

Super Student 391

Chapter 391

Everyone was astonished to see how quickly Ye Lu had finished making the pills.

“So fast, fake it.”

“Yeah, what is he refining, it’s so easy.”

“Did he really refine it or not, he can’t be cheating.”

.....

The crowd all started to talk about it.

Even the person in charge of the Ge family was a bit confused, because they had done something to the recipe, and even if they hadn’t, something like the Five Elements Pill wasn’t that easy to make, and even the questioner, who was an expert of the Seventh Turn of the Golden Elixir, didn’t dare to say that he could make it in such a short time.

After all, he had never made one before, and if he wanted to balance the five elements, he would have to learn the laws of the five elements.

Seeing his expression, the guy beside him who had just patted him on the back then laughed and said.

“I think he probably failed in refining, so he raised his hand, after all, there are only enough materials for one quantity, and if you fail in any step, you don’t have a chance.”

Hearing him say that, the questioner then felt a little better.

Lin Ruyue, who was also refining pills, also looked at Ye Luo with some confusion, however, she was not a bit surprised that Ye Luo was so fast, but because she felt that the stuff Ye Luo was refining seemed to be different from all of them.

This time, Lin Ruyue didn’t think that she could stand out to get the famous word or anything, so she was actually more focused on observing Ye Lu.

“It can’t be that the people from the ‘Ge family’ have really given Master Shifu small shoes, right?”

She muttered with some worry.

At this time, the person in charge of the inspection had already walked over towards Ye Luo.

After all, Ye Lu was the first to finish, so he instantly became the focus of the entire venue.

The guy in charge of the inspection certainly knew that Ye Lu’s dan recipe was special, so when he walked up to him, he also looked at Ye Lu with some doubts and said.

“You’ve really refined it?”

Ye Luo nodded and said.

“Well, not to mention, this dan recipe is really quite interesting.”

It was also the first time Ye Lu had refined a pill with five attributes at the same time, so he felt that the refinement was still rewarding.

The person in charge of the inspection, on the other hand, secretly skimmed his lips and said to himself.

“There’s a gross point, you have to be able to refine it as well.”

With those words, he reached out and opened the dan furnace.

The dense Five Elements Qi greeted him, and without looking, he knew that Ye Lu’s refinement was successful, and the neatly arranged pills inside that emitted a crystal luster also proved it.

“Huh!”

This time it was the turn of the man from the “Ge family” who was inspecting it to be surprised, his eyes widened as he looked at the potion furnace and then at Ye Lu with a look of disbelief on his face, before asking after a long time.

“Have you ever made this kind of potion before?”

Seeing this guy’s expression, Ye Lu probably understood what was going on, moreover, this guy looked like he would die if he hadn’t refined it before, so Ye Lu thought for a moment and said.

“Refining, ah, often refining, familiar with it.”

Only after hearing Ye Luo’s words did this guy let out a sigh of relief, then nodded and said.

“In that case, not bad, not bad, you’ve passed.”

Hearing that he had passed, Ye Lu smiled, then turned around and left on his own.

The reason why he said that he had practiced the “Five Elements Pill” before was that he suddenly thought that if he overacted, these grandsons of the “Ge Family” would still use some methods to make things difficult for themselves.

However, Ye Luo had not even stepped out of the venue when the guy in charge of the inspection dropped the pills in his hand with a “pop!” It fell to the ground with a loud bang.

The onlookers did not hear Ye Luo’s words of qualification due to the distance, however, everyone saw the disorderly performance of the guy in charge of the inspection.

“What is this? Could it be that the elixir was too poorly refined?”

“I think it’s very likely that it’s like that, to be able to refine farts so quickly!”

“I told you, he’s just here to mess up.”

.....

The questioner was also a bit surprised by, this “Ge family” person’s disorder, and he couldn’t help but cough to remind that guy.

Only then did the checker come back to his senses and say.

“No. 9528, Ye Lu, ‘Five Elements Dan’ is complete, pass!”

Hearing his words, the audience all erupted, because the difficulty of the “Five Elements Pill” was obvious to everyone.

The questioner also stood up in surprise.

He didn’t expect such a result either.

And Lin Ruyue also understood, indeed, she had not been wrong, Ye Lu had really refined something different from everyone.

“The people of the ‘Ge family’ are too bad.”

Lin Ru Yue muttered with some hatred in her heart.

However, when she heard that Ye Lv Dan had passed the test, Lin Ru Yue’s heart was still happy, and then she began to intensify the refining of the pills in front of her, she could not even functionally pass the test, then “Master Mo Lian” would definitely beat herself up.

At this time, the guy who was in charge of the inspection had already brought the pills Ye Lu had made to Ge Yun of the “Ge Family”, the person who had asked the question, in front of him.

“Uncle Yun, please take a look at this.”

This guy took out the elixir and put it in front of Ge Yun.

Ge Yun’s eyes narrowed instantly.

This was because he also felt the unusual nature of the elixir, and following that, he picked it up.

“How is it possible that this is a ‘Heavenly Grade’ elixir, and it also contains a special aura.”

Ge Yun had never seen aura before, he just felt that this kind of elixir had the feeling of the legendary “spiritual elixir”, however, that kind of medicine was not something that could be made by the current great powers.

“He said he had made this kind of elixir before.”

Seeing Ge Yun’s doubts, the inspector whispered.

However, Ge Yun’s frown didn’t stretch too much, because even if he had refined it before, it wasn’t that simple to refine a “Five Elements Pill” to this extent.

“Pay more attention to this kid, better find a way to find out about him.”

After he finished speaking, the other flatterer nodded solemnly, but, to be honest, he didn’t take it to heart, as he felt that it was none of their business.

The rest of the participants were waiting outside for the test, while a group of those who had withdrawn of their own accord gathered together and chatted with each other, lamenting the perversity of this event.

Following this, everyone saw that Ye Lu had actually come out.

At this point, someone then laughed and said.

“Hey, the first one to be eliminated came out, not even the slightest bit of self-awareness, how dare he go to the test, now he’s come out in the dust.”

“That’s right, but the fight yesterday was really quite handsome.”

“There’s no use fighting.”

.....

However, while everyone was talking, Ye Lu had already turned a corner to the temporary venue on the other side under the direction of the people from the “Ge family”, which was arranged for those who succeeded in the test.

“Huh! He’s done it.”

“No way, so fast, did he cheat.”

“Bribed someone from the ‘Ge family’ I think.”

“Bribery my ass, didn’t he just beat up someone from the Ge family yesterday.”

.....

It was no wonder that everyone was talking like this, Ye Lu was indeed too fast, and after he entered the temporary venue, the others were slow to come in.

After another while, finally another person finished refining.

The person in charge of the inspection walked over and looked at it, then announced in a loud voice.

“No. 2018, Huo Miao, ‘Beneficial Qi Pill’ is complete, pass!”

Hearing the man’s announcement, the onlookers were once again dumbfounded, as the ‘Beneficial Qi Pill’ was the most basic of the ‘Second Grade’ pills, and its function was to replenish the ‘Innate True Qi’, which was also the simplest one.

“The ‘Five Elements Pill’ and the ‘Beneficial Qi Pill’ are one above the other, what is this ‘Ge Family’ up to?”

The crowd all muttered in some confusion.

After all, the two kinds of pills were too far apart.

Soon, everyone had finished refining the pills one after another, and it was only then that the audience realised that Ye Lu was the only one refining the ‘Five Elements Pill’, while everyone else was making very simple pills.

“I told you, that kid is making a fool of himself, if he can win the championship, I’ll eat soap live!”

Seeing this situation a spectator looked at the venue and said with certainty.

Chapter 392

Of course, everyone understood that the people from the Ge family were targeting Ye Lu.

But Ye Lu was not very clear about it yet, as he was chatting with the other qualified participants at another venue.

“Does everyone have to take this test?”

Ye Luo looked at this guy beside him and asked with some confusion.

“How come I don’t see anyone from the ‘Yan Clan’ and the ‘Sui Ren Clan’ taking the test.”

The guy looked at Ye Lu, he was a little surprised at Ye Lu’s ignorance, however, he didn’t dare to say it, he was cautiously organizing his words because he was worried that he would be beaten by Ye Lu if he didn’t say it properly, then he said this.

“Mr. Ye, this matter is like this, in fact, those who need to take the test are those who are not in the class, or those who are participating in the ‘Pill Refiner’ conference for the first time, those who are already recognized, such as many of the ‘Pill Alliance’ star pill masters, they don’t need to take the test, the people from the ‘Yan Clan’ you mentioned and the ‘Sui Ren Clan’, they are all pill refining masters who can refine ‘clan master level pills’, so naturally they don’t need to participate in the test.”

Hearing this guy’s words, Ye Luo understood why he didn’t see any other masters, it turned out that this test was meant for those of them who didn’t seem to be very reliable by the organizers.

Seeing that Ye Luo had no intention to get mad, this guy was relieved, yesterday Ye Luo’s savage performance had made this guy feel that Ye Luo was just a brutal and unreasonable guy who would strike at the drop of a hat.

Now it seemed that Ye Lu was still quite an amiable person, so he asked boldly.

“Excuse me, Mr. Ye, how did you refine it so quickly and successfully, I’ve never been able to understand it.”

Hearing his question, Ye Luo then smiled and said.

“This is very simple, because ‘Five Elements Pill’ I often refine it, so I am very familiar with it, I can refine it even with my eyes closed, it’s kind of like a blind cat running into a dead rat.”

Only when he heard Ye Luo’s words did this guy breathe a sigh of relief, otherwise Ye Luo’s level had really scared him.

While at this time, that questioner, Ge Yun, was discussing with another old man about Ye Luo.

