

Super Student 591

Chapter 591

Since Ye Lu needed a lot of things and the quantity was very huge, so it took two days to prepare all these things.

Now Ye Lu had a lot of things that could be stored in his hand, so he quickly packed them all away and then gave them to the “Starry Sky Beast” doppelganger.

The “Starry Sky Beast” was a super eater, and after this period of non-stop devouring, its cultivation level was already at the level of “Third Grade Lower God” in the “God Transformation Realm”.

This was the benefit of the “spirit split body”, as the body and the split body could have the same cultivation level.

“Let’s devour and digest it properly for the next while, I still have a new pill to refine.”

Ye Luo said with a smile as he looked at the immense “Starry Sky Beast”.

The “Ancient Battlefield” was truly a place of treasures, where there were countless treasures left behind by great powers, and what made Ye Lu somewhat puzzled was that there were actually things left behind by real gods.

However, it was said that all the immortals and great powers that had appeared during the War of Extinction were no longer in the Ancient Battlefield, but this did not mean that the Ancient Battlefield was only a legend, because there were some special things in the Ancient Battlefield that could prove the existence of the immortals.

For example, the place where Ye Lu was at the moment.

He was standing on top of a lofty and odd mountain. I say odd because there was no vegetation on this mountain and the mountain was shaped like a huge nose.

In fact, this is a real nose.

This corpse was so huge that the nose alone was as big as a mountain, so you can imagine what a terrifying behemoth this guy was in life.

In other words, this “Daoist Lord Lu” was actually a spirit body.

“Could it be that after the ‘tribulation’, everyone’s Yuan Power in their body would turn into ‘spiritual power’?”

Ye Lu sat on the nose of the corpse of “Daoist Lu” and began to think.

He had always wondered why the Qi in his own body was so different from everyone else’s. Even for a super expert of the “Nine Tribulation Realm”, the Qi in his body was still only “innate Yuan Power” and not spiritual power, but this “Godly Immortal”’s body was indeed spiritual power, and it was a spiritual power that Ye Lu could absorb.

It was also the kind of spiritual energy that the “Starry Sky Beast” could absorb.

As Ye Lu sat on his knees, the spiritual energy began to swirl around his body and enter his body like a tidal wave, which made Ye Lu feel like the “Spirit Stone Secret Realm” again.

The “spiritual energy” here had been transformed by the “gods”, which meant that it could be absorbed directly, whereas the spiritual energy from the “spirit stones” needed to be transformed.

While absorbing the spiritual energy, Ye Lu looked at this corpse that had been here for an unknown number of years.

Due to the spiritual energy, this corpse was covered with lush and tall plants, and from the outside, it was impossible to tell that it was a corpse.

If such a place were in the Secular World, it would definitely be called a “cave paradise” because of the abundance of spiritual energy here, which also led to the abundance of heaven and earth’s energy and the power of laws, and it was definitely a good place for cultivation.

“Who left these corpses behind?”

He felt that these corpses were left behind by Shanmen for people like himself and “Liu Mei” who were completely spiritual.

It was because only people like them could absorb this spiritual energy.

Of course, Ye Lu had already informed Void of this news, and Void had already brought Liu Mei and Qin Shiyu out, because the two girls had already reached the “Nine Tribulation Realm” after their rapid improvement in the “Other Shore Boat”, and they could not “cross the tribulation” in the “Other Shore Boat”, so they were about to leave the “Other Shore Boat” to spend the first of the “Nine Tribulations”, the “Thunder Tribulation”.

Soon after they left, the people from the Heavenly Demon Palace also made their move.

They released something black, which was like dust, and after releasing it, it quickly coalesced on the outside of the Ark, and the originally invisible Ark suddenly appeared, turning into a black ark, which looked rather odd.

The crowd surrounding the ark finally saw the ark’s face, so everyone rushed towards it.

The “Tatar” who controlled the ark looked at the scene with some depression.

“The ‘Heavenly Demons’ really can’t stop pestering.”

However, “Tatar” was after all an artificial intelligent being, so of course it made the most reasonable judgement at first, which was to stay put.

Now that the “other side of the boat” had been revealed, it would be useless to flee to any other place, it would definitely be caught up again, so there was no point in running away.

The only way is to defend against all kinds of attacks.

That was the only way to stay here for long.

The only way to defend against this attack was to rely on the hard shell of the Tartar, because all other defences except the shell required energy, which was greatly depleted during the attack, and as long as the depletion and replenishment were not equal, the defence would sooner or later break down.

Therefore, the Tartar simply closed the whole “other side of the boat” and waited quietly for these guys to attack.

As expected, all kinds of attacks soon appeared, and each clan started to try long-range attacks, because the previous counter-attack of the “other side of the boat” was so terrifying that it could kill anyone in one blow, which made a deep impression on everyone.

So, this time, everyone was much more careful.

However, they soon realised that the Ark had turned into a turtle shell and was no longer attacking actively, so they began to boldly attack at close range.

However, it was obvious that these attacks were just like scratching an itch to the “Other Side Boat”, and they didn’t make a ripple at all, it still stood there quietly.

“A single person will definitely not be able to do it, use a formation or try to find an ‘innate treasure’.”

The strongest weapon that someone in the “Nine Tribulation Realm” could use was the “Heavenly Treasures”.

As expected, all the camps soon started to use formations.

The advantage of the formations was that they could exert several times the power of a single body. Terrifyingly huge longsword shadows appeared in the air and blasted mercilessly at the “Other Side Boat”, but, unsurprisingly, they did no harm to the “Other Side Boat”, followed by the various “Heavenly Treasures”.

However, to everyone’s dismay, none of the “Heavenly Treasures” of the various powers had any effect, not to mention breaking the “Other Side of the Boat” or leaving a mark on the “Other Side of the Boat”.

“What the hell is this thing? It’s too sturdy.”

“Yes, there’s no way to destroy it!”

“It’s like beating a stone with an egg!”

“This turtle shell is impossible to open.”

.....

It didn’t take long for everyone to get desperate.

And “Tatar” was sitting arrogantly in the control room watching all this and said.

“You’re still early to break the ‘other side of the boat’, it’s two world layers higher than you, but the people inside won’t be able to get out either.”

Of course, as things stand now, the people in the boat are not going to get out, so why should they?

In a corner of the world, the “Star Beast” is constantly devouring and evolving, and for this eater, bottlenecks and such do not exist.

All he had to do was to keep eating and growing.

Ye Luo was also rapidly digesting the immense corpse.

In this way, in a flash, several years had passed.

The “Starry Sky Beast” and Ye Luo had finally crossed into the “Nine Tribulation Realm”.

Chapter 592

After entering the “Nine Tribulations Realm”, Ye Lu felt that it was time to settle the score with these guys who were always targeting him.

Of course, Ye Luo was not the kind of person who would kill all of them, but it was still necessary to let them know how powerful they were, and to make them stop surrounding the “Other Side Boat” like dogs.

I don’t know if it was related to the fact that it was a plant life, but this terrifying creature already had forty-two vines at the moment, and these vines had turned from green to purple.

Ye Luo didn’t know what this change meant, but it was obvious that the “Tong Tian Vine” had become stronger.

“Let’s go, let’s get the two girls who are training first and move together.”

Of course, Ye Luo was talking about Qin Shiyu and Liu Mei, who had already crossed into the Nine Tribulation Realm, and they had already passed the Thunder Tribulation, Fire Tribulation and Wind Tribulation.

Of course, these are only the first three tribulations, the ones that test the body and are relatively easy to overcome, while the next three tribulations are for the mind and will, which are not so easy to deal with.

However, the two girls have not yet entered the fourth “Heart Demon Tribulation”, so they are not sure what the “Heart Demon Tribulation” is all about.

After the three of them reunited again, they didn’t feel the same awkwardness as before, because after the experience of going from the “secular world” to the “ancient battlefield”, they had already seen too many lives and deaths, especially after seeing Liu Mei save almost everyone in China who had been the first to suffer, Qin Siyu had already changed her view of Liu Mei completely.

And Liu Mei didn’t know if it was because she had combined various maternal roles in one, so she was originally good-tempered and gentle to the extreme, and certainly wouldn’t be jealous in such a matter.

Seeing the two women walking hand in hand after a smile, Ye Lu also finally let out a sigh of relief.

To be honest, he was a complete rookie when it came to handling this aspect of things, or else he wouldn't have kept Liu Mei separated from everyone because he really didn't know how he should handle this matter, but now it seemed that this matter didn't seem to need his special handling anymore.

“Stop looking, the good cabbages have all been vaulted by you, the pig.”

Qin Shiyu said as she looked at Ye Lu and glared down.

Ye Lu had to hem and haw and then looked at the two women and said.

“Let's go, let's go find these guys and turn over old scores.”

These people from various clans and organizations had been guarding the “Other Side of the Boat” for many years and had sworn not to give up.

Ye Lu had wanted to give them a taste of their own medicine for a long time. He knew that they knew that their clansmen and descendants in the secular world were in the boat, but they had no intention of stopping.

This made Ye Lu feel a bit chilled.

“Let's start with the ‘Dan Tower’.”

Ye Luo said with a smile.

This time, the siege on the Other Side of the Boat was led by the Pill Alliance, assisted by the Dan Tower, and then united with all the other forces to complete the operation.

