

The Supreme God

Chapter 261 A Semi-finished Pill (Part One)

Austin was too exhausted that he just sank onto the ground after extracting the essence from the muscle-generating herbs. He was doing his first trial at refining a pill and he never expected it to be this consuming. Thus, he went for a short break.

He felt that he had consumed nearly one-third of his vital energy. Thus, he got on his feet and sighed, "Who could have thought that pill-refining is such an energy-consuming work?"

Austin sat down with his legs crossed. He tried to regain his focus and get rid of all distracting thoughts. His eyes were fixed on his nose, his nose connecting to his heart. Then with full concentration, he started the Golden Sun Scripture formula.

He dictated the vital energy within his body to flow in the way he wanted. Surprisingly, he noticed something odd happening. Although the pill-refining process consumed much of his energy earlier, while he was cultivating it now, the speed of how his body absorbed the vital energy around him had become unusually faster. Moreover, he could feel how easier it was for him to control the vital energy running in his body. It seemed that all his problems with cultivating his energy had disappeared.

That was when it dawned to him. Refining a pill required him to constantly transport his vital energy into the herbal pot to sustain the flames within it. Thus, it became a good practice for him to improve his ability in controlling the flow of his vital energy.

After an hour of cultivation in meditation, Austin finally recovered his vital energy which had been consumed in the process of refining the muscle-generating herbs.

Furthermore, he could also feel how stronger his vital energy had become. It was needless to say that pill-refining was indeed a conducive process to vital energy cultivation.

If so, then he would like to refine more pills in his free time. It would be a nice way to improve his vital energy cultivation. It would enable him to achieve two things at one stroke.

He couldn't feel the numbness and limpness of his muscles anymore. He moved

that his first experiment on pill refining went on well. The next thing to mix them and see how it works," he said while gazing at the various herbal essences before

He took a deep breath and nodded in great determination. He threw the muscle-generating herb essence and the white powder in the herbal pot. He then heated them with mild temperature. Ten minutes after, just when the white powder turned slightly red, he immediately poured the liquid extracted from the blood-nourishing flowers into the pot.

Flames instantly covered the white powder as soon as the liquid touched it. The two substances gradually mixed into a light red viscous liquid.

Austin tried his best to control the temperature of the flames through his intuition. The flames mildly heated the lumps that were formed and melted it evenly in the suspension.

With the constant heat being administered, the thick paste turned into a dark red paste.

Austin observed the dark red paste in the herbal pot through that transparent crystal. With a little hesitation, he threw the essence of vigor-generating fruits into the mixture.

The black particles fell into the pot but nothing changed. The particles just danced in the flames without any sign of melting into the dark red paste.

"Different materials have different tolerance to the temperature. The refiner must learn to control the temperature of the flames at different spots in the herbal pot. The refiner must suppress the flames in the areas where the pot needs low temperature. Same with the areas that need a higher temperature, the refiner needs to ease the control with the flames and make the area warmer."

Sweat began forming on Austin's forehead as he grew anxious about what was going on. The black particles of the vigor-generating fruits hadn't blended into the red paste yet. He repeated reading the part of Elixir Foundation where the method of blending different essences was introduced.

The Supreme God

Chapter 262 A Semi-finished Pill (Part Two)

According to the Elixir Foundation, the different places in the herbal pot required different temperatures, especially when mixing different liquid and essences.

It was the same herbal pot. However, some places of it would require high temperature and some would need low temperature. It was frankly hard to do. The refiner must have the ability to control the temperatures in different areas of the pot precisely.

Austin observed the situation in the pot through the ice crystal once more.

However, it was difficult for him to have an idea about the pot's temperature just by simply looking. He could clearly see the ingredients inside the pot but he couldn't touch them or feel them. Thus, there was no way for him to know how hot it was inside the pot now. How could he even control the temperature of the flames in this situation?

Austin repeated the related part in the Elixir Foundation multiple times. Nonetheless, he still couldn't figure out how to control the heat in different places of the pot. He felt as if he was stuck.

He was in that dilemma when a thought suddenly flashed in his mind. 'It's true that I can't feel the temperature inside but wait... I have a spiritual sense! That should do! I could apply my spiritual sense power

and make it work into the herbal pot. I'd definitely know the temperature anywhere in the pot by doing that. Thus, I can control my vital energy based on it.'

Austin immediately took action with this in his mind.

He released his spiritual sense power and within a moment, he got a full view of what was inside the pot. He instantly knew the temperature at every point inside the pot and even the interior sculpted decorations. Everything was suddenly so clear to him just like the way he could see textures on his palm.

It worked!

Overjoyed, Austin licked his dry lips. His spiritual sense power was tracing every change inside the herbal pot closely. He made the temperature underneath the black particles increase gradually.

