Chapter 581

The fact that this object could not be claimed meant that this Noah's Ark was not a treasure, or rather, it was not one of the "spiritual treasures" or even "supreme treasures".

However, the aura and power emanating from this object is extremely terrifying, very much like the aura of a "supreme treasure".

"It looks like a rather different kind of thing!"

Ye Luo felt that this thing might be a terrifying thing that surpassed the "supreme treasure", or something that was a completely different system from these treasures.

"Anyway, let's find the entrance first."

Ye Lu instructed everyone to hide, then raised his hand and began to stir the seawater around the "other side of the boat", soon, all the things around the "other side of the boat" were washed away by the water, revealing a clean boat.

However, the boat was more like a part of the boat than a "big boat".

The ship was so big that all that could be seen beneath the trench were the thick white bones of the bottom.

Ye Lu had just read that this "boat on the other side" was made from the bones of a terrifying divine beast called the "Starry Sky Beast".

The spine and ribs of this divine beast were used as the main structure of the ship, and then the rest of the hull, including the cabin and various control systems, were made on top of this.

And now all that could be seen was the bottom part of the ship, which was feared to be unimaginable in size.

"You guys wait outside, I'll go in through the hatch and take a look."

Ye Lu had asked Astarlo to try, but this strange ship could not be entered directly even with Astarlo's ability to travel through time and space.

"It really is an odd ship."

Ye Lu muttered secretly.

However, fortunately, Glasses seemed to be very knowledgeable about this ship, and it quickly showed Ye Luo the detailed structure of the ship, including the interior and hatch, etc.

"Glasses has seen this ship."

Since the Glasses could give such a detailed structure, Ye Lu felt that most of them had seen it before, but of course, it could also be because the Glasses had an unbelievably powerful scanning function that could even scan something like the "Other Side of the Boat".

However, Ye Lu felt that the former was more likely.

Anyway, in any case, Ye Luo found the location of the hatch and followed it to the front of the hatch.

Just as he got there, a light enveloped him, and then the light kept flashing as if it was scanning.

Sure enough, a beep appeared immediately afterwards.

“The scan is over, identity matched, you can enter the ark.”

To be honest, this prompt also surprised Ye Luo, this mention prompt should mean that Ye Luo’s feeling just now was right, he really had a relationship with this ark.

Otherwise, he would not have been judged by this ark to be in line with his identity.

Ye Luo couldn’t care less as he quietly flew into the ark.

Then, he saw an even more incredible scene.

He saw that the Ark was filled with corpses, extremely strange looking corpses, all of which had three eyes and were not very tall, but each of them exuded a terrifying power.

Obviously, these corpses were all experts of the “Nine Tribulation Realm”, and through Ye Lu’s observation, although these guys were all at the peak of the “Nine Tribulation Realm”, their actual level should have completely surpassed the “Nine Tribulation Realm”.

However, the “glasses” did not give their true realm level, but only showed that they were at the peak of the “Nine Tribulation Realm”, and that their true level had crossed into the “Immortal Realm”, but they had crossed into the “Immortal Realm” without saying that they had reached the “Immortal Realm”.

This was a bit intriguing.

Of course, what made Ye Luo even more puzzled was why so many super masters had died here, and moreover, Ye Luo had also figured out the origins of these people.

They were all super masters from the prehistoric civilization “Gendaya Civilization”.

“Legend has it that the men in this civilisation had an emerald third eye, which could bring about so-called “superpowers”, such as prediction, water and fire.

However, as the civilisation was invaded by eight peoples, the third eye evolved and became yellow, green, self, black, grey and brown, among other colours.

In short, it was a civilisation with magical powers, but legend has it that this civilisation eventually disappeared because of a great flood.

However, the legend only has the part about the flood that destroyed the world and drowned everything, not the part about Noah’s Ark, but now it seems that people were saved by Noah’s Ark, but, unfortunately, they seem to have died on board.

“Gendaya civilisation, the first solar age of the Mayan calendar.”

Looking at the corpses everywhere, Ye Lu muttered secretly.

It seemed that it was not a coincidence that the Mayan gods had prophesied and found themselves, as well as the “Other Side Boat”, because these Mayans were originally related to this matter.

“It is true that everything is not that simple.”

Ye Luo muttered secretly as he continued to walk forward.

Soon, he saw a big screen on which films were being shown about two races fighting.

It should be a video related to the destruction of the Gendaian civilisation.

However, to Ye Lu’s surprise, he saw another familiar race in the video, that is, the people of the “Heavenly Demon Race”.

It seemed that the people who had really destroyed the Gendaian Civilization were from the Heavenly Demon Race.

“What the hell is going on here?”

Ye Lu found himself getting more and more confused.

He didn’t understand why the “Heavenly Demon Race” was involved in this matter.

“Anyway, let’s go to the central control room first, I guess the ‘Nine Tripod Formation’ won’t last much longer.”

Ye Luo muttered secretly.

Now was obviously not the time to study these things carefully, as there were still billions of people waiting to be saved by himself in the “Other Side Boat”.

In fact, the truth was just as Ye Lu had feared.

The handsome man had already found the first of the Nine Cauldrons Formation, the Kui Cauldron in the northwest, which was not that far from the Heavenly Mountain.

“It’s really ambitious, it’s actually a ‘supreme treasure’, no wonder it’s so difficult to break open.”

The handsome man looked at the “Kui Cauldron” and said with some emotion.

It was true that a formation made up of nine “supreme treasures” could not be crossed by an ordinary “God Transformation Realm” or a demonic beast that had just “crossed the tribulation”.

Moreover, these nine “Supreme Treasures” had absorbed the essence of heaven and earth for many years, and their aura was now extremely terrifying.

“It looks like we can only take them away one by one.”

The handsome man said confidently.

He could even break the laws of heaven and earth, so this kind of formation was not a problem at all.

Then, he sat down next to the Kui Ding and began to operate it.

The whole country of China had already been bombarded by demonic beasts, and there were no safe places left.

However, Liu Mei and the Nuwa clan were still making a last ditch effort to save some more people.

Ye Lu left the demon god Ashtaroo outside the Nine Cauldrons Formation, and informed Liu Mei through her glasses that she could contact Ashtaroo at any time to take everyone into the Abyssal Mystery Realm to escape this crisis through Ashtaroo's power.

"The Abyssal Realm is a new and unknown realm, so it is relatively safe.

The Astaroth's ability allows everyone to move unnoticed, otherwise if they disappear somewhere, there are so many demonic beasts that they might find them.

However, even with the "Nine Dragons Chariot", Liu Mei and the girls did not last long, because the vanguard, those super experts who had passed the tribulation, had arrived.

Even with the five-coloured "Heaven Mending Stones", it was difficult for everyone to resist the attacks of these terrors.

Of course, the attacks on the "secret realms of the sects" also began.

Anyway, there were as many demonic beasts as there were tides, and each one of them was very powerful, so for these demonic beasts, it was a no-brainer not to go to these secret realms.

Besides, according to the laws of heaven and earth, once they had entered the "secular realm" once, the whole world would be unhindered.

## Chapter 582

Seeing this situation, many people from the sects also entered Liu Mei's "Mountain, River, Social and Cultural Map" because they all felt the crisis, especially the people from the Pill Alliance and the Weapon Sect.

Of course, the people from the Hundred Flowers Sect had already entered the "Mountain, River, and Social Land Map" under Ye Lu's arrangement.

Although Liu Mei did not have time to arrange everyone, they had arranged their own people in a very orderly manner.

As for the people brought from the "secular world", they had all settled in with the "Hundred Flowers Sect" and several other sects such as the "Pill Alliance".

"Not only does it form its own world, but also, under Liu Mei's control, it can become a "sea of ocean with a single thought", and under Liu Mei's control, even big cities with clusters of buildings can be created by Liu Mei's thoughts at once.

So, the people who live here are living quite well.

"What exactly is this place? What a magical place."

“Let’s not talk about magical for now, who knows what happened to our world? Isn’t it, our world is finished?”

“I don’t know, those demonic beasts are so terrifying, I guess the world is over.”

“Who is this beautiful woman who took us away?”

“I don’t know, it’s really beautiful.”

“It’s a goddess, I think, I saw they had ‘five-coloured stones’, I reckon it should be ‘Nüwa’.”

“Well then, it should be Nuwa who is now in the world.”

.....

To be honest, everyone had deified Liu Mei at this moment, but it was inevitable, if Liu Mei hadn’t fallen from the sky and saved everyone, I’m afraid everyone would have ceased to exist long ago.

As a last resort, Liu Mei and the others had already reached the “Abyssal Secret Realm” with the help of “Astaroth”.

It was the first time that Liu Mei had been in the Abyssal Realm, and to be honest, the gloomy environment made her feel quite uncomfortable, and then she saw Ye Yan and Long Fei Xue, as Ye Lu had said.