However, the Dan Tower's headquarters was next to the Lixia Immortal Palace, so Ye Lu did not dare to attack their headquarters at the moment, but could only harass them everywhere.

He arrived at one of the Dan Tower's strongholds first.

Of course, since the Ancient Battlefield had been around for a long time, those who had entered the Ancient Battlefield did not know how many years they had spent here, so the most common people in the Ancient Battlefield were not those superpowers, but their descendants.

Although the ancient battlefield is rich in heaven and earth energy, it still takes time to improve one's cultivation, and without time to accumulate, it is impossible to become strong.

Ye Lu was not interested in these civilians, his target was the experts, so he shouted first.

Hearing Ye Luo's shout, these experts of the “Nine Tribulation Realm” flew into the air.

“Listen carefully, I am the master of the ‘Other Shore Boat’, I give you all a chance to give up the siege of the ‘Other Shore Boat’ and I will give up retaliating against you, otherwise, you ‘Dan Tower’ will never have a peaceful day again from today onwards.”

However, these experts did not take Ye Luo's warning seriously.

After all, from their point of view, Ye Lu had relied on the “Other Side Boat” to reach the “Ancient Battlefield”, which was different from entering the “Ancient Battlefield” by crossing the “Nine Tribulation Realm” directly.

Even if Ye Lu was a bit more heavenly, it was still unlikely that he would be able to contend with a human expert who had passed several tribulations.

Each tribulation was a baptism, which would make the “innate energy” in his body more pure, and at the same time, his control of a certain law would become more and more comprehensive and profound.

When the person has fully mastered a certain law, he or she will be called a “Law Lord”, which is a great honour.

Of course, one usually has to pass the ninth tribulation to achieve this level.

“Ye Lu, I don’t know how you got out, but your biggest mistake in this life is to appear here, you’ll”

Before he could finish his words, Ye Lu made his move first.

The white “sunset arrow” with a terrifying aura, a single arrow shot through this guy, this is the great god Hou Yi used to shoot the sun’s sharp weapon, the power is endless.

This guy was only a practitioner of the “Nine Tribulation Realm”, and he was not a “other side of the boat”, so this arrow penetrated his defence and killed him on the spot.

“I don’t want to talk to you, leave the ‘Other Side Boat’, or this matter will not be finished.”

After Ye Lu killed this “Nine Tribulation Realm” expert with one blow, he looked at the remaining people and said coldly.

The crowd was stunned by this blow, and when they saw the “Sunset Arrow” that had returned to Ye Lu’s hand, someone suddenly said.

“Don’t be afraid of him, he shouldn’t be able to attack continuously, let’s all go together.”

After he finished speaking, the others hesitated for a moment and really swarmed forward.

Ye Luo didn’t know how the other party had judged that he couldn’t attack continuously, however, it was obvious that the bastard had judged completely wrong.

“Whoosh!”

“Whoosh!”

“Whoosh!”

.....

The “sunset arrows” killed nine people in an instant, and after just one wave of thunderous action, everyone present was stunned.

Ye Lu said again.

“I repeat, leave the ‘Other Side of the Boat’, or this matter will not be finished.”

After saying that, Ye Luo pushed down the Dan Tower here and left the place, attacking the other Dan Tower strongholds.

“Let’s send an expert who has passed the ‘Seventh Tribulation’, we can’t let this guy get too cocky.”

“The top brass of the Dan Tower finally couldn’t hold their breath anymore.

However, the Dan Tower did not have any super existences who had passed the Ninth Tribulation, their strongest ones were the ones who had passed the Eighth Tribulation, and they did not have a single Law Lord.

Therefore, the “Seventh Tribulation” experts were already their high-end battle force.

This Seventh Tribulation expert was also very confident, after all, in the entire Ancient Battlefield, he was also the top battle force, and this was not something to brag about.

“Finally, an expert has come?”

Ye Lu smiled at this “Seventh Tribulation” superpower, then turned his head to look at Qin Siyu and said.

“Silky Yu, I’m relying on you, give them a good show.”

Qin Siyu smiled and nodded, then raised her hand as the “Seventh Evil” expert approached.

A “Candle of Life” was lit on the guy’s chest, and immediately afterwards, it burst into flames with such speed that it was unbelievable.

This scene made even Ye Lu feel a chill down his spine.

“You

This guy said one word, and then rushed forward, the black ball-like “sun candle” suddenly appeared in front of Qin Shiyu.

However, before the “sun candle” could be used, the candle on this guy’s chest had already gone out.

Everyone in the audience was wide-eyed.

Chapter 593

“That’s dead!”

“This is a ‘Seventh Tribulation’ old monster!”

“That’s too easy.”

“Who the hell is that woman?”

“Can’t afford to mess with it, really can’t afford to mess with it!”

.....

This scene shocked everyone, after all, the opponent was a “Seventh Tribulation” expert, so in an instant, without any fighting back, died in front of their eyes, ask who would not be afraid?

So, everyone started to retreat.

And Ye Lu quickly said.

“Listen, people from the Dan Tower hurry up and withdraw from this siege, or else I will take down all of your strongholds one by one.”

In the end, the first “Dan Tower” gave in and withdrew from the siege.

Then, Ye Lu, Qin Shiyu and Liu Mei quickly threatened the other siege groups as they had done, which had several advantages: firstly, it could make them retreat from the siege, secondly, it could sharpen their fighting skills against the “Nine Tribulation Realm” experts, and thirdly, they could seize the opportunity to grab some materials and resources.

For Ye Lu and the others, because the secular world did not have so many resources for the “Nine Tribulation Realm” to improve, many resources had to be obtained here.

In this way, one by one, the forces began to retreat one by one, and Ye Lu and the three of them gradually began to spread their fame in this “ancient battlefield”, and everyone was spreading a few things.

The first one was of course “Qin Siyu”, who now had a new name, “Death Candle Girl”, which was basically the same as being a “God of Death”.

Whoever hears the name “Death Candle Girl” will be horrified, and from what we know so far, this person’s ability is simply insurmountable.

The second is the terrifying “Sunset Bow” and “Sunset Arrows”, Ye Lu’s combat power is simply overwhelming, nine arrows in a row, it is simply a case of no false shots, the key is that the power of these “Sunset Arrows” is so great that low level practitioners in the “Nine Tribulation Realm” are simply powerless in front of Ye Lu’s “Sunset Arrows”.

At present, the “Sunset Bow” had become Ye Lu’s trump card.

The third one was Liu Mei’s “Nine Dragons Chariot” and “Five Coloured Stones”, whose single attack was obviously easier and faster than the “Mountain, River, and Social Land”.

There were already an unknown number of experts who had been killed by Liu Mei.

Of course, there was another terrifying legend, that was, it was said that a terrifying beast had appeared in this “ancient battlefield”, a brand new species that no one had ever seen before, and according to the legend, it could devour everything.

According to the legend, this beast could devour everything. Someone once saw it swallow and eat hundreds of experts of the “Nine Tribulation Realm” in one breath.

This legend directly increased the horror of the “Star Beast”, but people did not suspect that this creature was Ye Lu’s doppelganger.

Most people thought that this new terrifying beast was “Di Jun”, because the “Di Jun” who ruled the entire “secular world” had lost control of it, as if it had evaporated into thin air.

No one knew where he had gone because he had cruelly killed all the doppelgangers from the Ancient Battlefield, and it seemed that he had a way of distinguishing between doppelgangers and the body.

It seemed that “Di Jun” had a way to tell whether it was a split body or the original body. All in all, many people thought that “Di Jun” had already arrived at the “Ancient Battlefield” and that the terrifying beast was “Di Jun’s” original body, because no one had ever seen what “Di Jun’s” original body was like.

In fact, Ye Lu was also very curious about where Di Jun had gone. According to his judgment, Di Jun would definitely not stay in the secular world without fear, and only after entering the Ancient Battlefield did Ye Lu finally understand that the Ancient Battlefield was the heaven for cultivation.

The reason why Ye Lu had asked all the besieging forces to leave was also to raise his cultivation level as soon as possible.

The reason was that he had once again reached the stage where he could “fill his ducks”, and the things he filled his ducks with were the corpses of “gods” and “immortals” scattered all over the “ancient battlefield”.

These corpses are all full of spiritual energy and are truly beyond the “Nine Tribulation Realm”.

They were probably all dead because of the “Battle of Extinction”.

This also made Ye Lu very curious about the so-called “Battle of Extinction”, what had happened at that time, what had led to such a battle, and who were the two sides fighting?

Anyway, all that was known was that all the superpowers had died in that battle, and the “Ancient Battlefield” had only appeared since then, and after that, there were all sorts of things that everyone could only do in the “Ancient Battlefield”.

In fact, Ye Lu had always felt that this “Battle of Extinction” was very strange, and he vaguely felt that it was mostly related to the appearance of the “Immortal Mansion”, the “Nuwa Clan” and the “Heavenly Demon Palace”.

However, before entering the Immortal Mansion, Ye Lu could not figure out what was going on.

Moreover, what puzzled Ye Lu was the corpses that seemed to be prepared for him.

Not only could he absorb the corpses of these so-called “immortals”, but Liu Mei and the Starry Sky Beast could also absorb them, but Qin Siyu was the exact opposite of these corpses.

