wait to make a detailed plan, so he decided to meet Jared tonight. On the way downstairs with Big Ken, he sent a WeChat message to Xie Si. When he learned that Jared was having dinner in a restaurant, he immediately asked Big Ken to drive there.

He knew that it was impossible for him to take revenge on Jared. If he went to find Jared today with only one helper of Big Ken, he might be in danger.

However, in order not to let more people know that Cynthia was violated by Jared, it was inconvenient to bring other helpers, especially Hunter.

He had no choice but to take the risk.

Big Ken also realized that this trip was dangerous, so he said to Alex, "Young master, in order to be safe, let's put on the bulletproof vest. If my guess is right, if we want to take revenge on Jared, we should first pass Pei Chong. They are now like grasshoppers on a rope, and they are in a stable state. They will protect each other..."

Alex was stunned for a moment. “Brother Big Ken, Pei Chong is being chased by the police. Logically speaking, he doesn’t dare to show up easily, does he?”

“Young Master, have you ever thought about a problem? Pei Chong doesn’t know much about Quill City. He’s new here, so it’s easy for him to expose himself. But in fact, until now, he hasn’t been found by the police. Last night, he escaped under the eyes of a large number of police officers. He’s also a human, not a god. How did he do it?”

“Hiss... Brother Big Ken, do you want to say that Jared provides Pei Chong with protection?”

“Most likely. Also, Pei Chong and the others are desperados. Most of them are responsible for murder cases. As you said, they dare not show up easily. They should try their best to avoid showing up as many times as possible. It is very likely that Pei Chong got all the information about you from Jared. At least Pei Chong asked Jared to inquire about you before making a thorough investigation.”

“No wonder Pei Chong took action after I was followed only once. He didn’t need to start the investigation at all. He just needed to verify the information provided by Jared. Brother Big Ken, you said that I am smarter than ordinary people. Why do I feel that you are much smarter than me?”

“Young Master, you flatter me. I’m just an ordinary person, but I’ve experienced too much. I may think more about things than ordinary people. As the old saying goes, don’t forget what happened before, and what happens after... Let’s continue to talk about the real thing. Now Pei Chong is confronting the police head-on with Group Leader Pang. The situation is more difficult than before, and the dependence on Jared’s safety will be less. Jared needs Pei Chong’s protection. Therefore, they are closer to each other, and they will try their best to protect each other. Protecting each other is indirectly protecting themselves.”

“I see! Among Jared and Pei Chong, Jared is easier to deal with, but Pei Chong, who is hiding in the dark, will protect Jared. On the other hand, if I deal with Pei Chong first, Jared can do nothing but provide him with financial support...”

“That’s why I said that we have to deal with Pei Chong first so that we can take revenge on Jared. If Pei Chong loses the support of Jared, with his own strength, he can still fight to the death with us. If Jared doesn’t have Pei Chong’s protection, he will be like a piece of meat on the chopping board and can only be slaughtered by us. What’s more, if you go directly to revenge on Jared, you will alert the enemy. Then he may leave here with the help of Pei Chong’s protection before you succeed.”

“Understood, understood. Brother Big Ken, listening to you is better than reading ten years of books!”

Alex immediately changed the direction of revenge, placing Pei Chong's name in front of Jared. Following Big Ken's reminder, there was one more question. For the sake of not alerting the enemy, they had to seal off the news that Cynthia had already woken up. They definitely couldn't let Jared know.

If Jared knew that it was possible to make it public that they had violated Cynthia, they would probably kill her and prepare for revenge at the same time.

Thinking of this, Alex immediately called Isla and Director Deng to explain.

Of course, when Alex talked to Isla on the phone, he didn't mention the name of Jared. He just said that it was to prevent the kidnapers from hurting Cynthia twice.

After the phone call, Alex said to Big Ken, "Is there still a need for us to find Jared today?"

"Yes." Big Ken nodded and replied, "Now no one knows where Pei Chong is usually except for Jared. If we want to find Pei Chong, we can only start with Jared. We may not succeed, but we should try our best to find the only chance."

"That makes sense!"

Alex nodded and looked at the map on the navigation. He found that he was about to arrive at the restaurant where Jared was eating, so he quickly put on a bulletproof vest.

At this moment, Xie Si called and said that Jared had finished his meal and was ready to leave the restaurant.

Hearing this, Big Ken threw away the bulletproof vest he was about to wear with one hand. He sped up the car and rushed straight into the underground parking lot of the target restaurant. He searched with his eagle eyes. Soon, he saw Jared's car and rushed to the accelerator.

"Chi chi!"

The driver of Jared saw that the situation was not good. In order not to be hit, he quickly stepped on the brake and turned the car into a parking space next to him.

Big Ken also stepped on the brake in time and parked the car behind the Land Rover Range Rover of Jared.

The next second, Jared got out of the car, surrounded by two burly men, and walked back quickly.

Alex also got out of the car and stared straight at Jared, wanting to rush over and tear him into pieces.

Big Ken ran over quickly, approached Alex, and said softly, "Young Master, don't be impulsive. The two people around Jared are not ordinary people at first glance. They may have guns! If he is not confident, he would not dare to rush over so rashly!"

As soon as he finished speaking, Jared came up to him and glared at Alex, saying, "Cohen, you f*cking want to hit me to death, don't you? If you want to die, just run away. Don't think about pulling me on your back! Hurry up and move the car away. Otherwise, I swear I will smash your car into a pile of scrap iron!"

"Cut the crap. I have something serious to discuss with you today!"

"If you have something to say, just say it. If you have anything to say, let it go. I'm busy!"

"Where is Pei Chong?"

"Hiss... Are you fucking sick? I'm not your subordinate. Why should I find someone for you?"

"You two are so familiar with each other, do you still need to find him? You just need to tell me his exact location."

"Then I can tell you clearly that I'm not familiar with Pei Chong and don't know where he is."

"Really? From the time Pei Chong wanted to buy Qingyun Media from your father, I knew that you had reached a cooperation. I also know that since Pei Chong came to Quill City not long ago, you have put on the same pair of pants. I can tell you that Pei Chong is a drug dealer and he is carrying a murder case. If you provide him with protection, you are hiding criminals! If you don't want to get into trouble, hand him over to me quickly!"

Alex had long known that Jared was a stubborn person. If they had a good relationship, it was impossible for Jared to reveal Pei Chong's position, and it would further promote Jared's arrogance. Instead of doing useless things, it was better to show his intention to provoke him as soon as possible.

Only when Jared lost his mind out of anger would he make an impulsive decision.

Jared was quite surprised by Alex's words. After hesitating for a moment, he suddenly glared at him and said, "Do you f*cking think you're Holmes? You're so powerful, why didn't you figure out Pei Chong's hiding place and ask me to tell you?"

Alex knew that the goading method began to work, so he continued, "If I have enough time, I will definitely find him on my own. But I am in a hurry to take revenge on him, so I am not in the mood to investigate. Jared, aren't you also in a hurry to settle accounts with me? Then when I finish the knot with Pei Chong, we will have a good chat!"

“You want to take revenge on him? What a coincidence. He still wants to take revenge on you. Go back and wait for the news!”

Jared had been counting on Pei Chong to help deal with Alex. Seeing that Alex was so anxious, he suddenly thought that he could arrange for them to face each other as soon as possible...

Super Son-In-Law Chapter 245 -

Hearing this, Alex knew that he had almost achieved his goal, so he chose to leave in a hurry.

