Chapter 291 Elixir For Stage Three

After looking in all directions, Austin stepped into an elixir shop. It had been a while since he had worn a long robe. He skimmed through the shelves and the inner door, expecting the shopkeeper to come any minute.

But by then the preoccupied sales clerk who was busy cleaning an artifact had noticed that it was Austin.

Happy to see Austin after so long, he extended his arm in greeting.

In the last few months, Austin's recurrent visits and marked interest in expensive items had made him an important customer of the shop. One time, the sales clerk had sold what Austin just needed. In return, he was tipped a fat bonus, close to an amount that would have taken him at least five years to earn. Astounded, now he worshipped Austin and the ground he set his foot on.

Austin coming in today immensely lifted his spirits. He tried to make Austin as comfortable and welcomed as he could.

"Welcome. Warmly welcome. My distinguished guest, I've been expecting you. Please come in. My boss has been waiting for you at the back of the house.

Would you like to have something before we begin? I have prepared our best Green Dragon Tea for you. Would you like to have a cup before we go ahead?"

The salesclerk's hospitality made Austin feel extremely awkward. Shaking his head, he briskly tossed him a vital energy crystal worth one hundred.

The value of the tip had the sales clerk overjoyed. He jumped from one foot to another with an open mouth unable to express his gratitude to the benevolent spirit.

Having no patience for the clerk's words to come, Austin went straight to the back of the house. The shopkeeper had been waiting for Austin all this while and looking outside the window to while away his time.

"So, are the elixirs prepared?"

Austin spoke straight to the point. He didn't want to give him a chance to initiate any small talk.

"Yes. Assignment completed!

I will be honest here. Some elixirs listed on this sheet are beyond our capability. After all, we are just a small shop. But then I reported to the head shop of the imperial capital city and heard back from them saying that they will get all our elixirs.

The medicinal herbs should be reaching me in ten days."

The shopkeeper spoke pleasantly as he reported his happy progress.

Secretly, in his heart, Austin was exhilarated to hear this.

"Excellent! You did a wonderful job! You have helped me find my herbs and pills twice."

Austin reached out for his Space Ring and in a flash, he handed three million pieces of vital energy crystals to the shopkeeper.

Not to pause a second, Austin took out another three hundred thousand pieces of vital energy crystals as payment.

"You're really a generous man! I feel so honored to have a guest like you!

Without wasting any more time, I will inform all the chain shops in the country about your VIP status. You will enjoy a ten percent discount from the next time."

As he finished, he took out a jade piece as big as half of his palm. He then covered it with his hand for a couple of minutes. It looked like he was transferring some sort of information.

Then he handed it to Austin.

"Sir, this is the VIP pass of the Sky Dragon Elixir Shop."

Austin took the jade piece, satisfied. He was pleased by the discount too.

Whenever he would spend big, the pass would help him save a lot of vital energy crystals.

For example, if he purchased medicinal herbs worth five million vital energy crystals, with this discount, he would just pay four point five million. Saving five hundred thousand vital energy crystals was a great deal!

After thanking the shopkeeper, Austin left the shop.

On his way back, as he exited the Pill Trading Street, he went straight for the suburbs in Peace Town. Austin was looking for a secluded place to cultivate the third stage of the Overlord Body-refining Formula.

He was also being cautious. After getting followed the last time, Austin let out a spiritual sense to envelop him in a range of 900 meters.

And he intentionally slowed down to keep on checking whether he had a tail. After his suspicions were allayed, he activated his Wind-commanding Skill. Another step, and he entered the shadows. Incognito, he flew towards a nearby mountain range at full speed.

As a cultivator about to cultivate, the last thing he wanted was to be disturbed.

So Austin only stopped when he found a quiet area to start immersing in the herb water to cultivate Overlord Body-refining Formula.

Yeehaw... Yee... haw...

The sound ripped the air.

Simultaneously, several red flood dragon horses galloped as fierce as tigers at the foot of the Sun Mountain.

Dressed in black robe, the group leader looked old and skinny. A pair of sinister eyes in a face as if it were carved of stone, gave him a dangerous look.

He was none other than the Blood Wolf Team's Leader. Behind him, over a dozen of evil cultivators followed looking every bit as mean and ruthless as their leader.

The old man lifted his eyes to look at the imposingly steep Sun Mountain.

"Austin is only a disciple of a small sect. He doesn't deserve me to come personally.

