

The Supreme God

Chapter 101 Assassins Hidden In The Dark

After Murray left, Austin was still deep in thought.

If the steward hadn't told him the truth, he would have been practicing the martial arts with only the thought of improving his strength. He had no specific goal about what he should achieve.

But now, he finally figured out what he must do. If he wanted to take revenge, he at least had to reach the Earth Realm with his vital energy.

Braxton and Bryan were both at the beginning level of the Earth Realm. Aside from that, Braxton had Elder Luo whose cultivation base was at the advanced level of the Earth Realm.

Austin, on the other hand, was only at the seventh level of the Energy Gathering Realm. He still had a long way to go before he could reach the Earth Realm.

But there's only one challenge that Austin needed to overcome. For an Energy Gathering Realm cultivator to reach the Earth Realm, he had to make a big breakthrough which was more difficult than enhancing one's levels within the range of the Energy Gathering Realm.

With this thought in mind, Austin felt the urge to improve himself.

Now, nothing was more important to him than time and strength. Seize the day, seize the hour! It was the only way for him to reach his goal.

In just a second, Austin had finally made up his mind. He would start his crazy plan of practice from today.

Previously, in the hard mission room, Austin chose three places at the outer mountains of Grand Desolation Mountain to do the tasks.

At the outer mountains, aside from earning the crystals by finishing the tasks, he could also improve himself through the real combat.

So now that he was determined to further improve his vital energy, he decided to once again go to the outer mountains of Grand Desolation Mountain tomorrow.

At that night, he left a note for Evan.

On the next morning, Evan couldn't see Austin anywhere. Seeing the note, he assumed that Austin had already left to start his cultivation journey.

.....

In the same residential area, there was a luxurious and superb house.

The house was grand and extremely spacious. It was painted in red with doors made of bronze. Even the door nail was as big as a bowl. At the gate, there stood two Kirin statues which looked extremely intimidating, adding dignity to the place.

Suddenly, an outer disciple was rushing towards the house, looking very anxious.

"Marvin! Marvin!"

The outer disciple called out as he ran.

After a while, a handsome sullen-looking young man walked out from the house. He was Marvin.

"Stop fussing in my house! What are you freaked out about? If it isn't important, you better leave or I'll beat the shit out of you!"

The outer disciple was startled, but he continued despite the threat, "I saw Austin leave the Sun Sect this morning. And it seems that he is going to the outer mountains of Grand Desolation Mountain."

Marvin's eyes widened, "He is going to the outer mountains of Grand Desolation Mountain?"

went inside to carry out tasks, or to kill diabolic beasts and gather precious plants or other treasures that they could

After two days of travel on the road, Austin decided to stop at the pass and find an inn that he could stay in for the night.

In the deep of the night, the inn was deafening quiet.

It was perfect for Austin's meditation as he practiced the Golden Sun Scripture.

In another room, the five rough and hard-featured men sat in the middle.

The dim candlelight flickered and illuminated their faces, making their ferocious and bloodthirsty nature more hideous.

They were the men who followed Austin since he set out on the journey.

They saw him when he entered the inn to stay for the night, so they decided to also stay at the same inn to keep an eye on him.

After a short moment of silence, one of the men suddenly asked, "Leader, when can we take the move? Isn't it easy for us to deal with such a fledgling disciple? Why should we wait for so long? He's in the next room now. Let's just go in there and finish him!"

the man said impatiently.

The man who led the team was Matthew.

He was about thirty years old and at the ninth level of the Energy Gathering Realm. While the other four men were at the eighth level of the Energy Gathering Realm.

Hearing this, Matthew laughed, "When will you change your hasty manner? Of course, it would be a piece of cake for us to kill Austin. But there are too many disciples from different sects around here. I don't want to make a big deal out of it and attract too much attention. Austin is only an outer disciple, but Sun Sect is a big sect. If the leaders of the Sun Sect knew about it, I'm afraid there will be potential trouble for us in the future."

"The Blood Wolf Team had existed in the swordsman's world for decades. What keeps us stand for so long is more than just our martial skills, but also our cautious mind. Better safe than sorry. You should always remember that."

"So, we should wait until he enters the outer mountains to carry out our plan of killing him."

Hearing Matthew's analysis, the four men nodded in approval.

Meanwhile, in another inn, Marvin was sitting at the table with Lara sitting opposite him pouring his tea.

Several outer disciples with a high level of martial arts stood beside him.

"Is Billy here?"

Marvin asked an outer disciple who stood aside.

"Yes, I just saw him together with a dozen of outer disciples. I saw them in the market outside."

"Well, bad luck for Austin! I have a lot of trump cards to deal with him. I can't wait to see him die a miserable death this time. As soon as he enters the outer mountains, no matter how hard he cries for help, no one would hear him!"

On the next day, as the first morning ray spread on the earth and all creatures came back to life, Austin already went inside the outer mountain alone.