Ye Yan was staring at Liu Mei with her eyes crossed, which made Liu Mei’s heart shiver, but then, Ye Yan nodded and said with a smile.

“Not bad, it looks like that brat Ye Lu has quite an eye for it, I see you quite well.”

Liu Mei’s kind of aura of the mother of all things carried with it a strong affinity, so Ye Yan looked at it for half a day the more she thought that Liu Mei looked very agreeable.

Liu Mei was relieved because she had heard Ye Lu say that although this woman was not related to Ye Lu by blood, she was indeed Ye Lu’s oldest sister, so Liu Mei did not want to leave a bad impression.

In this way, Liu Mei and the people she had saved were temporarily hidden in the “Abyssal Secret Realm”.

Ye Luo had already entered the central control room of the “Other Side of the Boat”.

Inside the “Other Side of the Boat”, Ye Lu found that the “Other Side of the Boat” looked more like a super high-tech product, with metal gauges and instruments everywhere, looking futuristic and sci-fi.

It was completely different from all the other “treasures” Ye Lu had seen before.

The “central control room” was full of weird gauges and buttons, and to be honest, Ye Lu couldn’t understand what these things were for.

Of course, he didn’t need to understand them, he had the help of the glasses, which could help with everything, all the buttons had clear instructions, and if Ye Lu wanted to complete something, he could just propose a plan and the “glasses” could start directing according to Ye Lu’s ideas.

However, before he started to control the “Other Side Boat”, the system prompted another thing, that is, Ye Lu’s current cultivation level or combat power was not enough to handle the “Other Side Boat”.

“Please ask the pilot to go to the ‘Boost Bin’ to raise his cultivation level first, and then proceed with the relevant operation.”

As Ye Lu was about to do so, the system’s prompt suddenly appeared.

“There’s still the ‘Boost Bin’, I wonder how long it will take to boost your cultivation.”

Ye Luo muttered, and then followed the boost towards the so-called “boosting bin”.

This “elevation bin” was similar to Athena’s “War Temple”, however, Athena’s “War Temple” was a chair, while this was a water tank filled with various liquids.

At the top of the tank, pipes and other instruments were hanging down, just like in science fiction movies.

“It looks quite high-end!”

Ye Lu was a bit surprised by this scene, as it looked like a futuristic technology museum, not like the world of cultivators.

“Anyway, as long as I can boost it, let’s try it out.”

Ye Lu reckoned that he would definitely not be able to control the “Other Side of the Boat” if he didn’t enhance it, so he thought about it and walked in obediently.

Soon, his body was covered with all kinds of tubes and other things.

The water began to drain from the tank.

Once the water was released, Ye Lu knew that his cultivation would definitely be improved, because what looked like water was actually “spirit liquid”, the same as the “spirit stone” Ye Lu had used before, except that the “spirit liquid” was wrapped around his body after special treatment and would be easier to absorb.

Then, he noticed that the scene in front of him had changed as well.

Like in the War Temple, various strange lights appeared in front of his eyes, and eventually a scene was formed.

This scene was somewhat like a game interface.

Then a woman with long ears appeared.

“Master you need to improve your cultivation, right, you can choose the mode of improvement, the idea ‘Life and Death Battle Mode’ will be traumatic to the soul, please use it with caution.”

Following that, the various modes that could be challenged were displayed in front of Ye Luo, along with a short description.

Ye Lu found that in this description, it was said that all of his own strengths, including flames and so on, could be realised in this system, excluding of course the “Original Spirit Beast”, which could not be simulated by all “Void”.

The second time was in the “Eight Trigrams and the River Book”, where he could only fight with a single person.

This time, he could do whatever he wanted.

However, in the end, Ye Lu chose the most dangerous “Life and Death Challenge” because time was really running out. He always felt that the “Nine Tripod Formation” would not be able to stop that terrifying guy for a while.

The handsome man had already taken the Kui Tripod in the north-west and was now at the Fuding in the south-west, and this time it would be quicker to take the Fuding because the Nine Tripods were no longer complete.

This time, the “Fuding” was taken even faster, for the nine tripods were already incomplete.

At this moment, the one guarding the “Imperial Tripod” is the doppelganger of the “Xuan Yuan Party”, the official heir to the Yellow Emperor, as the real “Xuan Yuan Party” is currently in the “Ancient Battlefield”.

“It seems that what is coming is still coming.”

“Xuan Yuan Yuan Yi murmured as he held the Xuan Yuan Sword in his hands and looked at the sky.

Then, a dashing figure appeared in the air.

The handsome man didn’t even talk nonsense to “Xuan Yuan Yi”, probably in his opinion, it was superfluous to say anything to him, he directly struck at “Xuan Yuan Yi”.

Seeing this scene, “Xuan Yuan Yi” smiled bitterly and then disappeared with the “Xuan Yuan Sword” and the “Imperial Cauldron”.

This time the handsome man was also taken aback.

“Gone?”

He muttered as he looked in the direction where the Xuan Yuan side had disappeared.

However, after that, he shook his head and said.

“No, it should have gone to that so-called ‘ancient battlefield’, it looks like that’s the most lively place.”

Of course, this handsome man knew about the Ancient Battlefield, because the Beast Alliance was not only a large sect in the Secular World, but also a great power in the Ancient Battlefield, so the Beast Alliance also had many super-powerful doppelgangers, and the bodies of these doppelgangers were in the Ancient Battlefield.

With the disappearance of the Nine Cauldrons Formation, countless demonic beasts began to pour into the world like a tidal wave.

## Chapter 583

The last barrier disappeared, and the demonic beasts that had been waiting to rush out were no longer blocked, and everyone swarmed out in all directions.

During this period of time, those who had cultivators and had the resources of the secret realm began to bring ordinary people into the realm.

However, it was clear that these people also understood that their own secret realms were not safe, because many of these realms were no longer secrets and were well known, such as Mount Olympus and the secret realms of the Norse gods.

Although they are not known to everyone, they are not difficult to find.

However, many secret secret places, that is, secret places kept secret by clans and powers, are usually not fully developed, meaning that there are many dangers in such secret places, and obviously, it is quite dangerous to put people in such secret places.

However, apart from such secret realms, there are not many secret realms where people can be safely released, so to be honest, only a very small percentage of human beings' safety can really be addressed, and it is basically the privileged ones.

After all, for most of the clans, the lives of the people in the secular world are not that important, because they are too busy with their clan's business.

After all, who would make such a big fuss against the secular world?

In fact, many clans have the power to wipe out the entire secular world, which is, after all, just a world where ordinary people and low-warriors live.

Although the people of each clan are actually from the "secular world", after so many years, everyone no longer considers the "secular world" as their ancestors.

To be precise, they no longer consider the secular world to be a serious matter, and to the clan, the secular world is just a good transit point.

But the problem now is that the clans and the major powers are also in danger.

"In King Solomon's Secret Realm, everyone is discussing their countermeasures.

"This time, it looks like it will be very difficult to escape the catastrophe."

One of them said with a sigh.

The others also nodded their heads.

"Yes, the scouts have already looked at it, not to mention the countless 'peak God Transformation Realm' demonic beasts, there are also a large group of demonic beasts that have passed the 'Thunder Tribulation', there is no way to resist."

"Especially that chieftain, he can even break the barrier between the small world and us, I think any blockage is a floating cloud in front of him."

“The way I see it, the only way to survive at the moment is to enter the remote secret realm that very few people know about, and then hide inside, hoping to escape a disaster.”

.....

Everyone was in a cloud of sorrow.

However, following that, one person then said.

“I don’t think things are so desperate, I think that strong man who came out of the ‘Ten Thousand Beasts Secret Realm’ in the east should not aim to kill us all, so why don’t we submit to him so that we don’t have to die!”

Hearing his words, another man immediately said.

“Are you a fool? How can this be something that can be solved by simply submitting, they will definitely make us establish a ‘master-servant contract’, and when that happens, everything we have is completely controlled by the other side, and that is simply worse than death.”

After he finished speaking, several other people also nodded.

For cultivators, what they did was originally against the common sense of life, so many of them would do whatever they could to live forever and to improve.

To be honest, these people had been cultivating for many years, and to become someone else’s servant, to have someone else control their life and death, was something that was worse than death for many of them.

So, for a moment, everyone was silent.

And it was at this time that a voice suddenly and abruptly rang out.

“It’s not that troublesome, return the little girl you took away from us and we can save all of you.”

Everyone turned their heads to look at the place where the voice had come from.

The “Void” was nothing to be afraid of, as it slowly revealed its body, which was identical to Ye Lu’s. For the “Void”, it had nothing to worry about.

When they saw Ye Lu’s figure suddenly appear, they were all taken aback at first, but then, King Solomon said.

