Chapter 441

Ye Lu knew that with the other party's status as the chief refiner of the "Chi You Clan", the other party would not pay attention to him unless he showed his hand.

Then where had Gushiki gone?

While thinking about it, Ye Lu quickly raised his hand and began to draw a "weapon pattern" in front of the "Chi Fire".

The thing he drew was a "Go", Chi You was known as the "God of War", because he created the "Five Weapons", namely "Go, Spear, Halberd, Sheik's Spear, and Yi Spear", and this kind of weapon called "Go", which was somewhat like a long-handled scythe, was the weapon most used by the "Chi You Clan", but honestly, not many people among the "cultivators" used the Go.

Therefore, when they saw Ye Lu pick up a Go and start to draw on it, the others were astonished, giving the impression that Ye Lu was very familiar with the Go.

In fact, for Ye Lu, as soon as he chose the pattern he wanted to draw, the auxiliary ability of the "glasses" would immediately show the texture of the drawing on the weapon, and Ye Lu only had to follow the texture to draw it, so it made no difference to Ye Lu what weapon he was drawing.

His drawing speed was so fast that it could be described as dazzling, and soon a "Go" was drawn.

"This is a 'weapon pattern' for a 'Saint-rank' magic weapon, I think this should help you a lot, because, for a 'Saint-rank' magic weapon, as long as it is 'Sovereign' level cultivator can use it to exert combat power comparable to that of a 'Jindan Ninth Turn', and it's also a bit easier to refine, so I guess in a sense, I'm afraid it's more valuable than 'magic treasures' is even more precious, right?"

After hearing Ye Luo's words, "Chi Fire" nodded mechanically.

Ye Lu smiled and continued.

"Find a son who happens to be at the 'Patriarch' level to try it out and see how powerful it is."

He said as he pushed Go forward.

There were still many 'Sovereign' level disciples here, so immediately, one of them stepped forward and volunteered to pick up the Go and test it out.

As soon as the light came on, he waved it, and a bright light in the shape of a "gor" came out of his body, and with a "snort! It sliced an ornament not far away into two pieces with a loud bang.

The power was definitely worthy of the name "Saint Class", and the distance of the attack was quite far.

"Great, great"

That "Chi Fire" also said from the bottom of his heart.

He asked himself that he didn't have the ability to draw a "Saint Class" weapon pattern so quickly without a draft, and besides, he didn't have such a complete "Saint Class" weapon pattern either, such things should be rare even in the "Weapon Sect", not to mention that it happened to be used on a "Go".

At this moment, Ye Luo lost no time in saying.

"Now can you reveal to me who I should ask about this matter, and then the method of drawing this weapon pattern is yours."

Hearing that he was going to teach himself this "Saint Grade" artifact pattern, "Chi Fire" immediately became excited.

He looked at Ye Lu and said.

"In fact, all the outreach matters are handled by 'Chi Tian', you just need to ask him, of course this tournament is also under his control, such a small matter, everyone actually knows, taking such a valuable gift from you, I really don't dare to accept it."

Although his mouth said so, but "Chi Fire" has been licking his lips, it is obvious that his heart is very eager to get this "weapon pattern" drawing method.

Ye Lu smiled and said.

"That's fine, there's one more thing I'm very curious about, can we both talk about it alone?"

He looked at the people around him and said.

"Chi Fire" nodded, then looked at Ye Lu and said.

"It's fine to talk alone, but before that, please let me want to check your cultivation level."

Although Ye Luo did not look very strong, it was possible that Ye Luo was a master, and it was still dangerous to be alone in a room with a master.

Ye Luo certainly did not have anything to worry about, anyway, he had a "spell" that could simulate any cultivation level, so he smiled and extended his hand.

"Chi Fire" checked and found that Ye Lu was only at the "Second Turn of Jindan" cultivation level, so he nodded reassuringly.

Then, the two of them went to a separate room.

"Tell me, young man, you must be a super genius to have such a cultivation level at such a young age."

Ye Lu smiled and said.

"Master 'Chi Fire', you are an alchemist, so you should also know that the same high-level 'magic treasure' or 'magic weapon' is important to 'Alchemist' attracts now, so I would like to observe your 'Chi You Clan's' fierce weapon, the 'Chi You Go'."

Hearing Ye Luo's words, "Chi Fire" revealed an expression of sudden realization.

He had wondered what this young man wanted to do mysteriously, but it turned out to be this.

Ye Lu then continued.

“I know you are also a bit embarrassed, don’t worry, I am just looking at it, in addition I am willing to exchange you with the ‘Saint Rank’ weapon patterns of the other four weapons.”

Hearing Ye Lu’s words, “Chi Fire” immediately agreed.

Because the Chi You clan basically used these five types of weapons, if they had the ‘Saint Grade’ weapon patterns of the five types of weapons, it was obvious that the strength of the Chi You clan would increase by a large margin.

So, he took Ye Lu to the secret room of the Chi You Clan.

Ye Lu took note of the route along the way, and soon, the “Chi You Go”, one of the “Ten Ancient Fierce Weapons”, appeared in front of Ye Lu.

“It’s really a powerful thing!”

When he saw the “Chi You Go”, Ye Lu also saw the level of this item, which was a “Spiritual Treasure” that was beyond the level of a “Dharma Treasure”.

According to the introduction of the glasses, this kind of “spiritual treasure” could not be made and nurtured in this “small world” of Earth, it was something from the “Haotian Continent”, so it was extremely rare on Earth, and it was because of this reason that it became a legendary “fierce weapon”.

This “Chi You Go”, like the “Blazing God Blade”, emitted an extremely terrifying aura, and was probably also used to kill and destroy countless people.

“Great stuff! That ‘Chi Fire’ master, can I look at it for a while longer, anyway, this thing is inside the defense shield, I can’t take it away, besides, if I dare to take it away, I will not be killed by your clan, right?”

Hearing what Ye Lu said, and looking at his hungry eyes, “Chi Huo” smiled and nodded his head.

Then, he asked the guardian of the chamber to keep an eye on the entrance, and then left.

Seeing Chi Fire leave, Ye Luo quickly flew up and began to draw among the dense “weapon patterns” on the ceiling.

Only after he had finished drawing them did Ye Lu leave the room and thanked Elder Chi Huo.

The “Chi Fire” elder, of course, inspected the “Chi You Go” and found no problems with it, which gave him complete peace of mind.

As for Ye Lu, he left behind the method of drawing the five weapon patterns and then quietly left.

He acted in a very low profile this time, as he was not sure about Gushiki’s condition, so he did not dare to act rashly, as he was worried about Gushiki’s safety.

He soon found the “Chi Tian”, but he didn’t alert the snake, as the tournament would take three days anyway, and he wasn’t in a hurry.

However, his plans were soon disrupted by an incident.

While Ye was away from the two brothers Ren Yi and Ren Yao, the two clashed with the other surnames of the “Twelve Surnames of the Yellow Emperor”.

“It’s because of our new worshipper ‘Master Ye Lu’ that we’ve been able to improve so quickly, don’t say sour grapes when you can’t eat the ordinary!”

Ren Yao said as he looked at the other party and glared.

However, what he didn’t know was that not far away, their thoughtless words were overheard by a person from the “Chi You Clan”, who was the special envoy who had been to the Jade Dragon Snow Mountain before, and who was also responsible for investigating the turmoil that had occurred in the “Miao Frontier”.

“Ye Lu, it can’t be that guy, can it?”

When he heard this news, he was alerted.

Chapter 442

He had been investigating this matter for a long time, although, at that time, only Gushiki was taken away, but it was not difficult to find the clues that he wanted to think about, as long as he combed through Gushiki’s experience, combined with the disappearance that happened at that time, and some information that he knew, he had found out that this matter was definitely related to Ye Luo.

However, at that time, Ye Luo was using the image of “Mr. Luo”, so he was involved in a lot of experiences by “Mr. Luo”, which is why he did not discover Ye Luo at first.

When he found out about Ye Luo, he discovered that everyone associated with Ye Luo had disappeared.

This made him more and more suspicious of Ye Luo, and he did not expect to meet him here.

“This matter cannot be rushed, that ‘Mr Luo’ battle at the top of the ‘Jade Dragon Snow Mountain’ was scary enough, it’s better to think long and hard to prepare for everything.”

So, he carefully checked the situation of the Ren family who had entered the area, and then reported to the chief of the Chi You clan.

“You mean to say that this boy might have a ‘Immortal Mansion Key’ in his hand?”

The tall leader of the Chi You clan looked at the envoy and asked.

The envoy nodded and said.

“Yes, but if this Ye Luo is the same Ye Luo that participated in the ‘Pill Refiner’s Conference’ before, I’m afraid it will be very troublesome.”

Mr. Luo’s “Jade Dragon Snow Mountain” battle was fine, although it was amazing, but the one he killed was only a special envoy, but the “Pill Refiner’s Conference” was a bit scary.

“The “demon dragon from hell” had killed all the experts in Kunlun, and the strongest patriarch of the Chi You clan was only a practitioner who had just entered the “Golden Dan Path”, so he could not stop such an attack.