He walked all day, over hill and dale. He crossed the high mountains and the thick forests, conquering numerous hilltops.

Austin walked silently in the quiet forest under the watchful eyes of the assassins hidden in the dark. They were full of vital energy within their bodies, ready to act at any time.

Unlike the Beast Mountain, the outer mountains of Grand Desolation Mountain not only had large numbers of level-one and level-two diabolic beasts, but also abundant level-three and level-four diabolic beasts. Moreover, some level-five diabolic beasts also occasionally haunted the place.

Austin had been to the outer mountains of the Grand Desolation Mountain several times for the practice before. And he was not totally ignorant of the dangers in the mountains.

With that knowledge, he trod more cautiously along the way.

When he practiced in the outer mountains of the Grand Desolation Mountain before, he had survived many life-and-death situations. But now that his cultivation base and vital energy had dropped immensely

compared to the level he had before, he couldn't be too careful this time.

The Supreme God

Chapter 102 An Enemy Waiting To Attack

As soon as Austin entered the Grand Desolation Mountain, he faced all kinds of dreadful diabolic beasts and had to cope with all sorts of people including some notorious ones.

And the outer mountain of the Grand Desolation Mountain was the place where all the disciples from five sects toughened themselves.

Just as Austin entered the Grand Desolation Mountain, he was already in danger.

Three level-one diabolic beasts called ice snake attacked him.

Such a diabolic beast was common in the outer ring of the Grand Desolation Mountain. It was an ice-element beast with chilly poison hidden in its ice. If the victim wasn't given an antidote within half a day, the chilly poison would freeze the blood in his body until he died.

Most of the time, the ice snakes would camouflage like tree beard on the tree branches and people wouldn't know the difference. Once they attacked, it was difficult to prevent it.

Although the ice snakes were level-one diabolic beasts, many powerful cultivators fell to its trap because of carelessness.

Fortunately, Austin had a strong spiritual sense and found the three ice snakes as soon as they moved.

He waved his long sword and cut the three snakes into several parts.

However, Austin also got scared. The ice snake might not be powerful, but it had lightning speed and could appear from nowhere. If he reacted slowly, the consequence would be unimaginable.

After being attacked by the ice snakes, Austin became more cautious. As expected, the Grand Desolation Mountain was much more dangerous than the Beast Mountain, and he couldn't break into it randomly.

Austin took out a map under his arm and put it on the ground to check it carefully.

He bought this map at a price of one hundred vital energy crystals from the market at the entrance of the mountain. It had a general diagram of the Grand Desolation Mountain.

The dangerous area was marked with red. It was where the powerful high-level diabolic beasts lived.

Soon, Austin found his destination on the map. It was ten miles away in the southeast.

That was the place where the red stripe diabolic leopards appeared frequently.

It was the first task that Austin got from the hard mission room. If he managed to kill a level-three red stripe diabolic leopard, he would be rewarded with two thousand vital energy crystals.

a miserable scream, the diabolic wolf

But the diabolic wolf had rough skin and hard meat. Its bone was as
tough as iron. And even Austin's punch couldn't hurt it enough.

As the diabolic wolf rolled on the ground, its ferocious nature was
aroused. It howled and tried to rush over again.

Austin raised his leg and hit that wolf's stomach. After kicking it, he
waved his long sword and forced another wolf back.

The four diabolic wolves certainly wouldn't give up fighting Austin.

He surprisingly found that the Cloud Swordsmanship he had mastered
to a Major Achievement Stage could do nothing to these four diabolic
wolves.

His only chance was with the bodily movement of Wind-commanding
Skill. By using it, he could still manage to cope with them without
being torn into pieces.

... ..

As he battled with the four diabolic wolves, Austin suddenly felt a little restless. He had sensed that he was being watched by someone.

He felt chilly sensation run on his backbone. His face turned pale. He released his spiritual sense to immediately cover a range of four hundred meters around him.

Unexpectedly, he found more than ten figures hiding behind the thorn bushes.

The figures looked familiar.

Billy was one of them.

It was a group of young disciples led by Billy. They were the outer disciples of the Sun Sect and Billy's followers.

Instantly, Austin knew what was going on. Billy was unwilling after being defeated by him and came to avenge when he was out of the Sun Sect.

At this time, Billy probably wanted to kill him when most of his vital energy was consumed after he fought against these four diabolic wolves.

He was the enemy who watched behind when Austin was battling with others so that he could gain the last profit.

As expected, Billy was so narrow-minded. Just because he was defeated on the competition, he would resort to such a despicable act.

Austin sneered after he knew it was Billy and felt relieved because he was confident that he could defeat him and his group easily.

But for now, he needed to focus on defeating the four one-horned diabolic wolves. He would deal with Billy's group later.

The Supreme God

Chapter 103 Being Everyone's Target

In fact, once Austin exercised his Grand Pagoda Summoning Skill, he could handle the four one-horned diabolic wolves relatively easily.