“Uncle, what do you think should be done about this matter?”

Ge Yun asked the white-haired old man.

This old man’s name was “Ge Fei Long”, but of course he also had a more resounding name called “King of Dan”, and was also the strongest ancestor of the “Ge Family” in alchemy, and the “Ge Family” had a great deal to do with him being able to undertake this “Pill Alchemist Conference”.

The old man thought for a moment and said.

“Are there any results from Feng’s investigation?”

Feng’er, also known as Ge Feng, was the one who had just flattered Ge Yun.

Ge Yun nodded and said.

“Checked it out, so far nothing is seen, the identity is correct, from the Mo Lian lineage of the ‘Pill Alliance’, can’t find out what background there is.”

Hearing Ge Yun finish, Ge Feilong said after thinking about it.

“This matter, do it thoroughly, be decisive if you want to get him out, there is no need to keep your hand, of course you can’t let people say anything, as for the measure, you just grasp it yourself, you can’t let people feel that we are targeting this guy and fail to finish him off instead, understand?”

Hearing Ge Feilong’s words, Ge Yun then smiled and nodded.

“Just find a way to play him to death.”

Ge Feilong muttered in his mind.

“This should be fine.”

At this moment, in the meeting room where Ye Lu was, a man from the Ge family was giving a boring speech to the people who had passed the test.

The main theme of the speech was to congratulate everyone who had passed the test, and then to tell them to keep working hard tomorrow and other bullsh*t.

Ye Luo couldn’t stand meetings, so he stopped for a while and then left in the middle.

After he came out, Ye Lu walked into the depths of the Makuushi Mountain and began to try to purify his own bloodline. He had left all his back-ups behind this time, and only had the War God Caraxis with him, as well as the Tongtian Vine, which had almost finished eating.

If there were no higher grade herbs for it to eat, it would not be able to break through again anytime soon.

Therefore, Ye Lu had to think about what kind of back-up moves he could use in case he encountered an unusual situation. For Ye Lu now, the strongest move to cross the level of challenge was still the “Summoning Technique”, especially the “Blood Summoning” which used his own blood as the main ingredient, but if he wanted to control the summoned object, he would need a stronger bloodline to support it.

Of course, after this alchemy, Ye Lu also found out that the organisers would probably come up with a lot of underhanded tricks afterwards, so he had to guard against them, and of course, he also had to make some preparations for the grand finale of the Alchemist Conference.

In this way, it was soon evening, and Ye Lu and the group had a sumptuous dinner before going to the distant valley in the dense forest alone to continue their training.

She wanted to go with Ye Lu, but Ye Lu refused because he didn't know if there would be any accidents, and in this camp, there were people from the "Ge family" to protect her, so she didn't have to worry about safety.

This time, Ye Lu wanted to cultivate three kinds of flames, among the three flames, it was the "Nine Heavens Xuan Huo" that was the strongest, because with the mature "Nine Heavens Xuan Huo", the "fire seed" had grown to the limit of Ye Lu's body at the fastest speed.

Ye Lu estimated that when the Nine Heavenly Mystic Flame was released, even an expert of the Fifth Turn of the Golden Elixir would be defeated.

However, this made the "Red Lotus Karma Flame" and the "Ghostly Flame of the Underworld" weaker, and Ye Lu was ready to find a way to enhance these two flames.

However, while Ye Lu was cultivating in the dense forest, a beautiful woman from the Pill Alliance was looking for a place to take a piss on the edge of the cliff to the side of his location.

In fact, her thoughts were similar to Ye Lu's, she wanted to take advantage of the last moment to improve her chances of success, as this place was far away from the camp, not only was it clean, but the woods were also dense and secluded, however, people have three emergencies, so she found a place to squat when she felt that there was no one around.

However, what she did not know was that Ye Lu had actually seen her, but this state made Ye Lu also did not know what to do, so she had to stand quietly behind the tree, some thieves peeped up.

At this moment, Ye Lu's head recalled the scene when he first met Jasmine, also on this moonlit night and at a similar time, but that time, he was very close to Jasmine and the angle was good, so he could see clearly, this time was different, from this angle, he could only see the woman's pretty face and movements.

While Ye Lu was feeling a little regretful, he suddenly saw that from the woman's side, a few human men suddenly burrowed out.

"Holy f*ck!"

Ye Lu dashed out and then blocked the woman's front.

"Ah!"

Seeing Ye Luo's sudden appearance, the woman screamed in fear and hurriedly and quickly lifted her trousers.

Ye Luo then looked at the few people who came over and said coldly.

"How old are you and are you still so curious?"

These guys didn't look old, but their real ages were all several dozen years old, which was why Ye Luo said that.

However, the guy at the head of the group said with a smile.

“Hehehe! You’re right, I’ve seen a lot of women’s stuff, but the ‘Pill Alliance’s’ ‘Pride of Heaven’ is something I can’t afford to miss.”

Without waiting for Ye Luo to speak, the pretty woman behind Ye Luo spoke first.

“Hmph, Xie Tinglin, your ‘Dan Tower’ is getting worse and worse.”

It seemed that this woman and the other party knew each other, and, to Ye Lu’s surprise, these two parties were actually from the giants of alchemy, the ‘Dan Tower’ and the ‘Pill Alliance’ respectively.

Hearing the woman’s words, Xie Tinglin of the “Dan Tower” smiled and said.

“It can’t be helped, who made our Dan Tower only have men? Besides, we have proposed a marriage, this time, we will cook the rice and then I will go to the ‘Pill Alliance’ to propose a marriage, so I guess it will be successful.”

After he finished speaking, Ye Luo then looked at him and said coldly.

“Just you, don’t even take a piss and look at yourself, you don’t stand a chance even if the raw rice is cooked into popcorn, hurry up and get lost!”

Chapter 393

Xie Tinglin and the others looked at Ye Lu, then Xie Tinglin took out a fan that seemed to be very elegant and “brushed it!” He opened it and shook it, saying.

“You can scare others, but you are still a bit young to scare us, ‘Dan Tower’. I am the ‘Dan Tower’s’ supreme pride, Xie Tinglin who is known as ‘Dan Gongzi’

Not waiting for him to finish, Ye Lu immediately interrupted him and said.

“Shut up, hairy ‘Dan Gongzi’, hurry up and finish ‘Slingshot’, I warn you, I very much hate people playing with fans, two people played with fans in front of me before, now all the grass in the graveyard is growing old.”

Ye Lu was of course referring to the two “yin and yang masters”, one was “Abe Yasuhiko” and the other was the great yin and yang master “Abe Liu Feng”, so he was furious when he saw the fan shaker.

Hearing Ye Lu’s words, the “proud daughter” of the “Medicine League” could not help but “pfft!” She burst out laughing.

Xie Tinglin was pissed off, as the treasure of the Dan Tower, and of course because of his grandfather as the “Supreme Elder”, no one dared to contradict him, in his mind, only he could act like a p*ssy, if others dared to act like a p*ssy, they would be struck by lightning.

Yesterday, Ye Lu made such a big commotion, of course Xie Ting Lin knew about it, but he didn’t care, because yesterday, Ren Tian, who was cleaned up by Ye Lu, said afterwards that in fact, Ye Lu’s real cultivation level was not high, only that his body meridians were extremely odd, and he was unaware of it for a while, which was why he suffered a loss.

Besides, he wasn’t alone this time, he had two “Void Dan Realm” experts with him, and several “Pseudo Dan Realm” experts of the “Golden Dan Third Turn” realm were following him.

“That, Mr. Ye, hurry up and leave, this matter has nothing to do with you, thank you for helping me.”

The “Pill Alliance’s” “Pride of Heaven” said as she looked at Ye Lu behind him.

She didn’t even introduce her name to Ye Lu, obviously she had already made up her mind that she would die.

Ye Lu turned his head to look at her and said with a smile.

“No need to worry about me, a few miscellaneous fish are just a few, I haven’t put them in my eyes.”

Seeing how confident Ye Lu was, the “Pride of Heaven” of the “Pill Alliance” felt inexplicably solid in her heart, probably because of Ye Lu’s previous action of hanging over a hundred people from a tree, which made her feel that Ye Lu was extremely strong.

After that, the two bodyguards behind Xie Tinglin made their move.

These two guys were also from the Dan Tower, so without exception, they were both good at flames, one was yellow “beast fire” and the other was your brown “beast fire”.

In fact, for high level practitioners who are familiar with the fire attribute and know how to control fire, it is not particularly difficult to fuse beast fire, but it is a question of what kind of beast fire to fuse.

After all, these flames are obtained from fire-attribute demon beasts, most of which are not particularly powerful.

However, using an additional flame, as long as it does not conflict with one’s own attributes, is an additional means of attacking and saving one’s life, so overall, it is still helpful to combat power.

However, using flames to fight Ye Luo would be looking for bad luck.

Each of the three flames on Ye Luo’s body was a king among flames when taken out, so the pink fusion flames reappeared and Ye Luo’s two fists swung out violently, and two terrifying fire dragons flew out, piercing through the flames released by those two guys with a single strike, before the two fire dragons surged forward.

The current Ye Lu was no longer the same person as he was before at the top of Jade Dragon Snow Mountain, although he had been living a peaceful life in this period, but the Nameless Technique was after all extraordinary, even without the sudden advancement in battle, he could still improve his cultivation in normal times just like any other technique.

At this moment, Ye Lu’s third spirit liquid was already complete and he could break through to the fourth spirit liquid at any time, so after sending out two fire dragons, he quickly raised his hand and two spears of flame suddenly appeared and stabbed at the two guys.

Xie Tinglin was indeed a genius in alchemy, but he was not as good at fighting, plus his cultivation level was relatively weak, so he could not dodge Ye Lu’s terrifying steps.