What flowed in Qin Siyu’s body was neither Yuan Power nor Spiritual Power, but a different kind of power, which Ye Lu felt was the same as that of the “Heavenly Demon Race”, as Ye Lu had seen the real “Heavenly Demon Race” before.

In other words, Qin Siyu should be a “Heavenly Demon” by nature.

This made Ye Lu feel quite incredible.

However, Ye Lu could sense that Qin Siyu did not have any malice towards him, so he did not pay any more attention to this matter.

Eventually, all the attackers withdrew, and after these guys had withdrawn, the people in the “Other Side of the Boat” could finally start moving.

Ye Yan and Long Fei Xue led the people with stronger cultivation inside and started to deal with the black stuff outside the “Other Side of the Boat”, which could be eliminated by some of the equipment inside the “Other Side of the Boat”.

At this moment, Ye Yan and Long Fei Xue are also experts of the “Nine Tribulation Realm”.

After disposing of these black things, Ye Lu and the three of them also rushed back and re-entered the “Other Side Boat”. After such a long time of recharging, the power of the “Other Side Boat” was now very sufficient and it was the right time to act.

Ye Lu’s plan was to transform the spiritual body.

In fact, Ye Lu already knew all the secrets of cultivation in this “Small World”.

At the end of the “Nine Tribulation Realm”, that is, after a successful tribulation, everyone’s body would change from a mortal body to a “spirit body”, which was the kind of body Ye Lu had at the moment.

The so-called “gods” and “immortals” of this small world, such as the legendary “Pan Gu”, “Eastern Emperor Taichi”, “Yuan Shi Tian Zun” and “Tai Shang Lao Jun”, are actually practitioners who have succeeded in “transmigration” and have reached the peak of this “small world” and become transcendent beings, which is why they are called “gods and immortals”, while the gods of Europe, the gods of ancient Egypt and so on, are also the same.

The descendants of these superpowers were also the “bloodline inheritors” that Ye Lu had seen earlier.

Since the “Nine Tribulation Realm” was the peak of the “Small Thousand Worlds”, those who had truly passed the “Nine Tribulation Realm” could not go any further in their cultivation, so these people changed from training their cultivation to controlling the laws of heaven and earth, and that was how the term “Lord of Laws” emerged.

In fact, “Lord of Laws” had nothing to do with cultivation, but only with the laws of heaven and earth that a person controlled.

What Ye Lu wanted to know was what kind of existence he would become if he succeeded in his “tribulation”, since he was originally a “spirit body”.

The hatch under the “Other Side Boat” opened and the huge corpse was sucked into the “Other Side Boat” and then put into a bottle-like object to be decomposed, while Ye Lu and the others were also soaking in other bottles to receive the transferred spiritual energy.

At the same time, a vision began to appear in the sky above the “ancient battlefield”.

Countless stars appeared in the sky, forming a vast starry sky, and above the starry sky, nine clearly shining stars glowed and formed a straight line.

It was only after Ye Lu had digested this sentence of the god's body that he saw the vision in the sky as he rushed to a new body again.

"Nine stars in a row, the first sentence of Grandma's prophecy has finally appeared."

Ye Lu secretly muttered.

At the same time, he also knew clearly that this vision should also indicate that all the "Star Destiny People" had arrived at the "Ancient Battlefield", and that as soon as the "Nine Heavens are united", the "Lok Ha Immortal Mansion" would be opened.

The only thing that is missing for the Nine Heavens to be united is that the "Star Destinies" of Kunlun, King Solomon and the Ancient Egypt alliance are all in Ye Lu's possession, one being Miao Fengling and the other being Jasmine.

As long as these two "Star Destinies" were paired with the "Immortal Palace Key", the "Nine Heavens Together" would be complete.

At present, the people of the Heavenly Demon Palace do not know that the "Miao Fengling" they have captured is a puppet, so the people of Kunlun still think that their "Star Destined One" is in the hands of the Heavenly Demon Palace.

As for the "Ancient Egyptian Gods" and "King Solomon", of course they knew that Jasmine was here with Ye Lu.

Therefore, as Ye Lu walked towards the second corpse, the "King of Solomon" and the "Ancient Egyptian Gods" started to act.

"The Ancient Egyptian Gods were also a very powerful force in the Ancient Battlefield, and they were the ones who had the "Law Lords", which could be called "gods" in essence, or at least the same level as the "gods" mentioned in the legends.

This was also the first real duel Ye Lu had faced since entering the Ancient Battlefield.

The first reason was that there were too many people surrounding the boat and the forces were too complicated, so there was no need to fight to the death, and the second reason was that the situation was obviously different then and now.

The "Nine Stars in a Row" has already appeared, can the opening of the Immortal Palace be far away?

Of course, what Ye Lu didn't know was that three of the four sentences his grandmother had left behind were openly stated: "The nine stars will link up with the pearl, the nine heavens will merge, and the Immortal Palace will open".

Therefore, everyone knew that the "Nine Stars in a Row" was the first condition for the "Immortal Mansion to open".

By the time Ye Lu learnt about this, the Other Side of the Boat was already surrounded, and it was not the right time for the Heavenly Demon Race to make the Other Side of the Boat visible again.

"It looks like we're surrounded."

Ye Luo said as he looked out of the other side of the boat.

However, he did not care, because all these things were going to happen sooner or later, he could not always have smooth sailing, he still had to fight the battles that needed to be fought, and he could not hide from them.

Moreover, Ye Lu had long wanted to experience the power of the “Lord of Laws”.

“Boom!”

Then, a heaven-shattering roar rang out, someone had launched a terrifying attack, a strike that was stronger than anything Ye Lu had seen before.

This time, the attacker was Tefnut, one of the Nine Pillar Gods of the Ancient Egyptian Gods, who had obviously reached the level of “Lord of Laws”, and the law he controlled was the “Law of Water”, one of the several great laws of heaven and earth.

However, to her disappointment, the “Other Side Boat” did not react to this blow.

It was obvious that it was unrealistic to break the boat by brute force, as the boat was obviously far stronger than anyone could imagine, and far stronger than all the Heavenly Treasures.

This blow was ineffective, and it made you “Rain God” Tefnut depressed, followed by another super expert, it was the wolf-headed Anubis, but it was obvious that his attack was of no use either.

Of course, Ye Luo was not well off either.

“The boat could not be invisible and the outside was wrapped in layers, so it was difficult for him to make a move, because he did not dare to open the hatch, and if it was closed, no one from outside could get in, but if he opened a gap, the consequences would be unthinkable.

“Prepare to shell.”

Ye Lu looked at “Tatar” and said.

“Tatar” looked outside and said.

“Firstly, I don’t have all the rights to use the ship yet, because, there are so many features that are so terrible that it would be easy for this ship to destroy a galaxy, and secondly, the energy we replenish is actually limited, because a large part of it is used to feed the humans inside.”

Of course, there were already enough people saved on Earth, more than 5 billion, but there were more people brought out from the secret realm, which were not only larger in number, but also consumed more because they were all cultivators.

“The boat was already struggling to maintain the livelihood of these people.

There was no choice, so Ye Lu had no choice but to nod his head.

As expected, after the barrage, the “Rain God” Tefnut blocked the blow with a rotating “water shield”.

This meant that the attack was ineffective and everyone was trapped.

“Silky Rain, can you light a candle at this distance?”

Ye Lu looked outside and said.

Qin Siyu also looked outside, then shook her head and said.

“The distance is too far, moreover, the opponent’s level is very high, even if it is lit, he should have a chance to escape.”

In fact, Qin Siyu’s attack range was very wide, because, as long as the Candle of Life was lit, even if the opponent ran far away, the candle flame would still continue to burn, but of course, if the distance was too far, the burning speed would slow down or even stop.

So, for particularly tough opponents, they still had a chance to escape.

Ye Lu nodded once again, it looked like, this time, it was indeed a bit troublesome.

“You guys guard this place, I’ll go out and try.”

After thinking about it, Ye Lu decided to take the plunge himself.

He had not made such a decision out of feverishness, at this moment, Ye Lu had already passed the First Three Tribulations, moreover, he was actually a “Law Lord” now, he controlled the “Law of Fire”, so this was the right time to try it out.

Seeing that Ye Lu had actually come out, Tefnut, the Rain God, was also a bit surprised.

“You’ve got a lot of guts!”

She said with some emotion.

Ye Lu smiled and said.

“Of course, I’ve always been known for my boldness, come on!”

As he said that, around Ye Lu, four colours of flames soared up, it was the four origin flames, “Ghostly Inferno”, “Red Lotus Flame”, “Nine Heavenly Mystic Flame” and “Sun True Flame”.

Seeing that Ye Lu had actually unleashed the four origin flames by himself, Tefnut, the Rain God, was also a little surprised.

“Not bad, no wonder you are so confident, but unfortunately, your cultivation level is still too low.”

As he said that, endless streams of water attacked Ye Lu like waves of terror, while Ye Lu quickly fused the four types of flames and formed a huge protective fire wall around him.

At the same time, his body was also covered in flames.

“Transforming into flames, you have actually mastered the ‘Law of Fire’.”

Seeing this scene, Tefnut, the Rain God, was also surprised, “Lord of Laws” is already at the top of this “Small World”, an existence that can no longer be surpassed.

