

The Supreme God

Chapter 141 Spiritual Chain

Austin was running when suddenly, he stopped and felt a force restraining his steps. He heard some clinking sounds like that of chains.

Austin immediately realized that something was wrong.

He used the spiritual sense to figure out what was making his steps heavier. He saw a long and heavy iron chain in his Soul Sea. 'When did it get here?' Austin wondered. The black, ghastly and bloodcurdling iron chain shone with a dark red light. Its aura screamed grief, despair, and certain gloom.

It was the spiritual sense martial arts skill!

Austin was knowledgeable of this martial arts skill. At first glance, he recognized that the thick and black iron chain in his Soul Sea was controlled by the spiritual sense power. It belonged to a kind of spiritual sense martial arts skill.

The chunky iron chain appeared clearly, and metallic clicking sounds followed its movement. It charged towards spiritual figure that hid in Austin's Soul Sea, trying to clasp it and make it burst.

Austin could feel that the spiritual sense power controlling the chain was not very powerful. It was even weaker than the spiritual sense power he possessed now.

Yet, even with its weak spiritual sense power, it emanated an aura of misery and anguish. It screamed total destruction in form. Just by looking at it, it emitted negative emotions that made people feel

desperate, sad, and resentful. The dreadful feelings just came continuously to affect and erode Austin's emotions and sanity.

When the spiritual figure was affected by these negative emotions, it would lose its sanity and even turn violent. At last, it would lose itself and easily be caught by the black chain.

Such spiritual sense martial arts skill was indeed mysterious and uncanny. Although the spiritual sense attached to the black chain was not very strong, it would cause significant harm to Austin if he would not drive it out of the Soul Sea in time.

Austin didn't dare to treat it lightly and summoned one of his weapons. In an instant, a Spiritual Sense Flying Needle condensed and came into shape in his Soul Sea. It came fast at the black iron chain which was attacking his spiritual figure.

Clank!

With a crisp metallic sound ringing out, the chain was broken.

At the same time, the tomb owner's face registered shock. 'How did this guy have the spiritual sense power? More unbelievably, he did not only have the spiritual sense power, but he also understood the spiritual sense martial arts skill!' He furiously wondered.

In normal cases, only a martial arts practitioner who had reached the Mysterious Realm could master the primary spiritual sense power and form the Soul Sea.

The spiritual sense-related martial arts skill was uncommon, and only a few practitioners can master it. Even most of the Mysterious Realm practitioners could not comprehend this form of martial arts skill.

They got a hold of his trace and came rushing towards his direction.

With the help of the spiritual sense power, Austin found that these men were not only strong in their cultivation base, but they were also surely faster than him.

It seemed that it was not easy for Austin and Fanny to entirely flee from the brawl.

Austin tried to figure out why they were after him.

He slowed down and advanced at the speed of what an ordinary warrior at the Energy Gathering Realm usually went.

After a while, five figures came into his view like lightning.

"Austin, is that you?"

A familiar voice came through loud and clear.

"Steward Zhu!"

It turned out that one of the five men was the steward of the Sun Sect--Murray!

"Steward Zhu, what are you doing here?"

Austin immediately dashed to him and greeted.

Murray was very close to his heart, who was his teacher who treated him like his own son. At the sight of him, Austin felt safe and reassured.

At the same time, Austin was surprised to find that there were two Elders of the Sun Sect in the group.

The Elders were the second highest in command at the Sun Sect, after the Sect Leader.

The ordinary disciples of the Sun Sect seldom had the chance to meet the Elders. Unless it was for significant events such as services or anniversaries, it was really rare to see them on normal occasions.

The Elders of the Sun Sect were generally at the premium stage of Earth Realm. And it was said that some Elders might have already made a breakthrough and entered the Mysterious Realm.

The Sun Sect publicly declared that the Sect Leader, Theon, was the only one who had reached the Mysterious Realm. However, words on the ground had it that besides Theon, there were more than one Mysterious Realm masters in the sect. If it were not for this, the Sun Sect would not have become one of the five most prominent sects in the Violet Orchid Empire.

The Supreme God

Chapter 142 First Hearing Of The Ghost Sect (Part One)

Murray also did share the feeling of surprise to see Austin.

"Austin, you've also come to the area surrounding Grand Desolation Mountain to practice."

"Yes, Steward Zhu. I know I'm too weak. Hence, I've been racing against the clock to practice, never daring to slack off."

Murray gave a satisfied nod, gratified that Austin had become the go-getter he once was. He had known for several years that Austin had only one thing in his mind—absolute determination to become stronger. That was the main reason why Austin became the number one among the outer disciples three years ago, and the primary reason due to which Murray appreciated him profusely.

"Is this young man a disciple of our Sun Sect?" asked a sonorous, strong voice.

The speaker was a lean, short old man with unusually sharp eyes. He was Richard Cao, an Elder of the Sun Sect who commanded great respect amongst his peers.

Austin hurried to them, made a humble bow and said in a respectful tone, "Elder Cao, Elder Li, I'm Austin Lin, an outer disciple of Sun Sect.

And this is my friend I met in the area around the Grand Desolation Mountain."

Austin pointed to Fanny and introduced her.