But I am left with no choice. Few people know that among the thirteen Wolf Generals, the one ranked eighth was my nephew. He was the son of my beloved sister who at the time of her death, had entrusted me with his care. I spent all my life cultivating him into a Wolf General,

which was an achievement I was proud of. But now, unexpectedly, he got killed by some obscure disciple of an unknown sect! If I won't do this and kill him myself, I won't be able to let my sister rest in peace.

The Supreme God

Chapter 292 The Head Of the Blood Wolf Team Visits

Far into the distance, the disciples of the Sun Sect saw some movement. A few minutes later, and after much squinting, one could see a group of heavily built men coming towards them, looking unfriendly and intimidating. The disciples who guarded the mountain hurriedly approached the group with a sense of foreboding.

"Stop. This is the boundary of the Sun Sect. Please introduce yourself."
"

The disciples of the Sun Sect dared to call out to the group in a commanding voice.

Being on his own turf and charged with the responsibility of protecting the Sun Sect's realm, the disciple bellowed to show not the slightest fear.

"haw-haw... I am pleased to inform you that the head of the Blood Wolf Team is coming.

And then an enormous resounding laugh was let out by the head of the Blood Wolf Team. Its harsh sound was like metal clattering loudly against each other.

The disciple of Sun Sect was shocked when he heard the name Blood Wolf Team.

In the Violet Orchid Empire, the Blood Wolf Team was considered an evil force, an almost equal in force to the Five Factions. This was a fact known to every single warrior in the Empire.

And now the legendary leader of the Blood Wolf Team had suddenly come to Sun Sect for mysterious reasons.

The disciple dared not neglect them and so he flew to inform his superiors immediately.

In a matter of minutes, Theon, the leader of the Sun Sect, with the six Elders and several stewards, came to meet the Blood Wolf Team.

'ha-ha, your excellency, head of the Blood Wolf, Abbot Nangong, we are pleased to welcome you.

Each and every Sun Sect disciple is deeply honored by your sudden visit. What have you come here for?

Theon's was very polite in his behavior for he too knew the strength of the Blood Wolf Team was not much lower than the Sun Sect's.

The history of the Sun Sect was far more established and much older but the Blood Wolf Team too contained many masters. A large number of masters were in the Earth Realm and many too were in the Mysterious Realm. Abbott, among all, was a master in the Mysterious Realm.

In the territory of the Violet Orchid Empire, if one force has masters were in the Mysterious Realm, other warriors will not easily choose to provoke them.

Because in the territory of the Violet Orchid Empire, the masters of the Mysterious Realm are already the most powerful warriors.

The quantity and quality of the masters in the Mysterious Realm represent the strength and connotation of a force.

"That is very kind of you, Theon Xiang. I have come to your sect this time, mainly for one of your disciples named Austin.

Six of our thirteen Wolf Generals died at his hands.

Theon Xiang, forgive me for being rude this time and ask for justice from your sect."

And finally, Steward Su was found... dead. The last place where he was seen by witnesses was Peace Town.

'What, Steward Su is dead?

Theon and the six Elders were stunned, and then regretted the loss. Johnson had been a steward of the Sun Sect for more than ten years, which in a way made him a senior steward in a way. He was very likely to become an Elder of the Sun Sect in some years.

And now he had an unexpected death.

"Well, did you find out how he died?"

"Your Majesty, from what I can gather at the initial stages of my investigation, is that Steward Su's death may have a great deal to do with our disciple, Austin.

The reason why Steward Su went to the Peace Town was to help his nephew our outer disciple, Marvin.

Steward Su disappeared after he arrived in the Peace Town, and then, it was found out that his nephew, Marvin, too disappeared."

Austin!

It's him again!

Theon and the six Elders exchanged glances as soon as they understood what was going on. How much trouble did Austin heap on their heads?!

"Johnson is a steward of the sect. Of course, disputes arise in the sect. But Johnson should have resolved it peacefully to maintain harmony among the sect. How could he help his nephew instead?"

said Theon.

"Sect Leader, Steward Su's action may be due to his love for his nephew, but even so, Austin should not have been disrespectful and offend his superior. He dared to kill the Elders of his sect, which is a capital crime!

This Austin is proving himself to be evil and causing trouble everywhere. Through his eccentric deeds, he has been tarnishing the image of the Sun Sect everywhere!

Sect Leader, I think we should arrest Austin, announce his crimes and punish him by death!"

said Jaime, in an eager tone pouncing at the chance to depose him.

"Elder Luo, Austin is a disciple of our sect. Anyway, there is no real evidence. We can't just punish him on mere hearsay.

Let's call Austin back first and start an inquiry before coming to a conclusion.

Yes, I don't think that Austin comes off as an evil person. No one can be wrongly punished without any real evidence.