However, he wasn’t surprised for a while, and then he said with a cold smile.

“Unfortunately, even if you have mastered the ‘Law of Fire’, your own cultivation level is too low, and the power you can exert is limited.”

In fact, he was right, there was still a huge gap between me, a ‘Law Lord’ and the real ‘Law Lords’, and also, I was a spirit body and also had the Four Great Origin Fires, so I wasn’t easily defeated by him.

“Hiss, hiss, hiss!”

The flames around me and the water flow made a terrible sound once they met, but the circle of water flow was shrinking at a super fast speed, and it looked like I would soon be wrapped up.

At that moment, a huge claw suddenly appeared from the sky, and with a single blow, the “Rain God” Tefnut was smashed to pieces.

Then, a familiar face appeared in the air, that of Nidhogg, the “Devil Dragon of Hell”.

He looked at me with strange eyes and said.

“Hey, these guys will be my gift to you, and there will be another one coming later.

Chapter 595

To be honest, Nidhogg’s words made Ye Lu feel a bit confused.

Previously, Ye Lu had contacted the “Hell Devil Dragon” through the Devil Dragon’s doppelganger “Nidhogg”, but the “Hell Devil Dragon” said that it was the crucial time for him to make a real breakthrough, so he had never met with Ye Lu, but now it seemed that he had made a breakthrough.

“There’s another guy? Who is it?”

Ye Lu asked, somewhat puzzled.

However, the “Hell Devil Dragon” did not answer him, but looked at the “Ancient Egyptian Gods” around him and said with a smile.

“Let’s talk about catching up later, I’ll clean up these guys first.”

With these words, it launched an attack.

“The “Hell’s Fire”, one of the Ten Great Origin Fires, began to rage.

Ye Luo had four of the Ten Great Origin Fires in his body, and among the other Origin Fires, Ye Luo also knew about the Violet Sky Fire, which he had originally seen, but he had used it to summon the Hell Demon Dragon.

Then there was the “Nirvana Fire”, which he had seen on Mo Trang’s body, and the “Samadhi Fire”, which was already on different people’s bodies.

As for the last two, Ye Lu had never seen them, but he still knew that they were the “Taiyin True Flame” and the “Nanming Liyu Fire”.

The “Taiyin True Flame” was on the body of the “Taiyin Phantom Flux”, while the “Nanming Lijiang” was still unknown to him.

“When the Hell Devil Dragon finished speaking, Ye Lu smiled and said.

“Go on, remember what you promised me.”

The “Hell Devil Dragon” smiled and attacked, and only then did everyone truly understand what the difference was.

It was only then that everyone understood the difference. Both of them were Law Lords, but the Hell Devil Dragon was far more powerful, easily taking out everyone by himself.

It was like a wilted flower.

This was an absolutely terrifying way to die. Seeing a person turn from young and strong to old in an instant, and then wither and die, it made even Ye Lu feel shocked.

“It really is the opposite of the ‘Nine Heavenly Mystic Flame’ flame.”

Ye Luo muttered secretly.

There were many flames in the Ten Great Origin Flames that were complementary and opposite, for example, the Sun True Flame and the Taiyin True Flame were completely opposite flames, and this Hell Fire and the Nine Heavenly Mystic Flame were also opposite flames.

If these opposing fires were fused together, they would be extremely powerful flames, which was called “complementary”, or “Yin and Yang”.

This was what Ye Lu needed very much.

Soon, the Hell Devil Dragon had finished off all the Ancient Egyptian Gods, and to be honest, this made Ye Lu look a bit sideways.

He had thought that the Hell Devil Dragon would be very strong, but he had never expected it to be this strong.

Sometimes, strength in numbers is just an empty phrase.

Soon, the Hell Devil Dragon finished dealing with all the “Ancient Egyptian Gods” and flew back, and when he returned, he transformed into a middle-aged man with a black beard.

Ye Lu had seen this man before, it seemed that demon beasts, whether in their original form or in their doppelganger form, used one image after their transformation.

“Hehe, I know what you’re thinking, here you go, the fire spirit of the Hellfire, you can just fuse it.”

As he said that, he raised his hand and a black ball of fire flew towards me, it was the “Hell’s Fire” fire spirit, the same as the “Nine Heavenly Mystic Fire” fire spirit I had seen before.

For me now, fusing the Fire Spirit was no longer a difficult task because I had already mastered the Laws of Fire, and although I had only mastered one of the Upanishads, it was already a great help in fusing the flames.

Even without the Sun Fire, the Nine Heavenly Mystic Flames in my body were still on the same level as the Hell Fire, so I quickly sat down on my knees and began to fuse the Hell Fire.

The Hell Demon Dragon threw me something once again.

“Here, this is the ‘Immortal Palace Key’ that King Solomon obtained during his lifetime. This will be one more person who is a match.”

The “Hell Devil Dragon” said casually, as if he did not care much about the “Immortal Palace Key”.

Ye Lu looked at the “Hell Devil Dragon” with some curiosity and asked.

“Why don’t you leave the key behind and let me give you the ‘Star Destiny Man’?”

When Ye Lu finished speaking, the “Hell Demon Dragon” smiled and said.

“Possessing the ‘Immortal Mansion Key’ might have some benefits after entering the Immortal Mansion, but these are just floating clouds to real experts, what you really need to rely on is power. Since we are allies, what difference does it make if the key is with you or with me?”

Don’t say it, this old guy was indeed very good at talking.

At least, he had fooled Ye Luo.

Ye Luo asked again while fusing.

“Who is the other helper? Can you reveal it?”

As a result, the “Hell Devil Dragon” did not say anything, but pointed to the side and said.

“Look, he’s here.”

Then, Ye Luo saw a familiar figure, and above her head was a white circle of light, which was none other than the “Taiyin Yuyin”, while at her feet was a strange demonic beast with a thousand heads, the “Thousand Faces”.

However, those “airless beasts” and the nine “Great Sun Golden Crows” were not here.

“It’s Di Jun!”

Ye Lu was also surprised that the friend of the “Hell Demon Dragon” was actually “Di Jun”, who had now surpassed the “Nine Tribulation Realm” to become a true “Lord of Laws”.

The speed of this upgrade was indeed beyond Ye Lu’s ability to match.

However, Ye Luo was not in a hurry, after he fused the “Hell’s Fire”, he would definitely be able to pass two more tribulations, moreover, these corpses were inexhaustible resources for Ye Luo.

“Here, this is the ‘Immortal Mansion Key’ of Kunlun.”

After coming over, “Di Jun” threw another “Immortal Mansion Key” to Ye Lu, which surprised Ye Lu a little. “Kunlun” was not a power like “Ancient Egyptian Gods”, it was a real behemoth with countless experts, and most of the legendary figures in China were in “Kunlun”.

The fact that “Di Jun” had gotten the key to Kun Lun so easily showed that “Di Jun” was already powerful to an extremely terrifying degree.

However, what Ye Lu did not know was that, in fact, Di Jun had taken a trick this time, because the method he used was to let the Thousand Faces turn into people from Kun Lun and blend in. This method was indeed very effective, because the cultivation level of the Thousand Faces was also top-notch, so each Thousand Face could simulate the corresponding person very well.

The best thing about the Thousand Faces is the disguise technique, so it was easy to blend into the other side's camp.

After that, "Di Jun" looked at Ye Lu and said with a smile.

"In order for you to make a breakthrough sooner, I've decided to give you the 'Tai Yin True Flame' as well."

As he said that, he waved his hand, and the "Taiyin Phantom Flame" quickly released a fire spirit, which also arrived in front of Ye Lu.

Ye Lu was really surprised this time, because together with the "Tai Yin Phantom Fluorescence", he had six kinds of origin flames, and he couldn't even imagine how powerful this would be.

However, it was not over yet, as "Di Jun" continued with a smile and said.

"And for your companions, I have prepared something good for them as well, and it is this, the 'Water of Life' that allowed me and Thousand Faces to grow quickly to the peak of the 'Nine Tribulation Realm'."

"This is a good thing from the 'Nuwa clan'."

With those words, a bottle flew in front of Ye Luo.

Ye Luo of course took it all as it was, because, the few women really needed to improve quickly to catch up as well.

Thus, under the protection of "Di Jun" and "Hell Demon Dragon", Ye Lu and the others started the most frantic upgrade mode on the "Other Side Boat".

Not only Ye Lu, but also Ye Yan and Long Fei Xue were also improving rapidly. Of course, their improvement was not only based on the Water of Life, because Ye Lu had already helped them find the corpses of the Green Dragon and Vermilion Bird gods, which was a powerful tool for them to improve.

When everything was ready, Ye Lu put the "Immortal Palace Key" and the "Star Destiny Man" together, and the time came for the Immortal Palace to be opened.

Chapter 596

On the night before the opening of the Immortal Palace, "Di Jun" came to see Ye Lu.

This was the first time that Ye Lu came into close contact with this legendary being who was the first to break the iron rule of the Small World, and as a result, Ye Lu discovered something, something that was extremely surprising to him.

"You're from the 'Heavenly Demon Race'?"

Ye Luo looked at “Di Jun” with some surprise and said.

This was because he could feel the unique demonic aura of the ‘Heavenly Demon Race’ from the body of “Di Jun”.