Several other people also rushed over at the same time, but Ye Lu’s left hand swung fiercely and a semi-circular pink fire blade came out wildly in a fan shape.

Now Ye Luo was using low rank fire attribute spells with aplomb.

At the same time, Ye Luo had already grabbed Xie Tinglin.

Seeing that Ye Lu had wrapped himself around his own men and grabbed him in a few strokes, Xie Ting Lin immediately shivered.

Ye Luo then looked at him and said with a smile.

“Don’t be afraid, I won’t do anything to you and it won’t affect a fair fight, but I advise you to be a woman in the future, you can’t use that thing of yours in the future anyway.”

After saying that, Ye Lu let him go after patting his shoulder.

He had just used his black aura to destroy Xie Tinglin, and Ye Lu had read his profile of this kid. This guy was too horny, and he would do anything to do so.

The “Hundred Flowers Sect” was actually founded to protect these women, and has always carried out this purpose.

“You you

Xie Tinglin pointed at Ye Luo to say something, but Ye Luo looked at him and said coldly.

“You what you, don’t wait for me to change my mind, then I’ll make sure you don’t even get to be a woman.”

Thinking about Ye Lu’s style of action, Xie Ting Lin eventually chose to run away in the dust with his men.

“Thank you, but you might have gotten into big trouble.”

For his part, Ye Lu shook his head indifferently and said.

“It’s alright, living is supposed to be a troublesome thing, besides, I’m in a lot of trouble, I got used to it long ago.”

Hearing Ye Luo’s words, the woman smiled somewhat apologetically and then said.

“My name is ‘Pill Shu’, I’m a ‘four-star’ pill refiner of the ‘Pill Alliance’, if the ‘Dan Tower’ dares to find trouble with you, just look for me and I will do my best to help you.”

As she said that, “Pill Shu” took out a business card and handed it to Ye Lu.

It was then that Ye Lu saw the badge on her chest, which really had four stars, while his own did not have any.

“Medicine Woman” didn’t feel strange about this, because she guessed that Ye Lu probably hadn’t taken the “Medicine League” star examination.

However, she was not surprised, but Ye Lu was.

He looked at “Pill Shu” and asked.

“Aren’t the ‘Pill League’ and the ‘Dan Tower’ restricted, how come ‘four-star pill refiners’ can still participate?”

Pill Shu then smiled and said.

“Because I’m special, I’m not over twenty-four years old yet, so I’m not subject to this rule.”

This time Ye Lu was really a little surprised.

A “four-star pill refiner” was a person who could refine pills that could be used by cultivators with “nine revolutions of the Golden Elixir”, and Pill Shu was not yet more than twenty-four years old, so no wonder she was called the “Proud Daughter of Heaven”.

Then, Pill Shu suddenly blushed and asked.

“Did you just see something?”

Of course, Ye Lu shook her head immediately and said.

“I’m a decent man, there was once a sultry woman who offered her arms to me, but I sternly refused, how could I possibly peek at you, just kidding!”

Seeing Ye Lu’s serious look, Medicine Shu then laughed and said.

“Being a thief, right, I didn’t say that you have to marry me if you look at me, thanks a lot, I’m leaving.”

After saying that, Pill Shu flew away from this place of right and wrong.

“Ai! Red-faced scourge, red-faced scourge ah

Ye Lu also shook his head and walked back to the camp.

On the other side, Xie Tinglin pitifully discovered that he really was not lifting, but he understood that with the help of that ninny Pill Shu, he could not touch Ye Lu, and that Ye Lu himself was not to be messed with.

The next day, the “Pill Maker’s Conference” really began.

This time, after Ye Lu entered the venue again, he found that the venue was completely different from yesterday, all the “pill refining platforms” had been raised, and each pill refining platform had a camera device placed at the four corners, which seemed to be to prevent cheating.

Following this, the MC then announced.

“The first round of the competition will begin immediately, please ask all the alchemists participating in the ‘Alchemist Conference’ to take their places according to their numbers.”

Chapter 394

Ye Luo saw that this time there were no more pills on the pill refining platform, and all the “pill refining platforms” were arranged in a circle, the centre of which was an empty platform, while the second circle was nine platforms, and after that, the circle expanded one by one, and the outermost circle already had an unknown number of platforms, which looked really spectacular.

“A cultivator’s gesture is just huge!”

Seeing this formation, Ye Lu couldn't help but sigh with emotion as well.

To build such a spectacular and freely adjustable stage and grandstand in this mountain where people were rarely seen, only cultivators had such a gesture.

Because cultivators needed money, power and people, many secret realms had large populations, and many of them had their own technology, much like a small, independent world.

Ye Luo looked at where his number was located, and it was just as the man had said before, those of them who had passed the test were at the edge of the whole area, and Ye Luo's position was on the outermost circle.

Following that, Ye Luo saw a man waving his fan and flying up to one of the nine high platforms in the middle, it was none other than the depressed Xie Tinglin.

Not being able to screw a woman was a fatal blow to Xie Tinglin.

However, this was a beautiful entrance for him.

After that, the Pill Alliance's pride and joy, Pill Shu, also flew up to one of the nine platforms with her delicate body.

Then came the flame-covered expert of the Suiren Clan, the great power of the Yan Clan, the consecrator of the capital's Ren Clan, and the expert of the Ge Clan, Ge Yan

Soon, the nine central positions were in place.

The next is the other experts, the three star pill refiners of the "Pill Alliance", the experts of the "Dan Tower", one by one they all used what they thought was their most beautiful and dashing body style to fly to the pill refining platform.

After waiting for half a day, Ye Lu felt bored, so he "brushed!" He jumped onto his own pill refining platform and did so.

When they saw this scene, the crowd of onlookers immediately started to talk.

"Sh*t, don't you know the rules?"

"What the hell do you know about the rules, didn't you see what he did before."

"Yeah, but I bet he won't make it past the first round today."

"I extremely agree with you."

.....

The news that Ye Lu had made the "Five Elements Pill" yesterday had long been spread by the people of the "Ge Family", so everyone felt that Ye Lu was afraid that he would be a bit hung up today.

Seeing that Ye Lu had jumped up in advance, Lin Ruyue smiled and also jumped to the side of the platform.

Today was an official competition, so Ye Lu wore his “Pill Alliance” no-star identity tag, while Lin Ruyue’s was a “Two-star Pill Master” identity tag.

Due to the height, everyone saw Ye Lu’s identity tag when he got on stage.

Many people started to sneer at him, as the experts in the middle area were all experts who could make “fourth-rank pills”, so Ye Lu, who was a non-star, really looked a bit out of place.

Of course, Ye Luo didn’t bother to pay attention to them.

After that, he heard people start talking about the nine people in the middle area.

Those nine people were undoubtedly the favourites to win the championship this time.

“Why is there such a beautiful young woman in the centre area?”

Someone asked in disbelief.

Indeed, Pill Shu was too young, especially in front of those old consecrated pill refiners.

Some of these people had already lived for hundreds of years, and even if they were skilled at keeping their faces intact due to their cultivation, it was impossible for them to still look like young girls.

Hearing this man’s words, one man said with a smile.

“That’s because Goddess Pill Shu is powerful.”

“Every time the ‘Pill Refiner Conference’ has to compete is not just about who makes the superior pills, the conference focuses more on innovative ability, practical value, and breakthroughs in ideas and so on, so Goddess Pill Shu’s hope of winning the title is actually very high.”

Hearing this guy’s words, Ye Lu suddenly felt that this “Pill Refiner’s Conference” had suddenly become high and mighty.

It took a little more time for everyone to arrive at the pill refining platform.

However, no one knew what the topic of the first round was, as the cabinet with the herbs was sealed.

After seeing everyone on the stage, the host then said in a loud voice.

“Now, please invite the ‘Dan King’ of the ‘Ge Family’, Master Alchemist Mr. Ge Feilong, to reveal the title of the first round of the competition.”

At his words, an old man with white eyebrows and white beard, who looked like a crane-haired boy, walked to the podium and thunderous applause erupted just as he appeared.

Ge Feilong then waved his hand and said with a smile.

“Our Ge family has the honour of presiding over this congress this time, but of course we still have to uphold the principles of fairness, justice and openness of previous congresses

When he said this, Ye Lu looked at him and gave a long “Phew!” A sound.

Yesterday, Lin Ruyue had told him about the “Five Elements Pill”.

Seeing Ye Lu's performance, Ge Fei Long frowned, but he did not stop but continued.

"So, for the first question, we have chosen an innovative open-ended topic, we have prepared six ingredients for each of you, you can use your imagination to refine the elixir, everyone's herbs will be different, however, none of them are herbs that can be put together in an ordinary elixir recipe, so, everyone should use their talents, there is plenty of time, as long as you can refine it in the morning come out just fine, and eventually readjust everyone's position in the next round according to the grade of the pills they have refined."

"As this is an open-ended test, only those who are unable to refine any second-rank pills will be eliminated in this round."

"I now announce that the competition will begin, so everyone can take a look at their herbs."

To put it plainly, this round was for everyone to create their own dan recipes.

Of course, it wasn't really about creating your own recipe, because real recipes were more perfect and had to be debugged countless times to achieve the best effect, but this time there were no hard and fast requirements for the effect, as long as the potion had an effect on the "Innate Realm".

It didn't sound too difficult, but after opening the drawer, Ye Lu found that the amount of herbs given was really small, and he was afraid that if he didn't succeed once, it would be over.

He quickly looked at the others and sure enough, everyone else's herbs were more than his own, and he also noticed another problem, everyone else's herbs were the same, and again, only his own were different.

Seeing this scene, Ye Lu couldn't stand it any longer, so he slapped the cabinet and stood up.