The reason why he was in such a hurry was that he had to take into account that he had said too much, and the second reason was that he could not take revenge when he saw his enemy. If he could not help saying that he had made a slip of the tongue or made a move in advance, the loss would outweigh the gain. As the saying went, he should not meet Jared before the time for revenge was ripe...

At about eleven o'clock in the evening, Alex returned to the villa from the hospital. After taking a shower, he was ready to sleep and rest. Suddenly, his mobile phone rang.

Seeing that it was Jiang Peng who called, Alex instantly became nervous. Jiang Peng was Ma Zhiyuan's old comrade-in-arms. He was now working as the bodyguard of Francis in the Maliu Village, and he was protecting Francis with many of the brothers arranged by Xie Si. It was so late that he called. Something must have happened in the Maliu Village!

Alex didn't dare to think too much and quickly picked up the phone. “Jiang Peng, what's wrong?”

Jiang Peng's slightly anxious voice came from the receiver, “Boss Cohen, a brother reported to me that two domestic off-road vehicles with city license plates just entered the village. They strolled around the village slowly and finally found a car to live in. There are six people in total, and they don't look like tourists. Should I go and check out the situation?”

“Well... there's no need. You just need to be on your guard.”

“That's fine. If anything unexpected happens, we'll take Uncle Cohen away from this village as soon as possible.”

“Thank you for your hard work.”

Alex thought that there were only six people on the other side. Even if they were going to deal with his father, Jiang Peng, the security guard, could deal with them, so he didn't

pay much attention to them. Now he focused all his attention on finding Jared and Pei Chong to take revenge.

Near noon the next day, Alex bought a lot of food and sent it to the military yard. When he was about to call Isla, Hunter, and the others for lunch, he suddenly received a call from Jared.

Alex couldn't be bothered to answer Jared's phone.

But now, he was waiting for news from Jared. He answered without hesitation and asked, "What's the matter?"

Jared seemed to be in a good mood and said slowly, "Aren't you in a hurry to take revenge on Pei Chong? The opportunity has come."

"What chance?"

"As far as I know, Pei Chong rushed to Maliu Village..."

"What? Magical Willow Village?"

"You know, Pei Chong has been targeted by the police. It's not safe to hide in the city. It should be good to go to the countryside immediately, right? If you go there now, you will definitely meet him. But... he doesn't want to see the police now, and he doesn't even want to hear the alarm. So, you'd better..."

"Don't worry, I'll go alone... No, I have to take a driver."

"That shouldn't be a problem. Hang up!"

Jared hung up the phone directly.

Alex immediately called Big Ken out and left the military courtyard, heading straight for Maliu Village.

Only now did Alex realize that Jared should have arranged Pei Chong to rush to Maliu Village last night. It had to be said that they were very good at choosing places. Maliu Village was his hometown and they had an appointment there. It was obvious that they wanted to threaten his father not to call the police or bring helpers.

He knew this, but he didn't hesitate.

Big Ken also realized the seriousness of the problem. He took out his special skills and drove the car on the rugged mountain road, almost flying. At noon, the sun was high in the sky, and the temperature was still high. Few people went out, and they didn't encounter a few cars along the way. It was smooth and unimpeded.

However, just as they were about to reach Maliu Village, a rock the size of a washbasin suddenly rolled down from the slope of the road and hit the place where the car was a second ago. If it was even half a second later, the stone might have hit the car, and the consequences would be unimaginable.

“What a close call. I almost got hit. If I were to be smashed to death by a falling stone, we would have suffered a great loss...”

Alex knew that it was not rare to encounter falling stones on the mountain road, but he was still scared.

However, Big Ken shook his head and said, “Young Master, it may not be natural... Sit still!”

“Ah? You mean...” Just as Alex was about to say if he had been ambushed, he suddenly saw a pile of stones rolling down from the slope ahead. He quickly grabbed the armrest and shouted at the same time, “Brother Big Ken, be careful!”

Big Ken wanted to speed up and rush out of this dangerous area, but judging from the speed of the car, the speed of rolling stones, and the distance between the car and the stone landing point, it seemed that he could no longer rush over. Without hesitation, he quickly stepped on the brake.

When the car stopped, Alex noticed that there were also a lot of stones on the road behind.

Alex got out of the car and looked around, only to find that everything was blocked.

The car definitely couldn't drive away for a while. If they wanted to leave here, they could only walk!

Then, Alex saw three masked men rushing up from the hillside.

Big Ken quickly approached Alex and said softly, “We don't know the details of the other party for the time being. Be careful.”

“Yes.”

Alex nodded and took a step forward. He knew that the other party must be coming for him, and he couldn't avoid it even if he wanted to.

The three masked men got off the road and stopped about three meters away from Alex.

Neither side was in a hurry to speak. They were looking at each other.

Alex found that the three people on the other side really had their own characteristics.

The leader looked to be about 30 years old, with a medium figure and an ordinary face, but he was bald. The two behind him, one fat and the other thin, were very easy to distinguish. However, although their figures were different, their eyes were the same cold. There was no trace of emotion in them. Those who did not know might think they were robots.

The bald head stared at Alex for a few seconds, then turned to look at Big Ken and said coldly, "It's none of your business. If you leave quickly, we can let you go."

Big Ken sneered and said casually, "If I let you go now, will you leave?"

"I've given you the opportunity. If you don't cherish it, then don't regret it later."

"I regret it? It's hard to say who will regret it."

Big Ken was not in a hurry. He deliberately fought with the bald head because he was waiting for help.

Before getting out of the car, he had called Jiang Peng. It only took him more than ten minutes to walk from the village.

The bald man seemed to have seen through Big Ken's mind and stopped talking to him. Instead, he said to Alex, "Young man, you are the youngest target I have ever met. I really didn't expect that you would be younger than me. On account of the first impression you gave me, I can make an exception and give you three minutes to leave your last words. In addition, I can leave you a whole body."

"You're talking big. Should I thank you for your kindness?" Alex asked expressionlessly, "Tell me, who sent you here?"

"Do you think I'll betray my client?"

"Aren't you sure that the two of us will die here today? Even if you tell us a big secret, we won't have a chance to spread it out. But in fact, you don't dare to tell your employer. It seems that... your confidence in words is fake."

"Cut the crap. Hurry up and leave your last words. You still have... two minutes and eighteen seconds."

Big Ken approached Alex again and said softly, "Young Master, these three people in front of us are not ordinary people. They may be more powerful than the two subordinates of Tang Qingsong whom I met before. They should be professional killers that Pei Chong found. Don't underestimate them. First, try to stall for time. Jiang Peng should be on his way here!"

“I understand...”

Alex nodded.

On the other side, the bald man raised his hand and looked at the time. He twisted his neck and said, “Well, time is up. You can choose to kill yourself or I will kill you.”

“You’re not the only one who wants to kill me. But not all people who want to kill me can achieve their goal.” Alex stared at the bald head and said lightly, “But... in my opinion, you’re still different from those who made trouble for me before.”

“What’s the difference?”

“Well... you’re the only one without hair.”

The bald man frowned and said with hollow eyes, “At this time, do you still have the mood to sneer? It seems that you have a good mentality, so I don’t have to feel guilty. Since you want to challenge us, then come on. Show me your ability and let me see how much weight the young people nowadays have! Go!”

The thin man took out a machete and the fat man showed a dagger.