The flames sizzled.

... . .

accomplishment in making that rough pill marked the end of his first experiment in pill refining.

Today was the date he was supposed to pick up the medicinal pills and elixirs he had ordered in the pill store.

Before he set out, Austin touched his Space Ring sadly. One million would be taken out of it today and just the thought of that amount made his heart ache.

Austin chose to walk into a quiet alley after leaving the room. He dropped by a garment store and bought a grey robe before heading to the pill store. He took his black cloak off and put on his grey cloak instead.

He assumed that the people from the Medicine Sect must be searching for him everywhere. Thus, he changed his garment. He had taken the powerful crystal from the Cloud Cave from them and killed Steward Meng. These two sins alone should be enough to make the Sect go crazy about hunting him down.

Clearly, he was no longer safe with the black cloak on.

He went to the Pill Trading Street after dressing himself in a grey cloak. The mentioned street was the busiest one in the Peace Town.

He thought that no one would recognize him, let alone notice him because of his new clothes.

He was terribly wrong!

There was really no way for him to escape if a person set his full mind in catching him. Two men were already eyeing him from afar just shortly after he showed up on the street of Peace Town.

Since the street was full of hustle and bustle, a crowd of people, and tons of vehicles, Austin had left his guard down and didn't even notice that he had been spotted.

The Supreme God

Chapter 263 The Material Needed To Practice The Second Stage Of Overlord Body-refining Formula (Part One)

When Austin reached the magnificent elixir shop that he had gone to last time, he entered it directly.

Inside the shop, the same clerk that he had met before was sitting at the counter and writing something with his head low.

Austin let out a cough to get his attention.

Hearing the noise, the clerk raised his head and was stunned to see Austin, who was still wearing his grey cloak.

"Do you remember me?" Austin asked.

The last time Austin had come here, he had been wearing a black cloak, so he wouldn't be surprised if the clerk didn't recognize him.

"Oh, my. I remember your face. The shopkeeper asked me to pay special attention to you when you came. Now here you are.

Please come in, come in," the clerk said warmly.

The last time Austin had come to the store, the clerk had received a big bonus thanks to Austin's order. If everything went well today, he would definitely receive another reward because Austin's order this time was worth a million vital energy crystals.

Needless to say, he received Austin with the biggest smile on his face.

Together, they entered the luxury room at the back of the shop where the thin and kind shopkeeper was waiting for them.

As soon as the shopkeeper saw Austin, he stood up.

order? Do you have all the herbs and Elixirs?" Austin

Austin's biggest priority at the moment.

planned to give the shopkeeper just fifty thousand vital energy crystals as a reward, but since he was rich enough and

is a great deal," the shopkeeper replied enthusiastically, putting away all

how generous Austin was being. .

Austin put away all the materials he needed into his space ring as well.

After that, he thought about his next move. 'Now, I have all the materials I need to practice the second stage of the Overlord Body-refining Formula. But why don't I feel excited about it? Why don't I feel happy that my physical body will become much stronger?'

After thinking about it for a while, Austin realized something. Once he learned the second stage of the Overlord Body-refining Formula, he'd be able to bear the punch of a cultivator at the Energy Gathering Realm. Every punch or kick of his would have the force of 5, 000 pounds.

This amount of strength would have been amazing for Austin months ago.

But now that Austin wasn't at the preliminary stage of Earth Realm anymore, the strength he'd get from learning the second stage of the Overlord Body-refining Formula might not be enough for him.

In the future, most of the opponents he would face would be cultivators at Earth Realm or even at Mysterious Realm.

After practicing the second stage of the Overlord Body-refining Formula, he would have a great advantage over a cultivator at the Energy Gathering Realm. He could fight against one using just his physical body and without summoning any of his vital energy.

But when fighting against a cultivator at Earth Realm, especially one at a higher level than the medium stage of Earth Realm, a force of 5, 000 pounds wouldn't be enough for him.

Basically, learning the second stage of the Overlord Body-refining Formula would help him improve his physical body's strength and toughness, tenacity, and anti-strike force.

But when fighting against cultivators at a higher level than the medium stage of Earth Realm, he wouldn't be able to expect the second stage of the Overlord Body-refining Formula to be the trump card that would let him miraculously defeat his enemy.

Of course, he could still learn the third stage of the Overlord Body-refining Formula!

If he finished learning the third stage, his bones and muscles would be completely reformed. He would be immune against most illnesses and

poison. Even fire and water wouldn't be able to hurt him. He would be able to bear the strike from a cultivator at the preliminary stage of Earth Realm. And his blow would have the force of 8, 000 pounds.

Anyway, the most attractive factor for Austin was that he would be able to bear the force of his enemy's strike just by using his physical body.