"Sh*t! Why are my ingredients different from everyone else's? Isn't it fair and equitable?"

As a result, Ge Yunfei smiled slightly and said.

"I'm not sure about that, the questioner probably had his own considerations."

As the "King of Dan", he had to think about his identity, so he drifted away, while Ge Yun took his place and looked at Ye Lu and said.

"We have taken great pains to make this arrangement, yesterday Mr. Ye Lu's amazing refining speed and quality of pills stunned the audience, if an expert like you were to do the same as the others, it would definitely bury a talent like you, which would be a great loss to the 'pill-making community', so we thought twice before making our first move to highlight Mr. Ye Lu's genius in pill-making"

Seeing this guy talk about the pit as a god five or six, the audience sitting there also picked up a thumbs up, of course, everyone was clear about the rules, in fact, you can question about these topics, you can leave the room, but there is no way to change it.

Everyone thought that with Ye Lu's character he would take the opportunity to make a big fuss this time.

However, to everyone's surprise, Ye Lu actually smiled and said.

“You bastard finally got it right for once, a genius like me, of course I have to be different, you may look a little ugly, but your vision is not bad.”

Hearing Ye Luo’s words, many people just drank the water in their mouths and “poof!” They spat out.

“Sh*t! This guy is a second-rate writer, right?”

“Yeah, those materials aren’t even close to each other, he can’t refine anything!”

“He’s dead!”

.....

In the midst of the crowd’s chatter, almost everyone took out various kinds of furnaces and began to prepare them, and for a time a thousand pots came out in unison, a spectacular scene.

Ye Lu, on the other hand, began to survey the six thirteen unreliable materials in front of him.

Chapter 395

At the same time, Ye Luo began to search in his glasses quickly, just like searching for recipes in the app, and the good thing was that the search was so strong that he could search for six ingredients at once.

Sure enough, there were pills that used all six ingredients at the same time, and of course, all the recipes related to the six ingredients appeared at the same time, in a big dense pile.

“This is going to be busy.”

Ye Luo muttered with a bit of a headache as he looked at this long column of dan recipes.

No one else made a move either.

Especially the nine people in the central area, they were even more cautious because unlike the others, they had a problem of saving face.

If it was the same material under the same material, the grade of the dan they refined was too low, and they were robbed of their core position by the others, then they would have to lose face.

Therefore, it is not enough to succeed, but to do the best.

The materials given were carefully selected by the Ge Family, so even the Pill Alliance or the Dan Tower did not have a formula that could be made using all six materials.

Therefore, it was up to everyone to decide what kind of effect they could produce.

This also made the onlookers more and more excited, because this was no longer as simple as controlling fire, controlling “innate astral energy” or manipulating the laws of heaven and earth, it was about one’s inspiration and spiritual energy.

However, soon, Ye Luo pitifully discovered that even among the vast sea of Dan recipes there were no pills that could be made from just these six items.

Either these six items had to be combined with many other things, or a few of them had to be combined with other things to make them, and anyway, there were no just the right ones that could be made.

“This ‘Dan King’ old man’s level is a bit high!”

This made Ye Lu admire the “Dan King” of the “Ge Family”, but the “Ge Family” did have a heritage, as legend had it that “Ge Hong”, the old ancestor of alchemy in the secular world, came from the “Ge Family”, known as “Baopu Zi”, so there was no problem with the Ge Family’s family origins.

Everyone also saw on the screen the six items given to Ye Lu, iron ore, dragon immortal flower, pure spirit water everyone started to think of how to create the elixir, but everyone found that just a few items could not be refined.

Following that, the crowd began to mourn for Ye Lu.

“This is what happens when you offend people!”

“Yeah, the organiser is like the black whistle of the stadium, is it something that can be offended?”

“Totally tried to act and didn’t want to sleep with the director, and ended up getting eliminated miserably!”

“You’re so right about Termo.”

.....

Amidst the chatter of the crowd, some people had already started releasing flames to handle the materials, and it looked like someone had already thought of a way to refine them.

Because the other people’s materials were different from the ones in Ye Lu’s hand.

When Ye Luo was bored, he started to look at the other people’s materials.

“It’s really good, it’s actually a simple dan pill that can be refined with just two herbs, if it was their materials, it would be too easy for me to use.”

Ye Lu studied the dan recipes one by one.

“Ooh, there’s a high grade ‘Heavenly Grade’ pill that can be refined using six ingredients at the same time, this is cheaper for that girl ‘Lin Ru Yue’.”

When Ye Luo saw the recipe for the ‘Heavenly Grade’ pills, Ye Luo’s heart was moved, if he let Lin Ru Yue know about the recipe, at least Lin Ru Yue’s side of things would be easier.

Lin Ruyue was a genuine “two-star pill refiner”, so as long as she had the recipe and the detailed refining method, Lin Ruyue should be able to refine a “heavenly grade” pill.

In fact, Lin Ru’s level was not bad, but unfortunately, the teacher “Mo Lian” was too strange, and there was no particularly detailed guidance, especially when condensing pills, if there was a fine control method in fact, many pills, Lin Ru Yue could also refine.

So, Ye Lu began to look in the “Spells” to see if there were any “Spells” that could transmit sound.

In Ye Lu’s opinion, “Voice Transmission” should be a very simple thing, because he had seen similar kung fu when he read martial arts novels before.

Sure enough, there was such a “martial art” in the “martial arts” category without the use of “spells”.

This “martial art” was called “Voice Transmission Technique”.

At Ye Lu’s current level, it was very easy to learn these “martial arts”, so he quickly learned this “martial art”.

“Lin Ru Yue, calm down, this is Ye Lu, listen to me and do exactly as I say, if you do well, you may be able to sit on the nine high platforms in the centre of the circle.”

Hearing Ye Luo’s words, Lin Ru Yue looked in Ye Luo’s direction and then looked at the nine high platforms in the centre, that was where the Heavenly Proud were, she didn’t even think about it.

Although she had relied on Ye Lu’s pills to raise her to the “Patriarch” level, the difference between her and the Heavenly Proud was not just one and a half stars compared to a master like Pill Shu.

However, Lin Ru Yue did not know the “Voice Transmission Technique”, and although she had many questions in her heart, she could only listen to Ye Lu’s words for the time being.

So, she immediately began to put the materials into the potion furnace and started to refine them.

Seeing that Ye Lu sat there as if he had completely given up, the crowd soon lost interest in him and turned their attention to the guys who had started to do it.

However, the nine men at the centre of the room were slow to make their moves.

The ingredients given to them were actually all very common, and some of them were also very commonly used, so they were all very familiar with them regarding their medicinal effects and so on.

Therefore, several people were still analysing and studying what proportion of the ingredients should be blended to achieve what kind of effect and level of potency, as there was still plenty of time before noon.

Some of them felt that their own level was such that they could study it again, while others felt that they could learn from the experience and make adjustments if they tried it once, as it seemed to have enough material for three to four refinements.

Of course, there are also some people who feel that there is no hope, so let’s refine it haphazardly.

However, no one noticed Lin Ru Yue, who had been silently handling the materials very carefully, and after an hour or so some people had already started to fail and left the venue.

“Sh*t! This competition is too impersonal, refining a pill properly will kill you!”

This guy was quite dissatisfied with the refinement, I guess he should be a guy who is very strong in refining medicines according to the recipe, but, unfortunately, he was quite far from being able to blend in.

The other people also started to fail in their refinement and left the room one after another.

Of course, there were some people who had succeeded in their first potion and were challenging the programme to start their second potion, knowing that this time the competition was not just about

success, but also about the quality of the potion, and if they could really make a name for themselves, then this would be a great opportunity.

There are quite a few families and organisations out there that are looking for a donor.

If you are chosen by these families, you will be able to eat and drink beautifully in the future.

Of course, there is also the possibility that they will be chosen by some alchemy families and organisations and eventually become part of these big clans and forces, who dare to mess with them.

And those nine people at the core were starting to make their move at this moment.

For these experts, having already studied the plan and made it clear in their minds, the next step was to start putting the plan into action in earnest.

Before refining, Xie Tinglin took a glance at where Ye Luo was, and as he watched Ye Luo still sitting there looking at Lin Ruyue who was not far away, he narrowed his eyes sinisterly, his hatred for Ye Luo was already extremely deep.

The colour of the “beast fire” was related to the type of demon beast chosen, so there were basically all kinds of colours, and of course, there were also ready-made flames used.

“Alright, I have completely succeeded in refining it.”

At this point, the first person to finish raised his hand.

The person presiding then pressed a button and from a high platform at the centre rose an instrument, on which was a very tall transparent looking glass column with many scales.

“Okay, go up and put the potion into the testing area for the test.”

With the host’s words, two people from the Ge family jumped onto the high platform at the centre.

Chapter 396

These people were there to monitor and confirm the elixir, of course.

And the host continued.

“This test pill will test the quality of the elixir, if it is put in that the elixir is below the ‘second rank’ the device will alarm, if it meets the level of the second rank or above, the light pillar will light up, in the order of ‘mortal grade’, ‘Xuan Pin’, ‘Earth Pin’, ‘Heaven Pin’ and ‘Holy Pin’ in the order of still white light, green light, yellow light, red light and black light.”

“Light of the same colour is then judged by the height of the pillar of light that rises to determine the quality.”

Not to mention, this way of judging was very simple and easy to understand at a glance.

Soon, the first pill refiner put the pill he had made into one of the containers of the instrument.

However, to everyone's disappointment, the pillar did not light up, but the warning sound "drip drip drip!" The warning sound rang out.

After half a day's effort, he felt very depressed that the result was like this.

However, soon, other people came over one after another, as the number of materials was limited, and there was no point in staying after refining.