At the same time, they took a step forward and rushed out fiercely...

Super Son-In-Law Chapter 246 -

Before the helper called by Big Ken arrived, the opponent had already rushed up. He could only pick up a steel pipe to meet him. At the same time, he said to Alex, “Young Master, pay attention to protect yourself!”

“You too!”

Alex was not afraid at all. He twisted his neck and was ready to fight.

Big Ken originally wanted to entangle the three opponents to prevent Alex from taking risks. But today, they were all masters, so it was not easy to deal with them. He tried his best, but only blocked the bald man and the fat man. He had no time to care about the thin man, so he could only count on Alex to defend himself.

The skinny man had guessed the intention of Big Ken and had not approached him at all. From the very beginning, he had targeted the target of Alex. He sped up a few steps and suddenly flew up. Waving his machete, he chopped at Alex’s forehead with the momentum of splitting mountains and rivers.

If this strike hit Alex, he would definitely be split into two.

As expected of professional killers, these three people were obviously here to kill people.

If ordinary people encountered such a situation, they might have been scared to pee.

However, Alex had experienced a lot. At such an urgent and dangerous moment, he still maintained his reason. Seeing the thin man's movements, he didn't retreat but moved forward. Suddenly, he turned around and avoided the machete. He waved his fist and slammed it on the thin man's head.

Seeing this, the thin man sneered and said, "Isn't it courting death to fight with my machete with your fist?"

However, before he could finish his words, he was surprised to find that a cane had appeared in Alex's hand and was approaching his head!

At this time, while the thin man was still rushing forward, he couldn't hold back his feet and couldn't dodge at all. He had no choice but to give up hacking at Alex. He quickly took back his machete to resist the swinging stick. The moment the knife and stick collided, sparks flew in all directions, and there was a crisp sound. Both of their right hands were shaking so hard that they felt a little pain.

The power of Alex's attack was offset a lot, and the direction of the attack deviated from the planned track. It quickly turned into a stick with both hands. With the support of the power of both hands, the stick slipped down the back of the knife and finally hit the skinny man's shoulder!

The thin man only felt that his left shoulder was numb in an instant, and his entire left arm lost consciousness. He could imagine that if the stick hit his head just now, he would be half-dead even if he didn't die. He really didn't expect that such a young Alex could be so powerful.

The thin man realized how serious the situation was and did not dare to underestimate his opponent. He held back the pain in his left body and forced Alex away with the machete in his right hand. At the same time, he took a step back to give himself a chance to breathe.

But how could Alex let go of such a good opportunity?

As the old saying goes, take advantage of his illness to kill him. Alex didn't waste any time and pounced on him again. The heavy swinging stick became extremely flexible in his hand, and the tiger and tiger he waved brought a lot of pressure to his opponent.

"F*ck..."

The thin man cried out in pain. Although his left hand was not the main attacker, it was also a part of his body. Now his left arm was useless, and his whole body was out of coordination. Even his nerves became sluggish, and his body became even less flexible.

For a time, the sound of swinging sticks and chopping knives was endless.

The skinny man was forced to retreat by the sharp and dense attacks of Alex.

The more Alex fought, the more excited he became, and the more confident he became. After several consecutive strikes, the thin man almost couldn't hold the machete. He took the opportunity to hit the thin man's right wrist with the stick again. Finally, the thin man's machete came out of his hand.

Before Alex could stop, he had already caught up with the skinny man and kicked him in the heart.

With a dull bang, the thin man lost his balance. After taking four or five steps back, he still couldn't stabilize himself and fell into the ditch along the slope outside the road.

Although the slope was only five or six meters high, the skinny man was still beaten badly. What's worse, Alex kicked him so hard that his heart was hit. As soon as he landed on the ground, he spat out a mouthful of blood.

Among the killers formed by the three groups, the thin man had the lowest fighting capacity. He was usually responsible for tracking, investigation, and sentry posts, and rarely participated in fights. This time, considering that the target was just an ordinary person, the thin man took the initiative to ask for an addiction.

The bald man and the fat man agreed to the skinny man's request and entangled the seemingly difficult-going Big Ken.

As a result, the thin man couldn't even bite Alex, who was a soft persimmon...

On the other side, Big Ken was also fighting fiercely with the bald man and the fat man.

With Big Ken's strength, he could have fended off the attacks of the bald man and the fat man.

The problem was that Big Ken had to pay attention to the battle situation in Alex.

The fighting capacity of the bald man and the fat man was far above that of the thin man, and they often fought. Not only were they experienced, but they also cooperated very well, reaching the effect of adding one plus two. Taking advantage of the distraction of Big Ken, they caused a lot of trouble for Big Ken.

However, both of them had paid a certain price. Both sides were injured.

Seeing that the thin man fell into the ravine for a long time, the bald man couldn't help but worry. He took the fat man to fight and retreat. He pulled a few meters away from Big Ken and signaled the fat man to go and see the thin man with his eyes. He was responsible for guarding himself, which indicated that the battle was going to stop.

Alex noticed that there was a cut on Big Ken's left arm. He quickly ran over and asked, "Brother Big Ken, how are you?"

"It's okay, it's just a minor injury!" Big Ken shook his head. "Young Master, are you all right?"

"I'm fine too."

"That's good..." Big Ken nodded, took out a small bottle as thick as a finger from his pocket, bit off the stopper with his mouth, poured a little gray powder on the wound on his left arm, and explained to Alex, "This is a special medicine for stopping bleeding, specially developed for skin trauma."

"It's so amazing?"

Alex found that after a few seconds, the powder stopped bleeding!

Big Ken just smiled and put away the bottle without explaining.

The fat man checked the skinny man's injury and returned to the road. Without reporting the situation to the bald man, he waved his dagger and pounced on Alex fiercely. "Boy, how dare you hurt my brother? Hand over your life!"

The bald man realized that something was wrong and attacked again.

After learning that Big Ken was injured, Alex deeply realized that the opponents he met today were not easy to deal with. In order to help Big Ken to share the pressure, he took the initiative to meet the fat man. After fighting for a few minutes, he found that the fat man was more than one level higher in strength and experience than the thin man.

The more the fat man fought, the more surprised he became. He had thought that this task would be very simple, but he didn't expect that the skinny man, who was full of strength, would lose his combat capability in less than five minutes, which was far beyond his expectation. Now that he had fought against Alex in person, he couldn't end it as quickly as possible.

On the other side, Big Ken and the bald man fought for a few minutes. After getting a clear idea of the bald man's tactics and strength, they were ready to end the battle. First, a steel pipe hit the bald man's head. Taking advantage of the bald man's

staggering back, he caught up with him in a few steps and kicked him in the lower abdomen with all his strength.

“Bang...”

The bald man’s feet left the ground and flew backward, falling on the stone he had just pushed down.

With a cracking sound, the bald man’s tailbone was broken by the stone and was broken on the spot.

Seeing this, the fat man was so scared that his face turned pale. He did not want to fight anymore and ran toward the bald man.

“Beep beep beep...”

Just as Big Ken was about to deal with the fat man, he saw Jiang Peng driving his Francis’s Mercedes-Benz off-road vehicle and appearing on the hill in front of him.

The helper finally came.

However, it was a little late, and the situation had been controlled.

In the blink of an eye, the off-road vehicle came over, but the road was blocked by stones, so it couldn’t drive directly over. Jiang Peng stopped the car, got off the car and ran over, shouting, “Boss Cohen, Brother Big Ken, I’m sorry, I seem to be late. Are you all right?”