In other words, once he learned the third stage of the Overlord Body-refining Formula, he wouldn't need to defend himself at all. He could just focus on attacking his opponent when fighting against someone at the preliminary stage of Earth Realm.

The Supreme God

Chapter 264 The Material Needed To Practice The Second Stage Of Overlord Body-refining Formula (Part Two)

Even if his opponent was at the medium stage or the premium stage of Earth Realm, he might sustain injuries from their strikes but he definitely wouldn't die.

Now that he'd considered all this, Austin decided that mastering the third stage of the Overlord Body-refining Formula would be the best move for him now as his cultivation was at the Earth Realm and could be really helpful when he fought against a cultivator at the same level.

'If I can't be killed by anyone, I could concentrate a lot more on attacking them!' Austin realized.

He was lost in thought with the space ring still in hand.

Finally, he concluded that the third stage would be his ultimate trump card.

In his eyes, the second stage was now like something that was unappetizing and yet not bad enough to throw away.

Okay!

In the end, Austin made up his mind that he would learn the third stage of the Overlord Body-refining Formula since he had already started to learn the second stage.

He had more than enough money anyway.

After killing the Steward Meng sent by the Medicine Sect, Austin had obtained about four million vital energy crystals from his space ring.

Buying all the materials needed to learn the third stage would only cost him about three million vital energy crystals.

"Sir, is there anything wrong with the goods?" the shopkeeper asked worriedly, seeing Austin standing there hesitantly after getting the space ring with the materials worth one million vital energy crystals.

He thought that there was a problem with the materials he had provided.

"Oh, no. The materials are good. They are exactly what I need.

But I have another order, a much greater one. I want to know whether you can do it or not," Austin replied.

He'd made up his mind to buy the materials from the same shop since he was so satisfied with the shopkeeper.

"Oh? A greater order?"

felt excited since this gave him another great chance to earn money.

a great mountain with barely any people

Austin was planning to find a quiet place among the peaks to practice the second stage of the Overlord Body-refining Formula.

He didn't notice that as he was leaving Peace Town, two figures were whispering in the shadows.

"You see this man who always wears a cloak even during the day. He must not want to be recognized by anyone and must have a lot of secrets.

Moreover, I've seen Austin before and this man looks just like him.

It's possible that Austin's the one who killed the nephew of Steward Su and went into hiding.

This man is really suspicious. These days, there are about forty disciples watching in Peace Town. And now, this strange man whom the disciples have never seen has appeared all of a sudden. He's really suspicious," the first disciple said.

"Yes, Merlin, you are right. I've asked another disciple to collect information about this strange man and find out where he came from.

I believe we will have some answers soon," the second one replied.

These two men, Merlin and Isaac, were disciples from the Sun Sect. They were Johnson Su's henchman and were a part of his inner circle.

While they were talking, another figure approached them.

The two became excited when they saw the third man coming.

"Did you find out anything about that man?" Isaac asked the third one in a hurry.

"The man who wears a cloak is a guest of a hotel in the west of Peace Town.

I asked the clerk of that hotel and he told me that the stranger was actually a handsome young man," the third disciple replied.

"Austin Lin! He must be Austin!"

both Isaac and Merlin exclaimed as soon as they heard what the third one said.

"Hurry! Go and report this situation to Steward Su! The two of us will follow him. We'll leave some tracks so that you can find us easily."

The Supreme God

Chapter 265 Level Three Sword Intent

Johnson, the steward of the Sun Sect, was meditating and practicing in a magnificent house in Peace Town.

He had reached the peak of the medium stage of the Earth Realm in vital energy. Of late, he had started feeling strongly that the time to upgrade to the premium stage of the Earth Realm had arrived.

He had originally planned to keep close at home and practice to get to the premium stage of the Earth Realm with every bit of effort in this period.

But before that, Marvin had asked him to kill Austin secretly to settle old scores.

Everyone knew that Marvin was Johnson's nephew. But what nobody knew was that Marvin was born of the adultery between Johnson and his sister-in-law, which meant that Johnson loved him even more dearly.

After receiving Marvin's notice that Austin had left Sun Sect for Peace Town, Johnson rushed to Peace Town, only to find Marvin's rotten corpse.

Knowing for sure that Austin had killed Marvin, Johnson was consumed with hatred for Austin.

He led a group of loyal disciples who he had secretly trained in the Sun Sect in the past to Peace Town, vowing to tear Austin to shreds.

However, for several days in a row, Austin was nowhere to be found in Peace Town.

So now, although Johnson was meditating in the room, his thoughts kept swirling inside his head. Marvin's death stuck in his mind and he decided to find Austin as soon as possible and kill him.

As he meditated, a disciple knocked on the door, shouting anxiously.

Johnson's heart jolted, a hope that they had found Austin's whereabouts taking root within him.

"Come in."