However, the patriarch, Chi Yang, smiled and said.

“Don’t worry, I asked the chief of the Sui ren Clan about that incident, and he said that such an attack could only be used once, because it was a summoning technique that used the fire spirit of the Violet Sky Flame as a trigger, and it could not be used a second time. Besides, this is our territory, if it doesn’t work, we can use the ‘Chi You Go’, I don’t believe I can’t kill him.”

After saying that, Chi Yang said.

“Go on, gather your men in secret and strike when you find an opportunity, even if they dare not do anything to us?”

The “Chi You Clan” was already known for its strength, so of course, it was even more so when it came to such matters.

However, Ye Lu did not know this, he was currently preparing near the venue, making preparations for the upcoming “strong attack across the tower”.

In any case, he had to get Gushiki’s news.

Soon after, the competition for the “Innate Realm” in the “Martial Competition” began.

The competition was based on grouping and then elimination one by one until all the players on one side had lost.

Although they were not allowed to use offensive weapons such as the “Heavenly Thunder Seeds” and of course offensive pills, Ren Yi and Ren Yao still made it all the way through the tournament because the things he had on him were absolutely powerful after being modified by Ye Lu, and of course it was only after Ye Lu had spent a lot of money that he was able to get and modify them, including the “Saint Rank” defensive armour, which could also absorb energy after modification and was definitely the strongest defence.

These weapons, together with the strong defensive armor, made them as strong as the undead in front of the “Chi You Clan”, and they could not be beaten.

In the end, there were no surprises as the two of you finally defeated the Chi One opponents and became the ultimate winners.

After that, most of the heads retreated, leaving only a few people from the Ren family, saying that they wanted to leave Ren Yi and Ren Yao, the two champions, to talk about something, but as a result, Ye Lu saw that a large group of people, including the special envoy from before, had surrounded him from afar.

Seeing this situation, Ye Lu basically understood that most of his identity had been exposed.

Before coming to the secret realm of the Chi You Clan, Ye Lu had already considered this situation, but he did not expect it to come so quickly.

“Fine, let’s do it openly and honestly!”

Seeing that there was no shortcut to be found, Ye Luo smiled and gestured for Ren Zun and Ren Yao to hide to the side before darting to an open space.

“So many people have come, tell me, what do you want?”

Ye Lu looked at the crowd and said with a smile.

He found that it seemed that all the experts of the Chi You Clan had come, and it seemed that they were quite serious about him.

“Ye Lu, the one who made a big mess in Miaojiang and finally took down our branch in Miaojiang is you, right?”

Seeing that the other party had recognized him, Ye Luo no longer hid it, he looked at the person from the “Chi You Clan” and said with a smile.

“It’s me, but I have another thing to ask you, where has the little girl you took away gone?”

Hearing Ye Lu’s words, the Chief “Weapon Refiner”, “Master Chi Fire”, suddenly said to himself as if he had come to a sudden realization.

“So it’s him again, no wonder he could provide so many ‘Saint Grade’ “weapon patterns”, no wonder he could see the problems with the weapon patterns at a glance, so those formations were all made by him

At that time, when Ye Lu left, for the safety of the “Miaojiang” crowd, he drew up guarding formations in the “compulsion tribe” and the “Ghost Gate”, the “Chi You clan” as the manipulator behind the scenes will of course go back to the “Ghost tribe” and the “Ghost Gate”, but what they saw again in the past were strong formations.

These formations had been studied by Chi Fire himself, and he found that they were even more sophisticated than the ancient formations he knew of outside the clan of Chi You, which of course took him by surprise, as he could not think of anyone who could create such formations.

He knew very well that the “Weapon Sect”, which was said to be the strongest in weapon making, could indeed create a formation much more powerful than this one, but it was not able to create such a fine formation.

After corroborating the previous formation and the weapon pattern that Ye Lu had just given him, Master “Chi Fire” came to a sudden realization.

When he heard Ye Lu’s question, one of them said coldly.

“She’s in our dungeon. If you want her to live, drop your weapon.”

Ye Luo then smiled and said.

“Don’t try to lie to me, I’m a big liar, she hasn’t returned to your ‘clan’ at all, tell me where you’ve got her, I can spare your clan, otherwise don’t blame me for not reminding you.”

Hearing Ye Lu's words, this guy suddenly threw back his head and laughed wildly.

"Hahahaha! You're laughing me to death, you're an ant-like existence, how dare you threaten us and spare us, think about it first, will we spare you."

At the same time, many people laughed wildly together, following which, the figures of the crowd began to rapidly grow larger, and a man who was originally a fat and large man flew to become a giant man several meters tall.

However, at this moment, one of them suddenly "threw himself to the ground!" He fell to the ground with a sound, and was dragged to Ye Lu's front like a dead dog.

"Say, where did you get Gushiki?"

Ye Lu took out his "Blazing God Blade" and put it on his neck, saying that this guy was the envoy who had taken Gushiki before.

As a result, this guy was very tough.

He looked at Ye Lu and said with a glare.

"Old me kills like hell, when I killed the first person, you were still in your mother's belly, and threatened old me, we will definitely cut you into pieces"

After he finished speaking, Ye Lu said indifferently.

"Unfortunately, you won't be able to see that day."

After saying that, Ye Luo gently waved his hand, and this guy's head was instantly cut off, and his big good head fell to the ground, with blood everywhere.

"Tell me, or everyone will die!"

Ye Luo looked at the crowd of people around him who were watching intently and said, at the same time, endless fierce Qi began to radiate out with Ye Luo as the centre, while Ye Luo's eyes also turned scarlet at the same time.

At this moment, Ye Luo looked as if he was possessed by a god of killing.

At this time, a voice suddenly said.

"Do you think that our Chi You clan is scared? Each and every one of our clan is a brave and warlike warrior who is never afraid of death."

Following this, the figure of Chi Yang, the chief of the Chi You clan, flew up from the podium of the venue.

Chapter 443

In fact, Chi Yang had been there watching all this, and through observation, he felt more and more that Ye Lu was just a reckless man with some skills.

What kind of place is this? This is the clan territory of the Chi You clan, to come here to cause trouble is either a blister in the head or a mental illness, and to be so arrogant, without any brains at all.

As for the envoy that Ye Lu killed, he was just a “seventh turn of Jindan” guy, although he was considered to be the elite of the clan, but he was still far from a real expert.

Seeing the attitude of the patriarch “Chi Yang”, Ye Lu understood that there was no way to settle this matter, so he looked at the people and said.

“I don’t have a plan to bleed into a river, so I’ll advise you one last time, don’t force me!”

As a result, Ye Lu’s words once again drew a burst of ridicule.

“This guy really thinks of himself as an onion.”

“A late stage of middle-aged disease!”

“I’m dying of laughter from him.”

.....

And at this time, that Chi Yang said coldly.

“Kill him!”

His words undoubtedly gave Ye Luo a death sentence, and the experts surrounding Ye Luo all rushed over.

There was no shortage of experts who were trapped at the peak of the “Ninth Turn of the Golden Elixir”, and they were very confident because they didn’t put Ye Luo in their eyes at all.

“Hehe!”

Seeing this scene, Ye Lu, who was holding the “Blazing God Blade”, suddenly laughed.

He looked at the sky and said indifferently.

“It’s hard to persuade a damned ghost with good words! Since that’s the case, I’m not going to be polite!”

As he said that, he looked at the first guy who rushed over, that Chi You clan member was quite tall, several times the height of Ye Lu, and was carrying a Chi You clan spear in his hand, however, when he saw Ye Lu’s eyes, his movement stalled for a moment, and then revealed an extremely frightened expression.

With a flick of the “Blazing God Blade” in Ye Lu’s hand, his head flew up.

This guy’s cultivation was not low, he had a cultivation level of “Golden Dan 9” and was considered a genuine elite of the “Chi You Clan”, but to be killed in one go was a bit too terrifying.

Seeing this scene, the people who were rushing over were all surprised, but the “Chi You Clan” has always been brave, so they hesitated for a moment and then rushed over again shouting loudly.

“Seeking death!”

At the same time, he waved the Blazing God Blade in his hand, and a circle of fire blades like coils went in all directions. This strike was also the strongest strike that Ye Lu had made without using the “Exploding Yuan Dan” increase.

“Brush!”

After the strike, the dozen of strong men closest to Ye Lu were all cut into two pieces by this terrifying slash.

After seeing this slash, everyone was stunned, including that clan leader Chi Yang, who also did not expect Ye Lu to have such fighting power at all.

It was a little too terrifying, and coupled with the terrifying fierce aura that Ye Luo emitted, this caused all those who saw this scene to feel inexplicably chilled inside.

“Don’t be afraid, he definitely can’t last long with an attack like this, go again.”

Another person bravely rushed up.

As a result, Ye Luo still used the same move, the terrifying “Fury Qi” impact, coupled with a terrifying slash, and a dozen more people fell into a pool of blood.

Now everyone was really dumbfounded, because they saw that Ye Lu did not spend too much effort, it was as if he had killed so many people with one light blow.