“I’m fine!” Alex waved his hand and replied, “It’s just that Brother Big Ken was injured.”

“President Cohen, take care of Brother Big Ken. Leave the rest to me!”

As Jiang Peng spoke, he took out a double-section stick from his back waist and pounced on the only killer who could still stand, which was the fat man. He shouted, “F*ck you, how dare you come here and behave atrociously? Take a blow from grandpa!”

Super Son-In-Law Chapter 247 -

Alex knew that Jiang Peng had the strength to fight against the fat man. At the very least, he would not suffer losses in a short period of time, so he went to clean up the stones on the road. The only way into the village was blocked, so he must clean up the stones. Seeing Big Ken coming over, he quickly said, “Brother Big Ken, I will do it. Don’t move! Your wound has just stopped bleeding, don’t let the wound burst open again.”

“Young Master, you’ve underestimated the special effects of the medicine...”

Big Ken waved his hand and asked while helping Alex carry the stones, “Young Master, Do you watch sports competition?”

“Ah? I... I used to look at NBA occasionally. What’s wrong?”

“Then you should know that no matter if it’s basketball, football, or other sports projects, especially combat, during the competition, there will often be injuries and bleeding. At this time, there will be doctors stopping the bleeding at the scene of the wounded. It will be solved in a second. Usually, the wounded will continue to fight after they are dealt with, and there is no need to worry about bleeding again.”

“Brother Big Ken, do you mean that they also used the special effects medicine you just used in the training ground?”

“That’s right! This special medicine is developed by your family. At present, it has a market value of more than 60% of the world’s top drugs. In addition to the centrifugal system you just mentioned, there are also many other high-quality drugs. They are all developed and produced by your family.”

“Hiss... so awesome?”

“No, no, no, this is just the tip of the iceberg of your family’s main industry! Just like this special medicine that can stop bleeding, it is only one of the hundreds of special effects that your family has developed. Young master, I remember that I once told you that Hengkang Pharmaceutical Company was just casually created by your grandfather. This statement is not exaggerated at all, because compared with your main industry, Hengkang Pharmaceutical Company is like a drop in the ocean!”

“Then what does my family do? Is their main business also medicine?”

“That’s right. Hengkang Pharmaceutical Industry is just a giant in the domestic pharmaceutical industry, and your family’s main business is one of the giants in the international pharmaceutical industry! However, the pharmaceutical industry is special. People in this industry like to make money in silence. In addition, your grandfather and father like to keep a low profile, so few people know how powerful your family is. As for how powerful it is... I can’t describe it. You will know it in the future.”

“Uh...”

Alex was so shocked that he couldn’t speak.

In fact, Alex had already guessed that the family of Wayne was in the pharmaceutical industry, and they had a strong foundation. Otherwise, it was impossible for them to develop so many special medicine with magical effects. Any of them could make people rich.

Take the special effect of the hemostatic medicine for example. It was enough to brag for a lifetime that they could cooperate with cooperation with cooperation partners such as pop drive and so on.

But Alex still didn't expect that Wayne's family was a giant in the international pharmaceutical industry!

Alex thought about it and suddenly thought of another question. "Brother Big Ken, no. According to you, my family is just very rich and lacks power. You once told me that the reason why my father can enjoy so many privileges is that he has done important tasks for the country?"

Big Ken nodded and said, "Yes, medicine is an industry directly related to human health and even life. Its importance is self-evident. Your family is a giant in the pharmaceutical industry, both domestic and international. Your family has mastered many core and top technology in the pharmaceutical industry. While earning a lot of money, your family has also been valued by the country..."

Alex couldn't wait to ask, "And then?"

"It's not convenient for me to explain this question in detail... Young master, you just need to know that there are many leaders who have used the drugs developed by your family. Let's not talk about this anymore. Hurry up and move the stones. The battle on Jiang Peng's side seems to be about to end."

"Oh..."

Alex nodded thoughtfully.

About three minutes later, the battle on Jiang Peng's side ended.

The fatty laid miserably on the ground, his face covered in dust. Meanwhile, his weapon was the dagger that was inserted into his own right arm. From the parts that were exposed, it was clear that the wound caused by the dagger was at least five or six centimeters deep, not too far from being pierced through.

Jiang Peng had quite a bit of blood on his body. However, most of it was the blood of a fat man.

At this time, Jiang Peng stood coldly in front of the fat man, stepped on the fat man's neck, and said to Alex, "President Cohen, how to deal with them?"

Alex came to the fat man and asked, "Who are you? Who sent you to kill me?"

The fat man turned his head to look at Alex, snorted with a sullen face, and said, "If you want to kill me, then kill me. There's no need to talk nonsense!"

“Do you think I don’t dare to kill you?”

Alex’s eyes suddenly turned sharp. He lifted his foot and stepped on the handle of the dagger inserted in the fat man’s arm, pressing it down with all his strength.

With a “puff”, the tip of the dagger came out from the other end of the fat man’s arm.

Before Alex could stop, he stepped on the handle of the dagger and twisted it left and right.

“Ah... Ah... my hand!”

The fat man was in pain and screamed miserably, “Stop! I’ll tell you, I’ll tell you...”

Alex withdrew his feet and said in a deep voice, “Run away! Don’t waste my time!”

“Yes, yes, it was Pei Chong who sent us here...”

“It’s him! Then how did he find you? What benefits did he give you?”

“There’s no need to look for him. We’re just hanging out with him, and we’re carrying out assassination missions for him. However, we usually don’t show up. Only when we encounter trouble that the people around him can’t deal with, will we take action. This time, he specially arranged for the three of us to ambush here. We came early in the morning to prepare.”

Alex thought for a while and soon understood.

The three people in front of him should be killers specially trained by Pei Chong. They did not do anything else but kill for him. These people were well-trained professionals who would not let them fight easily. On the one hand, it was not necessary to use them as a small trouble. On the other hand, they did not want them to be known by others. If they knew that he had masters, they would not be able to achieve unexpected results when they were needed.

Pei Chong probably didn’t expect that he didn’t pose any threat to Alex by showing all his secret weapons.

Alex would not feel sorry for Pei Chong. He touched his chin, thought for a moment, and said to Jiang Peng, “What’s the situation in the village now? Where’s my father?”

Jiang Peng replied, “The six people who entered the village last night were all under our surveillance. There is no sudden situation for the time being. Uncle Cohen will be fine under the personal protection of several brothers. If necessary, we can secretly transfer Uncle Cohen to another village at any time.”

“Okay! Then take care of these three people and hand them over to the police.”

“Okay, Mr. Cohen.”

Jiang Peng immediately took out a rope from the car, tied up the hands and feet of the bald man and the other two killers, and threw them into the car.

After that, Alex called Big Ken and Jiang Peng together and said, “Next, it’s time to meet those six opponents. If Pei Chong really rushed into the village, then his five subordinates must be masters. It’s a little difficult to deal with them.”

“It doesn’t matter, Mr. Cohen. There are many brothers in our village.”

“You’ve personally experienced the fighting capacity of that fat man just now. Pei Chong and his men must be as powerful as that fat man. Only masters like you and Brother Big Ken can deal with them. I’m afraid that those brothers in the village are still not able to participate in this level of battle.”

“In a battle, there will always be injuries. I have a good understanding of the brothers in the village, and they are not afraid of death.”