Richard Cao was mildly pleased with Austin's polite and deferential manner. He gave Austin a slight nod in response.

Ordinarily, it was a great honor for the Sun Sect's outer disciples to see him.

As for Elder Li, who dressed up as a Taoist nun, looked as cold as the frost in late autumn, coming across as distant and unapproachable.

She ignored Austin's salute. Apparently, she had no interest in even looking at an outer disciple.

and turned away with

his mouth open. We come to the surrounding area of the Grand Desolation Mountain mainly

because our Violet Orchid Empire were attacked and mysteriously disappeared. Our Sun Sect alone has lost more than a thousand disciples in the past two years, and amongst them were many of our elite disciples who are far better than the inner disciples. The other four sects are facing a similar situation. Therefore, the

question is, how many disciples has he lost more than a thousand disciples?!"

He was deeply shocked by what he had just heard.

For the past three years he had been out of his mind because of severe brain damage which he had recovered just recently from.

Unfortunately, such a tragic set of events happened in the past few years, resulting in the Sun Sect losing over a thousand loyal disciples.

Amazed, Austin thought of those mysterious men in black, who set the Soul Collection Array in the valley where the celestial energy ginseng was.

Their purpose was to hunt down all the cultivators in that valley and collect their souls ruthlessly.

Coincidentally, most of those cultivators in the valley were disciples of the five major sects in the Violet Orchid Empire.

"Recently, we've found that those who often attack the disciples of our five major sects may have sneaked into the surrounding area of the Grand Desolation Mountain and tried to attack the disciples practicing here," Murray stated with a dignified look. "That's why we came here."

Austin then realized that these Elders and stewards had appeared together in order to investigate this matter.

He was fifty percent sure that the mysterious black-clad men in that valley were the ones who hurt the disciples of the five major sects. That thought was making him increasingly uneasy.

"Steward Zhu, many unfortunate things have indeed happened in the surrounding area of the Grand Desolation Mountain recently."

Hearing his words, Murray and the other four suddenly rendered their undivided attention to the speaker.

"What do you know, Austin? Tell us honestly," Murray said.

"And take your time."

After a while, Austin revealed the five people about what had happened over the past two days.

The Supreme God

Chapter 143 First Hearing Of The Ghost Sect (Part Two)

The five soon learned that the celestial energy ginseng had appeared in the surrounding area of the Grand Desolation Mountain, which led to many cultivators rushing to the valley for it, and that some mysterious black-clad men also had showed up there concomitantly.

Austin, of course, did not disclose what he had done, and hid key parts of the story that involved him.

As for the whereabouts of the celestial energy ginseng, Austin said that he only saw it was finally taken away by a fox at level three, and very understandably didn't mention that the fox was Violet, who had been subdued to him.

On hearing the news of the celestial energy ginseng, the eyes of these Elders and stewards lit up. After all, the celestial energy ginseng of seven hundred years was also a great treasure even according to their standards, which would be of great aid to further their cultivation base.

And when Austin talked about the mysterious black-clad men, the five got visibly curious. They exchanged quick glances perhaps out of sheer fright as they focused on the words pouring out of Austin's mouth.

"The Soul Collection Array!"

When Austin spoke of the name of the array the men in black had arranged, the three stern and calm Elders turned pale as if they were horrified to their very cores.

They looked at each other and saw nothing but deep fear in each other's eyes.

"The Soul Collection Array... "

"Are they the dregs of the Ghost Sect... "

"If that's the case, we are in huge trouble... " ...

The three Elders murmured and seemed to be recalling something scary from their memories.

'The Ghost Sect? Are the mysterious men from the Ghost Sect?'

Austin wondered.

It was the first time Austin had heard of this seemingly notorious sect.

"So petty!" she mumbled.

However, she did not leave, but looked around the cave as though she was scanning for something specific.

Austin ignored her and continued on his own course.

He pulled a purple Illusion Bead from his Space Ring.

"Violet, you can come out now."

As soon as these words were spoken, a cloud of green smoke rose from the bead, and with a flash of pink light, a little fox appeared in front of Austin.

"Aha!"

At the sudden scene, Fanny gave a scream of horror. Then she stared at Violet, open-mouthed. She had not been this horrified anytime recently.

"Isn't this the same fox that took away the celestial energy ginseng in the valley? What is it doing here?"

Fanny cried, covering her gaping mouth with her hand. She still couldn't believe that the fox suddenly appeared in the cave out of nowhere.

Violet, who had known about Fanny's existence, was amused by her startled look.

"Master, I'm used to being in a human form."

"It's up to you. You don't have to ask me for permission. From now on, you decide what form you take."

Austin didn't stop her because he didn't think it was necessary to interfere with the little hobby of Violet.

Then with a flash, another cloud of green smoke filled the air, and the fox transformed into a fabulous and stunning girl.

Her gentle features curved into an attractive smile. Her lithe, slender body walked gracefully, and she was irresistibly charming. The whole cave appeared to be brightened by her charm.

Then Violet stretched out her hand, and in it lay a human-shaped herb with nine rays of colorful halos. It was indeed the celestial energy ginseng itself!