However, what Ye Lu couldn’t figure out was why this person who was originally an “indigenous” trapped in the “small world” was an “external heavenly devil”.

It didn’t make sense logically.

Hearing Ye Lu’s words, “Di Jun” smiled and said.

“It seems to be like this, I only found out about this after I left the ‘Small World’ and came out of the ‘Secret Realm of Ten Thousand Beasts’.”

After saying that, he then looked at Ye Lu and continued.

“I feel that this matter is extraordinary, I have also captured the clansmen of the ‘Heavenly Demon Clan’, however, they don’t seem to be very clear about what exactly is going on, however, I feel that they are of the same origin as me, such is why I helped them destroy the ‘Kunlun ‘ reason.”

“I also really wanted to know what it was all because of, that’s why I helped you get that ‘Immortal Mansion Key’, because I also really wanted to enter the ‘Immortal Mansion’ to see what was going on.”

“I feel that the reason for everything is inside the ‘Immortal Mansion’.”

However, Ye Luo did not feel that this “Di Jun” was here to chat with him, so he looked at the “Di Jun” and asked.

“You must have come to see me for something, tell me.”

“Di Jun” said with a smile.

“Of course, I’ve come for something, me, you and the ‘Heavenly Demon Clan’, the Demon Dragon, the four of us should join forces this time, after entering the ‘Immortal Mansion’ there will definitely be a lot of trouble, at least before we turn against each other, let’s act together. , do you agree?”

Ye Lu thought about it, then nodded his head.

However, after nodding, Ye Luo then said once again.

“I have one more thing to ask you, do you know about the ‘Candle Dragon’? Is there any relationship between it and your ‘Heavenly Demon Race’? I won’t hide it from you either, one of my friends is the original body of the Candle Dragon, but I can feel that she is actually a member of the ‘Heavenly Demon Race’ just like you guys.”

He could not understand why Qin Siyu was a member of the ‘Heavenly Demon Race’, and of course, he could not understand why Liu Mei was a ‘God of Creation’, it all seemed to be in a fog.

However, Ye Lu knew very well that all this could not be a coincidence, it was all arranged from the very beginning.

Only, what Ye Lu could not understand was who had arranged such a fate and why.

At this time, “Di Jun” thought for a moment and said.

“In fact, there are many things that I have always found strange, especially after I awakened part of my memories.”

“I found out that at the beginning of my memory, many other ‘gods’ did not exist, at that time it seemed that there were only a few gods such as me, Pan Gu, and Candle Dragon, while other ‘gods’ only appeared later, such as the gods of ‘Kunlun’, and others that did not belong to us in China.”

“That ‘Candle Dragon’ you speak of is from that time, but why the ‘Candle Dragon’ is a ‘Heavenly Demon Race’ is unclear to me, just as I am not I am not sure why I am a ‘Heavenly Demon’, just as I am not sure why I am a ‘Heavenly Demon’.”

It seems that “Di Jun” does not know much about these matters either.

Perhaps these secrets were really the same as what “Di Jun” had said, and he would only know the truth after he met his grandmother after entering the Immortal Mansion.

After that, Ye Luo looked at “Di Jun” and asked again.

“Di Jun, I have a question, why can you break the barrier of the small world?”

For countless years, only “Di Jun” had been able to do this, so Ye Lu felt that he must have something magical after all.

However, “Di Jun” did not answer Ye Lu’s question, but smiled and said.

“I think this should be fate’s arrangement, rest well, who knows what kind of situation we will encounter when we enter the ‘Immortal Mansion’ tomorrow, let’s hope we can all get what we want.”

After saying that, this guy left straight away.

To be honest, Ye Luo always felt that the body of “Di Jun” was full of secrets, only that Ye Luo did not know what he was hiding yet.

The next morning, Ye Lu took all the people to a place not far from the Immortal Palace, and Ye Lu did not bring the “other side of the boat”, because Ye Lu could not risk the lives of so many people in the Immortal Palace, so it was better to let these people follow “Tatar” outside.

If not, these people are the last spark of humanity.

When the last key to the Immortal Palace was in the hands of the Man of Star Destiny, nine rays of light lit up from different places and shot towards the “Lixia Immortal Palace”, which was in the middle of the “ancient battlefield”.

The “Immortal Mansion of the Fallen Haze” also emitted a purple glow, followed by nine gates opening from nine different directions, followed by nine passages dropping down from the “Immortal Mansion” to the ground.

However, the gates were so dark that one could not see what was inside.

“Let’s go!”

Ye Luo said to the crowd.

Then, the three of us, Ye Lu, the experts led by Di Jun, and the Hell Demon Dragon, flew towards a large door, and then rushed into the Immortal Mansion.

However, after entering the “Purple Haze Immortal Mansion”, we did not see the scene of treasures and splendour everywhere as we had expected, but it looked very desolate inside.

“How strange, even the heaven and earth energy is controlled here.”

Someone looked around and said.

Ye Luo actually felt very strange too, moreover, this was too far from what everyone had been expecting, or rather the scene everyone had been looking forward to.

From the first time he heard about the “Lok Ha Immortal Mansion”, Ye Lu had always thought that the word “Immortal Mansion” should be full of good things, and many people even thought that there were magic pills inside that could make people become immortal in one step, but from the current situation, it did not look like there were such things here.

“Have we been tricked?”

Someone muttered under his breath.

For his part, Ye Lu thought for a moment and said.

“Someone go and try to see if we can get out.”

After he finished speaking, a demonic beast that “Di Jun” was carrying flew towards the outside of you, but it was blocked by an invisible barrier, as if it had hit a wall.

“It looks like we’ve really been tricked.”

Ye Luo said with a sigh as he looked around.

This “Lok Ha Immortal Mansion” had now become a place that could only be entered but not exited, and since the people outside didn’t know what was going on inside, more people would definitely rush in, which would undoubtedly leave everyone trapped inside.

What Ye Luo couldn’t figure out, though, was why it was necessary to do this.

This was obviously a very deep trap.

“Since there’s no way to get out, why don’t we, instead, take a look inside.”

“Di Jun” said as he looked at the desolate environment inside the Immortal Mansion.

The whole “Immortal Mansion” should look very huge, but now Ye Lu was a bit doubtful whether there was anyone in this “Immortal Mansion” or not.

Because of the thinness of the heaven and earth energy, the fluctuation of the heaven and earth energy could hardly be felt here.

At this time, Ye Lu suddenly thought of another ally who had not come.

“Where are the people from the Heavenly Demon Palace?”

Ye Luo looked at “Di Jun” and asked.

“Di Jun” said as he flew forward.

“They used their own keys to get in through another door. You have three keys, do you have any hints on them?”

Then I remembered that I had almost forgotten the keys.

And at the same time Molly had flown over and said.

“The keys say that we have to kill all the evil gods we meet in here, and then there is also a point that we have to help you become a ‘god’, otherwise everyone will not be able to leave here.”

I was also a little confused when I heard Jasmine’s words, I had no idea what the whole thing was all about.

At that moment, from far ahead, a terrifying figure came rushing towards us with a trident in its hand.

Chapter 597

This guy was also familiar to Ye Lu, it was the sea god “Poseidon” from the “Olympus Gods”, but this was not the inheritor of “Poseidon”, this terrifying giant man was “Poseidon” himself, moreover, Ye Lu could feel that the “spiritual power” flowing in his body was also the same as Ye Lu’s.

“A true god!”

To be honest, although Ye Lu had seen this god and many of that god’s gods before, they were all “bloodline inheritors”, and this was the first time he had seen a real god.

However, Ye Lu was not surprised because, from a certain point of view, Ye Lu was born at the level of a “true god” because he was a spirit body after he was “born”, but of course, it was possible that what flowed in his body before that was spirit power, because before he became a cultivator, Ye Lu could not figure out what was inside his body.

If Ye Lu was not worried, Di Jun and the others were even less worried. Who was Di Jun? He was a “Lord of Laws” who had surpassed the “Nine Tribulation Realm”, and what was in his body had already been transformed into “spiritual energy”.

“But if the true gods are not dead, that means the rumours must be wrong.”

After seeing Poseidon, Ye Lu began to mutter to himself, because, according to legend, all the gods had fallen after the Battle of Extinction, but now it seemed that this was not the case.

Moreover, Ye Luo could see that this “Poseidon” seemed to be mentally abnormal, and he was rushing towards Ye Luo and the others like a madman.

It was as if Ye Lu and the others were not people, but food.

“Do you think this place is more like a prison?”

Seeing Di Jun fly over and stop Poseidon, Qin Shiyu looked at the two people fighting in front of her and said thoughtfully.

This was a reminder to Ye Lu.

He felt that this was really the case. This place looked more like a prison, because only a prison would be so desolate and cold.

However, if this was really a prison, who was the one being held?

“Poseidon looked like a prisoner, but if he was a prisoner, then who was the prison governor? And where were the guards?”

At this moment, Ye Luo’s heart is full of questions, he feels that this is not a simple trick, let everyone here must have some purpose, and since grandmother left a note, it means that here can be seen grandmother, but the time has not yet come.

Maybe we should ask Poseidon for some information, but Ye Lu knew very well that “Di Jun” was not a fool, and he would definitely ask for the information we needed since he had made the move.