“The problem is... I don’t want my brothers to be hurt so easily. Brother Big Ken, why don’t you not show up first and provide us with long-range firepower support like last time? Only in this way can we minimize the price we may have to pay.”

Big Ken frowned. “Young Master, if I don’t go, won’t it be too dangerous for you and Jiang Peng?”

Alex waved his hand and said, “I’m just a bait. You’re the main attacking point.”

“Well... I can’t go, but I have a condition. You just need to find a way to guide Pei Chong to the entrance of the village. Don’t have a head-on collision with him.”

“No problem!”

Alex had made up his mind to kill Pei Chong and his men!

Super Son-In-Law Chapter 248 -

Big Ken thought that what Alex said was reasonable and had decided to accept Alex’s suggestion. However, he was still a little worried and said to Jiang Peng, “I will leave the task of protecting Young Master to you. Remember, revenge and killing enemies are secondary. Regardless of what kind of situation it is, protecting ourselves is the most important thing...”

Jiang Peng nodded heavily and replied, "Don't worry, Brother Big Ken. I will do my best to protect Boss Cohen."

"Okay, I'll go first. You can wait for five minutes before setting off."

"Okay, Brother Big Ken. This is the car key."

"Remember to put on the bulletproof suit. By the way, Jiang Peng, put on this pistol!"

Big Ken had almost finished his instructions. He exchanged the car keys with Jiang Peng and handed him a pistol. Then, he drove his Mercedes and set off alone. He wanted to get close to the village first and touch the mountain bag that he had ambushed last time. That place could overlook the whole village, especially the one facing the entrance of the village, which was an excellent sniping point.

Five minutes later, Jiang Peng also set off on time. He drove Lamborghini and drove his Alex to the village.

As soon as Alex arrived at the entrance of the village, he saw a sneaky young man staring at their car at an alley not far ahead. He pretended not to see it and asked Jiang Peng to stop the car. He took out his mobile phone and dialed Jared's number. "I have arrived at Maliu Village. I am waiting at the entrance of the village. Let Pei Chong rush over."

"What's going on?" Jared on the other end of the line was very unhappy. "I've provided you with intelligence. I've done my best to help you. Do you still expect me to deliver a message to you? You're already here. Why don't you go and find him yourself?"

"All right, all right! Jared, don't think that I don't know that you planned all this! Without your help, how could Pei Chong know me so well so easily? How could he hide for so long and escape from the police's eyes? I have voluntarily jumped into the trap you designed. Don't hide it. Let Pei Chong rush over. It's time for us to end it."

"Hey, Mr. Cohen, I underestimated you. I didn't expect you to clean up everything clearly. In this case, I won't beat around the bush. Just wait and see..."

Jared's trick had been exposed, so he immediately lost the confidence to act and decisively hung up the phone.

Alex resisted the urge to look for Francis and waited patiently. About three minutes later, an unfamiliar number called and quickly answered, Hey, this is Alex!

"I know it's you..." Pei Chong's voice came from the other end of the phone. "I heard that you're in a hurry to settle accounts with me, so you're already in the village. What are you waiting for? Don't you dare to come to me?"

“How would I know where you are? I’m at the village entrance, hurry up and come over!”

“Since we entered the village last night, you have sent someone to keep an eye on us. How can you not know where I am?”

Pei Chong was more straightforward than Jared. Before he could finish his words, he hung up the phone.

However, Pei Chong’s meaning was obvious.

Alex said to Jiang Peng helplessly, “It seems that Pei Chong will not come over.”

Jiang Peng nodded. “From what he said, it seems like he wants you to go and find him. President Cohen, if my guess is correct, he should have set up a trap and waited for you to fall into it...”

“Most likely, but we have no other way. We can only walk into the trap.”

“But...”

“Don’t worry too much. We’re wearing bulletproof armor, and the car is also bulletproof. Besides, Brother Big Ken is providing long-range firepower support. We have three guarantees. There are only six people on Pei Chong’s side. No matter how careful our plan is, we have a chance to get out of the trap.”

“Okay, Mr. Cohen. Since you’re not afraid, I’ll go with you!”

Jiang Peng nodded. He started the car again and entered the village, paying close attention to the surrounding situation all the way. After walking slowly for five or six minutes, he arrived at a small path to the south of the village. Pointing at a small courtyard about 30 meters ahead, he said, “Boss Cohen, Pei Chong and the other six people, they lived there last night... No, two cars were parked at the door, but now there is only one!”

Alex was looking around and wanted to see where the other car was parked. He inadvertently noticed that a young man in a black cap appeared at the entrance of the car.

The man waved at them and pointed into the courtyard, indicating for them to drive over.

Jiang Peng turned to Alex and said, “President Cohen, shall we go over?”

Alex nodded and replied, “Yes, since we’re all here, there’s no reason for us to retreat.”

“Okay, Mr. Cohen.”

Jiang Peng slowly drove to the front door of the car, pressed the glass of the car a little, and said to the cap waiting at the door, "Where is Pei Chong? We are already here. Call him over!"

The cap pointed inside and said, "Brother Chong has been waiting in the room for a long time. Follow me."

"Is Pei Chong paralyzed or has his leg broken? We are already at the door, can't he move two steps outside?"

"Boy, be polite! I've already brought you the words. You can decide whether to come or not."

After saying that, she walked into the yard and put on an indifferent look.

But Alex noticed through the rearview mirror that a black car slowly drove out of the alley about ten meters behind and stopped on the road horizontally. The road here was not wide, only about three and a half meters. It was directly blocked by the car!

Then, the car parked in front of them also started. It stepped back a few meters and stopped on the road diagonally, blocking the road.

In this way, Alex's Lamborghini was completely blocked by the other side's two cars and could not move forward or retreat.

Speaking of which, it was strange. Without a way out, not only did Alex not panic, but his heart instead became even more determined. He directly pushed open the car door and said to Jiang Peng, "Since we have come, take it easy. There is no way to keep wasting time like this. No matter what the situation is, let's get out of the car first and see."

Jiang Peng nodded. He took out the key and quickly got out of the car. Following behind Alex, he entered the courtyard together.

As soon as they entered, two young men gathered from both sides and guarded the gate of the courtyard.

Alex felt that he and Jiang Peng had encountered a lot of traps and had already gone deep into the tiger's den. Just as he took a deep breath and was about to continue walking forward, he saw Pei Chong quickly walking out of the house accompanied by two attendants.

So far, Pei Chong and the other six people all showed up.

The cap immediately flashed aside and gave way to the host seat in the middle.

Pei Chong came to the place where the cap just stood and stared straight at Alex. "I heard that Xiaopeng was caught in this village?"

Alex shrugged his shoulders. "You mean Lei Zi—Lei Yunpeng? Yes, just like you, he also made an appointment with me here. As a result, I'm fine. He suffered a great loss, and he himself was caught. Pei Chong, no wonder you led me here. Do you want to deal with me in the place where Lei Yunpeng was caught?"

"I not only want to avenge Xiaopeng, but also for those brothers who have been killed by you! Cohen, I can give you a chance on account of your initiative to come to me. As long as you kneel down and repent to them where my brothers died, I can leave you a whole body."

"What if I don't agree?"

"You only have one life, but you can't pay for all my dead brothers' lives. If you don't kneel down and repent to them, I can only cut you into eight pieces and let you die without a whole body. Only by letting you experience the most extreme pain in the world can you pay homage to the souls of my brothers in heaven!"