Moreover, it looked like Ye Luo still had a lot of strength left, this was not good!

However, immediately after that, something even more unpleasant happened.

Ye Luo bowed and slapped the ground with his hand, countless blood was released from Ye Luo’s body, anyway, the other party already knew who he was, so Ye Luo didn’t need to hide anything anymore, it was important to the moment when the bottom card that should be played could be played as much as possible.

“Come on! Nine Infants!”

A terrifying demonic beast with nine heads flew out from the red light, and of course this creature had already surpassed Ye Lu’s cultivation level and had truly crossed over to the realm of “Golden Dan Avenue”.

Therefore, after this water and fire beast appeared, everyone’s eyebrows knitted together. The “nine infants” were already huge, plus their cultivation level was so high, so their aura was even more terrifying than those of the “Chi You Clan”.

The fiery fire and poisonous water, coupled with the Nine Infants’ ability to be almost immortal, turned the Nine Infants into a killing machine, completely free to roam around.

However, Ye Lu’s summoning did not stop there.

He unleashed his blood again, this time summoning “Chiseltooth”.

“The bloodline of the “Chiseled Tooth” was relatively complicated, so this time Ye Lu summoned not a “Tiger Chiseled Tooth” but a “Leopard Chiseled Tooth” covered in leopard prints, which was not only strong but also extremely fast.

“Ow!”

The “Leopard Chiseltooth” roared out, and then rushed towards the crowd.

But of course, Ye Lu’s summoning would not stop there, to beat the opponent must be completely painful, once again a huge bird with wings hanging in the sky appeared, it was a new “Great Wind”.

After the “Great Wind”, there was a huge boar-shaped demon beast called Minister Feng.

Seeing four terrifying demonic beasts appear one after another, the patriarch, Chi You, was really scared this time.

“Sh*t! You old mother.”

He couldn’t help but lament.

“I damn well looked bad, this guy is really a god of killing!”

At this moment, he also understood that he seemed to have really provoked someone he shouldn’t have, however, he didn’t completely despair, because he still had a killer move left to play.

“Go, bring me the ‘Chi You Go’, I don’t believe I can’t handle him.”

However, after he finished speaking, Ye Lu’s scarlet eyes looked at him and said.

“Is this the thing you are looking for?”

Then, in Ye Lu’s hand there was a several feet long, formidable, ancient long gorilla, which emitted an endlessly terrifying aura, making people shudder.

Seeing his family’s “Chi You Go” in Ye Lu’s hand, Chi Yang’s surprise was unparalleled, as he had never expected such a thing to happen.

The same surprised expression was on the faces of those guys around him who were being chased by the demonic beasts. These guys had originally thought that the “Chi You Go” would be so powerful that it would be able to kill Ye Lu, but now it seemed to be out of the question.

Of course, the one who was most surprised was the chief smith “Chi Fire”, who hadn’t figured out how Ye Lu had taken the “Chi You Go”.

However, he understood that he had caused the trouble this time, if he had not been greedy for the “weapon pattern” in Ye Lu’s hand and overconfident, this would not have happened.

However, he really wanted to know how Ye Lu had managed to do it.

So, he looked at Ye Lu and asked.

“Ye Lu, can you tell me how you entered the secret room and stole the ‘Chi You Go’, I don’t think you can enter there unnoticed.”

Ye Lu smiled and said.

“It’s simple, I used a formation, so I directly teleported there and then re-teleported back, so you guys didn’t have any idea.”

Hearing Ye Luo’s words, “Chi Fire” shook his head and said.

“No, I went back to check the ‘secret room’ and I didn’t see any changes. I was also worried that you would do that, so I checked all the places including the open space, and I didn’t find any traces of formations!”

This is where “Chi Fire” was extremely puzzled, logically speaking, he felt that what Ye Lu was saying was right, because apart from this method Ye Lu really had a hard time, and “Chi You Go” they had to look at it regularly, so Ye Lu must have gotten it recently, so it was even more unlikely to be any other way.

However, if it was really the same as what Ye Lu said, then he would be even more puzzled, because he hadn’t even found the formation, how could this be possible? He was a real old driver, if there was a formation he felt there was no way he couldn’t discover it.

As a result, Ye Lu smiled and said.

“The way of formations is vast and profound, there are still many things you don’t know, I have drawn a new weapon pattern based on the existing ‘weapon pattern’, so naturally you can’t see it.”

However, just when Ye Lu thought he had a sure win, the “Chi Yang” clan leader spoke up.

Chapter 444

“Ye Lu, I do have to say a word of admiration to you, you are really good, in fact, about the whereabouts of that girl called Gu Shi Qi, I am not unable to tell you, but since the road has come to this point, I think it is really time to decide whether to live or die.”

To be honest, Ye Luo didn’t know why that “Chi Yang” would say that, but since he said that, it meant that he should have other back-up measures.

Otherwise, he would not have had such a serious expression and said such a lot of bullsh*t, obviously because he was very reluctant to use this move.

The people of the Yellow Emperor Clan who were watching from afar were shocked by the scene before them, especially the guy who had provoked Ye Lu, the Ji Clan member of the Twelve Surnames of the Yellow Emperor, who suddenly felt a cold chill down his back.

The other members of the Twelve Surnames of the Yellow Emperor were also filled with horror, for none of them had expected the Ren Family to have invited such a terrifying worshiper.

In fact, not only the Twelve Surnames, but also the Ren Family, including the two brothers Ren Yi and Ren Yao, were filled with surprise.

“How did this Ye Lu become so strong?”

Ren Yao rubbed his chin and muttered to himself.

“You guys have found a good friend!”

The Ren Family’s family head couldn’t help but feel emotional as well.

However, everyone was a bit worried because this was the home turf of the “Chi You Clan”.

As expected, Chi Yang then nodded to Chi Fire.

The “Chi Fire” master sighed helplessly, then took out a round ball-shaped object and pressed it quickly.

As soon as he pressed the ball, Ye Lu felt that something was wrong.

However, there was nothing he could do to stop it. The formation was activated as soon as Chi Fire finished pressing the button, and Ye Lu saw countless bright lights from all over the Chi You clan’s territory, forming a rather bizarre pattern.

Ye Lu felt that it might take a lot of energy to activate this formation once, perhaps because it was so worn out that it could only be used once, which could be seen from the expression of the “Chi Yang” as if he had died.

But, to be honest, the aura of this formation was really quite strong. Soon, the light pillar formed a huge minotaur figure in the air, wearing armor of some kind and holding a long-handled weapon that looked exactly like the “Chi You Go”.

After this figure appeared, it unleashed a terrifying strike at Ye Lu.

Ye Lu originally thought that this shadow was so big that it would be slow to attack, so he couldn’t run away if he couldn’t beat it.

He found out that he was wrong. For one thing, the speed of this strike was really very fast and he was afraid that he would not be able to dodge it at all.

It was also the strongest demonic beast, and the one that caused the most damage.

“Boom!”

The huge shadow of the “Chi You Go” smashed down on the body of the “Nine Infants”, smashing the “Nine Infants” into pieces with a single blow, which was a clear indication of the terror of this shadow.

“Boom!”

After that, there was a succession of attacks, one after another, killing all those demonic beasts.

“Sh*t! What a terrifying formation!”

Seeing this scene, Ye Lu was also astonished, this was the first time he had seen such a large attacking formation, he had only seen large defensive formations before, that is, those “Great Valley Protection Formation” and other defensive formations on the same level as the “Great Valley Protection Formation”, he was not really familiar with this kind of attacking formation.

It was not that there were no such formations in the Glasses, there were all kinds of formations in the Glasses, but it was just because usually such large formations were not used.

At least Ye Lu wouldn't use such a large "attack formation", this formation was quite large in area, and it was too difficult for one person to draw such a large formation.

Therefore, Ye Lu had never studied such a thing before.

However, although he had not studied it, through his understanding of the formation, Ye Lu was very clear that this formation was definitely in need of a charging process.

This was because it was almost impossible to condense such a terrifying contraption by immediately absorbing the Yuan Power of Heaven and Earth alone.

The fact that this thing had just killed those four demonic beasts that had already crossed the "Golden Dan Avenue" and had thick flesh and skin was an easy task, which was enough to show how strong it was.

Seeing the huge shadow killing the demon beasts one by one, all the Chi You clan members were excited because of Ye Lu's powerful kill, the terrifying fury, and the fact that he had taken the Chi You Go before the enemy.

Now they could finally raise their eyebrows.

"Haha, now that kid knows the power of our 'Chi You Clan'."

"That's right, what kind of grandson are you pretending to be with us, you're still going to die in the end."

"But, forcing us to this point, this one is really strong."

"Yeah, don't want to admit it, but, it's still true."

.....

Just as the crowd was waiting for Ye Lu to be beaten to death, Ye Lu smiled.

Seeing Ye Lu's smile, the people of the "Chi You Clan" all felt something bad, and sure enough, the next moment, they realized that Ye Lu had actually disappeared.