As expected, the Poseidon was no match for Di Jun and was quickly killed by him.

And Di Jun flew back in style.

“Well, does he know anything?”

Ye Luo looked at “Di Jun” and asked.

“Di Jun” shook his head and said.

“Not very sure, because, he seems to have gone crazy, moreover, he is full of thoughts of eating people, so it is hard to communicate, in addition, the level is too high, I can’t use ‘soul search’ on him, however, one thing is for sure, he is the real legendary ‘Poseidon’.”

“It’s a ‘true god’.”

“Only, he seems to have become much weaker, so, although the realm is higher than the corpse outside, his real fighting power is rather lower, so I guess he has paid a great price to survive here.”

As I said that, Di Jun threw the corpse of Poseidon to me, and I unceremoniously released the Star Beast and let it swallow the corpse, without the Other Side Boat, the fastest way for me to improve was to rely on the Star Beast, and these refined corpses of True Gods were undoubtedly the best ingredients.

Other ingredients, the “Star Beasts” still need to be transformed and so on, these corpses can be digested directly.

The reason why I am in such a hurry is that Qin Siyu and the girls are upgrading too fast.

However, with the Star Beast and the resources I carry, this should not be a problem. There is no bottleneck in the Star Beast’s advancement, and it is not afraid of the various “tribulations”, but it will take some time.

I, on the other hand, will just wait for the glory.

“It looks like all the human gods have been captured and locked up in this prison.”

Someone looked at the seemingly endless “Purple Haze Immortal Palace” and sighed, while others sighed at the same time.

“Yes, it seems that most of them are just like us, they were tricked into this.

“It sure looks that way.”

“We’re not going to end up like this guy just now, are we.”

“Not likely, he’s a true god, what are we? Probably all get eaten if we don’t turn out like that, you saw how crazy that guy was just now.”

.....

After this battle, everyone’s mood turned a bit low.

And “Di Jun” smiled and said.

“Don’t be discouraged, there is no such thing as a hurdle you can’t overcome, it’s a big deal to die, we have even broken the barrier of space, it’s a big deal to break this ‘Purple Haze Immortal Mansion’ as well.”

Hearing his words, I suddenly felt a stirring in my heart.

Going to all this trouble to get us here couldn’t be a plan to break this place and release all the great powers trapped in the prison.

The more I thought about it, the more I thought it was possible, but the one thing I didn’t understand was that, according to my understanding, the news of the “Immortal Palace Key” came before “Di Jun” left the small world, so if that was the case, it wouldn’t make logical sense.

However, it then occurred to me that the last “Immortal Palace Key” was found by “Di Jun”, so perhaps there is a possibility that “Di Jun” had a “Immortal Palace Key” in his hand all along, but he was just waiting for the right time, and when the time was right, he took out the last key, creating the “Nine Stars in a Row” and “Nine Heavens in a Row” situation.

All in all, there were still many mysteries, and at least one person who knew what was going on in the “Lok Ha Immortal Mansion” was needed to find out what was going on.

So, the group continued to search for the “Immortal Mansion of Lok Ha”, and found that, as expected, there was no “Immortal Mansion” at all, and the place was deserted.

Moreover, there were traces of battles all over the place.

At this moment, the group also deeply appreciated the trouble of the depleted resources, that is, the decline of the body, all activities and attacks require energy, and in this hellish place, any energy consumed cannot be replenished, so it is no wonder that the “Poseidon” we met before was crazy and weak.

Along the way, the group met several other “true gods”, all of whom were, without exception, mad as hell and quite famous, including the god of Kunlun and the Nanji immortal from Penglai, also known as the Old Longevity Star.

In short, it seems that the “gods” are in trouble en masse.

Finally, we found one guy who seemed to be a bit sober, “Daoist Lu Zhui”.

“This is not an immortal palace, this is actually hell.”

These were the first words that the “Daoist Lu Press” said to us.

The people who trapped us here were really from the Heavenly Demon Clan, and it was after the War of Extinction, and the Ancient Battlefield was the main battlefield of the War of Extinction, and everyone did not want the war to spread to the Mundane Realm, so they set up a boundary that only the Nine Tribulation Realms could enter.

This is the origin of the “ancient battlefield”.

Afterwards, we learned that one side of the battle was the “Gods”, including the “Gods” of China and other parts of the world, led by the “Nuwa Clan”, while the opponents were the clansmen of the “Heavenly Demon Clan” and the teams they led.

Chapter 598

According to Daoist Lu, the two sides in the real battle of annihilation were far more than the Nine Tribulation Realms, and the Heavenly Demon Race was so powerful that the Gods eventually joined together to launch a suicide attack to seal off the Heavenly Demon Race and form this independent “space prison”.

However, for the safety of the seal, this “space prison” was not only a prison for the Heavenly Demons, but also for the Gods, so these self-sacrificing Gods also became prisoners of the “prison”, which is why they have become like this.

To be honest, his words were so miserable that everyone felt sympathy for him, but now Ye Lu and the others had limited resources, so they could only share some of them with this “Daoist Lu”.

Then, according to the instructions of the “Daoist Lu Zui”, everyone marched towards the gathering place of the “Heavenly Demon Race” in the “Lok Ha Immortal Mansion”.

According to the words of Daoist Lu, the Heavenly Demons were not as powerful as before, they had been sealed for so many years, and there was nothing to replenish their magic power, so it was a good time to kill the Heavenly Demons while Ye Lu and the others were full of vitality, and release everyone from the Immortal Mansion of Lok Ha.

This point was accepted by most people, but Ye Lu and Di Jun did not think so.

Ye Luo’s reasoning was that before he saw the grandmother, the truth of the matter had not been revealed, and before that, no one could be trusted, and moreover, Ye Luo had fought with the so-called

“gods” many times before, so he knew the style of the “gods” very well, which made him more and more unable to trust the words of these people.

The reason for “Di Jun” was much simpler: he was essentially a member of the “Heavenly Demon Race”, and according to this “Daoist Lu,” he was an unforgivable villain, although “Di Jun” had never considered himself a good person, but he did not consider himself a devil either.

Therefore, both of them felt that they should be prepared.

After flying for a long time, Ye Lu found that it looked like the same everywhere, so it was hard to tell the north from the south.

“There’s light, is it the exit.”

“It looks pretty, but, don’t want it to be the exit yet.”

“Are we going somewhere?”

.....

“Lucian” shook his head and said.

“No, that should be the centre of this ‘Lixia Immortal Mansion’, but it is not the gathering place of the ‘Heavenly Demon Race’, the gathering place of the ‘Heavenly Demon Race’ on the other side.”

However, after seeing the bright light, Ye Lu and Liu Mei exchanged glances.

This was because both of them noticed that the light was very familiar, it was the light emitted from the “Five-coloured Heaven Mending Stone”, and Liu Mei had such a stone in her hand.

“Nuwa’s clan, the Heaven Mending Stone, the Battle of Extinction, what is this all about?”

Ye Luo felt a bit of his head rise.

At this time, the group had already flown in another direction, but before they could go far, “Daoist Lu Zu”, who was leading the way, suddenly laughed and said.

“Here we are, up ahead is the gathering place of the ‘Heavenly Demon Race’.”

After saying that, everyone looked in the direction he pointed, but they didn’t see anything, followed by the “Daoist Master Lu Press” who suddenly opened his mouth and swallowed a man beside him.

“You!”

“There’s a trick!”

“Do it!”

.....

It was only then that the crowd realized that something was wrong, but the “Daoist Master Lu Press” was already laughing wildly, and as he was laughing wildly, countless terrifyingly shaped experts suddenly emerged from all directions.

These guys were all dancing like mad, similar to the “evil gods” we had encountered before, and there were more of them than we could have imagined.

“How could there be so many ‘evil gods’ and how could these guys be united together?”

After seeing so many ‘Evil Gods’, everyone was astonished.

“Sure enough, Daoist Lu Zhui is harming us.”

“What the hell is going on with this guy?”

.....

However, while everyone was muttering, “Di Jun” had already made his move. He smiled and raised his hand, and with a single blow, he blasted “Daoist Lu Press” into pieces.

However, they only stopped for a moment, and then they all surged towards this side again.

“Ye Lu, it’s time to fight, and it’s time for you to break through, break through the final barrier, otherwise, all of us will be in trouble.”

Ye Luo nodded, but he did not really understand what Di Jun meant. Although he had previously fused the “Tai Yin True Fire”, which ranked second among the “Ten Great Origin Fires”, it was unlikely that he could break through so many realms at once, and even if the “Nameless Technique” was powerful, he could not break through so many realms so quickly.

However, immediately afterwards, Ye Luo understood what “Di Jun” meant.

Thinking that, he smiled and waved his hand.

A familiar figure appeared not far in front of Ye Lu, it was the woman from the Heavenly Demon Clan, Mo Trang, the woman with the Nirvana Flame.

Then, another woman appeared, this time a woman familiar to Ye Lu, this time it was the woman from the Pill Alliance, “Pill Shu”.

In her hand, she was holding a flame, another of the Ten Great Originals, the Samadhi Flame.

He had already fused six origin flames, so of course he understood the benefits of origin flames to himself.

“My ‘three true flames’ have been put together, so hurry up and fuse them.”