“You do have some tricks up your sleeve, and I admire you for that, but I honestly don’t believe you when you say you can save us all.”

The others shook their heads at the same time and said.

“Yeah, you might be able to play us around, but those guys aren’t us, there are so many of them ‘crossing over’, how are you going to save us?”

“That’s right, it’s come to this point, just put away those petty thoughts.”

“Young man, to be honest, unless you can get to the ‘ancient battlefield’, no one can escape this calamity.”

“Yes, the vast majority of people are going to become each other’s puppets this time.”

.....

In fact, these people are right, only for people like “King Solomon”, they don’t need to worry because they are originally doppelgangers and their cultivation level has already reached the level where they can break through at any time, so they can enter the “Ancient Battlefield” as long as they directly step out of that step and walk into the “Nine Tribulation Realm”.

However, most people do not have this convenience. Even for those at the peak of the God Transformation Realm, they cannot just break through, and it will take a little time.

However, “Void” looked at the crowd and said.

“You don’t have to worry about that, as the saying goes, ‘hearing is believing and seeing is believing’, come on, follow me out and you will see.”

The crowd followed “Void” out of the secret realm with suspicious faces.

Outside the secret realm, the crowd saw an incomparably huge and strangely shaped ark, which exuded endless power, and even the demonic beasts flying over in the distance were far away from the invisible barrier.

“This is the ‘Ark of the Other Side’, also called ‘Noah’s Ark’, in which there is enough room for everyone in this ‘small thousand worlds’, your time Your time is limited and so is my patience. Give me an answer and all of you will live.”

As the “Void” spoke, countless humans from Europe adjacent to the “Mediterranean Sea” had already flown into the ark, just as the “Void” had said, Ye Lu was in a hurry, because although the ark was powerful, the airspace it could control was currently limited, as it was related to Ye Lu’s cultivation level.

It was impossible to completely cover the Earth, so he could only try to pick as many major cities as possible to save people, just like Liu Mei before him.

The ones he had just saved were the Norse gods led by Odin and the gods of Mount Olympus, as well as those who had been prepared for a long time to come closer to the Mediterranean.

However, this scene had already moved the men of King Solomon.

“Void” continued.

“We have saved all your people around ‘China’ before you, so there is no need for you to doubt this.”

As it spoke, a part of the distant “other side of the boat” began to turn transparent, followed by an enlarged image that appeared in the air.

Sure enough, there were people everywhere in the various areas of the boat.

These people were not in the same state of disarray as the refugees, but were arranging and organising everything in an orderly manner under the direction of the robots.

At the sight of this scene, King Solomon's men had a hungry look on their faces, for after all, there was hope for their lives.

"King Solomon finally made up his mind and nodded his head.

"Yes, I promise you."

Then, Jasmine was released.

## Chapter 584

With the help of his glasses, Ye Lu could easily tell that this person was Jasmine's real body, and he let "Void" take Jasmine back to the "other side of the boat".

"Ye Lu, thank you for saving me, I was suffocating these days."

"Jasmine looked at Ye Lu and sighed with relief.

However, it seemed that she was only suffocating but not suffering much, which reassured Ye Lu.

"By the way, Jasmine, you should go to the 'nutrition warehouse', you can be genetically modified there, it will make it even more powerful."

To be honest, Ye Luo felt that if only he had this big ship long ago, this ship was simply too powerful, just like the high technology played in the movie, that is, a mortal could be transformed into a heaven defying expert by it.

This is what the Nutri-Barn is for.

However, Jasmine was more interested in the "other side of the boat" that Ye Lu was piloting, and she looked at the outside of the "other side of the boat" and started chattering.

Because Ye Lu had already turned on the semi-transparent mode of the "Other Side Boat", many parts of the boat looked like transparent mirrors, and one could clearly see what was going on outside.

It was no wonder that Jasmine was enchanted by this fantastic feeling.

What they saw on the mainland was not like this, but a huge black and white ship, the white part of which was the support for the hull and the black part was the hull, which looked quite beautiful.

Moreover, from the outside, the boat was much bigger than it looked. In addition, thunder flashed on the boat, as if it was an inviolable god, while far away from the thunder, those demonic beasts were looking at the boat with some fear.

All the demonic beasts that approached the boat were blocked out by the thunder.

Every demonic beast that approached the Ark was knocked out by the thunder, no matter how high the level of the beast was, the result was the same, even the super demonic beasts that had passed the “Thunder Tribulation” were no exception.

This made the army of “demon beasts” agitated, but then, something even more surprising happened, because the huge “other side of the boat” suddenly disappeared.

Yes, it disappeared, just like an instant.

This is also a kind of ability of the “other side of the boat”, technically a spatial ability, which allows one to travel through space and time through a “wormhole”.

In short, this “Other Shore Boat” gave Ye Lu a feeling of technology against the cultivation civilization.

Moreover, this technology was quite awesome.

Ye Luo had already arrived in Northern Europe with a single instantaneous movement, and then he was frantically collecting people. While collecting people, he had also spread the news that all the people in the secret realm should also be prepared, because this powerful “other shore boat” could also travel into the “small world”.

To be honest, this ability really scared Ye Lu, it was the first time he had seen something that could travel between the Secular World and the Small World.

Previously, he only had one method, and that was to summon people from the “Small World” or the “Secular World” through the “Bloodline Summoning”.

As for other things, he had never seen anything that could travel to the Small World, and even the formations made by the Chi You Clan could only reach the entrance and exit of the secret realm.

“This ‘Other Side Boat’ is simply a divine object, it’s too powerful.”

At that time, the more he used the “Other Shore Boat”, the more Ye Luo felt the magic of this thing, it was simply an omnipotent thing.

Of course, what excited him the most was that this thing was simply tailor-made for him.

The most important thing that Ye Lu’s “nameless gongfu” needs is all kinds of combat, and this “other shore boat” has all kinds of training rooms, such as “nutrition bin”, “gravity bin”, “genetic reconstruction bin” .....

In short, there are all kinds of places here.

This is not all that Ye Lu can control, he found that in the “other side of the boat”, even if he does not leave home, always in the “other side of the boat” can also break through the entire “nine robbery realm”, this he knows very well.

Moreover, the “Other Shore Boat” was so strong that even killing someone who had crossed the “Nine Tribulation Realm” could not hurt it even a little.

Ye Lu felt that even the “Heavenly Treasures” could be destroyed by the “Other Shore Boat”, but of course, he hadn’t really tried this, so he didn’t dare to guarantee it.

“The speed of the boat was very fast, and it didn’t take long for most of the people from each country to be loaded into the boat.

However, the demonic beasts did not remain idle either, as they pounded into the secret realms.

Most of the secret realms were unable to stop the onslaught of these demonic beasts, after all, they were too terrifying.

“What are we going to do?”

The “Ancient Egyptian Gods” trapped in the Secret Realm said with a sad face.

Although they had created a formation at the entrance of the Secret Realm, they did not think that this formation could really stop the attack from outside.

“We can’t leave here even if we die, everyone’s family is here.”

Someone said.

Many of them had too many ties to this place, and even those who could cross the “Nine Tribulation Realm” and leave couldn’t bear to leave here.

Then, the demonic beasts arrived.

As expected, each of them was so dominant that even the “formation” could not stop the attacks of so many “Nine Tribulation Realms” and experts who had passed the “Thunder Tribulation”.

The crowd attacked in unison, but although the entrance and exit were narrow, there were no super experts among the Ancient Egyptian Gods who could stand alone.

There is no way for a normal practitioner to survive a thunderclap in the mundane world.

A powerful high-level demonic beast that had passed the Thunderbolt was already enough to break through the Ancient Egyptian Gods’ defences.

When they saw a middle-aged man with a moustache walk in, bathed in all the attacks, the gods understood that they had already lost their power.

Not only they, the Ancient Egyptian Gods, but also all the beings in the Secret Realm would die.

“Alas! God has killed my gods!”

“Amun sighed from the sky.

But at that very moment, a huge black and white coloured ark with a crackling arc of electricity appeared above the Secret Realm.

The “other side of the boat” appeared and began to collect people at a rapid pace.

Seeing that the Ark could actually shuttle into the Secret Realm, the moustached demonic beast that had just entered was also taken aback.

However, when he saw this scene, Amon and the others were relieved.

He looked at the few people around him and said with a smile.

“Now we can go in peace.”

After saying that, the aura of these few people began to rise rapidly, followed by a flash of lightning, and “Amon” and the few of them disappeared into the secret realm.

Ye Luo of course also saw this scene.

“So entering the ‘Ancient Battlefield’ can be done from anywhere!”

He muttered secretly.

He had previously thought that he had to be in the Worldly Realm to enter the Ancient Battlefield.