"Holy sh*t! I forgot, he still has a teleportation array."

"Yeah, he probably teleported to our 'secret room' again."

"We can't smash the 'secret room' too."

"Smashing my ass, that 'secret room' is old and sturdy!"

.....

The man was right about this, because in order to make the "secret room" really dense, there was a lot of effort to build it, and it was as solid as gold.

However, this time, the solidity became the biggest problem.

“Chi Yang frowned, but finally he let the terrifying Chi You Void wave the Chi You Go in his hand and attacked the chamber.

“Boom!”

The building around the chamber was destroyed by the gusts of wind, and the terrifying wave of air rippled around the room like a shockwave, much like the fable “Paradox”, but the shield turned out to be stronger than the spear, so nothing happened after the chamber was hit.

At this sight, everyone frowned.

This thing was as bad as a turtle’s shell, it was a bit of a problem!

At this moment, the door of the chamber suddenly opened, and out of the chamber came a family member with blood on the corner of his mouth.

This guy covered his chest and looked at Chi Yang and asked.

“Patriarch, why did you attack the ‘secret room’?” I was scared to death.

Now everyone was confused.

What was this all about, so “Chi Yang” hurriedly and quickly asked.

“Did that Ye Luo not enter the secret room?”

The guy who ran out shook his head and said.

“No, we have been watching the chamber, no one has come in, but when we were doing a routine check, we found that ‘Chi You Ge’ was missing, so I was just about to come out and report it.”

“Of course, Chi Yang had already known about the disappearance of Chi You Ge, but what he was wondering was, where had Ye Lu gone?”

However, at this time, from the entrance of the secret realm, a voice said in a loud voice.

“Don’t look for it, and there’s no need to smash things around, I think that thing’s energy should be limited, I’m afraid that thing won’t be able to support itself for long if we smash it any further.”

Following that, the crowd saw that at this moment, Ye Lu was hovering in the place of the doorway.

Seeing this scene, Chi Yang’s heart thumped, because this location was too suitable for escape, and it was also a dead end where the big formation could not attack.

In other words, there was no chance of catching Ye Lu.

“The Great Formation has been activated, but we still let him get away, hey!”

“Chi Yang” couldn’t help but sigh helplessly.

However, what he didn’t expect was that soon Ye Luo came back.

Chapter 445

Before coming back, Ye Luo flew to a high place and looked at “Chi Yang” and said.

“Chi Yang, did your ‘Chi You Clan’ ever think of restoring this ancient formation?”

Chi Yang did not know why Ye Lu asked such a question for no reason, however, he still said coldly.

“Yes!”

Ye Luo, on the other hand, continued to say with a smile.

“Is it that you have found out that this big formation is one, because it has been too long, it has become so worn out that it can barely withstand the operation of the formation, and two, because there is a place where it is broken, so, when attacking, there will be a dead corner that cannot be attacked, right?”

Hearing Ye Luo’s words, “Chi Fire” was the first to be surprised.

Such a large and complicated formation, Ye Luo could actually see the flaws in it at a glance, this level was really not something he could expect.

“Chi Yang” was also astonished, but he was more puzzled because he did not understand what Ye Lu was talking to him about, but he had a vague feeling that something was not good.

Of course, he didn’t know that Ye Lu had actually used his “glasses” to scan the “big formation” in the air, and the “glasses” had easily found the problem of the big formation.

However, at this moment, Ye Lu also let out a long breath in his heart. If he hadn’t prepared for a rainy day and had been making preparations since he entered this secret realm, I’m afraid that this time he would really have been unable to escape.

But, no matter what, it was all over now, so, with a long breath, Ye Lu looked at Chi Yang and said with a smile again.

“If I say that I can destroy this broken formation of your family, do you believe me or not?”

Hearing Ye Luo’s words, “Chi Yang” froze.

Not only him, but everyone was frozen, including the people from the “Chi You Clan” and the people from the “Yellow Emperor Clan”, all of them showed expressions of disbelief.

“Sh*t! What a braggart!”

After a long time, a refiner from the “Chi You Clan” could not help but mutter.

This formation was so big that it was not that easy to destroy it, and what’s more, the formation had already been activated, so even if there was a small dead corner, it was useless to destroy it, because that dead corner was originally broken.

If you want to destroy any other place, you will be within the attack range of the “Chi You Void”, so it is not easy to destroy this formation.

Unless Ye Lu has an extremely destructive and death-defying army, they all rush into the formation and destroy it while the “Chi You Void” is overwhelmed, it might work, but Ye Lu doesn’t look like he has such a team.

And at this time, Ye Lu continued to smile and said.

"I'll give you one last chance to tell me the whereabouts of Gu Shiqi, otherwise, I will make your 'Chi You Clan' disappear from this lineage."

Hearing Ye Lu's words, everyone started to talk.

"Is this bastard crazy?"

"I see like, I guess he's trying to cheat."

"You mean, he's fooling us into falling for it, right?"

"I suppose so."

.....

These guys' chatter, of course, Ye Lu heard it all, he looked at the crowd and said with a cold smile.

"Fooling you guys, you are also worthy, is having a broken formation great? Let me break it for you!"

That "Chi Yang" didn't answer for a long time was in fact the answer, and then, Ye Luo flew towards the dead corner of the formation.

To Ye Lu's surprise, no one stopped him, so I guess they really didn't think he was capable of breaking the formation.

In fact, it is not all like this, because everyone is waiting for the order of the "Chi Yang" clan leader, and the "Chi Yang" is a rather arrogant person, at least he has the "Chi You clan" unique kind of pride, and this pride makes him not the first time to issue the order to attack.

Because, if he attacked, it seemed to mean that he believed that Ye Lu could break through the formation.

However, in the middle of his hesitation, Ye Luo was already in place.

"Go you!"

After reaching the "dead end", Ye Luo quickly released the "Tong Tian Vine".

"The "Spirit Field" had already harvested once, so the "Heavenly Vine" was now quite strong, with ten vines, and now ten vines rushed out in ten directions at the same time, just like ten rays.

However, the artifact patterns of these formations were all over the area, and there were artifact patterns everywhere, so Ye Lu didn't need to release the "Heavenly Vine" too far to destroy many of the artifact patterns directly.

"Boom!"

Nine of the ten vines were actually cut off by the sword, but the remaining one destroyed part of the "weapon pattern" on the ground, and it was the most crucial part of that small area.

In front of Ye Lu, all the formations had no secrets to tell.

As expected, after this area was destroyed, another part of the "dead corner" of the entire formation was added.

The broken “Heavenly Vine” did not stay idle, as they once again stretched out in a wild and unrestrained manner.

The larger the dead space, the more direction the “Heavenly Vine” has to expand, so, this time, when the “Chi You Void” swings the “Chi You Go” again, there are two vines left behind.

These two vines, of course, would not be idle, and they once again wreaked havoc.

Seeing this scene, “Chi You” finally did not feel calm anymore, because he understood that once Ye Lu really destroyed the “formation”, there was no one who could stop Ye Lu.

“Go!”

He shouted.

“All of you, let’s kill him.”

At this point, he couldn’t care less about the dignity of the “Chi You Clan”, if he didn’t kill Ye Lu, the “Chi You Clan” would be lost.

“Humph!”

As a result, Ye Lu gave a cold snort.

He didn’t dodge, nor did he make any attacking movements, but let a few of the vines fly around his body, like a dumpling.

Soon, countless attacks fell on Ye Lu’s body, but, to everyone’s despair, these attacks were useless in front of the “Heavenly Vine”.

The “Tongtian Vine” had already reached the level of the “Golden Dan Dao”, also known as the “Golden Dan Ninth Aperture”, so it was not something that these rotten fish could handle.

Even that “Chi Yang” can only hurt the “Tong Tian Vine” but cannot really cause any serious damage to him.

Only that “Chi You Void” was so powerful that it could cut the “Tong Tian Vine” into two pieces just like slicing vegetables.

“Holy sh*t! What the hell is this thing? It’s too strong!”

“Yes, it’s so tough, it can’t be cut!”

“This is the end!”

.....

So many people attacking together were actually unable to break through Ye Lu’s defense, which made everyone feel desperate.

The “Chi You Void” was not long before one sixth of the area was unreachable.

The “vines” were also gradually approaching the core of the entire artefact pattern area.

Once the core was destroyed, the whole formation would definitely collapse.

“Alright, alright, we admit defeat.”

Seeing this scene, Chi Yang gave up all his pride and put away his weapons, signalling all the clansmen to stop attacking, there was no point in fighting any longer.

Although after absorbing the “Fury Qi”, Ye Lu had become different from before, he was not a murderous person after all, so Ye Lu stopped attacking and looked at Chi Yang and said.

“I advised you a long time ago not to take any chances, what I said is true, because I am a person who does not like to pretend, but unfortunately you do not believe me.”

To be honest, at this moment Chi Yang’s heart was full of regret, if he had known that this was the end, he would not have fought with Ye Lu to the death, and as a result, so many people had died, and in the end it was a helpless end.

Ye Lu looked at “Chi Yang” and said.