After all, he was already a “Law Lord” of the Law of Flame, and with the six Great Origin Fires, who could have such a level?

And “Di Jun” looked at the gods who had gathered around him and said with a smile.

“Even a small group of people dare to come and fight us, Thousand Faces, let’s give them a good show.”

With the words of “Di Jun”, all the demonic beasts roared and formed various formations and began to counter-attack.

However, to be honest, although those “evil gods” were weak, they were after all “true gods”, while those who followed “Di Jun” were all “nine-destiny realm” except for the demonic beasts at the head, so they basically had to rely on various kinds of cooperation to block the opponent’s attacks.

So, these people became the rescue team, and with everyone working together in an orderly manner, these “evil gods” were immediately blocked from the outside.

After all, it was a flame that had a strong connection with people, so it was easier to fuse.

At the same time, the clouds of tribulation began to hover above Ye Lu’s head. No one had ever seen such a large cloud of tribulation, covering the sky.

After this fusion, Ye Lu would, without any surprise, cross the “Nine Tribulation Realm” and become a true super expert.

At this time, the crowd suddenly saw another force rushing towards this side, led by a man wearing endlessly glowing armour and a demonic beast under his feet that Ye Lu had never seen before.

Following Zhang Tian were countless experts from the “secular world”, as well as various forces from the “ancient battlefield” that had connections with these experts.

Everyone was obviously benefited, as everyone had several “supreme treasures” on them, and many of them were wearing the same supreme armour, looking more like an army.

What puzzled Ye Lu was that there were more “Evil Gods” following behind Zhang Tian, as if Zhang Tian was the leader of these Evil Gods.

Super School Student Chapter 599-600 (Finale)

Chapter 599

Seeing this scene, Ye Luo also immediately frowned.

If these people hadn’t come, Di Jun and the others would have been able to hold back for a while, at least until Ye Lu finally passed the last three tribulations, which had already come at the same time.

These people were from Kunlun, and the number of these Kunlun bloodline inheritors was also very large, and they all rushed over right after Zhang Tian’s group.

“Why are all the gods surrounding us?”

Ye Luo looked around and muttered darkly.

“Could it be because of the ‘Heavenly Demon Race’?”

Ye Lu looked at “Di Jun”, but it seemed that only “Di Jun” was a true “Heavenly Demon Clan” person, while the others were all natives who came out of the “Secret Realm of Ten Thousand Beasts”.

Therefore, Ye Lu felt that these guys simply wanted to use them as food.

The other thing that puzzled him was why these people would follow Zhang Tian’s lead.

This person was the leader of Kunlun, and the leader of all the Evil Gods in the Immortal Residence of Lok Ha.

This is a “creator god” whose upper body is a woman and whose lower body is a snake, the same as Liu Mei.

When he saw this woman appear, Ye Lu frowned, for this woman was so strong that even “Di Jun” should not be a match for her.

Moreover, the auxiliary ability given by Tatar to Void showed that this woman was Nuwa herself, the real Nuwa.

The leader of the “Gods” in the “Battle of Extinction”.

This surprised Ye Luo a little.

After that, Nuwa looked at Di Jun and said with a smile.

“Di Jun, are you still going to resist? You should surrender, and ‘Candle Dragon’, ‘Betrayer’, your end has come.”

The “Candle Dragon” refers to Qin Shiyu, which is quite understandable, while the “Betrayer” refers to Liu Mei, which makes me feel a bit odd.

It was true that Liu Mei was one of the Beasts of Creation, but why did she become a Betrayer? And who did she betray?

Ye Lu turned his head to Liu Mei, who was also confused and didn’t seem to understand what was going on.

If it was so easy to surrender, he wouldn’t be “Di Jun” anymore.

He looked at the surrounding gods and said with a smile.

“Aren’t you all ‘gods’? Why are you in such a hurry to strike at us? Is this what ‘gods’ do?”

To be honest, this is what I really wanted to know.

Since we came in, these so-called “gods” had been targeting us, and, how can I put it, it was not a matter of position, but of instinct, as if they instinctively regarded you, “Di Jun”, and the others as their enemies and wanted to kill them even if they were delirious.

And Nuwa sighed and said.

“How many years have passed, even you have become ‘gods’ and we are still trapped in this place, it’s time to end this matter.”

If they had been trapped here since the Battle of Armageddon, then they had indeed been trapped for too long.

But I had the feeling that there was something more to what Nuwa was saying.

If she hadn't trapped them in the "Immortal Mansion", how could they have been in such a bad situation?

One more thing, where was the "Lok Ha Fairy" and the "Heavenly Demon Clan" who had trapped them?

However, there was no point in thinking about it anymore, because the attack had already begun.

The attack was overwhelming, and an unprecedentedly fierce melee began instantly. There were too many demonic beasts following "Di Jun", and there were countless of them.

But even that wasn't all the demon beasts in the Mysterious Realm. Later on, Di Jun collected countless cultivators and powerful "natives" from the Mysterious Realm, which made the team of the "King of All Demons" simply terrifying.

So, with Ye Lu as the centre, the sky was filled with fighting figures, rivers of blood were flowing and corpses were piled up like mountains, as if it was the end of days all of a sudden.

Ye Luo could no longer care about so much, all he had to do was to hurry up and fuse the two flames he had just fused.

Qin Shiyu, Liu Mei, Ye Yan and Long Feixue were quietly standing by his side, watching the battlefield intensify around them.

It was obvious that Di Jun's team was at a distinct disadvantage, and it was almost like a simple massacre, but Di Jun did not panic.

When he saw this scene, Ye Lu understood what he wanted to do, because the person he was attacking was none other than the "Violet Violet Emperor", the one who possessed the "Violet Violet Heavenly Flame".

Obviously, "Di Jun" was preparing to help Ye Lu obtain another flame, the "Violet Sky Flame", but this was obviously a trap, for "Nuwa" had suddenly appeared and slapped the body of "Di Jun", who was directly smashed into pieces by this blow.

The other "Di Jun" had already taken the opportunity to grab the "Violet Emperor" and brought him back.

That's right, the one who had just been smashed was "Void", and only "Void" was able to receive this terrifying blow from the other party.

"Boom!"

"Di Jun directly crushed the Violet Violet Emperor and threw a flame to Ye Lu.

"This is the ninth one, hurry up and fuse it."

"Di Jun" looked at Ye Luo and quickly said.

However, it was obvious that Nuwa was already angry, she looked at the core of the battle, then waved her hand, and several "Creation Beasts" that looked like her rushed towards the core like sharp knives.

It was not a group of people who came in, but only one person. However, this person's fighting power was so strong that he actually broke through the "evil gods" and made a bloody path.

After that, Ye Lu saw Gu Shiqi, who was carrying the "Pan Gu Axe" in her hand.

The "Pan Gu Axe" was one of the top ten fierce weapons in ancient times, and at this moment, Gu Shiqi had also turned into a giant.

Seeing the appearance of Gu Shiqi, Nuwa frowned and said.

"I didn't expect that the Pan Gu clan had also left a backhand."

Although Ye Lu did not know what Gushiqi had done, the current Gushiqi was definitely strong, perhaps not as strong as super experts like Di Jun and Nuwa, but much stronger than those Evil Gods, and not inferior to the Heirloom God that Nuwa had just sent.

This sharp blade was blocked by Gushiki's huge axe.

However, all this was only temporary, because, immediately afterwards, something else happened that surprised Ye Lu, that Zhang Tian suddenly flew over and became one with Nuwa.

"Kill!"

After the merging, Nuwa waved her hand once again.

Countless "evil gods" rushed towards where Ye Luo was sitting in a frenzy, body parts and blood flying in the sky, looking terrifying.

However, at this moment, another team suddenly rushed in from the side, led by an old lady, followed by the "Heavenly Demon Clan".

Seeing this old lady, Ye Lu became excited.

"Grandma!"

Yes, this old lady was Ye Lu's grandmother who had disappeared for a long time.

However, Ye Lu's grandmother smiled and waved her hand at Ye Lu, and then she began to transform. She quickly changed from an old woman into a wonderful woman, and behind her appeared twelve pairs of huge black wings, and twelve oddly shaped horns sprouted from her head.

"Nuwa, you didn't expect it, you may have filled the hole in the sky, but you can't stop the tenacious will of life after all."

The transformed woman looked at Nuwa and said with a smile.

"It's time for everything to end!"

To be honest, Ye Lu did not expect this matter to be related to the “Nuwa Mending Heaven”, but what shocked Ye Lu even more was that his grandmother was actually from the “Heavenly Demon Race”, and she seemed to be one of the strongest members of the “Heavenly Demon Race”.

“Isn’t the ‘Heavenly Demon Race’ the ‘Heavenly Demons’ from the Outer Dao? Why are they helping me again? And if Grandma was the leader of the ‘Heavenly Demon Race’, why would she keep something so heavenly as glasses for herself.”

By this year, it was already very clear to Ye Lu that the woman who had left the glasses at the KTV at that time was Grandma, and everything had started because of this incident, now that he thought about it, Qin Siyu’s appearance, the reason why Liu Mei had come, and the various things that happened afterwards should have all been arranged in advance, although the arrangement was not fine enough, the direction of the whole thing had been planned in advance.

In short, at this moment, Ye Lu’s head was full of question marks.