Even the Flaming Sun Valley and the Blood Wolf Team can't slander my disciples at will."

A red-faced Elder said slapping his hand on the table with a loud thud.

"Let's send disciples to call back Austin first. Then we can initiate a thorough investigation before convene on this again.

Of course, if Austin is really a man of great evil, we, the Sun Sect cannot tolerate existence of such black sheep in our family. Lest we get laughed at by others."

The Supreme God

Chapter 293 Accomplishing Stage Three Of Overlord Body-refining Formula (Part One)

At a hidden valley over twenty miles away from the Peace Town, A large metal barrel was lying on the ground. Fire burnt vehemently beneath it as the liquid within the barrel bubbled and boiled away. The strong herbal scent spread far away and attracted bees and butterflies. They flew in swarms to the valley and danced around the barrel.

Beside the barrel stood a handsome young man who was gazing intently at the boiling liquid medicine inside.

"Okay, it's the right time to start."

The man who stood beside the metal barrel was none other than Austin.

"Violet, you have to keep guard. Make sure no one walks in to interrupt me," Austin told Violet through his mind power. It was extremely important for him to remain undisturbed.

Austin had learned a lesson from his last experience. To prevent the same thing from happening again, Austin summoned Violet and told her to be vigilant.

Fortunately, the last time when the inner disciples found him, he had already successfully completed the cultivation of the stage two of the

Overlord Body-refining Formula. But if they had arrived in the middle of his cultivation, he would have been in great trouble.

Violet jumped out from the Illusion Bead after Austin's order. She walked some distance away from the metal barrel to guard against any intruders.

Seeing that everything was in place and he was protected well, Austin immediately took all his clothes off and jumped into the metal barrel. Then he got into the posture required for cultivating the third stage of the Overlord Body-refining Formula.

As soon as he immersed himself in the liquid medicine, he felt comfortable and relaxed. It was as if a spring breeze stroked his face while he was bathing in sunshine. He closed his eyes and imagined the cool breeze softened his skin while the warm sun rays made him feel joyous inside. He felt indescribable comfort and was overwhelmed with the great bliss he was experiencing.

Hearing the horrible cries, Violet who was keeping guard a few feet away, turned to the metal barrel—the source of such hideous noises. She gazed intently at the big metal barrel and the smoke constantly exiting the barrel. She didn't know the cultivation method had such consequences. She couldn't bear hearing them and was extremely worried about her master.

"What kind of cultivation method is the master practicing? It sounds awful," Violet thought worriedly.

The anguished screams sent shivers down her spine.

'No, I can't bear it. If this continues, I'm afraid I will die,' Austin thought as the pain seared through his body.

His felt as if thousands of knives were slicing him bit by bit. Every part of him became acutely sensitive. And his soul had never been so sober and clear. He felt everything intensely.

'I can't do anything with the pain anyway. But now that my body is highly sensitive and my mind soberer than ever, maybe I can distract myself and take this opportunity to cultivate the sword intent,' Austin thought. He was trying to find a little bit of rationality inside his brain while he consciously fought against the agony.

Austin suddenly remembered the experience he had the last time when he cultivated the stage two of the Overlord Body-refining Formula. It was as similar as this one, albeit drastically milder in terms of suffering.

At the thought, he immediately summoned his sword intent. In no time, three rays of sword radiance popped out from his soul. Streams of sword aura and sword intent carried by the sword-lights came to help the soul to maintain sobriety and protect it from being disturbed or harmed. They could prevent the soul from suffering a breakdown that the great pain in the corporal body might cause. The three rays of sword radiance continuously hacked at the various distracting thoughts that attacked his soul, and also cleared the pain that traumatized it.

While the three rays of sword radiance fought, they were also empowered in this process.

As Austin had expected, in a state when his corporal body was extremely anguished and sensitive and his soul was extremely clear, the cultivation of the sword intent went ahead with great effect than ever. It was at least dozens of times more effective than the cultivation in a normal state.

As the three rays of sword radiance were being empowered through the process, Austin got a more thorough understanding of swordsmanship. A lot of enigmas and riddles that he had encountered before were immediately solved. He could see through the nebulous shape that these puzzles previously had.

The Supreme God

Chapter 294 Accomplishing Stage Three Of Overlord Body-refining Formula (Part Two)

Gradually, Austin began to immerse himself in the exploration of the art of swordsmanship. The more he delved into it, the less pain he felt.