“Tell me, where exactly did you get Gu Shiqi, in addition, I have to remind you that I can also break the broken formation outside your secret realm, so you’d better tell the truth, don’t take any chances.”

Chapter 446

This, Chi Yang believed very much, he had seen Ye Luo’s kung fu in destroying the formation with his own eyes, and he knew very well that Ye Luo could definitely destroy their big formation outside.

Thus, he sighed and said.

“Well, it’s actually not a secret that can’t be disclosed, because even if you know it, it’s still a waste of time, that little ninny was brought to the ‘Ancient Clan’, which is the legendary ‘Pan Gu Clan’, in In the ‘Ancient Clan’ people like me are nothing more than ants, and even if you are strong enough to go there, you will still be dead.”

Hearing Chi Yang’s words, Ye Lu sucked in a breath of cold air.

Although Chi Yang’s words might have been exaggerated, this “Ancient Clan” must be terribly strong.

This reminded Ye Lu of Kunlun, which had also casually sent a strong person who had crossed the Golden Dan Avenue.

Chi Yang then continued.

“I can also tell you the location of the Ancient Clan’s secret realm, so you can go there yourself if you want to.”

After saying that, Chi Yang then sighed and named a location, honestly, he was chagrined at the moment, if he had done so long ago, he wouldn’t have ended up in such an end.

Seeing that Chi Yang did not seem to be lying, Ye Luo then nodded and said.

“Good, then I believe you this time.”

“However, I have to ask you another thing, is it because of the ‘Immortal Mansion Key’ that you took away Gu Shiqi?”

Hearing Ye Luo talk about the ‘Immortal Mansion Key’, Chi Yang was slightly surprised, then he looked at Ye Luo and said.

“You also know about the ‘Immortal Mansion Key’? It seems that this matter has been widely circulated! You’re right, and I won’t hide it from you, that Gu Shiqi is the person that the ‘Immortal Mansion Key’ is looking for, which is one of the ‘Sons of Heaven’s Destiny’, so you don’t have to worry about her dying, at least until the ‘Immortal Mansion opens ‘ before, she will not die.”

Hearing Chi Yang finish, Ye Luo also let out a sigh of relief, to be honest, he was really quite worried about Gu Shiqi.

Now, it seemed that at least her safety was not something to worry about, however, one could not just leave Gushiki alone.

“I must raise my cultivation level as soon as possible and then go and save Gushiki before I do.”

Ye Luo muttered secretly, then he looked at Ren Zun and Ren Yao and said.

“Ren Yao, Ren Zun, I’ll leave you two to live a good life, remember to look for me if you need anything, since I’m an offering to your family, don’t worry, I’ll give you the appropriate benefits.”

Then, Ye Luo flew towards the door and then disappeared into the secret realm.

Everyone looked at Ye Luo’s back and sighed with emotion.

“This youngster is not simple!”

“Yes, the future will definitely be limitless.”

“At first, I thought it was a two-stroke youth who liked to talk big, but I didn’t expect it to be a guy who was quite something.”

“Hey! Just don’t mess with him.”

.....

Amidst the sighs and laments of the crowd, Ye Lu had already left this “Chi You Clan” clan’s territory.

Outside the secret realm, Ye Lu couldn’t help but have a headache, because he felt that this “ancient clan” had become a big mountain in his heart, and it would take some time to overthrow it.

However, Ye Luo was not in a hurry, because it had only been a long time since he started to become a cultivator, and he still had a long way to go.

“Next, I finally have some time to activate the four totem plates, this thing should be related to the ‘Immortal Palace Key’.”

So, Ye Luo went back to the capital first, because although he had the blood of the Four Sacred Beasts with him, he was worried that he would waste it if he didn't have enough blood, and because if he ran out of blood, he would still have to ask Long Fei Xue and the girls for it, but of course, Long Fei Xue wasn't in the capital at the moment.

Ye Lu first found Jin Kun and used his blood to activate the "White Tiger Totem Board" belonging to the Jin family.

"A mountain, I wonder what's on the other pieces."

Ye Lu muttered secretly, and then went to Qin Siyu's place, as Lin Danni, who had the pure bloodline of the Lin family, was filming a scene with Qin Siyu.

Qin Siyu was very safe under the protection of the "Shadow of Death", and she was very happy to see Ye Lu coming, so she took some time out of her busy schedule to invite Ye Lu for a meal at a big hotel near the film city.

During the meal and conversation, Qin Siyu said that their film was progressing very quickly and the shooting was going very well, so it would probably not take long for it to be released.

What surprised him even more was that Qin Siyu's cultivation level was as good as a hang-up. In just a few days' time, she had crossed the second turn of the "Nine Revolutions of the Golden Elixir", which was no weaker than his own speed.

However, Ye Lu felt that he only had to do a few more hard fights before he was ready.

During the meeting, Ye Lu showed the photo to Qin Siyu.

"Do you know this mountain?"

As a result, Qin Siyu said as she looked at it.

"You don't say, I seem to have really seen this this mountain somewhere."

With that she dragged her chin in thought, and following that, he said as if it had dawned on him.

"This should be the 'Mount Olympus' of Europe, I've seen it in the atlas."

Hearing Qin Siyu say "Mount Olympus", Ye Lu's heart was moved. The guy who possessed part of the "God of War" bloodline had chased after him before, and at that time, he was determined to take revenge.

However, since "Olympus" was called a divine mountain, it should not be easy to mess with. Therefore, Ye Lu did not impulsively set out right away, and it was not enough to know this, he needed more information.

So, after finishing his meal, Ye Lu called Lin Danni to come and used Lin Danni's blood to activate a totem plate again, this time getting a very near and dear building, which should be an artificially built extremely small decorative thing in the courtyard, and it looks like the other key is in this thing.

Of course, only these two pieces would not do, so Ye Lu went to the "Vermilion Bird Clan Land" to look for his elder sister Ye Yan.

“Good, you kid, it’s been so long and you haven’t come to see me, see if I don’t burn you to death.”

As a result, just after we met, Ye Yan threw a blazing fire at him.

Seeing this blazing fire, Ye Lu smiled, indeed, Ye Yan had already crossed into the “Golden Dan Ninth Turn” realm, only one turn younger than Qin Siyu.

If it was placed outside, it would be a “Saint”, which was definitely a strong existence in the secular world.

Of course, compared to a master, it was indeed quite inferior.

At this time, Ye Lu also discovered something else, that is, his sister Ye Yan, like Qin Siyu, did not simply possess the bloodline of the Vermillion Bird, Ye Lu suspected that she was the original body of the Vermillion Bird.

Seeing that Ye Yan had casually reached out and caught such a powerful flame of her own, Ye Yan was a little deflated.

“When am I going to be able to surpass you?”

She muttered in a somewhat depressed manner, while Ye Luo told her the purpose of her visit, and indeed, after activating the “Vermillion Bird Totem Plate”, Ye Luo got a picture that resembled a divine temple.

“It looks like these four pictures are really in a progressive relationship, so if we find Long Fei Xue next, we’ll have everything.”

Just as Ye Lu thought, after the “Green Dragon Totem Board” was activated, it showed one of the many peaks of “Mount Olympus” again.

Combining the four plates, the conclusion was that the “Immortal Palace Key” was placed somewhere in the temple on one of the peaks of Mount Olympus.

“Looks like it’s time to see the level of the Greek gods.”

Once he broke through, he would become a cultivator of the “Ninth Turn of the Golden Elixir”, and only then would he really be able to fight with cultivators who had achieved the “Golden Elixir Path”.

So, after thinking about it and making all kinds of preparations, Ye Lu went to Mount Olympus in Greece.

Of course, he did not go straight to the mountain, but first arrived at a small town under Mount Olympus.

In Ye Lu’s opinion, the main purpose of this time was the “Immortal Palace Key”, so he would not fight if he could, but could things really go as he wished?

Chapter 447

The name of the town where Ye Lu lived was “Litholon”, it was also the base camp for tourists climbing the mountain, so the population was small, but there were many hotels and restaurants, and the town was still quite lively.

Ye Lu changed his appearance by means of a disguise technique, because the internet is so advanced nowadays, he didn't know if he would be found out, so he made a big deal of it and made himself look like an old man, or a European gypsy old man, with a long white beard and deep eyes, not to mention that it was really like that.

Of course, if you want to ask for information, you have to go to a place like a "bar".

So, Ye Luo went to the bar, ordered a glass of spirits and sat there, waiting for the big fish to bite.

Anyway, Ye Luo was in no hurry this time, he had to find all nine keys to the Immortal Palace before it could be opened, and he already had a plan on how to proceed this time.

However, looking ahead, Ye Luo didn't see any valuable people in the biggest bar in this town, most of them were sightseers.

So, he took out a piece of material and started to practice engraving the "weapon pattern". Both the "weapon pattern" on the "Chi You Go" and the "Blazing God Blade" made Ye Lu feel enchanted, so he decided to spend more time studying the "weapon pattern" and try to master the refinement of more advanced treasures as soon as possible.