The Supreme God

Chapter 144 The Ninth Level of the Energy Gathering Realm

Here it is, Master,

Violet said as she handed Austin the celestial energy ginseng.

Austin reached out his hand and took it from her. An overwhelming feeling of triumph took hold of him. In his hands was the most coveting magical substance hundreds of cultivators could only dream of having.

"You... .. I see it now. You were in this together! This whole time, you planned to keep the celestial energy ginseng to yourselves!"

Fanny exclaimed as she realized the truth.

"Oh, sister. You are too beautiful to be a monster," Fanny said, looking at Violet.

Fanny was a skinny little girl. Being around Violet who had the shape of a woman always made her feel a little insecure.

Violet modestly smiled as she covered her mouth with her hand.

"You're beautiful too, little sister. You're blossoming. I am sure that you will soon turn many heads," she replied sincerely.

The women seemed to have connected very well. They talked as if they had known each other for years.

Austin continued to admire the celestial energy ginseng as he thought of the legend that surrounded the magical substance. It was a tale widely spread among the disciples of Violet Orchid Empire.

It was said that this once allowed a disciple of the Bloody Hero Gang to go from the eighth level of the Energy Gathering Realm to the first layer of the Earth Realm. To this day, it was still believed that the substance remained as potent as ever, even after four hundred years.

He looked at the treasure on his hands and wondered if what the legend said were true.

He had many strengths but they were hidden in the shadow of his one great weakness: his lack of an ability to cultivate vital energy.

It was for this reason that Austin longed to reach a higher level of vital energy all his life. This was his greatest wish that led him to his quest to attain the celestial energy ginseng.

"Violet, stand guard for me. I want to cultivate inside this cave," he ordered.

"Master, are you sure you want to eat the celestial energy ginseng inside this cave?"

Violet asked. She was fully aware of his intentions, but she could not help but worry.

"Yes, I am. The longer it is in our possession, the more dangerous it is. There are many people who will stop at nothing to own something so precious. Besides, my current vital energy is no longer sufficient. It needs to be replenished as soon as possible. Now that I have the celestial energy ginseng, I can use it to reach a higher level," he replied.

power is unimaginable. I know the legend of the Bloody Hero Gang, but how are we even sure that

ginseng, despite its potency, is not one that is harmful to men. In all honesty, its power does not scare me. Don't worry," Austin told Violet. He was quite confident of his ability to absorb the ginseng's energy because of another treasure that was in his elixir field:

monkey he got it from were telling the truth, the vital energy stone inside his body should allow him to store an infinite amount of

Austin found himself smiling, in awe of the extraordinary

The hot steam felt like torture, but it was a pain he welcomed as the reward immensely outweighed the pain.

Austin felt a blazing gas fill his body, as a surge of pure, powerful energy filled it.

The celestial energy ginseng was working. After being extracted by the light ball, it was now being converted into surges of pure energy which revitalized Austin's organs. Collateral damage was inevitable.

His bones, cells and other body systems seemed to want more for themselves as well. They were lavishly gorging on the energy.

Feeling the enormous amount of energy, Austin knew that he was about to reach a higher level of vital energy. He took a breath to calm himself down and did his best to control the energy inside him to guide its flow towards the path specified by the Golden Sun Scripture.

Jingle.

A clink echoed, disrupting the silence of the cave.

Suddenly, a soft voice was generated inside Austin's body.

Along with this, Austin felt an abrupt and dramatic increase in his power.

"The eighth level of the Energy Gathering Realm!" Austin yelled with excitement.

A tinge of joy flashed across his face.

However, there was still so much pure energy inside his body. It unceasingly replenished and renewed his body systems, changing muscles, bones, cells, and tissues.

Then, another soft voice filled his body and echoed mildly throughout the cave's walls.

"The ninth level of the Energy Gathering Realm!" Austin exclaimed.

Reaching another level, he could not help but go wild with joy.

Three years ago, he arrived at this same level but was not able to return to it again. Now, he was back at last.

He felt so physically strong.

Then, Austin made a decision. He decided not to continue pushing forward for higher energy levels. Despite the abundance of pure vital energy and his confidence that progressing was possible, he knew that continuing would make him unstable. It would get in the way of his daily duties and progression in martial arts.

There were limits to the energy that one's flesh and organs could hold.

Failing to be aware of these limits and taking in more than what he could handle could cause a cultivator's organs to be drained of strength. As the saying goes, haste makes waste. Negligence would cause several problems that might impact a cultivator's future performance forever.

Although Austin was determined to take as many advantages as he could with the celestial energy ginseng, he later realized the gravity of its consequences, thus, forcing himself to slow down. Instead of pushing towards higher levels, he decided to consolidate his power at the ninth level of the Energy Gathering Realm.

In essence, Austin was neither greedy nor complacent. He was content with his present situation. Although most cultivators understood this concept, how many of them, like Austin, would really be able to resist the temptation for reaching higher levels?

The Supreme God

Chapter 145 Austin's Energy Gathering Realm

After everything he had been through, Austin finally reached level nine of Energy Gathering Realm. Without hesitation, he spent two more hours to strengthen his cultivation base.

When he primarily stabilized his current cultivation base, he felt that there was still some pure energy from the celestial energy ginseng

flowing inside his body. Now the celestial energy ginseng in front of him had about half of its energy left.