"If I kill innocent people, I'm willing to repent. But your brothers are villains who deserve to die. It's impossible for me to burn incense for them, let alone kneel down to repent. Pei Chong, I advise you to give up your heart as soon as possible. Otherwise... the greater the hope, the greater the disappointment."

"Are you sure you want to give up this opportunity?"

"Yes, yes, yes."

In the process of communicating with Pei Chong, Alex had been thinking about how to get out of danger. In addition to protecting himself, he also had to find a way to lead Pei Chong and others to Big Ken's sight. As long as Big Ken saw them, the sniper rifle could be used. At that time, he, as a "pert", could escape from danger.

And the reason why Pei Chong didn't attack Alex as soon as they met was that he wanted to force Alex to confess to those dead brothers.

But now Alex had made it clear that they would not do that, so they could only use force.

Pei Chong's patience was exhausted. He suddenly glared and said, "Do it!"

As he gave the order, all five of his men reached out their right hands to the back of their waists. Obviously, they wanted to pull out their guns.

Jiang Peng, who had been paying close attention to the situation on the spot, moved faster. He took the lead to show his pistol and fired several shots in succession, knocking down an opponent beside Pei Chong. The three opponents, including Pei Chong, were scared out of their wits and jumped to both sides.

There was no installed pistol, and the gunshot was very loud, which caused great fear to the opponents.

Unfortunately, Jiang Peng only forced back his opponent. The two young men guarding the door shot at them in the process of retreating. For a time, gunshots were heard continuously, and both his and Alex's waists were shot. Although they were wearing bulletproof armor, it was still very painful when the bullets hit their bodies.

When Jiang Peng took out his gun just now, he protected his Alex and walked back quickly. After being shot, he gritted his teeth and endured the pain. He turned around and fired several shots in succession. After that, he successfully forced back the two young men at the door. He took the opportunity to protect his Alex and came to the side of the car, shouting anxiously, "President Cohen, get in the car!"

Alex gritted his teeth and insisted on running over. Although he was in a panic, he did not lose his mind. He quickly opened the back door and got in.

The opponents finally realized what was going on. They rushed over and shot wildly.

Although Jiang Peng was pulled into the car by Alex at the fastest speed, he was still shot five or six times on his back. He was in so much pain that he was out of breath. His face was pale and he couldn't move at all.

Alex took out the car key from Jiang Peng's trouser pocket and locked the door and windows. He quickly pinched Jiang Peng's philtrum and shouted, "Jiang Peng, how are you? Don't scare me!"

Jiang Peng suddenly woke up. He gasped for breath and hurriedly checked. He shook his head and said, "Fortunately, all the bullets were blocked!"

As soon as he finished speaking, Pei Chong and others rushed to the side of the car.

Pei Chong had already known that Lamborghini's glass was bulletproof, or he was still angry. He raised his gun and fired at Alex's head several times. Then he smashed the glass with the gun handle and shouted hysterically, "Get down if you have the guts! Hurry up and open the door!"

Alex pressed one hand on the spot where the bullet hit, and made a middle finger gesture at Pei Chong with the other. "Come in if you have the ability!"

"F*ck you! Do you think I can do nothing to you after getting in the car?"

Pei Chong angrily called the man in the cap over and ordered, "Go and get the barrel of gasoline from my car!"

"Yes!"

Having received the order, he immediately went to the car in front of him and took out a pack of 25 liters of gasoline.

Seeing this scene, Alex was so scared that his heart trembled. It could be guessed that Pei Chong was going to burn his Lamborghini with gasoline. He really didn't expect that Pei Chong still had this trick at such a critical moment. Gasoline was not for fun. Once it was ignited under the car, if he and Jiang Peng didn't get off the car, they would most likely end up with a tragic ending of car destruction and death. They would really die without a whole body.

But if they got out of the car and faced the six men and six guns of Pei Chong, they would die...

Super Son-In-Law Chapter 249 -

Jiang Peng recovered his strength and sweated profusely. He endured the pain, took out his magazine and found that there was no bullet left. He threw away his gun, picked up a baseball bat, gritted his teeth and said, "Mr. Cohen, you stay in the car. I'll go down and fight with them! If it really doesn't work, I'll run and lead them to the place where Brother Big Ken can see!"

"No!"

Alex, who was looking around, reached out and pressed Jiang Peng's arm. "I guess Pei Chong and the others have already known that we are wearing bulletproof clothes. If you go out now, they may not shoot at the waist and abdomen. Once you are hit by the place where the bulletproof clothes are not covered, you will be finished!"

"President Cohen, if we stay in the car, we will definitely die. If I rush out, there will be a chance of survival, right?"

"Sit tight and support me! Let's see what will happen next!"

Alex gave Jiang Peng a determined look, slipped to the driver's seat, and quickly started the car.

Jiang Peng was confused and asked in a daze, "President Cohen, the front and back are blocked. Where can the car go?"

Pei Chong outside the car was nervous for a moment, and then he was relieved. He couldn't help sneering, "Cohen, even if you f*cking put wings on the car today, you can't

escape from me! Run away, pour gasoline into the car, pour it on the road, and burn him to death!”

The cap quickly opened the lid of the oil bucket, picked up the oil bucket, and poured gasoline on the Lamborghini.

At this moment, the Lamborghini shot out like an arrow out of the string and hit the car 10 meters away.

This operation was simply suffocating.

Pei Chong and the others were dumbfounded.

They all thought that Alex was desperate and chose a suicidal way to escape.

Seeing that a car accident was about to happen, Jiang Peng was so scared that his face turned pale. It was too late to fastened the seat belt. He quickly grabbed the armrest and closed his eyes. But the next second, the car did not hit the car in front as he expected. It just shook violently and then turned around. He suddenly opened his eyes and found that the car rushed out of the left road, broke the fence made of bamboo, and drove into a deserted slope.

“Is there such an operation?”

Jiang Peng’s heart was very complicated. “President Cohen, is there... a road ahead?”

“No!” Alex grinned. “But I can open up a way!”

“Ah?”

Like Pei Chong and the others, Jiang Peng was not familiar with the terrain of the village, but he was familiar with Alex!

Alex grew up in this village and was as familiar with the surrounding environment as his own home. To put it in an exaggerated way, no matter where he was thrown, he could walk back with his eyes closed. Although he rarely went back to the village since high school, when he looked around just now, he found the familiar feeling back. He had already planned a route in his mind. After passing through the slope and fields, he could finally return to the road at the entrance of the village!

If they were driving a car, because the land was too low, they might not be able to reach the village entrance.

However, Alex was driving an off-road vehicle. After turning on the off-road mode, the surface of the vehicle rose quite a bit, and the performance was also good. As long as

one's eyes widened, avoiding the water pit and earth bag, it wouldn't be a problem for them to walk straight through. However, under this type of road, they couldn't speed up.

However, not only the two legs could catch up with the four wheels.

Pei Chong led his followers to chase after them for a few minutes, and then they ran away.

Even though all the bullets in the gun had been shot out, they still couldn't catch up with the Lamborghini.

"Stop chasing!" Pei Chong was the first to stop. He stared at the Lamborghini and shouted, "They can't keep running in the wilderness. Sooner or later, they will return to the road. There is only one way out of the village. If we chase them along the road, we will definitely catch up with them!"

After that, Pei Chong ran back to the car with his followers and chased after them at full speed.