The biggest difference from before was that people would have different attributes, which were related to the attributes of the "Golden Elixir".

For example, some people may have the water attribute, others the fire attribute, but of course, these are the most common attributes, and there are also more rare attributes, such as the thunder attribute, or the more rare dark attribute, etc.

Before this, even a "Ninth Golden Dan" expert could only use "Innate Astral Qi" or an attribute attack borrowed from external forces, such as "Beast Fire", so the attacks of a true "Golden Dan Avenue" expert were much more complex and terrifying.

For these true "Jindan Dao" experts, a weapon that they can use is particularly important, as it allows them to use 100 per cent of their abilities, or even more.

For many cultivators, such a "magic weapon" is unattainable, but if it can be tailor-made, it is worth a lot more.

He felt that once he broke through to the "Ninth Turn of the Golden Elixir" realm, this dream would come true.

Right now, he was still one step away from his dream.

In fact, this was also related to the fact that Ye Lu had been focusing on refining pills for a while. With the three types of Origin Fire, Ye Lu could refine too many pills, but his next biggest goal was to refine pills that could cross the "Golden Dan Avenue" because he had already discovered that the women, even Long Fei Xue, who was slightly less fit, were already at the "Golden Dan Ninth Turn" realm, and at this rate, they would soon be facing a breakthrough.

The style of this bar was to leave the drinking cups in front of the drinker, presumably for the convenience of settlement, so a large number of cups were placed densely in front of Ye Lu's face.

Ye Luo, on the other hand, still had no intention of getting drunk.

At this time, a decent looking practitioner finally arrived, this guy's cultivation level wasn't too high, but he was probably not small, because Ye Lu saw through his profile that this guy had the bloodline of "Thor", but this "Thor" was not the Greek god of thunder "Zeus", but the "Thor" from the Norse gods.

The Norse gods live in a place called Asgard and would not have come here. Of course, if Ye Lu could not see the information about the person, no one else would have been able to tell that the person had the blood of the Norse gods.

Ye Lu didn't make a sound, but ordered a drink again.

Sure enough, the guy noticed Ye Luo.

It was almost impossible for a non-cultivator to drink so much strong wine without changing his mind, and the presence of a cultivator here was slightly suspicious.

"Most shouldn't have anything to do with this operation of ours."

The guy glanced at Ye Lu in some suspicion and disbelief, and finally sat down beside him and said.

"Old man, did you come here to worship the divine mountain?"

Ye Luo said indifferently as he drank.

"This is not the god I believe in, so why should I worship it."

This statement made the man called Swemlin feel a lot more secure, because in his opinion, a person would not betray the god he believed in, and since this man dared to say this, at least it meant that he was not a believer of the "Greek gods".

Then, looking at Ye Lu, he said.

"Look at your capacity for wine, this wine is not going to do much for you, how about trying my wine?"

As he said this, he took out a bottle of wine, and when Ye Lu looked at it, he saw that it was indeed a kind of wine, but it was more like an anaesthetic, for wine itself is also a kind of anaesthetic, but it is really not harmful to people, so Ye Lu smiled and took it over, saying as he poured the wine.

"Have you come from the distant Northlands for some purpose?"

When he heard Ye Lu's words, the corners of Swemlin's eyes immediately jumped, and he looked at Ye Lu with a wary face, as he was a little worried that his identity had been exposed.

On the other hand, Ye Lu smiled and continued.

"Swemlin, that little buddy of yours when you were thirteen, what was his name again, yes, Hoym, do you think he's alright on that side?"

Now Swemlin was even more surprised, he had never said his name, here they used aliases, and the little mate that Ye Lu said was the very first person he had killed in his life.

"What the hell are you you?"

Swemlin's face had changed a little, if Ye Lu could know his name, this might not be surprising, because it was possible that he had investigated himself, he was not famous in Northern Europe, but it was still not difficult to find out the name.

However, he hadn't said anything to anyone about being thirteen years old, so it could be said that heaven knew and earth knew as well as himself, so how did this old man across the street know about it?

"Oh, is that strange?"

Ye Lu said with a smile as he drank.

"I know a lot more, like when you had your first time with Carrianna, what position you used, how much time it took and so on, I know it all, want me to tell you about it?"

Ye Lu's words surprised Swemlin, he looked at Ye Lu not knowing what he should say.

For his part, Ye Lu drank up his wine and then said with a smile.

"Young man, don't you think our meeting is fate's arrangement?"

Swemlin nodded somewhat mechanically and then looked at Ye Lu and said.

"Are you the legendary 'Great Seer' among the Gypsies?"

When he heard what the hell a "Great Seer" was, of course Ye Lu didn't know what it was, but he immediately crawled up the pole and said.

"Oh, maybe you should introduce me to someone who needs me, I think you don't want this 'trip to Olympus' to end in death either."

In fact, although Ye Lu could see a lot of details of a person's introduction, what he saw could only be the past, so he really didn't know much about what Swemlin's group actually wanted to do here.

However, this pushy Ye Lu was definitely going to pretend, not only this pushy, he had more pushy to pretend on, thought he felt that these strong people from Northern Europe must have impure motives, only, this guy called Swemlin was a small character, so he couldn't see what exactly they wanted to do.

Hearing Ye's whispered words, Swemlin was basically convinced that this guy was indeed an extremely powerful "diviner".

The Gypsies were the most adept at divination and using all kinds of weird spells, and were also one of the most mysterious people, so he did not think that Ye Lu had mysterious problems.

So, he thought about it and said.

"Good, then you can follow me, perhaps our meeting is really fate's arrangement."

When he heard Swemlin's words, Ye Lu smiled happily, it looked like these powerful people from Northern Europe were finally going to start having bad luck.

Chapter 448

The reason why Ye Luo pretended to be a gypsy was because he could use the “divination technique”, which is also known as “Zi Wei Dou Shu” or “Four Pillars and Eight Characters”, “Tai Yi”, “Qi Men Dun Jia” and so on in China, but he was not particularly proficient in any of them, because those who were the best at this were the experts who had mastered the laws of time.

At this moment, Ye Lu had not yet embarked on the “Golden Elixir Path”, which meant that he had not yet awakened the power of any laws.

However, he possessed spiritual power, so he could use some divination spells, and since the level of his spiritual power was extremely high, he could use it with ease.

This still made Ye Lu feel quite confident.

As he walked along the road, that Swemlin looked at Ye Lu somewhat puzzled and asked.

“Great Prophet, just how high is your cultivation level? It feels like you are unfathomable, this kind of wine makes me too drunk with just one glass, and you drank a bottle of it and nothing happened at all.”

Ye Lu smiled and said.

“It’s not worth mentioning, in fact it’s your wine that’s no good, I have a ‘Monkey’s Wine’ that not only tastes good and is strong, but is also very helpful in improving your cultivation, I’ll treat you to some of it when I have the chance.”

This guy was also an alcoholic, and when he heard that Ye Lu had a good wine, his eyes immediately glowed up and he couldn’t wait to have some right away, at the same time, he said with a smile.

“You may not know, we Nordic people all like to drink, if you have good wine, you must not hide it from us!”

Ye Lu smiled and said.

“Don’t worry, this is natural.”

But, to be honest, he didn’t have any bullshit “monkey wine”, so let’s just fool around and talk about it when the time comes.

With that, the two of them soon arrived at a hotel in town.

The town was full of hotels, bars, restaurants and tourists, so it didn’t raise any suspicion.

After entering the hotel, Ye Luo saw a man sitting in the lobby leisurely flipping through a magazine, but this guy’s cultivation level was very high, he had already crossed the “Golden Dan Avenue” and his proficiency was very strange, he was actually good at sensing laws, that is, he could sense the other party’s cultivation level and other information.

Therefore, the moment Ye Lu walked in, this guy froze, because he found that he could not detect Ye Lu’s depth at all.

Of course he couldn't detect it because, at this moment, Ye Lu didn't use "spells" such as "the art of concealing the sky", so he couldn't detect it at his current level.

However, this guy was transparent in Ye Lu's eyes. This guy was obviously placed here by these "Nordic Powers" to observe the reality of the people who came in.

This way, once a practitioner came in, he would be the first to sense it and send out the corresponding message and signal.

So, Ye Lu looked at him and smiled and said.

"Mr. Jerno has worked hard, how is she doing in Osfir?"

At this word, the guy who was reading the newspaper almost dropped the newspaper in his hand, because that "Osfir" was another name of their leader's woman, and it was also a name that only the two of them would use, mainly because this guy's sensing ability had an extended direction similar to mind reading, although it was not necessarily possible to really read the mind, but it was possible to guess a woman's mind, so he was able to get the hearts of many women.

However, he knew very well that his chief had quite a bad temper, and if he knew that he had touched his woman, he guessed that he would be finished, so he hurriedly stood up and said with a smile.

"Where is this honoured guest from? Welcome, welcome!"

As a result, Swemlin said with a smile.

"This is the 'Great Seer' of the 'Gypsy' clan that I found, isn't it quite powerful?"

Hearing Swemlin's words, the guy called Jerno immediately picked up his thumb and smiled as well.