About three-fifth efficacy of the celestial energy ginseng was left after he used up the two-fifth efficacy in the process of Austin's breakthrough of level eight of Energy Gathering Realm.

"I should waste no time. I must replenish the vital energy for the vital energy stone," Austin whispered to himself as he prepared his mind and body.

Without a second thought, he extended his long arms and quickly stuffed the celestial energy ginseng into his mouth, and then a refreshing sweet taste immediately spread around his tongue.

As the celestial energy ginseng gradually slid down his dry throat, a powerful pure energy diffused through his slender body. Austin felt a strong energy as he slightly trembled in the process.

He began to control the vital energy stone inside him. With a weak but fast vibration, the energy stone released a powerful suction force and drew the vital energy which was transformed from the efficacy of the celestial energy ginseng into his belly.

Minutes had passed. All the vital energy was absorbed by the vital energy stone.

'The vital energy stored in the stone was enough to give me ten more boosts.'

Austin was surprised when he estimated the extraordinary power of the efficacy of the celestial energy ginseng.

... ..

Austin rose to his feet and clenched his fists. A vigorous energy gushed out from his body and surrounded him. His cloth swelled with air, just like an inflated balloon.

'Wow, the energy is so strong!'

Austin thought. He was so satisfied with the impact

and pleased that he finally regained the capacity of level nine of Energy Gathering Realm.

When he calmed down, Austin summoned the Twin Shadow Blades. Immediately, two daggers, one black and one red, drifted in front of him.

The Twin Shadow Blades had incredible power and could travel through space in an instant. Furthermore, they could suddenly appear or disappear in the air and move forward along a break point trajectory.

However, the attack power and movement speed of the Twin Shadow Blades depended on the vital energy of the one using it.

The mysterious power of the Twin Shadow Blades became much stronger as Austin's vital energy competence significantly increased.

Austin ordered in secret, then the Negative Shadow Blade in front of him suddenly disappeared, and in an instant, it appeared in front of the wall of the cave.

The wall looked so sturdy and solid as it was composed of a huge granite.

Under his command, the Negative Shadow Blade stabbed into the granite wall and bits and pieces of the granite wall fell to the ground. It moved toward a few meters before Austin recalled it.

It abruptly appeared at the wall of the cave and continuously hit it with rage vital

In these days, Austin kept on looking for various diabolic beasts to battle with. Fanny and Violet doubtlessly followed him. They watched him fighting those diabolic beasts and cheered for him.

These days, many cultivators witnessed an extraordinary scene in the outskirts of the Grand Desolation mountain.

While a young man was fighting with a fierce demonic beast or diabolic beast and was sometimes in danger, two beautiful, young women seemed to enjoy the battle very much. They whispered to each other and applauded for his victories.

It was a bit surprising for the other cultivators that the young man had taken two fascinating girls to the mountain.

The cultivators never saw these girls help the young man despite how powerful his opponents were.

They couldn't help guessing blindly. 'Maybe these girls are just ordinary people and know nothing about martial arts at all. Then why are they here? Did the young man take them here to satisfy his lust after his cultivation?

He must be really thirsty for sex!

Some cultivators couldn't help but sigh.

... ..

Ahhhhhhhhh Woooooooh!

With a long and anguished roar, a level three one-horned diabolic wolf was thrown high in the air like a fired cannonball and then hit a big tree a dozen meters away.

"Bang!"

The trunk of the big tree was so thick that it took several people to surround it. Despite that fact, the tree shook violently and countless leaves fell to the ground when the two-meter long wolf hit it.

Violet and Fanny widened their little mouths as they were shocked to what they saw.

The corpse of the one-horned diabolic wolf fell to the ground. Austin summoned the Negative Shadow Blade and it stabbed into the head of the diabolic wolf. After a moment, a level three beast core jumped out.

Austin stuffed the beast core into his Space Ring. For just a few days, he already killed a dozen level three diabolic beasts and obtained over ten beast cores.

When he was about to leave the place, he released the spiritual sense energy to probe the nearby area within four hundred meters in range.

Then he immediately sensed three familiar figures approaching him.

Austin wasn't alarmed, but just smiled sarcastically.

"I don't want to kill you. But since you are asking for death, then don't blame me!"

He distinguished that those people were the remaining members of the Blood Wolf Team.

The team had five members before he had killed two of them when they came to the Grand Desolation Mountain to hunt him.

Austin had still been at level seven of Energy Gathering realm when he killed them.

As of now, Austin had reached the level nine of Energy Gathering Realm. The other remaining members of the Blood Wolf Team were still at level eight of the same realm. So Austin was confident that he was able to kill them easily.

Moreover, Violet's competence was equal to preliminary stage of Earth Realm. With this, Austin did not need to hide from them.

The Supreme God

Chapter 146 The Death Of One Member Of Blood Wolf Team

Austin had telepathically told Violet that the remaining members of Blood Wolf Team were fast approaching.

"Don't worry, Master. There are just three martial artists at the Energy Gathering Realm. Dealing with them is a piece of cake," said Violet.

Meanwhile, Violet whispered the situation to Fanny, taking in mind that the latter might be scared.