But since that skill consumed a considerable amount of his vital energy, Austin seldom resorted to it. He also hoped to improve his body agility and gain more experience with actual combat.

Therefore, he decided to wrestle the four one-horned diabolic wolves relying on his seventh cultivation level and his impeccable Cloud Swordsmanship.

The fight turned out to be fierce. Many times, when Austin was just about torn up by the wolves, he made a miraculous escape at the very last moment.

It was similar to walking on a tightrope. Austin could have been ripped to shreds if he hadn't been paying attention.

Making one narrow escape after another, he frustrated the aggressive wolves. Gradually, he began his counter-attack, coming to blows and wounding them one by one. Two hours later, Austin had pierced his sword into the hearts of each of them.

After the tough battle, he examined himself from head to toe and gave a wry smile.

He was covered in blood, some of which belonged to the wolves, while a little was his own. He found at least eight large gashes on his body. They were wolf bites. At one place, his flesh was ripped off. One of the wolves had chewed up his flesh, making him yelp in excruciating pain. It was not an exaggeration to say that he looked utterly chaotic—blood drying off on his skin and hair sticking out in tufts, while the rest of his body was entirely marked in cuts and bruises.

The four one-horned diabolic wolves had indeed been powerful. Their bones had been tough as iron, and they themselves were as crafty as foxes. Moreover, they fought in packs and cleverly so. During the entire combat, their coordination had been perfect.

Given that it had been a four-on-one combat, Austin allowed himself to feel proud of having emerged as the victor, despite all his wounds.

Meanwhile, Billy, along with a band of his trusted subordinates, had taken to following Austin's traces. As soon as he had heard the news of Austin leaving Sun Sect for the Grand Desolation Mountain, he had wasted no time in following him.

He and his men had tracked Austin to this place. Hidden behind nearby bushes, they witnessed the fight between him and the four one-horned diabolic wolves.

"Brother Tang, when shall we strike?"

an outer disciple whispered in Billy's ears.

After two days of tracking, he was beginning to lose his patience.

It was obvious that Austin had extraordinary strength, but the outer disciple was positive that they could easily defeat Austin, since the latter was so evidently outnumbered. The disciples had already agreed to attack Austin together once they caught sight of him.

two fists he fights with. How can he

can't strike Austin until he's worn out and his vital energy is almost depleted. That's the safest strategy for us. I was told that casting the Grand Pagoda Summoning Skill costs seventy percent of one's vital energy. If Austin uses up most of his vital energy in dealing with those wolves, he wouldn't be able to use that skill against us. And without the Grand Pagoda Summoning Skill to aid him, Austin's life will be in our hands," Billy hissed back, the

disciples murmured quietly, reassured at these words. They all thought Billy

what are

Austin asked, his voice hoarse. His tongue licked his lips unknowingly. They had chapped and dried in the lengthy fight.

"That's an interesting question!"

Billy glowered at Austin, his eyes exuding resentment and loathing.

"You can't tell why we're here?" he demanded in a loud voice.

With a frown, Austin said, "I already accepted your challenge and defeated you in that combat. I think we've settled our differences, haven't we?"

Billy's mouth curved in a disparaging smile before he replied, "Settled? You wish! After humiliating me in front of the outer disciples like that,

how could you think I'm done with you? Austin, I'm here to take your life today. It's what you deserve for pissing me off!"

Now that Billy was openly hostile, Austin felt it unnecessary to put on a friendly face. "Billy," he bellowed. "You're shameless. Your strength failed to match mine in battle, so now you're here to beat me up with the help of your gang mates? You coward!"

"Humph, death is knocking at your door, regardless. And you better watch your mouth when talking to me!"

Billy shouted, his fury flaring up.

"Everybody, attack! No hanging back. Don't give him time to recover his vital energy! Chop him up!"

Instantly, the young men behind Billy lunged at Austin, howling wildly.

Austin's face hardened by the second. At once, he swung a leg and launched his Wind-commanding Skill before retreating several steps to steady himself.

Just as he regained his balance, one of the men, skilled at moving speedily, approached him.

Without hesitation, Austin shot a Spiritual Sense Flying Needle at him.

The power in Austin's spiritual sense had doubled. When the Spiritual Sense Flying Needle hit the young man, his brain shuddered at the strike, the sharp sting of pain shooting through him.

Despite himself, his movements slowed down.

Suddenly, a clatter sounded—Austin had wasted no time in hacking off one of the man's arms!

The Supreme God

Chapter 104 Time To Practice Fighting Skills (Part One)

The young man's cultivation base was only at level six of the Energy Gathering Realm, but his bodily movement skill was quite excellent. And this was the reason why he was first to catch up with Austin.

However, Austin's Spiritual Sense Flying Needle managed to disturb the young man's spiritual souls and enabled Austin to cut off his opponent's arms.

He screamed in agony, like a pig about to be butchered.