At his words, the door swung open and a disciple walked in.

"Steward, Isaac seems to have found Austin."

"What? Really? They have? Good job! Marvin, you can rest assured. I'll get even with that bastard!

And Austin, I'll beat you hard, and then torture you in the cruelest ways in the world!

You'll bitterly regret killing my dear Marvin!"

A vicious monster growled within Johnson.

"Call everyone to band together and find out where exactly Austin is. Don't let him escape again!". . . The north side of Peace Town.

jungles and waded across a river. Six hours later, he came to a large dense jungle that was secluded and uninhabited.

pain that

"Aaah! I can't stand it! It's killing me! Ah... Feels like billions of sharp knives cutting through my body and soul! Aaaahhhh!"

Austin cried out in pain.

At the same time, another voice shouted, "The pain is nothing! If you can't tolerate this pain, how can you pursue martial arts?"

Warriors, through practice, acquire great divine power and skills, which in itself defies the laws of nature and changes your life.

No cross, no crown. If you give up in the face of pain, frustration and physical suffering, you won't be able to pursue and explore the highest achievements of martial arts in the future!"

"You're right. I have to bear it! I can't give up!

Ah!"

Austin felt like he was dying. He gave a grimace of pain, completely dripping with sweat.

In that moment, however, he felt that despite such extreme pain, his soul and spirit were the most sensitive and soberest, and his thinking was over ten times faster than usual.

In his soul, there were two fierce swords. The phantoms of expert swordsmen practicing their fighting skills with swords appeared in his mind. Using the movements of Illusory Swordsmanship, the two swords pierced the air with mighty clangs.

It turned out that the intent of the warrior was a very fantastic state, which was the soul of the warrior, his comprehension of the martial arts and the general situation of the world, and his understanding of the law of the world. It was one of the deepest realms of his soul. The level two sword intent that Austin had grasped was usually hidden in his soul.

Now, his soul was tormented. The level two sword intent that had hidden in his soul was roused and erupted uncontrollably. Austin didn't intentionally urge the two swords, but they began to practice in his soul.

Moreover, his soul and spirit were the most sensitive and soberest, and he could think faster than usual. This meant that he had a deeper understanding of the sword intent. He finally knew the answers to the questions that had confused him when he practiced martial arts before.

'Oh, I see. That's why, ' mused Austin. But he was soon attracted again by the fighting skills that the two swords in the depths of his soul were showing him.

As he paid attention to the swordsmanship, his mind seemed to merge with the two swords. His heart went with the swords, and he even forgot his pain and suffering.

The hoarse and exhausted cries of pain stopped abruptly.

The two swords in Austin's soul seemed to have removed his pain and turned it into nothing.

The medicinal juice in the bucket kept permeating Austin's body.

He fixed his eyes on the two swords in his soul. With the changing movements of the Illusory Swordsmanship, he completely integrated himself into a clear sword intent realm. The level two sword intent became more refined, sharper, and purer.

Moreover, in this clear sword intent realm, he found that the two swords in his soul began to change and wanted to make some breakthroughs.

Finally, with a clear click, the two swords irresistibly merged into one and then separated again. In Austin's soul, there were three swords standing sharp in a line!

Amidst this extreme physical pain, Austin's soul ushered in the third-level sword intent.

And now, he had gone one step further in swordsmanship and achieved level three sword intent.

The Supreme God

Chapter 266 You'll Offer Me Exactly What I Need (Part One)

Austin was totally lost in a different world as he got indulged and passionately involved in the cultivation. He had not stopped till he reached level three sword intent. Only after he achieved what he wanted, he slowly opened his eyes.

'What has happened to me?

All the pains and aches that had overtaken my body have already gone. I do not feel any pain at all!

It looks like the enhancing power and potency of the liquid which was inside the iron barrel have been absorbed by my body completely!' Austin thought. He was filled with delight when he checked the scarce amount of liquid left inside the barrel. He was right! Slowly he sensed the force gushing in each cell of his body. It was as if a powerful storm was flowing inside his energy meridians and blood vessels freely. It was strange because he did not feel any discomfort, rather he felt more comfortable with all those forces rushing within his blood stream.

Gradually, a strong force seemed to rise inside Austin's body; he felt like a giant whirlpool swirling within him. The force flowed in and out of each of his organs, and every point of his energy meridians; it traveled across each cell of his bones, muscles and skin. He felt it flow eternally through his veins. The force was as powerful as ten thousand horses galloping ahead without any restraint. It was as powerful as the storm raging on the turbulent sea.

Each pore, every cell of his muscles and bones was filled with that powerful force! It was seizing his body and spreading everywhere.

While all that happened inside him, his skin miraculously appeared to have a new texture, like that of jade. It was clear, smooth, strong and beautiful. Austin realized that a lot of things were changing in him—not only inside his body but also in his appearance.