At this time, the person in charge shouted out loudly.

"No. 360, Wu Jianguo, Dan Cheng, 2nd rank Mortal, pass!"

The first person to pass the elixir was finally born, and seeing that he had successfully advanced, this guy let out a long sigh of relief.

Although it was the lowest grade of second-grade pills, no matter what, this round had been passed, and passing the round was one step closer to the final goal.

Moreover, it seemed that the "first round" should have brushed off many people.

There were already quite a few pill makers who had left because they hadn't made any pills, and it was expected that there were quite a few who had made pills but hadn't reached the "second rank".

As it turned out, nearly half of the pills produced did not reach the "second rank", so the warnings kept ringing out and more and more people left the room.

However, most of those who started to pass the test were marginal pill refiners, while the masters in the centre had basically not finished, and the success rate was higher the closer they got to the centre, so the warnings gradually became less frequent.

"No. 480, Chen Yuexing, Dan completed, second-rank Xuan-grade, pass!"

Finally, the green light of the pillar lit up, and the "Xuan-grade" elixir appeared.

This also meant that the level of the pills had crossed a big grade.

Seeing the appearance of a "Xuan-grade" pill, the onlookers nodded their heads, after all, for a pill refiner's conference of this calibre, it would be undesirable if all the pills were of "Mortal Grade".

Following this, "Xuan-grade" pills began to emerge, and the number of pill refiners on the fringes became fewer and fewer, with Ye Lu and Lin Ruyue, the two outermost circles, immediately standing out.

Ye Luo, in particular, did nothing but sit there in a dull manner, looking rather bizarre.

On the other hand, Lin Ruyue was unhurriedly handling the materials, which was what Ye Luo told her to do, so that she could simulate the refining process in her mind more while handling the materials, as well as the precautions, so that she would not be too busy when refining later, and of course, Ye Luo would also help remind her at the side.

Because the refinement this time is not really related to time, so, the progress of everyone is very fast, not much time half of the people have finished refining and left.

The entire periphery was left with Ye Lu and Lin Ruyue.

Xie Tinglin of course also saw this scene, and he looked at Ye Lu's reassurance and said with a cold smile.

"Sure enough, you are a straw man, you don't even dare to make a move until now, and you are still dragging your feet and refusing to admit defeat, I will make your life worse than death sooner or later."

Although Xie Tinglin knew the fact that he was not lifting, but, who was he? He was from the Dan Tower, so he didn't think he would be like this for the rest of his life. In his opinion, when he returned to the Dan Tower and let his grandfather take a look, he would be able to get rid of the disease, but he would only have to endure it for a while.

However, Ye Lu, the scourge, he must take revenge.

When he heard Xie Tinglin's words, Pill Shu said coldly.

"There's still plenty of time, how do you know he won't have a chance to turn the tables, besides, I advise you better not mess with him, our 'Pill Alliance' will not stand by and watch."

Ye Lu saved her last night, so she naturally had to speak up for Ye Lu.

Xie Tinglin, on the other hand, said disdainfully.

"Flopping, the hell will believe your bullsh*t, if he can flop, I'll eat soong live."

Pill Shu, on the other hand, said disdainfully.

"What's so disgusting about you eating shou live?"

Xie Tinglin, on the other hand, suddenly laughed and said.

"Hey, hey, how about this, if he can flip, I'll promise never to harass you again, and I won't let grandpa send someone to propose a marriage, how about that?"

When he finished, Pill Shu blurted out.

"Fine!"

However, Xie Tinglin followed.

"Then if he loses, you will have to agree to a marriage proposal with me."

Now Pill Shu hesitated, it seemed that at the moment, Ye Lu was facing a complete dead heat, from the screen Pill Shu had also seen the few herbs Ye Lu had, there was no chance at all.

She also felt that Ye Lu was bound to lose.

Seeing that Pill Shu hesitated, Xie Tinglin immediately began to count up, saying all sorts of disgusting words one after another, he knew that Pill Shu was a very high-minded person, attacking her in such a vicious manner, she would definitely not be able to bear it.

Sure enough, soon after, Pill Shu gritted her teeth and said.

"Fine, just bet, I'm still afraid of you, shut up."

This time it was Xie Tinglin's turn to laugh out loud, he thought in his heart, this silly girl, she was probably stupid from refining pills, she dared to agree to such a thing, I really don't know how she was thinking.

In fact, Pill Shu was not entirely because of impulsiveness, she had been observing Ye Lu, she found that Ye Lu did not seem to be alarmed, all the time she was wearing a honeyed smile and looked very calm.

However, he did not know that in fact, Ye Lu had already given up hope a long time ago, only that he was in a better state of mind.

Hearing the conversation between the two men, the Yan Clan expert suddenly said.

"You two seem to be taking it easy, if this continues, the champion of this round will be our 'Yan Clan'."

As he said that, he opened the pill in front of him, and a rich medicinal fragrance came out, obviously of a very high grade.

However, the alchemist from the 'Ge Clan' next to him said with a smile.

"Yan Yu, it's not certain who will die!"

After saying that, he also opened his furnace, and it was also a perfect potion.

At this time, on the high platform in the centre, the "Earth Grade" pills had also appeared, which made everyone start to look forward to it.

"There should be a 'Heavenly Grade' pill appearing."

Someone looked at the central area and said.

Now, apart from the central and most core area where there was little movement, the entire outer and central area was left with three people, Ye Lu, Lin Ruyue and a woman with an expressionless face with a flower pattern.

Soon, Lin Ruyue's first potion came out of the furnace, but she was not quite satisfied, so she immediately started to refine the second potion.

However, despite the fact that people kept coming up to the stage, the "Heavenly" pills never appeared.

Soon, there were only nine people left in the centre circle and Ye Lu and the three of them.

"If you guys don't want to go up, then I'll go first."

An old man with white eyebrows and a white beard saw that no one was making a move, so he slowly flew towards the high platform in the centre.

"It's the 'Dan Yunzi' of the Ren Family, I reckon he should have a 'Heavenly Grade' potion."

"Yeah, he's been famous for how many years, the 'Pill Refiner's Conference' champion has won it for two terms, right?"

"Who says otherwise, a truly great master, but it's said that he's returning home to retire."

.....

When they saw the white-browed and white-bearded “Dan Yunzi” on stage, everyone was talking about it.

After that, the Yan Clan and the Sui ren Clan also flew up, and there was no surprise that the core area was full of success, with all of them being of the “Heavenly Grade” level.

Next, Pill Shu flew over, her red light shining brightly, and she was no match for the others.

However, there was thunderous applause, as Yushu was only a young girl, in her early twenties, and her achievement was simply unbelievable.

Then, Xie Tinglin also flew up.

Without any surprise, the red light lit up, stronger than Yakshu’s.

Everyone let out a gasp of surprise as Xie Tinglin was also a genius within the age of twenty-four.

“Too powerful these two.”

“Yes, the ultimate duo!”

“A handsome man and a beautiful woman, a natural pair!”

.....

Seeing that the crowd was stunned, Xie Tinglin then turned his head to look at Pill Shu and said with a smile.

“Someone just said that certain people would marry me if they couldn’t pass this round, is that still true?”

Hearing Xie Tinglin’s words, Medicine Shu immediately bit her lips tightly.

Ye Lu, on the other hand, was quietly watching Xie Tinglin pretend not too far away.

Chapter 397

Seeing that Pill Shu did not speak, Xie Tinglin then continued.

“The Heavenly Pride of the ‘Pill Alliance’ wouldn’t be someone who likes to keep his word, would he?”

Pill Shu gritted her teeth and said.

“Fine, I will bet with you, but if Mr. Ye can pass, you will stop pestering me and get as far away from me as you can.”

As a result, after Medicine Shu finished speaking, Xie Tinglin laughed loudly and said.

“Fine, of course I agree, do you think everyone is a genius like me? As far as his level is concerned, he’s still passing, it’s questionable whether he can put together those herbs into a dan.”

Ye Luo didn’t expect that things would still involve himself.

He turned his head to look above the high platform, only to see that Pill Shu was looking at him with an expectant face, which honestly made Ye Lu feel a bit of pressure.

However, he once again looked at the six materials, there really wasn't was no way out!

To be honest, the current Ye Lu was indeed also proficient in medicinal theory, but compared to those experts who had been refining pills for many years, he was perhaps not even a rookie in terms of medicinal theory and knowledge of dan recipes.

After all, there were specialties in his field, and the main reason why he could refine pills so quickly was because of his special aura, his high level of understanding of the laws of heaven and earth, and the fact that his flame was the strongest "Origin Fire", all of which made Ye Luo's pill refining not only fast, but also with a super high success rate.

However, he was not as good at understanding the medicinal principles of various herbs.

Therefore, he was also in a dry rush now.

However, Ye Luo would not let this Xie Ting Lin be arrogant, he looked at Xie Ting Lin and said with a cold smile.

"Xie Tinglin, you're arrogant, I can tell you responsibly that in this round, there are people who can far surpass your level."

Hearing Ye Lu's words, Xie Ting Lin then laughed and said.

"Far beyond the sky, close to the eyes"

However, before Ye Lu could finish speaking, the black-robed woman with a flower pattern on her face flew onto the high platform, a scene that took everyone, including Ye Lu, by surprise.

This was because, even Ye Lu had not seen if this black-robed woman had already refined a potion before.

Now it seemed that she might really have two tricks up her sleeve.

After going up, she didn't say anything more and directly put the elixir into the instrument, following which, a bright light lit up, white, cyan, yellow, red, but the rise in colour didn't stop yet.

"No way, could it be that the first 'holy' elixir is about to appear!"

Everyone watched in amazement as the red light grew brighter and brighter and gradually approached the line that crossed over to the 'Saint Pill' scale.