The screams jolted everyone who heard this.

But it was Austin who continued to amaze spectators because even after battling against four evil wolves for more than an hour, he was still terrifying in combat.

"Stop attacking him from all directions! We need to gather together to deal with him," Billy shouted at his men.

Gritting his teeth, Billy tried to control his outrage.

After barking his instructions, two outer disciples who ran ahead of them stopped in their tracks to wait for the others to catch up.

Meanwhile, Austin frowned as he thought of Billy's team. 'If a dozen outer disciples choose to gang up against me, it will definitely be difficult to handle them. After all, I only have two hands.'

Boldly, he turned to them and shouted, "You're a bunch of cowards!"

Then quickly, he rushed into the woods nearby.

By that time, Austin already had a basic understanding of the Using the Wind method. Swiftly, he ran like a wandering ghost using the Wind-commanding Skill and in moments was out of sight.

"After him!" Billy screamed.

He was quite surprised by Austin's astounding speed and his excellent bodily movement skill. Billy then saw the frightened outer disciples surrounding him, and his anger escalated.

As soon as Austin entered the wooded area, he kept changing his forward direction like a shadow with the Wind-commanding Skill. Finally, he vanished without a trace.

After searching the forest for a long time, Billy and his companions still found no trace of Austin.

Unknown to them, Marvin also followed Billy into the woods.

up with Billy's group, he was furious after learning they'd lost Austin, and that there was no trace of him. "I had great

the turn of events, he noted the five men's exceptional agility and great strength, so they appeared more dangerous than the outer disciples led by Billy.

Austin most was the fact that three groups of people were searching for him at that moment. Suddenly he felt a little nervous about the situation.

"Violet, I'm in a difficult situation right now!"

He tried calling out to Violet, whose soul was under his control, hoping he could communicate with her through his spiritual souls.

Sighing, he was grateful to have recently mastered this type of communication with Violet. With his spiritual sense marked on Violet's beast soul, Austin gradually learned he could talk to her via spiritual souls.

"My lord, what's happening to you?"

She quickly replied after sensing Austin.

He told her what was going on.

"Do you need my help? I'm quite confident of defeating these cultivators of the Energy Gathering Realm. Handling those young men won't be a problem."

Violet said with a laugh.

In Violet's view, her current strength was nearly equal to the Earth Realm of human beings. So dealing with these three groups of people after Austin would be no problem.

Taking a few moments to ponder about her offer, Austin remained silent.

Finally, he said, " Violet, you don't need to help me now. But can you help me handle them in case my life is in danger? I would like to improve my strength through actual combat. There are so many people who want to fight me today. So, I'm going to play with them. It's time to practice my fighting skills!

I believe this is a very rare opportunity!" he said with a smile.

Because of a strong will, Austin simply viewed the present dangerous situation as part of his practice journey.

Silently, he began to analyze the enemy's situation.

Among the three groups after him, it was Billy and his companions who had the weakest level of strength, although it was their team with the highest number of people.

Meanwhile, Marvin's group only had five or six people, but they were a little stronger than Billy's team.

By his estimation, it was the group of five unidentified men who appeared from the hillside that had the greatest strength.

"It's going to be hard for me to deal with so many people," Austin muttered as he tried to sort things out.

"The only way I can outwit them is to escape from the enemy's territory at once. That way, I'll have time to make other plans."

With this in mind, Austin knew he had to stop hesitating and simply act. If they discovered his whereabouts, escape would be impossible.

The Supreme God

Chapter 105 Time To Practice Fighting Skills (Part Two)

So, he positioned his body carefully and slithered down a tree trunk without being seen.

After sliding down to the ground, he rushed silently towards the southeast direction of the forest using his Wind-commanding Skill.

Right that moment, a dozen of Billy's followers were scouring the woods searching for him.

One of the teenagers who scanned the area quickly suddenly saw a dim figure darting off.

"There he is!" he shouted.

His companions were immediately alerted.

They were excited to have tracked Austin, and immediately took up the chase, with weapons on hand.

"Oh, damn it!" Austin blurted out.

He was annoyed at being found and began to use the vital energy to move faster.

Then out of nowhere, a young man appeared in front of Austin.

Compared to Billy, his strength was a little weaker.

But he thought his cultivation base was not lower than that of Billy.

Standing face-to-face with Austin, the young man was not afraid at all and was even eager to fight the disciple to display his great strength.

Seeing Austin approaching him boosted his spirit, which made him jump out to block the fleeing disciple.

Raising his long sword, he shouted, "Austin, are you ready to fight with me?"

His loud voice stopped Austin in his tracks. "What?"

He threw a cold look at the sword-bearing teenager.

Without another word, the teenager began to attack Austin with his sword, from which waves of vital energy kept flowing.

"You want to flee?"

Well, you're leaving your head with us!"

The other young men running after him also bellowed.

The statement was delivered in an icy tone.