"Awesome, really awesome!"

As he spoke, Jerno felt a little chill down his back, he would really be in for a treat if this matter was poked out.

However, Ye Lu patted his shoulder and said.

"Young man, don't worry, my old man has always known more and said less."

This pat came somewhat suddenly, and Jielnuo was also a highly alert practitioner, and as a result, he found that he could not avoid it, which made him feel somewhat appalled.

"This person might really be unfathomable!"

He muttered in his heart, but he did not know that this was due to the high level of the "Martial Skill" that Ye Lu used. Besides, Ye Lu's real level was already comparable to that of a practitioner who had crossed the "Golden Dan Avenue", but this guy, although his level was also good, had not yet crossed the "Golden Dan Avenue".

At this moment, that Swemlin said with a smile.

"With the help of the 'Great Seer' this time, I think we should be able to succeed in our matter."

Jerno, of course, had to go along with it.

Following that, Swemlin then led Ye Lu up to the third floor, and in a room on the third floor, Ye Lu saw the leader of the group.

What surprised Ye Lu was that this guy was so strong that he was actually a super expert beyond the “Golden Dan Avenue”, that is, the legendary “YuanYing old monster”.

To be honest, when he saw this person, Ye Lu regretted a bit, because if the other party wanted to crush himself, it would be as easy as a hand.

“How could there be such a strong person?”

Immediately afterwards, Ye Lu felt something weird touching his spirit, as if he was scanning it, making it feel very uncomfortable.

“It looks like it’s a ‘divine sense’ that only ‘old monsters of the firstborn’ possess.”

Ye Lu muttered darkly.

“It looks like these European Gods can’t really be underestimated!”

Previously, Ye Luo had a fight with the “Blood Race”, so he had always felt that the so-called “Greek Gods” bloodline practitioners of “Mount Olympus” should not be anything more than that.

He had always thought that the so-called “Greek Gods” with the bloodline of “Olympus” should be no more than that, and the fact that he had subdued the “War God” bloodline of Karassis had given him the impression that he had been wrong.

However, even such an expert had appeared this time, so it seemed that things must be very big.

After scanning Ye Lu with his Divine Sense, Brannoy frowned because he found that he could not detect the cultivation level of the other party with his Divine Sense.

“Could it be a super expert who has surpassed the ‘YuanYing stage’?”

He muttered, but then he thought it was unlikely, he was still not sure if there was such an expert or not, and more importantly, he did not feel the aura of a supreme power from Ye Lu’s body.

“What an odd old man.”

He muttered secretly as Swemlin had smiled and said.

“This is a super powerful wandering Gypsy ‘Great Seer’ that I happened to meet, I think with his help, things will definitely go more smoothly for us this time.”

As a result, that Brannoy looked at Ye Lu and said coldly.

“It’s certainly good to have the help of a ‘Great Seer’, but I feel that you are being fooled, how do you prove that he is the ‘Great Seer’?”

Ye Lu smiled and said.

“Mr. Brannoy, it looks like you are very suspicious of me! Don’t just because you are a YuanYing stage expert you can know everything, in many areas you are actually very ignorant, by the way, while we are talking, tell that henchman of yours called ‘Sinoli’ not to disturb us.”

Hearing Ye Luo’s words, Brannoy was really surprised, because he had no idea how Ye Luo knew about this, if he had good hearing, he could indeed hear someone coming upstairs, but to know who the other party was unless he also used his “divine sense” to scan and know, but Brannoy did not feel Ye Luo’s “divine sense”, so how on earth did Ye Luo do this?

At this moment, Ye Lu pointed to the window and said.

“After five counts, there will be a ‘O’pigeon’ flying through the window, from left to right.”

“Five.”

“Four.”

.....

As Ye Luo’s number, everyone looked at the window, and when Ye Luo counted “one”, an “Ou Dove” flew past, and at the same time, a knocking sounded outside the door.

“Boss, it’s Si Noli, can I come in?”

Chapter 449

Seeing this scene, Brannoy was also taken aback, and definitely something that only a prophet could do, so he said outside.

“I have something important to do, Sironi you first in go back, I will contact you again.”

Following that, Sinoli outside left.

At this time, Ye Luo said indifferently.

“Mr. Brannoy, three days ago at noon, you killed a frost giant at Boneem Mountain, and a year ago in October, you went out to sea alone and met a ‘Sea King Demon Beast’ a ‘Thousand Star Shark’ in the sea and obtained a sword with the name ‘Zhantian’ in its stomach, three years ago, you killed a ‘Golden Dan Ninth Truth’ practitioner named Inurva, five years ago you stole a certain treasure, and seven years ago

Ye Luo told the things that happened to Brannoy that only he could know like a family treasure.

As Ye Luo told these news line by line, Brannoy’s face turned wonderful, because he felt that he was like a transparent person in front of Ye Luo, without any secrets to speak of.

Following that, Ye Luo said.

“Your call is coming, it’s from Nuo Mu.”

Not three seconds had passed since he finished speaking, and sure enough, Norwood’s phone call came.

Brannoy frowned and answered the phone, and only after answering the call did he then look Ye Luo in the eyes and ask.

“I have to admit, you’re really good, but what I don’t understand is, why do you want to help us?”

Ye Luo stroked his white beard and smiled and said.

“We gypsy clan don’t have any absolute beliefs, so, I believe more in strength and power, the reason why I want to help you is of course for the benefits, I came here to talk to you about this matter, if the talk is good, we will cooperate, of course, if you are not willing to bleed, we went on to drink, although the wine in the bar is not strong at all, but that wine taste is still very charming.”

With those words Ye Lu licked his lips.

“The Gypsy tribe was indeed an unrestrained race, and Brannoy had never heard of them having anything to do with the Greek gods, and although there were many of them, and many of them were experts, and they were spread all over the world, they were basically fighting on their own.

So, he looked into Ye Lu’s eyes and asked.

“What do you want?”

Ye Luo smiled and said.

“I think you should have guessed without me saying it, I’m so old, what I want is of course the ‘Fountain of Life’ of your Nordic clan, the spring of ‘Hvagmir’s Spring’.”

“The Fountain of Hvagmir is a spring from the original continent of Kinrenga in Norse mythology, and is a very important resource for their people.

In fact, Brannoy had already guessed Ye Lu’s idea, the spring of Hvagh Myr did have the effect of rejuvenating one’s body, and there were no side effects, but the problem was that the production of the spring was so small that even the “Norse gods” had to squeeze their way in to get a little bit.

It was an important resource for them.

So Brannoy nodded and said.

“I can agree to this condition, but only after it’s done, otherwise, I can’t trust you, what if you talk nonsense?”

Ye Luo nodded back and smiled and said.

“Lord Brannoy, you didn’t mean what you said oh! But, don’t worry, I won’t care about this matter, because with this word from you, don’t worry, everything is under my control, and you will surely hand over the spring of ‘Hvagmir’s Spring’ to me very willingly.”

In fact, Ye Lu didn’t have any control over anything, he was just talking nonsense.

It was true that he could make short-term predictions using the “Purple Wei Dou Shu”, but he couldn’t do it for a longer period of time, moreover, this thing was too spiritually draining and he didn’t want to spend all his spirit energy on it.

Therefore, what he said was just to make Brannoy believe in himself, anyway, his real purpose was not the so-called “Fountain of Helvargemil”, it was just something he had read from Brannoy’s information.

In addition, Ye Luo found something remarkable in Brannoy’s information, that is, their purpose was also to obtain the “Key to the Immortal Palace”.

After seeing this message, Ye Lu realized that this “Key to the Immortal Palace” incident seemed to have an even greater scope of influence than he had imagined, it was no longer a matter of one country or organization, it was a matter that encompassed all cultivators, including the ‘secular world’, the ‘sect world’, the major ‘divine races’, the legendary ‘Immortal World’ and even the terrifying ‘Heavenly Demon Palace’.

And it all started in the city where he was born.

“What does this have to do with my grandmother and my family history?”

In fact, as things continued to develop, Ye Lu’s interest had been completely piqued, and he was very keen to find out what the truth was within these layers of fog.

“I should take the time to go back to Liao City when I have time.”

Ye Luo muttered secretly.

At the same time, he found out that this terrifying “old genius monster” Brannoy was not the real head of this operation, there was someone else who was really in charge behind the scenes, but at the moment, this guy did not want to show himself yet.

At this time, Brannoy looked into Ye Lu’s eyes and asked once again.

“That, by the way, what is your name?”

Ye Luo smiled and said.

“You can just call me Elder Sheik Sincere Yai.”

This name was the backwards pronunciation of Ye Lu’s screen name “Yi Ye Zhi Qiu”.

Brannoy nodded and said.

“Elder Sheik Zhiye, I think, with your ability, you must know the purpose of our trip, right?”

Ye Lu nodded and said.

“Yes, however, I am not really interested in the ‘Key to the Immortal Mansion’, and my cultivation level is not capable of participating in a battle of that level, although becoming a god is attractive, it would not be worth it to trade my life for it, I just need the ‘Hwag’ that can give me the Vitality I just need the ‘Fountain of Myr’ that can give me vitality.”