Filled with the new power, Austin roared like thunder echoing before it struck.

His voice shook the surroundings. The leaves on the branches of the trees in the forest trembled and fell to the ground; the birds that were chirping happily a few moments ago were frightened and flew away in all directions. Everything quivered as if a giant beast had appeared before them from nowhere!

Boom!

Austin leaped out from the big iron barrel. His whole naked body glittered in gold as he stood in the sun. He looked like a god, dignified and tough, with a tenacity that was so strong that it could never be broken.

Shoop! Shoop! Shoop!

heard by Austin and slowly five figures emerged out of the forest. They started walking

hidden himself in this forest. Nearly four hours ago, I had seen him come in this direction and enter this

Sect or stay in Peace Town after he killed Marvin. He must be filled with fear as he knows Steward Su will be out soon to take revenge. The only thing that he can do is to

is really a cunning

Sun Sect, Johnson's henchmen, who were out to find Austin.

who had found Austin for

far away. As Austin's bodily movement skill was far quicker, none of them could match up to him. So there was a huge distance between them and Austin, and they could not see where

possible areas. After a long time, they came

wait for Steward Su? It is said that he is only one who can defeat Austin. I am told that Austin is quite powerful," one

On hearing the disciple's words, Isaac laughed and said, "Ha ha ha! What do you mean we have to keep waiting for Steward Su? Can you

be a little braver? We are all inner disciples. Austin is only an outer disciple. Do you think we, the inner disciples, are not strong enough to win against an outer disciple? Are you worried that we will be defeated by him?

You must be joking!" Isaac said proudly. Then he took a breath and said, "Maybe you are right. Though Austin was an outstanding one among the outer disciples yet he has been promoted as a principal disciple this time. But that is because of his sheer good luck, not his strength, as this time the Sect decided to choose three principal disciples directly from the outer disciples.

This decision has given the outer disciples, who are far weaker than us, the chance to become principal disciples.

Hmm! The Sect could have chosen principal disciples from our inner disciples because we have many disciples who are stronger than Austin.

On the whole, Austin got promoted as a principal disciple because he has an unbelievable stock of good luck. But that doesn't mean he is more powerful than us. We are the inner disciples! He just cannot be more powerful than us!

If we meet Austin today, I will show him and you, how weak he is! His identity as the so-called principal disciple is nothing when he is fighting against the inner disciples!"

Hearing Isaac's words, the other disciples nodded their heads in affirmation. They all had the same feelings about Austin!

They were indignant at the fact that the high-positioned members of the Sect had decided to choose the principal disciples directly from the outer sect.

It was true that most of the inner disciples were not only more powerful than the outer disciples in areas of force and energy, but also had cultivated themselves for a much longer time. This gave them an

edge over the outer disciples, so they resented the decision of the Sect.

Earlier, all the principals had been chosen from the inner disciples. But this time the rule had been changed. The three principal disciples were directly chosen from the outer ones. This meant that the inner disciples had a lesser chance to be promoted to principal disciples.

Now when Isaac mentioned this matter, the other four inner disciples felt that it was unfair and were resentful again. They were trying to get a chance to vent their anger at Austin, who was an outer disciple and had been directly chosen to be a principal disciple a few days ago! All of them had sworn that they would teach Austin a good lesson once they found him.

The Supreme God

Chapter 267 You'll Offer Me Exactly What I Need (Part Two)

They wanted to vent out the anger and frustration of all the inner disciples on him.

"What's that?"

one of the inner disciples mumbled in a low voice filled with surprise.

"Look carefully in the deep forest. There is a figure walking outside. It is coming towards us. From the features and body built, it looks like Austin," he added.

"You're right. I have seen him at the Top Ten Outer Disciples Ranking Challenge. It's definitely him!" another disciple confirmed the previous one's words.

The five disciples were now sure that the figure they were seeing walking out of the dense woods was Austin Lin.

"Let's go. Hurry up! This guy's bodily movement skill is really good. Let's not give him another opportunity to escape from us," Isaac said instantly.

Quickly, all five of them started their bodily movement skill and ran in different directions. They formed a fan-like shape as they tried to surround Austin from all sides. . . .

Austin smiled to himself. He had just jumped out of the big iron barrel after learning the second stage of the Overlord Body-refining Formula.

As moments passed he was getting used to the new force present in his body. Austin was very satisfied with it. While putting on his clothes and shoes, he had been making plans to return.

First he wanted to return to Peace Town.

They found the behavior of Austin strange. What was the reason

Look at that!

It looks like that guy Austin has seen us. But he does not panic. He isn't showing any fear and is not making any attempt to escape. Why is he coming towards us?" one of inner disciples asked, puzzled at Austin's behavior.