"Brat! We've found you."

A burst of evil laughter came from behind the trees, and then three vicious men showed up.

The man leading them was none other than Matthew. He dressed like a refined and cultured scholar, and a sword hung on his waist. People who didn't know him would believe he had a strong sense of justice and was ready to help the weak. It was his facade, definitely. Behind that sophisticated look were the countless murders he had committed.

Standing on the left was a bulky man in a massive red coat. He looked ugly and brutal, holding a giant mace as tall as him.

On Matthew's right was a lean man with a scar etched on his face. His eyes were sinful as it dripped with an air of malevolence.

Austin recognized that the two men standing beside Matthew were members of the Blood Wolf Team. He had fought with them in a lush bush before.

It was from these two men that Austin learned that the Blood Wolf Team had sent five men to kill him.

Without any delay, the three men they charged at Austin as bold as a lion. They certainly underestimated Austin's and his allies' capabilities.

The lean man stuck out his tongue and licked his lips in a perverted way while glancing at both Violet and Fanny. A nasty grin was plastered on his ugly face.

"Oh my! I didn't expect to meet such pretty girls here. I haven't fucked anyone in weeks. This is going to be fun."

The members of the Blood Wolf Team were surprised to see the reaction of the three, amidst their appearance.

Instead of panicking, they most definitely looked calm and composed—not the least bit worried about the situation. If more, disdain was written all over their faces, as if they had already known the three men were going to appear.

"Haha! You guys are really something. I'm more interested in torturing you now. I can't wait to see you begging for mercy," said the bulky man.

him!" Matthew shouted, talking to his last

But it was already too late.

"Die!"

Austin shouted at the top of his lungs, which sent a flock of birds flying.

With all his might, he threw a punch right in the bulky man's chest. It penetrated his chest and pierced through his back, making blood and flesh scatter all over the ground.

At this moment, nobody moved or said anything, as if the time had stopped.

Austin, as if possessed by an evil spirit, raised the dead man's body in midair. The bulky man's limbs were starting to disintegrate.

His blood, flesh, and organs dropped from the hole in his chest. Austin was now covered in blood, and its scent filled the air, triggering others to vomit.

"NO!"

both Matthew and the thin man yelled in disbelief. They couldn't believe their companion was killed in an instant.

Austin didn't use any vital energy. Instead, he killed the bulky man merely with his physical power.

"How dare you kill my man! You're done! I swear I'll tear you to shreds! Consider yourself dead meat!" shouted Matthew.

They had never thought that their companion would be killed before them, in the cruelest way.

"Wait! Was it you who killed my other two companions?"

Matthew suddenly realized how his two other men had been killed—brutally, just like this!

"Hahaha! You got me. I killed them with these very fists. One of them even begged for mercy before I killed him. Since you planned to kill me from the very beginning, you should be prepared to pay the price," Austin mocked. Indifference can be extracted from his voice.

Matthew and the lean man fumed with rage when they heard what he said.

"Bro, let's fight him together. We must fight tooth and nail to kill him!"

The sight of the blood of their companion enraged Matthew and the lean man completely. This pumped their adrenaline and desire to slaughter Austin even more.

The Supreme God

Chapter 147 Ice Mysterious Skill

Matthew and the scarred man were also part of the Blood Wolf Team along with the two men who perished. Knowing what Austin did to their mates made them furious.

The scarred man opened his palm and a cylinder appeared emitting rays of blue and green. He then turned his hand towards Austin and immediately, the lights turned into violent flashes of lighting shooting directly towards Austin.

Then, he waved his hand again and revealed a sharp, green claw which was made of steel and attached with an iron chain. It flew towards Austin as the man held its opposite end.

A bad feeling came over Austin. There was something eerie about the claw that he could not help but notice even before it reached him. It was tainted with poison!

Running Wind-commanding Skill, he dodged the incoming attacks with a series of graceful turns.

"Shiiiiing!"

"Shiiiiing!"

"Shiiiiing!"

A series of sharp sounds echoed through the air. When it all subsided, the ground where Austin once stood was replaced with a landscape filled with a dozen mud holes.

As Austin moved, in his mind, he mustered energy to summon the Negative Shadow Blade. With it, he swung towards the incoming claw. The collision of the two forces produced an explosion of jet black.

The Negative Shadow Blade was a spiritual weapon. And Austin was at the ninth level of the Energy Gathering Realm. Therefore, with a powerful force, the blade cut the iron chain to pieces like a metal ball against brittle glass.

Without the chain, the steel claw was thrown into the garden of thorns that lay beside them.

The Negative Shadow Blade disappeared after it cut the chain. It left no trace. Then, it reappeared as suddenly as it vanished and was flying straight towards the scarred man's chest.

Petrified, the scarred man watched the incoming blade approach. Fear froze him completely. The Negative Shadow Blade pierced through his chest, flew out through his back, and once again, disappeared completely.

"You...! How did you do that?"

Matthew exclaimed as he summoned his vital energy and radiated a cold wind from his body. In an instant, the freezing temperature around them dropped even lower.