Then six people materialized in front of Billy.

"Marvin!" Billy cried out.

He immediately recognized the leader of the six men, who ranked fifth in the outer sect.

The others in the group were all famous masters of the outer sect, except for Lara, who had the perfect figure.

Also part of the group were Bartbaker and Cecil, who ranked eleventh and thirteenth in the outer sect, respectively. These two alone had a higher ranking than Billy.

Brusquely, Marvin asked, "Which direction did Austin go to just now?"

He looked at Billy and his men, waiting for an answer.

"He disappeared through there," Billy answered pointing east of the forest.

"Marvin, are you also searching for Austin?"

It suddenly dawned on him why they kept running into Marvin.

"Yes! Austin is our common enemy. Billy, what do you say we cooperate with each other?"

"Let's hunt for him together," Marvin proposed.

He thought about it carefully. Although the level of strength in Billy's group was not high, there were a number of them. Marvin hoped these people could serve his purpose. At least, he could have them run errands and inquire and report any news to him.

"Okay!" Billy happily accepted the offer of alliance.

He believed that as long as they teamed up with Marvin's people, they didn't have to fear being defeated by Austin again.

"Well from now on, tell your people to follow my orders." Marvin declared.

His declaration stunned Billy that he was unable to speak.

He was well aware that the strength of Marvin and his followers was at a higher level. Although Billy didn't fully agree with what Marvin said, he still nodded in agreement.

The five members of Blood Wolf Team likewise entered the woods quietly.

They've been traveling around the country for a long time and often fought battles, which honed their powers of observation. So their team tended to be much more experienced in tracing a person's movements compared to the outer disciples of Sun Sect.

Soon, Matthew came across the tracks Austin left behind when he passed through the area.

"Let's break up into two groups. Once you guys find that boy, kill him without hesitation!" he ordered.

The Supreme God

Chapter 106 Austin Strikes Back (Part One)

The sun's rays passed through gaps among tree branches, creating numerous penlights on the ground of the dense forest. It made a beautiful scenery.

But Austin, who leaned against a sturdy branch near the top of one tree, hardly appreciated the view. He gently bit into a green root, and a faint bitter taste quickly spread inside his mouth.

From that angle, he saw five figures drawing closer to where he had taken as temporary cover.

When he could make them out clearly, Austin identified them as the five outer disciples following Billy.

When they reached the tree where Austin was hiding, two disciples who were at the tail end of the team suddenly stopped.

Alarmed, Austin thought, 'Have they seen me?'

Frowning slightly, he kept calm and shrank farther into the shadows of the tree's leaves and branches.

Then the vital energy in his body started to flow, and he prepared to launch an attack any time.

A voice jolted him.

"Hey, what the hell are you doing? Stop dilly-dallying!" one of the three disciples said loudly. They walked in front of the two now standing underneath Austin's hideout.

The two responded together just as loudly, "You go ahead. We need to take a leak first!"

"Damn! I already warned you against being with whores from the Pink Delights House of Peace Town each time you're free. But you guys don't listen. Look at you now, urinating so frequently! You're probably suffering from kidney disorder!

Hurry up! Once you've relieved yourselves, catch up with us," the disciple in the lead said helplessly.

Once he finished admonishing them, he walked on with the two other disciples.

The two, who were left behind under the tree, looked around, saw no one, and quickly relieved themselves.

they were doing, Austin heaved a deep sigh of relief. Quietly, he cursed

overheard their conversation. "Now, even Billy has to follow Marvin's commands?" one

Billy has no choice but to obey Marvin because he ranks fifth among all the outer disciples. In this world, it's the words of those with the big and powerful fists that matter. Us? We're just insignificant sidekicks. Whoever

"Ah, so you know that you should be scared now?"

I believe that in the past, there were no grudges between me and you guys, right? But now, Billy has ordered you to kill me!" he said harshly.

"Austin... Please, I realize now that..."

I was wrong. I shouldn't have joined them to kill you. Please, spare my life!"

Voice trembling, he continued to beg for his life.

"Humph! Get out of my sight now!" Austin said sharply. "If I ever see you again, you can be sure I will kill you."

And since he wasn't going to take this disciple's life now, the Negative Shadow Blade that was on his hunter's throat received the order and disappeared.

The young cultivator turned around and strode to leave.

Meanwhile, the outer disciple who escaped death so easily was elated by his luck.

When he finally calmed down, he now saw that Austin's back was to him. Suddenly, his mind started to race. 'He can't see me now. That means his guard is down and I have a very good chance of killing him,' he thought.

Smiling to himself, he mumbled, "If I killed him, it would mean a big achievement for me, and I could get a lot of rewards for it."

Before facing death earlier, this man was vicious, used to bullying male and female disciples weaker than him. But with the intent to kill forming in his mind, he no longer hesitated.

Quietly, he raised his saber, took two steps forward stealthily, and prepared to slash Austin's back.