At last, he was so immersed in the contemplation of the swordsmanship that he reached a state of selflessness and nothingness. There was nothing else in his world but the swordsmanship. He even forgot his own self. It was a world free of worries, joy or sadness. In this world of swordsmanship, the rules of the swordsmanship dominated all. The sword auras and sword intents spread everywhere and the swordsmanship was the heavenly law.

Pop!

A crisp sound rang out in his soul, as if a new life had come into existence when an egg hatched.

The next moment, Austin found that another ray of sword radiance had appeared in his soul. Altogether four rays of sword radiance shone in his soul now.

Level four sword intent!

Austin felt that his soul was like a sharp sword which was about to come out of its sheath and charge forward.

With full sword intent surging inside, Austin suddenly let out a howl. From his body, a stream of sword aura hurtled out and soared into the sky with great momentum.

As the sword aura whooshed forward, the liquid medicine was agitated and it surged and splashed around like a fountain.

"Damn it! I'm still in the middle of cultivating the Overlord Body-refining Formula. The liquid medicine has cost me three million vital energy crystals. I can't gather it up if it spills all over. This is a great loss!"

The surge of the liquid brought Austin back to his senses as he awoke from the nothingness of the swordsmanship. He suddenly realized that he was still soaked in liquid medicine inside the metal barrel.

Austin was anxious to save the liquid medicine, but at the same time, he suddenly realized something strange.

'Wait! The liquid medicine seems to have lost its power. And I feel my body has become different. It seems that I have successfully accomplished stage three of the Overlord Body-refining Formula!' Austin thought excitedly.

At this time, Austin realized that he had been too immersed in the study of swordsmanship that he had failed to notice that he had already reached the third stage of the Overlord Body-refining Formula. He didn't even know when it happened.

Splash!

Austin jumped out of the metal barrel as the liquid splashed all the ground, completely naked.

"Turn around immediately. Don't ask. Just do as I say. And don't look at me."

"Why? What happened?"

"Oh, my god! Why do you keep asking? Don't you see that I'm naked?"

Austin said furiously. He was blushing. Violet was now in the human shape, a beautiful lady as she was. While Austin was a young man, a virgin actually. He had every reason to feel uncomfortable when he was naked in front of such a beautiful and charming lady.

"Haha, don't mind, master. I'm your slave, and you can do anything to me. I would not say no even if you want my body now..."

Violet grinned and joked after she saw Austin's embarrassed face.

"Violet!" Austin hissed, as his face reddened.

"Fine, I'll turn around. Is that okay?"

Violet felt upset that her master was angry at her. She pouted and turned around.

Austin hurriedly reached for his clothes and put them on.

Much to his relief, he had succeeded in achieving the stage three of the Overlord Body-refining Formula. And now it was time to go back to Sun Sect.

He was a principal disciple of the Sun Sect now. Besides cultivation, the principal disciples of the Sun Sect also had to finish the tasks assigned by the sect.

Sometimes, the sect would provide principal disciples with various opportunities to improve themselves through trials outside the sect.

The best way for the warriors to grow in their strength was to practice through real fights. Austin intended to do the same.

He felt uneasy. He had left soon after he had become the principal disciple. This was a long time ago. If the sect had had some task for him during this time, it would have been inappropriate for him to be absent for so long.

With this in mind, Austin immediately set out to rush back to Sun Sect at full speed.

The Supreme God

Chapter 295 Austin Came Back (Part One)

The day was sunny but the sky was still a bright shade of blue. A lone figure could be seen moving swiftly among the mountains and hills.

The mountains that surrounded this area stretched in all directions and looked fantastic even from a distance. Among those peaks, a huge one stood higher than all the others and touched the clouds. This impressive place was the host to Sun Sect and therefore, this particular mountain was called as the Sun Mountain.

Austin had spent most of his life in the Sun Mountain and he was recalling his childhood days right now.

Obviously, he regarded this place as his home and was very anxious to return.

When his eyes fell upon the mountain which had been his home, his pace quickened in anticipation.

Very soon, he reached the mountain.

Since he had not seen Evan and Herbert for a long time now, Austin decided to go to their place first and to see how things were at their homes.

Also, he had not been in contact with the disciples of his own team for a long time as well. He needed to check up on them too.

Although he had set up his own team on a mere whim, his disciples were still loyal to him and he thought he should be nice to them.

It didn't take him long to get to the house where Evan and Herbert were residing. Austin had gotten it from Marvin after he had defeated him publicly.

Since he had become a principal disciple now and moved to a cave, he had asked Evan and Herbert to move into this house.

However, as soon as Austin stepped near the yard gate of the house, he sensed that something was wrong.

There were too many strangers in the yard right now.