Hearing Ye Lu mention the “Key to the Immortal Palace” and “becoming a god”, this Brannoy became even more convinced that Ye Lu was a true “Great Seer”.

So, he looked at Ye Lu and asked.

“So, Master Sheikh Yai, do you have any advice on this matter?”

Ye Lu smiled and said.

“Of course I do, let me tell you, in fact your actions have been known to the other side, not all of them, but they are indeed known, prophesied to be precise.”

Seeing Brannoy’s uncomprehending expression, Ye Lu continued.

“Among the twelve gods of Greece, Apollo, the sun god, as you know, has awakened his prophetic power, so he has already made a prediction about this event.”

“This was something that Brannoy, who was a descendant of the Norse gods, knew very well, and it was also the biggest variable of their trip, but he didn’t expect the feared thing to happen.

After listening to Ye Lu, Brannoy frowned at Ye Lu and asked.

“Then do you have any suggestions?”

Ye Luo said with a smile.

“It’s very simple, increase the troops, use the Giant Clan, you and the Elf Clan and the Gnome Clan alone can’t handle this matter, don’t worry, the ‘Greek Gods’ have another important matter to do right now, so not all of their main forces are here, don’t forget my benefits after the matter is completed Just do it.”

After Ye Lu finished speaking, Brannoy fell into deep thought, also in deep thought was his superior, Norwood who had just called, just now Brannoy didn’t really hang up the phone, so of course, he heard all this.

“Good, then I’ll give Master ‘Sheikh Sincere Yai’ a break in the room we’ve arranged, and we’ll give your suggestion serious consideration.”

It was obvious that he was prepared to put Ye Lu under house arrest.

However, Ye Luo was not worried about this, and, just now, he had already made plans to turn the whole of Europe upside down.

Chapter 450

Soon, Ye Lu arrived at the designated room, while the Swimlin followed him closely, as if he was his shadow.

This woman is the one who just knocked on the door, “Si Noli”, the cultivation level of this Si Noli is higher, has already crossed the “Golden Dan Avenue” and is a water attribute girl, looks as if she can really pinch out water.

Ye Luo did not care about this, because through the guy at the door who was in charge of scouting, he could tell that the hotel was not completely wrapped up by them, probably because he was worried

about revealing some kind of flaw, so the hotel was very crowded, and Ye Luo could see the details of each person who stayed in the hotel, so he had already made a plan to leave.

“That Swimlin ah, I just said to buy you a drink, do you want to drink some?”

As soon as she heard about drinking, Swimlin came to life, but that Snoopy showed a disdainful expression, because with her cultivation level there was no more wine that could make her feel slightly drunk, or even intoxicated, she was actually a great lover of wine, but it had been a long time since such fun had been had.

Ye Lu smiled and took out a large wine jug from the “Sumeru Ring”, then put it in front of the two people, after that he took out three large wine cups, the moment the jug was taken out, the two people could already smell the wine.

There is a poem called “Grapes and wine in a glass of light at night, wanting to drink from a lute”, and what Ye Lu took out was a real wine from the ancient country of Loulan.

This was also a tribute from the Ren family. Of course, although this wine had a good aroma, it was difficult to make people drunk, but this was not difficult for Ye Lu.

“The mirage, which Ye Lu had seen once, had fallen in love with it, because although it could not move, it could release a constant stream of mirage and venom, and this cumulative effect allowed many weak mirages to deal with powerful enemies, but of course this also required a cumulative process.

So, later on, Ye Lu summoned other powerful “mirages” and put them in his “spirit beast bracelet”, and to Ye Lu’s surprise, the “mirages” in the bracelet could actually accumulate venom slowly.

“One of the best things about the venom of the Mirage is that it is a hallucinogenic venom, not a death inducing venom, and in this way, it is indeed similar to wine.

Ye Lu quickly poured the wine mixed with the “mirage” venom into the three glasses.

The original refusal of Snorri was also attracted by the aroma of the Loulan wine and she couldn’t help but try it, while the Sveumling was almost drooling.

“Come on, taste it.”

Ye Lu said with a smile as he stroked his beard.

“This is a good treasure I got in the ancient country of Loulan when I was fulfilling in the East many years ago, I’m afraid it has a thousand years of cellar, I haven’t even bothered to drink it before, this time if it wasn’t for the ‘Fountain of Helvargemil’, I wouldn’t be so generous, today I’ll make an exception and let you all drink it.”

After saying that, Ye Lu first took a cup and drank it.

The two men did not suspect that Ye Lu would do any tricks, this hotel room was covered by several people’s divine sense, in their opinion, it was impossible for Ye Lu to do anything different.

Of course, the “divine sense” did not cover a large area, as they were afraid that other experts would find out.

If the news of the appearance of a super old monster at the YuanYing stage in the vicinity of Mount Olympus were to spread, it would undoubtedly cause an uproar and the plan would be ruined.

However, what they didn't know was that due to the "deincarnation" and spiritual power, those "first-year old monsters" couldn't detect Ye Lu at all, but of course, if there was anything wrong with Swemlin and Sinoli, they knew about it.

"Whew!"

This wine was delicious!

After taking a sip, Sveumling couldn't stop talking about it. The taste of Loulan wine was absolutely excellent, and with the addition of the "mirage" venom, this guy was floating in his mouth after one glass of wine.

Sianoli also drank a glass gracefully, and she also praised the wine.

In this way, the three of them began to chat about the world while drinking a glass of wine left and right, Swimlin soon got drunk and Snorri also got a little dizzy.

Following that, Ye Lu stood up with a smile and said.

"Little Miss Sinoli, wait a moment, I'll go to the front desk to get something delicious and I'll be right back."

After saying that, Ye Luo walked out, but he did not go straight to the front desk, but went into the toilet halfway, after entering, he took out the "magic puppet", after that, he turned the "magic puppet" into his own appearance, then, he let the "magic puppet" out, while he waited quietly for a while.

As luck would have it, a man soon came in, and Ye Lu quickly stripped him of his clothes and put him into the Blazing God Blade, then transformed himself into his form.

After that, Ye Luo walked out of the toilet with a swagger.

The "Blazing God Blade" had a separate space to hold people, but of course, only if the other party had a lower cultivation level or could agree to it, and currently there was no ability to force the other party into the "Blazing God Blade" space.

This time, of course, there was nothing wrong with stealing the space, and after that, Ye Lu walked out with a big swing.

After walking to a corner, Ye Lu began to take off all his clothes and changed into a gypsy girl's outfit, then began to tinker with it, transforming himself into a gypsy girl, after which he smiled and walked back to the street.

"Next up is to go to the 'Greek Gods' side of the pit."

This time, of course, he couldn't use the same trick as before. He found a stronghold of the Greek Gods here through the "Underworld App".

Ye Lu walked into this stronghold and said with a smile.

“Excuse me, do you need divination here? My divination is very accurate!”

When they heard that someone had come to one of their strongholds for divination, the people inside were all taken aback, followed by a guy who looked at Ye Lu and said with a big smile.

“Where did you come from, you’re laughing my ass off, are you here to be funny? Just like you, it’s okay to sleep with us, but you actually want to divine for us, go play aside.”

“Hey, it’s okay if you don’t want to sleep with us, I think you have a nice body too.”

“Yeah, we’ve been bored here for a long time too.”

.....

For his part, Ye Lu smiled and said.

“I’m here because of a big thing, if you guys don’t listen to me, you’re going to be out of luck, this might also concern your whole ‘Greek Gods’ clan.”

Hearing that Ye Luo was talking as if it was true, one of the guys then looked at Ye Luo and said.

“That ‘gypsy woman’, I know your clan is good at divination, but even better at deception, you’re not fooling us, are you?”

Ye Luo then shook his head and said.

“Of course not, the ‘Gypsy clan’s’ ‘Great Prophecy Technique’ that I used to observe the sky at night yesterday resulted in these two pictures, take a look.”

As he said that, Ye Lu took out the picture of “Mount Olympus” and another picture of a temple, out of the four pictures, and said.

“This is the photo of the ‘Great Prophecy’, which summons me to this place to make a second prophecy, and this time I am afraid that the prophecy will affect the situation of the whole Europe.”

Following that, he pushed both pictures in front of the guys.

“This is what seems to be the sanctuary of ‘Athena’.”

“Yeah, no outsiders have ever been there before, and this doesn’t seem to be a photo taken from a normal angle.”

“Could it be that what this woman said is true?”

.....

Yemeni then smiled and said.

“You can inform your goddess Athena, ah, isn’t he the daughter of the goddess of wisdom, he should be very wise too.”

The actual fact is that these people can’t believe Ye Lu’s words, so there’s no choice but to show his divination skills in front of these guys again, and sure enough, just like the Nordic gods, these guys were also amazed and immediately contacted the one who has the bloodline of “Goddess Athena”.

The reply came back.

“The Goddess clan is inviting you.”

Hearing this news, Ye Lu laughed without modesty.