However, what he didn’t know was that similar things were happening in all the “secret realms” and in all corners of the world. For many great powers, they didn’t have that much to worry about, especially some casual cultivators and some super masters in the clan world.

The “Ancient Battlefield” is now bustling with activity.

Because for the “ancient battlefield”, it was very common for no one to break through for many years, so it was very unusual for so many people to appear at once.

Of course, many of them were doppelgangers, and after they arrived, they quickly started to approach the main body.

The riot in the “Secret Realm of Ten Thousand Beasts” immediately drew the attention of the major powers in the “Ancient Battlefield”.

Almost all the forces in the Ancient Battlefield understood that the final stage was finally about to begin, with the nine “Immortal Mansion Keys” appearing and the apocalyptic cataclysm appearing, all signalling the beginning of a great battle that would shake the entire “Small Thousand Worlds”.

## Chapter 585

Near the Heavenly Pond on the Heavenly Mountain, endless armies of demonic beasts continue to rush into the Worldly Realm, as if they will never stop.

The handsome man, on the other hand, had found something new to do.

He was studying how to enter the “ancient battlefield”.

Like those who came out of the Small World, those who defied the rules could not enter the Ancient Battlefield directly, even if they could cross the Nine Tribulation Realm.

From what he had heard about the “Ancient Battlefield”, it seemed that the “Ancient Battlefield” was the best place to improve one’s cultivation.

The reason was that it was the place where the War of Extinction had been fought, filled with countless resources, and even the Yuan Power of heaven and earth was many times purer than here.

It was the cradle of growth for everyone.

However, if this guy wanted to enter the Ancient Battlefield, he would have to break the barrier of the Ancient Battlefield, just like he did when he came out of the Small World.

“It looks like I still have to get a ‘Immortal Palace Key’ in order to get the fastest way to enter the ‘Ancient Battlefield’.”

Obviously, the barrier between the ‘Ancient Battlefield’ and the ‘Secular Realm’ was stronger, and it would be even more difficult to break through, which would undoubtedly take the handsome man more time.

He thought that it would not be too difficult for him to find a key to the Immortal Palace and the Star Destined One.

Of course, there was one prerequisite, and that was that the Immortal Palace Key and the Star Destined One were not together, otherwise, after the nine Immortal Palace Keys were unveiled in the Secular World, those who possessed both the Immortal Palace Key and the Star Destined One could directly enter the Ancient Battlefield through the Immortal Palace Key.

At that time, the battle for the “Immortal Palace Key” would really begin, because the “Lok Ha Immortal Palace” was located inside the “Ancient Battlefield”, but since there was no “Immortal Palace Key”, there was no way for everyone to enter.

“Thousand Faces, arrange for everyone to conquer all the known ‘secret realms’, try not to kill anyone to avoid unnecessary trouble, and wait until we have a clear picture of the nine ‘Immortal Palace Keys’ before we take action.”

On the other side, Ye Lu finally figured out why so many people knew about the “Immortal Palace Keys”.

It was because the news was originally spread out from the Immortal Mansion, and the news was personally released by the “Lixia Immortal Mansion”, so how could people not believe it?

However, what Ye Lu did not understand now was what this was all about.

As the saying goes, “Water has a source and trees have roots”, there must be a reason why this happened.

According to everyone’s speculation, it should be like this.

There should be great secrets and valuable things hidden inside the “Lok Ha Fairy Mansion”, such as the various things collected by the “Lok Ha Fairy” during her lifetime, as well as the inheritance left behind, and perhaps other kinds of opportunities.

Of course, no one is sure who the “Fairy of the Fallen Haze” is.

No one knew that there had ever been such a person as the “Fairy of the Fallen Haze”, as if there was no such person in all kinds of histories, both authentic and unofficial.

However, this did not lower everyone’s interest in the “Fairy of the Fallen Haze”, but on the contrary made everyone even more curious about the identity of the “Fairy of the Fallen Haze”.

After all, the unknown could fill everyone’s imagination.

However, Ye Luo felt that if the name “Fairy of the Fallen Haze” was not a translation, then this person should mostly be a Chinese national.

Perhaps there was a connection with the “Fairy Zixia” in “Journey to the West”.

However, the details could only be found out after entering the “Immortal Palace”.

Right now, all Ye Lu had to do was to save the people first and talk about the rest later.

This was a battle against an army of demonic beasts, and the speed of the “Other Side Boat” was indeed very fast, but the demonic beasts were large in number, and the number was increasing.

The other point is that it takes some time to save people. The “Other Shore Boat” is different from the “Mountain and River Map” in that it doesn’t drag people in by force, but requires them not to resist.

On top of that, it also took time to collect the person.

So, although Ye Lu had the advantage, the other side didn’t stay idle either, as batches of people were captured by the demonic beasts, or various contracts such as master-servant contracts were established.

At the same time, the organisation that had both the “Immortal Palace Key” and the “Star Destiny Man” was quietly waiting for the last “Immortal Palace Key” to appear, and once it did, they would be the first to enter the “Ancient Battlefield”.

However, Ye Yan had the “Immortal Mansion Key” in her hand, so she had already quietly found the person again, so the “Immortal Mansion Key” in Ye Yan’s hand was a successful match.

Secondly, the “Heavenly Demon Palace” also has a matched pair of “Immortal Mansion Key” and “Star Destined One”.

The “Immortal Palace Key” in Ye Lu’s hand is a pair with Long Fei Xue.

“On Odin’s side, he had also found the “Star Destiny Man”, so his side was also a pair.

In addition, the Immortal Palace Keys of the Xuantian Clan and the Ancient Clan are also paired.

So, there are already six Immortal Palace Keys that have been successfully paired up, the remaining ones are in the hands of Ye Lu, one is Miao Fengling and the other is Jasmine who has just returned.

So, these two forces are not yet paired up.

Lastly, there is the “Immortal Palace Key”, which has not yet been revealed to the world.

However, it was clear to everyone that with the current situation, it would not be long before the key was also revealed.

While Ye Lu was controlling the “Other Shore Boat”, he was making his final breakthrough, just a little short of breaking through to the “God Transformation Realm”.

Once he reached the “God Transformation Realm”, he would no longer be restricted from using any “divine techniques”, and some “supreme treasures” could also be used with corresponding power.

However, there is one problem, and that is, because there are too many people inside the “Other Side Boat”, maintaining these people requires a large amount of energy, which makes it impossible for the “Other Side Boat” to use the “Attack System” at the moment, and it is estimated that it will not be able to use “Teleportation” too often afterwards.

It is still very difficult to recover from this kind of energy loss quickly.

However, there was no way out at the moment, so he thought it was important to save people, so Ye Lu continued to save people in the secret realms of known sects.

As for the unexplored secret realms, Ye Lu decided to leave them alone, after all, every secret realm was huge, and finding people in the unexplored secret realms was a big problem, and there were not many people inside.

In this way, Ye Lu and the countless demonic beasts waged a tug-of-war, but in the end, Ye Lu got the upper hand and saved most of the people in the “clan” and the various forces, but of course, many others were controlled by the demonic beasts, and the demonic beasts eventually took control of all the known secret realms, while the last “Immortal Palace Key” was also obtained by them.

“Alright, let’s get ready to leave and go to the ‘Ancient Battlefield’.”

After taking care of all this, Ye Lu made his decision.

However, before going to the ‘Ancient Battlefield’, Ye Lu decided to take a look at the ‘King of All Beasts’, the leader of the demonic beasts, he wanted to see what kind of person he was.

As expected, the glasses were able to identify the other party.

The name of this “demon emperor” was “Di Jun”, the legendary “Haotian God”, the ancient emperor of heaven in mythology, and this was not a doppelganger, but the real one, just like “Candle Dragon” Qin Shiyu, a unique and terrifying existence in the world.

However, what Ye Lu could not figure out was that, for some reason, he had become a native of a “small world”.

Only the natives born and raised in the Small World would be trapped by the boundary, not even the offspring of those who entered the Small World.

“Something strange must have happened in here.”

Ye Luo looked at Di Jun, Tai Yin You Yu, the Thousand-Faced Demon Beast and the Great Sun Golden Crow, then pressed the blue button, and the Other Side Boat quickly disappeared and appeared in the Ancient Battlefield.

The final stage was upon us!

The strength of the “Other Shore Boat” once again shocked Ye Luo, who could only enter a place that could only be accessed by crossing the peak of the “God Transformation Realm”, but Ye Luo had directly crossed over and brought so many people with him.

“If this completely unlocks all kinds of functions, this ‘Other Side Boat’ will be unbelievable!”

Ye Lu really felt a bit emotional.

Because, due to his cultivation level, the abilities of the ‘Other Shore Boat’ had not been fully unlocked at this moment, and what he could use were the abilities that he could use at the ‘God Transformation Realm’, for example, the operation of travelling just now was an operation that he could only perform after entering the ‘God Transformation Realm’.