'The Cold Intent! He just unleashed a level two Cold Intent! That is an extraordinary skill to behold! A warrior under the Energy Gathering Realm could freeze to death if he were not strong enough to handle something as powerful as the Cold Intent,' Austin thought as he watched Matthew's display of power.

Violet and Fanny also felt an icy wind blowing to their faces. Violet mustered her demon energy and used it to drive the Cold Intent out of her body.

Fanny, however, was only at the seventh level of the Energy Gathering Realm. Matthew's Mysterious Ice skill was difficult for her to handle. She covered her body with her hands and shivered furiously. Involuntarily, she shook, and her teeth chattered.

Noticing Fanny's situation, Violet pulled her close towards the area covered by her demon vitality. It was only then that Fanny managed to regain the warmth that she lost in her body.

Austin stood firmly on the ground, steady as a mountain, as the raging Matthew approached. The icy wind blew against his face violently. Tiny icicles stuck on his hair, his skin and his clothes. In a few seconds, Austin was covered with snow completely.

However, Austin did not feel cold. He ran his vital energy to keep his body warm. The light golden vital energy stored in his elixir field spread from his belly to every limb of his body.

His vital energy in his elixir field was almost as big as his fist. Right now, it flowed to wherever he directed it towards. Gently, it spread. It emitted rays of light that grew hotter and hotter, like a gentle morning sun slowly growing into a violent, burning ball of fire. The heat became so intense that it felt as if everything was melting.

Words flashed in Austin's mind: 'The Golden Sun Scripture is the most powerful and potent element in the universe. Its force is indomitable and can only be controlled by the most powerful of creatures.'

It was a passage from the text that introduced the Golden Sun Scripture.

'That sentence is definitely not an exaggeration of the power of the Golden Sun Scripture, ' thought Austin. Warmth started to rise inside his body.

He then continued to chant the holy verses of the Golden Sun Scripture. The warmth started to slowly go out of his skin. Instantly, a hot wind seemed to have enveloped him, melting the snow generated by Matthew. It resembled the hard winter snow the moment the sunshine of spring started to dominate the sky. In a matter of seconds, they dissolved completely.

Matthew's Ice Mysterious Skill was reduced to nothing with Austin's powerful Golden Sun Scripture.

"Ha ha ha! Ice Mysterious Skill? Was that all? I expected it to be more spectacular! That was nothing but a flop! What's so special about that? Why even call it a Mysterious Skill in the first place?"

Austin mocked as he laughed loudly. He then sent a Spiritual Sense Flying Needle towards Matthew. At the same time, he also summoned his Twin Shadow Blades to appear behind him in his mind. With a quick command through telepathy, the Twin Shadow Blades sped towards Matthew in a flash of black and red.

"That is impossible! How did you manage to cultivate a skill that utilized so much heat?"

Matthew roared. He was very surprised.

The Supreme God

Chapter 148 The Flower Dragon Array

Matthew thought that as long as he used his Ice Mysterious skill, Austin's move would be significantly influenced—Austin would be frozen, and his movements would be restrained by the chill.

But the events showed otherwise. Matthew's Ice Mysterious skill was no match with Austin's cultivation method. Even facing the constant attacks by Matthew's Ice Mysterious skill, Austin was merely countering it without a sweat.

Completely confused, Matthew suddenly felt his head starting to ache. The pain was too much to bear that he began to lose focus on the combat.

Then a sense of danger overwhelmed him as he saw two daggers, a red one and a black one, appeared jointly, almost on his chest, from nowhere.

"How dare you do that?" Matthew shouted angrily.

His two hands stretched out in succession, and two ice mirrors took a form of a shield to stop the daggers.

Bang Bang! The ice mirrors had exploded. With the super-heat vital energy of the two daggers, the ice blocks had vanished into the air before it could melt on the ground.

Austin's Golden Sun Scripture afflicted Matthew's Ice Mysterious skill. So Mathew did not have the urge to defeat Austin when their vital energy slammed into one another.

Matthew's face turned pale, and he was overtly frightened that he found himself in despair.

It was so easy for Austin to kill him!

As expected, the red dagger and black one cut Matthew's shoulders after they broke the two ice mirrors.

Ah!

The Twin Shadow Blades had a weird way of attacking, and Matthew could not deal with it. He was lucky to dodge the daggers and save his body from being critically hit; otherwise, his chest would be completely notched and sliced.

Austin strode out and flashed before Matthew in a second. In Matthew's fright, Austin pounced on him alternatively with his fists, exerting thousands of pounds in strength.

Compared with the martial arts skills that utilized vital energy, which was often used for a long distance, Austin preferred to fight against his enemy by his pure strength in close combat.

One reason was that sheer physical strength would not consume much of his vital energy, making him last longer and recover faster after a long fight.

Another reason was that when fighting against an opponent, his quick bodily movement burst strength and tenacity, making him feel vigorous with sweat.

Matthew's spirit started to recede when his confidence had wholly left him. He could only desperately form ice shields one after another, in the hope of preventing Austin's punch.

In the end, when Austin drove a hefty punch for the tenth time, Matthew could no longer hold his defense. He was helpless as he watched Austin's fists approach him.

"You cannot kill me! The Blood Wolf Team has sent five of us to chase and kill you, and if we all died, then the whole team will hunt you until you are dead!"