They didn't know that Alex was eager that they caught up with them...

Alex carefully drove the car to the village entrance and returned to the road. He still did not speed up. He just took a deep breath and said to Jiang Peng, "Finally, the tiger entrance escaped from danger! How do you feel now?"

Jiang Peng wiped the sweat from his palms on his pants and replied awkwardly, "I've gotten used to the pain caused by bullets, but I'm still nervous now. Mr. Cohen, thanks to you, otherwise, we would have been roasted today."

"This is my territory. How can I be bullied by a group of outsiders?"

"Then, it's time to fight back!"

"Yes!"

Alex nodded heavily, took out a clip full of bullets from a shield, and threw it to Jiang Peng.

As soon as Jiang Peng put on the magazine clip, he heard a sound from behind. He subconsciously looked back and said, "President Cohen, they must have caught up with us!"

"Is he finally here?"

Alex grinned and sped up, pretending to be in a panic.

About 30 meters behind them, Pei Chong sat in the front car. As soon as he rushed out of an intersection, he saw the Lamborghini. He quickly patted the driver's seat and urged, "Hurry up, hurry up. They are on the road. Hurry up and catch up with them. Don't let them run away!"

After that, Pei Chong poked his head and hand out of the window, raised his gun, and fired at the Lamborghini.

However, the car was shaking too fast, and the target was also moving very fast. The accuracy could not be guaranteed, and it was useless to hit the target without hitting it. Unconsciously, they had arrived at the open area of the village entrance and were exposed to the sniping range of Big Ken.

Big Ken, who had been waiting on the hill bag for a long time, just saw Alex drive Jiang Peng out through the telescopic sight. He breathed a sigh of relief and was also ready to shoot.

However, Big Ken was not in a hurry. He didn't fire until the two target cars entered the sniping range.

A high-speed sniper bullet made a big hole in the front front of the target car. It pierced through the driver's heart and finally embedded in the seat. The car suddenly went out of control and was hit by the car behind that failed to stop in time. It floated horizontally and turned to the side of the road.

Then, Big Ken did the same thing and killed the other driver.

The car behind him did not turn sideways, but hit the car in front directly.

Although it happened all of a sudden, Pei Chong's protective measures were strong enough to save his life during the process of turning over the car. However, his head was broken and bleeding, and his right arm was broken. It was not the fracture at the joints, but the bone in his arm was broken in two from the middle!

The person sitting in the front passenger seat was not as lucky as Pei Chong. He was thrown out and fell to the ground without moving. It was unknown whether he was alive or dead.

The person sitting in the co-pilot seat at the back of the car fell out because he didn't have a seat belt. He knocked off the front seat and flew out, hitting the bottom of the front seat directly. He also had his head opened all the way and died on the spot.

Of the six people on Pei Chong's side, only two could move.

Pei Chong, who was the least injured, knew that there was a sniper on Alex's side and guessed the general direction of the sniper. He slowly got out of the car and hid behind

the car. Through the gap, he knew that Lamborghini stopped and retreated. Suddenly, he realized that all this was planned by Alex!

Pei Chong was so angry that he wanted to rush over and tear Alex into pieces.

But he didn't dare to show up. He gritted his teeth and shouted at the Lamborghini, "Cohen, if you have the guts, withdraw the sniper. I'll fight you one-on-one!"

At this moment, another gunshot sounded.

It turned out that the person sitting in the back seat also climbed out of the car. He didn't hide himself well and was exposed to Big Ken. Before he could get over and get along with Pei Chong, he was shot in the head by Big Ken. He died worse than the person who hit the bottom of the front seat.

Finally, he was the only commander left on Pei Chong's side.

Alex got out of the car and sat next to the car. He poked his head out and stared at Pei Chong. Suddenly, his eyes lit up. "Pei Chong, have you seen the big pit in front of you? More than half of the people brought by Lei Yunpeng were killed there. They died of old age and flesh flying everywhere. The people you brought with you also died there. Maybe this is the will of heaven..."

Super Son-In-Law Chapter 250 -

Pei Chong was already angry, and when he heard what Alex said, he was so angry that his lungs were about to explode. However, under the deterrence of the sniper rifle, he didn't dare to show up. Knowing that he couldn't escape today, the only thing he wanted to do was to fight to the death with Alex.

Even if his right arm was broken, he must avenge his dead brother before he died!

Pei Chong made up his mind and suppressed his anger. He shouted, "Cohen, if you are a man, don't use your gun and fight me. Do you believe that I can beat you to death with one hand?"

Alex suddenly became interested. "One-on-one? I like it!"

"Boss Cohen..." Jiang Peng hurriedly persuaded, "Pei Chong is at a dead end now, and he wants to play tricks. There is no need to be righteous to a villain like him. You just stay here and watch. I will explore and kill him. At most, three minutes will be enough for him to move his head!"

"I know he wants to drag me down with him. What a coincidence. I also want to deal with him myself."

“But...”

“Jiang Peng, don’t worry. I know my limits.”

“All right... I’ll get him here first.”

Jiang Peng couldn’t resist Alex, so he had to agree. He made an “OK” gesture to Big Ken through the air, indicating that everything was under control. Then he shouted at Pei Chong, “Pei Chong, it’s not impossible for you to fight with Boss Cohen one-on-one, but you must throw it over first!”

“No problem!” Pei Chong raised the gun over his head and suddenly retracted it. “Then you have to promise that you won’t shoot me.”

“You’re not qualified to bargain!”

“Okay, okay, okay!”

Pei Chong didn’t want to miss the opportunity he had struggled to win, so he threw the gun out.

Jiang Peng quickly picked up the gun and checked the clip. After the bullet was loaded, he aimed at Pei Chong and continued, “Now you can come out. Raise your hands above your head and don’t move. Otherwise, I can guarantee that your head will become a pile of debris!”

“My right arm is broken and I can’t move, but I promise that both of my hands will be kept in the place where you can see.”

“Anyway, don’t play any tricks!”

“I’m out!”

Pei Chong stretched his left hand over his head and slowly stood up. His body leaned to the right, allowing his unconscious right arm to naturally shrug. Then, in this funny and strange posture, he walked out from behind the car and said to Jiang Peng, “I don’t have any weapons on me!”

“Cut the crap. Just stand there and don’t move!”

Jiang Peng carefully walked over and carefully fumbled through Pei Chong’s body. He took out all the keys, wallet, and other external things. Then he pointed to Alex and said, “You can go over there. However, I’ll remind you first. In the process of a one-on-one fight with Boss Cohen, you’d better not act recklessly. I’ve been staring at you, and the snipers are always ready.”

“I know!”

Pei Chong nodded, put down his left hand, and walked toward Alex with no expression on his face.

Alex also took a few steps forward and stood at a place about two meters away from Pei Chong. He stared at Pei Chong’s right arm and said, “If you had sought revenge on me in this way from the beginning, I wouldn’t have called the police either. But you insisted on taking the wrong path and hurting my friend, which also implicated your brother. If I had known today, why would I have called the police?”

“What’s the point of talking about this now?” Pei Chong replied coldly, “Besides, now that you have the initiative, you can do whatever you want.”

“Believe it or not, it’s up to you. Let’s get down to business. You want to avenge your brother, and I want to avenge my friend. Let’s see who is the real deal. Don’t say that I’m taking advantage of you, you can only use one hand, and I don’t need a weapon, and I’ll give you one hand!”