Ye Yan and the girls, as well as their “Original Spirit Beasts”, were quietly improving themselves in the various chambers, now was a good opportunity to improve to their limits.

This time, of course, Ye Lu took all the people with him, and he arranged them into various parts of the “Other Side Boat” according to their regions. The various forces of China in Liu Mei’s “Mountain, River, Social and Cultural Map” were of course given priority in the best positions, while the “Mountain, River, Social and Cultural Map” was completely released.

It was only after it was released that the “Mountain, River, Society and Country Map” was able to give full play to its power.

To Liu Mei, the Map was a rare treasure in her hands.

After entering the “Ancient Battlefield”, Ye Luo heard the “Other Shore Boat” in a place and turned on the “Stealth Mode”, which was one of the several protection modes of the “Other Shore Boat”, so that the inside could not be seen from the outside, but the outside could be seen from the inside.

Of course, with Ye Lu’s current authority, he couldn’t be completely invisible yet, he was only hiding the exterior of the boat, which meant that others couldn’t see it.

However, Ye Lu was not too worried about this matter, because there was actually a map of this “Ancient Battlefield” in the “Other Shore Boat”, and the map showed that the area they were in was at the edge of the “Ancient Battlefield”, where there were few wars, so it was relatively safer.

In fact, even if they were discovered, Ye Lu wasn’t too worried, because as long as the “Other Side Boat” didn’t consume energy to attack, its thick shell was enough to block all attacks, and it didn’t need to consume energy.

The situation would be different if it were a “formation”, which requires the support of heaven and earth energy and the power of laws, and will be constantly consumed when attacked.

After settling the “Other Side Boat”, Ye Lu gathered all the “peak God Transformation Realm” and all the experts belonging to the clans and major “powers”.

“Now that the ‘Ancient Battlefield’ has arrived, I think you all have your own forces, so I won’t stop you, so you can all go to your own forces.

“As for your clansmen and the rest of the people in the secret realm, I will help you protect them.”

At this time, a fellow suddenly sneered and said.

“Ye Lu, what are you tugging at now, you are indeed very powerful, and this what’s-his-name ‘strange ship’ is also indeed very strong, but what is this place, this is the ‘Ancient Battlefield’, our original body is even There are even experts who have passed the fifth tribulation in the ‘Nine Tribulation Realm’, how could we possibly be afraid of you.”

“So, you’d better behave yourself .....

However, before he could finish speaking, Ye Lu had already raised his hand.

“Ka-chow!”

A bright light flashed, and this guy had been split into slag by a lightning bolt.

Then, Ye Luo said indifferently.

“There’s no point in being bullish, and now your essence isn’t here, so everyone behave yourself or he’ll be the downfall.”

Seeing this scene, everyone was silenced.

Ye Lu then looked at the crowd and said.

“Does everyone understand now? Do what you need to do and go, I am not interested in you guys’ death, all of you go, besides I want to tell you that I have no plans to compete with you guys for any immortality quota, my aim is to find my grandmother, so as long as the forces you are in do not come after me, I will not come after you guys, do you all understand?”

This was also Ye Lu’s sincere words, because for Ye Lu, his life had only just begun, moreover, such a high cultivation level was already enough for him to live an ordinary person’s N life, he had not yet reached the level of others who wanted to become immortal and live forever.

As the saying goes, “The day does not understand the darkness of the night” and “The older you are, the more afraid you are of death”. Who hears a child say that he is afraid of dying of old age?

The reason is that, in their view, death is an extremely distant thing.

After that, Ye Luo did not care whether these people believed it or not, and sent all of them away anyway, except for the “Hundred Flower Sect” and the “Pill Alliance” and a few other related sects that did not do so.

After everyone had left, Ye Luo once again urged the “Other Shore Boat”, which had become transparent, to disappear on the spot and fly far away.

Because Ye Lu had to avoid these guys’ entanglement, he felt that there were definitely many people who would not give up, moreover, the situation in this “ancient battlefield” was complicated and no one knew what kind of weird things would happen.

Moreover, Ye Luo knew very well that the “Emperor Jun” who had risen strongly from the “Secret Realm” would definitely enter.

After that, Ye Lu stopped the “other side of the boat” and stepped out.

“Phew!”

Feeling the rich heaven and earth energy around him, Ye Luo also let out a long breath, although for himself, this was not the best place to cultivate, thinking that although the “spiritual energy” here was several times more dense than the “secular world”, it was nothing compared to the “Spirit Stone Secret Realm”.

However, it is definitely a good place for other people, especially for the Other Side of the Boat.

Because the “Other Shore Boat” needed a lot of heaven and earth energy, spirit energy and so on to replenish, here the heaven and earth energy was so majestic, of course the replenishment speed was super fast, I’m afraid it wouldn’t take long for the “Other Shore Boat” to launch an attack.

He wanted to see the map of the entire “Ancient Battlefield”, and of course, the most important thing was to see where the “Luxuriant Immortal Mansion” was.

As a result, Ye Luo found that the “Luxuriant Immortal Mansion” was actually in the centre of the entire “Ancient Battlefield”.

“No wonder everyone knows about it.”

Ye Luo muttered as he looked at the map.

Then Ye Lu suddenly realized something, that is, he remembered that there were many secret places that the glasses did not know the inner situation, but it was very familiar with this “ancient battlefield”, this seems to be very abnormal ah!

“Could it be that the glasses had been here before?”

Ye Lu suddenly thought of a possibility, that is, the reason why Glasses knew so much was because it might have been to these places.

At this time, a voice said abruptly.

“You are right, I have indeed been to these places.”

Following that, Ye Luo saw his glasses start to fly up, and then transformed rapidly in the air, just like the sci-fi shots in a high-tech movie, which made Ye Luo a bit confused.

Flying fast, the glasses had turned into a metal villain full of technology.

“Sh\*t! The glasses were changed by you?”

Ye Luo asked in surprise as he looked at this little man with metal wings.

As a result, this metal villain said with a smile.

“Wrong, it was Glasses that turned into me, because, you have crossed into the ‘God Transformation Realm’, so I can appear as this, and my name is ‘Tartar’.”

Ye Lu thought to himself, “Okay, but, it’s quite a two-stroke name.

However, Ye Luo had a lot of questions that he needed to ask it, so he looked at the little metal man and asked.

“That, Tatar, can you tell me now what this is all about?”

As a result, the creature shook its head and said.

“I can’t, the time is not yet ripe, so wait until you get in there and I’ll tell you everything.”

As he said that, he pointed to the distant “Fuxia Immortal Mansion”.

Ye Luo then looked at it and continued to ask.

“Tatar, so you saw everything that happened to me before?”

Chapter 587

Hearing Ye Lu’s question, Tatar said with a smile.

“What? Do you want to kill me to silence me?”

Following that, it said with a harsh laugh.

“Don’t worry, I haven’t seen all those women of yours or your privacy, besides, I’m just a machine, what are you jealous of me for?”

As a result, Ye Lu shook his head and said.

“No, I was going to ask you who I slept with that night in the ‘Secret Realm of Ten Thousand Beasts’.”

As a result, Tatar thought for a moment and said.

“This matter, I really know, you slept with three and a half women at that time, and one was old sister Ye Yan.”

Hearing this, Ye Lu sighed silently in his heart, he had also guessed this, because Ye Yan’s attitude afterwards was indeed very odd, however, he did not expect that it was actually the truth.

And Tatar went on to say.

“Also, the sister of the ‘Pill Alliance’, called ‘Pill Shu’.”

In fact, this was the one that Ye Lu was most certain about.

Because the purpose of the “Heavenly Doctor Elder” that night was to facilitate this matter, and looking at her attitude afterwards, Ye Lu could guess that she had succeeded.

“The third one is Qin Shiyu, your classmate.”

Once it finished, Ye Lu nodded.

He had actually guessed it before, so it wasn’t too surprising.

However, following that, Ye Luo then looked at Tartar and said.

“Sh\*t! Tatar, you’re fooling me again, you’ve still seen everything, right?”

As a result, Tatar shook his head and said with a smile.

“Hey, don’t worry master, firstly, I’m a machine, you can interpret me as a digital camera, or a camera or something like that, even if you know something, it won’t affect you, right?”

“Second, the conscience of heaven and earth, in fact, I really didn’t read the exact content, thought you are my master, of course I won’t pit you, nor will I do anything to make you angry, just rest assured about that.”

In fact, Ye Lu was not very relieved, however, there was nothing he could do about this Tartar right now.

However, this Tartar had become like this, and Ye Luo felt that it seemed to be even more inconvenient.

So, he looked at Tatar and said.

“The way you are now, it’s not as convenient for me to use as wearing glasses, it feels like the more you evolve, the less it works as well as it did before.”