Yet, he didn't know that Austin's spiritual sense had been monitoring his every move.

Sensing the villain was on the attack, Austin shook his head, drew his long sword, turned quickly, and pierced his enemy's belly with the tip of his weapon.

"Why did you have to force me to kill you?" Austin asked with a hint of sympathy.

The sword cutting through his belly was least expected. At once, he felt a sharp pain, and shortly after, he lost consciousness before finally succumbing.

The Supreme God

Chapter 107 Austin Strikes Back (Part Two)

Sighing heavily, Austin carried both bodies of the men he killed into the woods to conceal them, hardly making any sound at all. Once he accomplished this task, he again disappeared.

For a while, the dense forest was silent and peaceful. Occasionally, a few beasts jumped through the woods, startling birds resting on branches as they made their way across.

But the serenity didn't last very long. The silence was interrupted by a disciple, who was running away, a look of desperation on his sweaty face. His motions and heavy panting startled the birds and drove them away.

Ignoring the damage he was leaving in his trail, he kept on running. From time to time, he would glance back at the dark forest behind him, a look of horror on his face as if wild and ferocious animals were right behind him.

He was one of the many outer disciples following Billy.

Along with two others, he had gone ahead in search of Austin.

As they wandered in the forest, Austin launched sneak attacks on them. They quickly realized Austin must have killed their teammates earlier. Two more from the team suffered the same fate. Only he managed to escape.

Out of breath after running several kilometers, the outer disciple suddenly had a look of eagerness once he saw the place far ahead.

He needed to run a few hundred meters more to reach the temporary stronghold of Marvin, Billy and other members of his group.

Once there, he would be able to seek the help of his companions, and there would be no need to fear Austin, who was probably still chasing him to end his life.

Pushing forward using his remaining strength, he jumped slightly and the soles of his feet stepped hard on a tree trunk. The momentum helped increased his running speed.

It was exhilarating to gain speed again, even after running fast for a long time. The outer disciple realized that all the effort he put in practicing his martial arts skill regularly had paid off.

that he was close to reaching the shelter, he became more hopeful that he would survive, and this

a man's vital energy

with the progress he made in his Wind-commanding Skill, Austin discovered that his understanding of this particular ability was not

The truth was this exceptional skill could be used to enhance long-distance running speed as well.

While running long distances was a real test of a fighter's vital energy strength, this also measured one's feet-moving skill using vital energy.

If one's skills in using vital energy were highly efficient, he would achieve faster speed with the most economical vital energy force.

In the old days, Austin could cover five meters by taking one step. Today, after a deeper understanding of the use of the wind from the Wind-commanding Skill, he was pleasantly surprised that each step now covered nine to ten meters.

Thus, his actual running speed at present was twice as fast as before once he learned to further hone this skill and learn its intricacies.

The discovery excited Austin.

It was remarkable that at such a terrifying speed, Austin could move faster, appear and disappear mysteriously like a ghost.

Together with Austin's powerful spiritual sense, which could monitor anything within a 400-meter range, tracking him would be close to impossible.

Outer disciples and anyone preying on him would be flabbergasted.

Before they could even draw close to Austin, he would have immediately discovered them.

So, if they were only a small number of people, Austin could simply kill them immediately. On the other hand, with a larger number of predators, he could just disappear instantly.

Now, as he looked at the clearing in the middle of the forest, he saw six or seven people standing there.

Examining the group closely, he noted that Marvin and Billy were among them.

The Supreme God

Chapter 108 The Blood Wolf Team (Part One)

It was a peaceful day, but Marvin Su's face sank with anger. Five outer disciples were found dead hours after they had been sent to look out for Austin.

All of the outer disciples were sent out in groups of at least four members. Each of them carried signal devices. Once they found out Austin's whereabouts, the first thing they had to do was to send a signal using the device.

Although Austin was powerful, he probably couldn't kill the whole group in one hit.

However, even if that was the case, the outer disciples were still killed one after another.

There were about sixteen outer disciples together with Billy.

The other outer disciples feared to end up with the same fate when they found out about the death of the five outer disciples.

They previously thought that since there were more than ten of them, they would certainly kill Austin.

However, five of them were already dead before they could even find Austin's whereabouts.

If they went on like this, they would probably dwindle in number soon.

Thus, other disciples started to leave secretly in fear of the current situation.

They thought that if they followed the top disciples like Billy and Marvin, they could lead a comfortable life as outer disciples.

Right now, however, it might cost them their lives, and no one wanted that. There would be no comfortable life to enjoy if they were dead.

A while later, about seven to eight disciples had secretly left.

Marvin's eyebrows knitted together tightly in anger as he walked between the leafy branches. "Shit! Damned Billy Tang! All the people together with you are cowards!" he cursed.

Rage consumed him as he hit a tree trunk beside him with one fist, and then the trunk immediately broke into pieces.