“That’s what you said yourself! Take this!”

Pei Chong couldn’t wait any longer. After saying that, he rushed over.

On the back of Alex’s right hand, although he was not used to it, he still went up to it fearlessly.

As for Jiang Peng and Big Ken who were still on the hill, they were closely watching the battle situation and preparing for the battle. Once there was an accident, they would shoot Pei Chong to death without hesitation. Of course, under normal circumstances, in order to take care of Alex’s face, they would not interfere in this battle...

If Pei Chong wasn’t injured, then regardless of whether it was combat strength or actual combat experience, he would be a level higher than Alex. However, now that he was injured and his brain was no longer flexible, it was impossible for him to display his full strength. On the other hand, Alex wasn’t injured, and his right hand was voluntarily giving up on using it instead of being crippled. In this battle, he had a certain advantage.

Alex didn’t waste his advantage. He took the upper hand from the beginning and beat Pei Chong back.

In a minute, Pei Chong was forced to the side of the car.

Just then, something unexpected happened.

Pei Chong was kicked by Alex into the car. He suddenly raised his right foot, and with a loud crash, a sharp blade that was more than ten centimeters long appeared on his right toes. It was clear that this was a secret weapon installed on special shoes!

Seeing this scene, Jiang Peng's heart immediately tensed up. He regretted that he had been too careless earlier. When searching his body, he was not careful enough and forgot to inspect Pei Chong's shoes.

But now it was too late to say anything!

"Bastard! Go to hell!"

Pei Chong blamed himself and the atmosphere. He made up his mind to kill Pei Chong. But after he raised the gun, he found that he couldn't guarantee that Alex wouldn't be hit when he tried to shoot Pei Chong. Although the distance was very close, the bullets were not sharp. In addition, he was not a divine gunman, so he couldn't guarantee that he could hit the target in a moving state.

As for Big Ken on the mound, he didn't dare to shoot when Alex was next to Pei Chong.

Alex also saw Pei Chong's secret weapon in the first place. He was shocked, but he avoided the attack of the sharp blade in time. Relying on the initiative, he wanted to end the battle as soon as possible.

But Pei Chong suddenly changed his strategy and forced Alex to retreat. After Jiang Peng and Big Ken fired, he hid behind the car and picked up a pistol from the ground.

"F*ck!"

At this critical moment, Alex couldn't help swearing.

It was not until this time that Alex knew that all this was planned by Pei Chong. The first step was to get a chance to fight him one-on-one, the second step was to lead him to the car, and the third step was to show the secret weapon on his feet. The most important step was to pick up the spare pistol prepared in advance!

Fortunately, he found it in time. When Pei Chong raised his gun, he rushed back quickly.

Just as Pei Chong was about to shoot at Alex, Jiang Peng shot first.

Pei Chong really didn't expect that Alex and Jiang Peng would react so quickly. The big plan of revenge, which he originally thought he would have at least 80% success rate, had failed. If it were an ordinary opponent, he could directly solve the battle with the sharp blade on his toes without using the fourth step!

Similarly, Pei Chong didn't have the chance to do it again. In order not to be hit by Jiang Peng, he could only hide first.

Jiang Peng quickly protected Alex and returned to the back of the Lamborghini. Before he could catch his breath, he looked Alex up and down and asked eagerly, "Mr. Cohen, are you all right?"

Alex waved his hand. "I'm fine. He didn't stab me."

"That's good, that's good... Mr. Cohen, I'm sorry. I was careless and almost made a big mistake."

"It's not your fault. You've done it very carefully. Who would have thought that he would have such a trick? Don't blame yourself. I don't mean to blame you. Besides, I'm fine." Alex patted Jiang Peng on the shoulder and comforted him. Then he shouted at Pei Chong, "Pei Chong, what about the one-on-one fight? I used to hear people say that you are a powerful figure, so I wanted to fight with you. I didn't expect that you were a shameless villain! If I had known that you were such a person, I would have shot you!"

Pei Chong hid behind the car and replied angrily, "You want to kill me? You can do it now. If you have the guts, just rush over!"

"Do you think I don't dare?"

"Then come here! I have a gun, and you also have a gun. It's fair!"

"Then wait and see!"

Alex then said to Jiang Peng, "Lend me the gun. I want to kill him myself!"

Jiang Peng shook his head, pressed Alex's arm, and said, "President Cohen, calm down first! Pei Chong has no other choice but to provoke you to fight with him on purpose. It's obvious that he has the same plan as before. We have done it once, so we can't make the same mistake again. I know that you have a deep hatred for him, but now the situation is special, and it doesn't make any sense!"

"I..."

Alex was at a loss for words for a moment. He raised his hand and patted his forehead to calm himself down. After thinking about it carefully, he realized that he had just been blinded by hatred and that what Jiang Peng said was reasonable. He called Big Ken and asked directly, "Brother Big Ken, in this situation, are you sure you can kill him directly? I don't want to deal with such a villain like him."

"Young Master, I'm just waiting for your words. Just wait and see!"

Big Ken kept him guessing and hung up the phone. Then he adjusted his breathing and pulled the trigger.

This bullet didn't rush at Pei, but aimed at the fuel tank of the car. The powerful sniper bullet broke the skin of the car and penetrated the fuel tank. The sparks caused by the impact of the bullets and iron sheets ignited the overflowing gasoline, and then detonated the fuel tank.

With a "boom", the car was blown up and set on fire.

Pei Chong was swallowed by the fire before he could react.

The car next to the overturned car was also ignited. Soon, the fuel tank exploded, making the fire even more violent. Thick smoke billowed, which looked very scary.

Alex stood in front of the Lamborghini, stared at the fire, and suddenly thought of something. He took out his mobile phone and took a video of the fire field. This video would only show it to Cynthia alone. Now Cynthia's inner demons were very serious. If she saw the scene of someone who had been raped hiding in the fire, her inner demons might be eased a little.

Not long after, Big Ken came with a sniper rifle on his back and said to Alex, "I just saw a police car motorcade coming over here. The leader is Group Leader Pang's car, and it will arrive here in two minutes. Shall we wait for him to come over or leave directly?"

"Wait a minute," Alex replied without hesitation. "I didn't explain the situation to him in time and chose to deal with it on my own. It's a little disrespectful of him. If we leave now and leave the mess to him, it'll be too unkind."

"That's fine. When Group Leader Pang knows the situation, you can tell the truth."

Big Ken thought that although Pei Chong and his men deserved to die, Alex, as an ordinary person without the right to enforce the law, should try to distance themselves from the relationship as much as possible. It was better not to get into such trouble.

Sure enough, about three minutes later, the patrol wagon arrived.

Alex went up to Group Leader Pang, took the initiative to explain the situation, and then added, "I'm sorry, Group Leader Pang. Pei Chong threatened me with my father's life. Not only did I not dare to ask you for help, but I didn't even dare to bring a few more helpers. You know, Pei Chong is a ruthless character who kills without batting an eye..."

Group Leader Pang nodded gently. "It's good that you're all right. Besides... you can't do it again."

“Thank you for your understanding! Group Leader Pang, you go ahead. I won’t bother you anymore. Go and see my father.”

“Go ahead. By the way, we may need to know more details from you later on.”

“No problem. You can come to me at any time.”

After chatting with Group Leader Pang, Alex left in a car. On the way back to his hometown, he began to plan for revenge on Jared...