As a result, Tatar laughed and said.

“That’s not necessarily true, oh, there are actually a lot of benefits.”

“Firstly, I am the ‘central control system’ of this ‘other side of the boat’ you can also say that I am the intelligent light brain of the ‘other side of the boat’, so I can help you control this ship.”

“Secondly, don’t you have that ‘Void’ with you, it can simulate anyone, moreover, it can accommodate anything, I can just transmit my ability to it, you and it are mind connected, so, it can be your glasses, isn’t that a good thing?”

“Thirdly, I can actually make another glasses just like the previous one, however, it is a standalone version, that is, the knowledge and various information and so on cannot be updated, however, the knowledge reserve can still reach my current level, so, you can not bother about this matter.”

Hearing it finish, Ye Luo then nodded and said.

“It sounds like it makes quite a lot of sense, but how will I contact you after being separated?”

As a result, Tartar said with a smile.

“Separate, why do we need to separate?”

This time Ye Lu was really a bit confused as he looked at Tatar and said.

“You mean, you’ll be flying around me like this all the time, just like the glasses, right?”

This time, Tatar shook his head and said.

“Yes and no, I won’t sell you short, in fact you should do one thing right away, and that is to hurry up and make a doppelganger, then I will be with one of your doppelgangers, so we can stay apart.”

When he heard Tatar’s words, Ye Lu thought of the matter of a doppelganger, when he had entered the “God Transformation Realm” before, it seemed that there was indeed some kind of hint that came over,

he was so busy saving people at that time that he thought you could make a doppelganger when he crossed into the “Nine Tribulation Realm”.

So, he began to study himself.

As a result, he found that he could indeed make a “spirit doppelganger”, two in total, and unlike ordinary doppelgangers, these two “spirit doppelgangers” could not be himself.

Of course, the soul was still one’s own, but the body could be anything other than one’s own, and the “spirit doppelganger” created could be equal to one’s own cultivation level.

However, now Ye Lu was in a dilemma, what kind of thing should he choose as his doppelganger?

The “Candle Dragon” was a good one, but when he thought that his doppelganger was Qin Shiyu, Ye Lu felt awkward. The “Sun Candle” was also powerful, and the “Void” was also unique, but Ye Lu felt that there was no way to make a doppelganger out of the “Void”.

Sure enough, after trying, it was indeed impossible to turn the “Void” into a doppelganger.

“This one is too weird, so you should change your mind.”

“Tatar looked at me and shook his head.

Then, he thought of something, so I looked at Tatar and asked.

“Tatar, can I choose the ‘Star Beast’ as my doppelganger?”

The “Star Beast” could be used as the hull of the “Other Side Boat”, and since the “Other Side Boat” was so strong, the “Star Beast” must also be extraordinary.

As a result, the Tartar smiled and said.

“If you had chosen something else, I would have advised you to choose it, because this one is not a product of the Middle World, but something from the Great World.”

This was a bit of a surprise to Ye Lu, as he looked at the “Tartar” and asked.

“What is this ‘Small Thousand Worlds’, ‘Middle Thousand Worlds’ and ‘Great Thousand Worlds’ all about?”

“Tatar thought for a moment and then said.

“I’ll explain it to you like this, it’s not exactly right, but you should be able to understand it.”

“You know the ‘Small World’, the ‘Earth’ and all the surrounding ‘Secret Worlds’ can be called a ‘Small World’. small thousand worlds’, but of course the ‘small worlds’, or ‘secret realms’ around the Earth are not just the red dots I have marked, those red dots are the larger ‘small worlds’, and there are many more very small ‘small worlds’.”

“As the saying goes, ‘One flower, one world, one leaf, one Bodhi’, the number of ‘small worlds’ is endless.”

“And countless ‘small worlds’ like Earth constitute a ‘middle thousand worlds’, and you can understand that everything you see with your eyes in the surrounding starry sky makes up a ‘middle thousand world’, because further away, like ‘Centaurus’ where there are also planets like Earth, there are other ‘small thousand worlds’.”

“This Middle Thousand Worlds you can understand as the ‘Milky Way’, while the countless ‘galaxies’ and ‘extragalactic galaxies’ form a ‘Great Thousand Worlds’, which you can understand as the ‘Universe’.”

“There is an expression called the ‘three thousand great worlds’, which is used to refer to all things in the world.”

“There is also an expression that says that a thousand ‘small worlds’ form your ‘small thousand worlds’, a thousand ‘small thousand worlds’ form the ‘Middle Thousand Worlds’, and a thousand ‘Middle Thousand Worlds’ form the ‘Great Thousand Worlds’; in fact, these are all generalizations, so you can simply understand that this ‘Starry Sky Beast’ is actually a ‘Universe’ level of existence.”

“And you are now only trapped above the ‘planets’, you are still far from being dominant in the ‘galaxy’.”

To be honest, after it explained it like that, I did understand the composition of the whole world better.

Following that, it continued.

“To make a ‘Star Behemoth’ doppelganger, you only need to use a small piece of ‘Star Behemoth’ bone, a small crumb, and then you can make the whole thing.”

However, to be honest, this was easier said than done. I used all kinds of “innate treasures”, such as the “Blazing God Blade” and the “Pan Gu Axe”, but as a result, it took me several months and almost a year to get a tiny piece of scrap that I couldn’t even see.

## Chapter 588

Of course, this was enough, I quickly began to close the door and use this little scrap to create my first “spirit doppelganger”, knowing that these “spirit doppelgangers” can not only share a mind, but also a cultivation level, which means that as long as one doppelganger gains, the body can benefit.

Of course, the “spirit doppelganger”, like your ordinary doppelganger, cannot die, once it dies, this good opportunity will be wasted, but of course there is no great impact on the main body.

Therefore, besides making this “spirit doppelganger”, Ye Lu also had to make sure that this “spirit doppelganger” could grow up quickly.

However, looking at “Tartar”, he seemed to be very confident in this “Star Beast” spirit doppelganger.

Ye Lu couldn’t care less, let’s create the doppelganger first.

Creating a “spirit doppelganger” was a soul splitting process, so it was extremely painful, as if the soul had been split into two.

However, the physical body formed by the other soul was incredibly fast, as heaven and earth energy, spiritual energy, and the power of the laws continued to swirl and dance together, and a new body was being formed.

This process made Ye Luo deeply appreciate what "Void" had said before. No matter what you are, no matter how powerful you are, you actually come from "nothing" at first, and out of nothing, you create something, and then turn into emptiness, this is the theory that "Void" had said before, and it is the end point, that is why "Tatar" could not recognize it.

And this is how the terrifying "Star Beast" was born out of nothing.

It was only then that he understood why the Tartar had done so, because this "Starry Sky Beast" was worthy of the name "Beast", and its size was simply too big.

Ye Lu felt as if he was standing on Earth and looking at it, the size of the "Star Beast" had already surpassed his imagination, he had never seen anything so big before.

Seeing Ye Lu's expression, Tartar smiled and said.

"What, are you surprised? It's too early to be surprised. This is just the stance of the 'Star Beast' in the 'Small World', but it's a terrifying beast in the 'Great World' that can devour a galaxy. What's a little bit this big?"

"After it can enter the 'Middle Thousand Worlds', it is the 'Small Thousand Worlds' that it can easily swallow into its stomach. Moreover, this fellow is able to upgrade infinitely just by devouring all kinds of things, so you will soon understand its benefits."

Hearing "Tatar's" words, Ye Lu also began to look forward to it.

His identity was known to many people, and even if he changed his appearance, it would still be dangerous, while the "Star Beast", the "spirit doppelganger", was unknown to everyone, so it would be a good idea to let the "Star Beast" go out and act.

Of course, now that Tartar, an intelligent being, was sitting in the other side of the boat that belonged to it, Ye Lu was quite relieved. Therefore, after creating the Starry Sky Beast doppelganger, he decided to separate himself and the Starry Sky Beast doppelganger.

Anyway, it was impossible to open the "Purple Haze Immortal Mansion" now, and the vicinity of the "Purple Haze Immortal Mansion" had been completely occupied by the major powers, so even if Ye Lu wanted to approach the "Purple Haze Immortal Mansion" now, it was impossible.

The purpose of Ye Lu and the Star Beast's action was clear: to make their cultivation and combat power stronger through the training in the "Ancient Battlefield".

"Let's go find trouble with the 'Heavenly Demon Palace', it's only a matter of time before we fight with the 'Heavenly Demon Race' anyway."

Through all the information he had gathered and the videos he had seen on the "Other Side of the Boat", Ye Lu had completely understood one thing, that was, the "Heavenly Demon Race" was the biggest obstacle, and most of the other hostile forces had the "Heavenly Demon Palace" behind them.

However, before Ye Lu could start acting, an organisation had made its move first.

This organisation was no other than the “Pill Alliance”.