Matthew attempted to threaten, but as a response, Austin fully landed his last punch, much stronger than the previous one.

Bang!

definite hit, Matthew's chest plunged hard, and his body was totally curved like that of a prawn.

Austin frowned, realizing his attack was useless. If he kept beating the flower dragon like that, he would be exhausted soon.

He broke the flower dragon once.

He broke the flower dragon twice.

He broke the flower dragon three times. . . .

Austin continuously attacked, and the results were all the same—the flower dragon would disintegrate and then all gathered in one piece again. Since the moment he had practiced the Overlord Body-refining Formula, this was his first time to feel physically drained and tired.

He decided to use his Wind-commanding Skill, and he swiftly retreated ten meters in hopes of dodging the flower dragon for a while, thereby saving more of his vital energy.

However, the flower dragon tailed him wherever he went. The Wind-commanding Skill was useless, after all.

What made Austin felt strange was that the flower dragon chased and attacked only him as if Violet and Fanny were not around. Even when it passed near the two, it never struck them.

Austin did not know how to deal with the flower dragon, but he was thinking of using his Twin Shadow Blades. The two daggers attacked the flower dragon alternatively and took his place for the time being. Austin heaved a sigh of relief watching the blades counter the flower dragon. He could use this time to think for a counterattack.

"You! Small-minded guy! If you keep doing this, I will never talk to you later!"

Fanny shouted at the sky as if talking to someone.

"Small-minded guy? Who are you talking about?" Austin was confused.

Both Austin and Violet did not know whom Fanny was talking to or who she was talking about.

"Fanny, what is happening? You know the guy who is controlling the flower dragon, don't you?"

"Yes, you are right. It is my grandfather's protege, who made the Flower Dragon Array."

"Flower Dragon Array? Did your grandpa's protege set it here? I don't remember having a problem with this guy nor even meeting him at the very least. Why did he suddenly attack me with this array?" Austin asked, utterly confused about the whole situation.

He could not understand what was happening.

"Don't speak of him. He always acts pettily and selfishly, and he is a total jerk!" Fanny furiously replied.

With an angry look, Fanny glared in some direction.

Austin looked at the same direction as Fanny, and his spiritual sense barely perceived a figure somewhere. Although he had a sharp spiritual sense, this guy was definitely challenging to find.

'That array is really amazing.'

Austin sighed in his mind and thought of how it took him a lot of strength to fight against the flower dragon. After all his attacks, it was still unscathed.

"Austin, let me help you to break the array! "

Fanny loudly exclaimed while Austin was lost in his thought.

The Supreme God

Chapter 149 A Mysterious Realm Master

Austin used the Twin Shadow Blades to smash the flower dragon again.

As Austin saw it, although the fighting ability of the floral dragon was not very strong, as long as it was dismantled, it would continually gather its energy and form a dragon again. It was definitely a tricky weapon, but Austin was more thrilled to come across a challenging opponent.

The dragon seemed to be slightly harmless as it had not fully started the onslaught on Austin yet. Even so, he did not hesitate to use his vital energy. After all, he had enough of it stored in his elixir field-- thanks to the vital energy stone. He could get replenished at any time he wanted.

Even with a little cockiness, he knew that it would be best to break the array. The flower dragon had been pestering him for quite a while, and it was starting to get annoying. He must end this as soon as possible.

Hearing Fanny's words, Austin cheered up.

"Okay, quick! Tell me how to break it."

"The Flower Dragon Array is wood in nature. As the metal conquers the wood, it would be easier to destroy it with a metallic weapon."

That explained it. No wonder Austin's punches had no effect on it. Even if he had already gathered all his strengths, his blows were still futile.

Now that he was using his Twin Shadow Blades, they might defeat the flower dragon since they were metal in nature. And as Fanny explained, his metallic blades would overcome the wood-based flower dragon.

"Take three steps back towards the direction of thunder and then move two steps forward towards the direction of fire. Stomp on the center, and quickly turn to the direction of the swamp, and then take a sharp turn to the direction of heaven. When you see the seven array flags, use your dagger to crack them."

Austin employed the Wind-commanding Skill and swirled fast like the shadow of a ghost. Austin reached the spot as soon as Fanny gave the instruction--as if he already knew and practiced it.

Seven flags then drilled on the ground, right in front of Austin. The flags formed a shape of the Big Dipper.

Austin summoned the Negative Shadow Blade, and in a flash, it emerged and came towards the Big Dipper. In just one strike of the blade, all the seven array flags broke into two parts.

A loud cracking sound came through loud and clear.

The sound, like that of a shell that was shattered, filled the whole place. Then a young man, who seemed to be in his early twenties, materialized. Wearing a grey garment, the man showed itself to Austin, exasperated with its looming dark eyes.

The young man felt grateful to Austin for not killing him. His life was very precious; he didn't want to die yet.

"Are you okay?"

Fanny rushed to his side and tended the shaking man.

"Fanny, I knew you still care for me more than anyone else."

Seeing that Fanny was so worried about his safety, the man in grey was ecstatic. His jealousy towards Austin faded as happiness took the better of him.

"Huh! What do you mean? What are you saying?"

Fanny stared at the young man in grey, confused with his remarks.