Judging by their clothes, some of them were disciples of Sun Sect but others seemed to be from somewhere else.

"You two bastards! You're no better than pigs and dogs. Come on, tell us quickly! Where is that coward, Austin, huh? Where has he hidden himself? He's like a tortoise you know! Only we can't find the shell!" Austin heard a voice.

He was about to be slapped again when suddenly, a hand approached the Sun Sect disciple from his back and held his wrist tightly. It was like a demon had gotten hold of him.

No matter how hard he tried to struggle, even if he used all of the strength at his disposal, he could not budge his wrist.

At the same time, he saw a handsome face appear in front of him and gaze at him calmly.

"Austin!" the disciple recognized him immediately.

A few days earlier, Austin had attended the Top Ten Outer Disciples Ranking Challenge. He had been qualified to be promoted to the rank of a principal disciple, and almost everyone in Sun Sect knew his face now.

So that disciple who tried to slap Austin recognized Austin as soon as he saw Austin's face.

"It's Austin! Austin's come back!"

There was immediate hubbub in the yard

like water kept in a pot had finally started to boil. Some of the disciples, scared witless of Austin, slid away quietly.

Everyone stared at Austin. A moment ago, they had all been focused on Evan and Herbert and none of them had noticed when Austin had slipped inside.

"Tin, you came back!"

Evan and Herbert shouted delightedly.

"Is that Austin? Kill him! Now!"

The disciples started to shout.

Austin's gaze swept at those people like sword radiance. As soon as his eyes would reach someone else's, the latter would lower his gaze and would not dare to look him in the eye.

Everyone had the feeling that Austin's strength was higher than they could imagine right now.

Austin now gave off an aura of power naturally since he had reached the premium stage of the Earth Realm and his body had successfully practiced the third stage of the Overlord Body-refining Formula. Added to that was his mastership of the fourth level sword intent and the fact that his spiritual sense had greatly improved.

The Supreme God

Chapter 296 Austin Came Back (Part Two)

The aura he gave came naturally to a cultivator of his power and he didn't have to make an effort for this.

Slowly, the voices in the yard began to lower down as they felt oppressed in his presence.

"You were slapping them really hard just now. Tell me the truth. Is Jaime Luo the one who put you up to it? Is he the perpetrator?"

Austin asked as he stated at the disciple who had slapped Evan and Herbert.

The disciple could not help quivering in fear as if he was at the receiving end of a wild beast's gaze.

"Austin, how dare you speak the name of Elder Luo! And yeah! He ordered us that we must capture you on sight without giving you a chance. You'd better let us tie you up without a fight. Are you really gutsy enough to offend the Elder of our Sun Sect?"

As he was speaking, courage seemed to return to the disciple when he mentioned Jaime. That was a name he could lean on.

'Okay. It is true that Jaime is doing something, '

Austin thought.

"Ha ha! Are you scared?" The disciple laughed, "If you really are smart enough, you will tie yourself up and follow us to see Elder Luo. You're going to have to kneel down in front of him to beg for his forgiveness. Maybe he will not kill you if you are lucky enough and he is in a good mood," he mocked, since he could see that Austin had become quiet when he had mentioned Elder Luo.

The disciple felt he had found a way to defeat Austin and started to speak loudly.

"Oh? It that true? I am not sure whether I can obtain the forgiveness of Elder Luo. But I am sure about one other thing. You, will not get my forgiveness!"

Austin said as he stared at the disciple with a dangerous gaze.

Finishing his sentence, he started to exert a small part of his strength.

The next moment, several other inner disciples also rushed in front of
Austin. Except for the weapons like blades, swords and spears which

he decided to dodge, Austin ignored all other attacks that were coming at him through fists or feet. In fact, all he did was simply throw away the disciple who tried to come up and arrest him. He achieved that without getting a single scratch.

Although Austin did not want to kill anyone, these inner disciples had all been sent by Elder Luo, which meant he was hatching a plot to take him. So Austin broke all the disciples' arms when he threw them away.

The force that Austin could exert with just a single arm was about 8000 pounds, which allowed him to throw these inner disciples as easily as flying a paper plane. His reactions were quick and he finished with all of them very soon.

Very soon, more than ten of those inner disciples were lying on the ground and crying in pain. They couldn't even stand up now.

Finally, only two groups of people could be seen standing in the yard.

The inner disciple, who was being slapped by Evan and Herbert, was also thrown away by Austin very easily.

Then he heard the sound of clapping from someone
in the yard.

A young man walked over to Austin. He was about twenty years old and his eyes gave off a dangerous gaze.