"I think I know the reason. He doesn't know that the five of us have been sent by Steward Su. Poor fellow! He doesn't know that we are here to fight and kill him. Maybe he is thinking that we accidentally happened to pass through this forest and stumbled upon him.

It is possible that he can recognize us as the inner disciples of the Sun Sect. Probably he knows that we have outstanding power and wants to play up to us.

He has killed Marvin and offended Steward Su. Maybe he wants to maintain a good relationship with the other stronger ones and wants to collect people whom he can rely on.

Ha ha! But imagine how he will react, when he comes to know that the five of us are not passing through this forest accidentally, but are here to complete the task assigned by Steward Su! How will he feel when he realizes that we are on this mission to capture him!

What expressions will be on his face? Will he regret that he did not run away as soon as he saw us?" Merlin said with a sarcastic smile.

"Ha ha ha! You are right, Merlin! I am really eager to see the expression on his face. There will be fear and regret only!"

At the helm of his strength, Austin was again able to hear their conversations clearly. His spiritual sense force was penetrating around and covered all the area.

'Aha! All the five of them are really foolish and ridiculous!' Austin had a smirk on his face.

Within a few moments, Austin and the five figures were standing face to face.

"Hi, everyone!"

Austin greeted the five fools enthusiastically. They had been blinded by their superiority and could not estimate the power which was running in Austin's body.

The Supreme God

Chapter 268 You'll Offer Me Exactly What I Need (Part Three)

Hmm! Austin Lin, do you think that the five of us are here by accident?

one of the inner disciples said coldly and arrogantly while his eyes were fixed at Austin.

"Ha ha! You must be kidding, right? This is a quiet and lonely place to be and only a few people come here. Why would I think the five of you are here accidentally? I am not so naive.

Actually I knew that you were coming for me. Johnson, Steward Su has sent you to find and capture me. Am I right?" Austin asked with a smile.

"What?" the inner disciples had not expected this answer and looked at each other, confused about how Austin knew their intentions.

"How do you know that the five of us have been sent by Steward Su and that we are here to catch you?"

"Why don't you attempt to run away?" another inner disciple asked, totally puzzled by the calmness on Austin's face.

The faces of the five inner disciples had expressions of shock and astonishment. They were unable to understand how Austin was so relaxed while he stood before them. He showed no fear and no regret!

"Run away? Why should I run away? After seeing the five of you here, I am overjoyed. How can I run away? " Austin retorted.

"What are you talking about? You know we are here to capture you, still you are happy to see us? Are you insane?"

moved so quickly. None of them could understand what had just happened. They were wide-eyed to see how Austin moved his body and did the unthinkable. Their eyes were now on Merlin. It

I will not forgive you.

Being slapped on his face, Merlin was extremely furious. He was mad with anger.

All his vital energy started to rush strongly inside his body. The vital energy force of the ninth level of Energy Gathering Realm flowed out. Merlin's clothes were flying across with the energy emanating from his body. They looked like flags fluttering in a strong wind though there was no wind at all.

"Demonic Bone-chilling Claw!"

As Merlin shouted these words, his right hand moved towards Austin like a punch. All the black vital energy present in Merlin appeared in his right hand. It changed and took the shape of a claw, full of demonic aura!

He came at Austin swiftly and angrily. His anger took control of his senses.

"Merlin, don't hit him too hard. A few injuries are enough. Do not kill him. We better catch this guy and take him to Steward Su. Let Steward Su torture this guy and make him pay for his mistakes," Isaac quickly reminded Merlin what they were supposed to do.

"It's too late! This guy must die! I cannot let him live after what he did to me!"

Merlin had become so enraged that he did not want to hear anyone's advice. He could not let this guy get out alive from there. It was not enough for Merlin to take him to Steward Su. Merlin had to kill him to avenge the insult. No one dared to slap him ever. Austin had to die for doing such a thing!

"Ha ha! Don't save your strength. Try your best," Austin said calmly with a smile. Merlin's anger had no impact on Austin. He had slapped Merlin deliberately and now he was waiting for Merlin to attack so that he could test his new physical power.

While he was calm inside, his body started to become hard. Sensing the toughness overwhelming his skin, Austin was confident of himself. He did not use his vital energy at all. He was going to take in the heat and power being projected at him by Merlin. Austin had decided to face it only with his physical body. He knew what he was doing and was eager to show them all that they were totally unaware of!

The Supreme God

Chapter 269 Test The Power Of The Human Body

Austin slapped Merlin, one of the inner disciples, on the face, successfully irritating the latter. Merlin practiced his Demonic Bone-chilling Claw, intending to kill Austin.