Everyone's eyes were wide open, but in the end, it was just a hair's breadth away from crossing the line.

"What a pity! It's just a hair's breadth away."

"But this is so awesome!"

"A dark horse! An absolute dark horse! Who is this, it's so strong."

"A hidden master!"

.....

Everyone exclaimed in shock, as no one had expected that a pill refiner in the middle of the pack could actually refine the strongest pills currently available.

“Who is this person?”

“Yeah, haven’t seen it before!”

“It looks like someone from the ‘Heavenly Demon Palace’, look at the pattern on her face, it should be the seal of the ‘Heavenly Demon Palace’.”

“It seems true when you say it.”

.....

The “Heavenly Devil Palace” was a legendary and terrifying sect, just like “Kunlun”, both were mysterious and powerful, but unlike “Kunlun”, the “Heavenly Devil Palace” had a notorious reputation and caused countless killings before it went into hiding, but the people in the “Heavenly Devil Palace” were all of unbelievable cultivation and powerful.

Not only in alchemy, they are also proficient in alchemy, formations, beast control, there is almost nothing they are not proficient in. It is said that it was only when all the major clans, including the hidden forces, came together that the “Heavenly Demon Palace” was finally stopped.

Now that the suspected “Heavenly Demon Palace” has reappeared, it has cast a shadow over everyone’s heart.

“No. 528, Mo Tranquility, Dan is complete, second-grade heavenly grade, pass!”

The man from the “Ge Family” who was in charge of reviewing the pills said in a loud voice.

After hearing the announcement, the woman called Mo Tranquility floated away from the high platform in the middle.

Seeing this situation, that Xie Tinglin looked in Ye Lu’s direction and said.

“Is the person you are talking about her? Is she also from the ‘Heavenly Demon Palace’?”

When he said the words “Heavenly Demon Palace”, Xie Tinglin’s face changed a little, because he also knew clearly that the “Dan Tower” might be very strong, but if the other party was the “Heavenly Demon Palace”, then even the “Dan Tower” was not worth mentioning.

Ye Lu shook his head and said.

“Mao’s ‘Heavenly Demon Palace’, I’m not talking about her, I’m talking about her.”

With these words, Ye Lu pointed at Lin Ru Yue and said.

“She would be enough to crush you.”

Hearing Ye Luo’s words, everyone showed extremely puzzled expressions as everyone didn’t quite believe Ye Luo’s words, how did Lin Ruyue not look like a super expert.

Moreover, Lin Ru Yue was wearing the badge of “Two Star Pill Alchemist”, plus Lin Ru Yue’s age, if she could make pills that exceeded Xie Ting Lin’s, almost no one would believe her.

In fact, what people didn’t know was that Lin Ru Yue had long since entered the “Master” level, and it was not difficult to make a “Second Stage” pill at the “Innate Realm”, not to mention the fact that Ye Lu was there to tell her all the dos and don’ts.

However, Lin Ru Yue could not fly, so she had to obediently jump off the “pill refining platform” and walk to the high platform at the centre.

Seeing this scene made everyone think that this was unlikely, because although experts could not really fly, they could fly for a short time and pretend to be something.

Lin Ruyue, on the other hand, had her heart in the right place as she calmly walked over to the side of the machine and then threw the pills in.

As expected, no one was surprised as white, green, yellow, red and then a black pillar of light appeared and almost reached the top, which meant that this pill had almost reached the highest quality of “second-grade” pills.

The whole audience was silent as no one expected two unexpected things to happen at the last moment, and this last one was really too unexpected.

“It can’t be true, how is it possible?”

“Yes, a ‘holy’ elixir, is there really a ‘holy’ elixir recipe in the world?”

“I don’t know, anyway, she refined it.”

.....

Few people have ever heard of a “holy” elixir recipe, because a “holy” elixir is unlike any other grade, and can already be a cross-grade wonder.

Many people have never seen a “holy” elixir in their lives, and of course “magic weapons” and “magic treasures” of “holy” rank are even rarer to come by.

In fact, this was because the earth’s cultivation resources had limited everyone’s imagination. In fact, there were still things that far exceeded the “holy grade”, only that they were not available on earth.

“How is it?”

Ye Lu looked at Xie Ting Lin and said with a smile.

“Is it enough to crush you.”

As a result, Xie Tinglin said with a sharp head and white face as he stared.

“Cheating, this is definitely cheating, how is it possible?”

When he finished, Lin Ruyue said.

“You’re the one cheating, this is all the result of my heart and soul, how could it be cheating.”

After saying that she then looked at Ye Luo, because her heart was also filled with endless shock, what was happening was simply too incredible.

Hearing Lin Ru Yue's words, Ye Lu suddenly had a stirring in his heart, then his eyes lit up.

At this time, Xie Tinglin thought about it and pointed the finger at Ye Lu because, obviously, he couldn't get the fact that Lin Ru Yue had cheated, everything was monitored, if Lin Ru Yue had really cheated surely she would have been expelled long ago.

"Ye Lu, there's no use in bullsh*tting about this, you yourself still can't pass, in the end, Medicine Shu still has to be with me, I'll show you how much love Medicine Shu and I have, tread horse, actually dare to pretend in front of me."

After he finished speaking, Medicine Shu's face immediately turned white, while she had to tighten her teeth, following which, she then looked at Xie Tinglin and said coldly.

"I won't go back on my word, and I won't marry you, I'll die right here to show you!"

However, just as she finished her words, Ye Lu smiled and said.

"Don't die yet, it's not too late to die after watching the next good show."

After saying that, Ye Lu took out the Dan Ding for the first time.

"Boom!"

The "Burning Heavenly Furnace" was placed on top of the high platform, while Ye Lu smiled and said.

"I hate pretending, so I've decided to show you guys my face."

After saying that, he turned his head to look at the people of the "Ge family" on the main stand and continued.

"Including all of you feckless calves, watch out!"

Then, Ye Lu began to process the materials quickly, as time was really running out.

Chapter 398

Just now Lin Ru Yue's words, "This is all the fruit of my blood" reminded Ye Luo of something, that is, there is a hidden part in the "medical ability" called "forbidden medicine".

It was a recipe that was not recommended, or rather not wanted to be made.

"No wonder I couldn't find it just now."

Ye Luo opened the "Forbidden Pills" section, many of the "Forbidden Pills" in this section were extremely poisonous, and some of them consumed his own heart and blood.

In fact, such similar refinement methods had already existed in ancient times, especially in the area of refining weapons.

The “Ganshang” and “Mo Xie” of the legendary eighteen strongest swords were made after Mo Xie committed himself to the furnace for blood sacrifice, and were also called “evil swords”.

Seeing the speed with which Ye Lu handled the materials, everyone had an appalled look on their faces.

Because his speed was too fast.

Seeing this scene, Ge Yun of the Ge Clan finally understood that he had been tricked by this kid.

The previous time Ye Lu had refined the “Five Elements Pill”, it was not because he had refined it that he was so fast, but because he was already so fast.

“Holy sh*t! This is too fast!”

“What kind of technique is this? It’s the first time I’ve seen someone’s technique this fast.”

“This speed is absolutely unmatched.”

.....

The “Origin Fire”, as the name implies, is a flame born from the origin of the universe, so with the power of the laws of the origin of the universe, the processing of various materials is of course twice as fast with half the effort.

This, coupled with a terrifying alchemy tool such as the “Heaven Burning Furnace” and a “spiritual energy” that far surpassed that of others, caused Ye Luo to be so fast.

However, no one knew what Ye Lu could refine with this device.

Therefore, everyone’s head was stretched out and their eyes were wide open as they looked up at the “pill refining platform”.

Although the whole venue was filled with people, there was no sound, everyone was waiting for the finished pills that Ye Lu would make, and Pill Shu was also staring at Ye Lu’s hands with wide eyes.

Soon, five ingredients were finished being processed.

But then, something unexpected happened, because after all five ingredients had been processed, Ye Lu slashed his wrist and blood poured down into the Burning Heavenly Furnace.

“Ooh! What is this?”

“Is he going to use blood to make a pill?”

“It looks like it, can blood really refine pills?”

“I don’t know, legend has it that the ‘Heavenly Demon Palace’ has ‘blood pill masters’ who specialise in using blood to refine pills, and can refine all sorts of heaven defying pills that are extremely terrifying.”

“Really, is he still related to the ‘Heavenly Demon Palace’?”

.....

Only after Ye Luo had released a full 700 to 800 milliliters of blood did he stop, then he put the various processed ingredients in order and began to refine them.

The outside of the “Burning Heaven Furnace” was dazzling with red light, and soon, even the audience in the stands could smell the strong smell of blood.

Seeing this scene, Medicine Shu’s eyes lit up, while Xie Tinglin’s brow furrowed.

He had not expected Ye Lu to have this skill, which was undoubtedly all about one more material for refining.

Soon, Ye Lu’s dan was practiced.

The lid of the furnace opened, endless blood qi surged out, and a scarlet red pill appeared in the “Burning Heaven Furnace”.

Once it was ready, Ye Lu slowly flew to the high platform in the centre.

Ye Lu’s flying skill was immediately appreciated, as it looked as if he could really fly.

Of course, everyone did not know that Ye Lu was wearing a magic weapon that could fly.

“Come on, let’s see if I can pass.”

Ye Luo took out a pill and put it into the apparatus, and soon, white light lit up, green light lit up, and yellow light lit up, but the light stopped just here.

Because the ingredients were really too demanding, even the recipe in the “glasses” could not find just the most advanced ones.

Seeing that Ye Lu’s potion had passed, Pill Shu let out a long sigh of relief, at least she didn’t have to die, and she didn’t have to be humiliated by this Xie Tinglin.