"Good. You're really good! Among so many powerful disciples of the Sun Sect, it is really rare to see someone of your strength.

No wonder you were able to kill the grandson of the Senior Elder of the Flaming Sun Valley. Now we can see what you are relying on is your physical strength.

It really is a great pity that you have to die since you have offended our Valley!

Hmph! Time to die!" the young man said and started his attack.

'The Flaming Sun Valley?

They are from the Flaming Sun Valley. It seems that they have finally come to know the fact that I killed Raymond, ' Austin told himself.

Now he felt a bit troubled.

The Supreme God

The young man from the Flaming Sun Valley snapped at Austin. His eyes were fixed on his target, while his hands were quietly pulling out a long sword from its sheath. The sword blazed with a criss-cross of fierce sword aura. It was like the summer sunset when the sun seemed to breathe out hot air or like the sun overhead at noon exuding unbearable heat that could burn down all things. Brandishing it in the air, he swung his sword straight at Austin.

As soon as he made his move, the flowers and trees in the yard started to blacken and wilt by the heat his sword released. Even before the long sword touched Austin, its sword aura, sword intent and sword-light had become omnipresent. It tightly enveloped Austin.

Feeling the radiating power of the vital energy force accompanying the move, Austin realized that the young man's cultivation base of vital energy was at the preliminary stage of Earth Realm.

He was able to judge from the sword intent attached to the move that his opponent had already achieved a level two sword intent.

Moreover, according to his brilliant move with the sword, Austin comprehended that the young man's sword skill had to be of a high-grade. He was quite a strong rival.

He belonged to the Flaming Sun Valley which was second only to the Peripatetic Sect among the five major sects of the Violet Orchid Empire. The comprehensive strength of the disciples of this sect was really extraordinary.

While the young man was attacking Austin with his sword from the front, another youth in red, who had been standing behind Austin for a long time and hadn't said any word, jerked his hand at Austin. His palm was peculiar, looking bright red like a huge drop of blood. It was glowing and spread red hue all over the place. In the blood-red light, there were countless wronged souls desperately wailing and crying for help.

"Tin, watch your back!"

Evan and Herbert cried out in unison.

What they didn't know was that the moment the youth in red started his action, Austin saw clearly every move made by the youth through his spiritual sense.

The cultivation base of vital energy of the youth in red was also at the preliminary stage of Earth Realm, but it did not seem to be very stable. 'He might have just broken through to this realm. However, his palm technique is great, ' Austin thought in amazement. The moment the youth had reached out and placed his hand in the upright position, the blood-red light had flooded Austin and quickly covered a space.

On the other hand, the youth in red was horrified to see Austin behave as if nothing had happened in spite of his attack from behind. He could not believe what he saw.

'Is this man's body made of iron?' he thought in shock.

'My Bloody Palm has killed many cultivators of the Earth Realm. How did this guy take in the attack so easily? It looks like nothing happened after he was hit!'

It was one of his best moves, and he had thought he could bring death to Austin with that single move. When his first blow had no effect on Austin, he ended up losing half his momentum instantly.

Austin cast an icy cold glance at his attacker. Then, with a move of his will, a Spiritual Sense Flying Needle was unleashed.

Austin's spiritual sense could be released across a distance of 900 meters, which was more than twice as strong as it had been earlier.

Clearly, with the enhancement of his spiritual sense, his Spiritual Sense Flying Needle had been greatly strengthened, becoming much stronger than ever before.

The youth in red suddenly felt an unbearable and shooting pain in his head.

"Ah!"

Overwhelmed by the terrible pang that hit him, he put his hands on his head and stumbled.

Austin certainly wasn't going to let him go. He made a move and swung his fist which was loaded with 8, 000 pounds of great force. The fist landed on the chest of the youth like a cannonball.

The Supreme God

Chapter 298 A Lone Wolf Walks Into The Flock Of Sheep (Part Two)

In a flash, the youth in red was blown sky-high and over the wall into the distance.

When the dust settled down, he was nowhere to be seen, and quite understandably dead.

"David Hou! He cut off David Hou's arm," shouted one of the disciples from the Flaming Sun Valley. "Disciples of the Flaming Sun Valley, come on, we have to avenge David Hou!"

"How dare you kill a member of the Blood Wolf Team! Everybody, go get him and let's tear him apart!"

With these words and shouts, the people in the yard started to rush forward and surround Austin, intending to attack him together.

"Tin, I'll help you," Evan cried.

"Tin, I'm ready to risk everything today!" Herbert exclaimed.

Seeing Austin under siege, they ran in and stood by Austin's side. They had made up their mind to fight with him, instead of backing down and leaving him alone to face the crazy mob.