"Hahahahaha! You broke the Flower Dragon Array and threatened my apprentice. How dare you!"

All of a sudden, a loud and energetic laughter echoed in the forest. A rapidly spinning vital energy vortex appeared above Austin's head. The spirits around the space seemed to have sensed the vortex and madly surged all together like a whirlwind.

"Master!"

"Grandpa!"

Fanny and the young man called out in surprise.

Soon enough, the frightening vital energy vortex quickly condensed, turning into a large and old wrinkled palm. It pressed on Austin's head with terrifying momentum.

A Mysterious Realm master!

Being caught in the frightening power of the vital energy palm, Austin felt that his blood seemed to have frozen and he couldn't move. His vital energy would not work either, and to make it even worse, he felt his breathing turn heavy.

Only an Earth Realm master could possess such powerful tactic and launch such unbreakable suppression.

The old man is most certainly a Mysterious Realm master!

The Supreme God

Chapter 150 The Four-sided And Eight Trigrams Array

Austin had heard from Fanny that her grandfather was an array expert, but he hadn't expected the old man to be proficient in martial refinement as well. According to the violent attack he was facing, Fanny's grandfather must be no less powerful than Theon, the head of Sun Sect.

Terrified and scrambling to combat the attack, Austin began to call up the Golden Sun Scripture. Soon, his golden vital energy circulated in his body.

To his surprise, the luminous sphere inside his elixir field trembled slightly. Just in a trice, the sphere shone bright as if it was irritated by the attack from Fanny's grandfather. Before Austin could react, the luminous sphere released a large amount of pure and stolid power which flowed into Austin's meridians.

It seemed that the luminous sphere acted automatically to help Austin when he was in the face of danger!

This mysterious sphere had absorbed a lot of vital energy in the past during Austin's martial refinement. And now, it had returned purified vital energy to Austin.

After gaining this additional support, Austin was surprised to find that he was eased dramatically from the huge palm-shaped vital energy that Fanny's grandfather had created.

He quickly bounced on his tiptoes to jump ten meters backwards and break free from the perimeter created by the huge palm.

"What? It seems that you are learning an extraordinary cultivation method."

With those words, the huge palm made of vital energy vanished into thin air, and simultaneously, the speaker of these words, appeared next to Fanny. It was a bony old man in a grey robe. He revealed no

emotion on his solemn face, but astonishment flashed in his eyes as he stared at Austin.

"Grandpa! I was dying to see you!"

Fanny rushed into her grandfather's arms and grew excited like a little girl.

"Really? I think you are actually unwilling to see me. Otherwise, why did you leave home when I was unaware? Your fellow apprentice and I have looked for you for two whole months!"

Her grandfather said in a stern voice, but his joy and relief of seeing Fanny safe obviously outweighed his anger. He eventually stretched his hand and stroked his granddaughter's hair with tenderness.

"I'm sorry, grandpa. I promise that it won't happen a second time!"

Fanny said as she stuck out her tongue playfully. Her grandfather always doted on her, so she never worried when she made mistakes.

Grand Dragon Empire?

She is from the Grand Dragon Empire?'

Austin was left dumbfounded.

The region of Sun Sect was one part of the Violet Orchid Empire, while the latter was subordinate to a larger and more powerful empire—the Grand Dragon Empire. In fact, as a gesture of obeisance, his empire had to pay tribute to the Grand Dragon Empire every year.

. . . .

Some days later, in an area of the Outer Grand Desolation Mountain where level-four diabolic beasts and demonic beasts lived, a person was fleeing at full speed. Behind him was a huge leopard surrounding with purple flames.

"Shit! This brute has chased after me for eight hours, and it doesn't intend to stop!"

The person who was chased by the beast shouted with anger.

He was Austin, who was practicing in the Outer Grand Desolation Mountain.

After Fanny left with her grandfather, Austin continued to travel alone in the mountains. Aside from fighting different beasts to strengthen himself, he spent most of his time on learning the Wind-commanding Skill.

He was now learning the third section of the pamphlet, Using the Wind.

Austin had grasped the first two sections, Feeling the Wind and Knowing the Wind. As for the third section, he felt increasingly confused about its content during his practice.

Feeling the Wind and Knowing the Wind were the basic parts of this bodily movement skill. The rest three sections were the key to employ this skill perfectly.

After over ten days' practice, Austin had achieved new progress in his Wind-commanding Skill and could move faster. He could move twenty meters by one step now.

With his outstanding moving speed, his newly gained power at level nine of Energy Gathering Realm, and his mighty weapon, the Twin Shadow Blades, Austin found no challenge in the living area of level-three beasts and easily killed dozens of them.

He finally came to the living area of level-four beasts on a whim. Soon, he felt great pressure when facing those beasts there and realized that he was still weak compared with grade-four beasts.

Still, the fact that most cultivators of Earth Realm had to avoid those beasts balanced his frustration. After all, he was only level nine of the Energy Gathering Realm!

Austin managed to kill two demonic beasts of level four by exerting all his power and employing the Grand Pagoda Summoning Skill, but he also got slightly wounded.

After that, he was very unlucky to bump into a violent level-four beast—a purple flaming leopard.