While everyone else was in shock, shocked that Ye Lu could really refine a pill, and at such a speed that it was unbelievable.

Ye Luo then looked at Xie Ting Lin and said with a smile.

“How about it, I passed, did you see that, any more words?”

Xie Tinglin’s face turned green, but he didn’t want to admit defeat as he glared and said.

“So what can you do, it’s just refining an ‘Earth-rank’ pill, what do you have to show for it, I’m refining a Heaven-rank pill.”

However, everyone showed a disdainful expression at his words, as he was not convincing at all with such nonsense, and the difficulty of the two was not at all of the same order of magnitude.

So, the audience immediately got up in arms.

“Sh*t, what kind of talk is that, if you’re capable of refining one.”

“That’s right, what kind of material did you use and what kind of material did they use, can you compare?”

“Yeah, it’s not an order of magnitude at all.”

.....

Hearing everyone’s words, Xie Tinglin also felt a little hot in the face, but, at this time, Ye Lu looked at the person from the “Ge family” who was in charge of the inspection and said.

“You are the one in charge of the evaluation, right? You’d better take out the pills and take a look.”

When he heard Ye Lu’s words, the man from the Ge family froze for a moment, but he still reached out with a suspicious face and took out the pill, but then his face changed.

His mouth also opened wide at the same time.

Seeing his expression, the audience cried out in disbelief.

“What’s wrong?”

“What’s the problem?”

“Speak up! It’s urgent!”

.....

Hearing everyone’s chatter, this person in charge then said.

“Number 9528, Ye Lu, Dan Cheng, ‘Third Order Earth Grade’, pass!”

Hearing this guy’s words, everyone let out a gasp of surprise.

“Ooh!”

“Wow!”

“Bull, it’s really a bull!”

.....

After the results were announced, Xie Tinglin’s face turned from green to blue, this was too much of a barefaced slap in the face, and it was also the “slap!” kind. This was a real slap in the face.

Just now, he was pretending to be a fool, but as a result, he was a level higher than him.

Ye Lu picked up a pill and shook it, saying.

“Now you understand what I’m talking about, I just said that I hate people pretending to be pushy, no, you should also refine one.”

After Ye Luo finished speaking, he put the pill back into the pottery furnace and floated away from the high platform in the middle.

At this time, it was noon time and everyone, including the audience, took a lunch break, while the people from the “Ge family” started to get busy, because they needed their family members to arrange the seating arrangements and so on.

“Sister Ruyue, how come you’re so good at making even ‘holy’ pills?”

While eating lunch, Miao Fengling looked at Lin Ruyue and asked with some curiosity, although she was nominally Lin Ruyue’s senior uncle and should not have to be polite to Lin Ruyue, Miao Fengling had always called Lin Ruyue her sister.

Lin Ruyue, on the other hand, smiled and said.

“Little senior uncle, ah, I don’t have that ability, it was your master who helped me.”

After saying that, Lin Ruyue looked at Ye Luo and asked curiously.

“Master, you’re not really from the ‘Heavenly Demon Palace’, are you?”

Ye Luo shook his head and said.

“Mao’s Heavenly Demon Palace, aren’t you very clear about my origins, where would I have time to go to the ‘Heavenly Demon Palace’, the ‘Blood Pill’ is not the ‘Heavenly Demon Palace’ The ‘Blood Pill’ is not unique to the ‘Heavenly Demon Palace’, it has just been lost.”

Although he said that, the appearance of the “Heavenly Demon Palace” people still made Ye Lu feel a bit uneasy, he always felt that something might happen.

Throughout the lunch break, everyone was discussing the last-minute scene of the morning, where Ye Lu’s final punch to the face had left everyone feeling dumbfounded.

Of course, the competition had to go on, and the second round of the “Pill Maker Competition” began in the afternoon as scheduled.

However, Ye Lu found that he was not placed on one of the nine high platforms in the central area, but was placed in the middle area, slightly near the centre, seemingly according to the quality of the pills.

It was Lin Ru Yue who sat on one of the nine high platforms in the centre without any surprise.

Ye Lu felt that these details did not matter, and with a smile he flew up to the high platform that belonged to him.

The second round began.

Chapter 399

When they saw that Ye Lu was only in the middle, the audience immediately started talking about it.

However, the discussion was over, as there was no point in talking about it.

Lin Ruyue, who was sitting in the middle of the nine round tables, was overjoyed, for no matter what, she was now among the top positions.

Seeing Lin Ruyue’s happy face, Pill Shu turned her head to look at her and smiled.

To be honest, Pill Shu suddenly envied Lin Ruyue, envied her for being able to be with an expert like Ye Lu every day, she felt that Lin Ruyue’s achievement was also related to Ye Lu.

Lin Ruyue knew of her, but she had never had the chance to meet her before, so she also turned her head and smiled at her.

Xie Tinglin was also in the nine seats, but his face looked extremely unhappy, as two of the nine people were from the Pill Alliance, and there was also that expert, Ye Lu, who had put them ahead of the Dan Tower.

Seeing that everyone was in place, the host once again said in a loud voice.

“The topic for the second round of the competition comes from the ‘Suiren Clan’, so we have Master Yi of the ‘Suiren Clan’ to reveal the topic for the second round.”

Hearing his words, Ye Lu realized that the questions for each round were from different powers, presumably for the fairness of the assembly.

When the host finished speaking, a red-bearded great power of the Suiren Clan walked up to the podium and then said in a loud voice.

“As we all know, the aim of our secular ‘Pill Refiner’s Conference’ is not to find the one with the highest pill refining rank, but to find the one with the highest pill refining talent and usefulness, so our topic this time is to designate refinement by rank.”

“We will designate the refining of certain pills according to everyone’s cultivation level, and all of these pills will be ‘Heavenly Grade’ pills, and only those who have reached a level above ‘Earthly Grade’ in pills refining will be able to enter the next round. ”

“Of course, there will still be a ranking according to the grade of the pills everyone has made, and the time is until six o’clock in the afternoon.”

“In addition, I would like to emphasise that our ‘Pill Refiner’s Conference’ is a very fair place, and no matter what rank of pill refiner, all have the possibility to emerge.”

In fact, there was some truth in what this expert from the Suiren Clan said. Although low ranked “pill refiners” had little chance of winning the championship, they would have a better chance of succeeding in the next edition or the one after that if they were seen by their own clan or a more powerful organisation.

What’s more, even if you don’t win, there are still very generous rewards for each round, but of course, these rewards are not paid for by the Ge family, but by the various forces involved in the tournament.

Hearing the words of the “Suiren Clan” experts, the alchemists on the stage all breathed a sigh of relief.

After all, this time was different from yesterday’s. This time, there were recipes and everything else, and the competition was all about the actual refining techniques, which are very important to an “alchemist”.

It is not as good as an alchemist who has the strength to make pills.

Therefore, as a “pill refiner conference”, it was impossible not to test everyone’s level of pill refining.

When she heard this topic, Lin Ruyue understood that she would have to stop at this round because her cultivation level was “Foundation Establishment”, so according to the rules, she had to refine “third-order” pills, but with her cultivation level, she was not the highest among the “Foundation Establishment” pill refiners.

Although the level of fire control is not entirely related to the level of cultivation, it is true that those with higher cultivation levels have better overall control of the flames and “qi”.

Then, the second round of the competition began.

Since about half of the people had been eliminated in the first round, the venue immediately seemed quite empty, and Ye Lu took out the potion recipes and materials he had kept in the drawer.

As a result, after searching, he found that the potion was not one that existed in the system of “glasses”.

“Looks like a brand new elixir recipe for me.”

Ye Luo muttered as he looked at this elixir.

In fact, all “dan recipes” had to follow medicinal principles, so it was not difficult to make some modifications to the recipe, and after so many years of experience, just like the Daoist, many powers had long since learned to integrate and innovate.

“This dan recipe can only be refined once, everyone else’s can be refined three times, it looks like the organisers are really still targeting me.”

From the big screen, Ye Lu could see other people’s dan recipes, and of course due to the all-around deathlessness, he could know about other people’s materials, and other people could also know about Ye Lu’s side.

Many people shook their heads when they saw Ye Luo’s situation.

Everyone could see that the organisers hadn’t given up on screwing Ye Lu, so it was estimated that Ye Lu would be unlucky again this time.

In fact, Ye Luo was also thinking this way.

He felt that these guys were definitely targeting himself, however, he hadn’t seen exactly how they were going to harm him yet, so, after thinking about it, Ye Luo finally decided to stay put and see what happened.

Since this time, they had the dan recipe and then followed it to refine it, so many of them got the dan and quickly started to refine it according to the recipe, however, something immediately went wrong.

“Boom!”

One person’s “Dan Furnace” actually exploded in the middle of the refining process.

Of course, the furnace itself was very strong, so of course, the explosion did not destroy the furnace, but the flying medicine turned the man into a big black face.

“I followed the steps to make it! How could it have exploded?”

“What’s going on here?”

.....

He muttered in some confusion.

However, just as he was muttering, there was another “bang”, another person’s potion furnace exploded, and it exploded beautifully, just like a firework.

“What kind of elixir is this? It’s not making ‘fireworks’, is it?”

“Gross fireworks, it must have been forcing a high quality elixir and then couldn’t control it and ‘blew up the furnace’.”

.....

However, while everyone was talking, another person blew up the furnace, and soon, all kinds of “blown up” and failed refinement cases appeared one after another.

“There really is a problem.”

Looking at the situation around him, Ye Lu began to mutter in his heart.

It seemed that this test was not simply about making pills, everyone had been fooled by that “Suiren Clan” expert.

“Most of them have tampered with the recipe or the ingredients.”