"If both of you don't want to drag me down, get out of here. Go as far and as fast as you can!" Austin yelled.

Giving them these instructions, he moved as fast as lightning. He grabbed Evan and Herbert and threw them out through the front gate.

At present, Evan and Herbert were between level six and seven of Energy Gathering Realm.

While Austin was at the premium stage of Earth Realm. The Wind-commanding Skill gave him an unpredictable bodily movement skill. He did not want them to risk their lives for him. They would slow him down in the fight which he was sure he could win alone.

As Evan and Herbert had witnessed all the events taking place in the yard from outside, their mouths opened wide—so wide that one could stuff them with several eggs!

"It's... It's too bloody, Tin!" one of them murmured.

"Didn't you see all those people shouting and raging ahead to kill Tin? They deserved it," the other responded.

Austin stood still and said nothing.

He was lost in thoughts as he looked at the corpses lying on the ground and the blood turning the land red as it flowed everywhere around his feet.

'After I killed Raymond, these people of the Flaming Sun Valley showed up in the Sun Sect to seek revenge. This means the sect's leadership must be aware about it.

Otherwise, these people would never have been allowed to cause trouble on the turf of the Sun Sect.

Surprisingly, the people of the Blood Wolf Team also appeared in the Sun Sect and came for me. Did they also have the permission of the sect's leadership?

That means, the sect's leadership has allowed the people from the Flaming Sun Valley and the Blood Wolf Team to enter the Sun Sect and find Evan and Herbert. It is under the guidance of the Sun Sect's disciples that they came in and wanted to pressurize Evan and Herbert to tell them about my whereabouts.

Does the Sun Sect's leadership also think that I'm guilty?

Those inner disciples of the Sun Sect claimed that they were sent by Jaime. Could this be Jaime's plot?'

Austin probed his brain for a proper answer but couldn't figure it out. He was baffled by the turn of events.

'The fact that the people from the Flaming Sun Valley and the Blood Wolf Team came to the Sun Sect means that the present situation is very unfavorable for me. If the sect's leadership believed and sided with those two sects, and if they think that it was all my fault and want to punish me, I would be too weak to face it all. I would be left without any support.'

Austin's fear was not an impossibility. After all, if Jaime, an Elder of the sect, wanted to place obstacles in his way and kill him, he could easily influence the leadership of the Sun Sect. Then they would probably agree and decide that Austin deserved to be punished.

The Supreme God

Chapter 299 How Audacious You Are (Part One)

Inside the conference hall of the Sun Sect, Sect Leader Theon, the six elders, the Chief Elder of the Flaming Sun Valley, and the leader of the Blood Wolf Team, were all present.

"Sect Leader Xiang, it has already been two days. Why haven't you found Austin yet?"

Are you protecting him by keeping his whereabouts from us?

Huh! You have to remember that he killed my grandson Raymond! You can never save him no matter how badly you want to.

Don't play any tricks!"

Dwayne, the Chief Elder of the Flaming Sun Valley, had always been very short-tempered. Now that Austin killed his beloved grandson, he was much more enraged and wanted so badly to get his revenge. Unfortunately, to his utmost dismay, he didn't know where Austin was.

The people of high positions in the Sun Sect all frowned at Dwayne's remarks. They were not happy with his words at all.

Dwayne had just disrespected the Sun Sect by implying that they were intentionally hiding his grandson's killer. To make it worse, he had been nothing but rude towards the Sect Leader and the elders for the past two days. He kept shouting and complaining, making it seem like they were his subordinates. His actions had definitely made Sect Leader Theon and the other elders feel uncomfortable and unhappy.

However, they knew that they couldn't do anything about it. Dwayne was the one who really had a say in the Flaming Sun Valley. What was more, his cultivation base was also very strong, so Sect Leader Theon and the elders didn't dare to fight against him. They could only pretend as if they had not heard a thing he said and let everything slide.

"Sect Leader Xiang, now that you are not willing to deal with this matter, why don't you leave it to us, the Blood Wolf Team? I'll just take it as a personal matter between the Blood Wolf Team and Austin.

It's so easy for us to find and kill someone in the Violet Orchid Empire. In fact, we have never missed, not even once.

I just hope that you wouldn't hold a grudge against us when we kill Austin," Abbott, the leader of the Blood Wolf Team, interrupted them in a sly voice.

"You must have suffered a lot because of me the past two days."

"That's all right, Tin. We were just worried about you. What the hell happened? Why were they accusing you of such crime?"

Evan and Herbert asked at the same time.