By doing this, Austin wanted to test the second stage of his Overlord Body-refining Formula which he had just succeeded in completing not long ago. Therefore, he didn't evade Merlin's attacks. He simply aroused the power inside his own flesh. His muscles heaved like hills and mountains in a great earthquake. They moved underneath his skin, as if countless frogs hid beneath.

Merlin's attacks landed on Austin's body as quickly as lightning. The great power in his attacks locked Austin in place. A dark and terrifying demonic cloud rolled forward.

"Hey, guys. Austin is enjoying some undeserved fame. Before Merlin's unique skills, he is locked and can't move. I bet this fight will end quite soon. Austin's reputation has been rising inside the Sun Sect in recent years, only to be killed by Merlin today."

"Look at him being desperate and helpless. He dares block Merlin's Demonic Bone-chilling Claw with his body. How silly of him!"

Discussions were taking place among the other four inner disciples.

Bang!

Austin didn't try to move aside or evade Merlin's attacks. His chest absorbed the full force of Merlin's Demonic Bone-chilling Claw.

With a deafening thud, Austin's chest was hit hard by lightning. His clothes were torn to shreds. A dark palm print appeared on the skin of his chest.

Austin felt an enormous force strike his body. He had to back up.

"Ouch!"

Austin felt a sharp pain somewhere inside his body. He was close to tears.

However, that was all that he felt. Besides the pain, he felt nothing. His body was harmed in no other way.

Merlin had already reached the ninth level of Energy Gathering Realm, and he wielded this Demonic Bone-chilling Claw with terrifying power. Nobody dared underestimate this formidable force.

Nonetheless, Austin chose to stand still. He took the risk and received each blow. Much to everyone's surprise, he wasn't harmed at all.

Austin lifted his hand and touched his chest. Except for the tattered clothes and the charred skin in the shape of a palm, he was fine.

"Haha!" ...

Austin laughed out loud. It seemed that a warrior mastered the stage two of Overlord Body-refining Formula could sustain the direct attack of a cultivator of the Energy Gathering Realm. Perhaps it could even withstand the attack of a cultivator at the ninth level of the Energy Gathering Realm.

... ..

"Unbelievable!"

What an incredible force that was!"

All the five inner disciples, including Merlin, had thought that Austin would have been killed by the Demonic Bone-chilling Claw. On the contrary, Austin simply backed up a little and then stood firm. No harm seemed to have come to him. After receiving every blow, Austin just laughed loudly, still safe and sound.

This turn of events surprised everybody. They were left staring at Austin, dumbfounded.

Merlin, out of everyone present, was most knowledgeable about the tremendous power of the Demonic Bone-chilling Claw. Even a cultivator of the preliminary stage of Earth Realm was once severely hurt by it.

atmosphere of pure evil, was felt by everybody present. The sky grew dark. Breathing became laborious. It seemed like a storm

A fair-skinned disciple attacked Austin first. He extended his hand, which was as hard as iron. Austin realized that an ominous cloud had moved closer to face even before the disciple stretched out his hand. The air and countless grains of sand mingled and began to move together, forming an indistinguishable figure.

Vital energy force was in each and every grain of sand. A single grain, filled with such force, was capable of hurting people, and even killing them.

For this reason, this kind of martial arts technique was called Palm of Sand.

Austin smiled at this. He used his Wind-commanding Skill and rushed forward as quickly as the wind. Only his shadow could be seen. Before the disciple even noticed, Austin was already standing before him.

In a heartbeat, the disciple's palm was already resting against Austin's chest.

The disciple had just gathered enough energy and was about to strike. But before he could do anything, he realized the position his palm was in. Because of his hand pressing against Austin's chest, he lost half of his momentum.

Aside from a slight pain in his chest, Austin felt nothing else. Moments later, the pain disappeared completely, as if nothing had happened.

Then, Austin raised his right arm with the force of 5,000 kilograms. His muscles looked like they were about to explode. Strength gathered in them. It was as if hundreds of beasts were racing and hunting for prey all within underneath his skin.

When Austin was ready, he stretched out his fist. Without warning and any flamboyant displays of power, he struck the disciple's chest with an unbelievable force.

Bang!

It felt as though the air between them exploded. The disciple's body was mangled by the blow.

His chest was crushed.

A deafening sound was heard by everyone and the disciple's breastbone was shattered into a thousand pieces. His organs vaporized and his body was sent flying through the air as though it was a doll. Blood gushed from his badly disfigured mouth. He landed on the ground a dozen meters away. He was dead even before he landed.

The other four disciples were absolutely horrified.

They inhaled sharply.

There was no denying the power and strength of Austin's body.

He not only successfully resisted the attacks of a level nine cultivator of Energy Gathering Realm; he also killed a level eight cultivator with one punch.

It would sound unimaginable to anybody who hadn't seen it with their own two eyes.