“The Pill Alliance was a huge organization, both in the sect world and in the ancient battlefield, so the Pill Alliance in the ancient battlefield was also an extremely terrifying organization, and was inextricably linked to other organizations.

Many of the people Ye Lu left behind in the Other Side of the Boat were from the Pill Alliance and the Hundred Flowers Sect, because of Pill Shu and Jasmine.

However, what Ye Lu didn’t expect was that his care had become a lever for the other side to control him.

In fact, he didn’t know that the Pill Alliance had already started laying this trap.

“The lives of all of you who have doppelgangers are in our hands, so Ye Lu, you’d better obediently listen to us and hand over the ‘Immortal Mansion Key’ and the ‘Star Destiny Man’, otherwise all those people will die, do you Understand?”

However, what made Ye Lu somewhat puzzled was that even if the main body died, the doppelganger should also be immortal, ah, this kind of threat this your useful?

As a result, “Tatar” and Ye Luo explained.

“Because you have a ‘spirit doppelganger’, so you do not quite understand, ordinary doppelganger actually has another characteristic, that is, the master is able to directly retrieve the doppelganger, if, they bully the master of the doppelganger and make them worse than dead, they will probably retrieve the doppelganger, then it will be easy to destroy one would be easy.”

After hearing its words, Ye Lu nodded, honestly, he did not consider this matter as a big deal, moreover, he felt that the threat from the “Pill Alliance” was also funny, why should he stand up for these people? To put it bluntly, these Pill Alliance greets who had bilocations had nothing to do with Ye Lu, if anything, they had a bit of weight with the Pill Shu themselves, so Ye Lu directly ignored the Pill Alliance’s Therefore, Ye Luo directly ignored the threat of the Pill Alliance.

However, he soon realized that the other side was actually “drunk with wine” and that they were just creating a smoke screen.

Five days after Ye Lu and the Star Beast had left the “Other Side Boat”, a massive group of people had surrounded the area around the “Other Side Boat”, and the people who came were not only from the Pill Alliance, but also from almost every major power.

Being able to carry billions of people through the terrifying boundaries of the Ancient Battlefield, the power of the “Other Shore Boat” had already refreshed everyone’s common sense, and it was no longer simply the strongest “Heavenly Treasure”.

However, Ye Lu didn’t have any worries, he left it all to “Tatar”, who was the strongest “artificial intelligent being” anyway, and would definitely choose the best solution.

All Ye Lu and the Star Beast had to do was to become stronger and then attack the empty bases of these forces.

Seeing the crowd gathered around him, Tartar smiled and then made Void take the form of Ye Lu and appear in the void.

“So many people have come, what do you want?”

“Void said with a smile as he hovered in the air and looked at the crowd that had gathered around him.

Seeing Void’s calm demeanour, the crowd suddenly felt a little uncertain.

“The purpose of our visit should be clear to you, we want a ‘Immortal Mansion Key’, and you should have more than one in your hands anyway.”

He didn’t know that Ye Yan’s quiet search for the “Star Destiny Man” was already known to others, plus Ye Lu’s previous trouble in Europe and the battle in the “Solomon’s Secret Realm” made everyone suspect that he had more than one key in his hand.

No, but the Void laughed at this and said.

“So what? Bite me!”

Its words made the crowd around it laugh, as they had never expected Ye Lu to be so arrogant even though he had become a “turtle in a jar”.

Chapter 589

Then, “Void” looked at the crowd gathered and said again.

“‘Pill Alliance’, right? I am responsible to say that I treated you well in the ‘secular world’, right? Moreover, I also saved your clan in the ‘secular world’ ‘ of everyone.”

After saying that, “Void” turned his head to look at the other forces around him and said.

“And you all, all of you in the ‘Secular World’ were also saved by me, otherwise these people would have either become food for those ‘demonic beasts’ or turned into those ‘demonic beasts’ ”As a result, not only did you not help me, but you also aided the evil-doers, what kind of heart did you have in mind.”

In response to Ye Lu’s accusation, these people did not say anything.

Only the leader of the “Pill Alliance” stood out and looked at Ye Lu and said with a smile.

“Ye Lu, what’s the use of talking about such grand principles now?”

“That’s how things are in this world, a king is a king and a knave is a knave, you have to do whatever you can to achieve your goal. Those in the mundane world are nothing but floating clouds, ants in general exist now, there is no pity in dying more or less.”

“Only a fool like you would really want to save these people.”

Following that, he then said with a sigh.

“You are still too young, you still can’t think about many things, when you reach my age, you will understand what is the most important.”

At the man’s words, everyone nodded their heads, expressing their deep understanding.

“Void”, on the other hand, smiled and said.

“Actually, you are wrong, you should wait until you reach my age, then you will understand that what you are pursuing now is not as important as you think, but, unfortunately, you do not have this opportunity anymore, everything you have will be fixed at this moment, there will be no more tomorrow.”

“When “Void” finished speaking, everyone, including the super expert of the Pill Alliance in front of him, was stunned.

Because he was not a rookie, he was already a super expert who had already passed through six great tribulations, even in the “ancient battlefield” where there were many experts, he was also an expert. He did not think that Ye Lu had the ability to kill himself, the “nine tribulation realm” was extraordinary, one tribulation was one life and one death, so the difference between combat power was far beyond imagination.

Even if the terrifying “Heavenly Treasures” could fight across one or two realms under the power of a lower cultivation level, it would not be possible to fight across so many realms, which made no sense.

Unfortunately, what he did not know was that the “Other Side Boat” was not an ordinary boat, nor was it an “innate treasure”, it was technically a machine, or a product of high technology.

The ship is now controlled by the Tartar, which has almost all the powers, so there is nothing it can’t do.

“Before the Void could do anything, the others laughed and said.

“You may have been able to travel freely in the mundane world, but you are not so lucky here, we have powers that can ‘imprison’ space. ”

“That’s right, you still think you’re in the ‘mundane world’ that bullet of a place, your eyes are really too narrow, here, you’re nothing.”

“Ai, it’s a pity, young people are just too arrogant.”

“Being too arrogant can kill you.”

.....

While the crowd was talking, “Void” had already raised his hand and waved it.

“Brush!”

There was no sound, after a light, there was nothing in the area in front of “Void”, because everything was emptied.

With just one strike, all the people, even most of the weapons in their hands, had disappeared.

This shows how terrifying this blow was.

At this point everyone stopped talking because, it was useless to say anything else, the facts spoke louder than words, Ye Lu did possess an attack power that was terrifying to the extreme.

The people present were all old monsters, of course, many of them should have guessed that such an attack would definitely not be sustainable, otherwise, Ye Lu would have swept away all the forces in the “ancient battlefield” with this ship.

The reason why Ye Lu did not do so was that he thought that the ship he had was not yet at that level.

However, the question is, who is not afraid of death.

“Void” also saw through this, and he said with a smile.

“What about this blow?”

“Don’t worry, I don’t have the ability to launch such attacks all the time, why don’t we all go together and see who is unlucky and who is lucky, maybe it won’t be you who dies, right?”

“The Hollow’s words were quite encouraging, but no one stepped forward.

Seeing this scene, “Void” smiled and said.

“Since no one dares to come forward, then let’s all go.”

But, to the surprise of “Void”, some people did leave, but many more were hesitant to go.

However, while everyone was hesitating, “Void” spoke again.

“Oh, you don’t want to go, do you? Then let’s see who is lucky and who is unlucky.”

With that, he waved his hand once again.

Again, it was another silent strike.

Everyone in a large area disappeared, no matter what kind of expert was inside.

This time, there was no need for Void to say anything else, as countless teams quickly withdrew and surrounded the space from afar, while some great powers began to “imprison” the space, but they did not set up “boundaries” or “formations”, because this “Other Shore Boat” could even cross the “ancient battlefield”, not to mention a “formation” or “boundary”, and many people’s doppelgangers saw the scene of the instantaneous movement in the countless small worlds.

In fact, everyone was sceptical about the usefulness of “confined” space.

However, until the Void took action, no one was sure what the result would be, and the Void would not make a move anytime soon, because it wanted to buy more time for Ye Lu and the Starry Sky Beast.

At this moment, Ye Lu is feeling the benefits of the Starry Sky Beast’s devouring, this guy can really devour anything.

It was like a bottomless pit.

No matter what it saw, as long as it could be eaten, it opened its mouth and swallowed it into its stomach, and then began to digest it rapidly, live, dead, and all kinds of heavenly materials and treasures.

Moreover, this one upgraded super fast, especially when it devoured various things from a village, it actually raised a small realm, of course, if it swallowed all the people in the village as well it was estimated that it would raise even higher, however, Ye Luo was not that cruel yet.

On his side, he had already started to enter the trading system of the “Ancient Battlefield”.