Austin could see the genuine honesty reflected in their eyes. He knew for a fact that they really cared about him, and this warmed his heart. Although Evan and Herbert were not great martial artists and were not much of a help to him, Austin was still very touched by their words.

In the martial arts world, where strength, money, and power were everything, finding loyal friends and comrades was challenging. Austin couldn't help but feel lucky that he met them.

He was especially grateful for Herbert. Though he usually cared a lot about money, whenever something big happened, he would always stick to his brothers and help them. He knew how to put the people he cared about first.

"Well, it seems that I cannot get away with it easily this time."

Thinking silently for a few moments, Austin made up his mind.

He took out his Space Ring from his pocket.

Then from the Space Ring, he took out two other more. Recently, Austin had gained a lot of great quality Space Rings. He had always wanted to give Evan and Herbert a Space Ring each, but he just hadn't found the right time until now.

He reached out and gave Evan and Herbert one Space Ring each.

They were just two ordinary martial artists in the Sun Sect and were neither powerful nor talented. They might even be below an average martial artist. Also, since they were not very skilled, they never had the chance to use a Space Ring. Owning one and even holding it on their arms made them very excited. They kept staring at the rings and were very eager to figure out how to use them.

Seeing how excited Evan and Herbert were, Austin taught them how to use the Space Ring. After several minutes of training, they finally learned how to use it.

The Supreme God

Chapter 300 How Audacious You Are (Part Two)

Then, Austin took a million vital energy crystals from his Space Ring and divided them into two. He wanted Evan and Herbert to have five hundred thousand vital energy crystals each.

Evan and Herbert were too stunned to utter a word. They just stared at the shining vital energy crystals before their eyes, not blinking and in total awe. Their hearts were beating so fast as if it was about to pump out of their chests.

"Tin, you really made a fortune?"

Evan and Herbert both asked at the same time, gulping with their eyes widened.

"It's not that much, all right? Calm down, will you? I didn't make a fortune." Austin shook his head helplessly at them.

"Tin, I have never seen so many vital energy crystals in my life. They are just perfect."

Evan almost drooled after seeing so many vital energy crystals all at once, even more being blessed with half a million of them.

"Yeah, and they look so beautiful. It seems that I will be sleeping on the vital energy crystals for quite a long time."

Herbert's mouth also watered at the thought of the crystals.

Austin couldn't help but frown upon hearing their words.

"Don't be so dramatic. If you don't put the vital energy crystals in your Space Rings right now, I will take them back."

As soon as he heard Austin, Herbert immediately used the method the former had taught him. In his flickering will, he put the five hundred thousand vital energy crystals in his Space Ring.

"Tin, I know you, you wouldn't take them back, right?"

Herbert pretended to be confident about it, but his action showed the opposite.

people were moving fast towards the yard right now.

Then, within a blink of an eye, they all appeared in the yard. They
immediately saw the lifeless bodies on the ground and the young man
calmly sitting by a stone table.

Austin didn't even bat an eye when he saw them barged in his yard.
Instead, he slowly stood up as if he already knew that they were
coming and was prepared for it.

"Austin!" someone shouted.

All eyes were on the young man standing by the stone table. He was strangely calm, albeit the intense situation he was in.

Austin had been the talk of the town of the past two days--people had been mentioning his name and were talking about him. Now, they had finally found him and were face to face with him.

Although they were ecstatic to find Austin, they were also secretly surprised, especially Dwayne and Abbott. The young man was not as strong or menacing as they had imagined him to be, and he didn't seem to be outstanding at all. In fact, he looked just like a regular young martial artist whom one could find in every sect.

However, unlike them, Austin held his own and was extremely calm in front of so many skilled and powerful martial artists. This made everyone feel strange and even think that perhaps he could be special after all.

"You are Austin? You are the one who killed my grandson Raymond? And you are also the one who killed the people of the Flaming Sun Valley? How audacious you are, young man!"

Seeing the person who killed his grandson standing in front of his eyes, Dwayne felt like he was bursting in total rage. His outcry echoed in the entire yard.

"Huh, of course, he's so damn audacious!"

Abbott also stared at Austin with intense eyes full of hatred. His gaze was like a knife, hoping to pierce a hole in Austin's body. A sly smirk appeared on his face, making him look even more dangerous.

"Austin, how dare you ignore your elders! Why are you still standing? Kneel!"

Jaime commanded in a loud voice.

"Austin, the bodies on the ground, you killed them all? What the hell happened?"

Theon, the Sect Leader of the Sun Sect, asked. He was speechless at the sight of horror in Austin's yard.