Even Earth Realm cultivators did not dare use their physical bodies to receive attacks from level nine or level eight cultivators of Energy Gathering Realm. It was incredibly rare to witness one from the preliminary stage of Earth Realm to defeat the latter, and in mere seconds, for that matter.

"Let's kill him together. If he lives, all of us will die," shouted an inner disciple, his voice full of desperation.

The other three disciples nodded their agreement.

Simultaneously, they attacked, each disciple performing the best and most damaging technique he knew, hoping to defeat Austin and find a way out.

Isaac used his Sea God Fist. When he stretched out his fist, ripples formed in the air. Seawater rushed and flowed everywhere, ready to rip apart any enemy standing in its way.

On the other side, Merlin exerted his Demonic Bone-chilling Claw to attack Austin again, recognizing the possibility that it might all be in vain.

Now that Austin had gotten a bit exhausted from fighting four enemies, Merlin thought that his Demonic Bone-chilling Claw might find an opportunity to strike a mortal blow.

Another inner disciple wielded a long sword. He threw Austin deadly glances. Suddenly, two sharp swords shot from his eyes and flew toward Austin. This disciple, it turned out, had learned a level two sword intent.

The last inner disciple held a broadsword in one hand. He wielded his weapon coolly, but he seemed like he had immense strength. Looking at him, one would think that he could cut a hill into two.

The Supreme God

Chapter 270 The Mastermind Is Here (Part One)

Trying to dodge the combined attack of several inner disciples, Austin decided to use an old trick up his sleeve. He suddenly moved towards Merlin. Although facing Merlin directly was very risky because Austin had to take a hit of the Demonic Bone-chilling Claw, despite that it was a risk he was willing to take. Then, with one powerful punch, Austin broke Merlin's chest, blood mixed with visceral debris splattered out.

Boom!

Then, the Violet Royal Sword struck and more than 30 sword-lights burst out like splashes in the water.

The sword-lights were created two kinds of attack and struck separately towards each disciple with a sword and another with a blade. Every sword-light attack contained so much vital energy force that it could severely damage its target with just one hit.

The disciple holding the sword had only grasped a very basic idea of the sword play. In the realm of kendo, he was already being overpowered by Austin. Austin only gazed at him for split second and immediately saw through the weakness of his sword play. His observation and comprehension skills were really amazing, like an eagle seeing through its prey.

It was obvious that Austin's sword-lights attacked the flaws in the sword play of the disciple.

And the disciple with the blade didn't fare much better either. His blade wielding might be more cunning but in the face of a dozen of

sword-lights from Austin, he lost his tempo and could hardly keep up with Austin's attack, let alone unleash his blade wielding power.

The disciple with the sword suddenly bellowed out a blood-curdling scream. His throat was slit open, blood gushed out from the wound. It spewed out like droplets from a fountain. His eyes with a horrified shock stared at Austin in a ghostly manner. His sword-play was completely destroyed by Austin's attack.

And the disciple with the blade was hit by five or six sword-lights, one of which gave him a fatal chest wound. And blood dripped from the wound.

The two disciples fell to the ground like logs falling down after being sliced from its base, and died instantly.

Boom!

Austin killed off the two more inner disciples with just one strike. Isaac consequently unleashed his special attack, the Sea God Fist, which hit Austin squarely on his back with a loud crack.

tauntingly, without a hint

"Oh, don't you worry about it. You're already dying anyway. To be honest, even if Johnson comes after me, he will only end up just like you! Dead and defeated."

And in an instant, Austin gathered his vital energy all over his body. The vital energy of premium stage of Earth Realm suddenly burst out like a volcano erupting. His lava-like vital energy squeezed out the air surrounding it.

It turned out Austin had been using Magical Aura-changing Skill to conceal his true vital energy. But right there and then, he had finally decided to unleash his true vital energy.

"What? Am I dreaming? Your cultivation base is at Earth Realm! And your vital energy is stronger than Steward Su!

Alright! I guess I will die without any regrets!"

With that, Isaac closed his eyes and fell to the ground.

It turned out that his internal organs had already been shattered by Austin's punching power when their fists collided together. He remained alive until now thanks to the last bit of vital energy he had left. It was as if the last remaining juice of a lemon was finally squeezed out of it.

Now he was dead.

"Shit, how can you keep talking when you are already dead."

Austin shook his head with amazement.

... ..

"Austin, Don't you dare hide from me anymore you little coward. This time, you can't run away. I will definitely kill you!"

After Austin had killed the five inner disciples, a powerful and loud voice suddenly boomed in the distance, shaking the mountains and forests, scaring the birds away. It was like bomb had suddenly dropped out of nowhere, disturbing the quiet expanse.

Some beasts were also running for their lives in the forests.

"Well, it seems like the mastermind behind all this has finally joined the show."