Ye Lu began to think.

However, this was actually not difficult for Ye Lu, because Ye Lu had his “glasses”, and since they could correct things like “weapon patterns”, of course they could also adjust the dan recipe.

He did not start with his own recipe, but looked in the direction of Lin Ruyue.

Sure enough, Lin Ruyue was scratching her head, not knowing what to do, and she was still far from understanding the principles of medicine and alchemy.

“Don’t panic, I’ll tell you what to do.”

Ye Luo quickly transmitted his voice over.

Hearing Ye Luo’s words, Lin Ruyue immediately coldly woke up, however, she wanted to ask Ye Luo what was going on, however, she could only listen but could not communicate, so she had an anxious face.

As if Ye Luo had guessed what she was thinking, he smiled and said.

“It’s because of the ‘Fai Shi’, the rest of the recipe doesn’t have any mistakes but it has half a penny more Fai Shi, however, this little change makes a world of difference, it makes the elixir turn into a dynamite just as it fuses, so you only need a little less Fai Shi to succeed, as for what level you can practice the elixir, it depends on your level.”

There was only so much Ye Luo could help with.

After listening to Ye Lu, Lin Ruyue did not hesitate to refine it, as long as the crux was found, the rest was a matter of refining, and it was impossible to make a qualitative leap in this small amount of refining level, so Lin Ruyue handed it in after she finished it quickly.

“No. 9527, Lin Ruyue, ‘Fire Cloud Pill’ completed, quality ‘Third Order Xuan Pin’, pass!”

Lin Ruyue was the first to finish, and the result was announced immediately.

This also took everyone by surprise.

“It’s done so quickly, it looks like there’s a possibility that there’s nothing wrong with the dan recipe.”

“I guess so, I guess there was still a problem with how I operated just now.”

“Let’s try it again.”

.....

Lin Ruyue’s actions caused many people who were just skeptical to immediately change their minds.

Chapter 400

But, of course, those who were eager to try failed immediately.

“Shit! It doesn’t look like that!”

“A wasted opportunity, what went wrong?”

“Is it a problem with the steps, with the fire, with the herbs?”

.....

Soon, the crowd went back to the original point.

While Ye Luo took the opportunity to look at everyone’s dan recipes and herbs just now, then, he looked to where the podium was, the Ge family was really staring at him, seeing this scene, Ye Luo then looked at the Ge family and stood up with a smile.

Seeing Ye Luo’s action, Ge Yun suddenly felt as if something was not good.

As a result, Ye Luo smiled with him before turning his head to look at all the contestants in the venue and said.

“Everyone doesn’t need to be troubled, I already know all the problems with the pills you have refined, I’ll master the crux of your problems here.”

“First of all, the ‘second rank’ elixir part is that there is an extra herb when refining, and it is not an exploding herb, instead it is the ‘Qing Ling Cao’ which has certain prevented the medicinal properties from being too violent, just take this herb. ”

“Then, the ‘third-order’ pills are partly because of the extra half a penny of ‘Fai Shi’, just use the right amount.”

“After that, for the ‘Fourth Order’ elixir part, there is no problem adjusting the order of ‘Withered Bone’ and ‘Snow River Dahurian’ when melting the elixir.”

The highest grade of elixir that anyone in the room could make was the ‘fourth-grade’ elixir, and Ye Lu had spoken about all the problems with everyone’s elixir like a family treasure, which meant that everyone could refine it without any worries.

Seeing this scene, the questioner from the “Suiren Clan” immediately stood up and stared at Ye Lu.

Ye Luo looked at him and smiled, saying.

“No need to be so excited, I have a nickname, you are the younger brother of ‘Comrade Lei Feng’, ‘Lei Di’, so helping people is something I should do.”

This statement made the “flint man’s” questioner angry enough.

“You you you you

He said “you” three times but finally said nothing because he suddenly realized that he didn’t know what to say about Ye Lu.

In fact, what Ye Luo did was not against the rules, and if he was not worried about others overtaking him, with a friendly and helpful attitude, a favor was not out of the question.

So, he ended up sitting down again.

Ye Luo looked at this guy and laughed, and following that, everyone started to refine excitedly, because there was a generous reward for passing this round.

“What should we do?”

Ge Feng, who was beside Ge Yun, asked with a bit of a headache.

“So many people have passed, we haven’t prepared enough rewards!”

Originally, this round was intended to brush most people off, after all, there were only three chances, and trying to find problems in such a complicated dan recipe was extremely difficult.

Ge Yun was also very headstrong, in fact, originally everyone had prepared prizes with some leeway, but now that so many more people had claimed their prizes all of a sudden, he was really a bit caught off guard.

However, as the organiser, he could not let the situation get out of hand or leave it unattended, so he thought about it with some meat on his bones and said.

“Ask for instructions with the old man to use the inventory.”

Hearing this, Ge Feng immediately asked the old man, Ge Feilong, for instructions.

However, what no one knew was that somewhere in the Makuhari Mountains, two people were watching the meeting.

“There’s a bit of a problem. The person we’re looking for has been identified, right?”

The other man nodded with certainty.

“Yes, according to the tip, it’s pretty much confirmed, I’ll find a way to make sure about it tonight, there’s other trouble this time, I’ll ask for instructions from above and see what to do.”

After saying that, one of them flew away and disappeared.

And on this side of the venue, with Ye Lu making such a fuss, everyone started to refine pills quickly, all kinds of flames rose up, it looked so lively.

Soon, the guy who had failed before found out that what Ye Luo had said was right, using Ye Luo’s method, he really succeeded in refining it, although it was not ideal in terms of grade as it was his first time refining, but as long as he succeeded, he could proceed to the next round of the competition, and more importantly, the reward would be in hand.

In fact, most of them were not here for the championship, because everyone knew that there were many experts here, and none of them were weak, so it was too difficult to stand out, so most of them aimed to open their eyes and then see if they could get a prize, because the prizes they got after each round were very rich.

So, after this guy stood up he cupped his fist towards Ye Lu and said.

“Thank you, Mr. 9528, for the mention, in the future, if I need to use my Nie Wen, just ask, I will definitely go through fire and water.”

As soon as he finished speaking, another person also stood up and said.

“Thank you, Mr. Ye. If you need anything, please call our Zhu family, we will definitely do our best to help.”

Just like that, people kept standing up and thanking Ye Lu.

And when the others saw these people’s actions, they were too embarrassed not to show it, or else it would seem like they were much more unethical, so every pill refiner who finished refining gave a thank you to Ye Lu.

Seeing this scene, Ge Yun revealed a bitter smile, now it seemed that their “Ge family” had hemorrhaged money to pay for the prizes, but it might not be possible to please them, but Ye Lu had already obtained everyone’s favour, no matter which one of them felt that they had taken advantage of Ye Lu, even the eight people sitting at the very core felt a bit upset.

After all, admit it or not, after Ye Lu saw through the mystery, they then started refining, even if the refining was done there was still a knot in their hearts, and it was just as well that Ye Lu was right.

Of these people, the only one who didn’t feel this way was Medicine Shu, who had always treated Ye Lu as her benefactor, So Yi, who looked at Xie Ting Lin and said with a smile.

“You’ve always considered yourself a heavenly pride, why do you also want to use the method provided by Ye Lu?”

At, Pill Shu’s words, Xie Tinglin was suddenly a little unsure of how he should answer.

If he said that he didn't use Ye Lu's method, then he was definitely going to lose, and he knew very well that Ye Lu was right, but he couldn't just lose face like that.

So, he looked at Pill Shu and said.

"Hmph, I already knew what the problem was, only, I didn't say anything, who is sick in the head like him, do you think I will be worse than him? Jokes!"

Obviously, Medicine Shu was not good at arguing and finding sophistry, she just laughed and did not say anything.

Instead, Xie Tinglin got a bit carried away and said.

"Tell everyone what the problem is, he is a fool"

At this time, Ye Lu but said with a smile.

"Xie Tinglin, you're arrogant, so how about I give you a chance to see what the problem is with this for me, and we can apply for a swap of refinement with the person in charge?"

After saying that, Ye Lu then looked at Ge Yun and said with a smile.

"Mr. Ge Yun, what do you think? Agree that we swap?"

Of course Ge Yun did not agree, he was still expecting this question to be difficult for Ye Lu, so he shook his head and said.

"There is no such rule in the Assembly."

For his part, Ye Lu smiled and said.

"How about this, give Xie Tinglin a copy of the same material as me, we'll refine it together and then see who can pass, is this okay?"

This time Ge Yun nodded and said.

"This will be fine as long as Mr. Xie Tinglin agrees."

The Ge family's target was Ye Lu, as for Xie Tinglin whether he could pass or not, of course it could be up to him, anyway, he couldn't see anything through the big screen only.

It was Xie Tinglin's turn to be depressed, he could know with his buttocks that the question given to Ye Lu by the Ge family must be super difficult, he had just taken a cursory look at Ye Lu's question as well, and he didn't have any confidence at all to handle it in one go.

If he lost the chance to compete for the championship because of this, he felt very unworthy.

So, he hesitated.

Looking at his hesitant look, Ye Luo then smiled and said.

"Hey, not that I'm talking about you, how can you be the champion if you're such a wimp?"

Hearing Ye Lu's words, Xie Ting Lin's face turned red for a while, but in the end, he really didn't dare to agree to it just said coldly.

"You think I'm as brain-dead as you are, I'm not going to be as nonsensical as you."

After saying that he stopped paying attention to Ye Luo and then started to continue refining his own pills.

Ye Luo then looked in his direction and said.

"Scared, aren't you, but, for me, this thing is simply easy, you guys watch."

The last few words were actually spoken to the Ge family and the Sui clan.