However, the twenty-four winged woman did not stop, after she finished speaking, she raised her hand, and a flame lit up from her hand, it was the “South Brightness Fire”, the last of the “Ten Great Origin Fires”.

“Back then, in order to seal you here in the ‘Battle of Extinction’, the Origin Flame that I had managed to control was scattered into ten parts, and now it’s time to unite them.”

With these words, the last of the “South Brightness Flame” flew to Ye Lu’s face.

The twenty-four-winged woman beckoned again, and the terrifying “Hell Demon Dragon” flew towards her and stopped at her feet, it seemed that this demon dragon should have been the mount of this twenty-four-winged woman.

Only after the twenty-four winged woman had done so did Nuwa say.

“Heavenly Demon

As a result, before she could finish her words, the twenty-four-winged woman interrupted and starved her first, saying.

“Don’t call me ‘Heavenly Demon’, who are we ‘Heavenly Demons’ you should know very well, if you hadn’t entered this ‘Little Thousand World’ from the ‘Haotian Continent’, you would have entered this ‘Little Thousand World’, how would our world have become like this.”

Hearing the twenty-four winged woman’s words, Ye Luo was able to probably clear his mind.

Now, it seemed that things were just the opposite of what he had initially thought, that this “Nuwa” and the “gods” trapped inside the “Lok Ha Immortal Mansion” were foreign creatures, and that the place they had come from was the “Haotian Continent”, which he had always seen but had never been to, that is, the “Middle World”, which was more advanced than the “Small Thousand World” of “Earth”.

Many of the treasures I saw came from the “Haotian Continent”, and now I think that all these things were brought by the so-called “gods” and “Nuwa” in front of me.

By this time, Nuwa had also regained her composure and looked at the twenty-four winged woman and said.

“Alright, I’ll use your original life, ‘Genesis Spirit’, you should know very well why we are here, if not to break the spatial barrier to the ‘Middle World’, that is, the ‘Haotian If we didn’t want to break the spatial barrier to the ‘Middle Thousand Worlds’ which is also known as the ‘Hao Tian Continent’, we wouldn’t have made our move, and it’s all your fault.”

“After Nuwa said this, I turned my head to look at Di Jun. What Nuwa said was very similar to what Di Jun did when he broke through the Small World to enter the Small World, except that the 24-winged woman had to break through the Small World to enter the Middle World.

Therefore, Ye Luo could now understand the panic of Nuwa and the so-called “gods”, if he had known about the existence of “Di Jun” before, and if he had known that if he had known about the existence of “Di Jun” and that “Di Jun” was about to burst out of the “Small World” and enter the “Small Thousand Worlds”, would he have been afraid? Will other people who know about this panic? The answer is definitely yes.

In terms of the “secular world” of the “small world”, the greatest guarantee for the stability of the “secular world” is that the natives of the “small world” cannot leave the “small world” on their own.

For us, the “Small World” is like a relatively safe place to cultivate and improve, because we can go in at any time, but the things inside cannot come out. Even the most terrifying demonic beasts can only cower inside and wait for us to go in and challenge them, or wait to be summoned out by us, and at the same time, we can also bring “beast eggs” from the “Small World” to cultivate them and turn them into our “original spirit beasts”, or bring out various medicinal herbs and crystal cores of demonic beasts.

In short, the “secret realm” is the most important resource in this “small world”.

Thinking about this, I suddenly understood another thing, that is, why there are so many so-called “true gods” here.

I’m afraid that before the War of Extinction, these so-called “gods” had been travelling between this “small world” and the “Hao Tian Continent”, just like the “Beast Alliance” has the “Secret Realm of Ten Thousand Beasts”, so this should be an area that belongs to the “True Gods”.

In the process of entering and leaving this “small world”, they also made the name of gods, and this should be the origin of “gods”. Of course, I am afraid that there are still many gods that were created by the people later, but these “gods” trapped in the “Lok Ha Immortal Mansion” should all come from the “Haotian Continent”.

Once this was clarified, everything was basically clear.

This is how it should be.

The 24-winged female celestial demons, the “Creation Spirits” and the “Celestial Demons”, including the “Candle Dragon”, the “Pan Gu”, the “Sun Candle”, the “Tai Yin You Hui”, and the “Green Dragon”, “Vermilion Bird”, “White Tiger”, and “Xuan Wu”, the natives of their origin, had the ability to open the barrier of the “Small Thousand Worlds” after a long period of evolution.

For cultivators seeking eternal life, the Small World is undoubtedly a constraint, because just as Di Jun could not “cross the tribulation” in the Small World, these indigenous people could not enter the cultivation realm after the “Nine Tribulation Realm” in the Small World, even though their bodies were already the same as those of the foreign “True Gods”, but their cultivation could not be improved.

However, as they were about to cut through the space barrier, the gods led by Nuwa appeared and opened up the “ancient battlefield” and a “battle of annihilation” inevitably took place.

“Nuwa used the five-coloured heavenly stones to block the hole leading to the outside, which is the origin of the legend of Nuwa mending the heavens, while the creator spirit, the Fairy of Lok Ha, trapped all the gods with her “Lok Ha House” and sealed the entrance and exit of the two worlds.

This is why no new “gods” have entered this “small world”.

I think the purpose of these “gods” was either to reopen the entrance and exit to the “Hao Tian Continent” or to wipe out the “Heavenly Demons”, as both paths would serve their purpose.

Right afterwards, the “Nuwa” looked at us and said with a smile.

“I know that you have kept a backhand, and I know that you will not last until we are dead, but I have to say that even if you have kept a backhand, it is useless. You think that this ‘boundary prison’ you have created is unbreakable? Then you are wrong, my body will soon break through this boundary and before that is the time of your death.”

With these words, she waved her hand.

Of course, the strongest team was the one led by Zhang Tian, who was as neat and tidy as an army, while Nuwa fought with the twenty-four winged “Creation Spirits”.

It was only after this fight that Ye Lu found out that Nuwa was a true god of the Heavenly Mending and was really strong, and the Genesis Spirit was clearly at a disadvantage.

Now, the key to everything lies with you, Ye Lu.

“Open!”

At the last moment of his breakthrough, Di Jun smiled slightly and fused with Ye Lu, turning Ye Lu into a strange state of black on one side and white on the other.

“Boom!”

Immediately afterwards, endless flames enveloped Ye Lu, as the Ten Great Origin Fires finally fused together.

The spiritual energy in Ye Lu felt that the spiritual energy in his body had undergone a qualitative change. An ordinary cultivator started out with Yuan Power, and then after continuous upgrading and refining, after passing the Nine Tribulations, it turned into “spiritual energy”.

Ye Luo’s body was initially “spiritual power”, but now that it had changed again, Ye Luo could no longer understand what kind of power it was.

“It’s the power of God!”

At this time, "Void" looked at Ye Lu from the side and said.

"However, just now, 'Di Jun' and you have fused, so you also have the 'Devil's Power', so you are now the number one 'God and Devil' in all the ages. ' now."

The "Genesis Spirit" who saw this scene laughed out loud.

"Success, success at last, Ye Lu, let them see your power."

Hearing the words of the "Genesis Spirit", Ye Lu opened his arms, and endless "divine and demonic powers" poured out in all directions with terrifying flames.

Nothing happened when the flames passed over his own people, but when they came into contact with the "evil gods", all the evil gods that touched them were reduced to nothingness.

Then, at the centre of the flames, Ye Luo emerged, his black and white magic and divine power had completely merged, and he was once again as he was before.

Immediately afterwards, he raised his right hand, and a huge "prison of flame" suddenly appeared, enveloping everyone in it.

After that, Ye Lu's left hand was also raised, and a light rushed to the sky and punched a big hole in the "Luxuriant Immortal Mansion", and endless heaven and earth energy came rushing in, while at the same time, the huge "Other Shore Boat" also suddenly appeared.

At this moment, in Ye Lu's mind, all the memories that had been blocked were also restored.

He finally understood his identity. He was not a doppelganger, nor was he a bloodline inheritor, but strictly speaking, he was a seed that was planted by the "Genesis Spirit" and grew up with the help of the "Betrayal", that is, the "Creation God", in order to achieve the "God Body", while "Di Jun" was another seed, in order to achieve the new "Demon King", after which the two seeds would merge into one and become the first "Demon God".

The purpose of all this is to go against the heavens and break out of this "small world".

"All evil gods, and Nuwa, submit to me, and I will lead you to become the myth of the 'Haotian Continent', or die!"

Ye Luo looked at the crowd around him and said in a loud voice.

After a second of silence, the crowd submitted, while Nuwa sighed and signed the "Master-Servant Contract" with the "Creation Spirit".

At the same time, a gaping hole appeared on the side of the "Lok Ha Immortal Mansion" with a "boom!" A gap appeared with a loud bang, and countless True Gods began to pour in, as the people from the Hao Tian Continent finally broke the boundary.

Seeing this scene, Ye Lu looked at the crowd and said with a smile.

"Get into the ark, our next target is the starry sea!"

After saying this, he threw a punch at the “Five-coloured Heavenly Stone” in the centre of the “Immortal Mansion”, which shattered with a sound.

After countless years of calculations and struggles, the magnificent “Haotian Continent” finally appeared before Ye Lu’s eyes.

(End of book)