Billy couldn't do anything when he saw Marvin got furious. He was angry as well. He thought that he had a good chance to kill Austin in this search since Austin was out of the sect.

However, things didn't turn out like that. As soon as the disciples who secretly left spread the news, Billy would be a laughing stock among the outer disciples.

"Four or five people have died, and seven or eight have left. Billy, you're actually alone now," Marvin said dryly.

Footsteps sounded through the path as another disciple came over.

He paused to regain his breath at first, then delivered the news.

The short darts glittered coldly under the light. Most of the darts, which
were made of fine steel, directly pierced the trunk quivering with a low
whistling sound.

"Come out!" Austin shouted.

He rolled into a nearby patch of the forest and took out his sword,
while he coldly stared at the thick wood in front of him.

"You have really good bodily movement skills. No wonder you
escaped even with so many people after you.

But now, our Blood Wolf Team has found you, and the only thing you
can do is to die," a cruel voice spoke.

Two figures emerged behind a big tree.

The one in a red coat had a big, fleshy built. He looked quite revolting.
He held a mace in one hand, which was almost as tall as a man.

The other one had hideous eyes and eyebrows, and a scar on his face. His cold eyes viciously stared at Austin.

"The Blood Wolf Team?"

"Are you from the Blood Wolf Team?" Austin asked.

He seemed to have realized something.

He had heard of the Blood Wolf Team. He knew that they were an infamous group made up of independent cultivators. They specialized in evil deeds such as robbery, kidnapping, and the like.

"Why is the Blood Wolf Team looking for me?"

The two unpleasant men across him laughed. "Why? Haha! Don't you know what we do for a living? Someone offered twenty thousand vital energy crystals in exchange for your life!" the grotesque man said.

He must be the one who talked a moment ago.

'Did someone really offer twenty vital energy crystals to ask for my life?' Austin thought. He never expected that.

'Are they from Sun Sect?' he thought again.

He concluded so because the only people he had ever offended were from Sun Sect.

However, they were mainly grunt disciples or outer disciples. None of them could offer such a large sum of vital energy crystals—twenty thousand vital energy crystals were a huge amount!

"Who is it then?" Austin asked.

Once again, the two hideous men just laughed.

"Haha! I am sorry. Our Blood Wolf Team forbids us to disclose whoever hires us. You should know that," the ugly man said.

"You've already talked too much. Let's just kill him and go back," the big, fleshy man cut them off.

The Supreme God

Chapter 109 The Blood Wolf Team (Part Two)

His face was stone-cold as he waved the mace in his hand, and rushed towards Austin. Austin felt a gust of fierce wind that blew harshly on his face.

The man moved fairly quick even with his big body. The mace in his hand seemed weightless as he carried it.

Meanwhile, the man with a scar saw this and immediately turned his hand. A round cylinder appeared on his palm, and the head of the object had many holes, like a beehive.

The two guys' hearts seemed to be connected as they charged forward at the same time. As the mace lurched forward, the scar-faced guy raised the cylinder and waved his hand. More than ten short darts shot towards both sides of Austin.

The darts moved simultaneously and also looked like they were in sync with the others. The two men seemed to have planned this so well that Austin couldn't properly defend.

If Austin dodged to the left or right side, it would be hard for him to avoid the darts. If he stayed in the jungle, he would have to face the mace's attack.

The two men frequently did dangerous jobs and were much more experienced in fighting together. Their synchronization with each other was truly flawless.

Austin's face paled at their skills. 'These fugitives are much more powerful than the disciples of Sun Sect, ' he thought.

He took a deep breath and started his Wind-commanding Skill. He tried his best to move left or right to avoid the darts.

Suddenly, the large man's face twisted into a frown. He mentally sensed a great incoming danger.

He saw a black beam of light hit his chest in a second.

However, he was able to react quickly and evade death. His left hand immediately tried to grasp the black light without hesitation while he lied down flat on his back.

A crunch sounded after the black light passed through his palm, and his left shoulder as well. He was bleeding.

Even so, he was lucky enough to have quickly reacted, or he would've died.

the scar-faced guy grunted and waved his hand towards the sky.

Austin knew he was sending a call to his fellow members.

'If five of them attack me together, I will lose. I can't wait here. A man should do the smart thing--I should escape first.

Then, I will find another opportunity to fight back, ' Austin told himself.

While he thought about it, he used his Twin Shadow Blades again. Two beams of red and black light shot towards the two men respectively.

The two hideous men knew how powerful this skill was, so they took it seriously.

They concentrated hard to avoid them.

At that moment, Austin strode out, and he jumped ten meters away. He moved quickly like a ghost and in a blink of an eye, he disappeared from behind the tree.

'How can he be so fast?' the big man thought.

His eyes couldn't help but widen in surprise.

He then saw Austin in the distance, who was already more than ten meters away. The big man had never seen such a fast speed.

The scar-faced man was also astonished by what he saw. His eyes turned serious as he regarded Austin as an opponent who they couldn't just underestimate anymore.