In the “Ancient Battlefield”, of course, everyone had to exchange with each other, so the “Chamber of Commerce” was born, and this “Chamber of Commerce” was not a completely independent organization, because there were people from all kinds of forces in the “Chamber of Commerce”.

In particular, organisations such as the Medicine League and the Dan Tower need a neutral organisation to sell and buy goods.

After a long period of circulation, the Ancient Battlefield had its own currency system, the “Ancient Coin”, which was unique to the Ancient Battlefield and had an amazing effect, as it could help with the “Transition”, so it was a useful and rare hard currency, and people traded through this “Ancient Coin”.

Although many of these treasures were raw materials, they were large enough, just like food, and although they were not expensive, they were needed by everyone.

Ye Lu changed his identity and began to ship large quantities of goods through the Chamber of Commerce, as he prepared to buy the Devouring Combo Set for the Starry Sky Beast.

This was also the information provided in the Star Beast’s heritage, according to this combination of devouring was the most efficient and fastest growing, but of course the consumption was also unimaginable.

What Ye Luo didn’t know was that an operation against him was also underway.

## Chapter 590

Of course, this time, the people who acted were not the clans or the various forces, this time it was the people from the Heavenly Demon Palace.

“After so many years, that ship has reappeared, and it looks like there are three most likely people, one is that guy called Ye Lu, he is too weird, and the other is Zhang Tian, he is just as capable, and the trouble is that we don’t have any spies around Zhang Tian.”

Seeing that the crowd was somewhat confused, the fellow who spoke then said once again.

“It is true that we have planted many of our people in the ‘Xuantian Clan’ and those clans they have conquered, but, they don’t know what means they have used to find out about our ‘Heavenly Demon Clan’ people, and those who are under our ‘Heavenly Demon Clan’ control, so now we don’t know exactly where the people from the ‘Xuantian Clan’ have gone.”

“Therefore, there is a high possibility that Zhang Tian of the ‘Xuan Tian Clan’ has a problem.”

Everyone nodded, and then this fellow from the Heavenly Demon Clan continued.

“Another suspicious person is that ‘Di Jun’, because it is very difficult to say if it is really the legendary ‘Di Jun’, the original ‘Di Jun’ is a suspicious character, plus this time, this guy actually managed to break through the barrier of the ‘small world’, no one has ever been able to do that, so the extent to which this person can be is even more than the other two.”

As he spoke, none of the other Heavenly Demon people said anything, but waited for this man to continue speaking.

The man continued.

“At present, of these three extremely suspicious people, the one from the ‘Xuantian Clan’ has disappeared and is beyond our control, so we can no longer find them.”

“And although that ‘Di Jun’ has obtained the ‘Immortal Mansion Key’, he has learned that if the nine ‘Immortal Mansion Keys’ cannot be gathered together then the ‘Purple Haze Immortal Mansion’ cannot be opened, so I’m afraid that he will have to bring everyone from the entire ‘secular world’ along with him and rush into this ‘ancient battlefield’.”

“Therefore, there is no way for us to take action against these two people at the moment, and the only one who can take action now is that fellow called ‘Ye Lu’, but first, we have to quickly take that ‘Other Shore Boat’ without the other side taking full control’, and even if we can’t take it down, we still have to make it impossible for people to enter and exit the ‘Other Shore Boat’.”

After he finished speaking, everyone nodded once again.

This guy then continued.

“Now that everyone is besieging the ‘Other Shore Boat’, we just need to push the envelope a bit and let everyone know the location of the ‘Other Shore Boat’, and I think those clans and various powers can do the next thing for us.”

This suggestion was immediately approved by everyone.

Ye Luo didn’t know about this, he was now in a merchant house talking business with the owner of the merchant house.

“Mr. Tatar, it’s true that it’s not difficult for you to offer and exchange these things, indeed, there are also many aborigines in the ‘Ancient Battlefield’, as well as descendants of gods, and they do have a great demand for ‘God Transformation Realm’ things. However, the elixir ‘Transmigration Pill’ that you said can help with ‘Transmigration’, we definitely need to test it out before we can do so.”

The “Nine Tribulation Realm” expert on the other side, who was also the head of this “merchant”, looked at Ye Lu and said cautiously.

Because he was very clear about what this “Transmigration Pill” would mean if it was true.

Ye Lu smiled and said.

“That’s for sure, with my cultivation level, I wouldn’t dare to fool you, would I, unless I don’t want to live anymore, but you also know how hot such a thing is, and it might kill you if you don’t get it right, the reason I came to you is because you are reassuring and trustworthy enough, and I believe in your reputation.”

“Although the Chamber of Commerce has a large number of people and everyone comes from various forces, it seems to be rather loose, but in fact they are an organization that all forces do not want to move, because communication is a very necessary part for everyone, of course, forces like the Heavenly Demon Palace are not included in this.

Therefore, the Chamber of Commerce was still a relatively safe organization.

Moreover, Ye Luo felt that this matter would not be revealed in the short term, and by the time everyone really knew it was him and was on to him, both the “Star Beast” and himself would have grown up, and there would be nothing to fear at that time.

However, the guy opposite was still pondering, because it was quite a risky thing to find someone to test. If what Ye Luo said was true, it would be fine, and everyone would be happy, but if Ye Luo’s pill did not have the effect he said it had, the person “crossing the tribulation” would probably be struck dead by the “tribulation thunder”.

So, he thought for a while, and then found eight people who were on the verge of “crossing the tribulation”.

“What I am going to say next, you must keep it a secret.”

He looked at the people and said.

After that, he explained the significance of the matter, and then said again.

“I know that none of you are sure that you can survive the current calamity, and you are not even a third sure, are you?”

Several people nodded, while he continued.

“We will leave no stone unturned and use three pills at once, each one increasing the chance by twenty percent, that is, increasing the chance by sixty percent, provided, of course, that what he says is correct, do any of you dare to take that risk?”

Hearing him finish, everyone looked at each other with blank faces.

It sounded like a good thing, but if it wasn’t so good they would be dead, and there was no second way out.

This is the same reason why many people are afraid to fly in an aeroplane even though the safety margin is extremely high.

It’s because everyone feels that if they fall off, it’s all over.

Therefore, many people looked at Ye Lu with suspicion.

Finally, one person stood out and said.

“I can try, however, I have a request, if I succeed, can the ‘Chamber of Commerce’ give me another such elixir as payment?”

Ye Lu did not expect this kid to be quite bold, while the leader of the ‘Chamber of Commerce’ nodded and said.

“Okay, if you have enough guts, I will give you two pills if you can live through the robbery.”

As soon as he heard this, the kid decided to take the three “Transition Pills”.

In fact, this was not the limit for Ye Lu to refine a “Transition Pill”, a real top quality “Transition Pill” could increase the chance of transiting the tribulation by 30%, but of course, no matter which one it was, like the “Heaven Reversal Pill”, the maximum limit was only three pills.

In fact, three pills were enough, even for those who were not at all sure, three pills would give them a 90 percent chance of success.

It was a waste to let a person who had just passed the Lightning Tribulation and was preparing for the Fire Tribulation use it.

However, Ye Luo also knew that this part was inevitable, because the other party had to make sure that the pill was really useful, and Ye Luo also knew that the price he wanted was quite high.

Soon, the “Fire Tribulation” came.

For people in the Nine Tribulations realm, the most frightening thing was that each of the Nine Tribulations was different, and each person had only one attribute, so it was difficult to avoid this one and avoid that one.

For this reason, the pills Ye Lu had made were even more important, as they could clearly make up for the shortcomings of the tribulation.

There were no surprises, and soon afterwards, this guy succeeded in crossing the tribulation.

Seeing this guy come out of the flames, everyone showed an expression of disbelief, because every time you pass a tribulation, you are walking from the edge of life and death, a feeling that only people who have truly experienced a “great tribulation” can experience.

“You’ve made a fortune.”

The head of the merchant said with a smile as he looked at this guy.

Indeed, not only had he raised his level by one realm, but he had also obtained a “Transmigration Pill” that was enough to raise his level by 20 percent, which was a great profit.

After that, this person in charge sent all these guys away and looked at Ye Lu and said.

“Okay, we can start trading, give me the rest of the pills, and to show our sincerity, we will add 20% to the various materials you want.”

Ye Luo of course happily smiled and accepted.

These materials were very important to the Starry Sky Beast, but not so important to these Nine Tribulation Realm experts, after all, the Starry Sky Beast was still only at the God Transformation Realm, and although its combat power could already compete with experts who had crossed the Thunder Tribulation, the materials it devoured were still at the God Transformation Realm.

The next day would be the day when the “Starry Sky Beast” would advance by leaps and bounds.

However, Ye Luo did not know that the appearance of the “Transmigration Pill” would turn the “Ancient Battlefield” upside down.