A moment later, Matthew arrived together with the other two.

"What?! He's gone?! He ran away even before the both of you?" Matthew asked incredulously.

"Yes, Sir," the big man answered.

He then added, "I think all of us have underestimated that guy's cultivation base."

The Supreme God

He could hide calmly and hit back even under numerous attacks. We underestimated him in the beginning, Matthew said with a serious face.

"I think his greatest advantage is the powerful bodily movement skill he has mastered," one of the men who fought Austin earlier said.

"He can appear from nowhere in the jungle with his bodily movement skill," he added.

"No, because he also has two mysterious spiritual weapons. They appear divinely and vanish demonically without any trace," the other one objected.

Then he added, "And, judging from my experience--they're at least middle-grade spiritual weapons."

"Middle-grade spiritual weapons!"

The other men had greedy expressions upon hearing Matthew's words. It was rare for a cultivator of the Energy Gathering Realm to have a low-grade spiritual weapon, of either level two or three.

Even only a few cultivators of the Earth Realm had middle-grade spiritual weapons.

Now, nobody expected Austin had two middle-grade spiritual weapons at hand, and that would surely make others envious.

"The five of us should stick together. We'll hunt that boy together, and we'll join forces to attack as soon as we find him. I don't believe that the Blood Wolf Team can't defeat someone at level seven of the Earth Gathering Realm," Matthew hissed.

The rest of them nodded eagerly in obedience.

Meanwhile, Austin had calmly escaped from the clutches of the two members from the Blood Wolf Team. He had injured one of them,

which worried Matthew. It seemed that Austin was quite a formidable foe.

If news spread that the Blood Wolf Team failed to kill someone at level seven of the Energy Gathering Realm, their reputation would be ruined, and the five members would have no place in the team.

Moreover, Austin had two middle-grade spiritual weapons. If they could kill him, they would get these rare weapons.

Thus, Matthew prioritized Austin's capture.

He even decided to merge with four other people--he really took Austin seriously.

"The guy has mastered the high-grade bodily movement skill, and he's very sensitive. The two of us hadn't approached him just a while ago, but it looked like he knew.

Now that he knows that we are tracking him, I think it's hard to find him again."

However, Matthew thought differently.

"Huh, don't worry. He can't escape from me," he sneered.

He waved his right sleeve, and then three tiny creatures jumped out.

The little critters let out small squeaks as they ran and sniffed the ground.

They looked like mice, and Matthew smirked as he observed them.

They were soul-chasing mice!

The other four members were delighted when they realized where the mice came from.

After that, he killed another level-three diabolic beast, a one-eyed tiger.

Finally, he encountered the red striped diabolic leopard--a task given to him by the Hard Mission Hall.

The red striped diabolic leopard was flexible and swift. It had incomparable power and could naturally breathe fire.

When Austin saw it, it stared back at him with its scarlet eyes. It roared deeply as sticky saliva dripped from its mouth which was full of sharp teeth.

Suddenly, it rushed towards Austin in a flash.

It opened its mouth while it was in mid-air. Scorching flames suddenly came out, and even the air evaporated with burning sounds.

The roaring flames that automatically extended towards the opponent almost hit Austin--but he got to move five meters away in time.

After a fierce fight, Austin ended up with some burnt skin on his hands and burnt sleeves. His arms were now like two black fire sticks.

The red striped diabolic leopard was finally killed under the attack of Twin Shadow Blades.

Later that day, Austin rested in a low-lying land for eight hours and reflected on all his experiences in battling diabolic beasts for the last few days.

Not only did he gain more than ten level-two and level-three beast cores, but also the fighting experience.

After he had rested, Austin was in extremely high spirits again.

However, he suddenly had a bad feeling. He felt as if several eyes were staring at him.

He then released his spiritual sense and checked within a range of four hundred meters, but there was nobody else.

He still had a strong feeling that he was being spied on.

He carefully checked again and made sure that nobody was around.

Austin wondered if it was an illusion because he was too tired.

He couldn't figure it out, so he helplessly shook his head with a bitter smile.

At that exact moment more than ten miles away, five figures were walking in the forest--it was the five members of the Blood Wolf Team.

Suddenly, Matthew stopped in his tracks.

"Austin... Austin has been found."

"What!? Where?! Where is he?"

"Tell us!" others demanded to know.

"This guy unexpectedly ran into the area with level-three diabolic beasts," Matthew said in surprise. The rest of them were shocked with the information as well.

"What? Is he in the area where the level-three diabolic beasts are on a rampage?"

They looked at each other confusedly and wondered why he was there. All of them were startled when they knew of Austin's location.

The weakest of the level-three diabolic beasts was equal to a cultivator at level eight or nine of the Energy Gathering Realm, and the powerful ones were even equal to those at the Earth Realm.

This guy really went to the area with level-three diabolic beasts. Was he courting death?
